 By H. D. LEGGETT

It seems sure that Mr. Groundhog saw his shadow Friday, Feb. 2. It is going to be tough to have to stand weeks more of such winter as we have been having of late.

A lot of democrats have gone in to the Republican primary in the past to vote for Geo. W. Norris and it hurt my feelings a bit to go into the democrat primary this year to vote for Floyd L. Bollen for U. S. Senator and for Emerson Purcell for congress.

The government appropriated a half million dollars to build a furniture factory at Reedsville, Va., in which to build furniture to be sold to U. S. postoffices throughout the country. Now certain congressmen are raising the question of "government in business". Why is it so much worse for the government to make its own postoffice furniture, than it is for it to print every blank used in those postoffices? And how, in the face of a postal deficit, can the government justify printing envelopes for Ord business men at less than an Ord print shop can buy the plain white envelopes, and then deliver them free of charge? It seems to me this is a case of straining at a gnat and swallowing a camel. And another thing, how is the government going to justify a code of fair prices for we printers when we have to compete with such prices as the government makes.

Why must a man who pleads guilty to committing a heinous crime, have an attorney appointed to defend him, the people paying the bill?

There should be a law against mail carriers taking a winter trip to Florida, then coming home and giving a newspaper publisher a big ocean fish. That is what Lyle McBeth did when he got back from his Florida trip last week, and now I want to take a trip down there and go fishing in the Gulf of Mexico. Eugene has a story about Lyle's trip on another page. I sure did appreciate the fish, too.

I wouldn't be surprised, if the real truth was known, if we would find the power interests are causing all the delays in the various power and irrigation projects in Nebraska. Why? Take the power line that runs up the river opposite Ord. What do those farmers have to pay per 100 kw-hr? About 15c I believe. What would they probably have to pay if we could get our project through? Well, not more than a third what they have to pay now. And suppose all the Nebraska projects are allowed? Twenty-five will use power then where one uses it now, but the power people will be greatly injured. No question about that. What would you do, in their place? Well, they are doing it, never fear. Of course they are covering up their trail pretty well.

Up to this time, I don't believe that Gov. Bryan has done our power and irrigation project any harm and I believe he is going to do us a lot of good yet in getting it put through.

Will Rogers says all he knows is what he reads in the papers. The only way I can keep sending you the Quiz is for you to pay your subscription when it is due. I try to make it as painless as possible by allowing you to pay a part if you can't spare it all:  
 1 year. . . \$2.00  
 6 months. . \$1.00  
 3 months. . .50

I figure that, in most cases, if you can't pay at least 50 cents when the paper is out you can't pay \$2 or \$4 or \$6 if I keep sending it. I try to be reasonable but if you get very much behind you may not get the paper next week. You know, it is not like it was when we were making money. We are losing money now, and just can't keep sending the paper if it is not paid for.

The first reporter, that Herb Mason, Wait Waterman and Bill Bartlett broke the bench on the west side of Milford's store, proved to be unfounded. Henry Marks was learning to ride his new Model A Ford and it bucked him off and plunged across the sidewalk hitting the much used bench and the boys mentioned above were just lucky that they were not on the bench at the time.

**Something DIFFERENT**

Handwork of all kinds has had a revival in earnest within the past few years, and having again become very fashionable is seen on every hand.

Crocheting is again popular, and is being used mostly for sweaters. Irish crochet lace is high fashion and expensive, and those who understand the making of it are quite often found wearing collar and cuffs, or perhaps a large bow of it.

Knitting has been in great favor for several seasons past, many ladies making themselves sport dresses, a big undertaking no matter how small the woman. Or perhaps sweaters, caps, or scarves. Of course there are many women who knit expertly, but I do not know of anyone in Ord who has made herself a dress.

Mrs. Mike Kosmata does the unusual when she presents the new babies of her friends with tiny hand crocheted booties made by her own fingers.

A good number of Ord homes are furnished with those variegated colored yarn afghans, made by crocheting squares and then assembling them in quantities. The general effect, though gay, is largely black or brown as a rule. Mrs. Orville Sowl has a quantity of this work, as does Mrs. Edwin Clements, Jr., among others.

An Ord woman who has clever fingers is Mrs. Frank Pafetta, Jr., and her home surroundings testify to her skill.

