Valley County's January Quota of Tires Set at 37

But Only People Eligible to Buy May Have Them; Plan in Effect January 6th.

Only 37 auto, truck, motorcycle and bus tires and tubes will be available to Valley county people during January.

Of this quota 7 are passenger car tires, 6 are light truck and motorcycle tires, 13 are tubes for these tires and 11 are truck and bus tires and tubes.

So the county commodity rationing section of the defense committee was informed Saturday by Wade Martin, of Lincoln, vice-president of the state advisory defense committee. Ordinarily 300 or more tires and tubes would be sold in this county in a typical January, dealers estimate.

January quota for the entire state is only 1,125 passenger car, light truck and motorcycle tires and 942 tubes, and 2,655 truck and bus tires and 2,220 tubes.

Only persons eligible to buy tires under the new rationing plan will be permitted to buy, and then only if tires are available within the limits of the quota assigned.

Ralph W. Norman is chairman of the Valley county allotment committee, with Vern W. Russell and Dr. F. L. Blessing as other members. Ign. Klima, Jr., is chairman of the county defense committee.

Max Wall, of Arcadia, and Bates Copeland, of North Loup, have been added to the committee as advisory members. At 2:00 Sunday afternoon at the court house, this committee met with tire dealers, repair men and garage owners from all over Valley county to outline the tire rationing program and explain how it works. About 40 were present.

Addressing the meeting, Committee Chairman Norman said:

Red Cross Total Now Up to \$700

War relief funds for the Red Cross grew to a local total of \$700 during the past week, reports Treasurer Curt Gudmundsen. Biggest addition was \$35, given by the Rotary club of Ord. Other contributions were Protective Savings and Loan Association, \$15; Ed Beranek, \$15; Sack Lumber company, \$25; Dr. C. J. Miller, \$5; J. C. Penney Co., \$25; L. W. Kokes, \$10; Brown McDonald, \$25; R. E. Teasdale, \$2; M. Biemond, \$10; Olof Olsson, \$10; Kenneth W. Peterson, \$10; L. D. Milliken, \$10; Dr. C. W. Weekes, \$5; First National bank, \$25; Mrs. Frank Penas, \$1; Andrew Nielsen, \$2.

Also given was \$5 by A. J. Wise; Clayton Gilroy, \$5; Mrs. Vincent Kokes, \$5; Czech-American National Alliance, \$5; Jolliffe and Pitch clubs, \$12.50; Merrill Flynn, \$1; Mrs. W. A. Bartlett, \$1; H. B. VanDecar, \$2.50; Ove Fredrickson, \$2; Mr. and Mrs. William Treptow, \$5; Mrs. Rose Bartunek, \$1; Mr. and Mrs. George Weller, \$1; Miss Ann Kosmata, \$1. All of which, with the preceding donations, amounts to exactly \$700.53.

January 11 has been designated as Red Cross day in the churches, each pastor to deal with the subject as he sees fit. All local churches plan to observe this day, and to add to the funds for war relief.

No. Loup Quota Raised.

C. W. McClellan and I. J. Theilin, chairman and sub-chairman of the financial division of the North Loup branch of the Red Cross, conducted a house to house canvass Friday with Fortnightly club members doing the canvassing, and report contributions totalling \$141.48. Quota for the village was \$75.

Quota for North Loup and three adjoining townships, including the village, is \$300 and though reports from rural districts are not in it seems likely the quota will be raised. Archie Geweke, chairman for Enterprise township, has reported \$108.

George Kinsey Dies

Arcadia — (Special) — George Kinsey, former resident of this village, and still an extensive property owner here, died suddenly on New Year's day at his home in Hollywood, Calif., according to a telegram received by relatives. No further particulars were given in the message, which was delayed in transmission and did not arrive until Saturday. Funeral services already have been held and burial made at Hollywood.

Famous Writers Join Quiz Staff to Bring Readers News and Views on War Situation

Several nationally famous writers join the staff of the Quiz this week and may be read in this newspaper hereafter. They include H. R. Baukhage, commentator on the National Farm and Home Hour, with his "Washington Digest"; Drew Pearson and Robert Allen, with "Washington Merry-Go-Round"; Carter Field with a column, "National Affairs," and Edward C. Wayne, who will give a weekly analysis of national and international news.

