I, S. Fretz Dead

Last Saturday morning about half past ten o'clock, or perhaps a few minutes later, I. S. Fretz, an old and respected resident of this city, fell dead in front of the post office 'huilding. He came down town a few minutes previous and had been discussing a caucus held that morning to nominate township officers, had stepped to within a few inches of the sidewalk, when he was observed to stumble as though one foot had interfered with the other, and fell heavily into the street, the sidewalk where he sabove the street. W. N. Stevens and others went to his assistance and qulckly lifted him to the sidewalk and called a physician who was but a short distance away, but life was extinct.

Faithful Dumb Friend of Vermont

Ryegate, Vt.—In a vayside cemetery between MacIndoes and Ryegate, in one of the most beautiful lots, side by side with other members of the family, lies a faithful dog. The design which the winner, Guilermo Heredia, presented, is in Greek Doric style. It is not, however, the most severe type of this style, but the ornamental, typical of the later development. It consists in general of the semi-circular arch erected behind a statue on a large pedestal. The statue is allegorical, representing the two forces in civic life which played so important a part in Mexican history, oratory and poetry. A large space is left within the semi-circle around the pedestal of the monument and the surface is sloping, consisting of moderate steps, so that the place and other civic ceremonies in honor of the great Benito Juarez. Professor Holden, of the Iowa State College, the greatest authority on corn in the world, will award the prize at the National Corn Exposition, to be held at Omaha, Neb., Dec. 6th to 18th, 1909. Two simple rules will govern the plan, and they are—that you send you'r best ear of corn to the National Corn Exposition, Omaha, Neb., before November 27, 1909, and that you are a member of the National Corn Association—full particulars regarding which can be had by writing to National Corn Exposition, Omaha, Neb. Tie a tag securely to your specimen and word it, "For the Kellegg Trophy Contest," and write your name and address plainly. If yours is judged the best, you will get the trophy for 1910. If you succeed again next year or the year following, the trophy will become your property for all time.

The contest will be open to every state in the Union. Professor Holden will indee. The contest will be open to every state in the Union. Professor Holden will judge the corn particularly on the basis of quality. The growing of more corn per acre is one object of the award, but the main purpose of the founder of the trophy is for improving the quality of corn used in making KELLOGG'S TOASTED CORN FLAKES. If you haven't tried this delicious cereal, begin your education in "good things to eat," today. All grocers have it. W.K.Kellogg KELLOGG TOASTED CORN FLAKE CO., Battle Creek, Mich.

START ACTION TO DETERMINE WATER APPROPRIATIONS.

HAPPENINGS OVER THE STATE

What is Going on Here and There That is of interest to the Read-

ers Throughout Nebraska and Vicinity.

Gering, Neb.—The most important court action involving irrigation rights that the courts of Nebraska have ever been called on to settle was initiated here when attorneys for the Enterprise irrigation district filed a suit in district court this week, the object of which is to determne the priority of water appropriations from the North Platte river of the Tri-State Land company as against some fifteen other irrigation companies of the North Platte valley.

The plaintiff's petition alleges that the Tri-State company is claiming a water right of 1,142 cubic feet per second, or enough to irrigate about 80,000 acres of land, and is preparing to build a dam across the river for the purpose of diverting this amount of water. This claim, the plaintiff a bushel the last few days and farm-asserts, is unfourded. Badly Burnt in Explosion.

Central City, Neb. - Wednesday to remedy an escape of gas in the explosion. Both were severely injured.

Mr. Hord was burned on the face, neck, hands and one knee, and Mr. Wilhrow, who was the more seriously injured of the two, was burned from \$100,000 for the purpose of building head to foot. Neither of them sustained any injury to their eyes.

Nearly every physician in town responded promptly to a hurryup call. Ine flooring in the rooms above the cellar were forced up and the furniture of the home was thrown about, The force of the explosion was felt several blocks away.

Mr. Hord's residence was lighted by acetyline gas. The fire company made a hurried run, but the flames had been extinguished.

The taxravers of Phelps county are to have the privilege of saying by their votes whether or not they want to bond the county in the sum ci a new courthouse, the board of supervisors at their meeting this week submitting the proposition. Petitions containing the requisite number of signers were presented, and this coupled with the report of the recent grand jury that the present wooden building was unsafe and inadequate for the present needs of the county, has brought about the desired submission. The board and county clerk recently visited various other county seats in the state, and upon their return it was decided that a \$100.000 building should be built. It is not anticipated that much opposition will appear against the proposition, as Phelps county doesn't owe a dollar and has money in the treasury. This, with an \$85,000 government building across the street from it, will add much to Holdreze's goodly number of hardsome buildings.

The "Crucifixion," one of the most realistic biblical paintings that has appeared in the world of art since Tissot's famous pletures of Christ, will be on exhibition at Hardy's Furniture and Carpet Store, Lincoln, during fair week.

The painting, which is by 12, feet, is the work of Franz A. Lundahl, the noted Swedish artist. It depicts the crucifixion at its most dramatic moment, just as the rabble breaks away from the spot, terror-stricken at the storm that has arisen.

SYNOPSIS.

The story opens with a scene at a box party. Mss Henrietta Winstanley, sister of Bishop Winstanley overheard Banker Ankony propose to Barbara Hemingray, whose brother Dan was in his employ. Dan was one of the town's popular young men.

CHAPTER I .- Continued.

She settled back in the bishop's landau with a satisfied little smile, side yet. Not even Austin. and I leaned in and bent over her

As they rolled away I turned to to stand. I beat my gloves against meet Dan Hemingray, who had just my leg. I wanted to throw them in despairing mamma.

"Barbara went with the Deans," he explained; "we're using other people's carriages these days, you know."

"Lucky to have 'em offered," I not the decency to conceal. I knew grumbled; I don't. Walk over to the how he was smarting under Barbara's car with me. There's no harm in a street car."

"And mighty little comfort." "That's largely a question of upbringing," I laughed.

"Or down-sitting," he graned. Then he sighed, deeply and miserab'y, and tried to hide it in a series of caughs that did not deceive me.

"What's wrong?" I asked. "Did you notice Ankony to-night?"

he inquired. "Yes. The fellow is a boor." "His attentions were rather defiant, it seemed to n.e. as if—as if he

challenged Barbara to cut him. Did you think so?" No. Why on earth should be have that attitude toward her? You're in his employ, but you are not bound to him, nor under any obligation what-

ever." "No-no, that is-"

"See here," I broke in, rather impatiently, "there are plenty of concerns as big as his that would be glad to give you a good berth. Don't let him press his obnoxious attentions on your sist r just because you happen to be giving him excellent service for his money.

Dan looked at me oddly. "You don't understand, Tom," he said.

"It seems to me I understand per-Sectly, and I'd like to thrash him for his impudence." He laughed, but the troubled look

came back quickly to his usually sunny face.

"Miss Winstanley says he proposed to her to night," I said. He looked positively ghastly at that.

Oh, good Lord!" he cried, "I hoped she could stave him off!"
"She didn't accept him." No. no of course not. But

"It seems to me." I cut in, "that you'd be glad to have it over. He was bound to offer himself sooner or later, and now that he's done it and she has refused him, you all understand each other, and he won't be forever underfoot, as he has been. It will be much less embarrassing all round.

He shook his head and, lighting a eigar, walked on moodily beside me. 'Ankony is the devil," he said nervously, "You don't understand."

CHAPTER II.

The next day Ankony sent for me. I am the legal adviser of the Central Savings Company. He was looking particularly belli-

cose. It was at once evident to me that he had his foot on somebody's neck and meant to keep it there. I thought of what Miss Winstanley had said of self-made men in the first generation. Surely, I told myself, there were but few of them who were not belligerent.

"Here's a pretty kettle of fish! Ankony declared.

I removed my gloves and found a comfortable chair. I was in no haste, as I am not greatly interested in the kettles of the acting president of the Central Savings Company, except as I am paid to become so, and Ankony's mood and the recollection of his ag gressiveness the night before made me a little more antagonistic, if possible, than usual.

"It's the last thing in the world anybody would have thought likely to happen," he said. "Upon my soul, I don't see why it's so hard for a man to keep himself square these days. He has been going it a bit strong, perhaps, but I'm fond of him, and I'm not naturally suspicious, and the thought haps; he is only open-hearted and big sincethat he might be tempted never occurred to me."

Would you mind going at it other end round?" I suggested, for I hate to guess at things.

