Lightning Flicks At Ord Buildings, Harvest Starts

Three-Year-Old Flattened; Hailed Corn Improves, 13 Bushels from Dryland

Whimscial weather plagued the Ord area during the week with everything from rain, hail, wind, lightning and finally tapered off with mild summery day beginning Sunday. No serious damage resulted from the variety of storms.

Three-year-old Leslie Hughes got the biggest charge out of Saturday's thunder shower. A flicker of lightning caught him by the seat of the pants and knocked him down. He was uninjured.

His mother, Mrs. Bob Hughes and sons, Lannie and Leslie were watching the storm from a window in their home in northeast Ord. The lightning hit nearby and apparently jumped to a radio aerial. Entering the house, the bolt splintered the base board of the room.

Slivers of the scattering wood were imbedded in Mrs. Hughes' leg. A slight electrical charge was also felt by her and the children.

It was the second time the weather man had entered the Hughes' home in recent days. He rode in through a hail slashed screen and window during the "big hail" on Wednesday two weeks ago. Extensive damage occurred to plaster, furniture and roof amounting to about $2,000.

Scatters Glass Tube.

Ralph Norman and Ernest Horner escaped serious injury when lightning hit the neon sign at the Ord grill. The two men standing under the sign in the Grill doorway. Heat from the bolt fused metal supports of the neon tubing and sent glass scattering to the sidewalk.

Norman said a blinding light flashed as the lightning struck. He and Horner beat a hasty retreat inside, he said.

At the Gamble store nearby, the lightning was believed to have ridden in a disconnected wiring in the ceiling. The charge, described by witnesses as a "ball of fire," apparently jumped to a fluorescent light, which was turned off at the time and then disappeared.

Jerry Gillham, printer at the Quiz, also received a minor jolt when a lightning charge came in on a metal drill which he was operating.

While lightning strikes stabbed at Ord and vicinity, the rains also came. Showers fell almost daily during the week. Spotty, light hail was reported. As the moisture total amounted, farmers changed their prayers to a plea for a little dry spell.

Slow Harvest.

Meantime, harvesting got off to a slow start in Valley county. Vic Benben of the Davis creek neighborhood started cutting wheat Saturday noon. Rains chased the harvesters out of the field a few hours later.

First delivery of wheat to the elevator showed a 13 bushel yield for a dryland crop, which received some hail. Combining is not generally underway, but quite a few binders are busy.

But prospects were far from gloomy. Weather Observer Horace Travis stopped a minute from his bank duties to recall the drought of the 30's. Said he: "Our rainfall for the first six months of 1934 was 3.20 inches. We've had nearly three times that amount this year."

West of Ord, wheat cutting was scheduled for Thursday and Friday—if the rains decide to hold off. Most fields were reported ready for the harvest. Some fears were expressed that the filled heads would be going down soon unless it dries.

Corn Improved.

At Grand Island, harvest workers appeared likely to get approximately $10 a day plus board during the harvest season. Combines were expected to receive $4 an acre. The Ord employment office was unable to predict local wages for a lack of job orders.

Hail-stoned corn was look ing better than early estimates predicted. Farmers were also looking happier. It appeared that rainy weather had given the battered stalks a starting chance before the sun-bake began.

After fields were progressing without apparent serious damage from the variety of weather. Heavy second cuttings were in view as the moisture relieved the crop which was drying out after first cutting.

First Load New Wheat

The first load of 1948 wheat in this vicinity arrived at the Farmer's elevator in Ord Wednesday morning. The load came from a 9 acre tract owned by Ed Janus, three miles west of town and was combined, yielding 13 bushels to the acre.

At the elevator the wheat tested 58 pounds, normal moisture content and brought a price of $2.03 per bushel.

Hot Rod Race Devils Offer Thrills, Chills, Spills Sunday

July Fourth Weekend On Ord Track Promises Exciting Race Exhibitions

With the flash of the green starters flag at the Ord race track Sunday afternoon, an expected crowd of 2,500 racing fans will scoot to a comfortable place on the edge of their seats to witness the daredevil racemen push their growling, twisting and churning Hot Rods toward the finish line.

"Wet blankets and cowards are not allowed," writes the racing club secretary from Denver. "That is the unwritten law on the tracks."

Racing representatives in Ord this week expressed some concern over the sharp drop from the top of the banked curves on the track. It might prove to be an interesting hazard in a spin-out, one commented.

A spin-out, he explained, is when the racer's rear wheels skid to the outside of the curve at high speed. Many times the speeder will leave the track, he said. According to the club rules, a car that spins out may re-enter the race only if it can be restarted on its own power.

Fight to Finish.

When a driver feels a spin-out coming, he tries to kick the engine out of gear but keep it running. If the machine is right side up when it lands, the driver may drive back onto the track and start fighting again toward the black and white checkered finish flag.

The race is liable to appear like a fight, too, to the spectators who are unaccustomed to rod-racing. One of the hot rod accessories is the nerfing iron—a steel bar bumping-grill used in place of a standard bumper.

As a racer enters a turn, speed is usually cut slightly. Another racer coming up from behind on the straight-away sometimes guns his machine to make up time, then rains the car ahead as a means of slowing down for the curve. Drivers also bump leading cars as a signal to "get out of the way," since hot rod equipment does not include a horn for warning.

Inverted Start.

Racers will start from an inverted position with the fastest machines on the outside or in the rear. This will eliminate the possibility of the best car starting in the rail and getting out in front for the entire route. A more heated competition will result from the inverted start.

Committees organized under the Chamber of Commerce to coordinate activities during the two racing days are:

Track officials—Clyde Baker, track superintendent; Gene Barnett, starter; Syl Papiernik, timer; Bruce Covey, announcer.

Publicity—Bill Steen, Ed Apking, E. Armstrong, Jay Brown, and Ed Gnaster.

Midway concessions — Clark Weckbach, Donald Stewart and Art Pierce.

The Ord Cosmopolitan club members will direct the parking and perform the police duties on the fair grounds. Wreckers and an ambulance will be on hand in case of mishap on the track.

Racing Blood.

The Colorado Automobile Racing club was organized to give an outlet to the young fellows who seemed determined to strip down old cars and make racers of them. To get these speeders off the streets and give them an outlet for their racing desires, the club was formed and has progressed almost to the point of professionalism.

With these men, racing simply occupies a place in their lives as a hobby and not as a livelihood. They spend their days working at their respective jobs. Nights are dedicated to work on their hot rods. The cars always seem to need a little tuning, adjusting or repair for a better soup-up.

All of the machines are capable of speeds over 100 miles per hour, some represent investments of as much as $3,000. The cars must not weigh less than 1,200 pounds nor more than 2,600. The wheel base must be not less than 98 inches nor more than 115. Engines used in the racers include Mercury, V-8, Riley, Lincoln, Crager supercharged, Chevrolet, Nash, Ford 6 and Miller.

Farmers Complain

Some farmers are complaining that city folks bring tin cans and garbage out to the country and throw it into ditches along the highway. This results in much trouble for the farmer when he tries to mow the grass and the weeds along the side of the road and the deposits of garbage are an abomination and a haven for flies.

This practice is bad. Those who have been following it are asked to refrain, please, from continuing it. Let's be considerate and let's dump our tin cans and our garbage where they belong and not along the roadside!

Supreme Court Rules On Water Measure Point

Acre-Foot At Headgate, Denied Measure at Land Two Judges In Dissent

Water diverted from the North and Middle Loup rivers for irrigation purposes should be measured at the head gate instead of at the land, according to a state supreme court ruling of last week.

The North Loup and Middle Loup Irrigation districts asked for a clarification of an agreement with the Loup River power district which would assure one foot of water per acre on the land. The application was denied by the department of roads and irrigation. Appeal was made to the supreme court.

In the opinion of the court, the clarification requested would in effect be an amendment of the stipuation entered into by the two irrigation districts in 1933. Such action can not be taken by the court, the ruling stated.

It was generally conceded by both parties that an acre-foot of water on the land is necessary for proper irrigation of farm land in this area. The irrigation districts contended that if the water is measured at the headgate, approximately 60 per cent of the water would be lost in transportation to the land.

Justices Dissent.

Court Justices Yeager and Paine dissented to the ruling. Said Justice Yeager:

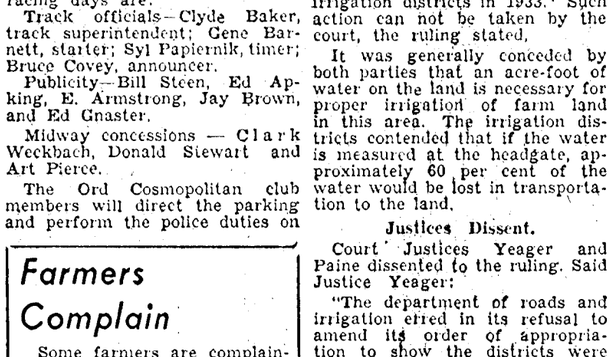
"The department of roads and irrigation erred in its refusal to amend its order of appropriation to show the districts were entitled to a maximum of one acre-foot of water delivered to each acre of land, if in the exercise if good husbandry the land required that amount of water."

He claimed that the department's interpretation of the order was incorrect and without sound legal basis.

BAND CONCERT.

Due to the fact that the band concerts have been rained out for the past several weeks it has been decided that when it is impossible to have the concert on Wednesday evening as scheduled, it will be held on Thursday evening, weather permitting.

Cars Collide at Ord Intersection



Sunday morning a Plymouth sedan belonging to Dave Guggenmos and driven by his son, Lloyd, and a jeep pickup owned and driven by Lloyd Geweke were involved in an accident on the intersection north of the post office. The Guggenmos car coming from the north hit the Geweke jeep, traveling from the east, broadside. The Plymouth was badly smashed with the lights and other glass broken. The jeep had its door jammed.

No one was seriously injured, although Bud Anderson who was riding in the jeep with Lloyd Geweke got a bump on the head. Dan Huff was also a passenger in the jeep.

A. D. Bredthauer Dies Suddenly at Prescott, Ariz.

Mira Valley Farmer, Long Asthma Sufferer, Succumbs; Funeral June 30th

The news reached Ord Saturday of the sudden death of Arnold D. Bredthauer, 53, at 6:00 that morning at Prescott, Ariz., where he had lived for the past eighteen months in hope of securing relief from asthma, from which he had long been a sufferer. A sudden heart attack was the immediate cause of death.

Funeral services were held for Mr. Bredthauer at St. John's Evangelical Lutheran church in Mira Valley Wednesday afternoon, June 30, with Rev. Walter G. Landgraf presiding and burial was in Mt. Hope cemetery at Scotia.

Born in Valley county Dec. 22, 1895, all of Mr. Bredthauer's life was spent in this county until three years ago when he went to Tucson, Ariz., and later to Prescott, Ariz., because of his health. His childhood was spent in the Elyria neighborhood and he moved to Mira Valley with his parents, the late Dave Bredthauer and Mrs. Bredthauer, now of Grand Island, while he was still a boy, and that community remained his home thereafter.

He served in the first World war from Oct., 1917 until May, 1918, first at a training camp near Little Rock, Ark., and then in overseas duty in France.

His marriage to Miss Alma Hellwege occurred on Aug. 1, 1917, and three children were born to them, one son, Arvin, and two daughters, Mrs. Norma Fox, Ord, and Mrs. Louise Wells, Cotesfield. There also are two grandchildren.

Mr. Bredthauer was one of the most popular and well-to-do farmers of the Mira Valley area and was an extensive cattle feeder. He was also active in church work, remaining a member of St. John's Evangelical church throughout life and an elder for the past six years. He also was a member of the American Legion and was active in township, school and civic affairs, always being on the side of progress and keeping up his interest in the affairs of his home community even after health reasons required his residence elsewhere.

Pallbearers at the funeral Wednesday included Dean and Wilbur Fuss, Eldon and David Lange, Leland Bredthauer and Dale Hellwege. Frieda Foth, Mrs. Landgraf and Emma Dobberstein looked after the wealth of floral tributes which came from his hosts of friends, relatives and business associates.

Besides his mother, widow and children Mr. Bredthauer is mourned by two sisters, Mrs. Rose Fuss, North Loup, and Mrs. Esther Lange, Ord, and by two brothers, Herbert Bredthauer, Wood River, and Oscar Bredthauer, Grand Island.

Outdoor Dance Floor Completed At Fairgrounds

Jimmy Caton and his orchestra will initiate the new concrete and marble outdoor dance floor now being built at the Valley county fair grounds, on Monday July 5, the fair board announced this week.

The new floor, 60 x 80, is being constructed by Sheldon Bros. of North Loup, and will be available for public dances.

Donald Krick Is FHA Head

Donald Krick, new Valley county supervisor of the FHA, assumed his duties Monday in the office in the basement of the Ord post office. He replaces Leonard Vavrina who was transferred to the FHA office in York.

Krick has been employed by the Farm Home administration since 1939 except for three years service with the army. He comes to Ord from the York county office. Previously he worked with the FHA in Red Cloud and Hastings.

The new supervisor is married and has a young son. His family will join him when he locates a home in Ord.

Chrysler Prexy Here

D. E. Wallace, president of Chrysler corporation, spent a few hours in Ord this week, interviewing C. A. Anderson, local Chrysler-Plymouth dealer, and inspecting Mr. Anderson's new garage building which will soon be ready for occupancy.

Mr. Wallace complimented Anderson highly on the new structure and said he was quite favorably impressed. He was enroute to his ranch north of Burwell where he will spend several weeks.

Olympic Contests Reach Finals At Thursday Picnic

To Play, Eat at Park; Programs Ends Friday, Midgets Will Continue

Final contests in the Little Olympics of the city recreation program will be played off Thursday when the more than 80 participants in the summer playground activities troup off to Bussell park for picnic and play.

It will be the next to last meeting of the summer of the Rotary-sponsored activities for the young people. Ord churches will aid in the picnic plans. The kids will each take a sack lunch and treats will be provided by the Rotarians.

In announcing the Friday conclusion of the recreation program, Director Alex Cochrane said that he hoped to continue the Midget baseball team. While rain and scout camp have retarded team progress to date, a first team will be picked soon in anticipation of competition with other teams. The squad is limited to boys 15-years-old and under.

Conclusion of the Little Olympics will see contestants go to their marks in sack races, three-legged races and relays. Dodge ball, baseball and other games are also scheduled for the picnic day.

An archery snoot for girls of junior and high school age will be held Friday, Cochrane said. All out door plans for the week, of course will be dependent on favorable weather, he said. Regular playground activities will also be held Friday at the grade school.

On Wednesday a costume contest will fill the recreation program at the school. Pirates, cowboys and princesses will parade their finery in competition for the prettiest costume, most novel, most famous characterization and other classifications.

REA Makes Gains In Plan To Wire 630 Farm Homes

Section "A" Is Approved Five Counties Benefitted; Local Plant to Enlarge

Electricity for nearly 630 farm homes in Valley, Wheeler, Garfield, Greeley and Sherman counties was assured this week as the REA office in Ord announced that Washington officials have approved plans for the 352 mile "A" section.

Contract for the job is expected to be let within a month. Under present plans, construction will begin in August. The contractor then has 60 to 90 days to finish the job, said W. P. Hollands, Ord manager.

The "A" line, first of four sections, will serve as the spine-work for the coming sections. Nearly 50 per cent of the farms on the "A" section are wired, Holland said, and the remainder are advised to see electricians soon for wiring estimates so construction will not be delayed.

"B" Section Coming Too.

Construction on the "B" section will follow immediately upon completion of the "A." An estimated 434 farms will be linked to the system by the "B" section. Syl Papiernik, right-of-way coordinator, is now mapping and staking yardpoles for this section.

Power for the new electric system will be furnished by the city electric plant in Ord and the Consumers public power district. Of the 1,479 customers on all of the proposed sections, the Ord plant will supply 804, said George Allen, city plant manager.

The additional power burden will necessitate the installation of another 1,000 kilowatt unit, Allen said. The new diesel generator will be housed in a building which will be built near the plant.

Seeking Contractor.

Allen disclosed that the Ord plant now has three transformers and one spare for the new installation. The sub-station, he said, will be built while REA goes ahead with its wire and pole work.

Advertisements for a contractor for the "A" section construction began in this issue of the Quiz. The notice will run for three weeks, and the contract will be let. After the contract is approved by Washington, the contractor has just ten days to begin construction.

The REA office also reported that some rumors were making the rounds that electricity on the new sections would be rationed. Office authorities stated that there was no truth in the rumor.

Electrically lighted Christmas trees this year for many farm homes is definitely in prospect.

Dick Tolen Writes of Experiences Gained At Cornhusker Boys' State

Dick Tolen, Ord high school senior, was one of the 300 boys chosen from all over the state to attend the annual Cornhusker Boys' State, held recently at the University of Nebraska agriculture college campus.

Taking his part in the week of government demonstration, Dick was elected to a city office and was a candidate for state office in the primary election. The program is sponsored by the American Legion with a hope of giving our younger citizens a working knowledge of the American democracy.

Now attending the All-State music conference in Lincoln, Dick wrote the following on his experiences:

I think that Cornhusker Boys' State is one of the best experiences that I have ever had.

Fire Burns New Sink

When heat from the sun through a window pane ignited oil soaked paper packing around a set of sink fixtures, a brand new cabinet sink, still uncrated, was destroyed at the George Satterfield home Monday afternoon.

Mrs. Satterfield extirguished the fire and although quite unhappy over the loss of her sink, is thankful that the fire started when she was at home, and just after a new Plymouth had been backed out of the garage.

GOVERNOR THOMAS E. DEWEY

GOVERNOR EARL WARREN

Mortensen Describes Philadelphia Convention Which Nominated Dewey

A seething mass of humanity, jam-packed into a hot and humid convention hall was C. J. Mortensen's description of the recent Republican nominating party in Philadelphia.

Of the presidential candidates, Mortensen said:

Dewey's machine was a well-oiled organization with one objective in mind. While the nominating speech of Gov. Edward Martin of Pennsylvania was a "rotten job," Dewey delivered a good but uncolorful, machine-like speech.

Taft's campaign was carried on to the accompaniment of the 4-leaf clover song T-A-F-T lettered on the four clover leaves.

Stassen's ballyhoo was punctuated by spontaneous demonstrations, one a parade of veterans waving banners on the convention floor. At one point in the meeting, thousands of cards printed "Stassen for President" were scattered from the balcony. Congressman Judd's (Minn.) nominating speech for Stassen was rated very good by Mortensen.

Blind Vet Nominates.

MacArthur's nomination was made by a totally blind veteran from Wisconsin, Mortensen said. He labeled the delivery as excellent, a magnificent voice. A second to the nomination was made by General Wainwright.

Behind the scenes Mortensen found rumors which purported to explain Vandenberg's "luke warm attitude" to accepting the presidency." Such talk reported that when the Republicans captured the legislature two years ago, Vandenberg agreed to handle the foreign affairs while Taft concentrated on domestic issues and primed for the presidency.

Mortensen had great praise for Speaker of the House Joe Martin (Mass.) who presided at the convention. He handled the parliamentary duties wonderfully and wielded a big gavel with good effect, said the Ord banker.

Heat Is Terrific.

The most uncomfortable condition in the convention hall was caused by the large television lights which radiated a terrible amount of heat, Mortensen said. Shirts wilted almost instantly, he added.

Although not a delegate to the convention, Mortensen managed to find a seat with the Nebraska alternates in the balcony. Higher off the main floor, we found some relief from the terrific heat, he said.

During his stay, he was a guest of Congressman A. L. Miller in the Adelphia hotel, where the Nebraska delegates were headquartered. The hotels were the scene of much wooing of delegates' votes, according to Mortensen. Dewey supporters were busy passing out coca cola and Stassen's people served coffee and donuts.

Swanek Services To Be Tuesday

Ord War Hero To Arrive Home Saturday; Rites at Catholic Church

High mass for Pfc. Edwin A. Swanek, young Ord war hero who was killed in action on New Guinea, will be held Tuesday morning at 9:30 o'clock from Our Lady of Perpetual Help church in Ord. Father Thomas Siudowski will conduct the final rites.

Swanek, the son of Mr. and Mrs. Paul Swanek of Ord, was a member of the 20th infantry, 6th division, which saw much of the bitter fighting in the South Pacific.

The body, accompanied by a military escort, will arrive in Ord Saturday and will be met by an honor guard of the Veterans of Foreign Wars and the American Legion, who will escort it to the Hastings-Pearson mortuary where it will lie in state until services.

Interment will be in the Ord cemetery with full military honors. The Veterans of Foreign Wars and American Legion will be in charge of burial rites.

North Loup

Brown - Jorgensen.

Loretta Brown, daughter of Mr. and Mrs. Stanley Brown and Grover Jorgensen, son of Mr. and Mrs. Pete Jorgensen, both of North Loup, were united in marriage Thursday, June 24, at the Methodist parsonge in Rockwell City, Ia., with Rev. H. E White, pastor of the church officiating. The only attendant was Mrs. Lester Jorgensen.

The bride wore a street length dress of light green and wore a corsage of red roses.

Mr. and Mrs. Jorgensen returned to North Loup Saturday night and for the present are at home home with his parents. The groom is employed at the Sheldon Oil station.

Davis-Collins.

Miss Francis Davis, daughter of Mrs. Howard H. Davis of Springfield, Mo. and Deane Collins, son of Mr. and Mrs. Arthur A. Collins, of Ozark, Mo. solemnized their wedding vows in a formal ceremony Saturday evening, June 19, in the First Baptist church. The Rev. Frederick Eastham officiated in the double ring ceremony before the altar banked with ferns and decorated with baskets of white gladiolus.

Preceding the candlelight service, Mrs. Herbert Bockhorst, jr. sang "Because" and "Always", accompanied by Mrs. Paul Castock at the organ. "Claire de Lune" was played softly during the ceremony.

Lighting the tall white tapers set in tiered candelabra were Charles L. Burrows and Carl Siebs.

The bride who was given in marriage, by her uncle, Herbert P. Wheeler, wore a gown of ivory satin, fashioned with a Queen Elizabeth lace collar and lace yoke. The long sleeves ended in graceful points over the hands and the tight fitting bodice was ornamented by tiny covered buttons down the back. The softly gathered skirt fell into a semi-train. Her finger-tip veil of tulle was edged in lace and caught by a tiara of seed pearls. She carried a crescent-shaped spray of cream gladiolus with a removable center corsage of cream glamallia. Sister of the bride, Mrs. Charles L. Burrows, served as matron of honor. She was attired in an orchid gown of silk marquisette over a matching taffeta skirt. The tight-fitting bodice was accented with a bertha of matching ruffles and rows of ruffles cascaded down the back of the bouffant skirt. Her halo hat was of orchid net caught by a garland of daisies. She carried a bouquet of white marguerite daisies.

Serving as bridesmaids were Miss Mary Frances Madison of Tulsa, Okla., cousin of the bride, and Miss Kathryn Ford. They wore matching off-the-shoulder gowns of pale blue and yellow taffeta with matching mitts. Their halo hats were identical to that of the matron of honor. They carried bouquets of white and pale yellow marguerite daisies.

Tiny Linda Lou Burrows, niece of the bride, was flower girl. She wore a pink net frock over a matching taffeta skirt. The full skirt was caught with bows of matching ribbon. She wore matching mitts, and a halo hat of net and daisies. The flower girl's basket was lined in pink and trimmed in apple green ruffles and pink ribbon.

Both mothers chose afternoon dresses of black sheer with matching accessories. They wore shoulder corsages of gardenias.

Presiding at the guest book were Misses Ruth Ann Young and Dorothy Housey.

Russell Collins, brother of the groom, served as best man with Frank Forrester and Glenn Kauffman as groomsmen.

Immediately following the ceremony, a reception was held in the home of the bride's mother for the immediate family and several close friends. Miss Nancy Gilbert presided at the punch bowl.

Out-of-town guests included: Mr. and Mrs. Hobest F. Madison and Miss Mary Madison, of Tulsa, Okla.; Mr. and Mrs. Thomas Madison of Willow Springs, Nebr.; Mr. and Mrs. Earl Elliott and Don Elliott of Centerville, Ia.; and Mr. and Mrs. Harold T. Smith and Miss Maryanne of Iola, Kas.

Mr. and Mrs. Deane Collins will make their home in West Plaines, Mo., where he is practicing dentistry.

Sunday callers at the home of Mrs. Lizzie Knapp were Mr. and Mrs. R. H. Knapp and James, Mr. and Mrs. Cecil Knapp and family, Mrs. Murray Cornell and Mr. and Mrs. Richard Rowbal and baby son, Barbara and Vida Ingerson were dinner guests of Mrs. Knapp and Jerrolin Scott.

Robert and Sharlyn are spending two weeks in Auburn with the Carl and Lind Nelsons. Mr. and Mrs. R. H. Knapp will go after them this weekend.

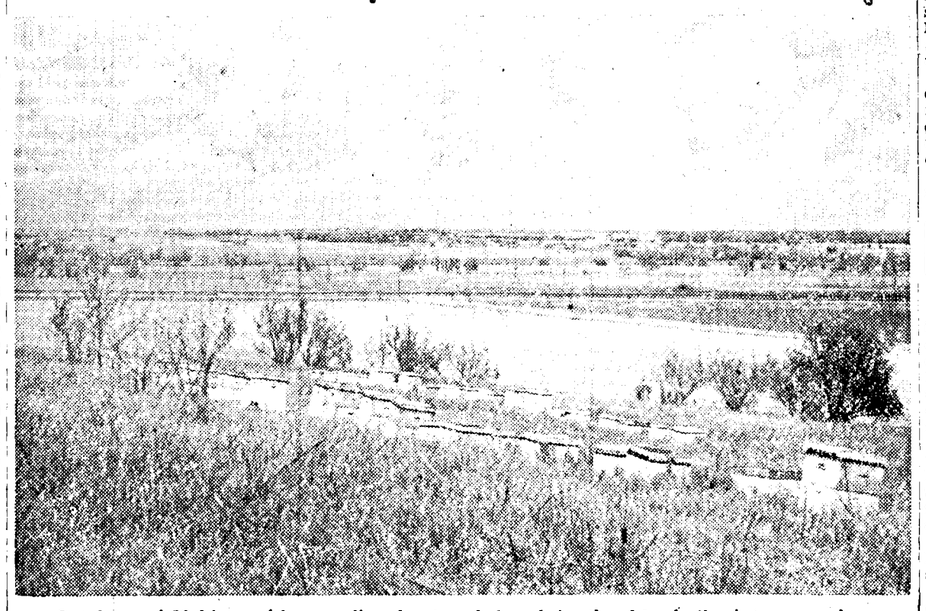
Eugene Noyes, youngest son of Mr. and Mrs. Harold Noyes of Payette, Ida., was killed in a seaplane crash off the cost of Florida Saturday morning, acording to word received here by relatives. He was a member of the U. S. naval air corps.

Roy Cox is driving a new 1949 Ford and George Cox has a new Ford Pick-up.

Objects Became Bigger

One of the earliest references to magnification was made by the Greek scholar, Seneca, who lived just before the Christian era. Seneca filled a globe with water and marveled at the increased size of objects when viewed through the globe.

Bee Home Devastated By Hail and Wind



A colony of 59 hives of bees suffered a tough break in the big hail of two weeks ago. Owners Lenninger and Gaylord of Arcadia put the hives (shown above) on a hill west of the alfalfa mill during the afternoon. Several acres of full-blooming sweet clover surrounded the location. A few hours later slashing hail mowed the clover.

Girls Enter Dolls in Show Wed.

Dolls of every description were brought by enthusiastic owners to the annual doll contest held at recreation Wednesday afternoon. Most of the girls entered several dolls from their doll collections.

The prizes for the oldest dolls went to Carol McOstrich and Clarice Dodd. Barbara Hansen and Sonya Anderson won first and second ribbons for the funniest dolls. Patty McOstrich and Jerry Wilson won the prizes for the cutest dolls. The two prizes for the most unusual dolls went to Jeannette Dye's entry of a doll from Africa and her sister Joyce's entry of a real tiny doll. Dolls entered by Joyce Dye and Clarice Dodd won ribbons for the smallest dolls present. The best dressed doll was entered by Catherine Gilroy with Jerry Wilson's entery winning second. Joyce and Jeanette Dye won first and second for the prettiest dolls.

First for the largest doll went to Carrol McOstrich with second to Clarice Dodd.

NSLI Dividends A Possibility

When the U. S. Supreme Court recently reversed a decision of the lower courts granting payment of as much as five times the value of many National Service Life Insurance policies, it opened the way for the much discussed payment of dividends to present policy holders, John J. Wozab, county service officer, stated today.

The important decision was rendered in the case of Mrs. Tillie Zazove, of Chicago, beneficiary of an enlisted man who died in a Japanese prison camp. Mrs. Zazove claimed the full $5,000 face value of the policy plus three percent interest to be paid in 120 guaranteed installments of $18.08 each in addition to the same monthly sum for the remainder of her life beyond the 120 months guarantee period.

The Veterans Administration sought to pay Mrs. Zazove $29.50 for 120 guaranteed months plus a like amount per month for life past that period. This was under a regulation applying to beneficiaries over 30 years of age.

Had the decision not been reversed Wozab declared, it would have increased NSLI liabilities by tens of billions of dollars more than the premiums paid into the fund.

Compliance Check Now in Progress

Checks on compliance with the AAA are now being made by committeemen of the Valley County office, Chirman Paul Owens announced Thursday.

Owens issued a call for reports from farmers who have completed their practices for 1948. Reports should be submitted at the AAA office on the west side of the square in Ord.

A large number of dams and terraces have already been built this year, Owens stated. He pointed out that these projects have helped to hold back flood water and control erosion. Such mechanical practices, however, must be approved by the county committee prior to construction, he said.

An excellent dam was completed last week by Alvin Anderson on the R. C. Kokes farm west of Ord on the Sargent highway, said Owens.

Holtz - Lange

Miss Bernadine Ann Holtz, daughter of Mr. and Mrs. William Holtz of Sheldon and Eldon E. Lange, son of Mr. and Mrs. Ernest Lange of Ord were married in the Zion Lutheran church near Sheldon on June 20. Rev. Alvin Becker performed the 8 o'clock double ring ceremony in the presence of relatives and friends.

Rev. Walter Landgraf of Ord played the wedding music, and accompanied the congregation which sang "The Lord's My Shepherd." Miss Wilma Lange of Ord, who sang "O Perfect Love" and "We Pray Thee Lord to Meet Us" was also accompanied by Rev. Landgraf.

Miss Carol Lange, a sister of the groom was flower girl, carrying a basket of rose petals and dropping them in the aisle. She wore a white floor length dress of net over taffeta. Steven Lange, nephew of the bride was ring bearer.

The bride wore a white marquisette gown fashioned with a long sleeved bodice and a lightly gathered skirt which swept into an aisle-wide train. Wide lace was its only trim. Matching lace edged her two tiered finger-tip veil. She carried an arm bouquet of white roses.

Miss Dorothy Holtz of Shelton was maid of honor for her sister. She wore an orchid taffeta gown with a marquisete yoke. The bridesmaid, Miss Elaine Stein of Hood River wore a gown of ninon voile over taffetain a soft shade of yellow. They wore matching headbands and mitts and carried colonial bouquets.

David Lange of Ord was best man for his brother who was also attended by Wilber Fuss of North Loup. Herbeit Bredthauer of Ord and Clarence Kuster of St. Micheal served as ushers.

A reception at the home of Mr. and Mrs. William Holtz was held after the ceremony for a host of relatives and friends. Miss Vesta Lange of North Loup took care of the guest book.

Mrs. Lange is a graduate of Shelton high school and taught in a rural school of this community. She was also teacher in the St. John's Lutheran day school of near Ord the past two years. Mr. Lange graduated from Ord high school and after serving for some time in the army has been farming near North Loup. Mr. and Mrs. Lange are making their home on a farm south of North Loup.

Johnson Recital Largely Attended

A large audience heard the organ recital by George A. Johnson of Omaha at the Methodist church Thursday evening. People from Burwell and North Loup who had previously heard Mr. Johnson came for the recital. Some critics in Ord say it was the best musical treat presented to Ord audiences in the last twenty years.

He played all types of music from Bach's organ selections to lighter and more entertaining selections including "The Saber Dance" and "Bells of St. Mary's".

It is hoped that after he returns from his tour of the east, scheduled to fill the next year, it may be possible to obtain him for another recital so that more Ord people hear his delightful music.

Money Awarded At Theatre Quiz

"What state is known as the Sunflower state?," was the question. The answer: Kansas. And the lady had just won $13 on the quiz show at the Ord Theater.

A new kind of entertainment was introduced in Ord last Wednesday night when genial Ray Biemond as master of ceremonies opened his first quiz show at the theater. It registered a big hit with the audience.

Non-technical questions of a wide, general nature were put to the audience by a microphone handled by Ray on stage. In each aisle, two assistants—Bill Steen and Loyal Hurlbert—located the contestants and relayed their answers with portable hand mikes.

Quite a gasp rose from the crowd when the MC announced the $35 prize for the personality sketch question. Clues to the identity of a nationally famous person are given in four groups. If the contestant misses on the first clues, a second, then a third and a fourth set of clues are offered, but with corresponding decreases in the amount of prize money.

Quiz shows are now a regular Wednesday feature, according to Biemond. Prizes from $5 to $50 will be given. Consolation prizes of free show tickets are given to contestants who miss questions. Biemond also announced that special questions for the youngsters will be on tap for coming quizes.

And so, students,—to your almanacs, dictionaries and answer books. Money is where you find it. And that may be at the quiz show.

Maroon Figures On New License

Auto license plates in Nebraska will be aluminum again in 1949 but with maroon numerals instead of this year's blue.

Punch presses are already turning out the new plates at the state reformatory, according to word received from Lincoln. Car registrations in 1948 were eight per cent above the 1947 total.

Twenty from Here at Broken Bow

Twenty 4-H Girls Club members and leaders attended Judging Day at Broken Bow, Thursday, June 24th. Mrs. Ralph Douglas, leader of the Merry Makers took six of her group, Clara Kusek leader of the Clever Homemakers of Elyria with her father as chauffeur, took seven of her group, Katherine Helzer, home agent, took three of the Modern Miss Club and Delma Miska, leader and a member of the Happy Circle Club. Specialists from the state extension service of the College of Agriculture, conducted the meetings. Articles of different classes of clothing were displayed. The girls were given instruction on what to look for when grading articles of clothing and, each had an opportunity to judge a class of garments and state reasons for her placings.

++ Something Different ++

Gardeners are watching with glee, as hailed-down tomato plants begin to send out new shoots; some potatoes are coming along satisfactorily; and some corn fields are beginning to thrive once more.

It was such a streaky storm, seeming to strike a slim, jagged area extending from Atkinson to Central City.

One thing about all the mud and rain, fish worms aren't hard to catch! Wiggle a stick in the ground and a few worms crawl out to see whether it is the Republican or Democratic national convention that is shaking their world!

And I don't think we know much more about it than does the little worm.

Ord did well, having two local representatives at the Philadelphia convention. Clarence Davis was there. Crawford Mortensen, who never misses a thing, flew in from Chicago for a few hours of the excitment, sleeping in one of the beds Congressman A. L. Miller had reserved for his wife.

. . . No, of course Mrs. Miller was not there, goon!

As far as I can think we will not be represented at the Democratic convention. But perhaps it won't be too exciting, for the program is going to consist of "How wonderful you are, Mr. Truman!" according to the prophesies of our sages.

To revert to the subject of that hail storm, how lucky it was that Martin Weigardt's fine cherry crop at Elyria was spared for future pies. Hooray! I'm strictly in favor of cherry pie any time of the year.

In fact, if I ever run for president, it will likely be on a platform of pie, pie and more pie.

County Assessment Schedules Show Valley Residents Are Near Poverty

Hard times are here, pal. Valley county assessment figures prove it.

Poverty stricken county residents have an average of only $307.70 in money, according to what they reported to the assessor. This amount includes money on hand, in banks and postal savings and checks and other securities payable on demand which are held by the populace of 8,250.

Oddly enough, banks in the county reported enough deposits last April to give each resident nearly $700. And these deposits do not include postal savings or money hidden in the barn and buried in the garden.

Hard times are also reflected by the quality of furs worn by the women of Valley county. Muskrats and minks will be chagrined to learn that the ladies value their coats at an average of $40.22.

What Time Is It?

And if you've really wondered why the Ord whistle shatters the stillness of 7 a. m., noon and 6 p. m., it's simply because there are only 950 watches and clocks in the whole county. With only 11 out of 100 persons owning timepieces, we are indeed indebted to the city light plant for getting us to work on time.

You should also be rather cautious when inquiring about the time from any of the lucky eleven. Their watches are of the cheap variety. The average "actual value" is $10.

A person who owns a camera is in a class by himself, too. Only one in 106 citizens can boast ownership of a camera. The pictures must certainly be of low grade, though, because average valuation is $11.50 per camera—apparently the matchbox type with pin hole shutter.

Quantity of jewelry and diamonds has hit a similar low ebb. While it has been a general practice for men to give their fair ladies a diamond ring upon engagement, it seems there has been a break down in tradition. Or maybe the pawn shops have collected the baubles.

A Secret Told.

The number of jewelry pieces was pegged at 391 with the assessor. And even those are suspected of being glass since their value averages $27. The secret is out, men.

Then there's the radio situation which must surely be bad, with all the poor run-down sets in use. They've valued on the average at $16.52 and only 1,150 exist in the county. Television will have to wait.

Land and improvements in the country totaled $7,175,535. Lots and improvements in towns were valued at $1,606,070.

Value per acre of land is computed at $18.02. But despite all these indications that Valley county residents are near to poverty, the total county valuation showed an increase of more than $2,000,000 over last year!

A casual observer might wonder how the county survived 1947 when times must have been tough!

D. Hurlbert Wed to Helen Ceplecha

Monday afternon, June 28 at 3:00 p. m. at the Christian church Helen Ceplecha, daughter of Mr. and Mrs. Frank Ceplecha, Sr., and Dudley K. Hurlbert, son of Mrs. Ida Hurlbert, were united in marriage by Clyde Scott, pastor of the Christian church, who used the single ring ceremony.

The bride was attended by her cousin, Irene Tuma as bridesmaid and Delores Hurlbert, sister of the groom as maid of honor. The groom was attended by Emil Ceplecha, brother of bride and Ray Hurlbert, brother of the groom.

Charlene Severns played the wedding music.

The bride was gowned in white marquisette made with a fitted bodice, long sleeves and off the shoulder yoke. The skirt was made with a bustle effect falling into a long train. She wore a fingertip veil made of bridal illusion edged in lace falling from a tiara of seed pearls. She wore a

pearl necklace, a gift from the groom, and matching pearl earrings. Her bouquet was made with pink and white feathered carnations arranged around pink spray orchids.

Irene Tuma, bridesmaid, wore a pink sheer gown, simply made with a ruffled Bertha collar and a wide ruffle around the gathered skirt. With this she wore a bracelet of blue feathered carnations and a tiny pink hat.

Delores Hurlbert, maid of honor, wore identical dress and hat of blue sheer. Her flowers consisted of a bracelet and pendant of pink feathered carnations.

After the ceremony a reception was held at the home of the bride's parents for fifty relatives and close friends. The two tables used to serve at the reception were decorated with carnations and the bride's table had the three tiered wedding cake as a centerpiece.

In the evening a wedding dance was held in honor of Mr. and Mrs. Hurlbert at the Jungman hall.

Observe Fiftieth Anniversary

Mr. and Mrs. Adolf Faudt, of Vineland, N. J., who celebrated their fiftieth wedding anniversary June 19. The Faudt's are former residents of this vicinity. Left to right are Mr. and Mrs. Charles Faudt of Omaha, Mr. and Mrs. Adolf Faudt and Miss Martha E. Faudt, Vineland. In a letter to the Quiz, Mr. and Mrs. Adolf Faudt, write to Nebraska friends: "Thanks so much for your kind greetings sent to us for our 50th anniversary. We cherish the memories of all of you and were surely pleased to be remembered with so many cards and gifts. Then too, we had the great joy of having our son and his wife with us. What a happy reunion after 21 years since he was here before!"

Sorensen-Gregory

The Methodist church in Grand Island was the setting Sunday for the wedding of Miss Bonnie Le Sorensen, daughter of Mr. and Mrs. Albert Sorensen and granddaughter of Mrs. John Wentworth of Ord, and Calvin Earl Gregory, son of Mr. and Mrs. Earl Gregory of Ogallala. The double ring ceremony was performed by Rev. W. A. Hubbard.

Matron of honor was Mrs. Elmer Becker of St. Paul, sister of the bridegroom. Beth and Betty O'Nele were bridesmaids and Patty Carson and Sharon Niemond were flower girls. W. Earl Sorensen, brother of the bride was best man. Groomsmen were Edward Gregory of Ogallala and Elmer Becker of St. Paul, brother and brother-in-law of the groom. Ushers were Ronald Tagge of Creston, Ia. and Benjamin Shanks. During the ceremony Mrs. S. T. Eckert played organ music and vocalist was Donna Jean Nordgren.

Pew ends down the white aisle were tied with satin bows and baskets of white gladioli and tapers decorated the chancel.

Given in marriage by her father, the bride chose a gown of white slipper satin. The bodice had a yoke of marquisette edged with a bertha of chantilly lace, the hooped skirt extended into a six foot train. A Queen Elizabeth crown held her tulle veil. She carried a nosegay of lilies of the valley and star of Bethlehem.

Matching gowns of blue, yellow and pink taffeta were worn by the bridesmaids. Flared peplums trimmed the hipline and they wore matching daisies in their hair. The flower girls were gowned in peach and lavender.

A reception for 100 was held in the church parish hall. Guests from out of town were Mr. and Mrs. Earl Gregory, Sharon and Edward Gregory of Ogallala; Mrs. Mary Wentworth, Mr. and Mrs. Vern Stark and Mr. and Mrs. Willis Garner of Ord; Mr. and Mrs. Aubrey Love of Melcher, Ia.; Mrs. Martin Odee and sons of Thermopolis, Wyo.; Mr. and Mrs. Alvin Walter of Fort Dodge, Ia.; Mr. and Mrs. Henry Becker and Joan, Mr. and Mrs. Elmer Becker of St. Paul; and Virgil Larsen of Elba.

Mr. and Mrs. Calvin Gregory will be at home at 1521 West 4th, Grand Island on their return from a honey moon trip to Colorado.

Mapel-Matousek.

At 2:30 o'clock, Sunday afternoon, June 20 at the Methodist church in Walworth, was the scene of a double ring ceremony when Miss Lulu Mapel, daughter of Mr. and Mrs. Clare Mapel of Walworth, near Sargent, became the bride of Leroy A. Matousek of Sargent. Rev. Edward A. Smith, performed the ceremony in the presence of 100 guests.

The bride appearing on the arm of her father, wore a gown of white marquisette fashioned with a tight fitting bodice, long pointed sleeves and a skirt made to fall into a train. The satin peplum and rolled bertha collar were edged with silver beads. The veil of illusion was held in place by a cap of chantilly lace trimmed with orange blossoms. She carried a bouquet of orange blossoms.

Irene L. Matousek, maid of honor, wore a gown of pink faille and carried a bouquet of blue and white daisies.

Joyce Parkos, small daughter of Mr. and Mrs. Albert Parkos of Ord was flower girl. She wore a blue net dress and carried a basket of small red roses.

Donna Lee Bydalek and Verna Mapel, candle lighters, wore pastel gowns of taffeta marquisette. Harley Mapel, brother of the bride, was ring bearer.

The groom was attended by Delvin Harrold and Don Parkison was usher.

Following a reception at the home of Mr. and Mrs. Geo. Hale in Sargent, Mr. and Mrs. Matousek left on a wedding trip to visit the groom's father at Hollywood, Calif.

Honor Sister.

Mr. and Mrs. Chester Kirby were hosts at a dinner Sunday evening in honor of her sister, Mrs. Elsie Parnell and family, visiting here from California. Guests were Mr. and Mrs. Bill Mogensen and family, Mr. and Mrs. Albert Kirby and family, Mr. and Mrs. Ivan Enyeart, Mr. and Mrs. Fred Drake, Mr. and Mrs. Jens Neilsen and Everett Burson. The children enjoyed a marshmallow roast as guests of Everett Burson.

Corrine Edwards Wedding Monday

On Monday, June 28, Corinne Edwards, daughter of Mr. and Mrs. John O. Edwards of North Loup and Leonard Klanecky, son of Mr. and Mrs. Wm. Klanecky of Ord were united in marriage at a nuptial high mass at St. Patrick's church in Scotia. Rev. Constantine J. Shumski performed the ceremony before an altar banked with red roses, white daisies and hydrangea.

Mrs. Frank L. Ambrose of Elba played the wedding march with Rosella Cooney of Elba as soloist,

assisted by Mrs. Charles Kasson and Mr. and Mrs. Paul Weitzki.

The bride chose for her wedding a white waffle weave pique street length dress with a white and gold hat. Her accessories were of white and gold. She wore a string of pearls and carried a white rosary which belonged to her grandmother, Mrs. J. C. Meese. The bridal corsage was of blue feathered carnations tied with a gold ribbon.

The brides maid, Adelene Blaha, wore an aqua crepe dress with white accessories. Her corsage was of pink feathered carnations and daisies, tied with a silver ribbon.

Bonnie Klanecky, sister of the groom dressed in white, carried the ring to the altar on a white satin pillow.

The groom and his attendant, Paul Adamek, wore dark suits and carnation boutonnieres.

After the ceremony a breakfast was served at the home of the bride's parents by Mrs. Frank Meese and Mrs. Carl Sorensen, aunts of the bride, to immediate relatives and close friends.

Those in attendance from out of town were Mrs. Inez Edwards of Grand Island, grandmother of the bride, Frank W. Adamek, grandfather of the groom and Mr. T. D. Meese of Hastings, great uncle of the bride.

Both Mr. and Mrs. Klanecky are well known in Valley county as both were born and raised in this vicinity. Both attended Ord high school. They will make their home on a farm northeast of Ord.

Hanson-Sitterle.

Sunday in a setting of baskets of pink roses Virginia Hanson became the bride of Harold Sitterle, son of Mr. and Mrs. Alfred Sitterle of Jamaica. The simple wedding was performed by Rev. Roman Esenlauer, pastor of the Union church of Jamaica, using the

single ring ceremony, before a small party of relatives, in the home of the bride's parents, Mr. and Mrs. Seton Hanson of Jamaica, former Ord residents.

Miss Mary Williams of Jamaica sang "Because" accompanied on the piano by Rev. Esenlauer. Miss LaRue Nelson, of Burwell, cousin of the bride played Mendelsohn's Wedding March.

The bride wore a white sharkskin street length dress, white gloves, white sandals and wore a corsage of American Beauty roses and carried a dainty lace trimmed handkerchief and white bible. She was given in marriage by her father.

Miss Connie Hanson, sister of the bride, wearing a two-piece black and white dress, served as bridesmaid. Her corsage was made of yellow daisies.

Wm. Sitterle attended his brother as best man.