When it was the fad of the moment to paint pictures on velvet Lydia had the most and brightest of them. Whatever you name she can do it, whether it be making lampshades, dainty pillows, or whatnot.

Mrs. August Peterson is an expert at making pillows, those big, soft elaborate-looking ones so popular in the living rooms of a couple of years ago. Mrs. Peterson has even been asked to sell her handwork in this line, so attractive are her wares.

Quilting of course has many devotees in Ord. In fact I believe it would be more difficult to find a woman who is not making a quilt than one who is. There are such myriads of charming patterns, with such lovely colors in materials, no wonder this long, tedious task is so often begun once more. The patterns popular in Ord run the gamut from the old colonial-day favorites down to the most modern. . . . or ancient? . . . applique models.

There are flower garden quilts, a number of local ones made from the patterns printed in the Grand Island Independent a few months ago, with no two blocks alike; and there are also toy shop window quilts in Ord, made from the patterns recently printed in the World-Herald.

I imagine perhaps the favorite, the one most made and most often seen here of late years is the Old Fashioned Flower Garden, sometimes called Grandmother's Flower Garden. I think one of the reasons for the popularity of this work is the opportunity it gives the maker to show her skill, to match colors and blend shades as she assembles the blocks piece by piece and block by block.

Anyone who thinks there are not many fine needlewomen in Ord is badly mistaken. He. . . it would undoubtedly be a he! . . . this scoffer. . . has only to attend some of the very numerous kenstingtons given in Ord each week. There He will not only find a beautiful quality of work done by flying fingers, but He will find a great variety of beautiful handwork, from the difficult cut-work embroidery so few will attempt down to the list to the humble relative of embroidery. . . the family darning.

—Dr. and Mrs. F. A. Barta drove to Lincoln Monday, spending the night as guests of Mr. and Mrs. John Zimmer and driving to Omaha Tuesday where Dr. Barta attended a directors' meeting. They returned to Ord Wednesday morning.

**THE COOK'S COL-YUM, YUM!**

According to the ads, men very especially enjoy dishes made with cocoanut. I don't know whether or not this is true, but cocoanut does give a festive touch, and I think children enjoy it very much. Then, too, cocoanut will always give a new flavor to an old familiar cake, etc.

**Cocoanut Kisses.**  
 Beat together two egg whites and one tablespoon of water, add one cup powdered sugar, two cups shredded cocoanut and two table-spoons flour. Drop these kisses on paper and bake until done. This is my favorite recipe and is very delicious.

**Breakfast Food.**  
 Spread a baking pan the following mixture; three and one-half cups cracked wheat, one teaspoon salt, one teaspoon soda, enough buttermilk to moisten well, and one cup of honey or syrup. Bake until brown, run through a food chopper and then if not brown enough bake again. This is much like "grape-nuts."

**Homemade Sandwich Spread.**  
 Run through the food chopper one pound of minced ham, one-half pound pimento cheese, two hard boiled eggs, one large cucumber pickle, one medium sized onion. Mix to a spreading consistency with the following mayonnaise: two well beaten eggs to which has been added one-third cup sugar, one-half teaspoon salt, one-half tablespoon flour creamed with one tablespoon butter, lastly one-half cup vinegar. Beat while it slowly comes to a boil and then remove from the fire.

**Washington Cherry Dessert.**  
 Blend one-half cup sugar with three heaping tablespoons flour, stir into one quart of canned cherries and cook until the cherries are thickened. Pour into a shallow baking pan and cover with the following shortcake batter: one tablespoon butter, one-half cup sugar, one egg, one-half cup sweet milk, one cup flour, one teaspoon baking powder. Mix to a cake and bake in a moderate oven. Chill, cut in squares and serve with whipped cream. This is delicious.

**One-Cup Honey Cake.**  
 Combine one-half cup butter, one cup of brown or white sugar, two beaten eggs, then beat smooth. Put in one-half cup honey, one-half cup jam or jelly, one cup sour milk, in which one teaspoon soda has been dissolved, three cups flour, one teaspoon cinnamon, one-half teaspoon cloves, one-fourth teaspoon nutmeg, one teaspoon baking powder and beat thoroughly. Add one and one-half cups raisins, bake in a slow oven 45 to 60 minutes.