He flushed. He hates suggestions. 'If you want it flat, flat you'll get it," he said, coarsely. "Hemingray's been stealing from the company."

I smoothed my gloves. "No," said I quietly; "oh, no; not

Dan Hemingray." Ankony was purple in a minute. "You're mighty sure of that, are you?" he sneered.

"I am," said I; "I know Dan Hem ingray. "You know Jim Austin, too, don't

you?" I winced inwardly. Austin is an ex pert accountant, infallible, and an honest fellow besides.

"What of that?" I demanded. "Well he says Hemingray is

You all know that already there are some of our brethren who have been to the king and secured license to do after the ordinances of the heathen as though they were Gentiles indeed. And thou knowest how they have built places of worship in our holy city Jerusalem according to all the manner and custom of the heathen, and have made themselves uncircumcised and have for saken the holy covenant. Yea, they have sold themselves to do mischief. This earnest plea had its effect and it was plain to see ere he had finished

representatives, and in a still wider sense, to the Palestinian martyrs in the persecution of Antiochus Epiphames, and even to the Alexandrine Jews who suffered for their faith at an earlier period. The original term Maccabl has been variously derived. Some have maintained that it was formed from the combination of the initial letters of the Hebrew sentence: "Who among the gods is like unto thee, Jehovahr" (Ex. 15:11), which is supposed to have been inscribed upon the banner of the pairtots. Another derivation has ben proposed, which although direct evidence is wanting, seems satisfactory. According to this, the word is formed from Makkabah, "a hammer," giving a sense not altogether unlike that in which Charles Martel derived, a surname from his favorite weapon. Although the name Maccabees has gained the widest, currency, that of Asmonaeans Gentiles except the one who had brought the message. It was evident that he appreciated that further argument was of no avail, for he turned and as he stepped through the door he turned and with a sneer on his face he said: "You are foolish, indeed. Trouble will surely come to you." Not long after this the king Antiochus returned in triumph from Egypt, where he had been waging war, and came down upon Jerusalem with a great army. And when he had taken the widest currency, that of Asmonaeans or Hasmonaeans, is the proper name of the family. And he caused

all kinds of indignities to be practiced upon those of the Jews who refused to conform to all the customs of the heathen. Those were terrible days in Jerusalem, for the strength of the young men and the young women was taken, and the beauty of women was changed. And very many of the Jews were consenting to this thing, prizing their lives higher than obedience to God's law and acceptability with Him, and But let patience have her per ! they sacrificed unto the strange idols fect work, that ye may be perfect and entire, wanting nothwith which the city became filled and they profaned the Sabbath days.

Now among the few who refused to obey the commands of the king was that faithful Jew who had kept that little company from compromising with evil some two years before. And not one of that group had proved faithless to the stand taken that night. Some had been put to death and others had fled into the fastnesses of the mountains. But their leader still remained in Jerusalem, and now "And call upon me in the day still remained in Jerusalem, and now of trouble; I will deliver thee, it became evident that he was the one upon whom the wrath and enmity of and thou shalt glorify me."

HARMFUL BROWN-TAIL MOTH In Addition to injury it Does to the

Trees it Carries Disease Germs. There is but one generation of the brown-tail moth annually in New England. The insect winters as a tiny larva or caterpillar within a web or nest made of silk and leaves

woven together tightly. The nests will vary in size usually from three to four inches in length and will contain 200 or more caterpillars. These nests are securely attached

to the tips of trees or plants on which the caterpillars were working before In hibernation.

In early spring, as soon as the buds of fruit and 'shade trees appear, according to Howard, these one-fourth grown caterpillars emerge from their winter quarters and immediately commence feeding upon the buds and blossoms and later the foliage. The young caterpillar is of a blackish color and covered with very small hairs. The full-grown larva is about two inches long, reddish brown in color, with a broken white stripe on each side and two red dots in the back near the hind end. The body is covered with numerous tubercles bearing long barbed hairs. The tubercles along the back and sides of the abdomen are thickly covered with

short brown hairs in addition to the long ones.

The full-grown larva changes to a pupa within a cocoon which it pre viously makes with silk and leaves These cocoons may be in groups or singly in some secluded spots or at the tips of branches of trees on which they have fed. The cocoon is so loosely made that the pupa may be seen through it.

The moths of both sexes are pure white with the exception of the abdomen, which is dark brown. The tip of the abdomen of both sexes, more pronounced in the female, bears a small tuft of brown hairs, from which the insect gets its name. The female moth has an expanse of about one and one-half inches while the male is somewhat smaller. The moths are strong fliers and are readily attracted to lights.

In addition to the severe injury that this pest will do to fruit, shade and forest trees, and the consequent cost of fighting it, there is another feature very troublesome, if not alarming, man feel old. Hamlins Wizard Oil makes that is denger to the health of an old man feel young Absolutely nothing connected with its presence that is that is, danger to the health people.

The larva or caterpillar bears tiny hairs which are barbed and when the insect molts these hairs are shed with the skin. Upon drying, these skins and hairs float about in the air and are a source of constant trouble to persons living in an infested district. When the caterpillars' skins, on even loose hairs, come in contact with the skin they cause a severe irrital tion. A large part of the popular feeling in New England that the brown-tail moth must be exterminated is due quite as much to the prevalence and annoyance of this rash as to the loss of vegetation from the work of the caterpillar.

With this pest undoubtedly the easiest and practically the only effective means of artificial control where established is by cutting off the overwintering nests during the late fall, winter or early spring and destroying the tiny larvae within. This, of course can be supplemented by spraying with an arsenical mixture, when the larvag appear on the foliage in spring.

ORCHARD NOTES.

Keep the tree, like the animal, that proves itself. It is said that alfalfa is injurious as an orchard sown crop.

If you plant your young orchard in garden crops, etc., don't fail to fertilize them. What's the use of buying trees if

you are going to allow the horses and cows to destroy them? Barnyard manure, cotton seed meal

and acid phosphates are excellent fertilizers for Irish potatoes. It is said that success with apples in latitudes below Red river is a matter of variety, soil moisture and plant

food only. It requires some ingenuity to bring tender, young plants through their first three weeks of existence when the sun is hitting them at about 120 degrees-but it pays.

Spray the Trees.

Turn over a new leaf and spray the non-bearing trees this year. It was more scab than drouth that prevented fruit buds last year-the one supplemented the other. It takes grit, grace and greenbacks to do this. Trees with no fruit on them need only to be sprayed with the Bordeaux mixture. but if bag worm, tussock moth or tent caterpillar be present then add an arsenical poison.

"Eczema began over the top of my ear. It cracked and then began to spread. I had three different doctors and tried several things, but they did me no good. At last one side of my face and my neck were raw. The water ran out of it so that I had to wear medicated cotton, and it was so inflamed and sore that I had to put a piece of cloth over my pillow to keep the water from it, and it would stain the cloth a sort of yellow. The eczemaitched so that it seemed as though I could tear my face all to pieces. Then I began to use the Cuticura Soap and Ointment, and it was not more than three months before it was all healed up. We were glad to step off the train last Saturday night after spending couple of days attending the Ord chautauqua without any bones broken. Not but what they treat us nice down there and give us the best that the land affords but we do not believe that in any town in Nebraska the automobile "joy rider" is permitted to jeopardize the life and limb of pedestrians to the extent that he is ted to jeopardize the life and limb of pedestrians to the extent that he is in Ord. Hence it was with a thankful feeling that we returned with all of our bones intact. It is no uncommon affair in Ord to see a hair-brained youth of tender years go hatless and coatless honking up and down a crowded thoroughfare menancing the life and limb of the people. Possibly this apparent haste lends to a town a more cityfied appearance or gives it a more metropolitan air, but grief will come some day, when some small a more metropolitan air, but grief will come some day, when some small life will be snuffed out or some person maimed or crippled for life. Carpenters Quit Work.

Grand Island, Neb.-Because he put teamster, whose wages were but \$10 per week to work sandpapering certain finishing lumber in the Dolan business block now under construction, H. C. Rice, a contractor, experienced a strike of seven of his carpenters. It appears there was little or no work for the teamster to do and there was a necessity for pushing the unfair competition and that the man was not competent to do the finishing work, and intimated that they would leave if the man was not taken off the work. There was little parleying, for the contractor is said to have informed them that they could lock up their tool chests and go. The men who then left the jobs declare that they will go into the contracting and building business for themselves, as a co-partnership, and Mr. Rice is seeking other men. The men in his employ on other buildings did not leave their work. The participants of the walkout are not members of the union, although there is such a union in this city.

