Take On Gothenburg

Chants Start Schedule Friday

Last Friday night, 'Chant' football fans were allowed a sneak preview of what is in store for opposing teams this season when an inter-squad scrimmage was held under the lights.

From most all standpoints, the preview was impressive.

The 1963 'Chant' squad certainly has the primary qualities needed for any team — enthusiasm and desire.

Fifty-one hopefuls reported for practice this fall and by game time this Friday the 'Chants' will have had three weeks of hard practice.

Twentyone lettermen have returned to help bolster squad morale this year.

Lettermen

Returning lettermen are: M. Augustin; T. Banks; C. Benda; D. Brechbill; A. Cetak; B. Douthit; D. Edgehill; D. Geweke; M. Hansen; R. Kunz; E. Markowski; D. Melia; M. Naeve; D. Naprstek; D. Nevrkla; R. Osentowski; A. Peterson; J. Wagner; D. Wert; D. Zikmund; and M. Zulkoski.

Old Rivals

This season's schedule includes many old rivals, making each game a challenge not to be overlooked. Pre-season speculation points to the Holdrege, Broken Bow and Central City games as being the toughest hurdles to overcome.

Coach Al Bellinger and Assistant Coach Dave VanNordheim agree that the 'Chants' may lack in size this year, but should make up this deficiency in speed.

The team also appears to have a strong defensive squad, which should give opposing coaches a few headaches.

This Friday, Ord will play the season opener against Gothenburg on the newly sodded home gridiron at 7:30.

The Swedes can be expected to be up for this game, not only because it is the opener for both teams but also to revenge the 21- defeat received last year. The probable starting line-up should be follows:

Ends: Don Brechbill, Eugene Markowski or Jim Wagner.

Tackles: Bruce Douthit, Dale Naprstek.

Guards: Chuck Benda, Doug Wert or Clark Hoppes.

Center: Don Geweke.

Quarterback: Rich Osentowski.

Class Of '53 Has Reunion

by Mrs. Hope Crist

The Arcadia Class of '53 held their reunion on Saturday and Sunday with 11 class members present.

A reunion weekend was enjoyed by former Arcadia students and their families.

Festivities began with dinner at a Party Paradise Saturday night with bowling following.

Ranae Adams of New York City, a professional bowler, gave pointers to some of her classmates who bowled for the first time.

On Sunday they were joined by their families for a day of picnicking at Baird Park in Arcadia.

Attending the gatherings were Mrs. Allan Collier of Ord, Mrs. Norman Sell of Lincoln, Mrs. Elton Stefka and Mrs. Don Griebel of Comstck, Mrs. Bob Wilson of Lexington, Mrs. Gene Anderson of Lincoln, and Ranae Adams of New York, N.Y.

Max Lybarger and Norman Sell of Lincoln, Glen Hawley of Belgrade and Ralph Bose of Arcadia.

Vows Exhanged

Mr. and Mrs. Harvey Hardwick of Plainville, Kansas announce the marriage of their daughter, Miss Deora Hardwick to Mr. Ronnie Lindell, son of Mr. and Mrs. Albert Lindell of Arcadia, Nebraska.

The double ring ceremony was performed by Rev. Arthur W. Myers at the Church of the Nazarene in Plainville, Kansas at 7:00 P.M. on August 12th. They will be at home in Arcadia. Mr. Lindell is employed at the Smith Motor Co.

Mailed Items

According to Postmaster Grace Armstrong, the variety of items that people send — or try to send — through tte mails is amazing.

From form notices and trinkets of little consequence to social and business transactions of incalculable value, most everything makes grist for the biggest business on earth. But not all that is deposited is welcome.

Certain types of letters and packages are in violation of law.

Violations can bring penalties of up to $5,000 in fines and five years of imprisonment, or both.

One of the better known nonmailable items is chain letters. Others are lottery advertising and lottery tickets, sweepstakes tickets, obscene matter, articles relating to birth prevention, liquor, firearms, explosives, matches, caustic acids, treasonable statements, poisons, and poisonous reptiles.

