## NEW CHEVROLET WILL BE SHOWN NEXT SATURDAY

Chevrolet Agency Has Meeting Monday; Have Sold 203 Cars In But Ten Months.

At their display rooms in Ord Monday evening, the Graham-Seyler Chevrolet Company held a special meeting at which their selling program for 1930 was discussed and outlined. R. H. Roberts, district agent, of Omaha, had charge of the discussion and organization, together with dealers from other towns of this neighborhood, were present. After the meeting Ed Seyler, active head of the local organization, entertained all those present at a dinner served in Thorne's cafe.

Those present from out of town included Larry Lysinger and Fred Wickman, Loup City; Clyde Baird and Fred Olson, Arcadia; H. B. Phillips, Burwell; Hugh Clement and Roy Coleman, North Loup; G. R. Kirk, Omaha; Ray Lysinger, Sargent; R. H. Roberts, Omaha; Mr. Seyler and members of his sales and service staff.

In his discussion, Mr. Roberts paid a high compliment to Mr. Seyler and his associate dealers and salesmen. The local organization has sold 203 new cars in the past ten months, selling 36.6 per cent of cars in Chevrolet's price class sold in this territory. The Graham-Seyler company exceeded its quota by a large number of cars, Mr. Roberts pointed out.

The 1930 model Chevrolet, called the "Greatest Chevrolet in Chevrolet History" was announced and service and sales plans for it were discussed at the meeting Monday. This car goes on exhibition at the Graham-Seyler garage Saturday.

Scores of new improvements have been made in the 1930 Chevrolet line, Mr. Seyler says. Greater beauty, added safety factors, improved riding comfort, added power and faster acceleration are announced as features.

Larger tires, smaller wheels, Delco-Lovejoy hydraulic shock absorbers on all four wheels, Fisher slanting VV windshield and vastly improved four wheel braking system are some of the highlights.

Eight models, three of which are new to Chevrolet, are included in the line. Of the eight, five are closed cars and three are open. The closed cars are the sedan, coupe, sport coupe and club sedan. The open models are the roadster, sport roadster and phaeton.

The six cylinder valve-in-head engine introduced a year ago has been further improved and refined. It is fully enclosed with a high compression, non-detonating head and develops 50 horsepower, attained at 2,600 revolutions per minute. Light weight pistons and steel-backed crankshaft bearings have been adopted. The oil pump has been increased in capacity and improved in efficiency while the carburetor has been improved both in respect to its accelerating pump and jet size. The sturdy 48-pound crankshaft has been retained. The clutch on the new car has been improved by adoption of an integral disc. Easier riding and greater quietness are accomplished through a new type of self-adjusting spring shackle. Many more improvements have been made.

Many refinements that make for greater riding comfort and driving ease have been adopted. The cars are available in several combinations of colors. Mr. Seyler and his associate dealers will be delighted to display and demonstrate the new car beginning Saturday morning.

W. W. Miller, who has been employed by the Purina Mills, has resigned his position and accepted a job as salesman with the Graham-Seyler organization. He joins with other members of the local automobile company in inviting everybody to inspect the new Chevrolet.

**Dora Wagner Weds.** Miss Dora Wagner, who attended school in Ord for several years, and Harold Grohowsky, of Scotia, have just announced their marriage, which occurred June 24 at the M. E. parsonage, Fremont. Mrs. Grohowsky now is principal of the Fish Creek consolidated school. Her husband is completing his course in dentistry at the state dental college in Houston, Texas.

**Annual Meeting.** The annual meeting of the stockholders of the Nebraska State Bank will be held in the banking room on Friday, afternoon, January 24th, 1930 at 2 p. m. C. J. MORTENSEN 41-41 Vice President and Cashier

—Velmar McGinnis, who is attending the veterinary department of the agriculture college at Manhattan, Kas., has been spending his vacation in Ord. He came home with his mother, Mrs. J. W. McGinnis and brother and sisters. Dr. McGinnis found plenty of work to do near Maywood so will not return to Ord for a few days.

## Joe Masin Dies At Home in California

Joe Masin, 28, eldest son of Mr. and Mrs. Charley Masin, of Broken Bow, passed away December 29 at his home in Santa Ana, Calif., it is learned here. He has been employed in a drug store there for several years. Joe's early life was spent in Ord and he attended school here. Ten years ago he was married to Miss Muriel Plummer, and they went to California at once. He is survived by his wife, daughter, June Louise, 7 years old, a son, Charles William, 4 years old, and by his parents and one sister, Louise.

## ALL-STARS WILL PLAY TWO FAST TEAMS IN WEEK

Grand Island and Ravenna Cage Teams Play Here January 6, 9; Other Games Booked.

Two fast basketball aggregations will be seen in action here next week against the City League All-Stars, it is announced today. Next Monday evening the Grand Island Athletic club plays here and on next Thursday evening, January 9, the Ravenna town team plays on the local court.

The All-Stars will face a strenuous opening assignment, as the G. I. A. C. team is generally regarded as one of the fastest independent cage teams in the state. Matt Carlock, who leads the team, will be assisted by such former all-state players as Kelso, Willard, Phalen and Meyers. The same team beat the Ord town team last year 36 to 24, but this year's City League All-Stars are considerably stronger than last year's town team so a bang-up game can be anticipated.

Captain Lee Nay, of the All-Stars, expects to send a formidable line-up into action Monday night. Joe Krejci, coach of Ord high school and former center on Peru Normal's championship team, will be the main cog. He will be assisted however, by Ike Blessing, Syl Carlock and Captain Nay, who are accurate goal shooters. Lores McMinties, Buck Williams, Swede Carlson and Bill Heuck, who play strong floor games, and by Lynn Beegly, Alvin Jensen and Thurston Shindler, who shine at guard positions. All of these players have been named on the All-Stars and most of them probably will see service against both Grand Island and Ravenna.

Little is known about the strength of the Ravenna team which comes here January 9. Ted Birt, the captain, is known as a big cog in Ravenna's state championship team of a few years back and he will be assisted by several other players. The Ravenna team has played four games and has yet to meet defeat.

Fans who enjoy basketball will want to see these games January 6 and 9. The admission fee will be nominal and fast games are assured.

Other teams that will appear in Ord during the winter season include Ansel, Scotia and probably North Loup and Comstock.

## Ord Auxiliary Gets National Citation

For the first time since the American Legion Auxiliary was organized in Ord it has been given for 1929-30, a national citation for membership. The Auxiliary has been working for this citation ever since it was started but each year has fallen a few short. This year the goal of 68 members was attained by a contest between teams led by Mrs. C. A. Bowers and Mrs. C. C. Dale. The former's team won with eight new members, Mrs. Dale's team bringing in five new ones. The latter team will give a party for Mrs. Bowers and her teammates.

**Florence Butcher Weds.** Judge J. H. Hollingshead was called on Tuesday to unite in marriage Miss Florence Butcher, of Burwell, and Stanley V. Cunningham, of Broken Bow. The bride's parents, Mr. and Mrs. Hugh Butcher, and her aunt, Mrs. Joe Rowal, of Ord, witnessed the ceremony.

## Postmaster and Wife Parents of 1st Baby

Postmaster and Mrs. Edwin P. Clements are parents of the first baby born in Valley county in 1930, and will be given prizes offered in the Quiz last week by fifteen Ord merchants. Their baby, a 10-pound girl, was born in the Ord hospital at 7:30 p. m., Wednesday, January 1. Dr. C. J. Miller was in attendance. This is the second child born to Mr. and Mrs. Clements and both are girls. The new arrival has not yet been named.

**Fryzek in Minnesota.** Mr. and Mrs. Frank Fryzek, who left Ord several weeks ago are now located in Meadowlands, Minn., it is learned here.

—Mr. and Mrs. Robert Noll drove to Omaha and back Wednesday, Mr. Noll having business in that city.

## MRS. JOHN AUBLE PASSES AWAY AT AGE OF SEVENTY

Was Ill For Long Time At Home Of Daughter In Hastings; Buried Here Sunday.

After an illness of many months, Mrs. John Auble, 70 years old, passed away December 27 at the home of her daughter, Mrs. Helen Stowell, in Hastings. All during her illness her children and other relatives did all that was humanly possible to care for her and prolong her life but their efforts were unavailing. The body was brought to Ord and funeral services were held last Sunday from the Episcopal church, Rev. J. A. Moorman having charge. Interment was in Ord cemetery.

Cornelia Stevens was born in New Jersey on May 24, 1859 and at the time of her death was aged 70 years, 7 months and 3 days. She was united in marriage to John N. D. Auble on Feb. 11, 1880, and they lived on a farm near Lincoln until 1886, when they moved to Ord. Mr. Auble passed away July 4, 1926.

Deceased was converted and united with the church in her girlhood and always lived an exemplary Christian life. She affiliated with the Methodist church upon moving to Ord and was a consistent and faithful member.

Mrs. Auble was always ready to go where help was needed in time of sickness and always wanted to be of service to others and to minister to those in need.

She is survived by five children, Ray H. Auble, of Wray, Colo., Mrs. Helen Stowell, Hastings; Mrs. Ivy Pierce, Ord; Mrs. Ada Rockwell, Des Moines, Ia.; and George Auble, of Illinois, also eight grandchildren, one sister and other relatives and a large circle of friends.

## Price Of Shoes To Be Lower, Weigardt Threat

For many years H. C. Fales has conducted a shoe shop in the parlor in Mart Weigardt's barber shop. During all these years he has had to take a lot of kidding, most of it good-natured, but the climax was reached last week when Hank announced his intention to move into new quarters.

"I'll get a nice black and shine for a nickel," Mart Weigardt threatened. "Oh, no you won't; you're just kidding," Hank answered. But for a few minutes Monday evening Hank thought that Weigardt had made good his threat and that Ord shoe shiners were about to face a price war.

Just after the Pacific train reached town Monday evening a gentleman of color walked into the barber shop. "Is this the place to shine shoes?" he asked, setting down an enormous carpet bag. Hank's eyes "bugged out" at least an inch.

"This is the place," Mart assured the negro. "But you'll have to wait a day or so until Hank moves out." The new porter then announced his intention of seeking a room and left.

All this time Hank had been wearing a Lon Chaney expression but about this time he recovered his voice. "You can fool me," he said to Mr. Weigardt, "but that's the way you fool me."

Several prominent Ord citizens were in the barber shop at the time and all of them assured Hank that the new porter bore no resemblance to the man who had come in about this time Mr. Auble, himself, walked in, intent on getting a shave and a shine. He had been taking inventory all day, he declared, and had to go into the country to install radio just at night.

Hank was nonplussed but went right ahead with preparations for moving and now is installed in the building formerly occupied by the Central Electric. Nothing more has been seen of the negro but Manager Weigardt is assuring all patrons that his new employ will be on the job next Monday morning.

Hank is still worried but says that no matter what happens, shaves will be the same as before.

## THREE MEN ARE FINED HEAVILY ON RUM CHARGE

Moon Digs Up Cash But Flick And Manchester Are "Laying Out" Their Fines In Jail.

Christmas comes but once a year but that plenty often for three Valley county men who celebrated the holidays in the good old way and stood trial Thursday for intoxication. Frank Manchester, who was arrested by North Loup officers, plead guilty both to intoxication and possession of a half-pint of alleged moonshine. The court fined him \$25 on the first complaint and \$100 on the second, together with costs aggregating \$125.

Vern L. Flick, employed as a barber by a barber shop, plead guilty to intoxication Thursday and Judge J. H. Hollingshead fined him \$25 and costs of \$8.25. William Moon, found guilty on the same charge, drew the same fine and costs.

Moon dug up \$33.25 in cash and secured his release but Manchester and Flick are "laying out" their fines in the county jail here.

**Hunt Works At Hatchery.** Charlie Hunt is busy this week in the hatchery, which is occupied by the Ord Hatchery. Many changes have been made under the direction of the manager, Thos. K. Goff, who has moved here and is supervising the work. Besides doing commercial hatching and selling chicks, the hatchery will have a full line of feeds and other poultry supplies.

**Mrs. Gilroy Dies.** Mrs. Mrs. Gilroy, one of Valley county's pioneers, passed away at her home in Ord early this morning. She is survived by her husband and by two children, Clayton and Minnie, both of whom live at home. Funeral arrangements have not yet been made. The obituary will be published next week.

**Dannebrog To Play Here.** The Dannebrog high school basketball team will play Coach Joe Krejci's Ord high school team here tomorrow, Friday, night at 8 o'clock.

—Mr. and Mrs. Alvin Johnson of La Jara, Colo., who had been visiting the latter people, Mr. and Mrs. Charley Goodhand, went to Litchfield Thursday and spent the day with relatives.

## FORD COMPANY DISPLAYS NEW MODEL BODIES

No Mechanical Changes Will Be Made, Says Fales; New Cars Are More Beautiful.

Presenting Tuesday new and smarter body types and a group of new colors for the Model A Ford the Ford Motor Company have been busy displaying the new cars to large groups of people. Their show room has been crowded ever since Tuesday, Gould B. Fales declares. "No mechanical change is contemplated in the car because of its thoroughly satisfactory performance it has been giving," he says.

Mr. Fales describes the New Model as follows: Redesigned along ultra modern lines and in beautiful bodies the new Ford have a distinctly refreshing appearance, with all the beauty and charm of contour, line and proportion usually associated only with custom coachwork and large cars.

The entire front of the Model A is raised and in beautiful proportion to the new body types. Moulding treatment is new, and fenders are of more generous dimensions, flowing with the lines of the car. A new treatment in the contour and sweep of the bodies with a graceful forward pitch, gives the impression of fleetness.

Every line from the flat radiator cap to the tip of the low graceful curve of the rear fenders is new, clear cut and extremely smart.

Rustless steel will be used for radiators shell headlamps, hub caps, all are bright and shining, and will stay so, for in this rustless appearance, with all the beauty and charm of contour, line and proportion usually associated only with custom coachwork and large cars.

The general effect is one of greater height and less width, which, combined with the sweeping curves, contributes much to the trimness and smartness of the whole car.

The effect is heightened by a sturdy tie rod, finished in black enamel, which rises in a graceful arch from each fender. It supports the license bracket, and the headlights, which are higher than before.

Additional strength has been built into the body by the construction of the cowl, the sides of which extend in one piece up along the windshield pillar to the roof line. Not only does this give sturdiness but it reduces the possibility of the cowl being placed high and standard equipment only on the Town Sedan and Cabriolet, all body types have been wired for small cost.

A sturdy, compact design of the wheels has been introduced. They are smaller in diameter and consequently nearer the road. As before, they are made complete, in one piece, all of the steel spokes being electrically welded to the hub shell and rim. The angle at which the spokes are placed helps to distribute the force of road shocks and gives greater strength.

With the use of the smaller wheel the tire size has been increased from 4.50x21, balloon to 4.75x19 balloon. This adds to the comfort of the passengers in a car ready to handle for its easy riding qualities.

A variety of colors has been added and may be obtained by the purchaser without additional cost. Much study has been given to this matter as an special effort made to please the women motorists.

The most notable changes in the body types have been made in the Tudor Sedan, the Coupes and the open cars.

The Tudor Sedan, most popular of the five passenger closed cars is longer. More room has been given for occupants of the rear compartment. Access is easier under the folding seats in front. In its exterior appearance, the car is much improved. It still retains the crown roof effect with rounded corners on the rear quarter, the beauty of which is accentuated by new body belt and moulding treatment.

The Coupe is entirely new, with lower roof line. French roof quarters emphasize the low effect and the long lines of the new moulding treatment. Panel effects carried out by the moulding on the rear deck adds much to the smart appearance of the car. No headroom has been sacrificed inside by lowering the roof line and driving is made more comfortable by an adjustable seat.

The Sport Coupe, which has a rumble seat as standard equipment, has all the lower body lines of the coupe. The two open cars, Phaeton and Roadster, are entirely new in design, with long, lower lines and more beautiful appearance. On these cars, the new moulding, flowing back from the radiator, joins the body belt in a panel at the cowl, giving a streamline effect.

No change will be made in the price of the various types.

## Epworthians Meet At Arcadia, Form Valley Conference

Arcadia, Jan. 1.—(Special)—The young people from nine different Epworth Leagues met in the Methodist church here when the local Epworth League was the host last Friday evening in what is known as the Loup Valley Epworth League rally and formed a permanent organization called the Loup Valley Methodist Conference. Rev. J. A. Moorman was elected Dean, Rev. S. T. Geiger, registrar and Rev. Randall secretary-treasurer.

A three days meeting is planned for the last of January at Ord. The Epworth League was represented by 14 from Berwyn, 17 from Burwell, 30 from Ericson, 32 from Loup City, 14 from Mira Valley, 20 from North Loup, 50 from Ord, 31 from Scotia, 19 from Westerville and 75 from Arcadia, totaling 303. The largest number of miles traveled was by the people from Ericson, 30 coming 47 miles each making a total of 1410 miles and they won the prize of the evening.

The next largest was Ord with 50 persons coming a distance of 22 miles each making 1100 miles.

The pastors from the following places were present: Berwyn—Westerville, Rev. Hendrickson—Burwell, Rev. Austin—Ericson, Rev. Geiger—Loup City, Rev. Birmingham—Mira Valley, Rev. Thomas—North Loup, Rev. Schwabauer—Ord, Rev. Moorman—Scotia, Rev. Randall.

The evening was ably handled by the local Epworth League. A splendid lunch was served and everyone reported a good time.

## Henry Prien Dies, Aged Ninety-Two

Former Mira Valley Resident Goes To Reward At Home of Daughter Near Scotia.

Henry Christophorus Prien was born in Prussia, Germany, January 20, 1837. At the age of fifteen he was received into full membership of the Lutheran church by confirmation.

In 1863 he was united in marriage to Johanna Selk. To this union were born six children, two of them having passed away.

The family came to this country in 1863 and located near Davenport, Iowa. Like all early pioneer settlers they experienced many hardships and adversities. Some years later they moved to Ord, Neb., where they lived in Mira Valley for four years. Then they moved here to Iowa, and this time they made their home at Wilton until they both became old and feeble. Since then they stayed with their daughter, Mrs. Bertha Hayden and Mrs. Emma King. Here the parents received the best of care in their declining years.

Mrs. H. Prien was taken out of this vale of tears August 15, 1928. Mr. H. Prien died Friday noon at the home of Mrs. Emma King, residing about four miles west of Scotia. He reached the age of 92 years, 11 months and 7 days.

He is survived by two sons, Otto Prien, of Davenport, Iowa and Henry Prien, of North Loup and two daughters, Mrs. Bertha Hayden of Scotia and Mrs. Emma King of North Loup; 15 grandchildren and 8 great grandchildren.

Funeral services were held Friday morning from the King home, Rev. W. L. Ernestmeyer officiating. The remains were conveyed to Grand Island, and there laid to rest beside his wife.

## Charley Brown Fined On Liquor Complaints

Charley Brown was arrested Monday by Valley county officers and in county court Tuesday plead guilty to being intoxicated and to having liquor in his possession. Officers had searched his home and found a half-pint of alleged moonshine, later discovering another pint in the Brown garage. Judge J. H. Hollingshead fined Brown \$50 for intoxication for possession, which he paid together with costs of \$16.35.

**Annual Meeting.** The annual meeting of the stockholders of the State Bank, Ord, Nebraska, will be held January 21, 1930 at their banking house at 4:00 p. m. sharp. STATE BANK 41-31

**Business Announcement.** I have moved into the electric shop with Vern Stark and am still shining shoes and taking laundry. I invite my friends and the general public to visit me here. HENRY FALES

Several guests met on Christmas day in the country home of Mr. and Mrs. Joe Polak and enjoyed the day together. There were Emil Zikmund, Raymond and Harry Christensen, Edward Panowicz, Henry Zikmund and Will Misko and their families and Mr. and Mrs. Paul Genski.

## ALL-STARS LOSE FIRST GAME TO ST. PAUL TEAM

Krejci Is High Scorer But Davis Lynch Combination Is Too Strong For Local.

Joe Krejci, Ord high school cage mentor, was high point scorer in the game Monday evening between Ord City League All-Stars and the St. Paul team but the former state champs were too powerful and won by a score of 36 to 22. Krejci tallied 15 points, one more than either Lynch or Davis, who tied with 14 each. The game was played in the Ord gymnasium before a large appreciative crowd.

Almost the same combination that landed all-state honors for two successive years represented St. Paul Monday night. Only big lefty Davis was missing. The lineup included Art Lynch, Fred Davis, Oleason and Norton, who played in the 1929 St. Paul team and Jim, who played in 1928. Other players were Alexander, Lohr, and Covey.

Early in the game it was obvious that the All-Stars were to be defeated unless Lynch and Davis could be stopped, something the locals did not succeed in doing at any time during the game. These two big boys played a wonderful game, handling the big sphere like it was a baseball and shooting baskets from any position with uncanny accuracy. Between them they accounted for 28 of St. Paul's 36 points.

Coach Krejci probably was best basketball player in the Monday night game. He was everywhere, going more than his share of the defensive work, playing an excellent floor game and being the only man in the Ord offense that St. Paul did not succeed in splitting. They detailed two and sometimes three players to this little job.

Time after time the Ord coach dribbled through the St. Paul defense and into the basket, but Monday night was an exception and he was not able to get the ball over the hands of the hard luck, he was "off" and three of a total of 15 points.

Lynn Beegly's game at goal for O. was the best guard and he forced Lynch and Davis, most of their points or from the center of the often broke up St. Paul's passing game when a "set" seemed imminent.

Ike Blessing and Lores played nice games for O. The latter was only used a time at the beginning of the game. Each scored one field. Blessing tallied a free throw. The only other Ord player to break into the scoring column was Syl Carlock, who hit the loop once for a field goal.

Other Ord players were Captain Nay, Buck Williams, Swede Carlson, Jensen and Gifford. Young Williams had been counted on as one of Ord's "sure shots" but he is too short in stature to play successfully against a team as big as St. Paul. He should come into O. own in games next week.

With more work together the Ord team should give town team cagers of Central Nebraska a strong run for the money before the season is over.

Strong interest in basketball exists in Ord and games next week against the G. I. A. C. and Ravenna should draw crowds even larger than saw the game Monday night.

### es Creek School Opens.

The Hayes Creek school opened Monday morning after a ten days vacation. The school closed earlier than was intended on account of scarlet fever in the neighborhood. No new cases have been reported and after a thorough fumigation of the school building the pupils were allowed to resume their work at the close of the Christmas vacation.

### Injures Finger.

Bruce Peterson had the fingers on his left hand injured on Wednesday morning of last week when his hand was caught in the chain of the elevator used for unloading corn into the corn crib at the Ord Twombly home. Fortunately no bones were broken but the hand was sore and swollen for a time. If the horses had failed to stop when Bruce called to them his hand would have undoubtedly been torn from the elevator socket. As it is Bruce feels that he has quite a bit to be thankful for.

### Hoobler-Duryea.

A very pretty wedding occurred at the home of the bride's parents, Mr. and Mrs. Frank Hoobler of Taylor, Neb., Wednesday Dec. 25. The ceremony was performed by Miss Conda Hoobler became the bride of Abram Duryea of Arcadia. The ceremony was performed by the county judge and was witnessed only by the immediate relatives of the contracting parties.

The bride is a very charming and attractive young lady. Talented and capable she proved a very efficient instructor in the school taught near Walworth last year. She is at present employed as an assistant in the county treasurer's office at Taylor.

Abram is the son of A. C. Duryea. He grew to manhood in this vicinity, attending our public school and graduating with the class of 1925. Since that time he has been teaching school near Walworth, Neb., during the school months and following his trade as a barber during the summer. THE DESERT MOON MYSTERY

by KAY CLEAVER STRAHAN

COPYRIGHT BY DOUBLEDAY DORAN CO. INC. W.N.U. SERVICE

THE STORY

CHAPTER I—Sam Stanley, wealthy owner of the Desert Moon ranch, informs his housekeeper, Mary Magin, who tells the story, that his former wife's twin daughters, Danielle and Gabrielle, are coming to the ranch to live, their mother being dead and their father, Daniel Canneziano, who had been the cause of Sam's divorce, in the penitentiary. Sam has adopted a boy, John, now grown to manhood, and a girl, Martha, twenty-one, physically healthy but weak-minded. Mrs. Olla Ricker, Martha's nurse, lives with them.

CHAPTER II—Hubert Hand, a wanderer, and Chadwick Caulfield, John's wartime buddy, who is an expert ventriloquist, are the other members of the household. The girls arrive.

CHAPTER III—Mrs. Magin has an uneasy feeling that there is a sinister motive in the twins' presence at the ranch, and her suspicions are strengthened by the girls' mysterious prowling around the place. John becomes engaged to Danielle, Caulfield shows a pronounced liking for Gabrielle.

CHAPTER IV—Gabrielle's actions when she receives a letter from France arouse and mystify Mrs. Magin.

I was tucked and tired. So, after telephoning some instructions to the kitchen, I took plenty of time to tidy myself up. I dawdled in my bath, and I cut my corns, and rubbed hair tonic into my scalp. But, when on my way downstairs again, I stopped for a second at Gaby's door, the typewriter was still going. There was nothing to be made out of it, so I went along. It was fortunate that I did, because, before I had reached the top of the stairway, Gaby's door flung open and she called to me, with something in her voice that made me shake in my shoes.

I turned and looked at her. Her face wore an expression that was not human; an expression that would have made any decent woman do as I did, and turn her eyes quickly away.

"The Danny to come up here," she said. I hurried off downstairs, and delivered the message to Danny, who was with John in the living room. "What's the matter, Mary?" John questioned, when Danny had gone upstairs. "You look as if you had seen a ghost."

"I think," I answered, "that I have—the ghost of Sin." "Doggone that girl," he said. "I wish she were in Jericho." "Gaby, you mean?" "You're darn right. She's causing all the trouble around here."

"What trouble?" I asked, just for a feeler. "I don't know, exactly. She keeps Danny miserable. But that isn't it, or not all of it. Don't you seem to feel trouble around here, all the time? I thought everyone did. I do, Gosh knows."

"I know," I said, "I feel it, too. I think Sam does, though he won't altogether admit it. Just the same, John, there isn't a thing we can put our fingers on, is there?"

"I suppose not. Sometimes, though, when I see Danny looking as she looked when she went upstairs just now, I feel as if it would be a good thing if somebody would put their fingers around that vixen's throat."

"John," I spoke sharply to him, "don't say things like that. You don't mean it. It is wrong to say it."

I was sure that he did not mean it. I was sure that only the voice of one of his rare ugly moods had spoken, and that the wicked thought had died with the wicked words. But, from that day to this, I have never repeated those words to a living soul. Because that was the way that Gaby was murdered: choked to death, with great brutal bruises left on her throat.

CHAPTER V

An Insight. THAT evening, the second of July, the two girls came down, late, together. Danny was paler than usual, and her face had a drawn, hurt look, which she explained by saying that she had a severe headache. Gaby was gayer than gay.

I kept watching her, trying to catch her face in repose, to see if any trace remained of that dreadful expression I had seen in the afternoon. Her face, nor one bit of her, was in repose for a minute from the time she came downstairs until she went upstairs again, after twelve o'clock that night.

She put "La Paloma" on the phonograph, and did a Spanish dance, clicking her heels and snapping her fingers until they sounded like firecrackers. She did an Egyptian dance, slinking about, and contorting. It wasn't decent.

Mrs. Ricker was doing some tating. As I watched her, I decided that, ears or no ears, she was not the woman I had heard talking that afternoon, up in the cabin. Hubert Hand had said to that woman that she had attempted murder. She could not have been Mrs. Ricker; not our Mrs. Ricker, the thin, silent woman who had lived so decently with us for so long. Those tight, wrinkled lips had never said, "I

Would kill her, and you, too." John had never said—I shivered. Wicked thoughts and wicked words breed wicked actions, and I knew it then as now.

Martha came crying to Mrs. Ricker. "Gaby hurt Chad," she said. "I wish she would die. We could make her a nice funeral."

Mrs. Ricker's fingers darted faster, back and forth. Danny spoke, from the davenport. "You shouldn't talk like that, Martha, dear. It is wrong."

Her voice sounded as if it ached. She looked, lying in a huddle over there, as miserable as I felt. I was drawn to her. I went and sat beside her.

"Could I do anything for your headache?" I asked. "Get you some aspirin, maybe."

"No, thank you, Mary." There was so much gratitude in her big dark eyes for nothing but common decency on my part, that I felt downright ashamed of myself.

"Danny," I said, straight out, never caring much about mingling words, "I know that something is troubling you. Why don't you tell John, or Sam, or even me about it? Just tell us the truth. We'd all go far to help you, if we could."

Her eyes filled with tears. "Bless your heart, Mary," she said. "Bless all of your hearts. You are all so good, here—"

I was enough annoyed with John for coming up right then, to have slapped him. I answered his question for Danny.

"There is plenty you could do for her," I said. "You could shut off that screeching radio, for one thing."

Danny wouldn't hear to John's stopping the racket. Every one was having such a good time. Bed was the place for her. She couldn't hear any noise in her room, with the door shut. And off she went.

I know now that she would not have told me anything, that could have helped matters. But I did not know it then, and I was sorely disappointed. For those sudden tears in her eyes, and her voice when she had said, "bless your heart," had convinced me that there was sincerely behind them, and honesty, and good.

In the black days that followed, when all of us were living in the dark shadows of doubts, and confusions, and fears and suspicions. I was thankful, time and again, for those certainties, for that one fleeting but sure insight into Danny's soul.

The morning of the third was biting hot, with that stinging, piercing heat that we have, when we have heat at all, in this high altitude. The sixty-mile trip across the deserts to Tekko, on a day like this, would be exactly the same as a sixty-mile trip through an oven at the right heat for a roast of beef.

Nevertheless, before seven o'clock that morning, every man-jack of a puncher on the place, with all of the trimmings and trappings, including wives, squaws, papooses, children and firearms, had set off in flivvers or on horseback, bound for the celebration, leaving the place hole-empty, as Sam said, when he came into my kitchen with a gallon of cream from the dairy.

He pulled the stool out from under the table, perched on it, and remarked, "I'm not going to be surprised if we have another visitor, one of these days. The warden of the penitentiary told me that Daniel Canneziano was to be released on the morning of the fourth of July."

I dropped into a chair, feeling sort of weakened from the news. "You mark my words," I said, "all these queer actions around here have something to do with that man's release. I know what I'd do about Canneziano, if he shows up here."

"Yes, I know. But he is Danny's father, and Danny is going to marry John. After all, money is not much good unless you take it to market. If I could come to a decent agreement with the fellow—And if he'd take that Gaby with him. I'm dead certain that her hanging around here isn't going to contribute any to John's and Danny's married life—"

"What do you mean by that, Sam?" Gaby asked the question, walking right into the kitchen. I was all taken aback; but Sam didn't seem to be.

"Eavesdroppers, my girl," he said, "hear no good of themselves. I mean that I don't think any girl who wanted to act right would treat her sister's betrothed as you treat John."

"You," she said, very slowly, to make insult baste each word, "are a d—d old fool, Sam Stanley." I shook in my shoes. I had not dreamed that there was a living human being who would dare say that, in that tone of voice, to Sam.

He stood up. He put his hands on her shoulders, gently, though, and turned her around. "You are a bad, wayward girl," he said. "March out of here, now, and get your manners mended before I see you again."

Anyone who could have heard the resolutions for the new year as presented by the Rotarians Monday would have been enthused. The boys all seemed to think there was a brighter business year in prospect.

That offer is still good on the Quiz and the State Journal, daily and Sunday, for \$6.50, the only string to it being that the State Journal subscription must be a new one. The regular price of the State Journal is \$6 and the regular price of the Quiz is \$2.50 or a total of \$8.50 so you save \$2 by taking advantage of the deal. The State Journal subscription must also be in Nebraska. The offer will not last long. The Quiz subscription can be new or renewal.

The Weller Auction Co., is an Ord firm that is planning on doing a bigger business in 1930 than ever before and the way it is starting out that is going to happen. The Quiz job department is making a nice lot of large sale bills for a farm and full equipment which Col. Weller will sell down in the Staplehurst neighborhood in Seward county.

Mrs. Emma Overton writes the Quiz from Florida where she is enjoying the winter away from the snow and cold of her Bangor, Mich. home. Her Valley county friends will find her communication on another page.

QUIZ FORUM

Recalls Days Gone By.

Standard Hotel, Dec. 21, '29 Dear friend Quiz and Quiz folks: Merry Christmas to you. I should say I will send a merry Christmas to a dear friend because the Ord Quiz is an old and valued friend. I can remember when Quiz Haskell (W. W. Haskell) came to our home and solicited of my father (Nels Anderson) his subscription to the Ord Quiz, and it has been in mine and my parents home ever since. I can see, as if it was today, Mr. Haskell as he drove to our house in a one horse buggy with a brown horse. My father was in the field and when he came in to dinner he said "Well mother, I have subscribed for the Ord Quiz."

Maude Goodenow and Mrs. Hall Barnes each had one or more incidents to tell of the piecey days. I can remember when they forded the Loup to get to Fort Hartsuff, of the soldiers and the dances there, of Capt. Munson and a number of other officers. One incident in particular was when my father sold a fine large pet steer by name of Tannen and how I cried when they took him away and another thing I will remember as long as I live: It was on a hot August day at noon. Mother, father, brother Morton and myself were in the yard and father was getting ready to go to the field when all of a sudden we heard a sound like a long drawn ping. Someone a mile away had shot an army needle gun and the bullet passed so close to father's head that it was no joke. I was about 8 years old when I started to school at Ord. I walked every day from the homestead where Peter Anderson (brother Pete) now lives. I had for com-

Remove Bake Day From the Calendar During 1930

Do like dozens of other Ord women have done—remove "bake day" from your calendar. Why bake bread, cookies, rolls or cakes when such delicious products of the oven can be bought here? It takes valuable time, tires you out and actually costs more money. All of these baked goods are baked fresh every day here. Or, if you want something special for a party or a dinner, we'll gladly bake it to your order. The main thing is, start 1930 right by removing "bake day" from the calendar.

The Ord Quiz, Ord, Nebraska.

Dear Mr. Leggett: I am thinking a few lines from me might be of interest to my old time friends. I left my Bangor, Mich., home on Dec. 2nd. I left Chicago on the 3rd with a lady friend for Florida. We had a fine trip down. Found it warm with the flowers in bloom and plenty of Florida fruit. We have had it rather cold for a few days but it is warming up now.

There were 15 of us from Bangor, Mich., who ate Christmas dinner together here. Among them were Mr. and Mrs. Frank Burger. Mrs. Burger is a sister of Mrs. Alice Vincent of Ord and she also has many relatives in and around Ord. We had a fine dinner and good time together. We have been to many places of interest and intend to see many more. Nearly all of us belong to the Parriott Club where we have a good time.

We all intend to return home the last of April or the first of May. I will go to Missouri to see my daughter, Mrs. Cora Hobson Harris, but will be there only a short time after which I will return home.

Enclosed find check for your paper for 1930. I love my old home paper and it comes here every week.

Yours very truly, Mrs. Emma Seiver Overton.

Economic Loss of Car Accidents 10 Million

Accident statistics for Nebraska compiled by the Nebraska Press Association and the Rehabilitation Division of the State Department of Vocational Education. In Nebraska, during the six month period ending November 5, 1928 out of 2001 motor vehicle accidents reported in Nebraska's papers resulted in 236 fatalities.

In the 188 fatal accidents approximately 76 autos were completely demolished. At an average value of \$1000.00 per car, the assumed property damage would be \$76,000.00.

Assuming a damage of \$50.00 apiece to the other 1,925 cars involved in accidents resulting in injury gives \$96,250.00 or a total automobile property damage of \$172,250.00.

Assuming an average burial expense of \$250.00 per person, the immediate cost of 236 deaths in Nebraska during six months from automobile accidents has been \$59,000.00.

At the time of their deaths, the average age of these 236 persons was 33 years. Standard mortality tables place the life expectancy of a 33 year old person at 33.21 years.

Assuming an average earning power of \$100.00 per month or \$1200.00 per annum, the economic loss of Nebraska's motor vehicle loss of life in the last six months has been almost \$40,000 per person killed or a total life loss cost of \$9,440,000.00. Add to this burial expense and property damage and Nebraska's auto accidents big runs almost \$10,000,000 for a half year.

Of the 236 persons killed in auto accidents, 37 were fathers and 12 were mothers who left behind orphaned and dependent children. Possibly the General Public can figure the cost of this item as they may have the bill to pay.

In addition to the 236 persons killed 79 have been totally and permanently disabled by auto accidents. As the cost of maintaining dependent persons is at least \$400 per year this presents another item of the public expense amounting annually to more than \$300,000.

Sixteenth in Number of Airports. Thirty out of the 1,509 airports in the United States are located in Nebraska. Although the state ranks only thirty-first among the states in population, it is sixteenth among them in the number of airports. Nebraska is so centrally located that it is in the direct path for many planes crossing from coast to coast. Nebraskans were quick to realize the possibilities of aviation and what it would mean to an inland state, and have not been slow in taking advantage of their opportunities. There are also several very good schools of aviation located at Lincoln, Omaha, Grand Island, Columbus and Norfolk.

North Loup News

North Loup, Dec. 30.—(Special) —Mr. and Mrs. I. A. Madsen are enjoying a visit with their son Donald who arrived unexpectedly to spend the holidays. He is employed by a publishing firm at Aurora, Ill.

Ulysses Madsen, who teaches at Auroras, returns to her work this week after a holiday visit with her people.

Mr. and Mrs. N. C. Madsen entertained a few friends at bridge Saturday evening. The guests were Mr. and Mrs. Rude Ingel, Mr. and Mrs. Otto Hill, Howard Sheldon and Cliff Goodrich.

Mrs. Margaret Hutchins went back to Lincoln Thursday night after a short visit with her people, Mr. and Mrs. Mike Schudel.

Mrs. H. C. Dallam and children motored to Brunswick, Sunday, taking with them the former's parents, Mr. and Mrs. A. Stiles, who had spent Christmas with the Dr. Dallam family. The Dallams had been entertaining other holiday guests also, who left for their homes Saturday evening.

Mr. and Mrs. Ed Helbig and the latter's sister, Lois Rich from Edison, came over from Loup City Saturday evening for a short visit with the Otto Bartz family. The Helbigs went to Ord Sunday evening for a short stay with Mr. and Mrs. Jim Misko. Mrs. Misko is Mr. Helbig's sister, and she had just returned from Douglas, wyo., where she had been called on account of the serious illness with heart trouble of Dorothy the little nine year old daughter of Dolly Helbig Mitchell, formerly of North Loup. When Mrs. Misko left to come home, the little girl was thought to be slightly improved, but word soon followed that she had passed away. Funeral services were held Monday of this week.

Mr. and Mrs. Arthur Hutchins were Sunday guests of the Floyd Hutchins family Mrs. O. E. Anderson, Mrs. Hutchins' mother is staying with her daughter so as to take treatments from the doctor. She has not been at all well for some little time.

Bruha Buys House. Frank Bruha has purchased, through the J. A. Brown agency, a house in north Ord and will move to town in the near future. He has rented his farm to Jim Hask and will hold a clean-up sale soon. His sale advertising will be published in a future issue of the Quiz.

How to Cure Anarchy He and She Ran Away

Adopt, Adapt, Improve Lindbergh Has a Statue

A boy of seventeen, calling himself a Communist, appeared before Magistrate Sabatoni, who said to him: "What you need is for me to have you in a two-by-four room. What I would do to you! I'd blacken your eyes and give you some real American spirit!"

That, you will admit, is a perfect plan for discouraging the spirit of anarchy, which disregards established law and legal procedure.

In New Jersey the wife of a Baptist clergyman runs away with a chicken farmer, member of the congregation.

She advises her husband to get a divorce. The chicken farmer leaves directions for the care of chickens and his three children.

This is shocking news, but we should read it having in mind the great number of clergymen's wives and chicken farmers that stay faithfully at home, leading monotonous lives, with little thanks to the clergymen's wives from the congregation and often few eggs for the chicken farmer from his hens.

Faithfulness is the rule and is never advertised.

The British know positively that a war doesn't pay. They face a "slump year" in industry. Losses in stocks, heavy taxation, labor in power, are some things that worry Britislers that were rich and now feel poor.

Across the channel in France, on the other hand, everything is booming, nobody idle. And the French are persistently drawing on Britain's supply of gold.

New York's medical officer warns the world's richest, wettest city, "if you must drink, in this bootleg era, do your drinking not more than five minutes away from a doctor."

Adopt, adapt, improve. This has been recommended by the prince of Wales to his fellow countrymen, might well be adopted, adapted and improved in this country.

The young prince, one of the most useful, hard-working citizens of Great Britain, said to British industrialists:

"We British think we are very efficient, and we are at the head of the world in lots of things, but to keep in the van we must be conscious of that very valuable thing—the knowledge that we learn something new every day. To put

Games January 5th. Ord Quiz vs. Nyal Drug. Gem vs. Hill & Hill. Andersen's vs. Penney's.

Defeating the Andersen Grocery five by a score of 14 to 9 last Friday night, the Nyal Drug team jumped to the top of the City Basketball league. They were previously tied for leadership with the Hill Clothiers, whose team lost to a recruit Quiz quintet last Friday by a 25-15 count. The Gem Theatre beat Penney, 22 to 9 in the other game of the evening.

The Grocers struggled valiantly to keep the Nyals from league leadership last Friday, but their best was not good enough and Captain Thurston Gifford's team won. Forward Ike Blessing again was the heavy scorer, having ten of his team's points to his credit. Bro. Lashmett also dropped in two field goals. Kovanda with four points, E. Hill with three and Carlson with two completed the scoring for Andersen's.

Against the Penney company team, Captain Buck Williams and his mates displayed the best scoring offense they have shown this season and piled up 22 points. S. Hanson and Satterfield were the big scorers. Perlinski played a nice game at guard. Bentley looked best for the losing Penney five, having seven points to his credit. Only two Quiz players were in suit when the Quiz Hill game was called, so Captain McMIndes was forced to step outside and recruit a team, which he did so successfully that the Clothiers, who were minus the services of Captain Krejci, never had a chance. John Round and McMIndes were the big Quiz scorers, Round making 9 and Lores 12 points. Nay and Heuck played nice floor games. Joe Dworak looked best for the Clothiers, accounting for eight of his team's points. The Clothiers had only five men in uniform and Syl

Jarkoski was allowed to remain in the game after he had four personal fouls. He had seven to his discredit before the evening was over. George Round, jr, served as referee and called plays closely, which accounts for the heavy foul total.

Ike Blessing Leads City League Scorers

Taking advantage of Joe Krejci's absence, Ike Blessing, forward on the Nyal Drug team, jumped to the leadership of city league scorers last Friday night. Baker did not score heavily but retains third place, just behind Krejci, and Lores McMIndes, Quiz captain, came up to fourth place. The way the first ten scorers stand:

**NORTH LOUP DEPARTMENT**

MRS. CLAUDE RATHBUN, Editor.

The Hi. Fuller family, and Mrs. Fuller's parents Mr. and Mrs. Melbury, who live near Scotia, spent Sunday with Mr. and Mrs. S. F. Fuller.

Mr. and Mrs. Lars Larsen arrived just before Christmas from Amarillo, Texas, for a visit with Mrs. Larsen's parents, Mr. and Mrs. Chas. Haley. On Christmas night, Mrs. Larsen's brother, Clifford Haley, after an unfortunate experience which might have been worse with the Larsen's car, a DeSoto six coach. In company with Samuel Sample and Harold Currie, young Haley had driven to Ord. On the return trip, as they were rounding the corner by the H. D. Rogers farm, they met a car with a careless driver, and to avoid a collision, Haley swung too much to the right and into the loose gravel. He kept his head and hit the ditch without upsetting. The boys were uninjured but the car had a broken spring, a bent steering rod and a blown out tire. Mr. Larsen returned to Texas starting Sunday morning, to resume his work as contractor and builder. Mrs. Larsen will remain for a longer visit.

The Albert Balcock family arrived Thursday evening from Avoca, for a visit with relatives until Sunday. Leona Sayre, who teaches at Lanark, Ill., returned with them. She had spent Christmas with her parents, Mr. and Mrs. Bert Sayre. Thirty-two Epworthians of the North Loup Methodist church attended a get-together affair at the Arcadia Methodist church on Friday evening. Chapters were represented from Ord, Burwell, Ericson and Scotia.

A dramatization of "The Passing of the Old Year" was given by the members of the Epworth League at the Methodist church Sunday evening. Principal parts were taken by Erman Barnhart as Father time, "Ignorance" by Ella Mae Sershen, "Christianity" by Muriel Eisele. About eighteen took part.

George Johnson, a nephew of Mrs. Carm Johnson, left for his home at Des Moines, Iowa, Friday, after a short visit at North Loup, and with his people at Arcadia.

Kate Hill will go back to her work at Kearney Normal on New Year's day.

Mr. and Mrs. Roy Hudson returned Sunday from a visit of several days with relatives at Lincoln.

Miss Velma Baker, who attends Kearney Normal, expects to go back to school on Wednesday with Mr. and Mrs. El. Green, who are going to Kearney that day for a visit with relatives.

Herman Graunke, who recently sold his residence to Mrs. Della Manchester, is moving this week to the Dunham house on main street. He expects to remain in North Loup until school is out in the spring.

Friends in North Loup will be sorry to learn from word received by Mrs. Otto Bartz, that Mrs. Emma Van Zant, a former resident, suffered a stroke of paralysis before Christmas. She is living at Sterling, Neb., with her daughter.

A number of North Loup people listened in Sunday evening to the Christmas cantata broadcasted over K M M J from Clay Center, given by the Methodist choir of thirty-five voices of Crete. Rev. Richard Gibb, formerly of North Loup was in charge of the production and spoke a few words dedicating the concert to his former friends and parishioners at Benkelman, Curtis, Orleans and North Loup. One of the special numbers in the cantata was a duet by Rev. and Mrs. Gibb and was especially enjoyed by the North Loup people.

The J. W. Kildow family are enjoying a visit with Mr. and Mrs. Walter Preston of Morrill who arrived just before Christmas. They expect to return to Morrill the latter part of this week. On Friday J. W. Kildow and Mr. Preston went to Lincoln on business and then on to Omaha, where the latter met a shipment of sheep from his ranch at Morrill. The men returned Monday to North Loup. Frank Nelson, a nephew of Mr. Kildow's from Montana, has been his guest for a few days.

## Send In Recipes, Good Quiz Cooks!

This week we have some splendid recipes. You will surely like them if you will just try them, and if you read them over, we will almost guarantee your family will get to taste them!

More recipes come in from around Ord and from neighboring towns than from right in Ord, giving you all, especially Ord women, a chance to really learn new recipes, for good recipes usually travel fast, and probably all the people in your circle know the dishes for which you are famous.

**Dumplings**  
1 egg, add milk enough to fill the cup, 2 teaspoons baking powder, pinch salt. Stir in enough flour so it will not be sticky, have gravy boiling and keep it boiling. Do not cover while the dumplings cook.

**Mrs. W. J. Ramsey, Arcadia Yellow Angel Cake**  
Water 1 1/2 cups sugar and 3-4 cups flour until it hairs slightly. Take 1 egg, white, 1 scant teaspoon cream of tartar and one pinch salt and beat until stiff. Add hot syrup and beat until cool. Beat yolks until stiff and add to the white part. Add 1 cup of sifted flour and flavoring to taste. Bake one hour in a medium-size cool-oven.

**Mrs. A. T. Jones, North Loup A Rich Upside Down Cake**  
1 1/2 cups brown sugar, 1 cup nuts, broken, 1 cup dates, cut up, 1 cup sliced pineapple, cut up. Put the above into a large buttered pan in the order named. Then mix 1 cup sour cream, 1 1/2 cups sugar, 2 cups flour, 1/2 teaspoon of salt, 1/2 teaspoon soda in 1/4 cup of warm water, 2 whole eggs (beaten), 2 teaspoons (rounded) baking powder. Pour this batter over the things in the pan and bake. When finished turn out upside down, and serve with sweetened and flavored whipped cream.

## Merrymix Club Has New Year's Party

A delightful New Year's party was enjoyed Tuesday evening by members of the Merrymix club, their husbands, and a few invited guests. Dinner was served in the Thorne cafe at 7:30 p. m., the dining room having been appropriately decorated by Mrs. Helen Keppel. The two course dinner was all that could be desired and after it was served the guests repaired to the home of Mr. and Mrs. G. W. Collipriest. The evening was spent in games and merry making, prizes being won by Roland Ayres, Dr. G. R. Gard, G. W. Collyer, Otto Baker and Madams Guy Burrows, E. C. Love and J. M. Beeghly. Dr. Gard gave a laughable reading, which was followed by music by a quartet. Mrs. Helen Keppel entered the room dressed as an old man and enacted the part of the old man going out. Before she left she placed in the midst of the guests a large doll, representative of the new year. Promptly at midnight Mrs. George Gard struck the keys of the piano and Dr. Gard led in singing "Holy, Holy" in which all joined. Several national anthems then were sung. A lunch of chicken sandwiches and coffee followed, and all present then enjoyed group singing for more than an hour. Guests were husbands of Merrymix members and Mr. and Mrs. E. C. Love, Mr. and Mrs. Clyde Baker and Dr. and Mrs. Gard. The entertainment committee included Madams Ign. Klima, Tom Williams and Henry Koelling.

**Two Dances Well Attended**  
Both the Christmas dance given by Ord Sokols and the New Year's eve dance given by the Ord C. C. B. J. lodge were well attended and all present enjoyed a good time. The Puncocchar orchestra furnished music for the dance given Tuesday evening.

## Right Safety

Frequently your eyes break down under the strain of a day's work. You don't admit it. You lay it to nerves, indigestion, constipation, bad air. But an eye examination may reveal an overworked, glare-wrecked optic nerve that creates the daily exhaustion. We recommend for complete eye comfort the new modern health giving SOFT-LITE LENSES. They will actually strengthen your eyes by removing glare. Ask about Soft Lites.

## Girls Coats Look Best If Simple

Shown are three little maids who look very well indeed. They look well for a birthday party, for going to Sunday school, for school days. They look attractive and well dressed. Their well groomed appearance, if one looks closely, will be found to be due to the fact that all three coats are far from ornate in line, material and trimming. The little miss with the cape has a coat of tweed, with a dark brown collar that sets the tannish brown tweed off exceedingly well. This coat is warm, the pockets are a comfortable and practical touch, and another very practical idea is that of leaving the fur off the cuffs. The under side of a sleeve shows wear soon enough, without a worn

place in a fur cuff to call attention to the shortcomings.

The girl strolling in the center has on what might be termed the standard coat style. A brown worsted material that is warm and woolly, stands abuse, looks well, doesn't need much brushing and is combined with brown fox collar and cuffs. Two patch pockets, a belt and a double row of buttons furnish plenty of trimming.

The tullest top also has on a more or less regulation model, which is withal very smart. It is dark blue woolen, so plain tailored that it reminds us of a sailor's overcoat. Needless to say this is practical too, and you can see it looks well.

Walter Parks, of Rhame, N. D., besides home people.

U. B. Aid society met yesterday with Mrs. Dave Wigent.

Sunday was Miss Lucile Guggenmos sixteenth birthday. A sister and her husband, Mrs. and Mr. E. E. Wimmer, and two children of Ravenna, started to Ord to celebrate the day but they had car trouble and after traveling several miles had to return home. Miss Lucile was very much disappointed. Mr. and Mrs. Tony Guggenmos were in from the country and enjoyed the good birthday dinner.

Mr. and Mrs. Elmer Hallock and children of Rosevale were visiting Tuesday evening and again on Christmas day in the home of Mrs. Hallock's people, Mr. and Mrs. D. B. Smith.

Thirty relatives met Christmas day in the country home of Mr. and Mrs. Stanley Gross. Those to go from Ord were Mr. and Mrs. Ign. Klima and children.

Mr. and Mrs. A. J. Shirley enjoyed having their children home on Christmas day. Mr. and Mrs. Cash Rathbun and son of Springfield, Mr. and Mrs. Lester Norton and son of Elyria and Mr. and Mrs. Walter Noll of Ord.

Mr. and Mrs. R. J. Clark enjoyed having their children, who live in Ord, home for a Christmas dinner.

Arnold Bros., who live near Sumter entertained their relatives Christmas day at dinner in their home. Guests were Dr. and Mrs. Albert McMinden and Miss Gladys, Mr. and Mrs. Lores McMinden, Mr. and Mrs. L. W. Seerley, Misses Alice, Dorothy and Ray Seerley, Mr. and Mrs. Parker Cook and family and Charley Arnold.

Mr. and Mrs. Jis Mortensen entertained thirty-seven relatives and friends Sunday at a dinner in their home. There were a few out-of-town guests, Mr. and Mrs. Elmer Christoffersen and Mr. and Mrs. Edvin Jensen, Cotesfield, Mr. and Mrs. Nels Jensen and family, Elba, and Mr. and Mrs. Ho Jensen, Grand Island. The afternoon passed in a social way and all report a good time and a splendid dinner.

Ever Busy club are meeting today with Mrs. Don Tolbert.

Rebekah circle met Friday in their hall. Mrs. Joe Rowbal served refreshments.

A family dinner was served Friday noon in the home of Peter Jensen. Guests were Dr. and Mrs. Henry Norris and daughter, Mr. and Mrs. Ben Dahlin and baby, Mr. and Mrs. Guy Burrows and daughter and Miss Muri Bartlett.

Mrs. Carrie Lickly entertained at Christmas dinner the R. J. Stoltz and John Lickly families.

Mr. and Mrs. Orville H. Sowell entertained a few friends Thursday evening.

Jim Sinkler and family of Loup City and Mr. and Mrs. Frank Sinkler of North Loup enjoyed their Christmas dinner in the country home of Mr. and Mrs. H. H. Hohn.

Mr. and Mrs. C. J. Mortensen returned home Sunday evening from Boise, Idaho where they had on Dec. 26 attended the wedding of their nephew, Lieutenant C. W. Allan and Miss Myra Davidson. After the church wedding there was a reception. Lieutenant Allen is located in Brookfield, near San Antonio, Texas. His work is with the aviation branch of the army.