These departments are being added at considerable expense for the benefit especially of many Quiz subscribers who do not take a daily paper or have a radio and still are interested in the war and world news in general.

Best known of the new writers probably is Mr. Baukhage, who has conducted a radio program for many years and is heard in hundreds of Valley county homes. Pearson and Allen are famous Washington reporters who have written several successful books, while Messrs. Field and Wayne are well known in their respective fields.

Leander Williams, 100 Years Old, Dies at Scotia Saturday

Lived in N. L. Community Since 1887; Burial Made There January 6th.

North Loup—(Special)—Funeral services for Leander Williams, 100 years old last May 6, were held Monday afternoon from the Seventh Day Baptist church with Rev. A. C. Ehret in charge. Mrs. Harlan Brennick, Mrs. Erlo Babcock, Dell Barber and Roy Lewis sang and Mrs. Ava Johnson and Mrs. Esther Babcock presided at the piano and organ. Bearers were the six oldest grand sons of Mr. Williams, who live in this territory, Melvin, Vernon and Harold Williams, and Leland, Edgar and Mervyn Stillman. Burial was in the family lot in Hillside cemetery.

James Leander Williams, youngest of nine children, born to Danile and Mary Williams, was born May 6, 1841, near Richburg, Allegany county, N. Y. He passed away at the home of his daughter, Mrs. Arthur Stillman, Jan. 3, 1942, age 100 years, seven months and twenty-eight days.

When he was only four years of age his father died and he early learned to care for himself. At the age of sixteen he went to Wisconsin, which was then known as the west. He soon returned to New York, but again came to Wisconsin in 1862. The next time he saw his old home in New York was when he made a visit there in 1913.

On November 25, 1865 he was married to Eunice Abigail Fuller. They celebrated their golden wedding in 1915. On April 25, 1922 she passed away, a union that lasted 57 years.

In 1871, he with his wife and little daughter came to Nebraska where they stayed but a short time, going to Minnesota and back to Wisconsin. Later they returned to Nebraska, where he homesteaded near Orleans and in 1887 he came to North Loup where he could be near a church of his faith. With the exception of nine years spent at Genoa, Ark., North Loup valley has since been his home. When a small boy, he was baptized and united with a Seventh Day Baptist church, remaining a member throughout his life.

He was a kind and loving father, and grandfather, a good neighbor, respected by all who knew him.

There remains to mourn his passing a son Henry, of Ord, a daughter, Mrs. Mafie Stillman, of Scotia, a son Bert, of North Loup, twenty grandchildren and sixteen great grandchildren. The oldest child, a daughter, died at the age of fourteen.

Loan Associations Meet in February

Directors of the North Loup Valley National Farm Loan association have set Wednesday, Feb. 4, as the date for the association's annual meeting, according to W. J. Hather, president. The meeting will celebrate the 25th anniversary of the cooperative farm loan system, Mr. Hather says, and will be one of the largest gatherings of landowners in the county this year. Further plans for the time and place of the meeting are to be worked out later.

The Burwell National Farm Loan association and the Loup Valley National Farm Loan association of Taylor plan to unite with this association in holding their meeting at Ord on the above date. More than 300 farmers from Loup, Garfield and Valley counties and their wives will be invited to attend the anniversary meeting, said the president.

February 16th Is Registration Date for Men 20 to 44

President Sets Date Monday in Proclamation; Lottery 2 or 3 Weeks Later.

February 16th is the date set for registration of all male citizens between the ages of 20 and 44 who have not registered previously. The date was fixed by President Roosevelt in a proclamation issued Monday.

Men in this age group will be subject to military service.

It applies to all male citizens born on or after Feb. 17, 1897 and on or before Dec. 31, 1921. Actual registration will be conducted under supervision of the selective service board in each county and will be between the hours of 7 a. m. and 9 p. m. on the date set. Provisions are made for registration before Feb. 16 and after that date in exceptional cases through arrangements with selective service officials.