The postmaster says that "In general, any articles, compositions, or materials which may kill or injure another, or injure the mails or other property are non-mailable. Primary purpose of the law is to protect the mails against damage, to protect those who handle them against personal harm, and to protect the public against fraud. Some items ordinarily prohibited may be sent through the mails if they conform to special regulations as to preparation and packaging and if they are not outwardly dangerous, or of their own force dangerous or injurious to life, health, or property."

The burden rests with the mailer to insure that he has complied with the law. So if you are in doubt call the post office. "The more helpful we can be to our patrons on these and other matters, the greater the profit eventually to both them and us," concludes the postmaster.

Circle Meets

The Afternoon Circle of the Baptist Church met Wednesday afternoon with Mrs. Ed Shultz as hostess. Mrs. Arthur Pierson gave the lesson and a candle light consecration service. She also expressed different departments of the women's work.

On Wednesday evening the ladies were invited to Wescott evening circle. Mrs. Goddard, a missionary from Paraguay, presented slides and her work and brought devotions to the group.

The evening was concluded with a towel shower for Mrs. Goddard and refreshments were served by the Wescott ladies.

Boys Outnumber The Girls at OHS

Girls of Ord High School are the envy of their teen-age counterparts in neighboring communities.

Official enrollment figures reveal that they (the girls are outnumbered and surrounded by boys — and how they hate it!

In Junior High, however, it's the same old story — too many girls — too few boys!

Total enrollment in senior high is 329. A class breakdown reveals that there are 69 seniors, 30 girls-39 boys; 85 juniors, 42 girls-43 boys; 85 sophomores, 33 girls-52 boys; and 90 freshman, 40 girls-50 boys. Therefore, there are 145 girls and 184 boys attending Ord Senior High.

Junior high enrollment stands at 74. There are 39 students in the eighth grade, of which 22 are girls and 17 are boys. Membership in the seventh grade totals 35, with 18 girls and 17 boys.

With 184 boys in high school, Ord will be one of the largest Class B rates schools in the field of athletics.

THE NEW NATIONAL DRINK IS CALLED "FOREIGNADE" — IT IS REFRESHMENT THAT NEVER PAUSES.

"Things I didn't know till now"

Richest Man

The man with the highest income in the world is the 65-year-old His Highness Sir Abdullah al-Salim al Subah, the Ruler of Kuwait, with an estimated income of $7,280,000 per week or $378 million a year.

This is equivalent to making the life-time earnings of the average American every 2 hours 40 minutes.

I wonder if this GUY gets any of our foreign aid?

Billionaires

The world's richest private citizen is the American French resident Jean Paul Getty, 68, who controls three oil companies worth an estimated $1,200 million.

Getty made his first million, "the hardest", in his first 19 months in the oil business in Tulsa, Okla., in June 1916 at the age of 22.

America's only other possible billionaire is Haroldson Lafayette Hunt, also 63, of Texas, owner of the Hunt Oil Company, with an income of 50 million dollars per annum of which 27½ percent IS TAX FREE UNDER THE FEDERAL DEPLETION ALLOWANCE.

Probably the only other DOLLAR billionaires have been John D. Rockefeller, the first (1859-1937); Henry Ford, the first (1863-1947) and Andrew William Mellon (1855-1937).

Say, does anyone have four-bits 'til payday?

See you next week.

I'm Just A Steering Wheel

I'm Just A Wheel — A steering wheel. Behind me you're the master of a miracle. You can make me take the kids to school. You can turn me down the sunny road toward town. With me you can guide your goods to the market . . . you can rush the sick to be healed . . . you can go in minutes to places hours away. With me you can do magic.

Yet in the blink of an eye, in the tick of your watch, I can turn deadly killer. I can snuff out the life of a kid still full of life — maybe YOUR KID. I can twist a smile into tears. I can wreck and cripple and destroy. I can deal out death like the plague.

And I'm no respector of persons. A child, a grandmother, even YOU, my friend . . . it's all the same to me.

I respond instantly to the hands you give me. Give me calm hands, steady hands, careful hands . . . and I'm your friend. But give me unsteady hands, reckless hands . . . then I'm your enemy, a menace to the life, happiness, the future of every person, every youngster riding, walking, playing.

I was made for pleasure and usefulness. Keep me that way. I'm in your hands. I'm just a steering wheel. But behind me you're the master of a miracle . . . or a tragedy. It's up to you!

