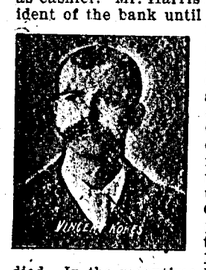
ESTABLISHED APRIL 1882 TWO DOLLARS PER YEAR THE ORD QUIZ, ORD, NEBRASKA, THURSDAY, MAY 1, 1919. VOLUME 38, NUMBER 5.

AN IMPORTANT BUSINESS CHANGE

Back in 1880 Ord was a very small town and Valley county was but sparsely settled. At that time the corn fields of the county were small, there were no green alfalfa fields, in fact there was not a citizen in the county who even knew of alfalfa. No one at that time ever dreamed that this was destined to become the popcorn center of the world. Had you told the citizens of Ord and Valley county at that time that a hundred thousand dollars and more could be raised in a few days to buy the oldest bank in the county you would have been called crazy. The fact is that all the money in the county at that time would have been far less than a hundred thousand dollars. And it was in 1880 that the Valley County bank was organized with a man by the name of Bacon as president, and with Fred L. Harris as cashier, and the capital stock was ten thousand dollars. We don't know what the deposits were in those days. Twenty years after that, when Mr. Kokes became identified with the bank the deposits were only thirty-three thousand dollars. Think of it and today they are around three quarters of a million.

In 1886 the Valley County bank became the Ord National bank with Fred L. Harris as president and his brother Edward K. Harris as cashier and the management remained thus until 1891 when the bank was changed to the Ord State Bank with Mr. Harris still president and with John F. Baron as cashier. Mr. Harris remained president of the bank until 1902 when the bank was sold to D. H. Miller and C. B. Anderson ofCrete and others including H. D. Coe who became the president and active head of the bank. Mr. Coe remained president of the bank until 1908 when he died. In the meantime Vincent Kokes had completed a fourth term as county clerk of Valley county and in 1900 he was called to the bank as its cashier and it was but a few years when the failing health of Mr. Coe threw much of the burden of the management onto him. And it fell, not only upon willing shoulders but there was plenty of ability back of it to make the institution a success for from the time Mr. Kokes became identified with the bank it went forward with leaps and bounds, growing in the confidence of the people as the country developed.



While there have been but four presidents of the bank prior to the election last Thursday of E. F. Bair by the directors of the new management, there were several times as many cashiers. Mr. Barron was followed by James A. Patton, (we all called him Jim), then F. B. Bartlett was cashier and he was followed by E. N. Mitchell who retired to go into bigger business, making way for A. E. Charlton who came from Seattle to take the place. It was Mr. Charleton that was succeeded by Mr. Kokes and when he was elevated to the position of president in 1908 Ches Chinn became cashier. Failing health caused Mr. Chinn, a few months ago, to wish to lead a less strenuous life than his duties at the bank permitted, and he sold his interests to Mr. Studley who came to Ord highly recommended as a banker and a business man. The sale of the business to the new organization has come so soon that Mr. Studley has hardly had time to get acquainted with the business or the people.

In the twenty-two years that Fred L. Harris was identified with the business he saw great improvements in the town and country and was instrumental in helping with that development. The time had not come yet for real advancement however, and those who followed him had the real opportunity to help put this country on the map. It has been during the management of Mr. Kokes that the real advancement has been made and while we believe under the new management the business will continue to grow and expand, the writer predicts that never will greater progress be shown by the Ord State bank, opportunities considered, that Mr. Kokes made.

The new management took charge of the business, Marion Cushing as Bair as president, Marion Cushing as vice president and James C. Wisda as cashier and manager of the business. This is a big institution and Mr. Wisda is a young man, at least young in years though he has had lots of experience. He was an employe of the Ord State bank for several years and he cannot help but step into the institution this morning as its manager with a feeling of pride. And well may he feel that way for he has a great opportunity. It is no small thing to be placed at the head of such a business.

The directors of the bank are Maron Cushing, W. E. Hather, E. S. Coats, Charles Burdick, Ed Bair Frank Krahulek and George Lang. Mr. Lang was chosen in place of John G. Bremer after the latter had been elected and declined to serve, giving as a reason that he was a director in another Ord bank. It was for this same reason that John C. Meese declined to be on the management. It was at the meeting last Thursday that the above directors were elected for a year.

Mr. Kokes will remain with the new management for a few months and assist them in getting the business into running condition under the new management. There are many matters that he has started and his services are almost indispensable in closing them up. Just how long he will be with the bank Mr. Kokes does not know, and he has no plans beyond that time. He has been closely identified with business ever since he came to Ord some forty years ago however, he has acquired sufficient of this world's goods so he can afford to take it easy if he so desires, and no doubt he will spend some time in resting and getting better acquainted with his friends before again entering business.

The employes in the clerical positions in the bank will remain if they wish, and no doubt they will do so for a time at least. Emanuel Gruber is efficient and understands the workings of the institution. Miss Anna Flaska and Miss Anna Kosmata have been with the bank for some time and have become very useful in the machinery of the bank. Doubtless other help will have to be added.

When the name of Farmers Bank was decided upon it was thought a new business would be established. Now that an established institution has been bought probably the name will remain Ord State bank. Another deciding factor in taking over the Ord State bank was the getting in the deal of the corner lot north of the Dworak building where doubtless a banking house will soon be erected and later probably a building to house all the uptown activities of the farmers will be built as they now own the lot down to the Hawkins building.

BOARD PASSES RESOLUTION TO VOTE ON COURT HOUSE BONDS

The county board has transacted more business at their meeting this week than at any similar meeting in a long time and one of the big things done was to pass a resolution unanimously to submit the proposition of voting a hundred thousand dollars of bonds for a new court house to the voters of the county.

The resolution was introduced by Lindhartsen and the motion to submit was seconded by Rathbun. A yea and nay vote was called and every commissioner voted yea and the date of the election was set for June 24. If the bonds carry at that time then it will be up to the board to select a building committee, get plans and estimates and let contracts in time so that work may start as early as possible next spring.

Another thing that the board did yesterday before adjourning was to pass a resolution to submit the proposition of selling the 480 acre farm owned by the county and now occupied by Mr. Pocock, to a vote of the people of the county at the same time as the court house proposition is submitted. The farm has been paying the county only about two per cent and the board believes that the money tied up in it will be better used if it is put toward the building of the court house and that is the proposition we will vote on along with the bond matter. In proposing to sell this county farm the board felt that the 120-acre farm also owned by the county and occupied by William Schauer, would answer every purpose of a county farm and would be enough land to retain.

Whether the bonds for a new court house will carry or not is the question to be decided at the bond election in June but nearly everyone will admit that we need a new court house. It is proposed to make the bonds for a thousand dollars each and the Quiz can see no reason why there are not a hundred Valley county men who will take a bond each and keep the interest all at home. We are buying all kinds of stocks and bonds and undoubtedly soue of them will pay a less rate of interest than the five per cent these county bonds will bear. There could be no better advertisement for the county than for a hundred men to walk up to Treasurer Paist's office, provided the bonds carry, and buy them. It would give the county nation wide publicity.

Next week's Quiz will publish the complete text of the resolutions in the commissioner proceedings.

BENDA JORGENSEN WEDDING

Last Sunday at the home of the brides parents Mr. and Mrs. Frank Benda of this city, occurred the marriage of Miss Elizebeth Alice Benda to Alfred Jorgenseen of North Loup. Rev. E. E. Hosman officiating. Mr. and Mrs. Jorgensen left on the afternoon train for Kearney where they were to visit the brides brother and upon their return they will be at home at North Loup.

Both young people are well known, the bride having lived in Ord for a number of years. Both have the highest regard and best wishes of a host of friends for their future well-fare.

This week Ol' Winder took some stock belonging to Ray Burdick up to the big Burdick ranch on the Cedar.

SMITH-HALLOCK WEDDING

One of the prettiest weddings held in Ord for a long time occurred last evening when Miss Dora Smith and Elmer Hallock were married. The bride is the daughter of Mr. and Mrs. D. B. Smith and the groom is the son of Mr. and Mrs. Frank Hallock, and just returned from service.

The wedding took place at eight o'clock, with the Smith home filled with relatives and close friends of the contracting parties. The double ring service was used by Dr. Hosman who performed the ceremony. The bride and groom were accompanied by Miss Minnie Smith, sister of the bride, and Guy Le Master. Miss Roxie Auble played the wedding march and the home was appropriately decorated for the occasion. Light refreshments were served, the ice cream being served in heart shapes. Mrs. Greenfield had charge of the refreshments.

The bride and groom left this morning for Lincoln and upon their return will be at home on the Hallock farm at Rosevale. They begin life together under the most favorable circumstances and with the best wishes of many friends for their happiness and success.

HAUGHT-VAN WIE WEDDING

Last Thursday evening at the Methodist parsonage Rev. Hosman performed the ceremony that made Norris Van Wie and Miss Amy Haught husband and wife, the happy couple accompanied by A. T. Christensen of North Loup, and Miss Dorothy Heuck of this city. The bride and groom went at once to the home which the groom had prepared near Ericson. Both are well known and popular young people here and have the best wishes o many friends for happiness and prosperity.

ANOTHER BUSINESS FOR ORD

The Sinclair Refining Companyy will build an oil station in Ord as soon as possible and the business will be handled by W. E. Mattox who arrived last Thursday morning. Mrs. Mattox got here in the evening and they have rented the Mrs. Lickley home ready furnished and are already in possession. A year or so ago Mr. Mattox was employed by the Standard Oil Co. and they lived here for several months so they are not entire strangers to many of our people. They liked Ord so well at that time that they welcomed an opportunity to come back to make this their permanent home. The Sinclair Refining Company is one of the largest in the business. The new oil station will be located on the Burlington just north of the Sershen Bros. oil house.

GATES SELLS TO BAIRD

A deal was closed the first of the week by which J. P. Baird and son Jess became the owners o the J. W. Gates ranch in south Vinton township. The place consists o a section of land and in the deal was included all the stock and implements. There were a hundred and ten head of high grade Hereford cattle, forty hogs, the work horses and farm machinery. They took immediate possession of the place and it is probable that Jess will move out there and have charge of operations.

MILFORD STACY DEAD

Hundreds of friends of Milford Stacy are shocked this week at the news of his sudden death from pneumonia following flu. He passed away at six o'clock yesterday, Wednesday, morning at his home in Omaha after a short illness. He was not feeling well last week and remained at home Wednesday. He felt better Thursday morning and returned to his work. He went to work again Friday but was taken home during the day seriously ill and soon developed pneumonia and by Sunday his people were alarmed at his condition. He continued to grow worse despite the best of care and medical attention, until Tuesday night when hope was given up for his recovery.

It is given to but few men to make and hold friends as could Milford Stacy and when he left the Ord postoffice where he had been deputy for a long time, there were many expressions of regret at his going. He went to Omaha a few months ago to accept a responsible position with the Skinner Packing Company and has received steady advancement.

The little daughter of the Stacy family was very ill with the flu and was unable to be brought to Ord at once so the body of Mr. Stacy will not arrive here before tomorrow, Friday, evening and possibly not until Saturday evening, depending upon the recovery of little Antonette sufficiently so she may be brought along. At this time no arrangements have been made for the funeral but when they are announcement will be made on the bulletin board at the post office.

ANNA ULRICH DEAD

Last Thursday shortly after noon Fred Ulrich came to town and went at once to the home of his grandmother, Mrs. Anna Ulrich, just north of the U. P. round house. He found the doors locked on the inside and going around the house he saw his grandmother in bed but was unable to arouse her. He called to John Kline, caretaker of the U. P engine, who lives near, and together they were able to unlock the door and get in and they found the old lady dead.

She had been ailing for some time and her son James had tried to get her to go out home with him but she declined to leave her own home. Mr. Kline had been carrying cobs and coal for her and doing such chores as he could each day, and every day some of her people came in to look after her. When John went past the house in the morning he remembered that he had not seen er out and started to enquire but thought she was sitting in her rocker, so he went about his work. It developed that she had thrown a spread over the chair and it was that that he saw. It was about two o'clock when she was found and she must have died during the night, apparently without suffering, as the bed clothingg was over her and not disturbed.

It was a year and eight months ago that Fred Ulrich, the same grandson, found her husband Joseph Ulrich, dead under similar circumstances. The old gentleman was out on the farm with Fred and usually got up in the morning while Fred was doing up the morning chores. That morning when he came in for breakfast the old gentleman was still in bed and Fred found he had died during the night.

The Ulrichs came to the United States from Bohemia some forty years ago, and have lived in Valley county about eighteen years. They lived on their farm on the Sand Flats for about nine years. They have lived in Ord for several years. The body of Mrs. Ulrich was laid beside her husband in the Ord cemetery Saturday.

There are three children, James of this county, and Mrs. Anna Ambrosek of Skeo, Oregon, and Mrs. Mary Hallman of Columbia, Montana. Both of the daughters wired that they were unable to come.

A BEAUTIFUL GIFT

Worshipers at the Methodist church were delighted on entering the place Easter morning to see a great vase of calla lillies at the altar. To those who knew that these flowers are very scarce in Nebraska this year and commanded very high prices, the presence of such a display of the delicate beauties was specially surprising. The explanation was soon made, for the pastor told of the flowers being sent to the church by Dr. and Mrs. F. D. Haldeman from California, where they are now living. The floral offering was accompanied by a note expressing the love and best wishes of the donors. Surely the gift was highly appreciated by the audience, who have high esteeem for Dr. and Mrs. Haldeman and their son Keene.

Christmas and Easter days are especially sacred to the Haldemans, for on the latter their only daughter, Irma was born, and on the former she died.

WEEKES CONTRACT LET

Dr. Weekes came up to Ord yesterday and closed a contract with Contractor W. P. Plummer to do the work on the hospital building on the hill and work will start on the job Monday morning and be pushed to completion as rapidly as possible. The Dr. has disposed of his fine home at Scotia to Banker Grahosky of that place and will move to Ord as soon as possible.

LAND FOR SALE

I have 160 acres of Valley county land that can be bought for $2500. Can practically be all cut for hay. It is rolling but not rough. Very easy payments will handle this. If sold for this price it must be sold soon.

WILLIAM H. H. RAMSEY

William H. H. Ramsey was born on a farm in Bergen county, New Jersey, on February 13, 1840, and died at Ord on April 29, 1919, aged seventy-nine years, two months and fifteen days. His parents were John P. and Eliza G. Ramsey, of Dutch descent, and they died more than thirty years ago, at their home in New Jersey. One brother and one sister still survive him in that state. Mr. Ramsey was brought up on a farm, but at the age of seventeen years was "bound out" for an apprenticeship of three years to learn the mason trade, which he followed for a number of years. On April 26, 1864, he enlisted as a member of Company A, 5th New Jersey Infantry, and served to the close of the Civil war, participating in the battle of Cold Harbor, where he was wounded and incapacitated for active service, and was then transferred to hospital servicce at Fort Schuyler, New York. He was married to Sarah L. Williams, of Rockland county, New York on August 2, 1861, and they were the parents of eight children, seven of whom survive. These are Mrs. Mary F. Capron, William L. Ramsey, Mrs. Margaret Wentworth and Mrs. Angie Orcutt, of Ord; Truxton Ramsey and John M. Ramsey, of Lava Hot Springs, Idaho, and Mrs. Edna Jackson of Baker City, Oregon. Mr. Ramsey and his family moved from New Jersey to LaGrange, in southern Michigan where he engaged in mercantile business for some six years, and in the fall of 1878 they drove in wagons from Michigan to Valley county and joined what was known then as the "Michigan Settlement," about twelve miles west of Ord where he took up government land, and lived there for about sixteen years. They moved to a farm in Noble township for several years and then retired from active work. Since then the family home has been in Ord, but for quite a number of years the summers have been spent in southeastern Idaho, where he had considerable property interests. Mr. Ramsey has been an invalid for ten years or more and for the past eighteen months he has been confined to his home, and for some four or five weeks to his bed, where he has been a constant sufferer. His patient wife has made a martyr of herself in attending to his wants and administering as far as was possible to his comfort.

The funeral will be held tomorrow, Friday, afternoon from the Presbyterian church.

THE CAMPAIGN

We have now made an arrangement whereby to send the names of the people who buy Victory Notes to the Boys "Over there." We want your name if by a chance the solicitor has missed you, either call the solicitor or go to your bank and pay your quota. There are a number of Valley county boys still over there. Won't you help bbring these boys back? We need the boys here in Valley county very much.

Remember the Government is not asking you to leave a good position to go to France. Uncle Sam wants you to buy a Victory Note. The government is not asking you for life or any part of your body. What would you say to Uncle Sam if this was a question of your life or your money. He does not even ask you to give him the money. He asks you to loan him the money for four or five years at a good rate of interest, 4 3-4 per cent, and you are in fact getting seven per cent because the Valley county man or woman do not pay any estate or inheritance tax, but if this loan does not go over it is possible that the amount of tax on income will be lowered to $500.00 and I am sure we do not want this to happen. Better buy Victory Notes and get interest on your money. Some have bought three and four times their quota because it is a good investment. Here is what the T. B. Hord Grain Company thinks about this matter.

"We are very anxious indeed, that this loan shall be a success and hope you will do all you can by your influence to that end, for if the loan is a big success, as we hope it will be, it will help general business and promote confidence in every line of business.

"The winter wheat crop is very promising every where and certainly the soil conditions are most excellent for the new crop so that the outlook is bright for another year and if people have confidence in the future, which the success of this loan will stimulate, then we may hope that business will go forward with renewed impetus since the Nebraska people have every reason to feel hopeful of the future and should be ready to do their part in every good undertaking like the Victory Loan. Will be glad to be advised how your local campaign results."

We have received a liberal subscription from them.

MEYER-LUTZE WEDDING

Judge Gudmunsen granted a license Tuesday to William Lutze of Colorado and Erhardin Meyer of North Loup and we understand they were married by Rev. Meyer at that place this week. Their home will be at Holly, Colorado.

DAVE STARTED SOMETHING

Dave Strong started something Tuesday when he happened to be in town and mentioned to the county board members that in his opinion more people would be served by the federal road through this county if it was to be changed and cross the river at the Sumter bridge, coming up through Springdale instead of on the south side of the river as laid out.

A majority of the board members seemed to take the same view of the matter and a resolution was passed as follows: "On motion the county clerk and the committee on roads be instructed to take up with the state engineer regarding change to be made in the road now platted, this road to leave the platted road at the southwest corner o section 35, twp. 19, range 13 and run north 1 1-2 miles thence west on the road now traveled to Ord."

The idea of Mr. Strong was that after leaving Olean most of the valley is on the north side of the river and many more Valley county people would be benefited by it over there than would by having it follow the foot of the bluffs on the south side. Well, Dave started something for when the fellows got wind of the move that was on foot Wednesday they hurriedly organized and went before the board asking for time to present a case against making such a change. Mr. Strong happened to be in town and he was called in to explain the matter as he saw it, and C. A. Davis represented the ferninsters. It was not his idea to have anything "put over" on anyone, as some seem to think, in fact the motion contemplated getting the desired information and having it come up for settlement later. Strong says when the matter first came up he had not taken the bridge question into consideration and he says the government contemplates having a road and bridges suitable for heavy loads and locating the road through Springdale would necessitate a new steel bridge. He says work is to start on the road in Valley County this spring if help can be secured. There is a hundred thousand dollars to be expended in this county.

BOYS SHOULD ORGANIZE

There is nothing like organization and the soldier boys of Valley county should get busy at once and organize a chapter of the American Legion. There is to be a state convention in Lincoln soon and this county should be represented. The American Legion was started in the American Expeditionary Forces and is being organized in this country with Lieutenant-Colonel Theorode Roosevelt as temporary chairman. All who were in the service of the United States during the world war, regardless of where they served, are eligible. A national conference has been called for early in May at St. Louis, Mo. An organization such as the American Legion, similar to the Grand Army of the Republic and the Spanish War Veterans, can be of great service to the community, state and nation in encouraging and developing intensive patriotism. At the same time, the interests of those who have been in the service of the United States can best be safe-guarded by such an organization.

The soldiers of this county will want to participate in any benefits to be received and should get in on the ground floor.

A NEW ADVERTISING STUNT

Turn, this week, to page three, section one, of the Quiz and read carefully the large advertisement of Sack Lumber & Coal Co. These people are trying to serve their customers and in their effort to do so are springing a new stunt this week and they propose to continue this kind of work if it is of interest to the people. The Quiz always desires to cooperate with its advertisers, so we are calling special attention to this advertising. If you are interested, go and see them. They have many other plans, some larger, some smaller, to show you. Frankly, we want you to do this so they will be encouraged to do more advertising.

BANKER WISDA BUYS HOME

Jimmie Wisda says he is mighty glad to have a home of his own again. He traded a quarter section of Kimball land towards the Marion Crosby fine city home. He has been living in the Adam Smith property on Sylvester street, but the place was not large enough, especially when you have a fine new son, and therefore have to keep help. On the place he has purchased he has a good garage while before he had to keep his car down town

NAMED MINIMUM PRICE

In the resolution passed by the county board to submit the proposition of selling the 480-acre county farm, a minimum price at which the land will be sold was fixed at $70 per acre. Most folks seem to think the land will bring more but it cannot be sold for less. If the people, at the special election, June 24, vote to sell it then the county board will proceed to do so selling to the highest bidder.

BANKS CHANGE TIME

Starting today the banks of Ord open an hour later in the morning and close an hour later at night, the change being made for the benefit of the farmer customers. This is a return to the old time.

LOCAL HAPPENINGS

Attorney E. P. Clement made a business trip to Bartlett Monday.

Among the out-going passengers Saturday was Guy Lemaster, who was bound for Greeley.

Fire, lightning, tornado and hail insurance, have W. H. Carson write it for you. 2-tf

Mrs. Ralph Throckmorton and children were Saturday morning passengers for Horace.

Last Thursday afternoon Mrs. S. B. Rawles went down to Grand Island to visit her daughter Mrs. Geo. Norman, returning to Ord Friday.

Mrs. C. C. Shepard was at the depot Saturday to meet Joseph P. Gray of Imaha who came up to Ord to address a audience in the interest of the Victory Liberty Loan.

C. K. Davis returned Monday to his home at Ogallala. He had been up to see his wife Gladys Gibson Davis who has been staying with her mother and working in Bailey & Detweiler's while her husband was in service.

The McMindes sale last Saturday was a hummer from the time Col. Burdick stated the terms until the last halter was sold. Albert expected to give up the barn the first of May and the sale was a cleanup.

Mrs. Prendergast returned Monday to her home at York. She is the mother of Nurse Prendergast who practiced her profession in Ord and makes her home at McBeths'.

Among the outgoing Monday morning passengers was J. Zickmund, who had been home on a furlough and was returning to his military duties in camp at Philadelphia, Penn.

Last Friday Mrs. Lena Grimes and son came up from Grand Island and were guests at the Raymond Gass home. Mrs. Grimes is a sister-in-law of Bun Grimes who formerly made his home in Ord.

Monday morning Helen Fujan who has been teaching at Manderson, went down to her home at Liberty. The Manderson school finished its term last Friday.

Miss Vera McLellan was over from Arcadia last Friday night visiting at the home of her uncle, Bert Hardenbrook. She was consulting Superintendent Moorman Saturday, returning home that day. She is a teacher in the schools over there.

The managers of the Hord Elevator Co, sent the Ord division of the Victory Liberty Loan a check for five hundred dollars. They are represented in several cities besides Ord and remembered each town in a like manner.

The Charley Turner family moved this week into the Andrew Nelson home temporarily until they can get possession of their own place. They wanted to leave the farm to give the new tenant, Mr. Patchen, a chance to get settled.

Joe Shumaker made a trip to Grand Island and back last Monday. Jin Aagaard was a passenger for St. Paul, Ernest Vanscoy returned to North Platte, Dora and Minnie Smith went to Grand Island, returning home in the evening. John Cleary returned to North Loup and Mrs. Walter Richard was a passenger for Grand Island.

Relatives have been hoping that Capt Clements would soon be able to come home. He has been in the hospital for a time and his health was not of the best and it was on that account that his people thought he might be returned to the states. However, last reports seemed to indicate that he was not likely to be sent home soon.

Theodore Baker left Friday for Oklahoma in response to a telegram from his sister stating that her husband had just died. He expected when he left, to bring her back to Ord and have her make her home here with him. He got home from several weeks spent with his daughters in the west part of the state, just in time to start on this trip.

The memorial proposed by Mr. Lowe of the sign and painting firm of Parks & Lowe, would be a fitting tribute to the three hundred and fifty or more Valley county boys who served their country in one capacity or another during the past two or three years. The idea is to build it of stucco and have the names of the boys lettered onto a smooth surface. The plan has been adopted quite extensively in Iowa and some other states. Perhaps the idea might be used in conection with the new court house should that be started soon. It seems to the Quiz as if something of this kind would be very appropriate.

Ed Palmateir went down to Omaha the first of the week. He expects to leave in a few days for his ranch at Barber Highland Valley, Idaho. He is situated about seventeen miles from Boise City. When he rented the place he entered service so he can not have it this year, but he expects to go out in a few days and plant some fruit trees and make some other improvements. He says his buildings are situated on an elevation and he can see for miles around. He has but lately returned from Comstock where he has been visiting a sister and her family.

The Miller hospital is to be put on the Munn lot south of the First National bank where it will be used until the new hospital is ready for occupancy.

A telegram received by the H. E. Crow family Monday stated that their son Leslie had arrived in New York from over seas and they are expecting him home one of these days soon.

The Sunday State Journal told of the death at Auburn of Samuel Daniels, 78 years of age. Mr. Daniels was a brother-in-law of J. H. Carson of this city and was known by a number of Ord folks.

On the outgoing passenger last Monday was Mrs. Dan Wolf who was returning to her home at New Market, Iowa. She had been visiting her son Scott Wolf who lives six miles south of Ord.

Mr. and Mrs. Al Domon have been visiting in the county the past few days being called here by the death of a relative who was buried at North Loup. Their home is at Morrill, Nebraska.

For some time Jake Peterson has been seeking better health at Eldorado Springs. In Saturday his wife went down to spend several days with him. Jake has been under the weather for some time.

W. L. Smith, who has for six months been living in the country with his son Pat and family, left Monday for Yellow Stone Park. This was his home for several months before coming up to Ord this time. He says his health is much better out there than in Nebraska. He expected to stop in Grand Island for a few days.

Mr. and Mrs. E. A. Wight and their daughters Nora and Mildred, and Mrs. Blanch Browning drove over from Wolbach last Sunday and were guests of their daughter and sister Mrs. Ed Bradt. Mr. Wight was a representative from Greeley county and he had not been over this way for a number of months.

Among the incoming passengers on Thursday evening was Lillian Bailey who had been in Scotia during the afternoon, visiting her friend Pearl Hughes. Lillian tells us her brother-in-law, Chas. Stillwell, is expected soon rom war service in the old country. Her sister Mrs. Stilwell is staying out at the Bailey home until the return o her husband.

Attorney E. P. Clements went to Omaha yesterday because of the serious illness of his son-in-law, Milford Stacy. He drove over from Bartlett where he was attending court, Tuesday evening and says he never drove over worse roads.

Jim Adamek came up yesterday from Lincoln for a visit with home folks for a few days. His sister, Mrs. Perry Jones and two children are here from Montana and he came at this time to see her. Jim is engaged in the tractor business at present.

Emanuel Gruber and Earl Barnes drove over to Kearney last Saturday to bring up a couple of new cars. At Wood River they had trouble and left the car they were driving there, making the balance of the trip on the train.

George Emig arrived Tuesday from his eastern and southern trip and went on toward home at Taylor in the evening. He spent the winter in New Orleans and came home looking ten or fifteen years younger than when he left last fall. He says he enjoyed his travels greatly.

Mr. and Mrs. J. G. Larimer are the parents of a fine 9 1-2 pound baby boy born the latter part of last week. J. G., who is right hand man at the Ford garage, told a man the other day that the Ford car he was trying to sell him weighed 9 1-2 pounds but probably he is entitled to be a little bit rattled.

A. S. Craig writes the Quiz that he is in a hospital at Kansas City because of a hurt which he received a month or so ago. He is in the employ of the Frisco railroad. He worked in Mira Valley for a long time but went south this spring to look after his mother, she having been left alone by the death of a brother. His friends here hope that is injury will not prove serious and that he will soon be about again.

Frank Dlugosh came up from Lincoln the latter part of last week expecting to drive his auto down the first of this week. He says they like the grocery business pretty well but he did admit that the smoke and noise and confusion was too much for him and he said he thought they would be back on a Valley county farm again next spring. So far as the business was concerned he said it had been very satisfactory.

RAY BURDICK

Mike Saba tells us his wife did not return home with him last week. She is taking medical treatment at Excelsior Springs, Mo.

C. O. Philbrick and C. E. Norris returned home last Thursday from Lincoln where they had accompanied Flossie Philbrick to the sanitarium for treatment for rheumatism. They tell us she stood the trip quite well, although she was very tired.

Among the out going passengers last Saturday morning was Rev. and Mrs. Bukoutz. They were going down to Grand Island to attend the Baptist State convention.

On the motor last Saturday Mrs. Bendurhl came up from Elba. She is the mother of Lieut. A. J. Bendurhl who lives at Omaha, but who has spent a number of days up this way since his discharge from service. Mrs. Bendurhl was under the impression that she could go right up to Elyria on the motor last Sunday, so she did not notify the Zulkoski family that she was coming. After reaching here and finding that Mary was at Elyria and that there were no trains until Monday she went to the home of Mrs. Cora Johnson where she stayed until the Zulkoskis came to Ord after her. She returned Tuesday to Elba.

POLARINE

Remember When You Bought Your Car?

Remember how the salesman stressed the necessity of proper lubrication?

Remember his telling you how much proper lubrication meant in added power, added life, added smoothness?

What's the answer?

Simply this—Polarine Oil and proper lubrication are synonymous. Ask any motorist who uses Polarine Oil—he's seen the proof.

Next time you're ready to fill the crankcase, look for the Polarine sign. (And don't forget the password for greater mileage per gallon—its **Red Crown** gasoline).

The best 320 acres in Valley county for $100 per acre

I have finally listed for sale for a short time what is considered to be one of the best 320 acres in the county. I have had this farm in view for several years but haven't been able to get a price on it but now will offer it for sale at $100.00 per acre and it is equal to land that we are selling at $150.00 per acre. This farm is well located to town and rents for two-fifths of all grain delivered to town and a good cash rent for the pasture and hay land. Buildings are fine, soil is the very best and all level but about twenty acres, 200 acres under cultivation balance pasture and hay land. This won't be on the market at the price it is offered for ten days, it will sure sell. If you want a choice place come in and arrange to look it over.

If you want to sell your farm I want to list it, come in and give us a description and your price and we will get busy and try to find you a buyer. Four farms sold last week through this agency that have been listed for less than 30 days.

Farm and city, hail and automobile insurance will receive careful attention, both in writing and adjusting. Only legal reserve companies represented.

THE EDITOR

(By Robert L. Finch)

When I first saw him he was slapping the ears of a derelict typewriter. He looked up quickly as I entered the office—grinned a friendly grin, and I made a mental note right then—"Here's some man." My dome had been all filled up with ideas on the League of Nations—National League, Nonpartisan League and a lot of other leagues and I had to have scratch paper upon which to duly record them. He sold me the scratch paper; whole bundle for 20 cents, wanted to give me a lead pencil to boot and I said again to myself, "Here's some party."

But I didn't really discover him until I reached the seclusion of my room at the hotel. As I left his office he slipped me the "Quiz." The front page was more or less colorless depending upon whether or not your name happened to be printed there. Mine was, so I instantly said "Good paper."

But oh! the internal workins' of that paper! Here was the income tax report printed in black and white and cold blood. I'll bet that list spread out before the bulging eyes of this county causes more heart acceleration than any Nick Carter ever published. I can see many a quiet fireside suddenly get all lit up when the old gent reads his neighbor's statement of income. Oh boy! I can hear the old man gurgle with glee or grow pale with rage as he sees his shame spread out before the eyes of the whole county, and I can hear 'em all cuss the editor.

And then I came to "My Own Column!" Here ideas blossom as the rose. Here sits in apparently harmless obscurity a bit of printing that lifts the veil—makes the welkin ring—bursts false bubbles of popularity—gives merited encouragement—unmasks hideous, communal, economic, industrial, individual and national sins; bestows the editorial pat on the back—here in short sits a personality, and I said "I wonder where he keeps the gun."

But such plain, courageous talk, after all, is its best defense. A paper, like a man, can be spineless—trim its sails to catch every wind that blows and get absolutely nowhere. But if impartially, with a perfect craving for justice and fair dealing, that paper stands right up on its hind legs and says something, its friends are legion and its enemies take to the sand hills and—God smiles.

This fellow Leggett acts like that kind of an editor. Hop to it, my friend, and may no buckshot ever intrude its cold and unwelcome presence beneath the editorial hide.

ANOTHER NEW ADVERTISER

A good many Quiz readers this week wil be interested in a new advertiser that came to us this week, Velvet tobacco on page four. Velvet tobacco is not new but it's advertising is new to Quiz readers. So far as typographical effect is concerned this large advertisement is one of the prettiest in the paper this week.

The Milling Situation

¶ We are glad to announce that the milling situation is almost back to normal. During the war times all mills, or all of the smaller mills, labored under great difficulties and it is safe to say that none of the small mills made any money. The large mills had the edge over us all the time.

¶ However, we kept our service up to the usual high quality all the time and now that conditions are rapidly getting back to normal we can again furnish all our well known brands of flour.

If you've not been using BIG 4 and NO. ONE Ord Flour, try a sack.

We are sure you will be pleased

CHUMMING WITH TOO MANY WOMEN

H. O. Fracisco of Grand Island, was arrested at an early hour this morning on a charge of adultery and lodged in jail. This forenoon he gave bond for his appearance on May 8 for examination. He formerly lived at North Loup and he has a wife in the insane asylum. Mrs. Carrie Smith is named as the woman in the case and the complaint was filed by her brother who gave bond for the costs.

WILL FILE SOLDIER PAPERS FREE

The county board at their meeting this week, voted to have all discharged papers of soldiers and sailors filed in the county records free of charge.

ANOTHER BAKED STUFF SALE

Saturday afternoon there will be a baked goods sale at the Misko market, the proceeds for the benefit of the ladies' band which is being organized as rapidly as possible.

NAMED AS HAIL INSPECTOR

The county board recommended the appointment of W. H. Carson as hail insurance inspector or adjuster for Valley county for this season and no doubt the appointment will be made.

HOSPITAL BRICK ON HAND

Transfer men were busy the first of the week unloading the first car of brick for the new Miller-Barta hospital, and work will be pushed on the building as rapidly as possible.

GOOD PASTURE FOR CATTLE

I have fine pasture for thirty head of cattle during the summer on the W. J. Seeley farm seven miles southeast of Ord. New pasture, plenty of water. Will be on place and personally attend to them. See me or write. Amos Gipe, North Loup, R. F. D. 2. 5-tf

ANOTHER REAL SNAP

320 acres, 60 acres in wheat, one third of wheat goes to the buyer, all level and every foot can be broken, 5 1-2 miles from town, for $47.50 per acre with easy terms. There is no better buy in Kimball county. This is a real snap and will go soon.
5-1t F. J. VOPAT.

BACK IN THE JOB

Tony Kosmata was back on the job at his shoe emporium last Saturday after a severe siege of appendicitis. He was at the Miller hospital for several days, then went home to get his strength before submitting to an operation. Monday he told the Quiz man he never felt better or hungrier in his life and that he was getting along fine.

HOLECEK-DRAHOSH NUPTIALS

At the home of the bride two miles west of Ord yesterday occurred the marriage of Miss Mary A. Holecek to Joseph Drahosh. The groom lives at Willow, Minnesota, and it is there they will make their home. Squire Mitchell officiated, speaking the words that made these young people husband and wife. After the ceremony and the friends, a fine dinner was served. The congratulations of the relatives and bridew as beeutifully gowned in white and carried a large boquet of roses. The groom wore the conventional black. The many friends of the family join the Quiz in wishing them happiness and prosperity.

BOYS HAVE RIGHT IDEA

Clare Clement called Monday to place an advertisement of some pure bred Hereford bulls which his firm has for sale at this time and while talking about cattle Clare said he had often made the statement that they would sell any farmer who had scrub stock, a pure bred bull and guarantee him ten dollars a head more for his calves than he could get for his scrubs. Ray Burdick happened to be present and he said his sale experience convinced him that they would be safe in making it twenty dollars. Read their ad on another page.

THIS TAKES THE GRAPES

640 acres of Kimball county land finely improved, well located, which is a real bargain. 500 acres under the plow now in crop, 55 acres of alfalfa all fenced, balance in pasture which can be all broken and the entire section perfectly level. This is one of the best farms of its kind in Kimball county and is a bargain. We are offering this section for $55 per acre. Terms very easy. It will pay any young man who is interested in making money to look at this section. It has been pronounced by seveyral Valley county men who have seen it as a bargain.
5-1t F. J. VOPAT.

PRICES HAVE GONE UP

While in Ord Monday Charley Bulger o Arcadia went into the office of Treasurer Paist to pay the license fee on a couple of autos which he owns. A couple of weeks ago the two licenses would have cost him six bones but Monday it cost him just $25.50 to get them and it was all due to the fact that the new law has gone into effect. While in town Mr. Bulger and Banker Studley closed up a deal for the purchase of a half section of land which they were buying.

LOOMIS LAND SOLD

Jos. P. Barta purchased 200 acres of land at Vinton, owned by E. C. Loomis for $125 per acre, the deal being made through the Hager office. The same day Mr. Hager sold the Ryan quarter west of the brick school house to Everett Petty and closed the deal by which Mr. Greenfield bought the Corlett eighty north of town. Three such deals in one day is going some even for a hustler like Hager. He says he practically made another deal that day but as the papers are not all back yet he is not talking about it.

ANOTHER LAND RECORD MADE

Monday evening F. J. Vopat closed one of the big real estate deals of recent weeks when he sold the George Hubbard quarter, two and a half miles northeast of Ord to James Skolil of Comstock, for $32,000. Mr. Skolil sold his farm recently and gets possession of his new place next March. Mr. Hubbard bought this quarter sixty days ago for $24,000, and a prominent Ord banker says that Skolil will make a profit of $25 per acre on his buy inside of six months if he wants to let it go.

FARM BRINGS RECORD PRICE

Last Friday C. A. Hager closed a deal between C. Cortlett and Rube Greenfield by which the latter becomes the owner of the Cortlett eighty just east of the Will Hather farm a mile northeast of Ord, the price paid being $250 per acre. This is the record price so far for land in this vicinity. Mr. Greenfield bought the place for a home but probably $300 an acre would tempt him to part with it and it would not be surprising if it would change hands again as it is considered a bargain at the price paid. He gets possession next March and the Cortletts expect to go to Idaho to make their home.