Miss Alice Seerley spent a few days with her parents, Mr. and Mrs. L. W. Seerley, leaving Friday for her work in Grand Island.

Howard Jones and family spent Christmas day with Mrs. Jones' people in Callaway.

THE DESERT MOON MYSTERY by KAY CLEAVER STRAHAN

(Continued from Page 3.)

He sobered even her, for a minute. She walked to the door, without another word. There, she whirled around like a crazy thing, and I declare to goodness, I don't know what she said. It was the sort of talking I had never heard in my life; my ears were not enough accustomed to the words to take in their meanings. But one thing that she kept screaming, screaming so loudly that she could be heard all over the place, was that Sam had threatened her once too often. Sam stood there, paralyzed, I think, as I was, for perhaps a couple of minutes, before he turned and walked off into the backyard.

Hubert Hand came rushing in. Gaby threw her arms around his neck, and kept on with the screaming and sobbing. Chad came in through the pantry. Hubert Hand led Gaby into the dining room, and through it into the living room.

"What in God's name happened?" Chad said to me.

"Chad," I said, "Gabrielle Cannizzano has lost her mind. She is insane."

His face went white as lead. "I don't believe it."

"Either that," I said "or else she is the wickedest, the—"

"Stop it," he shouted at me. "You, nor anyone, can talk to me like that about the girl I love. You know you understand her, nor tries to. She is in some sort of trouble—terrible trouble. Anyone can see that. I'd give my soul to help her—to serve her—"

"If you are so crazy about serving her," I said, "you might go into the dining room and set the table, and help me serve her, and the rest of you, some breakfast."

He went into the yard. Like a lot of men, I thought, who want to give their souls and so on to women, he didn't care to be bothered with smaller details, such as feeding them.

I wringed him. Whether or not a man has the giving of his soul, in his own hands, I do not know. A man can give his life. That is what Chad gave.

After dinner John surprised us all by saying that he was going to take the sedan and drive down to Rattall for the mail.

I was suspicious, right then, that he was to do something. He could not stop in to think that he would take a fifty-mile trip—twenty-five miles each way—through the desert heat for no other reason than to get the mail. When Danny seemed hurt and troubled about him going, and when he went riding right off, anyway, I decided that Sam must have sent him, expecting some word concerning Cannizzano. I was wrong.

It was too tarnation hot to do anything but try to keep cool. I stacked the dinner dishes, to wash in the evening, and joined the others, sitting around in the living room with the electric fans going full blast.

I was expecting, every minute to see Gaby break out again. She didn't. She yawned around, and fussed about, and then sat beside Danny, who was looking at the pictures in a magazine, and put her arm about her, and patted her up a little—a most unusual performance for her.

When Chad, who had been mopey with the radio, got a rip-roaring patriotic program from Salt Lake, the two girls went upstairs together.

A few minutes later I had an errand upstairs—a real one. I wouldn't have taken myself up in that heat to satisfy my curiosity—so, out of habit, I stopped at Gaby's room to listen. I heard the girls giggling in there; and, knowing no great harm is afoot when girls giggle, I went on, got my scrap of pongee silk to mend Sam's shirt, and came downstairs again.

Sam and Hubert Hand were deep in a chess game. Mrs. Ricker was tating. Chad and Martha were playing dots and crosses.

The radio program had just that minute stopped. Martha, who when she didn't forget it, usually fed her rabbits about that time of day, had gone out to do it. Gaby came downstairs humming a tune.

She had on the tomato soup colored wrap that she had worn on the train, and the hat to match the wrap. She never dressed up like that. She was walking around the place; a wrap, even such a light one, in the heat of that day, was downright ridiculous.

Chad said, "All dressed up and no place to go?"

She tossed her head at him, and hurried straight down the room and out through the glass doors. Chad followed her. They stopped together on the porch. She stood with her back to me. Chad faced

toward the road?—  
When she asked about the road, her meaning was clear to me. Danny was afraid that Gaby had gone to meet John, who should have been back from Rattall before this.

## CHAPTER VI

### Murder and Suicide.

AT FIVE o'clock the men put up the chessboard. Chad stopped playing the piano, and the three of them went to the barns together.

I went into the kitchen to get supper. Danny, in spite of her headache, insisted upon helping me.

At six o'clock, though neither John nor Gaby had returned, we sat down to supper. Danny was too nervous to touch a bit of food. She kept looking out of the windows, and at her watch, and out of the windows again.

"Don't worry, Danny," Sam said. "John has had the trouble, on account of the heat. They'll come riding up the road any minute now."

"They?" she questioned.

"Gaby toged up and went down the road to meet John, didn't she?"

"No," Danny's voice curled into a wall. "No, Uncle Sam, she didn't. Martha saw her going to the cabin. Didn't you, Martha?"

"Martha," Mrs. Ricker astonished us all by saying, "doesn't know where Gaby went. She knows only where Gaby told her she was going."

"But why should Gaby tell her a fib about it?" Danny asked.

"And why," I questioned, "should Gaby go around the house to get to the road, instead of going right out the front way?"

Again Mrs. Ricker shocked us by speaking. "She would not go out the front way if she wanted to keep her trip to the road a secret."

"Mrs. Ricker," Danny's voice trembled, "what are you hinting? What is it that you know?"

"I know," said Mrs. Ricker, "that there is not a man living who is not as false as sin."

Sam growled, "Come down to facts, Mrs. Ricker. If you have any."

"I have no facts," she said, "except that right after dinner today John and Gaby had a private conversation, and he decided, very suddenly, to go for the mail."

At that minute we heard a sound for sore ears—the car coming up the driveway. Danny jumped up and ran to look out of the living room window. It was gone all the way around to the kitchen," she said when she came back.

She ran into the kitchen. She and John came to the door of the butler's pantry. John was gray with dust. His brows were knitted, as they are whenever he is troubled about anything.

"He hasn't seen Gaby," Danny announced, with an exultation that showed plainly what she had been most anxious about. "He brought up the rock salt. That's why he drove to the kitchen. Come and see, Mary?"

"I'd rather see you two come and eat your suppers," I said.

"Good night!" John answered. "I've got to go and get rid of a few tons of dirt before I can come to the table."

"No," Danny insisted. "Never mind the dirt, dear. Supper is all cold now. Please come and eat—"

John patted her on the shoulder, and smiled at her, and manlike, did as he pleased. He went through the kitchen and upstairs the back way. Danny called after him, asking

# THE ORD QUIZ AGRICULTURE PAGE

Edited by Members of the Quiz Staff with the Assistance of the Valley County Farm Bureau, the Extension Department, University of Nebraska, and Progressive Farmers of Valley County

## GAINES SPEAKS AT MEETING OF FARM BUREAU

Many Members Attend Annual Session Friday; Women Are Added to Board.

"The Federal Farm Board has more power than any other organization ever sponsored by the national government. They have the money behind them and the men directing the work of the board and if the people actually engaged in agriculture will back them, they will solve the farm problem in short order," said Newton W. Gaines, community specialist from the college of agriculture, before the annual meeting of the Valley County Farm Bureau held at the Ord high school auditorium Friday afternoon.

"People who are engaged in agriculture are the ones that are needed to cooperate with the Federal Farm Board in putting their program across. The other agencies that will fight the program will have little influence on the work to be carried out by the board."

Gaines stressed the value of farm organizations in this day and age and declared they were the basis upon which agriculture depends for which their success depended. He said he knew of no other organization that could influence farming as much as the work of the Farm Bureau in the county. He said he hoped that local leaders would back the work of the Farm Bureau in the next year and felt confident that the program would be a great success.

In closing his talk before the people present at the meeting, Mr. Gaines stressed the value of Boys' and Girls' club work in Valley county and the nation. He declared that no other phase of work could compare in value with club work. Gaines said the real value could not be put down on paper but would influence agriculture in future years to a great extent.

The specialist declared that if the Farm Bureau sponsored nothing but club work they would be doing a great work. He said he thought that the leaders of tomorrow would be developed from the prominent club members today.

In the business session held previous to Gaines' talk the old board of directors of the Farm Bureau were re-elected. They include Anton Beran, Joe Rousek, Clayton Ward, Chas. Faudt and Dave Strong. The county women's club chairmen were added to the board through the new constitution. As a result Mrs. Mae McGinnis of Ord and Mrs. Boyd Mulligan will be the other two members of the Valley county farm bureau for the coming year.

E. S. Coats, president of the Valley County Dairy Herd Improvement association, spoke briefly on the value of cow testing associations in this county. He praised the work of the farm bureau and county agent in organizing the local association. Mr. Coats declared that he believed prospects of organizing a second association in this county were bright.

## Agent Has Account Books for Farmers

"Valley county farmers may get farm account books free of charge again this year through the farm bureau. They are now to be had at that office. Few restrictions are laid down to farmers taking a book," Carl C. Dale, county extension agent told the Quiz today.

Local farmers understand farm record books a little better than they did last year. They were then first introduced into the county by the Valley County Farm Bureau and many farmers kept accurate accounts on their farming projects through the year and learned the practical value of the book, Dale believes.

The farm record book is probably a new plan for bookkeeping on the farm. Through the recording of various purchases and expenditures a farmer may determine at the close of the farming year as to whether or not he has made money on every project during that time. The book is then of real practical benefit.

It has been brought about and published by the rural economics department of the University of Nebraska at Lincoln after a careful survey and study of farm accounting has been made. Valley county farmers used the book last year but will find the new edition a remarkable improvement over last year's publication.

The only restrictions that County Agent Dale puts on the distribution of the farm record books is that every farmer taking a copy is expected to file a report on his work with the book at the end of the year. He is also expected to attend farm accounting schools which Dale hopes to hold in Valley county during the year.

Interested farmers should get in touch with Agent Dale and secure a copy of the farm record book.

## Quiz Mistake Keeps Noll Seed Co. On Jum p

The Quiz made a mistake last week when a classified ad announced that the Noll Seed Co. was in the market for 500 bushels of sweet corn seed and 200 bushels of alfalfa seed. Bob Noll wanted the alfalfa seed all right, but he wanted 500 bushels of sweet clover seed instead of sweet corn.

"I'll bet three hundred farmers tried to sell me sweet corn seed," Bob said, in the course of giving the Quiz a good "bawling out" for making the mistake. He stated he wanted sweet clover and alfalfa seed, but not sweet corn.

This mistake proved again that Quiz classified ads surely are read and get results.

## Master Farmers Will Be Named January 7

Lincoln, Neb.—The Master Farmers of Nebraska and Colorado for 1929 will be announced by the Nebraska Farmer at the fourth annual presentation dinner at Lincoln, January 7. The entire program, which will be presided over by Sam R. McKelvie, Publisher of The Nebraska Farmer and a member of the Federal Farm Board, will be broadcast by remote control from radio station WOV of Omaha. The broadcast is to begin at seven o'clock, central standard time, and will continue to nine o'clock.

The principal speaker of the evening will be James C. Stone, vice-chairman of the Federal Farm Board. Other speakers will be Governor A. J. Weaver of Nebraska, Mrs. D. S. Anderson, Dawson county, E. P. Cromer, Scottsbluff county, president of the Nebraska Master Farmers' club. Each of the ten Nebraska and two men from Colorado who are to be presented with the solid gold Master Farmer medals will appear before the microphone.

Judges of the Master Farmer movement, which is sponsored by The Nebraska Farmer, are W. H. Brokaw, director of the Nebraska College of Agriculture Extension Service; George Jackson, secretary of the Nebraska State Board of Agriculture and Harold Hedger, professor of rural economics at the Nebraska College of Agriculture. They had charge of selecting the 12 men for the Master Farmer honor from among the more than 200 candidates.

The names of the Master Farmers will be announced publicly for the first time at the presentation dinner, January 7. The program is looked upon as one of the most important agricultural broadcasts to go out over a Nebraska radio station.

## AM I RIGHT?

By Geo. Round, jr.

Valley county farmers and their wives who failed to attend the annual meeting of the Valley County farm bureau last Friday at the Ord high school auditorium missed the opportunity of hearing one of the best speakers in the state, Newton W. Gaines. Those present or who failed to hear Mr. Gaines speak will vouch for the fact. He is a community specialist from the college of agriculture and has visited this county many times in past years.

Mr. Gaines told the numerous Arcadia people present that twenty-one years ago he traveled through Arcadia on a vaccine course. He rented a horse and buggy at the lively stage and made several surrounding towns with Arcadia as his headquarters.

Perhaps Valley county farmers who were present at the meeting learned just a little more about farm organizations in general after hearing Gaines talk for a short time. He talked for about an hour

## Dale's Report Show 1929 Was Successful Year

By GEORGE ROUND, JR.

"1929 was a banner year in extension work in Valley county," Carl C. Dale told the Quiz today after giving his annual report to the Valley county farm bureau board of directors at their annual meeting held last week in Ord.

The farm bureau accomplished results in all fields of their work. Record enrollments were noted in all phases of the extension program with added interest throughout the county.

Women's extension club work interest increased considerably during 1929 over the previous year when twenty-three clubs were taking the project work under the direction of Theresa Judge, specialist from the college of agriculture. Clubs from every section of the county were taking part in the program which was, without doubt, a great success.

Achievement day drew over three hundred ladies from the various clubs over the county to Ord where a splendid program was presented by representatives of clubs. Local achievement days were held in each community prior to the county wide achievement day. All in all over four hundred Valley county women were engaged in the project during the year, showing a long way toward program spread over the county.

The success of the women's club work was due in a large degree to the work of Mrs. Glen Carson and Mrs. Boyd Mulligan, who were the county chairmen. They assisted in planning and developing the program during the year.

Boys and girls club work increased in importance during the year, according to Agent Dale, when a 50 percent increase was noted in the total enrollment.

"The one piece of work of which we are especially proud is the organization of the Valley county Dairy Herd Improvement association. We feel that we have brought something of great value to local farmers," Agent Dale declares.

The association was backed and organized by the Valley county farm bureau with the assistance of progressive farmers in the county. The agent personally interviewed farmers in the county and secured the needed membership when it was first thought that some would have to be received from other counties.

Many other sections of the state have similar associations as the one here but in most cases the association has members in at least two or more counties. That is, most counties are unable to support one association while Valley county has one whose members are entirely within the boundaries of the county.

The association has progressed rapidly during the year under the leadership of Carl Smith, tester, and has ranked high in comparison with other associations in the state since its organization last spring. The leading herds in the Valley county association have been near the top of the ladder in the state most every month since the fester first commenced work in June.

In cooperation with the Ord Community Service club the farm bureau made up an agricultural resource exhibit for the Omaha Ak-Sar-Ben livestock exposition this fall. The exhibit was got together by Agent Dale and Floyd Wetzel,

## Former Ord Farmer Advises Stop Using Oleo

Askov, Minn., Dec. 23, 1929  
Dear Quiz:  
Inclosed you will find \$2.50 for another year's subscription for the Ord Quiz.  
We wish that you would tell the people of Valley county all a merry Christmas and happy New Year from us.  
I am surely glad that the Ord Creamery is doing so well, but the farmers would still do better if they would stop buying oleomargarine. Yours truly,  
Han Abrahamson

## Miss Douglass To Be Here January 16-17

Rizpah Douglass, home beautification agent from the college of agriculture at Lincoln, and E. H. Hoppert, horticulture specialist, will visit Valley county January 16-17. They are to meet with women's club leaders and men representatives of the clubs over the county.

The January meeting with the specialists from the college of agriculture will feature planting of home grounds. E. H. Hoppert is a well known specialist in horticulture and will tell the women and men present at the meeting how to plant shrubs and other plants about the home to beautify the grounds.

Miss Douglass, in her regular monthly visit to this county, will continue her discussion on interior decoration of the home. The meeting is expected to be the big feature of the project work for this year.

The Valley county animal husbandry judging team participated in the district judging contest at the Adams county fair last fall and made a creditable showing. Competition was unusually strong with the state championship Webster county team winning first place and the local boys placing third with five teams competing. The team was coached by County Agent Dale.

Agent Dale has become a good authority upon livestock and agriculture exhibit judging in recent years and in 1929 he judged at the Adams county fair, Custer county fair, Howard county fair and at the North Loup Popcorn show.

The Valley county agent gave some statistics from his annual report to the Quiz which showed the variety of projects that he worked on during the year. They represented days in field, days in office, number of office calls, number of farm visits, boys and girls club members enrolled, members enrolled in women project clubs, training meetings held for leaders, assistance in hog cholera prevention, assistance in blackleg control, preparation of news articles, extension meetings held, demonstrations held, forestry school held and forest cooperators, farm record cooperators, and many other phases of the work he was engaged in during the year.

In closing his annual report, the agent declared that he wished to thank the Ord cooperative creamery, the North Loup cheese factory, the Ord Community club, Ord Rotary club, North Loup Women's club and the Arcadia Women's club for their help in putting the extension program across for the year.

—Will Hoffman and Junior came from Burwell and spent Christmas day with Will's people, Mr. and Mrs. F. P. Hoffman.

## Knudsen Will Sell

Peter Knudsen is quitting farming because of ill health and will hold a clean-up sale on January 15. With his family, he will move to Washington, D. C., where he has relatives. Watch the Quiz for complete list of his sale offering next week.

## —Among the incoming passengers Saturday evening were Mr. and Mrs. Lewis Christensen and two year old daughter, Mary Lou, of Cheyenne, Wyo. It has been several years since Mr. Christensen visited his people, Mr. and Mrs. N. C. Christensen in Ord.

## 1930 RED LINE Combination Plants

Delco-Light's newest achievement

These new Combination Delco-Lights are the last word in individual electric plants. They combine the best features of both the automatic and battery charging Delco-Light.

For small loads, you draw the necessary current direct from the battery. When a heavier load comes on the engine starts... instantly and automatically. An automatic throttle speeds or slows the engine to correspond with load demands. An automatic choke makes starting quick and certain... even in cold weather.

Let us give you all the facts about these and other 1930 "Red Line" Delco-Lights. We are the authorized Delco-Light Dealers in this locality. Come in today.

BACK FORTY

By J. A. Kovanda

When the Nebraska Organized Agriculture meetings begin in Lincoln next Monday, it is hoped that a goodly number of Volney county farm men and women will be present. It will be a wonderful opportunity to learn about the latest developments in agriculture from some of the nation's leading authorities. A nine-ring circus has nothing on Organized Agriculture Week. Perhaps a dozen speakers will be addressing as many groups at the same hour. Folks are permitted to go from one audience to another. In this way they can gather in the high spots of each session and learn the most in the shortest possible time. The meetings are grouped together in adjoining buildings on the Agricultural college campus. In selecting a few topics from the program, it is noted that J. S. Stone of the Federal Farm Board, and Sec'y J. S. Jones of the Minnesota Farm Bureau are on the Nebraska Farm Bureau Federation program. At the same time Prof. Wilson of Montana, Dean L. E. Call, and Dr. McCacpbell, both of Kansas, are speaking to the Nebraska Crop Growers Association. Also winners of various corn yield contests will tell how they did it. The Nebraska Farm Equipment Association will devote most of its time to irrigation study. Dr. Condra's "Possibilities for Wells in Sections of Nebraska," should interest local irrigators. Anyone planning a pool, or rock garden, should hear Mr. Hottes of Iowa speak on these subjects before the State Horticultural Society. There are other talks on flowers, shrubs, trees and sprays, also. The Honey Producers will discuss production costs, marketing, and disease control. Afterward they will consume some of the stores at the college cafeteria. Musical programs and tours through the University Museum and Art Gallery are interesting features on the Home Economics Program. The Nebraska State Dairymen's Association will have speakers from the U. S. Dept. of Agriculture, and from three national breed Associations. There will be dairy judging contests for everybody. The Nebraska Improved Livestock Breeders Association will also sponsor a judging contest. This group offers \$45 in prizes. A representative from Minnesota will tell about their swine efficiency tests. The editor of "Successful Farming," and the President of the National Livestock Exchange are also on this program. The Nebraska Poultry Improvement Association has talks on equipment, consumer demands, and production costs. This organization will also discuss whether to buy or hatch chicks. The most distinguished and formal function will be the Fourth Annual Master Farmer Presentation dinner at which the ten 1929 Master Farmers of the state will be announced. The Farmers' Family Fun Feed and numerous other minor activities will also be held. Those who can should go on Jan. 6, 7, 8 and 9. Those who cannot, may learn a lot from the accounts in the newspapers.

White and Mr. and Mrs. Elmer Wibel and family at the White home. Mr. Tucker says that they devoured the major portion of a delicious turkey, well cooked with all the trimmings, and he also informed us that if we or any of our friends were looking for good eats we would sure find them at the home of Mr. and Mrs. White. A Christmas tree, loaded with presents for all, was another attractive feature of the day. Walter White was home from Randolph, Neb., where he teaches a class of 19 students in agricultural work. Mr. Tucker says, that, judging from the gift which Walter received from his class at Christmas time, he is giving good satisfaction as instructor.

Farm Home At Auction TUESDAY, JANUARY, 14th, 1930 2 o'clock p. m. in Sun Theatre Building, Sargent

Having decided to remove to California, I will sell my farm of 400 acres at PUBLIC AUCTION to the highest bidder. Legally described as the Northwest quarter and the North one-half of the southwest one-fourth of Section No. 30, Township No. 20, Range No. 19; and the North one-half of the southeast one-fourth and the south one-half of the northeast one-fourth of Section No. 25, township No. 20, Range No. 20, Custer county, Neb., being 400 acres, more or less, according to government survey. LOCATION—Two and one-half miles north and nine miles west of Sargent, Nebraska. IMPROVEMENTS—House 24x24, four rooms in good shape; Barn 40x52 stalls for 10 head of horses, entire cattle space for hay, equipped with hay fork, granary bins for 2,800 bushels grain. Balance space for cattle. This building is in good shape. Hog House 14x24 feet with a nice lot fenced adjoining. Two Hen Houses, one nearly new, 14x24 feet. Good well and windmill with 250 barrel cistern, water piped to the house, the garden and corral. Fine water. Farm all fenced and cross fenced. 200 acres under cultivation; 25 acres in alfalfa; 20 acres in wheat; 20 acres in rye. Balance of the farm in pasture and hay land so arranged that after the hay is put up this is used for fall pasture. Most farm buyers want a farm that has the farm land on the valley and the pasture adjoining in the hills and here you have just that kind of a farm, with a good set of improvements, that will make some one a good home or investment. This farm will be shown to all interested by HARTLEY and BENSON up to date of sale or will be shown at any time by the owner, L. L. COSLOR, now on the farm. TERMS—15 percent date of sale. \$6,000.00 mortgage now on the farm at 6 per cent due May 1937, annual interest, to be assumed. Balance, March 1st, 1930, when possession will be given. LESTER COSLOR, Owner C. J. BENSON, Auctioneer HARTLEY and BENSON, Mgrs.

Clean-Up SALE Wednesday, Jan. 8

As I am quitting the farm I will hold a clean-up sale of all my personal property on the above date. The sale will be held on the premises located 4 miles south of Ord on the Loup City highway.

## Arcadia News

Miss Libbie Kukral left Monday morning for Central City after a week's visit with Miss Mary Sutton. Miss Kukral was superintendent of the Arcadia school a few years ago and is now teaching in the high school at Central City.

Mrs. Wayne Sanders arrived last Friday for a few days' visit with her parents, Mr. and Mrs. S. V. Hansen, and family. She returned to her home in Omaha Tuesday.

Mr. and Mrs. Alva White and Rufus White of Lexington were guests of Mr. and Mrs. John White the fore part of last week. They attended the funeral of an aunt which was held at Ansley on Tuesday.

Misses Lorna Hyatt, Marie Gates, Grace Garner and Lucille Carver returned to their school work at the Kearney Normal Wednesday after spending the holiday vacation with relatives in Arcadia.

Mr. and Mrs. Dale Lowe of Omaha spent Christmas with relatives in Arcadia.

Mr. and Mrs. W. J. Ramsey and Billy drove to Grand Island Sunday and spent the day with Mrs. Ramsey's sister, Mrs. Norton Douthit, of Wolbach, who is a patient at the St. Francis hospital. Mrs. Douthit underwent an operation at the hospital about two weeks ago and is recovering splendidly.

Rev. E. B. Bostock of Lincoln spent several days with his uncle Rev. Gaither and family last week. Rev. Bostock is a student pastor

in his senior year at the Nebraska Wesleyan University.

Joe Baird, student at the State Medical college at Omaha, is spending the week with his parents Mr. and Mrs. E. C. Baird, and family. Joe spent last week at Denver and Colorado Springs, Colo., in company with a friend Henry Walters of Lincoln. While in Denver the boys attended a medical convention. Mr. Walters came to Arcadia with Joe last Saturday and spent the week end as his guest.

Mrs. J. G. Cruikshank and Thelma and Helen Cruikshank were Ord visitors Saturday.

School resumed Monday after a week's vacation for the holiday season. All of the out-of-town teachers returned on Sunday in order to be ready for their work Monday morning.

Mr. and Mrs. J. W. Tucker had the pleasure of eating Christmas dinner with Mr. and Mrs. J. W. White and Mr. and Mrs. Elmer Wibbel and family at the White home. Mr. Tucker says that they devoured the major portion of a delicious turkey, well cooked with all the trimmings, and he also informed us that if we or any of our friends were looking for good eats we would sure find them at the home of Mr. and Mrs. White.

A Christmas tree, loaded with presents for all, was another attractive feature of the day. Walter White was home from Randolph, Neb., where he teaches a class of 19 students in agricultural work. Mr. Tucker says that, judging from the gift which Walter received from his class at Christmas time, he is giving good satisfaction as instructor.

## THE DESERT MOON MYSTERY

by Key Cleaver Siraхан

(Continued from page 6)

during supper, was half asleep on the davenport, and did not answer. Sam's first plan, after he and Hubert had made a quick ride to the cabin and back with no sign of Gaby, was for the two of us to go down the road in the sedan. Fortunately, he decided at the last minute to have Joe come with us to drive. Danny came along with John. Chad and Hubert Hand were to scout around the place on their ponies with Martha.

We drove to the highway before we turned around. He had come back about a mile, when the wind came howling up, blowing the sand and dust in thick clouds, jerking and snapping the sage and the greasewood, chasing and bounding the tumbleweed balls.

John drove fast, but we barely made the ranch before the storm broke, and just as we reached the front porch, the rain came pouring down as if all the sky were the nozzle of a big faucet and someone had turned it on, full force.

"This will bring her in," Sam said, as we ran up the steps. "She'll be there, high and dry, when we get in."

She was not. Chad and Hubert Hand had come in, and they acted as if, since we had set out to get news of Gaby, it was a wonder we had not done so. Martha was sobbing because she could not have the fireworks.

Sam went and touched a match to the fire ready to be started in the fireplace. I ran upstairs and closed the bedroom windows. I had come downstairs ready to take my rest, when I remembered the attic, with all its windows wide open to the dreaching rain.

My corns had been hurting me all day; so, Chad being handy, I asked him to go and close the attic. He went up the stairs, and almost at once came back to the head of them to call that the attic door was locked.

One of my principles is, that if you ask a man to do anything about the house for you, you do it twice yourself. I thought, again, how true that was, as I went on feeling feet up the stairs to prove to him that the door was not locked, never had been locked, and likely never would be.

It was locked. Chad walked off, saying that he would see whether some one downstairs had locked it and had the key, or, if not, whether he could find another key to fit it.

I stood there waiting. I put my hand in my pocket for my handkerchief. There was a key. It fitted the lock. I opened the door. About half way up the steps, Gaby was lying in a huddle of pink wrap. I spoke to her. She did not answer. I ran up the steps and put an arm around her, trying to lift her. Her head rolled to one side. I saw her throat. It was saffron color, with great blue bruises at its base. I touched her swollen face. It was cold.

For an instant, my only sensation was one of violent nausea. I tried to scream. My throat had closed. I must have been faint for I remember thinking that, if I did not open them, the dizziness would sweep me off into unconscionousness. I opened them. I saw there on the red carpet of the steps, something that shocked my receding senses into sanity. Dropping at once over the bright beaded brags, lying there, were the burned tobacco and the ashes from Sam's pipe.

All of my horror concentrated into a frantic desire to get those ashes away so that no one else would see them. I brushed them over the bright beaded brags, lying there, were the burned tobacco and the ashes from Sam's pipe.

As I opened the door, she again warned me against waking Martha. "Was the shock too much for her?" I asked, going and standing beside Mrs. Ricker so that we might talk in whispers.

"I didn't allow her to go upstairs. She followed Chad out of the house and she saw him shoot himself. He died within ten minutes. It was terrible for Martha. I had to hold her, while Sam gave her a narcotic."

"No, no," I protested. "What—what are you saying? Not Chad? What was you saying about Chad?"

"He walked out and shot himself, through the head." I rushed out of the room, away from her into the kitchen.

Sam, Hubert Hand and John all jumped up from their chairs and started toward me. John reached me first, and put an arm around me.

"Chad—" I began, but I couldn't get any further.

"There, there, Mary. Pour her some coffee, dad. Quick! Here, sit here. Turn on that fan, Hand. Get some water—"

"No, no. Tell me. Mrs. Ricker said— It isn't true. It— It can't be true. Not our Chad—"

Sam answered, gruffly, to keep the choke out of his voice. "It is a d— shame, Mary; but, it is true. The boy shot himself, not fifteen minutes after we found her. Wait!" he went on quickly, "before you think anything. I want to tell you what I have told the others. It is God's truth. The poor boy is as innocent of any connection with the murder as I am."

"What," I moaned, "are you going to do?"

"We are going to do a lot, Mary," Sam said. "We are going to keep Chad's name clean. Sure," in answer to my protest, "we all know. But, just the same, I'm mighty thankful that I have his alibi for him myself. A suicide looks bad, you know. That is, it would until we find Caneziano. This is his work—"

"But, Sam," I said, "if he wasn't let out of San Quentin until yesterday morning, he couldn't possibly have got 'way up here that same evening."

"We told Sam that, a thousand times," Hubert Hand said. "All right, all right," Sam said. "But if I ever get that long distance call through, you'll find that Caneziano was released a day or two early. She met him yesterday."

"How'd he get up here, Sam?" I questioned.

"Did you have a passenger up from Rattall, yesterday, John?" Hand asked.

Sam spoke, before John could answer. "Son," he said, "did you, by any chance, see a favor to one of the girls, bring that skunk here yesterday?"

"I did not, dad."

"He got here," then, as I've said all along, "Horseback, across the desert. And he murdered the girl. By G—d, he'll hang for it, if it takes my last dollar. He killed Chad, too, as much as if he'd shot him down. We aren't overlooking a couple of murders, not here on the Desert Moon. Not right yet. She went out to meet him yesterday, I tell you. She brought him into the house, for some purpose; through the back way up into the attic."

"Without anybody seeing or hearing them?" Hubert Hand questioned.

"Nobody was looking or listening, as I remember. I tell you, he killed her there on the stairs, and he made his get-away—"

"If you think that," I said, "Why aren't you out hunting him?"

"H—!" Sam exploded. "Why aren't you hunting him? Last night's lightning? The girl had been out anyway two or three hours—more likely longer, when we found her. He had that head start on us. He's gone. He went straight across the deserts, he— I bent for Sunday. He'll need food. He'll need water, worse. I've telephoned to every town within a hundred miles of here. They are watching. I've phoned every ranch. I've kept the phone hot for six solid hours. I've got posess at every water hole—"

"Listen, Sam," I said. "Unless after he murdered her, he wants her down stairs, with none of us seeing or hearing him, and into the living room or the kitchen. and put the key in my pocket, Caneziano ain't no the guilty man."

The telephone rang. Hubert and John followed Sam into the living room. I stayed where I was. I had to have a minute to think. The ashes on the bag? The key in my pocket? Sam?

If Sam, I thought, had found it necessary to murder Gabrielle Caneziano, he had probably done it in the kitchen at some time after she had been murdered and before I had found her. He must, then, be keeping some secret concerning the murder. It did look as if, considering his talk, he must be shielding the murderer, with every ounce of his horse-sense and ingenuity, both of which he had in plenty. But whom would he shield to that extent? Chad, alive or dead? No, Martha? Yes. But Martha could not have done it, John? Not unless there was something to it that none of us dreamed of. Hubert Hand, or Mrs. Ricker? No, Danny? I thought not. Myself? I couldn't be sure.

The men came back into the kitchen. Sam looked ten years older than he had looked ten minutes before. "It was Sam Quentin," he said to me. "Caneziano was positively not released from there until nine o'clock yesterday morning."

"That," I said, "lets him out."

"And," Hubert Hand said, "let's every man-jack of us here on the place in."

habit was too strong for Sam. "Well in," he quoted with a groan.

CHAPTER VII A Confession.

THE sheriff, the coroner, the undertaker, a newspaper reporter, and another man that the coroner had brought along for a Jurymen, drove up to the ranch at five o'clock that morning. Sam and the sheriff had been friends for thirty years. Sam's money had paid for the coroner's medical education. They and the others, were mighty sorry to have to bother us at all, and their sole aim was to make us as little trouble as possible.

They interviewed each of us, alone, but pleasantly and informally, in the dining room; each one, that is, but Danny—the coroner visiting her as a doctor, said it would never do to pester her, in the state she was in—and Martha, who was still asleep, and whom they said it was no use to wake. They kept us up for ten minutes. They brought in the verdict of died by his own hand for Chad; and, murdered by person or persons unknown for Gaby. They left, on tiptoe, holding their hats in their hands clear to the end of the driveway.

The sheriff left. I am all but certain, with the strong conviction that I had committed the murder, and with the resolution that he would not do Sam an ill turn by depriving him of a good cook. The coroner and the others, except the reporter, were up in the kitchen, one of us was guilty, but were thankful to goodness that they had not found out which one.

The undertaker did not leave with the others; he was preparing the bodies to take them to Teko; there to wait the instructions that we could not give until after we had gotten in touch, if possible, with Chad's people, and had come to a decision about Gaby's burial place.

All the Nevada newspaper accounts made much of the fact that the dead, who had committed the terrible murder on the Desert Moon ranch, had made a complete escape, without leaving any clues of any sort.

No clues! Lands alive! The place was positively cluttered with clues; and most of them about as useful, in the end, as clutter generally is.

I asked Sam about the contents of Gaby's beaded bag.

"It is all on the table in her room," he said, "where I put it for the coroner's jury. You can go and see. But, first, read this. It was tucked inside her dress. The undertaker found it, and gave it to me. I dread giving it to Danny."

He handed me a folded sheet of paper. I opened it and read:

"Danny dear: if you ever read this, I should be dead—murdered. Don't have me buried here in this Godforsaken country. Take me to San Francisco and have my body cremated. I love a flame. I hate the cold earth."

"You have had much trouble on my account, old dear. Don't blame me for having kept the fear and the dread of this thing, which I feel certain was going to happen, from you. You, nor no living person, but one, could have saved me."

"Remember, Dan, that in spite of all the distress I have caused you, I have always, in my own way, loved you, Gaby."

"Sam," I said. "I knew she was afraid yesterday. Oh, why didn't she tell us? Of course you men could have saved her. Why did she go out alone to meet that fiend?"

Sam's only answer was a slow shaking of his bowed head, and a deep sigh.

"Mary," he said, then, "will you give this note to Danny, and explain to her how it is?"

"How what is?"

"I mean— Well, she can't leave the Desert Moon, now, to take the head to Teko. Until we find out who murdered that girl, not a man-jack of us is going to leave this place, for any reason. Danny may be as innocent as she seems to be, and—she may not. She, nor any one else, can leave this place until we have gotten to the bottom of this thing. That goes. This note in Gaby's handwriting, clears Danny of the crime, if all the other evidence didn't, which it does. We know that she did not kill her sister. But, of all the people in this house, she is in the best position to know who did do it. Of course, if she is involved in this, she is involved innocently. If she put the key in your pocket, while we were out in the car, she did it with no idea of what she was doing. Just the same, I want her right here on the Desert Moon, for a while. Mary, you take the note to her, and explain, in your very nice way—"

"I'll give her the note, Sam," I said. "But you'll have to do the explaining yourself. I'll tell you why. It isn't right for you to try to protect anyone, not even Martha, to the extent of refusing to allow a sister to carry out the dying request of another sister."

Sam dropped his pipe. As I saw the tobacco and the ashes scatter, I was more certain than ever that I was acting as a decent woman should.

The door opened and Danny came in. She was so pale that her cheeks had sort of a greenish tinge to them. Great dark circles spread far down under her eyes that were red and swollen from crying.

She hurried to her, and put my arms around her. Sam turned away, as though he could not bear to look at us.

I took her into the living room, and sat down in a big chair and held her in my lap.

"If only," she kept saying, "if only she could have left us in her beauty. She was so beautiful, Mary. And now—"

Remembering what I had seen the night before, I knew that I must get her mind into other channels if her reason was to be saved. I

## MRS. S. GILROY DIED SUDDENLY AT HOME IN ORD

Was In Usual Good Health Night Before; Funeral Held Saturday Afternoon.

Neighbors and friends were shocked last Thursday morning to learn that Mrs. Sam Gilroy had died suddenly at five o'clock that morning, probably from a heart attack. She had been in her usual health the night before.

Katherine Preston was born March 5, 1856, at Anamosa, Ia., and died at her home in Ord January 2, 1930 aged 73 years, 9 months and 27 days. Funeral services were held from the Methodist church at 2 p. m. Saturday.

The Gilroys moved to Omaha from Iowa in 1881 and lived there two and a half years, then came to Valley county which has been their home since except for short residences in Scotia and Burwell. They first lived on a farm near North Loup coming to Ord in 1895 and this has been the family home since.

Mrs. Gilroy became a member of the Methodist church in her girlhood and was happy in that faith till the end of her life. She was always devoted to her home and family and was seldom seen away from her home.

## Munn Gives Report Of Year's Business

County Attorney Has Collected \$5,116 For County, His Report Shows; Liquor Violations Lead.

A report made this week by Geo. A. Munn, county attorney, showing business transacted by his office during the year 1929, reveals that he has collected \$5,116 for the county, has handled 71 criminal cases and has conducted 100 cases of other matters of importance during the year.

Liquor law violations accounted for 25 cases of the total number prosecuted. Fines have been collected from liquor law violators to a total of \$915, costs to the amount of \$211.79 and one car was confiscated.

Mr. Munn and his deputy, Ralph W. Norman, have lost only one criminal case during the year and have won all of their civil cases. Eight cases are still pending.

## High School Cagers Beaten by Danneberg

Still in search of their first athletic victory of the present school year, Ord high school cagers met the Danneberg five in the Ord gym last Friday evening—and lost, 19 to 8. Only two tie games mar the record of Coach Joe Krejci's proteges.

With Captain Ross Blessing still on the ineligible list and other Ord players distinctly out of form, Danneberg had a fairly easy time of it last Friday night; an easier time than the score would indicate. They used a slow breaking offense and did a great deal of stalling, which accounts for their failure to run up a larger score. Ord's defense functioned better than the offense. For a few minutes in the second half the Ord players almost resembled a basketball team but soon relaxed into their old form.

Ernie Lashmett and Dale Chatfield looked best for Ord but neither looked as good as he did on last year's team. Hughes Christensen, Norton, Ev. Lashmett, Hather, Williamson and others were used by Coach Krejci in an effort to find a combination that would "click" but at no time did the Ord team look impressive.

## ALARM SOUNDS FOR BLAZE IN WRECKING SHOP

Barn Rented by Chrysler Dealer Ablaze Monday; Frozen Mains Hamper Firemen.

Ord firemen were called out Monday afternoon to extinguish a blaze that had started beneath the floor in the barn owned by Joe Dlugosh and used by C. A. Anderson as a wrecking shop and tire store. Smoke was rolling from the building in dense clouds but no flames were to be seen from outside.

Water mains on nearby corners were frozen and it was some little time before they could be thawed and water could be poured on the burning floor. When firemen got their hose into action it was only a few moments before the fire was out.

When the fire first started apprehension was felt that the blaze might spread to the McGrew shoe shop and other frame buildings south of the old Dlugosh barn as a strong north wind was blowing. The flames never reached the exterior of the barn, however.

Mr. Anderson's loss was negligible. A large crowd gathered and helped carry his stock of tires and tubes to safety. He recently has gone to considerable expense in painting the front part of the building and installing a cement floor in a portion of it but no damage was done to this part except by smoke.

## Warner's Romers Will Play League All-Stars

Warner's Romers, of Hancock, Ia., one of the fastest traveling basketball teams in the mid-west, will appear in Ord January 20, it is learned today. The Romers will play the City League All-Stars at the Ord gymnasium. They present a line-up of former university players such as Nieman, the Iowa State Brannan of Mt. Morris, Schmidt and McMasters of Simpson, Brown of Parsons, and a couple of Iowa all-state high school players. Negotiations for the game have been under way for some time and it has now been definitely scheduled, giving basketball lovers something to look forward to.

The Universal Producing Company will coach the play and have charge of arrangements.

## GRETA BRICKNER WRITES WINNING STUDENT CODE

Wins Prize Offered by Rotary Club; Charlotte Moorman Arthur Auble Also Win.

Writing a code by which more than three hundred high school and junior high school students will attempt to live is no ordinary achievement but that is what Miss Greta Brickner, junior normal training student in Ord high school has done.

Some time ago the Ord Rotary club determined to encourage thoughtful activity in the lines of courtesy, loyalty, reverence and more character education in general in the upper grades of the city schools. A prize was offered by the club to the student whose written production was judged best by his fellow students and teachers.

Early in December the plan was outlined and committees were appointed to launch the project in the schools. More than thirty codes were written by students and turned over to a scoring committee, which selected the three best. These were then turned over to the home rooms by number, where the students' preference was determined by ballot. The three codes were written by Arthur Auble, Charlotte Moorman and Greta Brickner and students decided they liked best the one written by Miss Brickner. This code has been adopted as the school code for the year and copies are to be printed in poster form and posted in all rooms. Formal presentation of code and prize will be made in a general convention to be held Friday, January 24.

- O—Obedience We shall be obedient to duty. We shall obey those that are wiser than we.
- R—Reverence We reverence God. We respect regulation and leadership.
- D—Diligence Shining success shall be our goal. We shall diligently strive for the best.
- H—Honesty We shall be honest in all our dealings and deeds. Good Americans are honest.
- I—Independence We may each be depended upon to do our duty.
- G—Graciousness We shall be gracious in the home, school and community.
- H—Health We shall strive to be healthy in body, mind, and soul.
- S—Sportsmanship We shall be graceful losers and generous winners.
- C—Co-operation We shall always co-operate to make the best of our school, home and social life.
- H—Hope We shall be hopeful for hope is the power of improvement.
- O—Objective The objective of our high school career shall be to improve upon the best standards.
- O—Order We shall put first things in first places.
- L—Loyalty We shall be loyal to our school, our family and our town.

## Maytag Reports Big December Business

The Maytag Company, Newton, Iowa, manufacturers of the Maytag Aluminum Washer, reports that the volume of deliveries for December, 1929, was one of the greatest in Maytag history. December, which is normally not a peak month, showed a marked increase over both October and November and brings to a close a record-breaking year for Maytag.

The outstanding prosperity of The Maytag Company is significant in that their product is sold thru a sales organization of over nine thousand who sell direct by demonstration to the housewife. Their exceptional sales volume reflects the fundamentally sound business conditions existing at the present time.

The Maytag organization is looking forward to a still larger business in 1930. The business outlook is good in every section of the country and the outlook in agricultural regions is particularly promising.

A large New Year's dinner was held at the home of Andrew Dubas in Ord. Those in attendance were Mr. and Mrs. Chas Swartz, Mrs. John Swartz and daughter, Marjorie, Fulerton, Joe Wadas and family, John Janus and family, and Mr. and Mrs. Frank Shotkoski.

## Fast Ravenna Team Meets All-Stars This Evening

People who get thrills from the cage sport should attend the basketball game at the Ord high school gymnasium tonight, when the fast Ravenna town team plays the Ord City League All-Stars. The Ravenna team is led by "Pal" Sanderson, former Doane college all-state guard. University of Nebraska and former all-state high school players are included in the Ravenna line-up, which has been defeated just once this year. In 1928 this same team won the central Nebraska amateur tournament.

## KREJCI PROVES TOO MUCH FOR GRAND ISLAND

Leads City All-Star Offense In 30-21 Victory Over Fast Athletic Club Five.

Their short passing game checked by a superb Ord defense, the much touted Grand Island Athletic club cage team went down to defeat before the City League All-Stars Monday evening, the final score being 30 to 21. Nearly all of their points were made on long shots while, led by Joe Krejci, the All-Star scored repeatedly from beneath the basket. The Ord team shows signs of developing into a formidable aggregation with more practice.

Early in the game it was apparent that if the All-Stars could start connecting with the hoop they could win, as they were getting many shots that hit missed. Grand Island in the meantime was scoring on long shots by Trupp and Reese and at the end of the first half led 16 to 14.

In the second half the All-Stars found themselves. Joe Krejci, lanky high school mentor and All-Star center, was playing the game of his life and the white team through the Grand Island team and tallied. Alvin Jensen went down the floor twice and received passes beneath the basket, converting both tries into scores. Buck Williams, diminutive forward caged, two from the free throw line. Williams' offense functioned so well that Grand Island could score but twice from the field, Reese sinking two long shots. A gift toss by Robbins ran their second half total up to 5 points. Ord scoring 16 in the meantime. The final count was 30 to 21.

Beeghly and Jensen played excellent games at the guard positions and Krejci was masterful at center. In finding two forwards who can work together and stand the gaff Captain Lee Nay is finding most of his trouble. Williams and Swede Carlson alternated at one forward post and Captain Lee C. Nay looked best in the other position. Ike Blessing, regarded as a sure selection for one of the forward places, was ill Monday and unable to play. McMinder and Carkoski also looked good at forwards but McMinder is better at running guard and probably will be used as a substitute for Beeghly or Jensen when Blessing is available. Gifford also saw action, Krejci going to a forward and Gifford taking center while he was in the fray.

Krejci as usual was high-point scorer with fifteen points. Trupp and St. John, leading point-getters for Grand Island, could tally but six points each. The Ravenna All-Stars play in Ord tonight.

The box score of Monday night's game:

City League All-Stars		
McMinder, f	1	0 2 2
Nay, f	1	0 0 2
Krejci, c	6	3 0 15
Jensen, g	2	0 2 4

## FRANK ZELESKI DIES AFTER TWO DAYS OF ILLNESS

Taken To Hospital Sunday Night, Passes Away Next Morning; Funeral Today.

After an illness of less than two days with pneumonia, Frank Zeleski, 68, passed away about 11 a. m. Monday at an Ord hospital. He was taken to the hospital Sunday morning, was taken to the hospital that night and died the next morning. Mr. Zeleski had been ill on Christmas day but apparently recovered and was about to leave only the day before with his fatal illness.

He was born in Poland May 17, 1861 and came to this country in 1887. On Nov. 18, 1884, he was married at Farwell, Neb., to Miss Helena Placz and to this union were born five children who survive and eight who passed away in infancy. The surviving children are Lloyd Zeleski, Henry Zeleski, Mrs. Joe Puncocar and Mrs. Leo Gerharz, of Ord, and Miss Martha Zeleski, of Grand Island. An adopted son, Alex Cznowa, of Ashton, also survives. He also leaves two brothers, August Zeleski of Elba and Andrew Zeleski, of Chicago, Ill.

Mr. Zeleski was a member of the Knights of Columbus and Modern Woodmen lodges. He was a member and a regular attendant of the Ord Catholic church, where funeral services are being held today with Rev. Father M. A. Lawler in charge. Interment will be in St. Mary's cemetery, Ord.

Respected and well liked ever since he moved here, Mr. Zeleski's death will be mourned not only by his own family but by a large circle of friends.

## Mrs. Jas. Lipinski Is Buried Tuesday

Died At Boulder, Colo., Where She Went To Seek Health; Had Many Relatives Near Here.

Requiem high mass for Mrs. Anastasia Lipinski, 39, was held at the Ord Catholic church Tuesday morning with Father Lawler officiating and burial was in St. Mary's Catholic cemetery. Mrs. Lipinski died at Boulder, Colo.

Until about ten months ago Mr. and Mrs. Lipinski lived in Valley county. For over five years Mrs. Lipinski had been an invalid and it was decided to move to Colorado in hopes that the change in climate might prove beneficial. When they first moved into the mountains she seemed better but Saturday word of her death came.

She was a daughter of Mr. and Mrs. John Zukoski, both of whom are dead. Besides her husband James Lipinski and one son, Marjion 11 year old, she is survived by eight brothers: John, James and Jerry Zukoski, of Ord, Andrew, of Elyria, Wm. Frank and Dommit, of Burwell, and Casper, of North Platte, and by five sisters, Mrs. Zereska Ziminski, Rockville, Mrs. Martha Suminski, Burwell, Mrs. Emma Guezski, Ravenna, Mrs. Tillie Zlemkoski, Ravenna, and Miss Clara Zukoski, Alliance.

## WHY WORRY?

If you want to make a change, we have applications for loans on improved Valley county farms for \$3500, \$4000 and \$5000, to pay 5% per cent semi-annual interest, which we can recommend as perfectly safe, and bringing a fair interest on the investment, there being no tax on them. We also have application for \$1,000 on Ord property that will pay 6 per cent.

THE CAPRON AGENCY

Mrs. Mamie Wear, who has been living in Omaha for over a year has rented two rooms in the Ed Milligan house. Her mother, Mrs. Bob Millen of Omaha, who for several years lived in Ord and later in St. Paul, will come to Ord to live with her daughter, Saturday Mrs. Wear went to Greeley on business affairs.

A. Warner Dead. Many Ordites will remember the A. Warner family who lived in Ord for some years and did gardening and odd jobs about town. Charles M. Roberts of Lincoln, a step-son of Mr. Warner writes the Quiz that the old gentleman died at Norfolk, Va. December 31, 1929. They left Ord 14 years ago. They went to Virginia after leaving Ord but returned to Lincoln and lived at the Roberts home for a long time, returning to Virginia last July. Mr. Warner had been blind or nearly so for the past eight or ten years. He was buried at Norfolk, Va.

Mrs. Ollie Haught returned Friday evening from Grand Island. While there she had her tonsils removed.

## Clarice Baird And Emil Urban Married

Miss Clarice Baird, daughter of Mrs. Hattie Baird, and Emil Urban, son of Mr. and Mrs. Charles Urban, were united in marriage by County Judge McGrew, of Burwell, on December 31. This popular young couple will make their home on a farm southwest of Ord and will have the best wishes of their many friends.

Wells Fined at Loup City. Lawrence Wells, of near Cotesfield, was arrested in Loup City on New Year's night and the next day pleaded guilty to transportation and possession of intoxicating liquor. He was fined \$100 and costs and his car was confiscated. Wells paid fines on a liquor charge in Valley county a few months ago.

Called to Arkansas. Mrs. Ed Johnson and Forrest Johnson, were called to Hot Springs, Ark. by the news that their husband and father-in-law were there for several weeks recuperating from his long illness with pneumonia. His son and wife left here by auto Saturday and arrived in Hot Springs at midnight Tuesday. They found Mr. Johnson slightly improved.

Photo Drama Well Received. The second episode of the American Photo Dramas, Columbus, was presented to an appreciative audience on Thursday, Jan. 2. Four feature reels and a specialty composed this show. More school people attended the second show than were present at the first picture, and their appreciation of the subject matter and its close relation to their study of history was clearly evident. The third episode, "The Pilgrims" will be shown on Thursday, January 16th.

## COUNTY BETTER OFF THIS YEAR, REPORT PROVES

Fewer Farm Mortgages Filled, More Are Released, Says Figure in Clerks Office.

Fewer farm mortgages were filed in Valley county in 1929 than during the previous year and more were released, according to figures made public this week by Ign. Klina, jr., county clerk. In 1928 a total of 162 were filed, the value being \$338,105.07. In 1929 the total was only 157, the value being \$753,929.12. During 1929, eight sheriff's foreclosure deeds were filed.

Farm mortgage releases in 1928 were 169 in number, the total value being \$72,429.29. During 1929, 179 were released, the value being \$939,407.53. A few more chattel mortgages were filed in 1929 than in 1928 but many more were released, the figures show. The total was 2,420 filed, worth \$2,224,315.28 and 2,770 released, worth \$2,983,673.99. In 1928 the total number filed was 2,305 worth \$2,279,732.62 but only 1,427 were released, representing \$1,428,373.93.

More town and city mortgages were filed and fewer of them were released in 1929 than during 1928. Last year 70 were filed the value being \$130,319.83, and 63 released worth \$110,381.18. In 1928 the number filed was 66, total \$127,751.14, while 75 were released, value being \$130,378.75. These figures would show a trend toward better conditions, Mr. Klina says.

## Millard Potter Dies In St. Paul, Minn.

## Many Public Sales Advertised in Quiz

Even more public sales than usual at this time of year are advertised in this week's Quiz. Among the sales are Peter Knudsen's on Jan. 15, George Eberhart's and Fred Cohen's, both on January 15, and Oscar Knecht's, which is to be held January 18. All of these are clean-up farm sales, with good offerings of livestock, machinery and other things peculiar to such sales. Read the ads carefully.

Saturday Mrs. John Kusek left for her home in Columbus, having received word of the illness of her husband. Mrs. Kusek had been taking care of her mother, Mrs. Mary Flakus, in Elyria. Monday afternoon and Tuesday Mrs. Frank Blaha jr. went to Elyria and stayed with her mother. The latter has been ill and confined to her bed for several months.

Otto and Miss Elsie Pecenka and Miss Mildred Haas drove to Grand Island Sunday. From there the young ladies took the bus for Lincoln. Miss Pecenka goes to the state university and Miss Haas to college.

## QUIZ UPSETS DOPE WITH WIN OVER NYAL FIVE

Drug Store Team Topped To Tie With Hill; Carlson Turns In Nice Game.

How They Stand.

Results Last Night. Ord Quiz, 16; Nyal Drug, 5. Hill & Hill, 33; Gem Theater, 10. Andersen's 28; Penney Co. 8.

Games Next Week. Hill & Hill vs. Nyal Drug. Quiz vs. Gem Theater. Andersen's vs. Penney Co.