After the wedding ceremony refreshments of wedding cake and ice cream were served to the wedding party and the guests.

Relatives who attended the wedding were Mr. and Mrs. Wm. McNeil, sr. of Jamaica, grandparents of the groom, Miss Nellie Hopper of Jefferson, Ia., cousin of the bride, Mr. and Mrs. Alfred Sitterle of Jamaica, Ia., Mr. and Mrs. Lawrence Sitterle of Perry, Ia., and Mr. and Mrs. Seton Hanson, Pauline, Hal and Calleen Hanson.

Mr. and Mrs. Sitterle left on a wedding trip to Lake Okobogi after which they will be at home to their many friends at the Sitterle residence in Jamaica, Ia.

Both Mr. and Mrs. Sitterle are graduates of Jamaica high school. The bride, a recent graduate, and the groom graduated with the class of 1946. He is employed as an interior decorating firm in Perry, Ia.

Hasek-Baumeister

The Geranium Catholic church was the scene of the 9 o'clock wedding Thursday morning, June 27 of Miss Ethelyn Hosek, daughter of Mrs. A. C. Kelso, of Comstock, and James Hosek, of Omaha, and August Baumeister, son of Mr. and Mrs. Charles Baumeister of Burlington, Wis. The couple took their vows before the altar decorated with pink and white carnations. Rev. Micheal Szczesny, of Sargent performed the double ring ceremony before about 100 guests. The wedding music was played by Mrs. Venell Huss, of Sargent, who also sang Ava Maria.

Mrs. Leroy Wells was matron of honor and Miss Alice Baumeister, sister of the bridegroom of Burlington, Wis. was bridesmaid. Mrs. Wells and Miss Baumeister wore identical frocks of blue chiffon and large blue picture hats. They carried colonial bouquets of red rosebuds.

The bride wore a gown fashioned with a tight-fitting bodice and long pointed sleeves of lace. The skirt and long train were of white satin, a gift brought from Paris by her brother George. Her fingertip length veil of net fell from a beaded heart headpiece. She carried a white prayer book marked with a white gardenia.

The groom's attendants were George Hosek, brother of the bride as best man and Leroy Well. Richard Kamerad and Leonard Moudry were ushers.

Following the ceremony a dinner was served to the relatives at the home of Mr. and Mrs. Kelso. Mrs. Iris Lewi was in charge of the guest book and the gift table, Mrs. Venell Krikac and Mrs. John Wells served the dinner. A reception was held between 2:30 and 5:00 o'clock for 40 friends. The bride's table was centered with a three tiered wedding cake decorated in green and pink and topped with lovebirds.

Out of town relatives attending were: Mr. and Mrs. Charles Baumeister and Alice, of Burlington, Wis., Mr. and Mrs. Joe Holoun and family of Ord. Mr. and Mrs. John Mottl Sr., of Elyria Roger and Allen Mottl of Arcadia.

The couple will spend their honeymoon in Canada. The bride chose a brown ballerina suit with white accessories and a carnation corsage for traveling.

The bride has been employed by the National Harvester company at Burlington and is a graduate of the Comstock High school and attended school in Omaha. The bridegroom is employed by the Peters Construction company at Burlington. They will be at home at 638½ Dodge, Burlington, Wis.

Freezer Show Well Attended

Seventy five ladies mostly rural women attended the demonstration held at the Masonic hall Friday afternoon as guests of Howard Huff to view the International Harvester freezer chest and receive information on the preparation and packaging of foods for any freezer or locker.

Mrs. Earl O. Peeler of Grand Island gave an interesting and informative demonstration on foods. Mr. and Mrs. Jesse Blodgett as representatives of the International Harvester people showed the freezer, helped in the demonstrations by doing the cooking and gave the ladies present additional information on the materials available on the market for packaging foods.

Select Vegetables Carefully.

Among the useful bits of information that were explained to the audience was the fact that preparing food for the locker consists of only five steps where canning the same fruit or vegetable takes fifteen steps.

They were told to select vegetables for freezing that lend themselves to freezing. Information on the varieties of vegetables that freeze to advantage can be obtained at the county agent's ofice.

Tips were given on packaging meats and the best methods of wrapping same was shown in full detail. They stressed that the best results were obtained when a small amount of food was handled at a time, in fact, only one pound.

When frozen foods become unpopular in a family it is usually found that the packaging is not air and vapor proof. Working the air out of packages and the proper sealing was stressed in every demonstration.

Foods Given Away.

The proper thawing was demonstrated and the guests were given a helping of prepared brocolli, frozen ice cream and peaches to taste.

At the close of the meeting many articles of foods prepared were given to persons in audience.

Mrs. Clark Weckbach and Mrs. Rollin Dye each were given credit slips of $25.00, to apply on new freezer chests. Mrs. Arthur Ferris received a three pound rolled roast. Mrs. Leon Ciemny received a pound of ground beef patties. Mrs. Cecil Tully was given a chicken, Mrs. Wayne Turner got the cherry pie baked at the demonstration. Mrs. Grace Jensen of North Loup received the almond nut cake. Mrs. Albert Peterson, a frozen roasting chicken. Mrs. Curt Wilson, Mrs. Paul Geneski, Mrs. H. N. Norris, Mrs. Emil Zadina, Mrs. Ign Pokraka, Mrs. Joe Veleba, and Mrs. Harry Waller, both of North Loup, Mrs. Emil Fafeita, Mrs. Floyd Rice and Mrs. Lewis Greenwalt all were given Howard Seal bags.

Two Ord Bankers To Attend Clinic

R. J. Cronk, cashier of the Nebraska State Bank, and C. W. Weckbach, vice-president of the First National bank, will attend the second annual bankers clinic to be held on the Doane college campus in Crete on July 8-10.

Last year the delegates from Ord were Clark Weckbach of First National and C. J. Mortensen of Nebraska State.

Polio Foundation Elects Officers

The fifth annual meeting of the Valley County Polio Foundation was held Friday afternoon at the county court house.

George Satterfield was elected to head the organization another year as Valley county chairman. The following will serve for the coming year: Joe Raemakers, vice-chairman, Mrs. Ed Kokes, secretary; C. J. Mortensen, treasurer; Mrs. Asa Anderson, jr. publicity director; Mrs. Ross Allen will be co-chairman of the county fund raising campaign. The chairman has not been selected as yet.

Members of the board over and above the officers are Kermit Erickson and Mrs. Dwain Williams of Arcadia. Ray Hill and Mrs. A. C. Ehret of North Loup, Mrs. James Iwanski of Elyria, and Joe Cupl of Ord.

Dr. F. A. Barta will serve as medical advisor for the third year.

In the past five years the Valley county chapter has taken care of three cases of polio and paid ambulance expenses to Omaha for one patient, diagnosed by state officials.

The Valley county chapter aims to keep an open account at all times to handle any case that may arise and have additional funds to handle an epidemic. The drive for funds occurs during the month of January and the chairman will be announced at a later date.

The annual board meeting is held in June so that everything will be in readiness in case of an epidemic during the summer months.

City Dads Talk More Street Equipment

Members of the Ord city council will go into an informal huddle this week to consider the purchase of a new pressure street sprinkler and flusher. The equipment was demonstrated to them Tuesday, by Kenneth Jensen, son of Mrs. Wm. McKay of Ord. The new apparatus can also be used as an emergency fire fighting unit in addition to its regular rated work.

Councilman Hugh Carson, chairman of the Ord street committee, said that he was "very favorably impressed with the performance of the flusher. It's a comparatively low priced piece of equipment and one that we'll be able to use regularly."

"Not only can we keep the streets clean but we'll be able to settle the dust on gravel streets. I think all the council agree with me, and every person I've talked to who saw the flusher in action, have stated they think the city ought to have it."

County Soldiers Return By Ship To Valley Peace

Among the soldier dead being returned from overseas this week are the bodies of two Ord men and one from North Loup.

S-Sgt. Eldon L. Dehart, formerly of Ord, is reported enroute from Manila, P. I., on the U. S. army transport, Sgt. Morris E. Crain which is carrying 30 Nebraskans among its 1,941 returning dead. Next of kin is William L. Dehart of Ord.

From Europe on the Army Transport Greenville Victory, bodies of Pfc. Lloyd L. Hoon, Ord, and Pfc. Richard T. Jefferies, North Loup, are listed. The ship carries 33 Nebraskans among the 3,734 American bodies.

Attend 4-H Camp at Long Pine

Over 400 4-H club members, leaders, county agents and state staff members attended a 3 day 4-H club camp at Long Pine June 24-25 and 26.

Those attending from Valley county were Mrs. Harold Armstrong, leader of the Hillside 4-H club of Arcadia and four of her club members, Alice Schultz, Roberta Brooks, Gladys and LaVonne Franzen; Mary Beth Chatfield of the Happy Circle Jr. club; Jeanette Kokes and Janelle Fuss of the Junior Priscilla club; and Katherine Helzer, home agent. The three days were crowded with supervised play, swimming, handicraft and singing periods.

Fall Fatal to Donnie Partridge

Donnie Patridge, thirteen year old son of Mrs. Frank Hopkins of Burwell and Leonard Patridge of Beatrice passed away Monday at the University Hospital in Omaha. He was seriously injured June 14, when he fell from his horse as it stumbled, going around the race track at the Rodeo grounds. He was thrown on his head causing a concussion from which he never regained consciousness.

The members of the Border-Line Livestock club attended the special meeting at Westcott church Monday night with three other clubs: The Dry Valley 4-H club, The Dry Valley Rope club and The Comstock Jolly Workers club. M. L. Gould and two other members of the extension office gave talks on judging and demonstrating.

Mr. and Mrs. Ivan Hunkins and family and Mr. and Mrs. Ernest Hunkins of Arcadia spent Sunday at Palmer in the home of Ivan's sister, Mr. and Mrs. Raymond Strong and family.

HOT WEATHER

Good health in hot weather is largely a matter of personal choice.

A few common sense practices will help us to live with summer and like it. Nebraska summers are hot and one needs to remember certain things that are good hot weather practices.

For example: drink plenty of cool (not ice) water; eat moderately of simple but a wide variety of foods; exercise daily in the fresh air and have plenty of air in sleeping rooms; take a fair amount of salt to replace large losses through perspiration; avoid alcoholic drinks; get plenty of sleep; keep clean; and don't worry. Do not overwork or overeat.

One of the essentials of summer comfort is the daily bath to wash away perspiration and with it body wastes eliminated through the pores. Relax tired muscles and strained nerves. There is nothing better than a leisurely tub followed by a short rest.

Take life as it comes in the summer. Live with it as comfortably as you can.

Supply Vitamins

Valley Bottling Plant Opens Operation In New Building

Ninety-six hundred bottles of soda pop in seven different flavors are now running daily through the new modernized plant of the Valley Bottling company in Ord.

Built by the brother-owners—Don, Faye and Ray Stewart—the new building is constructed of concrete blocks covered with stucco and re-enforced with steel. It is a one and a half story structure with ground space of 50 by 52 feet.

On the ground floor are the bottling room, office, bottle storage room and truck drive-in. The laboratory and storage space for syrups and mixtures are on the second floor.

Automatic Bottler.

The bottling room contains the latest style bottling equipment. This machinery consists of a bottle soaker, automatic bottler, carbonator and water filter. The soaker washes and sterilizes the bottles in a special solution then rinses them at a temperature of 150 degrees.

Most facilitating of the machines is the Dixie automatic bottler which squirts a measured quantity of syrup into the bottles as they pass on a circular revolving platform. Immediately afterward, the carbonation is injected and the bottle is capped—all in one operation.

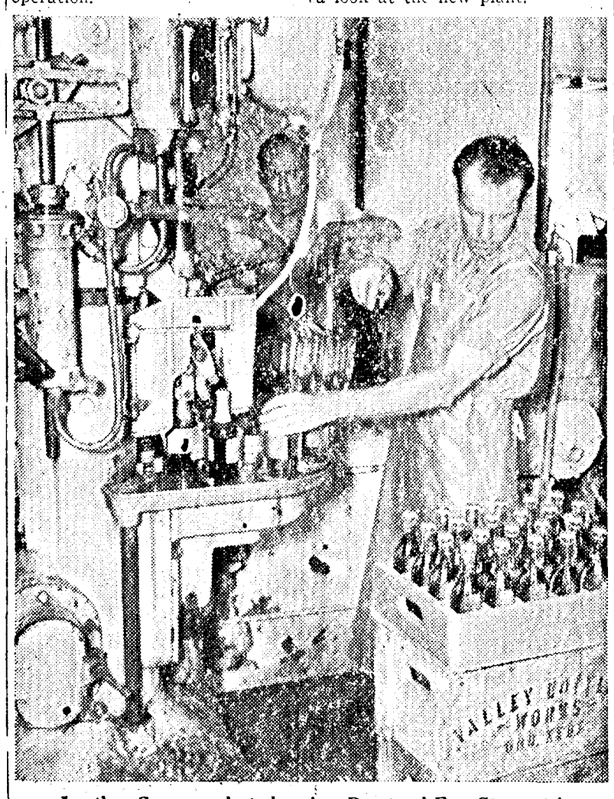
With a capacity of 400 cases a day, the plant serves an area within a 50 mile radius of Ord. Five men are employed at the plant. Two trucks are used for deliveries. In the change-over from operation at the former plant, only one town was missed although the machines were idle for several days, said Don Stewart.

Purity Assured.

In the laboratory, continuous test samples are analyzed in spot checks from bottled cases, according to Stewart. Tests are also made continually by a laboratory in St. Louis for purity and water, sugar and flavor content. The product is known commercially as Vess-Cola and is manufactured without caffein.

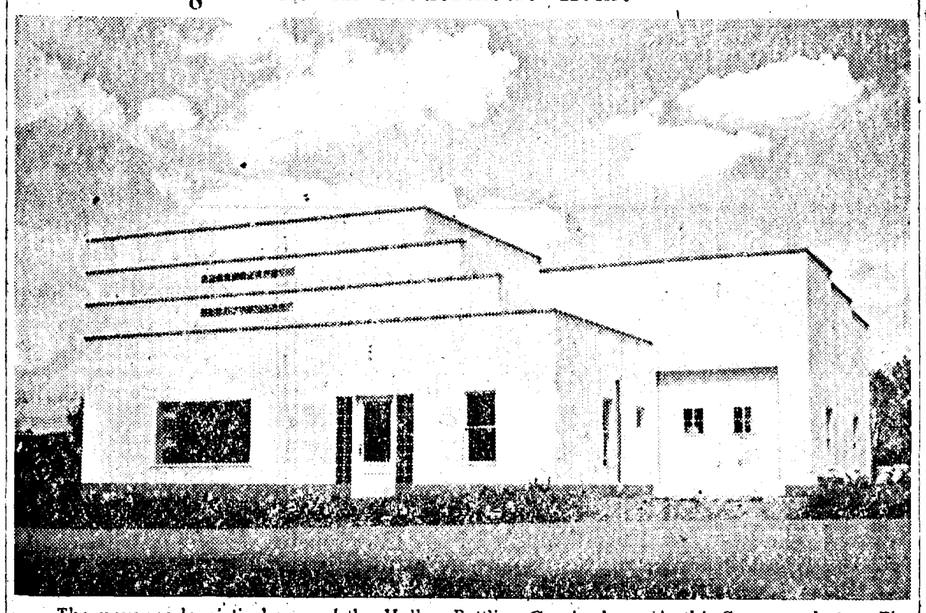
The Stewart brothers purchased the bottling works in 1915 to operate in connection with their dairy, which was founded about 30 years before by their father, W. J. Stewart. The dairy was sold last fall. The bottling company itself was started originally in 1905.

An open house will be held in the near future as soon as the paint trimmings are completed, Don announced. The "visitors welcome" mat will be out to encourage the general public to have a look at the new plant.

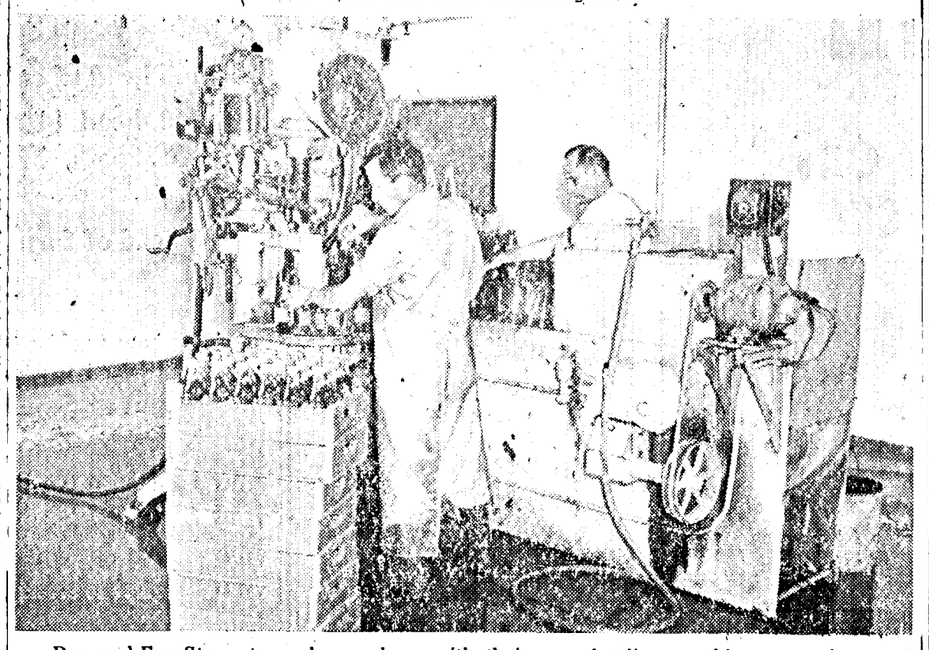


Another Swopes shot showing Don and Fay Stewart in action, trying to satisfy the thirst of the thousands of Valley county residents who drink "Ord" pop.

New Bottling Works In Modernistic Home



The new modernistic home of the Valley Bottling Co., is shown in this Swopes photo. The building is something new in construction, being made of cement blocks laid without mortar, and plastered inside and out. Steel rods hold blocks together.



Don and Fay Stewart are shown above with their new bottling machine, one of several pieces of equipment in their new building.

Land Bought for Implement Shop

Mr. and Mrs. Gus Schoenstein purchased the quarter block at the southwest corner of 17th and K streets from Vere A. Carson last week for a consideration of $6,700.

Schoenstein said he intended to move his Case implement business to the new location by fall. There are three buildings on the premises, he said.

Guests of Mr. and Mrs. George Radil and son Sunday evening were Mr. and Mrs. Anton Radil and daughters, Mr. and Mrs. John Benben, and Mr. and Mrs. Matt Turek.

Mr. and Mrs. Marion Lipinskid called at Anton Radils Sunday.

Burt Reineke is home on a short furlough from the southern harvest fields. He came home Monday with the Emil Smolik crew on account of heavy rains which hindered harvesting operations.

Mr. and Mrs. Joe Holoun and family attended the wedding of their nice and cousin, Ethelyn Hosek of Comstock, at the Geronium Catholic church Thursday morning. They were also dinner guests of Ethelyn's parents, Mr. and Mrs. Albert Kelso following the wedding and were present for the afternoon reception.

Mr. and Mrs. Jim Sedlacek were Monday callers at the homes of Mr. and Mrs. Stanley Vitek and Mrs. Frank Blaha.

Mr. and Mrs. Leonard Ptacnik called at the Alvin Maresh home Sunday evening.

Mr. and Mrs. Ernest Parkos and family and Mr. and Mrs. John Volf called at George Radil's Wednesday evening.

Mr. and Mrs. Holoun, Anton Radil and Chas. Vancura, sr., were business callers in Broken Bow Monday forenoon.

Mrs. Leonard Ptacnik and daughters spent Monday afternoon with her mother, Mrs. Lew Smolik, and Mrs. Emanuel Smolik.

Dick Tolen Writes of Experiences Gained At Cornhusker Boys' State

(Continued from front page)

There is no limit to what a person can do after the experiences of attending Boys' State, providing he takes advantage of all the things that were offered.

Outlines Activity.

I will try to outline the busy week of Boys' State to give you a picture of the activities. Registration was quite a hurried affair because 300 boys took part in it.

The Boys' State camp was divided up into eight towns that were supervised by councilors. The councilors were boys from the University of Nebraska. The work was quite a bit more interesting because the councilors were top Nebraska athletes.

Ord's own Gould "Fig" Flagg was councilor-at-large. The name of the town that I was in was "Taylortown." The councilors

were "Buck" Barger, and Ralph King, Nebraska's "Big 6" hurdle champ. Both boys were a great help to Taylortown.

Elections Held.

The first big activity was the campaign for various state, county and city offices. Primary election was held on Sunday. The general election was held on the next day.

The governor elected was a Chinese boy, Pon Chinn from North Platte. His race made no difference to the boy citizens.

I ran for secretary of state in the primary elections but was defeated. I also ran for the city council of Taylortown. Here it was that I was elected.

Every evening various men in the State gave very interesting lectures and talks. Talks were given by Wayne O. Reed, superintendent of public instruction; Governor Val Peterson; C. Petrus Petersen, the grand old man of the Nebraska legislature.

Officers of the state highway patrol gave a very interesting demonstration of guns.

Legislature Convenes.

During the day the legislature, county and city boards, and supreme court were set up to do their business. Supreme and county courts set up mock trial procedures.

In the city government we drew up ordinances and enforced them. This proved to be quite interesting and a lot of fun.

There was also time for sports, band and glee club. The games set up were horseshoes, softball, touch football and volley ball. The competition was quite high.

The camp was divided into two counties, and there were four towns in each county. Winners in each sport in one county played winners in the other counties. The champions of the camp played a team composed of councilors.

Many Activities.

Any one who cared could be in the glee club. There were quite a few who participated. Consequently, the glee club was a very good organization, and they put on some very good concerts. Those who brought instruments organized a good band.

Upon arrival at Boys' State an examination was given on Nebras government and current world wide affairs. The examination was quite hard. The highest grade was 93, which was quite a bit lower than the highest grade in previous examinations.

On the final day a trip was made to the state capitol where the Boys' State legislature was convened for the last time. At a noon banquet achievement awards and diplomas were handed out.

For A Better State.

I wish to thank the American Legion for selecting me to attend Boys' State this year. I would also like to say something about the new activities building that has to be built to accomodate the future Boys' State.

It is not a building alone for Boys' State but for all state activities. This project was a main issue at this year's Boys' State, and it is a great necessity to Nebraska. Contributions will have to be made to build this project.

For those of you who wish to see the activities of the state bettered by this project, make contributions to the American Legion. It is a worth while project and is for the betterment of the state of Nebraska!

Airport News

The storm did not do much damage at the airport. The damage to the east end of the hanger was fully covered by insurance and will be repaired soon.

There are now 25 students in training at the airport. Two new students that started this week are Leslie Scott, who is employed by Clare Clement, and Richard Mashall.

Keith Glaze, of Broken Bow, is the new owner of the BT-13 that has been stationed at the field here. Manager Gene Barnett had under-leased the plane from Rodney Keys of Winner, S. D. Glaze is in the furniture business, but wanted a plane. Mr. Keys wanted a house full of furniture so they made a deal. A house full of furniture for the BT-13.

Several pilots stopped to have their planes serviced at the Ord airport the past few days, including Zera Sell, of Arcadia; Paul Dwyer, of Elgin; Glen Lesler, of Broken Bow; Robert Marisch, of Spalding, Boyd Gregory, of Arcadia, and Clare Blakeman, of Norfolk.

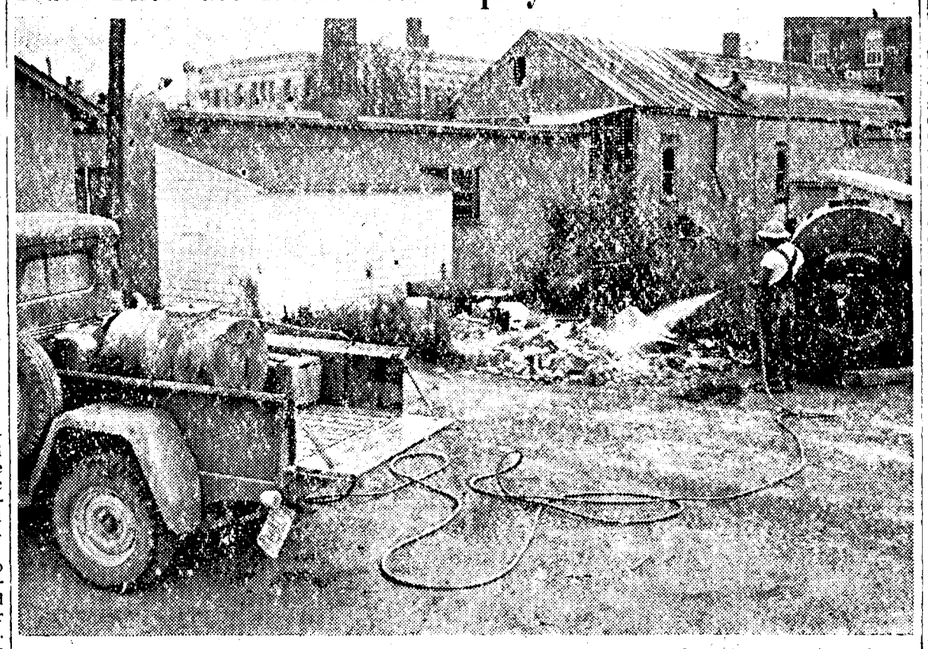
Trash Piles Get Insect Death Spray



Sprayers of the DDT-Chloridane solution in Ord's war on flies and mosquitoes move in on a trash pile in the alley behind the Riverview dairy. Voluntary contributions to the drive totaled $482, reported Floyd Beranek, president of the Cosmopolitan club which sponsored the campaign. From early estimates of the total spraying costs, it appears that some money will be left over to start next year's drive on the bugs. Pictured above is Richard Blaha wielding the business end of the sprayer, which was loaned by the county weed district.

Springdale vs. Mira Valley In Donkey Softball

Best Riders Billed To Win Burros Favored in Tussle: Prelims to Begin at 8:30

Ancient and mystic arts of riding a donkey have never been fully explained, but after the donkey softball teams of Springdale and Mira Valley herd their mounts through the game Thursday night, everybody will be expected to know.

The game is scheduled for the Ord baseball field. Special flood lights will be provided. Activities will begin at 8:30.

Pre-game betting odds favor the donks 15 to two. One veteran bookmaker disclosed confidentially that if there is any contest between players at all, the team conquering the stubborn burros will emerge victorious.

Some observers claim the donkeys are better at softball than the players. No players have yet discredited this claim.

Braying Benny, donkey union leader, emitted a lengthy hee-haw in an interview yesterday with a Quiz reporter. An interpreter translated the remark: "Wish they'd let my boys play the game while these local cookies carry us around the bases." Team managers had no comment on the statement.

Both teams will be riding a bunch of cantankerous, balking, but well trained donkeys furnished by Womack's Donkey circus. The animals always have plenty of comments for the umpires, players and the crowd. They have also been known to head for third base after a hit instead of first.

Grapevine rumors have it that pitchers "Dizzy" Dave Arnold and 'Spitball' Warren Studer are in such fine condition that they can almost toss the ball the full distance from the mound to home plate. The report was received skeptically in the donkey camp.

Details on team batting practice have so far been clouded by much secrecy. According to a few leaks, however, it seems that a long-eared burro, a ball and bat are a tough combination to get co-ordinated.

Several novelty preliminaries are scheduled before the game . . . just to get the players acquainted with the donks. Among these, a donkey milking contest with no holds barred will be attempted. A donkey polo game is also on the program.

The Ord baseball club, sponsors of the event, have promised to have a special committee available to point out the donkeys from the players. In any case, there will probably be a lot of jackasses on the field next Thursday night.

Arcadia Takes First In Loup Valley by Beating Mason City

Ord Plays Comstock Here Wednesday PM In Make-up Tilt

The Loup Valley league leadership changed hands Sunday as Arcadia bounced Mason City from the undefeated ranks with a well deserved 2 to 1 victory, on a grassy makeshift diamond at Mason.

In taking over the top spot the Huskies were forced to play heads up baseball for nine innings and nip several dangerous Mason rallies when the chips were down.

Once again Arcadia called upon the capable right arm of Bill Beasley to bring home the verdict, and after a shaky start the Huskie ace kept the potent bats of the Masonites at bay for the most part.

Lefty Dale Krueger lost his first league effort of the season, opposing Beasley on the hilltop, but his was a commendable chore to, and the large crowd that was on hand to witness the battle saw some of the finest pitching to be offered this year.

In the second of three league games played Sunday, Loup City won it fifth in a row by subduing Berwyn 8 to 2 at Loup City. The win placed the Loupers in undisputed third place ahead of Ord.

Novasad Wins Again

Bill Novasad was on the hill for the winners while Kyle Vinnedge went all the way for Berwyn to be charged with the loss, Berwyn's sixth in seven starts.

Last place Ansley absorbed a 19 to 3 setback at the hands of Comstock in game number three of the day played at Comstock. The loss was Ansley's eighth and the win was number three for Comstock.

The Litchfield-Broken Bow and the Ord-Miller games were postponed due to wet grounds and threatening weather.

But for several postponed games the scheduled would have reached the half way mark last Sunday. The Fourth of July holiday card starts the teams on the second cycle. Broken Bow plays at Loup City, Ord goes to Ansley, Miller invades Arcadia, Berwyn offers the opposition at Mason City and Comstock moves to Litchfield.

Ord meets Comstock this afternoon (Wednesday) on the local diamond in a make-up tilt which was previously rained out.

Standings:

Arcadia	7	1	.875
Mason City	6	1	.857
Loup City	5	2	.714
Ord	4	2	.667
Broken Bow	3	3	.500
Miller	3	3	.500
Comstock	3	4	.429
Litchfield	2	4	.333
Berwyn	1	6	.143
Ansley	0	8	.000

Swimming Pool About Ready; Awaits Sewer

Swimming pool construction moved toward completion this week with the final laying of concrete in the pool floor and the start of work on the 10-foot concrete promenade.

Difficulties were developing from the lack of sewer facilities. Frequent rains continued to fill the pool but there is no means of draining the water.

"Maybe the kids will have a swim in the new pool yet," commented one observer. By Wednesday, the pool still looked like it would take quite a rain to help the swimming situation.

Landscaping was progressing in the pool vicinity as a earth scraper distributed the dirt mounds left from the excavation. Work on the bath house was completed except for finshing touches on the roof. Installation of showers, toilets, benches and the cage and shelves for checking clothing is yet to be completed.

Construction of sanitary sewer is still on schedule for the future. Persons asked this week for an estimate on the pool opening were very hesitant to reply.

Light Cables Short; Temporary Wiring Put In

Temporary over-head wiring is now connecting many of Ord's street lights, as a result of grounding and shorting by underground conduits following the recent wet spell. Considerable work will have to be done to bring the city's street lighting to an adequate status, according to George Allen, city engineer.

The Quiz Calls On

A FARM NEIGHBOR

Mr. and Mrs. Frank O. McDermott

by John L. Ward

Frank O. McDermott, who will be sixty years old this fall, lives on the farm originally bought by his father, John McDermott, from the Burlington railroad in 1881. The original farm was the southeast quarter of section 31, township 18, west range 13, and the buildings are not far from the southeast corner of the place. He and the rest of the family were born and raised there.

John McDermott and wife came to Nebraska from near Streator, Ill., and located on their new farm in 1882. John was of Scotch descent and Mrs. McDermott was Irish. In addition to Frank, the living children are: Susie, who married George Small. They live at Soda Springs, Idaho; Will, who is a bachelor and who lives in a house of his own on Frank's farm; Mary, who married Will Wahl, lives with her husband at Worthington, Minn.; and Annie, widow of Lester Watts, lives in Grand Island. Three brothers and a sister have passed away.

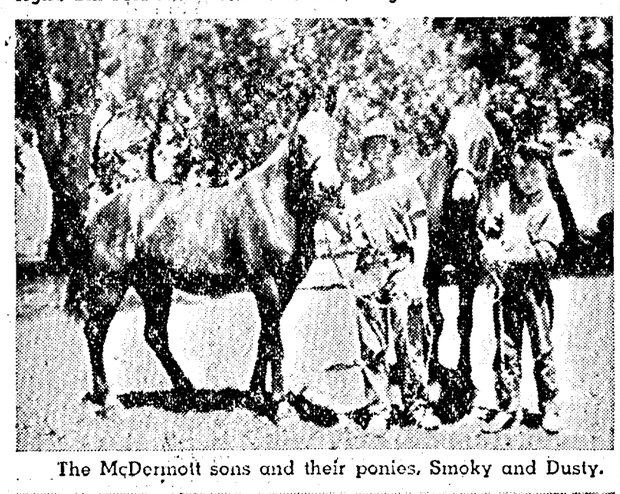
Feb. 15, 1931, Frank married Frieda Schoning at Fremont, Neb., a Lutheran minister officiating. Miss Schoning was attending Midland college at the time. The first years of their married life were spent on the old Kupke place in the southeast corner of Enterprise township. After a number of years they moved to the present James Vogeler place just north of school Dist. 46. Three years later they moved to the original home place, where they have made their home for the past five years.

The Frank McDermotts have four children, two girls and two boys. The eldest, Bernadine, received her grade schooling in Barker district and also in Dist. 46. For the past two years she has been attending high school at St. John's in Omaha, and is now home for the summer vacation. She has one hobby, tap dancing and acrobatics. In this work she has been in several programs in connection with her school work, and plans on making a career of it when her school days are over.

John, 13, is the oldest son, and finished grade school at Dist. 46 this year. The farm is really in Barker district, but Frank had arrangements made for the children to go to Dist. 46 because the roads were better in that direction. John expects to be a student in North Loup high school this fall, where he will devote mucho of his time to a course in agriculture. Asked about athletics, he said he was not interested, and that his educational plans would require all his attention in other lines.

The McDermott homes, Frank's on the right and Bill's on the left.

Standing, Mr. and Mrs. Frank McDermott. Seated, left to right, Bill McDermitt and Otto Schoning.



The McDermott sons and their ponies, Smoky and Dusty.

The McDermott children and their 3 collies.

The second son, Arden, likes to wear cowboy clothes, and looks fine in them. He is 12 years old and is as much at home on the seat of a tractor as he is on his pony. John also has his pony and can do anything with a tractor his father can. He is now recovering from a broken knee he suffered last spring when his foot slipped off the clutch and he was thrown to the ground. He has been wearing a brace for some time, but will be able to discard it in a few days.

The youngest daughter, Emilie, is 8 years old and will be in the third grade at Dist. 46 this fall. John will drive back and forth to high school and will take Arden and Emilie to and from school each day. Frank has gradually increased his land holdings until today he has 400 acres. To the home place he added an eighty on the west, and he bought a quarter section of pasture land one mile west and three miles south in Davis Creek township. Except for 35 acres of pasture, the home place is all under cultivation.

The McDermotts have 35 to 40 head of grade cattle on the place, including six milk cows. Frank feeds out about 50 head of cattle every winter, raising a few and buying the rest. He gets them in good shape, and once made such a good showing that he was given a special writeup in the Omaha papers. There are 120 head of spotted Poland hogs on the farm at present, with some Berkshire strain in them, as well as a little of the Hereford strain — hogs, I mean, not cattle. They raised Herefords for several years while living on the Kupke place, and were one family of a very few in the state to raise them.

Mrs. McDermott has two hundred small chickens and ninety old hens. The hens are white rocks and the chickens are Hampshire reds — chickens, I mean, not hogs.

There are several sheep and lambs on the place, Westerns they got from Bill Vogeler, who lives a mile north and has plenty of them. Frank was busy in the corn field, which was getting weedy due to the recent wet weather, and Mrs. McDermott and the children gave the writer most of his information.

They were especially good at suggesting subjects for pictures and helping to pose the hogs and ponies. The interesting pictures shown herewith are the result. The boys are especially proud of their ponies, which are named Smoky and Dusty. Smoky belonging to John and Dusty to Arden. They are planning to ride them at the horse show at the North Loup Pop Corn Days in September.

Another member of the McDermott family is Mrs. McDermott's brother, Otto Schoning. Otto lost his wife last spring, and, not being in good health, he now is living at the home of his sister.

Cornhuskers On Coast To Meet

California Cornhuskers 10,000 strong will gather for the annual summer Nebraska picnic on July 10 in Bixby Park, Long Beach, to celebrate 100 years of Nebraska growth in connection with Ft. Kearney's centennial anniversary.

Long Beach's Mayor Burton W. Chace (Stanton, Neb.) will give the welcome address. Paul S. Dietrick (York), president of the Nebraska society urges all California Nebraska friends to attend.

Last summer all Nebraska counties except one were represented, and 141 towns in southern California were registered.

Donna Manchester Wins Scholarship

Donna Manchester, daughter of Mrs. Agnes Manchester, has been awarded a scholarship given by the American Legion Auxiliary in the University school of nursing. This scholarship is a $200 cash award, to be used for books and other necessary expenses while taking nurses' training. Donna has been a student at the state university in Lincoln the past two years and is also attending summer school. She is taking a premedic course and will enter the University hospital in Omaha in August to begin her training. The scholarship was one of four given at this time in the state by the Auxiliary.

Donna Manchester.

When Donna graduated from the eighth grade she had the highest average in Valley county and she was valedictorian of her high school graduating class. She has always had an ambition to be a trained nurse and has been working hard toward that goal.

Tenderize the Corn

A corn kernel cutter to "tenderize" the corn on the cob before consumption has been patented. An arch-shaped handle and plate, fitted with a series of blades, reportedly does the trick. When drawn along an ear of corn it slits the kernels.

What's Ward's Cookin' Column

About three months ago, more or less, I quit writing this column as well as other material for the Quiz, for the reason that other work interfered, and the bad country roads made it impossible to get out and get the farm stories. I wanted to keep them going, as I felt that the reading public might miss them. At the present time I do not believe that anybody has realized they were not being printed, as nobody has taken the trouble to inquire about them. When my time comes to cash in, I guess the only sure way of keeping myself before the public is to have the treasury department print my profile on a new dime. Or perhaps the post office department will issue a special stamp for the occasion. But, after all, why should I want to be remembered at all?

The fact is, that, except for the select few I am happy to claim as friends, I would not care to be remembered by the multitude. I have always thought that it would be far better to really appreciate people while they are here to be appreciated. One of the finest fellows I ever knew was always doing something for somebody else, and nobody seemed to get around to doing anything special for him, until suddenly one day right in the prime of life the Great Reaper called him home. You should have heard the eulogies then. Everybody out on the streets telling each other what a fine fellow he was, and crying on each other's shoulders, possibly because he was no longer here to do nice things for them. Such a business.

A lot of funny things have happened since the last time I wrote this column, and some of them are now out of date. For example, there is the one about Tubby Tolen and his poppy day idea. Bright and early that morning Mark was strutting around the post office with a poppy in his buttonhole, and he took pains to call everybody's attention to it. Finally some sharp eyed chap discovered what it was that Marcus was trying to get everybody to find out, that the poppy was one put out in 1943 instead of 1948. He had a lot of fun with it, in fact, had done the same stunt for several years, but finally got around to buying one of the modern variety.

Last week I started out to make some farm visits west of town, traveling on foot. I didn't walk far, however. Cookie and Wilson were going out in the Economy Store truck and took me to the highway. After walking a hundred yards, along came Bud Kearns in a pickup and took me out to the 46 school corner. A little later Albert Peterson picked me up and took me on to the Roy Jacobs corner, and from there I walked the half mile to McDermotts. After eating dinner at the McDermott home, the boys took me over to Bill Vogelers, and stayed long enough to bring me back to the highway. On the way in a car passed me first, then a pickup, then a truck. Fourth and last came Eldon Lange with a tractor, and I had one wild ride into town, for which I was truly thankful.

The incident recalled to mind one that happened to me nearly sixty years ago. I cannot now recall just who the man was, but it might have been C. W. Noll. He was grading the road north from No. 10 school, and had just turned around to go north when we kids arrived at the corner. I trudged along behind for a short distance and then he called to the driver to stop and picked me up and set me on the platform from which he operated the machine. I could walk as fast as I rode, but I will never forget the thrill of that ride, or one a year or two later when I was permitted to sit on top of the threshing machine and take a ride. Those things would not appeal to the kids of today, when we have so many better vehicles on which to ride. Yes, the pleasures of life are all comparative.

One North Loup man proved the old saw that a little learning is a dangerous thing. He heard over the radio that the championship fight had been postponed, but was slightly confused as to the cause. He was heard remarking on the street that "They sure do funny things nowadays. Seems silly to postpone the big fight between Joe Louis and Jersey Joe Walcott just because the republican convention is in session!"

I thought with hundreds of others that the hail storm ruined the "Bread Basket" of Valley county, and, to a certain extent this was true. However, the rain that came to the rest of the county at the time worked wonders in the dry land areas, and there will be a mighty fine crop, especially of corn, over most of the territory missed by the hail. This will not recompense hundreds of farmers for their loss, but it will sure help keep up the average when all the crop returns are in.

5,006 dealers have gone to Standard Oil schools to give your car better service

Add more mileage to your gas supply
HERE'S HOW TO DO IT:
Keep your speed moderate—high speeds mean fast fuel consumption. Avoid "jack rabbit" starts—come to a gradual stop—don't idle your engine unnecessarily. See your Standard Oil Dealer for other ways to save gas—his training can help you. Standard Oil Company.

Anxious to serve you even better than ever before, Standard Oil Dealers eagerly attend our schools for advanced training. 5006 already have completed the course. 250 more start the course every two weeks at the 80 schools we operate. The course features one central idea, "Personalized Service"—for *you* the personal service you enjoy, for your *car* the individual attention it needs.

When your Standard Oil Dealer has mastered this training, and daily puts it into practice, he is awarded our Service Specialist emblem. When you see it hanging proudly inside his station, expect a little extra "pep" in his windshield cleaning, a little extra promptness and courtesy, a little extra attention to clean rest rooms. Expect your car to be handled with additional know-how and skill.

Paul Madsen fell down the basement stairs at the community building last Tuesday evening while roller skating. He attempted to go to the basement to adjust the blower and forgot to remove his skates. Several stitches were taken in his head where it was cut and he was badly bruised but by the last of the week was able to be back at work.

Rev. and Mrs. Ehret, Mrs. Harlon Brennick and Jeneane went to Omaha Monday where they were to take some lessons on the Hammond organ, in a three day class conducted by George A. Johnson. Mrs. Brennick is sent as church organist by the Seventh Day Baptist church and Jeneane's lessons were a gift of her uncle, Floyd Hutchins.

At the annual business meeting of the Seventh Day Baptist church held Sunday afternoon, Arthur Stillman was re-elected, moderatot; Mrs. Leona Babcock, clerk; Roy Cox, treasurer; Ava Johnson, pianist, Louise Brennick, organist; Jessie T. Babcock, historian; Myra Barber, news reporter; Mr. and Mrs. Menzo Fuller, social committee chairman.

Mr. and Mrs. Jim Coleman came over from Shelby Sunday afternoon. Janet stayed for the week and is a house guest of Burdette Mulligan.

Mr. and Mrs. Mark Tolen of Ord were Sunday evening callers at the home of Mr. and Mrs. Harry Tolen.

Walter Cummins went to Ord on the Friday afternoon bus.

Mr. and Mrs. George Maxson and Mrs. Alex Brown and daughters attended the wedding of Constance Brown, daughter of Eugene Brown, to Mervin Winter at the Zion Lutheran church in Scotia Sunday afternoon.

Miss Virginia Flint of Charleston, W. Va., is visiting relatives in this vicinity, having been called here by the death of her uncle, Will Flint who died at his home in Kearney and was buried Thursday at Cotesfield. Miss Virginia is the daughter of Albert Flint.

Guests of Mrs. Hattie Clement from Tuesday till Friday of last week were Mr. and Mrs. Albert Essling, daughter, Joan and two sons, Harold and Donald, of West Chicago. They had been on a trip to Yellowstone Park and stopped over with Mrs. Clement who is an old friend on their way home.

Mr. and Mrs. Joe Yandell of Enid, Okla., arrived Friday and are house guests of the Jim Vogelers while loking after their farms in this locality. Other guests for dinner and supper in the Jim Vogeler home Sunday were Ethel and Bill Vogeler.

Mrs. Joe Burson went to Wood River Friday for a few days. Her son, Jay, who is in the army and is located in California is also visiting in Wood River.

Mrs. Agnes Manchester went to Lincoln on the Friday morning bus to spend the weekend with her daughter Donna.

George A. Johnson gave a recital to an appreciative audience at the Seventh Day Baptist church Wednesday evening. An entirely different program than the one given in March was presented with the exception of a few numbers. An offering was taken and all over the expense of the recital will go to buy music for the church organ.

Mrs. Dorothy Switzer left Sunday for Elgin, taking Lucigrace and Walter to the home of her parents, Mr. and Mrs. Walter Nott for the month of July and Mrs. Switzer went on to Lake Forest, Ill., to attend a Y.W.C.A. school for Y.W. workers. Probably on her return to North Loup she will move to Grand Island to be ready to begin her work with the Y.W.C.A. there. One of Mrs. Switzer's many talents is giving book reviews and she was often called on by clubs and organizations for a book review. In packing and getting ready to change homes recently she ran across her notes for the reports she had given and was surprised to find that in the seven years she gave book reports two months of her time, 53 whole days, or 1500 hours had been spent in this work. Mrs. Switzer thinks every one should have some civic duty, but it is a good idea sometimes to look back and see where the time went.

Mrs. T. J. Hamer and Carolyn, Mrs. John Hamer and Gregory drove to Lincoln Thursday to see Gregory's doctor. Carolyn remained for the week with the Harold Portis family and Mr. and Mrs. L. C. Jensen.

Thelma Goodrich was able to be brought home from the St. Francis hospital in Grand Island Saturday evening after spending a week here following an appendectomy.

Walter Thorngate, Jr., (Bus), submitted to an emergency operation for appendicitis at the Clinic hospital in Ord Wednesday evening.

Mary T. Davis and Vesta Thorngate arrived home last week from a three weeks trip to Michigan and Wisconsin. Elsia Rood of Milton Junction, Wis., came home with them and will spend the summer here.

Darlene Brown of Grand Island was an overnight guest Saturday night in the Alex Brown home.

M-Sgt., and Mrs. John Farley who had been guests of the Alix Brown family left Thursday to spend a few days in Colorado Springs before going on to Spokane, Wash., where he is stationed with the U. S. Army air force.

Mrs. Ray Hill, Mrs. Bertha Eislie were guests of Mr. and Mrs. H. L. Gillespie at the cabin at Ericson the last of last week.

Roy Lewis returned to Omaha Tuesday for more medical treatments.

Mrs. C. J. Goodrich, Charles and Beverly, Mrs. Claud Barber and Mrs. Nels Jorgensen and Theron Barber were shopping in Grand Island Thursday.

Mrs. Clem Meyers, Clem, Jr., and Alice spent Saturday in Grand Island. Returning in the evening they found high water at Elba and went back to Grand Island where they spent the night with Mr. and Mrs. Charles Boldt and came home Sunday morning.