WILL BE CANDIDATE AGAIN

D. E. Strong tells the Quiz this week that he will again be a candidate this fall, this time for the position of delegate to the constitutional convention. Numerous friends from over the county have urged him to announce himself.

A letter received yesterday by the Quiz from William Marks at Omaha, said he would arrive here Sunday to help us out for a time and it was sure mighty good news. Mr. Marks worked in the Quiz office several months during the winter and it was with regret that we saw him leave. We have been covered up with work for several weeks now and unable to get help and wrote him an offer not expecting he would or could come.

MURSCHELS LEAVING FOR WEST

In a letter from Mrs. Otto Murschel to the Quiz reporter, she says they are about packed and ready to start for California where they will make their home. Their nephew, Earl Dorfner, arrived in New York on Easter Sunday and was on his way to Camp Dodge when he wrote and they were awaiting his arrival in Lincoln before leaving as he was to accompany them to the new home. She thought Earl might run up to Ord for a day before they left, but thought she or Otto would not be able to visit here again before leaving. Earl had intended remaining in France for a three months study course at a big university but when his company was ready to start for home it was not hard for him to give up that idea and accompany them.

WE TAKE YOUR LIBERTY BONDS

This is ideal alfalfa ground and is worth $70 an acre for that purpose and will pay a fair rate of interest on that investment. It will be sold for much less money than that and for much less than it is really worth. It will also make ideal feed yards. Another thing, the day is not far distant, in fact is probably close, when the stock yards feed yards will have to be moved further from the residence district. Where are the feeders going to find yards. There are many times each year that the feed yards maintained at the stock yards could be busted as a nuisance if the sufferers in that part of town would start the ball rolling. Some day they will do so and then the yards will have to be cleaned up and used for shipping yards only, as they were intended. Then suitable grounds just outside of town will be hard to find. Better think that over, you feeders.

LOCAL HAPPENINGS

Meet me at Milford's.

John Allen of the Scotia bank was in Ord between trains Monday.

Clinton Shaw reeturned to Ord the first of the week in company with the Oscar Smith family.

Ruth Holsen, who for over a year has been working in a bank at Genoa, was spending some time last week in Burwell.

Mrs. J. B. Nay left this morning for Venango, in western Nebraska, and will stay at the home of her daughter, Mrs. Lena Watkins while the latter goes to Omaha where she expects to submit to an operation for apendicitis and other troubles.

Yesterday on the motor Richard Brockus left for his home at Casper, Wyoming. He had been here on a visit with his parents, Mr. and Mrs. John Brockus of Burwell. They drove down from their place yesterday in time for Richard to catch the noon train.

Last Tuesday Dorothy Sorensen ft for Fort Sheridan, Ill., to see her other Laurit Sorensen. The latter the young man we have mentioned umber of times who was wounded over seas service, was taken a soner and for a long time lay sick Lindberg prison, Germany.

E. A. Knapp was up from NorthLoup returning yesterday.

On Tuesday Mrs. John Collison returned to Ord from a trip to Grand Island.

Tuesday Mrs. Brown received word that Harry was on his way home so she went down to Grand Island yesterday to meet him. He has been at Rochester, Minn., taking treatments.

Among the outgoing passengers on Tuesday was Alta Hall who was going to make an extended visit with an uncle at Hamill, So. Dak. Since a baby Miss Alta has lived with her grandmother, Mrs. Wm. Fringle in Ord.

Mr. and Mrs. O. S. Smith drove up from Grand Island Monday evening. They had been planning on leaving the next day for Montana but they had to put it off for a few days on account of the rain. They were accompanied by Charley Hodge, son of Mrs. Smith who has just returned from France.

Chester Nay is becoming so attached to North Loup that he is thinking of staying there all the time. He went down with a crowd of youngsters one evening recently to attend a school doings. The others say the last they saw of him he was accompanying a colored girl home but he stayed so long that the balance of the party came to Orl and Chet had to come on the motor the next day.

F. J. Stara got busy yesterday afternoon and bought a half section of Kimball land, making the deal through the F. J. Vopat agency. Frank was out there a couple of weeks ago and pretty near got licked two or three times when he couldn't believe that the spuds and corn that were shown him were raised on the land there so he thought he better buy the land without going out again.

The county board is in session this week but we are unable to print the proceedings until next week. Much of interest is being done and the report that we will print next week will be of more than ordinary interest. Yesterday the proper committee went to look over the county farm. This place should be sold and the proceeds used toward the building of a new court house, and we hope the board will put that proposition up to the people. We also hope to see them submit a bond proposition for a new court house. Strangers coming to Valley county can't take the best kind of an impression of our progressiveness away with them after looking over the present court house.

TRIES TO COMMIT SUICIDE

Joe Pazderka, who but recently returned to this community after an abscence of about twelve years tried to committ suicide last Saturday morning. He was first notced walking up the street with a revolver held at his temple. The Marshal and Dave John started toward him to try and secure the revolver but he threatened to shoot if they came any further toward him. Alfred Shafer, seeing the situation, worked his way around to the back and took the gun away from him. He was placed in the jail until the sheriff could be notified and later taken to Broken Bow by the Marshall. Sheriff Talbot took him to Hastings Saturday evening and he was found to be mentally unbalanced.

The Smith-Nelson tract of over 1800 acres in Greeley county and advertise for two or three weeks in the Quiz, was sold at auction last weekThursday bringing $30. per acre. It was bought by the Judge brothers who had recently bought other land in the vecinity and who will stock the place.

Yesterday Ethel Tully came down from Burwell and was in Ord until the afternoon train.

Among the incoming passengers on Monday was E. N. Mitchell of Lincoln who came up to Ord in connection with the affairs of the Ord State Bank.

Monday morning Mr. Spencer drove over from Homestead with his daughter, Mrs. Orphia Wetzel and Mrs. J. W. Ellison. The latter was returning to her home at Council Bluffs and her sister was accompanying her for a few days visit. It will be remembered Mrs. Wetzel lost her husband last winter after an attack of flu. The young people had only been married eleven days.

Meet me at Milford's.

Dr. O'Neill was up from North Loup between trains last Saturday.

Frank Judd was a passenger this morning for Hastings where he went on business for the Shotwell people.

Mr. and Mrs. John Fogt and Harry Brown returned yesterday from Rochester, Minn., where they have been for treatment.

Mrs. Douglas of Cushing, mother of Mrs. Frank Wigent, came up last evening because of the serious illness of the little child of Mr. and Mrs. Wigent.

Anton Capek came up from Lincoln last evening to look after business matters and visit relatives for a few days. He says Paul Seeley is very much alive and busy as ever.

Mrs. Edna Jackson and John and Truck Ramsey are on their way back to Ord. The former from her home in Oregon. Her brother from Idaho. They are coming to attend the funeral of their father.

Meet me at Milford's.

Yesterday Joe Mason received a box of the finest kind of choice oranges which were sent him by his parents from California.

Mamie Smith came up from Fullerton yesterday to be in attendance at the marriage of her sister Dora to Elmer Hallock, which took place last evening.

On the Union Pacific yesterday Mrs. Henry Van Slyke left for Rochester, Minn., where she is to join her husband who went there for treatment a couple of weeks ago.

Tuesday George Nightengale returned to Clay county where he is building a house for an uncle. He finished the barn on the same place last fall. He came up at this time on account of sickness in his son Roy's family. The latter's wife was very sick at Burwell, she having had the flu, and last Thursday gave birth to a baby girl. They are now considered out of danger, so the father returned to his work.

It will be a Real Pleasure

IN a few years, to have a nice picture of your soldier boy in his uniform just as he came home. You can't realize now how sorry you will be if you neglect the matter. Something might happen so you couldn't get it later and anyhow you would want it just as he looked when he came marching home. I have taken many of these pictures lately and I want to take yours.

Monday morning Mable Misko returned to her school duties at Hastings and in the afternoon Erma Prince returned to the same place. They had to report for class Tuesday morning.

Monday evening Mrs. L. D. Pierce accompanied her mother-in-law up from Horace where she has been visiting for some time. She has rooms at the Mrs. Seiver home where she will remain for the present. Her health has not been good for some time.

Fern Harris accompanied Fred Harris to Nebraska last week from their home in the coast states. He was visiting relatives at Sargent last week. Sunday Fred and Mr. and Mrs. Roy Drake drove over to Sargent. The Drakes stayed, but Fred and Fern returned to Ord Tuesday, the former went down to Greeley for a short visit with old friends.

Last Monday Fred Kuehl received a letter that his wife would have the stitches removed this week from the operation and she thought she would be able a few days after that to start for home. This letter was the first that Fred knew his wife had submitted to an operation. He expected her to take treatments for her old trouble which has something to do with her teeth and upper jaw. She was at the same hospital at Kirksville, Mo., where she formerly was operated upon. It is to be hoped that this will be the last one. She arrived home Tuesday. evening.

VALLEY COUNTY SCHOOL NOTES

The first seet of eighth grade examination ggrades have gone out on Wedneesday of this week. There were one hundred and thirty-five pupils who took the examination in April. Several of thege were from the seventh grade but even so, these bid fair to be a goodly number of graduates in spite of the "flu" and closed schools. The next examination will come on May 8-9 and will be held at the same places: Arcadia, North Loup, Ord, Elyria, districts Nos. 35, 36, and 10. The program will be as follows:

Thursday A. M.—Grammar, History, Civics.

Friday A. M.—Arithmetic, Rading.

Thursday, P. M.—Spelling, Writing, Drawing, Physiology.

Friday P. M.—Mental Arithmetic, Georgraphy, Agriculture.

If any one who is interestede in the good of Valley county schools and feels that he has any influence with the weather man, I wish he would intercede for better weather for the May examinations as several pupils failed to get a chance in April because of the condition of the roads, which made it impossible for them to reach any of the places where exams were offered.

Among the incoming motor passengers last Sunday morning was Mrs. Westburg of North Loup.

On Friday Rev. Bukoutz got home from a Victory Liberty Loan campaign held at St. Edwards, Albion, Cedar Rapids and other points.

On Saturday W. A. Wright joined his wife in Omaha. The latter had been there for several days visiting their daughter, Mrs. Paul Lambrecht and family.

On the incoming Saturday morning passenger was Nels Hansen, who came to Ord from his home at Fort Collins, Colo. Nels tells us his wife is well and they are still much pleased with that state.

Alta Alderman and Mary Zulkoski returned Monday to their duties at the People's Store. The former had been spending Sunday with her people at Burwell, and the latter had gone up to Elyria with her folks Saturday evening.

Last Saturday afternoon Mrs. R. C. Greenfield gave a miscellaneous shower at her home in honor of Dora Smith, who was soon to become Mrs. Elmer Hallock. A collection of beautiful and many useful gifts were received. The ladies report a delightful time.

While in Kimball county last week C. M. Williams disposed of a section of land which he owned out there, at a nice advance over the purchase price. The sale of this section however, didn't close out his land interests in that section.

Last week Earl Warwick arrived in Ord from Omaha and several other points where he had been since he received his discharge. He was visiting his father, Joe Warwick, and his brother Bill, who has been here for several days. Sunday the boys left for Grand Island where they were to spend a day or so. They did not know whether they would return to Ord or not before leaving for Denver where Bill has been making his home since receiving his discharge from service.

Last Friday Mr. and Mrs. H. H. Seante and Mrs. Martha from near Burwell, were in Ord between trains.

Last Sunday Judge Gudmundsen returned home from a few days stay at Lincoln. He went down on Friday.

After a few days stay with his nephew P. J. Melia and family, M. H. Melia and son Charles left Saturday for their home at Hastings.

Do you let the Quiz send for your daily paper for you?? If not why not? It costs you no more and we get a small commission and when, as often happens, we have three or four to send in a day, it makes quite an item.

Sunday morning Joe Sedlacek drove his auto to Grand Island. He was accompanied by Merrill Hughes and Chas. Novotny. The latter had purchased a new Studebaker roadster and he and Merrill drove it up the same evening.

Burwell is to have some wells made, there being a demand for more water than is now supplied. It is said that it will be late in June before the machine for doing the work can be secured and it is feared there will be a water shortage before that time.

Last Friday M. Whitcomb departed for his home at Sheridan, Wyoming, after a three weeks visit in this vicinity with his brother and old friends. He lived in the state for several years at one time and inquired about the Mutters and others. He also lived near Broken Bow for a time.

Charley Bulger was over from Arcadia Monday attending to business matters. Mr. Bulger is in the real estate business as a side line to his barber business. He is recognized as one of the successful land men of the county.

Murry Cornell tells us that it is now four years since his father has been confined to the bed after a severe stroke of paralysis. The old gentleman is acquainted around here. Murry has not been over to see his father for several months and is planning on going over to Homstead and spending a few days at the old home soon.

E. A. Simpkins moved the first of this week from Greeley county to his new farm south of Ord. He recently bought the place from Henry Marks, who in turn bought it but a few weeks before, from Ben Waterman. We understand that Simpkins has already had a nibble on the place at an advance over the price he paid Marks and Marks got a good profit.

Mrs. S. A. Stacy and daughter Mrs. Clayton Burke and little daughter, returned to Lincoln Monday morning after receiving word o the serious illness of Milford Stacy and his little daughter at Omaha. The sick folks had the flu last week and Milford developed pneumonia in a serious form Sunday, and they wanted to be closer in case they were needed so they returned to Lincoln. They had intended spending several weeks here and will doubtless return when the Stacy folks are better.

For the past two years W. L. McNutt has judged the Poland China hogs at the great state fair at Des Moines, Iowa, and last year they told him they wanted him again this year. The other day he closed a contract to judge the Polands at the big show at Sedalia, Mo., and will show the "show me" folks how it is done. He is also corresponding with the Ohio state fair folks who want his services there so his time this fall promises to be pretty well taken up with judging.

The Quiz job department is making new directories for the Farmers exchange of Ord and for the Crownover Telephone Company of Sargent and with lots of smaller job work and the usual newspaper work and about half help enough it is needless to say that we are going some. If the paper is not quite up to usual don't kick unless you can tell us where some help can be secured. We hired a man up at Minot, N. D. last week on his own guarantee that he was just the man we needed, agreed to give him what seemed like an exorbitant salary and a guarantee of work for six months, and then he turned the job down because the home folks met the price. Of course we don't blame the man but we did need the help.

No Storm Is Needed

to start the hail insurance business this season, for with both crop conditions and market prospects never better, even the "well-fixed" farmers feel they cannot afford to risk the loss of the crop when there is protection to be had at so moderate a rate. Hail insurance is the only kind that has not been increased in cost during the past year. In fact, we have a new plan providing for hail insurance up to $27 per acre, that costs less than seven per cent.

While we cannot carry but $12 per acre in the old standby—the St. Paul Fire and Marine—we have other good companies in our agency each ready to carry as much more on the same risk for any who want to have better protection. All will want it too, for the bumper crop in sight.

We are taking applications now, and advise you to cover your wheat very soon, taking advantage of our plan for fall payment if you are short of money now.

South Bend

Your Opportunity

to own a high grade South Bend watch was never better than now---Today!

Mr. Farmer—take the high grade 19-jeweled South Bend, the best twenty-year gold case, for example.

This Watch cost you: 54 bushels of corn; 39 bushels of wheat; 150 pounds of butter fat; 390 pounds of pork

Would cost you now: 24 bushels of corn; 18 bushels of wheat; 55 pounds of butter fat; 160 pounds of pork

Mr. Laborig Man—This same watch would have cost you a few years ago 13 1-2 days' labor. Today it will cost you 7 days', 3 1-2 hours' work.

Could you ask for a better opportunity to own a real high grade watch?

Other South Bend Watches as low as:

10 bushels of wheat, 13 bushels of corn, 98 pounds of pork, 32 pounds of butter fat, or 4 days', two and a half hours' work. This is a good reliable watch in the best make of twenty year case and the ever popular Sixteen-Size. But come in, let's talk good watches.

Near Beer Too Near.

Pittsburgh, Pa.—Near beer that was too near brought warrants to nearly 400 proprietors of drug stores, groceries and soda fountains in the East Liberty section. The warrants charged selling liquor without a license. It was said that the near beer contained more alcohol than in the real article.

PLANS FOR THE AUTO SHOW

Plas are progressing satisfactorily for the auto show the fore part of next month. The advertising committee is at a standstill just at present because the amusement committee is not ready to announce the full line of attractions. Every effort is being made to get an army tank here for the occasion and while the committee has received some encouragement nothing definite has as yet been done. A crack Hawaiian company will be secured, the only question at present being as to which company available is the best. A good orchestra will also be secured to furnish music all the time the Hawaiians are not entertaining. Then of course the band will be had morning and afternoon for a few selections.

The local dealers say they have been notified by the state agents and factory men that representatives will be here from the various companies and some of the finest jobs in the state will be sent to Ord for the show. All the dealers will reserve space in the big Ford garage where the show will be held and a display will be made by all the accessories people as well. The effort will not be so much to make sales during show week as to entertain the people who come, depending upon the treatment extended during the show to bring them back when they are ready to buy.

"THE BRAND," GREATEST OF ALL REX BEACH THRILLERS,

at Gem Theatre tomorrow, Friday night

Exciting situations and startling climaxes abound in "The Brand." Audiences will see the secrets of the Klondike in the pioneer days when the weak and the strong from all parts of the earth stampeded the frozen Northland in the mad search for sudden wealth; they will see mining camps in full sway, manned by the denizens of the endless open of the far North and controlled by sinister, vigilant huskies who seek to engulf others in the mysterious yet ever alluring whirlpools of the Alaskan gold fields; they will see wild dance hall scenes; the frozen trail of Alaska in the dead of a raging storm-night; a fist fight of revenge and passion such as has never been equalled on the screen—a fight that ends in the sensational branding of a man who has crushed the body and soul of a good woman carried under in the eddy of circumstances; they will see the Northwestern Mounted Police raid a disorderly gambling joint in the City of Gold; iron-fisted men and questionable women thrown together in the common herd of a lawless and fearless country.

DESIGN OF ESSEX TO BE FOLLOWED IN OTHER CARS

Future to Favor Lightness, Economy, Quality, and Accessibility, Editor Declares

There will be but little new in the automobile field within the next twelve months, says J Edward Schipper, technical edtor of Automotive Industries, New York. The tread will be toward detailed refinements rather than radical changes. Lightness, high quality, economy, and greater accessibility will result in better performance.

The tendency in general design will be toward lighter cars in which the lightness is secured by more scientific design and better utilization of space.

"This is well exemplified in the Essex, which is attracting so much attention throughout the United States," said E. I. Bair today. "The wonderful performances of the Essex will result in other cars following its design.

"As a result, the car in the future, like the Essex, will get better performance and have more room for driver and passenger, although mounted probably on a shorter wheelbase than the average car of today. There will also be better acceleration and greater power on hills. The lighter weight will reduce upkeep expense to a minimum.

"A question often asked automobile engineers is what effect is the war going to have on car design. The war is not going to have any material effect on car bodies or the general appearance of cars, although there is no doubt that the lessons learned in the last two years will leave their imprint in a number of important details.

"In the average car of the future, it will no longer be necessary for a man to pay a bill of $9 or $10 to reach some part of his car that costs fifty cents to replace. The cost of automobile labor is so high that it is very bad efficiency to have an inaccessible car.

"In the Essex for instance, the designers have paid great attention to this detail and the result is that every part of the mechanism of the car can be reached with the smallest possible expenditure of labor."

Last year there were something like twenty-five dog licenses taken out in Ord. Is there any one who supposes there were not three times that many dogs owned in Ord? There should be a determined effort made this year to make every dog owner pay the state and city tax, in which case there would be less dogs in the way. We have altogether too many dog shows on the streets in Ord these days.

Ed Wilcox dropped in last Saturday long enough to add his name to the Quiz list for a year.

THEY LIKE MISSOURI

Pleasant Hill, Mo., April 23, 1919.
Mr. H. D. Leggett,
Ord, Nebraska.

Friend Leggett:—I told you that when we got settled I would write you and have my paper changed. We have been settled since March 1st, but have been pretty busy. We are living three and a half miles from the above town, the same town we settled at in 1883, and lived there until 1906, and since then we have lived all over the United States and part of Arkansas. We like our new home fine and are within two hours ride of Kansas City with a Ford), all rock road except three miles. Things are looking fine here. Wheat and oats are very promising and corn planting is well under way and gardens are fine. We have been having plenty of lettuce for some time. Pastures are good and cattle have been out for three or four weeks.

Tell everybody I have a warm spot in my heart for Ord and her people.

Yours truly,
C. W. WILBURN.

IF THE FARMERS SHOULD STRIKE

City labor just now is exercising its constitutional right by wholesale refusal to work.

And while it is tough on business, and embarrassing to city folks and all that is, still about everybody is getting three meals a day, and the babies have their eggs and milk, and dad has butter with his cakes, and his three strips of lean bacon.

But say, if the farmer tried the general strike there would be something to worry over.

Supose Farmer Jones, 2,000,000 of him on May 1, said: "I have been working 16 hours a day and not much more than breaking even. I am not appreciated, I'm going to rest awhile.

"John turns the pigs out into the woods.

"Bill let the horses into the pasture and let the calves run with the cows.

"Mary let the hens steal their nests, and never mind about the eggs, and we won't bother with milking from now on."

And the plow rusted in the furrow and the weeds took the grain, and the sheep were unshorn, and the beets and the cane kept their sweet juices to themselves, and fruit rotted on the trees and trees decayed for lack of sprays, and millions of devouring insects, that the farmer had kept from ruining the earth, swept over the country.

Not only would the town and city residents soon be hungry, but the nation would suffer for years.

Let the farmers strike for one harvest season and cease their incessant fight, against fungus, rodent, scab, mildew, scale, blight, insects, and the fields and meadows and orchards and forests of the country would lie more desolate than the awful ruins of Belgium

But the farmer has always kept on the job.

No matter whether prices were low or high; whether wool was worth little and cotton less; no matter about the cost of fertilizer and seed and machinery and labor. No matter whether there was a profit in it or not the farmer, all of him kept right at the job every day in the year, and about every daylight hour in the day.

And yet the farmer has just as much right to strike as the city worker.

And probably just as much excuse.

But the air of the fields and the breath of the hills breathe a higher sentiment than do the rock bound city streets, and the brazen doors of man made temples to the Great God Cash.

The farmer, as a matter of course, does his duty to those who depend on him for their bread, just as he will mortgage his home to buy feed before he will allow even one aged nag to go hungry.

Maybe he's a durn fool.—Watertown News.

PERSONAL TAX LIST CONTINUED

The personal tax list published last week in the Quiz, was not only interesting but it was also productive of results for a number of tax payers have been in to list property that was forgotten or overlooked when the assessor was around. So far as we know there was only one mistake in the list as published and that was H. L. Cushing, and the Quiz editor almost got licked as a result. Mr. Cushing was listed as having but $40 worth of personal property when it should have been $315. The error was due to the precinct assessor failing to carry forward the personal property from one side of the schedule to the other. There may be other similar mistakes and they should be reported if there are such so that the books of the county assessor may be corrected.

It is interesting to hear the comments that people make regarding the amounts given in for taxes. One man said he had borrowed a half a thousand from a neigghbor and gave a note for it but that neighbor failed to give in any such property though he was known to have other money loaned out. He swore to his schedule and he will be called before the county board and the testimony given there will be published.

DROVE TEAM OF OXEN TO CHICAGO

At Age of 74, Farmer Can Do As Much Work As 20 Year Old Boy—Praises Tanlac.

"Well, sir, five years before I started taking Tanlac, my troubles made me quit farm work, but now I feel so good I believe I could whirl in and sow as much oats as I did when I was a young man of twenty," declared George Heinz, Sr., who lives three miles west of Peoria, Ill. on R. F. D No. 1, a few days ago. Mr. Heinz has lived on his farm for fifty years and is well and favorably known to a great many persons in that vicinity.

"When my wife and I first settled here," continued Mr. Heinz, "Peoria was just a small village and when we would have to have anything they didn't keep in town I'd just hook up a team of oxen and go to Chicago, because we didn't have any railroad to Chicago in those days. I worked pretty hard on the farm up till the time I am telling you about when stomach trouble knocked me out and I had rheumatism in my left knee so bad my wife would put hot poultices on it to try and rid me of the pain. My stomach got in such bad shape that I couldn't take anything but liquids or soft things to eat and I tell you I got mighty tired eating that sort of stuff but I did it to keep from suffering.

"If I'd so much as eat meat or potatoes my stomach would cramp me nearly to death, and I would bloat up and sometimes it would be hours before I'd get any ease from the pain. Of course, I felt like maybe my age had something to do with my bad stomach and rheumatism, as I'm seventy-four now, but I had always been strong and hearty and I just hated to give up hope. I took all sorts of medicines but nothing seemed to do me any good at all and I was right on the point of giving up when I heard what Tanlac had done for people in Peoria and surrounding towns, I know a lot of people about here and some of them told me I ought to take it. I was in a pretty bad shape sure enough but after all I had heard about Tanlac I thought Id take just one more chance and so I bought a bottle.

"Well, sir, that first bottle I took made me sleep better and kept my stomach from hurting me when I ate, and seemed to put more life into me than I had had for a long time. I could tell right away that it was doing the work for me and I had the boy get three more bottles and they did me so much good I just couldn't help but go out and do a little work around the place and I began to eat just like I used to and I could sleep like a log and my stomach didn't hurt me at all; in fact, I found that I could eat just anything without being bothered and the rheumatism in my legs eased up so I made up my mind to stick to Tanlac, because I know it's going to rid me of that trouble. I've bought six bottles and I shall always bless the day I got that first bottle of Tanlac and I want all my friends to know what it has done for me and they know I'm not the sort to put my name back of anything that isn't just right."

Tanlac is sold in Ord by Ed F. Beranek, and in Arcadia by Copeland & Moore.

HOUSEHOLD GOODS AT AUCTION

I will hold a cleanup sale of my household furniture on the northwest corner of the square Saturday afternoon, May 3 at 2:30 sharp.

Mrs. Stanley Dworak.

The St. Paul papers last week announced the death of Jens Wilhelmnsen of that city. He was well known in Ord and Valley county for he came for many years as salesman for the Nebraska Mercantile Co. and sold the merchants of this county. He was past seventy years old at the time of his death but it was but a few years ago that he was making this territory regularly. He was one of the heavy stockholders in the company for which he worked. Since quitting the road Jens has for the most part lived quietly at his home in St. Paul. He was engaged to some extent in real estate and had land in Texas, where he visited regularly.

Will Jablonski was an outgoing passenger on the motor last Saturday. His parents live at Elyria and he had been spending a few hours at home. He is an Ord boy, having graduated from our public schools. He is traveling most of the time and had lately been at Denver

Serving Producer and Consumer

The Livestock Producer Wants

—The highest prices his cattle will bring.

—An assured market 12 months in a year.

—Selling outlets that cover the entire world.

The Meat Consumer Wants

—Meat at the lowest prices it can be bought.

—A stabilized, supply, winter and summer alike.

—Distribution that brings the meat fresh, sweet and in prime condition.

These things Armour and Company are able to provide, because the Armour organization has kept pace with international needs.

When Armour began turning waste parts into saleable by-products, the farmer profited because it became possible to pay him on a basis for the *whole animal*, instead of for just the meat, hide and tallow. And as by-products provide for a large part of the production cost, the consumer pays less for his meat.

When Armour and Company started building refrigerator cars on a large scale, fresh beef, pork and mutton became at once available at all seasons and in all consuming centers. And with Armour branch houses to hold enough to make them independent of railroad uncertainties, and to distribute according to retailers' requirements, stock-growers have the encouragement of sure markets and consumers are assured a steady always-dependable supply.

There is nothing to prevent any packing concerns from building and operating their own refrigerator cars. Nor are they barred from conducting their own branch distributing houses.

The big point is that Armour and Company, realizing that a national business could not be conducted except on a national scale, *have* built these cars and provided necessary marketing facilities. The system is the outgrowth of necessity, and to render the service which is expected of it, must operate as a whole. It cannot be efficient piece-meal, or under scattered management. The very nature of the business is against that.

Time, and the utmost in coordination and efficiency, are first essentials in the successful handling of food products. There can be only one way to realize the greatest efficiency under such circumstances, and that is to do it as Armour and Company are doing it—with preparation and shipping facilities under one comprehensive management.

RAILWAY WAGE EARNERS

If government ownership of railroads must operate as the present railway system has operated, life will be one big raise after another for the happy members of the Four Brother hoods.

The question arises in our minds, and we confess a liking to the theory of government ownership, what could have been accomplished by private management of the railroads with rate increases of $1,200,000,000 in the way of better service and equipment?

As one caustic critic of the present management asks, "What are the certificates of the superiority of government ownership? Where are the signs of the ceremony of unified operation." Have the public utilities become machines for paying and raising wages rather "than for serving the public?"

Railway employes now receive $1,365,000,000 more than before the war. The deficit of operating expenses is growing. This is the sum total of the present experiment of "control", a rather expensive luxury, even for the war period.

BRAIN VS. BRAWN.

With the high price of labor which was brought about by war conditions and especially, the shortage of men, it came a reality that many ordinary day laborers were receiving more money than most teachers and some men of professional occupation. Labor was at a premium and brain was being discounted. The government helped some—its railroad administration whacked high salaried employes down and low salaried sky high.

"The remuneration of the college professor," says the New York Sun, always inadequate, has become recently hopelessly out of proportion to the character and volume of the work done. The average dean, even in the larger universities, receives little more than a railway engineer; the assistant professor would consider himself fortunate upon the wages of a bricklayer; while the hodcarriers' union would order a nation wide strike were its members forced to accept the pitiable salary of the instructor.

Not only is this situation driving out of the profession some of its ablest men, but it is making it impossible to tempt into it the bright young minds that alone are adequate to its needs. Unless some means be found to arrest this unfortunate development, the duty of instructing young men and women of the country will fall to incompetent hands; the future of higher education and of scientific research will be endangered."

SHOULD HAVE A COMMERCIAL CLUB

There are few towns in Nebraska half the size and importance of Ord that do not have a good, working commercial club. There are many problems that continually come up that should be solved by some civic organization. Ord has no such organization. Take the auto show for instance. A live commercial club would have gone back of such an enterprise and its support would have been of great help. A live commercial club would have prevented the breaking up of the Loup Valley Agricultural Association. Time will prove that we want a country fair and it will be but a few years until Ord business men will be solicited to go into a fair association. There are few weeks but some matter comes up that should be handled by the paid secretary of the live commercial club. Ord has no club and of course there is no paid secretary. In towns where there is a commercial club the Chautauqua matters is looked after by the club. Here three or four business men have to devote several days of their time for the benefit of the balance of the people and get more or less cussing for so doing.

Now Ord is big enough to have a commercial club and a paid secretary. It is going to cost something to do this but it seems to the writer that there ought to be enough business men in Ord who will be willing to go into their pockets to finance the deal. It will cost a couple of thousand dollars a year to get an experienced man, a real commercial club secretary, a man who has had some experience. I have been corresponding with commercial club men in different places and have talked with several men who have had experience. They all agree that a good secretary who understands his business and is a good publicity man, can much more than earn his salary. He will handle charities, something that now runs itself and which costs Ord business men many dollars each year. He will interest new people in coming to the town. He will look ater the chautauqua and let the business men go about their own business. He would look after the publicity, the attractions, the finances of the auto show if we had him now. There are a thousand and one things that he would do and he would earn his money. Alliance is paying their secretary $2700 a year and they feel that he earns it. Grand Island is paying more than that figure. They are larger towns and we might get a good man for $1800 a year. There would be other expenses however, and we should go to work right now and raise a budget of say $3000. The Quiz will give $60 to that budget to try out the scheme for a year. There are no business men in Ord who cannot afford to pay half that amount for a year for the good they will get out of it or the good the town will get and there are some businesses who should pay more than that but we should raise $3000. I would like to talk the matter over with any Ord business man who thinks this matter important enough to devote a few moments of his time to it. I have devoted considerable of mine and have done some corresponding regarding the matter.

The Quigley row with the Nonpartisan league is a juicy morsel for the Ord Journal paragrapher. The Journal has little love or use for the farmers, organized or unorganized and it revamps the Quiggley mud slinging with great gusto. This will have little effect, however, first because only a few farmers will see it for obvious reasons and second because they all know that Quigley is sore because he was fired after being caught in some crooked deals and he is trying to get even. He got too big for his job with the League and wanted to take the place of some higher ups and the members didn't see it that way.

"Short Weight" Gooch is flooding Ord and vicinity, and presumably the balance of Nebraska, with the issues of the Lincoln Star, containing the Quigley attack on the Nonpartisan league. Gooch was a member of the State Council of Defense and owns the Star. He was convicted of short weight methods and testified that he contributed to the fund raised by the "big interests" to fight the Nonpartisan league and the organized farmers generally. It is not surprising that Gooch is anxious to put the farmers out of business for like the Ord Journal, Gooch believes in organization for himself but not for the farmer. They both think the place for the farmer is at home slopping the pigs.

Well, did you study the list of personal tax payers published last week? Here is another list this week and some of them are undoubtedly aiming to be tax dodgers.

One night recently the war news was flashed on the screen at the picture show. Taft got some cheers and of course the soldier boys were greeted but the picture of President Wilson didn't receive a cheer. Why was it?

And now there is said to be a movement on foot to insure a majority of the delegates to the constitutional convention, in favor of the packers and other trusts. And they will pretty near have the majority too.

—o—

The Ord Journal just can't let up on its fight on the Nonpartisan league and never has anything to say about the league except to cast slurs at it. It probably has the idea that the farmers like that way of doing.

After trying for some time to get a painter to paint the Hager office, Mr. Haskell, owner of the building, got peeved and remarked that "he would put it on himself," and that is where he put a good deal of it.

I am ready to admit that I am not very well pleased with the new primary law recently passed and which the governor signed. I fail to see where it is going to be a benefit and I see where it is likely to be a distinct menace.

Every "special interest" in the country will have high priced lobbyists in Lincoln next winter to try to influence the members of the constitutional convention and for that reason the strongest possible men must be chosen for the job.

Sweet Nellie to the doctor said,
Sharp, shooting pains now fill my head
And I've a horrid cough.
And doc, who had a lot of skill
In telling how young folks got ill,
Said, Nell, you've took 'em off.
Sweet Nellie said, that may be true,
But really I don't see how you
Can tell it by my tongue.
Then doctor smiled and said, dear Nell,
Us old folks lots of things could tell
That would surprise the young.

Three years ago when we were camping on the Cedar river for ten days the Missus caught a three and a half pound bass and I have been trying ever since to get one as big so as to stop her bragging. Well, we went up to the Ericson lake the other day and I got one that beat her bass by a safe number of ounces and now she is having very little to say about big fish. I just want to say that it is worth a five spot of any man's money, if he likes to fish, to feel a four pound black bass pulling on the line in the water and when Mr. Fish is safely landed on the bank, well you have got to actually have the experience to know just how it feels.

"THE RIVER"

Our Interesting Serial Story, Continued From Last Week.

That evening the chief had a visitor. The wife of Maldonado, some of the fear pressed out of her eyes, brought in his laundered khakis, socks, darned and matched; all the missing buttons replaced.

"I haven't worn a matched sock," he told her, "for months. That's great, senora."

He wanted to get to bed, but she lingered. She wanted to talk to him about her troubles; he had cautioned her against talking about them in camp, so she overflowed to him whenever she found a chance—about Maldonado, the children, Lupe. It was getting wearying, but he could not shove the poor thing out.

Senora Maldonado gave a sharp intake of breath, an aborted scream. Rickard, too, saw a man's figure outside the screen door. The Mexican woman pressed a frightened hand to her heart. Of course it was the vengeful Maldonado—he would kill her—

"If I am intruding," It was the voice of Hardin.

"Come right in," welcomed Rickard. "Get along, senora." The Maldonado slipped out into the night, her hand still against her heart.

Hardin, a roll of maps under his arm, entered with a rough sneer on his face. A dramatic scene, that, he had interrupted! And Rickard, who did not like to have women in camp. White women!

Rickard, still sleepy, asked him to sit down.

"I wanted to speak to you about those concrete aprons. They tell me you've given an order not to have them."

Rickard resigned himself to a long argument. It was three o'clock when Hardin let him turn in.

When he was getting ready for bed he remembered the melodramatic scene Hardin had entered upon. He stared comprehendingly at the screen door—seeing with understanding Hardin's coarse sneer—the Maldonado, breathing fast, her hand over her heart. "Of course he'll think—good lord, these people will make me into an old woman! I don't care what the whole caboodle of them think!"

Five minutes after blowing out his candle he was deeply sleeping.

CHAPTER XXV.

Smudge.

From her tent, where she was writing a letter that lagged somehow, Ines Hardin had seen Rickard go to her sister's tent. She did not need to analyze the sickness of sight that watched the dancing step acknowledge its intention. It meant wretchedness, for Tom. At a time when he most needed gentleness and sympathy rasped as he was by his humiliations and disappointments—how could any woman be so cruel? As for Rickard, he was beneath contempt—if it were true, Gerty's story, told in shrugs and dashes. She had jilted him for Tom; and this his revenge? She had not known that she had such feeling as the thought roused in her. It proved what the blood tie is, this tigerish passion sweeping through her, as her eyes watched that closed tent—if was for love for Tom, pity for Tom. Sex honor—why, Gerty did not know the meaning of the words!

How long would it be before Tom would see what every one else was seeing? What would he do when he knew? Hating Rickard already, bitter as he was—

She was not so biased as he. She could see why Marshall had had to reorganize. Estrada had shown her; and MacLean. Her sense of justice had done the rest. Rickard had proved his efficiency; the levee, the camp, the military discipline all showed the general. Whether he were anything of an engineer, time would tell that. It was a long call he was making! Suppose Tom were to come back? She must watch for him—make some excuse to pull him in if he should come back before that other went— Hateful, such eavesdropping! A prisoner to that man's gallivanting!

For an instant she did not recognize the figure outside Gerty's tent. He fears saw Tom. She reached the screen door in time to see Rickard lift his hat to a disappearing flurry of ruffles. Angry eyes watched Rickard's step swing him away.

From the levee that day, she had a glimpse of the Mexican woman on her knees by the river, rubbing clothes against a smooth stone. A pile of tight-wrung socks lay on the bank. Ines stood and watched her.

"I must remember to speak of her to Gerty," she determined. "She prob-

THE RIVER

Continued from page eleven

brooding solicitude.

Late hours, excitement, might abridge the life she so passionately policed; but she would not demand the sacrifice of his cigar.

Marshall's cigar followed the coffee. Tony, the white-capped Italian cook of the Palmyra, was removing the cups. Innes was carrying her double interest, listening to Tod Marshall's broad sweep, getting a new viewpoint as he minimized the local scheme—feeling that silent presence at the head of the table.