The biggest upset of the season marked city league play last night when the Quiz team took a fall out of the league-leading Nyal Drug five and topped them to a tie with the Hill quint. The Hill team led by Joe Krejci displayed its customary form and won handily, 33 to 10, and feature reels and a specialty composed this show. More school people attended the second show than were present at the first picture, and their appreciation of the subject matter and its close relation to their study of history was clearly evident. The third episode, "The Pilgrims" will be shown on Thursday, January 16th.

All three games were so lopsided that they were of little interest as contests. The Quiz victory came mainly because of the snappy play of Cass, center, and Captain McMinder, forward. Cass, with ten points, was one of the high scorers of the evening. McMinder's floor work as usual was far above par. Beeghly looked best for the Nyal team.

Captain Krejci of the Clother quint was the heaviest scorer of all three games. He accounted for eighteen of his team's points and his feat was all the more remarkable because 14 of his points were made in the second half. Carkoski and Baker, with 8 and 6 points, and Dvorak with a charity toss, completed the Clother scoring. Satterfield scored six points for the Gem five.

Swede Carlson found himself in the Andersen-Penney fray and piled up 14 points for the groceryman. The whole Andersen team had on their scoring togs. Shunkwiler, Frank Andersen and Jensen each tallying two field goals and Kowanda sinking one. Carlson's all around play was a feature; in fact he looked the best he has this season. The Penney team tallied until the closing moments of the game. Aggers, a recruit center, looked best for Penney.

Next Wednesday's games are the last in the first half of the split season.

## Our Exchanges By Mrs. R. J. Clark

Monday, A. V. Sevcik, brought to the Herald office a can of pineapple, it being a part of the case that was sent to him by his son, Ed, who is superintendent of a pineapple cannery in Hawaii.

The shipment was included with a cargo that had been sent to their distributing point at Cleveland, O. Ed, it will be remembered, went to Hawaii as an instructor in the school there. He followed this vocation for several years. Some time ago he was chosen as superintendent of a pineapple cannery, an institution that is considered the largest in that territory. Last year under his direction the production had exceeded 800 cases over that of any former period. The capacity of the cannery, according to Mr. Sevcik, is rated at 12,000 cases daily.

The Herald extends thanks to A. V. Sevcik for the favor, and to Edward for his kindly remembrance of the editor in that far-off country, Howard County Herald.

Joseph Payton, believed to be the last confederate veteran of the civil war in this section of Nebraska, died at the home of a son at Taylor last week. He was 88 years old and an early settler in the vicinity of Taylor. He planted the cottonwood trees on the highway just west of Taylor and tended them with a hoe and they are beautiful land marks to his memory.

Mr. and Mrs. Glenn Patrick and two children drove to Minden Christmas eve and attended the golden wedding anniversary of her parents, Mr. and Mrs. Henry Pierson, which they celebrated on Christmas day. A family dinner was served at noon to their children who came for the occasion and included seven daughters and one son and their families. A daughter, Mrs. Frank R. Anderson, was unable to come from California on account of sickness. In the afternoon a reception was held and over two hundred people called on the happy couple. They received many golden wedding presents. They had moved to Minden over 47 years ago. Those present for the family dinner were: Mr. and Mrs. Frank Pierson and Everett of Minden; Mrs. Carl Johnson of Holdrege; Mr. and Mrs. E. L. Berger and Marjorie and June of Akron, Colo.; Mr. and Mrs. Orris Garner and son Fay of Wenatchee, Wash., and Mr. and Mrs. Glenn Patrick and Phyllis and Robert of Alliance; Mr. and Mrs. Martin Johnson and Mary and Roland of Kearney; Miss Agnes Pierson and Mr. and Mrs. Harold Anderson of Minden.—Alliance Times.

Glenn Patrick is a brother of Mrs. Leo Long.

O. S. Mason purchased a lot of store fixtures from an Ord hardware store and on Tuesday drove up there with three trucks bringing the fixtures to Loup City which he will install as soon as he has the present building remodeled.—Sherman County Times.

Mr. and Mrs. Victor McBeth have for their guests this week, Mrs. A. R. Kokes and daughter of Tekamah and Mrs. J. W. Perkins and daughter, Mrs. Martin Christensen of Mitchell.—Spalding Enterprise.

In a talk with B. D. Allen last Saturday we learned that he was one of the men who helped to construct old Fort Hartsuff on the North Loup river. This fort is still standing and last year there was talk of making it a state park, but what the outcome of this issue was we are unable to say at this time.

Mr. Allen says that he and Capt. Comstock walked from Wescott to the location of Fort Hartsuff and secured work there, working for a wage of \$30 per month. They, with their families lived in a dug-out close to the fort during the construction. Mr. Allen worked at sawing up the logs for lumber, while Mr. Comstock worked in the gravel pit.

The fort is mostly concrete, and in those days it required a lot of hard labor as well as expenditure to put up buildings as large as those at Fort Hartsuff.

Mr. Allen also informed us that on another occasion, when the settlers in the vicinity of Wescott were expecting an Indian raid, he volunteered to go to Fort Hartsuff for aid. When he arrived at the fort he was directed by Munson, who was in command, to go back and "give the Indians hell" until the soldiers arrived.—Comstock News.

# THE GREATEST CHEVROLET

## IN CHEVROLET HISTORY

Today, Chevrolet presents the Greatest Chevrolet in Chevrolet History—a smoother, faster, better Six—with beautiful new bodies by Fisher.

Basically, it is the same sturdy, substantial Six which won such tremendous popularity in 1929. But it is a greater car in every way—for there are scores of vital

improvements which contribute to comfort, performance, endurance and safety!

An improved six-cylinder valve-in-head motor, with its capacity increased to 50 horsepower; four Delco-Lovejoy hydraulic shock absorbers; fully-enclosed internal-expanding weather-proof brakes; a new dash gasoline

gauge; heavier and stronger rear axle; new Fisher non-glare windshield; larger tires—

—these are typical of the many improvements which make this car the Greatest Chevrolet in Chevrolet History.

But most impressive of all—this smoother, faster, better Six has been made available—

## - at Greatly Reduced Prices!

During 1929, more than a million three hundred thousand persons bought six-cylinder Chevrolets. This enormous volume has made possible many savings in the Chevrolet factories—and, in keeping with its long-established policy, Chevrolet

is sharing these savings with the public. No written description can do justice to the extra value and quality provided in this new car. Visit your Chevrolet dealer—see this car—ride in it—and judge for yourself its sensational value.

### Say—But That Saving Looks Good

Like many other salaried men, his income is a bit limited. First of the month bills always "pinch" him a little bit. That's why the saving his wife is making by buying at the City Market always looks so good to him.

Home-fattened, home-butchered meats are sold here. You pay no expensive Omaha-and-return freight rates, no commissions, no yardage fees. No wonder we can sell quality meats cheaper than others.

—Mr. and Mrs. Claude Dewhirst have moved back to Ord. The former arrived Friday morning and has taken up his work as U. P. operator. Mrs. Dewhirst came Saturday evening. Their goods are here and they have moved into their own home on N street. L. Shunk-weller and family were living there but are now occupying rooms in the Mortensen block.

Our Weekly SERMONETTE

Text: "I am the door; by Me if any man enter in, he shall be saved."

Who spoke these words? It was none other than Jesus Christ. Who is Jesus Christ? A careful and impartial examination of the record will show...

This statement of Jesus Christ is Truth. Let me pause, at this place, long enough to point out the serious difficulty that those find themselves in who do not take to face value Christ's claim of full equality with God...

Another thing that we find on closer examination is that Jesus Christ had prophesied that He would rise from death on the third day. The records show that He made good promise. And finally, He makes the statement that the councils and plans of God are being

carried out in His suffering and death on the cross. But why did God have His Son come into this world, assume human flesh, suffer, die, and rise again on the third day? The answer is: To save mankind.

Need of Salvation Man needs some one to save him from his sins. He may say, "I do not feel the need of a Saviour." But whether he feels it to be true or not, it is nevertheless a fact—man needs salvation from sin. The Bible thus describes man's condition as God sees him: "The whole head is sick, and the whole heart faint. From the sole of the foot even unto the head there is no soundness in it; but wounds, and bruises, and purifying sores; they have not been closed, neither bound up, neither mollified with ointment" (Is. 1, 5, 6).

No man as he is by nature can say: "That may be true of other people, but it is not true of me." The Bible says: "There is no difference; for all have sinned and come short of the glory of God" (Rom. 3, 22, 23); "There is not a just man upon earth; that doeth good and sinneth not" (Ecc. 7, 20); "There is none righteous, no one; there is none that understandeth, there is none that seeketh after God. They are all gone out of the way, they are together become unprofitable; there is none that doeth good, no, not one" (Rom. 3, 10-12). Education, and culture, and what the world calls morality may gain for man the praise and honor of the world, but these things do not recommend him to God. All men stand before Him as miserable, lost, helpless sinners. Yes, helpless sinners. So helpless, that they can find no help whatever in themselves, or in any other creature in heaven or on earth. So helpless, that God only can help them. He did help them. There is salvation for every sinner, but salvation is only in Christ.

Jesus says: "I am the door; by Me if any man enter in he shall be saved." Again He says: "I am the way, and the truth, and the life; no man cometh unto the Father but by Me" (John 14:6). Notice, our Saviour does not say a way, as if there were other ways, but "the way, the truth, the life." Therefore the apostle says of Jesus: "Neither is there salvation in any other; for there is none other name under heaven given among men, whereby we must be saved" (Acts 4, 12). Salvation is in Christ alone, because He alone is "the Lamb of God that taketh away the sin of the world." He who did no sin bare our sins in His own body on the tree. Thus be procured that full salvation offered to every sinner in the Gospel. He that believes the Gospel takes the salvation which is in Christ only, and he has everlasting life. He that does not believe the Gospel, no matter who he is and no matter what else he believes, he that does not believe the Gospel rejects the salvation

Announcements of Services in CHURCHES OF VALLEY COUNTY

Ord Methodist Church Notes

The Sunday School attendance last Sunday was 202 which is a good beginning for the New Year. Let the good work go on and see how soon the 250 mark may be reached. During the opening exercises the Sunday officers elected a couple of weeks ago were installed by the pastor, after which Mr. and Mrs. Glen Auble sang a pleasing duet.

At the morning worship hour the communion service was observed. At this service Mrs. Albin Mazac sang a beautiful solo which added much to the solemnity of the service. The responsive reading was Psalm 148 and a part of Psalm 149. The pastor did not preach a sermon.

At the evening service a quartet made up of Glen Auble, Mrs. Mary Tolson, Mrs. Henry Koelling and R. J. Stoltz led the music and also sang two selections. The scripture lesson was 25 verses from Matt. 26; Verse 25 was the text for an able discourse on "Judas," the disciple who betrayed his Lord. It was a pleasing sight to see nearly 40 young people of the Epworth League group take their places in the front seats and Mr. Moorman tells us it is very helpful to him to have them do so.

This week is known throughout the religious world as "The Week of Prayer," and is being observed in this church with a "Fellowship" prayer service held each evening at 7:30 o'clock in the League room. The meetings are proving very helpful and a cordial invitation is extended to all to attend this evening and tomorrow evening. No service will be held Saturday evening.

The regular services will be held next Sunday, Miss Virginia Mutter will be the leader of the Epworth League devotional meeting at 6:30 o'clock. A cordial invitation is extended to everyone to attend the services.

Plans are going forward for the Loup Valley young people's conference which will be held at this church January 24, 25 and 26. It is hoped to make the conference a source of help and inspiration to all who take part and much good will surely come of it.

North Loup Friends Church The new officers of the Christian Endeavor elected at the party and taffy-pull last Wednesday evening are as follows: president, Sylvia Baker; vice-president, Jessie Gilmore; secretary and treasurer, Birdeane Ingerson; chairman of prayer meeting committee, Mary Baker; chairman of social committee, Harold Currie.

The entire group of Endeavorers are to constitute a "Lookout Committee," to invite new members in. A full house greeted the orators on Sunday night who presented the subject, "Ten years of Prohibition." Their orations were illuminating and inspiring. An offering of \$8.00 was presented to the boys, to help a bit toward college expenses. Special features of the meeting were a solo by Kenneth Hawks, "The Holy City," a duet by Mrs. Walter Schabauer and Mrs. Brown, with harp accompaniment, a reading on the effects of using alcohol, by George Miller and devotionals led by Walter Wilson, yearly meeting superintendent.

Mr. and Mrs. Wilson, together with Mr. Wilson's mother, Mrs. Gogel, drove up from Central City to attend the Sunday night services. Their presence is always welcome.

Another welcome attendant was Merle Benton, Christian Endeavor officer from Loup City. Mr. Mark McGee was received into church membership at the Sunday morning service. The pastor, Miss Brown, is transferring her membership from Central City Monthly meeting of Friends to the North Loup meeting.

The cottage prayer meeting next Sunday afternoon at 2:30 will be held at the home of Mr. and Mrs. Jim Sample. Leader, Louis Miller. We welcome all Christian people who enjoy the prayer meeting and believe that "prayer changes things."

Remember the mid-week prayer which in Christ Jesus, and since there is no other salvation, he is lost forever. Therefore, "believe in the Lord Jesus Christ, and thou shalt be saved." Do not say that you are too great a sinner. You may be a great sinner, but you have a great Saviour. The salvation which is in Christ greater than all your sins, yes, greater than all the sins of the world. "Come now, and let us reason together, saith the Lord: though your sins be as scarlet, they shall be as white as snow; though your iniquities be as crimson, they shall be as wool" (Is. 1, 18). "This is a faithful saying and worthy of all acceptance, that Christ Jesus came into the world to save sinners, of whom I am chief" (1 Tim. 1, 15). Precious truth! Christ Jesus came to save even the chief of sinner. Come to Him, that is believe in Him, and you have that salvation which is in Christ alone. "He that hath the Son hath life; he that hath not the Son hath life" (1 John 5, 12).

The famous physician Dr. Simpson, the discoverer of the effects of chloroform and the inventor of many medical instruments, was asked which of his discoveries he considered the greatest. He replied: "The greatest discovery that I ever made is this, that I am a poor sinner and that Jesus Christ is my Saviour."

Let us all take our sins to Jesus and lay them at His feet. "The blood of Jesus Christ, God's Son, cleanse us from all unrighteousness" (1 John 1, 7). In Christ alone is salvation. William Bahr, Pastor of St. John's Lutheran Church.

meeting on Thursday evening at the parsonage. Services for the week are as follows: Bible school 10:00 a. m. Morning worship 11:00 a. m. Cottage prayer meeting 2:30 p. m. Christian Endeavor 7:00 p. m. Evening worship 7:30 p. m. We welcome all who care to come. Bessie Franc Brown, Pastor

Evangelical Church News The weather was splendid again Sunday and as a result of course our attendance was good and we enjoyed worshipping together, but are sorry that some were unable to attend on account of sickness. The church offers the world the greatest opportunity of religious instruction there is to be found and many are taking the advantage of it and as a result are contributing to the communities of earth much of its best quality of life. A sheriff of one of the counties of our own state made the following statement, "Out of sixteen years service in the office of sheriff he had little or no trouble with the active members of the Christian church, Brethren this is high tribute let us see to it that she is kept worthy of it."

The Evangelical church will have all of its regular services next Lord's day and you are urged to attend. Nathan Thomas, Pastor.

Lesson for January 12 THE BAPTISM AND TEMPTATION OF JESUS

LESSON TEXT—Matthew 3:1-11 (Print Matt 3:13-4:11) GOSPEL TEXT—This is My beloved Son, in whom I am well pleased

PRIMARY TOPIC—When Jesus was Baptized JUNIOR TOPIC—The Baptism and Temptation of Jesus INTERMEDIATE AND SENIOR TOPIC—Jesus Facing His Life Work YOUNG PEOPLE AND ADULT TOPIC—Triumphing Over Temptation.

1. The Baptism of Jesus, the King (3:13-17). While the forerunner was discharging his office, the King emerged from His seclusion at Nazareth and demanded baptism at John's hands. The incongruity of this demand with the purpose of baptism brought from John a protest, but upon Jesus' satisfactory explanation, John baptized Him. Touching Christ's baptism note:

(1) Its significance. (1) Negatively, a. It did not mean His mere obedience to the commandment of God, because His entire life had been lived within the will of God. Christ was baptized not because He had sinned, but because He took the place of sinners to be a substitute for them. In this He who knew no sin was made sin for us that we might be made the righteousness of God in Him (II Cor. 5:21).

(2) Positively, its significance is found in harmony with the central purpose of His coming into the world, which was to secure for His people salvation through death and resurrection. This act was the official entrance upon His work. It was an act of consecration on His part to the work of saving His people through sacrifice.

(3) While baptism is a sinner's ordinance, Christ was baptized not because He had sinned, but because He took the place of sinners to be a substitute for them. In this He who knew no sin was made sin for us that we might be made the righteousness of God in Him (II Cor. 5:21).

2. Approval from the opened heavens (vv. 16, 17). Immediately following His consecration to His work, the heavens were opened and the Spirit came and abode upon Him, followed by words of approval from the Father.

11. The Temptation of Jesus, the King (4:1-11). Being thus commissioned for His work, His ability to meet the one whose destruction He had come to accomplish, must be demonstrated (Heb. 2:14). This temptation was the opening battle of the dreadful conflict between Christ and Satan in this struggle note:

1. The combatants (v. 1). (1) Jesus Christ, the divine man, now entering upon His mediatorial work. He went immediately from the place of anointing and heavenly recognition as the Son of God, to meet the arch enemy of the race. (2) The devil. The one with whom Christ struggled here was a real personal being, armed with cunning and malice, and possessing great power.

2. The battleground—wilderness of Judea (v. 1). The first man was tempted in a garden with the most pleasant surroundings, and failed. The second man was tempted in a bare wilderness, and gloriously triumphed.

3. The method of attack (vv. 3-9). Since, as the Redeemer of mankind, Christ sustains a threefold relationship, the Son of Man, the Son of God, and as Messiah, each one was made a ground of attack. (1) As Son of Man. This was a test of the reality of His humanity to demonstrate as to whether the humanity which He obtained through the virgin birth was real. The appeal was made to the instinct of hunger. Hunger is natural and unguessed. (2) As the Son of God. It was a test as to whether this personality which had taken upon itself humanity, was divine. The devil quoted from a Messianic psalm to induce Jesus to presume upon God's care. God does really care for His own, but to neglect common precautions to do the uncalled for things, just to put God's promise to a test, is to sin and to fall. (3) As the Messiah. Christ's mission as the Messiah was to recover this world from the devil. The devil offered to surrender to Him on the simple condition that He adopt his method, thus obviating the necessity of the cross.

4. The defense—the Word of God (vv. 4, 7, 10). Christ met the enemy each time and repulsed him with "It is written." Each time he quoted from Deuteronomy—the book which the higher critics would discredit as unreliable. Jesus had enough confidence in it to use it in this the most crucial hour of the world's history.

5. The issue (v. 11). The enemy was completely routed. The strong man was bound, so that the spoiling of his house was possible.

## More Cooks Urged To Send Recipes

This week we have another steamed carrot pudding recipe for the unknown cook who requested such a recipe. We hope she likes one of the two!

**Carrot Pudding.**  
1 cup ground raw carrot, 1 cup ground raw potato, 1 teaspoon soda stirred into the potatoes. Drain and cover with cold water and add one small onion. Cook until tender. Add 1/2 teaspoon salt during last of cooking, drain, and add 1/2 cup diced celery, 2 tablespoons of diced green pepper, 1 cup tomato soup, 1/2 cup water, 2 tablespoons melted butter, 1-3/4 teaspoon pepper, salt to taste.

**lima Bean Scallop.**  
1 1/2 cups lima beans soaked in cold water 6 to 8 hours. Drain and cover with cold water and add one small onion. Cook until tender. Add 1/2 teaspoon salt during last of cooking, drain, and add 1/2 cup diced celery, 2 tablespoons of diced green pepper, 1 cup tomato soup, 1/2 cup water, 2 tablespoons melted butter, 1-3/4 teaspoon pepper, salt to taste.

**Cup Cakes.**  
1/2 cup butter, 1 1/2 cups sugar, 5 egg whites beaten stiff, 1/4 cup milk, 1 3/4 cups flour, 1 teaspoon lemon or vanilla or a mixture of the two, 1/2 teaspoon soda, 1 teaspoon cream of tartar.

**Cranberry Jelly.**  
4 cups cranberries, 2 cups sugar, 1 cup boiling water, boil ten minutes, strain and mold.

**All dresses, coats, hats, now 1-2 price at Alyce Johnson's Style Shop.**

## New Styles Are Extremely Graceful

If you are one of those people who go around saying you don't care for the new longer slimmer silhouette and the princess lines which are now so popular, please consider carefully all the numerous points in favor of these new-fangled gowns!

These new-type dresses are feminine, that no one will deny... they make a woman resemble one more than has been fashionable since the World War and the advent of the short and sack-like dresses. And another thing, as Andy Gump would say... surely it is more becoming to any stoutish person to get rid of that horizontal line made by the bottom of a short skirt, and to gain the present longer-lined effect.

## Sight Safety

Poor Eyes are simply good eyes gone bad. Even the strongest eyes will become weak and dim if they are worked constantly without receiving recuperative treatment. Maybe your eyes need a light diet. We could provide that by fitting you with Soft-Lite Lenses. They filter the glare from light. They soften it. . . make it digestible and nourishing for your eyes. Let us put you on a SOFT-LITE diet.

## QUIZ FORUM

Writes from Ogallala.

Dear Quiz: I am sending a check for the Quiz which of course we could not get along without. We always read every page and hope your Elvria news gets longer for there is the part of the county where we used to live. What is the matter with J. B. Zulkoski? Did his news box get empty? We hope he gets busy and puts more news in.

Maybe some of our Valley county friends would like to know how we like the west. We are enjoying good health and like this country fine. This country is mostly wheat and small grain, with not so much corn. Livestock is raised mostly in the north part of Keith county. Most of the farming here is done with power machinery. We had a dry spell here last year, had only about one good rain during the growing season yet the wheat was pretty good, averaging from 12 to 30 bushels per acre. Corn averaged 25 bushels which of course was not so bad. We have cool nights here all summer, which saves the crop. Many settlers are coming in from Seward county and settling in the southern part of Keith county. Many farms have sold for from \$45 to \$80 per acre.

## Grainton Relatives Visit.

Mr. and Mrs. H. B. McClary, of Grainton, were in Valley county, visiting Mr. McClary's sister, Mrs. John Boyce and family. Mr. McClary is principal of the Grainton schools and his wife teaches in the primary department.

## First 1930 Baby Named.

Mr. and Mrs. Edwin P. Clements, jr., parents of the first baby born in Valley county in 1930, have named the little girl Alice Jacqueline. The child was born in the Ord hospital on January 1.

## Pythian Sisters Install.

Officers were installed by the Pythian Sisters Thursday evening as follows: Most excellent chief, Laura McLain; past chief, Lucille Tolen; excellent senior, Opal Johnson; excellent junior, Opal Kosmata; manager, May McGinnis; mistress of finance, Mina Sorensen; mistress of records, Alta Petersen; guard of outer temple, Fern Parks; protector of temple, Mary Kosmata. The serving committee for the evening was composed of Madams Lucille Tolen, Della Chama and Mrs. Eunice Chase. The prize for the evening was won by Martha Travis.

## Mrs. G. E. Currier Dies.

Mrs. G. E. Currier, daughter of Dr. and Mrs. C. E. Coffin, has died at Albuquerque, N. M., where she had gone because of failing health. Her parents, who were pioneer Ord settlers, now live at Winter Park, Fla. Two years ago, while they were visiting in Ord, they were called away by Mrs. Currier's illness. Later she rallied and showed signs of regaining her health, but death has intervened. She is survived by her parents, her husband, two sisters, Mrs. Harold Vitquain and Mrs. Mattie Johnson, and a brother, Ralph D. Coffin.

## Married at St. Paul.

Alvin Wells and Miss Clara J. Trompke, both of Ord, were married on December 23 at St. Paul, Ord friends have just learned. Mr. Wells is a son of Mrs. Ellery Bohannon and is employed on a farm.

## Card of Thanks.

We take this means of extending our gratitude to all those who assisted at the funeral of our beloved wife and mother, particularly to members of Camp 5406, M. W. A. and to Father Lavy and the choir. James Lipinski and Son

## The John Deere Tractor Is Hundreds of Parts Simpler

To you this means easier operation ... fewer adjustments ... fewer repairs ... less trouble ... longer life

Take a careful look at the cutaway view of the John Deere Tractor shown above. If you are acquainted with the interior mechanism of tractors, you will immediately appreciate the remarkable simplicity which characterizes the powerful, light-weight John Deere.

The John Deere is actually hundreds of parts simpler than other tractors of similar rating.

What does it mean to you to have a tractor of this simplicity on your farm? It means, first of all, that you have a tractor that is easier to understand and easier to operate. It means that you have a tractor that will last longer. . . the reduction in the number of moving parts means a corresponding reduction in the number of points of contact, possible sources of friction, wear and loss of power.

. . . And there is another important advantage. The fact that the John Deere Tractor is made up of fewer parts has made it possible to build those parts sturdier and more wear-resisting and still keep the total weight down.

From engine to drawbar, you will find the John Deere to be a simple, but powerful tractor, with no unnecessary parts to add weight and cause loss of power.

Come in and see this dependable tractor that offers you every advanced feature of power-farming. You'll always find us glad to talk "tractor".

## FARM PROBLEMS BEING DISCUSSED AT NIGHT SCHOOL

Kovanda Opens Schools For Adults; Hardin Leads Class for Women.

Valley county's two adult night schools at Haskell Creek and Valleyside opened last week. A. Kovanda, Smith-Hughes instructor of Ord, has charge of the schools for men at the two districts while Lucene Hardin, home economics instructor in the Ord high school, is teaching a remedial group in Valleyside. Both schools are planned to run for a period of ten weeks with a class in each district once a week.

The state department allowed Valley county the two schools which are maintained by state and national funds. No expense is borne by the local district.

The schools are founded on the basis that wherever there are farmers there are problems which they have to solve; that the way the most successful farmer in that community solves those problems is generally the best way. It is the theory upon which the schools will be run in Valley county.

All adults in the county are invited to attend the schools at Haskell Creek and Valleyside. By having a thorough discussion on the subjects being studied, the state department believes that farmers can learn much from the exchange of ideas in regard to any farming problem. The instructor is to supplement information for the adults in the class.

In all probability, the adult night school work is the most practical teaching of any in existence today. This is due to the fact that follow up work may be done and persons attending may put into immediate practice the things learned at the schools.

The men's groups at Haskell Creek and Valleyside are to study hog production. First lessons in the topic were given last week by Kovanda. "I believe a good hog is a good hog, regardless of breed. However, the breeding stock available in the county is such that it should determine somewhat as to breeds predominating there," Kovanda told Valleyside farmers last week at their meeting.

The first week's work was based upon types and breeds of hogs in future weeks other phases of the hog production problem such as marketing, care and management, farrowing, feeds and feeding will be taken up at each session. By studying hog production throughout the course it is hoped that Haskell Creek and Valleyside farmers will gain a little more knowledge of hog production.

Over forty men were enrolled in the first week's sessions at the two schools and it is the belief of Mr. Kovanda that more will take advantage of the opportunity of attending from now on.

It was disclosed at Haskell Creek that the Hampshire pigs are in the majority, at least most owners and breeders of Hampshires were present at the meeting than of any other breed. Through discussion at the meeting the good points in favor of the Hampshires were brought out.

It was generally agreed that Hampshires are good rustlers, prolific, early maturing, and thought to be large enough. Under ordinary conditions, Hampshires run uniform in groups and dress but high in the carcass.

At the Valleyside meeting Duroc breeders were in the majority although other breeds were represented. Discussion among the men brought out the fact that Durocs have advantages as do other breeds. They are extremely prolific and good sources of breeding stock are available within the county, making a big advantage for the Durocs.

Miss Lucene Hardin, home economics instructor in the Ord high school, conducted the women's night school last week at Valleyside in connection with the men's session held by Kovanda. The women in that district are to study child care and nutrition. They were offered other subjects but chose these.

"Both subjects we are to study are important and we all should profit by the discussion on the subjects that are vital parts of the farm home life. Nutrition is a new and up-to-date subject which most women know little about, although it is an important and vital one in the health of growing children," said Miss Hardin in her talk before the ladies at Valleyside.

During the ten weeks period Miss Hardin hopes to take up different phases of child care and nutrition. Her first instincts of the child will be studied and ideas will be exchanged among the ladies as to correct care of the child.

The evening schools will close their work with a movie at the Ord high school auditorium on various phases of hog production. Elmer Hornickel and Will Nelson were elected secretaries of the Valleyside and Haskell Creek classes for the term.

## BACK FORTY

By J. A. Kovanda

Down by North Loup is a farm with a corn mountain of 50,000 bushels, and a 1,000 ton stack of hay. They will be gone by spring, for Grover Barnhart is Valley county's biggest stockman, and the most extensive cattle feeder between Grand Island and the Dakota line.

On his farm, fifteen miles southeast of here, Mr. Barnhart fattens annually over 800 head, or 40 carloads of Hereford steers and heifers. These yearlings are raised on the Doby and Meadow ranches near Center, Colorado. Last year 45 herd bulls were purchased for \$17,000 and placed on the Meadow ranch to run with 2,500 stock cows.

There are something over three acres of feed lots on Barnhart's place. Mr. Barnhart finds wind-tight and just as satisfactory as sheds for the animals. They receive all the salt and water they want, the latter being piped from an underground supply tank.

Rations consist at first of one pound of ground oats, 1.2 pound of cottonseed cake, once daily and alfalfa. After a few days of this they are gradually changed to 12 pounds of ground snapped corn, 20 pounds of hay, and the cottoncake. Ground ear corn is later provided. Then shelled corn is given, and finally they are fitted with ground shelled corn. Both white and yellow corn are used.

The pig ratio is about 2 1/2 shoats per steer. Rother range individuals running from 90 to 150 pounds, are selected. They are left in for the duration of the steer feeding period.

Mr. Barnhart occasionally gives fresh dirt to his summer-fed cattle, and they seem to enjoy eating it. No special claim is made for this practice other than that the steers do nicely.

Some profit is derived each season from cattle feeding on this farm. Last year was exceptionally good. A profit was made in 1928 despite a loss of eleven head from hemorrhagic septicaemia.

Most of the cattle are sold in the spring, after 90 to 150 day feeding periods. Just before shipping they get a fill of oats and prairie hay. Sprinkling the oats with brown sugar was tried last year with excellent results. The heaves receive no water the night before shipment. Most of them are marketed thru the commission firms of Wood Brothers and Roberts and Rose, at Omaha.

The Barnhart family hold a common interest in their business. Mrs. Barnhart keeps the books, and the boys help with the feeding after school hours. The older son Charles is driving over 30 miles a day to study vocational agriculture at the Ord high school.

Their enterprise does more than furnish a good local corn market. It is an inspiring example of what can be done in large scale production and agricultural specialization. May the Barnharts prosper!

## Bigger Stocks of Machinery Asset To Ord, Kokes Says

Ord's trade territory, which only a few years ago was confined almost entirely within the radius of a few miles of town, is showing a growth in area each year, according to local business firms.

Automobiles, better highways, modern power farming machinery, are, of course, factors that contribute largely to this expansion, but larger stocks of good machines and repairs and better service given the people of this territory has had its influence on drawing trade here also.

"The growth of tractor farming in this section of the country has had a great deal to do with the increased business of all of the merchants of this town," states Will Kokes, Case implement and machinery dealer.

"Farmers from all over this section of this territory come here for supplies in the line of implements and power farming machinery, and therefore save long and costly delays. While they are in town they generally spend some time shopping in other places of business. The use of modern power farming machinery gives them more time and leisure as well as more money to spend.

Like many other firms in Ord the business done by the Ord implement company has shown a big increase in the past year. Like other progressive dealers this firm believes in making known to the readers of this paper that they handle profit producing machines and equipment, and that they are equipped to give the best kind of service. A new series of interesting advertisements is scheduled to appear in this paper, which it will pay well every farmer with an eye to additional profit to watch for and read carefully.

Mr. Kokes has recently received a shipment of Case machinery which is now on display at his store. This new machinery is attracting a great deal of interest for it has many new and up-to-date improvements. By the use of modern machinery local farmers can greatly increase their profits by reducing the cost of crop production and through bigger and better yields. Mr. Kokes points out. The work will be done easier and more efficiently and also with less effort and work, he says.

## RATHBUN FEEDS WINNING STEER IN FIRST YEAR

Club Work Pays Dividends, Boy Admits; Buys Two Angus Steers at Dannebrog.

By GEORGE ROUND, JR.

Floyd Rathbun, son of Mr. and Mrs. Mott Rathbun of Springdale, was one of the Valley county's outstanding 4-H club boys last year in club work and promises to be among the leaders again this year.

Last year young Rathbun was a member of the Valley County Beef club and fed out a Hereford steer. Previously he had been in the pig club for a number of years but decided to change to baby beef. He did not dream that in his first year of feeding he would trot the first place winner out of the show ring at the Valley county fair. Nevertheless, he did that very thing.

Of course, Floyd hoped when he started feeding to produce something that would rank among the leaders in the show ring and return him some profit for his work. His calf did not him a tidy little sum of profit. He showed his Hereford at the Valley county fair, winning the grand championship and then at the Omaha AK-Sar-Ben Livestock Show where he was just outside the money.

All in all it was a very successful club year for Floyd Rathbun! Now this year after his first year of successful feeding, he will be back in the Valley County Beef club but will be feeding two purebred Angus and hopes to be in the money again this year. He ought to be!

With the assistance of County Agent Carl C. Dale, Floyd picked out and bought the two top baby heaves in the Williams Brothers herd at Dannebrog. After scouring the country for likely looking feeders, the two at Dannebrog were purchased and are now at the Rathbun farm and in the feed lot.

The two calves are declared to be among the best Angus heaves seen in Valley county for some time and Floyd is proud of them and has high hopes of again leading the grand champion baby beef from the Valley county fair show ring this fall and then showing at other bigger shows for further honors.

However, Floyd will find plenty of competition from other boys in the club this year and never before has there been such an array of fine calves being fed and fitted for later showing.

## New Set of Leaders In Cow Test Work

A new set of leaders in the Valley County Dairy Herd Improvement association developed during the month of December, according to the monthly report of Carl J. Smith, official tester of the association. Buttermilk averages for the herds in the local association also advanced over what they have been in recent months. This being so it is thought, to the large number of cows being recently fresh.

C. D. Noll is the new member of the association and will continue as a member during the remainder of the year.

The ten leading herds in the county for the month in the order they stood: Earl Hanson, Don Miller, Dewey Bonsall, E. S. Coats, W. D. Kingston, McLain Brothers, Valasek Brothers, A. W. Pierce, L. P. Fenster, and M. R. McCall.

## Davis, Laursen. Fiala First To Get Books

Valley county farmers are getting their farm record books at County Agent Dale's office in Ord now. The books were available a week ago and are being distributed among local farmers free of charge, with very few restrictions being placed on the co-operators.

A. B. Fiala, prominent farmer living northwest of Ord was among the very few first Valley county farmers to get a farm record book. He declared that he wanted to know how he was progressing on his different farming projects during the course of the year in a financial way. Others among the first to get the books included Lloyd Davis and E. Laursen.

"I can see no reason why Valley county farmers will not adopt a method such as the farm record book offers, of bookkeeping so they may see what farming operations are making them the most money," County Agent Dale declares.

The new 1930 record book is simpler and easier to keep than last year's. The book is something of high practical value to every Valley county farmer if he is interested in knowing where he makes his most money.

## Geo. Valasek Wins U. P. Scholarship

George Valasek of Ord has been announced the winner of the Union Pacific scholarship to the college of agriculture, Lincoln, according to Carl C. Dale, county extension agent. The scholarship is annually awarded to Valley county's most outstanding 4-H club boy or girl.

Each year the railroad offers a scholarship to a boy or girl in the county in Nebraska through which their railroad passes. The scholarship is worth \$100 in tuition at the college of agriculture and will be paid on a full term course. Valasek will also be awarded free transportation to and from Lincoln once, as a further reward from the railroad company.

Young Valasek has been an outstanding 4-H club member in Valley county for the past few years and has belonged to pig and calf clubs. This year was a member of Jesso Kovanda's Valley County Dairy Calf club. In all club activities he has been prominent.

Further announcements of other prizes and free trips won by Valley county club boys and girls during the year will be made within the next few weeks, according to Agent Dale.

## AM I RIGHT?

By Geo. Round, jr.

Haskell Creek and Valleyside men and women are getting something in the evening adult educational classes that other communities in the county are not. They are getting something that has a practical value. They are indeed lucky.

Jesse A. Kovanda, Smith-Hughes instructor in the Ord schools, is to give men at the evening schools a course in hog production, one that is proving to be mighty interesting and worthwhile. It has a practical value also that can be applied to hog production in Valley county.

When Valleyside farmers decided to produce a medium sized hog instead of the small chubby type or the long elongated hog they only stressed that other hog men over the country are advising farmers today to do. There is a turn and has been for some time for farmers to produce a medium sized hog, one that has capacity and size but still not too large and makes for an early maturing hog.

Years ago, as in the beef industry farmers in Valley county as well as in other counties in the nation, were producing and sending hogs to market that weighed between three and six hundred pounds. The cattle went to market at the highest possible weight, some probably even being sold that weighed as high as twenty-five hundred pounds or more. The consuming public then wanted something that had lots of fat, the fat-

## When Thinking About A Wind- Mill

There are any number of different angles to consider when installing a new windmill. Since we handle several kinds, we are confident of being able to serve your needs. Drop in and let us show you models, pictures, cost prices and in some cases the windmills themselves. If you need windmill repair work we'll gladly accommodate you at once.

John Boettger

les were large and the men did lots of outside work, demanding for meat. When the housewife called the butcher for meat she wanted a large piece of meat with a lot of fat.

Today, the modern housewife has changed her practices to a great extent. Families are smaller, more inside work is being done and as a result the housewife demands something that is quite small and having a large percentage of lean meat. She would rather have three pork chops than one large one sent to her from the market. The average Valley county citizen would rather see three small chops on his plate at dinner time than one large one.

So the change in demand has come about and Kovanda brought out at the Valleyside meeting that today the farmer must produce pork to meet the demand of the consuming public. As a result, farmers are having to raise hogs that are not so large and not so small, those that strike a happy medium between the two.

The market today pays the top

prices for hogs that weigh from 150 to 240 pounds, approximately. The Valley county farmers must, as a result, produce hogs that will mature quickly and get on the market in time to hit the high top.

Too, Valleyside women are getting something that not all communities in the county are fortunate enough to get. That is, the evening adult school taught by Miss Lucene Hardin, the highly talented home economics instructor in the Ord high school. She is teaching child care and nutrition to the ladies at Valleyside during the week and carries something of importance to them at each meeting.

Miss Hardin told Valleyside women in their first meeting that nutrition was a new and up-to-date subject which most women know very little about. However, she told the ladies that she hoped by their exchanging ideas and by her bringing in new information that they would be helped in building proper nutrition programs. Without doubt, Miss Hardin's evening school should prove to be a great success.

### Fire At Hatfield Home.

The fire department was called out last Saturday morning to extinguish a small blaze in the basement of the home occupied by the Ralph Hatfield family, north of the Danish church. Little damage was done by fire but the house was filled with smoke. One chimney was used in putting it out. It is thought that one of the Hatfield children dropped a lighted match when sent to the cellar after potatoes.

## DAIRYMEN CAN SOLVE PROBLEM OF LOW PRICES

Must Cull Low Producers Out, Is Advice Given By Experts At Organized Agriculture.

By GEORGE ROUND, JR.

Dairying in Nebraska and the United States is today facing the problem of overproduction. As a result, the slump in prices of dairy products...

All were agreed that in the past few months there has been an over production of dairy products...

"Present slump in prices may be only temporary but it demands the attention of every dairyman. Nevertheless, the dairymen are well off today. Every effort should be made to adjust production rather than to increase production...

"By culling out I mean that from 5 to 10 percent of the poorer cows now being milked could be culled and still there would be no shortage of dairy products," Reed said.

Reed told farmers present at the Organized Agriculture meetings of the problem they face today. He said that dairying had become a major sideline of farming now whereas but a short time ago it was considered a main one.

"The favorable situation of the dairy industry during the past few years has attracted the attention of many individuals as well as communities engaged in other branches of farming," he said.

Standing committees have been named by Chairman Braden as follows: On settlement with county officers, James, Clochon, Vasicek; On estimates, Sorensen, Robbins, Clochon; on roads and bridges, Johnson, Sorensen, Robbins; on grounds and buildings, James, Johnson, Vasicek; on bonds between sessions, Vasicek, James Johnson; on claims, Robbins, Sorensen, Clochon.

In order to meet the problem that will probably determine the future of the industry, all speakers on the Organized Agriculture program at dairying agreed that there must be taken toward more efficient production, quality improvement and increasing the consumptive demand on the part of the public.

No doubt, carrying out the three steps would help the dairy industry of today. Farmers must awaken to the situation and face it as it stands. Mr. Munn brought out the fact, in his address before the Nebraska Dairy Development Society, that farmers in the United States are losing more than a half billion dollars annually due to the fact that their dairy cows are not producing efficiently.

It is estimated that the same amount of milk being produced today could be produced by two thirds the number of cows if they were producing efficiently. That is, farmers are losing money each year through their possession of inefficient cows.

Through the efforts of cost test-in associations and other dairy associations, the cows are producing more efficiently now than ever before but there still remains plenty of room for improvement.

The dairy farmer of today has the situation in his own hands as to efficient production. He cannot expect the consuming public to buy products that are produced on an inefficient basis.

Poor quality milk and cream are also costing the dairy farmer of this country more than a hundred million dollars each year. Through the lack of care for fluid milk resulting in sour milk and off flavors together the low grade of cream is caused.

The tremendous loss from this source now sustained by dairy farmers can be saved by proper care and careful attention to the product after it is taken from the cow. In addition to this loss, the improvement in the quality of milk used for consumption and cream used in the manufacture of butter, will materially help the consumption of dairy products," Munn declared.

## Many Relatives Here For Zeleski Funeral

Relatives here last Thursday for the funeral of Frank Zeleski included August Zeleski and wife, Vincent Palacz and son, Vincent Wozniak, Mrs. Frank Grabowski, Elba, Joe Zeleski and Mrs. Frank Tomaszewski, Farwell, and Floyd Palacz, St. Paul. Funeral services for Mr. Zeleski were held in the Ord Catholic church with Father Lawler in charge and interment was in St. Mary's cemetery.

## Seventeen Present At Baby Beef Meeting

The baby beef club meeting held at the office of County Agent Dale Saturday was attended by seventeen prospective club members. Several of the boys already have secured their calves and will start them on feed immediately. Mr. Dale expresses himself as well pleased with the attendance and interest shown. Those present were Kenneth Koelling, Melvin Koelling, Henry Nielsen, Hugh Ward, Melvin Clement, Bill Garnick, Fred Nielsen, Floyd Rathbun, Donald Marks, Edgar Barnes, Leonard Wolf, Ray Wolf, Dean Marks, Guy Worm, Harold Koelling, Kenneth Barber, Claude Barber.

## J. A. BRADEN IS ELECTED HEAD MAN BY BOARD

Arcadia Supervisor Succeeds James As Chairman; All Committees Named.

Meeting in annual session at their rooms in the court house Tuesday members of the Valley county board of supervisors elected J. A. Braden, Arcadia, as chairman of the board for 1930. He succeeds E. C. James of Ord in this position. Mr. Braden has been an efficient supervisor for several years and this is the first time he has held the chairmanship. He also is the first Arcadia man to hold the position for many terms.

Standing committees have been named by Chairman Braden as follows: On settlement with county officers, James, Clochon, Vasicek; On estimates, Sorensen, Robbins, Clochon; on roads and bridges, Johnson, Sorensen, Robbins; on grounds and buildings, James, Johnson, Vasicek; on bonds between sessions, Vasicek, James Johnson; on claims, Robbins, Sorensen, Clochon.

The board re-appointed Dr. C. C. Shepard as county physician Tuesday and transacted other business such as listening to and accepting the annual reports of county officers. More complete minutes of this meeting will be found in next week's Quiz, as the board is still in session as this is written.

## MRS. CROMWELL LAID TO REST IN CEMETERY HERE

Died At Home in Birch Tree, Mo., Aged 78; Rev. Williamson In Charge of Funeral.

Sophie Hood Cromwell, 78 years old, passed away at her home in Birch Tree, Mo., Jan. 8, 1930. Her body was brought to Ord for burial and funeral services were held Monday morning from Sowl's chapel, Rev. D. C. Williamson being in charge. Interment was in Ord cemetery beside the body of her husband, who passed away 19 years ago.

Deceased was born in Macon, N. C., on June 1851. She was married to Freedom D. Cromwell at Anamosa, Ia., on June 18, 1872 and to this union three sons and a daughter were born, the daughter dying in infancy. Mrs. Cromwell is survived by her three sons, Oliver P. of Kimball, Freedom F. and Chris W., of Birch Tree, Mo.; also by one brother, George W. Hood, Winner, S. D.

Early in life Mrs. Cromwell united with the Methodist church and she was ready to go when the summons came.

He said that out of every dollar spent, approximately twenty-two cents went for dairy products. Leading food authorities today say he stated that the public should pay thirty-six cents out of each dollar for dairy products. It is the problem of the dairymen to sell the products to the public.

Certainly, the dairy problem of today can be solved to a great extent if production was made possible by more efficient methods, if farmers would produce quality products and if the public would become wiser about the limit that would consume more dairy products.

Mr. Munn said that the public today spends about the limit that would consume more dairy products.

## MIRA VALLEY PIONEER GOES TO HER REWARD

Mrs. Carl Hanke Died Suffering After Years of Suffering; Buried Wednesday.

After long years of suffering from illness, Mrs. Carl Hanke, 58, passed away at her home in Mira Valley at 2 p. m. last Sunday, January 12. Funeral services were held yesterday at the Evangelical church, Mira Valley, with Nathan Thomas in charge and interment was in the Evangelical cemetery here.

Anna Louise, the daughter of Mr. and Mrs. Chris Busse, was born in Westfalen, Germany, on March 16, 1871. She came to this country with her parents ten years later and on May 16, 1889 was married to Carl Hanke in Mira Valley. She had resided in this county for two years at that time, having lived with her parents in Prairie Du Sac, Wis., before coming here.

Mr. and Mrs. Hanke homesteaded a farm in Mira Valley at the time of their marriage and this remained the family home until her death last Sunday.

Children born to this union who survive include Alvin and Howard Hanke, Ord, Mo., Henry Scherbarth, Burwell, Melvin Hulda, Ord, Mrs. Edwin Schudel, North Loup, Mrs. Otto Graul and Mrs. Albert Peterson, Ord. A son and a daughter, Raymond and Ruth, passed away in infancy.

Mrs. Hanke also is survived by her aged father and by five brothers and a sister. The brothers are Henry Geweke, of Ord, Albert, Fred, William and Edward Busse, of Madison, Wis. The sister is Mrs. Howell McGraw, also of Madison.

During her life Mrs. Hanke was a member of the Zion Evangelical church. She was a faithful and loving wife and a mother anxious for the welfare of her children. A patient sufferer during her many years of illness, death came to her as a release and a reward but the large circle of friends who knew her before her health failed mourn her departure fully as much as members of her own family. In happier years Mrs. Hanke always was willing to lend a hand in time of sickness or of need and it is as a cheerful and loyal neighbor and friend that she will be remembered.

## Photo of Ord Band In National Book

In the year-book issued recently by the National Bureau for the Advancement of Music appears a large photo of the Ord high school band and a picture of its director, Hemming Haultala. This band won first place in Class B at the Nebraska state band contest in Lincoln last spring. The only other Nebraska band pictured in the book is the Lincoln high band. It is considered a great honor to be placed in this year-book, as only sixty musical organizations throughout the United States are so pictured and most of them represent large city high schools.

We wish to express our thanks to members of the Ord fire department for their prompt assistance in putting out the fire at our home last Thursday.

Mrs. Frank Zeleski and family.

Teachers Examination. Teachers examinations will be held in Ord, North Loup and Arcadia on January 18 and 19. Clara M. McClatchey, County Supt.

## Mail Service Restored On U. P. Early Train

The postoffice department at Washington D. C., has ordered restoration of closed pouch mail service on the Union Pacific train that leaves Ord at 8 a. m. daily according to a telegram received last night from Congressman Robert G. Simmons. This service was discontinued when the afternoon bus mail service was inaugurated. North Loup and Scotia people protested against the early morning outgoing mail being discontinued, as it gave them no outlet for mail from early afternoon until noon the next day. Mr. Simmons says that it is his understanding that the present route service will be continued.

Leg Falls To Heal. Last fall "Dutch" Blessing, mail carrier on Ord Route One, broke his leg while playing football with the Ord town team. Since that time he has had a cast on the limb and has been around town on crutches. Yesterday his physician, Dr. C. J. Miller, removed the cast and found the bone had failed to knit. It will be necessary to operate, scrape the bone and possibly put in a plate. The operation will be performed this morning.

Card of Thanks. We take this means of expressing our gratitude to friends and relatives who were so kind to us during the death and burial of our beloved husband and father; also for the lovely flowers.

Mrs. Frank Zeleski and family.

16 Below This Morning. A temperature of 16 below zero was reported at an early hour this morning. The weather today is clear and cold, and the prediction is no change in temperature.

Degree of Honor are meeting Tuesday in the home of Mrs. Geo. Hubbard. Officers will be installed. Every member brings something for lunch.

Mr. and Mrs. Ray Enger and family were down from Burwell Sunday visiting Ray's parents, Mr. and Mrs. Oscar Enger.

## McCarthy Speaks At Rotary Club Luncheon

Rev. McCarthy was a guest of Rotary at the Monday noonday luncheon and was speaker for the day and he gave a most interesting talk, taking for his subject the economic side of missionary work. He said he was going to leave religion out of his talk as far as possible and he surely did so but his talk was interesting and quite a revelation to many of his listeners, all of whom, the writer believes, went away with a far broader view of the missionary work as carried on by all the churches. Rev. McCarthy is a pleasing and ready speaker.

## CITY ALL-STARS PLAY FAST IOWA CAGERS MONDAY

Warner's Roamers Expected To Furnish Strong Competition; Krejci Is Nay's Chief Hope.

Probably the toughest competition they will be called on to face this season will confront the Ord City League All-Stars next Monday evening when Warner's Roamers, speedy Iowa traveling team, comes here for one game. This five is from Hancock, Ia., and is now on a 30-day road trip meeting all comers.

Joe Krejci, former Peru Normal star and present coach of Ord high school basketball team, will be the "white hope" of Captain Lee Nay's All-Star squad. The big center scored 15 points against St. Paul, 15 against Grand Island A. C. and 18 against the Ravenna All-Stars. In addition he plays a rugged guarding game that has so far helped to cut down the point getting of opposing forwards.

JOE KREJCI

Captain Nay probably will start Beegly and Jensen at guards against the Roamers, Carlson and either Carkoski or Blessing probably will get the nod for the forward berth. McMinnis, Nay and probably others are sure to see service against the Iowa team.

The Roamer line-up is composed of former Iowa university stars and includes Nieman, of Iowa State, Brannan, of Mt. Morris, Schmidt and McMasters of Simpson and Brown of Parsons. The team has met and defeated this year the Iowa Clothes Shop, of Council Bluffs, the Northboro A. C., who ranked high in last year's national A. U. tournament, the Atlantic A. C., of Atlantic, Ia., and the Harlem Globe Trotters, each winning one game.

R. D. Proctor, manager of the Roamers, says he plans to "shoot the works" against the Ord All-Stars but if Krejci is maintaining the pace he is capable of and Jensen and Beegly play their usual guarding games, a real conflict will result.

The game next Monday will start promptly at 8 p. m. but a good preliminary between junior high and freshmen teams will be played starting at 7:30.

Margaret Brown Married. Ord friends learned this week of the marriage of Miss Margaret Brown, daughter of Mr. and Mrs. S. J. W. Brown, to Colton S. Smith, of Lincoln. The marriage took place last August while the young couple were visiting in the east. Mrs. Smith has been teaching in the city schools of Norfolk, but resigned at the end of the first semester and the young couple have starting housekeeping in Lincoln.

Card of Thanks. We take this means of expressing our gratitude to friends and relatives who were so kind to us during the death and burial of our beloved husband and father; also for the lovely flowers.

Mrs. Frank Zeleski and family.

16 Below This Morning. A temperature of 16 below zero was reported at an early hour this morning. The weather today is clear and cold, and the prediction is no change in temperature.

## SIX ORPHANS FIND HOMES WITH FRIENDS

Children of Couple Killed In Car Accident Separated First Time.

Three years ago Mr. and Mrs. Peter Knecht were killed in an auto accident. They left eleven children, one of whom was an infant and all of whom were less than 21 years old. The children were Oscar, Harry, Paul, Carl and Miss Edna, the eldest children, managed to keep the family together and provide a home for the little ones. But the responsibility proved too great for them, farming proved not sufficiently profitable and this winter it was decided that the family could not be kept together another year.

Five of the children were old enough to care for themselves; for six of them homes had to be provided. There were no relatives to care for them and for a time it looked as though the six youngsters would have to be sent to children's homes. It remained for Sheriff George Round and kind neighbors and friends of the family to originate and carry out a plan by which all of the children will be given good homes until the older children again are able to care for them.

Saturday the six youngsters were brought to Ord and "distributed" to six of the finest families in Valley county, who kindly offered to make homes for the children. Pearl, the baby, will live with Mr. and Mrs. Elliot Clement. Evelyn, 8 years old, will have a home in Ord with Mr. and Mrs. F. J. Mielke. Hazel, 9 years old, will live with the John Werber family. John, 11 years old, will have a home with Mr. and Mrs. Chris Nielsen. Theodore, 13 is with Mr. and Mrs. Walter Jorgensen. George, 15, will be with the Henry Jorgensen family. Most of these people have children of their own but the Knecht children are welcome and it will be almost as good as being all together, for four of them will attend the same rural school they have been attending and another will be a student at a school just a mile north. And the children probably will be able to see their parents occasionally, just like any other family.