Mrs. George Gans of Dannebrog spent part of last week with the H. L. Klinginsmiths. Monday Mr. and Mrs. Klinginsmith took her home.

Ethel Jefferies Married Thursday

Ethel Jeffries, daughter of Mrs. Roxana Jeffries, and James W. Brooks, both of Huntington Park, Calif., were married Thursday, June 24, at Holbrook, Ariz., and come to North Loup, arriving Sunday, by way of Boulder Dam and the Grand Canyon. Mrs. Brooks has been teaching in the Los Angeles schools and her husband is in civil service with the navy at Long Beach. After a month in North Loup, they will return to California where they will make their home in Huntington Park. Mrs. Brooks will continue her work in the Los Angeles schools.

Mrs. Jane Calvin of Bremerton, Wash., has been a guest since Thursday of her brother, Charles Bridge and Mrs. Bridge. Sunday Mr. and Mrs. Bridge, Mrs. Calvin and the Adolph Sevenkers of Ord were guests of the Delbert Bridges.

Mrs. Harold Van Scoy and twin daughters of Los Angeles are guests in the home of her parents, Mr. and Mrs. Cliff Klinger. Friday evening they were supper guests of Mr. and Mrs. Delbert Bridge and Jackie.

Mrs. Iver Peterson and Larry, of Wood River, Mr. and Mrs. Jack McCormick and baby and Mrs. Delia Gebauer of Hood River, Ore., have been guests the past week of the Max Klinginsmiths. They left for their homes Saturday morning. Thursday evening they were all supper guests of Mr. and Mrs. Lyle Klinginsmith.

Mr. and Mrs. H.D. Kasson of Bremerton, Wash., spent Monday with the Max Klinginsmith family.

Mr. and Mrs. Alvy Moore of Grand Island were Sunday and Monday guests in the John Edwards home.

T. D. Meese of Hastings who had spent the past week with the John Edwards family went to Taylor Monday.

A son was born to Mr. and Mrs. Gene Van Osdol of Grand Island Saturday morning. Mrs. Henry Rich and daughter, Harriett, of Washington, are with the Van Osdols in Grand Island.

Mr. and Mrs. Merrill McClellan went to Grand Island Tuesday to meet Mrs. Sara Gogin of Redlands, Calif., who will spend the summer here.

Mr. and Mrs. Marvin Greenland and family of Arcadia were Sunday dinner guests of Mr. and Mrs. Earl Smith. In the afternon they and Mr. and Mrs. Smith were guests of the Wayne Sheldon family.

Mrs. Lyle Abney drove down from Ewing Thursday to attend the alumni banquet. She returned Friday morning.

Mrs. Charles Zangger probably deserves a medal for the effort she has made to have flower garden this summer. Early in the spring she planted a large flower garden in her front yard. About time for them to come up, her father-in-law, W. O. Zangger came up one day with the tractor and scraper and leveled off the yard, and it was Good-Bye, flowers. Undaunted, Mrs. Zangger planted more and this time her own father visited her from Hastings. He took the hoe, thinking to help, and cut off all the plants. Again, more seeds went in the ground and this time Charles was the guilty party. As the fourth planting was beginning to show through the ground, along came the flood and washed them all away. But Mrs. Zangger bought more seeds and hopes for some blossoms before frost.

Another rain here Saturday afternoon and night measured 1.08 inches. This made 4.12 since June 16, or in ten days.

Mr. and Mrs. Comfort Cummins and children were Monday guests of the Harry Tolen's.

Alumni Banquet Thursday Evening

More than forty North Loup high school alumni attended the annual mid-summer banquet held Thursday evening at the Portis cafe. Guests of the association were the senior class members of this year. Honor classes were the classes of 1888, 1898, 1908, 1918, 1928, 1938. Mrs. Lyle Abney, of Ewing, of the class of '18 represented her class. Vernon Williams and Mrs. Cecil Van Hoosen represented the class of '28 and Bill Sims and Everett Howell the class of '38. Out of town guests included Mr. and Mrs. H. D. Kasson of Bremerton, Wash.; Mrs. Bryan Portis of Scotia, Mrs. George Gans of Dannebrog, Mr. and Mrs. Clyde Baker and Mrs. Roger Benson of Ord.

Charles Zangger, president presided over the business meeting. Bill Sims was elected president, Corrine Meyers as president of the class of '18 is vice-president; Maxine Copeland is secretary and Merlyn Van Horn treasurer. Rev. W. G. Studer as guest speaker spoke on "What a Community Owes Its Youth." Following the program, all went to the community hall for a roller skating party.

Mr. and Mrs. Paul Meyer entertained at a wiener roast Friday evening. Guests were Mr. and Mrs. Hillis Coleman, Mr. and Mrs. Marion Jensen and Mr. and Mrs. Vic Cook.

Mrs. Paul Madsen and Maxine Copeland were hostesses at the meeting of the Rebekah lodge Thursday evening.

Mr. and Mrs. Alvin Tucker and Mr. and Mrs. Frank Wright and two children were Sunday supper guests of Mrs. Stella Kerr.

Mr. and Mrs. G. L. Carter and family attended church at the Catholic church in Elba Sunday where their daughter, Judy, took her first communion.

Mrs. Hugh Clement arrived home from Des Moines on the Monday morning bus. She had spent several days there with members of her family.

Carl Stude has been quite ill but is improving now. Mr. and Mrs. Floyd Wetzel were down from Ord to see him Sunday.

Mrs. S. C. Hawkes and Bob went to Grand Island where Bob had his tonsils removed.

Connie Eberhart and Jeanette Van Hoosen came home from Grand Island on the Friday evening bus.

Mrs. Joe Burson arrived home from Wood River on the Monday afternoon bus.

Miss Cecil Baker of Washington, D. C., spent last week with her sister, Mrs. Fred Bartz. This week she is visiting at Ewing before returning to Washington. This week another sister of Mrs. Bartz, Mrs. Irene Pingle, will arrive from San Jose, Calif.

Mr. and Mrs. Fred Bartz were Wednesday supper guests of Mr. and Mrs. John Kriewald. Mr. and Mrs. Kriewald left Thursday morning for their trip to the west coast. They planned to stop for fishing at Ogalalla and to spend July 4th at Colorado Springs.

Promotion exercises were held by the Primary department of the Methodist Sunday school Sunday morning. Next Sunday the Junior department will hold its promotion.

Mr. and Mrs. Claud Thomas went to Syracuse, Nebr., Friday morning where they were guests overnight of the Wyatt family. Sunday they were among one hundred relatives who attended a reunion picnic of the Rodaway family at the Syracuse park. Mr. and Mrs. Russell Williams and their three daughters of Omaha also attended the picnic and Mr. and Mrs. Thomas went home with them Sunday night. Monday Mrs. Williams and the girls came home with them to spend the week. Mr. Williams will come after them the last of the week.

The Dinner Bridge club surprised Mr. and Mrs. Frank Schudel on their silver wedding anniversary Wednesday evening when they met at the Portis Cafe for dinner and played bridge at the H. L. Gillespie home. A wedding cake was decorated with silver and a bride and groom. Mr. and Mrs. Schudel were presented with a gift.

Mrs. Grace Mayo and Mrs. Florence Hutchins were Saturday dinner guests of Dr. and Mrs. Hemphill.

Sunday guests of Mrs. Lulu Manchester were Mr. and Mrs. Everett Manchester of Grand Island and the Tom Williams family of Ord.

I. A. Manchester was in the Clinic hospital Saturday and Sunday.

Mr. and Mrs. Derwin White went to Omaha Tuesday morning where Mrs. White was to go through a clinic.

Officers elected at the Legion Auxiliary meeting held Monday night are Mrs. Virgil Annyas, president; Mrs. Gilbert Meyers, vice-president; Mrs. John Hamer, treasurer; Mrs. John Ward, secretary. Alice Meyers gave a very interesting report on her week at Girls State. Lunch was served by Mrs. Alex Brown, Mrs. John Ward and Mrs. Gilbert Meyers.

Mrs. A. Simpkins Buried at Scotia

Mrs. Anna L. Simpkins, 78, passed away June 21st at the Ainsworth hospital after weeks of suffering following a stroke. Burial was in Scotia, Nebr. A former resident of North Loup, Mrs. Simpkins was well known here. Anna L. Swan was born at Hebron, Ill., September 8, 1869. She came with her parents to Greeley county in 1878 and grew to womanhood in that locality. She attended the Greeley county schools, began teaching schools at the age of 17 and followed that profession for several years.

On November 23, 1892, she was married to John M. Simpkins. They lived on a farm in Greeley county and in the village of North Loup. In 1910 they home steaded in South Dakota and lived there several years. Following the death of her husband in 1920, she resumed teaching and made her home with her sister, Mrs. Ella Koeppen, at Ainsworth. She was a member of the W.R.C. and the Rebekah lodge at Ainsworth.

Survivors are three sons, Faye Simpkins, Yakima, Wash.; Ralph, San Gabriel, Calif.; and Merle of Ainsworth; also a sister and brother-in-law, Ella and Frank Koeppen, Ainsworth; five grandchildren and one great granddaughter. Funeral services were held at the Jessen funeral home in Ainsworth on Thursday and the body brought to Scotia for burial.

Barbara Parker of Hastings is spending the week with her sister, Mrs. Charles Zangger.

Maxine Copeland and Pete Zyntek were Sunday supper guests of the Glen Warners at Ord.

NOTICE AND INSTRUCTIONS TO BIDDERS

1. Sealed proposals for the construction, with materials furnished by **Loup Valleys Rural Electric Membership Association** (hereinafter called the "Owner") of a rural electric distribution project to be financed pursuant to a Loan Contract between the Owner and the United States of America acting through the Administrator of the Rural Electrification Administration (hereinafter called the "Administrator") and to be known as **Project Nebraska 93A Valley** which is to be part of the System known as **Nebraska 93 Valley**, will be received by the Owner on or before **10:30 o'clock a. m., Central Standard Time, July 22, 1948**, at its office in **Ord, Nebraska**, at which time and place the proposals will be publicly opened and read.

2. The Project will be approximately 359.61 miles in length, and located in **Garfield, Greeley, Sherman and Valley** Counties, in the **State of Nebraska**, all as more fully described in the Plans, Specifications and Construction Drawings therefor hereinafter referred to.

3. The Plans, Specifications and Construction Drawings together with all necessary forms and other documents for bidders may be obtained from the Owner, or from the Engineer **Raymond H. Reed & Co.**, at the latter's office at **2305½-13th St., Columbus Nebraska**, upon payment of twenty-five dollars ($25), all of which will be refunded to each bona fide bidder within ten (10) days after the bid opening. The Plans, specifications and Construction Drawings may be examined at the office of the Owner or at the office of the Engineer. A copy of the Loan Contract may be examined at the office of the Owner. Each set of Plans, Specifications and Construction Drawings will have a serial number, given by the Engineer, and the number of each set with the name of the purchaser will be recorded by the Engineer. Bids will be accepted only from the original purchasers or from some other qualified Bidder to whom such a set has been transferred by the original purchaser, providing that in the event of such transfer the Engineer shall receive from the original purchasers, at least forty-eight (48) hours prior to the scheduled bid opening, written notice of such transfer, together with the name of the party to whom the transfer has been made.

4. Proposals and all supporting instruments must be submitted on the forms furnished by the Owner and must be delivered in a sealed envelope addressed to the Owner. The name and address of the Bidder, its license number if a license is required by the State, and the date and hour of the opening of bids must appear on the envelope in which the Proposal is submitted. Proposals must be filled in in ink or typewritten. No alterations or interlineations will be permitted, unless made before submission, and initialed and dated.

5. Prior to the submission of the Proposals the Bidder shall make and shall be deemed to have made a careful examination of the site of the Project and of the Plans, Specifications, Construction Drawings, Description of Assembly Units, and forms of Construction Agreement and Contractor's Bond on file with the Secretary of the Owner and with the Engineer, and shall become informed as to the location and nature of the materials and the proposed construction, the transportation facilities, the kind and character of soil and terrain to be encountered, the kind of facilities required before and during the construction of the Project, general local conditions and all other matters that may affect the cost and the time of completion of the Project. Bidders will be required to comply with all applicable statutes, regulations, etc., including those pertaining to the licensing of contractors and the so-called "Kick-Back Statute" (48 Stat. 948) and regulations issued pursuant thereto.

6. No proposal will be considered unless the Bidder, in the Bidder's Qualifications, shall furnish evidence, satisfactory to the Owner and the Administration, that the Bidder has the necessary facilities, ability, and financial resources to construct the Project in accordance with the Contract. Bidder who has not already completed construction contracts in a total amount of not less than one hundred thousand dollars ($100,000) for REA Borrowers, shall file the Bidder's Qualifications comprising pages 41, 45, and 46 with the Engineer at least forty-eight (48) hours in advance of the scheduled bid opening.

7. The Owner reserves the right to confine its consideration of the several bids to one type of design regardless of alternate types of design which may be specified in the Plans and Specifications and offered in the Proposals.

8. In estimating the least cost to the Owner as one of the factors in deciding the award of the Contract the Owner will consider, in addition to the bid prices of the various assembly units, variations in the cost of operation, maintenance, repairs, and interruptions to service and in any other items of cost; the experience and responsibility of the Bidder.

9. The time of the completion of the Project shall be as specified by the Engineer.

10. Each Proposal must be accompanied by a bid bond countersigned by a Nebraska Resident Agent of Surety or a certified check on a bank that is a member of the Federal Deposit Insurance Corporation, payable to the order of the Owner, in an amount equal to five percent (5%) of the maximum bid price. If a Proposal is not accepted or if a Proposal is accepted and a satisfactory Contractor's Bond is furnished by the successful Bidder, the bid bond or check will be returned in each instance within a period of thirty (30) days to the Bidder furnishing same, except that each Bidder agrees, provided its Proposal is one of the three low Proposals, that, by filing its Proposal together with such bid bond or check in consideration of the Owner's receiving and considering such Proposal, said Proposal shall be firm and binding upon each such Bidder and such bid bond or check shall be held by the Owner for a period of not exceeding ninety (90) days from the date hereinabove set for the opening of Proposals.

11. The Successful Bidder will be required to furnish a Contractor's Bond on a form and with sureties satisfactory to the Owner and to the Rural Electrification Administration, in a penal sum not less than the Contract price.

12. Should the successful Bidder fail or refuse to execute a Contract and to furnish a Contractor's Bond satisfactory to the Owner and the Administrator within ten (10) days after written notification of the award of the Contract by the Owner, the Bidder will be considered to have abandoned the Proposal and the amount of the certified check or other security delivered with the Proposal shall there upon be due and owing to the Owner as liquidated damages for such failure or refusal and the Owner may thereupon award the Contract to any other Bidder. The term "successful Bidder" shall be deemed to include any Bidder whose Proposal is accepted after another Bidder has previously refused or has been unable to execute the Contract or to furnish a satisfactory Contractor's Bond.

13. The Contract, when executed shall be deemed to include the entire agreement between the parties thereto, and the Contractor shall not claim any modification thereof resulting from any representation or promise made at any time by any officer, agent or employee of the Owner or by any other person.

14. The Owner reserves the right to waive minor irregularities or minor errors in any Proposal, if it appears to the Owner that such irregularities or errors were made through inadvertence. Any such irregularities or errors so waived must be corrected on the Proposal in which they occur prior to the execution of any Contract which may be awarded thereon.

15. The Owner reserves the right to reject any or all Proposals. The attention of Bidders is specially called to the desirability of a proper balance between prices for the respective Assembly Units. Lack of such balance may be considered as a reason for rejecting a Proposal.

16. All Project lines to be constructed have been, or before the date of the bid opening will have been, completely staked, except as follows: **No Exceptions.**

17. The Owner has on hand or has assurance of delivery of all material necessary to permit the Project to be released for construction except for conductor and transformers. In order to avoid construction delays and periods during which a Bidder would be on the job without materials, an alternate bid is being requested as follows:

All Sections
Alternate No. 1:
Section 1 - Pole Units
Section A - Pole Top Assembly Units
Section B - Pole Top Assembly Units
Section C - Pole Top Assembly Units
Section M - as follows:
M2 - Ground assemblies
M51 1 Project Sign
M32 - Pole Key

Bids may be submitted for All Sections or Alternate No. 1 or both. In submitting a bid on All Sections, the Bidder understands that he will have the right to suspend work when Sections 1, A, B, C, and M, as indicated, are completed, if the Owner does not have on hand at least 95% of the conductor and transformers necessary to complete the Project. The Bidder will be required to resume work within ten (10) days after the Owner, with the approval of the Administrator, has requested him to do so, provided that the Owner shall have on hand not less than 95% of the conductor and transformers necessary to complete the Project. Thus, there will be no period during which the Contractor will be required to be on the job when materials are not available. The Owner reserves the right to accept Alternate No. 1 or all Sections, or reject all Proposals. In determining the lowest bidder, Alternate No. 1 bids will be compared only with Alternate No. 1 bids and All Sections bids only with All Sections bids.

Hessian Flies Invade Wheat, Controls Urged

Serious Wheat Pest Found For First Time in County, Damage Is Already Heavy

A new threat to Valley county wheat was reported this week by County Agent C. C. Dale.

Hessian fly—probably the most serious insect pest of wheat— has already done considerable damage to several fields. Dale urged farmers to set up controls immediately. First among these was the plowing up of all stubble and volunteer wheat and rotating other crops to this year's wheat fields.

The insect was identified by the county agent and his report was verified at the University of Nebraska college of agreiulture. Commented Dale:

"This is the first time I have ever found Hessian fly in Valley county. We have always been considered in an area where the fly is not a factor in wheat growing."

Discovery of the insect was made in wheat on the Forrest Watson farms in Vinton township. Later reports indicate that a number of other farms have been hard hit, said Dale.

Damage 40 Per Cent

Dr. J. W. McGinnis disclosed that a field on his farm in Vinton has suffered considerable damage, presumably from Hessian flies. Anton Welniak of Elyria reported a field where damage is estimated at 40 per cent.

The outbreak this year means that farmers are going to have to practice control measures, Dale warned. Basis of control lies in the life cycle of the fly, which has two broods each year. This cycle is as follows, he said,

"Right now the flies are in the flaxseed stage and are difficult to find because they are pupating in a hard brownish covering resembling a flaxseed. This stage is between the larval worm, which does the damage, and the adult fly stage.

"The insects will remain in the flaxseed stage until August or September when they emerge as flies. As flies they live only a few days during which time they deposit eggs on young wheat plants. When hatched, the worm-like larvae feed on the young wheat.

"Larvae pass into the flaxseed stage before winter and go through the winter months in that stage. In April another brood of flies will appear and produce the damaging larvae. After these larvae have done their damage, they enter the flaxseed stage as found at present."

Control Measures

Four important steps in control are listed by Dale:

1. Plow under all stubble as deeply and early as possible, followed by compacting the ground by harrowing or rolling. The newly hatched flies will be unable to emerge.

2. Destroy all volunteer wheat on which the flies can deposit their eggs.

3. Delay planting until after the "fly free date" which will be announced by the Nebraska college of agriculture — usually about Sept. 20.

4. Rotate other crops to fields used this year for wheat.

An effective control program will require the cooperation of all farmers in wheat areas. One infested stubble field left unplowed and with volunteer wheat will produce enough flies to infest a whole neighborhood, Dale cautioned.

According to the county agent, he is convinced that the increased use of combines is responsible for the appearance of Hessian fly. Combined fields are likely to produce considerable volunteer wheat. If left unplowed in the fall, these fields permit the fly to spread beyond its normal range.

City Taxes Upped; Council To Spend $6000 More Next Year

Levy Up 1.30 Mills; Increased Valuations Hike Total Revenues

Although the city of Ord plans to raise about $6000 more from direct taxation in the 1948-49 fiscal year than last year, the mill levy will be increased only 1.30 mills.

The city council passed their official appropriation ordinance Tuesday night calling for a total levy of 18.95 mills. Last year's levy was 17.65. Estimated valuation this year is two million as compared with $1,800,000 a year ago.

Biggest increase in expenditures will be in the road fund and park funds, both of which have had heavy demands the past year. A considerable amount of park improvement and maintenance has been scheduled for the park, and the new swimming pool will need a subsidy each year for operation.

The road fund, which ended the fiscal year with an overdraft of nearly five thousand dollars, will get the benefit of a 3 mill levy in place of 1.95 last year. With an estimated $1500 in gas tax collections, councilmen expect the city to be able to keep up the extensive street improvements necessary and at the same time bring the fund out of the red inside of two years.

The city's general fund, which had a $9400 balance, was whittled from 4.75 mills to four mills. All other funds remain the same. A shift in accounting tosses the airport levy of one mill into the refunding bond levy, where it will be earmarked for retirement of bonds. Councilmen feel that income from the field will be sufficient to pay maintenance expense of the port.

In all, Ord will levy $38,000 in taxation funds for the fiscal year as compared with $32,000 last year.

In a session which lasted till midnight, councilmen approved the liquor license of Frank Coufal, new owner of the Ord Package store, and approved the appointment of Joe Ramaekers as Police Judge for the city.

Pool Ready August 1.

Dr. F. L. Blessing, mayor, told the council that he believed August 1 would be the opening date of the new swimming pool. "The sewer contractor assures me that he will be here the weekend of July 16," Blessing said," and not very much work remains to be done. It may be possible that we can open the last week in July."

City dads also granted Dillo Troyer, owner of the old Milford building on the square, another period of grace to remove the structure. Troyer appeared before the council and said that he would definitely remove the structure next spring and at lack of building material j[illegible]ed him from doing so this

Purchase Flusher.

The purchase of a 1000 gallon street flusher with mounted pump was approved by the council. The new equipment, costing about $2000, was demonstrated here last week, will be used to flush paved streets, sprinkle gravel and dirt streets, and also serve as an emergency fire unit.

Guests this week end of Mr. and Mrs. Charles Clark of North Loup will be Mrs. Clark's brother and his wife, Mr. and Mrs. Whitney Martin of New York City. Mr. Martin is a byline sports writer and columnist for the Associated Press, world's biggest news gathering agency.

Funeral Services For Mrs. Prince

Born in Czechoslovakia, Pioneer Valley Resident Passes Away at Age of 76

Funeral services were held at the Hastings-Pearson chapel Saturday afternoon at 2 o'clock for Mrs. Joseph Prince, who died Thursday at the Clinic hospital. Mrs. Prince suffered a stroke Monday and did not regain consciousness.

Rev. B. A. Filipi of Clarkson officiated at the ceremony. Joe Knezacek, Frank Rybin, Don Stewart, Joe Ramaekers, Joe Smolik and Eldon Sich were pallbearers. Don Auble and Mrs. Mark Tolen sang three songs accompanied by Mrs. Orin Kellison at the organ.

Antonia Jankovec had lived in Valley county for nearly sixty years. She was born in Czechoslovakia, May 11, 1872, the daughter of Mr. and Mrs. Jacob Jankovec. She came to America in 1891 to her sister, Mrs. James Cech. After being employed in Ord two years she was married to Joseph Prince on April 11, 1893. They resided 11 miles west of Ord, in Geranium township. It was here they had experiences in pioneer life with hail, drouth and chinch bugs. They farmed on their farm until 1910. Then they purchased a small farm north of Ord in order that their children could have the privilege of higher education. After living there 33 years they moved into town. Last spring they celebrated their 55th wedding anniversary.

She is survived by her husband, Jospeh Prince, three children; Major Frank Prince of New Cumberland, Pa., and Louis Prince of Compton, Calif., and one daughter, Mrs. Emma Prince Murray of Denver, Colo. One brother and one sister preceded her in death. A brother, Frank Jankovec, of Monterey, Calif., a sister, Mrs. Anna Vodchnal, of Ord, and a brother, Joseph, and a sister, Elkrtina in Czechoslovakia, also survive her.

Burial was in the family plot in the Ord cemetery.

Hot Rods Fizzle 2nd Day Better; Car Hits Fence

Crowd of 2,000 Disappointed Sunday; 830 Attend Monday Two Mishaps, No Injuries

After getting off to a slow first-day start, the Hot Rods shifted into high gear Monday to turn in a real racing day.

Nearly 2,000 track fans packed the grandstand on Sunday to watch the highly touted racers. Nine events later they filed out of the stands, hot and dusty—and disappointed.

Commented one gray-headed spectator to his wife: "You can see more speed on the highway these days."

When they wound up the Hot Rods on Monday, only a trickle of the previous day's crowd was on hand. Attendance was estimated at 830 on basis of gate receipts.

But the racing was played to a different tune. Spectators were on their feet, wide-eyed, and fists clenched numerous times.

In the third event, red racer 41 spun into the west turn, veered into the wire fence and neatly removed four of the posts. Driver Gallo walked away uninjured, thanks to his safety belt. Damage to the car amounted to a ripped up rear end, wheel and tire.

A three-car dead heat in the sixth event added to the thrills. The six lap race was led off by White 2, but he slipped into fourth on the fifth loop leaving Yellow 99, White 8 and Black 77 to cross the finish hand-in-hand. A three lap playoff gave prize money to Yellow 99.

First class driving in the 10 lap finale furnished the fans a 1:52.26 timing for the five miles. White 2 held his lead for eight times around, relinquished the spot to Black 77 for lap nine, then pulled back to the front position for the finish. Blue 1 and Yellow 99 fought back and forth for third and fourth places with the blue racer finally taking the duel for third.

Sunday drivers on the fair grounds track brought the stands up when Yellow 99 snapped an axle and tossed a wheel in the air while crowding the top of the east turn. The driver was only shaken and managed to bring the car to a stop without further mishap.

Monday evening, about 300 holiday celebrants rounded out the extended week end with a successful initiation of the new outdoor dance pavilion at the fairgrounds.

The 60 by 80 foot concrete floor is topped with a marblized coating which makes a smooth surface. Final completion of the pavilion will give Ord an outstanding dance floor in this area.

Cool breezes favored the opening night crowd, and 50 gallons of mosquito spray kept discomfort from insects to a minimum. Dancers commented that they would be looking forward to coming events at the "slab."

Fritz H. Kuehl Is Appointed To Valley SCS Board

Fritz H. Kuehl, life-long farmer near Ord, was named this week to the three year appointive term on the board of the Valley County Soil Conservation district.

His appointment was made by the state committee of soil conservation districts. He replaces Leo Long.

The 56-year-old Kuehl was born on the farm where he now lives. Commenting on the soil conservation practices, he said, "I have lived on this farm all my life and thought I knew the place like the palm of my hand until the boys from the SCS showed me a few things."

A staunch supporter of conservation, he said that he and his cropland renter, John L. Koll, combined contouring and damming this year. "It sure did hold the water where it belongs," he added.

I'm finding out by increasing crop yields and less soil erosion that farming the soil conservation way really pays," he said.

Other members of the Valley County SCS district are Henry Enger, chairman from Ord; Ed Schudel, secretary-treasurer of North Loup; Harold Nelson, Sumter; and Anton Welniak, Elyria. The board serves the county without salary.

900 Gallons DDT Sprayed On Ord

Operation Costs $269 In First Two Day Campaign; Fund Left for Next Spray

DDT spray gunners in Ord's campaign against flies and mosquitoes withdrew from the field this week after firing 625 pounds of the chemical mixed into 900 gallons of poison solution.

Insect casualties were reportedly high. But no one would venture an estimate on the number.

Along the by-roads and back alleys throughout the town lay a white-washed looking path where the deat mist fell. Also along the path lay the winged pests, their heels in the air. No longer would they wander from trash pile to dining room.

But there were still mosquitoes, operating by the squadrons, who had apparently been in their front yard tree-roosts when the sprayers went down the alleys. Said Henry Janus, spray pump operator: "The city-wide spray was a first time experiment. We couldn't be sure how far the money would stretch — some of the mosquitoes escaped."

On the accounting ledger, cost of the fly control program totaled $269 after the first two full days of spraying. A few scattered mopping up operations were carried out after the initial drive on alleys, city dump and park.

With a total of approximately $182 collected by public donations, nearly $213 will be available for the 1949 spray, said Floyd Beranek, president of the sponsoring Cosmopolitan club.

DDT for the spray cost a total of $107. There were 18 sprayer loads each containing 17 pounds of DDT mixed to make 50 gallons. Thirteen quarts of chlordane costing $36 were used. Labor costs totaled $126. Two men worked 21 hours at $5 an hour and one for the same time at $1 per hour.

Ortgies Infant Suffers Scalds

Ten-Month-Old Child In Serious Condition From Hot Water Burns In Bath

Omaha doctors said Wednesdy that Joan's condition was "very serious." She was placed in an oxygen tent soon after arrival, according to a telephone message from Ted Slobaszewski to Dr. Norris.

Joan Ortgies, ten-months-old daughter of Mr. and Mrs. Earl Ortgies of Ord suffered a severe scalding Tuesday when she apparently turned on the hot water in a bath tub where she was left while her mother was on an errand. Her condition is "serious."

She was rushed by her parents to the University of Nebraska hospital at Omaha in a plane piloted by Ted Slobaszewski. The child's injuries were described as "advanced second degree burns" by Dr. H. N. Norris, who attended the little girl before the take-off.

Mrs. Charlie Houser, who lives in the apartment below the Ortgies, discovered the baby about 12:45 p. m. She said she was attracted to the bathroom by thumping noises.

She found Joan sitting in the steaming water. The scalds extended from her hips to her feet. Dr. Norris was summoned immediately. The child was treated at home by the doctor.

Mrs. Ortgies returned home soon after the accident. She had been gone for approximately 15 minutes.

Mr. Ortgies, an electrician engaged in wiring farm homes, was working in the country at the time. Several persons joined the search for him. Dillo Troyer drove as far as Arcadia in the hunt. He was finally located by Mrs. Roy Dye on the Charles VanCura, jr., farm home west of Ord.

First Volunteer Is Laid To Rest Here

Military Services Held Tues. for Edwin Swanek Who Was Killed in New Guinea Battle

Military services were held Tuesday morning at 9:30 for Pfc. Edwin A. Swanek, who was killed in action near Maffin, New Guinea. Services were held from Our Lady of Perpetual Help church with Father Thomas Siudowski officiating. Rosary was recited Monday evening at 8 o'clock at the Hastings- Pearson chapel.

Edwin, the son of Mr. and Mrs. Paul Swanek was born in Valley county on March 9, 1922. On March 7, 1940 he volunteered, the first to volunteer under the age of 21 from Valley county.

He is survived by his parents, five brothers and six sisters, Mrs. Teresa Michalski of Loup City, Joe Swanek of Hazard, Mrs. Josephine Beran of Cairo, Mrs. Martha Walahoski of Elyria, Bernard Swanek of Ord, Mrs. Bernice Turek of Ord, Mrs. Luella Wortman of Wood River, Louis, Francis and Melvin are still at home and Leonard is at Timken, Kas.

Ord Wallops Ansley 12-0

Marching 12 men home out of 11 hits, Ord's Loup Valley league sluggers walloped an outmatched Ansley team which failed to muster up a single score on their home field Sunday.

Rickli, Beran and Philbrick featured the game's batting with three-base hits. Rickli collected three hits altogether in three times at bat, and reached first once on a walk.

Pitcher Patrick struck out 12 Ansley men and allowed only seven hits. Only one error marred the Ord team's play.

Next week the local squad will travel to Arcadia. Other games: Miller at Berwyn, Mason City at Broken Bow, Loup City at Comstock, and Litchfield at Apsley.

Tax Collections Reach $485,076

School Receipts Half Total 1947 Tax 76 Per Cent Paid; Ord Collections $35,130

Valley County Treasurer George Satterfield disclosed this week that $195,076.06 in taxes were collected for the year ending June 30. Collections include personal, real estate and auto taxes.

Of the 1947 taxes, 76 per cent are now paid, said Satterfield. Past years are 99.5 per cent collected, he added.

Nearly half of the reported total was received by school taxes which amount to $211,115. Next in size are the state taxes of $90,996, county taxes of $69,511 and townships $336,815.

In the collections for towns, Ord reported $35,130, Arcadia $6,327, North Loup $1,091 and Elyria $210. Other receipts were for old age $5,836, county weed district $4,773 and miscellaneous $111.

Entertained at Supper.

Alex Cochrane Takes Scottsbluff Job

Coach Here Since 1941 Goes to Bigger School; Had Fine Record

Alex Cochrane, sr. has been appointed head football coach at Scottsbluff high school, it was announced by the Scottsbluff board of education Tuesday.

Cochrane, member of the Ord high school coaching staff since 1941, and head coach since 1944, has had an enviable record here in all sports. Cochrane coached teams have been consistent winners in track, basketball and football, and have been consistently ranked in the state's top ten of their class.

In addition to school duties, Cochrane has been director of the summer recreation program here, and was recently appointed manager of the Ord swimming pool.

The announcement that Cochrane would leave Ord came as a complete surprise to the Ord school board, according to secretary Ralph Norman.

"His contract with us run for another year, and I'm not in a position to say whether the board will accept or reject his resignation so that he may take the Scottsbluff job," he said. Cochrane's salary here has been $3200 a year, plus his fees as director of the recreation program.

Norman said that it was "still too early to begin thinking of a successor." Dick Peterson, present assistant coach, is being considered for the job, the Quiz learned.

Award to Skolils In Drainage Suit

A judgment of $225 was awarded to Mr. and Mrs. Joseph Skolil in District court Friday for water damage to their land allegedly resulting from a drainage ditch dug on land owned by Lydia Kokes.

The plaintiffs were also granted a permanent injunction by Judge William F. Spikes to prevent any further drainage from the Kokes land than occurred naturally prior to construction of the ditch. Land involved lies about five miles north of North Loup.

During the two and a half day trial, testimony disclosed the ditch was dug in June last year shortly before the big flood. The Skolils claimed water stood several inches deep on their land. They had asked $500 damages.

A cross petition filed by the defendant was dismissed by Judge Spikes. It had asked damages of $3,500.

Seventeen witnesses were called to testify at the trial. Those appearing for the plaintiffs were Raymond Pocock, engineer from Ord; Russell Jensen, Scotia; Emanuel Petska, county surveyor of Ord; E. B. Weekes, real estate appraisor of Ord. From neighboring farms were Leo Shimek, Delbert Bridge, Mrs. Lydia Garbacz, and Paul Wietzki.

For the defense, the following witnesses testified: A. J. Van Antwerp, county surveyor from Broken Bow, Adolph Kokes, W. O. Zanger, Leo Long, Joe Cernik, Frank Cernik, Edward L. Kokes, Rudolph Krakulik and Ernest Horner.

Visit Colorado.

Dr. and Mrs. F. L. Blessing and Al spent last week in Colorado where they attended the wedding of Al's cousin, John Kilgore, and Jane Erode at Denver and visited points of interest in the mountains. They had dinner with Mr. and Mrs. Ralph Misko at Eaton and were guests of Mr. and Mrs. Vern Weller of Colorado Springs.

Gets New Thrill On July 4th

The George Allen family got an added thrill July 4 when out for a ride west of town. They were driving along when they landed in the middle of a washed-out bridge. The washout near the Chas. Brim farm was unmarked and they were over the first hole before they discovered the second. George says they were traveling just the right speed, enough to get the wheels over the first hole and were able to stop before they fell into the second. No one was seriously injured except George's feelings, he says, because they had to walk back to town. The next day a wrecker went out and brought the car back to town.

Temperature Up Over Last Year

Mercury Averages 91-67; Best Wheat 32 Bushels; Government Price $2.05

With the recent wet weather definitely shut off, temperatures for the week were served up to Valley county residents on steaming platters, hotter even than a year ago.

The mercury nudged 91 in Ord last Thursday for the high mark so far this season, according to Observer Horace Travis. On the same evening the column dipped to 61—low for the week. Only one day—Saturday—failed to mark into the 90's.

High and low temperature averages were 91 and 67. A year ago during the same week, averages of 83 and 62 were recorded with the lowest single day a chilling 54.

While temperatures sizzled, the harvest was going ahead full blast. A slight pinch developed from a combine shortage. Albert Jones of Ord toured into Texas and returned with two of the machines.

But the wheat is flooding in. Best yield to date is 32 bushels reported by the Farmers elevator on Emil Smolik's 62 acres at the old Kapec farm southwest of Ord. The grain weighed 62.5 pounds per bushel.

Average wheat yields, however, were reported around 15 bushels. John Skala, of the AAA, observed that yields were about half of last year's exceptional crop. Jack Rashaw brought in 17 bushels from the Earl Leonard place in Mira valley.

Wheat Pegged $2.05.

As the wheat moved toward the

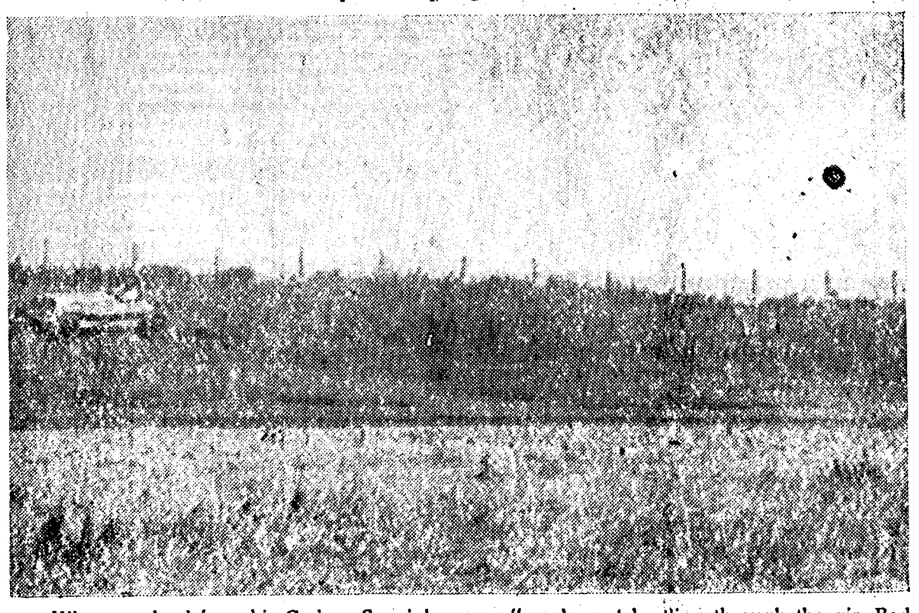
Loses Wheel, But Escapes Injury



When a wheel from his Codner Special came off and went hurtling through the air, Red Fitzwater, Denver driver had quite a busy time but managed to get his car under control. This remarkable shot by Ed Swopes shows the racer's wheel flying through the air with Fitzwater's hot-rod dragging dirt.

North Loup

Bridal Couple Honored.

A reception honoring Mr. and Mrs. Leonard Klanecky, married last week, was held Sunday, July 4 at the home of the bride's parents, Mr. and Mrs. John Edwards of North Loup. Dinner for the fifty guests was served cafeteria style and small tables were placed on the spacious lawn. The bridal table was centered with the three tier wedding cake, topped with a miniature bride and groom. Mrs. Chas. Kasson, aunt of the bride, baked the cake. Red roses, tall white candles and white streamers completed the decorations.

The More Telephones There Are The More Value to You

More than likely, you have a telephone because you want to reach other people and allow them to reach you. Perhaps you have never stopped to consider it, but the more people you can reach the more valuable your telephone service becomes.

If yours were the only telephone in the world it would be nothing but a museum piece. Connect it to one other telephone and it begins to have some use. Connect it to more and more telephones and it becomes more and more valuable.

Your telephone's value is increasing every day. During the past five years we have installed 4438 additional telephones in this area. And there are more to come, just as soon as we can provide the service.

Lost Horses Found on Island

The team of horses driven from the pasture of the H. S. McOstrich farm during the hail, wind and rain storm June 16 were found last week nine days after the storm and one day after Mr. McOstrich put an ad in the Quiz telling of their loss.

Mrs. John Long was out working in her garden when she kept hearing horses neighing. Mrs. Long had read of the loss of the team and discovered two horses marooned on an island in the river. She carefully marked the spot she was standing on and pointed her hoe in the direction she saw the horses and went to the phone and called the McOstrich farm.

The horses refused to cross the channel to get back on the north side of the river and had to be brought to Ord where they could cross on the bridge.

Palmer Keeps League Lead; Dannebrog Routs Farwell; All Visiting Teams Lose

One close battle, one with skyrocketing scores, and two lopsided contests filled in the Sherman-Howard league schedule Sunday.

At Ashton a determined home team ran five batters across the plate in the eighth inning to take the game from North Loup by a score of 5 to 4. The Valley county crew had the game cooled with their four run lead until the enemy's fatal flourish.

A ninth inning chance to save the game failed. Both teams chalked up eight hits, but North Loup led in errors with six to Ashton's four.

Palmer lads maintained their league lead when the game on their home diamond with Grand Island developed into something like a track meet with a total of 29 runs. The cellar G. I. team claimed ten of the markers while Palmer ran away with 19 in the seven inning tilt.

Nine runs in the first two innings at Dannebrog gave the Danes a rout over Farwell which ended in a score of 10 to 2. Farwell collected two in the second but went scoreless for the remaining innings.

Playing on their own field, the Elba nine scored four runs to each one of Cushing's and then piled another on top to bring the final tally up 21 to 5.

When the score were all counted Sunday, every team that played at home was listed in the win column. No box scores were reported for the Elba-Cushing game.

Comstock Takes Protested Game From Ord 6 to 5

A Comstock batter who struck out, but who still went on to score the winning run on his three strikes handed Ord's Loup Valley Leaguers a 6 to 5 defeat last Wednesday on the Valley county diamond.

The game, a postponment from May 30, was finished under protest by the Ord club. League managers will meet soon to issue a final decision in the dispute.

With Comstock at bat, the incident occurred in the first of the ninth inning. There were no outs and Stewart was on first, when Tvrdik struck out, but ran to first because the catcher dropped the ball.

The ball was put back into play before the umpire was notified that Tvrdik was on base. Although ruled as out by the official, the runner remained on the field by Comstock's insistence.

Ord drew first blood in the contest with a score in the second. Comstock went ahead with two runs in a brief fourth inning rally. The spirited ninth racked up three runs for each team, including the disputed score for the visitors.

Dutch Rickli, Ord's third baseman, poked out a three-bagger for the heavy hit of the fray. Tvrdik of Comstock scored on a two-base hit besides his strike-out run. Shorty Stull racked up two runs for Ord.

Pitcher Rich Beran delivered his "whammy" for 13 strike-outs of Comstock players and gave up no walks. Comstock pitchers, Monroe and Barnhart each fanned four and Monroe turned in two walks.

Lt. Petska At Virginia Camp

Jerry Petska, jr., recently commissioned a second lieutenant in the army air corps, is now attending an eight weeks training school at Camp Lee, Va.

Enlisting when he was 18, Petska served approximately three years during the war. Part of this time was spent at a base in England from which he flew 31 missions as turret gunner on a bomber. After a short intermission in civilian life following his discharge, he re-enlisted and has been stationed at Grand Island.

A holder of the silver star, the 23-year-old Petska was a staff sergeant at the time of commissioning. His wife and year-and-a-half-old son, Lee, have joined him in Virginia. He is the son of Mr. and Mrs. Jerry Petska, sr., of Ord.

Card of Thanks —

We take this means to express our sincere gratitude for the many courtesies and sympathizes extended to us during the recent bereavement caused by the loss of our wife and mother.

In Memoriam

In loving memory of Mrs. Joseph F. Holoun, sr.
July 11, 1947.

There's an open gate at the end of the road through which each must go alone.
And there in a light we cannot see
Our Father claims His own;
Beyond the gate our loved one
Finds happiness and rest
And there is comfort
In the thought
That a loving God knows best.

TEMPERATURE UP OVER LAST YEAR

(Continued from front page)

bins, prices were pegged at $2.05 under government loans, according to Paul Owen, chairman of Valley county AAA committee. This gave wheat an eighteen cents boost over last year. The guarantee in 1947 was $1.87.

To be eligible, wheat must grade No. 3 or better, or No. 4 or 5 on test weight only in approved storage. Moisture limit on winter wheat is 14 percent and 14½ on spring wheat. Loans on barley, rye and oats are also offered. Loan interest is three percent per annum.

Markets, too, were keeping pace with the activity. Hogs showed the way, scoring a 50-75 cent advance that cleared butchers at $22.00-$29.50, the latter a price untouched since last October.

Markets Active.

Among recent Omaha sales:

Walter Foth, 21 hogs, wt. 138, $22; Walter Fuss, 24 hogs, wt. 316, $23.50; Everett Boyce, 36 spring lambs, wt. 83, $31.75; William Peterson, 6 hogs, wt. 255, $27; Gewicki & Rikli, 28 steers, wt. 1202, $36.75; Orel Koelling, 21 steers, wt. 1226, $36.50; Orel Koelling, 23 steers, wt. 1126, $36.75.

In Wheeler county—Elmer Hallock, 12 steers, wt. 941, $35.50. In Garfield county—Joe Lech, 13 steers, wt. 1195, $35.50; Charles Lech, 9 steers, wt. 1108, $35.50.

Grain

Last week the grain was carrying quite a little moisture but the grain coming in this week has dried out so that it is safe to store. We are in the market for your wheat, rye, oats and barley and will pay as much as the Omaha market will allow. As this is written we have quite a lot of bin room and we are getting cars as they are needed. If you are sending your grain to market from the combine we would appreciate a chance to bid on it and we are sure that you will be very well pleased with our grades and weights. Let us know if you need a truck as they are available most of the time; on short notice, but we would like to have as much time as you can give us.

Twine

If you are using a binder to harvest your grain we have a good supply of Binder Twine on hand. This is Mexican Twine and is guaranteed to suit you or bring it back and you will get your money back. We have sold Mexican Twine for several years and its gives satisfaction.

Feeds

Our line of feeds is complete, Hog Feeds, Cattle Feeds or Poultry Feeds. Come in and see us for anything you need in feeds. We have just unloaded a load of Conkey Cattle feeds. Beefmakr in 12%, 20% and 30% protein.

Now its proved quality becomes more impressive than ever

...AND CHEVROLET'S LOW PRICES

are even more attractive than in the past!

FIRST in Value...

FIRST in Big-Car Quality at Lowest Prices...

FIRST in Registrations

NOT only does Chevrolet stand out as the first and only low-priced car with all the following major advances which comprise the soundest and best in modern motoring . . . not only does it offer all these major advantages of Big-Car quality at lowest prices . . . but it offers them at prices that are now definitely and decisively lower than those of any other car that even remotely approaches it in quality!

It's the first and only low-priced car with the original and outstanding Unitized Knee-Action Ride. It's the first and only low-priced car with a world's champion Valve-in-Head Engine. It's the first and only low-priced car with the enviable Body by Fisher. It's the first and only low-priced car with the triple safety-protection of Fisher Unisteel Body-Construction, the Unitized Knee-Action Ride and Positive-Action Hydraulic Brakes.

And yet, despite the fact that CHEVROLET AND ONLY CHEVROLET IS FIRST to offer all these major advancements of low-cost motoring, it holds an even greater price-advantage and gives you even more value for your dollars in comparison with other automobiles today than at any previous time in Chevrolet history!