It will be seen from the above that

The board of public lands and buildings rejected all bids received for the construction of a cottage for male patient ats the Hastings asylum, for which an appropriation of \$50,000 had been made, and for two cottages at the Beatrice institute for feeble minded youths, for which a total of \$70,000 had been appropriated. The lowest of three bids on the Hastings building was \$80,000 and the highest was \$98,-000. The bids for each of the cottages at Beatrice ranged from \$34,850 to \$42,000. New bids will be called for. It is thought the Hastings buildings will be started and not completed on the appropriation made by the legislature, because the board does not believe it will pay to build a small building there. The board received notice from builders that the price of material is raising and that the board ought to build soon if it intends to make a contract, Iron and stone have both advanced. Two years ago the board built a building at Beatrice for \$50,000 that is larger than the one proposed at Hastings, which bidders now say will cost \$80,000.

Where Nebraska Excels.

Secretary Mellor of the Nebraska state fair board has returned from a visit to the Iowa state fair. "Iowa and Nebraska have about the same big attractions," he said. "The Nebraska agricultural exhibits are six or eight times larger than the agricultural show at the Iowa state fair. I cannot understand why an agricultural state like Iowa does not have a larger exhibit in that department of the fair. But it is admitted that the agricultural and educational exhibits in Nebraska are the best in the United States. The mercantile exhibits at the Iowa state fair are magnificent and so are the live stock departments. Iowa has a great advantage over Nebraska in its shady camp grounds. Thousands of people camp there in tents and wagons and some come from the remoter parts of the state to do so. We have not the ground room or the shade and cannot get these facilities short of eight or tenyears. Iowa also has a fine steel grand stand on the race course. It cost \$100,000 and will seat 8,000 peo-

R. D. McFadden, of Hastings, secretary of the Nebraska travelers' association, was appointed by Governor Shallenberger to inspect hotels under cast doubt upon his work, but that the Sink bill, which covers sanitation, beds, sheets, towels and other facilities. Mr. McFadden is to get no pay from the state, but will be paid a salary by three traveling men's insurance associations. He will recommend the appointment of probably eighteen traveling men as deputy inspectors without pay, to report to the state labor commissioner. Three traveling men's associations recommended Mr. McFadden's appointment. A copy of the law will be sent to each hote man in the state and time will be given to comply with the law. The larger hotels have already complied with its provisions.

> State Buys North Platte Bonds. State Treasurer Brian has received and paid for \$40,000 of bonds issued by the school district of North Platte The bonds bear five per cent interest and will net the state 41/2 per cent. A broker offered the bonds to the treasurer, but the broker had not bought them and the school district officers finally gave them to the state treasurer. The bonds were first issued to bear four per cent but were recalled and issued at five per cent.

Telephone Rates Compromised.

Railway Commissioner Cowgill, who went to Bloomington to hear remonstrants against the proposed increased rates of the Republican Valley Telephone company to be changed at Bloomington and Franklin, returned with a compromise. All parties to the controversy signed a stipulation as to rates. The rates agreed upon are higher than the present rates but are lower than the rates which the railway commission had agreed to approve.

DANGER NOT CLOSE AT HAND

Men Will Run Things a Few Years Yet is the Prophecy of the Observant Drummer.

A group of men were discussing the possibilities and dangers of woman suffrage. All but one expressed the fear that the movement was gaining such momentum that in a comparatively short time this fair land would be transformed and man no longer would be master. The exception, a commercial traveler, with years of experience in studying human nature, scoffed at their alarm.

"Don't worry," he said. "We'll be safe for a good many years yet. In all my trips about the country I find that two-thirds of the women travelers, even those who are self-reliant enough to gallivant about alone, can't go to bed even in a sleeping car without first looking under the berth to see if there is a man there. So long as that primitive feminine instinct survives our institutions are safe."

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

Adjustable.

Aunt Anne, an old family darky, was sitting with knees crossed in the kitchen, when the young daughter of the house entered and, impressed with the hugeness of the old woman's feet, asked what size shoe she wore.

"Well, honey," replied Aunt Anne, "I kin wear eights; I ginerally wear nines; but dese yer I'se got on am twelves, an' de good Lawd knows dey hu'ts me!"--Everybody's Magazine.

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work,

It Was His Way.

A Kansas farmer was telling recent ly about the eavesdropping that goes on along the farmers' telephone line he is on. He said that whenever he talked he could hear the "click, click" of different receivers coming down. "And you can bet," he amended, that they never hear my receiver coming down. No, sir; I always hold on to the thing and let it down so easy that it doesn't click!"-Kansas

City Journal. The extraordinary popularity of fine white goods this summer makes the choice of Starch a matter of great importance. Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. It great strength as a stiffener makes half the usual quantity of Starch necessary, with the result of perfect finish, equal to that when the goods were new.

A Suspicious Silence.

Howard was only 20 months older than the baby. He had somehow come to realize that Elwood, who was creeping, was more likely to be in mischief when quiet. One day he called to his mother with a great deal of anxiety in his little voice: "Mamma, I hear Elwood keeping still."-The Delineator.

With a smooth iron and Defiance Starch, you can launder your shirtwaist just as well at home as the steam laundry can; it will have the proper stiffness and finish, there will be less wear and tear of the goods, and it will be a positive pleasure to use a Starch that does not stick to the

The Paris edition of the New York Herald publishes a signed statement from Dr. Frederick A. Cook, which is day" on his experiences in the arctic regions.

"After a prolonged fight with famine and frost," says Dr. Cook, "we have at last succeeded in reaching the north pole. A new highway, with an interesting strip of animated named a seals were detected. Even the micro-

shifting desert of frost became almost unendurable in the daily rouhorizon.

"Land has been discovered on which rests the earth's northermost tine. The surface of the pack offered rocks. A triangle of 30,000 square miles has been cut out of the terrestimproved, but there still remained the life-sapping wind which drove detection to its lowest recess. The extreme cold compelled physical action. Thus day after day our weary legs spread over big distances. Incidents and positions were recorded but adventure was promptly forgotten in the next day's efforts. The night of April 7th was made notable by the swinging of the sun at midnight over the northern ice. Sunburns and frost bites were now recorded on the same day, but the double day's glitter infused quite an incentive into one's ife of shivers.

"Our observation on April 6 placed the camp in latitude 86.36, longitude

marches, we advanced but little over a hundred miles. Much of our work was lost in circuitous twists around troublesome pressure lines and high irregular fields. A very old ice drift, too, was driving eastward with sufficient force to give some anxiety. though still equal to about fifteen miles daily, the extended marches and the long hours for traveling with which fortune favored us earlier were no longer possible. We were now 200 miles from the pole and sledge loads were reduced. One dog after another went into the stomachs of the hungry survivors, until the teams were considerably diminished in number, but there seemed to remain a sufficient balance for man and brute to push along into the heart of the mystery

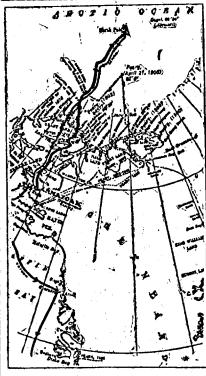

into which we had pushed ourselves.
"On April 21 we had reached 89, degrees, 59 minutes, 46 seconds. The pole was in sight. We covered the remaining fourteen seconds and made a few final observations. "I told Etukishook and Ahwelsh

(the accompanying Eskimos) that we had reached the 'great nall.' Every-where we turned was south. By a single step we could pass from one side of the earth to the other; from mid-day to midnight. At last a flag floated to the breezes at the pole. It was April 21, 1908. The tempera-ture was minus 38 (not 83) centi-grade, barometer 29.83, latitude 90; as for the longitude, it was nothing; it was but a word.
"Although crazy with joy, our spir-

its began to undergo a feeling of weariness. Next day, after taking all our observations, a sentiment of in-tense solitude penetrated us as we looked at the horizon. Was it possible that this desolate region, with out a patch of earth, had aroused the ambition of so many, many men for so many centuries. There was no

behind a stack of pamphlets he was looking over; "but when he ceases to be a young man and is married and settled down the spring still exerts a wonderful influence over him, still there is a reaching out and a groping of the soul, a searching, for a haunting something which in most instances he is unable to find, so that for him the spring is a season of merely un he was present. He kept trying to rest, of dissatisfaction."