You And The Law

An interesting law enacted recently relates to the treatment of drug addicts. Under this law a person may be committed to one of the state hospitals if determined to be a drug user.

A drug user is defined as one who is so addicted as to have lost all self-control as to his addiction or one who uses habit-forming narcotic drugs so as to endanger the public morals, health, safety or welfare.

Court Proceeding

A person cannot be committed under this law without a court proceeding.

This proceeding may be started by any person having knowledge of the facts by presenting these facts to the county attorney. The county attorney has the job of prosecuting the individual.

A petition is filed and the alleged drug-user is entitled to be represented by counsel.

Provision is made for the examination of the alleged addict by two competent physicians. These file their report with the court prior to the hearing.

In addition the physicians must appear personally in court and are subject to cross-examination.

Burden of Proof

The case is tried by a jury unless a jury is waived. The burden of proof is on the state and the allegations of the petition must be proved beyond a reasonable doubt.

The proceedings are not criminal in nature but the alleged user, if the public safety requires it, may by confined pending his hearing.

Provision is made, however, for voluntary commitment.

Once committed, the user can only be discharged by order of the court which committed him. The superintendent of the institution must make a recommendation to this court and the release is within the discretion of the court.

The law thus provides a method for the conpulsory treatment of these unfortunate persons.

Vacation Time

Larry Nye is vacationing this week. He is an Ord Quiz employee.

The Nyes went to Minden Saturday to spend a few days with friends, Mr. and Mrs. Harold Olson, and visit his former employer Don Jacobson.

They will visit relatives in Sutton and Clay Center before returning home Sunday.

New Lights. . . NU Coliseum lighting has been increased from 10 reflectors to 32 reflectors above the bounce-ball court. . . It's 50-candlepower everywhere now, so maybe you all can recognize your friends and opponents better during the 1963-64 campaign.

160 Thousand Veterans Live In Nebraska

The latest survey made by the Veterans Administration shows there are 160,000 veterans now living in Nebraska, according to A. H. Duxbury, VA Regional Office Manager in Lincoln.

Of this total number, 102,000 are veterans of World War II.

There are 43,000 veterans of the Korean Conflict.

Include in the above figures are 6,000 veterans who served in both the Korean Conflict and World War II.

Nebraska has 20,000 World War I veterans, according to the latest VA tally.

The remaining 1,000 veterans served in the Spanish-American War or during peacetime.

More than half or 85,694 of Nebraska's veterans live in 6 counties, namely, Douglas 49,642; Lancaster 20,141; Hall 4,548; Dodge 4,086; Scotts Bluff 3,827; and Adams 3,450.

Duxbury added that the total number of veterans nationwide decreased 109,000 from June 1962 to June 1963 when the total stood at 22,160,000 living veterans.

Janet Cribbage Champ

Janet Hoon writes her parents, Mr. and Mrs. Walter Hoon, that she docked at Bremerhaven, Germany, on Aug. 17.

Her ship, the Upshore, had smooth sailing although they changed their route somewhat to avoid a hurricane.

She entered a pinochle and a cribbage tournament during the trip, emerging champion over an Army Colonel, an admiral's widow, a chief petty officer and a navy lieutenant junior grade. Her prize was a string of simulated pearls.

There were 30 school teachers, 2,000 servicemen and 300 tourists on board the ship.

Among the passengers were Lt. Col. Ross Hill and his wife. He is the son of Mr. and Mrs. Ray Hill of Arcadia.

Janet toured Kaiserslautern and her teaching assignment is at Baumholder. Two nice rooms and a bath comprise her apartment at the bachelor womens quarters.

She met a former college classmate in Germany — Don Jardon of Alma — proving it a small world after all.

Teacher Workshop

County Superintendent's from Garfield, Loup, Wheeler and Valley counties have arranged a joint teachers' workshop to be held Sept. 19 and 20 at the Methodist Church basement.

The subject will be "The New Math Method." An instructor from the University of Nebraska will conduct the lessons.

Arcadia and Ord teachers are welcome to attend if they wish.

Church women will serve noon luncheons by reservation.

The Treasury's Weekly Stamp Day plan, coupled with classroom studies in money management for young citizens, is offered in thousands of schools throughout the nation. U. S. Savings Stamps are also on sale at post offices.