Monday a clean-up sale was held on the farm where the Knecht family had been living and their farm equipment and stock were sold to satisfy a mortgage. Of the older children, Oscar, the eldest, was injured several months ago and is under a doctor's care at Sutherland. Harry is now employed on the Fred Miska farm. Paul holds a position at North Platte. Carl and Miss Edna will secure positions and remain in Valley county.

Breaks Leg While Skiing. Miss Helen Eby, a junior high school teacher, broke the large bone in her left leg while skiing on a hill south of Ord Sunday. A strap on one ski broke, which caused the accident. Dr. C. J. Miller set the bone, put the leg in a cast and Miss Eby was back in her school room Monday. She has to do most of her teaching while sitting in a chair at her desk.

## Big Meeting To Be Held For Scouts

Although the date has not yet been definitely set, the boys scouts of Ord are busy preparing for an open meeting sometime in February at which the parents of the boys in the troop, the troop committee and all others in the community interested in the scout work will be invited, says W. T. Beachy, scoutmaster.

At that meeting there will be held an investiture ceremony for the new scouts, at which time six or seven new scouts will be initiated into the troop. Besides this there will be a demonstration of the scout work being done, consisting of some drills, exercises, and patrol contests in knot tying, first aid and signaling.

In order that justice may be done at this meeting it is essential that all scouts report present at every meeting up to that time, and the parents of all scouts are asked to co-operate in securing the attendance of all scouts at the weekly meetings.

Has Foot Amputated. Nels Mogensen underwent an operation at Hillcrest hospital Tuesday for the amputation of one foot. He is an aged man and had lost the use of this foot due to hardening of the arteries and gangrene had set in. He is reported to be recovering.

Michael Perilinski Dead. Michael Perilinski, aged father of John Perilinski of Ord, passed away last night at his home in Burwell. The body will be brought to Ord for funeral services. For forty years Mr. Perilinski lived in the western part of Valley county.

## Men Will Attend Monthly Meetings

Miss Ripsh Douglass, state home demonstration agent and E. H. Hoppert, horticulturist from the college of agriculture, are in Ord today and tomorrow conducting the regular women's club leaders training meetings. They are monthly events in Valley county.

Men's representatives, as well as the two club leaders from each club in the county, will be present at the meetings. It will be the first time this year both have been in attendance.

Hoppert will demonstrate to men representative of the county of planting trees and shrubs about the farm home to improve the appearance of the farmstead. He will have miniature trees in order to show how they should be planted. He will tell how the different varieties are best suited to this locality.

Women club leaders will be shown how to demonstrate the tree planting project to their individual clubs in the county by Miss Douglass. She will also advise club leaders as to better methods of news writing in connection with their club activities.

## MEETINGS WILL INTEREST MANY SAYS C. C. DALE

Extension Speakers Coming To Valley County; Recreation Institute January 28.

Carl C. Dale, county agent of Valley county, announces the following extension meetings which will be of interest to Valley county people:

Jan. 28th, at Ord, a recreation institute with Miss Brown of the Nebraska extension service and a recreation specialist from Washington, D. C. in charge. This meeting will be of special interest to women's project clubs, Parent-Teacher associations, boys and girls clubs, church organizations and all others who are interested in recreational work.

Feb. 11, at Ord, a Farm Accounts school under the leadership of Mr. George and Mr. Salpes of the Nebraska extension service. This meeting is for those who are keeping the farm account books put out by the Nebraska college of agriculture. Every man who is keeping one of these books should attend this meeting.

Feb. 13 and 14, at Arcadia and Ord, Corn and Hog days. Mr. McDill and Mr. Gross of the college of agriculture will discuss the latest developments in corn growing, hog breeding and hog feeding. Every farmer should attend one of these two meetings.

The farm bureau also has in prospect a boys and girls 4H club leaders conference; also a Good Seed Day, dates for which will be announced later, Agent Dale says.

## A. J. MEYER TO HAVE TRACTOR SCHOOL IN ORD

Local Implement Dealer To Have Factory Experts Here For Demonstration, Talks.

What's what and what's new in the way of farm tractors? A. J. Meyer, the John Deere implement dealer here, announces a tractor meeting to be held at the Bohemian hall starting at 1 p. m. on January 23, at which anyone interested can learn the latest developments in this popular farm machine from factory experts who will be on hand.

"Everyone is invited to come," says Mr. Meyer, "and spend the afternoon." We will have an interesting program that everyone will enjoy whether he owns a tractor or not. The factory men will answer any questions and tell us all about the latest models in John Deere tractors which we will have on display.

The tractor industry in the United States, which now amounts to over \$160,000,000 yearly, has grown more rapidly in the last two or three years than ever before. Many Valley county farmers are now using tractors for practically every type of farm work because the present day tractor is dependable, practical and cheaper than other power if it is properly used.

Eighth Grade Examination. A special eighth grade examination is being held on Friday, January 24. Examinations will be conducted in Ord, North Loup, Arcadia, Elyria and Wopman Hall. Only four subjects will be covered, Grammar and Spelling in the forenoon and Reading and Mental Arithmetic in the afternoon.

## HILL CLOTHIERS CLASS OF LEAGUE IN FIRST HALF

Swarmed All Over Druggists To Top City Cagers; Grocers, Quiz Coming To Fore.

How They Stand.

Results Last Night. Hill & Hill, 27; Nyal Drug, 9. Anderson's 21; Gem Theatre, 8. Ord Quiz, 13; J. C. Penney, 7.

Games Next Week. Anderson's vs. Hill & Hill. Gem Theatre vs. Ord Quiz. Penney's vs. Nyal Drug.

Swarming all over the Nyal druggists last night the Hill Clothiers won an easy victory, 27 to 9, and thereby took first place in the city basketball league for the first half of the split season. The Druggists were tied with the Clothiers for first place last week but their defeat coupled with victories by Anderson's Grocers and the Quiz dropped them to a three-way tie for second.

Krejci, as usual, was the big noise in the Clothier victory. He scored 17 points and played his customary floor game. Baker showed excellent form while scoring 8 points and Carkoski, Bowers and Dvorak teamed well with the point getters. Ike Blessing with 7 points looked best for the Nyal five.

The Anderson Grocers, who won an easy 21-8 victory over a re-inforced Gem team, took like an up and coming aggregation. Carlson, with 9 points, and F. Anderson with 6 looked best for this team, with Jensen playing a fine game at guard. The Gem team were minus the services of their captain, Buck Williams, who is out with an injured knee, but were helped by Lee Nay, the Penney Captain. Perilinski looked best for the Gem last night.

The Quiz-Penney game was a closer affair than either of the others. The Penney team showed some improvement but were hopelessly outclassed. Harry Wolf looked best for the losers and Lewis, McMinnis and E. Hill were the Quiz scorers, with McMinnis and Cass showing up well.

Some changes in the lineups were planned at a special league meeting held last night. The board of control was given authority to reallocate players so as to make the teams more nearly equal in strength. The Penney five will benefit most by this re-allocation and are expected to put an improved team on the floor next Wednesday night.

## HAVE YOU TRIED QUIZ' COOKS RECIPES?

Hello, good Quiz cooks! This week we have some very interesting recipes, we just know you'll like them... that is, if you try them! And two of these recipes are family size, and two of them are company size. Now isn't that nice?

By the way, don't you think you're just a wee bit selfish and un-thinking to be so pleased to try everyone else's recipes and to decline to take the trouble to send in one or two of your own favorites? Please take just a minute, it won't take much more, to jot down that wonderful pudding recipe Aunt Ann handed down to you, or that new way of fixing sweetbreads your sister wrote you about, or to tell other Valley county women about the candy the children stir up all by themselves and dote on so greatly.

### White Salad.

1 can white cherries put in half and stone. Cut pineapple cut in pieces. 1/4 pound shelled almonds, quartered. 40 marshmallows, quartered. Then cook the following: 4 egg yolks or 2 whole eggs, 1 teaspoon flour, 1/2 teaspoon dry mustard, 1 cup cool milk, juice of one lemon. Add to the above fruit mixture and let stand 24 hours and serve with 1/2 pint cream mixed in to it. This serves 20 persons.

Mrs. Joe W. Holoun, jr. Ord

### Combination Salad.

1 small head of cabbage, 4 apples, 6 cold boiled potatoes, 1/2 cup walnuts, 2 stalks celery, 1 teaspoon of onion, all chopped up fine. Then add salad dressing and whipped cream, combining carefully.

Mrs. Joe W. Holoun, jr. Ord  
Mrs. Holoun says in a brief note: "Am sending you recipes which we like very much." Thank you Mrs. Holoun, and also you, Mrs. Achen, for the two following recipes:

### Raisin Pudding.

1 1/2 cups flour, 1 cup sugar, 2 level teaspoonful of baking powder, pinch salt, mix together and add 1 cup raisins, 1/2 cup sweet milk. Put in a greased pan. Make a filling as follows: 1 cup brown sugar, 2 cups boiling water, 1 tablespoonful butter. Pour over the rest and bake.

Mrs. E. L. Achen, Ord

### Cornmeal Muffins.

3/4 cup corn meal, 1 1/4 cups of flour, 1/4 cup sugar, 1/2 teaspoonful salt, 4 teaspoonful baking powder, 1 cup milk, egg, 1 tablespoon oil. Mix and sift the dry ingredients; add milk, egg well beaten, and butter. Bake in muffin pans 20 minutes in hot oven.

Mrs. E. L. Achen, Ord

And don't forget... you promised yourself to send the Quiz some of your pet recipes. Don't delay... do it now.

## Quick Relief for Coughing Spells

Famous Prescription Stops Them Almost Instantly.

The phenomenal success of a doctor's famous prescription called Thoxine is due to its double action. It immediately soothes the irritation and goes direct to the internal cause not reached by patent medicines and cough syrups. The very first swallow usually stops even the most obstinate cough.

Thoxine contains no harmful drugs, is pleasant tasting and safe for the whole family. Sold on a money back guarantee to give better and quicker relief for coughs or sore throat than anything you have ever tried. Ask for Thoxine, put up ready for use in 35c, 60c, and \$1 bottles. Sold by Ed F. Beranek, and by all other good drug stores.

### NEARLY KILLED BY GAS

—DRUGGIST SAVES HER  
"Gas on my stomach was so bad it nearly killed me. My druggist told me about Adlerika. The gas is gone now and I feel fine."—Mrs. A. Adamek.

Simple glycerin, buckthorn, saline, etc., as mixed in Adlerika helps GAS on stomach in 10 minutes! Most remedies act on lower bowel only, but Adlerika acts on BOTH upper and lower bowel, removing poisonous waste you never knew was there. Relieves constipation in 2 hours. It will surprise you. ## PRINTED SILKS HIGH IN FAVOR THIS SPRING

This mid-winter and early spring season will see printed silks more popular than they have been for years. For prints, like everything else, have gone modernistic, and furthermore, the prints of Spring, 1930 are not the extremely large splochy prints of other seasons, but tend more to a smaller and more oft-repeated design. Some of the patterns are extremely small and very geometric in effect. But at any rate you will notice the conventional air is everything now.

This year's printed dress also is dated in its very color... a certain mid-shade of green, rather light but

yet quite bright is seen more than any other. Close behind come all the purple tones, purple is as common as brown was last year, or as navy and black tones usually are. Purple and green lead the field, and right behind comes bright red, yes indeed! There's lots of red this year. Then the brighter shades of blue hold their vogue of a season or two ago, and a light but brightish tan color is often seen. Of course all the old stand-bys are out in force, too.

The printed silk dress of this spring differs from the printed silk dress of all other springs in more

ways yet. In the first place it is long and circular, and full of fluttering feminine quirks and unexpected dips and graceful curves. It is usually closely fitted to the body down to the hips at least, and then it just forgets itself and sways with any breeze. Little bows and knots, shirred sleeves or waistline, a tailored belt, a huge cape collar or a tailored collar of rows of pleats and frills, a very high waisted bolero... any of these may trim it beautifully, but one thing you may be sure... when finished it is a very fetching affair.

—Fatsy, the Particular

# THE DESERT MOON MYSTERY

by KAY CLEAVER STRAHAN

Copyright by DOUBLEDAY DORAN CO. INC. W.N.U. SERVICE

## THE STORY

CHAPTER I—Sam Stanley, wealthy owner of the Desert Moon ranch, informs his housekeeper, Mary Magin, who tells the story, that his former wife's twin daughters, Danielle and Gabrielle, are coming to the ranch to live, their mother being dead and their father, Daniel Canneziano, who had been the cause of Sam's divorcing his wife in the penitentiary, Sam has adopted the boy, John, now grown to manhood, and a girl, Martha, twenty-one, physically healthy but weak-minded. Mrs. Ollie Ricker, Martha's nurse, lives with them.

CHAPTER II—Hubert Hand, a wanderer, and Chadwick Caulfield, John's wartime buddy, who is an expert ventriloquist, are the other members of the household. The girls arrive.

CHAPTER III—Mrs. Magin has an uneasy feeling that there is a sinister motive in the twins' presence at the ranch, and her suspicions are strengthened by the girls' mysterious prowling around the place. John becomes engaged to Danielle. Caulfield shows a pronounced liking for Gabrielle.

CHAPTER IV—Gabrielle's actions when she receives a letter from France arouse and mystify Mrs. Magin.

CHAPTER V—Sam learns Canneziano is soon to be released from the penitentiary and he looks for him to come to the ranch. The household, with the exception of John, in town for the mail, and the twins together upstairs, are in the living room when Gabrielle comes down and, with Caulfield, goes into the garden. Danielle, from upstairs, calls to her sister. Caulfield comes back alone, a few minutes Danielle comes into the living room.

CHAPTER VI—Mrs. Magin finds Gabrielle, choked to death, with tobacco ashes beside her. Despite her terror at the discovery of the body, she realizes that the ashes must be from Sam's pipe, he being the only pipe smoker, and conceals them before calling the household. Caulfield commits suicide.

CHAPTER VII—The coroner's verdict is murder. Sam finds a note left by Caulfield confessing he killed Gabrielle, but the rancher proves he could not have done it.

He turned quickly and came back to me. He looked up and down the hall. He lowered his voice to just above a whisper. "Mary," he said, "I've gone at this all wrong. I'm off my nut today—that's all. I guess I cared a lot more for the girl than I thought I did. By G—d, I believe I loved her. It is h— having her clear gone. But my hanging for her murder isn't going to do her any good; not now."

Horridly, I backed away from him. For one wild moment I thought that the man was confessing to me. "No!" he said. "Not that! I swear to God I'm innocent. But they are going to try to pin it on me, and they may not have much

trouble doing it. I want to make a bargain with you. You'll get the best of it, for I know d—n well that you are—entirely. It is this. If you'll keep your mouth shut, I'll keep mine shut. Fifty-fifty. Will you do it?"

"Hubert Hand," I said, "I don't know one solitary thing about you that would be of any importance if I told it to the world. Anything that you think you know about me I'm glad and willing to have you broadcast, or publish in the papers."

"Sure of that? Sure you are willing to have me broadcast that you found the body; that you didn't scream; that you stayed there, quiet and alone with it for ten minutes, before you gave the alarm?"

"I was sick, stunned, dizzy with horror. "Probably any jury would believe that, all right. Just the same, I'll bet it would save you a lot of trouble, now and later, if no one knew anything about your lonesome five minutes, or longer. I'll tell you how I know. I came out of my room at the minute you opened the attic door. I saw you leave the hall to run up the steps. I went on down stairs. Chad was kidding around down there, collecting keys. I didn't know what he wanted with them, fortunately for you, or I'd have said you'd gotten the door open."

"And—and," I couldn't keep my teeth from chattering, "you think I killed her, then?"

"Not! She had been dead for hours. Rigor was complete. No, all I think is that you know more than you are telling."

"I tell you, I was frozen stiff, with horror."

"All right. Tell the jury. Tell them, too, why you came rushing out of your room, as you did just now, white and trembling. Don't like your thoughts, all by your lonesome, do you? Come on, Mary. Be a sport. We are both innocent. But—Fifty-fifty? Shut mouth for shut mouth?"

His talk about telling a jury scared me. I had heard of third degrees. I knew that if I ever told anyone but Sam myself, about those pipe ashes, the words would choke the life out of me, as I would want them to do.

"Hubert Hand, I'm going to be honest with you. I don't know what it is you want me to keep my mouth shut about."

"Don't! We'll, I want you to keep still about that conversation you overheard between Ollie Ricker and me in the cabin. She went back to get her parasol and saw you there. We knew you had been there, listening."

"Lands alive!" I said. "I'd had no idea of telling that, anyway."

"Fine! I didn't have any idea of telling anything, either. It was none of my business. Shake on it."

I let him take my hand. I said yes, when he made me promise, I felt like I'd been associating with a side-winder.

As I was trying to hurry past Gaby's door, Danny opened it, and asked me if I would come to and sit with her for a while.

with all her things around me, I might—get in touch—I mean—something might come to me. If she is still on earth, she would come here. Wouldn't she? And she would try. I am sure, to give me a sign. Something to help me—to help all of us. If it should come, I want to be here to receive it."

"It won't come, Danny, dear," I said.

"No. I suppose not." She leaned back in her chair and sighed, and her arms dropped straight down over the chair's arms. The engagement ring that John had given her slipped from her finger and came rolling toward me. I scrambled to pick it up. When I rose from the floor she had jumped to her feet. She was ashy, shaking and trembling as if she had a chill.

"Mary! Promise me that you'll never tell that, not to anyone. It didn't—it couldn't mean anything."

"I means," I said, handing her the ring, "that you are wasting away. You'd better let me go down and bring you up some good, hot soup; or an eggnog."

"She clung to me. "Don't leave me, Mary. I am afraid. I am dreadfully afraid. Promise that you won't tell about the ring. It—didn't mean anything."

I will admit that I did not like it any too well myself. There, just as she was asking for a sign, the ring, which had fitted snugly enough, I had thought, had dropped off. But, of course, I had to put up a brave front to her.

"Nonsense," I said. "I won't tell anybody, because it is nothing to tell. All that it means is that the ring is too large for you."

Danny sat down in a deep chair, opposite me, her hands clasped on her knees, and leaned forward, and looked into my eyes.

"Definite things, Mary," she said, "are always so wise. This was a silly, but definite accident. The ring had dropped off, I suppose, half a dozen times this week. Gaby's last note to me was all affection. Living, if Gaby could have taken John away from me, for herself, she would have done it. Dead—she wants us to marry. I know that, for any other implication—if only Uncle Sam were not so heartless," she finished.

"Heartless!" I spoke sharply in spite of myself. "If the Creator ever made a man with a bigger heart than Sam Stanley's, nobody ever saw him."

"He has been good to you," she said. "But you give him his own way about everything."

I reminded her that Sam was John's father.

"Uncle Sam is not John's father," she said. "John is uncle's adopted son. They are as different, so utterly different, they could not be father and son."

"Maybe not," I said, trying to keep pleasant, for I did not want to be snapping at the poor child on this day, but no real son ever loved his father better than John loved Sam. He bit but worshiped him, and he has, every since he was a little fellow."

"I know. I know. Sometimes I think John cares more for uncle than he does for me. Mary, tell me, honestly. Do you think John loves me as much as he loves Uncle Sam? I should hate to have John have to choose between uncle and me."

"That is foolish talk. Why should John ever have to choose between you and Sam?"

She hesitated and shook her head. A sudden certainty came to me. Whatever it was that Danny had refused that morning to tell me whatever it was that she had said that she dared not tell, had had something, somehow, to do with Sam.

## France Gets the Gold We're All Richer

### New Theory of the Universe The Sorrows of Wall Street

Some worry because gold is going abroad; \$7,250,000 was shipped from France on the Berengaria, making a total shipment of \$105,000,000 gold for the month.

You admire French financiers when you hear that they got \$80,000,000 of that gold.

How do the French do it? They work and they save.

As your debts diminish you automatically become richer. The people of the United States become richer by about a thousand million dollars during 1929.

Mr. Mellon's statement shows that in twelve months the national debt has been reduced one billion and nine million dollars.

If Uncle Sam collected his foreign debts as efficiently as he collects from taxpayers at home we'd be clear of debt soon.

In Germany Mennonite refugees from Russia, encamped with their children, are stricken with a strange disease. Forty children died in a few hours. Many were sacrificed because their mothers hid them from doctors, following a Mennonite custom of substituting prayer for medical attention. That method no longer works. "Know the truth, and the truth shall make you free," includes scientific medical truth.

The king of Italy's king will soon be married and 6,000 will be freed from prisons, by way of celebration.

What seems strange in America is a custom old in Europe.

After Admiral Nelson brought his ship into the Bay of Naples, promising to protect the king and queen and their court against the power of the French revolution, many convicts were set free to celebrate.

And kings, on mounting the throne, have often emptied prisons as a sign of joy.

The National Surety company has issued a policy of \$30,000, guaranteeing against the suicide of a man insured within the next two years. The man borrowed money. The bank lending it wanted the added security.

That's new insurance.

The learned Prof. James Mackay of Dartmouth brings forth a new theory of the universe, pushing Einstein and relativity into the background.

The universe possesses a radiation of super-frequency and super-penetration, pervading all space.

The other, which Einstein eliminated, is the ether.

nated, returns, but it is a dynamic, not a static, ether.

That deep news interests a few. Secretary Mellon says 1930 will be a super-year, money abundant, interest rates low, business good. That interests everybody, violently.

Infinite time, space and ether will take care of themselves; 1930 and business must be attended to at once.

Now that the "big wind" that swept through Wall Street, blowing away paper profits, has died down, there are sad hearts, but no real losses.

Apparent values, born of imagination and outrageous issues of watered stock, have shrunk by more than twenty-three billions of dollars in three months.

But our national property is all here, including the nicely printed watered stock.

When one concern assembles a few public utility concerns and prints 60,000,000 shares of wind and water, with 2,000,000 shares of preferred and heaven knows how many obligations of the assembled companies ahead of the 60,000,000 shares, something must happen. It did happen.

Among all the sorrows of Wall Street, however, bright spots stand out. Actual dividends declared in 1929 up to December 28 totaled more than \$4,462,000,000, an increase of more than a thousand million dollars over 1928.

We are really not poor, only a little discouraged, some of us, at the idea of beginning over again.

How the years drag for the young! How they fly for the old! A man past sixty knows that it is only a step to 1931.

A child cannot believe that another Christmas will ever come.

The earth, according to scientists, will last millions of millions of years. But "a thousand years in thy sight are but as yesterday when it is past, and as a watch in the night."

But that is no excuse for not getting the best possible results from each of 1930's 365 days.

You have, gentle reader, about 119,305,999 American brothers and sisters.

The bureau of economic research puts our population at 119,306,000, including you.

We have increased 14,000,000 in ten years, while keeping out, largely, the "unfit European population that breeds crime," according to advocates of restricted immigration.

But we have not kept out crime itself. We have plenty of that.

The head of a New York drug ring included in his private telephone list the number of the distinguished judge whose welcome home dinner was attended by many well-known criminals and entertained by a holdup.

# FAST RAVENNA FIVE DOWNED BY ALL-STARS

### Buffalo County Team Fall Before Potent Thrusts of Krejci and His Mates.

It was a cold night last Thursday—one of the coldest of the year. At least the Ravenna All-Stars thought so, after driving sixty miles in sub-zero weather. Perhaps the weather interfered with their basketball playing ability. Something did, anyway, for this much touted cage team, went down to defeat before the Ord City League All-Stars, the final score being 32 to 13.

It was a sad blow to the hopes of last year's "Y" champions. Defeated only once this year, the Ravenna team had visions of another championship in the offing. But they were impotent and helpless before the scoring thrusts of Joe Krejci and his City League mates and their defeat was ridiculously easy for the local cage artists.

Captain Lee Nay elected to start Carkoski and Carlson at the forward posts and this combination worked excellently. Nay, at center and Jensen and Beeghly at guards. Neither forward scored heavily but both were right in there all the time and teamed well.

Ord took an early lead by virtue of a pair of field goals by Krejci and a flood of charity tosses. And Ord, by the way, displayed rare ability at converting Ravenna personal fouls into Ord points, for out of nine chances from the free throw line they cashed in on eight.

The first half ended with the score 17 to 5. Coach Krejci having scored nearly all of Ord's points. In the second half Blessing, Baker and Bro. Lashmett got in for Carkoski, Carlson and Jensen, and carried on the good work so well that when the final whistle sounded they had scored 15 points while holding Ravenna to 8. Pal Sanderson, star Ravenna guard, was ejected from the fray because of four personal fouls, which helped Ravenna's defense not a bit. Baker scored six points while he was in the game, two of them by the free throw route.

Krejci, as usual was Ord's big scoring weapon. He accumulated a total of eighteen points and seemed to be able to dribble through the Ravenna team almost at will. Not an opponent so far this year has been able to halt Ord's ace and it is predicted that none of them will be able to.

Boswell was the principal scorer for Ravenna, tallying four field goals for eight points. It should be mentioned that Rudy Eckel and Lyman Cass, two of Ravenna's star players, were not able to make the trip to Ord last week so the Buffalo county team probably will present a faster line-up when the Ord All-Stars play in Ravenna January 26. # Swede Carlson Jumps To 6th Among Scorers

Swede Carlson's jump to sixth place among the city league scorers was the feature of last week's games. Carlson, who plays forward on the Anderson team, had not previously been listed among the first ten scorers. By virtue of sinking seven field goals against the J. C. Penney Co. team, he jumped to sixth place last Wednesday night. Joe Krejci, who has played in but three of the four games, leads by a healthy margin. Like Blessing, who was in first place, was ill last week and was unable to play. The way the first ten scorers stand:

# Junior High Beats O. H. S. Freshmen

As a preliminary to the Ravenna City League All-Star basketball game last Thursday night, the Junior high school cage team played freshmen of O. H. S., beating them by a score of 6 to 0. The Junior high team clearly deserved their win, and lead by Tub Steinwort, showed the best work of a high caliber. The Junior high line-up was composed of Keep and Smith at forwards, Steinwort at center, Furtak and Boquet at guards. The freshman team included Maslonka and Worlan, at forwards, Brown, Cochran and Pierce, at guards. These same two teams probably will play another game on Monday evening, Jan. 20, starting at 7:30 o'clock.

J. D. Martin of Richmond, Va., is the proud possessor of a check for \$200.00 paid for an old copper cent. The Numismatic Company, Dept. 663, Fort Worth, Texas, who purchased this penny for Mr. Martin, says there are numerous old coins, bills and stamps in circulation for which they will gladly pay big cash premiums. So that you will know the value of old coins and stamps and what to watch for in your change, the Numismatic Company will send for only 4c to any reader of this paper who writes them a large illustrated coin folder describing some of these wanted articles and the big profits to be made. Better write them today for this large folder so you can post yourself and know just what to look for. Remember that Mr. Martin's knowing the value of his penny meant a difference of \$199.99 to him. Without knowing its value that penny might still be in circulation, passing through the hands of thousands until someone like Mr. Martin, who knows old coins, recognized its value. It pays to be posted. Send 4c now for the illustrated coin folder. You have nothing to lose, everything to gain.

## 1930 PROGRAM CALLS FOR 550 MILES GRAVEL

State Has \$7,250,000 Yearly To Use For Highways, Cochran Says; Plan Much Paving.

The state road improvement program for 1930 includes at the present time 600 miles of grading, 550 miles of graveling, 100 miles of paving, the construction of about 100 bridges and the maintenance of the roads now complete, Roy Cochran, director of the state department of highways, announces.

Discussing the expenditures Mr. Cochran said that the state department of public works has state funds at its command amounting to approximately \$7,250,000 yearly. These funds are derived from 3 cents of the 4 cents that is collected in gas tax and 30 per cent of the auto license fees.

Forty per cent of the money is used for maintenance. The cost of keeping the roads in condition continually mounts as the use of them increases. Especially is the cost of maintenance high on trunk lines where travel by truck and bus is great. New state highways have to be maintained as added by legislative enactment.

Increased traffic in Nebraska has been greater than the increase in car ownership and amounts to 100 per cent since 1925. The character of the traffic is changing. The increased volume of delivery of live stock to the Omaha market by trucks has created a condition of road wear that only paving can cure. Railroads have invested two million dollars in rolling stock to be used on the highways. In 1919 there were 25,000 cars and trucks owned in the state. Now in one county, Douglas, there are twice as many as that, and 400,000 in the state. Ten per cent of these are trucks.

Nebraska was late in starting her highway program. It was forthwith to adopt the gasoline tax. The first objective of the highway department was to get Nebraska out of the mud. Next to build the permanent roads of the state. Now there are 4400 miles of gravelled roads and 250 miles of pavement. This program has been consistently carried forward and with marked advance notwithstanding that Nebraska has spent a third of the sum her neighbor states have spent for road improvement.

# KREJCI CAGERS LOOK BETTER IN ST. PAUL GAME

### Lose, 28 to 19, But Show Much Improvement; Scotia Here Tomorrow Night.

Showing some improvement but still lacking the old fire and pep that wins basketball games, Coach Joe Krejci's Ord high school team went down to defeat again last Friday night, this time at the hands of St. Paul, 28 to 19. Ernie Lashmett was the hot shot in Ord's offense and also was high point scorer of the game with 12 points. He dropped five long shots swishing thru the net and tallied twice on charity tings.

Coach Krejci's starting lineup was composed of Steinwort and Hughes at forwards, Ernie Lashmett at center, Christensen and Chatfield at guards. This combination seemed to function well at first and led St. Paul 4 to 1 when the first quarter ended. St. Paul came back strong in the second quarter, however, and led at half-time 11 to 6.

The third quarter ended 16 to 14 with Ord trailing and for a few minutes it looked as though Ord might win but the St. Paul team came back for the final stanza with an imposing exhibition of fancy tossing that soon put the locals down and the game ended 28 to 19.

Hughes looked good in his first try at a forward position and tallied twice from the field which with a free throw gave him a point total of 12. Norton with a field goal completed Ord's scoring. Forward Armstrong and Center Dobry looked best for St. Paul.

Fans who saw the game say that the Ord team looked the best it has this year. Their passing was better than it has been and they were following the ball well. They still suffer with the "superiority complex" that has been with them all season but a few more losses should knock this out of their systems, after which they will be ready to begin to learn how basketball is played.

Tonight the Ord team plays at Spaulding and tomorrow night the Scotia high school five will appear in the Ord gym.

# SARGON'S FAME SPREADS OVER ENTIRE WORLD

### People of This Country Sending Famous Medicine to Belafires and Friends in England, Scotland, Ireland, France, Canal Zone, Norway, Sweden, Cuba and Many Other Distant Lands.

If you had found a medicine that was of such benefit to you that you would go to the trouble of sending it to relatives and friends in distant countries, you would have to be convinced in your own mind that it possessed real merit, wouldn't you?

That's just what thousands of people throughout the United States have been doing with Sargon. From all over America and wherever Sargon has been introduced, thousands of letters have been received from grateful users telling of the gratifying results that have been accomplished by this celebrated medicine.

Thousands Express Gratitude. On November 27th, a letter dated November 23rd, was received at the Sargon offices advising that in one week one drug firm alone had received orders for Sargon to be shipped to Cavite, Philippine Islands; Coca Solo, Canal Zone; Belebroke, Ireland; and Paris, France.

Only recently a well-known resident of Denver, Colorado, who had been confined to his bed by Sargon, sent a full treatment to his son, England, to his sister, who is the wife of an executive of one of the greatest retail drug firms in the British Empire.

During the past month there appeared in the Toronto papers the statement of a well-known World War veteran whose health had been greatly impaired while in the service, who stated among other things, that he owed his restoration to health to two bottles of Sargon sent him by a friend in Minneapolis.

Letters Received from Northwest. From the Northwest, many letters of this kind have been received advising that users of Sargon are able to get right back to their old countries of Norway and Sweden.

Many such letters and endorsements have been received from men of prominence, including business and professional men, mayors, state and county officials, and even Ministers of the Gospel have deemed it their duty to come forward and tell what Sargon has done for them.

## Up-To-Date Club Meets.

The Up-To-Date club met Tuesday afternoon of last week at the home of Mrs. Floyd Bossen. Roll call was answered by current events. This was followed by music on the radio. A question box was conducted by Mrs. Don Rounds. These questions were handed in by the members and their discussion proved very interesting. A discussion on "The Hiding of Black Bill" was led by Mrs. H. D. Weddel who served in the absence of Mrs. E. C. Baird. The "Edison Questions" were conducted by Mrs. C. D. Langrall. The next meeting of the club will be held Jan. 21st at the home of Mrs. E. A. Easterbrook.

## Ladies Community Club Meets.

The meeting of the Ladies Community club which was held at the Congregational church Tuesday evening of last week was attended by about forty-five ladies. A seven o'clock dinner, splendidly prepared by the ladies of the Aid Society was served in the basement of the church. Following the dinner the guests assembled in the church room where the meeting was called to order by the president, Mrs. C. C. Hawthorne. The minutes of the last meeting were read and a program was given which consisted of interesting and helpful talks by Mesdames Burlleigh, Weddel, Ramsey and Langrall, vocal numbers by Mrs. Vera Cook, readings by Mrs. N. A. Lewin and a piano duet by Misses Marguerite Rettenmayer and Evelyn Hyatt.

The meeting was called for the purpose of furthering the work and interest in the Community park which the club ladies are so diligently trying to establish. One of the foremost improvements for the park will be the addition of lights and if present plans carry successfully these will be installed before the summer months.

## Funeral services for Mrs. Caroline Walters Ohme.

# NORTH LOUP DEPARTMENT

MRS. CLAUDE RATHBUN, Editor.

Fire originating in the chimney at the Union Pacific depot Saturday morning damaged the interior of the building to the extent of about \$10. The blaze was first discovered by Agent Thelin's helper, Erman Barnhart. Upon opening the baggage room door when the motor came up from Grand Island smoke poured out and a fire alarm was immediately turned in. The North Loup fire department responded promptly, and with the use of chemicals the fire was quenched before it broke thru the shingled roof. The Thelins have living rooms in part of the depot, and with the help of many willing hands their household effects were carried into the baggage room and escaped damage. The flames were confined together to the wall behind the kitchen stovepipe and to a small part of the ceiling above. Mr. Thelin's mother of Gothenburg, who is their guest, is staying at the home of Miss Maud Shepard since the fire, and Mr. and Mrs. Thelin are staying at the home of Roy Hudson.

Officers of the Rebekah lodge were installed with fitting ceremony at their hall on Thursday evening. They are as follows: Noble Grand, Mary Weed; Vice Grand, Vic Gray; Secretary, Mary Ella Frazer; Treasurer, Laura Smith; Warden Della Inbody; Conductress, Bernice Stewart; Outside Guardian, Mrs. Bartholomew; Inside Guardian, Edna Coleman; Right Supporter to Noble Grand, Mrs. Chris Gray; Left Supporter to Noble Grand, Goldie Bechtle; Right Supporter to Vice Grand, Anna Anderson; Left Supporter to Vice Grand, Eva Goodrich; Chaplain, Effie Willoughby; Musician, Myrtle Turner.

THE DESERT MOON MYSTERY by KAY CLEAVER STRAHAN

I crossed the room and looked into it. Papers had recently been burned there. I took the poker and stirred in the guttering, black bits; but nothing had escaped the flames. "I believe," said Danny, "that you are the only one in the house who hasn't looked at what Gaby had in her bag."

She walked to the table by the window. I followed her. I dreaded seeing that bag again; but I was curious about its contents. It was lying limp on the table. She picked it up, brushed it, flicking with the tips of her fingers, and blew on it, as if she were trying to blow something off of it. "Everything," she explained, "sticks to the little pointed beads."

I took it from her and looked at it. It was a small, round, smooth object, no more than a minute particle of tobacco, nor of dust. "It is a beautiful thing," I said. "I've wondered why it was that Gaby had all these beautiful, expensive things, such as this. Your where beautiful things, are more plentiful, and cheaper."

She hesitated a moment before answering. "I have been in England for the past eight years, while Gaby has been on the continent, and I have seen many things, are more plentiful, and cheaper."

"Lands alive! I thought you girls had lived together, all these years." "No," she said, and picked up Gaby's cigarette case, and handed it to me.

It was made of dull gold with her monogram, "G. C.," set in tiny black opals, with green and blue lights flickering in them as if they were alive.

I set it down and picked up another little gold box. It had powder, rouge, lipstick, and a mirror in it. I had seen it often enough before. I put it back on the table, and took up a beaded coin purse that matched the large bag. It was entirely empty.

"Isn't it queer that that should be empty?" Danny asked. "And her billfold is missing. She surely would not start to go anywhere with not a cent of money. Doesn't it look as if she had been robbed?"

"Only," I said, "if anyone had robbed her, why would he have left the valuable gold cigarette case, and warty case?"

"He might have thought they would be hard to dispose of, Mary." Danny's voice, always grave and low, was still so earnestly, "there is one thing that no one has thought of. Daniel Cannezano could have reached here from California in a few hours, by airplane."

"I had thought of that. But, Danny, no airplane ever came within twenty miles of the continent, and every man-jack of us hearing it, and rushing out with our heads tipped back to gaze at it. Airplanes aren't stealthy things, you know, that people can slip up in, and slip off again."

"I picked up the carved ivory cigarette holder. It fell to pieces in my fingers. "Was this broken in her bag?" I questioned. "Yes. Snapped in two. And she loved it."

I fitted the pieces together again, on the table, and took up a folder, made of paper, and opened it, and read: "Glorious Gaby: Be a good sport. Be a darling. Be game—that is, be Gaby, and meet me this afternoon, around four-thirty, in the cabin. H. E."

"Well!" I said. "Yes, I know," Danny answered, "but Hubert Hand swears that he wrote that note several weeks ago. Too, we know that he was playing chess with Uncle Sam at half-past four."

"He could have gone to the cabin later, when the men went to do the chores. Or was he right with Sam and Chad all the time?" "I suppose so. He must have satisfied the coroner's jury, at the inquest of his innocence. Mary," her voice went a truce again, "does it seem to you that the jury was very readily satisfied?"

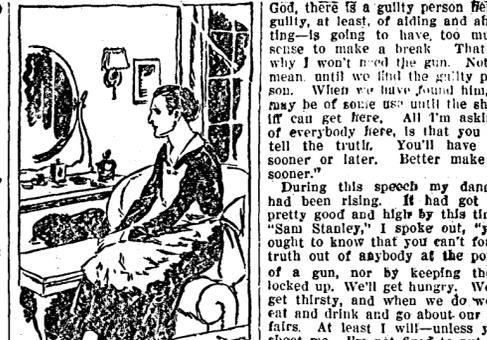

I spoke sharply, too sharply to her in answer to what I had imagined I saw in her attitude. "Never mind about the jury being easily satisfied. Sam is not going to be. He told me this morning that he would find the murderer if it took every dollar he had in the world to do it. Sam is going to get to the bottom of this. Be sure of that."

"I wonder," she said. "Mary," she exclaimed, close to a reproach, "I merely wonder whether or not Uncle Sam will succeed."

I looked at her brown eyes, all red and swollen from tears, and at the deep, dark circles under them, and I was ashamed.

I put my arm around her shoulders and drew her close to me. "Honey," I said, "forgive your old Mary. We are all over-strung, over-wrought. I didn't mean to speak so sharply."

"I know. Were you looking for something else in her bag? There was nothing else in her bag. I was wondering," I said, "about that foreign-looking letter she got on the second of July. Did she burn it, with the other things?" "Oddly, she didn't. I found it in her desk; or, rather, beneath her typewriter. Either she forgot about it; or knew that none of us could find it; or it was written in code. Here it is."

What Had Become of the Key to the Attic Door?

Why, instead of trying to puzzle out the code letter, did I not read between the lines of Gabrielle's last note to Danny?

However, at the time, since it was of my own making, I was quite well satisfied with my work. I took it to the table to check over the items. Sam had put the key, with which I had opened the attic door, alongside the other things there.

I picked it up, now, and looked at it for the first time. I had not looked at it, I had merely used it, the night before. My heart jumped up in my throat. It was not the key to the attic door, but a rusty old pass key that had hung on a nail in the broom closet, off the kitchen, for more years than I could remember.

Whoever had put this key in my pocket, must have been well acquainted with the Desert Moon kitchen, to have found that old key, under the brooms, and mops, and dust rags, and chemicals stins, and the rest, that hung around it and over it in the broom closet.

What had become of the key to the attic door?

CHAPTER IX The Session. WHEN I went down to the living room, at five minutes before three, Danny, John, Mrs. Ricker and Martha were all there. Martha was on the biggest davenport, playing with the monkey charm.

Sam and Hubert Hand came into the room together. Sam looked around, counting noses. "All here," he said, and locked the door he and Hubert had come through and dropped the key in his pocket. He went all around the room, closing and locking the doors and windows. He moved a chair to the foot of the stairway, pulled a small table over beside it, took his six-gun out of his back pocket, put it on the table, and sat down in the chair.

No one had moved nor had said a word, I know that I was frightened. I was not afraid of Sam, and I was not afraid of that six-gun. Mostly, I guess, I was afraid of being made afraid of myself.

Hubert Hand spoke first. "Cannon, uh?" he sneered. "That's all right, Hand," Sam answered. "This is here, mostly I think, for ornamental purposes." "aren't we going to have the fireworks tonight?"

Sam frowned at her. "Not tonight, daughter." She opened her mouth and began making those dreadful noises she always made whenever she was crossed.

Sam rapped on the table. "Shut that up, here and now," he said. "Not another whimper out of you. Hear me, Martha?"

She closed her mouth with a snap. I thought those immense eyes of hers would pop out of her head. I am sure the others of us all felt the way she looked. In all the years we had lived on the Desert Moon, it was the first time any one of us had ever heard Sam speak impatiently to Martha. As for scolding her, being stern with her, up to this minute it had never been in the book.

"I reckon," Sam began, "that all of you in here know that anyone could walk up to any man or woman in here and call him or her a murderer, and that not one of us could give him the right word. I reckon that you know, too, as everyone in the country knows that, at this hour, the Desert Moon ranch is rotten with the muck of crime and suspicion. Maybe you don't know that it is not going to stay that way for many more hours."

"We have called the law in, as was right and proper. And the law has been real polite, and blinked its eyes, and departed. 'Folded its tents like the Arabs, and silently stole away.' Well, that's all right. I didn't much care about having those fellows mix into my private business; anyway, not until I had found out that I couldn't attend to it myself. I am not going to find that out. I can attend to it. I am going to, right here and now. Later on, when we need the law again, we'll call on it. The innocent in this room will have their names cleared. The Desert Moon will be a fit place for a white man to live in."

"Now this gun here may look like I felt violent or something. I don't. And I'm not going to act violent. This gun is here for just one purpose, and I'm dead certain it won't be used for that. A word to the wise, though. No person, barring none, and including the ladies, is to leave this room until I give the word. No innocent person in here will try to leave. Any gully person in here—and, before

"During this speech my dander had been rising. It had got up pretty good and high by this time. 'Sam Stanley,' I spoke out, 'you ought to know that you can't force truth out of anybody at the point of a gun, nor by keeping them locked up. We'll get hungry. We'll get thirsty, and when we do we'll eat and drink and go about our affairs. At least I will—unless you shoot me. I'm not fixed to put up with this kind of foolishness.'

"Mary," Sam roared at me. "That's enough out of you. You be quiet. You are going to do as you are told. So are the others." Sam had never spoken like that to me before. It left me limp as a drained jelly bag. Before I could get my breath for an answer, Hubert Hand was talking.

"Changed your mind since morning, haven't you, Sam? You were dead sure this morning that no one on the place had had anything to do with the murder."

"Never mind about my morning's opinions, Hand. You are right. Dead right. I've changed my mind, since you are already going pretty good, I'll begin with you and work around the room, taking each one in turn. I want you to tell everything you know, and everything you suspect concerning the murder."

"Sorry," Hubert Hand said, "but I don't know a d—n thing except that, apparently, she was strangled to death some time between four o'clock yesterday afternoon and eight o'clock yesterday evening. We saw her alive at four. We found her dead at eight. That's the extent of my knowledge."

"All right. Now go ahead with what you suspect." "I can't see," Hubert Hand objected, "that suspicious have any place here. Beyond stirring up a rumpus and hard feelings, they wouldn't get any of us an' place." "That is for me to decide," Sam said. "You were mighty busy for a while this morning, throwing out hints and slurs. If this session doesn't do anything else, it can anyway clear out all this whispering that is going around. Come on now, Hand. Come clean."

God, there is a gully person here; gully, at least, of aiding and abetting—is going to have too much sense to make a break. That is why I won't need the gun. Not, I mean, until we find the gully person. When we have found him, it may be of some use until the sheriff can get here. All I'm asking of everybody here, is that you all tell the truth. You'll have to, sooner or later. Better make it sooner.

"During this speech my dander had been rising. It had got up pretty good and high by this time. "You were mighty busy for a while this morning, throwing out hints and slurs. If this session doesn't do anything else, it can anyway clear out all this whispering that is going around. Come on now, Hand. Come clean."

"Well," Hand said, "I can talk all right. But I want to start with this understanding. I don't know any facts that amount to a d—n. You're right that I have suspicions, and since you are determined to have them now, at the point of a gun, I'll say that I think John did it, and that somebody else in the house is shielding him."

Danny gave a thin, sick little shriek and threw her arm around John in a protecting way. John straightened. Under his tan I could see the blue veins showing out of his face. Gently, he removed Danny's arm.

Sam lowered his white eyebrows until his eyes looked like two slits of blue light, glinting out from away behind his face. When he spoke his voice was iron.

"Why do you think John killed her?"

"In the first place, John is the only one here who hasn't a watertight alibi."

"Not by a d—n sight he isn't," Sam interrupted. "But never mind. Go on."

"At four o'clock Gaby came down through the room. While she was still in sight, Danny called down, trying to get her to come back. Now this is just another suspicion; I don't know whether anyone will back me up in it or not—probably not," he added the last in a hateful, stinging way—"but I noticed that her voice sounded strange, like she was excited, maybe, or else afraid."

Sam asked, "Did anyone else here notice anything of that kind?" Mrs. Ricker spoke. "I noticed it," she said.

Hubert bowed at her, in a sort of mocking way. Knowing what I knew, I thought that her corroborations could do Hubert Hand more harm than good. But, of course, the others did not know what I knew.

"Let me see," Hubert Hand continued, "where was I? Gaby, after going through the room, stopped on the porch for a minute to talk to Chad. He came into the house in a fine humor. Gaby then went around the house to the rabbit hutch, and for some reason gave her bracelet to Martha. Martha was in the house again within five or ten minutes. Danny had come down by that time. From four to five, then, you and I were playing chess. Chad was at the piano, Danny and Mary were over there, talking together. Mrs. Ricker was talking. Martha was just fooling around the room. I'm pretty certain not one of us left this room during that hour."

"At five we three men went together to let the cows in and to milk. Mary, I believe, was in the kitchen alone, getting supper, during that time. Mrs. Ricker, Danny and Martha remained here in the living room. Is that right?" "Maybe it is, and maybe it isn't," Sam said. "There is the hour in there, before supper, that we'll all have to account for, right accurately before any of us has that watertight alibi you were talking about, Hand."

"All right," Hubert Hand agreed. "You and Chad and I went down to the barns together. We let the cows in. We milked them. At least, you and I did. Chad stayed with you and was kidding around down in your end of the barn. I heard you laughing and kidding down there, together, the whole time."

"I milked four cows. And I will swear that you were in the barn the entire time. Anyway, that is

Nebraska U Has Actual Factory For Use In Giving Practical Courses in Dairying

With the rapid development of Nebraska as a dairying state, the college of agriculture of the state university at Lincoln has played its part through its dairy husbandry department. The department is exceptionally well equipped to give complete training to all branches of dairying. The dairy building, a handsome brick and steel fireproof structure, is supplied with the most modern apparatus for the manufacture and testing of different dairy products. As a part of this equipment a creamery is operated where milk is handled and butter, ice cream, and cheese are manufactured. While the products of the creamery are sold, the primary purpose of the creamery and the dairy husbandry department is to give students an opportunity to study manufacturing and technical processes. The creamery is the laboratory of the department, where students gain practical knowledge to supplement the theories they have learned. To give actual working conditions, the work in the creamery is conducted under factory conditions. The butter churn has a capacity of 600 pounds, the cottage cheese vats hold 400 pounds and the ice cream freezer handles ten gallons at a freezing. The dairy herd which furnishes the milk for the experimental work consists of about 100 head of pure bred cattle of the Holstein, Jersey, Guernsey, and Ayrshire breeds and contains some of the highest producing animals in the state. In addition to the courses offered during the regular college year various short courses are offered for the convenience of those who cannot attend the full terms. These courses are concerned with practical subjects and arranged to meet the definite and actual conditions encountered by those studying the course. The courses are arranged for students who wish to learn how to handle their own cattle, those interested in manufacturing, those who wish to learn to teach the subject, and those who desire to broaden their knowledge for general uses.

State Has Its Own Testing Association

The state of Nebraska now has a dairy herd improvement association of its own. Thirteen herds owned at the state institutions make up the entire association. Joe King began work as official tester January 1. He has been employed by the North Platte valley association the past year, has had some college training, and was on the Nebraska 4-H club championship dairy judging team which went to England in 1928.

Several of the herds are large and will require two or three days testing. Mr. King will travel 625 miles each month and be busy all the time on the 13 herds. While he will be paid by the state board of control, he will be responsible to heads of the various institutions and to the extension service of the agricultural college for his work and his records.

Eleven of the 13 herds are now members of some of the other cooperative farmer operated associations in the state. Each of the state herds will fulfill its contract with its present association, however, and the state board of control will help the extension service in reorganizing some of the present associations so they will have a full membership.

Experience of the 11 herds in associations, and the fact that the margin between price of butterfat and cost of the milk is narrow now, has influenced the board of control to establish a dairy herd improvement association of its own so that it can study its dairy business a little more closely.

Mr. King's headquarters are in the new organization.

Explains Price Cut. Because 1929 was the company's greatest year, the Chevrolet Motor company was enabled to offer 1930 models, which were introduced last week, at substantially reduced prices, according to a statement of W. S. Knudsen, president. The output last year was 1,350,000 sixes.

Reductions range from \$25 to \$50 on seven of the 12 models in the 1930 line, while the three new body types introduced for the first time this year, are priced to parallel the new low figure on models retained in the current series. O. T. Miller, Omaha zone manager, says: "The present base price of \$445 brings the six-cylinder Chevrolet to within \$5 of the lowest price at which even the four-cylinder Chevrolet was ever sold." Miller explained.

The 16 Chevrolet plants scattered about the country are speeding to ward capacity operations so that the thousands of orders already on hand may be taken care of with a minimum of delay. Is the latest report coming from the factory.

Mr. and Mrs. Oliver Cromwell of Kimball arrived in Ord Saturday and Monday attended the funeral of his mother, Mrs. Sophia Cromwell, whose body had been brought Ord from Birch Tree, Mo. Mr. Cromwell left his business in the hands of Scott White, while he is away from home. He claims the Ord people in Kimball are doing exceedingly well. These include the Carl Johnson family and Miss Marie Goodhand, who owns both picture shows, and has a good patronage.

## Lesson for January 19

### JESUS BEGINS HIS MINISTRY

LESSON TEXT—Matthew 4:12-23  
GOLDEN TEXT—Repent for the kingdom of heaven is at hand  
PRIMARY TOPIC—Jesus Chooses Some Helpers  
JUNIOR TOPIC—Jesus Begins His Ministry  
INTERMEDIATE AND SENIOR TOPIC—How Jesus Began His Ministry  
YOUNG PEOPLE AND ADULT TOPIC—The Comprehensive Program of Jesus

Jesus began His official work as Messiah at Jerusalem where He presented Himself to the men of the Jewish nation.

1. The King His Own Herald (vv. 12-13).  
The reason for this (v. 12).  
The news of the imprisonment of John the Baptist caused Jesus to forsake Judea and go into Galilee. The fate of John was accepted as foreshadowing His own. The rejection of the forerunner meant the rejection of the King whose advent was proclaimed. Because of this He withdrew from the metropolises and went to the remote regions where His work would attract less attention.

2. To whom the proclamation was made (vv. 13-16).  
It was to the people of Capernaum in fulfillment of Isaiah's prophecy (9:1, 2). These people were not blessed with such privileges as those in and around Jerusalem. Thus we see that the darkest and most corrupt of the provinces was getting the light first. In this we see a forerunner of the present age, when the gospel of the grace of God is being preached to the Gentiles.

3. His message (v. 17).  
"Repent, for the kingdom of heaven is at hand." This is the same kingdom which John the Baptist and the Old Testament prophets proclaimed. It means the Messianic earth rule of Jesus Christ. It is for this we pray when we intelligently say, "Thy Kingdom come." At that time the light will break forth which shall illumine the whole earth.

4. The King Calling to Himself Assistants (vv. 18-22).  
1. His command of authority (vv. 18, 19).  
He did not endeavor to persuade them, and He did not use arguments but issued the mandate. "To command is the King's prerogative—not to argue or entreat."  
2. The station of the servant called (vv. 18, 21).  
They were men of lowly birth and occupation—fishermen. God chooses the foolish things of this world to confound the wise and the weak things to confound the things which are mighty (1 Cor. 1:26).  
3. They were called to definite service (v. 19).  
"I will make you fishers of men." He had previously called them to be disciples (John 1:36-42). He now called them to service. This call therefore was not the gospel call to sinners which is "believe on Me," but the call to service of those who have already heeded His call to discipleship. The disciples which made for good fishers—patience, bravery to face the storm and the night, the perseverance which tolled all night though no fish were caught—would make for good fishers of men.

4. Their prompt obedience (vv. 22-23).  
They gave up their business and homes, not even inquiring where their salary was to come from. They put their trust in Him who called, believing that He was able to supply their needs. There is no time for delay when the King commands. There is no time for questions, for the King's business requires haste.

5. The King's Triumphant Progress (vv. 23-25).  
He went the whole round of Galilee, teaching the Scriptures, preaching the Gospel of the Kingdom, and healing all manner of diseases. He did a three-fold work:  
1. Teaching the Scriptures in the synagogues (v. 23).  
The revelation of God needed to be explained. This is what He was doing in Nazareth (Luke 4:16-22). Such is the primary business of every minister.