"Yes," replied Mrs. Jinx, "you are more or less right; but think of the peace that comes to the troubled soul when one has at last discovered and attained to that soul's desire!"

"What, do you mean to tell me that you too have had those same soul yearnings, those reachings out and those longings for the unattainable?" "Not for the unattainable, By; you

are wrong in saying that it is for the unattainable. It is frequently for something well within one's reach but which we do not recognize as the goal of our desires, and that we pass by in our vain search for it." "But do you, a woman, mean to tell

me that you have had this spring feeling, this longing, this teasing feeling tugging at your heartstrings?"

Several month ago Cornell's bird, dog took a soaring leap from the second story of the Cornell store. He landed on the sidewalk and, though jarred up a little, came out all right. The habit seems to be growing on the dog, for last Sunday, while the family were inspecting the new school building the dog took a header from the upper story, but this time he dislocated a front leg. There was excuse for the first jump, for at the time he was fastened into the building, but this time it was pure foolishness for he had been up and down several times and surely knew the way, but for all that preferred to jump out of the window. A veterinary as called and the discolation fixed up and Mr. Dog will be ready when the bird season opens.

Ane, story, opens with a scene at a box party. Miss Henricita Winstanley, sister of Bishop Winstanley overheard Banker Ankony propose to Barbara Hemingray, whose brother Dan was in his employ. Dan was one of the town's popular young men. He showed some nervousness when Attorney Tom Twining told him Barbara refused Ankony. Ankony the following day, summoning Twining, accused Dan of looting the bank. Twining refused to prosecute.

CHAPTER II.—Continued.

"He stole the money-" he broke in. Yes, I know he did. I'm not exonerating him; I'm not trying to, 'It was a crime, and I recognize it, of course, and your right to prosecute, if you are o determined. But put yourself in his place if you can. He is simply prodigal in his kindness. There are you tease me, Mr. Twining, perhaps l more people in town to day who have been buoyed up and brightened by him than by any other man, old or young. Maybe he did take your money to help do it. But as much as he ever expected to do anything he expected to pay it all back. He stinted himself; it was only with others he was generous. And then his sister—he wanted lity. to make things easy for her if he could. He was ashamed to admit that to-day; the charming Miss Hemingray he couldn't keep it up. Foolish? "You ask too much." "Too much! I only ask what you've done for fellows that were rascals and deep-dyed culprits. Surely you can give him the leniency you gave them. As for the bad influence, there won't be any, as you must admit, since no one knows of it, nor will know of it if you do as I ask. Let the boy go, Ankony." "I can't."

"Rubbish. Will you?" "I will not, Mr. Twining. I must proled with the prosecution. J pulled myself in hand with

strong effort. "If I did what I want to do, I'd throttle you, Ankony," I said, and I went out and shut the door between him and my rage, which was becoming ungovernable.

I spent the rest of the morning in determined effort to find something to change the course of events and save Dan. But all my determination and eagerness went for nothing. Therewas absolutely nothing I could lay hands upon. Ankony was inexorable and vindictive. And no help could come outside of Ankony. There was no further appeal to be made to him.

As I was leaving the office on a further search, which, I admitted even as I undertook it, promised nothing, I ran face to face with Barbara in the hallway. A glance at her showed me that she knew. She had smiled through losses and bereavement and pain, but she was not smiling now. The Hemingrays knew how to meet vicissitude but not dishonor. Shame had burned the brightness from her eyes and seared dry that deeper well of cheer in her brave heart.

She looked at me dimly, as if in that acute moment I did not enter in, and she could not concentrate her half-paralyzed faculties upon me. It was startling to see her so. Her face, without a smile, smote me. An agony of longing to do something, say something, offer something of help, was upon me, but I felt its futility. What could I do, with bound hands?

I bowed to her and moved on to my further office. At the door, however, I turned to look after her, and was astonished to see her pause before Ankony's office. Then I understood: She was going to intercede for Dan. As the comprehension swept over me, I called to her. I would not have her humiliate herself uselessly. But she did not hear me, and passed in, and I told myself that perhaps, after all, she might move him: certainly any man-but Ankony was a monster, not a man. His pride was always keener than his emotion, and his pride was smarting.

I left my door open to be ready if ibrium. there should be anything I could do for her, but when she came down the hall Ankony was with her. He was all deference and attention, radiating thoughtfully, "it seems rather a pity satisfaction and triumph. Yet Bar- we should have known each other so bara was smiling-not the old smile, slightly, Mr. Twining. I believe we to be sure, but as if in tremendous re- have each missed something by it." flet—and the despair had faded from her eyes, while her head was lifted I have often regretted it. Is it, do with the old proud poise, and her step you think, too late to remedy so lawas not leaden as it had been when mentable a matter?" I inquired, trying she passed down the hall,

"Perhaps your brother might like to go to join my brother Jack for a while," Ankony was saying, as they passed my door. "The company rath- brother is very fond of having his er needs him out there, and he might find the change pleasant.'

So she had gained Dan's freedomhis one more chance!

I went out to tramp and settle my nerves. I needed to readjust myself Hemingray's greatest friends—you to the situation. When I came back are, aren't you?" I found my resignation, which I had sent to Ankony several hours earlier, lying on my desk. It had been returned to me with a note from him saying the company refused to consider it, as the reason for my urging it had been removed, and it was therefore hoped that our former relations might continue. I tore the note and the resignation

across.

"So much for the charm and the persuasive powers of a woman," I muttered. "No man is adamant."

Fighting Swine Plague Successfully Additional evidence of government hog cholera serum has just been de-

veloped in a severe test at the Kansas City Stock Yards. A month go á rigid public exhibition of the result secured by inoculating hogs. Government veterinarians supervised the test to be sure all details were properly performed. Twenty-two hogs were treated with the immunizing serum and then all were exposed to cholera. All of the 13 untreated hogs died and although their carcases were sometimes left for two or three days in the pens with 22 head of vaccinated animals, all of these escaped the effects of the disease.

Such exposure would postively have infected ordinary hogs. Swine breeders who have so far been skeptical about the success of this method of preventing loses from the cholera scourge must now be convinced that a new era of security for porcine health is at hand. State provision has been made for the production and administration of the serum in several of the leading hog-producing states. Something must have gone wrong with the almanacs used by some of our newspapers neighbors last week. The Bur well Tribune came out dated in one place as Septemeber 6 and and in arother spot as September 2. The Ord Journal was dat-Entered at the postoffice at Ord as seced September 2, one week late, and with a supplement without any date at all. > Among the good things we had to leave out last week for want of space was the report of the resolutions committee of the county institute. The resolu-tions speak very highly of Coun-ty Superintendent Shuman and her work and also commend all other persons connected with the recent teachers institute and those aiding in the success thereof. As the report is now pretty old and has been printed in full elsewhere we deem it unnecessary to print it again.

The Custer county divisionists have failed every time so far, but this time they are trying to fix the division lines so as to appease Broken Bow as far as possible. Four townships circling about the Bow and all the north-west territory are included in one proposed county. The southwest portion is proposed for an other and the east two fifths of the present county is divided into two parts by a line running east and west about opposite Broken Bow. But the usual bit ter fight is being waged against the proposition.

Cook and Peary both report a very cold time while hunting for the North Pole, but they are having a hot time now.

Now that Harriman is dead how much will the physicians who attended him get for the job? But of course this does not concern the public.

When other means of excitement is wanting Custer county can at any time fall back on the question of county division, when there is plenty doing then.

Dr. Cook may not have discovered the North Pole, but he surely is acting the gentleman in his controversy with Peary. ORD'S BEST STORE Is recognized as THE STYLE STORE of this section of the country because it has become well known that we carry over no old goods from one season to another, consequently at the beginning of each new season we have bright, new, fresh goods made in the very latest and

This Week---Right Now

most approved styles to show you. To illustrate this point take Summer Dress Goods, at the start of the season we had over 150 new pieces and now every yard we have left is on that first table to the right as you go into the store and if you will look you'll see we have very little, so at the start of next season we will have all new styles to show you

A New Departure

We have fitted up a dressmaking room in our Store building and have secured the services of Miss Booth, who has had several years experience and has been for the last two years in Detroit, Michigan. Miss Booth is a No. 1 dressmaker and is highly proficient in making suits and altering jackets and skirts. Our rapidly growing business in selling Womens ready-to-wear garments has made it imperative for us to get some one who could make the little changes that nearly always have to be made soas to make the garment fit each figure perfectly.