Then something drove Claudia from her mind. What Mr. Marshall had said swept a disturbing calcium on Tom. What if, truly, the river fiasco could be traced to that overzealous hand? To Tom, this undertaking blotted out the rest of related big endeavor; but that was not the way her host was looking at it. He was too courteous to give her discomfort; he had not said it directly. But always it met her, rose up to smite her, wherever she was. Was it not egotism, personal pride, that was making her cover her eyes, like any simple ostrich? Her brother—assume him anybody else's brother! The dredge fiasco—the wild night at the levee—no isolated accidents those. Hardin's luck!

A flush of miserable shame came to her. How they had all been trying to spare her—Eduardo, these kindly Marshalls—MacLean! She was turning, impulsively, to ask Tod Marshall if he thought, could he think it probable that they would fail, when a step that sent the blood to her face took the car's stairs at two leaps. Now, indeed, the dinner was spoiled.

"That's Rickard. I forgot to tell you that I asked him to dinner. He couldn't get away. He said he'd run in for coffee. Hello, Rickard, Thought you'd forgotten us!"

She hadn't thought of that contingency! She found herself shaking hands with him. Could he not hear her mind, ticking away at the Maldonado episode?

Of course he would insist on seeing her to her tent. Punctilious, always. Well, she just wouldn't. Perhaps she could slip out some way. She would watch her chance.

"Can I talk shop for a while?" asked Rickard.

They withdrew to a cushioned window seat. Innes had found her chance. She asked to be shown over the car. Innes confided her plan. She wanted

"Thought You'd Forgotten Us."

to slip out. "She would not interrupt their evening; Mr. Marshall had business to discuss—".

Mrs. Marshall would not hear of it. She said that Mr. Marshall would never forgive her if she let Miss Hardin go home alone. Her opposition was softly implacable.

Innes went back to the sitting room of the car angrily coerced. Rickard was still closeted, conversationally, with his superior.

At last, desperately, she rose to go. Of course, he must insist upon going with her. Of course!

"I was going back early, anyway, I'm to be up at dawn tomorrow."

The good-bys were said. She found herself walking rebelliously by his side. "No, thank you!" to the offer of his arm.

The night was bright with stars. "Bright as day, isn't it?" Because her voice was curt, and she had not used his name, the rising inflection helped a little! Hateful, to stumble over a rut in the road! Of course, he'd make her take his arm! Of course!

Rickard grasped her elbow. She walked along, her head high, her cheeks flaming, anger surging through her at his touch.

Stupid to press this companionship, this awkward silence on her. If he thought she was going to entertain him, as Gerty did, with her swift chatter, he'd be surprised! Any other two people would fall into easy give-and-take, but what could she, Innes Hardin, find to chatter about with this man stalking along, grimly grasping her arm? Close as they were, his touch reminding her every minute, between them walked her brother and her brother's wife—and there was the Mexican—hateful memory! Of course she could not be casual. And she would not force it. He had brought this about. Let him talk, then!

Oppressive that silence. Then it came to her that she would ask him the question that his coming had aborted. A glance at his face found him smiling. He found it amusing? Not for worlds, then, would she speak. And they stalked along. Unconsciously she had pulled herself away from him. He took her hand and put it in the crotch of his arm. "That's better," he said. She wondered if he were still smiling.

Their path led by his tent. Neither of them noticed a subdued light through the canvas walls. As they reached the place a figure darted from the door.

"Oh, senor, I thought you would never come." It was the wife of Maldonado. Her expression was lost on Innes. The face was quivering with terror.

"Mr. Rickard," Innes' words like icicles, "I will leave you here. It is quite unnecessary to come farther." Quite unveiled her meaning!

It came so quickly that he was not ready; nor indeed had Gerty's innuendoes yet reached him. But the situation was uncomfortable. He turned sharply to the Mexican.

"Come in," he took her roughly by the arm. She would wake up the camp with her crying. He put her in a chair. "Now tell your story." The woman had got to be a nuisance. He couldn't have her coming around like this. He had seen that look in the girl's eyes—"Murdered! Who did you say was murdered?"

FAIR GROUNDS AT AUCTION

By a majority vote of the stockholders it has been decided to dispose of the grounds and buildings belonging to the Loup Valley Fair Association and the same will be sold at auction, sale to start promptly at 2:00 p. m. on

Saturday, May 3

This is a tract of about twenty-one acres lying on the Union Pacific tracks just east of and adjoining Ord. It is mostly in alfalfa and there is no better alfalfa land anywhere else. It would make an ideal feeding station, and with trackage loading could be done right in the yards, as the Union Pacific has a spur running into the grounds. There are many buildings on grounds and all or part can be purchased with the land if desired. There is one of the best wells of water in the country on the grounds. Don't forget this sale if you want some of the buildings or the land and all of the buildings.

Any one interested can get further particulars by calling on the officers---W. L. McNutt, President, or H. D. Leggett, Secretary. For terms see Vincent Kokes, Treasurer of the Association, who will be clerk of the sale.

THERE WILL ALSO BE 25 SPLENDID BROOD SOWS AND A COUPLE OF CARS OF GOOD STOCK STEERS SOLD AT THE SAME TIME.

BE IT FURTHER RESOLVED, That notice of said election be given as required by law, which notice shall be in words and figures as follows:

"NOTICE OF BOND ELECTION"

"Notice is hereby given to the legal voters of Valley County, Nebraska, that a special election has been called to be held in said Valley County, on the 24th day of June, 1919, for the purpose of voting upon the following question and proposition, to-wit:

"Shall the Board of Supervisors of Valley County, Nebraska, issue the negotiable Bonds of said Valley County, in the sum of One Hundred Thousand ($100,000.00) Dollars, said Bonds in denomination of One Thousand ($1000.00) Dollars each and numbered from one (1) to one hundred (100), both inclusive, bearing interest at the rate of Five per cent per annum, payable annually from date, interest to be evidenced by coupons attached to said bonds, both bonds and interest coupons to be dated on the first day of September, 1919, said bonds to be payable Twenty years after date with the option on the part of said Valley County, to retire and pay said bonds or any part of them at any time after five years from date, said principal and interest to be payable at the office of the County Treasurer of said Valley County, in the City of Ord and State of Nebraska, and said Bonds to be executed by the Chairman of the Board of Supervisors and attested by the County Clerk of said County, and negotiated and sold by said Board for not less than their par value, the proceeds thereof to be used toward and in the erection of a combined Court House and Jail in and for said County; and shall said Board of Supervisors of said County be authorized and empowered to levy annually upon the taxable property of said County a sufficient tax for the payment of interest and principal and to create a sink-

SAY, you'll have a streak of smokeluck that'll put pep-in-*your*-smokemotor, all right, if you'll ring-in with a sure-joy'us jimmy pipe and nail some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, *then*, to hit the peak-of-pleasure you land square on that two-fisted-man-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pike with your smokethrottle wide open! *Talk about smoke-sport!*

Quality makes Prince Albert so appealing all along the smoke line. Men who never before could smoke a pipe and men who've smoked pipes for years all testify to the delight it hands out! *P. A. can't bite or parch!* Both are cut out by our exclusive patented process!

Right now while the going's good you get out your old jimmy pipe or buy a new one and land on some P. A. *for what ails your particular smokeappetite!*

You buy Prince Albert everywhere tobacco is sold. Toppy red bags, tidy red tins, handsome pound and half pound tin humidors—and —that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

NEW CITY OFFICERS TAKE PLACES

Tuesday morning the new city officers took their offices. Mayor Misko was first sworn in and the address which he made is in another column on this page. The council as now constituted is McNutt, Huff, Mutter, Wright, McGinnis and Bly.

One of the first things that the new mayor had to do was to name a successor to Councilman Ed Johnson of the second ward. Mr. Johnson resigned Tuesday morning because he is moving into the first ward. W. A. Wright was named in his place and accepted the honor and emoluments in order to get the work connected with the office. Mr. Wright has served the city as councilman in the past, is always progressive and will make a good councilman.

The committees named by the mayor appear later in this article and it will be a good thing if business men and other interested citizens clip and preserve the list for quite often is it is handy to know who is on a certain city committee.

Harry Dye was appointed as marshal and street commissioner and he says his orders are to "get busy and keep busy." He says the new mayor told him that we didn't have much need for an officer but that there was always a plenty of work for a real worker, and Harry says he expects his official head to drop in the basket if he stops work.

Attorney E. P. Clements was named as city attorney and accepted the appointment.

D. B. Huff, councilman in the first ward, and named as president of the council.

The salary of the street commissioner was fixed at $85 per month and that of the sexton at $100 for the six months beginning May 1, and at $75 for the balance of the year.

The report of the city treasurer was read and adopted and is published on page 8 of this section of the Quiz and it will be found interesting and instructive and every interested citizen should take the time to look it over and become familiar with city financial affairs. We believe it is going to be the policy of the admjnistration to keep the people fully posted.

FARMER BREAKS LEG

Last Saturday Joe Golka came to town and bought a Fordson tractor and took it home. He hitched a wagon and rack behind the iron horse and while going down a hill the tongue broke and his man, Joe Krocka, jumped to escape the wagon which was coming onto the tractor. He didn't get clear however and his leg was caught between the wheel of the tractor and the wagon and his leg broken above the knee. Dr. Barta cared for the case and brought him to the Miller hospital where he will have the advantage of trained nursing. Krocka is a returned soldier boy.

MEMORIAL DAY MEETING CALLED

Capt. Chas. Watson requests all veterans of the late war, the home guard boys, the firemen and the G. A. R. members and the ladies and all others interested to be present at the Court House Saturday evening to make arrangements for Memorial day. Never has Memorial day meant so much to us as this year for in addition to the graves of the heroes of '61, there are two Company "I" boys and eight world war boys buried in the local cemetery. Every one should take an interest in the program on Decoration Day this year and help to make it a success. Remember the meeting Saturday evening and be on hand.

FIREMEN, ATTENTION

All memers of the Ord Fire Department are asked to be present at the hall Friday evening, of this week, to make arrangements about Decoration day exercises.

A. J. Shirley, Chief.

A telegram from Dorfner told the Murschels that he would be able to get to Lincoln last Monday, and Mrs. Murschel went over to Omaha to meet him and to bid her relatives and friends goodbye before they start for California.

Among the outgoing passengers Monday was Mrs. J. K. Gray of Akron, Colo., and her daughter Mrs. Loyd Wheeler. They were going to Scotia for a visit. Mrs. Gray recently returned from Akron on a visit.

On the noon train yesterday Miss Louise Henlen returned to her home at Kansas City. She has during the millinery season had charge of that stock at the People's Store.

John Meese was last week entertaining his parents from Bartlett. He took them home yesterday in his auto.

Yesterday morning Carl Moss came up from Scotia and Mrs. Burris came up from North Loup.

Mr. and Mrs. Jerry Cernik are the parents of a baby girl born last Friday morning

AUTO SHOW DATES NAMED

At a meeting held Monday evening at the Huff offices the dates were finally selected for the auto show and all committees were definitely decided upon. Some of the entertainment features were also agreed upon and arrangements for all the attractions will be perfected when the committee sent to Omaha and Lincoln, gets back the last of this week.

D. B. Huff was selected as the president or general manager of the show, Chas. E. Detweiler as secretary and C. S. Burdick as treasurer. The committee on amusements, dance hall and music is Charley Detweiler, Fred Bell and Cleg Hughes. The floor managers in the show room are John Sershen, Will Gruber and C. S. Burdick. The tractor department will be in charge of F. C. Williams, John Rogers and W. T. Detweiler. The used car department will be looked after by Merrill Hughes and Wilford Williams. The truck department is to be under the supervision of E. S. Bair, and Axel Hansen. The decorations will be attended to by Jim Milford, Lyle Milliken, Alfred Aagaard, Perry Bell, E. V. Gruber and H C. Newman. The lighting of the show room will be under the direction of C. E. Gregory. The advertising committee is Ray Burdick, H. C. Cushing and H. D. Leggett.

A committee, consisting of D. B. Huff, C. E. Detweiler, F. J. Bell and Cleg Hughes was selected to go to Lincoln and Omaha and if necessary on to Chicago to arrange for the attractions for the show. It is pretty well settled that a crack jazz orchestra will be secured probably from Lincoln, a company of Hawaiians will also be secured and their performance will be continuous, It was decided Monday evening to hire both dance halls for the evening of the 5th and run free dances. Charles Arnold is an expert caller or the square dance and he will be master of ceremonies at one of the halls and it is expected the crowd on the last night of the auto show will enjoy the dancing to the limit. The best of music will be provided for both dances. It is also understood that there will be dances at the halls for the other evenings for those who want to attend. The show houses will also have special attractions for all the evenings so there will be entertainment for all.

And speaking of entertainment there are many people who will want to stay in town over night and the public places will not be able to take care of the people. Therefore, the committee wants all who have one or more rooms to rent to phone the secretary, Mr. C. E. Detweiler, and list their rooms with him and he will assign the people who want rooms. This is important and should be attended to at once.

We hope by next week to have a complete program of the attractions for the show. Watch for the announcement and the large bills. Write your relatives and friends in other counties and invite them to come to Ord the week of June 3 to 5 and make you a visit and attend the show. Make it a home coming week and help make it the biggest time Ord ever saw.

FIREMEN TO HAVE MASK BALL

The firemen will give another dance, this time a masquerade affair, at the Bohemian hall in Ord Thursday evening, May 15. The best of music has been secured and we are looking for a great time on that occasion.

GRAY SELLS INTEREST IN HARDWARE

W. M. Gray sold his interest in the Brown & Gray Hardware to his partner, S. J. W. Brown last week and retired from the firm and Mr. Brown will continue the business. The firm has always donc a good business and has been one of the strong firms of the city, and the change and the retirement of Mr. Gray came as a surprise to many friends. What Mr. Gray's plans are for the future we are unable to say. He stated Saturday morning that he didn't know himself but he thought he would have no serious trouble in finding something to do. Mr. Brown will continue the business along the same progressive lines as formerly. We want to call attention of Quiz readers to the announcement which the firm has in this section of the paper this week.
Lincoln.

NOTICE

There will be a called meeting of the ladies of the G. A. R. at their hall Friday afternoon, May 9, and all members and all comrades and any others who can do so, are urged to be present to talk over the plans for the Decoration Day exercises.

Mrs. Susie Lewis.

Saturday Mr. and Mrs. Joe Shumaker went down to Grand Island where the former takes treatment from the U. P. doctors. He is better than he was but not well by any means. They have to vacate the Presbyterian parsonage because their people expect to have a new pastor in the near uture. Joe has rented the Haldeman house which has for a long time been occupied by the F. J. Bell family.

Yesterday P. A. Murphy returned to to his home at Exeter. He was accompanied by his daughter Mrs. J. E. Ryan. The latter's husband is in the hospital recovering from an accident.

Mr. and Mrs. Cecil Clark are now settled in the Wentworth house near the Catholic church and Cecil says he is mighty glad to be at home again.

Viola Best and Isla Miller of Burwell, were guests of Mrs. John Ambrose last Friday.

MILFORD CAIUS STACY

Milford Caius Stacy was born December 5th, 1888, at Ord, and died at his home in Omaha April 30th, 1919, aged 31 years, 4 months and 25 days.

It is seldom that one goes out from among his fellow men, leaving behind him only good will and pleasant memories, as did Milford Stacy, whose untimely death from the dreaded influenza, brought sadness to this community.

He was born in Ord and spent his life here, until his removal to Omaha last July, to enter into business relations with his cousins in the Skinner Packing company plant.

He received his education in the Ord schools, graduating with the class of 1908. He was married on August 19, 1910, to Bessie Lee Clements, daughter of Mr. and Mrs E. P. Clements. For a number of years he worked for the Johnson Drug company, and later occupied the position of assistant postmaster of the Ord office.

He leaves to mourn his departure, his devoted wife, and little son and daughter, his widowed mother, a sister, Mrs. Clayton Burke of Paul, Idaho who chanced to be here to visit with her people, and was able to be with him before and during his illness, and a brother Earl, who lives at McFarland, California, and was unable to be present. His father, two sisters and one brother have preceded him into the higher life.

Milford was an optimist, radiating good cheer to every life which came within touch of his own, and leaves behind him a rare legacy, in the pleasant memories that come to all who knew him, as they think back upon their associations with him. He counted his friends by the number of his acquaintances.

TO THE PATRONS AND FRIENDS OF THE FIRST NATIONAL BANK

Elsewhere in this issue will be found an account of my purchase of a part of the stock of the First National Bank of Ord. I wish to take this occasion to say that I will give my undivided attention to the business of the bank, and that the direction of the affairs of the institution so well known, will be very largely in the hands of the same people that have always managed them.

Whatever part I will take will be only to carry out the policy on which the bank has been built, giving the same assistance and service to the people as has always been given.

The same conservative policy will be adhered to, and it will always be our ambition to give the greatest service to the greatest number. I will expect to begin acive duty soon, and I sincerely trust that I may soon know all of you, and I want to meet each and every one just as soon as you have time to come in and visit me.

Respectfully yours,
R. A. STUDLEY.

BUY LAND SOMEWHERE

Some men point to large profits that have been made on land investments at distant places. This may be true because a land investment is good almost any place, but as much or more profits have been realized by those who have bought land right here in good of Valley County than by those who have gone away for investments. Land is not high as compared to the times we are in. With improved machinery and improved methods of farming, one man accomplishes much more than in former times. There is greater demand for farm products. Prices of all products range higher. There is no use to talk, the thing to do is to Buy Land. Move along with the progressives.

SATURDAY AUCTION SALE

The following goods, the property of Walter Rickard andMrs. Robinson will be sold on the northwest corner of the street Saturday afternoon, this week 2 good beds, 2 dressers 2 grass rugs, 1 heater, 1 white enameled kitchen cabinet, 1 china closet, 1 square table and six chairs and 1 round table and six chairs; 2 good kitchen cabinets, 1 good black leather couch, 3 good mattresses, 1 good sewing machine, 1 good bookcase, 1 good rocking chair, 1 good rug, 9x12, 1 center table, 1 laundry stove, 2 ironing boards, 1 electric lamp, 1 electric flatiron, 1 good vacuum cleaner, 1 dining room table, and other articles too numerous to mention. Remember the time, Saturday afternoon, May 10th. 6-1t

A HAPPY SURPRISE

Monday night Mr. and Mrs. Will Misko were treated to a glorious surprise, it being the tenth anniversary of their marriage. Their sisters Louise and Josephine arranged the party, which was held at the Bohemian hall and it was filled with friends of the Miskos. Delightful refrehsments were served and the evening after eleven o'clock, was devoted to dancing and cards. A beautiful rocking chair was presented by the friends, to Mr. and Mrs. Misko. Mrs. Mozac making the presentation speech. About one-thirty the happy company disbanded wishing Mr. and Mrs. Misko many happy returns of the day.

A lot of Ord friends enjoyed a big dollar dinner at the Methodist church last Saturday evening, at fifty cents per. The ladies did themselves proud on the dinner served and in a financial way the occasion was also a success.

Dr. Howes sr., announces that he will be in his office from now on, having arrived home the first of this week. 6-1t

W. E. Mattox returned home Friday from a trip to Omaha and other points.

WHAT MAYOR MISKO SAID

Gentlemen of the Council:

It is customary for a newly elected mayor to address the council and public in general, to outline his plans in regard to the management of the city, and to suggest such changes and improvements as in his judgement he deems advisable and necessary.

I have an idea what we would like to have, what we need, and perhaps what we ought to have in order to do justice to our city, its people, and to retain that commercial reputation which our city enjoys. But with my limited knowledge of the affairs and financial conditions of the city I am unable to suggest any plans at present. However I hope that in the very near future I will gain access to such information as to enable me to outline more definitely such needs and improvements as conditions will permit.

We have voluntarily assumed the management and responsibility of the city, so I ask you in all sincerity to be loyal to that trust, fearless and impartial in all official duties. Insist on strict economy in expenditures, by that I don't mean to squeeze the eagle until life is extinguished; I mean that every man who receives a dollar of the city's money should in return give value received, whether it be in service, labor or material.

Our Legal Department will be ably represented and I extend my hearty thanks to Mr. Clements in accepting this appointment.

Gentlemen of the Council: It is up to each of us and all city employes to conduct all affairs of the city in such a manner as to gain and retain the confidence of the people; also to make Ord an ideal place to live in.

In my official conduct I will aim to be careful, considerate and sincere, without malice. I invite suggestions and criticism both of which may prove to be helpful in obtaining better results for the city.

In conclusion permit me to suggest that we inaugurate a movement to promote a community pride, in which every man, woman, and child can participate. For instance, let us compare Ord to a colossal bee-hive of which the citizens represent the workers and drones. To keep our premises and alleys free from all kinds of rubbish, to respect the speed law, to report broken electric wires, to keep walks free from snow, to swat the flies, to pay promptly all city dues, and be polite and courteous to all strangers, are the duties of the working bee.

To hamper any enterprise or improvement without first investigating, to carelessly throw rubbish in the street, to harbor stray dogs, to allow chickens to uproot neighbors gardens, to aid fakers of any kind while in our city, to neglect our duties as citizens, and to become a liability to society, is the nature of the drone bee. Which do we choose to be, the drone or the worker?

HARRY LEACH KILLED

Word came through Ord last evening that Harry Leach was killed near O'Neill when his car tipped over onto him. He is a son of Harve Leach, wealthy farmer near Arcadia and went to Holt county a year or two ago and bought land and engaged in ranching. Relatives were unable to phone Arcadia last evening and called Sheriff Round and had him tell the home folks over the phone from here.

TO ORGANIZE CLUB

The ex-bankers are planning on organizing a club among themselves. Already Vincent Kokes and C. J. Mortensen have the project started and this morning when George Mickelwait tried to get admitted he was unable to qualify. It seems that a rule of the new organization requires that members renounce their allegiance to all other clubs and George absolutely refused to quit the "Neversweats," of which he has long been an honored member.

Last Sunday Harold Moeller drove his auto to Omaha. Monday his wife and grandmother went down on the train. From there they expect to drive to Kimbleton, Iowa, where the latter has a daughter living. Mrs. Jorgen Moeller is caring for the little children during the absence of their parents.

Last Saturday Della Wilburn left for the home of her parents at Pleasant Hill. She has for several months been teaching in the country. Her school is ow out so she is going home. Just before leavig Ord she was a guest at the home of Mrs. Geo. Pratt.

Among the outgoing passengers on Monday were Mr. and Mrs. C. E. Timmerman who were bound for Omaha. Fred Wichman went to Lincoln and Mrs. S. A. Stacy and daughter Mrs. Clayton Burke, were passengers also for the capital city.

Monday morning Carmell Bryan arrived from Burwell where she had been to see relatives, and visited her friend Opal Haught until the afternoon train when she went back to North Loup.

Monday morning Mrs. Lickley left for Stanton where she was to visit her daughter Mrs. Alice Stoltz. She expects to spend some time in Michigan before returning to Ord.

Last week Glendol and Lewie Bailey drove their auto to Lincoln and on Monday Frank Bailey went to Homer on the train to visit relatives.

Saturday morning Blanche Lumberg who is a sister of Mrs. Perry Bell, returned to her home at Greeley. Sophia McBeth went down the same day.

Meet me at Milford's.

ANOTHER BIG BANK DEAL

We were almost startled a day or two ago when the announcement came that the First National bank, long the largest banking institution in this part of the state, was to have a change in management. The first statement heard was that the Mortensen—Williams interests had been sold and that new people would administer the affairs of the big financial institution up the street. It took but a few moments, however, to learn that the change was not so sweeping as at first reported and that not strangers but well known people were to be in the business. Nevertheless, the selling of so well and favorable known an institution as the First National bank of Ord, might well be startling and the facts are as follows:

For some time Mr. E. M. Williams, president of the bank since the death of Peter Mortensen a few years ago, has wanted to take life less strenuously. If he retired from the business his relatives, the Mortensens, would naturally want to dispose of their interests also. When the farmers bought the Ord State bank Mr. R. A. Studley, cashier of that institution, and who recently came to Ord and bought a home here, began looking about for another business and he was not long in recognizing the First National as the best banking proposition in all the Loup country. After investigating the matter he decided to invest in the stock and purchased the stock of G. W. Mickelwait, the Mortensens and a part of the stock owned by Mr. E. M. Williams. The deal was closed Tuesday night, a part of the consideration being the trading of residence properties by Mr. Williams and Mr. Studley and they exchanged abid ing places yesterday, less than twenty-four hours ofter closing the deal. The business of the bank will change hands July 1, the present officers remaining in charge until that time, though Mr. Studley will be connected with the business at once.

Our understanding of the deal is that Mr. Studley will be the president of the bank and Jos. P. Barta, who also increases his stock, will become vice-president. Mr. E. M. Williams retains a part of his stock and will remain with the bank, becoming chairman of the board and devoting a part of his time to the interests of the bank and a part to his outside interests which have had to be neglected on account of his bank business. E. J. Williams will still be cashier

Before coming to Ord Mr. Studley was connected with the First National bank at Ansley and is a stockholder in some other banks in the Loup country. His interests are all in this country and he will be a booster for Ord and Valley county. In talking with him this morning he said he expected to leave the management largely in the same hands that had been making the bank such a signal success in recent years. He admitted that it would take him some time to familiar ize himself with the workings of the institution and that the same liberal and broadminded policy in the future. All patrons of the bank he said, would continue to receive the same treatment that they had always had at the institution.

Speaking of the Ord State, now owned by the farmers, Mr. Studley said they had secured a splendid business and that he believed there was ample business in Ord for three banks and he admitted that he didn't know of another town anywhere with the banking facilities that Ord enjoys, even towns much larger. He is much pleased with the town and people with whom he has been doing business and wants a chance to become better acquainted with all and especially with the regular customers of the First National.

The First National bank was established and commenced business on March 15, 1882, though at that time it was called te Ord City bank. H. C. Metcalf was its first president and George A. Percival was its first cashier. Two years later it was reorganized and became the First National, J. H. Bell becoming its president and Peter Mortensen became vice-president. A year later Mr. Bell resigned and Mr. Mortensen was advanced to the presidency of the institution. Mr. Percival remained as cashier until 1888 when he sold his interests and Fred Bartlett became cashier of the bank. W. E. Mitchell became cashier in 1889 and a year later he was succeeded by his brother E. N. Mitchell, who remained in that position until 1896 when he was succeeded by E. M. Williams. Mr. Williams came to the bank in 1890, six years before he was made cashier. He was succeeded by his brother, E. J. Williams, as cashier in 1912 when at the death of Mr. Mortensen he became president. Mr. Mortensen was elected to the state senate in 1902 and E. M. Williams was practically head of the bank and assumed most of the responsibilities after that date so he has been connected with the bank for twenty-nine years and has practically had the directing of its business for the past seventeen years.

The writer has heard Mr. Williams say that often himself and Mr. Mortensen agreed that should the bank ever reach a hundred thousand dollars in deposits they would be satisfied. Its deposits at the time of making the last statement, as published in this paper, were over three quarters of a million dollars. Such a business is a strong testimonial of the confidence of the public in the bank.

GERMANS WILL SIGN THE TREATY

The state papers this morning say that the Germans have received the draft of the peace treaty and that they say they will sign. By the terms of the treaty the Germans are shorn of most of their military power and it is going to keep them busy for the next two or three generations in paying for the damage they did and which they are compelled to do by the terms of the treaty they are about to sign.

There are 27 nations that are parties to the peace pact and all of them are represented by delegates present at Versailles.

The terms of the treaty are set forth in a document of about 80,000 words. By its terms Alsace-Lorraine is restored by Germany to France, the army is reduced to a hundred thousand men including officers and Germany cannot compel military service. It is agreed that the kaiser shall be tried by an international court, the League of Nations plan is accepted and restoration is agreed to to the allies. The Quiz will pdint a complete summary of the treaty next week.

WE ARE TO HAVE A FAIR

Due to the public spirit of a bunch of Ord business men, Ord and Valley county will have a fair again this fall. It was just a few moments before the sale of the fair grounds started last Saturday that an arrangement was made to buy the grounds and buildings, a syndicate of business men taking the matter in hand. They were sitting on the fence waiting for the sale to start when Charley Bals said it was a darn shame to sell the grounds and not have a fair. Charley Burdick had all the time been opposed to quitting the business and his brother Ray was of the same mind. Ed Johnson and August Petersen agreed that the fair should be continued and Iri Tolen had made a fight at the time the meeting was held when the matter of selling the grounds was decided on, Harry Bressley is a stockholder and hearing the conversation said that he would be one of a few men to go in and buy the property and continue the business and it was the work of about three minutes for Messrs. Bals, Burdick, Charley and Ray, Harry Bresley, Tolen, Cleg Hughes and Johnson and Peters to come to an agreement and they bought everything except one small building which went for a lot more than it will cost to replace it, the entire property bringing something like $9,400. There are 93 shares of stock and the selling price will pay them out with big interest on their money.

A meeting of the new owners will be held Friday evening of this week and it is probable that about four more business men will be allowed to go into the deal in order that there may be a little working capital. It is proposed to fix up the grounds, repaint the buildings after the necessary repairs have been made, put the fences in the pink of conditions and then pull off the biggest fair this fall, ever held in the Loup country. Already the new management is corresponding to make contracts for attractions and as soon as possible an announcement will be made. They want to invite everyone to prepare to show something at the Loup Valley Fair this fall. Probably the date will be a little later than in former years and good premiums will be offered to exhibitors.

It is not the purpose of the new management to make this a money-making business, except in so far as the land may advance in value. There will be no salaried officers and all the owners will devote their time free of charge toward making the fair a success.

REAL ESTATE ADVERTISING

There was probably never so much demand for land as at the present time. The people are hungry for land and they have the money to gratify their appetites. This week the Quiz carries three full pages of real estate advertising and nearly the same amount of space is contracted for by the land men for the next two weeks.

One real estate man who had a large advertisement in the paper last week says he had eighty inquiries last Friday and Saturday regarding pieces of land advertised exclusively in the Quiz last week. There are about twelve thousand people who will read the Quiz this week. A large per cent of them want to buy land. Well, here is the chance. The advertisers in this paper are all reliable men, men who are selling land on a legitimate profit and at fair prices. Read their advertisements carefully for if you don't you may miss a bargain. If a piece interests you go and see the advertiser. If you don't see what you want, go and see your choice of them and they will doubtless have listed just what you want.

D. OF H. HAVE BANQUET

The members of the D. of H. had a banquet Tuesday evening that will go down in the social history of Ord as one of the most enjoyable occasions ever attended by those present. Mrs. Cora Johnson was general superintendent of the whole works and is voted a great success. The banquet was spread at the Bohemian hall, plates being laid for two hunrded guests. The members assembled at the hall first where a short lodge session was held after which they marched in a body to the banquet room. There were a undred and ninety-two who sat down to the two-course dinner which was served by thirty beautiful young ladies. Later the same young ladies led the grand march and those present who wished to do so, enjoyed dancing and music after the dinner.

The hall was beautifully decorated with cut flowers, pink and white, the lodge colors, being used. This lodge has had a remarkable growth in recent months, ninety-seven new members having been added recently.

Compare Goodrich 375's with other Ford Car Tires

If you have not used these husky, *de luxe* tires for the Ford car, go at once to a Goodrich dealer and say to him, "Give me a Goodrich Three-Seventy-Five."

Compare it with an ordinary Ford-size tire, and you will find it bigger and burlier in every way.

* * *

As a matter of figures and measurements, it is an inch bigger on the circumference, and much thicker in the cross section—that is, a *31 x 3½ inch tire.*

That extra size means a finer looking, easier riding Ford car to begin, and a longer lived car and tires in the end.

* * *

Though "Three-Seventy-Fives" cost a little more at the outset, built to meet the especial needs of the Ford car and bring out its known virtues, they soon reveal a greater dollar economy, which makes it the better buy in the long run.

VALLEY COUNTY SCHOOL NOTES

The probable shortage of teachers next year will not need to be a cause for worry to district No. 30 as they have already contracted with Miss Lucy Rowbal. The contract was made in the superintendent's office last Saturday. District No. 30 pays $85 for the coming year. Several other districts are getting their teachers promised for 1919-20. At the present the one mentioned is the only one concerning which any definite news can be given.

Last week there were two of the students from No. 46 in to take examination in high school subjects taken in the rural school in that district. The class periods in the one room schools are necessarily so short that it is extremely difficult to do any where near justice to high school work.

There are several copies of the new Vocational Education bill in the office. Anyone interested in the matter of Vocational Education and bigger and better rural schools may get them. I should be glad to have the opinion of those interested in rural high schools on the matter. Come in and talk it over.

Several of the rural schools are already closed but enough of them are still doing business to make it very interesting to take a day's visiting. Last Friday numbers 17, 41, 52, 62, and 51 were surprised by a visit from the superintendent. Whether or not the teachers were delighted as they seemed, the superintendent was truly pleased, especially at not getting thrown out for visiting on Friday. The schools visited are running in good shape. No. 62 was having their closing day picnic but unfortunately, we were too late for dinner. All that remained was a heap of wreckage resembling no man's land after a German raid. The condition of the roads in places in the western part of the county were not exactly ideal. It would no doubt have been an occasion for a good deal of satisfaction to those who think teaching and kindred jobs a soft snap, to see the county superintendent, with all her dignity laid aside, perspiring and red-faced, putting forth all her muscular powers to coax a balky Ford over the hills in the region of Comstock. You who have been over in those hills which stand up so straight that they lean over backward, need be told no more. It isn't at all pleasant to experience the sense of defeat which follows an undertaking which has to be abandoned but it was finally decided that roads marked open for travel on the map, are not always passable. So it was necessary to turn back in spite of the "push" and perseverance put into the effort to go ahead. The delay made us just a few minutes too late to catch Miss Swain at home at No. 35. The rain which made the roads bad again interfered with visiting on Monday and Tuesday of this week as planned.

ECHOES FROM WOODMAN HALL

Our news did not reach the editor in time last week as our mail failed us, and today it's raining again and we are just wondering if our news will leave our mail box in time to reach Ord in time.

The dance at the National hall was largely attended, in fact the hall was crowded beyond its capacity.

Ray Gilford and wife spent Sunday afternoon at J. Waldmann's.

Otto Radil is the possessor of a new car.

The Farmers Union will be prepared to start buying cream next Saturday, so when you come to town Saturday don't forget to unload your cream can at the Farmers Station.

The Waldmann family attended church services at Sargent Sunday.

The Chas. Kokes and Frank Penas families also attended services at the Sargent church Sunday.

Everything is looking fine this spring although some winter wheat was winter killed the majority of the acreage is doing well and the ground is in fine shape for corn planting.

Rain, rain! we are surely getting an abundance of moisture this spring which is something we can not always brag about. What we need is a few days of sunshine and all nature would be booming and grass cannot come too soon, as we are out of feed and our stock goes out in the pasture daily to see what progress it's making, but so far they always come back disappointed.

MAIDEN VALLEY

School closed at District 38 with a good program and a good dinner with about eighty being present at dinner time.

FARM BUREAU NOTES

Since at this time there is some hog cholera in the county and it will be likely to increase farmers should watch carefully for signs of the disease. A few of the symptoms of which cholera is most easily recognized may help in controlling it. When cholera begins in a herd the hogs do not all become sick at once but one or two will refuse to come up to feed with the herd. They will lie about in the bedding and when driven out their backs may be arched and they may shiver as with cold. As the disease progresses they become tucked up in the flank and have a weak staggering gait, the eyes are inflamed and show a whitish discharge. If the lungs are affected there may be a cough particularly noticeable when the hogs are disturbed. The normal temperature ranges from 101 degrees to 104 degrees, but when cholera is preesnt it is not uncommon to find a large number with temperatures ranging from 104 to 107. As the disease reaches its height red or purplish blotches are likely to appear on the skin of the belly and inner surfaces of the legs. Examination of hogs that die will be useful in diagnosing cholera. The most important changes found are: small blood colored spots on the lungs surface of the heart, on the kidneys, and on the outer surface and inner lining of the intestines and stomach, reddening of the lymphatic glands of the jaw and flank, enlargement of the spleen, and ulceration of the lining of the large intestine. All these symptoms are rarely found in one case. Generally a large part of the herd may be saved by vaccination if action is taken quickly but it is hard to control after it gets well started. The important thing is to lose no time in vaccinating as soon as the disease appears.

C. C. Dale, County Agent.

to start the hail insurance business this season, for with both crop conditions and market prospects never better, even the "well-fixed" farmers feel they cannot afford to risk the loss of the crop when there is protection to be had at so moderate a rate. Hail insurance is the only kind that has not been increased in cost during the past year. In fact, we have a new plan providing for hail insurance up to $27 per acre, that costs less than seven per cent.

While we cannot carry but $12 per acre in the old standby—the St. Paul Fire and Marine—we have other good companies in our agency each ready to carry as much more on the same risk for any who want to have better protection. All will want it too, for the bumper crop in sight.

We are taking applications now, and advise you to cover your wheat very soon, taking advantage of our plan for fall payment if you are short of money now.

Paul Schoening, who has been in the service for a long time, has returned home. It will be remembered he was gassed and was reported dead. He says he has not fully recovered from the effects of the gas but is very much alive. He has many friends who are glad to welcome him home.—Loyalist.

Mr. and Mrs. Hemmett of Burwell, were in Ord last Friday on their way to their home from St. Paul where they had been visiting relatives. Mrs. Hemmett is a niece of E. W. Gruber.

J. W. Carkoske is down at Excelsior Springs and evidently having some time. He says the water and baths and other treatments are having the desired effect however, and he expects to come home better than he has been in years.

Miss Mamie Siler, who has been spending a couple of weeks out at Kimball, writes the Quiz that she has now gone to Excelsior Springs where she will spend a few weeks. She can't say enough in praise of the Kimball ccuntry.

Mrs. E. J. Clements returned to her home at Lincoln Tuesday after several days spent with Ord relatives. Mr. Clements was unable to visit here at this time because he was attending to business matters in Texas.

Ed Panowicz is the new manager of the Farmer store at North Loup. He will be on the job about the middle of the month. Ed was formerly in business in Ord and is well known here. He is a hustler and the farmers are fortunate in securing his services.

W. J. Seeley of Milford, Nebraska, spent a few days the latter part of last week looking after his two farms in this vicinity and attending to other business while he visited relatives. He returned to his home the first of this week. He is a son-in-law of the Collins people.

The body of R. M. Holmes was brought from Taylor the first of the week by Undertaker McLain who went up for the purpose and Tuesday morning was shipped to Livermore, Iowa, for burial. H. J. and U. H. Holmes, sons, accompanied the remains. The former is well known hereabouts as he sold groceries on this territory for many years, later retiring from the road to engage in the wholesale grocery business in Omaha.

Cyrell Rassett was in town a few days the first of the week looking after business matters. He went to Burwell Monday evening to get his car, which was left there on a former visit because of the rain but he was not in much better shape the next morning to get it home because of the rain that night. He says the Loup Valley Packing Company is about done with the excavating for the new plant and much of the material is on the ground and work progressing fine.