2. Preaching the glad tidings of the kingdom (v. 23).  
The King was present and was heralding His own mission, was ready to establish His kingdom if they would have been willing to receive Him. Despite His knowledge of their unwillingness to receive Him, He presented His claim as though the kingdom would then have been established.

3. Healing all manner of diseases (vv. 23-25).  
"His fame went throughout all Syria, and they brought unto Him all sick people that were taken with divers diseases and torments, and those which were possessed with devils, and those which were lamed, and those that had the palsy; and He healed them."

### Methodist Young People's Conference

Plans for the Loup Valley Methodist Young People's Conference are going forward very nicely and a very helpful conference is assured. This conference will be held Friday evening, all day Saturday and up to noon on Sunday of next week. Dr. Harry E. Hess, district superintendent of Kearney district, and Mrs. Hess and Dr. A. V. Hunter as well as pastors from the churches participating will have a part on the program. These people are well qualified for the work. About 125 delegates are expected.

## Announcements of Services in CHURCHES OF VALLEY COUNTY

### Ord Christian Church.

Our annual meeting last Sunday was a success in every way. The three services were well attended and reports show progress along every line. The financial report shows all debts paid and very satisfactory progress on our parsonage plans and work. Sunday night was a splendid start for our meeting. While the storm will handicap us some this week every thing is pointing toward a wonderful meeting. No one should miss the splendid chart sermons and talks, nor the wonderful hymns in our special music, pantomimes and artists drawings. Our Christian Endeavor service at 6:30 will be interesting to all our young people. Our bible school you should not miss, surely you need this great study of the word of God. "Come with us and we will do you good."

### Ord Methodist Church.

On Tuesday afternoon of last week the Woman's Foreign Missionary Society were the guests of Mrs. A. O. Duer and Mrs. Robert Nell at the Duer home for their regular business meeting and lesson study. The ladies are planning a bake sale to be held some time next month. Mrs. H. D. Rogers was in charge of the lesson study which was a review of some of the early missionaries. The hostesses served a delicious lunch at the close of the meeting. Thirteen ladies and two children were present.

On the same evening the Standard Bearer group had their monthly business meeting and study at the church under the direction of their counsellor, Mrs. Duer, and also enjoyed lunch together. Miss Alma Holloway led a study of the life of Esabella Thoburn, one of the first missionary women to go to India.

The Sunday school attendance Sunday dropped to 160. It is hoped that the weather will soon be warmer and more favorable to get out.

At the morning service the choir sang the anthem, "Incline Thine Ear," very beautifully. Psalm 40 was read responsively, and 29 verses from Matthew 23 were read by the pastor for the scripture lesson. He used the ninth verse of the chapter as the text for a very helpful sermon.

A very interesting meeting was held by the Epworth Leaguers. LaVonne Ramsey was the leader. At the preaching service which followed a choir of six voices from the Epworth League led the singing and also gave a special selection. They were assisted by Glen Aule. Their work was much appreciated.

Today marks the eleventh anniversary of national prohibition in the United States and the anniversary is being observed in many churches throughout the land and will be observed in this church next Sunday morning. Attorney Bert M. Hardenbrook will be the speaker using the subject, "Prohibition from a Different Angle." Mr. Hardenbrook has made an extensive study of this subject and will have an interesting message to deliver.

At the evening service the pageant, "The Daring Youth," will be given by the young people of the Epworth League and Rev. Moorman. We are told that this will make a very interesting evening's program.

A very cordial invitation is extended to everyone to attend both these services as well as the Sunday school and Epworth League. Prayer meeting will be held this evening in the league room of the church. Every member and friend of the church is urged to come out and help make this church a praying church.

### First Baptist Church, Ord.

During the months of January and February the church is to enjoy the following series of very interesting and helpful sermons, to be given by the pastor, together with a number of special features to be worked out in the worship service of the church.

Jan. 19th, "Christ's Call to the Church of Today," and "The Second Coming of Christ."  
Jan. 26th "A Forgotten Commandment and A Forgotten God," and "The Lamb of God."  
Feb. 2nd, "The Scriptural Baptism," and "Will Hell Pass Away."  
Feb. 9th, "The Proving of Abraham," and "Where Has The Devil Gone?"

This is not a series of subjects printed for the sake of sensationalism, but a series of sermons dealing with some of the vital themes of the Gospel, and will be presented entirely from the standpoint of what the Scripture teaches. Several special features will be introduced at different times in this series, and our worship services Sunday morning are to be so conducted as to furnish interest and inspiration to young as well as old.

The sermon next Sunday morning, "Christ's Call To The Church," deals with some of the present day church problems and the forces and organizations which today are constituting a real peril to the church.

The subject for next Sunday evening, "The Second Coming of Christ" should prove attractive and interesting to all. We extend a cordial invitation to the many folks in Ord who are not regularly attending church elsewhere to come and enjoy these meetings with us.

W. J. Beachy, Pastor.  
Mrs. Joe Rowbal, Sup't.

### North Loup Friends Church

The Christian Endeavor services are increasing in numbers and interest and very soon we are going to be compelled to give more time

to this work every Sunday evening. Miss Sylvia Baker acted as leader last Sunday and the young people took sides for a contest which was termed "foot ball game." Both sides did well but the winners were fifteen points to the good. Mary Baker is leader next Sunday eve.

The pastor, Miss Brown, is called away this week by an urgent need of help in the New Hope meeting, at Hay Springs, Nebr. She plans to be back by the first of February. In the meantime, Rev. Walter Wilson, yearly mtg. supt. will supply the pulpit both Sundays. The mid-week prayer meeting this week, Thursday evening, January 16, will be held at the home of Mr. and Mrs. Will Schultz. Next week, on Thursday evening, January 23, it will be held at the home of Mr. and Mrs. Jim Ingerson. Our Sunday afternoon prayer-meeting next Sunday at 2:30 will be at the home of Mr. and Mrs. Ed Post with the Edwin Miller family acting as leaders.

The following Sunday, Jan. 26, it will be held at the home of Mr. and Mrs. Jim Ingerson. Our Sunday afternoon prayer-meeting next Sunday at 2:30 will be at the home of Mr. and Mrs. Ed Post with the Edwin Miller family acting as leaders.

We are grateful for the good interest manifest in these prayer meetings, and are sure that God will bless them richly in lasting results for the Kingdom.

There is so much of interest and encouragement in the meeting here, the pastor regrets having to be absent temporarily although she is confident that her people will be absolutely faithful to their responsibilities.

The clerk, Louis Miller, wishes to call a brief session of the monthly meeting next Sunday morning, for the appointment of representatives to the quarterly meeting at Central City, Jan. 25 and 26.

Remember our Sunday schedule: Bible school 10 a. m., morning worship 11 a. m., cottage prayer meeting 2:30 p. m., Christian Endeavor, 7 p. m., Evening worship, 7:30 p. m.

### Bessie Franc Brown, Pastor

### Ord Presbyterian Church

Sunday school at 9:45. James B. Ollis, superintendent.  
Preaching service at 11 a. m. and 7:30 p. m.  
"Believing that God is leading our nation and other nations toward an hour of jesting, among lovers of righteous and peace in all lands, the hope now abounds that mankind may be delivered from the menace of war and preparation for war—so that progress in the use of naval armaments in London on Jan. 21 may well be regarded as one of the turning points of history. And the issues of the London conference are so momentous for the moral and spiritual interests of mankind that the federal council of churches in America are suggesting that pastors and members of our churches and congregations observe Sunday, Jan. 19 as a day of prayer for God's blessing on the conference, upon our delegates to the conference, as well as those of all the nations. And the church is planning to be in accord by making some recognition of the day.

Don't forget the Hastings college Gospel Team that is to be with us for a service Sunday morning, Jan. 26th. Keep the date in mind and plan now to attend that service. They will have full charge of the morning service and will doubtless bring us something worth while.

D. C. Williamson, Pastor.

### Arcadia M. E. Church Notes

R. O. Gaither, Pastor.  
Sunday, although a bad day was fair in attendance at all services.  
The Sunday School presented perfect attendance badges to 12 of its young people 2 badges for members having been present for 2 years without fail and 1 badge for a member who had been present for 3 continuous years. Good attendance and interest in all classes. Five members of one of the Gospel teams from the Epworth League assisted in the presentation of the Sunday evening sermon and it was a fine service and the young people are to be commended upon their work. If you were not present you missed a real treat. Join in with the young people in their devotional meetings and attend their services. A cordial welcome awaits you. Remember the Y. P. Epworth League rally meets at Ord in a three day session January 24, 25 and 26th.  
The new baby at the parsonage seems to have perfect control, not of his temper, but of the household. Mother and babe doing fine.  
Grandma Gaither who has been sick for the last week is very much improved at this time.

The ladies and friends of the church have been especially kind and thoughtful in the way they try to show our usefulness. Love in a wonderful service.

### For ORD MERCHANTS ONLY

Being one of a series of chats with Ord business men in which they are told how they can increase their volume of sales.

THERE'S money in Ord. There are people aplenty here to spend it. There's good business for you—if you, the merchants of Ord, join The Quiz in keeping Ord's business in Ord.

It all boils down to the very important thought that the nearby, bigger towns and the mail order houses are ALWAYS trying to attract trade from the smaller communities.

Always trying! Very often succeeding! And, sad but all too true, to the detriment of you, the merchants of Ord and the merchants of all other smaller towns.

What to do about it is a problem you must help solve, if you are to prosper. A mighty vital problem it is, too, as you well know.

Just the same, we can keep Ord's money in Ord. And the folk of Ord can be brought around to the habit of buying in Ord almost exclusively. And you can make both conditions possible.

Here's how. The very next time a salesman from whom you order merchandise comes to your store, sell him on Ord. Of course, you must sell yourself first. Get Ord-minded. Get the salesman feeling the same way. Enthusiasm is contagious.

When the salesman gets enthusiastic about Ord, he's bound to pass his enthusiasm on to the sales manager of his company.

And then the manufacturer of the goods you buy will begin thinking of Ord. He'll think of it, not as a small spot on his office map, but as a community where you, his retailers, are trying to sell his goods for him.

He, too, will get Ord-minded, and feel more justly obligated to give you the advertising support in your local, home town newspaper that he's giving his retailers in the bigger towns.

He'll get over the notion that he is reaching the folk of Ord with his advertising in the bigger towns' newspapers and in the general magazines.

Yes, you merchants of Ord! That's the solution to the whole problem. Sell the manufacturers of the goods you stock your selves with on Ord. Sell them through their salesmen.

The manufacturers' advertising in Ord's home newspaper will help you sell more of your merchandise to the greatest number of Ord's people.

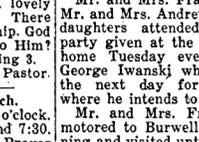

This advertising support will help keep Ord's money in Ord. It will mean good business for you—and more of it.

You need the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your local home newspaper.

## QUIZ FORUM

Dear Lambertton Writes.

Friend Friend Quiz: Have been thinking of my Ord and Valley county friends and thought I would write you a few lines. If you see fit you can print it in your paper. We are all fine and doing well. Our little rancho looks fine. Clark has alfalfa and barley planted for his fine Jersey cows and it is so nice and green and when I read of your snow and zero weather it doesn't seem as though it can be true when everything is so green and pretty here. Yesterday was our first rain of the season and it sure was welcome, as we don't have any rain during the summer.

Norval has been busy for several months plastering a big Mexican school house in Santa Ana. He has worked at this plastering business for several years and likes it. Jay has been helping him. Just lately Jay is with us and so are Musa's children. They are as big as we are.

There is oil excitement around now and we may be sitting in an oil field before long. I hope so. There are several wells producing now. We have four acres and if they do strike oil we will be "setting pretty" as they say.

We have had a wonderful fall and winter, so far just like summer. There is very little snow in the mountains but when they are covered they are a beautiful sight with everything down in the valley so green and orange trees loaded with golden fruit.

Thursday I had the Ord ladies luncheon club and we had a fine time. While I was eating my dinner had quite a surprise. This month was my birthday and the guests set a big basket filled with gifts in front of me. It also was Mrs. Keown's birthday this month and we shared the gifts together. The Ord bunch is always doing something nice like that and we all enjoy one another so much. We meet once every month, the first Thursday. In February we meet with Mrs. Frank Lloyd. I do enjoy reading the letters of former Ord folks and enjoyed Emma Barnes' letter greatly. Also enjoy the Quiz, which is just like a letter from home.

Well, will close for this time hoping you all have a prosperous New Year. Best wishes to all my Ord and Valley county friends.

Mrs. Clark Lambertton.

On Federal Jury.

Alvin Blessing, Wm. Sack and Jud Tedro were in Grand Island this week serving on the federal jury. Messrs Blessing and Sack went down on the U. P. Monday and Tedro rode down with Dair Shirley.

## HIGGINS' HERD AVERAGES 571.4 LBS. BUTTERFAT

Made Owner \$137 Per Cow During Year; Higgins Awarded A Silver Medal.

By GEORGE ROUND, JR.

Winners in the different contests staged during 1929 by the Nebraska Dairy Development Society were announced last week at Organized Agriculture held at Lincoln.

O. E. Higgins, member of the Nemaha-Richardson county association, had the high producing dairy herd in Nebraska for the year. His herd of eleven Holsteins averaged 571.4 pounds of butterfat for the year. Owen Nelson was the tester in the association.

The winning high producing herd in the state returned \$136.77 per cow over feed costs to their owner. They returned to Mr. Higgins \$2.14 for every dollar spent for feed and produced butterfat for slightly over twenty-one cents a pound.

The Higgins herd was the second high ranking one in the state last year and this year increased their average butterfat production over last year one hundred pounds per cow. Higgins has been in the dairy herd improvement work for six years. He says of the work, "I have learned a lot through the work of the association. I thought I knew a lot before but soon changed my mind. I have learned how to feed a balanced ration and to care and manage my herd in a more suitable way by being in the testing work."

There was but seven-tenths pound butterfat average difference between the first place winner and the second, Paul Rolfmeier of Seward who was a member of the Seward-York-Polk Dairy Herd Improvement. His herd of registered Jerseys averaged 570.7 pounds of butterfat per cow to make him second to Higgins.

Young Rolfmeier is but seventeen years of age and is a prominent 4-H club boy in Seward county. This is the first year that he has had a dairy herd in the testing work.

The Nemaha-Richardson Dairy Herd Improvement Association won the large silver loving cup awarded by the dairy association for being the leading association in the state for 1929 in butterfat averages. The winning association had twenty-nine herds under test with 332 cows being tested monthly who averaged 355.05 pounds of butterfat per cow for the year.

The North Platte Valley Association No. 1 won the loving cup for the two previous years and had they won again this year the cup would have become a permanent possession of the association. Lancaster county won the cup the first year it was offered.

The Seward-York-Polk association was the second high ranking association in the state. Having

thirty-one herds tested, they averaged 347.6 pounds of butterfat per cow for the year. Robert Beall was the tester in the association.

The six five-hundred pound butterfat producing herds in the state were also named at the Organized Agriculture meetings. O. E. Higgins and A. W. Bohling of the Nemaha-Richardson association had two of the high herds over 500 pounds. Oren Moore, North Platte Valley No. 1; Frances Orton, Johnson-Otoe; Herman Rolfmeier, Seward-York-Polk; and Paul Rolfmeier, Seward-York-Polk.

To Paul French, tester in the Madison-Antelope association, went the bronze medal for being Nebraska's most efficient tester for the year. He has been in the testing work for two years and his work has been outstanding. He made suggestions through his testing experience that enabled the state association to make changes in their program for the betterment of the dairying interests in the state.

C. E. Olmstead of Roca, a member of the Lancaster County Dairy Herd Improvement Association, was awarded the silver plaque for having the only herd in the state whose average production per cow for a five year period has been above 400 pounds butterfat. It was the first time a Nebraska man had ever achieved such an honor. Olmstead's herd of registered and high grade Holsteins averaged 422.4 pounds of butterfat per cow for the long time period.

Medals were awarded to other outstanding associations and individuals in the state for their outstanding records made during the year. The Valley County Dairy Herd Improvement Association failed to be eligible for any of the honors because they have not, as yet, been organized for one year. Its members were likewise ineligible for prizes.

### Wetzel And Barber Win On Seed Corn

Two Valley county men, Floyd Wetzel and H. A. Barber, both of North Loup, were among the winners at the annual Nebraska corn show held at Lincoln in connection with Organized Agriculture meetings last week. Wetzel was the heaviest winner of the two and one of the most outstanding exhibitors at the show.

Showing in the central section, Wetzel copped a second in the yellow dent contest. Barber was a third in this contest, making the local showing outstanding. Wetzel's exhibit of ten ears of white dent corn was a first place winner with competition stronger than ever before. In the ten ears of dent corn, other than yellow or white, Wetzel captured another first. Barber was third in the same contest. Mr. Wetzel also carried off high honors in the exhibit of a single ear of dent corn of any variety.

Weather Hits 17 Below. Temperatures of from 15 to 17 below zero were reported here last Thursday and Friday mornings and Saturday a light snow fell. The weather has continued around zero all week.

## AM I RIGHT?

By Geo. Round, Jr.

Few Valley county farmers attended Organized Agriculture sessions held at the college of agriculture last week. They missed something that proved worth while to the hundreds of farmers who did take the opportunity of attending the meetings.

Meetings were held along all lines of farming, from bee keeping to the work of the housewife. New developments in all phases of farming were on exhibit and all meetings were attended by farmers who were eager to learn new things about modern agriculture.

Farm machinery meetings a few years ago at such a week would have attracted but little attention and it is doubtful if enough interested farmers would have been present to make such meetings worth while. Not this year for the meetings were crowded to capacity every day. It only goes to show the trend of farming today.

Floyd Wetzel of North Loup again flung Valley county's colors high and low when he exhibited corn at the annual corn show held in Lincoln at the college of agriculture. He again brought his name before the farmers of Nebraska and proved that the best corn can be developed and grown in Valley county.

As in other shows where he exhibited Floyd carried off the lion's share of the winnings. He captured high prizes in every contest his exhibits were entered.

Floyd is making a name for himself over the state as a corn fancier and progressive farmers are looking to him as a leader in seed corn production. One remark which interested me more than any other was made in the form of a compliment to the Valley county man.

Two men, strangers to me, were viewing the corn show and discussing exhibits. They came to the exhibit of Mr. Wetzel, which had ribbons pinned on the ears. One man said he knew nothing of Wetzel. The other man replied: "Well, you have missed something. He lives up in Valley county and is one of the coming corn fanciers of the state. I have visited his farm several times and find him a practical seed corn raiser. If you haven't heard of him now you will in the future." The statement speaks for itself. It shows in what high esteem Wetzel is held among leading corn producers in the state.

One speaker at a mass meeting declared he was for irrigation but against proposed government irrigation. He said in this time of farm products surplus, the movement would be a foolish one. He spoke from experience and from sound thinking with the good farmers in mind. He certainly made a point worth thinking about.

Leading dairymen over the country are today advocating decreased production of dairy products, because of present low prices. They say call out 5 to 10 per cent of the low producing dairy cows and

there still will not be a shortage of products.

Max Cruikshank of Arcadia, the Hampshire breeder, plans to be in Baby Beef 4-H club work this year. Better watch out for Max. ... E. Laursen is strong for farm account books and declares economic conditions will change in the future. He was among the first to take a book from the county agent. ... Ernest Coats is still for the organization of a second cow testing association. More power to him. ... Frank Adams who looks the farm page is great stuff. He likes it. Is he the only one? ... Clare 'Dugan' Clement believes he has a Hereford that can win the grand championship in the 4-H club baby beef show. This fall who knows the farm page wants to know if he will be a full fledged college graduate when he finishes Jesse Kovanda's night school. John says he will learn a lot at the meetings and so will Adam. ... The farm page also wants to know how you get the two hundred pigs in a year.

### Farm Bookkeeping.

By A. B. Fiala  
Whatever business we are in most of us are not in it for our health merely. We hustle and manage seeking to make the calling a success with hopes that it will yield to us not only a good living but also a little over to lay by for a rainy day and for coming old age when we will be less able to work and earn a living. It is of interest to each one to learn at stated periods how his calling is succeeding or if not doing well to find out why. If the business we are following is somewhat complex and complicated as that of general farming, a system of books kept up is a great aid to us. It helps to single out the factors, if any, that are marring our success and also to see which phases of our business are yielding to us the best returns.

Farming being a complex business almost requires a complicated set of books to help keep the different lines separated and independent. And here is the great drawback. The average farmer is too busy to keep up a detailed set of books. His bookkeeping system must be simple or it will be neglected. Yet it must be extensive enough so as to cover the business and present clearly and accurately the results being striven for.

Personally I have kept records of my business whether large or small for over twenty years. Ever since taking the course in bookkeeping at high school I have used some form of records uninterruptedly. I started with the double entry journal system like that taught in the high school. Later changed to the six column journal form and had present clearly and accurately the results being striven for. When county agent I devised a looseleaf system and distributed it to the county. A number of farmers used it and thought it was acceptable. This had a two column page to each department and was thumb indexed. Each department had a sample page already filled in with fictitious items to serve as an example to the farmer. At the end of each year the used pages were removed bound together and filed and new blank pages inserted in the book for the new year.

For the past four years I have used a form that I like for its accuracy and the little time it requires. I got it through my wife's suggestion. Her mother has used it for years in her business. Hope Needham, editor of the home column in the Omaha Journal Stockman recommended this system just recently. In this system our banker does half of our bookkeeping. The first requisite with this system is to pay all bills except probable miscellaneous ones with bank checks, and always fill in lower left hand corner the item for which the check is being drawn. (If you pay with check you never get shortchanged and never lose your change.) At the end of each month the banker customarily furnished each patron with a statement and the canceled checks are returned to him. When these are received they should be separated into piles according to their purpose, which they were drawn and each class added up together and the total of each class entered into our record book under its heading. For example we pile our grocery checks together, running expenses from which the record is another, etc. Feeds bought or raised are charged to stock to come under the check system and are added only at end of year and charged to calves when we are working out our loss and gain accounts.) The book now being put out by the county agent can very nicely be used for recording these monthly totals in.

When taking the special course at the University in 1925 I studied Farm Management under Professor Medlar and took laboratory work on keeping farm records with the book used by the extension up to last year. I thought it was all inclusive of the farm business quite complex and involving a lot of time to keep up. The one put out this year by the extension is the one the Iowa extension had been using. I wish I had had thumb index to help find page wanted without loss of time. The book I have used the past year in connection with the check system is one suggested to me by Mr. Coe. Loose leaf page forms were secured from him and are the same as those used in their bookkeeping at the creamery, and by Mr. Coe in his records with his Colorado ranches. On these forms I have all my expense departments entered on two pages in parallel vertical columns and the income columns similarly on a third page. Horizontally on same pages the totals are entered. The year's totals appear at the bottom of the page. Here I have the year's business concentrated on three pages yet distinct and separate according to months and according to departments.

Now the monthly bank statement

also carries our items of deposit. Every cent of income is deposited in the bank and each time we make a deposit, we must write into the bank book item for which the money was received. If cream and hogs were sold one day and checks deposited the amounts for cream hogs must be put down separately and so labeled in the bank book. At the end of the month these income items are classified the same as the expense checks that came in and the totals entered on the credit side of our record book under their proper headings. This classifying adding and entering into the book is done but once a month and will not take much time as rows of figures to add will not be long.

At the end of the year the twelve monthly figures under each heading are added up and we have the total for each department for the year clearly before us.

The following are headings under which I am now sub-dividing my expense and income accounts. Expenses, machinery, buildings, farm expenses, insurance, running expenses, rent, gas and oil, interest recreation (includes radio), education (includes newspaper subscriptions), household equipment, car and truck, domestic help, farm help, taxes, gifts and donations, personal, wife's personal, each child's personal, poultry, hogs, cattle, income: Cream, eggs, hogs, poultry, popcorn, labor. When at the end of the year we have all these divisions totaled up we are ready to proceed to find out what profit or loss we have made and where it came in and how much it is.

Yet accurate record of incomes and expenses alone will not tell us

much about our business. An inventory must be taken at the beginning of the year and another one at the close of each year after that. To take an inventory make a list of all livestock, machinery, tools, real estate, bonds, securities and cash that you own. To arrive at a fair estimate of these judge their worth by what they would bring at a fair auction sale. For new farm implements a good way is to take ten per cent off for each year's use and as high as twenty-five per cent on machines that wear out quickly as corn pickers.

To find out our present worth we add all accounts, notes, and bills that we owe and subtract their total from the total of above inventory. The inventory and list of accounts we owe are entered into our record book. The extension book is fine for the inventory part of the business.

At the close of the year another inventory is taken and another list of bills owed. The difference between our present worth of the two entries will tell us exactly how

much we actually gained or lost in the year's business.

To find out how much each department of our business has made or lost we must take the last year's inventory and add to it the expenses of the past year for that item and from that sum subtract the sum of this year's inventory and the incomes from that department. Example: Last year's hog inventory of \$1500 is added to the hog feed costs for the year of \$1900 which makes \$3400. Then the last hog inventory of \$500 is added to the past year's hog sales of \$3000 making \$3500. Our profit from hogs for the year will be \$3500 less \$3400 or \$100. Corn raised on the farm and fed should be charged to whatever it is fed to. The same for the hay fed and pasture used. (Continued on Page 11.)

THESE FIVE NEBRASKA WOMEN COMPRISE THE FIRST GROUP IN THE STATE TO RECEIVE THE MASTER FARM HOMEMAKER RECOGNITION AWARDED BY THE FARMER'S WIFE NATIONAL FARM WOMEN'S MAGAZINE, ST. PAUL, MINNESOTA, WITH THE CO-OPERATION OF THE NEBRASKA EXTENSION SERVICE AND STATE HOME ECONOMICS ASSOCIATION.

Five Nebraska farm women were chosen as Master Farm Homemakers at Organized Agriculture held in Lincoln last week. It was the first time that women had been honored.

Mrs. J. B. Fichter, Meadow Grove; Mrs. S. P. Davis, Syracuse; Mrs. J. G. Neighbors, Bayard; Mrs. C. H. Peterson, Beaver Crossing; and Mrs. W. A. Wickersham, Filley,

were honored women at the Master Homemakers celebration.

A nationally known farm women's magazine sponsored the Master Homemakers movement in Nebraska this year for the first time in co-operation with the extension service. It is planned to continue the program in years to come. As men are honored by their Master Farm-

er awards so will the women be honored by their Master Homemaker awards.

All women receiving the awards have been outstanding farm women for sometime. They have been active in their respective communities and have performed remarkable services for people in the community.

Coats and Porter Like Farm Course

Wayne Coats and Verne Porter and all the other 63 boys in the Farm Operator's course at the agricultural college in Lincoln, declared unanimously in their club meeting Tuesday night, January 7, that the things they are getting out of the course are so good they must tell other farm boys about them.

They feel that it is up to them to keep the enrollment in this new course growing. When they get back home in the spring, they are going to talk it up among the boys they know. In the meantime, they hope to arouse some interest by writing letters to their friends.

Three Ord Students On Ag Paper Staff

Three Ord boys are members of the staff of the Cornhusker Countryman, college of agriculture monthly publication, for the second semester, according to announcement forthcoming to the Quiz this week. They are Richard Flynn, Claude Roe and George Round. It will be the first time in history, it is thought, that three Ord students have been on the Countryman staff. Roe was assistant editor for the first semester of this school year and Round contributing editor.

Farm Bookkeeping.

Another great aid in the farming business is the keeping of a diary. I have kept a diary for over 25 years. For the last ten years have used a desk calendar pad which has space on it for writing. I jot down each day notes about the weather, tasks performed, and the more important events. These records are often invaluable in furnishing exact information on work done in the past and now forgotten.

Former Ord Students Honored. Out of seven representatives sent from Nebraska this year to the second National High School Chorus in Chicago, four of them will go from Kimball high school. And three of the four are former Ord students. They are Pearl Gray, Kenneth White and Durwin White. All are well known here.

SINCLAIR GASOLINE AND KEROSENE. Anyone wanting Sinclair products can get same at the following places: Ord—Roy Severson, Blaha Bros. Elyria—C. E. Wozniak, Holub's Store. Ericson—E. H. Heffner. BACK FORTY

By J. A. Kovanda

Feed grinders are more popular in the valley than silos. This condition exists despite the fact that a smaller number of grinders was sold locally this winter. The tendency of feeders throughout the state has likewise been more in the direction of ground feed than silage.

The scarcity and high price of roughage have stimulated grinding and chopping in some instances. Feeders have learned to appreciate the value of good roughage in the ration. Today most farms have some type of belt power available making it possible to operate a mill and to process home-grown feeds right on the farm.

Most of our feed grinding consists of coarse roughage chopping. The roughage generally chopped is corn fodder. By chopping it, the large and small cattle are given an equal chance. Grass cattle are taught to eat corn more quickly by this method. A load of stalks is made to last longer, and much waste is prevented.

The feeding of lambs on a mixture of chopped hay and concentrates proved both practical and economical at the Illinois and Nebraska stations. Various stations have found that chopping a roughage increases its feed value all the way from nothing to over 20 per cent. But while the feed is more completely utilized, its digestibility is affected little, if any; grinding will not make a high quality concentrate out of a cheap roughage.

The prevailing price level of any roughage affects the economics of chopping. Thus, if hay is worth \$15 a ton and chopping costs \$2, an increase of 13 per cent in feed value is necessary to pay expenses. Men of experience advise against cutting roughage too fine, as it proves less satisfactory as feed and requires more power to grind.

The grinding of grains is also a growing practice. Ground corn is particularly valuable for putting finish on a cattle. It has little advantage as hog feed until the animals reach 150 pounds in weight. The rate of gain for well-grown pigs has been increased 15 per cent by grinding, and on 6 per cent less feed. Ground corn is generally fed wet, as pigs do not relish dry corn meal.

An even greater saving is made by grinding small grains. It is concluded that at least 12 per cent of the small grains is saved by grinding. The ground grains give better results, also, when fed wet.

Marle Gates Wins Trip. Marle Gates of Arcadia has been awarded a free trip to state 4-H club week held at the college of agriculture this spring by the Burlington railroad, according to Carl O. Dale, county agent. The award has just been made. The Arcadia girl received her award of a free trip to club week by the railroad company after she has been one of the most outstanding club leaders in the county during the past year. She leads a North club at Arcadia which was sponsored by the Arcadia Women's club.

## ECHOES FROM THE Woodman Hall

Rev. Thees of Cherry county is now having services in the Catholic churches of Geraldine and Sargent, taking the place of Rev. Bogacki, our former pastor, who has gone back to New York.

Jos. Waldmann helped Otto Radil butcher a beef last Monday. Several of his neighbors purchased most of the meat.

Geraldine high is preparing their play which they will present January 24 at the National hall. The play is a comedy-drama, three acts characterizing eight interesting people in a political life full of surprises and romance. Big Boss Higgins runs the city of Kendall but can run the newly elected mayor. Sammy, the foxy publicity man and his ladylove, the slinky gum-chewing stenographer furnish fun and excitement galore.

Paul Zulkoski experienced quite an accident on the Sargent highway near Jos. Moravec farm late Sunday night. The late fallen snow had made the road a bit slick and the car slid in the ditch, damaging the wheel somewhat. He changed the wheel and drove on home. There were several other occupants in the car but no one was badly hurt.

Thomas and Paul Waldmann aided to Sargent last Thursday where they had some dental work done.

Mrs. Edward Waldmann spent several days in Ord with her mother, Mrs. Jacob John, who was in the hospital last week.

Bower Brothers shelled corn for Stanley Kordik one day last week.

Mr. Granger of Ord, the Watkins Remedy representative called on his

customers in our neighborhood last Monday.

John Ivner trucked two cows to Comstock for Rudolph John last Monday to be shipped to the Omaha market with the McCarthy brothers shipment of stock.

Our school board did some repair work at the school house last Saturday.

easy to settle. Mary, did I do it or any one of the three of us, come through the kitchen and go upstairs during that hour?"

"No," I answered.

"Mrs. Ricker," Hubert Hand questioned, "did any one of us men come in, and go up through the living room, during that hour?"

"No," she said.

"Mrs. Ricker," Sam asked, "were you sitting there alone, in the living room, during that hour?"

"I was not alone. Martha was with me. And, several times during the hour, five or six times at least, Danny came in from the dining room to see whether she could see John coming up the road."

"Danny," Sam spoke, "her name was Ricker, and Martha in the living room every time you went there?"

"I think so."

"Only think so, eh?" Hubert Hand half sneered.

"I mean," Danny explained, "that I am sure Mr. Ricker was here. I did not particularly notice Martha."

"I can vouch for Martha," Mrs. Ricker snapped.

"All right," Hubert Hand went on, "so far, so good. The ladies, I think, especially if you remember the glass doors between the living room and the dining room, have established alibis that would satisfy any jury."

"Now for you and Chad and me, again. We walked together, carrying the milk, to the dairy. There we took off the barn coveralls, and, at your suggestion, washed up in the dairy lichen to save time. We came back to the house together. Mary said that supper was on the table. We all sat down to the table together. All present, you see, except John."

"Would it have been possible for you, or for me, or for Chad, to have gone down to the barn (you and I each milked four cows, remember), come back to the house and through it, with not one of these ladies seeing us, coming in, just the other day, we took off the murder coat, got back to the barn, and then in the house again, all in an hour? I think, Sam, the wisest thing you can do, is to grant us all our alibis for that hour, anyway, and then work on from there, if you're bound to."

"The alibi hour sounds fine, Hand," Sam said. "But you are making a mistake. You are assuming that I think that someone here committed the murder. I don't think that. I do think that someone in this room might have done it. Where any one of us was, or was not, at the particular hour you're making such a stew about, probably doesn't cut any ice."

"I think it does. I told you I didn't have any proof—the way when you made me talk? But I have got some pretty solid bases for my suspicions. John decided, all of a sudden, to go to Rattall for the mail—or something. He was gone four hours instead of two and a half, anyway—that he could have made it. He had two bum excuses. First, (the trouble. Two hours is a long time to change tires. The second excuse was, that he had met Leo Saule and had given him a tow. Saule is a rotten little half-breed, who could be bought for a half dollar. Also, he lives alone, away off the main road—"

John jumped to his feet. "Get this, Hand—"

Sam had jumped, too. He got to John and put his hands on his shoulders. "Keep your shirt on, son. I am to blame for this. Your turn is coming. Wait for it. Go on, Hand."

John hesitated, and sat down again. Sam went back to his chair by the table.

"Sorry," Hubert Hand apologized. "I don't like this d—n bit better than John does; but it seems to be up to me. Well, then, he came in two hours late. He came through the kitchen; and, instead of leaving the car in the garage, he left it in the back entrance. He

"All Right," Sam said, "All Through!"

something on him, that she was threatening to tell Danny, or Sam, I don't know about that, either. I don't know a d—n thing about whatever they might have had between them. But I think that he killed her, out on the desert some place.

## FORMER ORD YOUNG WOMAN PASSES AWAY

Mrs. Errol H. Strickler Dies After Operation in Lincoln; Is Laid To Rest Here.

Mae J. Knott was born in Louisville, Nebr., October 7, 1892. She departed this life January 12, 1930, at Lincoln, following a brief illness, being at the time of her death, 37 years, 3 months and 5 days old.

When a girl of about eight years of age, she moved with her parents to Valley county, Nebr. Where she lived continuously until she entered the state agricultural school in 1909. Illness caused her to give up her course, at the college, before its full completion. Later she studied nursing and took up that profession in Montana, following that work till 1917 when she returned to Omaha where she has since made her home, being engaged in clerical and office work much of the time.

She joined the Wilson Memorial Presbyterian church in Valley county, Nebr. when a young girl, later transferring her membership to the Dundee Presbyterian church in Omaha. On March 12, 1927 she was married to Errol H. Strickler of Omaha, where they lived until last fall, then going to Lincoln, where her husband was engaged in the study of aviation.

She leaves to mourn her passing her husband, her mother, Mrs. J. A. Ollis, and a sister Ruth M. Knott, of Omaha, a brother, Ray C. Knott of Okmulgee, Okla., three step brothers and five step sisters, members of the J. A. Ollis family, as well as a large number of other relatives and friends.

Funeral services were held in Omaha, January 16, her body then being brought to rest beside that of her father in the Ord cemetery.

She went straight upstairs. It took him half an hour, or more, to get shaved and change his clothes. When he came down he acted like a man in a daze. He couldn't eat. He offered being out in the sun every day.

"I think that he met Gaby, as they had planned, right after dinner when he started for Rattall. Maybe she had promised him to leave the place. He was crazy to get her off the ranch. I know that. He told me so, just the other day—said she was making trouble here, and so on. She may have had

## Why BUTTER IS CHEAP

By A. L. HAECKER.

Producers and those interested in the industry realize that butter is seven or eight cents lower than it was a year ago. In fact its price has dropped since 1916. This drop in price has caused a big loss to the producers and to those who have stored butter. Due to this shrink, producers in Nebraska alone will lose at least \$6,000,000 this season.

We had good pastures last summer which caused a slight increase in production. This, however, was not enough to make the big surplus which we now have. The principal trouble was due to the fact that as a nation, we consumed about 30,000,000 pounds more butter substitutes in 1929 than we did in 1928, and every pound of substitute replaced a pound of butter. With the increased make and the lack of consumption we found ourselves, on December 1st, with 40,000,000 pounds more butter in storage than we had a year ago and we are now some 32,000,000 pounds over the five-year average for January 1st.

## NOW WHAT'S TO BE DONE ABOUT IT?

This butter surplus would be a very simple matter to correct if our people really knew the true situation and understood the value of butter as a food. By spreading it on a little thicker or with a more liberal use of butter, the 40,000,000 pounds of surplus would disappear before spring. If people knew the food value of butter they would eat more of it. Our leading dietary authorities, such as Dr. McCullum, of Johns-Hopkins, and Professors Sherman and Hess of Columbia University, through long years of experimenting and research work have shown that butter contains some very valuable elements, principally Vitamine "A" which is an all essential product especially for the young, for growth and vigor, protecting the eyes, and stimulating the disease-resisting qualities. Butter enables the digestive system to extract and retain calcium, another vital element in the growth and health of the young.

Butter has been thoroughly demonstrated to be essential for the young, and authorities everywhere advise that children be given liberal supplies of butter. Older people feel that they forget their short years on this earth, and, no doubt, by using butter and more wholesome food they would lengthen their days. Then why not use butter, nature's fat, and the best of the land, our own product, produced by our own people?

Why patronize the coconut cow, and destroy our own business by contributing to the natives of the South Sea Islands?

Dairy products are now in a delicate balance. The few pounds added have turned us from an importing to an exporting nation. When we have a surplus our tariff protection vanishes, and as a result, prices greatly decline.

There is no excuse for a surplus, still one-third of our dairy cows are producing at a loss. Farmers should cull their herds and weed out the unprofitable cows, and farmers, certainly above all others, should patronize their own products. It certainly would be of benefit to all the people of our state to correct this trouble and it can easily be done by giving thought to the matter.

This explanation and advice from a man as prominent in the dairy development field as Mr. Haecker should be read and heeded by every Valley county farmer.

## ALL-STARS GIVE THEIR BEST BUT LOSE, 24 to 18

### Fast Traveling Five Takes Measure of Local Cagers; May Play Return Game Here.

Joe Krejci and his city league All-Star mates turned in their best performance of the season Monday night but their best was not good enough and they lost a thrilling 24 to 18 game to Warner's Roamers, a fast traveling team from Hancock, Ia. A capacity crowd was attracted to the Ord high school gymnasium and all agreed that they got their money's worth in cage entertainment.

The All-Stars were under-dogs when the game started Monday night. Their opponents arrived in Ord fresh from a 34-23 win over Atlantic A. C., a runner-up in last year's national A. U. tourney, and the All-Stars were conceded little chance of holding their own against the Roamers.

It was largely curiosity that drew a huge crowd Monday night, but before the game was more than a few minutes old every cash customer was gripping the edge of his seat in an agony of suspense, for the score was tied nearly all the time.

The Roamers scored first on a free throw by Brown, when he was fouled by Beeghly. A second later Krejci dropped a charity toss through the netting to tie the count 1-1. Letette scored a field goal a moment later but Krejci countered with another to tie the score at 3 all. The play was fast and furious throughout the remainder of the first quarter and Letette scored again just before it ended, making the count 5 to 3 in favor of the Roamers.

Soon after the second quarter opened Krejci secured possession of the ball and dribbled in to tie the count and a moment later he scored again from the field to put Ord in the lead for the first time. The lead was fleeting, however, as Niemann, star Roamer guard, sank a long shot and Letette came through with a pair of field goals to give the Roamers a 4 point advantage. Carloski scored before the first half ended but the Roamers clung to a two point advantage, making the score 11 to 9 in their favor.

The second half was slower than the first, as both teams had worn themselves out by that time and furious play of the initial periods. Plenty of thrills remained, however, for Krejci soon dribbled through and tied the count at 11-11 and Jensen scored a free throw to give Ord the lead. McMaster scored for the Roamers but Jensen retrieved Ord's meagre lead when he tried a long shot and followed through beautifully to tip the ball through the netting. This was the last time Ord was out in front, despite a pair of field goals made later by Krejci, for McMaster, Brown and Letette accumulated 13 points and put the game on ice, 24 to 18.

Joe Krejci, Ord's center, and Beeghly and Jensen, star guards, furnished most of the thrills for local fans. The star center, dribbling low and coming in fast, wormed his way to within scoring distance time after time in the first half but he was "off" and the majority of his shots just rined the basket. He won individual scoring honors, however, with 13 points. Letette was high point man for the Roamers with 11 counts.

Jensen played a whale of a game at guard for Ord. Only once during the fray was he "sucked out" by the deceptive Roamer attack and many times he broke up their short passing game and shot the ball to Krejci, who worked it into scoring position. Beeghly also played well for Ord but his passing was inaccurate at times, a fault that Carlson and Lashmet, Ord substitutes, also displayed.

## CODE WINNERS INTRODUCED AT ROTARY LUNCH

Greta Brickner, Arthur Auble and Charlotte Moorman Talk To Sponsors of Movement.

One of the most interesting meetings the local Rotary club has held in many months was held Monday noon when three Ord high school students were honor guests of the club and had part in the program. President Bowers occupied much of the time following the luncheon Monday explaining the reason for the presence of the guests and he, as always, was listened to closely, because President Bowers always has something to say when he gets up to talk.

Several weeks ago the idea was mentioned of having a school code. It was proposed to have the club sponsor such a movement and the matter was discussed at a couple of meetings. Some members didn't so readily fall for it. The purposes sought were carefully set forth in a front page story in the Quiz on January 9th. It will be remembered that out of a large number of very meritorious codes presented, the committee in charge selected three and they were submitted to the high school students for their approval, as to which one would be selected. Miss Greta Brickner's code was voted the one.

The other two were written by Arthur Auble and Charlotte Moorman and they with Miss Brickner were the guests of the club Monday noon. Each read his or her code and explained its meaning as the writer interpreted it and no one who heard these fine young people get up and talk about their ideas and ideals could doubt their sincerity or that the code adopted meant a great deal to them and neither is there any doubt but that the whole school has been benefited and will be benefited not for only a year or two but for years to come by the work done by these 1929-30 students and sponsored by the Ord Rotary Club. Not only will future classes in the high school as they come up from the lower grades be benefited, but the high school students of this year will, many of them, carry through their lives the memory of the 1930 code and better men and women will result because of it. The writer believes that is the way all the Rotary members feel.

In the near future the club will hold an agricultural meeting when each member will have as his great some farmer friend. It is proposed to have a speaker for the day some outside man who will talk along lines that will interest both the farmer guests and the Rotarians.

President Bowers said Monday noon that there was a tendency to be present at future meetings. Attendance at meetings is one of the cardinal principles of Rotary. The Ord club was 5th in the district last month with a score of about 95.

Girls Suffer From Cold Last Thursday evening the Misses Alma and Verna Worm, who live near Wolbach, were frost-bitten in several places when their car broke down and they had to walk some distance. Friday the Misses Worm and their father, Herman Worm, came to Ord to see Mrs. Worm who is a patient in the Ord hospital.

Mrs. J. A. Ollis jr., left yesterday for her home in Omaha after spending nearly a week in Ord with relatives.

Mr. and Mrs. Elroy Staley are driving to St. Paul Sunday after their daughter Shirley, who has been there with her grandparents, since the first of the year.

Mr. and Mrs. Adana Perlinki of Alliance were visiting Saturday night with Mr. and Mrs. Lewis Wegryn.

## LEGION POST PLANS HOME TALENT PLAY

### Cast of 150 Local People To Give "Corporal Eagen" Two Nights of Next Week.

Fidelity Post No. 38, American Legion, will present a home talent play, "Corporal Eagen," a screaming comedy-drama of the American world war ruckie, at the high school auditorium in Ord on Thursday and Friday evenings, January 30 and 31. About 150 local people will have parts in the play.

Katherine Barrows, representing the United Producing company, is personally directing the production of "Corporal Eagen." The same play has made a big hit wherever it has been produced and Miss Barrows states that fine co-operation and efficient help on the part of members of the local post and of Ord people is a splendid success for this coming event.

An interesting and humorous theme runs through the entire production. The story centers around "Red" Eagen, an Irish doughboy, played by C. C. Dale, and his Jewish buddy, the comedian, played by Col. E. C. Weller. In the army only thirty days, they are scared but pretend to be brave whenever anyone is around. "Red" Eagen is looking for a big promotion because he told his girl, Sally O'Neill, played by Miss Lucene Hardin, that he was going to be a captain. Instead, he gets "in bad" with the top sergeant, played by Emil Pateita, and is put on K. P. duty.

For laughing at his buddy Izzy is also thrown on K. P. Red's girl comes to see him and, around the potato pile, a lot of comedy evolves. Sally is mistaken for a spy and the guard, a hard boiled character played by Mike Kosmata, finds Sally and sends her to the guard house, to be shot at five bells. Red and Izzy accidentally capture the real spy and save the situation.

Red is then promoted to the rank of corporal and starts to drill the famous "awkward squad." About this time the armistice is signed and Red goes back to Four Corners and marries Sally.

There are a lot of funny situations in the show. Red and Izzy date up the nurses and Red gets in bad with Sally. The nurses are played by Helen Collipest and Corrine Macprang. Two old men, fathers of Red and Izzy, played by F. L. Bling and J. A. Brader, also fall for the nurses and make love to them. An old maid work worker, played by Irma Leggett, trying to find a husband finally nabs the Y. M. C. A. worker, as portrayed by "Hank" McGrew, and closes the show with a number of characters in the show are depicted by Orville H. Sowl, as the enemy spy, C. J. Mortensen, as the cook, George Munn, as the captain, James Milliken, as the newsboy, Stan McLain, Carl Sorensen and Mike Kosmata, as privates, and Arthur Berta, as Rags.

Reserved seats will be on sale at 8 p. m. Wednesday, January 29, at McLain-Sorensen Drug store.

## 28 BELOW IS LOW MARK SET

### Central Nebraska Gripped By Winter Called Coldest In Many Years.

With 28 degrees below zero as the lowest temperature recorded so far, Valley county and central Nebraska are in the grip of a winter thought by many to be the coldest in years. Last Thursday night the temperature dropped to 16 below with a near-blizzard raging and by Friday morning a temperature of 28 below was officially recorded here. That night it was considerably warmer and only 5 below zero was recorded Saturday morning but colder weather again was in effect Sunday. Tuesday and Wednesday morning temperatures were reported as 18 below.

Several inches of snow fell last week and none of it has melted to date. Advance weather reports give no indication of much warmer weather for several days.

Tuesday John Ambrose took his sister-in-law, Mrs. L. J. Ambrose to Ravenna, from there she took the train for her home in Alliance.

Glen Barnard went to Grand Island yesterday to attend a Union Pacific safety meeting.

### HELP WANTED

The Quiz wants a young man or young woman who has the time and inclination to visit every home in Liberty and Eureka townships, one in each township to make a survey which we want made. Must be able to write plainly.

## Scotia Town Team To Play In Ord Monday

Next Monday evening the Scotia town team will come to Ord to play the City League All-Stars and the All-Stars will be out for revenge. Last week, on the Scotia floor, the All-Stars dropped a game, 18 to 15. Krejci did not play against Scotia last week, which gives Ord an edge, but the Scotia team will have the services of Coach Nitzel and Drake, two of their stars who did not appear against Ord last week. A good game should result.

### Big Double Header Monday Eve

A preliminary game that is sure to arouse more than ordinary interest will be played between Coach Krejci's Ord high school first team and the All-Star Reserves. Captain, of the All-Stars, will select from the city league roster several more players to play against the high school five.

This double header card will start promptly at 7:30 p. m.

### To Have Sunday Service.

Ericson will have Sunday mail service after Febr. 1, according to Bob Simons, a state route mail carrier. The start route will leave Neligh at 8:15 a. m. each Sunday, going through Elgin and Bartlett and arriving in Ericson at 7 a. m. Spalding also will have a star route service from Bartlett each Sunday.

## COUNTY BOARD VOTES NAY ON CROW BOUNTY

### Vasicek Resolution Asks Modest Sum To Thin Out Pests But 4 Members Are 'Agin It.'

Though a resolution proposed last week by Joe Vasicek, supervisor for Ord township, asked only the modest sum of \$500 to be expended for crow bounties, a majority of members of Valley county's supervisory board "couldn't see it that way" and the proposal was voted down, 4 to 3. Vasicek, E. C. James and Chas. Clochov voted for the bounty but they were defeated by V. W. Robbins, Chas. Johnson, J. A. Brader and Morris Sorensen, who cast votes against it.

Mr. Vasicek's resolution would have appropriated \$300 for the payment of a bounty on crows at the rate of 10c for each crow head and 50c per dozen for eggs. It is regarded as a measure generally favored by Valley county farmers and sportsmen.

It is generally admitted that the black pests are making a terribly rapid increase in this county. Ducks nesting in thousands can be seen in sections where crows are down. During the day they feed all over the county, costing farmers thousands of dollars in corn. It is also well established that crows are among the greatest disease carriers in the spreading of cholera and other diseases among cattle, hogs and chickens from one feed yard to the next.

Sportsmen of this section also are awakening to the frightful toll in bird life taken annually by crows. Prairie chickens and quail are nearly exterminated in sections where crows abound and waterfowl cannot hold their own against these pests. All song birds suffer from the inroads of the predatory crow and unless steps are taken against these big birds the time will come, sportsmen believe, when there will be almost the only bird found in this section of Nebraska.

If crows are to be thinned out here united action between farmers, sportsmen and nature lovers will be necessary to induce the county board to appropriate sufficient funds to pay bounties and otherwise carry out a campaign of extermination.

### Sells Land at Seward

Col. E. C. Weller returned last Saturday from Seward, where he had charge of two land auctions. While there he sold one farm of eighty acres at \$110 per acre and another of 180 acres at \$160, which proves that Seward county land is bringing good prices.

### Eldon Davis Graduating

Eldon Davis is a member of the mid-year graduating class of Lincoln high school and commencement exercises are being held this week. He will enter the state university for the rest of the year.

### Cushing Files As House Candidate

With County Clerk Klim's Tuesday morning, Marion Cushing filed as a candidate on the republican ticket for re-election to the Nebraska house of representatives. During the past term he ably represented this district in the house. The district is composed of Valley and Garfield counties and to date no one else has filed for the position.

## MAY PIGS BEST, IS OPINION OF MOST FARMERS

### Late Pigs Can Be Used For Hogging Down and To Run After Steers, Adult Class Decides.

"Pigs won't generally squeal if picked up by the tail" was one of the many popular beliefs brought out by the farmers attending evening adult schools at Valleyside and Haskell Creek in their second lesson on hog production. The classes are held once a week at each place with Jesse Kovanda, Ord Smith-Hughes agriculture instructor, in charge.

Valleyside and Haskell Creek farmers discussed most practical and profitable ways of care and management of the brood sow and litter in their second lesson. Many local practices that are proving most beneficial for Valley county farmers were suggested by farmers present at the night schools.

Farmers at the meetings voiced the general opinion that pigs should be farrowed in Valley county during the month of May. It is the common practice here now to farrow pigs at that time because the late pigs utilize new corn, can be used for hogging down and to be run after steers. However, some farmers at the meetings believed the earlier farrowed pigs before May were more profitable due to the fact that they hit the high September market.

In breeding hogs for litters, it appeared at the meeting that most farmers in the Haskell Creek and Valleyside communities use an old boar for a sire because they believe he is surer and gets stronger pigs. Cross breeding among hogs usually increases the weight but not the size of the litter, those present declared in their discussion on breeding for farrowing.

Valleyside and Haskell Creek farmers are finding each year through experience that a sow produces her largest litter at five years of age although there are some in those communities that are productive at ten years. Farmers in those two districts usually get rid of their sows when they get cross, deaf or clumsy with age, keeping in touch with her mother by daily telegrams.

For many years Mrs. Stroup was a teacher in the rural schools of Valley county. Determined to secure a university degree she alternated teaching with attending summer school sessions and finally, when 72 years old, attended Wesleyan University for an entire term and was awarded a degree.

Mrs. Stroup has been prominent in the work of the Ord Rebekah lodge and was made past noble grand on January 14, at the completion of a term of office as noble grand.

Her many friends and former pupils throughout this section are hoping that she will take a turn for the better soon.

## Perlinki Buried In Ord Saturday

### Aged Man Who Died Last Week At Home In Burwell Was Resident Of This County Many Years.

Funeral services for Michael Perlinki, 76, were held Saturday at the Ord Catholic church with Father Murray of Burwell in charge, assisted by Father Lawler, of Ord. The aged man was laid to rest in St. Mary's cemetery here.

Mr. Perlinki was born in 1854 in Posen, Poland, and died at 11 p. m., January 15, at his home in Burwell. Mr. Perlinki came to Wisconsin from Poland when he was 12 years old and lived there for several years, enlisting in the U. S. army when he was 18 years old. He served his country for five years at a time when a large standing army was maintained because of Indian outrages.