Mrs. Asa Anderson, sr., phone 229, Burwell, will accept your Quiz want ads, subscriptions, etc.

Mr. and Mrs. Eldon Davis came from Lincoln Friday to spend a few days with their parents. Sunday a fishing trip with a picnic was enjoyed at Swan Lake by Mr. and Mrs. Davis, Mr. and Mrs. Raymond Johnson and Thelma. On Monday the Davis' returned to their home stopping at Grand Island where they had dinner with a sister and family, Mr. and Mrs. Joy Lathrop.

Mrs. Phoebe Bolli was taken ill several days ago and is recuperating at the home of her son Eldon and family.

Peggy Jo Wagner came on the bus from her home in Scotia Tuesday and spent the week with her grandparents and aunts, Mr. and Mrs. Frank Wagner, Helen and Naoma. Sunday her parents Mr. and Mrs. Mark Wagner came for her and they drove out to the Leonard Wunderlich farm where there was a family reunion of the sisters and brothers. Those present were Mr. and Mrs. Bernard Wunderlich and family and Mr. and Mrs. Jack Ryan and daughter of Creighton, Nebr., Miss Cline of Lincoln, Mr. and Mrs. Mark Wagner and family of Scotia, Mr. and Mrs. Raymond Wunderlich of Burwell.

Mrs. Al Larson and Mrs. "Whitey" Olcott drove up the Calumus last Wednesday and spent the day fishing for blue gills. They came home with their limit, besides a nice bass caught by Mrs. Olcott.

A group of nineteen members of Chapter J. C. of the P. E. O. gathered at the L. B. Fenner home Wednesday afternoon for a surprise party, honoring the birthday of Mrs. Fenner. The birthday cake baked by Mrs. Henry McMullen and ice cream was served to the guests. Friday evening the same group of ladies enjoyed a picnic at the Burwell park honoring Mrs. Kenneth Parsons of Neligh.

Q. T. Anderson and his two sisters, Mrs. Mattie Fickle and Mrs. Norman Johnson went to Chambers Monday to spend the day with another sister sister, Mrs. Charles Tangeman and family.

Nuptial Mass Solemnized Sat. at Sacred Heart

Miss Patricia Ann Anderson, daughter of Mr. and Mrs. Guy R. Anderson of Ainsworth, formerly of Burwell, and Paul T. Hoefs, son of Mrs. Gerhard Hoefs Scheer of Wood Lake, were married Saturday morning at ten o'clock in Sacred Heart church, Long Pine, in the presence of an overflow attendance of relatives and friends. Rev. R. F. Barry performed the church rite, with Donald Stone and Gerald O'Kief acting as acolytes.

Two seven branch candelbra and many other lighted tapers, vases of red and white roses, sweet baby breaths, pink and white carnations and palms decorated the altars. Four Prie Dieu within the sanctuary added to the colemnity of the ceremony.

The bride, attired in a white net-lace illusion with a long train and finger-tip veil with coronet looked lovely. She was escorted to the altar by her father. She carried a bouquet of white roses and carnations and a white pearl-covered prayer book with white streamers.

She was attended by her sister, Dorothy Anderson, who wore a green velva-rae dress with gloves and net, and carried a bouquet of roses and carnations. Matron-of-honor was Mrs. Veronica Lawse of Ft. Madison, Ia., sister of the groom, who was dressed in a pink velva-rae gown, with gloves and net. She also carried a bouquet of roses and carnations.

Peggy Ann Lawse, a niece of the groom, and Corrie Lea Heelan, both dressed in white formals, acted as flower girls. Paul Lawse, nephew of the groom, dressed in white suit, was ring bearer.

The groom was attended by his brother, Donald.

The ushers were James Anderson, brother of the bride, and Richard Lovejoy, of Valentine.

Mrs. Anderson wore a blue formal with white accessories ornated with pink and white carnations. The groom's mother was attired in a peach formal with gold accessories, and pink and white carnation corsage.

Mrs. Monica Helgert, sister of the groom, at the organ, played the processional and recessional and accompanied Mrs. Doris O'Keefe of Wood Lake, who sang "On This Day," "Aye Maria" and "Ave Sanctissiama."

After the wedding a reception was held in Sacred Heart church parlors, under the direction of the Ladies Altar society. A dance and repast was held later in the evening in Wood Lake which was largely attended.

After a short wedding trip to points west, the young couple will make their home near Wood Lake. The bride's traveling suit was a two piece dress of navy blue with white accessories.

The young couple are popularly known in their community. The groom is a life-long rancher of Cherry county; his bride, is a teacher.

Out-of-towners present at the ceremony were Mr. and Mrs. Thomas Lawse and family of Ft. Madison, Iowa, Thomas Helgert, Racine, Wisconsin; Mrs. Monica Helgert, Mantowoc, Wisconsin Mr. and Mrs. George Johnson, Elgin, Nebr.; Mr. and Mrs. Ral Dill and Mrs. Sallie Sass, West Point, Neb., Mrs. H. L. Buell, Mrs. Paul Engler and Mrs. Floyd Lackaff, Bassett, many relatives and friends from Valentine, Ainsworth and Wood Lake.

Early Days Recalled In Meeting of Pioneer Girls in Burwell

Effie Wilson Cram was hostess to a group of ladies at her home Friday afternoon July 2, 1948.

Those present were Josie Bales Lowery, Cora Anderson Johnson, Annie Ballagh Chambers, Bessie owse Key, Mattie Anderson Fickle, Emily Gumb Thomas, Mabel Rowse Graves, Hattie Gumb Ballagh, Dora Rowse Beat, Emma Lowery Rowse, Beulah Chambers Anderson, Faye Campbell Butts, and Mildred Chambers Owens. Nearly all these ladies are daughters of early settlers of the Ballagh community and so they might be called the "Ballagh-Girls."

The afternoon was spent in visiting. The main topic, the early days of northern Garfield county. Recalling old names and places brought back many very pleasant memories.

Several of the ladies brought along their hobbies, such as scrap books, early day photographs, snap shots of grandchildren, etc.

A letter was read which had been received by Mrs. Thomas from Mrs. Joanna Ward of Enid, Oklahoma who, long ago, lived near the Ballagh post office.

Mrs. Emma Rowse brought several of her lovely crocheted centerpieces. Crocheting is her hobby.

The writer was especially interested in Mr. Crams old scrapbook. It contained pictures color of advertisements of e days. They were, we believe, forerunner of the present d popular cartoon. Also among h collection were many school card bearing the words, "Reward of Merit," these cards were highly prized by pupils in the early day schools. There were many name cards, too. Those about the size of the one time popular "calling card", only these cards have a fancy colored picture pasted "hinge-fashioned" over the name. Young people delighted in exchange of name-cards as they were called.

The old time school autograph album and the where-abouts of early school teachers came in for their share of discussion.

Mrs. Cram's hobby room was visited. We wish we had had time to learn the history of many of the pieces in her hobby case. There were vases, pitchers, glasses, mugs, what-nots etc.

Also displayed in this room is Dr. Cram's dog collection. There are large dogs, small dogs, gold dogs, silver dogs and what have you! There is also a wonderful collection of buttons and many other things.

A dainty lunch of strawberry shortcake and coffee was served by two granddaughters, Sharon

What's Ward's Cookin' Column

The county records have been checked up to and including the first half of the year 1883. Here is given the items of interest to be found in the commissioners proceedings for the last half of 1883. A. S. Adams and 10 others asked that a new voting precinct be laid out, which was done and was called Eureka. It included all the present area of the township of the same name, and included a part of the west side of what is now Elyria township, the east line running north and south one half mile west of the present village of Elyria, then an unknown quantity. The line ran north to the North Loup river and followed the river to the north line of the county.

The above A. S. Adams lived on Turtle creek and east of the east line of Eureka as it is constituted today. The house of John W. Job was to be the place for holding meetings. H. J. Wells, J. B. Fisher and Mr. Job were to be judges of election and A. J. Smith and James Bowen were to be clerks of election. Smith lived about where the John Lech place now is, but the writer is not certain of the location of the other persons mentioned.

The petition of Oscar Babcock and others, asking for a bridge across the North Loup river near North Loup was received and the clerk was ordered to advertise for bids on its construction. This bridge was placed where it is because the river runs out of Valley county at that point and Greeley county was not interested in building a bridge across the North Loup river near North Loup at that time. Under other conditions the bridge might have been placed directly east of North Loup instead of where it is.

Aug. 3, 1883, the county clerk was instructed to advertise for bids for the construction of a bridge across Messenger creek, forty feet long and 12 feet wide. A petition by A. H. Thompson and others for a bridge across Jack canyon (Happy Jack's canyon) near Goodenow, was laid over.

Sept. 17, 1883, the board took up the matter of the bridge across the river near North Loup, and awarded the contract to Oscar Babcock, who was to build a bridge 111 feet long and 12 feet wide, according to specifications then on file. The location was given wrong in the minutes, which put it at or near the south line of section 25, township 18, range 13, which would be directly east of North Loup. At this point the river is about a mile over in Greeley county. Later on the location was correctly given as the north line of said section 25. Arthur Lapham resigned as county commissioner and his resignation was accepted.

Changes in precinct line were being made rapidly. Oct. 2, 1883, a petition from Arcadia precinct, asking that all of township 17, range 15, be made a separate precinct and be called Hayes Creek precinct, was presented and given favorable action by the board. A. Fradenburg, George Coleman and McClement were to be judges and J. P. Brown and J. Z. Flagler be clerks of election.

Also all of township 18, range 15 and eleven sections of the west part of Mira Creek precinct were to be made into a separate precinct to be called Vinton. Mira Creek at this time included the rest of Enterprise township and all of Davis Creek township. The judges for Vinton were to be George J. Byington, Charley Bowers and Samuel Luce, and the clerks were to be O. M. Stacy and F. Hollingsworth. The voting place in Arcadia was changed to the home of James P. Cook, and all of township 18, range 16 was to be taken from Arcadia and attached to Liberty precinct, which then took in part, if not all of the present Geranium township.

William Belcher was awarded the contract for the Messenger creek bridge in the amount of $275. The meeting of Nov. 12 was for the allowing of bills and no other business was transacted. W. J. Wilson, at that time one of the officers of the Valley County Agricultural society, was refunded taxes for 1882, as it was shown that he did not arrive in Ord township until May 4, 1882.

Block 68, original townsite of Ord, was appraised at $35, and was sold to Aaron Russ. The county clerk was instructed to advertise for bids for the erection of a frame building for county officers, same to be 20 by 30 feet in size with ten foot walls and partitioned across the building, and also a fire prof brick vault attached to it, 10 feet wide by 5 feet long and 7 feet high. It is doubtful if the building was ever built, as the new court house, no. 2, was built by O. S. Haskell in 1884.

Nov. 28, 1883, it became apparent that D. P. Davis had been elected to take the place of Arthur Lapham, on the board, as his name appears on one committe. A number of persons who had bought town lots on time were having trouble paying for them, and the board extended their notes for various periods of time. Arthur H. Schaefer of North Loup had been elected county clerk at the November election and his bond was approved.

At the meeting of Dec. 26, Commissioner D. P. Davis was appointed to go to Omaha and procure plans and specifications for the building of the Valley county court house. H. C. Perry was instructed to examine the records of Peter Mortensen, county treasurer, preparatory to final settlement, which indicated that a new treasurer had been elected also. Among the bonds approved were those of A. D. Robinson, county treasurer, John Mosher county judge, and H. B. Shirley coroner. This brings to an end the proceeding of 1883.

SHEER TRAVEL MAGIC

THIS is the Buick America's car buyers are buzzing about. This is the one with travel magic flowing all through it.

This is the ROADMASTER with Dynaflow Drive*—where Main Street's dense traffic, the inviting open road and the long, stretching hills are bossed with equal ease by a toe-touch.

What's Different About DYNAFLOW DRIVE*?

To an efficient new pump (left above), Buick engineers have added a true turbine (right) and an ingenious new supercharging assembly (in hand) which produce a torque-boosting action in starting and accelerating. The result is the first device on any American passenger car which employs liquid to fill the function of both the clutch and the usual low, second and high gears. The clutch pedal is eliminated and a simple control gives you manual selection of power ranges and direction.

*Optional at extra cost on Roadmaster models only.

Here you let your left foot idle comfortably wherever you wish—there's no clutch pedal to push, *ever*.

Here your mind's free completely of remembering when to shift—no gears ever shift anywhere in the car.

Here, you glide over ground and grades in swift and utter smoothness as constant and unbroken as Niagara's flow.

For here you have the only passenger car in America where liquid replaces both the usual clutch *and* the low-second-high gear sequence of conventional transmissions.

Here you sit in blissful ease while the power plant itself meets and masters the thousand and one situations that come up in travel.

Gentle grades, steep hills, long straightaways, stop streets—once your lever's set, you simply step on the gas—and take them all in liquid-smooth luxury!

Does all this sound fabulous? It is.

So fabulous that folks are signing up in droves for the '48 fashion plate with this new-wonder drive.

So to take command of this traveler-touched-with-magic, come see us quickly and get your order in.

We'll take it in sequence whether or not you have a car to trade.

NOTICE AND INSTRUCTIONS TO BIDDERS

1. Sealed proposals for the construction, with materials furnished by Loup Valleys Rural Electric Membership Association (hereinafter called the "Owner") of a rural electric distribution project to be financed pursuant to a Loan Contract between the Owner and the United States of America acting through the Administrator of the Rural Electrification Administration, (hereinafter called the "Administrator") and to be known as Project Nebraska 93A Valley which is to be part of the System known as Nebraska 93 Valley, will be received by the Owner on or before 10:30 o'clock a. m., Central Standard Time, July 22, 1948, at its office in Ord, Nebraska, at which time and place the proposals will be publicly opened and read.

2. The Project will be approximately 359.61 miles in length, and located in Garfield, Greeley, Sherman and Valley Counties, in the State of Nebraska, all as more fully described in the Plans, Specifications and Construction Drawings therefor hereinafter referred to.

3. The Plans, Specifications and Construction Drawings together with all necessary forms and other documents for bidders may be obtained from the Owner, or from the Engineer Raymond H. Reed & Co., at the latter's office at 2305½ 13th St., Columbus Nebraska, upon payment of twenty-five dollars ($25), all of which will be refunded to each bona fide bidder within ten (10) days after the bid opening. The Plans, specifications and Construction Drawings may be examined at the office of the Owner or at the office of the Engineer. A copy of the Loan Contract may be examined at the office of the Owner. Each set of Plans, Specifications and Construction Drawings will have a serial number, given by the Engineer, and the number of each set with the name of the purchaser will be recorded by the Engineer. Bids will be accepted only from the original purchasers or from some other qualified Bidder to whom such a set has been transferred by the original purchaser, providing that in the event of such transfer the Engineer shall receive from the original purchasers, at least forty-eight (48) hours prior to the scheduled bid opening, written notice of such transfer, together with the name of the party to whom the transfer has been made.

4. Proposals and all supporting instruments must be submitted on the forms furnished by the Owner and must be delivered in a sealed envelope addressed to the Owner. The name and address of the Bidder, its license number if a license is required by the State, and the date and hour of the opening of bids must appear on the envelope in which the Proposal is submitted. Proposals must be filled in in ink or typewritten. No alterations or interlineations will be permitted, unless made before submission, and initialed and dated.

5. Prior to the submission of the Proposals the Bidder shall make and shall be deemed to have made a careful examination of the site of the Project and of the Plans, Specifications, Construction Drawings, Description of Assembly Units, and forms of Construction Agreement and Contractor's Bond on file with the Secretary of the Owner and with the Engineer, and shall become informed as to the location and nature of the materials and the proposed construction, the transportation facilities, the kind and character of soil and terrain to be encountered, the kind of facilities required before and during the construction of the Project, general local conditions and all other matters that may affect the cost and the time of completion of the Project. Bidders will be required to comply with all applicable statutes, regulations, etc., including those pertaining to the licensing of contractors and the so-called "Kick-Back Statute" (18 Stat. 918) and regulations issued pursuant thereto.

6. No proposal will be considered unless the Bidder, in the Bidder's Qualifications, shall furnish evidence, satisfactory to the Owner and the Administration, that the Bidder has the necessary facilities, ability, and financial resources to construct the Project in accordance with the Contract. Bidder who has not already completed construction contracts in a total amount of not less than one hundred thousand dollars ($100,000) for REA Borrowers, shall file the Bidder's Qualifications comprising pages 41, 45, and 46 with the Engineer at least forty-eight (48) hours in advance of the scheduled bid opening.

7. The Owner reserves the right to confine its consideration of the several bids to one type of design regardless of alternate types of design which may be specified in the Plans and Specifications and offered in the Proposals.

8. In estimating the least cost to the Owner as one of the factors in deciding the award of the Contract the Owner will consider, in addition to the bid prices of the various assembly units, variations in the cost of operation, maintenance, repairs, and interruptions to service and in any other items of cost; the experience and responsibility of the Bidder.

9. The time of the completion of the Project shall be as specified by the Engineer.

10. Each Proposal must be accompanied by a bid bond countersigned by a Nebraska Resident Agent of Surety or a certified check on a bank that is a member of the Federal Deposit Insurance Corporation, payable to the order of the Owner, in an amount equal to five percent (5%) of the maximum bid price. If a Proposal is not accepted or if a Proposal is accepted and a satisfactory Contractor's Bond is furnished by the successful Bidder, the bid bond or check will be returned in each instance within a period of thirty (30) days to the Bidder furnishing same, except that each Bidder agrees, provided its Proposal is one of the three low Proposals, that, by filing its Proposal together with such bid bond or check in consideration of the Owner's receiving and considering such Proposal, said Proposal shall be firm and binding upon each such Bidder and such bid bond or check shall be held by the Owner for a period of not exceeding ninety (90) days from the date hereinabove set for the opening of Proposals.

11. The Successful Bidder will be required to furnish a Contractor's Bond on a form and with sureties satisfactory to the Owner and to the Rural Electrification Administration, in a penal sum not less than the Contract price.

12. Should the successful Bidder fail or refuse to execute a Contract and to furnish a Contractor's Bond satisfactory to the Owner and the Administrator within ten (10) days after written notification of the award of the Contract by the Owner, the Bidder will be considered to have abandoned the Proposal and the amount of the certified check or other security delivered with the Proposal shall there upon be due and owing to the Owner as liquidated damages for such failure or refusal and the Owner may thereupon award the Contract to any other Bidder. The term "successful Bidder" shall be deemed to include any Bidder whose Proposal is accepted after another Bidder has previously refused or has been unable to execute the Contract or to furnish a satisfactory Contractor's Bond.

13. The Contract, when executed shall be deemed to include the entire agreement between the parties thereto, and the Contractor shall not claim any modification thereof resulting from any representation or promise made at any time by any officer, agent or employee of the Owner or by any other person.

14. The Owner reserves the right to waive minor irregularities or minor errors in any Proposal, if it appears to the Owner that such irregularities or errors were made through inadvertence. Any such irregularities or errors so waived must be corrected on the Proposal in which they occur prior to the execution of any Contract which may be awarded thereon.

15. The Owner reserves the right to reject any or all Proposals. The attention of Bidders is specially called to the desirability of a proper balance between prices for the respective Assembly Units. Lack of such balance may be considered as a reason for rejecting a Proposal.

16. All Project lines to be constructed have been, or before the date of the bid opening will have been, completely staked except as follows: No Exceptions.

17. The Owner has on hand or has assurance of delivery of all material necessary to permit the Project to be released for construction except for conductor and transformers. In order to avoid construction delays and periods during which a Bidder would be on the job without materials, an alternate bid is being requested as follows:

All Sections
Alternate No. 1:
Section 1 - Pole Units
Section A - Pole Top Assembly Units
Section B - Pole Top Assembly Units
Section C - Pole Top Assembly Units
Section M - as follows:
M2 - Ground assemblies
M51 1 Project Sign
M32 - Pole Key

Bids may be submitted for All Sections or Alternate No. 1 or both. In submitting a bid on All Sections, the Bidder understands that he will have the right to suspend work when Sections 1, A, B, C, and M, as indicated, are completed, if the Owner does not have on hand at least 95% of the conductor and transformers necessary to complete the Project. The Bidder will be required to resume work within ten (10) days after the Owner, with the approval of the Administrator, has requested him to do so, provided that the Owner shall have on hand not less than 95% of the conductor and transformers necessary to complete the Project. Thus, there will be no period during which the Contractor will be required to be on the job when materials are not available. The Owner reserves the right to accept Alternate No. 1 or all Sections, or reject all Proposals. In determining the lowest bidder, Alternate No. 1 bids will be compared only with Alternate No. 1 bids and All Sections bids only with All Sections bids.

WANT ADS ARE Cash With Order

Due to the expense of bookkeeping and the continual loss of many of these small advertisements, Want Ads and Cards of Thanks are Cash With Order, effective at once.

If you are in doubt what to remit when sending your advertisement, remember, the minimum charge is 50 cents which pays for 25 average words. Cards of Thanks are $1.00 each.

We would appreciate payment of the many small accounts which are outstanding in this department.

The Quiz Calls On

A FARM NEIGHBOR

The Vogelers

by John L. Ward

The several Vogeler brothers and sisters are included in this story of an interesting family of the past and present, and no doubt, of the future. The original Vogeler, William, sr., was born in Mardorf, Staat Raburg, German, in October, 1863, and came to the United States about 1880 with a younger brother, August. Others of the family who came later were Fritz, Henry and Dorothy, who became the wife of William Bredthauer, sr.

William first located in the Turtle Creek territory, where the family home was located until 1899. They then moved to Arcadia for one year and then to the farm west of North Loup now occupied by William, jr. and Ethel. He bought the 320 acre farm in 1901, paying $2,200 for it. A friend, Albert Malottke, helped him get the place, which had no buildings on at the time. Thus the many buildings now in evidence were all put there in about 47 years.

Later he bought 340 acres in the hills south of Maiden valley, and 80 acres lying to the east. Before buying this place, Vogeler had owned the place west of Ord once owned by Dougall McCall. He was living there when he became acquainted with his future wife, Mary Alice Thompson, who came to the county from McDonald county, Illinois, after living near Wahoo for a time. Their home was nine miles west of Ord. They were married April 4, 1887.

To them were born five daughters and two sons: Elsie, the eldest, was married to John G. Bremer in 1907. The Bremers were visited in a former article. Next came Fritz, who died in 1921. Next is Ethel, who did not marry, but has stayed at home and taken care of the household after the death of Bill's wife. The next daughter, Alice, is the wife of Emmett Harding. They live in Portland, Ore., and have no children.

William W., the first son, was married to Beulah Romans in 1921. She died in a little over a year, leaving one son, Donald, then only 7 weeks old. Next in order came James, who married Dessie Barnhart, daughter of John Barnhart, June 5, 1921. They live near the 46 school and have one son, twelve years old. Amy was married to Jay Larkin of Boulder, Colo., in 1925. They have one son. Mr. Larkin died last winter.

Marie married Theodore Poschkie and they live at Louisville, Colo. They have two children, Mrs. Devere Hilliard of Boulder and Lavonne, at home, Ethel and Bill, who now live on the old home place, spent most of their lives there, and got much of their education in Dist. 46, also known as the Old Meyers district. Bill's son, Donald, also got his education there. Bill went across in World War one, but Donald was unable to pass the physical for World War two.

He was married June 11, 1943, to Gertrude Patrick, daughter of Fay Patrick of Ericson. Before her marriage she was manager in a Lee and Kelly store. They have two children, Linda and Billy. They live on the place two miles west of North Loup, known as the old Holliday place. This they rent from Bill, who owns it. The name is of interest, as W. J. Holliday, former owner, at one time ran a store in North Loup, and also at Calamus at the time that village was at the height of its prosperity.

Incidentally, there are two items of interest concerning William and August Vogeler which should not be overlooked. William and also the late John Jensen of Burwell, had a part in planting the first trees in the court house square at Ord, and some of those trees are still in evidence there. August went into business in the early '80s in Ord with August H. Meyer, late of Burwell, as a partner in the grain buying business under the business name of Meyer and Vogeler. August later moved to Utah, I believe, and died there.

With the help of several good men, Bill manages the 2760 acres he owns. More than one thousand acres are in cultivation and there are about three hundred acres in alfalfa. Of this, son, Donald, rents 160 acres. Bill was badly handicapped because of a broken leg early this spring, but supervises the work of the men on his several farms. These are Roy Leach, who, with his family, lives on the home place. Forrest Hill lives on the 800 acre farm north of Ord.

At present there are about one hundred head of cattle on the different farms. There are seventy heifers, milk cows and calves. Bill handles about six hundred sheep, of which 300 are ewes and 300 lambs, all of which are being kept on hill pasture. They are the breed known as Westerns. He has 27 Hampshire sows which have 150 pigs.

The White Rock chickens, which come under sister Ethel's supervision, number about two hundred, and they are very busy laying at this time of the year. Ethel has a hobby, that of collecting old pictures, many of which she has adorning the walls. These include one of later vintage which was painted by her sister in Colorado. Practically all the work on the farms is done by tractor, but Bill has one heavy team, the only horses of the place, of which he is justly proud.

Big Car Race, Variety Show Set For Fair

Two Days of Racing and Three Nights Stage Shows At Valley County Fair Days

Two afternoons of fast races with the big cars and three evenings of a top-billed variety stage show are scheduled for the Valley County fair program, Ed Armstrong of the fair board announced Wednesday.

From 20 to 25 of the high powered racers are expected for the August 31-September 1 race days in Ord. Drivers from all over the country will battle in open competition for the purse of $3,000.

It is indicated that the fast half-mile speedway will be in excellent condition for the contests. Special care was taken to avoid a confliction with races in Belleville, Kas., on Sept. 3-4 so a full field of fast cars will be available.

Size of racers will be restricted by a motor limit of 237 cubic inch piston displacement. This will hold the cars closer to one class and sharpen the competition.

The stage show will be presented on a platform constructed on the midget track so the crowd can watch from the grandstand. An hour and a half program filled with outstanding acts promises to be a big attraction of the fair days.

Evening programs of the show will be staged Monday, Tuesday and Wednesday, Aug 30-31-Sept. 1. In addition, the 4-H girls will present a style show following the Wednesday stage show.

Dancing on the open air marblized floor at the fairgrounds is also on schedule. Armstrong reported that a 10 by 80 foot addition has been made to the floor since the opening dance of last week, bringing the total area to 60 by 80. A new surface is being applied to finish the the floor with hardwood smoothness.

Soil Supervisors Election July 31, Will Select Two

Balloting by all Valley county landowners for the election of two supervisors for the soil conservation board will be held Saturday, July 31.

Candidates are Harold Garnick, Elyria; Ign Pokraka, North Loup; E. O. Schudel, North Loup, and Anton Welniak, Elyria. The latter two men are incumbent supervisors. Term of office is for four years.

Polling places will be open from 1-9 p. m. at the Valley County Soil Conservation service in the courthouse basement.

If unconvenient to vote at the polls on election day, landowners may secure ballots prior to election time and vote by sealed ballot. Ballots may be obtained at the First National bank and the Nebraska State bank in Ord, Arcadia State bank, Midway Market in Elyria, and the Loup Valley bank in North Loup.

Nonresident landowners, or those wishing to vote by mail may apply in person, or by writing E. S. Murray, district election officer in Ord.

"All persons, firms and corporations who hold title to any lands within the boundaries of the district are eligible to vote," according to the state soil conservation committee.

VFW To Meet Monday, July 19

The Veterans of Foreign Wars will hold their regular meeting Monday night, July 19, at the Legion Hall. Feature of the meeting will be a report on policy by Dr. F. J. Osentowski, district commander of the VFW.

Jewett Amazed; Also Thinner

Rex Jewett is slightly amazed and 19 pounds thinner, all because he went on a diet (out of sympathy for his wife) for two weeks. Mrs. Jewett was ordered on a certain diet by her physician. Rex, knowing how hard it is to cook and not be able to eat the food, joined her for the two weeks. At the weighing-in at the end of the bout Mrs. Jewett had lost eight pounds but Rex had lost 19. He is undecided whether to have his clothes taken up or just let them flap.

Ord Population Increases 40

2,226 Persons Reported In 1948 School Census; Still 14 Below 1940 Total

Population of Ord increased 40 during the last year to bring the total to 2,226, according to the 1948 school census released this week by C. C. Thompson, high school superintendent.

On the basis of these figures, the population is still 14 below the 1940 official government count of 2,240.

In recent years, however, the population trend has been on the increase. In 1946, there were 2,111 persons in Ord by the school count. In 1947, the census totaled 2,186—an increase of 77 for the year.

Census figures in the entire school district totaled 2,344. Of this total, 118 are residing outside the city limits.

Broken Bow Grows.

At Broken Bow, population jumped 226 for a total of 3,534 this year. Since 1940, the Custer county town has grown by 566 persons. The Broken Bow chamber of commerce will soon publish a city directory based on information gathered. Listings will include names and addresses of everyone living in the city.

Postal Receipts Up 11 Per Cent

Postal receipts jumped 11 per cent at the Ord post office during the first six months of 1948 as compared to the same period last year, Postmaster Alfred Hill announced this week. Postage receipts for the period totaled $13,876.

TO JOB IN KEARNEY.

Bert Boquet who has managed or worked in service stations in Ord for many years and at the present time is employed at the Texaco station will manage a Farmers Union station in Kearney. He will leave the employ of the Texaco station here the last of this week. As yet no one is hired to take his place.

Triple Play By Ashton

A rare triple put-out, best play of the season reported so far in this area, came in the North Loup-Ashton contest of July 4.

Loup runners were leading off of first and second bases when the batter cut a grounder to shortstop. The Ashton infielder tagged the runner going to third, pegged to second to catch the forced run, and a relay to first cooled the third runner.

There had been no outs in the inning.

North Loup lost the game when a four run lead was erased by five Ashton scores in the eighth inning of the Sherman-Howard league meeting. Game score: 4-5.

VFW Petition Sends Bonus Before Voter

November Ballot to Decide, $250-$350 Maximums Asked Payment Proposed for 1953

With a total of 34,000 Nebraska signers, the Veterans of Foreign Wars on Thursday, July 1, formally filed with Secretary of State Frank Marsh, an initiative petition to place a World War II state bonus bill before the voters on the November 2 ballot.

R. A. Lowe, department adjutant of the VFW, signed the affidavit accompanying the signed petitions. "We feel that an issue of this much importance can be most democratically decided by the people themselves in the election. That is our purpose in placing the issue on the ballot through the petition."

Meanwhile, Larry J. Gaughen, 35-year-old newly elected department VFW commander at North Bend, stated, "In placing this issue on the ballot for Nebraska voters, the Veterans of Foreign Wars is carrying out a mandate of its Encampment held June 4, 1947, at Hastings. At that time, the veterans voted to get the issue before the public. Tha job is done, and now the people themselves must decide the question."

Spend Only $324

William T. Gleeson, deputy to the Secretary of State, disclosed that the VFW affidavit reported a total expenditure of $324 in obtaining the 34,000 signatures over the state.

Lowe reported that "no paid petition circulators were employed. The entire job was done by volunteer workers in our 160 VFW posts throughout the state," he said.

Twenty-seven thousand signers were required, according to Gleeson. He said that the law requires seven per cent of the qualified voters in the state who voted at the last general election.

Lowe explained that in December and January of this year, the VFW conducted polls among World War II ex-servicemen in VFW posts throughout Nebraska, "and the record indicated that these veterans favor the adjusted pay by a 96 per cent majority."

600 Ord Signatures

Approximately 600 signatures were obtained by the VFW post in Ord. The state bonus was supported 100 per cent in a ballot taken by the local veterans' organization.

Deadline for filing the petitions was fixed at 5:00 p. m., July 1, four months before the election date on November 2. It was estimated that five or six hundred more signers would be delivered before that time.

The VFW bonus bill proposes that the State of Nebraska give adjusted pay to veterans based on $10 per month for domestic service and $15 per month for foreign service during World War II. However, Lowe pointed out, "a maximum of $250 per veteran for stateside service and $350 per veteran for foreign service, has been written into our proposed bill."

To finance the program, a five year period from 1949 to 1953 is proposed. To raise the funds during this time for the payment to the 130,000 Nebraska World War II veterans, a three and a half mill tax on real property would be levied. Veterans would receive their adjusted service pay in 1953.

A Veterans' Compensation fund to be created by the bill would be administered by the existing Department of Veterans' Affairs, and this office would be in charge of the program, he explained.

Pfc. R. Jefferies Is Coming Home

The body of Pfc. Richard Jefferies, son of Mrs. Roxanna Jefferies of North Loup will arrive in Ord Thursday afternoon under military escort from Kansas City, Mo. and will lay in state at the Hastings-Pearson Mortuary until the funeral at the North Loup Methodist church on Friday at 2 p.m. Rev. Clyde Ehret will officiate.

Pfc. Richard Jefferies was a member of the 359th Infantry and was killed July 5, 1944 in France in the battles following D Day. He is survived by his mother, one sister, Mrs. Ethel Brook and one brother, Arthur Jefferies.

Dale, Blessing at Jr. Golf Tourney

Doug Dale and Al Blessing, both of Ord, chalked up scores of 156 and 160, respectively, in the 36-hole Nebraska Junior golf tournament held last week in Grand Island.

Dale missed by two places of being among the top seven qualifying for the National tourney in Lincoln. He was ninth in the field of 53 golfers and Blessing was close behind. Chick Battey of Lincoln carded a 146 for medalist honors.

On the first 18 holes, Dale recorded a 78 and Blessing a 79. Strong winds hindered the golfers in the all-day match.

W. W. Vogeler Tops Omaha Mart on Spring Lambs

W. W. Vogeler of Ord topped the Omaha livestock market Wednesday, July 7, with a shipment of 23 spring lambs which weighed 78 lbs. and brought $31.00.

Other shippers to Omaha during the week included Ed. Whalen, with 11 spring lambs, 70 lbs, $30.00 and 33 ewes, 112 lbs. $11.00 and Will Foth, 20 steers which weighed in at 1227 pounds and brought $37.50.

Ortgies Child Is Holding Her Own

Scalded Infant's Condition Remains Serious; Oxygen, Blood Plasma Administered

Ten-month-old Joan Ortgies of Ord was still fighting a nip and tuck battle for her life in an Omaha hospital this week after receiving a severe scalding in a bath tub at her home July 6.

Reportedly "holding her own," the child's condition is still serious. Doctors expect a crisis by week end.

During the week, she was said to be eating well and getting along "pretty fair." She was removed from the oxygen tent where she was placed upon arrival at the hospital. Attendants administered blood plasma. More transfusions are expected to be necessary.

The little girl suffered the scalding when she evidently turned on the hot water faucet in a bath tub where she was left alone while her mother was away for approximately 15 minutes.

Found in the steaming water by Mrs. Charlie Houser, who lives in the same house, Joan was treated by Dr. H. N. Norris. She and her parents, Mr. and Mrs. Earl Ortgies, were flown to Omaha by Ted Slobaszewski where she was rushed to the emergency room at the University of Nebraska hospital.

Parents of the child have remained in Omaha since the accident.

Cochrane Resigns Peterson Is Coach

Board Accepts Resignation, Will Leave Last of August; Peterson Assistant Sought

Acceptance of Coach Alex Cochrane's resignation from the Ord high school teaching staff and the elevation of Assistant Coach Dick Peterson to the position of head coach was announced officially Monday night following a meeting of the school board.

Cochrane will leave at the end of August to asume the duties of head coach at Scottsbluff high school. He joined the Ord coaching staff in 1941 and became chief mentor in 1944.

Peterson completed his first year at the high school this spring. He was on the all-state conference team for three years at Kearney State Teachers. An assistant for the new coach is now being sought by the school board.

The English-Latin teaching position is also still unfilled. Three applicants are under consideration.

Heat Is Normal Rains .76 Inch

Harvest In Full Swing, Yield, Quality Is Good Estimate Corn Over '47

Normal temperatures in Ord were reported this week as the average temperature slid from a 91 high last week to an 86 average this week.

Precipitation of .71 from two showers was added to the year's total of 11.37 after a rainless previous week. But the total rain to date still lagged behind the 17.96 received by this time a year ago.

Only two days reached into the 90's during the week. Hottest day was last Wednesday with 92 according to Horace Travis, Ord weather observer. Humidity has been high every day, however, making it seem much hotter.

In the golden fields of Valley county, clanking columns of combines moved in a wave toward the north. Harvest was in full swing. And yields were better than early estimates foresaw.

Harvest Ahead '47.

County Agent C. C. Dale said that the harvest is about three weeks ahead of last year. The 1947 harvest, however, was later than usual because of a wet cold spring, he said.

To the west of Ord, Emil Smolik reported most of his grain making around 20 bushels to the acre with some going 30. In the northwest Rudolph Kokes estimated his yield between a 12 to 15 bushel range. The grain is of good quality with low moisture content, he said.

South, wheat of 11 per cent moisture content was ready for sealing in the bins of Edgar Roe. Good wheat reports came also from Charles Zmrhal.

Completion of wheat cutting was reported by Edward Iwanski with a "pretty good yield." First barley cuttings have not been too good, he said. Oats are still in the field, he added.

Wheat Estimate Hiked.

Over the state, a 71,856,000 bushel crop of winter wheat was forecast for Nebraska by federal authorities. The estimate was a six million bushel increase above estimates of a month ago.

In the green fields of Valley county, corn was filling out to comply with the forecasted increases in the state this season.

Acre yield predictions from the federal government were 32 bushels for Nebraska. This is a sharp rise over last year's average yield of 19.5 bushels per acre. The total 1948 crop was anticipated at 227,840,000 bushels for the state.

Nebraska barley was forecast at a 19 bushels average to the acre, a slight drop over last year. Oats production received the nod at 28 bushels, a slight rise over last year.

Irrigation Use Increases.

Use of irrigation water began picking up as the week rolled by. M. S. Dodd, manager-engineer of the North and Middle Loup Irrigation districts, reported about 90 users out of the total 100 connected to the system.

All three irrigation canals were running water again. The hail and water damaged flume of the Ord-North Loup ditch was repaired and put back into operation on July 10 as scheduled. The Burwell-Sumter canal was re-opened July 3 after minor dirt repairs.

In the county extension office, wheat and oats samples from fertilizer test plots were sent to the University of Nebraska agriculture college for yield reports. It is the first time small grains from Valley county are to be tested by the university.

County Agent Dale stated that it was a bad year for the test because crops had suffered somewhat from the drough.

Dr. F. L. Blessing, Ord mayor, announced that the sewer contractor promised to begin work this week end. The work is expected to take approximately three or four days. Only finishing touches in furnishing showers, benches and lockers in the bath house remain.

Ed Andersons Leave For Alaska To Live In Land of The Midnight Sun

To the land of the midnight sun—Mr. and Mrs. Ed Anderson left Ord Wednesday to take up a new residence in Nome, Alaska.

"They have daylight 24 hours a day up there for a short period in the summer," said Anderson before he left. "Most of the summer there are only a few hours of night."

"And the temperature falls to 30 below in the winter," he added apprehensively.

A construction man and more specially a plumber, Anderson has toured most of the states while following his work. He regards this new venture as another chapter in his somewhat nomadic life.

"I guess I've sort of been on the tramp most of the time," he said with a grin. "But I like it."

From the looks of his proposed itinerary, he will get plenty of traveling this trip. The first 3,000 miles of the jaunt will be made by the Anderson's in their pickup over the Alcan highway. They expected to take six days to make the trip to Fairbanks.

Last leg of the journey will take them into the air for a 630 mile flight to Nome which is situated on a west coast point which juts out into the Bering sea toward Russia. Their truck will follow by air freight.

"We'll be just 57 miles from the Russian shore," said Anderson. "Sometimes in winter it's possible to drive a dog sled across the strait," he added.

Anderson will be engaged in the construction of a large hotel in Nome. A furnished home has been promised by the construction company. He estimated that the building would take about a year to complete.

Asked how Mrs. Anderson viewed the trip, he replied that she thought maybe they were too old to be jumping into such an undeveloped region. But, you're only as old as you feel, he declared, adding that he thought "it will be a wonderful experience."

Anderson's brother, Carl, who formerly lived in Ord, has resided in Nome for several years. He is a representative to the Alaskan legislature from the Nome district.

Former Resident Fined for Fishing

Fishing without a proper license cost Glen Johnson of Richmond, Calif., a $5 fine and costs of $1 last Friday when he was arraigned in Valley county court before Judge Joseph W. Ramaekers.

Johnson, a former Ord resident, pleaded guilty. According to Game Warden Arthur Edmonds of Grand Island, the defendant was fishing with a local license when he should have had an outstate permit.

Veterans Club Closed 2 Weeks

The Veteran's club closed Saturday evening for two weeks while the personnel take vacations.

Mrs. Edith Jones, who cooks those luscious steaks is spending her vacation at home and having a kitchen built in her home.

Otto Niemeyer, accompanied by Wm. Philbrick, drove to St. Louis, Mo., to attend the all-star baseball game.

Helen Keep and Mrs. Hope Dumund are both spending the time resting. Miss Dorothy Greenwalt is spending her vacation in Omaha.

Maynard Behrends and his wife went to the country home of her parents, Mr. and Mrs. Pete Kochanowski and are doing the chores while they attend the funeral of his brother, Chas. Kochanowski in Missouri. The grain being ripe, he will also get in on harvest.

Bredthauer Leaves $5,000 to Church

St. John's Lutheran church of Mira Valley is named to receive $5,000 in the will of the late Arnold Bredthauer, who died in Prescott, Ariz., June 26. His will was filed this week in Valley county court for probate.

A bequest of $9,600 and 480 acres of land is left to his daughter, Louise B. Wells of Cotesfield. Land totaling 640 acres and $1,000 is left to Norma B. Fox, another daughter of Ord. A son, Arvin Arnold Bredthauer of Ord, is bequeathed 880 acres. All the land is in Valley county.

The will provides $200 a month during the probate of the estate and rents from the properties to go to Mrs. Bredthauer, his wife.

Two bequests of $1,000 each are left to Rev. Emil Hellewege and Rev. Oscar Hellewege, brothers-in-law.

Hopper Hordes Are Prevalent

Federal Aid Unavailable, Recommends Chloridane Spray and Arsenic Bait

A healthy crop of grasshoppers—numbering in the millions—has again descended on the Valley county farmer adding to his woes of a dry spring, damaging hail, wet harvest threat, and the Hessian fly.

While prevalence of 'hoppers is reported in many areas, federal bait will not be available this year, said County Agent C. C. Dale. The problem is one for individual farmers, he said.

Dale recommends chloridane spray on fence rows and weed patches as one means of control. He warned, however, that the chemical should not be used on crops to be eaten by livestock. Benzine hexachloride may be substituted, he said, but probably with less effect.

His recommeded poison bait is concocted as follows:

100 pounds of bran
6 pounds white arsenic
(or four pounds of sodium fluosilicate or six pounds of Paris green.)
1 gallon molasses

Mix these ingredients, add enough water to moisten, and scatter 10-20 pounds of the bait to an acre.

For smaller garden quantities, stir two level table spoons of Paris green into three quarts of bran, mix one-half cup molasses in quart of water, and stir together. It is best to scatter the poison early in the morning of a clear sunny day during the grasshopper feeding time, Dale said.

Camp Fire Girls to Ericson

The Tanda Campfire girls left Sunday for a four day camping trip on the banks of the Cedar river at Ericson. Mrs. Orie Hurlbert and Arlene Timmerman are with them until Tuesday when Mrs. Hurlbert will come home and Mrs. Alex Cochrane will take her place.

The nine girls, Carolyn Romans, Agnes Ramackers, Karen Smets, Mary Thompson, Gerry Austin, Micky Whiting, Margaret Boro, Mary Jo Clayton and Ellen June Fuss were transported to the camping site by Joe Ramackers, Bert Whiting and Herbert Smets. Mrs. C. C. Thompson and Mrs. Jack Romans will go after the girls Thursday.

Ord Bows 6-4 To Arcadia

Homer With Two Aboard Paves Way To Ord Loss, Mason, Loup City Win

A home run with two men on paved the way for Arcadia's 6 to 4 victory over Ord's team when the Loup Valley league squads met Sunday on the Arcadia field.

Brown provided the fourth inning explosive touch for the host team. He then returned in the sixth to drive out a double. Bill Beasley held up his pitching reputation in sending 14 Ord men down swinging.

Patrick struck-out five of the opponents for Ord. Hitting for Ord was led by D. Beran and Philbrick who each racked up two base hits.

Broken Bow Falls.

At Broken Bow, Mason City eked out a 3 to 1 triumph over the Indians in a game that featured close field playing. Broken Bow brought its single score across the plate in the ninth after getting seven hits during the fray. Mason got on with eight hits but managed to squeeze three runners down the chute.

Paul Dean pitched for the Indians. Dale Kruger was on the mound for Mason City. After Dean got his arm warmed up, he retired the last 18 batters.

In the league encounter at Comstock, Bill and Bud Novosad led their Loup City mates to a 9 to 2 winning landslide. Other LVL games were not reported.

Games next week: Berwyn at Ord, Broken Bow at Miller, Comstock at Mason City, Litchfield at Loup City, Ansley at Arcadia—for Sunday, July 18.

Checking Accounts
Checking accounts have become so much a part of everyone's business that it would not be possible to carry on the business of the country without them.
We invite our customers to make full use of their checking accounts. If you desire to send money anywhere send your check.
Pay all bills by check. This gives you a valid receipt and saves time and trouble. Also you have a record of bills paid which will assist you in making your income tax return.
To carry large sums of money in your pocket is dangerous; your check book is just as good. Funds subject to check are just as available as money in your pocket.
When one considers the many advantages of a checking account one can easily see that it is worth a great deal more than its cost.
If you do not have a checking account we invite you to open an account with us.

QUALITY MEAT
Summertime is a time when meal planning becomes more important than ever before. Appetites become jaded due to the heat, but at the same time, there is no season of the year where full nutrition is more important.
That's why quality meat plays such an important part in the everyday diet—for it is one of the most complete foods ever devised. May we serve you.

Three Ord Boys Report All-State Music, Radio Study

Three Ord boys—Merritt "Doc" Jenison, Dick Tolen and Jim Misko—returned recently from the annual All-State clinic at the University of Nebraska campus where they spent three weeks in concentrated study of music and radio.

Despite the heavy schedule of long days, they had nothing but enthusiastic acclaim for the experience. Courses in band, orchestra, chorus, speech, dramatics and radio were offered.

In the radio department, "Doc" was afforded the opportunity to participate in plays and forums broadcast over KLON and KFOR three times a week. In addition he studied other techniques in radio, including F-M and television. He also had an important part in the final All-State concert in the university coliseum when he acted as a reader for the 50-voice choric reading.

Dick and Jim were enrolled in music courses for the study of voice and cornet, respectively. Besides the regular chorus and band work, they also studied under private instructors. Both took part in the evening concert at the coliseum and in the afternoon parade through downtown Lincoln to publicize the concert.