The Ord Lion's Club

This writer received a visit this past Thursday by Leston W. Alexander, special representative of Lions International, from Hooper, Nebraska.

Mr. Alexander stated that he was in Ord to assist in the formation of a Lions Club for this City.

He stated that the Lions Club of Elyria was sponsoring the new Club.

The organizational meeting here, will be held Thursday, September 5, at the Hotel Ord.

The Lions Clubs are non-political, non-sectarian service organizations composed of the community's leading business and professional men.

Membership is by invitation only.

Lionism is an active and efficient medium for united community effort and enterprise.

It is also an outstanding medium for national and world service, exerting through its more than 685 thousand members, tremendous influence for national welfare, international amity and peace, and human progress socially, culturally and economically.

The importance of Lions work in all these fields is widely recognized.

This newspaper therefore welcomes the new Lions Club of Ord, with the hope that they will have many years of success.

Our American Democratic Youth

The 13-western states conference of Young Democrats last week endorsed such extraordinary, radical policy statements that the news is still REVERBERATING ACROSS THE NATION

THE POLICIES APPROVED WERE SO FAR TO THE LEFT, EVEN THE REGULAR DEMOCRATS WERE STUNNED.

Rep. Edward J. Derwinski (R-Ill.) stated: "I appeal to the president — to repudiate these extreme LEFT-WING VIEWS and further to free the Young Democrats from the fanatical left-wing groups which have clearly seized CONTROL OF THAT ORGANIZATION."

The conference, held in Berkeley, Calif., passed 32 resolutions.

Among them:

THAT THE UNITED STATES RESUME DIPLOMATIC RELATIONS WITH CUBA.

THAT THE NONAGGRESSION PACT BE SIGNED BETWEEN NATO AND COMMUNIST WARSAW PACT NATIONS.

THAT THE UNITED STATES WITHDRAW ITS TROOPS FROM SOUTH VIETNAM.

THAT THE HOUSE COMMITTEE ON UN-AMERICAN ACTIVITIES BE ABOLISHED.

THAT THE McCURRAN INTERNAL SECURITY ACT BE REPEALED.

These are the ideas and ideals that the DEMOCRATS have foisted upon a segment of the youth of the Nation.

This is the love of God and Country that this Democratic regime is instilling in their youthful supporters.

Is it any wonder that our great Nation now stands on the brink of international disaster?

Civil Rights Parade . . .

Two Hundred and Ten Thousand Civil Rights Pilgrims flowed into the National Capital — and out again after an orderly and amiable demonstration of uprecendented proportions and in the spirit of a subdued revival.

They sang their song, "WE SHALL OVERCOME", with the feeling of "Every day will be Sunday bye and bye".

All and all, it was a poignant, if gigantic, expression of faith in the power of Congress, under the benevolent leadership of an ALL WISE ADMINISTRATION, to wipe out the injustices and hardships and heartaches of three centuries by law — a law called "THE CIVIL RIGHTS ACT OF 1963."

OUR PRAYER IS THAT THESE 120,000 — and nearly 180 million more Americans — MAY NEVER HAVE TO LIVE UNDER THE CRUEL HOAX THAT HIDES A POLICE STATE BEHIND THE TRAPPINGS OF SOCIAL REFORM.

JS

Education . . .

Today belongs to the educated and the trained. Tomorrow the demand for skills will be even greater.

It used to be that a young person could drop out of high school when he turned 16 and get an unskilled job, where, with luck and hardwork he could progress to better jobs and make a decent living for himself and his family.

This is not true today. Even the beginning jobs now go to high school graduates, and many employers are demanding even higher education.

The machines are doing away with unskilled work and with the job opportunities once available to school drop-outs.

We quote Secretary of Labor W. Willard Wirtz, "the large bulk of today's unemployed among school drop-outs is half again as high as among high school graduates, and three times as high as among workers with some college background."

So do yourself a favor — go back to school and complete your education.

It will pay off in the long run, in personal satisfaction and in cold hard cash.

Something Different

But Don't File Charges!!!

I know I shouldn't throw stones: I live in a glass house myself. And lots of rocks have crashed through, believe me.