Peter Knecht was at the depot the other evening calling for a shipment of grey hounds and the story was started that he was to turn the big ranch north of town into a dog farm. This proved erronious however, as the dogs are intended to keep the coyotes intimidated as soon as they get a little older. They were sent to Pete by relatives who live at Hershey, Nebraska, and are said to be a strain of dogs that will make life almost unbearable for the coyotes, which do so much damage to stock in the hills country.

Florence Ragan was a passenger to Scotia last Friday.

Mr. and Mrs. Charley Hather and children were Grand Island passengers last Saturday.

Last Thursday Mrs. Luther Pierce and little son came up from Horace and were visiting at the home of her parents, Mr. and Mrs. S. J. W. Brown.

Greeley county has selected September 9, 10, 11 and 12 as their fair dates for this fall. Probably the Ord fair will not be until the end of September or possibly in early October.

Have you noticed the advertising of the Ladies' Home Journal, appearing in the Omaha News and World-Herald and the Lincoln Star? If you are interested and want to have the magazine for a year the Quiz will be glad to send in the order for you. It is $1.75 a year if you hurry.

Wayne G. Clements, who came here last Friday from Boulder to attend the funeral of his brother-in-law, M. C. Stacy, returned to his home Monday afternoon and Mrs. Stacy and two children accompanied him, expecting to be out there a couple of weeks. Wayne is the manager for a man who owns four lumber yards and was unable to remain away longer at this time, as the owner was also away from home.

W. M. Richter came up from Grand Island last Sunday on the morning train to look after some business matters for two or three hours between trains.

Our Vinton corresponednt is getting to be such a gadder and has so many irons in the fire that he don't have time to write the Vinton dope and this week he is out.

Dewey Kneipp is home according to the Greeley Citizen of Monday but he has enlisted for another three years of service, and after a short visit with home folks and friends will report for duty. He has a choice of home or foreign service but has not yet decided which he will take.

The best 320 acres in Valley county for $100 per acre

I have finally listed for sale for a short time what is considered to be one of the best 320 acres in the county. I have had this farm in view for several years but haven't been able to get a price on it but now will offer it for sale at $100.00 per acre and it is equal to land that we are selling at $150.00 per acre. This farm is well located to town and rents for two-fifths of all grain delivered to town and a good cash rent for the pasture and hay land. Buildings are fine, soil is the very best and all level but about twenty acres, 200 acres under cultivation balance pasture and hay land. This won't be on the market at the price it is offered for ten days, it will sure sell. If you want a choice place come in and arrange to look it over.

If you want to sell your farm I want to list it, come in and give us a description and your price and we will get busy and try to find you a buyer. Four farms sold last week through this agency that have been listed for less than 30 days.

Farm and city, hail and automoblie insurance will receive careful attention, both in writing and adjusting. Only legal reserve companies represented.

Sunday School, 10 a. m. B. Y. P. U. at 7 p. m.

Prayer Meeting, Thursday 8 p. m.

You are welcome to all these services.

Miss Nellie E. Lucas, returned Missionary from Burma, will be with us all day next Sunday. Miss Lucas will interest you. She will have a special message to the young ladies of our church and congregation. She is at the present time conducting special conferences in Iowa and will stop off at Ord on her way to the Northern Baptist Convention which will be held in Denver the last of this month. Do not fail to hear Miss Lucas on some of the very vital questions of the day as touching missionary effort in other countries which have been of such great help in winning the recent war with Germany.

The services last Sunday were well attended. Some new faces were present. We want to see them again, often, very often. The ordinance of Baptism was administered in the evening. We are praying that more may follow their Lord in this public way.

Charles J. Bukoutz, Pastor.

FARM BUREAU NOTES

Since at this time there is some hog cholera in the county and it will be likely to increase farmers should watch carefully for signs of the disease. A few of the symptoms of which cholera is most easily recognized may help in controlling it. When cholera begins in a herd the hogs do not all become sick at once but one or two will refuse to come up to feed with the herd. They will lie about in the bedding and when driven out their backs may be arched and they may shiver as with cold. As the disease progresses they become tucked up in the flank and have a weak staggering gait, the eyes are inflamed and show a whitish discharge. If the lungs are affected there may be a cough particularly noticeable when the hogs are disturbed. The normal temperature ranges from 101 degrees to 104 degrees, but when cholera is preesnt it is not uncommon to find a large number with temperatures ranging from 104 to 107. As the disease reaches its height red or purplish blotches are likely to appear on the skin of the belly and inner surfaces of the legs. Examination of hogs that die will be useful in diagnosing cholera. The most important changes found are: small blood colored spots on the lungs surface of the heart, on the kidneys, and on the outer surface and inner lining of the intestines and stomach, reddening of the lymphatic glands of the jaw and flank, enlargement of the spleen, and ulceration of the lining of the large intestine. All these symptoms are rarely found in one case. Generally a large part of the herd may be saved by vaccination if action is taken quickly but it is hard to control after it gets well started. The important thing is to lose no time in vaccinating as soon as the disease appears.

C. C. Dale, County Agent.

No Storm Is Needed

to start the hail insurance business this season, for with both crop conditions and market prospects never better, even the "well-fixed" farmers feel they cannot afford to risk the loss of the crop when there is protection to be had at so moderate a rate. Hail insurance is the only kind that has not been increased in cost during the past year. In fact, we have a new plan providing for hail insurance up to $27 per acre, that costs less than seven per cent.

While we cannot carry but $12 per acre in the old standby—the St. Paul Fire and Marine—we have other good companies in our agency each ready to carry as much more on the same risk for any who want to have better protection. All will want it too, for the bumper crop in sight.

We are taking applications now, and advise you to cover your wheat very soon, taking advantage of our plan for fall payment if you are short of money now.

Miss Mamie Siler, who has been spending a couple of weeks out at Kimball, writes the Quiz that she has now gone to Excelsior Springs where she will spend a few weeks. She can't say enough in praise of the Kimball country.

Mrs. E. J. Clements returned to her home at Lincoln Tuesday after several days spent with Ord relatives. Mr. Clements was unable to visit here at this time because he was attending to business matters in Texas.

Ed Panowicz is the new manager of the Farmer store at North Loup. He will be on the job about the middle of the month. Ed was formerly in business in Ord and is well known here. He is a hustler and the farmers are fortunate in securing his services.

W. J. Seeley of Milford, Nebraska, spent a few days the latter part of last week looking after his two farms in this vicinity and attending to other business while he visited relatives. He returned to his home the first of this week. He is a son-in-law of the Collins people.

The body of R. M. Holmes was brought from Taylor the first of the week by Undertaker McLain who went up for the purpose and Tuesday morning was shipped to Livermore, Iowa, for burial. H. J. and U. H. Holmes, sons, accompanied the remains. The former is well known hereabouts as he sold groceries on this territory for many years, later retiring from the road to engage in the wholesale grocery business in Omaha.

Cyrell Rassett was in town a few days the first of the week looking after business matters. He went to Burwell Monday evening to get his car, which was left there on a former visit because of the rain but he was not in much better shape the next morning to get it home because of the rain that night. He says the Loup Valley Packing Company is about done with the excavating for the new plant and much of the material is on the ground and work progressing fine.

Peter Knecht was at the depot the other evening calling for a shipment of grey hounds and the story was started that he was to turn the big ranch north of town into a dog farm. This proved erronious however, as the dogs are intended to keep the coyotes intimidated as soon as they get a little older. They were sent to Pete by relatives who live at Hershey, Nebraska, and are said to be a strain of dogs that will make life almost unbearable for the coyotes, which do so much damage to stock in the hills country.

Florence Ragan was a passenger to Scotia last Friday.

Mr. and Mrs. Charley Hather and children were Grand Island passengers last Saturday.

Last Thursday Mrs. Luther Pierce and little son came up from Horace and were visiting at the home of her parents, Mr. and Mrs. S. J. W. Brown.

Greeley county has selected September 9, 10, 11 and 12 as their fair dates for this fall. Probably the Ord fair will not be until the end of September or possibly in early October.

Have you noticed the advertising of the Ladies' Home Journal, appearing in the Omaha News and World-Herald and the Lincoln Star? If you are interested and want to have the magazine for a year the Quiz will be glad to send in the order for you. It is $1.75 a year if you hurry.

Wayne G. Clements, who came here last Friday from Boulder to attend the funeral of his brother-in-law, M. C. Stacy, returned to his home Monday afternoon and Mrs. Stacy and two children accompanied him, expecting to be out there a couple of weeks. Wayne is the manager for a man who owns four lumber yards and was unable to remain away longer at this time, as the owner was also away from home.

W. M. Richter came up from Grand Island last Sunday on the morning train to look after some business matters for two or three hours between trains.

Our Vinton corresponednt is getting to be such a gadder and has so many irons in the fire that he don't have time to write the Vinton dope and this week he is out.

Dewey Kneipp is home according to the Greeley Citizen of Monday but he has enlisted for another three years of service, and after a short visit with home folks and friends will report for duty. He has a choice of home or foreign service but has not yet decided which he will take.

PEOPLE WANT SERVICE

The announcement, made recently by Secretary Burleson that he would very shortly turn the telegraph, telephones, and cables back to the private owners, seems to strike a popular chord, judging by remarks of both the press and of individuals. This feeling on the part of the people, the people means you and I and all of us, is not due so much to lack of service for the government has not been long enough in control of this branch of service to give service or fall down on it. A part of it is due to the increased cost and a large part, is saddled onto the iniquities of the government control of the railroads.

There was a time when a much larger per cent of the people were in favor of government ownership of the railroads than there are today. Of course it must be remembered that the railroads were taken over when there were unusual conditions confronting the nation and all business was sacrificed for the war business which was right and proper. Unfortunately for the experiment of government ownership though, the men who were opposed to the government owning and operating the railroads were left in control and they did just as many others would have done, worked for their own interests and they have made government ownership unpopular.

For various reasons we don't get the service that we used to get. As an illustration an Ord business man, one day last week, wanted to send a telegram and called the depot. He received no answer. There are two phones and while he called at one phone an employe tried the other and after a lot of futile effort he cranked his car and drove down with his message. He wasted a half hour or so of his valuable time without saving the government employes at the depot any time for the message could have been taken over the phone just as quickly and there would have been no incentive to visit for a few moments. Later office employes admitted hearing the phone but said they just thought they would not answer it and there was no reason on earth for not doing so except damcussedness.

It is these things that are causing the people to be pleased with the announcement that the wires will be turned back and to hope that the railroads will soon be returned to private ownership, for they want to again welcome the days of alleged competition when there was at least a semblance of effort to please the buying public. Government control, as we have seen it, is not popular.

BROWN PUTS HOT ONE ACROSS

Washington, D. C., April 28, 1919.

Dear Mr. Leggett:—

My Quiz arrived a usual this afternoon and I spent my evening in reading it from start to finish. There surely is a nice display of ads for a weekly paper. Say, Mr. Leggett, everyone of the progressives in and around Ord are crying for civic improvements. Well in Ord, I'm only a kid so to speak and perhaps what I have to tell you here will not carry much weight, but I don't expect to stay a kid all my life and I have this idea which I think might help. Then too, there is a verse of scripture which says: "And a little child shall lead them." Not that I'm going to lead any one but I just want to express my opinion.

A few years ago Ord had an awakening. I guess you could call it that. Anyway the dealers formed a commercial club and the organization existed for five years. At the end of that period our business men evidently thought that they were not getting value received on their investment for they allowed the organization to die a natural death. By this time I guess Ord had gone back to her hole like the ground hog did on February second. According to the tradition about the groundhog's actions, he comes forth from his hole again in six weeks but the Ord commercial club has forgotten to come out again.

I just finished figuring out how many real live firms and professional men we have in Ord, men who really take an interest in civic affairs and who would see an increase in business in a more populous up-to-date Ord. I think I can safely say that there are 75 such firms in our town who would be willing to invest say, ten dollars a year in such an organization. No doubt there are a hundred and twenty-five or fifty who could be induced to join the club.

The principal benefit derived from such an organization would be an advertising of the resources of our town and the Loup Valley. The Quiz says advertising pays the merchant, then why shouldn't it also pay the town. An increase in population means an increase in business. Put Ord on the map.

Charles Masin wrote to the Quiz some time ago singing the praises of California. He mentioned some of the needs of Ord, among them a Public Library. Our commercial club could perhaps secure financial aid from Mr. Carnegie. California takes pride in her public improvements. First she improves, then she lets the whole country know that she has done so. Her commercial clubs and chambers of commerce are the medium through which she works.

When an automobile show for Ord was suggested, the idea was considered a good one and immediately funds were solicited. The response was general and the show will be a reality. Perhaps this is Ord's awakening. If it is, let us hope that our enterprising business and professional men will organize. And too, to advertise Ord is to advertise the contingent territory.

Therefore, if the commerical club becomes a reality the farmers must be invited to put their shoulder to the wheel for a "Better and Bigger Ord."

Well Mr. Leggett, perhaps you agree with me and perhaps you don't. If you do I'd like to have you start the commercial club propaganda in the Quiz both in your own column and on the front page.

And I would like to hear what Mr. Coats thinks about the farmers joining the club.

If you see fit to publish this in the Quiz I am going to request that you withhold my name, for the older heads of Ord might take it as a joke were I to be named as the author of this dictating letter.

I will say this much in favor of the plan: If Ord doesn't do some thing in the near future, the towns of Loup City Burwell and St. Paul are going to put it over on us and our ambitious young fellows now in Universities are going to look for more progressive towns to locate in.

Yours a Booster.
F. ROSS BROWN.

Editor's Note:—This is a good letter and I am going to take advantage of the writer and print his name and he don't need to be ashamed of it either. Last week I signed my name to an editorial on this very subject and at the time didn't know that Mr. Brown or anyone else was thinking about the needs of Ord along this line. Since that article was printed I have talked about the matter with several business men and we may vote on results.

WE GET CALLED DOWN

Mitchell, Nebr., May 2, 1919.

Editor Quiz:

Dear Sir:— Your picture arrived some months ago; have been so busy looking at it that I have not taken time to read the letter until today, so will send the check at once.

We can't agree with all your dope either, especially when you said that Valley was as good a county as Scottsbluff, for we know that it is not, for we have lived in both places while you have not, so we will excuse the mistake.

Don't think we could improve the Quiz any as that is out of our line of business, but we would like to ask a question. We notice that once in awhile you put the Vinton dope in small print, is it for lack of space or does the hot air shrink the type? Will close.

Yours truly,
E. W. COLLINS.

PLANNING FOR MEMORIAL DAY

The old soldiers and the ladies of the G. A. R., anticipate that this coming Decoration Day will exceed any we have ever observed.

Our returned soldiers expect to organize a Legion War Post as soon as they receive the proper credentials.

If the weather permits we expect the largest assembly of people Ord has ever had and it is hoped that the citizens will be prepared to entertain them.

T. B. LANE, Commander.

OPPORTUNITY FOR ART LOVERS

Here is a splendid oportunity for art lovers to secure the Bukoutz paintings at very reasonable prices.

As it is impossible to keep a collection but a few days, on account of the demand, I would ask you to call within the next two or three days and see the wonderful effects produced in my landscapes. I claim to get effects seldom found in the largest art exhibits.

6-1t M. E. Bukoutz.

NOTICE TO WATER CONSUMERS

All water consumers who have outside hydrants which are used for sprinkling lawns or gardens, and do not expect to use the same during the coming summer, must notify the Light and Water Commissioner as to their intentions, in order to avoid being charged the regular Hydrant rental which applies during the summer season.

METHODIST YOUNG PEOPLE TO HOLD INSTITUTES

Four Summer Gatherings Scheduled For Iowa and Nebraska Points.

Arrangements have just been completed for holding four Epworth League institutes within the bounds of the Omaha episcopal area, comprising the states of Iowa and Nebraska, during the coming summer. These institutes are a feature of an extensive educational program being carried out by the Epworth Leagues in connection with the missionary centenary movement of the Methodist Episcopal church.

Rev. F. P. Quick of Council Bluffs has been appointed chairman of the Epworth League work in this area, which will be held during July and August. The places selected for the gatherings are Okoboji and Clear Lake in Iowa, and Lincoln and Valley in Nebraska.

There are 889 chapters of the Epworth League in the Omaha area, with a membership of about 36,000. This army of young men and women is being trained in the principles of Christian democracy through special study courses which extend throughout the year and culminate in a week of special intensive study at the institutes.

Forty-five of these institutes are to be held in various parts of the United States this summer. The morning hours are devoted to devotional exercises and class room work, while the afternoons are used for athletics and recreation.

A special effort is made at these institutes to enlist young people for ministerial and missionary work. Last year over four hundred candidates were found, and it is expected that on account of the special emphasis being laid on this department by the centenary committee that fully twice that number will volunteer for Christian life service this year in the Omaha area. Already a good start has been made toward that goal.

Meet me at Milford's.

On Tuesday afternoon train Evelyn Westburg returned to North Loup.

Fay Bundy was visiting relatives in Scotia between trains last Saturday.

Monday Mrs. Jay Auble and children were passengers for Grand Island where they were to visit the former's people.

Monday Mrs. Hosman went down to Omaha as a delegate to the National Woman's Home Missionary Society.

Mr. Buttrfield, one of the former owners of the People's Store, was in Ord last Saturday.

Saturday evening the parents ofMrs. R. J. Patrick came up from Grand Island for a visit.

The ladies band advertise a sale of baked and other things again for Saturday of this week.

Attorneys Hardenbrook and Norman are attending to legal matters at Arcadia today.

Monday evening Frank Judd returned from a business trip to Hastings and several other points.

Gertrude Anderson returned home Saturday evening from a visit with a sister at Horace.

A. M. Mutter was at the station last Monday to meet his daughter Mrs. Curt Parsens who was coming to Ord for the day.

Marguerite Brown and Pearl Ward returned Tuesday from Merna where they attended a C. E. convention as deleyates from the Ord society.

Monday Mrs. John Athey returned home from Clay Center and was a guest for a few hours of Mrs. Stella Siler.

Last Saturday Jessie Hulbert was a passenger for Blair. Her home is in Winner, S. D., but she has been in Ord on a visit.

The writer stopped at the Desch Bros. Marble works Saturday morning to see the beautiful monuments that are being prepared for the beloved dead, who have been taken from Ord families during the last few months. There are something like fifteen monuments nearing completion and ranging in price from one hundred to over five hundred dollars each. There is not space to mention each one but Desch Bros. assured us that any one was allowed to inspect them. As we stood by the monuments being prepared for such men as Dr. Vinnedge and Warren Draper, the overwhelming conviction came that never again would their happy, cheerful voices be heard by their Ord friends. We recalled pleasant little incidents that had occurred in our business dealings with these men and little reminiscences in the lives of all of the people whose tombstones were nearing completion. Seeing these stones standing side by side the knowledge that Ord had suffered a terrible loss this winter was brought home with an overwhelming conviction. We trust that on Desoration Day every flower will be gathered and that as far as possible everybody will ture out to do homage to the dear ones, who are sleeping in our silent city.

A. W. Cornell and John Bremer left this morning for Kimball, Nebr.

The Clyde Ramel family returned last week from an overland trip to Mason City.

Marguerite Thelin was visiting in Ord from Friday until Sunday with her grandparents Mr. and Mrs. Tom Rockhold.

Mr. and Mrs. Chas. Kriz returned Monday to St. Paul after a visit with their relatives, the Frank Kriz family.

Leta Horn of Elba, was in Ord between trains last Monday, and Dr. Hemple was up from North Loup.

METHODIST WORLDS FAIR AT COLUMBUS

The Methodist centenary campaign for $105,000,000 will culminate in a grand jubilee celebration at Columbus, Ohio, from June 20 to July 13. One of the advertising slogans much used by the publicity bureau of the celebration is "The World Brought to Columbus." There is to be a new sort of a "Midway" at this world's fair. The side shows are to be reproductions of scenes in Africa, China, Korea, Japan, India, and practically every one of the 36 foreign countries in which the Methodist church has established mission work.

There will also be exhibits of many phases of American life. Scenes from New York east side, southern plantations, the far west, the southern mountaineers, and many other interesting places in this country will be reproduced.

The centenary campaign was originally intended to be a commemoration of the founding of mission work among the Wyandotte Indians of Ohio in 1819, but the present world emergency has led the church to greatly enlarge the scope of the movement, which is now primarily to readjust the whole machinery of the church to meet the new situation. The Columbus celebration, however, is much in line with the original plan, and is expected to draw thousands of visitors from all parts of the world.

A tent city with the capacity of the largest army cantonment and able to house the population of Omaha or Des Moines, has been planned for the entertainment of thousands of the visitors. Many have already signified their desire to "live in the open if possible," during their visit to the exposition.

METHODIST PLAN FOR WORK IN EUROPE.

The centenary movement of the Methodist church includes an extensive program of community centers, orphanages, schools and churches in the devastated parts of Europe, as well as supplying food, medicine, nurses, and household and farm utensils. Bishop William F. Anderson has just returned from an extensive tour of these regions, and declares that the need for such assistance is very great.

"There is a tremendous amount of work to be done," said the bishop. "We spent six days visiting the battlefields from Lille to Verdun, and became convinced there is the greatest opportunity and demand for the kind of work we are preparing to undertake in France."

Big Increase in Fisk Sales Due to Fisk Durability and Value

MOTORISTS today are buying tires on the basis of actual results. Here is a condition that is leading to a great demand for Fisk Tires —for Fisk *visible value* stands out today in terms of greater mileage, longer life, more distinctive appearance and greater tire economy.

In every line of business there is always one product that stands out head and shoulders above the average. Experienced motorists know the difference in tires, and they know the superior mileage and wear delivered by Fisk Tires.

You'll like the type of dealers who specialize in Fisk Tires—alert, foreseeing men who know comparative values in tires, and who know that success comes to those who serve their public.

The Fisk dealers in this community have a message for you.

EDUCATION IN NEBRASKA

There is no question that should hold greater interest for Quiz readers than that of education and we are printing an article this week from the pen of a Central Nebraska legislator and member of several recent sessions of the house, explaining the present school laws to some extent. It is as follows:

The question of consolidated schools has been a very much discussed one for the past two sessions. The 1917 session passed the Ollis bill, but two years of experience has found it unworkable inasmuch as it provided that a petition of 35 per cent of the school electors of 60 per cent of the districts of a county was required before a districting of the county took place. In the meantime, in nearly every county in the state, individual consolidations were taking place under a former act without the future welfare of territory lying outside of that particular district being taken into consideration. At the beginning of the past session there was a demand from the leaders of the farmer organizations and many others interested in this subject that something be done along that line. After many days and nights of debate over the different ideas of those interested, a bill was agreed upon known as the Jacobs bill, or H. R 354. This bill provided that the state should be laid out into consolidated districts and the sites established, but if 40 per cent of the school electors in any laid out district remonstrated, then an election was to be called. After a very heated debate this bill was advanced to third reading, but on final passage it failed to get all the farmer votes and was killed. Several attempts were made to get the two factions together and review the bill, but the farmer members for the most part claimed under the working of the Jacobs bill if a consolidated school was established in a town that the vote of the entire district would force the rural people into that district whether they were willing or not.

On the sixtieth day of the session the writer made a request to the governor that some legislation should be enacted on this subject. The governor expressed his willingness to introduce a bill providing it met the approval of the two factions, the rural people and the towns. Representative Byrum and myself drew up an outline of a bill to be introduced before adjournment that day as Senate File 261, and during the adjournment over Sunday Senator Taylor and myself drew up the substitute amendment which was endorsed by the educational committee of the senate and passed by both houses without further amendment and without apparent opposition.

Under this bill, within twenty days after this law becomes effective the county board shall appoint two school electors of the county who with the county superintendent shall constitute a committee which shall lay out all the territory of each county in the state into districts for high school and consolidated school purposes. They shall also establish the site for the school house. In the adjustment of the district boundaries, as far as practicable the lines shall be on the half section line and the standard district shall contain twenty-five square miles but may be more or less if it is for the best interests of the community concerned. After these lines have been laid out a provision is made for a hearing where any school elector may appear before the county superintendent and file objections to the lines or site as laid out. After such hearing the committee make such changes as is thought best. A second appeal may be made by 25 per cent of the school electors of any such new district filing a protest with the state superintendent against the establishment of boundaries and site as laid out by committee. The state superintendent shall hold a hearing on the rearranging of the boundaries. At any time after all of the boundary lines and school site have been established an election may be called by the filing of a petition of 25 per cent of the school electors living in any one of the proposed high school or consolidated districts. If a majority of the votes cast in such proposed districts are in favor of starting the school, then the county superintendent shall declare the district established, provided that if the proposed new district contains a consolidated or high school when a petition of not less than 51 per cent of the school electors in said new district residing outside of the existing organized consolidated or high school districts shall be filed with the county superintendent, then he shall declare such territory to be so annexed.

While perhaps this bill does not do all that was expected by some, it at least lays out the boundary lines and establishes the sites for future consolidateions.

Senate File 180, a bill on the certification of teachers, was a bill of considerable importance. Under the old law there were twenty-eight different methods for teachers to obtain certificates. A bill was introduced in the house to meet the ideas of the normal school people and the one in the senate was drawn by a committee of the city superintendents of the state. After several public hearings held by the senate educational committee, a substitute bill was drawn to meet a compromise of the school people of the state, which went through with very little amendment. This makes considerable change in the certification law, and many of our best educators think it is the best law on that subject in any of the states.

H. R. 69 provides that where pupils live more than two and one-half miles from the school house in their own district, the district must furnish free transportation or pay tuition to other schools it so desired.

Senate File 73 provides for a course of study for rural schools and colleges including all subjects required by second grade examinations for teachers' certificates, or an addition of civil government and book-keeping or farm accounting to the subjects usually taught heretofore in the first eight grades. The argument for this is that out of the nearly 200,000 boys and girls of school age in the rural schools, only a small per cent ever go beyond the eighth grade, and this will give them a chance to study these two very essential subjects.

Senate File 85 is a companion bill providing for the eighth grade examination in the subjects called for by S. F. 73 and making some changes in the manner of holding such examinations. These bills were endorsed by the farmer members of both houses.

H. R. 384 provides for an annual exhibit of the school work of each school district in the county, to be held in the county seat under the supervision of the county superintendent also to provide for an exhibit at the county and state fairs. The sum of not less than 2 1-2 cents nor more than 5 cents for each child of school age in the county is to be appropriated by the county board out of the general fund of the county for this purpose.

Senate File 24, the foreign language bill, is regarded by many as the most important piece of legislation passed at the late session. While only a very few members of the legislature were against the passage of this bill, influences were brought to bear from the outside to hold it in conference for over a month after its passage by both houses, and many attempts were made to defeat the intent of the bill. As the writer of the draft of the bill finally agreed upon, I feel that it will be of inestimable value to the education of the boys and girls who will comprise our future citizenship.

This law if complied with, will work no hardship on any person who has a sincere desire in his heart to be a true American citizen, and those who do not have that thought uppermost in their minds, we should not legislate for.

H. R. 64, more familiarly known as the "parochial school bill" created the most bitter fight of any subject before either branch of the legislature, and no doubt more pressure and more threats were made against members from the outside to influence their votes than on any measure passed at this session or many others. And had it not been for a few members who stood true to their convictions, instead of looking after their future political welfare, the bill would have been amended so that it would have been useless to pass it at all.

The provisions of the bill require that all private denominational and parochial schools in the state, and all teachers employed or giving instructions therein, shall be subject to and governed by the provisions of the general school laws of the state so far as the same apply to grades, qualifications and certification of teachers and promotion of pupils. They shall have adequate equipment and supplies, and shall be graded the same, and shall have courses of study for each grade conducted therein substantially the same as those given in the public schools.

Where the children attending would attend in the absence of such private and parochial schools all these schools shall give in their proper grades American history and civil government, both state and national, as will give the pupils therein a thorough knowledge of the history of our country and of our form of government, and shall conduct such patriotic exercises as may be prescribed from time to time by the state superintendent. The county superintendent where any private or parochial school is located shall inspect such schools and report to the proper officers any evidence of the use of any text books or any activities, instruction or propaganda therein subversive of American institutions and republican form of government or good citizenship.

There was also some change in the truancy law as to compelling children to attend school.

H. R. 106 requires that all teachers in public, private or parochial schools shall be citizens of this country. While this may create a hardship on a few innocent parties, there is need for such a law, as in one county in the state during the late war there were forty-two alien enemies teaching in the schools.

The Milling Situation

¶ We are glad to announce that the milling situation is almost back to normal. During the war times all mills, or all of the smaller mills, labored under great difficulties and it is safe to say that none of the small mills made any money. The large mills had the edge over us all the time.

¶ However, we kept our service up to the usual high quality all the time and now that conditions are rapidly getting back to normal we can again furnish all our well known brands of flour.

TOWN OR COMMUNITY

There is great difference between town and community. We can tell whether a man is thinking in terms of the past or the present f by whether he uses the first or the second. The town is a political unit marked out for convenience in political administration and has no other justification. The community is a business and living unit.

The man who thinks in the past regards the town as something distinct in itself and independent of surrounding territory. The man of the present knows that the town, so-called, is only a part of a larger productive unit. He realizes that surrounding farm territory is to the town what factories are to the city, and that this whole production unit or community must cooperate to achieve desirable results.

But he goes further. He realizes that the farming or primary productio nis the chief factor in community growth and that the town business is logically service to this primary production. Prosperous farming builds prosperous towns; towns built at the expense of the farming do not build very much.

Unfortunately for community development many of our towns have been dominated by men of the old ideas by men who secured their private gain by bleeding the farmers rather than by service, and by men who owed allegiance to interests outside of the community. It has been necessary for our farmers to wage a bitter fight against men of this kind. We are now in the midst of the struggle in the Northwest and perhaps the trees are too thick to enable us to see the forest, But the present struggle will quickly pass.

In its place will come a new vision of community life in which farmers will find friends rather than business foes in the townsfolk and in which prosperous farming will build up the better town. The towns will purge themselves of the anti-community interests.

THIS IS YOUR TOWN

What kind of a town would this be if every citizen was like you?

This question should come into the mind of every man or woman who dares to think about improvements of any kind Unless you are trying to make a satisfactory answer to the question above, unless you aim to have a good town, even if everybody in it is like you, you have no right to expect betterments.

The people who live in towns cannot get away from the fact that reputation comes to a town or city in proportion to the character of its inhabitants. If the merchants here rob and cheat, the town will have its reward. If the merchants are fair, liberal and wise, the reward will also come, and in a pleasing manner.

We hear folks always saying that the newspaper ought to do this and that. Most of the time the newspaper ought to do as they say, but, let the citizens generally turn their artillery upon the selfish citizen, the narrow-minded dweller who demands profit before he will move a peg. Let us all get in behind the progressive element, better the conditions of the city, improve the chances for living in our midst, and help others to help themselves.

IF IN DOUBT

If any man shall be in doubt regarding the present intentions of the vast army of federal office-holders as to the presidential contest next year, then I advise the doubter to have a quiet conversation with some prominent office-holders under the Wilson administration.

Such a talk will leave no manner of doubt as to the intentions of the federal salary-drawers. They have decided that there is one and only one right candidate for the presidency next year. They say the one campaign issue will be endorsement or rejection of the league of nations treaty. They further contend that a vast majority of the American people will favor the endorsement of the league of nations treaty, and naturally they will want for president the man who originated and brought about the formation of the league of nations.

Yesterday I had a long talk with a gentleman who holds a fine federal position with a comfortable salary attached. In his view no other name than the name of President Wilson will be named in the next national democratic convention when the roll of states shal be called for the presentation of candidates for the presidential nomination. He became so enthusiastic on the subject that he even predicted that the republican convention might adjourn without making a nomination, leaving no obstacle in the pathway of the president for a third term.

It would not be right at this time to even intimate that President Wilson has given his approval to this third- term propaganda. Indeed he may not be aware that the federal salary drawers are putting forth such propaganda. But it is time for the country to awake to the situation. It is time for Americans to begin clinging a little more closely to their Americanism. It is time to begin organized opposition to any and all propaganda for the election of a third-term president. Let us not forget, in our great effort to put down autocracy over the sea that danger to the republic lurks very near to third-term autocracy at home.—Edgar Howard in Columbus Telegram.

A 100 per cent increase is impending in the price of coffee, because of a "norther" that froze all the cotfee plantations in Brazil. This is a reasonable sort of excuse, and might be accepted were it not for the fact that not so very long ago an American syndicate had underwritten the Brazilian government which was carrying an untold number of millions of bags of coffee on which it had guaranteed the price. Some folks may think it odd, also, that only the coffee trees suffered. To a man up a tree, it looks like the coffee dealers want the money.—Omaha Bee.

The great trouble with President Wilson's statesmanship, which he says runs on a single track, is that it meets itself so often in head-on collision. It is absolutely impossible, for example, to reconcile the self-determination principle of his famous fourteen points with the policy he has concurred in, as a member of the peace conference, with reference to Danzig and Poland, Fiume and Italy, or Shantung and Japan.—Aurora Republican.

Dear reader, from now on watch the democrat papers and note the slams they take at General Wood. He appears to be gaining in popularity as a republican presidential candidate for next year and his popularity will increase. Seeing this the democrat brethren will attempt to belittle him.

A lot of folks were disappointed last Sunday because it rained so they couldn't go to church. The rain also disappointed some who wanted to go fishing.

Beware of "Orphans" in Buying a Car

"One of the most vital factors in the purchase of a motor car," said E. S. Bair today, "is the financial standing and commercial reputation of the company building the car. This consideration is equally as important as the car itself. The man who is about to buy a motor car, first of all should ask himself the question: 'Of the companies I have in mind, how many will be in existence five or ten years fromnow?'

"After this question has been answered to the satisfaction of the prospective buyer, he should then take up the merits of the several cars he has in mind. It is this kind of intelligent buying that has been one of the greatest factors in the wonderful success of the new Essex. The Essex Motors is one of the strongest financial organizations in the automobile business. The men back of it are some of the most successful and best known in the industry. The stockholders are actively engaged in the building of the Essex and there is no stock subject to stock market juggling.

"The standing of this organization is the guarantee of the purchaser that his investment in a car will be safeguarded in every way. We all know of persons who have been unfortunate enough to buy cars only to see the makers go out of existence in a short time. The millions behind the Essex Motors, the acknowledged excellence of its product and the confidence it enjoys in the industry are the best guarantees of its stability."

LOUP VALLEY FAIR ASSURED

As stated in the Quiz last week, the local fair grounds were bought by a bunch of local business men and it is the present plan to have the best fair this fall, ever held in the county and from the encouragement being received it looks as if there would not be room on the grounds for the exhibits that will be brought. Already stockmen are speaking for stalls and pens, one breeder of draft horses having agreed to bring eight head and another said he would have several nead there. A breeder of Herefords agrees to show a full class and several hog men have said to reserve pens for them. The secretary has a plat of the stalls and pens at his office and will reserve pens and stalls at any time and if you reserve your space early you will be sure of having a place.

At a meeting of the new owners of the grounds held at the office of Irl D. Tolen last week, the following officers and directors were elected for this year: Chas. Bals, president, C. S. Burdick, vice-president, H. D. Leggett secretary, and Irl D. Tolen treasurer. The directors are nine in number and include the list of owners as follows: Chas. Bals, C. S. Burdick, H. D. Leggett, Irl D. Tolen, C. F Hughes, Harry Bresley, E. L. Johnson, August Petersen and Ray Burdick.

For the first time in several years there will be a fair for four days this fall, the dates selected being September 30 and October 1, 2 and 3. The fair starts on Tuesday September 30 anu the first day will be a free day, that is there will be no tickets sold that day, but all the exhibits will have to be there on that day. There will be some minor attractions to make it interesting for any people who may be on the grounds.

At the meeting last week Ray Burdick was made a committee to look after the grounds and he will see that they are put in shape and kept so. The new owners don't want stock on the grounds and this will be notice to everyone to keep their stock out. It is the intention to build a new ticket office at once and make the necessary repairs on the buildings and fences. The buildings will all be newly painted also. There will be some splendid opportunities for big signs on the fences and the roofs of the buildings and if you are interested better see Ray Burdick about the matter.

The following superintendents were appointed for the various departments: Horses, Chas. Bals; cattle and sheep, C. S. Burdick; Hogs, August Petersen, Poultry, Harry Bresley; Sports, E. B. Weekes; Races, Cleg Hughes; Concessions, Ray Burdick; Art Hall, Harry Abernethy and Flavia Twombly; Agricultural Hall, Ed Johnson and George Gaghagan, Archie Keep and John Klein will have charge of the gates, W. T. Detweiler will be superintendent of the machinery department, D. B. Huff will be superintendent of the automobile department and Miss Lelia Moorman will have charge of the school display, H. D. Leggett and Ray Burdick will look after the advertising.

It is the plan of the new management of the fair to take the people fully into their confidence. Every one of the men who are backing this enterprise with their money are doing so because they believe the fair is a good institution and that it should be perpetuated. They believe the time will come in a few years, if the fair was allowed to lapse, when the people would demand a fair again and then it would be hard to find a suitable location close to town. A better situation could not be found that we have now and if good fairs can be held and made to pay expenses the owners of the grounds will be satisfied. They are not going into the enterprise with the expectation of making money only as they believe the grounds will increase in value, in fact they believe they are worth more now than they paid for them. If such proves to be the case however, it is the good fortune of the purchasers for they paid more than any one else would give. The Quiz lieves the enterprise should have the support of the public now with nine stockholders just the same as it should have had it with ninety-three stockholders. Every one of the new owners will be a booster and will work without pay for the good of the fair. With a little cooperation on the part of the merchants we can haye a great fair. There should be big exhibits of all kinds of stock and of machinery, automobiles, tractors. The local merchants such as hardware, should reserve space and make an exhibit. It would be profitable if real estate dealers would have a booth down there and pass out literature and talk with prospective buyers, bankers could have a booth and shake hands with and welcome their customers and friends at the fair, having a representative of the bank there from ten a. m. to 5 p. m. each day of the three days of the fair.

The new management will welcome suggestions and invite one and all to talk the matter over with any of the officers or directors at any time, All suggestions for a better fair will be considered. They want you to feel that it is your fair and they want you to help make it a success.

HAVE FINE BABY BOY

Word comes to the happy grandparents that Mr. and Mrs. Everett Hosman of Spencer, have a baby boy. Mr. Hosman has been elected city superintendent and will be here to take charge of the schools at the beginning of the next school year.

Lieut. Earl Wise arrived home this week on a fifteen day furlough. He has no idea when he will receive his discharge.