200 Students.

The more than 200 students representing 101 Nebraska high schools were housed on the university campus. The boys were quartered in the new men's dormitories and a fraternity house. The girls, who outnumbered the boys 3 to 1 according to Jim, were assigned to four sorority houses.

But not all of the day was devoted to study. Several dances were held in the evenings. Sports contests were scheduled daily. The All-Staters also got away from the campus work twice for picnics.

Activities for the day began at 6 a. m. and generally quieted down around 9:30 or 10 p. m. Meals were served in the university student union. Classes were held during the morning and afternoon in preparation for recitals sponsored by the various departments.

In summing up their opinions on the value of All-State, Doc "urged students to attend, . . . which is so ably presented." Dick: "much enjoyed by all." And Jim, "There's nothing like it."

Curl Absolved in Kinney Death

Word has been received that the Nebraska workman's compensation court has sustained the original holding of one of the members of said court that the Curl Amusement company of South Sioux City, Nebr. was not liable for the death of James Kinney who was electrocuted at the fair grounds in Ord last year. An action was brought by the widow of James Kinney in the compensation court for benefits under the act. This was tried out in Ord before Judge Albert Arms of said court and resulted in a finding for Floyd Curl of the carnival company that the death of Mr. Kinney was due to his own reckless carelessness and that his widow is not entitled to compensation. She appealed to the full court and that matter was tried out at Ord before all three judges on May 11, 1948. Unless there is an appeal to the supreme court, the present order of the compensation court closed this matter. Mr. Curl of the carnical company was represented by Davis & Vogeltanz of Ord, and Judge Mark J. Ryan of South Sioux City. Mrs. Kinney was represented by Ralph Bremer of Omaha and Ralph W. Norman of Ord.

Bates Copeland Has Been Barbering Ever Since He Was a Little Shaver

B. F. Copeland and C. B. Clark observe 50th anniversary since Bates first shaved Billings.

Bates F. Copeland and C. B. Clark, both present residents of North Loup, were school mates in the old days. Some sixty odd years ago they were both attending the same school at Pleasant Hill, southwest of North Loup. Bates started there at the age of 11 years, when the family moved up from Hastings. He recalls that the first year he went to school in a sod house, and that his first teacher was Ida M. Davis, who later married Matthew Brown and became the mother of Alex and Stanley Brown, both of whom live in North Loup.

The family moved here in 1887, and Bates started the spring term in 1888. He was there during the famous blizzard, but does not remember too much about it. He attended at Pleasant Hill for four or five years. He was always wild about barbering, and as a kid liked to cut hair for the boys of the neighborhood. It was the one job he liked best, and it was the job he later made his life's work.

In the spring of 1898 he was working for Lark Mayo on the place now owned by Joe Veleba south of North Loup, when George Mayo, who ran a barber shop in North Loup, came out for him to get his barbering tools ready as he wanted him to go to work. The shop was located on the corner where the North Loup Valley bank stands today. Bates says he was first put to lathering the customers, shaving their necks and combing their hair, and gradually developed into a regular barber. In fact, that was the way the kids learned the trade in the early days.

One day shortly after he started Henry McClellan said: "Come on kid, get your razor and go to work on me". Henry was the first customer Bates shaved. George Mayo first worked for a barber named McCallip who had a shop where the Vodehnal Pharmacy now is. Bates learned under him and through the years he worked in a dozen different towns in Nebraska, in Newcastle, Wyo., in Loveland, Colo., and Lenora, Kans.

He came back to North Loup in 1926. From here he went to St. Paul for the third time, and remained there until 1933, when he returned to North Loup to stay. Meanwhile Mayo continued in the corner shop until 1912, when the building was moved to the back of the lot and the new bank building was erected. Then he moved across the street to where Bates has his barber shop today. Mayo bought this building, which after several changes of ownership was finally bought by Copeland.

The life of a barber is full of interesting events, espcially if he travels around much. Copeland was stationed in North Loup in his present location from 1916 to 1920. Then he went to Ord for two years, and while there managed the baseball team. He says that one of the best players on the team was Bill McMullen of Burwell, but that he was too fat at first and that he lost a game because he could not get down to field a ball. Bates told him to get out and run several miles on the roads every morning, but did not state whether Bill did the road work or not.

Copeland first acquired his present shop in 1938. The building is divided into two rooms. He first had his shop in the east half and there was a beauty parlor in the west half. Later the beauty shop was moved across the street, where his daughter, Maxine, now operates it, and Bates moved his shop into the west half, making a home out of the east half.

Last June Copeland completed fifty years of barbering. In that time most of his early day customers have died or have moved away, but many still remain, and they still get their barbering done by Bates. Among them are Will Schultz, Merrill and Clifton McClellan, Walter Paddock, Roy Lewis, Bert Sayre, Joe Fisher and C. G. Clark, who appears with him in the accompanying picture.

The old shop still stands on the back of the bank lot, but Copeland bought it and plans to move it on some lots a block north, where he will make it into a garage. It served for years as a shoe shop, and has been used during Pop Corn Days as a place to pop and dispense pop corn.

Atom, Nature Movies To Show At Masonic Hall

"God of Creation" and "God of the Atom", evangelistic movie films sponsored by the Bethel Baptist church, will be shown at 8 p. m. Wednesday (July 14) and Thursday, respectively, according to the Rev. Eugene E. Olson.

The Wednesday movie is a vivid full-color film showing scenes from astronomy and natural science. Lapse-time photography is utilized to demonstrate the development of flower buds into full-blown blossoms in a few seconds. Plant food-manufacturing by sunlight on leaves and the pollination of flowers are included.

"God of the Atom" shows actual film records of the Nagasaki and Bikini blast and demonstrates the theory of atomic power by scientific apparatus and diagrams. An exclusive feature is a sequence portraying the giant 184-inch cyclotron at the University of California.

GI Insurance Deadline Nears,

World War II veterans may reinstate their lapsed GI insurance without a physical examination up until July 31, 1948, according to word received from the regional VA office in Lincoln.

After that date those who have allowed their GI insurance to lapse more than three months will be required to undergo a physical examination when applying for reinstatement.

Approximately 3,116 veterans in Nebraska have reinstated their policies in the past six months, said Ashley Westmoreland, Lincoln manager. Many are not aware, however, that they can apply for the full $10,000 policy even if they had smaller policies or no insurance at all while in the service, he said.

Volf - McCarthy

Miss Claire McCarthy, daughter of Mrs. Agnes McCarthy of Greeley became the bride of Robert Volf, son of Mr. and Mrs. Albert Volf of Ord at the Sacred Heart church in Greeley at 8 o'clock Monday morning, July 12. Rev. James McSweeney officiated at the double ring ceremony.

Miss Rosmary Noonan played the wedding march and accompanied John Salee of Tulsa, Okla., when he sang "Ave Maria" "Lord I Am Not Worthy" and "On This Day." The bride, given in marriage by her brother Edward, was gowned in white slipper satin and net. It was fashioned with fitted bodice, having scallops at the neckline, a flowing skirt designed into a train and long sleeves tapering to a point at the wrists.

Her fingertip veil was of tulle, edged in lace and held in place by a beaded tiara. She carried a shower bouquet of red roses and wore a silver and blue heirloom necklace worn by all the brides in her family for many years.

The maid of honor, Miss Ann Podraza, cousin of the bride, was gowned in orchid satin made with a bertha collar, fitted bodice and full peplum. She carried a bouquet and wore a headband of daisies. Long white gloves completed the costume. Albert Volf, jr., served his brother as best man. After the ceremony a wedding breakfast was served at the Sacred Heart hall for seventy relatives and friends. In the afternoon a reception was held in the home of the bride's sister and brother-in-law Mr. and Mrs. James Ryan. The center of attraction on the tea table was the wedding cake made in the shape of a cross.

Out of town guests included Mr. and Mrs. Albert Volf and family and Mr. and Mrs. Joe Parkos of Ord, Mr. and Mrs. J. S. Vodehnal and son of Grand Island, Mrs. E. A. Levitt of York, Mr. and Mrs. Paul Vodehnal of Ericson, Mr. and Mrs. John Volf of Arcadia, Mamie McCarthy and John Salee of Tulsa, Okla.

Mr. and Mrs. A. C. McCarthy, Earl McCarthy and Mr. and Mrs. Michael Smyth of Grand Island, Dr. and Mrs. H. A. Glassmaker, Mrs. Francis Salch and James Walsh of Spalding, and Mr. and Mrs. Horace Karre of Scotia.

After a wedding trip to Colorado the couple will make their home at York where the groom is employed.

How Much Is Enough?

What can I expect from my life insurance? Will it pay all funeral expenses and indebtedness? Will it provide a check each month for Mary and the kids? How much? For how long? 5 years? 10 year? 20 years? What if I'm living at age 65 and broke. How much do I get?

These are important questions that should have answers now.

Mira Valley Dusts Springdale 4-1 In Donkey Softball

The crowd roared all through the performance, but the donkeys had the last laugh.

In fact there were probably more ball players sprawled in the dust than were astride the bucking, balking donkeys last Thursday when the Springdale jockeys met the Mira Valley lientamers on the Ord field. Incidentally, the Valley team won 4 to 1.

Jay Campbell led off for the Springdale forces with a home run tally on the first play of the game. His accomplishment proved to be unique. The donkeys sided with Mira Valley for the rest of the game and held the Springdale "riders" scoreless.

Wayne Goff won the opportunity to ride his burro backwards after taking too many strikes before hitting. With Wayne facing home plate and the ass facing first, the Springdale jockey showed that a rider has about as much chance in one position as another. He wound up on the ground somewhere around second base and never did reach first.

Tough luck award of the evening was voted to Eldon Foth who was gone about two-innings of the game while trying to catch his wandering mount in the Mira Valley centerfield. The Springdale crew was organized by Lloyd Zikmund and Lloyd Geweke managed and pitched for Mira.

In the novelty events which precede the softball, Dick and Barney Peterson (cousins, but unrelated to the donkeys) took first and second in the musical flags contest.

Springdale conquered the burros to win the polo game from Mira Valley by six to one. Don Beran was assigned to ride Coffee Nerves but was up for only about six seconds during the ten minute fray as the donkey tossed around like a canoe in a typhoon.

In a survey of the donkey riders the next day, the Quiz found most of them nursing bruises and walking a bit stiffly. In the donkey stables, the borros showeed no ill effects from the game.

Rudolf Kokes to FHA Committee

Appointment of Rudolph Kokes of Ord to a three-year term on the Valley county committee of the Farmers Home administration was announced this week by Ernest Frisch, state director.

He succeeds Emil Kokes, whose terms expired June 30. Others on the committee are Louis Greenwalt of Elyria and Emil Sedlacek of Ord.

Mrs. Paul Swanek Dies at Hastings

Mrs. Paul Swanek, who was taken to Hastings for medical treatment last week, died there early Tuesday morning. Mrs. Swanek had been seriously ill since last November. Services will be held Thursday, at 9:30

Rosary will be at the Hastings-Pearson chapel Wednesday evening at 8. The funeral will be from Our Lady of Perpetual Help church.

Mrs. Swanek was born in Illinois, February 10, 1881 and moved with her parents to Holt county in a covered wagon, later coming to Valley county where they took a homestead in Eureka township. She married Paul Swanek on May 5, 1902. After marriage they lived on the homestead claimed by her parents for 45 years.

She was a member of the Ord Catholic church.

She is survived by her husband, six daughters, Mrs. Tracy Michalski of Loup City, Mrs. Josephine Baran, of Cairo, Mrs. Martha Walchowski, Elyria, Mrs. Berniece Turek, Ord, Mrs. Luella Wortman of Wood River and Frances at home; five sons, Joseph, of Hazard, Leonard of Timken, Kan., Bernard of Ord, and Louis and Melvin at home. Two sisters, Mrs. Frank Swanek and Mrs. Phillip Osentowski and two brothers, Charles and Anton Ciemny.

Burial will be in the Ord Catholic cemetery.

—Mr. and Mrs. Ernest Glaser of Stanton visited Mr. and Mrs. Jens Hansen Friday evening.

Services Held for Mrs. Stone

Christian Science services were held at the community church in Comstock Friday forenoon at 10:00 for Mrs. Alexander H. Stone, who died Tuesday following a short illness at her home in Comstock. Alvin Haywood of Arcadia was the reader. Max Wall of Arcadia sang two solos accompanied by Mrs. Wall on the piano. Arrangements were made by Hastings-Pearson mortuary of Ord. Burial was in the family plot in the Comstock cemetery.

Pall bearers were her two sons, John and Heber, her two sons-in-law, Clarence Stroup and Gene Gilmore, her grandson Elwon Gilmore and nephew Richard Stone.

Pearl Havlik, daughter of Mr. and Mrs. Peter Havlik, was born June 29, 1882 and died July 6, 1948 at the age of 66 years and 7 days.

On October 11, 1904 she was united in marriage to Alexander H Stone. Three daughters and four sons were born to this union. One son Warren preceded her in death.

Mrs. Stone was active in the Rebekah lodge, Mizpah club and the church circle.

Survivors besides her husband are her children, Mrs. Viola Nordstrom of Gering, Mrs. Evelyn Stroup of Mission, Kans., John H. of Comstock, Mrs. Edythe Gilmore of Omaha, A. Wayne of Altadena, Calif., Heber C. of Gering, three grandchildren, two brothers, John J. Havlik of Comstock, Emil E. Havlik of Billings, Mont., and a half sister, Mrs. Anna Strouch of Omaha.

Ord Kindergarten Group Smaller

Ord's two kindergarten classes this fall will be much smaller than in 1947-48. There are 36 children who will be five years old on or before December 15, in Ord district. Last year there were 56 kindergarten students when school was dismissed. Miss Irma King of Grand Island will teach the beginners again this year.

Ord's five year olds are as follows: Dennis Adamek, John Albers, Ronald Anderson, Judith Andersen, Dorcie Babka, Jance Lou Benda, Charles Clement, Carol Jean Clement, Clayton Cook, Jimmy Horner, Dickie Bleach, Dennis Hurlbert, Dennis Jones, LaRue Jones, Marilyn Kapustka.

Sharon Kay Lark, Dorothy Lytle, James McCall, jr., Shirley Marshall, Phyllis Ann Negley, Janelle Olson, Francis Osentowski, Allen Lee Philbrick, George Piskorski, Gerald Rasmussen, Robert Rose, Karen Jean Simeons, Jackie Lee Simeons, Carolyn Skala, Robert Sok, James Stevens, Maylon Volf, Violet Watson, Gay Deanne Wigent and Nancy Wilson.

Ramaekers 1st Marriage Scary

Joe Ramaekers will long remember the first wedding he performed in the capacity of Valley county judge.

The wedding was performed at the county courthouse Tuesday morning at 9:00 when he united Lillian Florian, daughter of Mr. and Mrs. Louis Florian of Ord and Emanual Bruha, son of Mr. and Mrs. John Bruha in holy matrimony.

The bride was attired in a white floor length wedding gown with a long train and the bridal pair were attended by three sets of attendants in formal attire. There will be a complete story and picture next week.

When asked by the Quiz reporter how he felt performing his first wedding he commented "I still don't feel like a minister" and "I was shaking like a leaf, worse than the bride or groom. I was scared stiff and the perspiration just rolled off me."

—Mrs. Willard Conner and Lynne, Mr. and Mrs. Ernest Glaser and Mr. and Mrs. Erwin Matthes and girls spent Thursday afternoon at the James Sedlacek home.

—John Ward spent Wednesday with the F. H. Kuehl family visiting and writing the Kuehl family story.

Burwell Livestock Market

Island Knights Out S-H Cellar

Danes Score Every Hit In Defeat of Cushing, NL Humbled by Palmer

Knights of Grand Island pulled themselves out of the Sherman-Howard league cellar Sunday with a hard fought 6 to 5 winning upset over third place Ashton.

Playing on their home field, the surprising Islanders led 6-3 at the end of the sixth when the game tightened up. Ashton tallied one score in the seventh, narrowed the gap again with another run in the closing frame, but failed to catch the racehorse Knights.

Elba's 7 to 3 victory at Farwell dumped the losers into the league pit. Farwell went scoreless for eight innings. The three run rally in the final canto came too late—with too little.

League-toppin Palmer carved another notch in their trophy bat with a humbling 7 to 0 win over North Loup. The losers collected five hits but could not manufacture a score.

League-topping Palmer carved went to the favored Danes by a 7 to 4 count. Cushing lacked the punch to threaten seriously. The winners scored all of their seven hits and recorded only three errors.

In catching up on postponed games, Grand Island lost a heavy sided 5 to 17 game to Cushing. Palmer coasted to a 11 to 4 campaign over Dannebrog.

Irrigation Study Planned July 27 In Broken Bow

Farmers of central Nebraska will meet July 27 in Broken Bow for a full day of study and demonstration of good irrigation practices for this part of the state as recommended under the Soil Conservation service.

Activities will begin in the morning at the city hall with a lecture by Ivan D. Wood, irrigation specialist from Denver. Movies will also be shown.

An actual irrigation system in operation will be examined and explained in the afternoon when the meeting convenes on the Miles Lee farm, four miles east of Westerville. Lee recently leveled his farm and installed an electrically driven pump.

The tour will include permanent drop structures, siphon tubes in operation, grassed waterway, grass seedings of both cool and warm season grasses, permanent spill basin and commercial fertilizer treated corn. Transportation to the farm will be provided from Broken Bow.

Sponsored by the Broken Bow chamber of commerce, the extension service and the SCS, the meeting will also feature a well digging rig display. A full program will be announced later.

Millers Enjoying Alaskan Trip

Dr. and Mrs. C. J. Miller left the first part of July for a trip to Alaska. They drove to the west coast and after visiting friends in Seattle boarded a ship there Thursday and landed at Ketchikan, Alaska on July 10.

While in Seattle they were dinner guests of Mr. and Mrs. Arthur Capron and his mother Mrs. Mary Capron. They saw many other Ord people.

Jud Tedro is doing a complete interior decorating job at the Ord Hospital while Dr. Miller is away.

—Orie Hurlbert, Henry Adams and Paul Covert went fishing at Beaver Lake Sunday. All caught their limit and report a good time.

—Mr. and Mrs. Ernest Glaser, Mr. and Mrs. Erwin Matthes and girls all of Stanton and Mr. and Mrs. Willard Conner and Lynne spent Thursday evening with Mr. and Mrs. Frank John and Helen. The evening was spent listening to Mr. John, Helen and Mr. Glaser play Bohemian music.

—Mr. and Mrs. Morris Kirby and Mr. and Mrs. Chris Kirby and family attended a family picnic at the George Kirby home in honor of Mr. and Mrs. Ted Walkmeyer and family of Calif. Mrs. Walkemeyer is the former Clara Kirby.

GRAINS

Prices have been about steady the past week. We do want your dry grains that we can handle and ship. If you have grain with excessive moisture it would pay you to feed this grain to your livestock.

We will always pay you the highest market prices for your good grain..

Grain

We have been getting a good supply of cars and up to now we have plenty room for your grain. The Wheat market has been pretty strong but other grain markets have been lower the last couple of weeks. Remember that we do have quite a lot of bin room as well as a goodly number of cars available for shipping to Omaha. Also remember we have a nearly new Fairbanks Morse truck scales and other new equipment to give you reliable and fair tests and weights. Also remember a few months ago we installed a new electric hoist for quick unloading of your trucks; so you won't have a long wait to unload. Let us make a bid on your grain and you will find that our bids are liberal according to Omaha cash bids.

If your grain carries a lot of weeds be sure to let this grain dry out so that you do not have to take a very serious dockage on account of moisture.

Sweet Clover and Alfalfa Seed

We are buying alfalfa and sweet clover seed. It is pretty early to tell just what these markets will be this fall. Some of the early buyers are talking now that alfalfa and sweet clover may be a little lower when threshing of these crops gets into full swing. We are still paying the same prices that we paid a year ago. We will buy a car of each of these varieties at these prices unless the markets are much lower in the near future. So we urge you to take good care of your crops of alfalfa and sweet clover seed. We want a chance to make an offer on your seed.

Proteins

We feel that this might be a good time to book a part of your proteins for this winter's use. At present these proteins are not high priced according to grain prices. It is possible for us to take your bookings for fall delivery.

Nitrate

We expect another car load of Ammonium Nitrate to be in about fall grain sowing time. From past experience it is very evident that we should take and store Nitrates any time that we are able to buy them. Most of you know that it is impossible to get as much Nitrate as is needed at the time that you want to use it. It has been proven by tests in Valley county that it pays well to apply Nitrate at sowing time. Try it this year. Place your order now and have it when you are ready to sow your fall grain.

Refrigerator Counter For Sale

We have just purchased a very good cooler for our florist shop. And now have for sale an eight foot counter with a very good compressor, or you can buy this counter without the compressor. If interested come and see this refrigerator and we will tell you all about it. This would make a very good counter for meat or for use in a grocery. We hope our new florist box will be installed this week and we invite you to come in and see it next week.

"It pays to buy from Noll."

Out Of Old Nebraska

By James C. Olson,
Supt., State Historical Society
State Historical Society

One of the earliest business concerns ever to operate in Nebraska was the "Company of Explorers of the Upper Missouri," organized by a group of St. Louis merchants in the fall of 1793—George Washington was then president of the United States and Nebraska belonged to Spain.

The company was organized primarily for the profit to be gained from trading with the Indians of the Upper Missouri. The Spanish officials in St. Louis, however, had a keen interest in its success because they believed it would help check the activities of the British and Americans in the area, and they also felt that possibly some of the company's agents would find a route to the "South Sea," a continuing ambition in early American exploration.

To assist the company, Governor-General Carondelet, the top Spanish official in Louisiana, gave it a monopoly on the trade of all of the tribes on the Missouri above the Poncas, who were located near the mouth of the Niobrara River in what is now Knox county. In addition, he offered a prize of $2,000—later increased to $3,000—to the Spanish subject who should penetrate the South Sea via the Missouri River.

Heading the first expedition sent out by the company was a St. Louis school teacher named Jean Baptiste Truteau. He left St. Louis on June 7, 1794, accompanied by eight men in a pirogue, a dugout canoe common on the western waters in the days before the steamboat.

We have a copy of the company's instructions to Truteau in the library of the State Historical society. They left nothing to his imagination, even going so far as to describe in minute detail just how he was to locate and construct the buildings to be erected at his trading post. Their instructions on prices are reminiscent of today: "He shall fix a high price on everything, keeping in mind that the prices of the armament are excessive and that without this precaution, the company would sustain a loss."

This early business venture in Nebraska country was not notably successful. Truteau was stopped in South Dakota by the Teton Sioux, who helped themselves to most of the goods he had hoped to trade with the Mandans, and other tribes further north.

Following this unfortunate experience, Truteau retraced his steps back down the river to a point opposite the site of what later became Fort Randall, and built his winter quarters. From all accounts, the winter was neither enjoyable nor profitable, although he did obtain some furs by trading with the Sioux, Omahas, and Poncas.

The next spring he went on up the river to trade with the Arikaras. Little is known about his subsequent movements, although he probably was back in St. Louis by the early summer of 1796.

Straw Pulp Used As Paper Source

Farmers in the future may have a new outlet for the sale of straw.

A newspaper was printed recently on paper containing 17 percent straw fiber. According to the Chicago Tribune which conducted the experiment, veteran pressmen and editors were scarcely able to distinguish the straw paper from the usual kind made from wood pulp.

Strength and printing qualities of the new paper appeared equal to ordinary newsprint. More than 150,000 copies of one edition were printed by the Tribune.

Costs of producing the news print were some higher. As long as pulp wood is plentiful at reasonable prices, it appeared that there would be little need for using the straw fiber paper.

Margaret Danczak California Bride

The St. Anthony's Catholic church in Long Beach, Calif., was the setting Saturday July 3 for the wedding of Margaret Danczak, daughter of Mr. and Mrs. Joe Danczak of Kearney and Leonard Poitier, son of Mrs. E. Amburn of Long Beach. The wedding took place at 8:00 a. m. with Rev. Mitchael Lawlar officiating.

The bride wore a white linen street length gown, white picture hat and carried a white prayer book. Her corsage was of white gardenias.

Margaret Danczak

The bridesmaid, Miss Cecil Goboil, wore a rose crepe afternoon gown with brown accessories and a corsage of gardenias.

A reception followed the ceremony at the home of Mrs. E. Amburn. The bridal couple cut the beautiful three-tiered wedding cake topped with a miniature bride and groom.

Following a brief honeymoon in San Diego, Mr. and Mrs. Poiter will be at home at 555 Golden Ave., Long Beach, Calif.

Mr. and Mrs. Joe Danczak lived in Valley county many years before moving to Kearney. Margaret attended school in Ord.

North Loup

S. C. Hawkes Is New Cheese Co. Manager

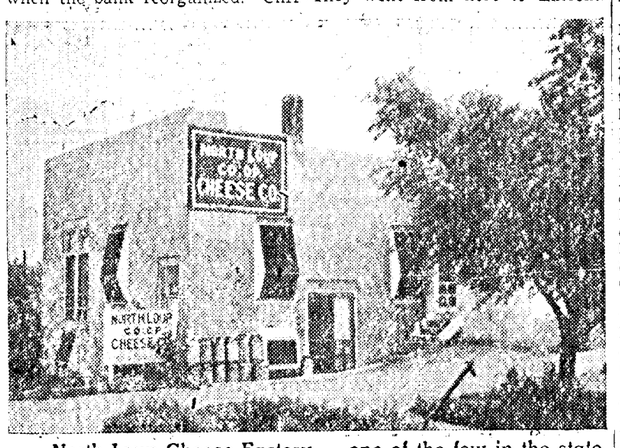
Has Been NL Resident Since 1925; Also Runs Produce Station

The North Loup Cheese company suffered a severe loss some months ago in the death of the very efficient manager, Clarence Switzer. Since that time the management has been looking around for a man to take his place, and last week they found one in the person of S. C. Hawkes, who has long been an employee of the company, but in a different capacity.

Sunshine Clifford Hawkes was born in western Iowa 42 years ago, and was educated there, receiving his high school education at Greenville high school and later attending Morningside college at Sioux City. He arrived in North Loup Christmas day, 1925. He had been working in a bank in Iowa, and went to work for Milton Earnest in the bank here, as an extra man, but the job ran out when the bank reorganized. Cliff continued to work at any job he could get, including farm work and a year with Western Public service.

When the North Loup Cheese company opened up he drove the first truck for them. Except for about 8 months in 1934 he has been so employed ever since. In 1947 he opened an ice cream and produce station, which he is still running. In 1925 he was married to Aleta Manchester, and they have lived in North Loup ever since. They have seven children, four sons, Dale, Robert, Richard and Gary, and three daughters, Erlene, Linda and Patricia.

Because he has been hauling produce so long for the cheese company and because he covered so large a territory, Mr. Hawkes believes he has as large a speaking acquaintance as any man in the territory. In that time he hauled from nearly every part of Valley county and from parts of all the surrounding counties. He began his new duties July 6.



North Loup Cheese Factory — one of the few in the state, one of the valley's most thriving industries.

The Comfort Cummins family spent Sunday with the Wayne King family at Sumter.

Idona Vodehnal is spending this week in Lincoln with Mrs. Mills Hill. She rode down Sunday with Miss Clara McClatchey.

John Jurgenski has been very ill with heart trouble the past week and his daughter, Mrs. Ray Wiberg of Burwell has been caring for him.

Jean Earnest and Kathleen Haught returned Saturday from Valentine, where they had spent the week with Mr. and Mrs. Donald Haught.

Guests this week in the home of Mrs. Ruth Haught are Mrs. C. C. Haught and daughter, Ruth of St. Paul, Minn.

Frank Johnson had dinner Sunday with Mrs. Stella Kerr and Mrs. Fanny Sample and in the afternoon took Mrs. Kerr to the John Palser home and he and Mrs. Sample were guests of Mr. and Mrs. Earnest Johnson.

Mr. and Mrs. Orville Portis entertained members of the L. W. Portis family at dinner at the cafe Thursday evening.

Mrs. Ada Springer of Portland, Ore., who has been visiting in Scotia attended the Portis family picnic in Ord Sunday. Other guests in the Earl Lincoln home in Scotia last week were Mrs. Albert Warner of Peetz, Colo., and Mr. and Mrs. Loys Springer and son of Lincoln.

Mr. and Mrs. Henry Dress and baby of Mitchell, Nebr. arrived Monday for a brief stay with relatives here. Carley Barber, daughter of Mr. and Mrs. Claud Barber, who had spent several weeks with them, came home. Mrs. Dress was the former Jean Barber.

Sunday dinner guests of Mr. and Mrs. Alvin Kron were Mr. and Mrs. Max Klinginsmith and Judy, Mr. and Mrs. Harry Klinginsmith, Mr. and Mrs. Ed Whalen and family, Mr. and Mrs. Leland Rich and Marvin Lee and Mr. and Mrs. Charles Wolfe.

Mr. and Mrs. Franklin Barrows of Lewiston, Mont., visited briefly Monday with his sister, Mrs. Cloyd Ingerson and her family. They went from here to Lincoln.

Dr. and Mrs. W. J. Hemphill Celebrate Golden Wedding Anniversary

Dr. and Mrs. W. J. Hemphill celebrated their 50th wedding anniversary Monday, July 12, by holding open house. Many friends called to offer congratulations. From a table centered with tall candles in yellow holders and a bouquet of yellow and white daisies, wedding cake and punch were served.

The family of Dr. and Mrs. Hemphill are all in the medical profession and four of the men write M. D., after their names. Dr. Paul, the oldest son, served in World War I and II and since his return from combat in Italy had taken some special work in Kansas City at the Research Hospital specializing in skin diseases and cancer. His son, William, jr. has just completed his interneship in Salem, Ore., and has taken the same line of work as his father. Dr. George is a surgeon and specializes in obstetrics. His wife is a trained nurse and they have three sons, George Louis and Bobby, any of whom might be doctors when they grow up. Both Dr. Paul and Dr. George were in Pawhuska, Okla., for a number of years but two years ago Dr. George and his family moved to Eugene, Ore., and when Dr. Paul completed his work in Kansas City, he with his wife went to Eugene also and their son has just moved to Eugene since completing his interneship. He has two small daughters and one son. Dr. Paul's daughter, Dorothy, is married to an engineer, Robert Hamilton, and lives at Phillips, Tex. Dr. and Mrs. Hemphill's daughter, Gertrude, specialized in medical work and social service work. She is now married to A. P. Mitroff and has two small sons, John Paul and William Julius. They live in Springfield, Vt., where they own and operate a large hotel.

Dr. and Mrs. W. J. Hemphill came to North Loup in February, 1902, following his graduation from medical college in Chicago. Since that time Dr. Hemphill has devoted his time and strength entirely to the people of the community. Babies who can claim to be "his" number well toward 4,000. Sunday he passed his 75th birthday, but his office is still open and though he does not care to do much work, when called in an emergency, he never refuses. Many in the medical profession rely on his diagnosis of a case as being correct. Beside his work as a doctor, Dr. Hemphill has served the community well in many other ways. He loves flowers and the window box in his office as well as the flowers prove that.

Mrs. Hemphill has been an able assistant to the doctor for besides raising their family, she has been active in community affairs and still takes an active part in club, church and library work.

Mr. and Mrs. Will Eglehoff Observe 50th Anniversary Quietly

Mr. and Mrs. Will Eglehoff celebrated their golden wedding anniversary quietly at their home in North Loup Tuesday, with only the members of their own family, Mr. and Mrs. Glen Eglehoff, Clarinda, Ia., and Mr. and Mrs. Kenneth Eglehoff, Oelwin, Ia., present. Mr. Eglehoff's health is not good and open house was not advisable.

Married at York, Nebr., on July 13, 1898, they spent the first eight years of their married life in York county and in 1906 came to Davis Creek, where they resided on their farm until two years ago when they bought a place in town and moved in.

Both of their sons are employed by the Arthur Petroleum Co., in Iowa as district managers in opposite parts of Iowa. They have one grandson, son of the Kenneth Eglehoff's.

Military services for Richard Jeffries, killed in the battle of Saint Lo in France July 5, 1944, will be held Friday afternoon from the Methodist church in North Loup at two o'clock with Rev. A. C. Ehret giving the message. The body will arrive in Ord Thursday via Union Pacific and Hastings and Pearson will have charge of arrangements. The North Loup American Legion will be in charge of the military services.

LOOK OUT FOR POLIO.

Seventeen polio cases were reported in Nebraska by June 1. Help keep the number down.

There is no one rule to prevent anyone from having polio. Most important things to do are first, to know all you can about the symptoms of polio. Next thing to do is to call the physician at once.

During the polio season be sure to: Wash hands before eating. Keep flies and other insects away from food. Help keep your community clean. Cover waste and exposed garbage. Don't swim in polluted waters.

If polio strikes, watch for these symptoms: Headache, unexplained fever, a cold, even an upset stomach. They may be the first symptoms of infantile paralysis. If any of these symptoms appears, call the doctor at once. Expert medical care may help prevent crippling.

Children are most likely to "catch" polio, but grown people get it too. Studies of cases in a number of states indicated about 75% were under 15 years of age; 25% were over 15 years.

Watch for polio and act quickly.

NOTICE AND INSTRUCTIONS TO BIDDERS

1. Sealed proposals for the construction, with materials furnished by **Loup Valleys Rural Electric Membership Association** (hereinafter called the "Owner") of a rural electric distribution project to be financed pursuant to a Loan Contract between the Owner and the United States of America acting through the Administrator of the Rural Electrification Administration (hereinafter called the "Administrator") and to be known as Project **Nebraska 93A Valley** which is to be part of the System known as **Nebraska 93 Valley**, will be received by the Owner on or before **10:30 o'clock a. m., Central Standard Time, July 22, 1948**, at its office in **Ord, Nebraska**, at which time and place the proposals will be publicly opened and read.

2. The Project will be approximately **359.64** miles in length, and located in **Garfield, Greeley, Sherman and Valley** Counties, in the State of **Nebraska**, all as more fully described in the Plans, Specifications and Construction Drawings therefor hereinafter referred to.

3. The Plans, Specifications and Construction Drawings together with all necessary forms and other documents for bidders may be obtained from the Owner, or from the Engineer **Raymond H. Reed & Co.**, at the latter's office at **2305½-13th St., Columbus Nebraska**, upon payment of twenty-five dollars ($25), all of which will be refunded to each bona fide bidder within ten (10) days after the bid opening. The Plans, specifications and Construction Drawings may be examined at the office of the Owner or at the office of the Engineer. A copy of the Loan Contract may be examined at the office of the Owner. Each set of Plans, Specifications and Construction Drawings will have a serial number, given by the Engineer, and the number of each set with the name of the purchaser will be recorded by the Engineer. Bids will be accepted only from the original purchasers or from some other qualified Bidder to whom such a set has been transferred by the original purchaser, providing that in the event of such transfer the Engineer shall receive from the original purchasers, at least forty-eight (48) hours prior to the scheduled bid opening, written notice of such transfer, together with the name of the party to whom the transfer has been made.

4. Proposals and all supporting instruments must be submitted on the forms furnished by the Owner and must be delivered in a sealed envelope addressed to the Owner. The name and address of the Bidder, its license number if a license is required by the State, and the date and hour of the opening of bids must appear on the envelope in which the Proposal is submitted. Proposals must be filled in in ink or typewritten. No alterations or interlineations will be permitted, unless made before submission, and initialed and dated.

5. Prior to the submission of the Proposals the Bidder shall make and shall be deemed to have made a careful examination of the site of the Project and of the Plans, Specifications, Construction Drawings, Description of Assembly Units, and forms of Construction Agreement and Contractor's Bond on file with the Secretary of the Owner and with the Engineer, and shall become informed as to the location and nature of the materials and the proposed construction, the transportation facilities, the kind and character of soil and terrain to be encountered, the kind of facilities required before and during the construction of the Project, general local conditions and all other matters that may affect the cost and the time of completion of the Project, Bidders will be required to comply with all applicable statutes, regulations, etc., including those pertaining to the licensing of contractors and the so-called "Kick-Back Statute" (48 Stat. 948) and regulations issued pursuant thereto.

6. No proposal will be considered unless the Bidder, in the Bidder's Qualifications, shall furnish evidence, satisfactory to the Owner and the Administration, that the Bidder has the necessary facilities, ability, and financial resources to construct the Project in accordance with the Contract. Bidder who has not already completed construction contracts in a total amount of not less than one hundred thousand dollars ($100,000) for REA Borrowers, shall file the Bidder's Qualifications comprising pages 41, 45, and 46 with the Engineer at least forty-eight (48) hours in advance of the scheduled bid opening.

7. The Owner reserves the right to confine its consideration of the several bids to one type of design regardless of alternate types of design which may be specified in the Plans and Specifications and offered in the Proposals.

8. In estimating the least cost to the Owner as one of the factors in deciding the award of the Contract the Owner will consider, in addition to the bid prices of the various assembly units, variations in the cost of operation, maintenance, repairs, and interruptions to service and in any other items of cost; the experience and responsibility of the Bidder.

9. The time of the completion of the Project shall be as specified by the Engineer.

10. Each Proposal must be accompanied by a bid bond countersigned by a Nebraska Resident Agent of Surety or a certified check on a bank that is a member of the Federal Deposit Insurance Corporation, payable to the order of the Owner, in an amount equal to five percent (5%) of the maximum bid price. If a Proposal is not accepted or if a Proposal is accepted and a satisfactory Contractor's Bond is furnished by the successful Bidder, the bid bond or check will be returned in each instance within a period of thirty (30) days to the Bidder furnishing same, except that each Bidder agrees, provided its Proposal is one of the three low Proposals, that, by filing its Proposal together with such bid bond or check in consideration of the Owner's receiving and considering such Proposal, said Proposal shall be firm and binding upon each such Bidder and such bid bond or check shall be held by the Owner for a period of not exceeding ninety (90) days from the date hereinabove set for the opening of Proposals.

11. The Successful Bidder will be required to furnish a Contractor's Bond on a form and with sureties satisfactory to the Owner and to the Rural Electrification Administration, in a penal sum not less than the Contract price.

12. Should the successful Bidder fail or refuse to execute a Contract and to furnish a Contractor's Bond satisfactory to the Owner and the Administrator within ten (10) days after written notification of the award of the Contract by the Owner, the Bidder will be considered to have abandoned the Proposal and the amount of the certified check or other security delivered with the Proposal shall there upon be due and owing to the Owner as liquidated damages for such failure or refusal and the Owner may thereupon award the Contract to any other Bidder. The term "successful Bidder" shall be deemed to include any Bidder whose Proposal is accepted after another Bidder has previously refused or has been unable to execute the Contract or to furnish a satisfactory Contractor's Bond.

13. The Contract, when executed shall be deemed to include the entire agreement between the parties thereto, and the Contractor shall not claim any modification thereof resulting from any representation or promise made at any time by any officer, agent or employee of the Owner or by any other person.

14. The Owner reserves the right to waive minor irregularities or minor errors in any Proposal, if it appears to the Owner that such irregularities or errors were made through inadvertence. Any such irregularities or errors so waived must be corrected on the Proposal in which they occur prior to the execution of any Contract which may be awarded thereon.

15. The Owner reserves the right to reject any or all Proposals. The attention of Bidders is specially called to the desirability of a proper balance between prices for the respective Assembly Units. Lack of such balance may be considered as a reason for rejecting a Proposal.

16. All Project lines to be constructed have been, or before the date of the bid opening will have been, completely staked except as follows: **No Exceptions.**

17. The Owner has on hand or has assurance of delivery of all material necessary to permit the Project to be released for construction except for conductor and transformers. In order to avoid construction delays and periods during which a Bidder would be on the job without materials, an alternate bid is being requested as follows:

All Sections
Alternate No. 1:
Section 1 - Pole Units
Section A - Pole Top Assembly Units
Section B - Pole Top Assembly Units
Section C - Pole Top Assembly Units
Section M - as follows:
M2 - Ground assemblies
M51 1 Project Sign
M32 - Pole Key

Bids may be submitted for **All Sections or Alternate No. 1 or both.** In submitting a bid on **All Sections**, the Bidder understands that he will have the right to suspend work when Sections **1, A, B, C, and M**, as indicated, are completed, if the Owner does not have on hand at least 95% of the conductor and transformers necessary to complete the Project. The Bidder will be required to resume work within ten (10) days after the Owner, with the approval of the Administrator, has requested him to do so, provided that the Owner shall have on hand not less than 95% of the conductor and transformers necessary to complete the Project. Thus, there will be no period during which the Contractor will be required to be on the job when materials are not available. The Owner reserves the right to accept Alternate No. 1 or all Sections, or reject all Proposals. In determining the lowest bidder, Alternate No. 1 bids will be compared only with Alternate No. 1 bids and All Sections bids only with All Sections bids.

Ord Beats Berwyn In Four Hit Game

Local Team Scores 6 to 3, Finley, Philbrick Hit Doubles Broken Bow, Loup City Win

Ord defeated Berwyn 6-3 in Loup Valley league play Sunday as Pitcher Dick Beran held the losers to four hits and struck out eleven men on the Ord diamond.

Three runs in the fourth from Jim Finley, George Fryzek and D. Beran provided the heavy scoring inning for Ord. Finley and Philbrick each scored on doubles.

While in the field, Catcher Rickli proved for Ord that the hand is quicker than two hustling feet. His accurate firing to Dahlin at second put out three Berwyn men in attempts to steal.

For Berwyn, D. Hogg pulled down three "impossible" catches in centerfield. Short-stopping Jones turned in another stellar performance and added two hits for the visitors.

A seven run scoring spree in the eighth gave Broken Bow a 10 to 4 victory at Miller. Bub Graham lead the Indian batters with two doubles and a like number of singles. Pitcher Paul Dean gave up only five hits for the winners.

Miller rallied briefly in the closing frame with two unearned runs collected on errors at third base. It was the second time this season that the Millers fell to an eighth inning come back by the Indians.

At Loup City, Litchfield suffered a close 5 to 4 defeat by the home club which was sparked by the Novosad brothers of Ord. Other league actions were not reported.

Weather Cools Rain Aids Corn

Temperatures Fall to 50's, Shower Measures .58 Inch; Corn Record Seen In Valley

Temperatures dipped below normal in Ord during the week with the mercury ranging generally in the upper 70's. A shower Sunday of .58 inches and a trace of precipatation on Friday aided the cooling weather.

the cooling weather, though high humidity made some days more unpleasant than temperatures would seem to indicate.

The rain slowed the harvest briefly. But corn prospects continued to look bright as the crop entered the critical period. If we get enough moisture, said County Agent C. C. Dale, it will be the biggest corn crop in the county's history.

Weather forecasters predict scattered showers over the Ord trade area for Wednesday and Thursday. Thunder showers are expected again Saturday and Sunday with precipitation falling mostly at night and early morning.

From the report of harvest yields, 48 bushels of barley to the acre on Bill Valasek's place east of Ord topped the list. Over near Comstock, a 46 bushel yield was

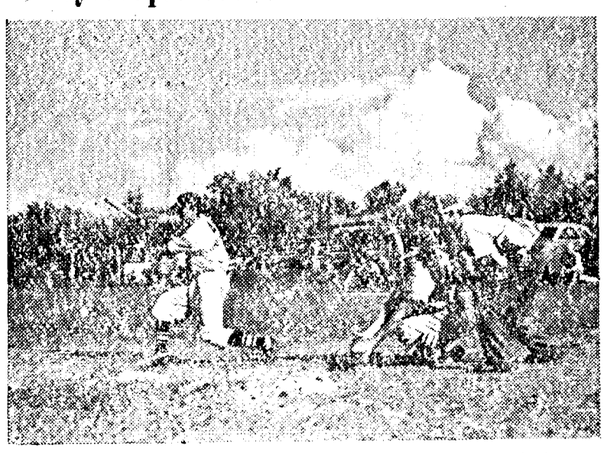
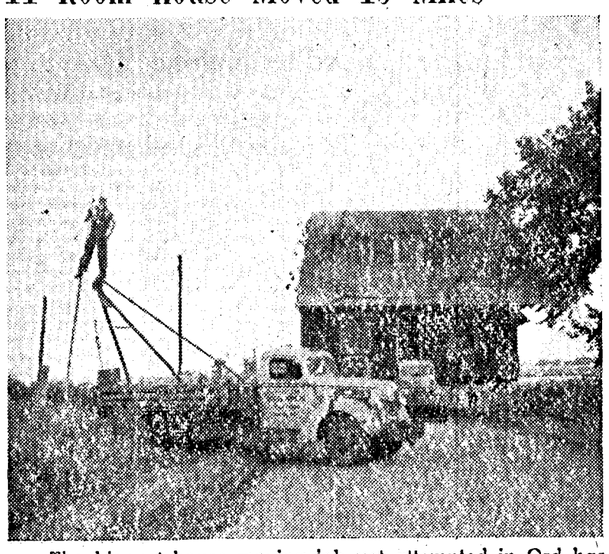
Finley Raps Out Grounder for Ord



Jim Finley, Ord's first baseman, drives the horsehide into the field during the Sunday game with Berwyn at the Ord ball park. The home team won 6 to 3. Catcher K. Hogg of Berwyn catches the breeze from the bat in his mit. An unidentified umpire follows the play afield.

11 Room House Moved 15 Miles



The biggest house moving job yet attempted in Ord has been completed. Mr. and Mrs. Fred Ulrich purchased an eleven room house from Mr. and Mrs. Wm. Valasek and moved it 15 miles into Ord. A crew of three men worked ahead of the house clearing trees for the house. Every bridge had to be reinforced. Every telephone line had to be taken down. Workmen from the main telephone office at Columbus were on hand for the job. George Allen and his crew handled the highlines and telegraph cables.

The house is located on the lot west of the swimming pool. They started moving the house on July 12 and set it on the lot July 20. — Photo by Swopes.

Jacob Shoemaker Dies at Age of 83

Funeral Wednesday for Man Who Lived 60 Years in Valley Co. Homestead

Funeral services were held this afternoon (Wednesday) for Jacob Shoemaker who died July 20, at the home of his daughter and son-in-law, Mr. and Mrs. Carl Young, in Greeley county. Services were at the Hastings-Pearson chapel with Rev. L. V. Hassell officiating.

Mrs. Mark Tolen sang three songs accompanied by Mrs. Orin Kellison at the organ. Warner and Elmer Vergin, Ray Harding, Elmer Bredthauer, Spencer and Russell Waterman served their friend as pall bearers. Burial was in the North Loup cemetery.

Mr. Shoemaker was born in Wisenberg, Alsace-Loraine, France, on Jan. 17, 1865 and passed away at the age of 83 years, 6 months and 2 days.

At the age of 15 he came direct to Omaha from France with his parents, two sisters and two brothers. Three weeks after they arrived in Omaha his father, one sister and one brother died.

In 1881 the family moved to Cass county near Weeping Water and lived there for one year before they moved to Ord. He took a homestead in 1892 where he lived for nearly 60 years.

On April 16, 1900 he was married to Rosalie Soppelsa. Three children, Mrs. Carl Young of Scotia, Alfred, of North Loup, and Edward of Ord were born to this union. He is survived by them, by three grandchildren and a brother, George, of Lyman, Nebr.