**Sweet Corn Fritters.**  
 To one cup corn add two egg yolks beaten light, one-half teaspoon salt, one-fourth teaspoon pepper, one cup pastry flour with one and one-half teaspoons baking powder and two whites beaten dry. Take up the mixture in a tablespoon and with a teaspoon scrape in a compact mass into hot fat; turn to brown on the other side. Drain on brown paper and serve with baked or fried chicken.

—Friends and neighbors of the Dahlin families gave them a big surprise Monday evening as they are soon moving out of the neighborhood after making their home there for 25 years. The first farmer in these parts to buy an automobile was Jim Tatlow, who ordered one and made payment on it. But Will Cronk beat him to it, going to Omaha and buying a machine there and bringing it home with him. Tatlow expected to get his car in the next regular shipment of Buicks. Others expecting Buicks were W. B. Krown, C. E. Godhand and Royal Bailey.

 By J. L. GOVANDA

The Secretary of Agriculture, with the support of the President, is asking dairymen if they want to adopt a program of controlling production and raising prices. He has endorsed a proposed amendment to the agricultural adjustment act which would give emergency assistance to the dairying and beef cattle industries.

The dairy plan would work as follows:  
 A—Increase consumption by purchasing dairy products for distribution to the unemployed. The business revival, stimulated by the recovery program is also expected to result in more dairy products being eaten.

B—Decrease production by:  
 (1) Paying cash benefits to farmers who reduce dairy production 15 percent below the average of the past three years.

(2) Buying up dairy cows in surplus areas and giving them to southern farmers who have no milk cows, and would use their products at home.

(3) Pushing the program for the removal of tuberculous cows.

C—Finance the program by a \$250,000,000 fund. \$100,000,000 of this will be advanced by the government. As dairy prices strengthen, processing taxes will be levied on dairy products, to reach an eventual high point of 5 cents a pound on butterfat or its equivalent. Equal compensatory taxes will be levied on oleomargarine.

That dairy production has been increased is shown by the following figures, giving the amount of milk produced in the United States.

1924—	87,069,000 lbs.
1925—	88,375,000 lbs.
1926—	91,135,000 lbs.
1927—	93,047,000 lbs.
1928—	93,951,000 lbs.
1929—	99,736,000 lbs.
1930—	99,705,000 lbs.
1931—	101,970,000 lbs.
1932—	101,562,000 lbs.

There are about five million head of cattle in this country yet to be tested for tuberculosis. Of these, over half a million are expected to react to the test and be subject to removal from herds.

The plan for beef cattle has been deferred because beef cattle are not yet included among the basic commodities in the agricultural adjustment act.

Mr. Jonson and son Leslie, who has been his father's able assistant in the shop have mademany friends here who regret to see them leave. They will return to their home at Chapman where Mr. Jonson has a meat market which other members of the family have been operating. Leslie will remain to assist Sterling for a time.

Funeral services were held from the M. The deceased was born Jan. 28, 1882 near North Loup and grew to manhood here. He was married to Ethel Dunn of this place in 1902. To this union three children were born, all being present at the funeral services. They are Mrs. Irma Peterson of Parkerton, Wyo., Loys and Lyda, Lucas, Kas.

All except Will and Grace were present. Mr. Bellel was a kind husband and father and honest in his business dealings with his fellow men. Services were in charge of Rev. Mrs. Coleman is under Dr. Hemphill's care at her own home. North Loup folk seem to be in the wake of a series of accidents. Mrs. N. C. Madsen fell to the floor in her home last Friday evening when she caught the heel of her shoe in a congolem rug, causing her to remain in bed the next day.

**MANY CORN-HOG SIGNERS DESPITE FALSE RUMORS**  
 (Continued from page 1)  
 so the man who does not sign may find himself tied up anyway and getting no benefit payments, while his neighbor who has signed will receive a good payment as a result of his cooperation with the government, a member of the Valley county committee warns.  
 Secretary Dale said yesterday that he is very well satisfied with the way farmers are signing up in townships visited so far. In Noble township there are 88 farmers and 55 of them signed corn-hog contracts Friday and Saturday. The number signing in Elyria township was almost as large. In Eureka township, where signing was going on Monday and Tuesday, the number signing was somewhat smaller, due to the false rumors that were being circulated. Michigan township farmers, who were signing at the county agent's office on the same days, apparently were not heeding these rumors for the sign-up was heavy.  
 Yesterday and today contract signing is going on in Geranium and Springdale townships, tomorrow and Saturday Liberty and Davis Creek farmers will sign, Monday and Tuesday the work will take in Arcadia and Ord townships, and next Wednesday and Thursday the farmers of Yale and Vinton township will sign.