VOPAT SELLS LOTS OF LAND

During the week ending May 10, F. J. Vopat sold, through the agency of W. S. Rodman of Kimball, 2240 acres of Kimball county land, mostly to Valley county farmers, some of whom will soon go onto the land. Some bought for the investment and the raise is sure to come in the next few months, Those who bought are as follows: Will Cronk 640 acres, A. J. Campbell 160 acres, George Hubbard 320 acres, James Hoseck 320 acres, John Beams 320 acres, A. W. Cornell 160 acres, W. H. White 160 acres and H. A. Schoff 160 acres The last two men are David City men. Mr. Cronk got busy when he saw the section which he bought, advertised in the Quiz by Mr. Vopat and drove out to Kimball and bought it. Rowan Sutton of Ashton also saw the place advertised in the Quiz and drove to Ord at once to see Mr. Vopat about it and later drove to Kimball, fully intending to buy the place. However he arrived there just after Mr. Cronk had closed a deal for the place. George Hubbard, one of the other purchasers, sold his quarter east of Ord a few days ago for the biggest price ever paid in the county for a quarter, considering the fact that he retains this year's crop. The men who bought on this trip seem to be highly pleased with crop prospects out there. They say there was a three-inch rain a week ago tonight.

NEARLY $100,000 OF LAND SOLD

The Hager land agency sold nearly a hundred thousand dollars worth of land during the past week. Among the sales closed were the Ben Madison half section to Joe Stanton, a kuarter which E. L. Collins owned on Elm Creek to John Lech, the Vinton town site recently bought by Joe Barta, to Marion Jones, a section of improved land in Kimball county to Mike McNamee and six hundred acres in Kimball county to Wilmore Gray. Mr. Gray will move his family to Kimball in a couple of weeks and expects to move onto his land, three miles from town out there, as soon as he can get some improvements to move into. He will also put a tractor to work and break out his place and this fall get it into wheat.

ANOTHER LAND PRICE RECORD

Yesterday C. A. Hager sold the E. L. Collins quarter northeast of Ord to Charley, Finley of near North Loup for $225 an acre and Mr. Finley will move onto it next spring. Hager claims this is the highest price a quarter was ever sold at in Valley County. The Corlett eighty just across the road and a little west of the Collins quarter sold recently for $250. per acre but more than a hundred and fifty dollars per acre of that price was in improvements and the land really sold for less than a hundred dollars. Anyone would readily admit that it would sell for twice that if there were no improvements on it and the writer believes that the purchaser, Reuben Greenfield bought it for a hundred dollars less than it is really worth, just as we believe Finley has bought the Collins quarter for at least fifty dollars less than it is worth. It will sell for $250 this summer if the new owner will list it.

WILL REMAIN IN ORD

Mrs. Milford Stacy has accepted a responsible position at the Farmers store as accountant and will make her home in Ord. Prior to her marriage she was bookkeeper at the yard of the Ord Lumber & Coal Co., and had other similar positions. She now desires to return to this kind of work and the store is fortunate indeed in securing her services. She is spending a couple of weeks with her brother Wayne at Boulder, having accompanied him to his home last week. Upon her return she will go to Omaha and pack and ship her belongings to Ord and as soon as possible will assume her new position. She will make her home with her parents, the E. P. Clements family.

WILL HAVE SEVERE OPERATION

Monday Mrs. W. A. Wright went to Grand Island to meet her daughter inlaw, Mrs. Carl Wright of Callaway. The latter was going to Omaha to a hospital where she was to submit to a severe operation. Mrs, W. A. Wright returned to Ord n the eening bringing with her two of the Carl Wright children and they wil make their home in Ord until their mother is restored to health and again able to care for them Mrs. Carl Wright was planning on the operaton before the death of her husband last winter but of course it had to be put off and now she has had a general break down.

HOTEL MAN MAKES CLEANING

Charley Partridge says he has run a hotel, cooked, raised hogs and done some other things, but the first easy money he ever made was when he bought a couple of quarters of Kimball land ten months ago and sold them this week for an advance of $2,860. Bert Cornell already bloated landlord of Kimball land, bought one of hem and F. J. Vopat made the sale of both quarters. Charley says he will buy more Kimball land right away.

DOMESTIC TROUBLE BRINGS FINE

Theodore Meyers was arrested this week on complaint of his wife, who charges him with a technical asault andhe paid a fine of ten dollars and the costs in the county court. The trouble started or rather culminated when Mr. Meyers gained possession of their little daughter and a bundle of her clothing. The husband and wife had been living separately and the mother had the child. Divorce proceedings will probably follow.

VALLEY COUNTY SCHOOL NOTES

Eight schools were visited last week. First on the list was Olean. This is one of the fair sized schools, there being 20 present the day school was visited. All seemed to know what they were at school for and the indications were all pointing to good work.

No. 42 had 28 scholars present and eagerly pursuing their work. A history class was in progress and the interest and spirit shown was fine.

North Loup rurals, with an attendance of 15, were busy at work. From the expression on a face or two I could imagine that eight grade exams were looming big in the thought of some. Lower grade reading were the classes in progress.

At No. 24 is another of the large schools, 28 were present and Miss White reports an enrollment of 33. This school exhibits some really fine posters as part of the school room decoration. The children should be justly proud of their work in that line.

No. 3 is one of our two room schools The lower rooms were very much interested in May baskets while the upper room were preparing for eighth grade exams by thorough drill. The size of the young gentlemen found in the high school here reminds us of the stories of the schools of old times. Attendance of the two rooms combined was 29.

Another of the rural high schools is No. 36. Attendance of both rooms here was also 29. Work was progressing in fine shape. The pupils' work which was used for decoration was not all of the purely ornamental character. Samples of maps and other school work were also exhibited. The fact that these were strictly educational did not detract from their decorative qualities either.

Valleyside, No. 10, complete the list of rural high schools visited. It holds the record of attendance in the two rooms having more than 40. The higher grades in the lower room were engaged in writing of the visit, but that did not prevent the hearing of a very fine class in primary reading. It isn't often that one can have such a treat as to be invitetd to such a splendid Mother Goose party as that reading class was. In true party style it was an occasion for enjoyment, not a task to be gotten through This school room showed some remarkable fine free hand cutting among the work on display. The high school room had 16 present. A class in agriculture and one in history were held during the visit.

The last school visited was No. 4, 12 pupils were present and spelling was the order of the day. The pupils work on exhibit was good. One of the pleasures of visiting No. 9 was seeing one of my own former pupils in attendance there.

On one occasion the difference in time was a decided advantage. By beginning with a school running on new time and ending with one running on old time, it is possible to arrange to miss the noon hour and get two more hours of visiting into one day. However an eight hour visiting day is convenient saving mileage but any longer one would be rather too much.

It is too early as yet to publish the outcome of the eighth grade exams but thirty-two have already gone over the top and several more will surely be successful when the correcting is completed. The number of graduates will not be much under the usual record in spite of unfavorable conditions.

All teachers who have not already closed schools and left their districts, would oblige the county superintendent greatly by collecting and sending into the office samples of their best school work as a start for next year's fair exhibit.

Lelia Moorman.

FARM BUREAU NOTES

Interesting experiments in feeding steers just completed at the Iowa Station indicatte that the present prices of grain and beef may bring about changes in the method of fitting cattle for market. In these tetsts a lot of steers fed on a ration containing no grain made the cheapest gains and the highest profit. These cattle made an average daily gain of 2.74 pounds compared with 2.98 lbs. for corn-fed steers.

The no-grain ration consistted of corn silage, linseed meal and alfalfa hay. The commercial glutten and molasses feeds in this experiment did not prove profitable.

A farmer only being able to spray his orchard once during the year the best time is when about two thirds of the petals have fallen. One spraying at this time will go a long way toward controlling codling moth, scab and rust. This spray should consist of one and a half gallons of lime sulphur and two pounds arsenate of lead paste or one and one fourth pounds arsenate of lead powder to fifty gallons of water. Bordeaux mixture should not be used for this spray as it is liable to cause serious injury to both fruit and foliage unless great care is ttaken. The agent will be glad to assist any one not experienctd in spraying who desires to try it out.

Anyone wanting a recipe to kill prairie dogs, ground squirrels or other rodent pests should call at this office orf Farmers Buletin 932 which gives the methods worked out by the Department of Agriculture for their control on public lands.

C. C. Dale, County Agent.

CHARGED WITH SWIPING BEES

Harvey Sower was arrested this week on complaint ofMr. Hiner, and charged with appropriating a couple of swarms of bees. He plead not guilty and gave bond for his appearance at a later date for preliminary examination.

WHO ARE TO BE CANDIDATES

There are certain rules that will have to be followed by those who want to be candidates for the position of delegate to the constitutional convention from this county. In the first place anyone who wants to run must have a petition with five per cent of the qualified voters of the county, which is 100 names. This petition must be filed with the county clerk, not later than August 9 and not earlier than July 9. If there are not more than two candidates there will be no primary election, but if more than two candidates file there must be a primary election and it will be held on September 16. The special election will be held November 4.

These rules seem to be simple. Anyone who has political ambitions can get out and get the necessary 100 signers to his petition in two or three hours and probably there will be several candidates. Dave Strong has already announced that he would be a candidate. The position pays $1200, and a man had ought to be able to earn it and probably after he has paid expenses and if he has any business, for his loss in that line, he probably won't have much left. The session will no doubt last for several months. The Quiz understands that E. J. Babcock and Walter Rood of North Loup, John Wall of Arcadia, Vincent Kokes, George Munn, C. A. Davis and others of Ord, are being talked of for the place. Whether any of them really have aspirations for the honor we do not know.

COMMENCEMENT

Valleyside's second annual commencement exercises will be held at the Wilson Presbyterian Church in Mira Valley, Tuesday evening, May 20, at 9:30, congressional time. The Baccalaureate services will be held at the same place the Sunday evening preceding. Miss Grace Petty will sing and the Rev. Mr. Knight of Ord, will address the class.

NOTICE TO STOCKHOLDERS

The stockholders of the Loup Valley Agricultural Society are requested to send their stock certificates, signed in blank, to the treasurer of the association, Vincent Kokes, who will send the cash as soon as all certificates are in. The new owners of the grounds want to save as much expense as possible so they will have the old stock assigned instead of going to the expense of reorganizing the association and issuing new stock and for this reason every share of the old stock will have to be in before complete settlement can be made. Simply sign your name in the blank for transfer on the back of your stock certificate and send it to Mr. Kokes at Ord and tell him where to send your share of the money when all stock is in.

W. B. McNUTT, President.
H. D. LEGGETT, Secretary.

BUYS FRUIT FARM

Monday evening Mr. and Mrs. Jim Tatlow arrived home from California and are planning on disposing of their home and personal effects at auction Saturday afternoon of this week, the 17th. They purchased a 20-acre bearing orchard close to Selma, California and feel that they have made a fine buy. Their son Duff and wife will accompany them on the return trip as soon as they can close up their affairs here. Dick and his family are already out there and think it the finest place they ever saw so it is not likely that the Tatlow families will return to Valley county to live. There are many old timers from here, out there, and all seem to be doing well. Jim says thirteen of his twenty acres are in peaches and the estimated crop on the trees is worth $750.00 per acre, in fact he can contract them at about that figure as the crop is so sure out there.

VICTORY LOAN FALLING DOWN

The Victory Loan quota for this county was $390,000.00 and up to date only $200,000.00 or just a little over half, has been sold. Valley county should go over the top again on this loan and the Quiz hopes to see a strong movement at once in bond buying. There are various reasons why this loan is falling down, not only here but all over. One is the war is over, but we should remember that the boys must be brought home and it is for this purpose that the loan is being made. Another reason for the slowness is the fool statements credited to the higher ups in the government, that in their opinion the loan is already overscribed. People read those illadvised statements and it keeps them from buying. The necessity still remains for every one who can no so, to buy bonds.

Mrs. Gertrude Burke has entered a Lincoln hospital this week to submit to an operation for appendicitis. As soon as she regains her strength after the operation she will visit in Ord for a few weeks.

FINE ATTRACTIONS SECURED

The management of the auto show have secured fine attractions for the three days of the show and every one is assured of a good time if they attend. The big Ford garage, where the show will be held, will be decorated and divided into booths for the various dealers in autos and supplies and the displays which will be made will be well worth a trip to see. The various merchants will have factory and wholesale men present to help in explaining the things handled, the object being to familiarize the public with the merchandise handled. This, while interesting, will be only a small part of the show for arrangements are being made to entertain the people who come as they have never been entertained before in Ord.

Three companies have been secured for the entire three days. They are the Hawaiians, a seven person company from St. Louis, six men and a woman, all genuine Hawaiians and talented musicians. Every one enjoys Hawaiian music and the attraction company that sends them out says they will make good any place. Then there is Dusdune's Jass band of Omaha. They are a fast bunch and have a reputation far more than state wide. They are colored people and all artists in their line and lovers of this kind of music will enjoy them. There also has been secured a colored quartet of singers from Omaha and from reports we have, auto show and with three companies

Something new all of the time is the slogan of the management of the auto show anw witth three companies of entertainers and the Ord band there ought to be plenty doing. A big platform will be built for the show people and when there isnt music there will be dancind and singing or some other stunt.

The show management has secured both opera houses for the last night of the show and there will be a free dance at each place free for everyone and you can dance as much as you like. The Omaha orchestr will furnish the music for one of these dances and an Ord orchestra will be hired for the other.

MILLIGAN SELLS TO LARIMER

Another busines deal of considerable importance was closed this week and yesterday morning L. G Larimer became the proprietor of the former Tatlow garage, buying the business and stock from Ed. Milligan who, with his sons has been running it for the past few months. Poor health was largely the reason forMilligan getting out at this ttime. He leases the residence and garage building to the Mr. Lafimer has been office manaer for D. B. Huff for the past few months. He is a most pleasing gentleman and his many friends say he will do a fine business in his new location. He has employed Clarence Lewis, a skilled mechanic who will move here with his family from Iowa as soon as he can pack up and come and Mr. Larimer is feeling very forttunate in securing him. He expects to secure another good man for the repair shop and will conduct the business along progressive lines. A full line ofaccesories will be handled and he will continue to handle the Goodrich tires. He has an advertisement on page three of the paper.

ROY HAGEMEIER RESIGNS

It will be news to many friends of Roy Hagemeier that he will within a few days resign his position as clerk of the district court to accept a more lucrative position as bookkeeper and general auditor for the farmers at their store. He was elected to the position at a meeting of the directors held Tuesday evening. The proposition came to him as a surprise and he was undecided for a time whether to accept it or not. He has been reading law and felt that when his time was out as clerk he would be able to get into practice of law but the offer made by the farmers was so good that he has finally decided to resign to accept it. The cousty board will be in session next Tuesday and his resignation will be on file at that time unless he changes his mind.

WILL SELL REAL ESTATE

For several months Ray Burdick has been talking about getting into the real estate game, in fact several of his friends have asked him to list their land and sell it for them, and he has finally decided to start in the business and is using Quiz space this week to announce it. He says he has several men on his list who want to buy and he wants to list forty or fifty farms by Saturday night of this week. For the present he will have desk room in the Quiz office.

ANOTHER FORMER ORDITE RETURNING

Paul Karr was up from Brownville over last Sunday making arrangements for moving here about the end of the present month. Paul was an Ord resident some years ago and worked in the Ord State Bank and is now coming back to accept a position there again, this time as assistant cashier. His wife was a daughter of Mr. and Mrs. J. L. Speece. Paul has been cashier of a bank at Brownville for several years.

HAD DELIGHTFUL AFTERNOON

A hundred or so ladies had a delightful afternoon yesterday at the Christian kensington at the B. Brickner home. The refreshments were all that could be desired.

SHALL YOU DANCE TONIGHT

Tonight is the occasion of the masquerade dance given by the Ord Fire Department and all who attend are assured of a dandy good time.

GOVERNMENT ROAD MAN HERE

Robert Schmitz, Federal Highway Engineer was in Valley county yesterday and this morning and looked over the road between Ord and North Loup where the federal money is to be spent. He is reported to have frowned on the proposed change to cross the river at Sumter and says the road will come up the Valley along the track the shortest possible way. He estimates that it will take fifteen hundred dollars per mile to make road good and says that is will recommend to the proper auties. This is known as Road No, and runs from North Loup to Ord on to Burwell. There is an appropriation of a hundred thousand dollars for Valley county, or to have it exact, $100,325.79. There are 37 miles of this federal aid road in Valley county which at $1500 per mile will cost $55,500. This will leave $44,825.79 for Valley county. After talking with Mr. Schmitp and finding these facts, Joe Knezacek, Bert Hardenbrook, Dave Strong, Charley Detweiler and a few others got together and suggested that the road from North Loup be put in shape also and when it was put up the government man he agreed that was the thing to do. He said all of this money appropriated to Valley county that was not used, would revert to the government and that we just as well have it spent here in the county right away. He says there are a good many counties that have not taken any action as yet and that they are liable to be a long time getting any help if they don't get it right now while getting is good. That was the reason he gave those who wanted to change the road plan and cross the river at Sumter. He said if that was attempted it would take a long time and a lot of red tape to unwind and the result would be that before the matter was threshed out it would be too late to get any help this year and he thought the matter had better be left as it was only that he recommended that the U. P. track be followed as much as possible in coming up the Valley He explained that the idea of the federal aid road was to go the shortest possible way and cross the railroad tracks as little as possible and for that reason he said he would recommend following the track from North Loup to within a half mile Olean. This looked mighty reasonal to the local fellows and they were mighty jubilant when it seemed easy to get the road for Arcadia also. There are about 24 miles of that road and $1500 per mile that will take $36,000 to fix it the same as the No. 51 road between North Loup and Burwell.

The government engineer then recommended to the local fellows that they ask for some help to start a road out east across the river throug Springdale towards Greeley count; and this met with instant favor. His idea was for the county board to get busy at once and by resolution ask for the North Loup Arcadia road improvement and that any balance left after that was done right, for the road out of Ord east and then next year we can get money to continue this work east to the edge of the county. He left copies of the recommendations that he would make along this line with the county clerk, and resolutions are being prepared and will come before the county board next Tuesday when it meet and the matter will probably pushed. It will be a good plan for a bunch of the Arcadia boosters to be on hand when the board meets to see that they get what is coming to them, as they undoubtedly can have all that they want in so far as that North Loup -Arcadia road is concerned.

Mr. Schmitz is a much nicer man than his name indicates and he paid the Valley county hustlers a fine compliment when he stated to the Quiz that he had never met a better bunch of boosters than he found here, or bunch that seemed more anxious to work for the interests of the whole county.

CYCLONE VISITS SAND FLATS

There was a severe cyclone in the Sandflats country last night. The people up there saw the wind cloud form to the northwest of them and for a time thought it was going to pass completely over but it dipped down and struck the Frank Sevenker place, doing several hundred dollars worth of damage. The big barn was moved about eight feet off the foundation and the sheds attached to it, the windmill, the chicken coop and the cattle barn were practically destroyed. The buildings were partially insured. The storm raised there and passed on and if further damage was done it was over in Greeley county and we were unable to hear of it.

BOUGHT HIS FARM BACK

A few months ago John Sharp sold his fine half section out in Mira Valley, for $140 per acre. The latter part of last week he bought it back, paying $150 for it and probably it would take twenty-five or fifty dollars an acre advance to get it now.

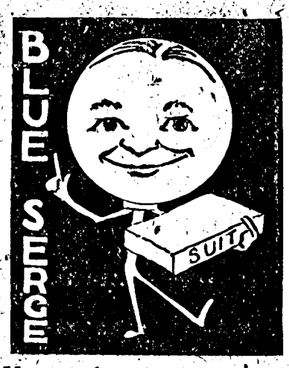
GETS IN INCREASE IN PRICE

A few months ago J. W. Severens bought the Curt Wilson farm out south of Vinton, and last week sold it to James E. Ingerson of North Loup for $150.00 per acre, an advance of $25. Curt Wilson, the former owner, made the trade. This is the farm formerly owned and improved by Albert McMindes.



You can't point at a more popular, appropriate or useful suit than a blueserge When undecided what to buy or to wear blue serge is a safe bet. Like the American soldier—it goes everywhere and gets there Several different models so all men can be suited.

Last Friday Harold Moeller and wife returned from Omaha by auto. They had planned on going over to Kimbleton, Ia., with their grandmother in the car, but it rained and the roads were in bad condition so they took Grandmother Moeller a part of the way from Omaha to Kimbleton in their car and then returned to Ord. Mrs. Jorgen Moeller cared for their children during their absence.

ADDING NEW LINE

Watson, the shoe man, is adding second hand goods to his line and he is doing it in a different way which is likely to prove popular. He proposes to take second hand goods and sell them on commission. Of course he will buy if you wish but he really prefers to sell on commission which will be better for the person owning the goods.

Thursday Ruth Norman returned to her home from Grand Island where she had been visiting her brother George and family. She was accompanied by the little daughter of the latter.

Mrs. Porter Long and daughter Viola came over from Arnold this week for a visit with relatives. The latter remained with her grandmother, Mrs. Frungle, and will take medical treatments for a couple of weeks from Dr. Howes.

Last Friday evening Chas. Stillwell arrived home from France, having received his discharge. Lately his wife has been staying at her old home with her sistter Lillian Bailey. Carley came up to Ord one day sooner than he was expected.

Nina Smith has just successfully finished a term of school in a country district. Miss Nina will not teach next year but will stay at home and assist her mother. The Smithf house is most too large for the mother to manage alone.

Mrs. Dr. Weekes and little daughter and a nephew, Sears Frandsen, were Tuesday morning passengers, the latter to his home at St. Paul and the former to Scotia. Mrs. Fred Wichman was also a Scotia passenger.

Mrs. Sam Mitchell left Tuesday for Carthage, Missouri, in response to a message saying that her eldest daughter, Mrs. P. H. Miller, could not live. She was to be joined at Grand Island by her son Frank. Mrs. Miller recently underwent an operation for cancer.

Theodore Gorney of Burwell, arrived home Tuesday from Ft. Russell, Wyo., after 22 months of service. He enlisted in Omaha but his people formerly lived in Valley county south of Burwell.

Mrs. J. D. Tedro left Tuesday expecting to yisit first at Lincoln and Milford and then go to El Dorado, Mo., for a lengthy visit at the home of her daughter, Mrs. Cubbage. The Quiz will keep her posted on Ord doings while she is away.

When Dr. Laub first located in Ord he made several trips down to Chapman to get his car but each time a storm prevented bringing it up. Last Saturday he drove the car down, expecting to visit over Sunday and drive back but it stormed again and he had to leave the car there so now he has a splendid excuse to go after the car again as soon as the roads get dry. He hopes to get a house and move to Ord soon.

Sunday Mrs. Frank Haught went to North Loup returning to Ord Monday.

After spending a short time in Ord Lena Readle returned Sunday to Grand Island.

Mrs. John Fredericksen is visiting Burwell friends since Tuesday evening. Miss Alta Alderman was also a Burwell passenger the same evening.

Two sisters of Sophia Gross, Emma and Tillie, were down from Burwell for a short stay last week. Saturday the two sisters were passengers for Ravenna for a few days.

Quite often Dr. Weekes drives up from Scotia to see his family who are now located at Ord in the Randolph house, and to look after business in connection with the repairs on his hospital.

Mrs. Westburg is up this week from North Loup visiting her friend, Mrs. John Auble.

Dorothy Sorensen returned Friday evening from Ft. Sheridan, Ill., where she had been to visit.

Jim Mortensen was a Hastings passenger this morning. He went voluntarily however and will probably drive a new car up when he returns.

Between trains last Friday Mrs. Horan of Elba was in Ord. She came up to see her daughter who was recovering from an operation at the hospital.

Friday Nels orgensen returned from Omaha where he had been with Mr. Stigson while the latter was taking treatments for his eyes. Mr. Stigson had to stay for a few days.

Mrs. Patrick of Ericson, was over this week for a visit with her parents, the Lemasters.

Mr. and Mrs. Noble Ralston came up last evening from Schuyler for a few days visit with relatives and friends.

Blanche Lundberg came up from Greeley Tuesday evening to assist her sister, Mrs. Perry Bell for a few days while they are moving.

I. Woods, the U. P. mail clerk, is taking a few days lay off on full pay and putting in most of his time fishing. He says lots of the fish would weigh five pounds.

Thursday evening Mrs. Hosman returned home from a trip to Omaha where she went as a delegate to the National Woman's Home Missionary Society.

Report of the Condition OF THE ORD STATE BANK ORD, NEBRASKA

The statement shown below is a report of our business to the banking board on May 3, and we trust you will stop a moment and look over same. Our deposits of over $600,000.00 shows that the people of this community have confidence in us.

Our loans of over half a million show that we have confidence in the people. We are in splendid shape to take care of all dsirable business as shown by our large reserve, and trust you will not hesitate to call on us.

This is the only bank in Ord where every share of stock is owned by local people. This is strictly a local proposition and any profits accruing will be used for the benefit of this commuhity.

You should take pride in having such a bank in your midst and do everything in your power to make it a wonderful success

The management of this bank is not in strange or inexperienced hands. Mr. Wisda put in ten years of active service with the Ord State bank and is well qualified to handle any phase of the business.

If you contemplate making a change of banking connecer over with us. We are here to serve you.

The Ord State is a bank of the people, by the people and for the people.

Weekes wants to contract flint corn.

Monday Bert Cornell returned home from a trip to Kimball.

The new glass front was put in the Bell garage the latter part of last week.

Last Monday Esther Ingerson went down to North Loup to spend a few days with her sister Mrs. Dell Barber.

Art Brown, the clerk at the depot, was spending Sunday with friends at Central City, going down Saturday afternoon.

Monday Mrs. Jack Molton returned to North Loup after a few days stay with the Walter Alvord family. Her brother Walter Honeycutt also went back to the Loup that day. He had been up between trains.

W. M. Bragg finished his visit with his people at Burwell and came down to Ord Monday morning. In the afternoon he returned to Norfolk, Va. He is a sailor boy and was off on a sixteen days furlough He has two more years of service, before he will receive his discharge.

C. A. Rettenmayer of Arcadia was in the city last week, visiting with his friend, T. N. Bennitt. The former is one of the substantial merchants of Arcadia and last fall has been honored by the people of Valley county with the office of county commissioner. While in this city he took the opportunity to closely examine Howard county's citadel, as the question of a new court house in his county is gaining popularity, and it is being quite probable that during his term of office he will have the labors incident to such an improvement to perform. It was with this end in view that he made scrupulous inquiries and investigations, so that when that time arrives he will be competent to discharge such work with credit to his constituency as well as to himself. Many years ago Mr. Rettenmayer resided in this city and for a period was employed in the printing shop "sticking" type and doing the other work readily found undone in the average country printery of the period.—St. Paul Republican.

Katherine Cantwell came up from Greeley last Saturday evening.

On Monday Anna Hron left for Omaha to spend a few days with old friends.

Dorris Dowhower has been in Ord visiting her sister Edna who goes to school here and stays with Mrs. Stella Siler. The girls both returned to Elyria on the train Friday evening.

Saturday evening Mr. and Mrs. Will Hawkins and daughter Gertrude returned to Ord from several weeks stay with the Lew Knutsen family in Omaha. They are looking for their daughter Mrs. Dick Andersen of Kimball, to visit in Ord later on this month.

Geo. and W. S. Desch, brothers of Frank and Walter Desch, were in Ord returnng to Central city on Sunday. They don"t get up this way very often but came up at this time to see their mother on Mothers' Day.

Your Fordson is here!

NOW it is here—you can get one. Simplicity to an unusual degree—yet with a ruggedness and durability that enables it to accomplish a remarkable amount of work.

Burns kerosene—the cheapest fuel. Can be operated by anyone. Turns in the close places. Four-cylinder engine. Thermo syphon cooling system; all working parts enclosed. Improved air washer.

The Oliver No. 7 Plow

The Oliver No. 7 answers every requirement. Uniform plowing in all soils—a ruggedness that enables it to stand the severe strains. And the combined rolling coulter and jointer buries all trash at the bottom of the furrow; the stop device maintains an even depth of furrow.

Come in and see the Fordson and the Oliver. We sell them and know they will please you.

Thursday Mrs. Perry Pierson returned home from Sumter where she had been spending the day with her son and family. Se went down on the train and this was the first trip for several weeks.

Frank Vopat returned Monday evening from Kimball where he had been for nearly a week. He sold about two thousand acres of Kimball county land on this trip. By the way did you see his advertising last week? Read his ad in this paper this week.

Miss Ella Bond left Monday for Lincoln where she went as a delegate to the state convention of the Eastern Star lodge. Miss Ella don't often treat herself to a trip of this kind and she was looking forward to it with much pleasure. Mrs. G. W. Milford was helping Mrs. Bond from getting lonesome while Ella was away.

Last week O. S. Smith and wife and her son, Charley Hodge, started to drive through to Montana, expecting to make a short visit at Arnold. When they got to Arnold however, Mr.Smith bought a section of land and they came back to Ord to make arrangements to move over there as soon as possible. Hodge took the train for his home in Montana. Tuesday Mr. Smith went to Grand Island to have their goods shipped to Arnold and they will drive over from here as soon as the roads will permit.

Mrs. Walter Bundy returned Thursday from a day's stay with Walter's people at Scotia.

Albert McMindes came back to Ord last Saturday from a trip to Grand Island. He was accompanied by his wife and daughter.

Last Thursday evening Fred Bell drove a new car up from Omaha. He was accompanied by C. F. Hughes and Chas. Burdick, all having been down arranging for attractions for our auto show.

Ord friends will be glad to know this week that Mrs. Ed Bannister continues to improve after a recent operation at the hospital at Scotia, and her people are hoping that she will be as strong as formerly, soon. She has been in poor health for several ears.

GOODENOW NEWS

Miss Martha Dubos and a Mr. Joblonsky were married Wednesday last at the home of the bride's parents, near Elyria. They enjoyed the evening at dancing at Elyria. The young people will reside on the Geinski farm in this vicinity which Mr. Joblonski sr., purchased last fall and the farm will be easy to locate in the minds of old timers, as the Peters sheep ranch. We wish much happiness for these young people and welcome them in our midst. The bride has lived in our vicintey several years.

Mrs. J. W Galford walked over from the home of her daughter's, Mrs Sharp, to the station, and thinking the train made regular stops she did not give the usual signal and of course the train vanished in the distance. However, as Mr. and Mrs. J. W Brockus were spending the afternoon at Goodenows' she rode to Burwell with them and returned Saturday with her grandson.

Nebraska has sure her share of moisture this spring. The rains have nearly all been of the clod soaking variety such as the old timers here were in the habit of seeing in early days.

Elmer Brechbill was the Saturday night guest of Merritt Wright.

We understand that the 89 division was to sail from France Saturday. In this division is Stanley Mitchell, Thomas Banks and Roy Horner, all Burwell boys.

Wonder if our "Coats" are wrong side out. Whether or no, we missed the Vinton dope. Perhaps it was not a rain coat, therefore could not get the news collected. All right, just so it's not a turn coat without a reason so we will expect a double header next week.

M. B. Goodenow and W D Hart were called to Grand Island Monday They went as far as Ord on the B. & M. and from there on down on the motor. In early days Goodenow made many trips with team, as Grand Island was his trading point, hence he is not a stranger to the city.

Art Meyers purchased a ticket for Omaha Monday morning and he may possibly visit other points before returning home.

We have not favored the idea of a county agent very much but will perhaps in time, see the all good, as it is we must admit that one thing he has done that cannot be but a benefit direct to the farmer, and that is the issuing of the exchange bulletins it puts the farmer wise as to what his neighbor has for exchange to buy or sell, and may often save both time and expense of getting the desired article from a greater distance.

Mr. and Mrs. John Warford were over to Mr Warford, Sr., near the Fort Saturday night. They left their seven-months-old baby with the grandparents and as the rain prevented them from going after the little fellow Sunday they were getting anxious by Monday morning and made haste to get to him. If course they learned by telephone that he was happy which was quite consoling.

Claude Kennedy was an all night guest of Douglas Sharp Saturday night and Sunday night Douglas returned the compliment.

Workmen have been reshingling the J. W. Brockus barn.

J M Butts and John Warford took a bunch of the Butts cattle over the river and will summer pasture them at at the senior Warford farm.

Claude Kennedy and Elmer Brechbill assisted Merritt Wright to plaster his one room house, which was about all the boys could do this rainy weather.

Mrs. Barmum now has 1,000' young chickens up to date.

"Ord's Awakening" Well! certainly it is not sleeping very soundly, for if it was, how could the editor of the Quiz put out a sixteen-page paper, then too, on the front page is an article telling us about the Automobile Show which is not a night mare but a pleasant dream which will come true. The business men are planning a real citified entertainment, which "Auto" attracts the largest crowd of people that has ever visited Ord. It will be a grand onportunity for old timers to return and see the change time has brought about, and meet old friends, and the stranger within the gate will also have a chance to get acquainted and will find many a business opportunity. Then those who are interested in automobiles and tractors will only find it necessary to let their wants be known. Of course we will go to the Auto Show—everybody will.

In the district joining us on the north, there are several children who are out of school on account of the mumps. Leonard and Lucile Butts are on the list.

Those who passed the 8th grade in district 14 is the Witchie girl, Laberta Armstrong, Leonard and LucileButts and the son of George Shultz

Miss Ethel Banks spent Friday evening with Mrs. Clark Bleach.

C E. Rassett was a dinner guest at Farmer Goodenow's table Wednesday, and in the afternoon C. J. Mortensen was a caller.

The Goodenows were in Ord Thursday.

Mrs. Fred Meyer called at Goodenow's Wednesday and obtained eggs for atching.

KIDNEYS WEAKENING? LOOK OUT!

Kidney troubles don't disappear of themselves. They grow slowly but steadily, undermining health with deadly certainty, until you fall a victim to incurable disease.

Stop your troubles while there is time. Don't wait until little pains become big aches. Don't trifle with disease. To avoid future suffering begin treatment with GOLD MEDAL Haarlem Oil Capsules now. Take three or four every day until you are entirely free from pain.

This well-known preparation has been one of the national remedies of Holland for centuries. In 1696 the government of the Netherlands granted a special charter authorizing its preparation and sale.

The housewife of Holland would almost as soon be without food as without her "Real Dutch Drops," as she quaintly calls GOLD MEDAL Haarlem Oil Capsules. They restore strength and are responsible in a great measure for the sturdy, robust health of the Hollanders.

Do not delay. Go to your druggist and insist on his supplying you with GOLD MEDAL Haarlem Oil Capsules. Take them as directed, and if you are not satisfied with results your druggist will gladly refund your money. Look for the name GOLD MEDAL on the box and accept no other. In sealed boxes, three sizes.

Velvet

THE SMOOTHEST SMOKING TOBACCO

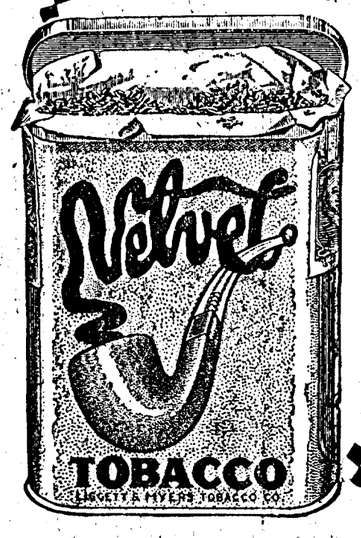
Smoke over your problems. A little drawin' on a fren'ly pipe often saves a heap of drawin' on a bank account.

Velvet Joe

Velvet is a friendly tobacco in the truest sense, because, like friendship, it has been allowed to ripen *naturally*—nothing *forced* or *unnatural*.

There are "hurry up" ways with tobacco but only patient *ageing* (two years in wooden hogsheads) can bring out the mellowness that sets Velvet apart.

Roll a Velvet Cigarette
Velvet's nature-aged mildness and smoothness make it just right for cigarettes.



You know what mellowness is—now think of a good friend who is never harsh to you.

There you have the *big thing* about Velvet—
mellow friendliness.

You and Velvet—begin your friendship today.

Mr. Finley sold out northeastt of Ord a year or two ago and bought an eighty near North Loup and he has had plenty of chances to dispose of that at a profit and we are sure glad to know that he will come back to this vicinity.

Last Friday Harold Moeller and wife returned from Omaha by auto. They had planned on going over to Kimbleton, Ia., with their grandmother in the car, but it rained and the roads were in bad condition so they took Grandmother Moeller a part of the way from Omaha to Kimbleton in their car and then returned to Ord. Mrs. Jorgen Moeller cared for their children during their absence.

ADDING NEW LINE

Watson, the shoe man, is adding second hand goods to his line and he is doing it in a different way which is likely to prove popular. He proposes to take second hand goods and sell them on commission. Of course he will buy if you wish but he really prefers to sell on commission which will be better for the person owning the goods.

Geo. Hubbard got home Friday evening from Kimball. His wife was visiting relatives and will return home later this week.

Thursday Ruth Norman returned to her home from Grand Island where she had been visiting her brother George and family. She was accompanied by the little daughter of the latter.

Mrs. Porter Long and daughter Viola came over from Arnold this week for a visit with relatives. The latter remained with her grandmother, Mrs. Frungle, and will take medical treatments for a couple of weeks from Dr. Howes.

Last Friday evening Chas. Stillwell arrived home from France, having received his discharge. Lately his wife has been staying at her old home with her sistter Lillian Bailey. Carley came up to Ord one day sooner than he was expected.

Nina Smith has just successfully finished a term of school in a country district. Miss Nina will not teach next year but will stay at home and assist her mother. The Smitht house is most too large for the mother to manage alone.

Mrs. Dr. Weekes and little daughter and a nephew, Sears Frandsen, were Tuesday morning passengers, the latter to his home at St. Paul and the former to Scotia. Mrs. Fred Wichman was also a Scotia passenger.

Mrs. Sam Mitchell left Tuesday for Carthage, Missouri, in response to a message saying that her eldest daughter, Mrs. P. H. Miller, could not live. She was to be joined at Grand Island by her son Frank. Mrs. Miller recently underwent an operation for cancer.

Theodore Gorney of Burwell, arrived home Tuesday from Ft. Russell, Wyo., after 22 months of service. He enlisted in Omaha but his people formerly lived in Valley county south of Burwell.

Mrs. J. D. Tedro left Tuesday expecting to visit first at Lincoln and Milford and then go to El Dorado, Mo., for a lengthy visit at the home of her daughtter, Mrs. Cubbage. The Quiz will keep her posted on Ord doings while she is away.

When Dr. Laub first located in Ord he made several trips down to Chapman to get his car but each time a storm prevented bringing it up. Last Saturday he drove the car down, expecting to visit over Sunday and drive back but it stormed again and he had to leave the car there so now he has a splendid excuse to go after the car again as soon as the roads get dry. He hopes to get a house and move to Ord soon.

Sunday Mrs. Frank Haught went to North Loup returning to Ord Monday.

After spending a short time in Ord Lena Readle returned Sunday to Grand Island.

Mrs. John Fredericksen is visiting Burwell friends since Tuesday evening. Miss Alta Alderman was also a Burwell passenger the same evening.

Two sisters of Sophia Gross, Emma and Tillie, were down from Burwell for a short stay last week. Saturday the two sisters were passengers for Ravenna for a few days.

Quite often Dr. Weekes drives up from Scotia to see his family who are now located at Ord in the Randolph house, and to look after business in connection with the repairs on his hospital.

Mrs. Westburg is up this week from North Loup visiting her friend, Mrs. John Auble.