In 1881 he was married at St. Paul, Minn., to Jennie Ledo and in 1886 the family moved to Valley county, settling in the western part on a farm. Nine children were born to this union. Adam, Alliance; Joseph, whose address is unknown; John of Ord; Anna Iwanski of Burwell; Sophie Keller of Ord; Frank of Ord; Anthony, deceased; Thomas deceased and Clara Masur, of Lake Andes, S. D. He also leaves his widow and twenty-four grandchildren.

Mr. Perlinki lived the farm eleven years ago and bought a home in Burwell, where he lived until his death. He was a devout member of the Burwell Catholic church and of the Holy Name society of Burwell.

## GROCERS, GEM AND NYAL ARE EASY WINNERS

### Druggists Run Up Biggest Score Of Evening Against Penney Co.; Krejci Absent.

Andersen's Grocers, the Gem Theater and the Nyal Drug five were easy winners in city league basketball games played last night in the Ord high school gymnasium. Andersen's beat the Hill Clothiers, 14 to 7, the Gem out-lucked the Quiz 10 to 7 and the Nyal Druggists went wild in beating the Penney team 26 to 5.

Joe Krejci, captain of the Hill quint, was absent and his team fell easy victim to the up and coming Andersen aggregation. Jesse Kovanda, long shot ace, was the chief reason for Andersen's victory. The big ag teacher scored 8 points. Carlson tallied one field goal, Andersen got one field goal and a free throw and Parkins got a free throw to complete the Andersen scoring. Carloski scored 5 points and Bowers 2 points for the Hill team.

Neither the Quiz nor the Gem had five players in suit last night so they played with four each. Bro. Lashmet tallied 7 points, Perlinki 2 points and Schroder 1 for the Gem team. Andersen, Cass and Hill scored for the Quiz.

Ike Blessing was the heavy scorer for the Nyal team with 10 points, but Lashmet was right behind him with 9 and Gifford scored 6. Beeghly and Gudmundsen completed the drug store line-up. Good team play was displayed by this quint. Captain Nyal scored 4 points and Wolf scored 1 for the Penney team.

Next Wednesday McLain & Sorensen play the Gem in the curtain-raiser, Andersen's play the Quiz in the second game and Hill & Hill meet the Penney Company in the wind-up.

## Mrs. Clate McGrew Bitten By Dog

While walking along the street Wednesday afternoon Mrs. Clate McGrew was bitten by a police dog owned by Ralph Norman. Mrs. McGrew says she was playing with a Collie dog that was in the road and subjected the attack of the other dog. She would have been badly bitten had it not been for the heavy clothing she was wearing and she sustained severe nervous shock as it was. Dr. McGrew dressed the wound and no bad results are expected.

## HAVE YOU TRIED QUIZ COOKS RECIPES?

This week the cookery editor received a bouquet or two, as well as four splendid new recipes, all of which makes us feel very good, and we hope, after eating the new recipes, that you will feel the same! But then—of course you will!

**Topioca Pineapple Pudding**  
One cup minute topioca, to which add 3 1/2 cups boiling water and cook until clear. Add

1 cup sugar and a pinch of salt, 1/2 teaspoon vanilla, 1 small can of crushed pineapple (Also 1/2 cup walnuts if desired) Put into a bowl to cool then serve cold topped with whipped cream sweetened and flavored to taste.

**Chocolate Roll**  
Beat 2 egg yolks, add slowly 1 cup sugar,

1/2 teaspoon vanilla, 5 tablespoons cold water. Sift 1 cup flour with 1 1/2 teaspoons baking powder, 1/2 teaspoon salt and add alternately with 2 beaten egg whites. Spread very thinly on a greased pan and bake in a hot oven about 15 minutes. Turn out on damp cloth, spread with filling and roll white hot. Make this filling:

1/2 cup flour, 1/2 cup milk, 1/2 cup sugar, 1 tablespoon butter, 1 1/2 squares of unsweetened chocolate and boil together until thick.

Miss Verna M. Sobon, Burwell.

**Farina Cookies**  
(some say Cream of Wheat)  
1 cup of butter or lard, 1/2 cup sugar, 2 eggs, 1/2 cup milk, 1 teaspoon cinnamon, 3 teaspoons baking powder, 1/2 teaspoon salt, 1/2 cup farina, 1 1/2 cup flour

1/2 cup each of raisins and chopped nuts.

Mix in order like cake, but have stiffer batter. Drop by spoonfuls on greased pans. Have oven quite hot.

Mrs. Jerry Urban, Friend, Nebr.

**Chicken and Macaroni Dressing**  
Boil chicken tender and pick from bones and cut up in small pieces. In the broth that is left from the chicken, boil as much macaroni as desired and when cooked mix all together—the chicken and macaroni and season with salt and pepper and put in a greased pan. Bake in the oven until slightly brown.

Mrs. Jerry Urban, Friend, Nebr.

—Miss Rosanne Perlinski came from Kearney to attend her grandfather's funeral. Sunday her parents, Mr. and Mrs. John Perlinski and sister Miss Eleanor took her back to her work in Kearney. —Wednesday and Thursday, Mr. and Mrs. Roland Weed of Alliance were visiting their relatives, Mr. and Mrs. George Finch. Mr. and Mrs. T. S. Weed and Mrs. Andy Townsend of North Loup were also guests in the George Finch home.

## NEW SUITS SO DIFFERENT SAYS PATSY

The little suits that come in the spring trala, are very much different this year. So much so that we decided to let you see the difference yourself and are exhibiting two sketches of the new spring models. Now let's see, just what is different?

Well, they're longer, yes, yes, of course. They're circular, which they certainly weren't last year.

They are very intricately cut, so much so that they succeed in looking simple of line. In this simplicity lies their charm.

There doesn't seem to be much trimming of any sort. A severe tailoredness prevails. Novelty weaves and colors are back.

Many jackets flare in slight imitation of their skirts.

They really are quite different, aren't they? And on the whole the new effects are fascinating, don't you think? Notice that the severe

lines look very smart, and that a suit of this type would look well for most gatherings and parties, etc. around Ord and Valley county. This would certainly be practical for the business girl, for the school teacher, and why not for the country resident, under a coat of course, who must wear something very warm when riding back and forth to Ord these bitterly cold days? And why wouldn't these suits look very nice for project club meetings, for keningsons, for church societies?

In fact a suit looks well any place it is worn, just so the color and style are becoming to the party of the first part.

—Patsy, the Particular.

—C. A. Davis writes his brother, Clarence Davis and family. The letter arrived Tuesday. Mr. Davis has been ill but is better and back to work. ### UNCLE SAM TO ASK QUESTIONS

#### Census Enumerators Will Be More Inquisitive Than in 1920, Query List Shows.

When the census enumerator comes round next spring you will have to answer several more questions than you did ten years ago. The ordinary census blank, it is said, will have twenty-four questions. If your answer to some of those indicate that you are more or less exceptional in some way, you may be required to give further information. For example, the enumerator will ask you whether you are actually working at some job or not. If you are not, additional information will be asked of you on a special unemployment schedule, for this census is to determine how many people are out of work and why.

The lineup of the questions you will be asked is about like the following:

- 1-Relationship to head of family, including a statement as to the homemaker in each family.
  - 2-Whether home is owned or rented.
  - 3-Value of home, if owned, or monthly rental, if rented.
  - 4-Own a radio set?
  - 5-Does the family live on a farm?
  - 6-Sex.
  - 7-Color or race.
  - 8-Age at last birthday.
  - 9-Marital conditions.
  - 10-Age at first marriage. (For married persons only.)
  - 11-Attend school or college any time since September 1, 1929?
  - 12-Able to read and write?
  - 13-Place of birth.
  - 14-Place of birth of person's father.
  - 15-Place of birth of person's mother.
  - 16-Mother tongue of each foreign-born person.
  - 17-Year of immigration to the United States. (For foreign born.)
  - 18-Whether naturalized. (For foreign born.)
  - 19-Whether able to speak English. (For foreign born.)
  - 20-Occupation of each gainful worker.
  - 21-Industry in which employed.
  - 22-Whether employer, employee, or working on own account.
  - 23-Whether actually at work. (For each person out of work, additional information on a special unemployment schedule.)
  - 24-Whether a veteran of the United States military or naval forces; and for each veteran, in what war or expedition he served.
- New questions in the census this year are those relating to the value of rented homes, to the age at first marriage, to employment and to radio sets.

### Ochsner Wins State Pig Crop Contest

Honor M. Ochsner of Madison county was the winner of the 1929 Nebraska Pig Crop Contest, according to recent announcements forthcoming to the Quiz from the college of agriculture. Only one Valley county man was entered in the contest for the year and he failed to produce over one thousand pounds of pork per litter in six months time. The state winner, Ochsner, had six Duroc sows entered in the contest who averaged 1665 pounds of pork per litter in six months time. There were twenty other Nebraska farmers that had litters that averaged over one hundred pounds of pork. In producing such a high average per litter for the year, Mr. Ochsner fed corn, oats, alfalfa, pig meal, milk, sweet clover and used alfalfa pasture. He put his gains on the hogs at a cost of \$7.31 per hundred pounds.

Crops Days Febr. 13 and 14. "We will hold our county Crops Days this year February 13-14 in Valley county and are hoping that farmers will take advantage of the opportunity of attending and learning a little more about hog-corn production. Questions pertaining to both will be answered if at all possible," said Carl C. Dale, county extension agent, today. Paul McDill, state agent for baby beef clubs, and D. L. Gross, assistant crops extension agent, will be in Ord during the two days for the meetings. They are expected to be asked many questions as to problems that local farmers are confronting them. Further arrangements for County Crops Days are being made now by Agent Dale and will be announced later in the Quiz.

It has been successfully proved that black foxes and other fur bearing animals can be raised successfully in commercial quantities in Nebraska.

Violet Rays Fight Disease  
Apples and Oranges  
Little Men Do Learn  
No Chemical Life

Doctor Lucas, one of the many able scientists employed by the telephone company, has perfected a "violet ray" microscope, expected to work wonders in the fight against disease, specifically in treatment of cancer and other malignant tumors.

A violet ray machine, using 10,000 volts, magnifies to an extent absolutely amazing, making the specimen examined "seem to jump through the lens."

Following a typhoid epidemic at Ovidio, in Spain, drinking fountains were closed and people ordered to drink only cider. In a week the epidemic vanished. Spaniards believe that apple juice kills germs.

Perhaps cutting off a bad water supply had more to do with it. But every human being would be better for an apple a day at noon and an orange in the morning. Some one should make a little cider press that could be used at the family table, to squeeze out the cider and give it to children with their noon meal, fresh from the apples.

If you have a darling pet parrot, do not bury your nose or mouth in its pretty feathers or stroke the parrot and afterward put your hand to your mouth. Surgeon General Cummings of the national health board says parrots are bringing into the country a ghly dangerous disease, easily contracted, often fatal. Several cases have occurred in Maryland.

The big ill wind that blew in Wall Street did somebody good. New York's savings banks report more than eighteen thousand new accounts within a few days after the slump. The "little" man seems to have learned a lesson.

At the royal wedding in Rome five foreign sovereigns, five rulers who had recently lost their jobs, and fifty-four other royalties looked on. Queens, princes and princesses crowded the chapel.

The interesting moment came when Mussolini, Italy's dictator, entered and was saluted by all the royalties with the Fascist salute, the outstretched right arm. Mussolini did not march with the royalty. But when they saw him and gave him that salute, angels, looking down, could easily identify the real ruler of Italy.

Doctor Heyl, physicist of the United States bureau of standards,

says science will produce life artificially. "It is chemical, not supernatural," and there is "nothing occult in the processes of life."

Nothing occult, perhaps, but Professor Heyl will not produce life nor will any other physicist by chemical means. Things may be made to wiggle, but that will not be life.

This universe is a great trinity—matter, force and spirit or consciousness. No scientist will produce consciousness, possessing the potential ability to think. Chemicals can't do that.

A Mr. Morgan of California is returning from England with "overwhelming proof" that Bacon wrote the plays credited to Shakespeare.

On the way Mr. Morgan might read the critical study of Shakespeare by Brandes, Danish author. He says truly that whoever ascribes Bacon wrote Shakespeare, simply proves that he himself, has never intelligently read either Bacon or Shakespeare.

Mexico experiments with the criminal law. Instead of a jury there will be five "technical experts," the degree of guilt based on the criminal's intelligence and realization of his crime.

No punishment for your first crime if you were hungry and hurt no one. Here we allow a dog one bite, but don't allow a thief one theft.

No Mexican death penalty for civil crimes. Revolutionists will be shot as usual.

The new law assumes that crime is largely a "disease." Criminologists in many countries have suggested similar changes. Mexico is first to try them.

This country is prosperous, full of opportunities. But many of us reach old age poor. A careful survey shows in the United States 2,000,000 individuals past sixty-five years of age dependent for support on others.

Save while you have strength. "The hateful road of old age," as Hector's father called it, is bad enough at best.

The United States army of simpletons that buy stocks when gentlemen ring the doorbell and tell them "now or never" or when other gentlemen call them on the telephone, are interested in this:

One get-rich-quick concern on trial in a federal court is said to have spent \$400,000 in one year for telephone messages to fools.

You may imagine how much the geese at the other end of the telephone must have lost to justify a \$400,000 telephone bill in one year.

Robert Graves, British poet, who was an officer in the big war, publishes startling reminiscences. He says British officers in the trenches were generally stupid and drunk, and British soldiers had more respect for the Germans than for the French.

my friend George Cummins didn't venture outside during that cold weather. He is a pretty tough old sinner though and 56 below might not affect him much.

Old Buck is offering two prizes, one for the handsomest and one for the homeliest newspaper man at the winter meeting of the State Press association which will be held in Omaha in February and both Dan Webster and Asa Wood are claiming to get in on them.

I don't see how both of them are going to get that last one. I feel that they both ought to win it and perhaps the judges will simply split it. There is no question about who will get the first one but I am too modest to indicate who I think it will be.

Notice that up in Montana it got to be 56 below and I am hoping that

It gets pretty cold here sometimes, but it always warms up again. Last week when it was 26 below we wondered when it would warm up and then in a couple of days we got up in the morning to find it only 5 below and we bragged

Got a brief letter Saturday morning from Chester Cole of Shelby saying, "Send us the Quiz for a year, P. O. money order enclosed." It reminded me of several things. One was the nice butter that the Quiz family bought for several years from the Cole family; also the good home made sausage that Chet brought us several times. It also reminded me that people who have lived in Valley county and formed friendship always are glad to hear from them through the home paper and often that hunger gets so strong that they send for it and ten, frequently they come trekking back to again make their home here. After all, everything considered, where would you find a better place to live.

Let Us Give You A \$5.00 Bill

It will be just the same as giving you \$5 if you buy your next load of coal here, for we can save you from \$2 to \$5 on every ton. We buy coal for cash and can sell it to you the same way at prices that will save you money. It's good coal, too—high in heat units that will keep your house warm on the coldest days. You could use a five spot so buy your next load of coal from us.

## QUIZ FORUM

Sorensen Near Oil Fields.

Dear Ord Quiz and Readers: We regret that we had to leave Nebraska so suddenly. Nov. 29th was the day we left for California. The day before we received word from home that our house had been broken into by thieves. Well, we got home the following Sunday night. Of course, we looked into everything to see what was gone. My wife found that a large part of our canned goods was gone. I discovered my gas and oil barrels were almost empty, about 15 gallons gone from each barrel. We had our new Ford in the garage. It was locked but the car number was taken off and a lot of things moved to make a clearing to take the car out but for some reason unknown they did not make away with it. The total loss was about \$25 or \$30. I said to one of my neighbors that I should have hired someone to stay nights. He said that is just what a man west of me did and thieves got away with \$300 worth of goods, from 8 to 10 o'clock at night. The watchman was at a picture show during that time. A prominent man in Red Bluff said to me that the depression of the times this winter with so many people out of work made desperate people.

Drilling for oil 13 miles southwest of my place is progressing to 1300 feet at this time. The drilling is done by the Marker Drilling Co. of Long Beach. S. D. Furber, geologist of Red Bluff had predicted a shell formation would be found at the 1300 foot depth and this was found to be true. From now on close scrutiny will be kept of the formation as a real oil sand is anticipated between the 1400 and 1500 foot depths. A large area adjoining Red Bluff is leased by an oil company 8 or 9 miles north of my place.

Rain this winter started the 8th of December. Yesterday the Sacramento river raised 21 feet above normal. It looked almost as red as fire from the red soil carried down by it. Our rainfall this fall is nearly 12 inches. At Fresno it had rained only .03 of an inch up to the 20th of December.

I am now finishing my letter on the 12th of January 1930. We had heavy frost the 10th and 11th. Today about 5 inches of snow fell here. Four feet of snow is reported in the vicinity of Mount Lassen.

An important court decision was rendered in favor of two Nebraskans and one Iowa who had purchased land of Sol Field, brother to Henry Field of Shenandoah, Ia. Sol Field was scored for alleged misrepresentation regarding the land he sold to these parties. This is the same land that Henry Field has been broadcasting about over the radio.

This is about all for this time. Lastly, we are busy taking care of 300 chickens which are starting to lay eggs pretty good now.

Yours truly,  
Thorvald Sorensen.

Adds To M. E. History. Montour, Ida., Jan. 13, 1930. To the Ord Quiz: Friend Leggett: After reading the article by Mrs. Mason on the M. E. church history, thought I might add a little that might be of interest to some people.

In the first place the M. E. church in Valley county was organized when Ord was the grazing ground of deer and antelope, without one single inhabitant.

It was organized early in the spring of 1873 in Springdale, three-fourths of a mile north of the Springdale school house on the N. E. Harter place. The membership was at that time as near as I can recollect, Mr. and Mrs. O. S. Haskell, Mr. and Mrs. D. C. George,

Harry Bailey, Uncle Cad Collins, Frank Cushing, Mr. and Mrs. B. W. Hancock, my father and mother and I am not mistaken, Mr. and Mrs. W. E. Freeman, parents of Minnie Freeman, heroine of the 1888 blizzard. A Sunday school was also organized with that old soldier of the cross, Frank Cushing as superintendent. Preaching services were held each Sunday during the summer by O. S. Haskell. In the fall Mr. Haskell moved to Canada Hill in Howard county and there being no one to take his place preaching was discontinued, although prayer meetings were held weekly at some one of the member's soddy or dug-out as the case happened to be during the winter of 1874. The next two years following were the grass-hopper times (those good old times) when a good portion of the settlers of the valley could not stand the pressure and left the country, some never to return. Thenceforth the courage to stick suffered privations that would appal the strongest hearts today. During those days there was a oneness or unity of the spirit that prevailed the whole length of the valley. Everybody was everybody's brother and there was no race, creed or condition. That does not prevail today in any church organization in Ord or elsewhere.

I recall a little scrap of poetry composed by my father which is descriptive of the times. Nebraska is a friendly place, The people are all brothers And when one gets a sack of flour, He shares it with the others. During those times the river bridge was put in and the Ord school house was built which thereafter became the civic center and common meeting place for all denominations, literarays, and lodges. It was there I signed the good templers pledge and there I took my first part in a literary program.

During those days my parents became convinced that a good part of the M. E. teaching was unscriptural, such as the immortality of the soul, going to heaven or hell at death, sprinkling or pouring for baptism, Sunday observance, etc., and dropped out and united with the Church of God. Thereby (in their estimation) taking adverse ground in the service of the Master.

I know of only two of the first M. E. members that are alive at this time, they being Frank Cushing and Harry Bailey, but can exclaim with the apostle: "Blessed are the dead that die in the Lord. Henceforth they shall rest from their labors and their works do follow them."

## SORE THROAT? DON'T GARGLE

This Doctor's Prescription Gives Quicker, Better Relief Don't suffer the pain and discomfort of sore throat. Use a doctor's prescription called Thoxine guaranteed to relieve with the very first swallow. Gargles and salves are too slow and if they do relieve, it is usually only temporary. Thoxine has a double action—it relieves the soreness and goes direct to the internal cause. It contains no harmful drugs and is safe and pleasant for the whole family. There is nothing better to stop coughing due to irritated throats. Just ask for Thoxine, put up ready for use in 35c, 60c and \$1.00 bottles. Money back if not relieved. Sold by Ed F. Beranek and all good drug stores.

Easy! Quick! Glycerin Mix For Constipation Simple glycerin, buckthorn bark, saline, etc., as mixed in Adlerika, relieves constipation in Two hours! Most medicines act on only lower bowel, but Adlerika acts on BOTH upper and lower bowel, removing poisons you never thought were in your system. Just ONE spoonful relieves GAS, sour stomach and sick headache. Let Adlerika give stomach and bowels a REAL cleaning and see how good you feel! Ed F. Beranek, druggist.

## Attracting Ordites To Ord Stores

HAVE you ever watched some of Ord's citizens go riding off away from Ord to do their shopping? Have you ever watched them come riding back, loaded up with supplies? Have you ever, while you watched, wondered why they passed your stores right here in Ord?

Sure, you have. So have all of us, whose first and deepest interest is in Ord.

Yes, we've watched. And we've wondered. And we've felt badly about the fact that these good citizens of Ord chose to shop outside of Ord.

It isn't that you merchants of Ord don't offer shopping means just as good as those of the stores in the nearby bigger towns. No, that's not at all the reason. Your merchandise is just as good. Your service, too, is every bit as good. Maybe better.

One reason is that the nearby bigger towns do a better job of attracting some of Ord's citizens to their stores.

Your job, then, you merchants of Ord, is to do some attracting of your own.

Puzzled wondering won't do it. Neither will mere talk. But advertising will. Not only your own advertising. But the

advertising of the manufacturers whose goods you try to sell, as well.

Your immediate job, as you can well see, is to get into your local, home newspaper the advertising aid of the manufacturers whose goods are on your shelves. And you can help get this aid easily enough.

After all, merchandise can be sold only in ratio to the amount of selling effort expended. Advertising is selling effort. It performs all the functions of selling but that of supplying the personality which the merchant himself does.

One of these days, maybe today, you'll be visited by the salesmen of the manufacturers whose goods you stock. Whenever they come, interest them in Ord. Interest them so that they'll want to interest their sales managers.

Once you've injected this interest into the salesmen, it will spread. And spreading it will prove extremely helpful in bringing into your local, home newspaper the advertising support of the manufacturers whose interest it is that you sell more of their goods.

Once you've got this advertising support, you will have a decided advantage in attracting Ordites to Ord stores.

THIS newspaper has joined small town newspapers all over the country in a nationwide campaign to convince national advertisers that they can best assist small town merchants by advertising in the local, home town newspapers of the small town merchants.

You need the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your local home newspaper.

By MRS. RAY GOLDEN

**Farmers Club to Meet Jan. 25th.**  
The Lee Park Farmers Club will meet at the H. C. Delano home Saturday, January 25th instead of the J. B. Stone home as was previously announced.

**Harold White Married**  
Miss Gladys I. Smith and Harold E. White were united in marriage at a simple ceremony performed yesterday at his home by Rev. H. E. Milnes of the First Methodist church. The bride wore an afternoon frock of brown crepe.

After the ceremony there was a reception for the newly weds at the home of Mrs. Hazel Langer and Miss Doris Smith, sisters of the bride.

Mr. and Mrs. White will make their home at Walnut Grove where he is connected with the Marsh Motor Co. Mr. White is the son of Mrs. Pearl White of Courtland and his bride is the daughter of Mrs. Sarah C. Smith of Hood.

On Monday evening a surprise kitchen shower was given for Mrs. White at the Nurses Home at the Sacramento Hotel from which she graduated this week as a nurse.

—Sacramento (Calif.) Sunbeam.  
Harold is a graduate of Arcadia High school and lived in this vicinity for many years previous to moving to California.

**Fire at Judah Hotel**  
Fire, starting from a defective flue, caused considerable damage to the roof and walls of the Judah Hotel Wednesday morning of last week. The fire department was called promptly but it was necessary to break wall openings in two bedrooms before the seat of the fire could be reached. Water and smoke also played a part in the damage.

**Second "Broadcaster" Appears**  
The second number of "The Broadcaster" appeared last week with an abundance of interesting school news. The news sheet is edited by the students of the class in Journalism of the Arcadia high school and will be issued every month during the remainder of the school year. It fills a much needed place for keeping the grades of the school informed of the school activities which are in progress and also helps promote a spirit of co-operation.

**Funeral services for Mrs. Estella Pierson** were held Friday afternoon at two o'clock at the Hastings Undertaking parlors. Services were conducted by Rev. R. O. Galtner, pastor of the Methodist church. Burial was made in the Arcadia cemetery beside the body of her adopted son, George, who passed away a number of years ago at the age of 5 years. Mrs. Pierson passed away Thursday, Jan. 16th after a short illness of pneumonia.

**Estella Pickett** was born in Bridgewater, Susquehanna County, Pennsylvania, October 8th, 1851 and passed away at her home in Arcadia January 16th, 1930 at the age of 78 years, 3 months and 8 days. She was married to Cyrus Pickett in 1874. Her husband died in March 1879 they moved to Valley county, Nebraska where they resided several years. They then returned to Pennsylvania residing there until the death of Mr. Pierson. Since that time Mrs. Pierson made her home in Arcadia where she was cared for by her brother, W. F. Pickett for a period of nineteen years.

**Adolph Rettenmayer Passes Away**  
Adolph Rettenmayer, brother of C. O. Rettenmayer of Arcadia, passed away Saturday morning, January 18th at his home, three miles south of Loup City. Mr. Rettenmayer who was seventy-four years of age, suffered a stroke of paralysis about three weeks ago and from that time his condition was regarded as serious. He was one of the earliest settlers of Sherman county, having resided in that vicinity for over fifty years. He is survived by four brothers, C. O. Rettenmayer of Arcadia, L. A. and W. H. Rettenmayer of Loup City and Fred Rettenmayer of Grand Island, and two sisters, Miss Bertha Rettenmayer and Mrs. C. W. Conliser of Loup City.

**Funeral services** were held from the home Tuesday afternoon at two o'clock, the pastor of the Methodist church at Loup City conducting the services. Burial was made in the Loup City cemetery.

**Ice Harvest in Progress**  
Victor Larson has had a force of men busy the past week harvesting a nice, clear brand of ice which measures about fourteen or more inches in thickness. Victor is filling the ice houses for local men, but will not have charge of the ice delivery for the town this summer.

**Homer Wisser Injured**  
The following item taken from the January 17th issue of the Custer County Chief concerns Homer Wisser, son-in-law of Mrs. Earl Drake who resides east of Arcadia. Mr. Wisser married Miss Mona Pierce about six months ago and since that time they have made their home at different points on the Burlington where Mr. Wisser has been in charge of an air compressor.

"Homer Wisser, a member of the Burlington railroad construction gang of Lincoln, was cut about the head and bruised about the back when he was struck by the engine of passenger train No. 44 as it was about to leave Alliance Tuesday forenoon.

Wisser, who operates an air compressor, was crossing the tracks in the yards on the way to get a pail of hot water for the radiator of his machine when the accident occurred. He evidently did not notice the engine which was gaining speed preparatory to leaving the station. His condition is not regarded as serious."

**Men's Community Club to Meet**  
The Arcadia Community Club will hold their first meeting of the new year at the basement of the Methodist church next Tuesday evening, January 28th at 7 p. m. If you are interested in becoming a member of the club this year you are requested to present your name to the secretary, Mr. Haywood, before the meeting, but if you are unable to do so, come out and attend the first meeting anyway.

**Marjorie Smith Honored**  
The Sunday Bee contained an excellent picture of Miss Marjorie Smith who was an instructor in the Arcadia High school four years ago. Miss Smith has been elected president of the Alpha Pi sorority group of Omaha and Council Bluffs. She taught school in Arcadia for a period of two years and will be well remembered by her many friends here.

The Legion Auxiliary will meet Friday, January 31st with Mrs. A. E. Weddell.

**Pig Club to Meet**  
The Arcadia Litter Pig Club will hold their first meeting of the year at the Clayton Ward home Friday evening, January 24th at 8 o'clock. Election of officers will be held. All members and any new members desiring to join are urged to be present.

**George Scott Disabled**  
Mrs. Clayton Ward received a letter last week from her brother, George Scott informing her that he was at present located at the National Military Home for Disabled Veterans, Leavenworth, Kans. George had been working at Nathezer, Miss., for six months and while there contracted malaria. The Veterans Bureau at Nathezer advised him to enter the home at Leavenworth for a couple of months rest. After entering there and being thoroughly examined he was rated as permanently disabled, due to leakage of the heart. He was advised to discontinue all work. George says he is feeling good at present and enjoying his stay at the home. The boys are furnished their clothes, a good home and care and the privilege of going and coming when and where they please.

## Barker News

The P. T. A. of Barker met last Monday evening with a pretty good attendance although the sudden snow storm which we had, prevented many from going. Glen Auble and a part of his orchestra were there to furnish entertainment after the regular business. The county superintendent, Miss Clara McClatchey was also there and had planned to present to the Barker school district the Standard plate which they have recently achieved but she had not yet received it. However, she gave a very interesting talk to the people concerning the Standard plate. Barker was one of the three Valley county schools that have earned the Standard plate. After the regular meeting, Mr. Auble led community singing. After having sung several numbers, the Auble orchestra played and sang some popular music, which was much enjoyed by all. The Barker folks hope to have these folks back again at some future meeting. The refreshment committee served a delicious lunch, after which all departed for home.

**Miss Carrie DeArmont**, who has been in Lincoln, came to visit her uncle, Chas. Brennick, and spend several days with him. Sunday Mr. and Mrs. Harlon Brennick, Mr. and Mrs. Pearl Weed and son Everett and Mr. and Mrs. Boyd Mulligan and Darlene were at the Chas. Brennick home to spend the day.

**Harry Brennick** called at the Chas. Brennick home Sunday morning. He expects to return to Ord for Hastings and make his home for the remainder of the winter.

**Mr. and Mrs. Clifford Collins** took dinner at the Chas. Collins home last Wednesday. In the afternoon Clifford hauled logs to town for home.

Christian Meetings Progressing

The meetings at the Christian church are going on in spite of the weather conditions. It is hoped that we will have some pleasant weather from now on and that you will take advantage of it and attend. The chart sermons are bringing out a goodly amount of comment and discussion and all are pronouncing them most instructive. The pantomimes bring the great hymns home in a very interesting manner. The Bible study each evening is giving many a new conception of the word and helping to a right dividing of the word. You are urged to come and have a part in these meetings. We wish to thank the former neighbors and friends for their assistance and words of sympathy during our bereavement incident to the death of our wife, daughter and sister. E. H. Strickler Mrs. J. A. IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By Rev. P. B. Fitzwater, D. D. (Member Moody Bible Institute Faculty) 1920, Western Newspaper Union

Lesson for January 26

STANDARDS OF THE KINGDOM

LESSON TEXT—Matthew 5:1-48 (Print vv. 1-9, 17-20, 43-48)

GOLDEN TEXT—Blessed are the pure in heart for they shall see God.

PRIMARY TOPIC—How Jesus Teaches Us to Live.

JUNIOR TOPIC—Jesus' Standard of Life and Service.

INTERMEDIATE AND SENIOR TOPIC—Accepting and Following the Highest Ideals.

YOUNG PEOPLE AND ADULT TOPIC—A Christian According to Christ.

1. The Characteristics of the Subject (v. 1-12).

These characteristics are set forth in the nine beatitudes.

1. The consciousness of spiritual poverty (v. 3).

"Poor in spirit" means to come to the end of self in a state of spiritual beggary.

2. A profound grief because of the spiritual insolvency (v. 4).

The mourning here is because of the keen consciousness of guilt before a holy God.

3. A humble submission to God's will (v. 5).

This is the outgrowth of mourning over spiritual insolvency.

4. An intense longing to conform to the laws of the kingdom (v. 6).

The one who has received the righteousness of Christ as a free gift follows after the purity of character which expresses itself in deeds of righteousness.

5. Merciful (v. 7).

The subjects of the kingdom now take on the character of the King. Because of the mercifulness of Christ, His followers will be merciful.

6. Purity of heart (v. 8).

Since the King is absolutely pure, the subjects who enjoy fellowship with Him must have heart purity.

7. Peacemakers (v. 9).

The subjects of His kingdom not only have peace, but follow after that which makes peace.

8. Suffering for Christ's sake (v. 10).

The world hated Christ, the King; therefore those who reflect His spirit in their lives shall suffer persecution (11 Tim. 3:12).

9. Suffer reproach (v. 11).

To have all manner of evil spoken against us for Christ's sake is an occasion for glorying.

11. The Responsibilities of the Subjects of the Kingdom (vv. 13-16).

The world is in utter darkness because of its corruption. The subjects of the kingdom are to live such lives as to purify and enlighten. Their responsibilities are set forth under the figures of salt and light.

1. We are the salt of the earth (v. 13).

The properties of salt are (1) Penetrating, (2) Purifying, (3) Preserving. Since salt only preserves and purifies in the measure that it penetrates, so Christians only as they enter into the life of the world can preserve it from decay.

2. We are the light of the world (v. 14).

This world is cold and dark. In this darkness the devil has set many pitfalls, and the subjects of the kingdom should so live as to prevent the unwary from stumbling.

III. The Laws of the Kingdom (vv. 20-48).

1. As to the deeds of righteousness (v. 20).

The deeds of the subjects of the kingdom must spring from Christ-like natures.

2. As to sanctity of life (vv. 21-28).

The duty of the subject of the kingdom is to conserve and sustain his own life and the life of others. Rash anger is heart murder (v. 22).

3. As to organized life (vv. 27-32).

The family is the unit of society. The two awful sins against the family are (1) Adultery, (2) Divorce.

4. As to oaths (vv. 33-37).

Whatever is more than the simple form of affirmation or denial comes of evil.

5. As to behavior toward those who do not recognize the laws of the kingdom (vv. 38-43).

(1) Not revengeful (v. 39, 40). Turning the other cheek after being smitten, means, after one insult, permit another without revenge.

(2) Willingness to do more than is required (v. 41). If compelled to go one mile, go two miles with the one thus compelling you. (3) Be charitable (v. 42). Our hearts should always be open, ready to give to all. (4) Love enemies (vv. 43-48). Love to them consists in: a. Blessing them that curse us, b. Doing good to them that hate us, c. Praying for those who despitefully use us.

Hurley S. Warren, Pastor.

Presbyterian Church.

Don't forget the Hastings college gospel team that is to be with us Sunday. These five fine Christian young men are to have entire charge of the morning service. This last Sunday in January is young people's day in the Presbyterian church, with its particular theme of "Sharing," sharing with others, and it is therefore very fitting that we are to have these representatives of our college at Hastings to take this service for us. Be sure to hear them, at 11 a. m.

Also in keeping with the day and theme, Mrs. Goodhand's Sunday school class is to have entire charge of the Sunday school Sunday morning in place of the regular superintendent, so don't miss the Sunday school Sunday morning. Better plan to be on time or you may miss something fine on the program.

The ladies aid have purchased a badly needed new furnace for our church for which we are all very much pleased, and I am sure will be very grateful to these good women for so graciously coming to our relief. Mr. Crosby has promised that unless they have to go clear to the factory for this particular kind of furnace, they will have it installed and going Sunday. At any rate come expecting to be comfortable and we promise you a good program for Sunday, both in the Sunday school and in the church services.

D. C. Williamson, Pastor

Ord Christian Science Society

The subject of the lesson-sermon for Sunday January 26, 1930 will be "Truth." All are cordially invited to attend our Sunday services which are held at 11 a. m. and our Wednesday evening meetings which are held the second Wednesday of each month at 8 p. m. in the Lola building.

St. John's Lutheran Church.

(Missouri Synod.) Eight miles south of Ord. English services at 10:30. Bible class at 8. Instruction on the chief parts of Christian doctrine every Saturday morning from 9 to 11.

William Bahr, Pastor

Evangelical Church Notes.

Only one service yesterday on account of the cold and stormy weather but the attendance was real good for such a day?

We are looking forward to the visit of our general secretary from the Cleveland office who will have charge of our young people's conference on the evening of Jan. 29, 1930. We hope that the weather and roads will permit a large gathering. We hope also that some of our people will be privileged to enjoy the young people's conference at the E. B. church of Ord which will convene from Friday until Sunday of this week.

Our services for this week are as follows: Sunday school and preaching services at 10 and 11 o'clock with our Christian Endeavor and singing service in the evening beginning at 7:30 o'clock, to which all are invited to attend.

Nathan Thomas, Pastor

North Loup M. E. Church.

"Standards of the Kingdom" will be studied in Sunday school this week. What is your thought about the kingdom of God?

11 a. m. Worship. Continuing the general theme of our morning services: "On to Pentecost."

Evening services 7:30. The Junior League downstairs. The Epworth League in the League room.

7:30. The Young Peoples' delegates to the Tri-district Convention will have charge of our Evening Service this week. Come out and support this wide-awake and splendid interest.

Please Notice.

The class in Christian Life, a study course is given Wednesday afternoon at 4:15. The Children's choir is especially invited and will practice songs for Sunday school.

Week day services on Wednesday night 7:30.

We hope that you will consider the matter of special music in our morning service. Here is a vital interest. We have the talent. There should be more volunteers.

We appreciate the splendid choir we are having on Sunday nights. Thank you young folks.

G. A. Schwabauer, Pastor.

Davis Creek M. E. Church.

We were sorry to miss the service last week. It seemed to leave a vacant place in our Sabbath Day. Let us plan on this coming week. Sunday school at 2. Preaching at 3.

G. A. Schwabauer, Pastor.

North Loup Friends Church

You are welcome to attend any and all of our services, as follows: Bible school 10 a. m., Morning worship 11 a. m., Cottage prayer meeting 2:30 p. m., Christian Endeavor 7 p. m., Evangelistic Service 7:30 p. m., Mid-week prayer, meeting, Thursday 7:30 p. m.

Bessie Franc Brown, Pastor

Ord Methodist Church.

The Sunday school attendance last Sunday was something like the thermometer has been most of this week, way down lower than anybody wished, there being only 141 present. However everybody is hoping it will soon be warmer and the attendance will again be up to normal.

At this session Miss Leah Hather was awarded a pretty pin for two years perfect attendance.

At the morning service Attorney Bert M. Hardenbrook, piano accompanist, speaker, giving a very interesting talk on the subject, "Prohibition from a Different Angle." The talk was in honor of the tenth anniversary of national prohibition and Mr. Hardenbrook showed many ways in which prohibition has been of tremendous benefit to the country. It was very interesting and instructive and we were very sorry that the closing hour came before he had finished his address. However he told us he had promised his wife to close promptly at twelve o'clock and he kept his promise.

At the evening hour a quartette consisting of Mr. and Mrs. Glen Auble, Miss Beulah Pullen and R. J. Stoltz sang a beautiful number entitled "The City to which I am Going." The young people of the Epworth League gave a piano solo, "The Daring Youth," which was beautiful. It showed the many different fields of Christian usefulness to which young people are devoting their lives. Rev. Moorman read the story and the quartette sang the story and the quartette sang the story.

The King's Herald group held their regular meeting last Saturday afternoon at the church later going to the home of their Councilor, Miss Ruth Holloway for a social time together.

Glen Auble, who has charge of the music for the Sunday evening services is arranging for a choir from the Epworth League. This group met at the church Sunday afternoon for practice. Following the practice Mr. and Mrs. Auble and Mrs. Moorman served a delicious lunch.

On Friday evening at 7 o'clock the Loup Valley Methodist young people's conference convenes at this church with Rev. Moorman as dean, Rev. G. A. Randall, manager and Rev. S. T. Cramer, assistant. Harry E. Hess, superintendent of Kearney district and Mrs. Hess and Dr. A. V. Hunter of Hastings district have prominent places on the program. All of these speakers have had much work with young people and know just the things and ways to help them to give. Other speakers are Rev. G. A. Schwabauer of North Loup, Rev. C. E. Austin of Burwell, Rev. W. S. Morris and Rev. W. O. Birmingham. A very interesting program is arranged for Saturday, closing with a banquet at the supper house.

At 9:00 o'clock Sunday morning the conference communion service will be held. Instead of the regular lesson study at the Sunday School hour Rev. Randall of Scotia will conduct a Bible lesson, and at 11:00 o'clock Dr. A. V. Hunter will preach the Conference sermon. This service will close the conference.

The regular Sunday evening services will be held as usual.

A cordial invitation is extended to everyone to attend all the services of the day.

Methodist Church, Arcadia

The cold stormy weather has affected our services but little. There has been a fine spirit of loyalty shown in our regular services by the steady attendance of our people. Some have been kept away because of sickness, others because the church was cold but now since the second stove has been installed we can assure you that the church will be warm.

The Sunday School is doing fine and many are attending the study service which begins at 10 o'clock.

The Epworth League has been having a very interesting series of devotional topics for discussion. The one for next Sunday is "Exploring the Methodist Home Missionary Map."

Don't forget the young people's conference which will be held at Ord Friday, Saturday and Sunday. Program given in full elsewhere. Make your plans to attend. There will be fifteen or twenty of our young people register who will attend this conference. The question has been asked "Who is eligible to attend and what are the age?" If your child is eleven or twelve years of age and loves to study Christianity from a personal view it would be a fine opportunity for him to register. All girls will be matroned by Mrs. H. E. Hess, dean of the girls at the conference and you need not worry about your children if they are registered for this school.

You are invited to any and all of our services next Sunday. Sunday School at 10 a. m. Worship 11 a. m. Epworth League 7 p. m. Gospel service 7:45 p. m.

Christian Church

Our meetings are doing as well as could be expected with the weather what it has been. Whenever the night has been at all favorable we have had good audiences. We are sure expecting good weather from now on and of course you will be out and bring some one with you. We are hearing many fine things said about the chart sermons and how helpful and instructive they are. If you miss them you will be out some of the very fine sermons you need. Practically every problem that confronts you in understanding the Bible is explained in these charts and the other features of the meeting make them of more than common interest.

We think now that our subjects for the rest of the week will be Wednesday, "Positive Divine Law," Thursday, "The Cleansing Blood," Friday, "Can a Man Be Saved Outside the Church," Saturday, "God's Three Covenants With Abraham," Sunday morning, "The Church As Described in the Book," Sunday evening, "In Christ."

Two More Rural Schools Standard

School District No. 34, known as Old Yale and Barker, District No. 3, have met the requirement of the state department of public instruction and have been awarded the standard plates.

In order to be known as a standard rural school, a district must score a minimum of 75 points on organization, grounds, buildings and equipment. When a school feels that it has met these requirements the county superintendent scores the school according to the official standard and the score is certified to the state superintendent who issues a metal plate which is to be placed above the door of the school house.

Old Yale has one of the new type school buildings having proper lighting and ventilation so they had only to bring their equipment and grounds up to standard to qualify. The playground is neatly fenced and this is one of the few districts in the county having a windmill on the grounds. Last summer a new furnace was installed and the building painted both inside and out. All together it is a school of which the community can be justly proud and the boys and girls should be made to feel that it is a privilege to attend a standardized school.

Will Nelson as the father had offered his wife and two daughters \$75 to keep still until

two rooms, did not comply with the requirements for lighting or seating. During the summer the school officers set about to correct this. The windows were all moved to the south side of the building and more windows added. Unused space was converted into a small library or reading room for the upper grade students. A telephone was installed and small stove purchased for the basement so that they are now able to serve hot lunches more conveniently.

Last Monday evening, the parent-teacher association in this district used their regular meeting as a sort of celebration of the standardization of their school. After their regular business meeting and program on thrift county superintendent Miss McClatchey gave a talk on the value of a standard school. The Auble orchestra which had been invited down from Ord gave a much appreciated concert and the hospitality committee served refreshments in the basement. In spite of the stormy weather about fifty people were in attendance.

Haskell Creek, which has had the distinction of being the only standard school until now, was also having their regular Parent-Teacher meeting last Monday evening. After their regular business meeting the married folks had charge of the entertainment program and put on a comedy called "The Perplexing Situation." Will Nelson as the father had offered his wife and two daughters \$75 to keep still until

six o'clock. This proved to be a difficult matter and many amusing near tragedies resulted. Carl Holm as the old uncle from the backwoods country did his share in muddling things up. Mrs. Dora Jorgensen played the part of the mother.

# SCOTIA TAKES VICTORY FROM ORD ALL-STARS

Win, 18 to 15, in Rough Conflict On Scotia Floor; Return Game Here January 27.

Playing without the services of their scoring ace, Joe Krejci, the City League All-Stars were defeated last Thursday night in a rough game played on the Scotia floor, the final count being 18 to 15. Each team scored seven field goals but the Scotia team edged the All-Stars out by a margin of three free throws.

Unused to the small floor and low ceiling of the Scotia gym the locals were under a terrific handicap from the start. Nearly all the points made by both teams came as the result of long shots. Peanuts Jensen played a bang-up game at guard for Ord and also was high scorer for the local lads. He dropped two long shots through the net and tipped in a follow-in shot for his third counter. Carlson negotiated two field goals for Ord, and Nay and Baker got one each. Brothier Lashmett counted on a charity toss to complete Ord's scoring. Doug Badousek was the big noise in Scotia's victory though Grohosky and Curtis also looked good. The Scotia team was without the services of two stars, Coach Nitzel and Eren, so a much better game should result on January 27 when the Scotia team comes to Ord for a return game. Krejci will be in the Ord line-up that evening and the locals are counting on revenge.

The box score:

Ord All-Stars		Scotia	
fg	ft	fg	ft
Carlson, f	2 0 4	Badousek, f	3 1 0 6
Blessing, f	0 0 0 0	Grohosky, f	1 0 5

## High School Cagers Toss Away Two More

Two more basketball games tossed away by Ord high school. The record now stands six losses and no wins in the current game season. At Spalding last Thursday night the locals showed improvement but were missing set-up shots and lost 16 to 13. And to cap the climax, a weak and much-kicked-around Scotia team came to Ord and beat the local team on its home floor, 9 to 7. The loss to Spalding was forgivable, as the Irish are represented this year by a strong team that has won eight out of nine games. But to lose to Scotia! At that, it was a good game last Friday night. Both teams were weak but were evenly matched and the score see-sawed back and forth, first one team and then the other leading. With only a few seconds to play and the score 7 to 6 with Scotia ahead, Referee Pulliam called a foul on Scotia. Hughes stepped to the free throw line and just

as the gun ending the game was fired he dropped the ball through the net, tying the count at 7-7 and forcing an extra period.

Two of these periods were required before Scotia won, the first one ending with the score still tied and the winning field goal being made by Whitney just as the second extra period ended. Both Ord and Scotia had many shots at the basket but neither could hit it.

For Ord, Christensen looked best throughout the game. He is not a brilliant basketball player but played a bang-up game at back guard, stopping many Scotia rallies. Lashmett looked far from impressive and was yanked early in the second half by Coach Krejci. Benda, diminutive freshman, entered the fray in place of Lashmett and showed more fight than the rest of the Ord team together. This lad is a comer, if he succeeds in escaping the slump that has claimed older members of the squad.

A big shake-up is taking place on the high school squad this week and it is probable that new faces will be seen in the line-up this week-end when the Ord team plays at North Loup and Daneborg. "If we have to lose these games anyway we might as well give the younger fellows that have two or three more years in high school a chance to learn the game," Coach Krejci told the quiz this week-end. "These senior players aren't trying and I'm about through fooling with them," the Ord mentor said.

The coach will be backed up by alumni fans who are thoroughly tired out, not by the high school "core" spirit displayed all through the year by the school's most capable athletes.

## SALE OF SARGON BREAKS RECORD

Famous Medicine Rapidly Becoming Household Word Throughout America—21 Carloads Sold in 25 Days in 17 States

"This is the One Great Outstanding Proof of its Wonderful Merit."

Most medicines are sold by the dozen or by the gross. A few are sold in larger quantities but this medicine is sold in such enormous quantities that wholesale dealers are forced to buy it in solid carload lots to supply a demand that has been so phenomenal as to almost stagger the imagination.

That's just what has happened with Sargon, the celebrated new medicine that is now sweeping the country like a great tidal wave. Not only is the trade buying it in carload lots, but they are buying carload after carload, each car containing over 20,000 bottles of Sargon and Sargon Soft Mast Pills.

Twenty-four carloads in 25 days sold in only 17 states is the amazing record recently made by these wonderful medicines.

In the State of California where Sargon was introduced in April of last year, it has required 21 carloads to supply the ever-increasing demand in this one state alone. Texas dealers required 9 carloads in only four months.

A single New York firm, with wholesale branches in leading cities, is selling at the rate of over a million and a quarter bottles a year.

"Phenomenal and bewildering" is the way one of the big drug jobbers of the country describes the marvelous demand for Sargon.

"It's the greatest seller within the memory of the oldest members of our organization," said another.

"We are selling more Sargon than any other ten medicines put together," said still another.

And so it is everywhere Sargon has been introduced. From Coast to Coast and from the Gulf to the Great Lakes, Sargon is known and honored.

Millions upon millions have used it and have told other millions what it has done for them. When suffering men and women find a medicine that helps them, they naturally want to tell their friends about it and in this way Sargon is fast becoming a household word throughout America.

## Profits From Both Feed Lot And Milk Pail Is Bert Cummins' Idea

Has Fine Herd of Milking Shorthorns and Is Member of Test Association.

By GEORGE ROUND, JR.

A double shot at profits; they come from the feed lot and the milk pail.

Anyhow M. B. Cummins, member of the Valley County Dairy Improvement Association, will tell you that is what he gets from his dual purpose cows and he is apt to be right. He has plenty of experience to back up his statement.

As everyone knows dual-purpose cattle are those raised for milk and beef production. There are not many dual-purpose cattle herds entered in the dairy improvement associations as a rule but, nevertheless, Bert is "in" with a real herd of milking Shorthorns. He was one of the first Valley county men to sign up for the work when the association was organized by County Agent Carl C. Dale.

"What a man's aims are in the production and raising of cattle, either beef or dairy, should govern the selection of a breed of cattle of either type he wishes upon his farm. Size of the farm, feeding capacity and market for the beef or dairy products are some of the factors that should determine whether a man should raise a dual-purpose type or any other type of cattle," says Mr. Cummins.

As a result of having feeds and feeding capacity and the desire to keep dual-purpose cattle, Bert has the dual-purpose type on his farm. Yet he is in the testing association and a very prominent member, too. Bert has had great success in feeding his dual-purpose cattle on his 240-acre farm. For feeds he has alfalfa, sweet clover, corn, oats, barley and wheat available. He feeds his cattle out with his hogs following up.

"Taking of the calves from the dual-purpose cows and putting them in the feed lot we find a suc-

cessful method. We either sell the calves to a buyer after about one hundred days of corn feeding or else ship them to a principle Nebraska market after they have been in the feed lot for approximately one hundred eighty days," Bert declares.

However, it is obvious that not all farmers are so conveniently situated as is Bert for the production of dual-purpose cattle. He believes those farmers who are not so favorably situated and do not like that type of cattle are foolish to attempt to make a success of feeding and breeding them.

It is evident that Bert believes that farmers must hold his overhead down by not trying to expand in the business too rapidly and do the work about the farm himself if he expects to make good in his farming activities. Dual-purpose farming with cattle means much work but Cummins has made a success of it and his advice ought to be sound.

Being a booster for dual-purpose cattle, Cummins has a real herd of milking Shorthorns in the Valley County Dairy Herd Improvement Association.

At present Bert is milking sixteen mature cows and six two-year old heifers will soon freshen and be ready to milk. His stock is all purebred or of a very high grade. Bert bought his first bull to head his Shorthorn herd from Frank Moran, Tekamah, a prominent breeder. The bull was a purebred and was purchased by Bert through Howard McKelvie, who is well known over the state.

At present Cummins has several heifers in his herd that are the daughters of the original bull. He considers them the best in the herd. E. E. Williams and Roy Coleman, neighbors, also have daughters from the same bull and are enthusiastic over what they are doing in the way of production. This same bull when sold was probably one of the best Shorthorn breeders in the county, according to the sentiment in the Cummins neighborhood.

When asked as to what feeds he found best in all his feed experiences, Bert said to the writer, "I

have found that by feeding two bundles of corn fodder, as it comes from the field each day, plus all the alfalfa hay the cattle can eat is our best ration for feeding. However, this year we are feeding ensilage with the alfalfa."

"Bert is enthusiastic over the results the local association is producing in its first year of organization. However, he is not in the association for butter production alone.

"We do not keep our cows for butterfat production alone. We want cows that will produce good calves to put in our feed lots every fall also. By testing the cows and then if the calves from the high producing cows are good ones we have two revenues of income to fall back on each year, that of milk and beef production," Bert declares.

## Creamery May Have Milk Cooling Show

Co-operative creameries in this section of the state are to hold milk cooling tank demonstrations during the latter part of this month, according to announcement forthcoming from the college of agriculture at Lincoln. As yet Ord is not listed but is expected to put on a demonstration for farmers in this community.

Paul Hoff, assistant extension engineer, and Horace Young, representative of the Portland Cement Co., are to have charge of the demonstrations at the different creameries over the state. The creameries are having a set of concrete cooling tank forms made and the two men will demonstrate its use at the meetings.

Those creameries building forms for the tanks are in turn to loan them out to the farmers in their respective communities. The tanks are built economically and are practical on every farm.

Valley county farmers are hoping that the Ord Co-operative Creamery will hold a demonstration in Ord for their benefit.

Nebraska exceeds all the states in the interest taken in agricultural education. The Nebraska college of agriculture is an outstanding school whose students are transforming the business of farming with better methods of farm management.

## The Back Forty

By J. A. KOVANDA

The Future Farmers of America is a national organization of vocational agriculture students. Nebraska was recently granted a state chapter, and now has sixteen local chapters affiliated with the national organization.

The latest of these to be granted membership is the Ord high school. The Ord charter has printed thereon, the names of fifteen charter members who have passed the "Green Hand" test and paid their local, state and national dues. The officers of the Ord chapter are: Adrian Tolen, president; Charles Barnhart, vice president; Bud Brickner, Secretary; Harold Benn, treasurer; Valerian Clochon, Reporter.

F. F. A. membership may be associate, honorary, or active. The four degrees of active membership are "Green Hand," "Future Farmer," "State Farmer," and "American Farmer."

A duly qualified member is voted in as a "Green Hand." He may advance to the "Future Farmer" degree by memorizing the "Future Farmer" creed, leading a group discussion for 10 minutes, having at least \$25 productively invested and having completed a year of satisfactory work in vocational agriculture.