**DR. RICH says:**  
 Every year before spring work begins, people who have been suffering with rectal trouble for years and who have had plenty of time to get cured, come in and want to get fixed up in a few days, so they can start work. That's impossible.  
 Rectal troubles are usually of several years duration. They didn't come in a day and cannot be cured in a day. I know and you know the many and different reasons why these troubles are neglected. A time always comes when it is possible and convenient to do something. Make that time now!  
 Letters of the most grateful appreciation are received at the Sanitarium every day from cured patients. I wish I could publish them. You would know then why so many people prefer to come here for their cure. Delay now in getting well can only mean a greater delay later on. Come and see me. ## CATTLE! HOGS! HORSES!

**HORSES:** Again we will have a number of eastern horse buyers at our sale and want all the horses we can get. There will be buyers for all kinds and classes, so if you have any horses to sell bring them in.

**CATTLE:** We need more cattle for this auction. We could use 500 head or more. All classes of cattle are selling better, especially warmed up stuff. We urge you to bring in your cattle if you want to sell them for we will have buyers for more head than we can possibly get. Don't ship half-fat cattle to market—SELL THEM HERE WHERE YOU CAN SEE THEM SOLD and if you don't like the price you don't need to sell them.

**HOGS:** The market is much improved on stock hogs, especially on feeder pigs. Bring your pigs to this auction and we guarantee they will sell to your complete satisfaction.

**NOTICE—**We will not have as many horses as last Saturday so can devote more time to selling cattle and hogs. At the same time we expect more buyers, to be on hand than last week, so it is a cinch your stuff will sell good. Bring your horses—cattle—hogs—to this auction.

My Own Column

By H. D. LEGGETT

If we stop to think a minute, we will realize that while a few criminals in Chicago and elsewhere have been caught and put out of active circulation...

When men like Benson Bros., of near Arcadia, Charley Bals of Ord, John Kokes of Noble, Charley Boettger of Independence, Charley Meyer of near Burwell, and the Hiss could be extended almost indefinitely, go into the government corn-hog program, other farmers don't need to be afraid.

It has been suggested that more rapid action on the part of state officials in approving the water rights, might have enabled Columbus and other projects to get started before the present legal troubles came.

Phillips, Wis., Febr., 5, 1934.

Dear Sir: Enclosed find \$2.00 (bills) renewal for the Quiz. Hope to receive a calendar if I'm entitled to it.

Wishes for a better and bigger Quiz, we remain, Sincerely yours, Mrs. James Weber, Phillips, Wis.

There seems to be a growing interest in the poultry business and probably the pure bred business will come back.

After all, it is just as well that Vern Sankey killed himself. If he had not done so, it would have been another case like the John Dillinger case, with a half dozen lawyers fighting to keep him from the death penalty.

I went to Omaha last week to see the auto show. The big auditorium was full of the latest models, not only of cars, and in the evening there was a style show, with Art Randall and his orchestra furnishing the tempo for the dames to step to.

I went to visit Mr. and Mrs. L. J. Harris while in Omaha. Link, we called him, 35 years ago when they were in Ord and he helped them start the Valley County Times on its way to ruin.

One congressman proposes a federal law to execute convicted kidnapers by an army firing squad. Another will try to get a federal law making it a crime to pay a ransom.

Is there any significance in the fact that the only power and irrigation projects allowed in Nebraska, are the two political projects in the Platte valley, both the babies of Arthur Mullen?

I have just finished mailing the cook calendar out to all who are entitled to receive them. I hope you will enjoy them and I urge that you send in some recipes.

I am writing to all who are in arrears and who have not either been in or written to arrange for more time. I just can't keep sending the paper and I fear a lot of you are going to be disappointed when your paper stops.