Dorothy Sorensen returned Friday evening from Ft. Sheridan, Ill., where she had been to visit.

Jim Mortensen was a Hastings passenger this morning. He went voluntarily however and will probably drive a new car up when he returns.

Between trains last Friday Mrs. Horan of Elba was in Ord. She came up to see her daughter who was recovering from an operation at the hospital.

Friday Nels orgensen returned from Omaha where he had been with Mr. Stigson while the latter was taking treatments for his eyes. Mr. Stigson had to stay for a few days.

Mrs. Patrick of Ericson, was over this week for a visit with her parents, the Lemasters.

Mr. and Mrs. Noble Ralston came up last evening from Schuyler for a few days visit with relatives and friends.

Blanche Lundberg came up from Greeley Tuesday evening to assist her sister, Mrs. Perry Bell for a few days while they are moving.

I. Woods, the U. P. mail clerk, is taking a few days lay off on full pay and putting in most of his time fishing. He says lots of the fish would weigh five pounds.

Thursday evening Mrs. Hosman returned home from a trip to Omaha where she went as a delegate to the National Woman's Home Missionary Society.

O. B. MUTTER

LOCAL — PERSONAL

Meet me at Milford's.

John Ambrose was in North Loup last Saturday between trains.

Last Monday Chas. Bals went down to Kearney and was accompanied by his sister Ella Bals.

Mrs. Ellsworth Ball is this week looking for a visit from her mother Mrs. S. L. Foster from Nevada, Mo. She has been in Ord several times before.

Last Saturday evening Mrs. Fred Hedde came up from Grand Island and spent Sunday with her sister Mrs. Detleff Heuck and family. She went back on the motor Monday afternoon.

Monday Mrs. Ed Panowicz and little daughter came up from Columbus to visit the Zickmund people. They will be nearer home now that Ed has accepted a position in North Loup.

Clara McClatchey was in North Loup Monday, returning that day.

Tuesday John Williams returned to Lincoln after a few days in Ord on business.

R. A. Conner of Burwell was in Ord for a few hours last Monday. In the afternoon he went down to Grand Island.

Geo. Moses returned Friday from St. Paul and Monday he went down to St. Sumter where he works on the section.

Mr. and Mrs. Elmer Hallock were over from their new home at Rosevale last Saturday. They have got things in shape and Elmer has gone to work as is proper for a man with a wife. They are starting out all right because they took the music box over this time and of course they take the Quiz, and no home is complete without these two articles.

Sam Marks is hauling mail these days while Bud is taking a layoff.

Frank Judd and Chas. Brown were Tuesday morning passengers forGrand Island.

Tuesday morning Mr. and Mrs. Warren Collins and daughter Helen went down to Scotia to see their son Ralph and family.

A baby boy has been born to Mr. and Mrs. Ed Trout of Scottsbluff. There are three other sons in the family but they are just about grown up, so this little fellow is quite a surprise. Ed is an old Valley county boy and a brother of Mrs. C. F. Hughes. He visitde here not long ago.

Mr. and Mrs. Robinson are now settled in the country on the Baird place. This is the farm formerly owned by I. W. Gates. The Robinsons arrived last week from Riverdale and at once went out to the new home. Mrs. Jess Baird and Mrs. Robinson are sisters.

Mr. and Mrs. J. S. Banta were up from North Loup, returning on Monday. The same day Hattie and Antonia Zickmund were passengers for North Loup returning in the evening, and Mrs. C. Olson, a cousin of Chris Thomsen, returned to her home at Fremont.

Dr. Geo. Gard tells us of the marriage of his nephew, Lee Gard, at his home town, Dayton, Wash. Lee is the only son of Mr. and Mrs. Elmer Gard and was born in Ord about twenty years ago. When he was a little fellow his parents moved west. Lee was here since he has grown to manhood and visited Dr. Gard and his grandfather, S. S. Brown.

Among the outgoing passengers last Monday was W. F. Boyle who was returning to Sidney. Since the death of his mother-in-law, several months ago the Boyles have been living up here and keeping house for father Nelson. Before that Mr. and Mrs. Boyle lived at Sidney and they are now moving back there. Mrs. Boyle will be here for a few days longer.

A beautiful bouquet of flowers came up from Grand Island for Mrs. M. F. Drummond on Mothers Day. The express people tried to locate the lady through the telephone offices and the post office, but nobody seemed to know who she was. On the inside of the box was a card which said, from May to Mother. Mrs. Drummond is perhaps here and she will be glad to know that her daughter remembered her.

"Why, Mamma, you have two-sight glasses just like Daddy's!"

Mr. Brown's experiences with two-vision glasses, and his fortunate investment in Kryptoks, induced Mrs. Brown to consult her eyeglass specialist. He recommended Kryptoks.
Wise little daughter discovers that she is wearing them. Mrs. Brown's friends, too, will be surprised, because there is no ugly line or seam to distinguish them from single-vision glasses. Kryptoks are the only bifocals without seam or hump.

KRYPTOK GLASSES
THE INVISIBLE BIFOCALS

Kryptoks do not reveal age. They make one appear younger by enabling the person wearing them to see both near and distant objects as clearly and distinctly as with the eyesight of youth.
They not only look young hrrr They not only "look young" but they remove the thought of age from the consciousness and from this standpoint alone psychologists say that they are wonderfully valuable.

PARKINS
The Eye Man

Lawyer Berry returned to Ord Monday evening from a trip to Omaha.

Last Friday Merrill Hughes drove up a new Big Six Studebaker from Grand Island.

Frank Vopat and John Breemer returned home this week from a trip to Kimball.

Last Monday Fred Koehl went down to Lincoln as a delegate to the Grand Lodge of the Workman.

NAVY ANXIOUS FOR MEN

One can hardly realize how very important the Navy was to the successful prosecution of the plans for winning the war. The Savy was on the job from the 4th of May, 1917, until today and long after our present emergency Army is a thing of the past, the Navy will be "over there" bringing back the last reminders of the great war. The Navy at the beginning was small but man for man and gun for gun it was the equal of any other Navy.

There are a few men who believe that the time will never come when the nations of the world will cease to build Naies. Certainly not in our time or in our children's time, will the fighting ships and fighting sailors be sent to the scrap-heap. The "Dove of Peace" can rest just as peacefully on the muzzle of a sixteen-inch breech loading rifle as he can on a pole flying the white flag of a fightless Navy.

Therefore we must have a Navy equalled by no other, and we must hae men of spirit and ambition to man our ships.

The time has passed when men of bad character or habits can enlist. The Navy is a service of high ideals and its great record of duty is ascribed to the high standard set for its Officers and men, and this standard will never be lowered. The young man who enlists in the Naval Serice may well be proud of himself and his uniform.

About one week ago the Secretary of the Navy cabled from Londan that the situation regarding enlistments in the Navy is so acute that every effort must be made to bring the advantages of the Navy trade schools to the attention of the parents of boys and men in order that the fact that the Navy uses fifty trades and that those who enlist in the Navy may see the advantages offered.

The newspapers in this district have been of the utmost assistance during the war and when the Officer in Charge first came to Omaha he received letters from many hundred Editors pledging the same loyal support now as during the war.

Therefore we are glad to be able to publish from time to time articles telling of the Navy.

Enlistments are for four years, applicants over 17 but under 18 must have their arents consent, over 18 an age certificate must e presented. The legal age is 18 and no consent is necessary but the Navy department would rather a lad talk with his parents and go with their permission and good wishes.

Next article will deal with men of Nebraska and South Dakota who have made good in the service and then a description of every Navy trade school will follow.

The Omaha Recruiting District embraces the states of South Dakota and Nebraska and Sioux City, Iowa, and substations are located at, Lincoln, Nebr., Grand Island, Nebr., Norfolk, Nebr., Sioux Falls, S. D., Aberdeen, S. D., Watertown, S. D., and Sioux City, Iowa.

Write to the Navy Recruiting Station, Room 603, Paxtotn Block, Omaha, Nebr., and all questions will be given prompt answers.

ERNEST MARKS WRITES FOR QUIZ READERS

Sterling, Colo., May 12, 1919.

Friend Leggett:—

We are now living in our new home in Colorado and like the country fine. Have been having splendid weather since we came out here although the wind blew rather furiously the first week. It sure is warm and nice during the day and it has rained some nearly every night for the past week. However this doesn't have very much effect upon the roads except that one gets a few jolts during a trip. The roads do not get muddy because they are graveled. Indeed they are an improvement over Nebraska's roads.

The wheat is in splendid shape. The rain every night keeps it growing fast. Beets are all planted and the Russians have taken up their abode in the tenant houses so that they will be ready for work. The houses in which they live certainly are small and it remains to be seen how they all pack in for they usually have large families. Everyone except the baby works in the beet fields.

The prairie on the quarter south of here is being broke with tractor power. The alfalfa is doing fine and is about a foot high.

Our garden is up and growing fine. We brought 130 strawberry plants from Nebraska and they are in bloom. They sure have grown in five weeks. We have a cherry tree about two feet high which is blooming also. Some Grand Country.

We go to Sterling for most of our entertainment. Last week, Wednesday evening, we attended the Lecture Course at the I. C. I. A. High School auditorium. Lincoln Cromwell gave a lecture on "Dead Lions." Thursday evening, a magician & Co. gave the concluding number of the Lecture Course, also a ladies' Chorus from the Colorado Agricultural School gave a splendid entertainment at the Presbyterian Church. Last Sunday we autoed to Iliff, Padroni and to the Sterling Reservoir. This certainly is an immense body of water. Also saw the oil well derrick that they have about ten miles north of here. They have struck oil but haven't found much yet.

We have been fishing and caught fifteen large carp. The other time we went we caught a whole school of little fish about four inches in length. Fishing is great and swimming is fine. We wish you all could enjoy the wonders of Colorado.

As ever,

PRINCE ALBERT

the national joy smoke

Copyright 1919 by R. J. Reynolds Tobacco Co.

Tappy red bags, tidy red tins, handsome pound and half-pound tin humidors—and—that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

PUT a pipe in your face that's filled cheerily brimful of Prince Albert, if you're on the trail of smoke peace! For, P. A. will sing you a song of tobacco joy that will make you wish your life job was to see how much of the national joy smoke you could get away with every twenty-four hours!

You can "carry on" with Prince Albert through thick and thin. You'll be after laying down a smoke barrage that'll make the boys think of the old front line in France!

P. A. never tires your taste because it has the quality! And, let it slip into your think-tank that P. A. is made by our exclusive patented process that cuts out bite and parch—assurance that you can hit smoke-record-high-spots seven days out of every week without any comeback but real smoke joy!

PRODUCE MERCHANT GAINS 30 POUNDS

Is Also Relieved of Rheumatism Through Taking Course Of Tanlac

"I not only gained thirty pounds on a few bottles of Tanlac but can do more work than I have been able to do at any time in the last ten years," said C. B. Gwin, a well known produce merchant of Amory, Miss.

"For a long time my system was debilitated," he continued, and my digestion out of order so I could hardly eat a thing. I suffered from awful headaches, my nerves were on a strain and my muscles felt like they were tied into knots with rheumatism; I lost weight and got weaker every day.

"I was induced to try Tanlac by a friend and it is making a new man of me. I now eat and sleep better than I have in years, my rheumatism is all gone and I feel stronger and better than I have in a long time.

Tanlac is sold in Ord by Ed F. Beranek, and in Arcadia by Copeland & Moore.

THE JITNEY STILL JITS

Recent articles on the war tax just levied on soft drinks, confections, etc., have given rise to some misunderstanding, and the Wm. Wrigley, Jr., Company issues a statement to the effect that the 3 per cent tax on chewing gum does NOT affect the retail dealer or the consumer. Mr Wrigley explains that the manufacturers stand this tax, and there should be NO CHANGE in the price charged you for your package of Wrigley's Spearmint, Doublemint or Juicy Fruit. In other words, the jitney still jits. Thanks, Mr. Wrigley.

FORMER COMMISSIONER FAVORS SELLING COUNTY FARM

The following letter in last week's North Loup Loalist, will doubtless meet with the approval of many voters. The writer, M. E. McClellan, is well known over the county and he gives many valid reasons why the money in the farm should go towards building the court house. It is as follows:

Editor Loyalist:

"You took the position in last week's Loyalist that we should vote to keep the county farm at the coming election in June. I wish to submit some reasons why I think we should sell this 480 acre farm.

This farm does not produce sufficient revenue to warrant the county in keeping it for that purpose and unless we expect a very marked increase in value it most surely should be sold.

The appropriation by the last Congress of 57 billions of dollars when only 26 billions had been expended by the government during its whole existence up to July 1, 1917, and the expenditure of vast sums here by foreign nations for war materials, has inflated prices, until it is unreasonable to expect any further increase in the value of land from that source.

It is not the intention of the law to raise money by taxation to speculate in real estate. It was only by stretching the law and calling this a poor farm could it be taken in settlement, and it has never been used as a poor farm during the 25 or so years the county has owned it. The other farm which the county owns, lying less than one half mile from this, consisting of 123 acres, is ample for a poor farm should we ever need one.

The individual during his productive years must save and invest to care for himself during his declining years. We are most of us farmers, and land answers for our savings as well as furnishing an occupation, which leads perhaps unconsciously, to attach a value to real estate which does not and cannot apply to the county.

This farm pays no taxes, which bears more heavily upon North Loup township and the school district in which it is located, than on the rest of the county, while the whole county will share the increase in the value, if ther e should be any, which I think it very unreasonable to expect.

This farm is cared for by the county board who delegates the direct supervision to the supervisor of this district. He in turn must hire everything done. My experience as a member of the Claims Committee of the county board leads me to believe it costs the county much more than it would an individual for the same service.

Hence the cost of caring for this farm by the county is much higher than the cost of caring for a similar farm by the owner. We expect to build a new Court House which future generations will use. Why should we (and when I say we, I mean most of us have helped to pay for this farm) turn this farm over to them also? Surely there is no valid reason why we should not sell this farm and put the proceeds into a new Court House.

The buildings are old and out of date and new ones are certainly as badly needed as a new Court House. Consequently the county, if it keeps it, is morally bound, as a respectable landlord, to replace these with new ones at an expense of five or six thousand dollars.

I say, sell the farm to some one who will improve it and not stretch the law to the breaking point to speculate with the taxpayer's money. Permit him to speculatet for himself or not, as he may choose."

HAYNES LETS CONTRACT FOR $600,000 PLANT ADDITION

The Government's request that "biz business" lead the way in national reconstruction is being met promptly by the Haynes Automobile Company, which has just let the contract for the erection of a large addition to its plant at Kokomo, Indiana, involving an expenditure of $600,000.

The funds to meet this expenditure and to also furnish additional working capital required by the company to carry on its greatly increased business is being provided by an issue of $1,600,000 of one to ten-year 7 per cent notes, which represents the first public financing on the part of the Haynes Automobile Company. The issue has been underwritten by Counselman & Co., Investment Bankers, Chicago, who are Managers of the Syndicate which is making public offering of these notes at this time.

The first Haynes car was designed by Elwood Haynes, President of the company, more than 25 years ago and was the first automobile successfully operated in the United States. The growth of the business to its present proportions has been fundamentally sound and the present expansion follows along most conservative lines. The decision to further increase the manufacturing facilities of the company as reached only after the most careful study and analysis of the automobile industry which analysis discloses the fact that the demand for automobiles for years to come will far exceed the combined output of all American factories.

This large demand strongly indicates that the automobile business will continue to hold its place as fourth among the most important industries of the country, both from the standpoint of capital investment and value of manufactured product.

His Day.

"I presume you had a great time Christmas, Willie?"

"No. I didn't have so much fun Christmas day, but I did the day after."

"Were you sick on Christmas?"

"Nope. But you see the day after Christmas pa had to go to work and I got a chance to play with all my toys then."

WHAT ARE THE FACTS

Our people have noted with joy the announcement of Secretary Baker that the soldiers will all be home by August.—Register.

But he never said it. What he did say was that they would all be out of France by that time, which, with an army of occupation in Germany for the next fifteen years, is quite a different matter. Mr. Baker's camouflage department is still working overtime. —Aurora Republican.

THE COST OF FOOD

Congressmen returning from Great Britain assure us that food is cheaper there than in the United States. Intelligent readers knew this before, but the important question is what can be done to remedy the situation. Food dealers have made enormous profits during the war, they are in many cases increasing their gains now. They have the whip hand and the public has to pay. Governmental regulation of the price of foodstuffs can hardly work but a system of regulation for dealers in foodstuffs, both wholesalers and retailers, under a style of license system, with frequent inspections might help some. The people have a right to expect at all times to secure food at a reasonable price without profiteering and one of the duties of a capable government is to see that they get it.

REFUSES TO HELP FARMERS

The railroad administration has refused to reduce passenger rates for transportation of harvest hands to the regions where they will be needed.

Senator Curtis of Kansas, requested that a reduced fare be allowed men who wanted to go west of Chicago to help harvest the great crops. The railroad administration replied that no deviation could be made from present rates.

INTERESTS SEEK TO CONTROL

Three Valley County men have been chosen as members of the committee of one hundred. They are Bert M. Hardenbrook, D. E. Strong, and H. D. Leggett. W. J. Taylor of Custer Co., is the state chairman, Frank Harrison of Lincoln is secretary-treasurer, and I. D. Evans of Kenesaw is vice-president. Representative Porter an Omaha socialist, is a member of the executive committee as is also J. N. Norton of Polk County. The purpose of the committee is to manage the campaign in which delegates will be elected to the constitutional convention. Running over the list of names it is noted that committee-men were not selected according to the voting strength of the counties, and that a large proportion of them are avowedly in sympathy with the Townley program. If the voters of Nebraska want Townley to write the constitution of this state, as he did that of North Dakota, "we should worry."—Ord Journal.

Always the special interests have friends in every community who they can control and get to do their bidding. Any Valley county voter, man or woman, who has watched the course of Dave Strong the past winter, knows why the special interests would not want him to represent this county in the constitutional convention. Any Valley county voter, man or woman who knows the three men chosen on the committee of one hundred to work for progressive men on the ballot this fall, knows that they seek only the good of all the people. Only one of the three men appointed in this county is a member of the Nonpartisan league and all along the Journal has claimed the league was an unholy, socialistic, anarchistic, bolshevikist and pro-German bunch, and so far as the writer knows the Journal publisher has not changed his mind. It is not strange then that all progressively inclined men should be classed as socialists. It was probably merely a lapse of memory that they were not called I. W. W. also, for that was a favorite term which the Journal applied to the organized farmers in the late unpleasantness.

It is certain that there will be a scrap between the great common people and the special interests this fall and each will try to control the constitutional convention next winter. In deciding which side to throw in with there are a few things that should be remembered, and one of them is that the interests will be thoroughly organized for the fray and will be denying the right of organization to the people. We know, if we stop to think, that the people, being in the majority, could control the convention if they were as well organized as the other fellows and wouldn't fight among themselves, but there will be more or less disagreement in the ranks and representatives of the special interests will always be ready and willing to try to poison the public mind in such a way that the people will not hang together.

The calling of this constitutional convention was forced by the sentiment of the progressives. The old constitution is good enough for the trusts and big business generally and a constitutional convention has been opposed by them all along during the agitation of the past few years. This being the case it is reasonable to suppose that the progressive constitution that the people want will be opposed by the stand-pat element in the business world of Nebraska and that they will do all in their power to get a new constitution, if they must submit to a new one, that will suit them. The progressives are equally anxious to have one that will suit them and give them a more equal chance. Now what the Quiz wants is a fair, representative body of men to make that new constitution and they should make a constitution fair to all. If this is impossible and if either the interests or the people must control, then we hope to see the people control. It is plain, from the tone of the Journal editorial above, that the writer of it feels differently. So far as the Quiz is concerned it would rather see Townley write the new Nebraska constitution than to see Armor and Swift write it. We don't believe however, that either one need be allowed to do so. We do believe, however, that every rural district should be represented by a good, progressive man whether he be lawyer, banker or farmer, for there are progressive men in all branches of business, men who will truly represent the people, just as there are chumps among the farmers who would sell out to the special interests at the first opportunity.

H. D. LEGGETT.

INCOMPETENCE STILL RULES

Senators and Representatives are receiving large numbers of complaints of delays in paying the $60 bonus which, under the law, is to be paid to those discharged from the service of their country.

Many letters are sent to members of Congress indicating that remittances are not received form the War Department even though applications have been on file for many weeks.

PUBLIC AGAINST BURLESON

The public is up in arms against the railroad service and rates, against the telephone service and its increased rates and is dissatisfied with the telegraphs, according to Senator Sterling of South Dakota. He has just returned to Washington from his own state where he made a series of speeches.

"I find that practically everyone who has to use the railroads to any extent is complaining about service or rates, or both," said Senator Sterling. "I find that the public generally is aroused over the telephones and that there is dissatisfaction over the telegraph service. I think this sentiment is widespread over the Middle West."

STILL THE WASTE CONTINUES.

While the country is buying bonds, paying taxes and doing these things with patriotic willingness as it should, what about the reduction of government expenditures? Are executive officials at Washington, the department heads and others, compelling that economy which people demand and which they have the right to expect?

The fact is that the saturnalia of waste which was permitted in certain directions while the war was on has by no means been entirely checked. It will not be checked unless the new Congress furbishes up the Big Stick and goes after extravagant officials with a club by absolutely refusing to appropriate funds whose need cannot be demonstrated. Congress could do much to remedy matters but there is no sign of remedy on the executive horizon.

As all know, the war resulted in bringing to Washington many thousands of additional employes. It was supposed when the armistice was signed there would be a speedy exodus of these appointees. But this has not been the case. While some have been discharged, large numbers have been added, so that the net reduction is but little. Moreover, the joint commission on the reclassification of salaries of employes within the District of Columbia has been advised that about July 1st, the Census Bureau will add 4,000 new clerks and other employes. This will tend largely to make up for such employes in other branches of the government service as may have to step out July 1st for lack of appropriations.

Thus the government war machinery speeds on expensively at full tilt in peace time, evidently forgetting two things—that the war is over and that someone must pay the taxes.

Last Saturday Jack Dodge came from service. His parents live at Elyria and he was not expected for several days, so his people were agreeably surprised. He has enlisted again so he tells us.

F. J. Vopat closed a deal last week by which Perry Bell became the owner of the Mrs. Adam Smith house, the consideration being $2800. This house was vacated by J. C. Wisda who moved into his own house bought from Marion Crosby. Vopat also sold the Jos. Cernik corner house to James Skolil.

Saturday evening Pearl Hughes arrived in Ord and stayed with her friend, Lillian Bailey, until Monday morning. Miss Pearl has been studying at the Weekes hospital for the past eight months. After the hospital is moved to Ord she will discontinue her work. She thinks now she will return to Oklahoma.

Roy Johnson came up from Omaha Saturday and was in Ord between trains, going up to Burwell to spend Sunday with his brother Jack. His mother, Mrs. J. V. Johnson, had been in Ord at the home of another son, Ed Johnson. The same evening she went up to Elyria to see her daughter Mrs. Lew Simpson.

Kent Manchester has been up from North Loup spending some time with Ord relatives. He was a guest of Ormsby and Everett Petty and also of the S. J. W. Brown family. Mrs. Augusta Timmerman went down to Lincoln last Friday to visit her daughter Mrs. Perry Anthony and family and her grand daughter Freda Brown.

Friday morning Blanche Lundberg returned to her home at Greeley after a couple of days stay with her sister, Mrs. Perry Bell.

J. M. Vanscoy bought a ticket last Monday for Grand Island. Merrill Williams returned to Lincoln and R. A. Studley was an outgoing Burlington passenger.

Mrs. Jack Murphy went down to Horace last Friday. She had with her her three little nephews, the sons of Jack's sister, Mrs. A. B. Morfeld. These little boys were five, four and three years old and at home there was a little girl sixteen months old and a baby boy one week old. If Roosevelt were here even he would be satisfied with the growth of this family Mrs. Murphy was caring for the three little fellows until the mother was able to be up.

Dorothy Sorensen tells us about her trip to Fort Sheridan, Ill. She says this is a beautiful place close to Lake Michigan and that there are rooms for about twenty-five thousand soldiers in the hospital, but of course there are not that many inmates. Still she said there were more wounded boys there than she expected to find and some of them just young fellows. Her brother Laurils was much pleased to have her with him. His wife is still in the west and has not been to see him because he has been expecting to receive his transfer to his home, Camp Lewis, Washington. His wife is living near there and anxiously waiting for his return. It was hoped that he would come this way as he is an old Valley county boy. He can not receive his discharge because he will be under the doctor's care for a number of months. He is gaining, for at the time he was released from prison at Limburg, Germany, he only weighed ninety-five pounds, but now he has gained over thirty pounds. He is able, a part of the time, to be in a wheel chair. He was shot in the ankle and then taken prisoner and it was over four months before the bullet was removed. As a consequence his ankle, foot and even his hip are diseased, and it is not likely he ever will be entirely well. Although the doctors give him promise of much improvement.

VINTON NEWS NOTES
(By E. S. Coats)

Saturday evening we done up the work early and went to Ord and had a visit with the farmers out over the county. Oh, no, this was not the first tme for we often do that thing and why not? After a week of work it does a fellow and his family good to have a pleasant auto ride and a visit with friends, then a good laugh at the picture show makes a good ending to a profitable week. I thnk a lot of these visits with my fellow farmers.

I believe in a good fair and was sorry to see the old one die. And now I am glad a bunch of boosters has taken hold of the proposition and I ook for the best fair we ever had at Ord and there were sure some good ones when the fair frst started I think the Farm Bureau should help this proposition by making a county exhibit and working up some township exhibits.

Mr. Holland and Mr. Propps of Lincoln, with the County Agent, visited our farm last week. Mr. Propps is in the dairy extension work and Mr. Holland is at the head of the county farm bureaus of the state. Mr. Holland says the one state department of farm bureaus may make an exhibit here if it is agreeable to the fair management, and I think Mr Propps would be glad to help out along the dairy part of the fair. Any way we need a fair. It is a benefit to the people of the county and if we all boost and make a few plans to show something we can have a fair to be proud of.

It's wet and cold yet the 16th of May and we at this farm have just nicely started on the 100 acres of corn It appears late but the weather im more like the last weeks of April than the middle of May. It's sure a nice spring to start alfalfa and sweet clover and it is a sure crop this year the way it looks. We sowed 40 acres of these crops and are looking for good results. Last year we lost all we sowed from dry weather. It has been a bad spring for the pig crop and I do not hear of many porkers doing well.

I tried last week to elminate the hot air from my dope after getting a calling down from Mr. Collins but must still have done something, for I noticed the type shrunk and it was so hot that Mr. Alvord's letter got shrunk up when it was put along the side of mine, and over in the next column the church notes got scorched up some also.

The author of the Goodenow news (Mr., Mrs. or Miss—Maid, Wife or Widow, I do not know which) reads the Vinton dope and takes a few slams at our name of Coats. Well, Coats rhymes with goats and that is the family all us reporters belong to. If this was not so we would compel Editor Leggett to give us a picnic with ice cream and all the trimmings at least one a year so we could get acquainted A fellow has to die to get anything good said about him or her, and has to be a bank president before he can get his picture in the paper. (I hope Mr. Bair does not read this.) Mr. Leggett is so busy writing advertisements that I'll bet he never thought that the people would like to see what the several reporters look like. The Goodenow reporter does not or has not, thought very favorably of the county agent. Why not? The exchange conducted by the agent is only one of the many things he is doing every day. The vaccination of hogs and cattle is very nearly a man's job and the calls for the agent are numerous for this alone. And the good he does in keeping the hog cholera under control is many times what his salary comes to. He has brought farmers together on the seed corn and grass seed question with great benefit to the county. The office has several callers each day. The agent has the information or if he has not got it he will get it from state headquarters. He costs Valley county $1500 a year, about $75c to the average quarter section of land. The officers of the farm bureau get nothing for their work, therefore would appreciate your good will and it is only fair to give the county agent and the farm bureau a chance.

The Journal editor, whether he is the big one or the little one I do not know which, says last week he prefers a farmer for a delegate to the constitutional convention. Well, Mr. Editor, there is a candidate of the people and for the people who will fill the requirements and you might as well be on the right side for once and own up that he is the man for the job. The farmers say that Dave Strong, our representative, is the man for the job, and Mr Journal editor, have you forgotten what we did last fall to the men who opposed our candidates? I sure admire anyone's grit that will set himself up to oppose the candidate put up by the organized farmers of Valley county.

The court house question is soon to be settled and I am going on record for progress and a new court house. It will cost the average farmer about eight dollars per year for five years to build an up to date court house. If that old one falls down on some people some day the county will be sued for damages and it would cost us about that much and then we would have to build the court house besides, I believe in doing public business on the same basis as I do our own business, and if I had an old house equal to the court house I sure would build a new one. Now brother farmers we have a county board, the majority nominated and elected by the farmers. We can depend on them doing the square thing and keeping all graft out of the building of this court house. It is up to them to see that it is built right and I will bet you they will do it. Prices are good and are likely to stay that way for some time, is the best authority I can get on the subject and I believe the average farmer will vote for a new court house.

This seventy include the eighteen from Arcadia village that took the tests and passed. Fifty-two are rural graduates, which i sa fair sized class considering how the schools were interrupted this last year.

We are planning some on having an eighth grade picnic with games and a short program to celebrate the occasion of graduation. More definite announcement will be given later.

LELIA MOORMAN.

R. B. WELLER KILLS SELF

Old friends and acquaintances of R. B. Weller were shocked the first of the week when the report came that R. B. Weller had killed himself. He was the vice-president of the firm of Weller Bros., and had the management of the Weller lumber ard at Pender, Nebraska. He had been her on several occasions and was known by a number of our people. His act was the result of mental unbalance resuting from the flu which he had last fall and from which he has never recovered. Ord friends have known for some time that Frank Weller was very much worried about the condition of his brother.

DR. LAUB BUYS HOME

Dr. Laub has bought the Clarence Bailey home just east of the Mickelwait house in the west part of town on Main street and will being his family here from Chapman in about thirty days. The Baileys are looking for a new home and it is their plan to get house is both new and modern and Dr. Laub is congratulating himself on being able to find so desirable a location. He didn't wish to move until school closed at the former home.

DANISH LUTHERAN SERVICES

There will be a meeting at the Danish Lutheran Church in Ord on May 28 at 2 p. m., by Rev. N. P. Sorensen, Cushing, Nebraska.

We of the banking board of the farmers bank or the Ord State, met last week and laid plans for a new, up-to-date bank building on our lots across the road north of the farmers store. It is to be made roomy, convenient, up to date, and to have a rest room for our ladies. So much is decided upon. The rest of the program will be decided upon at some future meeting of the board as we adjourned to meet at the call of President Bair. Did you read the statement of the bank in the Quiz last week? It sure looked good and everyone connected with this bank is proud of it. Whether or not you are a member we will appreciate it if you will call. You will find accommodating clerks, and Cashier Wisda and President Bair ready to wait on you or to answer your questions.

CUSHING NAMED BY FARMERS

After being selected as bookkeeper and manager of the farmers store last week, Roy Hagemeier decided that he was pretty well suited where he was as Clerk of the District Court and accordingly advised the board of directors of the Farmers Grain & Supply Co. that he would have to decline their offer. The board met again Saturday and selected H. L. Cushing for the place, and Mr. Cushing tells the Quiz that he will take up the work the first of June.

The writer has never had a more agreeable competitor at any time than Mr. Cushing has been since he became manager of the Journal a few months ago, and it is with regret that we see him get a better position and one where he will have a much better chance to grow into something really good. For there is sure to be steady advancement for him in his new position if he measures up to the job and his friends are sure that he will do that.

In turning down the job Mr. Hagemeier realized that he was giving up a position that would pay much better than his present office could pay but he also realized that his physical handicap would to a certain extent, hinder him in the new position and he knew that a company like the Farmers Grain & Supply Co., doing a business of up around a million dollars a year, would have a lot of mighty hard work connected with it and he was not sure that he wanted the responsibility.

Mr. Cushing has had a lot of experience in executive positions. He had charge of the books at the Bailey & Detweiler store for a long time and his experience as county superintendent will stand him in good stead, Then his work in the state food commissioner's office where he had much of the management of a large force, will be invaluable. We expect to see him a great success of the new job and we hope to see the Journal secure as pleasant a man to succeed him.

Last Saturday Ray Burdick bought the Jim Tatlow home, formerly the Ed Milligan property and before that the Staple house, and is busy this week moving into it. He sold his property to Ed Milligan who is going to occupy it at once.

Mayor's Memorial Day Proclamation

That we may not forget the debt of gratitude we owe to the soldiers and sailors who offered their all in the hours of peril that have come to this great country and who are now silently sleeping in our cemeteries and burial places, and in the depths of the ocean, the 30th day of May has been set apart as a special Memorial to them and it is ordered that flowers be placed on their graves in token of the love and gratitude that blossom in our hearts.

I therefore call upon all the good citizens of Ord to observe this day in the spirit in which it was established. That this may be properly done, I request that all business houses be closed, that all labor cease, and that May 30 be kept as a memorial holiday.

JAMES MISKO, Mayor.

SEES FORTUNE IN OIL

One of the most enthusiastic men we have ever talked with is Mr. Robert Nay who returned the latter part of last week from Byers, Texas, where he has spent the past several weeks looking after the interests of the Southwest National Petrolium Company of which he is treasurer. He has been in close touch with the work of putting the biggest oil well in Texas down and says their geologist is sure they are oing to strike it rich. They are practically surrounded by paying wells and while they have been striking some oil on the way down they are striking for the big pool of oil that they feel sure will be found on the lower levels. Their well was started with a 20-inch casing so they are prepared to go as deep as necessary if it is 4500 feet. The well is in the center of an 80-acre field and they have lots of other land under lease and expect to start another big well soon, and later, probably in July, a third. Mr. Nay will spend a couple of weeks here looking after some business affairs and then return to Texas.

SEE PROSPECT OF LOSING TRADE

The business men of Ord are pretty busy these days on the federal aid highway project. It now looks as if they are making plans to tap the west part of Greeley county with improved roads. It is up to the business men of Scotia, Horace and Greeley to keep their eyes open. Let the Federal Aid Highways lead into Ord, bu let us see to it that they also lead elsewhere.—Greeley Citizen.

GRADES GIVING ENTERTAINMENT

There is no entertainment that ever attracts the people of Ord than do the school entertainments and probably no entertainment that will be given this year will be more enjoyable than the one coming Friday night of this week when the 6th, 7th, and 8th grades unite in a program at the opera house.

The entertainment Friday evening will be divided into two parts, the first being a cantata entitled "Awakening of Spring." This is a chorus of eighty-five voices and Miss Auble and Miss Wentworth are drilling those who take part

Part two is a comedy entitled "Patriotic Peanut Stand" and is being prepared under the direction of Miss McClatchey. All of the pupils are taking a great interest in the work of preparing for this entertainment and the parents and friends will be equally interested in stimulating them with their presence.

MILL BUILDING STARTS SOON

Mr. Kusek of the Elyria Milling Co., was a Quiz caller Monday and says that work will start at once on the new 40x60 foot building which will be pushed to completion as rapidy as possible. They hope to get the foundation in and the basement completed in the next thiry days. The mill is to be complete in every way and modern milling machinery will be installed. It is to have a capacity of 25 barrels per day.

MEMORIAL AND DECORATION DAY SERVICES

The members of Foot Post No. 40, G. A. R., and Ladies of G. A. R., will meet at Memorial Hall Sunday, May 25, at 10:30 a. m., to join in procession to attend Memorial Services at the M. E. Church. These services will be union in character as is the usual custom. All the G. A. R., Ladies, Flower Girls, Firemen, Civic societies as well as the varous churches of the city, are invited to take part therein. The sermon will be preached by Rev. Alonzo Knight, pastor of the Christian Church. Every one invited.

On Friday, May 30, the members of the G. A. R. and their friends will meet at Memorial Hall at 10 o'clock a. m. sharp. The procession will be set in motion at 10:30, led by the Ord band, under the direction of the Ord Volunteer Fire Department, ably assisted by the heroes of the World's War, who have returned to us—and the Ord Home Guard—will proceed to the cemetery to observe the custom of strewing flowers upon the graves of our hero dead.

Return to City for Dinner.

At 2:30 p. m., a program will be rendered in the M. E. Church. Music under the direction of Miss Ella Wheeler Bond, Rev. Hosman, pastor of the M. E. Church, speaker of the day.

A general invitation is given to the public to take part in these exercises. Let os make this a day of days, in remembrance of our dear ones who have left us, never to return.

A FAREWELL BANQUET

Wednesday evening the Loyalty Association of the Ord High School gave a farewell banquet in honor of Superintendent and Mrs. C. S. Jones at the Bohemian hall. The members of the Board of Education and their wives and the teachers of the high school were guests of the association.

The color-scheme was red and white the high school colors. The hall was very prettily decorated in red and white, ferns and palms. The tables were placed in the shape of a capital T, seating one hundred and thirty people. On the tables were red and white carnations and the place cards were red and white.

Those giving toasts were:

The Automobile—C. G. Kaessner, Toastmaster.
The Steering Gear—H. L. Cushing.
The Horn—Miss Muriel Plummer.
The Spark Plug—Eugene Leggett.
The Gas—Preston Loomis.
The Jack—Miss Imogene Wagner.
The Wheel—Glendall Bailey.

THE MENU

Fruit Cocktail
Creamed Chicken Scalloped Potatoes
Buttered Peas on Rozetts
Rolls Jelly
Olives
Salad Wafers
Ice Cream Strawberries
Assorted Cakes
Coffee
Mints

Music was furnished by the Star Orchestra. A short program was arranged for in which Miss Lillian Ramsey gave a reading and a solo by Miss Martha Groul between courses.

The association was assisted by the following: Mrs. S. J. W. Brown, Mrs. J. C. Work, Mrs. Daggett, and Mrs. Geo. Parkins, and by the following young ladies who have graduated while Mr. Jones has been in office: Misses Ruth Hoeppner, Vida Shirley, Pauline Hanson, Ethel Travis, Hazel Travis, Kathrine Blessing, Clara McClatchey, Gladys McClatchey, Rachael Flynn, Helen Corlett, Helen Johnson, Marie Wentworth and Hilda Johnson.

INQUIRIES ABOUT AUTO SHOW

The auto management is in constant receipt of inquiries regarding the show. The comment is so great and the demand for space so good that it seems that the big Ford garage will be filled to overflowing, with the displays of the dealers. Great plans are being made for decorations and when the people come the three days of the show they will be surprised at the magnificence of the display.

Secretary Detweiler received a telegram this week from the management of the entertainment companies that they were preparing to be here and stating that they would be found fully up to the guarantee. The Hawaiians are natives of their far off island and are also real musicians, so good that their services are in constant demand. They have filled engagements for the large Chautauquas and other amusement and educational institutions almost constantly. The Jazz band from Omaha is acknowledged to be the best of its kind in the west and it will be a revelation to many who will hear that kind of music for the first time. The "Coons" will keep you laughing all the time and you will say their entertainment alone is worth the price of a good show.