But the hush-hush policy in Ord and Valley county is getting out of hand. It's ridiculous.

And who gets the blame for not printing the news?

The good old **Ord Quiz,** that's who.

When you don't know where to park the blame, just shove it on the local newspaper.

oOo

Juveniles hereabouts wander a little farther off the reservation every year. But nothing is done about it. The theory is keep quiet, don't admit anything happened. Tell your coffee cronies if you like: but don't file charges.

Like the damage done to farm buildings and equipment. "It's not my place to file charges. I'd just make enemies."

Does someone enter the schoolhouse illegally, using a key he had no business to own, without permission, without a teacher accompanying him? "It wouldn't be good for business to file charges."

"It isn't my affair. Let the county attorney file the charges. Why don't the police do something?"

oOo

What kind of a town is this, anyway?
Does anything go?
Are we ostriches?

oOo

What about window peepers? Do we really have two in Ord? The rumors keep young mothers boiling. Probably they will have to continue to boil until some father steps out the backdoor and delivers a load of buckshot.

oOo

The young people see their elders get away with speeding and no arrests. Naturally this largely nullifies the fine talks given in driver education courses.

The state patrolmen bring speeders and others to court and place charges against them. Most cases are gently buried, all very friendly and cozy.

oOo

Car aerials are twisted. "I think I know who did it" says the operator of a local club.

"But you have insurance. Why should we file charges?"

Insurance wouldn't cost so much, you know, if we were scrupulous about the claims we filed. It's quite a racket these days.

oOo

The Quiz gets blamed for not printing the news.

The Quiz also gets blamed for printing the news. We can't win, hey?

Recently when the county board minutes showed some $30,000 more being spent than was legally apportioned for the yearly budget, this paper called attention to the overage.

And got heck.

Said the county fathers, Quiz friends of long standing, "We weren't having any trouble until you printed that story in the Quiz".

Is that what you want your newspaper to do? Play ostrich?

oOo

I feel the Quiz would be remiss in its duty if it did not print local happenings. The Quiz does not like this s-s-sh attitude.

We are here to tell you about your world, Ord, Valley county and this North Loup river valley. This is our job.

Capitol News

By Melvin Paul

LINCOLN — The Nebraska Railway Commission, on a 2-1 vote, has approved an application by the Chicago & North Western Railway for establishment of a far-reaching central agency plan for Nebraska.

As approved; the plan will lead to consolidation of 62 stations into 23 which are centrally located.

Early last summer, hearings were held in various parts of the state on the merger proposals. Strong protests were lodged at several towns.

Commissioners Richard Larson and Joseph Brown found the application "in the best interest of honest, efficient and economical management." Commissioner Wayne R. Swanson voted against the plan.

One stipulation of the commission was that the new plan must be implemented before next Jan. 1.

More than One

Under the central agency arrangement, the railway will enlarge the operational scope of stations so that they will serve more than one community. The railway has put into operation similar programs in South Dakota, Iowa, Wisconsin, Minnesota and Illinois.

The railroad said studies have shown that agents at one-man stations in Nebraska have an average work load of 38 minutes a day.

When the man's wages are stacked up against the work he does, the railroad said, wages per hour of time actually worked come to more than $100.

The Chicago & North Western has 89 stations in Nebraska. A total of 77 are operated by one man.

The central agency plan will have the agent at the central station also handling the needs of shippers or receivers at one or more associate stations within a newly created service area.

The railroad estimated adoption of the plan will save more than $160,000 annually.

REA Resolutions

The Nebraska Rural Electric Association (NREA) recently approved a resolution urging Bureau of Reclamation power be utilized first as a way of meeting the state's ever-expanding generation needs.

The resolution said the Nebraska Public Power System (NPPS) has said it does not plan to use additional low-cost bureau power after equity month occurs. Equity month is when load demands of the rurals equals power supplies.

The rural members of the Nebraska Generation and Transmission Cooperative do not agree with the NPPS view that equity month will come in 1966. The rurals claim it will occur a year earlier.

The bureau, meanwhile, has indicated it will release additional blocks of power to interested Nebraska utilities next year. The deadline for applications for bureau power has been fixed at Oct. 15.