I notice a good many, including Will Rogers and Col. Lindbergh, are criticizing Pres. Roosevelt because he cancelled the air mail contracts.

Something Different

If there is anything more fun than reading advertising in national publications these days I don't know what it is?

Every possible argument is produced. To be a person of good taste you should smoke one cigarette; to be a person of refinement you should use another.

For weeks and weeks now one gang have been trying to get you to worry about having a pink toothbrush! The toothpaste ads are like the cigarette ads...

Hand lotions are getting a good run now, too. Using the correct one invariably "gets the man", the ads tell us. If your Anne doesn't live there any more, you probably have dandruff!

The ads keep us all scared to death, or try to. You surely have faulty elimination, don't you... well just take yeast and you immediately gain a perfect complexion, some doctor in Timbuctoo guarantees you will.

The ads inform us fully as to why we don't sleep, why we have lumbago. They frighten us of cold-susceptibles, of persons who cannot speak French or play the piano.

It is all getting pretty silly. Probably those ad-writers know their psychology... I think they know too much... the ads they write are getting to be a grand joke.

THE COOK'S COL-YUM, YUM!

A great many people in our section of the country can meat each winter, when the butchering is done, and have many delicious meals therefrom, months afterward.

Preserved Beefsteak. Mix six tablespoons salt, four tablespoons sugar, two tablespoons saltpeper, one tablespoon black pepper, sprinkle in the bottom of a two gallon crock.

Mrs. Adolph Hellwege. Russian Braided Bread. To one and one-fourth cups of milk which has been scalded and cooled add one-fourth cup sugar, one cake compressed yeast.

Mrs. Gould Plagg. Cranberry Relish. Grind two cups uncooked cranberries, two cups of uncooked, unpeeled apples, one orange, peeling and all, add one-half cup English walnuts, chopped, one cup sugar.

Aladdin Layer Cake. Combine three cups sifted cake flour with four teaspoons baking powder, one-fourth teaspoon salt, one and two-thirds cups sugar and sift three times, then add one-half cup softened butter, three well beaten eggs, one and one-fourth cups milk and one teaspoon vanilla.

The hatchery business must work under a code this spring. The code, which is now in effect, does not definitely fix prices at which hatcheries may sell chicks.

BACK FORTY

The code also regulates terms to be used in advertising, requires proof of claims of pure strains, of blood testing, and prohibits the use of eggs for incubation which average in weight less than twenty-three ounces a dozen.

There is nothing in the code that prevents a hatchery from selling below the recommended prices, if it is still getting cost of production. However, if lower prices are quoted, a certified accountant may come in to examine the records of the hatchery.

## MISNER PLAYERS HERE FEB. 27

The coming to Ord of THE MISNER PLAYERS, "AMERICA'S FOREMOST DRAMATIC COMPANY," on February 27, is being looked forward to as one of the outstanding attractions of the year. Seldom does a dramatic company of the class of the Misner Players appear here and its coming at this time is due to the efforts of the Ord Schools, who sponsor the performances.

Ernest Raymond Misner, actor, director, publisher and educator, who has established an art center in the middle west and is an actor of national recognition, heads this company of players.

The Misner Players are playing universities, colleges and schools all over the United States and the reason for the universal success of this company is the discriminating selection of plays which assures the theatre-goer not only a period of rare entertainment but also an enriching motive for things worth while in life.

The company will give two performances in Ord, both of them at the Ord High School Auditorium. At 2:30 p. m. on Febr. 27 they will present William Shakespeare's famous play, "THE MERCHANT OF VENICE," which Mr. Misner has thoroughly modernized yet kept to the original script. Perhaps the most elaborate display of costumes Mr. Misner has ever carried will be used in the production and Mr. Misner himself is at his very best in the role of Shylock. In the evening at 8 o'clock the company will present "SHIPS AFLOAT," a colorful comedy-drama with a realistic Chinese setting.

The public is cordially invited to attend either or both of these productions and the admission fee will be nominal. Members of cultural clubs will be especially interested in "THE MERCHANT OF VENICE" which is here being presented for the first time in Ord, so far as is known. Don't fail to see "THE MERCHANT OF VENICE" and see "SHIPS AFLOAT" also if possible.