The beauty of the whole thing however is the fact that there is to be no expense at all. There will be no admission charge, everyhing being free and in addition both halls have been leased for the evening of June 5th, and every one who cares to do so will be able to dance free. Be sure to include the Ord auto show in your plans for summer amusement.

WE USE THAT KIND FOR BAIT

The Arcadia Champion tells about some Arcadia fisherwoman catching a 2 1-2-pound fish in the river and seems to think it a great stunt. The Ord fisherman would like to contract a lot of that size for bait. The lady who caught the 2 1-2 pound fish is referred to by the Champion as a "nimrod" and as we haven't heard of Mel getting mauled probably she stood for it.

WILLIAM HUNT STRICKEN

It was late yesterday before most Ordites heard of the illness of William Hunt and it was indeed a great shock when the circumstances were known. Mr. Hunt came to town Tuesday with some of his neighbors who were interested in getting a federal aid road petition acted on by the county board and shortly after noon he disappeared. His absence might not have been noted at once but for the fact that he had been entrusted with the petition with some hundred and sixy-five signers and he was to present it to the county board. The first petition acted on was the North Lou-Arcadia peition after which the Ord-Comstock petition was to come up and this was the one Mr. Hunt was to present. He could not be found and some of those interested in the road in question thought at once that he was being kept away on purpose to let some other road petition get in ahead of them. Several men made a search for him but failed to find him in town and phoned to his country home but Mrs. Hunt said he had not come home yet. Then they supposed he was on the way home with some neighbor and that he had gone off and forgotten te petition and as the county board acted on the proposed road little more was though about the matter. Even Mrs. Hunt didn't worry until near midnight when she became worried.

The facts seem to be that when his associates started to go before the county board between one and two o'clock Mr. Hunt went to the basement probably intending to go to the oile. This was he last any of them saw him until he was found by Night-watchman Roy Pardue about three o'clock yesterday morning and he found him when he went to the basement of the court house and hearing a noise back in the kindling room under the back stairs went to investigate. He at once called Dr. Shepard who knew Mr. Hunt and he was taken to the room of his son Charley and the folks on the farm notified at once.

It now develops that Dad Sherman, court house janitor, saw him early in the evening, probably about six o'clock Sherman told Archie Bradt that there was some man on the cobs over there and he thought he was drunk. He said he was going to report the matter to Dr. Shepard but he failed to do so and didn't report it to anyone else. We don't see what excuse he can have for failing to report the matter at once to someone, for even had it been a case of drunk it would have been his duty or the duty of any other man to have reported it to an officer at least.

Mrs. Hunt says that her husband had cramps at times and when he had them, if e could lay down a few moments he got over them, and she thinks he had one of those spells and thought he would lie on the cobs a few moments and be all rigt. The stroke of paralysis followed and he was unable to ask for help or make a noise. He had evidently suffered much for his hand and arm were badly bruised where he had thrashed about. Yesterday evening there seemed to be little change and his recovery is expected to be slow. Probably had he received prompt medical attention his condition might have been much better.

LAND TO BE DRAINED

Several men who own farms along the siver have decided that land in this vicinity is too valuable to allow it to lie under water during the growing season. So through the agency of the Farm Bureau they secured the services of Mr. C. D. Kinsman, Extension Engineer from the College of Agriculture to run a preliminary survey to determine the feasibility of draining their low land. Mr. Kinsman was here last Thursday and during the day he made surveys for H. H. Bailey, C. D. Noll, Marion Cushing and Mr. Beran. He was decided in his recommendation that tile must be used in draining wet land. Mr. Kinsman has had seven years experience in drainage work in Indiana and Illinois and states that remarkable results have been secured with this same type of land in the east. After tile is installed this land instead of furnishing nothing but pasture during the dry months, becomes the most productive crop land on the farm, and the first crop will easily pay the cost of drainage. Even with material and labor at present high prices, he estimates that it can be thoroughly drained at a cost of about $30 per acre and as a result the land will treble in value. Through the cooperation of the Farm Bureau the services of this expert were secured at no cost to the farmers and he promises to be available for the final survey in case his recommendations are carried out.

FANNIE KAISER MARRIED

Word comes to Ord relatives and friends that Miss Fannie Kaiser is married, the name of her husband being Anderson. This is about all we are able to say this week about the matter except that the bride is a charming lady, always popular in Ord and she will have the hearty congratulations of hosts of friends. Her husband is said to be well to do and she has already acquired much skill in handling the fine, eight-cylinder Cadillac car which he is said to have presented her as a wedding present. The Quiz joins in the congratulations.

LOCAL HAPPENINGS

Meet me at Milford's.

John Ambrose was in Horace between trains last Tuesday.

Monday Roy Johnson of Omaha came down from Burwell where he had been visiting Jack.

This week Forrest Johnson is laying off from work at the Johnson Bros. store He is having considerable trouble with his eyes.

Leslie Crow has been enjoying a few days of home life since his return from service. The boys who have been in camp for a few years are mighty glad to be home again.

Miss Gladys Gudmundsen who had a very serious throat operation last week, is improving, but she has been very ill. Miss Hilda Johnson who submitted to a throat operation at the same time, was able to return to her school duties yesterday.

MRS. RYAN DIES SUDDENLY

Everyone who knew them was shocked the first of the week to hear that Mrs. J. E. Ryan had died suddenly of heart trouble. It was but a few weeks ago that Mr. Ryan was badly hurt in a runaway accident, and he has been at the Miller hospital until the news came of the death of Mrs. Ryan when he insisted on going to Exeter where she was with her parents. In the accident Mr. Ryan sustained a broken arm and a broken leg and other injuries and he had to be helped to the train when he went, and he was advised that it was dangerous for him to make the trip at this time. Mrs. Ryan remained on the farm for some time looking after the business but her health was not good, and her father who was with her, got her to go home with him for a few days, and it was while there that she died so suddenly. The Ryans were newcomers here, having purchased the farm out near the brick school house last year. They recenty sold the place to Everett Petty. They were very much liked by all their neighbors and it is with great regret that the friends hear of this new trouble which has come to Mr. Ryan.

65 Head--High Grade Holstein Cows and Heifers-Four Young Registered Bulls.

On the above date, the E. W. Badger Dairy Co. of Central City, Nebr., will hold their final spring sale.

In this offering you will have an opportunity to select some of the finest cows and heifers we have ever placed in the ring.

The cows are just right to give you the advantage of pasture and new alfalfa; they are either fresh now or close.

The heifers are bred to come in this fall; they are stuff we have raised and are the finest lot of heifers we have ever offered for sale.

We wish to call especial attention to the four young registered bulls that will be offered in this sale; they are ready for light service; they are fine, straight individuals and from blood lines that have made Holstein history.

We consider this sale a wonderful opportunity for the buyer.

All dairy products are high; pas-tures and alfalfa never looked better. There is no question, but what good dairy stuff, will behigher and harder to buy, this coming season.

All cattle sold on a straight sixty-day retest guarantee.

Sale called at 12:30 o'clock (Old time), at The Badger Dairy Co. Farm, one mile south of Central City. Lunch will be served at noon. Our cars will run from depots and hotels on day of sale. Good shipping connections, both Union Pacific and Burlington.

LOCAL — PERSONAL

Meet me at Milford's.

Flagg Gould of Burwell was in Ord last Sunday, in the afternoon going down Grand Island way.

Saturday evening Mrs. Geo. Seivers returned to Ord from a few days stay with her sister Mrs. Larkins at Grand Island.

Among the incoming passengers on Saturday evening was Mrs. John Barnes of Greeley, who is staying for a few days with her daughters, Mrs. Daily and Mrs. Willson.

Word has been received by Helen White that John Codell has arrived from overseas and is at Fremont. He will be in Ord this week. Before going to war he was a salesman at the Beranek drug store.

Dr. P. G. Howes reports the arrival of a 10 1-4 pound baby girl Monday to Mr. and Mrs. Lloyd Lamers of Greeley but who has been for a few weeks at the home of her sister, Mrs. Perry Bell. Mother and child are getting along fine.

A BEAUTIFUL HOSPITAL

We were privileged the other day to see the plans for the new Miller-Barta hospital and they surely indicate that the building is going o be a beauty. The third story will have but four rooms which are to be for the use of the nurses. The first and second floors are for the patients and operating rooms and with lots of large windows, sun parlors and sun porches, the place is surely going to be conductive to recovery of the sick people who will be there. Ord, we believe, is to be congratulated upon having so fine a hospital in course of construction. We hope a little later, to be able to show Quiz readers a picture of this building.

Dr. Haught was up to Ord, returning Sunday There was to be a good-bye party for his parents at their home in North Loup. They are to move next week to their new home at Kimball.

Between trains last Monday Mrs. Hatnes was in Ord. She had been visiting a daughter in Burwell and was going to her mother's home in Doniphan.

NEILSON ANXIOUS TO GET HOME

In a letter to his folks Jens Neilson writes that he is feeling fine but of course anxious to get home. He says Germany is way behind the U. S. They use their milk cows as horses in the fields and he says it looks funny to see their fields of grain of not more than one-half acre of each kind. He is another Valley county boy that will have a sad home-coming as his mother died while he was "over there." For the first five months he was over there he received no mail from home and was not aware of his mother's death until six months or so afterwards. He is with an Evacuation Hospital in Trier, Germany.

MRS. DAGGETT GOES WEST

Mrs. Abbie Daggett just couldn't stand it to see all her sisters leave Ord and she stay here, so she has rented her home to the elder Mr. Weekes and she will go to Loveland, Colorado, as soon as school is out. It is said she will be a close neighbor to her sister, Mrs. Keating. Her goods have already been shipped out there, being loaded with the car which Francis Keating took the first of the week. Mrs. Daggett is having her home repaired and put in shape for the new tenant as rapidly as possible. John Keating also left this week for the new Colorado home, making the trip by auto.

August Petersen and Kelly Ambrose were fishing at Ericson Sunday but they don't seem to be telling any big yarns about the catch they made so we infer the big ones all got away.

Have you noted the fine signs which are being placed in front of Ord business places lately? Ord business men are fortunate in having a firm of sign painters such as we have in Parks & Lowe, second to none in the country and when the auto show comes visitors who don't often come to Ord will notice the improved appearance by reason of the new and attractive signs hung recently.

On the outgoing train last Saturday noon was A. J. Swanson of Rosevale. He had just that morning received a telegram informing him of the death of a favorite niece, Lottie Lindquist. This will be sad news to the latter's old friends. When but a child she was a school mate of a number of Ord's well known citizens. She has for years been a teacher and her home has been in Chicago. Her mother was a widow and Lottie has never been married and the two have been a great comfort to each other all of their life. Mr. Swanson knew nothing further than what the telegram stated.

SOLD THE CHICKENS

Last week Paul Whitford phoned in Thursday morning in a great hurry and asked to have a little, four line local inserted in the "want ad" section. He said they wanted to sell baby chicks, had a hundred then and would have a thousand in a week and was afrai they wouldn't be able to sell them. We told him not to worry, and inserted the local, (cost him 20c), and he ordered it run for two weeks. Saturday morning he rushed in and said not to run it again, that all the chickens were sold and several hundred besides that were not yet hatched. He said his wife was busy all the time answering the phone, that the ones hatched were all sold Thursday evening after the Quiz was out. Of course Paul now believes it pays to advertise.

TO HAVE NEW PASTOR

Rev. Ralph Carson of Paducah, Ky., is to preach at the Mira Valley Presbyterian Church Sunday at 2:30 and 8:30, government time. Special music is being provided for both services and all are cordially invited to be present.

EDWARD VINECORE HOME

Edward W. Vinecore, a son of Mr. and Mrs. Dee Vinecore, returned home from France last Saturday night. The young man's discharge papers show that he had fought in "Verdun Ses., Toul Sec., Aisne-Marne, Oise-Aisne, St. Mihiel, Meuse-Argonne." Young Vinecore was an outpost lookout with the Fourth balloon company. He was gassed twice. The Greeley soldier brought home with him a large number of war trophies. Having fought in so many engagements he has many interesting stories to relate of the big world war.—Greeley Citizen.

DR. BARTA BUYS FARM

Dr. Barta handed F. J. Vopat a check for a good many hundred dollars Tuesday and told him it was the first payment on a half section of good Kimball county land and asked that he wire the Kimball agent at once to make sure of the deal. The Dr says he don't intend to go out and farm the place but he will have more breaking done and expects to have 300 acres of it put into wheat this fall. The land joins the section that Will Cronk recently bought.

E. R. Foth of Enterprise township, brought in 67 hogs last Tuesday, and averaged 310 pounds in weight. These were sold at the local dealers, and sold for $20.35 per hundred. This is the highest ever paid for hogs in Ord.

After starting their household goods from Grand Island to Arnold, Mr. and Mrs. O. S. Smith came up to Ord and will stay with their son Harold until the roads are in condition for them to drive their car over.

Thursday evening Mrs. Raymond Gass got home from Grand Island where she had been during the day. Her daughter Vere also got home that day. She had been in the Island for several days.

The G. A. R. are in convention at York this week. Those going from Ord last Monday were Mesdames Smithy Burrows, Frank Kull, Susie Lewis and Miss Zelma Nelson.

Among the outgoing passengers on Monday was Mrs. Earl Patrick and baby. They were returning to their home at Sidney. Mrs. Patrick is a sister-in-law of Mrs. Joe Stevens.

Frank Desch returned the latter part of last week from a business trip to Scotia. Ormsby Petty also came home after having been away for a couple of days on a business deal.

Friday Esther and William Bannister went down to Scotia to see their mother who is gaining from a recent operation at the Weekes hospital.

Friday Mrs Eyerly and daughter Opal, came up from North Loup and visited the Hagemeier family, returning Saturday to their home.

Friday evening Mrs. H. B. Pier came up from Lincoln and was visiting her Ord relatives. Sunday she was a guest at the Will Hawkins home.

Mrs. Walter Bundy returned home the latter part of last week from Grand Island.

Saturday evening Mrs. Geo. Parkins returned home from a visit with relatives at Elgin.

Meet me at Milford's.

Plain Language

You'll find that common words, simple explanations and quick action are the rule at the Willard Service Station.

It is part of Willard policy to make it easy for every user of a Willard Battery to get the most out of it. So our instructions are plain:

1—*Add pure water.*

2—*Take hydrometer test every two weeks.*

3—*If hydrometer test is less than 1.285 at any two successive readings come straight to the Willard Service Station.*

SHOW PLAYED TO GOOD HOUSES

The show company that has been playing at the opera house for a week seemed to give good satisfaction, the house being filled every night. The show girls have been gaining in popularity right along. On the start it was only the young fellows who took them auto riding and strolled through the parks with them in the cool of the morning hours after the show, but during the last days of their stay it is said that the older men have become interested and anyone having a good car or a fine saddle horse was 'their meet."

Mrs. John Adamie was spending a few days with Mrs. Fred Wichman and assisting her in getting settled. She received word that her daughter was not well so Saturday afternoon she returned to Scotia.

HORSE DOCTORS BUY FARM

Last Sunday evening Drs. McGinnis and Ferguson drove out to the Clint Thompson place north of Ord and asked him what he would take for his farm. Clint said $65 an acre; the Drs said "all right" and wrote out a check and handed it to Clint and as they drove off, they hollered back and told him to come in the next day and sign up the papers. The deal was done in about five minutes and the Drs. were said to be gone from town just 57 minutes. It is said Dr. Ferguson will go out there next spring and take charge of the farming.

Wilmore Gray returned from Norfolk last Friday where he says he ordered his tractor, and it is supposed to be on the way by this time to Kimball. He plans on soon moving his family out there.

Meeting called to order by the chairman. Roll call. All members present, 1:00 p. m. Chas. O. Rettemayer offered the following resolution and moved its adoption which was duly seconded:

That in view of the fact that the 1919 Session of the Nebraska Legislature has authorized and established Road No. 51 as one of the Federal-State Highway System, said road entering Valley county, Nebraska, south-east of North Loup and extending in a Northwesterly direction through North Loup, Ord, Elyria and Burwell,—and since Valley County's prorated share of Federal-State Highway Fund is in the neighborhood of $100,000.00 and that on account of the natural condition of said Road No. 51 it will not be necessary to expend much more than one-half of said available fund to place said road in condition to meet the requirements of the Federal-State Highway System,—and since the following described road marked BLACK WHITE BLACK extending from Columbus to North Platte and entering Valley County one-half mile north of the Southeast corner of Section Thirty-six, T. 18, R. 13, and extending West through and by the Village of North Loup six miles, thence one-half mile north to the Southwest corner of Section Thirty, T. 18, R. 13; thence West seven miles to the Southwest corner of Section Thirty-six, T. 18, R. 15; thence South along the East side of Section Thirty-five, T. 18, R. 15, thence Southwesternly through said Section to one-half mile East of the Southwest corner of Section Thirty-five, T. 18, R. 15, thence one-half mile South, thence one-half mile West, thence one-half mile South to the Southwest corner of Section two, T. 17, R. 15, thence one mile West, thence three miles South to the Southeast corner of Section Twenty-one, T. 17, R. 15, thence five miles West through the Village of Arcadia, thence westward across the Middle Loup river following the main established Highway to near the Northeast corner of Section Twenty-eight, T. 17, R. 16, thence one-half mile South in a Southernly direction and westward across said Section Twenty-eight, thence one-half mile South, thence two miles West to the Custer County line and since the Sherman County Board of Supervisors have recmmended and established a Road Northwesternly from Loup City meeting the Valley County line at the Southeast corner of Section Thirty-one, T. 17, R. 15, it is advisable that the road be recommended and established from said point on the said County line one mile North, thence one and one-half miles West, thence Northwesternly over the main traveled and established road to a point one-half mile West of the center of Section Twenty-five, T. 17, R. 16, thence one-half mile North intersecting with the herein described BLACK WHITE BLACK road at the Southeast corner of Section Twenty-three, T. 17, R. 16, and since the herein described road would serve a large number of the residents of this part of the State and also since the BLACK WHITE BLACK road is one of the main thorofares across the State of Nebraska and is traveled extensively by tourists.

THEREFORE, Be it resolved that we as the Board of Supervisors of Valley County Nebraska, in Special Session assembled, hereby designate said herein described road as a Federal-State Road and urgently request the State Engineer of Nebraska to establish said described road as a Federal-State Road, and that the residue or as much as may be available of the said Bond Fund, after Road No. 51 is completed, be used in placing said proposed road in condition and said Board of Supervisors of Valley County in behalf of said County hereby agree to properly maintain said proposed road after it is established and placed in condition.

Mott Rathbun offered the following resolution and moved its adoption which was duly seconded:

That in view of the fact that the 1919 Session of the Nebraska Legislature has authorized Road No. 51 as one of the State Highway System, said Road No. 51 entering Valley County, Nebraska, Southeast of North Loup and extending in a Northwesternly di-

Co-operation in Business

In order to achieve the greatest success in business, good fellowship, community building and civic welfare, there should be active and hearty CO-OPERATION IN BUSINESS. Let each respective branch of business patronize and boost all other branches of business. By so doing, every body prospers, the money is kept at home and works around in a circle. Right now, the automobile men are getting ready to put on their big

AUTOMOBILE SHOW

The automobile industry is the greatest manufacturing industry in our country today. Everybody realizes the necessity of automobiles, trucks and tractors today. Business could not go back to the Horse Age and get along at all. The world moves and it moves largely by means of the automobiles. Let every one in Ord and vicinity boost and root for the AUTOMOBILE SHOW. Let every one attend the AUTOMOBILE SHOW. The men in charge are going to stage a classy line of entertainment for all classes of people—the old and the young. Every one will enjoy it and every one should go. Mix with the crowd, have a little fun, laugh and grow fat, do a little business with the automobile men; they will appreciate it and you will be benefited so that every one profits. This is the AUTOMOBILE SHOW of the AUTOMOBILE MEN. It is the AUTOMOBILE GAME. PLAY IT. BOOST IT. That is just what the Nebraska State Bank is going to do and all the people connected with the Nebraska State Bank are going to attend the AUTOMOBILE SHOW and have as good a time as possible. Of course the Nebraska State Bank wants you to do your

BANKING BUSINESS

at the Nebraska State Bank where you can easily get a 1920 Model "SELF STARTING" "PUNCTURE PROOF" account with all kinds of "FORWARD SPEEDS" but no REVERSE. Accounts at the Nebraska State Bank have Five Point suspension on a Gold Frame; Welcome, Courtesy, Service, Safety, Liberality. These accounts are Full Floating and Ball Bearing, fully equipped with Shock Absorbing balances so that the ruts and bumps of business affairs are taken without a jar or jolt of any kind and the CUT OUT is open on red tape at all times. We use Valley County Carburetors, Federal Road Tires, guaranteed to last as long as a man can sign his name. We also use Head Lamps that enable customers to see far into the future without blinding other people. No tail lamp is necessary because people doing business elsewhere cannot get near enough to see the tail lamp which makes that an unnecessary appendage. The horn used is of a model that will make Gabriel sit up and take notice so that a patron of this bank is always sure of an Open Road to success in business affairs. When the driver finishes the trip and drives into the Garage of Eternity, Peter will say: "Welcome, wise man, you did your banking business with the Nebraska State Bank, come up and take a seat to the right on the throne. You may possibly look around for some of your wayward Ord friends who did their banking elsewhere, but Peter will sadly relate to you how they Skidded and slipped into another place.

THINKS WE QUIT TOO SOON

J. W. Hussey, who resigned his position as superintendent of schools at Cedar Rapids, Nebr., to enlist in the 168th Iowa, a part of the Rainbow division, was a caller upon State Superintendent Clemmons Wednesday. Mr. Hussey's father, who is now lecturing in France, was a former partner of Mr. Clemmons at the Fremont normal and was also president of the normal at Shenandoah, Iowa, for a long time. Private Hussey was one of the sixty-eight of the regiment that returned from France. Of these only twenty, including himself, were unwounded. The company numbered 250 men and with replacements 500. They first saw hard fighting in the Champagne, then at Chateau Thierry and later formed the apex in the drive at St. Mihiel. They wound up in the Argonne, thus participating in some of the severest fighting of the war. Mr. Hussey is of the opinion that the war ended too soon. Germany, while conquered in the field, is not conquered at home. He said he was a part of the army of occupation for five months and was stationed in a part of Germany that was supposed to be the sanest part. Yet the people there were the most conceited he ever ran across. They knew no English or French, but considered the German language the prettiest because it was German and, of other countries or their accomplishments, but they look upon all things German is not to be improved upon. With this spirit prevailing Mr. Hussey thinks a danger sore will exist for years.—State Journal.

The above is interesting to Quiz readers because Mr Hussey is a grandson of J. H. Carson of this city

Come and See Me While at the Auto Show

I don't sell cars but I do sell all kinds of auto supplies and I am anxious that every person who visits the auto show next week, come and see me at my place of business, the former Tatlow garage. I have expert repair men on the job all the time and I sell only the well known and guaranteed brands of goods. I sell for cash only and give my customers the benefit of the cost of keeping books, collecting and dead accounts. I want a part of your business and I want to get acquainted and I sure want you to have a good time at the auto show.

Wife's Recovery On Tanlac Proved A Grand Surprise To Him

"I was somewhat skeptical when my wife started taking Tanlac, so her remarkable recovery was a complete surprise to me," said James Taylor, 517 Bigelow Street, Peoria. There are few men in Illinois so well-known as Mr. Taylor, who for thirty two years has continually held responsible positions in the state government. In 1887 Governor Oglesby appointed him State Mine Inspector for Illinois, a position which he held for eight years. He was then appointed Special Investigator of Mines and Minerals. He has discharged the duties of this position with such fidelity and distinction that each successive governor since 1895 has reappointed him, his latest commission being issued by the present governor.

"About twenty-five years ago Mrs. Taylor's health began to break down," he continued," and the first manifestations were impaired digestion and headaches. Even the lightest kind of breakfast foods and toast and milk disagreed with her, and she received very little nourishment from what little she did eat and became very weak. At nights her rest was badly disturbed because of nervousness, and many a night she would not get more than an hour's sleep. She had nervous rigors, also, and I have seen her tremble when she had one of these attacks, just as if she had a chill. During any excitement, she would become cold and clammy, and her vitality would get so low that she would almost faint away. Sometimes for a week at a time she would be unable to get around the house. I did everything within my power to help her, and consulted some of the best specialists in the state of Illinois, but without meeting with any success. She kept on getting worse until I had about arrived at the conclusion that there was no hope for her. Then I heard so much about Tanlac helping people that I decided to get her a bottle, even if I didn't think it would do her much good. Before she had finished the third bottle she was able to sleep much better and could get up in the morning and eat a little breakfast which showed a vast improvement for her. She continued the treatment, and to give the facts briefly, she is now as strong and well and free from pain as she was thirty years ago. She can eat meat, potatoes, pickles or anything else she wants and they agree with her perfectly. She declares she feels thirty years younger and her appearance certainly bears out the statement. From a skeptic I have been converted into a firm believer in Tanlac and I want to be enrolled among those who are praising this truly great medicine.

Tanlac is sold in Ord by Ed. F. Beranek, and in Arcadia by Copeland & Moore.

On Friday morning Dr Blessing got home from Omaha. Dr. and Mrs. Taylor arrived the evening before. The gentlemen had been in attendance at a state convention of dentists.

Fred Bell was kicking the other day because the Ord barbers refuse him for a shave, but he ought to know that any barber who will stand over his homely mug long enough to shave him needs the cash to buy nerve medicine.

Evan McBeth was injured Monday while working on the bridge near John Vance's place. The dirt caved in, burying Evan up to the waist. His right knee was put out of place, and he now walks with crutches.—Scotia Register.

A. W. Pierce has been using large Quiz space for several weeks telling our readers about his land bargains. He says he has many inquiries, which is all that advertising can do. When the prospects have been secured it is then up to the advertiser.

A message received last Friday morning from Bill Wright said he had just landed at Hoboken and now his people are anxiously awaiting the word as to when he will be home. His wife will join him, probably at Camp Funston.

Mail carrier Woods says that in spite of all the denials of the highly esteemed Ord Quiz, Bud Shirley did carelessly, negligently and without malice afore thot, miss and fail to deliver the mrnoing mail to him Wednesday morning, by heck.—North Loup Loyalist.

Victoria Wisda writes asking that her copy of the Quiz be sent to her at Lincoln instead of to University Place. She is now employed as linotype operator on the Lincoln Daily Star and is very much pleased with her work. She is on the next machine to Mrs. Edna Clements.

T. Rockhold came in last Friday and paid for a year of this paper to be sent to their son Ed at Leed, S. D. It has been something like fifteen years since Ed was here, and probably he wouldn't know Ord as she is today. He is *still* holding down a responsible position in the mines.

Harry Phillips writes to have his paper changed to Trajunga, California, where he has decided to remain. He went out there some time ago to accompany the little sons of the late Mrs. Roy Beauchamp. They are now making their home with an aunt, Miss Helen Petty, who formerly lived with the Beauchamp family.

When we talked with W. A. Wright about his fishing trip to Ericson last week he didnt say anything about himself, Charley Detweiler and John Perkins treating the Ericson people to some singing in the evening. This bunch would rather sing than eat and no doubt the natives up by the lake enjoyed the concert, in fact one Ericson fellow phoned the Quiz that while the bass were not biting very much there was a bunch of Salvation Army fellows up town and they were having more fun than fishing.

After July 1st tobacco dealers in Nebraska will have to pay a license fee ranging from $10 to $25 a year, according to the sized town they are in. The money goes to the school fund. Penalty clauses provide a fine of $50 to $100 imprisonment from ten to sixty days for selling to minors under 21 years of age, and $100 to $200 or ten to sixty days in jail for selling without a license. A fine of $5 to $25 is provided for any youth who falsely represents himself to be 21 years of age for the purpose of securing tobacco and anyone who smokes cigarettes in public eating houses is subject to a fine of $10 to $25.

It is funny what mistakes will creep into a newspaper. For instance last week I tried to say that I regretted very much losing Bert Cushing as a competitor but that I was glad to see him get a better position, and the back room force lost a line out of the article and made me say I was sorry to see hi mget a better position. Bert has made a few similar mistakes himself since he has been in the newspaper business and could see just what I intended to say, and of course he was not offended, but a man not familiar with handling type slugs would have hard work to understand yhy such an error can so easily occur. I am sure sorry to see Bert quit the game for he is "white" the whole of his seven or eight feet.

NATIONAL PARTY PAPER NEARS MILLION MARK

The National Republican, the national Republican party weekly, published at Washington, has now extended its circulation, it is announced, to ninety per cent of all the counties in the country, and the circulation is growing at such a rapid rate that the hope of party leaders for a million circulation for this national mouthpiece of Republican opinion, bids fair to be realized.

The National Republican, issued at the center of national events, prints each week a comprehensive, condensed review of the happenings bearing upon national and world politics, gives a survey of newspaper and personal opinion on public issues, prints the important addresses and statements of political bearing, covers weekly the debates and proceedings of Congress while in session, and is a sort of continuous handbook of politics and public affairs. The idea is unique in journalism, and has proved immensely popular. The reader who wishes to keep up on politics can find no better medium for that purpose.

The National Republican is published and actively supported by Republican national leaders, not as a financial venture, but as a means of political information and education deemed especially essential at this time when the general channels of information are so completely commanded by the party in power. It carries no advertising, despite its large national circulation. It prints weekly some sixty thousand words of news and comment.

Subscriptions for The National Republican may be left at this office. The subscription price is one dollar per year.

BEN STEVENS IN TROUBLE

Monday evening Sheriff Round got a call from Postmaster Manchester to get to North Loup as quick as possible. George was eating supper but with visions of murder and other crimes he jumped in the car and started for the village southeast and says he made some time, and a mile from town down there almost ran over Ben Stevens who was crossing the road, though of course at that time he didn't know him or that he was soon to be on his trail.

The story dates back to a year ago when the drafted men were called in to go to the training camps. Ben was working for Palser Bros. on their big ranch west of North Loup. He is a son-in-law of Mrs. Vanscoy who runs the hotel at North Loup. When he didn't show up to register he was notified by Sheriff Bell to come in and register, and instead of doing so he "beat it." Later he was arrested in Wyoming because he was unable to show a card but was allowed to register at that late date. When he was called to go he reported but about train time he said he was going after a tooth brush and that was the last seen of him. The government has traced him over Wyoming, Colorado and Utah for nearly a year and recently located him at North Loup and a government man by the name of Kirk came there to look the matter up. After locating his man he had the sheriff called but becoming suspicious he placed Stevens under arrest and was preparing to bring him to the jail here when the prisoner asked permission to talk with his wife in another room. Stevens had changed his clothes preparatory to coming but hadn't put his shoes on yet and the officer gave him a few moments, thinking the sheriff would be there soon. It was probably ten or fifteen minutes later that he again got uneasy about his prisoner and upon investigation found that he had skipped. It was about that time that Round saw him on the road a mile or so from North Loup and as soon as he got down there and found what was the matter he told the government man to jump in the car as he thought he knew where their man was. They soon found that he had got into a car and later found where he had left the road when the man with whom he rode arrived home. While the government man was in the house of the farmer making inquiries and phoning ahead Sheriff Round was watching about the country and saw a man off half a mile or so, run over a little rise from the gulch to another and calling the other officer they drove around and soon had their man headed off. He came directly toward them until he saw the government man, evidently looking for another ride, but when he saw him he started to run again but when the sheriff ordered him to stop or he would shoot, he gave himself up.

Tuesday night in jail he suffered a severe attack of gall stones and his family was no[illegible] and came from North Loup, and [illegible] a time his attendants feared he would die. He was better yesterday morning and was awaiting the arrival of a government man to take him away or for orders for the sheriff to take him. He will have a serious charge to face. He is a brother of Joe Stevens who lives here in Ord and his parents also live here.

ANDREW McLAIN MARRIED

Andrew McLain and his bride arrived in Ord Tuesday, driving through York where they were married in the morning. They are visiting at the home of his grandmother and with other relatives. Andrew is the only son of Mr. and Mrs. George McLain, was raised in Valley county and will have the best wishes of many friends here for the happiness and prosperity of himself and bride although she is not known to many of our people. All the McLains have pretty good judgment however and we have no doubt Andrew has secured a charming helpmeet.

HREBEC-SAMLA WEDDING

There was a pretty wedding ceremony Sunday when Judge Gudmundsen said the words which made Anton Samla and Magdalen Hrebec husband and wife. The ceremony was performed at the home which the groom had prepared for his bride, the former Ulrich property and the brothers of the bride, Jim and John Hrebec, and the relatives of the groom, were present. The ceremony was performed at 11 a. m. The parents of the bride still live in the old country. Both young people are well known in Ord. The groom returned a few months ago from the service of Uncle Sam and now holds a responsible position with Gruber & Son as repair man at their garage. They have the best wishes of scores of friends for their prosperity and happiness.

BE CAREFUL OF PETITIONS

The other day a man stated to the Quiz that he had gotten himself into trouble by signing too many petitions. Heretofore people have signed every petition that was presented, evidently thinking that the easiest way to settle the matter. Now a new law makes it impossible to sign more than one petition and have your name counted. The man in question had signed a petition for a delegate to the constitutional convention and wanted to sign the petition of another friend, in other words he wanted to carry water on both shoulders. The last friend knew the law and told him his name would not count on either petition if he signed both. Remember this friends, and don't sign more petitions than necessary. If your name is on more than one it will not be counted on any candidate for the constitutional election primary.

VALLEY COUNTY SCHOOL NOTES

The matter of having a picnic to celebrate the graduation of the eighth grade has been definitely decided on. The present plan is to assemble at the park about three o'clock and spend two hours in games and then have a short address to the graduates followed by the presentation of the diplomas, and have supper served at six o'clock, new time. Part of the games will be athletic contests such as short races, relay races, ball throws especially for the girls and other stunts for which small prizes will be offered. This picnic will probably be held about the second week of June. All friends of the graduating class and those interested in the schools are invited to bring supper and have a good time with us. Definite announcement of the date will be made a little later.

Several more of the experienced teachers are being hired for the coming year. The directors seem to share the general feeling that there will again be a shortage of teachers and the most beforehanded of them are preparing early for the coming year's work.

A great number of applications for free high school tuition are coming into the office. These notices must be in within the next few days and it is to be hoped that none will neglect this matter till it is too late to obtain high school tuition for the coming year.

Last Friday and Saturday we had the largest teachers examination for some time. Reading Circle was offered and also the teachers are working for renewal before July in order to meet the requirements for certificates before the new law goes into effect. This new law requires college credit instead of reading circle for renewal.

If the person who called at this office sometime during the afternoon of May 27 during the temporary absence of the superintendent and walked off with the choicest articles of new furniture, will kindly return the same it may save the county the expense of hiring a detective to locate this property.

One of the patrons of the schools was in the office yesterday and seemed to be very glad to hear that the second week of June had been fixed as the date for the eighth grade picnic. His reason was that we are sure to have rain on Memorial Day and if another rain could be insured for the second week of June the wheat crop for the year would be as good as made.

Lelia Moorman.

CROWDED HOUSE GREETED CHILDREN

A house full of the parents and friends of the hundred or more pupils of the Ord schools who gave the program at the opera house last Friday night and all enjoyed the evening. Despite the fact that only a limited amount of time was available for the practice period the program was splendid, demonstrating that the teachers who had charge of the work, understand their business and have the confidence of the pupils The money received is to be used for improvements in the school room.

The splendid music furnished by the Star orchestra and the McGrews was much appreciated and when Supt. Jones came before the curtain to announce another trained animal and vaudevile show for the following evening, he brought down the house.

LADIES AID TO SERVE

From home-grown wheat of highest grade
To Big Four flour of whitest shade;
By skillful hands of Ladies Aid
These cakes are made so white,
Oh, tired and hungry business man,
Come buy these goodies while you can,
It will surely be the wisest plan
It will keep your honor bright.
Oh, traveler, in life's tollsome way
Come buy some eats next Saturday
It will surely be the wisest way
'Twill bring sweet rest at night.

NOTICE TO AUTO DRIVERS

There are two ways to drive an auto, either carefully or recklessly. The slow and careful driver who respects the speed law and considers the safety of others is like a mirror, he reflects a well balanced mind behind the steering wheel and commands the respect of all good people; while the fast and reckless driver who has so regards for the speed law or safety of others invites disrespect and prosecution. It requires no special skill nor is there any gain in reckless driving, but there is a possibility of getting into serious and costly trouble. So I kindly request all auto drivers to play safe. Excess speeding can not and will not be tolerated within the city limits.

JAMES MISKO, Mayor.

DO YOU BELIEVE IN PIXIES?

Whether you do or not you can't afford to miss seeing "Th Pixies," a two-act operetta which the North School children will give June 6, at the Onera house. Lots of fun and music. Come!

DEPOT BEING REPAIRED

Repairs and changes are being made in the union depot. The little alley connecting the two waiting rooms is being done away with and added to the office where more room is needed. This also gives a chance to have an east window and more light and air in the office. It will also give the patrons of the road more light and air for they will have to go out of doors and around the depot in order to get from one waiting room to the other. Tickets are sold out of one window for the Burlington and out of the other for the Union Pacific and as the traveling public will not know or remember which end is which they will probably get into the wrong end of the depot often and then they can get plenty of air and light as they go out and around to get to the right place. The government may later decide to have them walk twice around the depot before going in at the right door to get their tickets. And it will be real handy, oo, when a family is traveling together and the woman goes into the ladies' waiting room at one end and the husband into the gents' waiting room at the other end and is carrying the baby. It is 20 below zero and pretty soon the baby cries and the mother, hearing it through the partitions starts around the depot through the cold and storm to get it, and the husband in desperation charges out of the door and goes the other way around to get the crying infant to the anxious mother and of course they don't meet. Then will follow a race like tag or drop the handkerchief which will be most edifying to the waiting public. The president has said that he is going to give the railroads back the first of the year and those in charge of the work hope to get the present improvements done before that time so that the original owners can start changing the depot back so it will be handy for the public again.

Dewey Kneip returned Monday to Greeley after having been in Ord for a short time.

NOVOTNEY SELLS HIS RANCH

Last Friday Joe Novotney sold his fine stock ranch northeast of Ord to Theodore Hansen of Beaver Crossing, the consideration being upwards of thirty thousand dollars. Mr. Hansen gets possession next spring. He has eight sons and probably some of them will come up and run the place. Mr. Hansen said he might decide to come up here himself.

MANY RESIDENCES NEEDED

An Omaha man was in town Monday looking for a residence but he was unable to find one. He was coming here to accept a position in the People's Store; is a man of means and of considerable family and would have been a valuable addition to the town and it is a shame that such people must be turned away because there are no houses. It seems to the Quiz that there would be some one here who would build some good, modern cottages. There is no doubt but that they could be sold as fast as they could be completed. It should be recalled, now, that about the time school commences in the fall there is always a great demand for houses. This fall there will be none to be had unless some are built and it is time they were started if they are to be finished before the first of September.