Each state elects ten "State Farmers" annually. To qualify, a candidate must make some team representing the school, have all grades above 85 per cent, have at least \$200 productively invested, lead a group discussion for 40 minutes, and show other qualities of leadership.

Those few achieving the "American Farmer" degree must be recommended by the National Board of Trustees and receive a majority vote of the delegates present at the annual National Congress of "Future Farmers of America." Before being elected, they must hold the degree of "State Farmer." They must have held office in the state organization, or have represented the state in a national contest. They must have at least \$500 productively invested, and they must be farmers or have definite plans for becoming farmers.

The insignia of the "Future Farmers of America" is made up of four symbols, namely: (1) a sheaf of wheat, representing the bread of life; (2) a plow, representing tillage of the soil, the basis of modern agriculture; and (3) the rising sun, representing progress.

All active, associate and honorary members may wear the insignia. All "Future Farmers" are entitled to wear a gold insignia. Members elected to the degree of "State Farmer" and those who receive the gold insignia on a rectangular key base. All members elected to the degree of "American Farmer" are entitled to wear the gold insignia directly mounted on a key.

The creed of the Future Farmer is a worthy creed. It says: "I believe in a faith born not of words but of deeds—achievements won by the present and past generations of farmers; in the promise of better days through better ways, even as the better things we now enjoy have come up to us from the struggles of former years."

"I believe that to live and work on a good farm is pleasant as well as challenging; for I know the joys and discomforts of farm life and hold an inborn fondness for those associations which, even in hours of discouragement, I can not deny."

"I believe in leadership from ourselves and respect from others. I believe in my own ability to work efficiently and to think clearly, with such knowledge and skill as I can secure, and in the ability of organized farmers to serve our own and the public interest in marketing the products of our toil. I believe we can safeguard those rights against practices and policies that are unfair."

"I believe in less dependence on begging and more power in bargaining; in the life abundant and

Fat cattle of good quality, stockers and feeders and butcher cattle are expected to be in a firm position. Short-fed steers lacking in finish, should not be in as favorable position, Hedges says in his report. Price advancement with the week ending January 11 may have discounted favorable factors but the fact that prices advanced in spite of the increase in market receipts suggests an active market.

There appears to be little chance for improvement in butter prices in the next thirty days. This will be due to the depressing supply situation. Receipts are running materially above those of a year ago. Increasing production is making it more difficult to move storage stocks.

Seasonally lower egg prices are probably due by the end of the next thirty day period unless delayed by very severe weather in the main producing sections, the report says. Prices from January to February usually decrease about 20 percent.

## Tuition Free For Uni Short Courses

Valley county farm boys who are not over twenty-one years of age, living in a rural community and having not graduated from high school, will be able to attend short courses at the college of agriculture with their tuition paid by the school district, according to County Agent C. C. Dale. The agent received word of the new ruling given out by State Superintendent Taylor late today.

It is expected that the new ruling will bear considerable influence on

Valley county boys who are thinking of attending short courses at the college. The tuition problem has been a great one for local farm boys to solve heretofore.

The auto and tractor course is an exceptional opportunity whereby Valley county boys may learn more about the workings of the two machines. The short course opens at the college January 27. Those interested should get in touch with County Agent Dale or write to H. K. Douthett, director of short courses, college of agriculture.

Nebraska does not claim fame as a scenic state but the valley of the Niobrara river ravishes the eyes of the lovers of nature's beauty. The rough lands of northwestern Nebraska rival the mountains in rugged grandeur.

Corn is king in Nebraska. Nebraska ranks first in quality and third in production.

# MANY NEBRASKA MEN HEAD BREED ORGANIZATION

Five Presidents, Many Officers And Directors Gives State Record To Be Proud Of.

By GEORGE ROUND, JR.

Nebraska probably has more representatives holding high offices in the more important national livestock associations and similar organizations than does any other state in the union. What a record! Listed among the Nebraska men who take an active part in the various associations are five presidents, two secretaries and one vice-president, eleven men are on the different board of directors. It is doubtful if any state can boast of such a record.

Three of the national swine record associations have presidents who claim Nebraska as their home state. It is thought the first time that any state has had so many men at the head of the recording association in the same year.

"Nebraska is proud of the number of her citizens who are at the present time holding such responsible positions in the national associations. Having such a large number of men from the state guiding the destinies of the associations speaks well for the quality of livestock breeders who come from Nebraska," declares H. J. Gramlich, head of the animal husbandry department at the University of Nebraska.

H. J. Smith of Bellwood is the president of the American Polled Hereford Breeders association for the coming year. The Red Polled Cattle Club of America has a Nebraska man, Chas. Graff of Bancroft, as its president this year. The election of Graff to the head of the club was a signal honor for Nebraska. The president of the Cattle club is well known in Nebraska among livestock circles.

Nebraska has A. Shallenberger of Alma and L. E. Crawa of Haigler as members of the board of directors of the American Shorthorn Breeders Association. Crews is the newly elected member of the board from Nebraska and is an outstanding breeder.

The American Aberdeen-Angus Breeders association valued the ability of E. L. Latfin of Crab Orchard this year to the extent that they elected him their first vice-president for the coming year. Another honor for a Nebraskan and Nebraska.

Nebraskans hold presidential positions in three of the national swine recording associations in the United States today. The Standard Poland China Breeders association elected Frank Rist of Humboldt at their president at the annual meeting held the past year. Three directors of the same national association come from Nebraska and they are S. Mc. Kelvie, Fairfield; J. W. Hamilton, Guide Rock; and O. E. Wade, Rising City. Certainly, Nebraska Poland China breeders are well represented in their national association.

The American Spotted Poland China Record association has Jas. S. Clark of Gothenburg as its president and Frank Walker of Waverly is on the board of directors of the organization. Here again Nebraska is well represented.

Former Governor Keith Neville of North Platte heads the National Duroc association to give Nebraska their second swine association president for the coming year, something that other states do not have.

Not to be outdistanced by the other associations, having Nebraska men in important positions, the Hampshire Swine Record Association has a Nebraskan on its board of directors. He is E. S. Rennick of Pitter.

Nebraska has representatives in the Percheron Horse Society of America as in other classes of livestock organizations. Ed Jones of Fairbury is the Nebraskan who is serving as a member of the board of directors of the Percheron association. He succeeded H. J. McLaughlin of Doniphan who formerly was on the board.

As in the other phases of livestock organization, so it is in the National Livestock and Meat Board that Nebraska has representation. W. B. Tagg of Omaha represents the state here. The one full-time secretary of a national livestock association halling from Nebraska is F. E. Mollin of Genoa. He is the secretary of the American National Livestock association which represents the livestock interest of the great west. The Nebraska man is now located in Denver. Robert Graham of Alliance is a member of the board of directors in the same organization. Last but not least comes another secretary of a national organization, relating to agriculture and livestock production. He is George Jackson, the general secretary of the Nebraska state fair, who is secretary of the Middle West Fair association. This organization of fair officials from the middle west plans the schedule of the fairs each year in order to permit the livestock exhibitors to show on a circuit.

"At the present time we have no Nebraskans on the sheep record associations; however, as the sheep industry develops in the state there will be an opportunity for Nebraska men to be represented in these organizations," says Prof. Gramlich. "All in all Nebraska is remarkably represented in the different national associations. Nebraska has five state parks and many state-owned lakes devoted to game fish and wild life propagation.

## KNOW Valley County IT IS A FACT:

That extension work in Valley county has been organized for over a decade. Carl C. Dale was the first extension agent to enter the field, following the war, and he still holds that position. Farmers in Valley county each year grow seed corn that compares in quality with that grown in other sections of this state and in other states. Recent exhibits by a leading corn fancier at the outstanding corn shows in America proved the quality of the corn when it won numerous high honors, exhibiting against the strongest competition possible.

## Club Work Education In Itself; Members Are Bound Together.

4-H club work is an education in itself for the boys and girls on the farms throughout the United States today. It binds those young people together as no other organization in the world does.

Without doubt, 4-H club work stands for clean, clear thinking along the right direction on a high moral plane, for economic production of livestock animals and home economics products and for good sportsmanship.

Anyone who is under twenty-one years of age may join a 4-H club. There are all kinds of clubs a boy or girl may get into. They may join clothing, canning, rope, pig, calf and other types of clubs as they wish. The city boy or girl is as eligible as the country boys and girls.

In joining any club the boy or girl first learns that he must think and act in a clean moral fashion. His habits are what 4-H club work is built upon. Economic production of animals or home economics products is one of the big features of 4-H club work program that appeals to all boys and girls. They all want to win prizes or raise their pigs or make their dresses as economically as possible, yet good. This is one of the things that club work does for them.

A pig club boy learns how to put the quickest growth on his pigs in the shortest time and to the best advantage. He learns how to prevent diseases from entering and destroying his herd. He learns how to show his animals in the show ring against fellow club members. The pig club boy or girl can pick the poor hog from the good one by his understanding of judging the better bred animals.

The calf club member learns how he can put a one-hundred pound gain on his animal in the shortest time to the best advantage, also at the cheapest price. He feeds a balanced ration which eliminates waste and makes every pound of feed count as pounds of gain on his animal.

The clothing club girl learns from her club work that she can make a costume very becoming at a moderate price, considerably less than it can be bought at the ready-to-wear store downtown. She learns how to do her own sewing in the quickest and most efficient manner. This is but practical work that the girl must learn to do in keeping house in later life.

The rope club boy sees how he may tie knots of many different kinds. He knows their names and what they are to be used for. He makes a knot board of all the knots he has learned through 4-H club lessons. Thus the best knots for tying horses, mules and other farm animals are of a practical benefit to the boy or girl on the farm or elsewhere.

Good sportsmanship is another feature of the 4-H club program in the United States today. Out of the thousands of club boys and girls in the country, only a small percentage of them can win major prizes at the state or county fairs, not all can attend the national shows and camps. Some must lose and if the club program were not based on good sportsmanship the membership over the country would decrease rapidly each year, only the money winners remaining in the club work. However, this is not the case as records show that more boys and girls are enrolling each year after seeing what practical good the club work has done for a neighbor boy or girl.

Ordinarily each club, no matter of what nature, meets once a month. A club is usually composed of about eight or more members and has a local leader who has charge of the activities of the club. Lessons are studied at each meeting and discussions. All lessons are sent to the leader from the extension service at the college of agriculture.

Club work is not all work and no play for every wide awake club has a party or picnic every once in a while. It is all a great part of the program.

Over Half of Dairy Purebreds in United States Are Holsteins. Over half of the purebred cattle in the United States, of which there are less than a million, are Holsteins, government figures show. The 916,602 purebreds in this country are classified as follows: Holstein, 528,621; Jersey, 231,834; Guernsey, 79,446; Ayrshire, 30,509; Brown Swiss, 8,283.

Wisconsin leads all states in the number of purebred dairy cattle, with 314,917. Other leading states are Ohio, 70,882; Michigan, 46,553; Illinois, 36,412; Minnesota, 32,668; Texas, 23,364; Indiana, 21,115; and Iowa, 20,286.

Good prices for purebred cattle are apt to prevail for some time with only 167,000 registered pure bred dairy cattle of the two main breeds to draw from in building up herds.

## ALL-STARS GIVE THEIR BEST BUT LOSE, 24 to 18

Continued from Page 1

Carkoski played his usual "hurry-up" game and his floor work was above par but he was in hitting the basket. Blessing also played a nice floor game but was unable to sink short shots with his usual accuracy. As in other games, the All-Stars lack of a scoring punch outside of Krejci was very evident. With a pair of forwards who could be depended on for a half dozen points each the All-Stars would be almost unbeatable.

The Roamers probably were the fastest cage aggregation that ever played in Ord. Their passing was almost unannounced and their floor game was beautiful to watch. Only Ord's close defense, said by the Roamer manager to be the best they have faced this year, prevented the Roamers from running up a huge point total. Manager Proctor also said that Krejci was the finest basketball player his team ever has played against.

In the second half the efforts of Ord's ace, Krejci, were almost nullified by the close guarding of Schmidt, who was detailed to prevent him from scoring. He was marked man but even then came through to score high honors. Efforts are being made to book the Roamers here for another game in February and if they are successful additional seats will be needed to accommodate the crowd that is sure to attend.

## AM I RIGHT?

By Geo. Round, jr.

Prof. Ferrin of the Minnesota Experiment Station told hog producers at Organized Agriculture held at Lincoln the fore part of this month that they should have an efficiency test for their brood sows. He declared that the dairymen had led the way in determining a test for their dairy cows in finding which were their best producers. He declared that it was now up to the hog men to follow suit and establish a test to determine the good and poor pork producers among the brood sows.

The Minnesota man suggested that the litters be marked when farrowing and weighed at different intervals to find what each individual brood sow was accomplishing. He said that they should be weighed at least at the end of the sixty day period and that by comparing records made under the same conditions, it was possible to find the good pork producers among the sows.

Ferrin stated that if sows were producing as efficiently as they should and on the same margin as dairy cows in relative manner that they should produce well over one thousand pounds of pork per litter in six months time. He appeared to know what he was talking about but it is doubtful if there are very many sows producing as efficiently as that in Valley county today.

Although there are some breeders and club boys who, without doubt, have sows that are capable of producing over one thousand pounds of pork per litter in six months time, they are few and far between in Valley county and other counties.

Perhaps if the test were applied to a majority of cases for a period of time that the results might be startling. The dairy industry has been helped along considerably with the coming of the dairy herd improvement as a result of the testing of cows for individual production. Farmers have found their poor producers and as a result have culled them out of the herd. In this way they have built their herd up to a efficiently producing one.

It seems possible, at least to me, that such a test as Prof Ferrin advised would be a practical thing for Valley county farmers to adopt. That of marking the litters and actually weighing them at different periods to determine the efficiency of brood sow production. It appears that if all litters were raised under similar conditions that such tests would be fair and have results that meant something.

The winners of pork production contests each year test out their sows by such a method and in that way build up their herd. The winner of the 1929 crop contest reported a remarkable production per sow by using such a test. Certainly if the winners can show the way to a better practice there is no reason that it is not a practical one for dirt farmers to try. It might be well to test out the suggestion for a time at least.

It is possible that this great old world of ours needs more men like Colonel Art Thompson of Lincoln. He is one of the most optimistic men in the state and appears to have confidence in Nebraska, her

people and her resources. Most people of this time are not so optimistic. In contrast appear to be very pessimistic over the future. Thompson who spoke before a general meeting at the recent Organized Agriculture meetings said people needed to have more faith in Nebraska. He said there was no use of complaining that is often heard today of conditions.

He is a man who has confidence in the state and her people and is not worrying over the future. What a wonderful thing it would be if all Valley county people, farmers and business men, had the same outlook. It would make for a better community in which to live.

People of today are not going through hard times or do not have such to look forward to in comparison to what our forefathers went through in order that we should be here today. They had never had our conveniences, not by a long shot, but they endured everything and came out on top.

Today when farmers and business men as well, in Valley county and other counties in the state and union are complaining about the condition of the times and the prospect for the future. Perhaps if they would look back, only for a second, upon the hardships they held our ancestors back in the settlement of this country, they will not be discouraged as they are today. It would give them a new viewpoint perhaps upon what the future holds for them.

People of today believe in the country and in the people. He isn't afraid of the future and if everyone only had the same confidence as does Thompson, what an improved world this would be.

The trouble, it appears to me, is that we of today holler before we are pinched. That is if things don't go well down on the farm or in any business we begin to yell for relief of one kind and another. True the problems confronting the farmers and merchants of today may be a great one but not in comparison to that of our and my forefathers who went through in the settlement of this country.

It is true that through time conditions have changed but if the people in this community will look forward to the future with a determined effort and with a little confidence it won't be so bad. We only need more confidence in agriculture as well as in business. Not a gloomy outlook on the future but a bright one.

Hugh Ward, the half pinter, is in the baby beef club this year in addition to the pig club. Wonder if he will be as successful as he was last year. Who says that baby beef club work won't be a success in Valley county this year. . . . Fred Howard of the Clay County Sun says to put a birth control pamphlet in your chicken house if your hens are laying too many eggs. It will cut the production immediately. He tried it out and friends didn't recognize him for weeks. He didn't have egg on his shirt every morning. . . . Charley Arnold, Springdale deacon, should have his "hot stove league" going full blast during this cold weather. . . . Dave Haught declares that the Quiz page is great if it wasn't for one of the writers. . . . If Art Shires were writing this column he would probably head it, "Certainly I'm Right". He could never be wrong. . . . Jim Bremer is one of the boys on the farm who would rather hunt rabbits after dark than to hulk corn. We often wonder if he has any success.

The income from the eggs laid by Nebraska hens in one year would have financed the Louisiana Purchase.

Wild life in Nebraska is encouraged and protected by stringent laws and by a number of game refuges.

## THE DESERT MOON MYSTERY

By **Kay Cleaver Strahan**

### THE STORY

**CHAPTER I**—Sam Stanley, wealthy owner of the Desert Moon ranch, informs his housekeeper, Mary Magin, who tells the story that his former wife's twin daughters, Danielle and Gabrielle, are coming to the ranch to live, their mother being dead and their father, Daniel Cassadine, having divorced his wife in the penitentiary. Sam has adopted a boy, John, now grown to manhood, and a girl, Martha, twenty-one, physically healthy but weak-minded. Ollie Micker, Martha's nurse, lives with them.

**CHAPTER II**—Hubert Hand, a wanderer, and Chadwick Caulfield, John's wartime buddy who is an expert ventriloquist, are the other members of the household. The girls arrive.

**CHAPTER III**—Mrs. Magin has an uneasy feeling that there is a sinister motive in the twins' presence at the ranch and the girls' mysterious strengthening by the girls' mysterious prowling around the place. John becomes engaged to Dora, a field show announced linking for Gabrielle.

**CHAPTER IV**—Gabrielle's actions when she receives a letter from France arouse and mystify Mrs. Magin.

**CHAPTER V**—Sam learns Cassadine is soon to be released from the penitentiary and he looks for him to come to the ranch. The household, with the exception of John, together upstairs, are in the living room when Gabrielle comes down and, with Caulfield, goes into the garden. Danielle, from upstairs, tells her she has a letter from back home. In a few minutes Danielle comes into the living room.

**CHAPTER VI**—Mrs. Magin finds Gabrielle, choked to death, with tobacco ashes beside her. Despite her terror at the discovery of the body, she realizes that the ashes must be from Sam's pipe, only pipe smoker, and conceals them before calling the household. Caulfield commits suicide.

**CHAPTER VII**—The coroner's verdict is murder and suicide. Sam finds a note left by Caulfield confessing he killed Gabrielle, but the rancher proves he could not have done it.

**CHAPTER VIII**—Danielle shows Mrs. Magin the letter Gabrielle had received from France. It is in code, typewritten.

"I don't know why he brought her back and hid it in the house. He may have been carrying the prints in the road, or on the desert, if he carried the body away and tried to hide it out there. He didn't know that the storm was coming, to cover up his tracks. I think, though, that it was pure funk that made him come to the ranch with the body hidden in the car, covered with the sacks of rock salt."

"I didn't like to think that it was Danny who helped him out, after that. It didn't seem like her, couldn't have done it, though, who would help him. In the last few minutes, I've managed to think of someone else. It is a lucky thing for John. You are a d—n sight stronger ally, Sam, than Danny or anyone else would have been. Everybody but me, at his present magnificent bluff of yours."

"All right," Sam said. "All through?"

"I'm satisfied, if you are," Hubert Hand answered.

"I'm not," Sam drawled. "Because, like the caterpillar said, it's all wrong from beginning to end. It is a queer thing, though, the way quotations always come to me. Most of the time you were talking, Hand, I kept thinking of this one: 'Give a guilty man enough rope and he will hang himself.'"

Sam told John it was his turn to talk.

"I don't know where to begin," John said. "I've got nothing to talk about."

"Begin at the beginning. What did Gaby say to you, after dinner, that made you decide, right off, to go to Rattall?"

"I've told you that already. I've got no changes to make in it. Gaby told me, after dinner, that Danny's headache was getting worse. She said that Danny had sent to Salt Lake for a certain kind of headache medicine, the only kind that ever did her any good. She said it should have come in the morning's mail. She said that Danny would be peevish at her for telling me about it—asking me to go, that is. So, if I didn't want a fuss, and wanted to be allowed to get the letter make a sneak of it, with no explanations. I did. Here is some thing I haven't told, though, for Danny just told me when she came in here at three. She hadn't sent for any headache medicine to Salt Lake, nor anywhere. That certainly looks as if Gaby wanted to get either me, or the sedan, out of the job and out of the way, yesterday afternoon. She must have had some reason for sending me on a fool's errand like that."

"Did anyone see you towing Sault to his place?"

"Not that I know of. I towed him all right; but I can't prove it. Hand was right when he said he could be bought for a half dollar. He might come cheaper. I'll try him with a quarter, Hand."

"So?" Sam said. "I don't blame you a d—n bit for being sore clear to the bone. But, come to that, we haven't any right to blame Hand, here, either; not if he is honest in his suspicions, and, maybe, he is. I've forced them out of him. Can't you swallow your pride, for a while, and—"

"I've swallowed it already," John said. "If that's what you want, I've swallowed it till I'm choking with it."

"I know, I know. But it is like this, John—and this goes for all

of you folks, too—person can't get to the bottom of anything without going down. In this case, it looks like we were going to have to go pretty low down—a trip to h—l for most of us, I reckon. But it will be a round trip. Most of us will come up to a clean Desert Moon. Can't we go down, then, like a lot of reasonable human beings, and not like a kennel of yapping dogs?"

"It won't hold, dad," John answered. "Not this round trip to h—l stuff, as human beings. If I hadn't stopped being a human being, that is, a man, I wouldn't have sat still here and let Hand have his say out. And I wouldn't have done it, not to save my own neck. But know how you feel about the ranch. I've gone through with it for that reason, and—for Danny, though I know that all of this is a rotten mistake on your part. I know that; but it is no use telling you, now that you've started. I'll go on with it, the best I can. I guess the others will, too. Hop to it, dad. What's your next question?"

Sam asked, "Do you suspect, with reason, anyone in this room?"

"I do not," John answered Sam's question straight. "But it seems darn queer to me the way everyone is leaving Chad's suicide out of this. Hold on dad! I'm not saying that I think Chad killed her. I know he didn't. But I know just as well that he didn't walk out and shoot himself simply because he had loved Gaby. Chad was a queer bird, all right. I guess none of us understood him very well. He was so emotional as the deuce, too—I grant that. But he was not, ever, a d—n fool."

"It is like this. Regular fellows, and Chad sure was one, don't walk out and kill themselves, when they find the girl they love is dead. It takes more than death to make a real man kill himself. No, sir. I tell you Chad did not shoot himself because Gaby was dead. Sure, that was a part of it; but not the main part."

"Chad was a darn good guy. Good all the way through. We all know that he didn't kill her. We'd know it, if I hadn't had his alibi for him. But what I'm getting at is that, somehow or other, and not meaning to at all, he got himself mixed up in it. When he saw what had happened and realized that he had been involved—There's your reason, all right. I think that, if we can find out why Chad shot himself, we'll find out most of the other things we want to know. I'm through, dad. I've said all I got to say, and more, too."

Sam hesitated a minute. I was relieved to see him take Chad's note out of his pocket. "Chad says that he killed her," he said, and read the note aloud. "Everybody but me, to whom it was no surprise, showed their horrified astonishment. John spoke first: 'I'll bet you four dollars he never wrote it.'"

Sam passed the paper to him. "It looks like his writing. It sounds like him, too. I wish there was an expert of some kind that we could send it to, to find out why he wrote it."

With Butter-fat prices low, it is necessary to have good producing cows in order to make a profit for your work and investment.

The Cream Producers can help to bring Butterfat prices back to normal by using their own product freely, by discouraging the use of Butter-substitutes (Oleo) among their friends and associates, by selling their unprofitable cows to the butcher and by delivering QUALITY cream to the Creamery.

The better the cream we get the better the butter we can produce. The better the butter we have to sell the better the price we get for it. More money for our butter means bigger dividends to be paid to you at the end of the year.

Do not hold your cream for two or three weeks just because the weather is cold, deliver it off.

Please be careful about allowing your cream to freeze. Frozen potatoes do not make good food and neither does frozen cream make good butter.

As this goes to the printer we are paying 30c for butterfat (which is 2c higher than in most other Nebraska towns), 32c for eggs and 17c for heavy hens. These are not bad prices except for butterfat. Deliver Cream and Eggs often, as age does not improve either of them.

We want to take this opportunity to thank our old patrons and our many new ones for the wonderful volume of business that we are getting and to assure you that the entire Board of Directors, the Management and the Employees of this Creamery are endeavoring to operate this plant more efficiently each year and with your continued co-operation we should achieve greater success in the future than we have in the past.

## DISGUSTED WITH PHONE SERVICE, ROTARIANS SAY

### Vote At Luncheon to Protest Before Railway Commission; Scout Work Discussed.

Three speakers brought interesting messages to the Rotarians following their Monday noonday luncheon. They were Irl D. Tolson, Rev. W. J. Beachy and Miss Katherine Barrows of Onawa, Ia. President Charley Bowers introduced the speakers in the above order.

Irl was just home from a week spent in Lincoln attending the annual meeting of the state board of agriculture of which he is a member, and of the board of county fair managers of Nebraska. Mr. Tolson told of the work of revising the state fair premium list. He said that a new departure in the dairy cattle department was to be heralded at the 1931 fair which, beginning with the 1931 fair, all dairy cattle shown at the state fair show, in addition to a registration certificate as has always been required, a production record which for 3-year-olds was fixed at 300 pounds of butterfat a previous year and for older cows a higher record was required. He explained that sometimes a great show animal was not a good producer at all and the board wanted to benefit the industry as much as possible and believed that much harm would be done by allowing a show animal that was not a producer to be herded at a great winner and possibly sold to some one not acquainted with the real facts and who was buying for the purpose of building up a herd. He said that a change was made in the horse department by cutting out the Clydesdale and Shire horses entirely. He stated that there was not a Nebraska engaged at this time in breeding those breeds. He said that as far as possible freak breeds are to be eliminated. The company sold 33 cars of gasoline, 12 cars of kerosene and 2 cars of lubricating oil during the twelve months.

## ORD CO-OP OIL COMPANY MADE \$14,000 PROFIT

### Sold 33 Cars of Gas, 12 of Kerosene During Year; Membership Is Increasing Fast.

The Ord Co-operative Oil company did a gross business of \$76,507 during 1929 and made a net profit of approximately \$14,000, stockholders were told last week at their annual meeting. The company sold 33 cars of gasoline, 12 cars of kerosene and 2 cars of lubricating oil during the twelve months.

Stockholders present were more than enthusiastic over the splendid showing their company has made and Dick Thompson, president, and J. G. Hastings, secretary-treasurer, were re-elected by acclamation. Ben Janssen will be retained as station manager.

The company now has 403 stockholders, Mr. Janssen told the Quiz this week. Thirty-eight new members have joined since the annual meeting, he said.

Members are receiving a rebate to members of \$4.50 the oil company paid 6 per cent dividends on all stock. The company's station paid a profit of 24 per cent and the tank wagon paid 20 per cent of the entire year's business. Gas tax paid by the company amounted up to \$9,138.98.

"Our business is making a steady increase," Mr. Janssen tells the Quiz. "December, usually the lightest month of the year, was the biggest month we have had since starting in business. January business will be even greater."

Stockholders decided last week to continue for another year at the station in its present location.

## Two Hundred Farmers At Tractor Meeting

Over two hundred farmers attended the John Deere tractor school held at the Bohemian hall last Friday by A. J. Meyer, local Deere dealer. Wm. Rabba and Allen Eggart, factory representatives of the Deere implement company, had charge of the school and made it interesting for all present. Mr. Meyer says that while the school was held primarily because of its educational value, he enjoyed a nice sale of Deere power farming implements that day. More tractors will be in use in Valley county this year than ever before, he says.

## Firemen's Ball Is Next Big Affair

After the American Legion play, "Corporal Eagen," is over tomorrow night the next big event of the winter season will be the 42nd annual firemen's ball which is to be held this year on Friday, February 7. Firemen are promising that this event will be even more enjoyable than in former years. They are planning on having a good orchestra and will have two floor managers on duty so that good order can be assured. The grand march will be held at 10:30 p. m. as usual.

Notice—Telephone Meeting. A meeting of the Springdale Telephone Company will be held at the Springdale school house Friday night, January 31, at 8 o'clock. Ed Timmerman has resigned as secretary-treasurer and this meeting is being held to elect his successor. All stockholders are urged to be present.

Mutual Benefit Club Meets. The Mutual Benefit club of Mira Valley is holding an all day meeting today at the home of Mrs. Jennie Clement.

## Quiz Gets Certificate From Illinois School

Urbana-Champaign, Ill., Jan. 27.—Because of its "general merit in view of opportunity," the Quiz published in Ord, Nebr., was today awarded a Certificate of Distinguished Rating in the annual national community newspaper contest by the University of Illinois school of journalism where the contest is held.

With newspapers entered from nearly every state in the union, today's award included sixty-six daily and 164 weekly publications. The contest is open each year to daily and weekly papers published in the United States in communities under 50,000 population. Entries close December 31 each year and the awards are announced during the following January. The certificates of distinguished rating will be mailed to winning newspapers with the next week.

Judges in the contest were Prof. Lawrence W. Murphy, director of the Illinois school of journalism, and Russell Heitman, publisher of the Hantoul, Ill., Press, who is an instructor in the Illinois school. Professor Murphy made the award to the dailies and Mr. Heitman to the weeklies.

This is the second consecutive year the Quiz has been awarded this certificate.

## PIONEER SCHOOL TEACHER OF ORD DIED ON MONDAY

### Mrs. Ida E. Stroup, 74, Goes To Her Reward; Was Active In Church and School Work.

Stricken suddenly with a heart ailment two weeks ago, Mrs. Ida E. Stroup, 74, passed away Monday, January 27, at the home of her daughter, Mrs. Cecil Oliver. Funeral services were held yesterday in the Sway chapel, Rev. J. A. Moorman being in charge. Interment was in the Ord cemetery.

Ida Edicia Moses was born in New York on Oct. 10, 1855 and at the time of her death Monday was 74 years, 11 months and 18 days old. She was united in marriage to Henry Jay Stroup on Dec. 16, 1878. Mrs. Stroup came to Valley county and cast her lot with the early pioneers. The next year they took a claim in Round Park, which was their home until 1893 when they moved to Ord. This has been Mrs. Stroup's home ever since, except when she was teaching or attending school.

Mrs. Stroup was the mother of five children, one daughter dying in infancy. Those who survive are Henry Clay Stroup, Scriber; Mrs. Fred W. Lyons, Lincoln; Mrs. William Girman, Eau Claire, Wis.; and Mrs. Cecil Oliver, Ord. Nine grandchildren and two brothers, William H. Moses, Ord and Clarence Moses, Davenport, Ia., also are left to mourn her going. Mr. Stroup preceded his wife in death on Aug. 17, 1917.

Soon after the family moved to Ord in early days Mrs. Stroup began taking an active part in the Methodist church, of which she was always a valued member. For several years she was superintendent of the primary department of the Sunday school. She was also active in the work of the W. C. T. U.

She was one of the charter members of the ladies of the G. A. R. in Ord and always took a keen interest in affairs of the circle. She held the office of secretary at the time of her death. She had also held office in the Department of Nebraska.

At one time Mrs. Stroup was active in the Ben Hur lodge in Ord and at the time of her death was a member of the Ben Hur lodge and had just completed a term as presiding officer.

Before her marriage Mrs. Stroup fitted herself for work as a school teacher in her home state. When she was a pioneer wife and mother in a new country she aged, taught school, taking her aged mother with her on horseback in going to and from her school work. Soon after her husband died in 1917, Mrs. Stroup resumed this work and taught several successful terms in the country. One of the great desires of Mrs. Stroup's whole life had been to win her master's degree in her chosen profession. Not able to do so in early life, when she began teaching in later years she determined to accomplish her desire and did so by attending several terms of Sunday school and one whole year's work at Wesleyan University. She was graduated with the class of 1927, and at this time was 72 years old.

Rev. Jenkins' Wife Ill. John Williams, of Davis Creek, received word Sunday from Rev. E. Jenkins, stating that Mrs. Jenkins was taken to a hospital on January 22 and is still suffering with pneumonia. Rev. Jenkins was pastor of the United Brethren churches in Mira Valley of Davis Creek until he went east to continue his studies a few weeks ago.

Much Smallpox at Taylor. Several cases of smallpox are reported at and around Taylor and people of that vicinity are hurrying to doctors for vaccination.

District 48 School Closed. District 48 school has been closed on account of scarlet fever. Five families in that district are quarantined in the disease.

## Boiler At Laundry Bursts, Debord Skips

### Disconsolate Because the Large Boiler at His Laundry Establishment Froze up and Burst During the Extremely Cold Weather of Last Week, E. Debord, who had conducted the laundry for nearly a year, took "French leave." What was worse, he left owing employees and others quite a large sum and besides gave an \$8 no-tun check to Mrs. Walter Leschinsky, who had worked for him.

Sheriff George Round located Debord in Grand Island last Thursday and Chief of Police Francisco obligingly arrested the laundryman for the local sheriff. By telephone Debord agreed to make good the \$8 check and was released.

Debord bought the Ord laundry last winter from George Pratt, paying a small amount down, giving Pratt a mortgage on the property and agreeing to pay for it in monthly payments. It was commonly supposed that he was making money at the laundry as he was doing a nice business.

What Mr. Pratt's future plans for the laundry are not known but it is understood that several are dickering for the property.

## EVERYTHING SET FOR WAR FARCE "CORPL EAGEN"

### Comedy of Army Life Sponsored By Legion Presented Tonight And Tomorrow Night.

The American Legion reports the cast and everything in complete readiness for the big production, "Corporal Eagen," which is to be staged tonight and tomorrow night in the Ord high school auditorium. This war comedy production, staged in Ord, having a cast of more than 150 local people.

The production is a story of army life and scenes are laid on the camp life of a soldier with an army barracks as a background. Principal characters are rookies who have been in the camp only a few days. The lead character, Red Eagen, played by C. C. Dale, is an Irish-American doughboy who is very brave when alone but is always scared when anything happens. His Jewish buddy, Izzy Goldin, played by E. C. Weller, also is a great hit.

Other prominent characters include Dr. Blessing, Lucene Hardin, Emil Fafeta, Stan McLain, Carl Sorenson, C. J. Mortenson, Helen Collipriest, Orville Sowl, Hash McGrew and many others.

A big patriotic pageant serves as a curtain raiser for the play. About two hundred youngsters, as well as the sailor, soldier and girls choruses, take part in this. Clarence Davis will give the special reading, "My Dream of the Big Parade," in connection with this pageant. Children who take part include Robert Albers, Charles Dobberstein, Clarence Fox, Gerald Hatfield, Richard Lukesh, Robert Zimund, Marilyn Dale, John Dine, Maxine Dudschus, Maxine Fox, Mae Klein, Mayetta Kinney, Lucille Lakin, Christena Larsen, Eloise Norris, Vera Severns, Viola Skoell, Alma Urban, Marjorie Woolery, Eleanor Wolf, Barbara Hoogenboom, Jean Bowers, Doris

## MOGENENSEN DIES FEW DAYS AFTER LEG AMPUTATION

### Suffers From Hardened Arteries And Operation Fails To Give Relief Because of Age.

M. N. Mogensen was born March 1, 1863 at Sandrop, Denmark, and departed this life at Ord, January 25, 1930 at 10 o'clock a. m., the cause of death being hardening of the arteries. An operation a few days before his death, when one limb was removed, failed to bring the relief hoped for.

Mr. Mogensen came to the United States in 1883. He was married to Hannah Jacobsen in August 1889 at Ord, Nebraska, and this community has been the family home since. Ten children were born to Mr. and Mrs. Mogensen, three dying in infancy. One little daughter died May 26, 1908 at the age of 5 years, a son, Halgar aged, 26 years, died October 10, 1918, a victim of the world war and a daughter, Katherine, died January 26, 1921 at the age of 2 years. The children surviving are Mrs. Anna Rowbal, Mrs. Ida Hansen, Mrs. Mary Nielsen and Jack Mogensen, all of this community. The mother passed away in Ord in 1909.

Mr. Mogensen was a miller by trade but in the early days he had a butcher shop in Ord, was in the mercantile business for a time and owned and conducted the Blue Barn, on the present location of the Ford garage, for many years. Later he moved to the farm north of Ord on Haskell Creek which was the family home until a few years ago when he retired from farming and has since made his home with his daughter, Mrs. Nielsen most of the time.

Funeral services were held Monday at 2 p. m. from the Sowl chapel, Rev. McCarthy of the Ord Christian church officiating and interment was in the Ord cemetery. The Danish Burial board, which order deceased was a member, assisted in the funeral services and a large number of friends and former neighbors of the family attended the services.

## Henderson Sues For Loss of Eye

### In a federal court case being heard in Grand Island this week Ralph Henderson is suing the Burlington railroad for damages of \$26,000 which sum he alleges is due him for the loss of an eye while he was employed near Ord in 1927. Mr. Henderson, then 21 years old, was mowing weeds on the railroad right of way on August 3, 1927, his petition alleges. Various wire supports for a fence had been left lying around in the grass, he says, and one of these was clipped by the mower, the end striking him in the eye. It was necessary to remove the eye to save his life, he claims.

Dr. F. A. Barta and others from here were called as witnesses in the case.

## FARMERS VOTE TO CONTINUE STORE, CREAM STATION

### Held Annual Meeting At Hall Last Thursday; Pocock and Flynn New Directors.

Meeting at the Bohemian hall last Thursday stockholders of the Farmers Grain & Supply company elected directors, heard the annual report of Manager Wm. Heuck, and voted to continue the business during 1930 as in the past. Rumors had been in circulation that the company would discontinue its Ord store and its cream buying station but stockholders decided against this action.

New directors of the company are Ed Pocock and Dick Flynn, both of whom were elected last Thursday. Directors now include John Bremer, D. E. Strong, A. H. Jackman, E. R. Potb, Dick Flynn, S. W. Roe and Ed Pocock. The directors have not met to elect officers as yet.

The company in 1929 did a gross business of \$894,072.53 with net profits of \$6,612.89. Most stockholders expressed themselves as being well pleased with this showing, in view of local business conditions during the past year.

A large crowd of stockholders attended the meeting.

## Everybody Surprised At Rahlmeyer Home

Everybody was surprised, even the surprised Monday evening when a royal farwell party was held at the country home of Ernest Rahlmeyer and family, who are moving to Ord soon. Two groups of friends and neighbors from Davis Creek and Mira Valley planned the affair, neither group knowing of the other's party. So when all were assembled it was a surprise party indeed. Each group brought a splendid lunch and everybody enjoyed the evening greatly. About 200 people were present.

The Rahlmeyer family originally planned to move to Wisconsin but changed their plans and are moving to Ord. They held a clean-up sale of stock and personal property yesterday, a large crowd being present and everything bringing good prices.

Mr. Rahlmeyer moved onto his farm in 1883 and it has been his home ever since. The place has been rented to the Cook brothers for next year.

Manchester Released. Frank Manchester, who was in jail here on a liquor charge, was released last Saturday when relatives appeared and paid \$48, the balance of his fine that had not been laid out.

No City League Games. No city league basketball games will be played this week, as members of the cast of "Corporal Eagen" used the gymnasium last night for rehearsal. Games will be played next Wednesday night as usual.

Allan Jones of Arcadia submitted to a tonsil operation performed by Dr. F. A. Barta at the Ord hospital Tuesday.

Howard Huff was up from Omaha leaving Monday. Mrs. Elsie Draper accompanied him home for a few days visit. When in Ord Howard makes his home with the Draper family.

Sunday Don Tolbert was able to leave Hillcrest and return to his own home. He was carried on a stretcher and will have to stay in bed for a few days. He is recovering from a major operation.

Gifford Haley, of North Loup, was in Ord Saturday and visited with Mr. and Mrs. Ralph Haas. He formerly went to school in Ord and made his home with the Haas family.

Mrs. E. H. Petty says that her brother, Cecil Stapp, has been living in Chicago for several years and likes it fine. He is employed by the Northern Trust company. This company is soon putting on a big play in Chicago and Cecil has a prominent part. He is also taking part in a church play.

## 150 PRESENT AT YOUNG PEOPLE'S MEETING IN ORD

### Methodist Boys and Girls Have 3 Day Conference Here; Prof. Bowers Speaks at Banquet.

With 152 young people registered as delegates and many visiting ministers present as speakers, a conference of Methodist young people of the Loup Valley was held last week at the Ord Methodist church.

The conference opened with a social meeting Friday evening and continued through Saturday and Sunday morning, closing after the morning church service. Rev. J. A. Moorman was dean of the conference and Rev. G. A. Randall, of Scotia was manager. Well known speakers present included Dr. Harry E. Hess, Kearney; and Dr. A. V. Hunter, Hastings.

On Saturday morning delegates were divided into two groups, Dr. A. V. Hunter leading the young men and Mrs. Harry E. Hess leading the girls in this work. Other pastors who addressed the conference were Rev. G. A. Randall, Rev. J. L. Jay, Rev. G. A. Schwabauer, Rev. E. E. Austin, Rev. S. T. Geller, Rev. W. C. Birmingham, Rev. R. O. Gaither and Rev. W. S. Morris. During the addresses and discussions many problems were brought out and much practical help given to the young people.

Saturday afternoon a recreational hour was enjoyed at the Ord high school auditorium where Rev. and Mrs. Jay were in charge, and led the various games.

A conference banquet was held Saturday evening in the Methodist church, a delicious meal being served by a group of the Ladies Aid society. Rev. C. E. Austin served as toastmaster for the address which followed. The theme for the talks was "Aviation" and C. A. Bowers, superintendent of the Ord schools, gave the principal address on the subject, "Forecasts." Other talks were given by speakers from Ord, Scotia, Ericson and Arcadia. The program was interspersed with singing and a couple of saxophone selections by Glen and Miss Zola Auble, with Keo Auble as accompanist.

The most impressive service of the conference was the communion service Sunday morning which was in charge of Dr. Hunter, assisted by Rev. Randall and Rev. Moorman. About 100 young people attended the service.

At the Sunday School hour Rev. Randall gave an interesting talk on the subject, "A Christian According to Christ." The attendance was 242.

The conference closed with the morning worship service when Dr. Hunter preached the sermon, "What Time Is It?" Following his sermon he sang the solo, "I Am Happy In Him."

The conference is said to have been a success in every way. The registration by towns was as follows: Burwell, 13; Arcadia, 13; Loup City, 11; Scotia, 6; Scotia, 26; North Loup, 15; Ericson, 17; Ord, 36.

Busy Bee Club Meets. The Busy Bee sewing club met Jan. 15 with Alma Jorgensen, six members being present. Sewing bags were judged by the girls, Lydia Dana and Evelyn Jorgensen demonstrated how to cut out a clothes pin bag. After the meeting games were played and then Mrs. Henry Jorgensen served a delicious lunch.

Tuesday Study Club Meets. Mrs. Roland Ayres was hostess to the Tuesday Study club this week. The extension lesson on beautifying home grounds was given by the delegates, Mrs. E. C. Leggett and Mrs. Wilford Williams.

Will Have Benefit Party. A benefit party at which cards and a Kensington will furnish entertainment is to be given February 5 by the Eastern Star. Admission is 5c and everyone is invited. 45-11

All-Star Reserves Win. The Ord city league All-Star Reserves won a close and exciting game from the North Loup town team last night, the score being 13 to 12. The same two teams will play in Ord next Monday night as a preliminary to the game between the Ansley town team and the City League All-Stars of Ord.

Attending Convention. Sheriff George Round is in Hastings this week attending a state convention of county sheriffs. Attorney Bert M. Hardenbrook also is attending this convention.

Mrs. Anton Beran and daughter were visiting the former's parents, Mr. and Mrs. Otto Johnson in Lincoln. Anton was in Omaha on business for the Ford garage. He drove to Lincoln and brought his family to Ord, Tuesday.

Sam Guggenmos, Ralph Haas, Alfred Loeffler and Anton Beran were in Omaha after new Fords. They came home Tuesday bringing back three new cars.

## Only Tried Recipes Are Requested

This week a zealous cook offered to send in "four tried recipes" every week, right along. This was nice in one way but a great surprise in others. The Quiz only wants "tried" recipes, those that the one who sends them in knows to be good recipes, those that are family favorites or special "company" dishes that are known to be satisfactory.

The Quiz cookery editor could easily clip fifty recipes a week to reprint, if that was the aim of this column. But this column was intended to be a neighborhood exchange and clearing house for fine local efforts at cookery, and before a recipe is printed, we want to know it is good. So please, only send in those recipes you know have been tried and liked, that you can vouch for.

We feel sure our readers feel the same way about this column. Otherwise the signature of a neighbor under a recipe means nothing. But to know that neighbor has made the recipe means that it is good, that the quantities called for in the recipe are correct, and the directions are clear. The names of the person who sent the recipe in more than vouches for the recipe. . . you know yourself that if you've always heard Mrs. Smith was a wonderful cook and then you see her recipe for pudding, you are ready to get right out to the kitchen and start making the pudding.

And here are some likely-looking recipes.

### Ice Box Dessert.

3 dozen lady fingers, 1 small can pineapple, cut up, 1-2 pint whipping cream, 3 eggs, 1-2 cup butter, 1 1/2 cups powdered sugar, 1 teaspoon vanilla.

Cream butter, add sugar, beaten egg yolks and vanilla. Fold in beaten white of eggs. Line a mold with lady fingers, flat side up. Cover with cake dough, then a layer of pineapple and then a layer of cream. Repeat the layers until the mold is full, putting a layer of lady fingers on top. Let stand 24 hours in icebox or another cold place. Serve with whipped cream. The top may be decorated with a few candied cherries, or the cherries may be included in the dessert.

Mrs. O. E. Wesenberg, Omaha

### Out of Sights.

2 1/2 cups sifted flour, 5 teaspoons baking powder, 1/2 teaspoon salt, 4 tablespoons shortening, 2-3 cup milk, or more, to make soft dough.

Roll out about 3-4 inch thick. Mix 1 cup brown sugar with 1/2 cup melted butter, a little cinnamon and 3-4 cup nuts chopped up. Spread on dough, then roll up like cinnamon rolls and slice off about 1/2 inch thick and bake in a hot oven.

Mrs. O. E. Wesenberg, Omaha

### Pineapple Crush.

One cup rice, cooked and drained. Add 1 small can crushed pineapple, 1 cup nut meats, 1/2 dozen bananas, 1 cup whipped cream. Serve either hot or cold.

Martha Mae Zulkoski, Elyria

### H. O. A. Club Meets.

An afternoon meeting of the H. O. A. club was held last Wednesday in the home of Mrs. Alfred Wegardt. The hostess led the discussion on "How to make home rooms so beautiful, the project lesson for the month." The next meeting will be held with Mrs. Ross Lakin.

### Hurts Foot in Basketball.

While playing basketball Saturday Miss Letta Strong fell in a way that she turned her foot, injuring the muscles. She was around on crutches the next day but her injury pained so much that she has been in bed since, giving the foot time to heal.

### Has Electric Light Installed.

For twenty-six years Mrs. Alice Vincent has lived in her own home on South 18th street and has got along without electric lights. She had them installed recently and is enjoying the convenience so much that she wonders why she didn't have it done years ago.

### Card of Thanks.

We want to thank all who assisted us in our recent bereavement and especially the Danish lodge and friends for their assistance and flowers.

Mrs. John Rowbal and family  
Mrs. Niels Nielsen and family  
Mrs. Carl Hansen and family  
Jack Mogensen and family.

Eleanor, daughter of Mr. and Mrs. James Iwanski, continues to improve since taken to her home in the country. For several weeks she was a patient in the Ord hospital.

## BOWS AND BOLEROS HAVE IT!

Most of the people around Ord who don't like the new longer skirts amaze me. Not that I think everyone should like them, but that those who have crabbled them have been just the people who should like them. . . women of average height and weight or above, not the little women but the big women.

Don't they realize that the sawed-off look of an extremely short skirt on a tall or big woman was never anything wonderful and that the new long lined sweeping and graceful effects were just meant for them, and not for their smaller sisters? Not that I hold a brief for long skirts, but that the women

they were intended for don't see the advantage they are gaining! At any rate, long or only short-plung, bows have a big place this spring. Perhaps it is one big bow, or it may be a lot of tiny bows. Maybe it will just be a few loops some place about the dress, for no reason. But they are always there, even to bows made of pleats. Watch and you will find them.

Another tendency of styles this spring is that toward the bolero or one of its near kin. It isn't always present, and may be so disguised you won't know it. Some times it occurs as a circular frill placed above the waist line. Some times it is a very short jacket to a new spring suit. Some times it is only the old fashioned bolero, revived for our pleasure. It is becoming to many and varied types, you know.

--Patsy, the Particular.

School Visitor Finds 1st Grade Children Busy

By IRMA ELLIS LEGGETT

To me no class is more interesting than those beginners, the first graders. Here they learn something beside play, here come the first lessons in arithmetic, known as numbers. It is true, the first spelling, the first reading, etc. In the first grade the children learn to obey the teacher, to realize the value of discipline. But most of all it is fascinating to visit a grade like Miss Daisy Hallen's because of the kick the children get from learning. And I mean kick. It is more than eagerness, more than enthusiasm, more than avidity. They just lap up everything, they are so tickled to learn. So of course you know I enjoyed my visit to Miss Hallen's room Monday afternoon, as I always enjoy her teaching, and like first grades anyway.

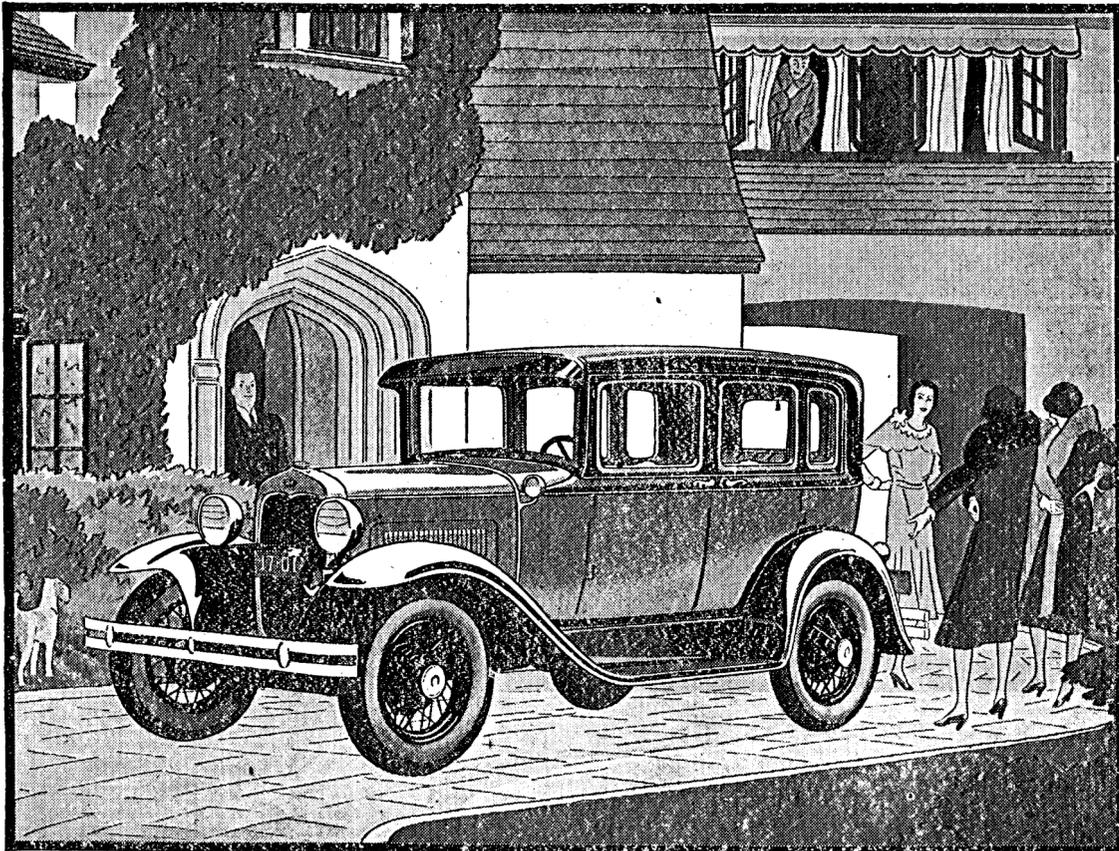

Almost the first words I heard were those of the teacher: "I like the way Jean is studying." And Miss Hallen said it in such an admiring voice, that immediately she had a roomful of youngsters sitting straight, trying to be just like Jean. Jean in this case was Jean Bowers, the bright-eyed, red-headed little daughter of the superintendent of schools here in Ord. You know, it is really wonderful the way children are taught with velvet gloves, so to speak, nowadays. In my day, years and years ago, teacher would have said to six or eight of the sloppiest, loppeliest, and in a strictish voice: "William, face the front, James, get your feet out of the aisle, Charles, sit up in your seat." And here Miss Hallen and the other moderns merely say in a quiet voice something like the above mentioned, and a room is in order, quickly and quietly. And now a part of the class was to study. Except for a few wondering glances occasioned by the unusual presence of a visitor in the room, all the studying part began promptly to study just as earnestly

as possible. In most cases the book was firmly held by both hands, up at the top of the page, with an arm under the front of the book and another arm around the back. The reciting part of the class began to hunt for families in their readers. First they hunted for the "ay" family. Jack McNutt found one of the "ay" family in a sentence reading "One day." Then came a rapid search for the "ame" family; the "ook" family was located by Vivian Weigardt in "look"; the "ound" family was lost; the "at" family was hiding in "tatters"; the "and" family in "hand," etc. And that's the way it went, until all the missing families were found, and the class was told to read the whole story to themselves. Now came a different recitation of a different class. This class was to find words it could spell in the reading lesson. One little girl could spell tent, another one bee, and to and too. These children had been having spelling less than a week, and Miss Hallen said most

of the class habitually got 100. Isn't that fine? And reading, a story about a mouse, a cricket and a bee who were willing to live together but couldn't agree where, was done by a number of children. First came Doris Cushing, then Bobbie Gruber, Ruth Tolen, Margaret Ann Patska, Dean Misko, Jean Bowers, Patricia McGrew, and Joy, Janssen, and many others. I knew all these children last year in the kindergarten, but they are growing away from me, I hardly know them now. On the blackboard at the back of the room was a list of those who had got 100 in numbers, and there was a nice long list. Warren Taylor, Harry Knudsen, Alvin Sedlacek, Eileen Hollander, James Ollis, Dean Misko, Bobbie Gruber, Ruth Tolen, Patricia McGrew, Dorothy Piskorski, Jack McNutt, Miss Hallen said she was so proud of them she just had to put their names on the board. And I think their parents will be proud, too, when they read about that list in the Quiz and find a little boy or girl of theirs included.