In another resolution, the NREA contended rural districts should be permitted to use the NPPS transmission grid system for wheeling power requirements beyond equity month at a reasonable rate.

The resolutions were among 22 approved at the semi-annual meeting of the NREA in Lincoln.

Higher Education

Sen. Marvin E. Stromer of Lincoln, chairman of the legislature's interim study committee on higher education has outlined three general goals of his group.

He said the study committee will consider:

— the advisability of establishing a single board to govern all the state's institutions of higher learning.

— the advisability of a single executive authority for the public colleges and universities.

— a better working arrangement or relationship between the University of Omaha and other tax-supported higher education institutions.

Stromer has already met with Joseph R. Smiley, president of the University of Colorado, and Gov. John A. Love of Colorado.

Stromer said the purpose of getting together with the Colorado persons was to get some information to be used as foundation material for the Nebraska study. He added he also has had offers from the University of California and University of North Carolina educational complexes to study their facilities.

Stromer, a college professor himself, said he will discuss the invitations with the committee when it meets Sept. 20.

While in Colorado, Stromer said, he was told of many problems facing Colorado but which are relatively new to Nebraska. He added that "we in Nebraska are in a position now to profit by the experience of others and remedy the problems while they are in the embryonic stage." According to the Lincoln lawmaker, the major problem Nebraska faces is "tragic" duplication of effort by the various public institutions.

Miller Supports More

State Education Commissioner Floyd A. Miller is giving his support to a reported move among school groups to work for repeal of the Duis amendment.

Miller said those interested in repealing the constitutional amendment should start planning at once an initiative campaign. One of the first steps, he added, should be a series of information series across the state.

The Duis amendment provides that the state government must abandon the property tax field if a state sales and/or income tax is ever enacted.

Miller said he is in agreement with the view that public sentiment should be sounded out before an actual petition campaign is begun. "It would only be a further setback if a petition campaign were started prematurely and then have it boomerang," Miller said.

Decagon Planned

The Nebraska Centennial Commission is considering plans for a 1,000 foot decagon — a 10-sided structure — which would be built in Omaha.

It is one of 12 projects being discussed.

Frank Latenser, Omaha architect recently named secretary of the commission, said any permanent structure built for the Centennial will be independently funded and will neither be constructed nor supported with any tax money.

The concrete decagon would consist of 10 tiers, each 100 feet high. Thus, it would have 100 sides, one for each year of Nebraska's statehood. Structural plans have been prepared by Latenser. He estimated the project would cost approximately $4 million.

The building would have a labyrinth of rooms on the ground level for a historical display and lookout windows at the various levels. Latenser said "it would have a spectacular view from the top of the tower."

The building, for which private financing is being sought, would be the tallest in Nebraska and could be used as a transmission point for educational television.

Hearing dates

The legislative committee assigned to study Nebraska's credit finance crisis will hold public hearings Sept. 23-24 on proposed bills to be submitted in the upcoming special session of the legislature.

The hearings will start both days at 9:30 a.m. in the east senate chamber. The committee will listen to industry proposals before drafting its own legislation to be considered at the special session.

Congressman DAVE MARTIN Reports

By Congressman Dave Martin

Last week, after the House had completed action on the Foreign Aid Bill, where $600 million was cut from the $4.1 billion bill, bringing it to $3.5 billion, President Kennedy immediately thereafter went on nationwide tv and radio to denounce the House action. The President stated in part:

"The most disturbing aspect of today's House action is that for the first time since the end of World War II, this program experienced a shocking and thoughtless partisan attack by the Republican leadership on a program which both parties have consistently supported as being vital to our national security."

Look at Record

Well, lets look at the record. The current lineup in the House is as follows — 277 Democrats and 177 Republicans. On the vote to cut the program by approximately $600 million, 66 Democrats voted for the cut. Among the 66 Democrats voting for the cut were the following: Wilbur Mills, Arkansas, Chairman of the powerful Ways and Means Committee and one of the most respected members of the House: Clarence Cannon, Missouri, Chairman of the Appropriations Committee, who has been a member of the House for the past 41 years.

There were many other prominent and able Democrats who also voted this way. On final passage the bill carried by a vote of 224 to 186, the most **No** votes in the history of the program.