No mention was made in the president's proclamation about registration of men from 45 through 64, who must register later but who will be exempt from actual military service.

The selective service board for valley county, which is composed of L. D. Milliken, W. T. McLean and William Ramsey, Jr., is busy drafting plans for the Feb. 16th registration.

John Osak, 70, Found Frozen

The dead and solidly frozen body of John Osak, believed to be about 70 years old, was found at his home in east Ord about 2:00 Wednesday afternoon. The body was lying on the kitchen floor beside a dismantled stove, which Mr. Osak evidently had been cleaning. He had been dead at least two and possibly three days, says Dr. F. A. Barta. Joe Penas, Jr., went to the Osak home yesterday to clean his chicken house and when he got no response to his knocks at the door he called Deputy Sheriff F. J. Cohen, who entered and found Osak's frozen body lying on the floor.

Mr. Osak had lived alone in a little house west of the Cetak place in east Ord for 15 to 20 years. So far as is known he has no relatives. The body is in charge of the Hastings-Zikmund Mortuary.

Roads Blocked as Blizzard Ushers the New Year In

Snow, Strong Wind Wednesday Night Block Roads; -19 Monday Was Coldest.

Heavy snow and a strong wind, plus extremely cold temperatures ushered the New Year in Wednesday night and Thursday, and cold weather since has given central Nebraska its first real seige of winter weather. Coldest record temperature came Monday morning with -19 degrees, according to the weather records kept by Horace W. Travis.

Most country roads were blocked in the New Year's storm and the temperature of 6 degrees below zero that prevailed throughout January 1 hampered the work of clearing them.

No. 11 from Burwell to Grand Island remained open throughout the storm but No. 57 between Ord and Arcadia was blocked part of the time.

Tracy Hamilton, county highway commissioner, put a force of shovelers to work Friday and most county roads were opened that day. Some township roads remained closed until Monday.

The Sargent and Comstock roads were drifted the worst of any in the county system, reports Hamilton, and a crew of 35 men shoveled 1 1/2 days, getting through at noon Saturday. Some hand shoveling had to be done on practically every county road, says Mr. Hamilton. Every road in the county system was opened by noon Saturday.

City streets also were blocked to a serious extent with east-west streets in the worst condition, but they were opened by Street Commissioner L. H. Covert and a crew of shovelers Friday. In the Ord cemetery drifts were deepest, Covert says, snow breaking over the top of his plow at times.

Union Pacific trains into Ord ran two to three hours late for several days, but this was partly because they were held at Grand Island for mail trains, which ran as much as four hours behind schedule.

Eastern Nebraska had much more snow than fell here, with as much as 12 inches reported at some points. All travel out of Lincoln and Omaha to the west was suspended Thursday and part of Friday and southeastern Nebraska was paralyzed by the storm. In western Nebraska colder weather prevailed but not as much snow fell, nor was the wind as strong.

The temperature has been below or near zero ever since January 1st, with -13 the low mark reported Friday, -12 Saturday, -16 Sunday, -19 Monday, -18 Tuesday and -13 this morning.

County Attorneys of Nebraska Elect Misko President

Lawyers Snow Bound in Lincoln by New Year's Eve Storm, Elect Ord Man.

John P. Misko, county attorney of valley county, was elected president of the Nebraska County Attorneys' association at a meeting held in Lincoln last Wednesday, following the annual 2-day convention of the Nebraska Bar association.

William Keenan, of Albion, was elected first vice-president, John Gewacke, of Geneva, second vice-president, John Wilse, of Falls City, secretary, and Louis Holmes, of Grand Island, treasurer.

Banquet of the association was held New Year's eve following election of officers and many of the county attorneys were snow-bound in Lincoln by the storm that evening and had to remain there over New Year's day because of blocked roads. Mr. Misko returned to Ord Saturday.