NERVOUS WOMAN NEARLY DRIVES HUSBAND A W A Y "I was very nervous and so cross with my husband I nearly drove him away. Vinol has changed this and we are happy again."—Mrs. V. Duesa. Doctors have long known the value of mineral elements iron, calcium with cod liver peptone, as contained in Vinol. Nervous, easily tired people are surprised how Vinol gives new strength, sound sleep and a BIG appetite. Gives more PEP to enjoy life! Vinol tastes delicious. Ed F. Beranek, Druggist. Jenks Wants Out. A. E. Jenks, convicted in Garfield county on October 21 of the crime of false pretense and sentenced to a year in the penitentiary, would be released. His application for parole will be heard on Febr. 11. At that time he will have served a little over three months of his sentence. Nebraska creameries produce \$5 million pounds of butter annually.

New Beauty for the New Ford

THE NEW FORD TOWN SEDAN

In the Town Sedan you see a distinguished example of the unbroken sweep of line which adds so much charm to all the new, roomy Ford bodies. Radiator, hood, cowl, lower roof line, fenders, wheels—every point of design reflects the new style and beauty that have been placed within the means of everyone. All of the new Ford cars are finished in a variety of colors.

ANOTHER STEP FORWARD

THE introduction of the new Ford bodies has set a high standard of motor car value.

From the new deep radiator to the tip of the curving rear fender, there is an unbroken sweep of line—a flowing grace of contour gaining added charm from the rich and attractive colors.

You will take a real pride in the smart style and fresh new beauty of the Ford just as you will find an ever-growing satisfaction in its safety, comfort, speed, acceleration, ease of control, reliability and economy. In appearance, as in mechanical construction, craftsmanship has been put into mass production. New beauty has been added to outstanding performance.

A feature of unusual interest is the use of Rustless Steel for the radiator shell, head lamps, cowl finish strip, hub caps, tail lamp and other exposed metal parts. This steel will not rust, corrode or tarnish and will retain its bright brilliance for the life of the car. Here, as in so many other important details, you see evidence of the enduring quality that has been built into the new Ford.

- Roadster, \$435 Phaeton, \$440 Coupe, \$500 Tudor Sedan, \$500 Sport Coupe, \$530 Two-window Fordor Sedan, \$600 Three-window Fordor Sedan, \$625 Convertible Cabriolet, \$645 Town Sedan, \$670

My Own Column

By H. D. Leggett

John Smith of Vinton township was complaining to me the other day about the high cost of living. Of course John Smith is not his name and Vinton is not where he lives but he does live in Valley county and he bemoans the fact that it costs too much to live—much more than it used to cost. He drives a high priced car now, he lives in a strictly modern home with hot and cold water in the bath plus a shower while he used to take his Saturday night bath in a wash tub beside the kitchen cook stove and the fire in the stove was often of cow chips in the good old days, cheap days he talks about. In the good old days his children went to the district school a few months a year. Now if he had any children they would have to drive to town which would require a second car for the purpose. In the old days he didn't buy any gasoline but now he steps to the phone and has the dealer in Ord bring out a truck load often. And the telephone costs a good deal more than it used to. He used to have to drive to town once a week to get the mail consisting of now and then a letter from back home and probably the county paper. Now the mail is brought to the door every day and in addition to what he used to get are a flock of magazines and one or more daily papers, all costing money. And I could multiply the list to the length of this column and not name all of the things we have now that cost money that we used to get along without and were just as happy as we are now. I believe I am safe in saying that we could now eliminate 75 per cent of our living expense and live plenty good enough and look at the money we could make! Will we do it? I'll tell the cockeyed world that we won't.

Will Maupin of the Hastings Democrat wrote a beautiful tribute to his friend of 40 years, Mayor Jim, last week, that was a masterpiece of beautiful language and I envy him his ability along the line of writing beautifully. No one in all Nebraska can present a more beautiful verbal bouquet than can Maupin.

"Corporal Eagen" stickers were placed on many cars last week, among them one from a far corner of Eureka township and the owner of the car didn't discover the sticker on his windshield until the next morning after he got home. Not being sure to the place coming off this week, he jumped to the conclusion that he had been guilty of some breach of Ord traffic rules and had been cited to appear some place and having visions of arrest and fine, he hurried into town and presented himself to Sheriff Round. He was either so excited or so relieved when he found the true facts, that he went home leaving his mittens in the sheriff's office.

Work is going right along on our 1931 calendar that I told you about last week. A batch of pictures of prominent Ord buildings have been sent to the engravers and in due time fine cuts will come back and one of these large business buildings will be printed on each page of the calendar. Every Quiz subscriber will get one and every woman in Valley county will want one. Of course we shall print a few more than we have subscribers at this time but there will be disappointment for the late comers possibly.

We have been running a mighty good story, some weeks not as much of it as we would like to run, and it will soon be ending and we are now arranging for another story which we hope will prove

EAT MORE KREAMKRUST BREAD

Our bread is wholesome. Baked in a clean, airy bakery, of finest, most pure materials, it is the ideal health food for children and adults alike. No substitutes are used in our bread—nothing but the best flour, pure milk and creamery butter. We could make it cheaper by using cheap materials but our aim is to make it better. Don't be fooled by "cut price" bread. You always get just what you pay for.

Crimes speak louder than words, and very loud in this fair country just now. A man arrested in Chicago, accused of participating in the "St. Valentine's day massacre," was delighted to find that "only policemen" were after him.

Said he: "I am glad to see you; I thought some guys were going to take me for a ride sure."

More interesting is the fact that the well-known gambler, Rothstein, whose murder puzzled New York's police and baffled the district attorney, was probably killed by a man who never will be convicted, for the reason that he himself has since been murdered by Rothstein's friends.

Even our able corporations might learn something about efficient organization from our able criminals.

Scientists of Smithsonian Institution hope to learn about magnetic disturbances and weather phenomena generally, by studying the earth's "ozone blanket."

That "blanket" is a thin layer of superior atmosphere 30 miles up. By measuring the thickness and contents of the earth's ozone blanket, it may be possible to tell what is happening on the sun, 93,000,000 miles away.

It might be possible also later to bring down some of that ozone, with its wonderful qualities for the improvement of the lungs.

Future advertisements may read: "Ozone fresh from the ozone blanket every day."

Going up thirty miles from the earth's surface seems a great achievement. But a microbe living on the face of an ordinary apple would, as much as if he rose from the surface of his apple as much as one-hundredth part of an inch.

Thirty miles is much less than one two-hundredth part of the earth's diameter.

Here is good advice for youth or old age: "Don't squander time, for that is the stuff life is made of."

More good advice is this: "He that goes a-borrowing, goes a-sorrowing."

And for a nation in which ninety per cent of a hundred die worth less than \$100, this is valuable.

"A man may, if he knows not

even more popular than the one now running. We will run several stories during the year, and any one of them would cost you as much in book form as the Quiz costs for a year.

One of the best bits of advice I could give would be for everyone not to jump at conclusions but to investigate every rumor of an unkind nature or that might do harm in any way, before giving it further circulation.

Another thing that it is well to remember is that there are two sides to most every question and when your sympathies might be on one side at first thought a careful investigation before jumping in might save the embarrassment of having to take something back. Another way to state it is be careful and not talk too much.

I heard a farmer express himself vigorously the other day against the practice of placing all kinds of advertising stickers on car windshields and other automobile glass promiscuously and I can see his side of the question. Suppose the farmers would dope their public sale bills with the stickiest kind of stickum and slap them onto our town cars. Would we like it? I guess not and that answers the question.

An Ord man says frankly that he doesn't like Leggett is the reason that he doesn't subscribe for the Quiz but his dislike doesn't prevent him from borrowing the paper every week, much to the annoyance of his kind hearted neighbor who hates to say anything about it.

As a matter of fact every family needs the local county paper and every family should have one of its own. With only two or three in the family it takes about a week to get it all read. No one has time to sit down when the paper comes and read it all. Then after it is all read there are things coming up several times during the week that makes one paper they all find it more or less inconvenient and more or less unsatisfactory. The supreme courts of some states have had to pass on the matter and it has been decided that the home town paper is a family necessity nowadays just the same as is flour, fuel and clothing.

Get License To Wed. Adis, daughter of Mr. and Mrs. Wm. Zabloudil and Merle E. Nelson, of Newton, Kas., took out a marriage license in Council Bluffs last week according to the Omaha World-Herald. Both of these young people visited in Ord recently. Miss Zabloudil has been taking a nurses course at a hospital in Newton and graduated last summer.

Those wise things were said by Benjamin Franklin, born 224 years ago. There is material for a thousand good sermons in Franklin's common sense talks. Mr. Brown, postmaster general suggests a \$76,000,000 program to build a fleet of North Atlantic subs for American passengers and mail. The postmaster demands "a service which could compete with any foreign flag service on the North Atlantic."

American will congratulate Postmaster Brown and President Hoover on that proposition, and hope that they will not only compete with but eclipse every foreign service on the North Atlantic and everywhere else. Why should a country with the best engineers, from the President down, and with more money than anybody else, ever play second fiddle on the ocean or in the air?

The only negro student at West Point is dismissed "honorably," for deficiency in mathematics. Sixty-three white men failed in examinations with him and were also dismissed. Prejudice had nothing to do with it, although Alonzo Souleigh Parham, the negro cadet dismissed, is the fourteenth to enter the academy and the eleventh to be dismissed at the end of six months.

Another cut in the cost of travel by air. The Transcontinental Air Transports, on its "air-rail-water" trip "around the Americas," cuts \$100 off the price of a 16-day tour. Air transportation is settling down to a business basis. A Long Island company will run "seeing New York airplanes," charging passengers one cent a pound, \$2 for the fat man, \$1 for the thin girl. That will help aviation and encourage temperate eating.

William H. Mullins, son of the late James Mullins, and, like his father, among the most highly respected men in Ohio, goes to Saleri a home for nurses. This gift, in memory of his mother, sets an excellent example to others that can afford to be generous. Young Americans, wondering "if there is still a chance," might study Mr. Mullins' start in business on his own account. When very young he saw a locomotive that had been in a smashup on the Port Wayne road that he bought for its value as "scrap," set himself and two of three mechanics to work, restored it and sold it for enough to start what became a big, successful business. how to save as he gets, keep his nose to the grindstone."

John Bauer of Pawnee City possesses a powerful thirst—also a steel-lined stomach, according to the Hastings Democrat. He has been quenching his thirst by draining denatured alcohol from radiators and drinking it. Jailed for the offense, he served 10 days, then drained another radiator. Officers found him unconscious in a snow drift and he is again in jail, this time for 30 days.

There's No Need For A Fence Around Ord

You can't put a fence around Ord to keep Ord's people from shopping elsewhere. Neither can you prevent them from buying from mail order houses.

None the less, it isn't by any means the hardest task to get Ord's folk to shop and buy in your stores. It's a task, to be sure, but one in which your help will go a long way.

People buy where they are trained to buy. Educate them to buy in Ord and they'll always buy there. And buying education is very largely a matter of advertising.

Advertising! That's the trick! Your own advertising and that of the manufacturers whose goods you strive to sell. Both, in your local, home newspaper, should prove effective in keeping Ord's business in Ord... and Ord's dollars in Ord.

Where the manufacturers' advertising is concerned, your task is easy.

When their salesmen come to sell you goods, talk up Ord to them. Talk it up with enthusiasm. Make them realize how important Ord is to you in turnover...

How important it is to them in orders... How important it is to their companies in more sales.

Talk up Ord so that these salesmen will pass the good word on to their sales managers who decide where advertising appropriations are to be spent.

With the advertising of more national manufacturers in your local newspaper, Ordites will find it easier to shop in your stores. You'll find it easier to keep them coming to your stores. And there won't be any need for a fence around Ord.

You need the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your local home newspaper.

There's No Need For A Fence Around Ord

You can't put a fence around Ord to keep Ord's people from shopping elsewhere. Neither can you prevent them from buying from mail order houses.

None the less, it isn't by any means the hardest task to get Ord's folk to shop and buy in your stores. It's a task, to be sure, but one in which your help will go a long way.

People buy where they are trained to buy. Educate them to buy in Ord and they'll always buy there. And buying education is very largely a matter of advertising.

Advertising! That's the trick! Your own advertising and that of the manufacturers whose goods you strive to sell. Both, in your local, home newspaper, should prove effective in keeping Ord's business in Ord... and Ord's dollars in Ord.

Where the manufacturers' advertising is concerned, your task is easy.

When their salesmen come to sell you goods, talk up Ord to them. Talk it up with enthusiasm. Make them realize how important Ord is to you in turnover...

How important it is to them in orders... How important it is to their companies in more sales.

Talk up Ord so that these salesmen will pass the good word on to their sales managers who decide where advertising appropriations are to be spent.

With the advertising of more national manufacturers in your local newspaper, Ordites will find it easier to shop in your stores. You'll find it easier to keep them coming to your stores. And there won't be any need for a fence around Ord.

You need the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your local home newspaper.

**Up-To-Date Club Meets**  
The Up-To-Date club met Tuesday afternoon of last week at the home of Mrs. Clara Easterbrook. Following the roll call which was answered with a Bible verse Mrs. Lowell Finney conducted an interesting discussion on Bible characters and events. Miss Grace Hagood led the literature lesson, "The Thief," by the Russian writer, Dostoevsky. Mrs. C. D. Langrahl conducted the Edison questions after which a vocal selection on the phonograph closed the program. The next meeting will be held February 4 at the home of Miss Grace Hagood.

**Pawnee Boy Scouts**  
The Pawnee Boy Scouts met at the home of two members, Max and Joe Weddel on Tuesday, Jan. 21st. William Bulger, who joined the scouts last meeting set an excellent pace for new members by passing all the tenderfoot requirements at his first regular meeting. The boys seem to be taking a better interest in the meetings. There is a group of boys that are very anxious to pass the rest of the second class requirements which will be done in a week or so. A very delightful lunch was served by Mrs. Weddel and enjoyed by all.

**Wallace Mather, Scribe.**  
**Auxiliary Continues Good Work**  
The ladies of the Legion Auxiliary packed and mailed the following articles last week to veterans hospitals: 24 wash cloths, 6 ice bag covers, 6 bed pan squares and 28 pounds of carpet rags. The Auxiliary has only sixteen members but they accomplish a remarkable amount of work for so small a unit.

**Farmers Club Meets**  
The Lee Park Farmers club held an interesting meeting at the home of Mr. and Mrs. Harry Delano last Saturday. Dinner was served at one o'clock to about sixty guests after which the following program was given:

**Song Quartette**—Hazel Armstrong, Margaret Walker, Mrs. Ralph Holmes and A. E. Schoemaker.

**Recitation**—Marvin Babel.

**Harmonica Music**—Frances Jewell.

**Recitation**—Rosal Babel.

**Song**—Quartette.

**Talk**—"Organized Yearly Programs for Clubs," by Mr. Gould, Custer county extension agent.

**Remarks on ordering fish**—Harry Delano.

**Song**—America.

The chairman, John White appointed a committee to meet with Mr. Gould for the purpose of arranging a program for the club year. Those appointed were Harry Delano, W. A. Armstrong, J. B. Stone, Mrs. A. Bridges, Mrs. H. L. Jameson and Mr. White, Chairman of the committee. They plan on meeting with Mr. Gould as soon as a convenient date can be arranged. The club accepted an invitation to meet with Mr. and Mrs. A. M. Schoemaker for the February meeting which will be held the last Saturday of the month.

**Stock Shipments Heavy**  
Stock shipments from this point Tuesday totaled eight cars, five of which were cattle and three hogs. John Murray, Joe Urban, Benson Bros., W. D. Kingston and J. L. Ciochon were the cattle shippers while John White shipped one carload of hogs and R. R. Clark two cars. Several of the men accompanied their shipments to market.

**Pig Club Meets**  
The Arcadia Litter Pig club held their first meeting of the year at the home of Max Cruikshank last Friday evening. Seven members were present, the following officers were elected: Leader of club, Mrs. Morris Fowler; president, Orle Sorensen; vice president, Glenn Jameson; secretary and treasurer, Max Cruikshank; news reporter, Glenn Jameson.

The members decided to call their club the R. K. D. Litter club. Lunch was served at the close of the meeting.

The next meeting of the club will be held Friday evening, Feb. 7, at the home of Orle Sorensen. All new members desiring to join are invited to attend.

**Features Tree in Jenkins Park**  
The front page of the feature and editorial section of the Lincoln Sunday Star contained a lengthy article on "Trees and Their Tales" and included a fine description of the large tree located in Jenkins Park and a glowing account of its history. Two pictures of the tree also accompanied the article. The story of the tree was prepared and sent to the Star by Mr. Jenkins who says that he is now busy on another article for the Lincoln paper entitled "Olive's Last Round-Up." This will be printed in the near future.

**Society Notes**

**Only Woman In Law College.**  
Friends at Ord of Rev. C. J. Arnold who was pastor of the Presbyterian church there thirty odd years ago, will be interested in knowing that his elder daughter

Elizabeth is the only woman member of the senior law class of the State University of Kansas. She is a niece of Mrs. D. S. Bohrer of North Loup, who recently saw her picture in the rotogravure section of the Kansas City Star. She was pictured carrying a walking stick, the special sign of the senior law. Dr. Arnold recently left the pastorate of one of the larger Presbyterian churches at Kansas City, Missouri, and is now pastor of the Dayton Avenue Presbyterian church at St. Paul Minn.

# Announcing the complete HAAG line

A new fine washer for every home...  
Wide range of designs, sizes, prices

You need look no further for the washer which meets all your ideals of perfection. One of the three new models in the complete Haag line is specially adapted to your needs, whatever they may be.

Do you seek beauty—efficiency—style—speed with safety—dependability—freedom from laborious hand-rubbing or soaking of garments? Any one of these newly designed machines will give them all to you.

Choose your new Haag according to your individual wants. The big sturdy square-tub model 75 is the machine for large families and the heaviest duty. The new round-tub model 65 is designed for the average home. It's a beauty—and, at its moderate price, gives you rare value. For the small home, the amazingly low-priced model 55 is a wonder of efficiency.

Whichever model you select is guaranteed to satisfy you perfectly. All have smooth-surfaced, easily-cleaned pressed aluminum tubs. All have the modern direct drive, grease-packed gear case, the famous Haag submerged agitator and other fine features. Models 75 and 65 are equipped with oversize wringer with big balloon rolls.

Come in soon—today or tomorrow—and get an entirely new idea of quality in washing machine design and performance. A home demonstration (without obligation) will be arranged if you desire.

"The Best for a little less"

### THE DESERT MOON MYSTERY

By Kay Cleaver Strahan

#### THE STORY

CHAPTER I—Sam Stanley, wealthy owner of the Desert Moon ranch, informs his housekeeper, Mary Magin, who tells the story, that his former wife's twin daughters, Danielle and Gabrielle, are coming to the ranch to live, their mother being dead and their father, Daniel Cannizzano, who had been the cause of Sam's divorcing her, in the penitentiary. Sam has adopted a boy, John, now grown to manhood, and a girl, Ollie, who is physically healthy but weak-minded. Mrs. Ollie Ricker, Martha's nurse, lives with them.

CHAPTER II—Hubert Hand, a wanderer, and Chadwick Caulfield, John's wartime buddy, who is an expert ventriloquist, and other members of the household. The girls arrive.

CHAPTER III—Mrs. Magin has an uneasy feeling that there is a sinister motive in the twins' presence at the ranch, and her suspicions are strengthened by the girls' mysterious prowling around the place. John becomes engaged to Danielle. Caulfield shows a pronounced liking for Gabrielle.

CHAPTER IV—Gabrielle's actions when she receives a letter from France arouse and mystify Mrs. Magin.

CHAPTER V—Sam learns Cannizzano is soon to be released from the penitentiary and he asks for him to come to the ranch. The household, with the exception of John, in town for the mail, and the twins, together upstairs, are in the living room when Gabrielle comes down and, with Caulfield, goes into the garden. Danielle, from upstairs, calls to her sister. Caulfield comes back alone. In a few minutes Danielle comes into the living room.

CHAPTER VI—Mrs. Magin finds Gabrielle, choked to death, with tobacco ashes beside her. Despite her terror at the discovery of the body, she realizes that the ashes must be from Sam's pipe, he being the only pipe smoker, and conceals them before calling the household. Caulfield commits suicide.

CHAPTER VII—The coroner's verdict is murder and suicide. Sam finds a note left by Caulfield confessing he killed Gabrielle, and the rancher proves he could not have done it.

### Scene From The Play 'Corporal Eagen'

K-P SERVING YOUR COUNTRY ON THE POTATO PILE

though, for her real occupation, which was leading lady with a crew of blackmailers. Danny doesn't admit it, but I think there is no doubt but that she had a lover named Lewis Bauer—some thing like that.

"About six months before Danny wrote here, the lady, whom Danny had been serving as a companion, died. It left Danny at loose ends. She had next to no money saved. Gaby wrote that she could give her a small part in her company. Danny joined her in France. She had been there a couple of weeks, when the company went on the rocks. Danny thought it was done purposely, since one of their blackmail victims was making it too hot for them.

"Gabrielle and Danny went to Switzerland. This Bauer went showed up there in a few days and hung around. He and Gaby got to quarreling all the time. Gaby, who had always had plenty of money,

begin to be short of funds. "Danny was as miserable as well, as Danny would be in a mess like that. She remembered this place, and begged Gaby to come here, and rest a while, and get rid of Bauer, and the other hangers-on, and get ready to make a fresh start. Gaby wouldn't listen to Danny's plan of coming here. But, once or twice, she used the idea as a threat to make this Bauer come to terms. He wouldn't come. Later, Gaby began to give him some of his own blackmailing medicine. I guess he was pretty keen to get rid of her. And her having talked about the Desert Moon gave him his idea.

"He showed up one night with a letter from Cannizzano, written from San Quentin. Bauer and Cannizzano had been pals here in the United States; and had gotten together again, three years ago, when Bauer had been over here for six months. The letter said that he was to leave prison on the fourth day of July, and wanted to know where he could meet Bauer shortly after that date. Probably all Cannizzano wanted was to receive his old connections; but the letter was cryptic enough for Bauer to make his story out of it.

"A cock-and-bull yarn about how he and Cannizzano had held up that Tonopah mail train, three years ago—the train that was carrying a big shipment of currency for the federal reserve bank. A hundred thousand dollars, wasn't it? We all remember it, I guess. The robbers got away. Well, this Bauer told the girls that he and Cannizzano had been the robbers. (To be continued)

MRS. CLAUDE RATHBUN, Editor.

Verne Robbins and R. P. McCune shipped two car loads of horses and mules to Omaha Saturday morning. They drove to Omaha that afternoon to look after the shipment. Miss Keo Auble of Ord spent Friday night and Saturday with her friend Miss Ella May Sershen. The girls attended the young peoples' conference at Ord together which convened over the week end. Miss Lois Rich of Loup City visited North Loup friends over the week end. A birthday dinner honoring J. A. Barber and little Dicky Wilson, was given Sunday evening at the home of Mr. and Mrs. Barber. Guests were Mr. and Mrs. Roy Lewis, and the Sidney Wilson family. About seventy adults and children attended the all day club meeting and dinner at the Town hall Thursday. There were representatives from the Twentieth Century, So-and-So, Fussville and Loyal Workers clubs and a most enjoyable time was reported. The lesson on beautifying of the home grounds was led by J. M. Fisher and David Davis, with some very good suggestions of a Mutual Benefit club were unable to be in attendance on Thursday, Mr. and Mrs. J. M. Fisher, Mrs. A. L. Willoughby, Mrs. J. A. Barber and David Davis will meet with them on Tuesday of this week at the home of Mrs. Jennie Clement in Mira Valley, and will present the lesson. There are at least two entertainments that North Loupers are looking forward to with much interest. One is the demonstration to be given on the evening of February 1st by the High School girls' physical culture class in the school gymnasium. Then on the evening of February 12th, the Seventh Day Baptist choir is putting on a play entitled, "Barnville Choir Spruces Up." This too will be something of a new feature for the presentation of "School Days" by the American Legion has not yet been decided upon, owing to the illness in the family of the director, but announcement will be made as soon as possible. Mr. Hill returned from a business trip to Omaha Friday morning. During his absence Mrs. Hill spent Wednesday at Kearney with her daughter, Kate. North Loup friends of Howard Greene, son of Mr. and Mrs. Ward Greene, have received the announcement of the graduation of Howard and his wife from the L. I. F. E. Bible school of Los Angeles, Calif., on the evening of Saturday, January 25th. This is the largest Bible school in the world, and there are about one hundred and eleven members of this graduating class. Mr. and Mrs. Greene will engage in evangelistic work. They visited in North Loup last summer on their honeymoon trip, and have many Valley county friends who wish them success in their chosen field of endeavor. At the last meeting of the Ladies Aid society with Mrs. C. B. Clark, Mrs. Frank Schudel, recently elected president declined to serve, and Mrs. I. A. Manchester was elected in her stead. Mrs. Allen Sims is seriously ill in the Hillcrest hospital at Ord. Mr. Sims is looking after the two small boys who are in school, but relatives are caring for the two younger girls at Cotesfield. The North Loup chapter of the Methodist church was well represented at the week end conference for young people held at the Methodist church. Fourteen attended from the village, and reports were given at the Sunday evening service by Hazel Holman, Ella May Sershen and Ruby and Opal Post. The Fred Bartz family were Sunday dinner guests of Mr. and Mrs. George Bartz in Riverdale. Miss Ruby Fisher of Dewitt is visiting her sister, Mrs. Rose Kildow and family. W. O. Zangger returned Saturday morning from Chicago where he had for several days been in attendance at the canners' convention. Mr. and Mrs. D. S. Bohrer were

Loyalist Editor Leads Interesting Meeting At North Loup; Ord Costs Are Highest.

North Loup, Jan. 27.—(Special)—In spite of extremely cold weather, there was an attendance of about forty at the meeting of the P. T. A. at the high school auditorium last Tuesday evening. "School Finances" was the subject for discussion under the leadership of Mrs. Grace Rood, editor of the Loyalist. In a capable and interesting manner she gave a survey of the financial condition of the North Loup schools for the past ten years with a view to explaining the cause of the deficit of the past five or six years. It has been necessary during this period to vote an extra levy to take care of the expenditures and to take up the outstanding warrants. A levy of 11.5 mills was voted for the year ending July 1, 1929, with the levy raised to 12 mills for the present school year. When this levy was voted at the annual school meeting there were only about a dozen school patrons present, and Mrs. Rood brought out the fact that those interested should make it a point to attend the meetings, and have a voice in school matters. Expenses were naturally increased with the erection of the new school building a few years ago. Running expenses have been much heavier with the increased use of fuel, light, janitor supplies, interest and insurance. Frank Johnson, treasurer of the board was present, reported that the district was practically out of debt at the beginning of the present school year. The secretary's report showed that the total receipts for last year, were \$17,200.95 including \$419.80 on hand. Mrs. Clara Clement Holmes gave a convincing talk with carefully worked out figures and percentages, including a comparison of North Loup and Arcadia school districts with respect to size, income from taxes, teachers' salaries and enrollment of students. It is interesting to note that the average cost of education per high school student is \$80 in North Loup, and \$88 in Arcadia. According to Supt. Bow-

ers it is \$112.75 at Ord. It is estimated that grade pupils require half the cost of high school students. At the conclusion of the discussion on finances, Supt. Greene gave an interesting explanation of the Smith-Hughes course. Mrs. A. H. Babcock favored with a solo, and Mrs. Fred Bartz gave an amusing reading. During the social hour coffee and cookies were served in the domestic science room by a committee composed of Mr. and Mrs. David Davis, and Mary Davis.

North Loup Building & Loan Ass'n Meets

North Loup, Jan. 27.—(Special)—The annual meeting of the stockholders of the North Loup Building & Loan association was held at the office of the secretary Friday morning. The secretary's report showed the concern to be in good condition with a statement that the directors had voted a 3 1/2% dividend for the past six months. Geo. Gowen and A. T. Jones terms had expired as directors, and Mr. Gowen was elected to succeed himself. Mr. Jones had withdrawn his stock and E. C. Hurley was elected in his place. J. H. Cruzan was chosen to fill out the unexpired term of Dr. A. A. Tschauner. The new board of directors met immediately following the stockholders meeting, and the following officers were elected: Geo. Gowen, president, H. C. Sample vice-president, Jessie T. Babcock secretary-treasurer, M. D. Earnest, H. C. Sample and E. C. Hurley loan committee, Frank Johnson and H. C. Sample auditing committee.

Something for Home People to think about

—and to do --- now and always!

As a matter of cold, hard facts you could count on the fingers of one hand (with fingers to spare) the Nebraska communities which adequately support the industries they already have!

What is needed to assure good times throughout 1930 in Valley County is NOT more industries, but BETTER SUPPORT of those already in existence. This applies especially to the smaller industries, because the Big fellows are able—or should be able—to take good care of themselves.

There has been considerable talk in recent years about "Building Pay Rolls"—a most important and most valuable thing to assure community prosperity. But, as Mark Twain remarked about the weather: "There has been a great deal of talk, but nothing much has been done about it."

Unless THE RETAILER definitely and positively prefers the products of Home Industry—unless he displays, features, pushes and advertises them—there will be little result from any effort to build pay rolls. The retailer holds the key to the situation—and it is up to him to USE it, if he wishes to do more business and keep more money in circulation at home.

Thus far the vast majority of Nebraska people have failed to show evidence of being conscious that there is any such thing as Home Industry. Of course, they all expect the owners of Home Industry and the employees of Home Industry to patronize them always—but apparently it never occurs to them that it is a "poor rule that won't work both ways."

If you want to develop Home Industry and Build Pay Rolls and keep money in circulation here in Valley County and assure a business future for your children, you simply must patronize and support and co-operate with Home Industry.

Think it over, you intelligent people of Valley County and then you'll certainly agree that here is the way to a bigger, better and more profitable year.

SUNDAY SCHOOL LESSON

By Rev. P. B. Fitzwater, D. D. (Member Moody Bible Institute Faculty.)

Lesson for February 2

PUTTING GOD'S KINGDOM FIRST

LESSON TEXT—Matthew 6:1-24 (Print vv. 5-13, 19-21, 21-33)

GOLDEN TEXT—Seek ye first the kingdom of God, and His righteousness: and all these things shall be added unto you.

PRIMARY TOPIC—Being True to Jesus. ADVANCED TOPIC—Being Loyal to Jesus.

INTERMEDIATE AND SENIOR TOPIC—Being Loyal to Christ. YOUNG PEOPLE AND ADULT TOPIC—Putting First Things First.

Having set forth in the previous chapter the standards of the kingdom, Jesus now exhibits the underlying principles which control the subjects of the kingdom.

I. As to Giving (vv. 1-4). Alms were not to be given before men to be seen of them. Doing alms before men is not condemned as that would contradict Matthew 5:16, but the doing of them before men to be seen of them, to seek publicity in doing our alms is to miss the reward of our heavenly Father.

2. True prayer (v. 6). Since prayer is a transaction of the soul with God, there should be a real desire for fellowship with Him which moves one to meet Him in the secret place.

3. The model prayer (vv. 9-15). This involves (1) Right relationship—"Our Father" (v. 9). (2) Right attitude—"Hallowed be Thy name" (v. 9, 10). (3) Right spirit—"Give us our daily bread, forgive us our sins, lead us not into temptation" (v. 11).

IV. As to Earthly Riches (vv. 19-24). The Lord knew the temptations which would befall His children in their earthly pilgrimages and the anxiety to which it would lead; therefore He set forth the proper attitude toward them.

1. The nature of earthly riches (vv. 19-20). Uncertain (v. 19-20). Earthly treasures corrode, or are taken from us, therefore we should lay up for ourselves treasures in heaven where they are absolutely safe from corruption and from thieves.

2. The effect of earthly riches (v. 22-24). (1) Blunt the moral and spiritual perceptions (v. 22, 23). Those who become enamored of the things of this world soon become irresponsible to spiritual things.

(2) Seductive (v. 21). Christ called riches deceitful (Mark 10:22). It is not wrong to possess earthly treasures, but when earthly treasures possess us, they become a snare unto us. Excessive attention should not be given to earthly treasures.

(3) Anxiety to seek the kingdom of God (v. 30). God is able to supply His children's needs. (2) It is useless (v. 31). Anxiety can bring nothing. While bringing us nothing, it weakens our service. (3) It is heathenish (v. 32). Those who have not learned to trust God may worry over temporal affairs, but those who know Him as a loving Father, will be free from care.

2. Be anxious to seek the kingdom of God and serve Him (vv. 33, 34). This means that worldly affairs should be subordinated to spiritual affairs. This does not preclude the proper forethought touching reasonable support for self and family. The warning is not against forethought, but worry.

Riverdale Busy Bees Meet. The Riverdale Busy Bees extension club met Thursday with Mrs. Bryan Fortis. The lesson was most interesting, and was on the beautifying of the home grounds. Seventeen were in attendance, and the hostess served a delicious lunch of chicken sandwiches, pickles, cocoa and wafers, butterscotch parfait and cake.

RAVENNA TOWN TEAM DEFEATS ORD ALL-STARS

Buffalo County Team Gets Revenge in Rough Game; Krejci Held To Eleven Points.

Journeying to Ravenna the first of the week, Joe Krejci and his city league All-Stars lost the decision in a rough and free-scoring game when the Ravenna town team piled up an impressive total of forty-one points.

Handicapped by the absence of their star guard, Alvin Jensen, and a regular forward, Ike Blessing, the All-Stars failed to put up their usual game. Joe Krejci, ace of the local team, was closely guarded and though he came through with eleven points to show for his efforts he was unable to run up his usual total.

Carlson pushed Krejci hard for honors and scored ten points, more than any Ravenna player was able to garner. Beeghly played a wonderful game at guard and Brother Lashmett looked the best he has this season in attempting to fill Peanuts Jensen's shoes.

The game was played in Yanda's pavilion which has an extremely low ceiling and this was another handicap to the Ord players. All of their points were made on short shots while the Ravenna players, used to shooting without arching the ball, rang them in from a distance.

The game was rough and sixteen personal fouls were called on Ravenna. Had the All-Stars been making their charity tosses the score would have been much closer.

Krejci Keeps Position At Top of Scorers

Though Joe Krejci, Hill & Hill captain, has played but four games in the city league, he maintains his position at the top of the scoring heap by a wide margin in tabulations make this week. Baker, who played on the Hill team in the first half but who has been shifted to the Penney team, is now in second place ahead of Blessing, Nyal forward. McMinds has dropped to fourth place and Carlson, who entered the top ten for the first time last week has climbed from sixth to fifth position.

Dannebrog, North Loup, Beat Ord Hi

Basketball teams of Dannebrog and North Loup high school added Ord high to their list of victims in games played last Friday and Saturday. The fast Dannebrog team beat the locals 24 to 11 and North Loup pushed them still deeper into the mire with a 21-10 count.

Coach Krejci's team was unable to get started against the Loupers Saturday night and though North Loup is conceded to be the weakest team on the Ord schedule, Krejci's proteges could score only ten points against them.

Dale Chatfield looked best for Ord in both games and scored nearly all of Ord's points against North Loup. Everett Lashmett, Hughes, Christensen, Norton, Benda and several others saw action.

ALL-STARS WIN BOTH GAMES OF DOUBLE HEADER

Krejci and Mates Drub Scotia Town Team, 38 to 12; Reserves Beat High School.

Monday night was a successful one for the Ord City League All-Stars for not only did Joe Krejci and his mates administer a sound 38 to 12 drubbing to the Scotia town team, but the All-Star reserves led by Frank Andersen beat the Ord high school team 18 to 5.

Neither game was very successful from the standpoint of interest for both were runaways for the All-Stars. The first half of the Ord High-Reserve game was close, the Reserve leading at half time by a 7-5 count. In the second half Captain Andersen's team did such a good job of guarding that the high school was unable to score. Shunkwiler, Williams, Gudmundsen, Cass, Perilinski and Andersen saw service on the Reserve team. Andersen, with 9 points and Cass with 6 looked best for the Reserves. Ten Ord high players saw service during this game. The list included E. Lashmett, D. Lashmett, Chatfield, Benda, Hughes, Norton, Christensen, Steinwort, Hather and Strong. Christensen made 3 points and E. Lashmett 2 to complete the high school's scoring.

The Scotia All-Star game was even less interesting than the preliminary. The Ord team got off to an early lead on field goals by Carkoski, Krejci and Jensen and at half-time led 15 to 1. Scotia having one free throw to their credit. Jensen and Beeghly were playing a remarkably close guarding game and Scotia was unable to penetrate the Ord defense. The few long shots they tried went wild.

Jensen showed to advantage in the first half when he went down the floor to receive passes from Krejci and dropped short shots through the netting. In high school Peanuts played forward and may be shifted to this post in future All-Star games.

In the second half Grohosky and Nitzel, Scotia forwards, succeeded in sinking a few long shots but the All-Stars piled up 22 points, all on field goals. Carlson and Krejci displayed uncanny accuracy in this period, Carlson dropping several through from the corners and Krejci scoring at will from around the free throw line.

All the Ord players in suit saw action before the game was over. Heuck, interjected at forward late in the game, looked good and should be a valuable addition to the All-Stars. Heuck, Nay and Krejci teamed well together and executed a pair of pretty plays that culminated in field goals.

Ward Mizar Very Ill. Ward Mizar, former Quiz employee who underwent an operation for ruptured appendix in Mary Lanning hospital, Hastings, last week, is reported to be in a very serious condition. His friend, Ora Lashmett of Ord went down and stayed near him for several days, returning home Sunday.

Merwin Detweller, of Grand Island, a son of the late Will Detweller of Ord, recently was elected president of the Grand Island grocers and butchers association.

Ansley Town Team Will Play in Ord

The fast Ansley town basketball team comes to Ord next Monday evening to try conclusions with the City League All-Stars at the high school gymnasium. Ansley always has been a stronghold of basketball and this year will be represented by a town team that includes two former U. of N. players, Miller and Mackey. A good preliminary will be arranged, probably between the North Loup town team and the City League All-Star Reserves.

WHY WORRY? If you want to make a change, we have applications for loans on improved Valley county farms for \$3500, \$4000 and \$8000, to pay 5 1/2 per cent semi-annual interest, which we can recommend as perfectly safe, and bringing you a fair interest on the investment, there being no tax on them. We also have application for \$1,000 on Ord property that will pay 6 per cent.

LEGAL NOTICES

Bert M. Hardenbrook, Attorney in the District Court of VALLEY COUNTY, NEBRASKA. In the Matter of the application of Arthur M. Shoemaker, Executor for Licenses to sell Real Estate. Order to Show Cause Why License Should Not Be Granted to Sell Realty.

Now, on this 15th day of January, 1930, Arthur M. Shoemaker, Executor of the estate of Morris B. Hall, deceased, having presented his petition under praying for a license to sell the following described real estate of the said Morris B. Hall, deceased to wit:

- 1. Lots five and six in Block ten, first addition to Arcadia, Valley County, Nebraska.
2. The southwest quarter and the east one-half of the northwest quarter of Section twelve, Township 17, Range 16, west of the 6th P. M. in Valley County, Nebraska.
3. Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12 in Block six, Hawthorne's Addition to Arcadia, Valley County, Nebraska.
4. A tract and parcel of land commencing sixty feet north of the northeast corner of Block one of Hawthorne's Addition to the Village of Arcadia, Valley County, Nebraska, thence east to the right-of-way line; thence south to the right-of-way of the C. B. & Q. Railway Company; thence in a north-westerly direction along said right-of-way to the east line of Hawthorne's Addition to the Village of Arcadia, thence north to the place of beginning, all being a part of the southwest quarter of the southeast quarter of section 23, Township 17, Range 16, west of the 6th P. M. in Valley County, Nebraska.

or a sufficient amount thereof to bring the sum to be paid thereon one hundred (\$5,100.00) Dollars for the payment of the debts against said estate and the expense of administration, for the reason there is not a sufficient amount of personal property in the possession of said Executor, belonging to said estate, to pay said debts and cost and said real estate should be sold for the further reason, that of permitting the Executor to comply with the terms of the last will and testament of said Morris B. Hall, deceased.

It is therefore ordered that all persons interested in said estate appear before me at chambers in the city of Ord, in said County, on the 28th day of February, 1930, at the hour of ten o'clock A. M., to show cause, if any there be, why a license should not be granted to said Arthur M. Shoemaker, Executor, to sell so much of the above described real estate of said deceased.

## Dairy Testing Association Is Seventh in State

The Valley County Dairy Herd Improvement association ranked seventh among the twenty-seven cow testing associations in Nebraska for the month of December in butterfat production, according to word received today by the Quiz. The local association with few exceptions has ranked among the first six during the months of the year.

The local association had an average butterfat production per cow in December of 27.3 pounds. The leader, Dawson-Lincoln, had an average production of 31.7 pounds to the cow. Two hundred and fifty-nine cows were on test in the Valley county organization according to Carl Smith, official tester.

Twenty-four herds in the local organization were in the 40-50 pound butterfat producing class for the month. Five produced from 50 to 60 pounds while two cows bettered the 60 pound butterfat mark.

In high producing herds in the state, Earl Hanson, today had the high herd here for the month, ranked seventh among the twenty-seven leaders. His herd of Holsteins averaged 45.5 pounds butterfat to the cow. The leader had an average production of 64.5 pounds per cow.

The other Valley county leader, McLain brothers, in the class of sixteen or over cows being milked, ranked eighth in the state in December among the high producing herds from the twenty-seven associations. Their herd averaged 35 pounds to the cow. They were milking twenty-four head during the month.

W. D. Kingston, who had the high producing cow in the Valley County association for December, ranked eighteenth in the state among the other dairymen having high producing cows. Kingston's cow produced 67.1 pounds of butterfat while the leader produced 93.7 pounds.

The ten members having high producing herds in the local association for the month were: Earl Hanson, Don Miller, Kingston, E. S. Coats, W. D. Kingston, McLain Brothers, Valasek Brothers, A. W. Pierce, L. P. Fenster and M. R. McCall.

## Nebr. Uni Livestock Cops at Denver Show

Livestock exhibited by the University of Nebraska at the National Western Livestock show held at Denver recently, copped many major prizes in nearly every class they were shown in, according to word received by the Quiz today from Prof. H. J. Gramlich, head of the animal husbandry department at the university.

Numerous first places were captured in the hog class with the grand champion fat barrow being a product of the University of Nebraska. Hogs copped ribbons in the Poland, Duroc, Berkshire, and grade classes in which they were shown.

Cattle exhibited and bred by the university also were awarded prizes in the junior yearling, summer yearling, junior calf classes. In herd classes they also scored high.

Coats Home from Lincoln. Wayne Coats, son of Mr. and Mrs. Ernest Coats, is not to take a second term short course at the college of agriculture. He has returned home and plans to attend next year. Inability to take dairy courses during the second term was the reason for young Coats not taking the term. The first term has just closed.

The other Valley county boy taking the short course in farm operation at the college, Vern Porter, is planning to register for the second term.

Nebraska has no bonded debt. The plan, "pay-as-we-go," is public policy and most popular.

## AM I RIGHT?

By Geo. Round, jr.

The Extension Service at the college of agriculture, Lincoln, is placing more emphasis on farm accounting this year than ever before. Farmers over the country are asking the question, why should they think farm accounting so important.

In their effort to make farming more profitable and to make the farm home more attractive, the extension service believes that farm accounting must occupy an important position in the life of the farmer if they expect to make their occupation a successful one.

Today in every line of business, whether in the grocery business, garage business or what-not, books are kept and this is commonly called accounting. A business in agriculture, large or small, that keeps no books is not under ordinary circumstances a very successful one in any locality. The men behind the business must know if they are making money, if so where and how. Show me the business that does not keep books that is successful in Ord, Arcadia, Elyria, North Loup or any other place in the United States today.

In the past farmers have not taken to the farm accounting project with very much enthusiasm and have not taken a very decided interest in it, thinking it impractical. To day competition is getting keener in farming as well as other businesses and farmers must keep an account of their receipts and expenditures if they expect to know how they stand at the end of the year. It will tell them what crops are making them the money and how much they are making. In this day estimates and guesses of how receipts and expenditures vary on different crops during the year is getting to be a hit and miss proposition.

If any other business must keep books, certainly the farmers will have to do so in order to keep in step with the other great industries of the nation. It is for that reason that the Valley County Farm Bureau

and the Extension Service are endeavoring to have more farmers enrolled in the farm accounting project this year than ever before.

It is a sound proposition and Valley county farmers who are enrolled in the farm account project may well be marked as the progressive farmers in the county. They want to know how they stand financially at the end of the year as do other men in other lines of work.

Irl D. Tolen, member of the Nebraska State Fair Board, was a visitor at the Organized Agriculture meetings held at the college of agriculture, Lincoln, recently. He was in company with President Lamb of the board. Both were introduced before the dairymen's session.

Anton Beran reads the ag page but don't believe everything I have to say in this column. The title of the column indicates that you are to be the judge. Floyd Rathbun says "Dugan's" calf will have to step to beat out his Angus at the county baby beef show this fall. Watch out Dugan. Floyd Wetzel again brings facts and figures and Valley county by showing prize corn at the various corn shows. Leo Long is another Valley county man who reads the ag page each week in the Quiz. Bill Garnick is probably Valley county's most all-around 4-H club member. He is in the pig club, dairy calf club and baby beef club this year. He should make some record.

In a letter to W. W. Burr, dean of the college of agriculture, James C. Stone, vice chairman of the Federal Farm Board, describes the requirements that farmers and cooperative organizations must meet if they expect to be able to get help from the Board.

He writes that it is impossible, of course, for the Board to deal with individual farmers over the country. He says under the terms of the Agricultural Marketing Act, the Board may, with exceptions not here important, lend only to cooperative associations who are qualified under the Capper-Volstead Act of 1922.

A co-operative organization must be composed of persons engaged in the production of agricultural products; as farmers, planters, ranch-

men, dairymen, nut or fruit growers, acting together in an association in collectively processing, preparing for market, handling and marketing in interstate and foreign commerce such products of persons so engaged.

Stone declares that under the provision of the Act, the association shall be operated for the mutual benefit of their members. No member of the association is to be allowed more than one vote because of the amount of stock or membership he may own. The act further stipulates that the association must not pay dividends on stock or membership capital in excess of eight percent per annum. The association shall not deal in the products of non-members to an amount greater in value than such as are handled by it for members.

This information may help to clarify for Valley county farmers as to what and as to how the Federal Farm Board may help them if any such cooperative organization were to be organized in this community.

Success of any 4-H club work in Valley county or any other county in Nebraska is due to a large degree upon the quality of local leaders in that particular community. Their leadership combined with the leadership of the county extension agent builds up the club program and determines whether or not the program will be a success. Last year Valley county club work due to the fine co-operation between County Agent Dale and his many splendid local leaders scattered over the county.

In every line of work there are local leaders in Valley county that will compare with the best in any other line of work. They are willing and do give a portion of their time in order that they may help to put the club project across. Yet they get nothing for their efforts in a financial way.

Thus, people in Valley county that would take part in the work are foolish for wasting their time when no financial gain is to be realized. But they get something more than financial return could possibly give them. They have the satisfaction of knowing that they are doing their bit in making good citizens of tomorrow out of boys and girls of club age.

Certainly those local leaders in this county last year are to be complimented upon the fine piece of work they accomplished. It would take dozens of pages to name all the leaders and what they really accomplished and space forbids it here. However, I must mention a few of the outstanding local leaders as I saw them from my viewpoint during the year.

County agent Dale congratulates these leaders on their work and realizes their worth in the club program of today. Without the aid of such leaders as H. J. Walkemeyer, Arcadia, much of the club work started and finished in the vicinity of Arcadia would never have been accomplished. Mr. Walkemeyer is probably Valley county's most enthusiastic club leader and a real one too. He has led pig clubs, baby beef clubs and corn clubs during the time he has served as a leader in his community. Agent Dale values his services, too.

Then, Clare Clement, prominent Mira Valley breeder, was an outstanding leader last year. He led the Valley county baby beef club to a successful year and was the originator of the club. "Dugan" helped the boys pick their calves when they started to feed and kept them interested throughout the club year.

Such women leaders as Mrs. Pearl Mulligan, Mrs. Boyd Mulligan, Mrs. Naevs, Mrs. J. W. McGinnis, Mrs. Glen Carson, Miss Marie Gates, Mrs. F. J. Schank, Mrs. G. G. and others were real helpers in putting the club program across. They are to be complimented upon their work.

It is needless to say that there are many other men and women leaders in the county who were just as outstanding as those mentioned but their names do not come to my mind at this moment. They have been influential also in making the 1929 club year a success.

## The Back Forty

By J. A. KOVANDA

Farmers who grew such seed as alfalfa, sweet clover, or red clover, and are offering it for sale, are required to show the data relative to purity, germination test, name and number of weed seed per ounce. Otherwise they are liable to the purchaser, who might cause them trouble if such information is not shown on the sacks or containers and unsatisfactory results appear after sowing such purchased seed. Purity and germination tests may be secured free by sending small representative samples to the State Seed Laboratory, State Capitol building, Lincoln, Nebr.

Purchasers of alfalfa seed may wonder if it pays to give \$28 a bushel for varieties such as Cossack or Grimm, when ordinary seed can be bought for half this price. As a rule the extra tonnage of hay secured from improved varieties soon repays the grower for any extra seeding cost.

During the growing season one can see a typical demonstration of this fact on Emil Zikmund's farm, four miles east of Ord. Mr. Zikmund planted three variety plots of alfalfa on one field. The first was Dakota 12, the second Cossack and the third an unknown strain of cheaper seed.

Of the three varieties, Cossack stands up the highest, stools the most, and outyields the others consistently. The yield of Dakota 12, though excellent, is somewhat less. The plot where cheaper seed was planted, yields very inconsistently, the first cutting is good, but the second is short, and the third is seldom worth harvesting.

In a four-year test at the Nebraska station, Cossack alfalfa yielded 5.09 tons, Baltic 4.97 tons, Grimm 4.72 tons, Canadian Variegated 4.66 tons, Common 4.47 tons, Turkestan 4.16 tons, and Sand Lucern 4.05 tons per acre. The three most desirable variegated varieties Cossack, Grimm, and Baltic, not only averaged ten percent more in yield than common, but also showed evidence of superior winter hardiness.

Stand survival at the end of four years was as follows: Cossack 89 per cent, Baltic 85 per cent, Grimm 83 per cent, Turkestan 81 per cent, Common 72 per cent, Canadian variegated 69 per cent, and Sand Lucern 13 per cent.

So much unadapted seed has been coming into this country that recent federal seed legislation and rulings were made which require the staining of all imported alfalfa and red clover seed. The law requires: (1) that red clover imported from Italy and alfalfa seed imported from Africa and Turkestan be stained red because of their general inadaptation to this country. As a matter of precaution, seed of un-

known origin must also be stained red. (2) Due to inadaptation in the middle and northern states, alfalfa from South America must be stained orange-red. (3) Canadian seed must be stained violet, and (4) all other imported seed must be stained green.

Violet stained seed is ordinarily suitable for this state, but some of the green stained seed has been found unadapted. Staining requirements apply only to imported seed. Seed produced in this country should not be planted here unless it is known to have been grown several seed generations under climatic conditions at least as severe as ours.

Our state leads in alfalfa acreage, but that acreage has decreased steadily since 1924. Some of this decrease has been due to sweet clover, alfalfa-wilt disease, and to the near impossibility of re-seeding alfalfa ground. On the other hand the one factor most instrumental in bringing about this decrease has been unharly seed.

## December Production 11.7 Per Cent Larger

Butterfat production in December in the dairy herd improvement associations in Nebraska increased 11.7 per cent over that of November, according to word sent to the Quiz today by the state office in dairying at Lincoln. The increase meant that 2.7 pounds more of butterfat were produced during the month per cow than during November.

The increased production brought members of the various associations, Valley county included, over five thousand dollars in additional returns over those of November, it is estimated.

Increased number of cows producing forty pounds of butterfat was also noted in December over the previous month. The average for all associations in the state for the month of December was 24.7 pounds while in November each in the state on test averaged 21.5 pounds butterfat.

Production for this month, January, is not expected to be so heavy and the increased butterfat production will probably not be so conspicuous.

Haskell Creek

It is with sorrow that we learn of the passing of another of the pioneers, Nels Mogensen who passed away last Friday. In 1884 he came to Valley county, and for a year he had charge of the first mill ever built in this county, the old water mill near Ord. In 1885 he homesteaded and filed a timber claim on what is now known as the Coffin place. Twenty some years ago he moved to the place which has since been his home and has been run for the past years by his son Jack Mogensen. The sympathy of the entire community is with the sorrowing son and daughters who are left.

# BONOFAT

The 12 Master Farmers presented medals at Lincoln were chosen from a field of 225 candidates. Each was outstanding in some special achievement. In the Nebraska Farmer of January 25th is a special article about one of them, Mr. J. J. R. Clausen, of Beatrice, who is one of the most outstanding hog men of the state. He has shown and won at the American Royal at Kansas City and Western Stock show at Denver. His brother has won the Grand Championship at the Omaha Ak-Sar-Ben twice. They buy and feed Bonofat in carload lots, and think it is the best hog supplement manufactured. If they can feed it at a profit so can you. Why not try some out of the next car. Here soon. Cheapest and best hog feed on the market. Will appreciate your order.