On this vote 52 Republican members joined with 172 Democrats to approve the bill.

Without these Republican votes, the bill would not have carried, even with the substantial cut. The President went on to state that the Foreign Aid Bill had always carried "bipartisan support".

Again, let's look at the record — Mr. Kennedy's record — when he was a member of the House and Senate.

Kennedy Against

On July 7, 1959, Mr. Kennedy was not voting on two votes to cut military aid by $500 million and $300 million.

On July 2, 1959, a motion to cut the Development Loan Fund from $2 billion for 2 years to $700 million for 1 year was not voted on by Mr. Kennedy.

On April 30, 1959, Mr. Kennedy did not vote on a $100 million cut in the Development Loan Fund; on May 2, 1960, on 13 separate votes on the Mutual Security Act, including final passage, Mr. Kennedy did not vote.

On July 1, 1953, Mr. Kennedy voted "yea" on a motion to cut $300 million from the mutual security funds.

On August 3, 1954, Mr. Kennedy voted "yea" on a $500 million authorization cut on military security.

On July 22, 1955, to restore a House cut of $420 million in military aid, Mr. Kennedy voted "nay."

On July 22, 1955, a $50 million addition to the funds for Asian economic development was voted as "nay" by Mr. Kennedy.

On June 14, 1957, a $90 million cut from the military security defense support funds was voted "nay" by Mr. Kennedy.

I could go on with other illustrations, but the record clearly shows that the then Senator Kennedy did not always do as he preaches now. The President's statement clearly shows that he just does not understand the temper of the American people today.

Growing Distrust

From all sections of the country there is a growing district in continuing this program; that it has been badly mishandled with a resultant waste; that it has not lived up to its promises; and lastly, that the American taxpayer cannot continue to carry the load of aiding all of the nations around the entire globe — that our wealth is being dissipated.

Yes, the American people are being disillusioned by our failures in this field, but the President hasn't received the message as yet. message as yet.

This is also true of the significance of the Wheat Referendum last May, in which the American wheat farmers in no uncertain terms, told the Administration that they wanted less governmental regulation.

The real meaning of this vote has not as yet sunk in at higher levels here in Washington.

If we are given a recess over Labor Day, I expect to return to Nebraska; so, there will not be a newsletter next week.

Joe Wants to Know About Nicki's Stock

DEAR MISTER EDITOR:

I see by the papers where ole Khruschef ain't bothered to claim his earnings from that stock they give him when he was in this country a few years ago. You will recollect a safety razor company give him 25 shares in their firm, said they wanted him to see how capitalism worked. A few months later a cigarette company bought out the razor firm by trading stock and Khrusky ended up with 6 shares of stock that pays good dividends. This piece in the papers says he won't even answer their letters when they write him to find out what he wants to do with his earnings. It just goes to show that big shots in the Communist Party ain't interested in earning money when they can confiscate it.

Well Mister, Editor, we didn't git much done at the country store Saturday night, special at the national and United Nations level. Most of the session was took up by the fellers extending their sympathy to Ed Doolittle in his family troubles. Ed come in complaining he was all wore out from mopping floors, scrubbing wood work, washing windows and other such tomfoolery that nobody but a woman could think up.

Ed told the fellers he would admit house cleaning in the Spring was a good American custom, was probable invented by Martha Washington, but his old lady was the only woman in the country that done it again in the Fall. Farthermore, allowed Ed, he had give up fussing with his old lady on this Fall cleaning business. He said he figgered the day after he was married 40 year ago that if he ever got in the last word with his old lady, he'd have to outlive her, and write it on her tombstone.

Clem Webster was of the opinion that maybe Ed was taking the wrong attitude in these matters. He said it hadn't been more'n two Sundays ago that his preacher told the congregation marriage was a 50-50 proposition. But Ed didn't think much of Clem's remarks, said Clem's preacher either didn't know nothing about wives or he was powerful ignorant in fractions.

Personal, Mister Editor, between me and you, I think house cleaning twict a year is Un-American, unhealthy, and unnecessary and ought to be agin the law, but I didn't take no part in the argument on account of not wanting any quotes to git back to my old lady. And I don't consider Clem a authority to speak on the subject. My Pa told me onct you could size up a marriage by looking at a feller's barn. If the barn was bigger than the house, the man was wearing the pants, and vicerverser. Clem's barn is smaller than his house, and farthermore it's painted green. When you see a barn painted green you know somebody's old lady is picking the colors and wearing the pants.