Our dressmaking room is located in the southwest corner upstairs and Miss Booth will make waists, skirts, suits or dresses for girls or women providing you buy the materials at this store. Our prices for this work will be most reasonable.

HAPPENINGS OVER THE STATE

What is Going on Here and There That is of interest to the Readers Throughout Nebraska and Vicinity.

Beatrice, Neb.-The first jail break ing occurring in Beatrice for several years took place Thursday evening about eight o'clock when Clarence Cain and Henry Beck, two prisoners succeeded in removing a stone from the rear of the jail and making their escape. They are still at large. Cain was awaiting trial on the charge of attempting to murder Edward Johnson, a relative. Beck, the other man who escaped, was sent from Wymore Monday to serve out a thirty-day sentence, having pleaded guilty to a charge of being drunk and disorderly conduct.

Two other prisoners confined in the jail made no attempt to escape. They were Bertucci, the Italian charged with the murder of a Wymore boy, and a man by the name of Edward Beck, awaiting trial on a charge of wife desertion. Sheriff Trude was absent when the break occurred, having gone to the state fair at Lincoln. His deputy, Henry Burke, is conducting the search for the men.

Conference at Kearney. Kearney, Neb.—The thirty-third annual session of the west Nebraska conference of the United Brethren church convened in this city Wednesday afternoon. About sixty/ministers and delegates are here and forty more are expected. Bishop W. M. Wilkey, D. D., of Kansas City, was unable to attend as he was prostrated with the heat three weeks ago and has been confined to his home since. Pres. W. E. Schell of York was elected chairman pro tem and L. L. Epley was elected secretary. The afternoon was taken up with the usual routine work of the business session. L. O. Miller of Dayton, Ohio, general church treasurer, and J. M. Phillips of the same city, editor of the Religious Telescope, were both present represent-ing the general interests of the

The inner cash drawer, which is a combination lock affair, had been left open. The work is supposed to have been done by professionals at the business or clue has been obtained.

Officers are Elected Hastings, Neb. — At a business meeting of the Seventh Day Adventpute between Brazil and Peru in the ists held Thursday morning the following officers were elected: Elder A. T. Robinson, president of the conference; Elder O. H. Miller of Wayne, vice-president; M. E. Ellis, secretary; Miss Anna M. Peterson, treasurer. This is Elder Robinson's sixth term as president.

Vote Down Proposition. Sutton, Neb.-The city election to vote \$35,000 for extension of the waterworks system and the purchase of electric light plant resulted in a defeat by a much larger majority than that of the first election, was practically the same proposition that was defeated once before. The voters considered the amount asked to be excessive.

Wedded Fifty-four Years,

Nebraska City, Neb. - Wednesday Mr. and Mrs. C. C. Hall celebrated their fifty-fourth wedding anniversary. They were married in this city and have since made it their home. They are the oldest couple in the state that were married here. Both are well preserved, and live with their married daughter, Mrs. J. E. Summers.

Enrollment Shows Increase. Schuyler, Neb.—The city schools have opened with an increased enrollment. The high school depart ment starts with the following faculty: Prof. Charles Arnot, superintendent; R. O. Brownell, principal, with Miss Daisy Simmons and F. C. Gramp as assistants. Miss Simmons will have charge of the Latin and German.

Fremont, Neb. - For the second time in eight days an unknown man has been crushed to death under a Union Pacific train in Dodge county and his body and clothing is so badly mutilated as to make identification day. The contractors expect to have impossible. The second instance of the work finished by the first of Nofrightful accident by which a stranger was ground to pieces came to light Wednesday morning at North Bend, when members of a freight crew found bits of flesh strewn along the track just east of the town. Presently they found an arm. Later other pieces of a mangled body were picked up.

Ruskin, Neb. - The new M. E. church here has been opened for worship. The dedicatory services were impressive. Rev. M. C. Brooks of Osceola, Neb., preached the dedication sermon and Messrs, J. H. Bin ning, John E. Jones, A. A. Lagant, Charles Hastings and Sam Duddley, acting for the trustees and building committee, presented the church to Rev. N. A. NEWS FROM THE CAPITAL CITY ITEMS OF INTEREST AROUND THE STATE HOUSE.

> State Fire Warden's Bulletin, A. V. Johnson, state fire warden, who has already caused one arrest on the charge of incendiarism now appeals to people to cease what he calls gross carelessness. He has is sued bulletin No. 3 as follows:

"Expaiences show that a large per centage of the fire waste of the country is due to the gross carelessness on the part of individuals. If Nebraskans, who desire a reduction in taxation and in general expenses, could realize that the insurance premiums paid by the people of the state amount to a tax and if they would exert their efforts to minimize the fire waste of the state there would noticeable reduction in the insurance rate.

"The representatives of this department would be gratified if they could say something that would remind the people of Nebraska of the importance of this matter. Continuation of the old habits of carelessness means ultimately increase in the cost of insurance, whereas a practical and simple reform means immediately better fire protection to all property and, sooner or later, reduction in insurance premiums "If every property owner, who reads

this bulletin would give to it that serious attention which the subject ought to require, there would be noticeable, at once, in every town, village and precinct of Nebraska improvement in the fire risk situation. That old box full of papers in the cellerway should be removed. Men should remember that waste paper stowed away in corners of basements may prove to be a fire trap. Women should remember that it was never intended that gasoline should be used to clean the woodwork of the kitchen or as a wash for clothing. The many accidents to persons and to property due to the use of gasoline should have served long ago as a warning against a most dangerous practice. Parents should be made to know that matches were not intended as playthings for children. Smokers should learn not to throw stubs of cigars or unburned matches into cuspidors of waste paper baskets or through the gratings of cellarways.

"If the people of Nebraska's cities and villages would pay some attention to the character of the buildings in their community with respect to the fire risk situation and would call the attention of this office to any structure whose condition would seem to invite fire, this office would promptly investigate and, in all probability, could bring about improvement.

"The importance of educational effort along these lines is recognized by the insurance companies of the country. The managers of these companies understand that if they can reduce the fire waste they can afford to insure at lower rates; and lower rates means more business to them as well as more insurance to the pedple. Insurance managers also under stand that a continuation of presentday carelessness means a higher rate of insurance until ultimately the rate will reach a prohibitive point. They have shown a disposition to cooperate with the fire commission in its efforts to awaken the general pubwell as those who own property-will co-operate with this office in what is intended to be a systematic effort along educational lines to avoid fires and reduce the cost of fire insurance.'

Women in Postal Service. The distinction of first appointing a woman postmaster does not belong to America, nor is the employment of women in the postal service a new idea. As early as 1548 a woman postmaster was appointed to look after the mails of Braine le Comte, an important town of France. In the trying times of the Thirty Years' war, the principal office in the postal service of Europe was held by a woman, Alexandrine de Rue. From 1628 to 1646 she was in charge of the mails of the German empire, the Netherlands, Burgundy and Lorraine. She was known as a master general of the mails. In America, Elizabeth Harvey was the first to hold a place in the postal department. She had charge of the letters in Portsmouth, N. H., in the beginning of the seventeenth century. A half century afterward Lydia Hill was placed in charge of the post-

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

Not Ashamed of Economy.

Discussing England and the English from an American point of view, a recent American writer in England observes: "Nobody, from the king of England down, is either ashamed or afraid to be economical. Here a man or a woman is thought to be a fool cr a vulgarian who is not careful of expenditure, while in America our waiters have been clever enough to make it appear that economy is mean. and as a nation we suffer accordingly. We are fools to be fooled in this manner."

The extraordinary popularity of fine white goods this summer makes the choice of Starch a matter of great importance. Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. It great strength as a stiffenperfect finish, equal to that when the goods were new.

The story opens with a scene at a box party, Miss Henrietta Winstanley, sister of Bishop Winstanley overheard Banker Ankony propose to Barbara Hemingray, whose brother Dan was in his employ. Dan was one of the town's popular young men. He showed some nervousness when Attorney Tom Twining told him Barbara refused Ankony. Ankony the following day, summoning Twining, accused Dan of looting the bank. Twining refused to prosecute. Barbara persuaded Ankony to postpone starting prosecution.

CHAPTER III.—Continued.

My mind refused to conceive of the enormity of the sacrifice. I walked on stupidly, having no notion where I was going, but feeling that I must keep going. The avenue was filled with vehicles. It was its most fashionable hour, and several of my friends were passing; but I affected to see none of them. To save me, I could not have met their smiles with summoned ones, and I was not minded to try. But, looking straight ahead as I was, I yet felt them coming-Barbara and Ankony, and they were upon me before I could turn into a side street and avoid them.