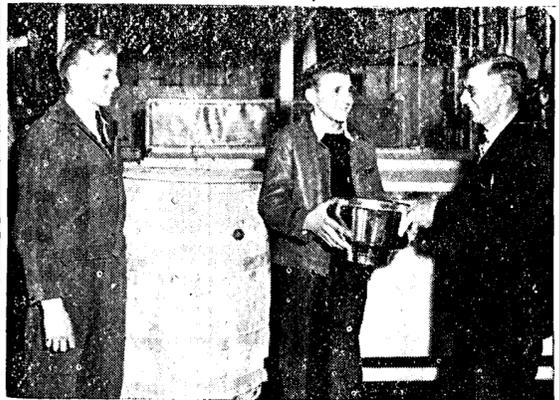

Find Frozen Body of Loup City Hunter

The frozen body of Donald A. Bals, 16, was found about two miles from his farm home west of Loup City Monday, and Sheriff Earl Hancock said he apparently froze to death while hunting in rough country near his home. It is thought the lad became lost.

He was the son of Mr. and Mrs. Theodore Bals, who lived 3 1/2 miles north of Loup City. When found he still clutched his rifle and a pair of ice skates. He had lost an overshoe and a mitten.

Tracks in the snow indicated the youth had come within a half mile of his own home at one time during his wanderings, which the sheriff estimated totaled about 20 miles.

Prizes Given to Creamery Contest Winners

Fred W. Coe, manager of the Ord Cooperative Creamery company is here shown presenting prizes to Robert A. Kokes and Anton Greenwalt, winners of an essay contest held by the creamery. There boys, along with other members of a high school agriculture class, wrote essays on the subject "Producing Better Cream for Market."

Instructed to Guard Dams and Power Plant

Instructions have been received from the government to station guards at the dams and other vital points in the North Loup district's irrigation system, said Engineer-Manager H. C. James Monday. The Middle Loup's property must be guarded, he said. Danger of sabotage attempts by enemy aliens is reason for the order.

Plans are being worked out now to guard the property, Mr. James said. At the big North Platte irrigation district 98 guards are on duty twenty-four hours a day to prevent sabotage, he stated.

George Allen, light and water commissioner, said he has been instructed to exclude visitors from the municipal light plant and to keep it tightly locked at all hours when it is not in use.

When the Omaha bomber plant and the Wahoo bomb loading plant get into full production there will be a power shortage in Nebraska and all municipal plants in the state will be asked to generate electricity to the limit of their capacity, both James and Allen believe.

Veleba Resigns as AAA Chairman to Enter Business

Headed Valley County AAA Since '36; Clement Chairman, Krikac to Committee.

Charles E. Veleba, chairman of the AAA committee in Valley county since 1936, resigned the position January 1 to become an active partner, with Frank Piskorski, in the Texaco bulk plant in Ord, the AAA committee announced this week.

Much of the progress made by AAA in Valley county is due to Veleba's hard work and his sincere belief in the principles of the agricultural conservation program, say his associates in the work, and his decision to resign is regretted.

In 1935 he was first elected to the county committee, at which time it was a part time job. This was the case until 1938 when commodity loans, parity payments, aerial photography and crop insurance on wheat were taken over by AAA. At that time the state committee decided that county committees should work full time, in the interests of the program.

The state committee never asked Charles Veleba to do anything behind which he didn't put all his dynamic force," said his associates, in accepting his resignation.

New county chairman will be R. Claire Clement and new member of the committee in Veleba's place will be Charles Krikac, who has been first alternate. Second member of the committee, elected a few weeks ago, is Emil Kokes. Vlad Babka becomes first alternate in Krikac's place.

Thursday Mr. Veleba will talk to the precinct committeemen when they are called in for the county meeting.

In the oil business in which he is now engaged he expects to be active in promoting farm trade while Mr. Piskorski continues to handle the filling station accounts. All of Veleba's AAA friends will wish him success in his new venture.

Broken Bow Car Upsets

A car driven by Tom Lutey, of Broken Bow, overturned in loose snow on the canyon highway southwest of Ord Tuesday afternoon. The Ord Auto Sales company's wrecker righted the car and towed it to town for extensive repairs to the top and doors. Mr. Lutey, the only occupant, was unhurt.