Yours truly,
Geranium Joe

KERRY ON

By Kerry Leggett

— too much, too late —

Several weeks ago H. E. "Hammy" Elstermier called me from St. Paul and said he had a very pleasant request to make of me.

It's been years since I'd seen Hammy and I was quite astonished that he even remembered me. Hammy married an Ord girl, Joy Loft, and they've been very successful in the florist shop in St. Paul.

His reason for calling — and it was indeed a pleasant request — was to ask my wife and I to be judges for the Queen Contest at the Howard County Fair. After hearing the outline of the evening festivities, I accepted his gracious invitation.

So, a week ago, Carol and I piled in the car and headed down the highway for Howard county.

Neither of us had ever judged anything before and I thought possibly Carol may have some reservations, especially my ability to judge the beauty of some sweet young teenagers.

Hammy met us at the St. Paul Legion Club and we were introduced to the eleven candidates.

The fair board treated us all to a steak dinner, prior to the judging, and we were to observe the poise and personalities of the girls during the meal.

I enjoyed my steak immensely, but the girls were a nervous wreck trying to use their best manners and say the right thing at the proper time.

Poor little Judy Johnson of Scotia, one of the candidates sitting next to me, dropped her fork midway through the meal and I thought she'd faint dead away. But I reassured her that I wasn't taking any points away from her and hoped she could enjoy the rest of her meal.

Following dinner, we were to do the preliminary judging before going out to the fair grounds. By that time the rain was coming down in bucket-fulls, and Hammy decided to call off crowning the queen that evening. But we were instructed to go ahead and come to a final decision.

Then we put our selection in a sealed envelope to be opened and announced following the presentation of the candidates the next evening.

So the judges had to keep the secret a full twenty-four hours, and that's pretty hard to do when you're in the newspaper business.

Two of the judges from Grand Island decided to return the night of the presentation of the queen, seating themselves amid the crowd, so they could hear the remarks of the people when the announcement was made. Carol and I couldn't make it back the next night, so we missed out on the fun.

But we did have a nice quiet ride home. I guess it started with a remark I made while we were judging. All I said was, "I sure wish I was ten years younger."

Editor:

Ord' Nebr.

Dear Sir:

On August 29, 1963 I had a meeting with the chairman of the Village Board of Arcadia, Nebr. I personally examined the minutes of the meeting of Aug. 5, 1963 and found that bills paid, seemed to all be in order.

The chairman in thanking us for coming to the meeting didn't mean that we had to leave, but thought we would like to leave because of the heat and bug condition of the evening. That anyone wishing to attend a board meeting was welcome at anytime. Anyone wishing to see the minutes of any meeting he stated would be shown by himself if the person would make an appointment with him.

The chairman stated that in the Spring Election we could put the issue of Sunday beer on the ballot. So until next spring we will sell only soft drinks and tobacco on Sunday.

Respectfully
Alan K. Woody

A Closer Walk With God Will Lead You Right Straight to Church

At The Churches

the Academic and God

The Great Teacher once said, when the fig tree buds it is spring. We might add, when the youngsters go back to school, it is fall. What a challenge back-to-school brings. *It is time to learn more about math, and science, and citizenship, and God.* How necessary to our American way of life are these basic requirements in our educational system. Our curriculum must include some precepts of Jesus *if we are to have sufficient moral and spiritual stamina to endure.* It has been said, education without a knowledge of God is dangerous. Our teachers, our preachers, and all loyal Americans should see to it that our basic education be broad enough to include both the *academic and God.* Of course our youngsters should be loyal to their colors, to their school, but they should also be faithful subjects of the Great God. They should worship in church every week.

WHO USE PCA LOANS
pay CASH
PAY less - SAVE more
Securing credit beforehand through PCA enables you to receive substantial cash discounts in most every case. You can avoid high interest rates, carrying charges and other hidden finance costs. Often, the savings you obtain from these factors alone are far greater than the small cost you pay for a Production Credit loan! It's good business to borrow the money you need from PCA.