Ankony's turnout was the smartest in the street, and it was fitting, perhaps, that the most charming girl in town should sit beside him. She wore a simple blue gown-perhaps it, too, was made-over; I reflected hastily that she would not have to wear that kind after she married Ankony-and to the casual observer she must have looked happy and serene, but to me, in the instant of our meeting, there was something back of her smiles that startled me, something that surely looked forth in terror—the impotent terror that is vague and still and does not realize its own appeal. It was as if, unconsciously, she had put out a sudden hand to me.

I went out to the curb to speak with

"You will want to give us your blessing, Twining, if you have heard the good news," Ankony said, with great geniality.

"Yes, I have just heard," I said. I held out my hand to Barbara, and she gave me hers, a little, cold, unsteady hand. Her eyes tried not to falter beneath mine, and she smiled. I wished to heaven she had not, for I carried that smile with me for weeks. "Miss Hemingray knows that I desire nothing so much as her happiness," said I.

She pressed the tips of my fingers as I withdrew them.

Ankony extended his hand, but was stooping to fleck something from my trousers.

"Well," said he, in a simulation of vast amiability, "my taste can't be denied, you will have to agree with me, no matter what may be said of

"You are right," I said heartily; "you are a fortunate man."

"So I am being told on every hand. But I didn't need that, to know it. I thought you would say so, Twining."

me! It's horrid of you. I don't like it. You make me feel as if I were walking around my own bier." Ankony smiled at her whimsicalness

but I knew her to be on the verge of undoing. "Our friends tell us they are sur-

prised; that nothing like this was to have been expected," he observed, looking at me. I could have throttled him: his blade

was cutting both ways now, and he knew it. Barbara went very white and shut her lips with an odd fierce-

"We are blocking the street," Barbara cried. "Let us go on." "As you please," Ankony answered.

Always as you please-dear." I saw the color splash over her white cheeks at the endearment. This was You've no idea how quickly you run a part of the cost—the outrageous, im- out of replies to the sort of amiable possible cost.

The Forlorn Hope had offered its tribute of American Beauties and Jacqueminots and Marechal Neils to Barbara, but it had always been my privilege to take her the splendid Sollel d'Or. I stood for a minute looking at these upon the table, then I picked up the big crystal bowl and carried it across to the drawing room, where I set it down not too gently.

Presently I heard Barbara's step in the hall. It sounded a little languid, I thought.

"I am here," I said, from the library.

"What are you doing there in the dark?" "I like the dark and the library." "How capricious you are! I never

knew you to wait here before." I made no reply, but I stirred the fire in the hope that she would not ring for lights.

"I am tired," she said, as she sank into a chair I drew for her. "Pleasantly?" I inquired with sym-

I looked at her speculatively. "I wish I dared," I sighed. "How queer! Why don't you dare?"

"There are several reasons."

She faced me accusingly. . "Are you talking in epigram?" she suddenly demanded. "You know how hate it."

"Not at all," I protested; "but, you see, this didn't really belong to me. . I never possessed it. I hoped that some day it would be mine, and now I have lost the hope of it. Do you see what I mean?

PRESIDENT STARTS ON 13,000 MILE TOUR THROUGH WEST AND SOUTH.

LEAVES ON HIS BIRTHDAY

Chicago to Be First Stop on Journey .That Will Take Him as Far as Seattle and to the Mexican Border Where He Will Meet Diaz.

Beverly, Mass., Sept. 15.—President William H. Taft to-day stepped into a motor car, waved a cheerful good-by, and started for Boston, where this evening he boards a private car and begins a tour of the west and south that will be the most remarkable trip ever taken by a president of the United States. The route of about 13,000 miles has been carefully mapped out, and every arrangement is perfected. The fact that to-day is Mr. Taft's fiftysecond birthday anniversary was taken as a happy augury for the success of the long journey.

Besides the president, the party includes Capt, Archibald Butt, military aide; Wendell W. Mischler, assistant secretary; Dr. J. J. Richardson of Washington, D. C.; James Sloan, Jr., and L. C. Wheeler of the secret service, and Maj. Arthur Brooks, the president's confidential messenger. Six newspaper men will accompany the president throughout the entire trip.

Shortly before noon to-morrow, the president will arrive in Chicago and be the guest of the Commercial club at luncheon. Next, the Hamilton club takes him in charge and will escort him, with a bodyguard of 1,400 members, to the West side ball park, to witness a game between Chicago and | visit to President Diaz at Ciudad Ju-New York. After that will come a dinner at the Congress hotel, and then a meeting in Orchestra hall, where Mr. Taft will make a speech. To wind up the day, the president will put in his appearance at a reception and ball given by the Chicago bankers in the Auditorium.

In Wisconsin and Minnesota. Leaving Chicago at 3 a. m. Friday morning, the presidential party will stop at Milwaukee, Madison and Portage, and will spend the night at Winona, Minn., and will reach Minne | will go at once to his brother's ranch, apolis early on the morning of Satur. | where he will spend Tuesday, Wednes-Saturday and Sunday in Minneapolis and St. Paul, leaving Sunday night at | ranch. eight o'clock in order to reach Des Moines on the morning of September

Five hours will be spent in the Iowa capital, where Mr. Taft will review 5,000 troops of the regular army and make a speech, and then the president moves on to Omaha, where he will spend the late afternoon and evening.

Denver will be reached the afternoon of September 21, and the president will go almost direct from his train to the state capitol for a reception to be tendered by state officials, by the chamber of commerce and civic organizations. At 9 p. m. the president will make an address in the Denver Auditorium, where Mr. Bryan last year was nominated for the presi-

dency. The president and his party will breakfast with Thomas F. Walsh, at Wolhurst, near Denver, the morning of Wednesday, September 22, and then return to the city for the chamber of commerce banquet at noon.

Leaving Denver at 5 p. m., September 22, the president and his party will stop for an hour's visit at Colorado Springs, and then go on to Pueblo, where in the evening they will be guests at the state fair.

In Wonder Region of Colorado. The morning of September 23 will find the president at Glenwood Springs for a brief visit and that afternoon he will visit Montrose, where he will formally open the great Gunnison river tunnel built by the government for the irrigation of the Uncom-

pahgre valley. Returning to Grand Junction to resume the journey westward, the president will arrive at Salt Lake City, Utah, Friday afternoon, September 24, to remain there until Sunday afternoon, the twenty-sixth, when the party leaves over the Oregon Short Line for Pocatello, Ida., and Butte, Mont., the latter city being reached Monday, September 27, at 6:40 a.m. John Hays Hammond joins the party at Salt Lake City,

Which Can Be Bought for a Mere Song in the Little Snake River Valley, Routt County, Colo.

A ten per cent profit on a valuation f over \$200 an acre is what is being made now by farmers in the Little Snake River valley in Routt County, Colorado, and lands similar in quality and with gift edged water rights are now offered by the State of Colorado under the Carey Act at \$35,50 per

acre on ten years' time.
This land will grow in abundance oats, potatoes, sugar beets and all other grains, grasses and root crops, and is suitable for all kinds of fruit, except possibly the most delicate of tree fruits.

The land is sold in tracts of 40, 80, 120 and 160 acres to citizens of the United States, or those who have declared their intentions of becoming citizens. There is no drawing in connection with this land; first come, first served being the policy.

If interested, write to the Routt County Colonization Co., 1734 Welton street, Denver, Colorado, for full information as to the land, special excursion rates, etc.

By Automobile Up Mount Rainier. United States Engineer Eugene Ricksecker celebrated Independence day by throwing open the government road in the Mount Rainer National park. Vehicles and horsemen now land, the party leaving there at 6 p. m. If any woman who is suffering with any ailment peculiar to her sex will ask her neighbors this question, she will be surprised at the result. There is hardly a community in this country where women cannot be found who have been restored to health by this famous old remedy, made exclusively from a simple formula of roots and herbs.

During the past 30 years we have published thousands of letters from these grateful women who have been cured by Lydia E. Pinkham's Vegetable Compound, and never in all that time have we published a testimonial without the writer's special permission. Never have we knowingly published a testimonial that was not truthful and genuine. Here is one just received a few days ago. If anyone doubts that this is a true and honest statement of a woman's experience with Lydia E. Pinkham's Vegetable Compound write and ask her.