Flower Show Set For July 29 at North Loup

Fourth annual Flower Show in North Loup will blossom forth Thursday, July 29, in an all-day exhibition and contest at the Community hall under the sponsorship of the Fortnightly club.

Opening for the contestants at 8:30 a. m., the show will be in full exhibit by 11. A short talk on flower arranging will be made by one of the show judges at 3 p. m. Prizes totaling nearly $60 will be awarded at 8:30 that evening.

Exhibitors will vie for honors under the following prize listings: door prize, flower grower from farthest distance, visitor from farthest distance, best men's exhibit, grand prize and the sweepstakes for the highest total points earned by an individual.

Expect Large Crowd.

Awards will also be made to children exhibitors for grand prize and two sweepstakes. Under flower show rules, flowers must be grown by contestants who may make only one entry in each class. No foliage or mixing of flowers will be permitted except in arrangements.

Displays will be judged on a point system of three points each for condition of bloom, color harmony, arrangement and one point for relation of bouquet to container.

Always a far-reaching attraction to flower growers, the 1948 North Loup Flower show is expected to draw a crowd from all over the state. Approximately 400 attended last year's colorful event.

Further details of flower classification and prizes will be found in the North Loup section of the Quiz.

Plan Terracing Demonstration

Plans are being outlined for a disc, plow and whirlwind terracing demonstration during the first week of September in Valley county. The program will be sponsored jointly by the equipment dealers and agriculture committee of the Ord Chamber of Commerce.

A location for the demonstration is now being sought. Those present at a preliminary planning discussion this week were Howard Huff, Ross Allen, Orin Kellison, Fritz Kuehl, C. C. Dale, Wally Doe and Les Nash.

Foth Passes after Leg Amputated

Funeral services will be held for LeRoy Foth at the Evangelical church in Mira Valley Thursday afternoon at 2:00.

Mr. Foth, 40, son of Mrs. Anna Foth, died Monday after an operation in which his leg was amputated. Mr. Foth had been suffering with infection for the past two years following years of discomfort with his leg. Monday it became necessary to take off his leg in an effort to save his life.

V-J Celebration Planned by VFW

Planning for a V-J day celebration in Ord sometime in August got underway Monday night at a meeting of the Veterans of Foreign Wars.

Nearly 50 members turned out for the regular meeting. Dr. F. J. Osentowski, district commander of the VFW, reported the recent encampment at Kearney.

Dedication of Airport Hits Program Snag

Arrangements for the August 15 dedication of the Ord airport as the Evelyn Sharp field in honor of the famous Ord aviatrix are hitting snags, chamber of commerce representatives said this week.

Requests to Omaha and Kearney army airfields for an aerial demonstration and ground displays have been turned down because of heavy operational training programs. Offutt field at Omaha, however, offered to provide a speaker for the occasion.

Meanwhile at the Ord strip, weeds were threatening to envelop the runways. By weekend, students were hesitating to fly because of danger involved in take-offs and landings.

Airport Manager Gene Barnett claimed the city was responsible for keeping the weeds down. City officials declared that the airport manager is supposed to see that the job was done. According to the city-manager agreement, the manager will maintain the airport premises.

By Monday, Darrell Barber, a commercial license student from North Loup, decided he was through flying in and out of the "tall timber." Bringing his mower from home, Barber moved his machine into the field and did a little barbering of his own.

When he finished his good deed, the NW-SE and N-S runways were again distinguishable from the air in an outline of two-foot high weeds. Pilots in the Ord area tossed a bouquet of alfalfa to Good Neighbor Barber.

Begin Compilation For Ord's First City Directory

Names, Occupations Listed By Address; Business and Organizations Are Included

A city directory, listing names, addresses and occupations of all Ord residents and a business section including names of organizations is being compiled this week. It is the first time in the town's history that a city directory will be published.

Directories are expected to be completed within a month. They will be distributed free of charge. Approximately 2,000 will be published.

Information is being gathered in a house to house survey, conducted by representatives of the Church of Jesus Christ of Latter-Day Saints in Salt Lake City, Utah. The work of visiting each Ord business house began Monday.

The compilation is being made as a non-profit service to the community. Advertising is being solicited, however, from local merchants to help defray the costs of printing. Money is being handled in a directory fund of the chamber of commerce.

In a letter to the chamber, which is endorsing the compilation, representatives of the church stated that they were "interested in talking to the residents of Ord in order to explain their view point on religion and in return to hear the view points of the people of Ord."

Those engaged in collecting the information are Elders Richard D. Wright, Stanley V. Hadlock, Floyd T. Watterman and Darold J. Long. Letters of introduction for the men have been issued by Wallace Doe, chamber secretary.

Baby Business Is Booming, 8 Come in Single Week

The baby business is booming in Ord. Eight new citizens were born in a single week.

Tuesday evening two babies arriving five minutes apart with Dr. E. J. Smith of Burwell attending both mothers made things interesting at the Ord hospital.

Mr. and Mrs. Fred Worm are the parents of a baby born at 7:30 at the Ord hospital. He has been named David Eugene and weighed 10 lbs., 6 ozs. at birth.

Mr. and Mrs. Syl Boro are the parents of a boy born at 7:35 at the Ord hospital. He weighed 6 lbs., 14 ozs.

Mr. and Mrs. Ernest Vodehnal have a new baby girl born Sunday afternoon. She weighed 6 lbs., 6 ozs. and has been named Carrol Ann.

A son was born to Mr. and Mrs. Floyd Arnold, Thursday, July 15. Dr. and Mrs. H. N. Norris attended the birth of the 7 lb. boy.

Mr. and Mrs. Joe Rysavy, jr. are the parents of a 7 lb. girl born Wednesday, July 14. Dr. and Mrs. H. N. Norris were in attendance.

An 8 lb. boy was born to Mr. and Mrs. Adolph Klanecky Saturday, July 17. The baby has been named Eugene Donald. Dr. and Mrs. H. N. Norris were in attendance.

Assistant Coach, English Teacher Complete Roster

Miss Ellen Monfross and Roland Moore Join High School Teaching Staff

Two teachers joined the high school staff during the last week to fully complement the teaching force in Ord for the 1948-19 school year, Superintendent S. S. Thompson announced.

Miss Ellen Monfross of Hastings will assume the duties in the journalism and language department. She is a graduate of Hastings State Teachers college and will fill the vacancy left by the resignation of Miss Frances Horinek.

She is now completing her second summer of work toward her masters degree at the University of Nebraska. Miss Monfross has taught previously at four other Nebraska high schools, the last being at Sutherland.

Roland Moore, who coached at Arcadia last year, is the new assistant coach. A 1947 graduate of Kearney State Teachers college, Moore lettered in football, basketball and track. Originally from Cambridge, he is married and is the father of two children.

Coaches Were Teammates.

Coach Dick Peterson was a teammate of Moore's in college athletics. Upon hearing of the new assistant's acceptance, Peterson commented that since both of them studied under the same coaching system, it would be easier to shape the Chanticleers into a smoothly functioning equad.

Peterson indicated that the fall football schedule would approximate the last year's line-up. Dates and opponents will be announced later.

Other new teachers signed to the Ord schools for this fall are Miss Grace Heston of Crete in the home economics department, who succeeds Mrs. Phyllis Garnick, and Mrs. Paul Rathbun of Ord, new first grade teacher succeeding Miss Delores Donnelson.

Enters Big Carp in Fish Contest

There have been no big fish entered in the fishing contest the past week. Last week Doane Luddington registered a 12 lb., 6 oz. carp caught at Lake Ericson. He was fishing with a river rod and caught three carp that weighed 27 pounds.

Don Urban, 15 year old Oklahoma City boy visiting here, Tuesday entered a 4¼ pound bass that he caught at Ericson with rod and reel, using a minnow as bait. It is the fourth largest bass entered to date.

Other big fish entered to date in the fishing contest sponsored by the Ord Chamber of Commerce are:

A 5¾ lb. bass caught by Bob Adamek at Lake Ericson June 16. He was using a casting rod.

A 5 lb. black bass entered by Theadore Hallner of Ericson, caught on a set line on April 30.

A drummer bass weighing 11¾ lbs. caught in the Scherzberg bayou at Burwell on June 12 by Ralph Dierberger. He was using a set line and minnow bait.

A 10 lb., 4 oz. carp entered by Charles Cos of Ericson caught on a set line with minnow bait at Lake Ericson.

A 16½ lb. catfish entered on April 26 by Dean Westcott, caught on a set line with minnow bait and a 12½ lb. carp caught at Lake Ericson by Walter Briggs on a cane pole using worms for bait.

Fish are biting a little better than they have for the past few weeks but the big ones have heard about the contest and are laying low.

Planes Added To Ord Fleet

Two airplanes were added to the Ord fleet during the week bringing the total to eight which are permanently hangared at the municipal airport.

A four-passenger Stinson was purchased in Omaha by Dillo Troyer. A three-place Piper super cruiser was flown in from Lexington under the ownership of Leslie Nash and Orel Koelling.

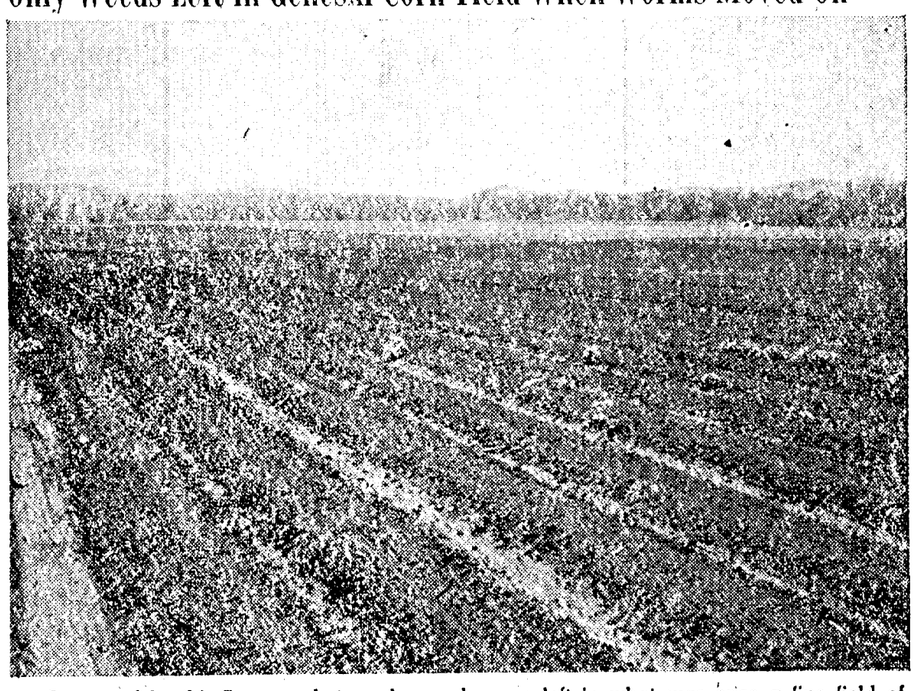
Visitors at the airport this week included one man from Detroit, Mich., enroute to Lusk, Wyo., one from Denver, Colo., enroute to Clarion, Ia., and another from Falls City.

Airport Manager Gene Barnett announced that G.I. training would continue for another year but effective July 1, the program changed so that students must show just cause for taking flight training. Training must be used toward a career or other business reasons, he said.

15½ INCH RAINBOW.

Frank Kapustka took his children trout fishing in the Cedar river Sunday. They came home with a catch of seven rainbow trout. The largest measured over 15½ inches in length. There is no contest on for trout, so the reward for catching that big one will be in the eating.

Only Weeds Left in Geneski Corn Field When Worms Moved On



As proved by this Swopes photo, only weeds were left in what was once a fine field of corn on the Paul Geneski farm east of Ord, after the marching battalions of army worms finished their work. In the background can be seen a field of corn which so far has escaped depredations of the new crop pest.

Pool Still Dry Sewer Is Due

Ditchers Expected Wedn'day Mrs. Grove Is Instructor, May Register for Classes

Ord's new ultra modern swimming pool still remains unused this week because of a lack of that very necessary little item called water. Promises of the sewer company to begin work have repeatedly been flushed down the drain.

According to the latest information from Mayor F. L. Blessing, the ditch men are due Wednesday. According to many Ord citizens, the ditch men are overdue.

C. J. Mortensen reports to the Quiz that he talked by telephone Monday to Mr. Robeck, of the sewer digging company, who said the big digger would be here Wednesday and a carload of tile today.

While waiting for water and finishing touches on the bath house, Director Alex Cochrane continues to strengthen the program scheduled when the pool opens. Registrations for swimming classes are now being accepted.

Mrs. Robert Grove, a certified Red Cross swimming and lifesaving instructor, was appointed to the pool staff at a recent meeting of the Ord Red Cross chapter. Area Director Robberson was present at the meeting.

Mrs. Grove will assist Lifeguard Keith Kovanda in the morning classes. On recommendation of Robberson, the Ord Red Cross voted to pay the new instructor's salary and refund to Kovanda the expense he incurred while attending a recent RC acquatic school in Grand Island.

In addition, the chapter agreed to furnish the pool with a buoy-line for marking the point where the shallow water ends in a sharp drop at the diving board end of the pool.

While expressing doubt that the pool would be finished in time to allow a full swimming course to be completed, Director Cochrane said every effort would be made to provide as much instruction as possible. The pool is expected to be closed around the last of August, about a week before school begins.

Classes will be in session in the morning from Monday to Saturday with divisions in the prep, junior and advanced swimming and diving classifications for both boys and girls.

Joan Ortgies Is Improved

Passing the crisis last Friday, 10-month-old Joan Ortgies was reported in improved condition this week at the University of Nebraska hospital in Omaha, according to word received here.

She suffered severe scalds from her hips to her feet two weeks ago in a bath at her home in Ord.

If Joan continues to improve as well as she has, she is expected to be released to return home in about six weeks, doctors reported.

Polio Foundation Plans Meeting

The national foundation for the prevention and cure of polio will have a district meeting in Grand Island Thursday. There will be a medical speaker at the St. Francis Hospital. Joe Ramaekers, Mrs. Ed Kokes and Mrs. Ross Allen plan to attend. They are getting prepared to handle any cases of polio we might have in this territory. With the epidemic raging in the Carolinas and so many people making cross country motor trips now they warn everyone to be especially careful about the fundamental rules of health, not getting over-tired and keeping utensils, dishes, etc. "hospital clean" and to wage a war on flies.

CLUB TO OPEN.

The Ord Veterans' club will open Monday, July 26, after being closed for two weeks to permit vacations for employees.

REA Moves Ahead "A" Section Bids

Bids for the construction of the REA "A" section, which will serve approximately 630 farms in this area, are scheduled for opening Thursday in the Ord office, Manager W. P. Hollands announced this week.

Three lowest bids will be dispatched to Washington immediately. Final approval of the winning bid is expected within a week.

After the Ord office notifies the approved bidder of the contract award, the company has 10 days to get on the job. As soon as work begins, the contractor has 90 days to finish.

Hollands reported that sufficient material for the job is now on hand with the exception of copper wire. He added, however, that no trouble was anticipated in obtaining the necessary supply of wire. All material is furnished by the REA.

He said that the cost of the project is estimated between $275 and $300 per mile. At this rate the total cost will approach $93,000.

A hearing before the state railway commission on the granting of a franchise for the "B" section is scheduled for Aug. 2, according to Hollands. As soon as the approval is made, the Ord office is prepared to begin staking the "B," he said.

Ord Sisters Cast In Hastings Play

Miss Charlene Munn of Ord has the title role in the Hastings college summer theatre production of "Kind Lady," to be presented in Hastings on July 27 and 28.

Miss Verda Munn is also named in the play cast. Both sisters are daughters of Mr. and Mrs. George Munn of Ord.

In the title role, Charlene will play the part of Mary Herries. Verda will play Lucy Weston. The play, final presentation of the college summer for 1948, is under the direction of H. Keith Slothower.

"Kind Lady" is a psychological drama in three acts, adapted by Edward Chodorov from a story by Hugh Walpole. It first appeared on Broadway during the season of 1934-35 and was revived the following year for 102 performances.

This will be the third play in which the Munn sisters have appeared together at Hastings. First was "The Barretts of Wimpole Street' in May, followed by "Arsenic And Old Lace" in June.

Mrs. Otto Johnson Dies at Lincoln

Word has reached friends here of the death at Lincoln on July 5 of Mrs. Otto Johnson, 71, a former Ord resident who moved with her family to Lincoln about twenty-five years ago. Burial was made July 8 in Wyuka cemetery.

She is survived by her husband, who makes his home in Lincoln with their youngest daughter, Mrs. R. M. Snyder, and also by two other daughters, Mrs. Forrest Eno, of Lincoln, and Mrs. Antone Beran, of Omaha.

The Johnson family was a well known one while living in Ord, both being ardent Presbyterian church workers. Mr. Johnson was a traveling salesman employed for years by Nebraska Mercantile Co., of Grand Island, in this territory.

Lack of Brakes Brings $10 Fine

Kenneth Keown of Scotia pleaded guilty to state charges of driving without brakes and was fined $10 and $4 costs in Valley county court last week.

His case was heard by Judge Joseph W. Ramaekers and prosecuted by County Attorney Ralph Norman. The defendant was arrested by Guy L. Smith of the state safety patrol.

Army Worms Strip Corn In Hail Area

Young Stalks Cut to Stubs; Benzine Hexachloride Kills Pest Which Threatens Crop

Nature renewed her attack on Valley county crops this week with the fourth serious menace which has appeared in this area in recent weeks.

Army worms by the battalions are chewing their way through corn fields along the river east of Ord. Most damage is reported in the young corn in fields where crops were hailed out.

It is the first report of the army worm in the county in recent years.

First plagued by spring drought, followed by crop-mowing hail and the wheat damaging Hessian fly, the farmers are now threatened with the obliteration of their late corn by the new menace.

"The ground is alive with them in some fields," said County Agent C. C. Dale. "They do their damage quickly, leaving a barren path of corn stripped down to a mere stub."

Spray Killer Found.

Benzine hexachloride proved the most efficient killer in tests made by Dale immediately upon discovery of the worm. He urged spraying for eradication and control of the threat. Other sprays tested were chlordane and DDT.

Feeding mostly at night, army worms spend the day hidden in the soil or in the center of the corn stalk in order to keep out of the sun. The night raiders begin their destruction in the evening which is the best time to spray.

Leaves fall first to the pests' appetite. Next come the stalks with the hordes of worms fighting each other for the best positions, Dale said. They work so fast, he added, that a field may look all right one day and be destroyed by the next.

Fields hit already by the tide of army worms are on farms of Paul Geneski, Ed and Verl Timmerman, D. S. McOstrich, Kenneth Timmerman, Ross Leonard, Wayne Stewart, Emanuel Vodehnal, all near Ord and Bill Schudel of North Loup.

Experiments with spray killer were carried out by Dale on infested corn of Geneski. When benzine hexachloride was tested to be the best of the three sprays, Geneski proceeded to spray the chemical. He reports a good kill in his fields.

Dale expressed the belief that the army worms hatched in the new growth in small grain fields where hail fell. After the new growth was eaten, the worms moved into the grasses and finally into the new corn. He reports that old corn planted at the regular time is not being bothered to any great extent.

Law Requires Tag Harvest Machine

Tags required on combines and threshing machines under the Nebraska Noxious Weed law are now available to all machine owners at the Valley county extension office and the weed district office.

The tags must be attached to the machine in a conspicious place. Owners without tags on their equipment are subject to fine for violation of the law. A state inspector is expected in this area soon.

Instructions for cleaning harvest machinery before moving from one farm to another are explained on the tags. Purpose of the law is to prevent the transportation of noxious weed seeds from one field to the next.

Mulligan Fined on Failure to Stop

Dale Mulligan of North Loup was fined $10 and $4 costs by Valley County Judge Joseph W. Ramaekers last week on charges of failing to stop at a stop sign on a highway near North Loup.

The defendant pleaded guilty. He was arrested by Safety Patrolman Guy L. Smith. The complaint was filed by County Attorney Ralph Norman.

Lillian Florian Weds E. Bruha

Miss Lillian Florian, daughter of Mr. and Mrs. Louis J. Florian of Ord, became the bride of Emanuel Bruha, son of Mr. and Mrs. John Bruha of Burwell. The marriage occurred at the county judge's office at 9 o'clock on Tuesday, July 13. Judge Joseph W. Ramaekers performed the double ring ceremony.

For her wedding the bride chose a floor length gown of white ninon with a satin fitted bodice and long sleeves tapering to a point at the wrists. The neckline was round and decorated with beads

matching the beaded tiara which held her fingertip veil in place. She wore a three-strand pearl necklace, a gift from the groom, and carried a bouquet of pink and white carnations tied with a white satin ribbon.

Miss Hattie Bruha of Ord was the maid of honor, gowned in pink ninon. The bridesmaids, Evelyn Bruha, of Comstock, gowned in white net, and Evelyn Nevrivy of Arcadia, gowned in blue ninon. They all carried bouquets of pink carnations.

The bridegroom was attended by Donald Lewandowski, Louie Florian, and Edward Bruha. They all wore dark suits and carnation boutonnieres.

After the ceremony dinner and supper for 45 guests were served at the home of the bride's parents. A three-tiered wedding cake decorated with a miniature bridal couple served as a centerpiece.

In the evening Mr. and Mrs. Bruha entertained their many friends and relatives at a dance at the Ord Bohemian hall.

Out of town guests attending the wedding were Miss Mildred Florian and Clarence Synovec of Omaha and Mr. and Mrs. Anton Lebruska and family, and Mr. and Mrs. Joe Hulinsky of Mitchell, Nebr.

The groom served for four years in the United States army, with 18 months overseas.

The young couple will make their home twelve miles west of Ord, where Mr. Bruha is engaged in farming.

Fish-Desel.

Miss Mary Fish, daughter of Mr. and Mrs. Devillo Fish of Ord became the bride of Maynard Desel, son of Mr. and Mrs. Herman Desel of North Loup at the Methodist parsonage in Grand Island on July 3. Rev. Hubbard officiated at the double ring ceremony. Mr. and Mrs. Charles Klingler of North Loup attended the bride and groom.

Celebrated 75th Birthday.

Mock Wedding, Shower Enjoyed

The Fairview school house was the scene Monday evening of one of the most entertaining bridal showers and mock weddings held in some time. Over 100 friends and neighbors gathered for a shower in honor of Patricia Zmrhal and Howard Jensen, who were married Tuesday, at the invitations of Mrs. James Turek, Mrs. Claud Cropper and Mrs. James Nevrkla.

In the mock wedding Anton Radil was the bride. He wore a white gathered skirt made out of a sheet (by necessity) and wore a veil of one pair of lace curtains direct from a Turek bed room. They were held in place by a large ring of bolonga. He carried a bridal bouquet of radishes and carrots.

The bridesmaid, James Nevrkla, wore an assorted print feed sack skirt and carried a bouquet of pieplant.

Mrs. Claud Cropper was the bridegroom in a slack suit of her husband's and Mrs. James Nevrkla was the best man.

Mrs. James Turek was the ring bearer and brought it forth in a coal bucket.

Claud Cropper acted as a very dignified judge.

After the program the honored guests opened their gifts and a lunch of ice cream and cake was served to the party.

The party nearly took on a tragic note when the honored guests threw a wheel off their car returning to the party from the wedding rehearsal. They were over an hour late before anyone decided to go find them.

Patricia Zmrhal H. Jensen Wed

At the Presbyterian church Tuesday morning at 11:00 before an altar banked with bouquets of salmon and white glads and candles, Patricia Jeannette Zmrhal, daughter of Mr. and Mrs. Charles Zmrhal, became the bride of Howard Jensen, son of Mr. and Mrs. Nels P. Jensen.

Harlan Jensen and Irwin Jensen, brothers of the groom, lighted the candles before the bridal procession led by little Jerome Turek, son of Mr. and Mrs. James Turek jr., and Garnet Zmrhal, little sister of the bride, as ring bearer and flower girl, marched to the altar to wedding music played by Marilyn Ollis. Mrs. Wallace Doe sang three solos.

The bride was escorted to her waiting groom by her father, Charles Zmrhal. She wore a white slipper satin gown made with long sleeves pointed at the wrists, a tight bodice that buttoned down the back and a skirt fashioned into a train. Her two tiered fingertip length veil of illusion net edged in lace was held in place by a beaded tira.

She wore a three strand pearl necklace, a gift from the groom, and carried a bridal bouquet made with white glads, lilies of the valley, soft yellow feathers and white streamers.

The maid of honor, Verna Wieczarek of Grand Island wore an aqua crepe formal trimmed with lace. Bridesmaids, Stella wieczarek, of Grand Island, and Joanne Ort, cousin of the bride, of Omaha, were gowned in pink and yellow formals and all wore short net veils matching their dresses and carried colonial bouquets of glads.

Garnet Zmrhal as flower girl was gowned in a white satin formal with a net overskirt and carried a tiny yellow bouquet.

The groom was attended by Chas. Zmrhal jr., brother of the bride and Harlan and Irwin Jensen, brothers of the groom.

The bride's mother wore a dark green printed dress and the groom's mother wore a black printed silk. They wore corsages of glads.

Following the ceremony a wedding dinner was served to fifty at the East Side Cafe.

After festivities at the home of the bride's parents in the afternoon the bride and groom were honored at a wedding dance at the National hall in the evening.

Out of town guests at the wedding were Mr. and Mrs. Anton Ort, aunt and uncle of the bride, and Mr. and Mrs. Jos. Hlavek, all of Omaha, and Helen Wieczarek of Grand Island.

Robert Miller Wed to Californian

Saturday evening at 8:00 Marguerite Graham, of Santa Barbara, Calif. daughter of Mr. and Mrs. Joseph Graham, and Robert Miller, son of Mr. and Mrs. John Miller of Ord, were united in marriage by Rev. L. V. Hassell at the Methodist church. The double ring ceremony was used.

The bride wore a white sheer street length gown, a picture hat and white gloves and carried pink rosebuds on a white bible. Her maid of honor was Ruth Miller, sister of the groom, who wore a pink dress and picture hat and carried white daisies. Lonny Nelson served his friend as best man.

Arlene and Maxine Wolfe lighted the candles at the altar. Billy Plate, 5, nephew of the groom, was the ringbearer.

James Aagaard sang "I Love You Truly" and the "Lord's Prayer," accompanied by his sister Anna.

LeAnna Kerchal, 11, daughter of Mr. and Mrs. Victor Kerchal played the wedding march.

After the ceremony a reception was held in the church parlor. Mrs. Vernon Mentzer of Ericson served the wedding cake and Mrs. Victor Kerchal poured the coffee. Mrs. L. A. Muncy and Mrs. Geo. Walker assisted.

After a honeymoon in the Black Hills, Mr. and Mrs. Miller will live on the Kerchal farm north of Ord.

Onions Tasteful

Onions are a valuable source of vitamins C and B1 and have some mineral and roughage value, though flavor is their greatest asset.

Urge Prevention Of Water Waste

An appeal to prevent the waste of water diverted to crops was issued this week to all irrigators in the North Loup river irrigation system.

Coupled with the appeal was a warning that water diversions for this season may be restricted below the amount taken from the river last year. The total quantity of water diverted has been a subject of controversy for several years, said the letter from the district office.

The letter emphasized that the right to use public water flowing in the streams of Nebraska is definitely limited to the "quantity which can be used for beneficial purposes without waste."

If the settlement of the controversy is adverse to the irrigation district, only about one-third of the water considered necessary would be available this year. Should this occur, it would be too late to recover any water that may have been wasted, according to the appeal.

Unfortunately, stated the letter, a few irrigators are wasting a part of the water delivered to them. Feeling was expressed that the waste was due largely to carelessness and failure to realize the seriousness of the situation. The letter stressed the necessity for full cooperation of all irrigators.

Schudel Motor Co. Wins Award From Studebaker Co.

North Loup Firm in Business 25 Years; Second Award Given in State

To the Schudel Motor company of North Loup goes the honor of being the second in the state to win the Studebaker Corporation's efficiency award this year. To win this award a company must qualify in a number of ways. First, it must have a service manager who has won the efficiency award through his knowledge of the business; second, the company must have a complete line of approved tools and equipment for the servicing of cars; third, the parts department must be complete with approved parts; and fourth, certain required signs must be displayed at both main and service entrances.

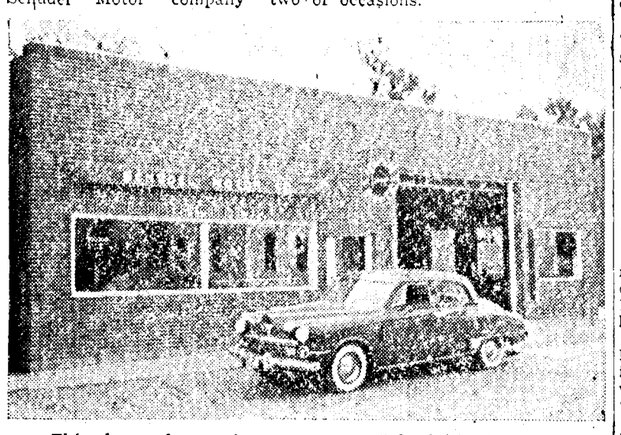
All this has been done by the Schudel Motor company. In the person of Fred Lundstedt they have a man who has received the master mechanics award three years from the Studebaker corporation. He has now been with the local organization for two years, and before that was located in a similar capacity at Salina, Kans. Fred is 39, married Gertrude Bohrer of North Loup, and they have four children, Charles, 12, Mary Lou, 11, Robert, 7, and Dean, 6. He is service manager, and does much of the servicing himself.

Mechanic for the company is Donald Hutchins, son of Mr. and Mrs. Floyd Hutchins of North Loup, who has also been with Schudel Motor company two years. He is 23 years old and is married to Betty Burton, formerly of Scotia. They have one daughter, Deborah Jo., five months old. Merlyn Clark completes the personnel. He is a son of Mr. and Mrs. C. B. Clark and is 37 years old, and unmarried. He is the general handy man, and his chief job is to keep everything clean, a job at which he is especially good.

F. J. Schudel, the owner, has been handling Studebaker cars for the past 25 years, in fact ever since his marriage. At first he did this in connection with his farming operations, but now that their son, Merlyn, is through high school and taking over much of the farm work, Frank devotes most of his time to the business. Three years ago he bought several lots in the business section, and two years ago he erected on them the finest business building in North Loup, with main entrance on C street (the highway) and service entrance on first avenue.

This building cost him $25,000 to erect and equip. The display rooms in front have ample room for cars and trucks, with office on one side and the parts room on the other of the driveway to and from the service room in the rear. This service room is large enough to handle all the business as it comes in, with plenty of room for storage and for parking cars.

Mr. Schudel is justly proud of his record with Studebaker people. He says that he still has customers who bought their first car from him a quarter of a century ago. In that time some of them have bought a dozen or more cars. Stanley Mitchell of Burwell has been one of his most loyal customers. In recent years it is nothing unusual for somebody to fly in for parts. A man from O'Neill has done this on a number of occasions.



This shows the service entrance to Schudel Motor company.

The gang displays the efficiency award in front of the parts departments. Left to right, Merlyn Clark, Fred Lundstedt, F. J. Schudel and Donald Hutchins.

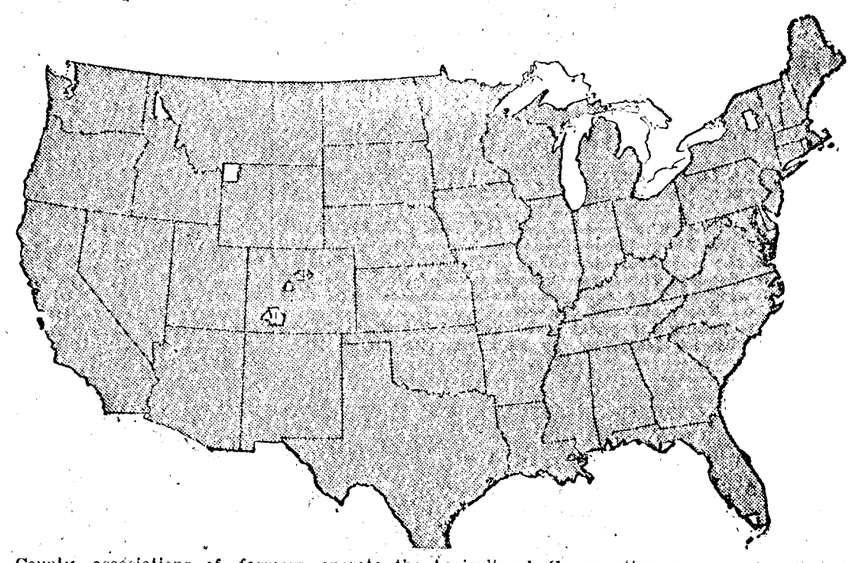
Conservation Program Blankets U. S., 940 Valley Farms Receive $100,060



County associations of farmers operate the Agricultural Conservation program in all but 23 of the nation's 3,071 counties, according to a recent survey of the ACP. Counties not in the program are mountainous mining, national parks or metropolitan areas. More than 100,000 farmer-elected committeemen administer the program.

In 1947, the three million farmers participating in the ACP carried out a total of nearly five million conservation practices to save soil and water. These measures ranged from planting and plowing under an estimated 18 million acres of cover and green manure crops to the construction of an estimated 90,000 stockwater and erosion control dams.

940 Valley Farms.

In Valley county, 940 farms consisting of 233,825 acres participated in the 1947 program, according to Paul Owen, AAA chairman. There are a total of 1,592 farms totaling 361,728 acres in the county.

Farmers received a total of $100,060.94 in government payments last year. Erosion dams here amounting to 242,495 cubic yards was the largest single project with $24,249 in payments. Other practices included contouring 17,195 acres, $25,792; seeding alfalfa 5,827 acres, $11,651; and livestock dams 14,447 cubic yards, $1,444.

Also included were contour seeding 7,753 acres standard terraces 40,291 feet, broad base terraces 7,850 feet, diversion terraces 93,366 cubic yards, summer fallow 2,347 acres, sod waterways 139,900 square feet, weed eradication 50 acres, green manure 5,145 acres, drainage ditches 10,979 cubic yards, land leveling 52,130 cubic yards, and permanent cover 2,015 acres. Dams and terraces built by contractors totaled $29,090.

North Loup

Mrs. Gene Kutchkau and Rannic of Grand Island were Wednesday and Thursday guests of the Earl Smiths and George Eberharts.

Mr. and Mrs. Cecil Lockhart of Ericson were down Sunday, bringing Sharon and Jolene Eberhart who had spent the week with them home.

Mrs. Florence Hutchins was a Saturday dinner guest of Mr. and Mrs. G. L. Hutchins.

Mrs. George Eberhart spent Friday night in Grand Island with Mr. and Mrs. Roy Schwieger. She returned home Saturday.

The Pop Corn committee held a meeting Monday night to make final plans for the annual home coming festival which will be held September 14, 15 and 16.

Mr. and Mrs. Harry Kammerlehr were guests in the T. J. Hamer home from Wednesday until Monday.

Mr. and Mrs. W. H. Vodehnal, Ilona and Wilma were in Grand Island on business Monday. Evelyn and Carolyn Hamer kept the drug store open.

Mrs. Clara Holmes, who came home from Wisconsin recently because of illness, is at the home of her sister, Mrs. Ava Johnson, and is a little better this week.

Mr. R. O. Babcock is among those who are sick this week.

Mr. and Mrs. Harry Kammerlehr and Mr. and Mrs. T. J. Hamer, Evelyn and Carolyn were Friday supper guests of Mr. and Mrs. John Hamer.

The North Loup Lion' club met at the Portis Cafe last Thursday, and reports of the publicity committees were received. The Local Cheese Factory, Popcorn Processing Plants and the North Loup Lumber Co. all contributed samples of pop corn and cheese which will be sent to the Booth in Madison Square Garden, advertising the wares and products of the state of Nebraska. This Booth is sponsored by the Lions' clubs of Nebraska, and is held in connection with the Lions' International Convention which is being held in New York City, July 27-29th. William Vodehnal was chairman of the publicity committee. John Ward made the posters advertising the North Loup products. William Vodehnal procured the pictures of the Pop Corn Day parades. July 29th is the night for the ladies, and W. O. Zangger is the chairman of the committee in charge. If we have a fairly good attendance, something like eighty or ninety Lions and their wives will be there.

Rev. Samuel Mitchell attended the District Cabinet meeting of the Hastings district of the Methodist church, held in the First Methodist church at Hastings, Tuesday, July 20.

At the meeting of the Pop Corn committee held Monday evening, Dell Barber was chosen to be co-chairman of the committee with Ben Nelson, chairman, who expects to be away much of the time looking after his ranch recently purchased near Gunnison, Colo. Plans are under way for a bigger and better celebration than ever. The Thomas Amusement Co., of Fullerton will be here with their carnival, there will be a saddle horse show, good agriculture exhibits, a ladies department with fancy work and canning, a 4-H club special exhibit and plenty of entertainment for all. Dates for the celebration are September 14, 15 and 16.

Alvin Ingraham, 16 year old son of Mr. and Mrs. John Ingraham is in the St. Francis hospital in Grand Island, taken there Sunday because he could not be roused from a deep sleep. He had gone to bed Saturday night apparently in good health and when called Sunday morning could not be awakened. Doctors have not determined what the trouble might be but did not think Monday he was suffering from polio as was first feared. Monday John Ingraham and Marvin went to Grand Island and he seemed a little brighter.

Mr. and Mrs. Joe Swenson of Sioux Falls, S. D., were week end guests of his nephew, Carroll Swenson and Mrs. Swenson.

Mrs. Arthur Watts and two sons of Myrtle Point, Ore., are guests of her parents, Mr. and Mrs. Reuben Nolde. Next week Mr. and Mrs. LaVerne Noyes, also of Myrtle Point will arrive, and early in August the Cletus Nolde family will come from Illinois and the family circle will be complete.

Emil Skolil has bought Vesta Thorngate's residence and will get possession September first.

John Hill is spending this week with his parents, Mr. and Mrs. Ray Hill. Larry Hill, of Omaha, son of Orval Hill, is also spending two weeks with his grandparents.

Ellofa Cook and Twyla Green went to Lincoln Thursday with Jean Earnest and Delpha Brown. They returned home Monday.

Mr. and Mrs. Bert Mallery and son and Mr. and Mrs. Grover Jorgensen were Sunday dinner guests in the Stanley Brown home, helping celebrate Mr. Brown's birthday.

Mr. and Mrs. L. W. Tepner and Jimmie of Stapleton were week-end guests of Mr. and Mrs. G. L. Carter and family.

Charlie Cress has not been as wel as usual the past week end. His son, Dale, of Kearney stopped Thursday night to see him. Mrs. Chas. Mayo was down from Ord Tuesday morning to see him.

Mrs. Berta Barber and son, Russell, drove to Grand Island Monday evening to take Mr. and Mrs. Melford Goodrich to their train for their home in Brooklyn, N. Y.

L. V. Hassell, Pastor

We are preaching a series of sermons on the Gospel of Christ. There will be four sermons on this series and the subject for next Sunday will be: "Testing the Gospel of Christ". We urge each one to be present at each of these services, as these sermons are planned to help each one to find his place in the Christian way. Bring the whole family and help the church to develop Christian character in growing children and youth. Let us all keep faith with Christ during the vacation period and attend church wherever we are during the summer months.

Health Institute Planned for Ord, Arcadia and NL

Plans for a health institute in Ord, Arcadia and North Loup next spring were tentatively laid in a meeting last week of the Valley County Council of Extension clubs in Ord.

The program will be held in cooperation with the Business and Professional Women's club. Mrs. C. W. Weekes of the B.P.W., who met with the council, consented to contact the state health department for information regarding the availability of the T. B. Mobile X-ray unit and suggestions for conducting an immunization clinic.

Miss Helen Becker, health specialist from the state extension service spoke to the council members about various health activities which have been carried on in other counties. She discussed the organization needed for carrying out health projects and explained the services available from the state department.

Immunization Clinic.

The council expressed interest in the possibilities of holding an immunization clinic some time in 1949. Red Cross nursing classes were also discussed.

Organization of rural families so that they might become eligible under the Blue Cross and Blue Shield plans were explained by Miss Becker.

Mrs. W. E. Dodge, member of the county hospital committee, told the group that at last report of the hospital situation, progress was at a standstill and that no organization had been found who would definitely take over the hospital.

Delegates to the annual meeting of the state council of extension clubs held in York last June made reports of the meeting. Mrs. Carroll Thomas, county extension chairman, told of the business sessions and the suggested program for next year. Mrs. Loren Good, group chairman, reported the social activities and lectures.

To Study Irrigation at Broken Bow

An explanation of the irrigation and soil conservation plan recently completed on the Miles Lee farm four miles east of Westerville will be given July 27 during an all-day program sponsored by the Broken Bow chamber of Commerce, extension service and SCS.

Model layout for concrete spilling base, drop structure, turn out boxes and siphon tubes will be shown. Principles and methods of land leveling and a demonstration of an electric irrigation pump are included in the schedule.

The meeting will begin at 10:30 a.m. at the Broken Bow city hall with a movie on Nebraska irrigation. Ivan D. Wood, conservation specialist of Denver, will be the principal speaker. The field trip to the Lee farm will leave Broken Bow at 1 p.m.

Arcadia Man Who Saw Gettysburg Dies at 95

Funeral services were held at 1:30 Monday afternoon at the Methodist church in Arcadia for David Stover Royer, a hardy pioneer who made his home at Arcadia since 1900 until six years ago when he entered the Bethany Home in Minden.

Rev. Bushby of Litchfield officiated at the funeral with Hastings-Pearson in charge of arrangements.

Pall bearers were Arnold Tuning, Frank White, H. D. Weddel, E. W. Hunkins, Charley Scott and Guy Lutz.

Mr. Royer was born near Chambersburg, Pa., Oct. 7, 1852 and died at the age of 95 years, 9 months and 9 days. When a boy he heard the battle of Gettysburg and saw his father's horses stolen by the rebels after the battle.

He was married May 12, 1881 to Emma Iva Quinton at Loup City by Judge Aaron Wall, brother of John Wall. To them three children were born, Grace who died in infancy, Bessie May Shank who passed away in January, 1934 and Clint Stover Royer. Mrs. Royer passed away in February, 1934.

He leaves to mourn his passing two brothers, Elam and Ezra of Chambersburg, Pa., his son, Clint, in California, and one grandson, James Stover Royer now stationed in Manila in military intelligence.

Mr. Royer was buried in the family plot in the Arcadia cemetery.

If Drew Pierson Can Do It, So Can We . . .

HERE IS OUR PREDICTION

It is common knowledge that the prices of iron and steel are out of sight, or soon will be, what with increased wages to steel workers, increased wages to coal miners with consequent increase of coal prices to steel mills, and the other inflationary factors that are bound to cause steel prices to continue their rise.

While we can still see these prices, before they rise entirely out of sight, let us figure the work that you want or need, whether the job be large or small.

We have all the facilities for complete installations in the plumbing and heating line — NOW right out of stock.

Included are sinks, lavatories, electric water heaters, tubs, stools, etc., in such famous brands as Crane's, Realm, Sidlehuber and Imperial.

We can make immediate delivery on nearly anything you need. Why not consult us now?

Farwell Upsets Palmer 2 to 1

League Leader Dethroned; Danes Share First Place After 3-1 Win from NL

Farwell's last place Sherman-Howard leaguers whittled a 2 to 1 victory out of the game with league leading Palmer Sunday in one of the biggest upsets of the season.

After scoring once in the fourth inning, Palmer held the cellar team at bay until the seventh, when the underdogs went wild with two men rounding the circut. Neither team could muster the power to score again.

Hard fought and well played, the game was enough to chill the heart of any advance dopester. Only two errors were recorded for each team. Borzych allowed eight safeties while Davis gave up six hits.

Palmer's loss dunked them into a two way tie for first place in league scoring. Farwell went ahead of Grand Island again after falling into the league depths a week ago when the Islanders vacated the spot by a 6-5 win over Ashton's third place squad.

In the game at Dannebrog, the Danes capitalized on the breaks to win from North Loup 3 to 1. The triumph evened the Dannebrog and Palmer game scores to eight wins and two losses each for a tie in top position.

At Elba, the crack of the bat approximated the roll of drums as the home team and visiting Ashton ran up a total of 34 hits for the afternoon. Elba took the contest with a 13-10 count.

The game scheduled between Cushing and Grand Island was postponed because of wet grounds.

Games next week: Cushing at Farwell, Palmer at Ashton, Dannebrog at Elba and Grand Island at North Loup.

Last Sunday's scores:

	123	456	789	R	H	E
Ashton	005	101	300	10	14	3
Elba	410	503	00x	13	20	5

COMING LVL GAMES.

Ord's ball team will tangle with Broken Bow in a game away Sunday. The Indians are reportedly out to avenge an early season defeat which went to Ord 3-2. Players for Ord have announced their intentions to win by even a wider gap in the score.

Other games scheduled: Miller at Comstock, Mason City at Litchfield, Loup City at Ansley and Arcadia at Berwyn.

Ord Girls Lose; Plan Revenge For Wednesday

In their first competition of the season, Ord's girl softball team suffered a 22 to 12 defeat at the hands of the experienced feminine crew at Burwell last Tuesday.

The Ord fems will be set for a retaliation next Wednesday when the Burwell ladies gather for a twilight tea in Ord's own back yard.

The line-up:

Former Burwellite Dies in Accident

Mrs. Marion Craig, 36, was fatally injured when the automobile in which she and her husband, Lester Craig, were riding, rolled down an embankment near Bristow, Okla. Her husband is in a hospital there, reportedly in critical condition. A son 4, and a daughter, 8, survive their mother.

Mrs. Craig was the daughter of the late E. M. White, an attorney in Burwell for many years who later went to Lincoln and served as Supreme court clerk until his death. Her girlhood was spent at Burwell and she was a graduate of the Burwell schols.

Junior Legionaires Swat Burwell 31-4

In a lop-sided Junior American Legion baseball game Sunday, Ord's juniors romped over an outmatched Burwell nine by a score of 31-4.

Hitting freely throughout the game, Ord scored practically at will. In next Sunday's league game, Ord will meet Scotia on the home diamond.

On Monday, the Ord Junior Legion will go on the road for a tangle with the fast Hastings Junior Legion team. The contest will begin at 8:30 under the lights.

Have a Pickle Sundae?

Any food that is good by itself can safely be eaten with any other food or combination of good foods, declares National Dairy council. The idea that eating a pickle with milk, or with any other dairy product, would form mysterious poisons in the body is a product of lurid imagination unhampered by facts, the council says. Lactic acid, of which pickles are rich, has great therapeutic value and actually is used to improve the digestibility of milk for infants and invalids.

Smallmouth Black Bass

The general color of the smallmouth black bass is dark golden green with a brownish luster which may be blotched with darker spots along the sides. The mouth is large but the corner of it does not extend past the eye. Ounce for ounce, the smallmouth black bass is the scrappiest fish of all species when hooked. Average size is between three and four pounds although specimens weighing seven or eight pounds have been taken in Wisconsin.