Essays Written by Kokes, Greenwalt, Adjudged Finest

Kovanda's Class Competed for Dairy Equipment Articles Offered Here.

Essays written by Robert Kokes and Anton Greenwalt, students in Ord high school, were adjudged the best in a contest held recently by the Ord Cooperative creamery, and a prize of a barrel cooling tank with adjustable collar irons to hold the cream can in was awarded to young Kokes, with a filter pad milk strainer going to young Greenwalt. Fred W. Coe, manager of the creamery, made the presentation.

Subject upon which essays were written was "Producing Better Cream for Market," and members of J. A. Kovanda's agriculture class competed.

Judges were M. L. Flack, extension dairyman at the University of Nebraska, Dr. Downs and Mr. Lawrence, instructors at the agriculture college.

In commenting on their selection of Robert Kokes' essay for the first prize, Mr. Flack said it showed good practical application and logical arrangement of details. Anton Greenwalt's essay dealt more in generalities, he commented. Third selection of the judges was an essay written by Don Guggenmos.

To produce best quality cream, the boys agreed, the dairyman should wash his hands before milking, clean the cow and her udders, milk into a clean pail, wash the separator after every milking, and cool the cream immediately after separating. Such a practice will take only a few minutes more per day and will result in higher quality cream and consequently a better price. Milk should be taken to market at least twice a week, they agreed.

The prize-winning essay written by Robert Kokes is reproduced on another page of this issue.

Rosy Future for Beet Growers, Is Kjar's Prediction

War Halts Philippine Import, Says State President; New Burwell Beet Dump Asked.

Burwell—(Special)—Resolutions demanding that the Crystal Sugar company of Grand Island install a new beet dump at Burwell in a different location and recommending that the Central Nebraska Beet Growers' association hire a tare man to check on the work of the tare man employed by the sugar company were passed unanimously at the annual meeting of the Loup Valley Beet Growers' association in the basement of the Methodist church in Burwell Monday evening. Dr. E. J. Smith was unanimously reelected to represent the association on the board of directors of the Nebraska Beet Growers' association.

The beet raisers were served a banquet by the ladies of the church. C. V. Kjar of Lexington, president of the Nebraska Beet Growers' association, who was guest speaker, encouraged the farmers in their demands and told them not to hesitate to complain to the company if they felt they were not getting fair treatment.

It was pointed out at the meeting that there are only two old style beet dumps in use in the state and that they are both in

Defense Council for Valley County Named by Klima

Chairmen Says Some Committees Not Needed Now but Will Be Required Later.

Ign. Klima, Jr., chairman of defense activities in Valley county, this week appointed the defense council for this county, which will serve throughout the war. One hundred and eighty-seven men and women are thus given a part in the defense program, in capacities suited to their abilities.

Committees are named in the Ord, Arcadia, North Loup and Lyria communities to handle such things as morale, publicity, finance, civilian registration, maintenance of law and order, fire protection, aircraft warning, rescue work, first aid, maintenance of physical fitness, education and recreation, nutrition and sanitation, tire rationing, power, water and fuel, transportation, protection of farm and livestock interests, protection of small business, labor training and supply.

Some of these committees are not needed at present, but all will have plenty of work to do as the war progresses and the emergency deepens, and Chairman Klima appoints them now so the men and women may become familiar with their duties.

Two of the most important committees, those which will deal with housing and with salvage and conservation of waste materials, have not yet been named, pending clarification of these programs.

First committee to swing into action is, of course, the tire rationing committee, and others will be similarly active later.

Membership in the Valley county defense council, by communities and sub-divisions, follows. In each instance the first named in each group will serve as chairman.

In Ord—vicinity. Public Relations & Finance. Morale—Rev. W. Ray Radloff, Rev. M. M. Long, Rev. T. C. Siudowski, Mayor M. B. Cummins.

Publicity—E. C. Leggett, A. A. Wiegard, Hilding Pearson.

Finance—C. J. Mortensen, Ralph Misko, Curt B. Gudmundsen.