# QUIZ FORUM

**Explains Holiday Work.**

To the Editor of the Quiz:

The Farm Holiday association is a little over one year old in Valley county, about two years old in Iowa and eastern Nebraska. Some of the people who say farmers cannot organize and get anywhere may be surprised at what the Holiday-ers have done in the past year here.

Valley county was not as hard hit by the depression as some other parts of the state so there was not so much for Holiday-ers to do and the fact that in other sections where they had organized and used mass action saved us a lot of trouble, as mortgage holders did not care to have what was done in eastern Nebraska and Iowa repeated here in Valley county. That fact alone saved many farm families here their farms and some livestock.

When Arthur Mensing, Frank Carkoski and the writer were put at the head of the Holiday association here we agreed to exert every effort to make reasonable settlements before we called for mass action. Since then we have settled twenty-some cases and never had to call for mass action, though sometimes we were close to it.

The members told us they were ready to go, if necessary, to the last man. A fellow farmer in Vincent township came to us for help and our officers looked into the case, heard both sides of it in fact. Agents for the absentee landlord served papers to throw tenant and family off the place, although he was a good farmer and had offered a good share for rent. After a few rounds of argument we told the agents flatly that there were 700 farmers ready to back up our committee, after which the agents rented the farm to the tenant and everything was calm and peaceful again with everyone satisfied. This is just an instance of the kind of work we have been doing.

We sent telegrams to the Farm Credit Administration at Washington and also a lot of letters to help get the Omaha Federal Land Bank and the mortgage holders together on various threatened foreclosures. Mr. Anthony, one of the farm credit heads at Washington, always telegraphed answers and said he was working on the mortgage holder and the Omaha land bank, and hoped to get them together. We wrote also a lot of letters for members to their mortgage companies and although at first the companies were "hard-bolled" they have been acting more human lately.

I don't claim to be a radical except in two things: I say "hold your farm as long as possible, and, don't let anyone take your personal property" The only chance you will ever have to get out of debt is to keep your property. Chances are in a year or two it will be much higher in price and then you can pay your debts and have something left with which to make a living. We never advise anyone to get away with mortgaged property. If you sell any of it turn the proceeds to the mortgage holder. We can't ever get out of the depression by selling people out right and left. The only way is to grit our teeth and hang on. If you lose your property and home you are down and out for good. Hang on and there's a chance. We must all stick together. Mass action counts. The fellow who has his farm paid for may think he can be independent but if the rest of us go he will soon be the next victim. People will stand just so much. If the New Deal falls we will go down, down, until we are like the people of Russia.

We don't want that to happen and the Holiday farmers have helped to hold it at a stand-still for the present. The rank and file of us Holiday farmers are backing our President and with him we can all see a glimmer of light again. Some of the things like the NRA we don't favor and we do not agree with him about the way the federal land bank is being operated. We hope for passage of the Frazier bill at this session of Congress. If the President lets it go through there is a chance for all of us to own a home. The Frazier bill, as you will recall, calls for loans on land at 3 per cent, 1-2 to apply on principle. Also for long-time loans on chattels at 3 per cent.

In the old Nonpartisan days I met Senator Frazier in Lincoln, again at Grand Island and once in Ord. He is a farmers' man from the farm state of North Dakota. He was governor two terms as a Nonpartisan Leaguer and twice the Nonpartisans have sent him to the Senate. He writes me that if they could get the Frazier bill before the farmers and business men in small cities they would raise such a howl for it that Congress and the President would have to pass it.

If you are for the Frazier bill write your Senator, Congressman and the President. Our Holiday association has unanimously endorsed the bill and also declared against importation of meats and for Congress to prohibit the manufacture of oleo margarine and other butter substitutes. These resolutions were nicely typed and mailed to our representatives at Washington.

The Holiday association also instructed me as secretary, to use the Initiative and Referendum with other county associations to bring about a reduction in the salaries of county officers. They also gave a unanimous vote to back up the action committee with mass action if it is needed. Just before this meeting we lost Frank Carkoski by death, which crippled our activities badly for Mr. Carkoski was a very valuable man. His place was taken by Ole Nelson, who is going strong, and we are surely working him a lot as a lot of cases are bobbing up now just before the first of March.