Garlic for Health

Aurelius Cornelius Celsus more than a century before the birth of Christ, prescribed onions as the best remedy for "the fever." Mohammed claimed that garlic took the place of a common poison antidote for the stings or bites of venomous animals. In modern times, the inhabitants of French Guiana use the herb for the same purpose.

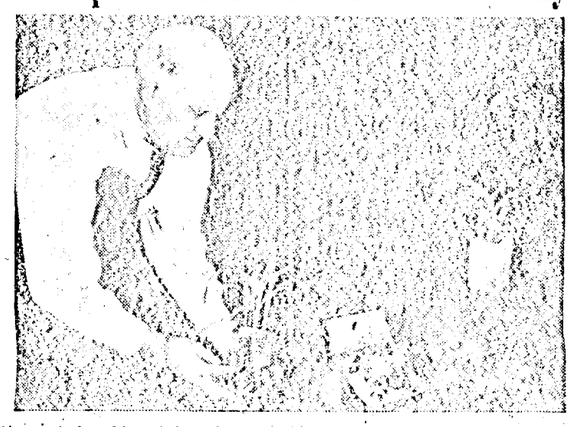
Increase Sorghum Profits

Sorghum research by the Oklahoma station has yielded information as to the most satisfactory varieties for grain, forage and sirup in various parts of Oklahoma, and more productive forage and grain varieties have been developed. The annual value of this research is estimated at three million dollars for production of grain, six million dollars for forage and one million dollars for sirup.

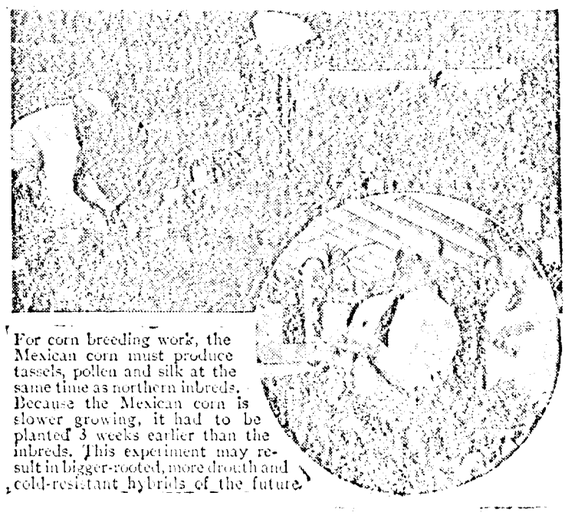
Gas Rendered Harmless

Gas masks were introduced by the Allies in World War I, following first gas attack by the Germans at Ypres, April 22, 1915. A new gas-mask chemical has been invented, made from the peroxides of sodium, potassium, magnesium and organic substances which make all known gases completely harmless.

Transplant Mexican Corn Successfully



Big-rooted, cold and drouth resistant corn from the high plateau country of Mexico was successfully transplanted in Illinois this spring by corn breeders. The Mexican seed was started in a greenhouse earlier in the spring before Illinois soils were warm enough for corn, and then transplanted outdoors in paper ice-cream cartons.



For corn breeding work, the Mexican corn must produce tassels, pollen and silk at the same time as northern inbreds. Because the Mexican corn is slower growing, it had to be planted 3 weeks earlier than the inbreds. This experiment may result in bigger-rooted, more drouth and cold-resistant hybrids of the future.

reported on the farm occupied by Frank Kaelin.

At Omaha, the cattle market reverse of late last week gained further backward momentum Monday with losses from $1.50 to $2.50. Prices bogged deeper as the session wore on. Hogs were little changed except for strength on lightweight butchers and sows.

Market sales from Valley county reported Lores Hornickel, 19 hogs, wt. 407, $22.50. From Garfield county, Smith, Sperling & Wright, 18 steers, wt 1106, $33.00; 10, wt. 1011, $32.

Around the potato hills in the Grand Island area, harvesters took full strides in gathering up an above average yield. Six carloads of spuds were moving out daily.

Oil That Lubricates

The ability of an oil to lubricate has little relation to its viscosity, but is rather determined by the chemical structure and composition. If the clearance between moving parts is close and a heavy oil is used the friction may be great enough to heat the oil and thereby make it thinner; but its lubricating properties are still just as good as before.

Super Phosphate

We will have a carload of Super Phosphate on track the first part of Sept. This is a fertilizer that should be put on winter wheat and rye when sowed in the fall of the year. Super Phosphate shows remarkable results when applied to alfalfa and sweet clover fields also. Most people have felt in the past that Nitrates is about all we needed in our section; however test plots have revealed that Super Phosphate on small grain and legume crops will help a considerable amount. We recommend that you try out super phosphate on your fall grain at sowing time.

Sweet Clover and Alfalfa Seed

Sweet Clover yields are very good this year and it looks as if there might be a large enough crop of it to reduce the price later in the season when most of the large handlers get a good supply. We urge you to take good care of your sweet clover crop and put it on the market early this year. Alfalfa fields that are left standing for seed look very good at present and if we do not have too much damage from grasshoppers we should have good yields. Let us make an offer on your alfalfa and sweet clover seed as soon as it is ready to go to market. We have bags on hand for you to use when you thresh.

Grains

You will always find our bids on grain very strong according to Omaha cash bids. The markets have been pretty unsteady of late and some of the big grain men seem to think that we might have lower markets. Of course your guess may be as good as theirs; but if you want to sell grain let us make you an offer on what you have to sell. Maybe you want to buy some feeding grain. We should have quite a little oats and barley to offer the last of this week.

You won't find long unloading waits at our elevator. We have a new electric hoist and we do have a lot of elevating capacity; so you won't have to wait very long to get unloaded. If you need a truck let us know a day or two before you will need it and we will do our best to furnish one when you want it.

"It pays to buy from Noll."

FEEDS

Again many of the feeds are lower in price this week. Subject to stock on hand and market changes we offer you feed at the following prices.

Omar Egg Mash, print bag	$4.40
Bran, per bag	$2.60
32% Poultry Concentrate, print bag	$5.55
Range Cubes, 22% protein, ton	$82.50
Oats, per bushel	76c
Swift's Mineral, per bag	$3.95
Shorts, per bag	$3.25

Meat Scraps - Linseed Oil Meal - Dairy Feed - Hog Supplement - Calf Meal and Salt.

YELLOW CORN and BARLEY — some good feed grain and at amazingly low prices in comparison to what they have been. If in need of feed grain it will always pay you to contact us.

FERTILIZER

Ammonium Nitrate, 33½% Nitrogen. We have only 2 tons left for sale out of this first car.

GRAINS

Again feed grains are lower and wheat about steady. The moisture discount at the terminal markets and mills are getting more severe. You are the only ones to see that the grain does not carry excessive moisture. We will pay highest market prices for dry grain.

New York Columnist Picks Fight Champ; Praises Ashburn

Hopp Is Hell-For-Leather, NU Slow In Football Return, Says Whitney Martin of AP

"A stinker, an awful bad fight," is Sportswriter Whitney Martin's ringside description of the recent Louis-Walcott heavyweight fight.

"But, Louis has given me more thrills than anyone else in sports," declared the nationally known Associated Press columnist who visited over a recent week end with his sister, Mrs. Charlie Clark of North Loup.

Lifting his fists to a fighting position, Martin combined motion and words to describe Louis' "cold, calculating, poker-face" and "lightning fast short punch." "There's no one around now who can give him a good fight," he added.

Charles Next Champ.

As for the next heavyweight champion of the world, the New York sportswriter has his eye on Ezzard Charles, a light-heavy negro from Cincinnatti.

Asked about Gus Lesnevich, Martin said the light-heavy weight champion was "pretty old." He cast a decisive vote for Sugar Ray Robinson, welter-weight, for the "best fighter, pound for pound, in any class."

Turning to Nebraska's current baseball standouts, the columnist termed Richie Ashburn of Tilden as a "firecracker." He recalled his first meeting with the sandy-haired Nebraskan in the Florida spring drills when the Philly rookie was playing infield and outfield with equal dexterity.

"He can play any position and is fast enough to beat anyone in the majors to first base, said Martin admiringly. The Philadelphia centerfielder was picked for the All-Star game and has a .410 batting average.

Johnny Hopp is a "hell-for-leather" player said Martin in in answer to a query about the Hastings man. "Once he gets on first, he's hell-bent to slide, steal and score."

Rex Barney, an Omaha pitcher with the Brooklyn Dodgers, is another Nebraskan with a "good future," declared the valley visitor.

Questioned about University of Nebraska football, Martin lit up a cork-tipped cigarette and turned reminiscently back to the middle 30's when he was with the AP in Lincoln. Cardwell, Sauer, Masterson and the rest — all a great bunch, he said.

Slow N U Return.

"But it used to be that Nebraska's high school athletes all dreamed of the day they would go to Nebraska U. All schools were hit during the war, but NU has been slow in getting back on top," Martin commented.

In the coming Olympics, he predicted that the Americans would sweep the track and field contests. Then he added cautiously, "But you never can tell. We never hear much of what athletes in other nations are doing.

Gil Dodds recent announcement that he would be unable to run because of an ankle injury was labeled a "bad break" by Martin. He anticipates that the Scandinavians will probably lead the distance races.

A middle-aged man, partly bald and beginning to spread out a bit around the belt line, Martin began his newspaper career on a daily paper in Marshaltown, Ia. After two years, he moved to the Omaha Bee-News for eight years where he concentrated on sports.

He started with the wire service in Lincoln in 1935. From there he advanced to AP bureau sports manager in Kansas City. About 10 years ago he was assigned to a morning sports column in the New York bureau.

"Writing a daily column sounds easy to some people," he said. "But it's a job. Try it sometime, just for a week," he suggested.

What's Ward's Cookin' Column

Two weeks ago I made some rather sarcastic remarks about people making too much fuss about people after they are dead and too little while they are still living. A plea for flowers to the living, as it were. I did not look for the column to have any results so far as the writer was concerned. It appears I was mistaken. There is my old friend, Rev. Sam Mitchell, who is always doing nice things, anyway. The other evening he came walking across the street with a lovely bouquet of sweet peas, and he brought them especially for me. Well, they were certainly appreciated, and I hope that my little outburst may have brought sunshine to many other folks.

Here in North Loup the citizens are bedeviled with a rank growth of a dozen or more different kinds of weeds, all of which serve to take the joy out of life. The sour dock is one of these. It has been here for a long time, multiplies rapidly and thrives where many crops would not grow at all. It has one virtue, it is easily killed. Then there is the so-called fire weed. Live stock, chickens especially, seem to like this pest, which is not hard to destroy when it is young, but grows into a young tree and is very hard to destroy if allowed to mature.

Everybody knows or should know the crabgrass, which gets a start in the garden or field in wet weather, and then is very difficult to destroy. If left alone it will spread and choke out anything you try to raise in the places infected. Brought in and spread by irrigation is a kind of grass which ripens in June and does no further harm until the next year. It grows thick and early, has no particular value, but is easily pulled and burned when ripe. These are only a few of the dozen or more pests that make a man's life miserable if they are given a chance to get started.

I thought the weed problem probably was confined to the irrigated area, and was partly a result of irrigation until I went out into the country last week and traveled around through some of the finest non-irrigated farms in Valley county. I could hardly believe what I saw. There were fields supposedly in small grain which were so choked with weeds that it will be useless to harvest them in some cases. In others there will be large areas not worth cutting except to get rid of the weeds.

Farmers who know tell me that this is a condition that began to develop during the drought period and seems to be growing worse ever since. It has been helped by weather conditions which have prevented farmers doing their farming when it should be done, thus giving the weeds a head start of which they always take the fullest advantage. It can be helped by careful cultivation. In time much of the worst places will no doubt be given a treatment with some of the new weed poisons. At best it is a tough proposition to handle.

It was my privilege to attend a service at the Mira Valley Evangelical United Brethren church in company with a visiting minister, Paul Nelson of Stromsberg. It was my first visit there since the dedication of the new church I believe, but am not certain, that it was the first church I ever went to. I do know that I went there with my two older sisters when I was very small. I recall some of the customs of those days which have changed entirely. It was usual then for the men to sit on one side of the church during the services, and the women on the other. In those days, because so many of the older people knew little English, the morning services were always conducted in German. The songs were sung in German. Although we didn't know what the words meant we kids learned those songs by sound, and I can still sing some of them today, the way the words sounded to us. Frankly, I do not think I could translate them into English, but I don't care, I still sing them sometimes just as I learned them well over fifty years ago.

There was a lesson led by Archie Geweke, who had studied up on the subject, and he made it very interesting. It had reference to the building up of country churches, and he spoke of a fact that has often occurred to me before, and that so many of the once flourishing country churches are now a thing of the past. In fact, at the present time only two protestant country churches are still in business in Valley county, and these are only half a mile apart in Mira Valley, the church of which I am speaking, and St. John's Lutheran, half a mile to the east.

When we lived out there in the old days there were five churches within easy reaching distance, all of which had good congregations and held regular services each Sunday. The Vinton Methodist church, located on the projected townsite of the town of Vinton, went out of existence a long time ago. Another, the Wilson Memorial Presbyterian church, ceased to hold meetings. Later on Oliver Bell bought the building from the church board, tore it down, hauled the lumber to Hastings and built a home there of the lumber. More recently the Midvale and Evangelical churches were combined, and the Midvale church is being torn down.

Over on Davis Creek there were once two fine church buildings, which lent their name to the locality, and today with both churches gone, it is common to talk of the corner by the churches.

The Methodist was the first to be established, and the last to be sold. St. John's Lutheran first started a mile south and a mile west of its present location. Several years ago it was decided to move it to a more accessible spot. After it had been moved the North Loup-Arcadia highway was established to go right past where the church had stood.

Yes, many of the churches are gone, but their influence lives on in the lives of a number of young people who were brought up in their environment and who entered the ministry. Offhand, I can think of eight, and there are probably a number more. Nothing good in this world ever passes completely out of existence, but may even cast its influence over generations yet unborn.

Out Of Old Nebraska

By James C. Olson,
Supt., State Historical Society

Nebraska's wheat harvest in these days of modern combines which cut and thresh in one operation is a far cry from the slow, laborious process by which pioneer farmers harvested their grain. Indeed, a significant part of the history of all of Nebraska's agriculture is the story of the great developement in agricultural machinery which has taken place since the days of early settlement.

Although reapers of a sort had been in use for more than 20 years when Nebraska territory was opened for settlement in 1854, most of the territorial pioneers had only the scythe or the cradle with which to harvest their small grain. Reapers simply were too expensive.

During the sixties and early seventies, the reaper became quite common in Nebraska. These early reapers simply cut the grain, letting it lay on a platform, and a man had to walk along and rake it off by hand. Later a self-raking feature was added which threw the grain on the ground in bunches. In using the reaper, it was necessary to pick the grain off the ground and tie it by hand. After that it was shocked, and later stacked.

An improvement over the reaper was the Marsh harvester which had a platform on which two men could stand and bind the grain before it left the machine. This, however, was not in general use in Nebraska and many farmers used the self-raking reaper until they replaced it with the self-binder.

The self-binder, a tremendous improvement in farm machinery, appeared in most parts of Nebraska before 1880. The first ones bound the grain with wire, but these were not satisfactory and soon were replaced with twine binders.

Similar advances were made in threshing. The very earliest Nebraska farmers threshed their grain with the time-honored hand flail, an instrument almost as ancient as the art of agriculture itself.

The first threshers knocked the grain from the straw, but did not separate the two. Separators were developed, and in turn these machines soon became complicated enough to winnow the grain from the chaff.

Horses furnished the motive power for the early threshers, such as those used in Nebraska during the early seventies. The ordinary machine required from eight to twelve horses and a large crew of men. By the middle '80s, steam engines began replacing horses as the source of power for Nebraska's threshing machines. By 1890 this kind of power was in general use in the state.

The steam engine made possible the use of larger and much improved separators than had been used earlier. Until the combine came along, the binder-separator combination, through steady improvements, served the Nebraska farmer well.

WILLIAMS ON RADIO.

Dwain Williams, auctioneer at Arcadia who is visiting in California, was the first person interviewed on the "Take It or Leave It" program Sunday evening. Mr. Williams gave the correct answer to the first question but muffed the second. It gave people who are acquainted with him quite a thrill to hear someone they knew on a national radio program.

A New Model of a Famous Tractor

Oliver begins its second century with the introduction of a new fleet of quality farm tractors—including the new 2-3 plow "77", a tractor with advanced farm features that make field work faster and more efficient than ever.

The smooth, brisk valve-in-head engine of the "77" is a six—and you have a choice of three types for the fuel you prefer: high compression for gasoline, "KD" for tractor fuels, and a diesel that will be available later.

The "77" will set a new performance mark in the operation of power take-off machines with its direct drive unit . . . a new economy record with its 6-forward-speed transmission in the Oil Miser case, Fuel Miser governor, and the basic interchangeability of Oliver's full line of tractor-mounted tools with all other new Row Crop models. Wheels on Row Crop models are interchangeable, too—with a choice of cast iron or stamped steel.

One of the models in the new Oliver fleet is sure to fit your acreage and farming practices. Available in Row Crop, Standard, Row Crop with Adjustable Front Axle or Single Front Wheel. Drop in next time you're in town.

Military Honors for Pfc. Jefferies Friday

Pfc. Richard Jefferies, killed in France July 5, 1944, was laid to rest Friday afternoon with Ralph Rich Post of American Legion of North Loup in charge. Services were held at the Methodist church with Rev. A. C. Ehret of the Seventh Day Baptist church giving the message.

A quartette composed of Dell and Darrell Barber, Erlow Babcock and George Cox sang "Beautiful Isle of Somewhere" and "No Night There." They were accompanied by Phyllis Babcock.

Color bearers were Carroll and Virgil Annyas, Bob DeNoyer, Wayne Cook, Louis Smith and Eldon Sintek. Mrs. Edna Post had charge of the flowers.

Pfc. Richard Jefferies.

Members of the Legion, dressed in uniform, sat in a body at the church and stood in formation under the direction of Merlyn Van Horn at the cemetery. The firing squad was directed by Merlyn Van Horn and George Cox played Taps.

All business houses were closed from 1:30 to 3:30 out of respect for Pfc. Jefferies and his family.

Richard Thomas Jefferies was born March 29, 1911, at North Loup, Nebr., the son of Harry L. and Roxana Miller Jefferies. At his passing he was 33 years, three months and six days old. He grew up in North Loup and graduated from high school in 1930. Previous to enlisting in the army, he was employed at the Vodehnal Pharmacy. His army training was received at Camp Barkley, Tex., and in California. Surviving beside his mother is one sister, Mrs. Ethel Brooks, of Los Angeles and one brother, Arthur, of Ord.

The first casualty among the many North Loup boys in the service, his body is the first to be brought home to rest.

Carrie Green, 85, In NL Since 1879

The twentieth of July, Mrs. Carrie Green was 85 years old. She does not claim to be the oldest woman in North Loup, for at least two friends came to earth ahead of her. But except for Lowell Wellman who came here as a very small boy, and Irvie Sheldon and Mrs. Henry Williams who were both born here, she is the oldest resident of North Loup.

She came here a young girl in 1879, from Garwin, Ia., to what is now North Loup, where her parents and two brothers were already living. Her father was Richard Clark; her brothers, Bert and Johnny, whom old settlers will remember.

CARRIE GREEN.

Two years after arriving in North Loup she married Ellsworth Green. Twice they went to Boulder, Colo. for about three years. Except for that she has lived in or near North Loup. When she and her husband celebrated their golden wedding, Sept. 24, 1931, their six children were all at home for the first time in twenty years. Then her sorrows came fast, for her husband and three children have passed to the Better Land and only one lives in North Loup. Besides raising six children she is the grandmother of seventeen and great-grandother of nineteen.

In spite of her age, she has good health, does all her own work including washing and housecleaning. She likes to travel and last year made a trip alone to Montana, down to southern California and home by Colorado, visiting her children.

She spends much time calling on the sick and other shut-ins. As she is always cheerful, ever ready with a laugh or a joke, never gossips in the distasteful meaning of the word, she is surely a blessing to her friends and is carrying on the Lord's work. May she live many more years to be a bright and shining light in North Loup.

We have a few 160 acre farms right now to offer you; several good ½ sections, and some full sections all improved, and some fine improvements on them.

We have several good homes here in town to show you, and five small tracts to show you.

We have three real good irrigated farms close in, if you want a farm large or small we think we can fix you up. Come in and see.

Just listed 140 acre irrigated farm, good improvements, close to town, right price.

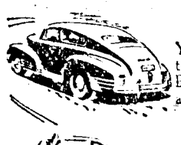
Now more than ever before—

FIRST IN VALUE
FIRST IN DEMAND

Only Chevrolet brings you all these major advantages of *BIG-CAR QUALITY AT LOWEST PRICES . . .* prices *now decidedly lower* than those of any other car that even remotely approaches it in quality!

You'll have *so much more comfort* with the genuine Unitized Knee-Action Ride—exclusive to Chevrolet and higher-priced cars.

You'll enjoy *more thrills* and *more savings* with Chevrolet's world's champion Valve-in-Head engine. Valve-in-Head, too, is exclusive to Chevrolet and higher-priced cars.



You'll *know* that your Chevrolet leads in tasteful luxury, for it has the world-famous Body by Fisher—available only on Chevrolet and costlier cars.

You'll have the *safety* of Fisher Unisteel Construction, the Knee-Action Ride and Positive-Action Hydraulic Brakes—combined only in Chevrolet and costlier cars.

The plain truth is that this pace-setting Chevrolet offers major quality advantage after major quality advantage not available in other cars in its field; and, in addition, Chevrolet prices are now obviously and outstandingly lower than those of any other car that even remotely approaches it in quality.

Thus, Chevrolet and only Chevrolet offers the Big-Car comfort of the original and outstanding Unitized Knee-Action Ride . . . the Big-Car performance and dependability of a world's champion Valve-in-Head engine . . . the Big-Car beauty and luxury of Body by Fisher . . . the Big-Car safety of Fisher Unisteel construction, the Unitized Knee-Action Ride and Positive-Action Hydraulic Brakes . . . all at lowest prices—prices that are now even more economical, even more thrifty, when compared with the prices of other automobiles in its field.

Yes, indeed, Chevrolet is first in dollar value by the widest margin in all Chevrolet history; and, of course, it is first in nation-wide demand as well.

Compare Values!... Compare Prices!...

MARKETING

A Prime Factor In Every Industry

Marketing Relies on Banks To Lubricate the Process of Distribution

Industry and Farming depend, in the end, on the marketing of their products. Banks play a leading role in this process; their commercial banking services facilitate the transfer of title to goods by making it unnecessary for the retailer, the jobber, the manufacturer and the farmer, to accompany either their orders or their shipments. They are ready to finance sound business and farming projects at all times—to lend their support when the occasion warrants it.

If you aren't acquainted with the many facilities the First National Bank has to offer you, this is your invitation to do so.

WHAT "Stepping Down" MEANS TO YOU

How the New Hudson, America's most streamlined car with the low silhouette, brings you roominess and comfort never before obtainable in an automobile.

You've seen them flashing by in all their sparkling color—those trim, gorgeous New Hudsons with the low, streamlined silhouette.

But have you really examined one of these amazing cars? They are the *big news* in the automobile world today!

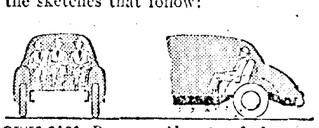
Hudson, always known for great forward steps in the development of the automobile, and for *efficient use of motive power*, is again way out ahead with a motor car that hits a new high in *efficient use of space*—that makes a *greater percentage of its total space actually available for your use and comfort.*

When you take a close look, you'll find that Hudson, through the use of a new, exclusive "step-down" zone, reclaims so much usually wasted space that this sensationally efficient car gives you more useful interior room than you've ever before experienced in an automobile.

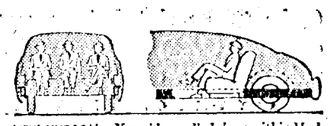
This new kind of motor car has a sturdy foundation structure surrounding the passenger compartment, which permits the floor to be recessed down within the base frame so that you step *down* when entering. This makes space between frame members, which is usually wasted, available for use inside the car.

Seats can thus be lowered to harmonize with the new, lower top, and by stepping *down* into Hudson, which is only five feet from ground to top, you get *more head room* than in any other mass-produced car built today!

And how about seating room? Hudson's new design reclaims space formerly taken up by wheel housings and protruding fenders. This is accomplished by placing rear seats ahead of the rear wheels, in a zone unrestricted by wheel housings. As a result, rear seats are 15 inches wider in this car that is only little more than four inches wider over-all. Both rear and front seats extend the full width of the body, giving Hudson the *roomiest* seats in any American-made car! Hudson's use of the "step-down" zone and unique seating arrangements are illustrated in the sketches that follow:



OTHER CARS—Passengers ride on top of a frame, as shown above, and (in the rear seat) between rear wheel housings, which occupy space that should be a part of seating room. Riding on top of a frame means that essential head room must be reduced if the roof is lowered for streamlining.



NEW HUDSON—You ride cradled *down* within Hudson's base frame, as shown above, and also ahead of the rear wheels. Seats can therefore extend full width of the car. Due to the use of the "step-down" zone, roof is lowered for streamlining, yet ample head room is provided.

The New Hudson even reclaims the unused space in doors by providing gorgeously tailored, recessed compartments where interior door handles, window cranks, ash receivers, and generous arm rests are placed out of the way to allow increased elbow room for passengers.

This development of Hudson's exclusive, all steel Monobilt body-and-frame* with its "step-down" zone required years of engineering work, the perfection of new production techniques and millions of dollars in highly specialized *new* plant investment. This may be why Hudson, and Hudson alone, offers this important advance today!

"Stepping down" is so important to motor-car beauty, riding qualities and safety—as well as roominess and comfort—that the nearest Hudson dealer has a booklet—yours without obligation—fully explaining this design principle. Hudson Motor Car Company, Detroit 14.

The Quiz Calls On

A FARM NEIGHBOR

Mr. and Mrs. Raymond Burrows

by John L. Ward

Going back to the beginning of things, in so far as the Burrows family is concerned, Smith Page (Smithy) Burrows, brought his family to Valley county in the spring of 1880. They came to Grand Island on the train from Illinois, bringing one cow and a team of horses with them. They came up to Valley county by team and spent the first night in Valley county at the home of Mr. and Mrs. Conrad Boettger in Mira valley. Smithy and his brother Charles put up the sod house on Smithy's homestead, which was the southwest quarter of section 8, township 18, range 14, and Charley filed on the northwest quarter of the same section.

Charles, who will be well remembered by many of the old timers, went to Sargent perhaps fifty years ago, and later to Oregon. Charles was married when he came here, and his wifes name was Ella. A daughter, Carrie, died at the age of 12 years. Bert, the son, went west with his parents, married and they had two daughters. He died about six or seven years ago. Charles, still living at Drain, Oregon, is now in the 80s. After proving up on his claim the family moved to Ord and ran a hotel where the Chevrolet garage now stands. This was later taken over by George Knecht sr. and was known as the Knecht House. This building later became a blacksmith shop.

Smith Burrows was married in 1875 to Emily Jacobson of Richmond, Ill. When they took up their claim the country was virgin prairie, and the sod house they built was in about the center, east and west, of the homestead. Later a sod barn was built, also other sod buildings. In time the sod house gave way to a frame house, the first being built on the first building site. Finally in the '90s Smithy built the large frame house which still stands along the west line of the place, although it is not occupied at the present time.

A great friend of Smithy's was O. M. (Miles) Stacy, who lived two miles west. He helped him on the construction of the new house, which was done in spare time and through several years. These two men owned in partnership three threshing rigs. The first was a horse power outfit. The second, a steam rig, caught fire and burned after a few years, at the Fred Kuehl place, together with four stacks of grain. The third machine was a big affair, and was fed by two men, one for each side. Raymond recalls that he and Alfred Crandall did much of the feeding, and alternated sides from time to time. Later they bought a self feeder calledthe Guy Krank feeder, made in Grand Island by a man of that name, and it worked very well.

The Burrows homestead now belongs to the Hoff estate and Lee Footwangler farms the land. Of the Burrows children Nettie is the oldest. She is living at Hastings and is 72 years old. Raymond C. the oldest son, will be 70 July 26. Guy, who married Olga Jensen. lives in Ord and is the Ord sexton. Mrs. Guy Burrows runs an art shop in a building her husband built beside their home in west Ord. John (Jack) was married first to Myrtle Mulligan, who died in the 1918 flu epidemic. Later he married Bernice Stewart and they lived most of their lives in or near North Loup, except a few years when they lived in Ord and took care of Mrs. Emily Burrows in her old age. They now live in Washington state.

June 24, 1903, at the home of the bride's parents, Mr. and Mrs. J. C. Rogers, occurred the marriage of their oldest daughter, Edna, to Raymond C.Burrows, the Rev. Forney, who was a Dunkard preacher living at Vinton, performing the ceremony. They would have preferred the Vinton Methodist preacher, Rev. Shanks, but he was a young man and had not yet been ordained at the time. The first summer they lived on the home place, the parents moving to Ord that fall, and Raymond says they milked 18 cows that year, a record they have not even tried to duplicate since.

They moved the following year to the place one mile south of Vinton. Mrs. Burrows' father gave them 80 acres of land there, and they later bought the eighty lying to the east, then the one to the south. In time they acquired an eighty just across the road south of the Vinton school, and 160 acres four miles west. All but 60 acres of this land is under cultivation. The day the writer visited there three combines and one tractor drawn binder were busy on the different places. With the exception of a year or more spent at Boulder, Colo., Mr.and Mrs. Burrows have spent all their lives on the farm south of Vinton, where they live today.

They went out to Colorado mainly for a vacation. Raymond had a sale before leaving and got high prices for his machinery and stock. The crash came while they were away, and when they came back he was able to buy everything for less than half the selling price a few months before. Thus it happened that their long vacation did not cost them anything. For the past five years Raymond hasnt farmed, and has put in his time keeping up the buildings on the place, and looking after Mrs. Burrows, who has suffered two strokes recently and needs help to get around. However, the general health of both Mr. and Mrs. Burrows is good, so they still have much to be thankful for.

They have four children, Laverne, Edward, Evelyn and Richard. Laverne (Bill) married Opal Blessing and they live in the home they own in southeast Ord. They have two sons and two daughters, Beverly, 14, Karen, 12, Bobby 10, and Billy, 8. R. Edward married Inez Harris, whom he met while attending college at Kearney. They have three girls, Jackie, 14, Joan, 12, and Ellen, 2. They live on the farm south of North Loup, which they own.

Evelyn married Guy Jensen and they live in Spokane, Wash. They have one son, Monte, aged 9. Last comes Richard Burrows, who was in the army for three years during the war. They were stationed in Australia, where he met a girl whom he married, and they are now living in Australia. At first he liked it fine there, but of late he is talking of returning to the United States. They have one son, two years old.

Here it might be well to give a brief summary of the John C. Rogers family, which has no direct representative on the farm at the present time. John C. Rogers and Nina Hopkins were married in Kewanee, Ill., about 1880, and came to Valley county in 1881, buying the place known as the John Rogers place, now owned by their son, Leon. They lived there until they moved to Ord more than 30 years ago, where they bought and moved into the A. J. Firkins place. John went into the implement business, selling out to Art Meyer in the '20s.

The oldest daughter, Edna, as already mentioned, married Raymond Burrows. Next came the twins, Eva and Iva. Iva is now dead. Eva is single and lives in Los Angeles. Jay married Mabel Vanscoy, and the had three girls, Audrey, Roberta and Laveda. Jay died about four years ago, and Mrs. Rogers lives in Kansas City. Lizzie, Mrs. Marion Honeycutt, lives with her husband at Everett, Wash. They have one daughter, Phyllis. Sadie the youngest daughter, married Joe Skinner, who died. She is now married to Leland Rapp and they live at Everett, Wash. Leon is married and lives in the former parental home in Ord. He looks after the original John C. Rogers farm near Vinton, which he owns and which is farmed by George Sperling.

Since he has retired Raymond Burrows has had time to become somewhat of a philosopher, as well as a real checker player. His chief comment on present day farming is that the machinery costs are so high that everybody is trying to farm too much, and is not farming well enough. It is also a fact that many are farming who do not know how, and are making a mess of the job. He says they want to stay on the farm, partly because it has been their home for so long, and partly because property in town costs much more than it is actually worth. Perhaps some day, when property prices are again adjusted downward, he may move to town, but he is pretty certain that he will not like it.

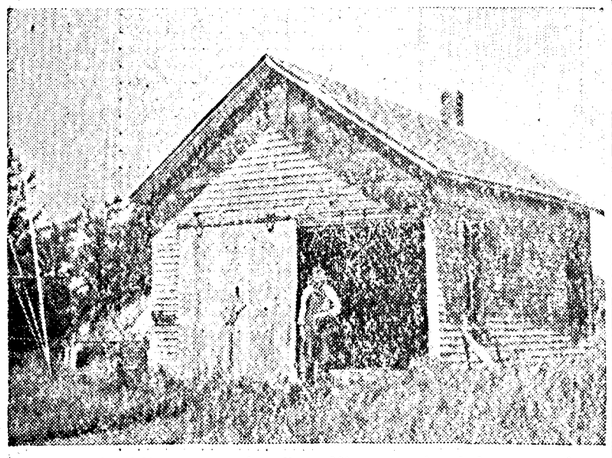
General view of buildings on the Burrows' place.



This building was the first Vinton school house, where Raymond and wife attended school. The present school, third one built has 12 enrolled. There were up to 40 pupils in the first school.

Summer Time Is PICNIC TIME

The hot weather of summer calls for out-of-doors living—perhaps a picnic in the park, or a fishing trip to the river with a basket of good things to eat. When you plan picnic meals think of this market—our products will please.

We have a big assortment of delicious cooked, ready to serve meats as well as cheese of sevetal kinds. If a wiener roast is planned you will find our home-made ones the best in town. Or if you plan a steak fry ask us to slice you some of those delicious boneless sandwich steaks.

Our grocery department also contains many foods called for by out-of-door eating.

Get the North Side Market habit. Prices and quality can't be beat.

Unleashing a flurry of 18 hits, Broken Bow rode rough-shod over Ord Sunday and won an easy 15 to 5 victory in a Loup Valley league game played at the Custer county fairgrounds.

The loss by Ord forced them to share the fourth place berth in league standings with the Indians.

After drawing first blood in the third, Ord was snowed under in Broken Bow's half of the inning as the braves racked up ten scores on ten hits. The Indians brought across five more runs in the next inning to ice the game.

Finley Pitches

The Chanticleers were dug in the whole route but neither defense nor offense would click to hold off the onslaught. Patrick started on the mound for Ord, then came out in the third. D. Beran finished the inning and carried through the fourth and finally gave up to Finley who fired the remaining frames. Regularly a first baseman, Finley was Ord's only effective pitcher.

While Broken Bowmen were reaching high and low to swat the ball, Ord players hit ten but failed to muster the scoring punch. Dick Beran led the local hitters with three in four trips to the plate.

Leaders Nose By

In other LVL games, league leading Arcadia and Mason City each won their contests to hold their grip on the two-way tie for first place. Mason nosed out Litchfield 3 to 2. Arcadia squeaked by Berwyn 4 to 2 with the aid of three wild pitches. Both games were played on the losers' fields.

Third-place Loup City did without the pitching services of Bill Novosad of Ord as L. Tesmar displayed his home talent to hold Ansley to one hit. Meanwhile, Loup City runners romped over the four base route 22 times to tamp scoreless Ansley farther into the cellar.

At Comstock, the favored locals suffered a 21 to 9 shellacking at the hands of Miller whose win put them ahead of Litchfield.

When the dust of the ball diamonds cleared Sunday evening, ties in first and third places were written into the records. Prospects for next Sunday seem to hold promise of several hot contests.

Ord Plays Comstock

Next week's schedule:—Ord at Comstock, Litchfield at Miller, Loup City at Mason City, Broken Bow at Arcadia, and Berwyn at Ansley.

Ord Bakery Has First Anniversary

Frank and Wilma Drudik are serving free coffee and rolls to the public Saturday to show their appreciation for the patronage they have received during the first year of their operation of the Ord City bakery. They took posession July 29, 1947 which makes their first anniversary fall on Wednesday but they feel that they can entertain more people by having their party on Saturday.

The Drudiks have made many changes in the bakery the past year and more are to follow. They have stopped specializing in fountain delicacies and have cancentrated in selling bakery products. Coffee and rolls are served in the display room.

In the bakery they have reconditioned much of the equipment and installed a new electric automatic oven.

Polio Epidemic Warning Voiced At Grand Island

New Treatment Centers At Grand Island, Scottsbluff; Valley Delegates Attend

Three representatives from Ord attended the all-day Polio Preparedness conference in Grand Island last week which was designed to ready local polia foundations for action in case of a polio epidemic.

Attending from Ord were Joseph W. Ramaekers, Valley County Polio foundation chairman, Mrs. Edward Kokes, county secretary, and Mrs. Opal Burrows.

Meeting at the St. Francis hospital, delegates from the surrounding area were told that from a study of a 25-year record of polio, it is believed that prevalence of the disease moves in cycles. According to the researches, 1948 is a year for more widespread occurence of the disease.

Forewarned with this knowledge, two new polio treatment centers have been established in Nebraska in addition to facilities at Omaha and Lincoln. Special wards are now available at the St. Francis hospital and at the Scottsbluff hospial.

In the Grand Island hospital, the isolation center is a 20 bed ward staffed by a doctor and nurse with special training in polio treatment.

A medical payment plan is now set up so treatnient may be obtained on a basis of cost plus nursing fees. The aim is to provide polio care at the least possible expense.

Each town in the area will be asked to send representatives to study polio treatment. Purpose of the classes will be to instruct polio aides in case the polio center is filled and temporary treatment is required locally. Classes are scheduled to be held in Grand Island.

Because of the great movement of people over the country during the summer, basic symptoms of polio were explained at the meeting. Among the symptoms weer head and back aches, especially in the neck area. Flu and polio closely resemble one another, the delegates were told.

If a case of polio is suspected, the patient should be kept quiet in bed. A doctor should be notified immediately while there still may be time to arrest the disease.

Free Admission To Valley County Fair

Increase Limitation Size For the Big Car Engines; Fair Chairmen Are Named

Free admission to the fair grounds during the three day Valley County fair in Ord on Aug. 30 - Sept. 1 was revealed this week by Ed. Armstrong, fair board secretary. In the past, admission was always charged to enter the grounds.

With the announcement came a report from Race Superintendent Clyde Baker that a change in racing regulations for the big cars will permit the entrance of cars with engines slightly larger than announced formerly.

The revised restriction on engine size will limit cars to a piston displacement of 242 cubic inches. This is a two per cent increase over the previous limitation. The increased range will include racers with the Mercury engine which is popular with many drivers.

Advertisements inviting race men to Ord for the two days of racing on Aug. 31 - Sept. 1 have been placed in national racing magazines, Baker reported. Last year 24 cars participated in the time trials. "We hope for about that many again," said Baker.

Draw Fast Field.

With races scheduled in Belleville, Kas., immediately after the Valley County fair, Ord race promoters expect the two racing events to draw a fast and skillful field of drivers to this area. A purse of $3,000 is offered to the contestants who will be driving in open competition on the fast Ord track.

Committee chairmen for the organization of the county fair were announced by Ed. Armstrong, fair board member. Those named and their divisions are:

Cattle and sheep, Thead Nelson; horses, Harvey Bresley; swine, Henry Enger; agriculture, I. W. Eschliman; poultry, Bill Goff; home economics, Mr. Clara Bresley; Girls 4-H, Miss Kathryn Helzer; boys 4-H, George Clement; and school exhibit, Clara McClatchey.

A night stage show will be presented on a platform in the racing oval so the crowd may watch from the grandstand. Nearly a two hour program of outstanding acts will be offered three nights—Aug. 30-31-Sept. 1.

MOBILIZED GOLF.

George Hastings and Dr. F. L. Blessing have mobilized their golf game with new mechanical caddies, built on the order of push carts with two wheels. Hastings claims to have shot a 38 recently.

Establishes Fund For 4-H Awards

A fund of $100 to be divided equally among Wheeler, Howard, Greeley and Valley counties for the advancement of 4-H club work in the 29th legislative district, has been given this year by Hugh Carson, prominent Ord farm and ranch operator.

"I'm doing this in an effort to promote more interest in 4-H club work," Mr. Carson stated. "I don't care how the county 4-H committees spend the money, as long as it goes for incentive awards to boys and girls."

HUGH CARSON.

"Several of the counties are going to use these funds as additional premiums in this year's fair," Carson said.

Worm Army Surrenders

Corn Destroyer Controlled, 150-200 Acres Are Stripped; Plowing Halts Hessian Fly

Thousands of army worms died during the past week in the fields of replanted corn in the hailed area east of Ord. Death was attributed to an overdose of poison spray. No funeral arrangements are contemplated.

"The threat from army worms in the county is under control," County Agent C. C. Dale announced. Smiling, he told a Quiz reporter, "You may write their obituary."

But before the poisonous spray finally choked off the insatiable hunger of the pest hordes, between 150 and 200 acres of corn was destroyed. Fields lay bare of all growth. Only the stubs of young corn remained.

Tall Corn Stripped.

Early corn was also threatened by the worm regiments. Shoulder high and nearly in tassle, corn raised by Jimmie Vasicek was included in the stripping.

By far the greatest loss was in the corn fields, according to the county agent. "Of the small grain infested, most of it was hailed out that there would have been only a neglible yield," he stated. The rapidity with which the worm was beaten was credited to the prompt and cooperative action of individual farmers.

Continuing of the subject of crop destroyers, Dale reported that he had never seen so much early plowing of stubble—one of the Hessian fly control measures.

Plow Stubble.

He urged farmers to go ahead with plowing as early as possible to avoid the late season dry spell when the ground becomes hard. By plowing stubble, the fly, now in the flaxseed stage, is plowed under. Also, volunteer wheat on which the fly feeds will be eliminated. Seeding should be delayed until the fly free date is announced.

Five Bids Made For Building "A" Section REA Lines In Area

Denver Firm Would Build Lines for $289.87 Per Mile; To Serve 630

A bid of $101,193 for the construction of 359.64 miles in the REA "A" section was accepted at the Ord office last week from A. B. Reither of Denver as the lowest offer among the five competing bidders. Final approval is awaited from Washington.

Per mile cost of the construction under Reither's bid is $289.87. Last week W. P. Hollands, Ord REA manager, estimated the work would cost between $275 and $300 per mile.

Other bidders for the project were Cater construction of Kansas City, Mo., $106,060; Tower construction of Sioux City, Ia., $106,937; Furguson-Diehl of Jefferson, Ia., $119,231; and Jacobs & Doyle, of Edgwood, Ia., $136,163. None of the companies were from Nebraska.

With 630 members signed up to hook on the "A" section, Cost per member is computed at $177.50 under the work contract. Materials which are supplied by REA will raise the total cost per member to approximately $890, according to Hollands.

Money to finance the project is borrowed from the federal government with 35 years to repay the loan at two per cent interest. Hollands explained that the loan would be erased over a period of years by the nominal profits received by the REA.

In Four Counties

The "A" section will serve farm families in Valley, Garfield, Sherman and Greeley counties. It is the first of several sections planned for this area. Plans for the "B" section are already well underway.

An estimated 33,000 farms in Nebraska have received central station electric service since the Rural Electrification administration was established 13 years ago, according to a recent Washington announcement.

More than 42,503 farms or 38 per cent of all Nebraska farms are now connected to high lines. When the REA was started, only 9,544 or 7.1 per cent had electric service.

A six-point suggestion for farmers buying electric equipment is offered by Roy L. DeRose, farm electrification extension specialist at the University of Nebraska college of agriculture:

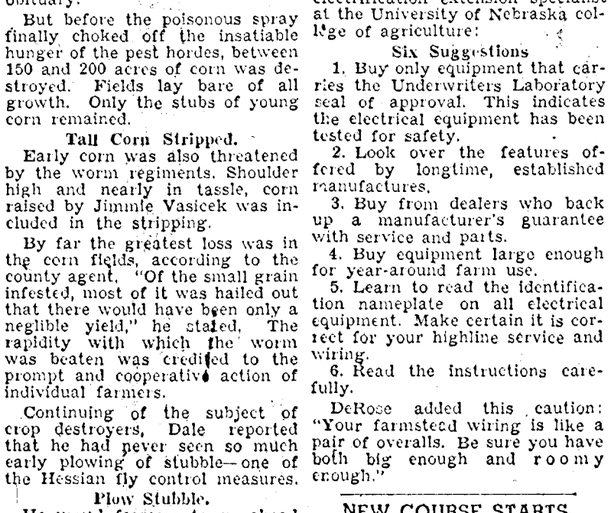
Six Suggestions

1. Buy only equipment that carries the Underwriters Laboratory seal of approval. This indicates the electrical equipment has been tested for safety.
2. Look over the features offered by longtime, established manufactures.
3. Buy from dealers who back up a manufacturer's guarantee with service and parts.
4. Buy equipment large enough for year-around farm use.
5. Learn to read the identification nameplate on all electrical equipment. Make certain it is correct for your highline service and wiring.
6. Read the instructions carefully.

DeRose added this caution: "Your farmstead wiring is like a pair of overalls. Be sure you have both big enough and roomy enough."

NEW COURSE STARTS.

The second "Off the Campus Course" given in Ord will start Aug. 2. Classes will be held in the Masonic Temple Basement beginning at 9 o'clock Monday morning. Miss Dora Von Bargen, a representative of the extension division of the University of Nebraska at Lincoln, will be the instructor.



Twenty-year-old Bill Beran, jr., was cruising into Ord Monday morning with a 235 bushel load of corn in his truck when the tie rods on the wheels went out and sent the truck into a dizzy spin which ended as pictured above.

Beran was unhurt, but the corn was seemingly scattered over an acre or two of roadside. The damaged truck required a tow to reach town. Most of the corn was recovered by the aid of a scoop shovel. Beran was enroute to the elevator from the Rudolph Krahulik farm southwest of Ord when the accident occurred on the edge of town. — Photo by Swopes.

City Makes Deal for $275,000 For Light Plant Expansion

Will Issue Revenue Bonds Bearing 3¼ Per Cent on 20 Year Basis

Ord city dads accepted a proposal of the Kirkpatrick-Pettis Co. of Omaha to purchase $275,000 in revenue bonds of the city light and water plant, bearing approximately three and one-fourth percent interest, at a special meeting held Monday night.

The funds will be used to finance light plant expansion, slated for a one-third increase in production capacity. Under the Kirkpatrick proposal, presented to the council by D. F. Petis, the bonds will be issued on a 20 year basis and become optional after five years.