Civilian Registration—Mrs. Ralph Misko, Mrs. Wilmer Anderson, Cecil D. Wardrop.

Maintenance of Law & Order—Geo. S. Round, Co. Sheriff, chairman at large for county, F. J. Cohen, L. F. Covert, Nels Hansen, John P. Misko, W. E. Lincoln.

Fire Protection—Geo. Anderson, Chet Austin, Verne Anderson.

Aircraft Warning—L. W. Covert, W. E. Lincoln, Nels Hansen.

Gov't Prohibits Sale of New Cars

On New Year's day the government prohibited the purchase, sale or delivery of new passenger cars and trucks by any dealer pending establishment of an automobile rationing system similar to the tire rationing system already devised, and announced that production of all passenger cars and trucks for non-military use will be halted after January.

Under this order dealers are not allowed to sell new cars or trucks, even if they have them in stock. No 1942 model car or truck or any car or truck of a previous year which has been driven less than 1,000 miles may be sold, according to the terms of the order. Cars of models prior to 1942 which have been driven over 1,000 miles are considered used cars, which dealers may continue to sell.

N. L. Community Chorus to Sing for the Red Cross

The Ord Chamber of Commerce has completed arrangements for bringing the North Loup community chorus of seventy-five voices to Ord for a concert next Monday evening, Jan. 12, with all proceeds going to the Red Cross. The chorus is directed by Roger Johnson and numbers several fine soloists in its personnel.

The concert will be given at the Ord high school auditorium at 8:00 p. m. Monday, and the public is invited to attend. There is no fixed admission charge but people attending may drop in a box near the door any contribution they care to make to the Red Cross, in lieu of admission.

Proceeds will be divided between the Ord and North Loup Red Cross quotas.

TRANSPORTATION CHANGE.

Remember what a fuss we made not so long ago when we heard that the Burlington was trying to take off their passenger train? Perhaps you can recall how we thought it would ruin the country to lose a means of transportation that none of us were using, anyway.

Most of us thought it would mean a great loss to Ericson, for example, to lose their branch line entirely. It was a loss, but not so great a loss as had been feared. In that loss came the opening of a new era for this little inland town.

Other small runs have been discontinued in the state, and, in the process a few towns have been left without rail facilities. In some cases this may have worked a hardship on the towns concerned, but it is agreed that it is for the ultimate benefit of all.

Now the Northwestern is asking the privilege of discontinuing the once all-important Hastings-Linwood line, extending a distance of 102.6 miles northeast from Hastings almost to the northeast corner of Butler county and about 25 miles west of Fremont.

It meant an era of prosperity to the territory involved, and the road paid high dividends over a long period of years. But with the coming of cars, buses and trucks, the use of which increased with good highways, the business of this road began to dwindle.

The usual newspaper opposition to the move is being used, but this will have little bearing in the face of cold facts. The books of the company show a loss of \$48,907 for the first ten months of 1941, and a loss of \$35,681 for the year of 1940.

Seventeen towns are serviced by the line, and ten of them will be without a railroad if the company's request is granted. They are: Eldorado, Stockham, Henderson, Charleston, Houston, Octavia, Thayer, Gresham, Surprise and Millerton.

When our national debt passed 29 billion dollars people were greatly excited; when the national debt passed the 40 billion dollar mark many were sure we were headed for national bankruptcy; then it passed 50 billion without much excitement and now the administration says it is going to spend fifty billion or more a year and we think nothing of it.

It seems almost certain that we will not be able to get any new automobile tires for a long time and it stands any of us who have tires to conserve them. If we have been joy riding to the extent of ten or fifteen thousand miles a year and buying new tires every spring so as to be reasonably safe in driving on the gas, we will have to cut out driving down to the bare necessity of getting where we have to go and back home again, and cut out all side trips.

With the war preparations calling for more and more iron, the scrap iron from discontinued rail lines will be of highest importance, and we may expect the railroad mileage in most states to be decreased materially by the time the war is over.

7. Lindbergh and the American isolationist movement. 8. Mid-Atlantic conference between President Roosevelt and Prime Minister Churchill to shape eight-point Atlantic proposals.