A TIMELY WARNING

If it was only Snip, a little white Fox Terrier, who was so cruelly injured, by a speeding automobile, that after days of suffering, had to be mercifully put to death.

Perhaps this may not mean much to one who cares nothing for dogs in particular.

To one shut in comparatively for months alone, this little fellow was our constant companion, a solace for many lonely hours.

Now, this was only the life of a pet dog. What about the lives of the little children exposed to the same danger?

Speeding automobiles on Sylvester Street has become a mania.

Lova Trindle.

MORE ROOMS NEEDED

Secretary Detweiler has some rooms listed but there are sure to be more people wanting rooms next week, than he will be able to accommodate. If you have one or more spare rooms, please phone him so he can be prepared when people want places to sleep. We want to show our guests as good a time as possible.

BUYS McNUTT HOG RANCH

Ed Johnson has bought the McNutt 20 acres on the hill, trading in his residence on the depot street on the deal.

WILLIAM HARMON HUNT

William Harmon Hunt, eldest child of William and Orkha Hunt, was born in Utica, N. Y., April 27, 1848 and died at Ord, Nebraska, May 24, 1919, aged 71 years and 27 days.

In the year 1856 the family came west and settled at Princeton, Illinois, where William grew to manhood. He was united in marriage to Miss Zerissa Golden, October 15, 1873. To this union were born two sons, Raymond G. and Charles R., both of Ord, Nebraska. But this happy home was soon broken by the death of the wife and mother on May 20, 1888.

On December 14, 1895, he was united in marriage to Mrs. Helen Cole at Cresco, Iowa, and to them two sons were born, Eugene E., who died in infancy, and Lloyd C.

William Hunt came to Nebraska in the year of 1886 and settled on the farm near Vinton which was his home until the time of his death. He was a good kind friend and neighbor. He was always interested in the welfare of the community in which he lived, and at the time he was stricken with paralysis was in the city in the interest of good roads.

He united with the Methodist Episcopal church at Vinton some 25 years ago and has always kept the faith.

Besides his wife and sons he leaves a large circle of friends to mourn his loss.

The funeral services were at the Methodist church on last Monday afternoon and were lagrely attended by the people of his community.

PLANNING TO PLAY BALL

Another enthusiastic meeting of the ball fans was held Monday evening, something like thirty being present. E B. Weekes was chosen manager in chief and is already talking about getting a flying machine so he can look after his seed crops faster and have more time to devote to base ball this summer.

A finance committee composed of Joe Daly, Dr. McGinnis and Bill Heuck They are all Irish and Daly played on the St. Louis "All Irish" team several years ago. His team never got anything less than second place all season. Joe is planning on raising a fund of half a thousand dollars to start with and struck the Quiz for fifty bucks the first thing, probably because we look easy. He says everyone will have to "come through" if we are to have good ball here this summer.

The uniforms have been ordered already and Tuesday evening a diamond was staked out at the fair grounds and it will be put in shape at once. The old judges stand will be torn down and the place will be fixed so it will be both convenient and safe, and so the grand stand will be available for the games. The opening game has not been announced but Manager Weekes is going around with a chip on his shoulder and his chest sticking out like a Pouter pigeon, and any old nine that thinks it can take the Ord to a trimming had better apply soon, as when the boys get practiced up a bit no one would have a chance. It is not planned at present to hire outside players but a battery and a baseman or two may be secured later if some real good ones can be found. The following list of names is already in the box and the manager thinks he can pick out a bunch of real good ones: "Pidge" Johnson, C. E. Gano, Dr. McGinnis, Ormsby Petty, Chas. Arnold, Steve Koupal, Joe Daly, Henry Kelberlau, E. B. Weekes, Dave Arnold, Ci Castle, "Dutch" Burger, William Heuck, Frank Newman and Glen Johnson.

There are probably other ball players hereabouts who have not attended the meetings and as fast as they are found out their names will be added to the list and they will be tried out on the diamond. The public is anxiously awaiting the announcement of the opening game.

EIGHTY YEARS YOUNG

Tomorrow Sam Mitchell will be eighty years old and he is as spry as lots of young fellows of fifty or sixty and out every day looking after his duties as road boss. He is raising a good garden nights and mornings and while Mrs. Mithcell is with their daughter in Missouri he has the house work to do. He admits that he don't have strawberry shortcake every meal while he is doing his own cooking.

JOE BARTOS SELLS FARM

Joe Bartos sold his farm enar Elyria this week, to Joe Faiman for $150 per acre. Joe had a fine place and well improved. It is fifteen miles from Ord and the selling price probably establishes a new price for land out that far. Joe didn't know just where he would locate but he will probably buy again soon.

DECORATION DAY

The banks of Ord have decided to keep open in the morning until just before the Decoration Day Services commence, and remain closed for the balance of the day in compliance with the Mayor's proclamation.

ENTERTAINED HER CLUB

Mrs. Lucile Robinson entertained the Junior Matrons at her home last Friday afternoon and a jolly good time was had. After a business meeting at which new members were taken into the club refreshments were served and all had a delightful time. There were several invited guests.

Among the incoming passengers this week were Mrs. Bessie Portis and daughter Jessie. They were returning to Ord from a stay of several months in California.

PLANS ALL COMPLETED FOR SHOW

The big auto show is not on yet but one would think, to see the arrangements being made by the decoration committee, the amusement committee and the other committees, that June 3, 4 and 5 was going to be the biggest time Ord ever saw. Already arrangements have been made to clear out the big Ford garage on the corner and it will be carefully cleaned and by Sunday all the auto men with all their helpers will be busy installing the display. Other workmen will build the amusement platform, Charley Gregory will install a complete and modern lighting system, the sign painters will be busy helping to decorate the booths. Some dealers have had to decline or delay deliveries on cars in order to have the best to show at the auto show next week.

The manager of the Hawaiians was here the latter part of last week talking with the management of the show and he gave them his repeated assurance that his company would be all and more than they had been recommended to be. They are real artists and handle some of the large Chautauqua and other amusement contracts, and it was pure luck that the management of the auto show was able to get them. They could not have been had for any other dates.

Desdune's Jazz band is just home this week from a trip of ten days out over the Northwestern railroad with an Omaha booster bunch and they received $2400 for the trip and had their expenses paid. They are sure some band. It costs the auto show people $350 to get them to Ord for three days and they made a reduced rate because they didn't happen to have a contract for those days.

The colored minstrel quartet is more than a quartet, for while they are musicians, real southern melody singers, they are also, comedians and dancers with years of show experience and the people who attend the auto show are going to enjoy them immensely.

The last night of the show the management will give a big free dance in each of the Ord halls. The Omaha orchestra will play for one of them and the Star orchestra of Ord will furnish the music for the other dance and it will all be free. In fact everything about the show is going to be free. That was the original idea of the auto men when they promoted the show, and they have received the hearty support of the business men, so that no one who attends the show will have to pay a cent for anything connected therewith.

JENSEN-SEERLEY WEDDING

Last evening Lois Seerley and Miss Dorothy Jensen were married, Judge Gudmundsen performing the ceremony at his home. They were accompanied by the bride's sister, Miss Olga Jensen, and Guy Burrows. The bride is the daughter of Mr. and Mrs. Peter Jensen, and the groom is the son of Mr. and Mrs. Seerley, now of Grand Island, and both are well known and popular young people. The groom has but recently returned from army service.

The Quiz wishes to join with their many riends in wishing them an abundance of happiness and prosperity.

REV. HELWEGE DEAD

After several months of great suffering, Rev. Helwege died this week, and this morning the body was taken to Seward for burial. His wife and son Adolf and Mr. and Mrs. A. Fuss, Mr. and Mrs. Will Fuss, Mr. and Mrs. John Frank, Mr. and Mrs. Henry Rauchy and Mr. and Mrs. Arnold Bredthauer, all relatives, accompanied the remains. Rev. Helwege has been the pastor and teacher at the German church south of town for many years and was greatly loved by his people. His trouble was cancer of the stomach and he has been a great sufferer for some time and the best medical skill failed to relieve him. We will doubtless be furnished with an obituary next week.

MRS MILLER IS DEAD

Sam Mitchell received a message yesterday telling of the death of his daughter Mrs. Ella Miller, at Carthage, Mo., the first of this week. She was operated on eight weeks ago for cancer, and her mother has been with her the past few days, going as soon as she knew of her illness. The daughter had kept all news of her serious illness and the operation from her parents.

NOTICE TO HOME GUARDS

I desire that all Home Guards be present tomorrow, Decoration Day, at 9 o'clock sharp to take part in the exercises of the day. Be at the armory promptly.

LOCAL HAPPENINGS

Meet me at Milford's.

The latter part of last week Frank Judd got home from a few days stay in Grand Island and other points.

Don't fail to see the performing monkey, Jacko, in "The Pixies" June 6

Helen Groetzinger of Cotesfield, was in Ord, returning to her home on Saturday.

Last Saturday evening Ellen Bossen came up from Grand Island and spent a few hours with her people.

After a short vacation Acsa Ballard returned Friday from a visit at North Loup and other points. She is a nurse at the Miller hospital.

Capt. Clements was in Lincoln the first of the week for a short visit with his wife enroute to Camp Riley where he expects to me mustered out shortly.

Among the outgoing passengers last Sunday was Ernest Stewart who was going to the Isand to spend a few days with his parents, Mr, and Mrs. A. M. Stewart who formerly lived in Valley county.

Last Thursday Mr. and Mrs. Harry Hallock were down from Burwell by the auto way. In the evening Fred Hallock came up from Central City. He took supper with his parents and then went to Burwell to see his rother.

Thursday Wm. Whiting was a return passenger from North Loup to Ord.

Last Friday Frank Stara and Chas. Masin got back to Ord from a few days stay in Colorado.

Sunday W. T. Detweiler arrived in Grand Island after a western trip. He came up to Ord on Tuesday.

Thursday afternoon Mrs. Geo. Warford of Elyria, went down to Scotia She had come up to Ord on the morning train.

Mr and Mrs. W. R. Moore and daughter Neva returned Thursday afternoon to their home in North Loup after a short stay in Ord.

Last Thursday Merrill Hughes and a state agent for the Mitchell automobile, drove up to Burwell and over to Loup City.

John dwards, a brother of Mina Edwards, came up from Grand sland last Friday for a few das isit with his sister.

Grace Boyd was an outgoing passenger Friday, She said she was going to North Loup. H. M. Davis also left town on the motor that day.

On Friday Helen Collins went to Milford to visit a sister and stay until Floyd has his vacation, then he and Miss Helen wil join their reatives in Washington.

Saturday morning Mrs. O'Hara and children returned to their home at Council Bluffs. They had been visiting near Elyria with the A. Abette family. They came down to Ord in an auto in order to take the train that morning.

The operators at the Ord Independent office are to have a week's vacation on full pay. An experienced operator will take their place while they are away. There will only be one operator off at a time, so it will take

Louise Misko got home Thursday from several days stay with friends in Omaha and Lincoln. Lillian Dworak had gone with her but she had stopped in Schuyler for a few days stay with relatives.

Word comes from Omaha that Mrs. Carl Wright of Callaway, is recovering from a recent operatioon. Her two oldest children are staying in Ord with their grandparents, Mr. and Mrs. W. A. Wright until their mother can return home.

This week the I. Woods family are moving into the Wentworth house. This is the property just north of Mrs. Wentworth's home property, Ordinarily it has been a boarding and rooming house but Mr. and Mrs. Woods could find nothing in the house line in Ord that could be rented, for several weeks.

We made a misprint last week. The operations performed upon Mrs. J. P. Sternecker for abdominal trouble, and a tonsil optration for Howard Wright and the same kind of an operation for Roy Sanders were performed by Dr. Miller at his hospital.

Dr. Gard and family were incoming Friday passengers from Lincoln and Omaha. At the latter place George had been in attendance at the Nebraska Dental convention. Mrs. S. A. Parks accompanied them but she remained for a few days longer with friends.

Conductor Shumaker returned to Ord Thursday from Grand Island where he had been taking medical treatment. He thinks he will resume his duties on the Union Pacific. He can push the lawn mower now and he thinks if he can do that he should be able to punch tickets. He has been off duty for a couple of couple on account of poor health. A part of the time being in a hospital.

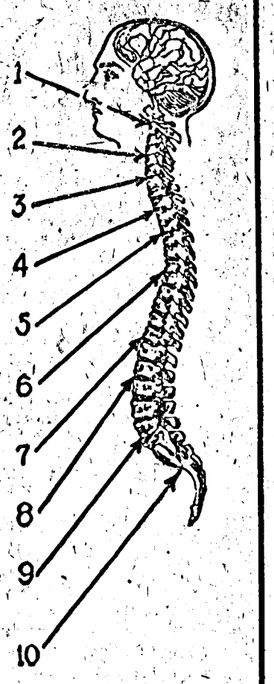
Mrs. Moss and son Murl came up from Burwell Saturday morning and visited the former's people, County Superintendent Moorman and their parents until the afternoon when Murl and his mother went down to Scotia to see Carl Moss and family and other relatives. Murl is lately home from service. He almost beat the train coming from Boston to Burwell, being in the latter place eight days after reaching Boston. He is looking fine and is mighty glad to be home again and his family are equally as pleased to have him here. Murl was formerly an Ord boy.

Because his wife and baby were up here and because he wanted to see his wife's people and other relatives, Dick Anderson came up to Ord Saturday. He had been called to Clarks to see his mother who is not well. The Andersons think too much has not been said about Kimball. They say it is growing fine and it is impossible to rent any kind of a house. New buildings of every description are going up. Dick has charge of a hard ware store. The Andersons have with them their bright little baby boy and this is his first vist to Ord. Pimball does not seem like a strange place to them as there are many Valley county people residing there, besides land dealers from Ord are over every week. They tell us about two weeks ago Carl Johnson moved his family onto the farm. The house is about completed.

The W. C. T. U. met at the home of Mrs. Will Zabloudil Thursday afternoon, May 22. Mrs. Clara Douglas had charge of the meeting. Her subject was Sabbath Observance, and was discussed by all. A membership campaign is on, each member is expected to gain one new member. Mrs. Jennie Petersen broke the record by signing up two new members. Plans were made for a Mother's Meeting, to be held in the G. A. R. Hall June 12. Each one is to reneat a scripture verse appropriate for this meeting. Each member is expected to invite one mother. Light refreshments will be served. At the close of the meeting our hostess served cake and coffee, and a social time was enjoyed by all.

Press Supt.

GOING DIRECTLY TO THE CAUSE of the majority of so-called diseases is the reason of Chiropractic efficiency as a drugless health agent; that is why adjustments benefit you when all "treatment methods" have failed. Disease is a medical term. It is a misnomer. All so-called "disease" is but odily inco-ordination. The "diseases" here named are called such to educate the reader by contrast to proper terminology.



Slight subluxations at this point will cause so-called headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, eac.

A slight subluxation of a vertebra in this part of the spine is the cause of so-called throat trouble, neuralgia, pain in the shoulders and arms, goitre, nervous prostration, la grippe, dizziness, bleeding from nose, disorder of gums, catarrh, etc.

The arrow head marked 3 locates the part of the spine wherein subluxations will cause so-called bronchitis, felons, pain between the shoulder blades, rheumatism of the arms and shoulders, hay fever, writers' cramp, etc.

A vertebral subluxation at this point causes so-called nervousness, heart disease, asthma, pneumonia, tuberculosis, difficult breathing, other lung troubles, etc.

Stomach and liver troubles, enlargement of the spleen, pleurisy and a score of other troubles, so-called, are caused by subluxation in this part of the spine, sometimes so light as to remain unnoticed by others except the trained Chiropractor.

Here we find the cause of so-called gall stones, dyspepsia of upper bowels, fevers, shingles, hiccough, worms, etc.

Bright's Disease, diabetes, floating kidney, skin disease, boils, eruptions, and other diseases, so-called, are caused by nerves being pinched in the spinal openings at this point.

Regulations of such troubles as so-called appendicitis, peritonitis, lumbago, etc., follow Chiropractic adjustments at this point.

Why have so-called constipation, rectal troubles, sciatica, etc., when Chiropractic adjustments at this part of the spine will remove the cause?

A slight slippage of one or both innominate bones will likewise produce so-called sciatica, together with many "diseases" of pelvis and lower extremities.

'The Goblins 'ill get you if you don't watch out,' in "The Pixies," June 6.

Last Saturday R. A. Studle returned home from Omaha and other points.

They were going over to Dunning for a few days stay with the former's mother, Mrs. A. F. Brown and family.

The latter part of last week Gladys Gudmundsen was able to be down town and resumed her school duties this week. She had rather a severe time after having her tonsils removed.

Ray Johnson does not expect to return to Omaha right away. He will spend some time in and around Burwell and Ord looking after the cattle business for his firm.

Among the outgoing passengers last Saturday was Chas. Davis and family.

Last Thursday evening Geo. Kellison jr., returned home from Harvard, where he and his wife had been for a few days. The latter stayed for a longer visit.

After the I. Woods family moved last week to the Wentworth boarding house, Harold Parks moved his family to the property he bought from Mr. Woods on the same street, but near the west end of town. Walter Bundy will at once occupy the house they purchased from Harold Parks. They moved in Monday.

Mrs. Vincent Kokes and our reporter have each heard from the Otto Murschel family this week. They have rented a neat little furnished bungalow at Long Beach and are much pleased with their new home and with California in general. They had met several former Ord citizens and they looked good to the Murschels. The day before writing, Frank McMillan and Geo. Newbecker called and the latter is feeling better. The Murschels had not met the Will Timm family as they were in Idaho looking after their household goods which had been shipped there from Ord. Earl Dorphner didn't stop at Long Beach but went on to Seattle to visit his father. Mrs. Murschel has been suffering with asthma since their arrival there but was in hopes she would soon overcome it.

Throwing Away Your Tires!

Get from 2,000 to 5,000 additional mileage out of them by using

Skived Tire Reliners

HOW WE DO IT:

We take an old, worn or RIM CUT tire which has good fabric and make a SKIVED TIRE RELINER out of it with the MAXWELL TIRE SKIVING MACHINE which SKIVES the bead off to a feather edge, so one tire of the same size will fit inside another. This method adds strength to a tire and protection to an inner tube, which practically does away with punctures and blow-outs, thus allowing you to get full wear out of your tires.

SKIVED TIRE RELINERS make the tire wear out instead of blow out.

NOT AN EXPERIMENT, for it has stood the SEVEREST OF ALL TESTS, that of PRACTICAL USE, which has demonstrated it to be the best method yet devised to do away with tire trouble and get full wear out of your tires, at a minimum expense.

Buick The Fuel of Economy of the Buick Is a HARD REALITY.

Built into the car twenty years ago, with the first Buick Valve-in-Head Motor,--increased in degree as this motor has been developed.

The Buick Car is twenty years old. The car and the motor have been developed side by side--co-ordinated as a unit--a motor for the car, a car for the motor.

The Buick is built around the Buick Vayle-in-Head Motor. First, the best motor that can be built; then a car in every part equal to its motor; that is the Buick creed.

I will have a full line of the cars I handle at the auto show next week and I want you to call and see them. Also call at my city sales room. Remember it was the Buick Valve-in-Head motor that helped to win the war. I want to tell you more about this wonderful car and motor.

Meet me at Milford's.

Mrs. R. C Greenfield was in Scotia between trains last Monday.

Last Tuesday Mel and Cash Rathbun bought a new Studebaker from Hughes & Burdick.

Mrs. C. A. Hager and Chauncey and Mrs. Forest Robinson returned home Tuesday evening from a day's stay in Grand Island.

Tuesday G. H. Russell went back to Lincoln. He and his wife had been up for a few days and the latter stayed and Mr. Russell expected to be back again before long. They like Lincoln fine but their daughters live up here so the Russells enjoy a visit up this way.

Last year Peter Knecht gave a number of most enjoyable dances at his place in the barn. Pete has one of the largest barns in the county and he has often been urged to give another of his popular dances. He has set Saturday night of this week for one and promises everyone a good time.

Among the outgoing passengers on Tuesday were Mr. and Mrs. Walter Noll who were going down to Omaha for a few days.

A party up from Grand Island Tuesday says that place has a case or two o diphtheria and there are a few small pox placards tacked up over the city.

Marjorie Thelin and her tiny dog were up visiting grandpa and grandma Rockhold and returned home to North Loup Tuesday. Marjorie was here while her mother spent a couple of days in Grand Island.

Among the incoming passengers last Tuesday were Mr. and Mrs. J. H. Poast and children. She had been in Omaha for a couple of weeks visiting her people. Her mother Mrs. Edmundsen, returned to Ord with her.

A. J Swanson of Rosevale returned to Ord Monday from Chicago where he had been to attend the funeral of a niece, Lottie Lundquist, who a good many years ago was a little school girl at Ord.

Tuesday evening Chas. Davis got home from Dunning. His wife and baby stayed for a longer visit.

C. Bradley was up from Wolbach looking after his interest at the Nebraska State Bank. He went home yesterday.

Mrs. Eva Nay Wright went to Lincoln this morning where she will join her husband tomorrow on his way from France.

On Monday Mrs. F. M. Davis got home from Fremont where she had been visiting with her daughter Mrs. Mildred Roach an family.

Tuesday Ota Bailey and his sister Lulu, and Mr. and Mrs. Alvin Blessing went down to Lincoln for a few days stay on business and pleasure.

W. A. Anderson reports a new grandson born Tuesday at the home of his daughter Mrs. J. F. Jensen of Horace. Both mother and child are doing nicely. Mrs. Anderson is there caring for the mother and children.

The Gass sisters, Bernice and Vera, are now employed in the office at the Huff garage.

Now is the time to get your tomato cabbage, pepper and sweet potato plants and have them set out at once. The Basket store has first class plants for transplanting, strong and thrifty. Cauliflower and peppers in season.92t

It seemed good to see Mrs. Ed Bannister return home from Scotia last Mosday. She came in looking quite thin but as smiling as you please, and it would have taken a great deal to convince her that home was not the best place on earth.

Among the outgoing passengers yesterday noon was Fred Hany and J. W. Miller of Chapman. They had left their auto at St. Paul and came up on the train from that place. They were looking over some farms.

Yesterday Mrs. Bokhoff and Mrs. Stabler, aunts of Mrs. Sol Brox, returned to their homes, the former to Holt county, Nebr., and the latter to Colorado. They had been up to Ord for a few days stay with their niece.

LOCAL — PERSONAL

Meet me at Milford's.

H. L. Nelson of Horace was an Ord visitor last night.

Yesterday afternoon Ray Johnson went down to North Loup on business.

The Daggett families received word that Lillian and Edith and John Keating had arrived safely in Loveland, Colo.

When Mr. and Mrs. Emil Fuss returned home from York Tuesday they were accompanied by a friend, Mrs. Andresen. The latter will visit at the Fuss home for several days.

Mrs. Frank Fafeita left this morning for Omaha and was to be joined at Central City by her husband. They were to meet the boys, Frank, jr., and Emil, on their way home from France. Mr. Fafeita is employed as manager of a general store at Sargent.

Last Tuesday evening C. J. Mortensen and wife drove up from Lincoln in autos. The latter with their own car and Crawford with a new Cadillac. The auto is without doubt, one of the finest cars in town and belongs to Mrs. Peter Mortensen.

Many Ord folk have noticed the young marine who is about town and wondered who he was. His name is C. H. Eastburn and he is a nephew of Maude Eastburn. His home is at Seneca, S. D. He has just received his discharge and came to Ord from Quantico, Va., and will spend a month visiting his Nebraska relatives. He wears a distinguished service medal and has served twelve months in the marines.

Chess Chinn went down to St. Paul this morning to visit his daughter.

Mrs. John Dennis and wife and little son were passengers this morning for Sutton where they went to visit their people.

Hazel Holman came up from North Loup last evening and is visiting at the home of her grasdparents, the Loofbourrows'.

Ruth and Helen Glover and Ruth Milford are home from their college work to spend the summer with homefolks.

Mrs. Fuson arrived home last night from owa and was accompanied by her mother, Mrs. Ward and also by a niece, a sister of Pearl Ward.

Leroy Abbey has arrived home from over seas army duty and has received his discharge. He arrived in Ord this week and was accompanied by a lady friend, Miss Martha Lux of Alliance, Nebraska.

Rev. Carson returned yesterday to Paducah, Ky., J. H. Hastings bringing him to the train. The latter said his district had been trying to persuade him to accept a call to the Presbyterian church.

Among the incoming passengers on Tuesday evening was Mesdames Susie Lewis and daughter, Frank Kull, Mrs. Smithy Burrows and Miss Zelma Nelson. They had been at York in attendance at a G. A. R. meeting.

RETURNED SOLDIERS ALL WANTED

Those in charge of the Decoration Day exercises are very anxious that all returned soldiers join in the exercises tomorrow.

We have heard about the Ford car running on its reputation but we have a new one this week, in an advertisement for Hughes & Burdick who claim they lost the gasoline tank off an Oakland car and didn't know it until they had gone several miles. We suspect that the local agent for the Oakland loosened that tank on purpose to get some free advertising.

Yesterday Dr. McGinnis was a passenger for Greeley on a postponed trip. Mr. and Mrs. Geo. Mickelwait left on their promised trip to Iowa. They expected to stop in Central City and visit the H. G. Barkemier family. During their absence Mr. and Mrs. Enos Stewart will look after things at the home. Enos and his bride returned Saturday from their wedding trip.

Vere Goodhand is home from Lincoln for the summer. Charley, who for a good many months has been looking after a government contract at Chadron, will also come home in a few days and the Goodhand place will again be opened after being closed for over a year. While Chas and his daughter were out of town Miss Marie Goodhand has been making her home with the R. C. Bailey family.

Mrs. C. V. Capps returned to her home in Blair Monday morning after spending nearly a month visiting here with her husband, Ord's capable and obliging superintendent of the electric and water system. During Mrs. Capps' brief sojourn here she made the acquaintance of Mrs. Dr. Bond and daughter Ella, and after a few minutes conversation it developed that they were related to each other, Mrs. Capps having descended from a close relative of Mr. Bond. Needless to say all three enjoyed a good time together. Mrs. Capps, like her Ord relatives, is a talented musician, having a large voice class in Blair.

The Louis Jefferies family motored up Tuesday from their home near Horace and spent the day shopping, starting home about four o'clock. About three miles out of town the Ford got tired and after an hour or so of unsuccessful effort they phoned into town and were pulled in. The car was fixed and about dark another start was made but they got only a mile further when a more serious break came and they had to be pulled into town again and this time it was nearly midnight before they gave up and decided to remain all night and have the car fixed in the morning. They have many friends here but it was late and they hesitated about calling on them until they found that there not a bed to be had at any public hotel or rooming house. Mrs. Jefferies was formerly Mary Jacobwith and worked in Ord for several years. They had their four children with them.

We Expect to Be Busy Next Week

BUT WE WILL ALWAYS HAVE TIME TO GREET YOU WHILE YOU ARE IN ORD ATTENDING THE AUTO SHOW. WE WANT TO EXTEND TO YOU A CORDIAL INVITATION TO VISIT OUR PLACE OF BUSINESS. IF YOU WANT A COLD DRINK OR DISH OF ICE CREAM WE WILL BE READY TO SERVE YOU AND WE TRY TO MAKE OUR SERVICE THE BEST IN TOWN.

Hats

I have a nice line and all the latest in shapes, colors and kinds---and the price is right on all of them. I can surely please you with a hat that will look right and be right.

Underwear

The time is at hand when one's underwear is one of the most important articles of dress. I have a large stock of underwear for men and boys, the union and 2-piece suits--the kinds that fit well, feel well and wear well.

When you come to Ord next week to attend the auto show, I want you to come and see me also and look over the nice lines that I handle. I want you to have the best time at the auto show that you ever had in Ord.

NOTICE TO G. A. R. MEMBERS

The G. A. R. people and the ladies of the G. A. R. and the flower girls will meet at the hall on Decoration day at 10:00 a. m., and the start will be made from there.

BURWELL TO CELEBRATE

Word comes to the Quiz this morning that there will be a big celebration at Burwell July 4th, with free entertainment on the street, dancing for those who enjoy that form of sport, and a general good time for all.

THE "OVERSEAS GIRLS"

The vaudeville and musical comedy troupe which drew good houses at the Wentworth, week before last, will open a return esgagement of three nights beginning tonight, with a complete change of program each night. There will also be a good picture film shown, all for the price of one show.

In order to accompany his daughter Mrs Jessie Schuyler to Rochester, Tom Jablonski of Elyria waa a passenger for Minnesota this morning.

Last evening Mrs. Chas. Cornell and little daughter came up from Lincoln for a visit with Mrs. Dr. Taylor and numerous other Ord friends.

The Unios Pacific was three hours late last evening, due to some kind of a break down between here and the Island.

We want you to come and see us while attending the auto show next week. Come in and get acquainted. Bradt Bros. 9-t

Mrs. Sarah Fowler came down from Burwell where she had been visiting and was in Ord for a few hours yesterday. She makes her home at Burkett.

Mr. Ryan who went to Exeter last week to attend the funeral of his wife who died suddenly of heart trouble, arrived in Ord last evening and returned to the hospital for further treatment.

Les Martz arrived the latter part of last week rom many months in foreign lands and has been having a good time visiting his old friends and such of his relatives as are still here. He has received his discharge. Since going over seas his parents have removed to California, and he has expected to accompany his sisters on a trip out there soon and may stay there. He tells the Quiz that he has not as yet determined what he will do.

William Bartlett was helping in the postoffice last Saturday and rumor says he passed the highest in the examination recently held and will become the Ord postmaster, though we seem to be unable to find anything definite about the matter. One thing is sure however, if Bill is postmaster we will feel free to sass him and he reasonably sure of being able to get a good start before he can come out and around, for he will not be able to jump through one of the mail box holes or windows.

Botha's Strategy.

One day during the Boer war the arduous march to Windhock in the broiling sun was particularly trying. General Botha cheerily told his men to buck up, as he hoped to finish the campaign and be home in time for his wife's birthday. His men cheered, and toiled on in good heart. But by and by one of them asked the date of Mrs. Botha's birthday. "Oh! that is a secret!" was the reply, and then the men realized that the laugh was against them.

There were three outgoing passengers yesterday, each with a car of stock for the Omaha market. They were G. B. Hoyt, Will Cundall and W. J. Byington.

Mrs. Fred Grunkenmeyer was on the Burlington yesterday. She was on her way to Omaha where she was to meet her daughter Hazel, who has accepted a position on the chautauqua platform. For the past few years she has been studying music at the Horner institute at Kansas City. Miss Hazel is well known in Ord.

Mayor Misko and wife and other members of the family will go to Chicago soon to witness the graduation of their son George from the medical college where he has put in the past six years. Dr. George Misko has arranged to go to Detroit after a short vacation at home and will spend a year in a big hospital before locating.

WILL REMODEL HOME

S. S. Brown is preparing to remodel his home this summer. He has disposed of his lot to the east of his property, Rudie Koupal being the purchaser, and we understand Koupal will build a modern cottage at once. Rudie figures, we are told, that there is so much demand for residence property here that he will have no trouble finding a suitable occupant for his new house when it is completed.

ECHOES FROM WOODMAN HALL

Frank Kaptecha moved his threshing outfit from the Klima place one day last week.

The Farmers Union produce station is doing good business although they are just starting. Last Saturday and Monday they took in 47 cans of cream. They also shipped in some tankage they received a carload a few days ago, but did not have enough to supply the demand so we are compelled to ship in more.

Our school and District 29 gave a joint program at the Woodman hall last Sunday evening followed by a dance. A large crowd was present and over $90 was cleared which will be divided between the 2 districts and will be spent to some good advantage. Although our district was divided, naturally, when they expect to do anything they always joinh ands, and like twins work together. We all realize that in unity there is strength, if it works to bestadva ntage in giving programs why not in daily work? Hail the day when our schools will be made larger instead of smaller, because a school room resembles a beehive, the stronger the swarm the better the results. At the present while he roads question is being discussed and plans laid it would be wise to consider the school question at the same time and make plans accordingly. If we are going to keep pace with the world's advancement we must give our children more and better school education but we cannot do it under the present system. Many a parent is desirous of giving his children more education but hesitate in sending them away from at 14 or 15 years of age; consequently the child remains at home. A few of course go, but the majority do not get above the eighth grade. What we need is all to have an equal chance which will be accomplished only by a rural high school.

The M. W. A. will observe Memorial day as usual next Sunday at the Woodman hall. Everybody is invited to attend to help decorate the graves of the departed.

The Farmers Union will give a program at the Woodman hall Thursday evening, June 5. Every body come; ladies bring a light lunch. A good social time is anticipated.

THE MOST DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out! Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back—*take up at once*. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

Last Saturday Henry Marks returned from a business trip to Omaha.

Tuesday Mr. and Mrs. J. C. Pletcher were in Ord for several hours. Their home is in Grand Island but they had been spending several days near Burwell with a daughter, Mrs. Wm. Hunt.

There are several of the Ord University pupils home for the summer holidays, among them being Elmer Gudmundsen, Robert Glover and Leo Bartunek. Robert Glover will be employed at surveying work by the state.

Among the outgoing passengers on Tuesday was Mrs. Frances Walkup who was on her way to Yoder, Colo., to visit her son. The same morning Mrs. Herbert Fuss was a passenger to Omaha, and Mrs. J. K. Butcher returned to Chapman. She used to be a resident and had been visiting at Burwell and Ord.

After finishing her visit with relatives in Iowa, Mrs. Camillia Slavicek started on her return to Colorado Springs. Having to pass through Grand Island, and it being so near to Decoration Day she decided to come up to Ord again for a few days. Her mother, her husband and numerous other relatives are buried in the Ord cemetery.

Last Friday Gould Flagg drove down from Burwell bringing his aunt Mrs. Bailey who wished to spend the day while Gould went back to Burwell. Mrs. Bailey returned in the evening on the Burlington. This is the first time for several months the latter has been down to Ord. She is the wife of E. Bailey, the elevator man at that place.

Last Monday Harold Stewart submitted to an operation at his farm home. Attending physicians were Drs. Barta and Miller. The operation was quite severe but the patient is doing nicely at present. The eldest son Will has been down to Aurora but he expected home this week.

Mr. and Mrs. A. J. Herbst and son motored to Brewster Tuesday to spend the day with relatives.

Mr and Mrs. J. W. Brockus were Monday evening callers at Goodenows.

Sunday afternoon Mr. and Mrs. M. E. Guyer came out to the A. J.Herbst home and with the latter motored to Elyria on the west side of the Loup and home on the opposite side. On the return trip they called on Mr. and Mrs. Will Trepton, also on Mr and Mrs. Arthur Wheeler. At the latter home a new baby girl was the attraction. This being the first child of this couple they naturally are very proud of it.

Word comes from Belvidere, Illinois, stating that Mr. James Barr was in very poor health and wished to return to Nebraska. Accordingly his daughter Mrs. Wm. Tetschner and Mrs. Samuel Garrison, a friend, left Saturday morning for Belvidere and are expected to arrive in Burwell Tuesday evening accompanied by Mr. Barr. We are hoping his condition may not be as serious as was first supposed and that he may fully recover.

Mr. and Mrs. Thead Nelson of Rosevale were over to Burwell Monday visiting along with business. Mrs. Alderman enjoyed their stay very much although they were not long at her home.

Mr. and Mrs. Nute Alderman and a daughter motored here from Colorado, their home. They were Nebraska homesteaders many years ago, Martin Kruser having purchased their homestead of them, near the river. They left Burwell last Saturday morning on their way to Plainview and they will visit other places before returning to their home.

H. L. Davis has purchased a new Ford Sedan and several of the family drove to Ord in it Saturday night.

The federal road inspectors were up this way Tuesday, taking notes and taking a survey of them in a general way. They would find John Carkoski no slacker a sa road overseer.

Sure we read the Vinton "dope" as the writer choses to call it. You guessed it too Mr. Coats, as to what gender and state we belong. Allow me to add tho' it is of the greenest variety possible, therefore we fear to venture over Vinton way lest the Jersey cows decide to eat us instead of the more luxuriant alfalfa or other grass. In reference to the "slam" at the name of Coats, beg pardon, it was not meant for a slam only jollying across the miles through the medium of the Quiz. So the "reporters are the goats," well it does rhyme with coats (what's in a name anyway), then permit me please to trot along as a little lamb and attend that picnic that you think the editor should give us. Poor editor, how he will "Leggett" to comply. Believe me if he is as busy all the time as he has been the few times I have been in the office he would not have time to shiver at the sight of a cone of ice cream, even if the reporters furnished it, to say nothing of him attending his own picnic. And now farmer Coats, about the reporters meeting to get acquainted, I fear for your eye sight when you get a squint at this one. Why not have it a masked party, then I'll be there. Then "Soloman in all his glory would not be arranged like one of these." As to the why? of our unfavorable opinion of the county agent, first we are many people of many minds, (good or bad) and we expected our mention of t would call forth comments, however, the idea is the burden of expense just now. Does the service justify the expense? Perhaps it does, but that yearly salary would help along with that new court house, now wouldn't it? With war or peace tax, state capital tax, good roads and schools, with numerous other tax, will make slaves of the people. Personally I do not enjoy a luxury however ine if the effort is so great that it becomes burdensome. Surely there must be a limit even in these times of wonderful progress. Perhaps we might compare the services of the county agent and dollars to that of religion; the more it is used the more it grows and the mightier it gets. Hope so, as we do not wish to be the only fly in the soup dish. Then on the other hand we could liken it to the dandelion pest, the more you fight them the more they flourish and the only revenge some of us get is to eat 'em. Were we in a sure crop district we could carry the added expense very well. However, we thank you for the list of work accomplished and shall keep our eyes open to the work to the best of our ability. On the question is a chance for argument and I will leave it to the editor whether this much is worth printing or not. From Farm and Home we clip the following which is an echo of our ideas: "The Big Silent Majority of people, in country and town, evidently believe that during the past year Uncle Sam has bitten off rather more than he can chew. They want him to digest what he has already undertaken, before tackling more. They want less waste, les loafing, less incompetency, less expense, in public affairs. They want taxes and debts reduced before state or nation plunges rheadlong into more troubles."

Ford

THE UNIVERSAL CAR

The policy of the Ford Motor Company to sell its cars at the lowest possible price, consistent with dependable quality, is too well known to require comment. Therefore, because of present conditions, there can be no change in price on Ford cars:

These prices f. o. b. Detroit.

Runabout, $500

Touring Car, $525

Coupelet, $650 Sedan, $775

Truck chassis, $550

It will be a Real Pleasure

IN a few years, to have a nice picture of your soldier boy in his uniform just as he came home. You can't realize now how sorry you will be if you neglect the matter. Something might happen so you couldn't get it later and anyhow you would want it just as he looked when he came marching home. I have taken many of these pictures lately and I want to take yours.