Houston, Texas.—"When I first began taking Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had been sick for three years with female troubles, chronic dyspepsia, and a liver trouble. I had tried several doctor's medicines, but nothing did me any good.

"For three years I lived on medicines and thought I would never get well, when I read an advertisment of Lydia E. Pinkham's Vegetable Compound, and was advised to try it. "My husband got me one bottle of the Compound, and it did me so much good I continued its use. I am now a well woman

and enjoy the best of health. "I advise all women suffering from such troubles to give Lydia E. Pinkham's Vegetable Compound a trial. They won't regret it, for it will surely cure you." - Mrs. Bessie L. Hicks,

Came to Grief

Two of Burwell's representative citizens came to grief last week by trying to appease the liquor appetites of Ord's thirsty ones, or by indulging too freely in the kind of bitters that one of our business men seem to be selling. The bootlegger was one G. A. Darrow, who was taken in the Blue Barn with two jugs of booze. This charge was not laid against him in the complaint, however, but he was charged with retailing out a case of beer some weeks before the present visit. He waived an examination and was bound over to the district court, when his case will come up in proper order. This Darrow is the same fellow who brought a wom. Arlington, Neb.-The apple crop in this vicinity is the largest this season that it has been for years, but the market is far from satisfactory, prices being comparatively low with no local demand, owing to the fact, perhaps that there is no one at this point making a business of buying

and shipping. There are a few orchards near here whose owners ship their own apples, but they are not buying the crops of other orchards. The best market found so far by these shippers has been northwestern Kansas, with a lighter demand from western Nebraska than has been the case for a \$2.25 per standard three-bushel barrel for cookers. Eating apples have been in good demand at \$1 per bushel box. Sweet apples \$2 per barrel. These are fall apples and not what are classed as good keepers.

There are a large number of farmers in this locality owning etensive orchards and they are the ones who make the most complaint, many of them being unable to make any disposition of their apples, with the re-Postmaster General Hitchcock is suit that there are thousands of bush-preparing to institute an inquiry to els going to waste or being fed to cattle and hogs. Elevator at Wymore Burns. Wymore, Neb.-Fire destroyed the elevator of the Central Granaries company here at 8 o'clock Wednesday evening. The loss is estimated at about \$6,000. About 3,000 bushels of grain were burned and the building was a total loss. Sparks from a passing switch engine are supposed to have caused the fire. When the flames were discovered they had gained good headway. The water pressure was low and the fire department was handicapped on this account. Several residences in the vicinity were endangered by the flames. Two or three dwellings caught fire several times, but were saved from serious loss. The elevator was owned by a Lincoln concern.

MME. MELBA'S FIRST ENCORE

Her Concert Was a Big Suscess, But ITEMS OF INTEREST AROUND THE Little Playmate Saw Her Garter.

When six years of age Helen Mitchell (Melba) appeared at a school concert, organized by her aunts in Richmond, Melbourne, the suburb of her birth. At this entertainment she sang "Shells of the Ocean" with such effect that the audience asked for an encore, and the child on her reappearance, created a still greater impression by her singing of "Comin" Through the Rye," for which her grandmother had taught her the Scottish accent.

At the earliest opportunity she hurried to her favorite playmate, who lived in the same street, and breathlessly waited for reference to the entertainment of the evening before, but the little comrade was adamant and ignored the whole subject. After many attempts to introduce it, Nellie at length found herself unable to wait longer, and exclaimed excitedly: "But the concert, the concert! I sang last night and was encored." And she looked with eagerness in the face of her friend, who answered witheringly: "Yes, and, Helen Mitchell, I saw your garter." Little Miss Mitchell had been particularly pleased with her neat attire, and the unexpected shaft coming in place of the looked-for compliment, in an instant blotted out the memory of the infoxicating encore, and drew the little singer from the seventh heaven of her brief delight to lin bo.-Detroit News-Tribune.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

To Check Disease Among Indians. It has been reported that the disease known as trachoma, or granular eyelids, has been spreading rapidly among the Indians. "But it's rather the natural thing for people to say of such an engagement," she protested a moment later. "You know it is."

"Nonsense! It isn't. And what do you care what they say? Was there ever a betrothal that was not the signal-gun for a perfect volley of silly chatter?"

VINEGAR NOW RARE

Housekeeper Complains That Its Quality Has Deteriorated in Last Ten Years.

"Nothing in the food line has changed so much in the past ten years days ago. "Why, when I first started housekeeping vinegar was a mild, pleasant tasting acid, a great improvement to sauces and gravies and an essential to a good salad dressing. Now it is entirely different. I wouldn't dare to add the vinegar they are selling today to anything where it is not absolutely' necessary. It is harsh, sharp and almost flavorless. I use lemon juice almost always as a substitute. I thought perhaps I had not been getting the best quality of vinegar from the small dealers in my neighborhood, so'I tried it from the biggest and fanclest dealers in New York, but we couldn't notice any improvement. It must be that we not longer get clder vinegar, but instead some chemical purpose of the old-fashioned sort, but which certainly does not give the same satisfaction. Will it be a question of the housekeeper's getting her wine or cider and keeping it until it turns to vinegar, as our grandmothers

Conservative housewives laughed a the so-called fireless cooker a few years ago. But it is like every other invention. It must pass through three stages: First, when everybody says it is impossible; second, when it is thought contrary to religion and third when everybody says it was known before.

All these the fireless cooker has passed and its use promises to be as universal as the "Dutch oven" of Colonial days.

The cooker is just as adaptable to cook a Christmas plum pudding as to strength, time, fuel, heat, utensils, fear her dinner will be spoiled by a cept of 160 acres of free grant land; Railway. Writing on August 18th of few minutes delay.

A cooker may be made of any tight box, old trunk or corner closet, providing a secure packing of hay is secured and the whole affair made to fasten tightly. In this the food may be cooked in as many utensils as it will hold, but each must have a tight lid.

Only two rules are necessary to insure success in the use of the cooker: The food must be transferred from the stove to the cooker after it has been brought to and while it is at the boiling point, and the article to be cooked must be covered with water when it is placed in the cooker's receptacles. One failure should not be allowed to discourage the housewife, however. Try cooking beans or stewing a chicken. It will be the most thoroughly cooked pot of beans ever cooked and the most delicious chicken. Either dish may be put in the cooker in the early morning while the housewife may then do other work or go to the city and return to find dinner ready-no burning nor boiling

Enterprising manufacturers are making these cookers which are a great economy. Some have baking attachments which really bake.

Limited Responsibility. "Little Septimus had been very good and had recited 'The Boy Stood on the Burning Deck' with admilable feeling for the benefit of his Uncle Robert," said George W. Tasker of Philadepihia

"'He's a wonderful boy,' exclaimed that gentleman enthusiastically, 'and

he deserves to be rewarded.' "So saying, he plunged his hand into his bulging pocket and with much difficulty-for he was rather portlyextracted a penny, which he offered with great importance to his good little nephew 'Remember, my boy,' he said, that if you take care of the pennies the shillings will take care of

themselves. "Poor little Septimus looked rather dubious. 'I'do take care of the pennies, Uncle Robert,' he answered sadly, but as soon as they get to be shillings my pa takes care of them for me."-London Tit-Bits.

it Was All the Same. In a Sunday school a little girl was questioned as to her repeated non-attendance.

"Why have you been absent so many times lately?" asked the teacher. "Please, teacher," answered the girl, "mother thought I'd better not come to Sunday school, as my hat was dirty.' "But, my dear," objected the teach-

In Class by Herself. The American woman is in a cate-

gory of her own. She is sui generis. Our national institutions, the air of liberty which we breathe, the character of our people have made her so. But that as a class she is depraved, or blase, or hoydenish, or even spoiled, is not for a moment to be admitted. Max O'Reil once said that the eyes of a French country maiden are wide open like a daisy because her heart is pure. Will any one deny that the same reason applies to the frank and honest gaze of the American girl?

FACTS

Great Majestic Range

It is the only range in the world made of Malleable and

It has beyond any question of doubt, the largest and best reservoir.

It uses about half the fuel used on other ranges, and does better work by far.

The Majestic All Copper Nickled Reservoir heats the water quicker and hotter than any other. It is the only reservoir with a removable frame.

The Charcoal Iron Body of the Great Majestic Range lasts three times as long as a steel body.

Being made of non-breakable material there is practically no expense for repairing the Majestic.

As for baking, it is perfection; not only for a few months but for all time to come.