In a lengthy session, councilmen reviewed history and earning capacity of the plant, as represented in studies by Pettis and also by H. F. Lutz, city consulting engineer of Kansas City. The plant, which last year sold nearly 3,400,000 KWH of electricity, will produce and sell close to four million KWH this year, engineers estimate. Fast approaching the peak of productive capacity, additional loads from the REA project in this area, and the ONL alfalfa mill which is presently purchasing power from Consumers, will send estimated sales to 5,200,000 in 1949 and 5,750,000 in 1950.

The bonding house study, made by Pettis, estimated the net revenue of the plant, under present day costs of fuels, and without the additional sales estimated for the future, at $32,000 per year, which sum will be sufficient to pay bonds, interest, and normal plant expansion during the period.

"If we can secure natural gas as a fuel, we should be able to make an additional eight or ten thousand dollars a year," George Allen, plant manager, told the council. "And, with additional loads, our revenue should increase beyond the figure of $32,000 a year."

Expansion plans for the municipal plant include:

Construction of a new building to house new equipment, approximately the same size and style of the addition made two years ago, estimated at $36,000.

Construction and rebuilding of a connecting building between present structures and the new structure, estimated at $23,000.

Installation of a new 1000 KW combination gas-fuel oil generator, $140,000.

Miscellaneous items, including a cooling tower, new switchboard for the whole plant, piping and a substation for REA $65,000.

Allen believes that within 60 days the city will be in a position to call for bids on the expansion program. "We still have to put our city financial system in better order, and work out all the details for construction," he said.

"If things go smoothly, I expect the new engine to be operating by June or July of next year," he continued. "This will be just in time to meet the Rural electrification load which will start climbing at that time."

Race Thrills $1 Per Mile

Emanuel Petska of Ord was racing along the Dodge street speedway west of Omaha last week. A state safety patrolman joined the race.

And the patrolman won.

Petska was clocked at 75 mph. He paid a fine of $1 for each mph over the 60 mile limit—a total of $15 and court costs.

The red-faced Petska is a Valley county deputy sheriff.

Burwell Rodeo In 25th Year

Big Western Show of State Scheduled Aug. 11-12-13-14; Queen of Rodeo Will Reign

Burwell's rodeo, billed as Nebraska's biggest and best, will celebrate its Silver Anniversary Aug. 11-14 with larger purses for the cowboys, addition of a bareback event, new race features and the usual outstanding carnival and fine array of the world's best entertainers on the track.

A queen of the Rodeo will reign over the four day festivities. She will be selected from five contestants chosen from all the candidates. Nebraska girls 18 to 25 years of age may enter the contest. Contestants were formerly limited to Garfield county.

Beside the large field of cowboy ropers and riders, the program will consist of many individual acts. Included among these are Vivian White, bronc and trick rider; Cecil Cornish with his fancy riding and trick horse; Charley Rock and his band of 50 Sioux Indians; and Sid Moore showing his taxi meter mule and educated Brahma bull.

Clowning, Roping, Riding.

The world's best clowns in the personages of Hoyt Hefner and John Lindsey will provide a rare brand of humor and demonstrate their bull fighting ability. Don and Virginia Wilcox and Pat and Buz Torrence will entertain the crowd with trick riding and fancy roping.

Burwell's big western show made its first appearance as Frontier Days in the fall of 1921. In the intervening years, the event has mushroomed into a pageant of thrilling action and colorful demonstration. From the files of the Burwell Tribune:

"Born in September, 1921, on a stubble field near the town of Burwell . . . the infant's birth cry was a single word, 'Success.' And it was heard by a multitude. Almost from the beginning, this enterprise was patronized not only by the people of Garfield county, but also by surrounding counties.

Not Only Nebraska.

"Now, not only the State of Nebraska, but surrounding states also contribute their hundreds and thousands of patrons. Each year the attendance has increased and some years doubled. Instead of an open stubble field, we have a beautiful ground with modern fair buildings. . . . fine race track.

"We are in a ranch country where diversified farming, stock raising, and dairying all play a prominent part. Where pasture land is cheap and where cattle and horses can be kept the year around. . . .

"To sum up the matter, we say that we have a program that appeals to all classes, because we have all kinds of entertainment.

Collins Suffers Minor Concussion In Horse Runaway

Venard Collins, 45-year-old farmer near Ord, suffered a slight brain concussion Monday when he was run over by a frighened team of colts hitched to a hay rack.

He was treated for a deep gash on the head and facial cuts at the Clinic hospital in Ord and released Tuesday.

Collins was loading oat bundles when the rack hit a washout. The jar snapped the harness and permitted the rack to roll forward against the team. The young horses bolted.

As Collins attempted to calm the team by holding the bridle, the excited horses apparently threw him off balance causing him to fall. One of the horses hoofs struck him in the face. He was prone on the ground between the wheels when the rack passed over him.

After the rack passed, Collins jumped onto the platform to stop the runaway. The accident occurred in a field farmed by Ed Christensen about 11 miles northeast of Ord.

Pool Opening Is Possible Sunday

Sewer Is Final Hurdle, Cage, Baskets Enroute; Swim Class Registers

Water is scheduled to gush into the Ord swimming pool Thursday as the dream of many years reached the final stages. Only unforeseen difficulties would prevent a Sunday opening to the public, according to the Alex Cochrane, pool manager.

With the sewer pipe still unlaid by midweek, City Engineer George Allen took a more doubtful view. He declined to make a prediction, but indicated that completion of the pool would be more likely by the first of next week.

By Quiz press time, approximately three blocks of sewer ditch and pipe laying appeared as the biggest obstacle. A proper sized screen for sifting sand for the water filter also remained to be located. And the bathhouse cage and baskets had yet to arrive.

Big Splash

Still optimistic, Cochrane declared that if the sewer was finished in time to flush out the pool, the "big splash" would be heard in the park on Sunday. "We will use paper sacks to hold the swimmers' street clothing, if necessary," he said.

Already swimming classes were beginning to shape up as registrations started to come in. Eleven-year-old Jeannie Muncy was the first to register. Cochrane asked for immediate registration so plans may be made according to size of classes.

Meanwhile, the huge mechanical ditch digger clanked and groaned in its slow crawl west on J street toward the pool. Pronged buckets on an endless belt dug seven feet into the hard street surface. Starting at Twenty-

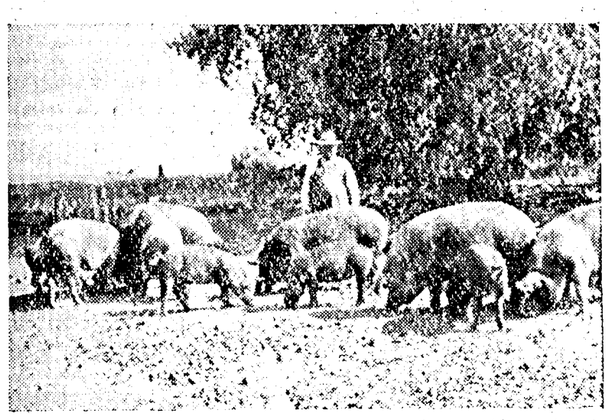
Quiz Camera Visits Emil Skolil Home Near North Loup

A lot of people in Valley county know Mr. and Mrs. Emil Skolil, at present living near North Loup, but formerly in the Ord territory. They have made a real show place of the eighty acres they bought half a mile south of North Loup six years ago. — Photos by John L. Ward.

Above Mr. and Mrs. Skolil are shown standing among the flowers Mrs. Skolil grows. She has large quantities of all kinds of flowers, and takes good care of them. This year she sold 46 dozen peonies at Decoration time, besides those they used themselves.



One of Mr. Skolil's chief interests is his hogs, with whom he had his picture taken above. Four sows produced 34 pigs this year, and he makes real pets of them. He does not go in for quantity now, but stresses quality, and finds it pays.

Mrs. Skolil stated that these grape vines, now loaded with grapes, were planted just four years ago. Shown with Mr. and Mrs. Skolil is C. B. Clark, North Loup land man, who recently sold them a home in North Loup.

This is not a flower garden, but a field of poppies gone to seed. Mrs. Skolil uses the seed in her cooking, and she has a real reputation as a cook. These pictures prove that she and her husband are well fed.

Mr. and Mrs. Skolil are here displaying an apple tree only four years old, and loaded with fruit. Two other trees the same age had three bushels of apples on each. Mrs. Skolil is the former Ida Radil, a sister of Otto and Anton Radil, and Mrs. J. T. Knezacek.

Six LIFESAVING RULES FOR FARM PEOPLE

TAKE TIME TO BE SAFE

The loss of an arm or leg is a high price to pay for saving ten seconds. When operating power machinery, take time to be careful.

Your life will be safer if you . . .

Observe these simple rules:

1. Shut off P.T.O. before attempting to unclog corn picker, baler, etc.
2. Keep all shields in place when operating machine.
3. Don't trust defective hitches, brakes, clutches, seats.
4. Never mount or dismount from a moving tractor. Don't ride on drawbar.
5. Don't wear loose, floppy clothing around power machinery.
6. Think first. After the accident it is too late.

This year a disabling injury probably will strike some farm person every 19 seconds. Don't let carelessness put your name on that list.

Fall from Combine Causes Broken Rib

Palmer Canfield received a broken rib and body bruises last week when a combine ran over him after he slipped to the ground while trying to step up onto the moving machine.

Fortunately the accident occurred in soft sand, according to witnesses. Otherwise Canfield's injuries might have been more serious. The combine was on the Canfield farm about two miles west of Ericson.

$11,000 Expended Dams, Terraces; Loan Rates Told

Approximately $11,000 has been expended so far this year in the Valley County conservation program for the construction of terraces and dams, according to Paul Owens, AAA chairman.

He reported that a number of dams and terraces are currently under construction by contractors. Even a larger amount of similar construction is expected to be done by the farmers as soon as the farm work slacks up, he said.

New Wheat Rate.

An adjusted price support loan rate of $2.04 was received this week from the federal government, Owens announced. The loan rate set earlier this season was reported at $2.05 in Valley county for No. 1 wheat.

For oats, the government supported price is listed at .66 under the loan program for No. 1 grade. At this time, no loan rates have been received for barley and rye. The support price on potatoes is $2.55 per cwt., No. 1 sacked, FOB car.

OLIVER "66"

A New Performance Pacemaker!

Greater value than ever! More practical farm features than you'll find in any tractor of comparable size.

That's the new 2-plow, 4-cylinder Oliver "66"—still the "biggest little tractor built."

The "66's" 6-forward-speed transmission—along with the Fuel Miser governor—gives you almost any ground travel and drawbar pull combination you need, at an operating economy that adds up to substantial savings in fuel.

Check these additional "big tractor" features you get in the new "66": direct drive power take-off, Oil Miser transmission case, floating oil pump screen inlet, choice of interchangeable cast iron or stamped steel wheels for Row Crop models, battery ignition and automatic spark advance, efficient power lift, basic interchangeability of our full line of tractor-mounted tools with all other new Row Crop models. Built in Row Crop, Standard, Row Crop with Adjustable Front Axle or Single Front Wheel.

Get all the facts on the advanced features Oliver offers in its new tractor fleet that marks the beginning of the second century of building fine farm machinery. Come in to see us.

Let's Have a Picnic!

When you plan your picnic, make sure the North Side Market has a part in those plans. For here you'll find all the good foods to make a picnic a success.

Our meat cases have a full supply of assorted cold meats, cheese, plus delicious home made weiners and bologna. Or if it's a steak fry—all you have to do is ask for any kind of steak you wish.

Our grocery department has bread, buns, cookies, and the usual stock of canned goods, plus other picnic supplies.

May we serve you?

Smith - Keown

Wilma Ann Smith, daughter of Mr. and Mrs. Arthur Smith of North Loup, and Kenneth Keown, son of Mr. and Mrs. Clyde Keown of Scotia, were united in marriage at the Methodist church in North Loup, Sunday afternoon at 2:30. Rev. Samuel Mitchell officiated at the single ring ceremony which was performed before the church altar, banked with baskets of glads and daisies, around a rose decorated archway.

Miss Delores Keown, sister of the groom was bridesmaid, and Lloyd Smith, brother of the bride, was best man.

The bride was charming in a street length dress of white nion, trimmed with wide brocaded lace. She wore white accessories and a corsage of red and pink roses. Miss Keown also wore white with white accessories and her corsage matched the bride's.

The mother of the bride wore a sheer print dress of brown bemberg and the groom's mother wore a two piece dress of grey. Both had pink carnation corsages.

Preceding the ceremony, Dewain Bussell sang "My Best To You" and "Because," accompanied by Miss Alice Meyers, who also played the wedding march. Following the ceremony Mr. Bussell sang "The Lord's Prayer" while the bridal couple knelt before the altar.

A reception for the couple was held in the church basement after the wedding. Nearly one hundred were present. Tables were decorated with baskets of flowers and pink streamers. The four tier wedding cake which was topped with a tiny bride and groom, was baked by the groom's mother. Serving ice cream and cake to the guests were Betty Jo Veleba, Jean Earnest, Ellora Cook, Bonnie Babcock, and Thelma Goodrich. Venetta Roby had charge of the guest book.

Mrs. Keown is a member of the graduating class of 1948 of the North Loup schools and has lived all her life in this community. Her husband has lived all his life in the Scotia community and graduated from Scotia schools. He served two years in the U. S. Naval Air Technical Training Corps, and has his pilots license. He is now serving as instructor at the airfield at Scotia.

Ord Junior Legion Wins from Scotia, Lose To Hastings

Ord's Junior American Legion ball team won 9 to 2 from Scotia Sunday on the home field and lost to Hastings 8 to 4 Monday in a game away.

In Sunday's league contest, Nelson pitched a one hit game against the Scotians. Stoddard caught for the locals. The losers' battery was Bussell and Springer.

Score tabs.

	H	R	E
Ord	6	9	1
Scotia	1	2	8

Under Lights

Going face to face with Hasting's fast, experienced nine proved too much for the Ord men. Playing under lights also hindered their performance.

Probably one of the better Legion teams in the state, Hastings led 1 to 0 until the fourth inning when they scored seven runs on three hits, three errors and three walks.

For Ord, Blaha collected a three base hit. Richardson and Stoddard comprised the battery.

Scoring:

	R	H	E
Ord	4	4	6
Hastings	8	8	2

Next week the Legion juniors will take on the Ansley Legionaires on the Ord ball diamond at 2:30 p. m. Sunday. Ord will be boosting to avenge an early season defeat of 8-7 by Ansley.

Ord Girls Meet Burwell, Scotia

Showing considerable improvement during the week's practice sessions, the girls' softball team of Ord will meet a fast stepping Burwell nine Wednesday (Aug. 28) at the local diamond.

Scotia will invade Ord Friday for the second girls' game here this week. The Burwell game will be a return match with a chance for the Ord gals to square a 22-12 defeat of a week ago. Both games are scheduled to begin at 6:30 p. m.

Hazel Huff is slated for the mound duties for Ord. Naomi Geweke will be receiving behind the plate.

Garner Wins 1st Jewett Ties 2nd

Willis Garner shot down high honors in a blue rock shoot at Loup City Sunday evening when he was awarded the big cash prize for shattering 23 out of 25 birds.

Rex Jewett tied with another man for second place with 22-25. Nearly 65 shooters from as far as Grand Island and Hastings attended the shoot.

Jewett recalled that several years ago similar shoots were held frequently at the Valley county fair grounds. On one such occasion, approximately 9,000 rocks were broken, he said.

Compilation Of City Directory Near Completion

City directory compilation is moving ahead rapidly. Completion of the business listings and a major part of the residential area was reported today.

A good response by Ord businessmen to a call for advertising in the directory is reported by representatives of the Church of Jesus Christ of Latter Day Saints of Salt Lake City who are conducting the house to house survey. The fund is being handled by the Chamber of Commerce.

Chamber Secretary Wallace Doe announced that if the fund exceeds expenses, the surplus will be pro-rated back to advertising merchants. The directory is being compiled on a non-profit basis. It will be distributed without charge.

Ashton Wins 9-2 From Palmer and Danes Take Lead

Elba Falls to Dannebrog; Farwell, North Loup Win; Sintek's .519 Tops Hitters

Sherman-Howard league's first place tie was broken Sunday when Ashton splattered Palmer 9 to 2 which tumbled the losers into the second division.

Dannebrog side-stepped Elba to the tune of 3 to 1 and remained alone on the top rung of the league ladder.

In the lower bracket, Farwell continued its climb by winning from Cushing in a close 2 to 1 game. A week ago Farwell slapped top high Palmer 2 to 1.

North Loup and Grand Island fought their battle to determine which would be the cellar occupant with the Loupers scoring 13-6 to convince the Islanders.

In a round up of hitters in the S-H league, Arleigh Sintek, Elba southpaw, leads a list of twelve who average .300 or better. Only players batting at least 25 times are included. The list:

	AB	R	H	Pct.
Sintek—Elba	27	11	14	.519

Jorgensen Injured As Tractor Falls Into Dry Creek

Harlan Jorgensen, 20-year-old farmer living northwest of Ord, suffered cuts and bruises of the face and body last week when a tractor he was driving tumbled into a dry creek bed.

Jorgensen was driving along an eight foot creek bank on his father's farm when the tractor wheel struck a bump. Sitting crosswise on the tractor seat, he was thrown from the machine by the sudden jolt.

Landing on the opposite bank of the narrow gully, Jorgensen slid down the embankment. Meanwhile, the tractor nosedived into the ditch and beat the unseated driver to the bottom by a fraction of a second.

Commenting on the close call, Jorgensen squinted through his black eye and said: "If I had hit the creek bed first, the tractor would have been right on top of me. It might have been a different story."

He was treated at the Miller hospital in Ord for cuts and bruises of the face and abrasions on his right side and hip. Two stitches were taken in a cut on the back of his head.

The tractor was undamaged in the fall. It was recovered without further mishap.

Jorgensen's uncle, Henry Jorgensen, died several years ago from injuries received in a tractor accident.

Lutherans Hold Joint Services

Sunday over 100 people from the three parishes served by Rev. C. Jeppesen from Ord, Dannevirke, and Farwell plus a few former members who now reside at Grand Island and Mason City met at the Ord Park Sunday for joint services.

Following the services a basket dinner together was enjoyed by about 135. Student pastor Eugene Wekander of Dannebrog spoke in the afternoon, followed by a lunch before they left for their homes.

"You'd save so much time and effort, Janie, if you would do all your food shopping at Carson's Market. There you'll find a full assortment of quality food items plus economy."

Ord Temperature Varies Widely

July Rain at Low Point; Popcorn to Make 2,000 Lbs., 70 Bushel Wheat Reported

Temperatures varied widely in Ord during the week between a range of 46 for low and 91 for high. Only .01 inches of precipitation was reported by Weather Observer Horace Travis.

The need for rain was beginning to be felt by midweek after only a short .62 inches of moisture during the past two weeks. Corn was still looking fine, however, County Agent C. C. Dale reported.

Popcorn, too, was reported in wonderful condition by Ed Jenison. He said the fields were beginning to tassel and would yield 2,000 pounds to the acre with a rain by next week.

In the rain cycle it appeared that Ord was in a low precipitation point. From his weather records, Travis showed that rain so far this year had reached only 12.75 while 18.33 was recorded at this time a year ago.

Looking farther back, he disclosed that the average rainfall for July over the past 60 years was 3.06 inches but rain here for July 1948 totaled only 1.38 with three days left in the month. But, he pointed out, July rain in 1889 was 10.37 inches!

On the F. C. McEwen farm east of Westerville there was little dispair. He stored a 70 bushel per acre yield of wheat in the elevator recently. Planted on summer fallow land, even McEwen was a bit surprised.

Jim Kucera Has Narrow Escape In Truck Crash

Jim Kucera, 19-year-old Ord truck driver, was still marveling over his narrow escape from death several days after he drove his 10 ton semi-truck off the highway at Osceola one night last week to avoid hiting a car.

He was homeward bound from Omaha when an approaching passenger car turned left in front of the truck at an intersection on the north edge of town near a bridge over a creek.

"I couldn't pass him in the left traffic lane because of another oncoming car," said Jim. "I just cramped my wheels to the right." Then he added, "My first thought was 'I don't want to kill anybody'."

Tight Spot.

By choosing the ditch, the youthful trucker took the hard way out of a tight spot. Riding 20 tons of truck and cargo, he hurtled down a steep embankment, through the underbrush and plunged into the creek.

Landing on its left side, the hugh truck bounced, rolled over on its left side, spilled Jim in the water. Passersby reached the scene immediately. They found the trucker in a semi-conscious state thrashing about in the water.

"Guess I was still trying to get out of the truck," said Jim. "And I don't suppose I'll ever know how I actually got out."

I Was Lucky.

He was treated at the Osceola hospital for shock, bruises and cuts on the nose, cheek and a gash in the forehead which required seven stitches. He also lost a couple teeth. Summing up the situation, Jim commented, "I was lucky."

Approximately $4,000 damage to the demolished truck and $1,500 damage to the cargo resulted from the crash, according to Jack Romans, truck line owner in Ord.

In explaining his action, the driver of the left-turning car told witnesses that he "didn't see the truck." About 60-years-of age, the driver said he was watching the car behind him.

To Elect SCS County Board Next Saturday

Landowners in Valley county will go to the polls Saturday to select two supervisors for the soil conservation board. Voting places will open at 1 p. m. in the courthouse basement and close at 9 p. m.

The SSC office reported this week that some sealed ballots have already been received. Provisions have been made for mail ballots and voting by sealed ballot prior to actual election date.

Candidates for the position of supervisor are are Anton Welniak and Harold Garnick, both of Elyria, and E. O. Schudel and Ign Pokraka, both of North Loup.

County Agent C. C. Dale urged all landowners in the county to exercise their privilege to vote in the election. A vital link in the nationwide project to save our nation's soil, the board directs the work of technicians in the local district, sets policies,, supervises the district field equipment and other such activities.

To vote prior to the election day, voters must obtain ballots at Nebraska State bank or First National bank in Ord, Arcadia State bank, Midway Market in Elyria, and the Loup Valley bank in North Loup. Mail ballots may be obtained by non-resident landowners from E. S. Murray, district election officer in Ord.

NO WEEDS.

That there were weeds still growing in army worm infested fields on the Paul Geneski farm was stated in the Quiz last week. Mrs. Geneski reported later that not even weeds remained.

second street, the digger chewed along at 50 feet per hour.

According to plans, eight inch sewer pipe will be laid behind the ditcher as it clears the way. Plenty of pipe is on hand for the project, which is expected to take three days, Allen reported.

During the week, city crews were laying four inch water pipe to the pool. Dug earlier by the machine digger, the ditch is nearly 300 feet long, about five feet deep. Connection with the main was made directly east of the pool at the park entrance road.

Cage to Arrive.

In the bath house, showers in the men's dressing room are installed and those in the women's room are expected soon. The cage, shelves and benches are scheduled to arrive Thursday from Grand Island where they are being built.

A telegram received by Cochrane reported that the wire baskets were on their way from Indiana. Towels and suits for rental are already on hand, he said.

In the lighting department, the pool manager disclosed that the pool will be illuminated by half as much candlepower as used on the football field. Lights have been tested and focused.

Three filters each with four levels of sand or gravel will cleanse the pool water. In each filter there are three grade-sizes of gravel and a fine grade of sand on top. The sand must be screened with a special screen because of the small tolerance permitted. In addition, a chlorinator will be installed to assure highest sanitation.

Three Instructors.

A staff of three instructors will be on hand to coach the swimming classes in basic strokes and dives. Mrs. Robert Grove, and the two lifeguards, Keith Kovanda and Bob Moore, will conduct the classes.

Classes will be held Monday through Saturday during the morning. Two 35 minute classes are planned for prep and junior division girls on Mondays and Wednesdays, beginning at 9:15 a. m. A similar schedule for boys will be followed on Tuesdays and Thursdays.

Advanced swimming and diving classes for girls are scheduled for Fridays from 10 to 11 a. m. Advance classes for boys will be Saturday morning. Regular pool admission will be charged for classes.

The pool will be open to the public from 1:30 to 9 p. m. Monday to Saturday. On Sunday the pool will be opened at 1 p. m. and close at 9 p. m.

Admission for the prep division ages 8-11 inclusive is 15 cents, junior division 12-16 at 25 cents, and adults 40 cents. Because of the short season this summer, season tickets will not be offered.

FERTILIZER

Anaconda Treble Super Phosphate

Car to arrive in August

Each fall we are able to get one carload of this 43% phosphate and 10-20-6 Fertilizer from Anaconda. In using the Treble Super Phosphate on alfalfa ground or with your wheat at sowing time, you can use so much less pounds per acre than you do in using the 18 or 20% Phosphate. If you will compare the price per unit of phosphate, you will find that it will pay to use the Treble Super Phosphate.

We have only a limited supply so place your orders now! Special price per ton if taken off when car arrives.

FEEDS

Though many feed prices have been declining it will sooner or later get to the point where it would be wise to purchase at least part of your requirements at these lower costs. Subject to stock on hand and market changes, you can buy the following feeds this week.

Shorts, per bag $3.15
Omar Egg Mash, print bag $4.20
Oats, per bushel 72c
32% Poultry Concentrate, print bag 5.50
Hog Fattener Pellets, per bag $3.95
Complete Hog Food
Barley, good feeding, per bu. $1.10
Tankage, per bag $5.25

RANGE CUBES — It is time to be thinking of your supply of Range Cubes. Let us quote you on 22%, 32% or 40% Range Cubes.

GRAINS

All grain prices have been a little lower this week. If you have a surplus of grain to sell, remember we are always in the market for your wheat, corn, oats, rye or barley, at the highest market price.

SWIFT'S FEEDS

Truckload of Swift's Products to arrive this week.
Tankage - Meat Scraps - Bone Meal and Mineral
43% Hog Supplement, special price this week

Grain

Quite a few grain markets are much lower this week than last week and with Terminal Elevators short on storage room it is possible for some of the markets to be lower than they have been. We urge you to keep grain that is carrying a lot of weeds or other green material. The Omaha Markets have revised their moisture dockages and are now making dockage on anything that carries over 13½ moisture; so you better let your grain dry out before putting it on the market. We want to buy your dry grain but prefer not to buy grain that has to be docked for moisture.

Proteins

We have a good stock of proteins for cattle and hogs. For cattle we have a heavy molasses feed that carries 45% molasses and 12% protein for feedyard purposes. Then we have a 20%, 30%, 37½ and a 40% protein feed for range cattle. We believe that you can feed these feeds and make money on any cattle that you expect to send to market this fall. Only a small amount per day will make a lot of difference on the finish and weight on the cattle that you send to market. Let us quote you on a truckload delivered to your farm. We can also book you on Linsoy and Cotton Cake for Oct. or Nov. delivery. It might pay well to book part of your winter requirements now at the new low prices that we have at present. In Hog feeds we carry a 40% supplement in both meal and pellets and we have a pig starter with 21% protein. These are priced on present markets.

Sweet Clover and Alfalfa

We are buying Sweet Clover and Alfalfa seed and if you have any for sale we would like to make you an offer. We will furnish bags to use while threshing and if you have very much of it we will send a truck out for it. You may be sure that our price is the top price and we will put it over our cleaner for you without any charge to you. In this way you know that you are getting all that the seed is worth. At present we do have a very good price on both alfalfa and sweet clover and if it is sold right from the machine you do not have any shrink on it.

Brome and Crested Wheat

It will soon be time to sow Brome and Crested Wheat and we have a good stock of both of them on hand. Usually these grasses sown in the fall make better stands than those that you sow in the spring.

Super Phosphate

We will have a carload of Super Phosphate on track early in Sept., just the right time to apply to your fall wheat and rye. You can buy this Super Phosphate at a very low price if you place your order now and take it right off the car. We feel from tests that it will pay well to use Super Phosphate on your grain fields. It also will do a very good job on your corn field if you use it when you work your corn ground at planting time.

George Case went to Grand Island Saturday via bus from Ord, returning with Mrs. Case and Larry Sunday evening.

Earl McCain of Bartlett is working at the Chas. May ranch.

Kathleen Cox was an over night guest in the home of Marjorie Briggs Friday night.

Miss Betty Doran and Harrison Holle returned to Lincoln Sunday. They visited the past week in the home of her parents, Mr. and Mrs. Mel Doran near Bartlett.

Willard McCain of Bartlett was in Ericson on business Saturday.

Mr. and Mrs. Mel Doran, Mrr. and Mrs. Pat Doran and children, Miss Betty Doran and Harrison Holle motored to Elgin Saturday evening and were guests in the home of Mr .and Mrs. Gail Doran and Bunny.

RETURN FROM ALASKA.

Mr. and Mrs. J. B. Ferguson of McCook, Mrs. Bernlece Brady and daughter Betty, who have spent the summer at Santa Fe, N. M. and Roger Miller were all in Ord to greet Mr. and Mrs. C. J. Miller when they returned from their trip to Alaska.

Dr. and Mrs. Miller returned Sunday. They had driven to Seattle where they spent five days before they made a twelve day boat trip to Alaska. They covered 4,000 miles of water and feel the Gods smiled upon them by lifting the fogs for the first time this summer and they were able to view mountains and shore line that had been shrouded all summer. They visited the city where Dr. Earl Wise resided for some time, among other points of interest. At Cordova, they were guests of a sister of James Ollis.

TYPHOID FEVER.

If the typhoid germ were as big as a fish, the vacation angler, who is not particular where he camps, might know how he "caught" typhoid fever and gave it to others.

The typhoid germ travels from an infected person to the well person. Transmission is generally accomplished by water, milk, flies, fingers, or food. Every case is contracted by way of the mouth and digestive system.

A carrier is a person who has had typhoid fever at some time and who even after recovery carries the germs of the disease in the urine and discharge of the bowels. Carriers who are careless in their personal habits are likely to infect any food they handle with unwashed hands.

Some of the most serious and far-reaching outbreaks of the disease have been caused by drinking milk or eating foods that have been handled by carriers. Persons may be carriers without knowing it.

Typhoid fever is unnecessary and preventable. Every case is due either to community negligence or to the carelessness of some individual. Persons planning a vacation or trip where sanitation may not be rigidly enforced should protect themselves against this disease by being immunized.

Prevention is accomplished by the enforcement of public health measures to protect food, milk, and water supplies, and by immunization. The purity of water, milk, or food cannot be judged by loking at it. The best thing to do is to play safe.

LICENSED TO WED.

A marriage license to an Arcadia couple, John Elwood Hill, 23, and Margaret Blanche Christ, 21, was issued this week by Valley county Judge Joseph W. Ramaekers.

My Own Column

By H. D. Leggett

Mrs. J. Summers of Sacramento, California was taking no chances on missing her Quiz when she sent her renewal several months before the time was out.

—0—

I don't know why it is that women are so much hotter than men but they must be because so many try to see how much of their bare skin they can, in decency show and sometimes they miss decency quite a ways, to my notion.

—0—

We are just coming into one of the best seasons of the whole year, the tomato gravy season and the first valley county woman who brings me three or four nice, red, ripe tomatoes will get from me in return the recipe for making the best gravy there is.

—0—

I like almost all vegetables. One of my favorites is beet greens. Mrs. Clate McGrew knows how much I like them and for several years she has remembered me with a mess. She always seems to be able to get them ready earlier than most people.

—0—

Of course there are other greens besides beet, such as spinach, chard, lambs quarter. In Michigan when I was a boy we used cowslips and curly dock and scoke. Down south they dote on turnip greens and they cook them with fat pork. I have tried turnip greens but can't like them but I do like nice pickled pork cooked with any greens. One day last winter I got from my locker a box of chard greens that I put away last year and couldn't see but they were just as good as when gathered fresh. I planned to have several boxes on hand for next winter but the hail cleaned my garden and it is now a question whether that which I planted right away is going to make a crop.

—0—

After asking our subscribers a thousand times to includes the notice card with their renewal check, only about half of them do so. At present I have on my desk a bundle of July, a bundle of August cards and a few June cards. I get a check in the mail for $3. but not a word as to when it pays for. Sometimes I remember but if I don't remember I may look through two or three bunches of cards before finding the right one and it would save me lots of time in a week if everyone would return their notice with their check.

—0—

I am beginning to think about the bluegills that I expect to catch and eat when we get up to Cullen lake the latter part of next month. Some one says, what if we don't catch them? Of course that could happen but it never has in thirty years of going up there and my folks who are up there say they are catching lots of them. And Oscar Nay is up there and claims he is catching the limit every time he goes out and if a novice like him can catch them surely I can. And if I can't I can go up and get Pete Wallin to come down and I know he can catch them.

Pete lived there in the days of market fishing and that was about the only way they had of making a living, catching fish and shipping them to Minneapolis. Fish are not as plentiful now as they were and while we can usually get enough yet, they are by no means as plentiful as they were thirty years ago. The first year we were up there was about the last year of market fishing and only a few ventured to do it then for it was unlawful and they took great chances.

—0—

The Dr. came to vaccinate the whole family and when it came time to vaccinate Hilda the maid and the Dr. was about to vaccinate her on the arm the woman of the house objected because she feared Hilda would not be able to do the sweeping and dusting. Then he said they would have to put it on her leg. Again the old lady objected, saying Hilda had to get down on her knees every day to scrub the floors. So the Dr. said they would have to let Hilda decide. After thinking it over Hilda said, "Well on this job I don't have much time to sit down."

—0—

And now if you will take your pen in hand and fill in a check and send it in to renew your subscription (unless of course you have already done so) you won't forget it again.

—0—

I understand that John Ward claims to be the best fisherman in North Loup. I guess if the truth were known his wife has him bested three times out of four.

"Guess I must be a sissy, Tommy!" said I!

—o0o—

Mary Ann Roe reports they are having skunk trouble at their house, too, where a new basement was left without windows a night or two too many, and some skunks moved in. The catch is, they don't know how many! They found an adult skunk dead, and one cute baby running around, friendly as could be. The question is, how many babies are there: are there more adults? Also, how do you go about showing skunks out of your basement in a friendly way?

—o0o—

All the writing ability in the Ward family is not confined to John, I learn, for Mary Ann gets the neatest greetings from her grandmother, Mrs. S. W. Roe, who is John Ward's sister. Each of these card is rhymed, making the message doubly interesting to receive.

—Irma.

Ward's What's Cookin' Column

And now it seems that the Veterans of Foreign Wars are planning a dinner-dance Monday, August 16, commemorating the ending of hostilities in the recent war. That is all right with Mrs. Ward and the writer. As I now recall, it was three years ago Aug. 15 that a celebration of that great news was held in Ord. I was right there, as I returned that day to begin my second tour with the Ord Quiz, in which I signed up as a relief man for fifteen days, and stayed on the job for seven months.

Our special reasons for wanting to celebrate that time of the year are numerous. For example, Friday, August 13, will be one of the several birthdays, Mrs. Ward has had in her brief but hectic life as a member of the firm of Ward and Ward, and before that, for that matter. The next day, Aug. 14, will be the third anniversary of an event we observe with pleasure, for it was on that date, three years ago, we closed the deal that made us co-owners of the property we own here in North Loup.

But the big day, to us, comes Aug. 15, when we will observe the 39th anniversary of our marriage, which was quite an important event for both of us. In the past my job with Nebraska's Big Rodeo has interfered with the celebration of these several events, but this year, even with an added day to the big show, it all comes to an end Aug. 14, leaving us an open date for Aug. 15. We are making plans for a little celebration on that day, and it will be the first time we have ever made something special out of the event.

Being married 39 years is not as difficult as it seems. It is all a matter of time. For example, there are Mr. and Mrs. Charley Barber, who celebrated their 62nd wedding anniversary this month, and didn't make a lot of fuss about it. Of course, with them the celebrating of wedding anniversaries has become somewhat of a habit, and they take it as a matter of course. A generation ago it was very unusual for people to live to see their golden wedding anniversary, but today sixtieth anniversaries are becoming quite usual. Right in Ord there are the C. W. Nolls and the Bud Shirleys, to name a couple I happen to think about.

We went past the J. L. Dworak place a few days ago, and I got to thinking about how I used to distinguish between the two Dworaks, J. L. and J. F. by speaking of J. L. as young Joe. Perhaps it would have been more accurate to call him "Little Joe," but that would have sounded like shooting craps. I do not know for certain, but I do not think there is much difference in the age of the two Joes, only I knew J. L. when he was a kid, and J. F. was grown up when I first knew him.

It is strange what a difference it makes whether you grew up in a community, or whether you arrived after reaching maturity. The last time I visited with C. H. Leonard shortly before his death he called me Johnnie, just as he had done all my life. In other words, I was still a young fellow to him, even though I was well past the sixty mark. People are slow to accept a home boy as a man, and at the same time they will give a stranger a man's status, judging more by size than by age, mainly because they do not realize how young they may be.

Another J. L., John L. Milligan and his good wife arrived last week for a short visit with the different Milligan relatives here. It was the first visit back for John for a number of years, and the first time his wife had ever visited here. They sold their home in California and were looking around for a new location, which may be in the Ozarks. They only knew that we lived in North Loup, but not where. So, when they drove past our house he told his wife that he would stop and ask the people who ran this rooming house where John Wards lived. He did so, and you guessed it, found out we lived here.

This is getting entirely too personal to suit me, but I can't help it. Next week it will probably be different. Anyway, I think I have stumbled on a perfect way to produce rain. At least, it has worked the three times I have tried it this summer, and the rain was badly needed in each case. I think it was the latter part of May that it became so dry that I decided to irrigate. I worked hard all afternoon until after 9 p. m., and got everything thoroughly watered. About midnight that night we had our first big rain of the season, 1.02 inches in all.

Some time in June you will recall we had another dry spell. Friend Earl Smith, local water master, turned the water in one afternoon, and I got busy on the irrigating job. After an hour or two I put on my rain coat and worked in a steady drizzle the rest of the way until the heavy rain put a stop to operations about 9 p. m. That night we had 1.28 inches here, and there was more than that elsewhere. Then about two weeks ago I tried it for the third, and probably last time for the year. I ordered the water, which was to come down the next morning, but we had .70 of an inch that morning before I got started to work. Yes, I am convinced that I can make rain any old time.

Why do people go on fishing trips. We have been on five of them to date, and, in the first four cases, we could have had more fish by going down to the creek. The last one was more successful. People are not thinking in terms of the fish they bring home, but of the fish they hope to be lucky enough to get. Also, going away from home and seeing nature with her best clothes on is one of the major events of the trip. From the dollars and cents view point, all fishing trips must be chalked up as failures.

GRASSHOPPERS

They'll always be with us — we can't eradicate them, but we can control them.

Our complete stock of farm chemicals and sprays will make it possible for you to enjoy relatively insect-free farming.

The new Chlordane is one of the best insect sprays yet devised — especially for flies and mosquitoes and grasshoppers. Others include BHC compounds, DDT sprays and dusts of various types, all designed to make farming easier. Also a new dairy spray which is a contact killer.

TRACTOR MOUNTED SPRAYERS

We still have a few aluminum booms on hand for tractor mounted sprayers. These are ideal to use on grasshoppers and other field insects. Let us tell you more.

LEGAL NOTICE OF MEASURE TO BE VOTED UPON NOVEMBER 2, 1948

(BALLOT TITLE)

PROPOSED BY INITIATIVE PETITION

$00 ☐ YES
$01 ☐ NO

AN ACT relating to veterans of World War II; providing for compensation and terms of eligibility of Nebraska residents who served in the Armed Forces of the United States within certain periods of World War II; providing for the administration of this act, defining terms, and creating the veteran's compensation fund; authorizing the Department of Veteran's Affairs to establish rules and regulations; providing for a three and one-half mill levy upon all taxable property of the State, except intangible property, for the years 1949 to 1953, inclusive; and to provide penalties.

TITLE AND TEXT OF PROPOSED LAW

A law relating to veterans of World War II; to provide for the payment of compensation in recognition of patriotic services of residents of the State of Nebraska who served in the armed forces of the United States, within certain periods of World War II; to define terms; to provide for the terms of eligibility of such persons for compensation payments and the amounts thereof; to provide for the administration of this act; to establish the Veterans' Compensation Fund; to authorize the Department of Veterans' Affairs to establish rules and regulations for carrying out the provisions of this act; to provide for a three and one half mill levy upon all the taxable property of the state, except intangible property, for the years 1949 to 1953 to be used to establish said fund; and to provide penalties.

Be it enacted by the people of the State of Nebraska,

Section 1. In recognition of the patriotic service of residents of the State of Nebraska who served in the armed forces of the United States during World War II, provision is hereby made for the payment of a Veterans' compensation and for administration of said payment and of this act by the Department of Veterans' Affairs with full and final authority of said department to determine which residents of the state are entitled to payments under the provisions of this act and the amount of such payments.

Sec. 2. (1) The term "armed forces", as used in this act shall mean and include the following: United States Army, Army of the United States, United States Navy, United States Naval Reserve, United States Marine Corps, United States Marine Corps Reserve, United States Coast Guard, United States Coast Guard Reserve (which shall not be construed to include the United States Coast Guard Temporary Reserve), Women's Army Corps, United States Navy Women's Reserve, United States Marine Corps Women's Reserve, United States Coast Guard Women's Reserve, Army Nurse Corps, Navy Nurse Corps, and officers of the United States Public Health Service detailed by the proper authority to duty with any of the foregoing. Merchant marine service shall not be considered under this act.

(2) Wherever in this act a word indicating the masculine gender is used, it shall be construed to apply to the feminine gender as well.

Sec. 3. Upon application, on or after July 1, 1954, but not after July 1, 1955, each person who shall have served or entered service in the armed forces of the United States at any time between the period beginning September 16, 1940, and ending September 2, 1945, and who served for at least ninety days, provided no compensation shall be paid for service in the armed forces after March 2, 1946, or was discharged with less than ninety days service by reason of a service-connected disability, and who was a resident of the State of Nebraska for a period of not less than six months immediately prior to the time of his entry into service of the armed forces of the United States and whose service meets the requirements of this act, shall be paid from the Veterans' Compensation Fund, as provided by this act, compensation payment, computed as follows: Ten dollars for each and every month served in the armed forces while in the continental limits of the United States (excluding Alaska) and fifteen dollars per month for each and every month served outside the continental limits of the United States (including Alaska); *Provided*, maximum payment to any individual under this act with domestic service in the armed forces only, shall be two hundred and fifty dollars and maximum payment to any individual under this act with domestic and foreign service or foreign service shall be three hundred and fifty dollars. Any individual receiving a compensation payment as provided by this act shall have been discharged or separated from service with the armed forces under honorable conditions and the Department of Veterans' Affairs shall make the final decision whether or not the type of discharge received by any applicant shall entitle him to compensation payment as provided by this act. The following periods of time shall not be included in computing months of service for compensation purposes:

(1) Periods of time applicant was assigned for a course of education or training under the Army specialized training program or the Navy college training program, or as a cadet or midshipman at one of the service academies.

(2) Periods of time applicant was absent without leave, which materially interfered with performance of military duty, periods of agricultural, industrial or indefinite furlough, time during which the person was under arrest (in the absence of acquittal) time for which the applicant was determined to have forfeited pay by reason of absence without leave and time spent in desertion or under sentence of courts-martial.

Sec. 4. No person shall receive compensation under the terms of this act who has received a bonus or compensation payment from any other state because of service with armed forces of the United States in World War II.

Sec. 5. In the event of the decease of any person who, if alive, would be entitled to the benefits under this act, the compensation payment provided by this act shall be paid to his dependents, if any; *Provided*, that if there be more than one dependent, payments shall be made in the order of precedence so far as practicable, as follows: Wife or husband, children, mother or father, brother or sister. No right or payment under this act shall be subject to the claims of any creditors, capable of assignment, regarded as assets legal or equitable of the estate of the deceased, or made the basis for administration thereof.

Sec. 6. There is hereby established as a special fund, separate and apart from all public money or funds of this state, a Veterans' Compensation Fund, which shall be administered by the State Treasurer, exclusively for the purposes of this act. This fund shall consist of (1) all taxes levied under the provisions of this act, together with any interest thereon, (2) interest earned upon any money in the fund, (3) any property or securities acquired through the use of money belonging to the fund, and (4) all earnings of such property or securities.

Sec. 7. The administration and certification of eligibility and amounts payable to applicants shall be under the direction of the Department of Veterans' Affairs. The director of said department may hire such additional clerical help and personnel as is necessary to carry out the provisions of said act whose salaries shall be paid out of the Veterans' Compensation Fund, created by this act.

Sec. 8. The Department of Veterans' Affairs shall be authorized to prescribe rules and regulations for carrying out the provisions of this act and decisions of the department under the provisions of this act shall be final.

Sec. 9. It shall be the duty of the director of said Department of Veterans' Affairs and the State Advisory Commission of said department to determine who is eligible for a compensation payment and the amount thereof, as provided by this act. On and after July 1, 1954, the Director of the Department of Veterans' Affairs shall certify to the State Auditor of Public Accounts, the name of each applicant eligible for compensation payment and the amount of such payment. The State Auditor of Public Accounts shall then draw on the State Treasurer a warrant, payable out of the Veterans' Compensation Fund, payable to each individual, or his dependent or guardian, if dead or insane, in the amount due the individual as provided by this act and certified by the director.

Sec. 10. The State Board of Equalization and Assessment shall make an annual levy to be known as the Veterans' Compensation Fund Levy, in the amount of three and one half mills on the assessed valuation of all taxable property of the state, except intangible property, in the State of Nebraska for the years 1949, 1950, 1951, 1952, 1953, for the purpose of raising funds sufficient to carry out the provisions of this act.

Sec. 11. Whoever knowingly makes a false statement, oral or written, relating to a material fact in supporting a claim under the provisions of this act shall, upon conviction thereof, be punished by a fine of not more than five hundred dollars, or by imprisonment for not more than one year, or both.

Sec. 12. The Attorney General of the State of Nebraska, or the county attorney of any of the respective counties, shall be empowered to file a civil action for the recovery on behalf of the Veterans' Compensation Fund of any money wrongfully paid from said compensation fund.

North Loup Methodist Church
Samuel Mitchell, Pastor
Sunday, August 1, 1948

Church school at 10 a. m. Mr. Roy Hudson, superintendent.

Morning service at 11 a. m.

Message by the pastor, "Power from on High."

It is reported that 53% of the population are members of the churches, its refreshing to know that but we are still concerned about the 47% that are not connected with the churches, just where are you in this group, in or out? THINK IT OVER. Line up with the members of the churches, and help make this America a better place to live.

The Cradle Roll Mother's under the leadership of the Superintendent, Mrs. Murray Cornell will gather at the church for a party. The mothers are asked to come and bring the children. At the same time we are asking the Mothers to each bring a toy, or picture book, a book for crayoning. We are trying to equip a nursery. We can use a crib or a play pen, pullable or pushable toys. The shower is open to everybody, whether your children are on the Cradle Roll or not. The party will be Wednesday, August 11, at 2:30 p. m. If you are interested contact the pastor, or the superintendent, or any of the committee.

The Lion's Club will meet again at the Portis Cafe, Thursday, August 5, at 7 p. m. The Ladies Night has been postponed until a later date, the day the affair had been planned was in conflict with the flower show.

BACKACHE, LEG PAINS MAY BE DANGER SIGN
Of Tired Kidneys

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