A Great Majestic Range lasts three times as long as a cheap range, but it don't cost three times as much.

statements, but if you will call at our store, a man from the factory where the Majestic Ranges are made will prove to your satisfaction that these are absolute facts, and will show you many more reasons why the Great Majestic Range is absolutely the best that money can

Rejection by the House of Lords of Commons Budget Sure to Precipitate Crisis-Both Parties Are Confident,

London.—The agents of both politi-cal parties are convinced that a general election will take place either in December or January, the date depending on whether the house of lords shall reject the budget outright or take a more temporizing course. The house of commons will conclude it to the house of lords about October 21. Meanwhile the political campaign country, is approaching the dimensions of a general election campaign. The conservatives are well organized and claim to be fully prepared with 400 new candidates. Both sides appear equally confident, but it is admitted that the leaders of the conservatives are far from agreed as to the best course to pursue.

Should the house of lords reject the budget it would be extremely probable that the liberals might win on the double issue of reform in the house of lords and the budget. For this reason the shrewd moderate men on the conservative side are anxious to make the election struggle as Mr. Balfour, recently laid it down on the platform of tariff reform versus socialism, keeping the question of the house of lords in the background. It is believed that Mr. Balfour and Lord Lansdowne favor the acceptance of the budget by the house of lords, with the understanding that the government will immediately dissolve parliament and appeal to the country.

Bar Harbor, Me .- "I have read the ecords submitted by Commander been at the pole?' and found in them They are very interesting."

General Thomas Hubbard, president of the Peary Arctic club, made this statement Friday, after a careful examination of the Peary records on the controversy, which were submitted to him by Commander Peary at Bangor, Thursday. While General Hubbard would give no information reports of business for the preceding as to the nature of the proofs which Commander Peary is confident will On August 30 a circular letter was show that Dr. Cook was not at the pole, it was apparent that he was well satisfied with the records before them that if the reports were not

Work on Johnson Estate. St. Paul, Minn.-Fred W. Johnson, the late Governor Johnson's brother; Fred B. Lynch and T. D. O'Brien, close friends of Governor Johnson, began the work of getting the estate into shape. Governor Johnson left no will, but it is understood that his wish, expressed before he died, was that his entire property be turned over to his wife. It is estimated that the value of the estate will not exceed \$18,000.

No Recount of the Vote. San Francisco, Cal.—Superior Judge Muraskey sustained the demurrer of Francis J. Heney to the petition of Charles Ficket for a re-count of ballots cast in the recent primary election for the democratic ticket. According to the count made by the election democratic nomination for district attorney by a few votes. Ficket, who is the republican nominee, claimed that a recount would show that he and not Heney had been given the democratic

endorsement.

Did Not Say Quite Enough. New York.—The enthusiasm that greeted Dr. Frederick A. Cook at the Arctic club's dinner Thursday night in the Waldorf-Astoria is admitted even by his opponents in the north pole controversy to have been a great personal tribute. Some disappointment is shown, however, because the explorer's after-dinner speech added no new evidence to the dispute. Little evi-

TEMS OF INTEREST AROUND THE STATE HOUSE.

The test case whileh is to decide the status of the new state phard of education as well as that of the old state normal board was argued before the supreme court Wednesday afternoon. Attorney General Thompson and E. C. Calkins appearing for the state, and Judge Oldham and C. S. Allen appearing for the new board The case was submitted to the court after the hearing. This suit involves the validity of the new law which did not legislate the old board out of office but which sought to take away its powers and duties. Incidentally, hanging on the decision of this case is the location of a new state normal school in the Sixth district, for which the legislature appropriated \$35,000. One point involved in this suit is the eligibility of T. J. Mr. Kelby says this is an interstate matter in which the state commission cannot assume jurisdiction.

Deputy Food Commissioner C. M. Mayne has been investigating the milk and ice cream conditions in the city, and while he is not ready to make any definite statement concerning what he found, he says, that the dealers are offering a much better product than is generally supposed. Some ice cream was found which tested below the minimum required by the pure food law and also some milk that did not contain 3 per cent of lutter fat. Where it did not seem to be a case of flagrant abuse the commissioner has decided not to prosecute. There will probably be some prosecutions as the result of the investigations of the inspectors.

Arthur Mullen has received notice from the district court of Antelope county that the damage suit of O. A. Williams against Ernest S. Scoffeld, editor of the Neligh Register, wherein \$3,000 for injury to his character, has been decided in favor of the plaintiff, who was awarded 1 cent damage by the jury. Williams was a candidate for county attorney last fall, and an article which appeared in the Register was taken by him as a factor that led to his defeat.

The commission Wednesday and nounced that it would no longer require express companies in the state to make monthly reports. When station reports are in for August no further demands for monthly statements will be made on these companies, the order directing that all information heretofore contained in these be embodied in the annual report to be made at the end of the year. 'The commission has made compilations from reports heretofore filed and has a sufficient amount of such detail information for the present.

Fall Winds Cause Chapped Hands

There is one sure way to have beautiful, soft skin free from chaps and cracks, and that is by protecting it from the fall winds with Almansa Cream. It is a delightful tollet preparation which if used regularly will save you much discomfort. It quickly and effually cures chapped hands, rough face, cracked lips and protects the skin.

Almansa is not a glycerine preparation. It is quickly absorbed by the skin, leaves no shine or sticky after feeling. Gloves may be worn immediately after using. It will not irritate the most delicate skin and is very fine for intents.

Almansa Cream is regarded by many of our lady customers as indispensible to the tollet. If you have never tried it you don't know how much comfort you have missed.

Kolbaba gave his splended program at the Bohemian Hall last Saturday night and those who attended were given a great treat. His work as well as that of his planist was superb, but there was no such a crowd present as ought to be. It has been the purpose of the management to put on only a high-class talent, but Manager Misko is pretty nearly convinced that it would pay better to get cheap stuff, if the profits are the only thing to be considered.

Nels Hansen had a fine sale Tuesday, selling all his personal effects outside of the house and a few othre things that he will need hereafter. His health is such that it is impossible for him to look after the work and he will either sell or rent his farm. On the day of the sale he was too sick to leave his bed and naturally the uncertainty of the sale was something of a nervous shock to him, but when he heard the result it was a relief to him. He had good stuff and his friends were there in large numbers to compete for the purchase of it.

Tuesday morning Miss Ora Mutter departed for South Dakota to commence actual residence upon her claim. She was accompanied by Miss Nellie Bradt who will be her companion for the 14 months that they are doomed to stay there. Miss Mutter has a nice little house built on the place and the young ladies go prepared to make their stay as comfortable as possible. Misss Mutter has her camera of course, and it is needless to say that she will make good use of it. We are predicting no little enjoyment for them and

A Sudden Death

Mr. M. J. McIlwee is dead. Last
Saturday afternoon at 4 o'clock he
was a man strong in the bloom of
health. An instant later his lifeless
body lay scorched and bleeding where rack near the barn for the cattle. Working alone he had climbed from the wagon into the rack to arrange the hay, when the flash came that proved fatal. Soon after the report his wife, who was alarmed for his safety, stepped outside and called him, but receiving no reply advanced to the feed rack where she found his lifeless body piched head downward against the inner side of the rack. Unable to remove the body alone the telephoned for assissance to the Jas. Judge farm. A few minutes later Jas. Judge arrived and toto the Jas. Judge farm. A few min-utes later Jas. Judge arrived and to-gether with some difficulty they suc-ceeded in getting the body over the high sides of the feed rack and re-moving it to the house. The body was scorched down one side where the electric current had passed and one shoe was entirely torn off with-out, bowever, any injury to the foot.—Greeley Leader.

He Needs Peregoric

We wonder when Ord will learn that it is only a part of Valley county and a small part at that. Those who attended the fair noticed Those who attended the fair noticed Ord was billed to play ball every game—not that the players are any good, but because it gave them an opportunity to get in the graft which characterizes all Ord ever tries to do. And, too, on the morning of the first day of the fair we were informed that no place could be found for the basket ball game for which we were asking yet a game was pulled off just the same and of course with Ord players. All these things are only a few items that show the selfishness of the whole bunch.—North Loup Loyalist.

That we are to have a real foot ball team this year is a sure thing. A team has been organized at the high school and just as soon as the players hair grows long enough and they have acquired enough scars and oruises during practice so they can be classed in the professional line, and their new suits and shinn protectors arrive, they intend to swoop down on their prey at the neighboring towns and at the end of the season have scalps enough to carpet their gridiron.