9. Nazi Germany's conquest of Jugoslavia, Greece and Crete. 10. Labor strikes in the United States.

An examination of the above list will show that every one of these biggest stories is connected more or less directly with war, and all but two of them are a direct part of the war.

At no time since the first World War have war stories so completely dominated the news field as they did in 1941. In all probability the same situation will obtain during 1942.

Others which may materialize, but are by no means certain. The British will probably defeat the axis forces and take over all of Libya, including Tripoli with its 70,000 inhabitants.

Hitler may try one or both of two invasion plans: One through Spain and against Gibraltar; the other through Turkey and against the British Near East forces in an effort to get at Russia from the rear.

Reckoning that we must plan on doing is to raise a good 1942 garden and can plenty of those vegetables that we like and that cannot be stored fresh. The government must have great quantities of canned goods and there may not be enough to go around.

Farm Labor Situation Is Given Careful Study

Government Devises Plan for 'Complete Utilization' of Local Workers to Aid in Nation's Food-for-Victory Campaign.

By BAUKHAGE National Farm and Home Hour Commentator. WNU Service, 1343 H Street, N-W, Washington, D. C.

As the New Year starts, reports are beginning to come in to the Federal Security Administration here from supervisors of farm placement in the 48 states. These reports state just what the farmers in each state are going to need in the way of labor this spring, and how these state supervisors who are on the ground studying the question, feel the problem ought to be met.

Meanwhile, Washington has been working on a general program whose goal is the "complete utilization" of all local labor. This means that every conceivable reservoir of man-and-woman-power is to be tapped to make this good earth of ours yield its utmost for the food-for-victory campaign.

Take what happened out in Oregon this last fall for instance. Oregonians have already taken hold of this "farm placement" idea and made it work. Along came the snap-bean crop and a drastic shortage of hands.

Then there are still a lot of farm-trained workers who have drifted to the cities where they have not secured employment or they have found themselves misfits. The United States employment agencies are going to lure them out of their dens back into the fields.

As the new year begins and I look back at the notes I wrote down after that climactic Sunday when we received word that the Japanese had made their surprise attack on Hawaii, they seem very dull and drab.

I have a memory of Sunday, of a brisk, sunny winter day. Then leisurely breakfast, the morning papers, the radio, the preparation to study myself in the outdoors for a few hours—a walk which might have made me miss those first dramatic moments at the White House.

When You and I Were Young Maggie

December 31, 1931. Representative Bob Simmons filed for re-election in the new fifth district, having formerly been elected in the sixth.

The Princess Players were to present "Two Gentlemen from Chicago," as a part of a New Year's eve show at the Ord Theatre. The Quiz was complaining because the Ord paving was muddy and needed a good cleaning.

Orvel Sorenson of Arcadia won a trip to 4-H club week to be held in June in Lincoln on the college campus. Rev. Stanislaus Bona of Chicago was named bishop of the Grand Island diocese, a position he still holds.

County Agent C. C. Dale offered to reduce his salary by \$400, saying that his salary should be in accord with the income from the farms. Needless to say, his offer was accepted.

William Honeycutt, resident of the county since 1879, died at the age of 73 years. A particularly heavy snowfall had been severe on snow birds and other birds who had a habit of wintering here, and hundreds of them were found dead.

Dr. J. C. Holson of Argent, one of the people who drew a low number in the Rosebud land lottery in South Dakota, was planning to go there and become a farmer for a while.

The state fire warden visited Ord and designated a number of fire traps that should be removed. They included a small frame building on the west side, the building on the east side occupied by Hank's Cafe, and which was the first Valley county court house.

The first annual poultry show ever held in Ord was held at the Ord Opera House and, according to Secretary H. D. Leggett, it was a great success in every respect. Premiums were paid on a large number of birds, and the attendance was sufficient to settle all bills.

Mrs. Anna Foth, mother of Emil Foth, died at the home of her son in Mira Valley at the age of 76 years. She had been a resident of Valley county about 12 years.

Clayton Gass, 23, was accidentally shot by his brother, Fred, 14, while they were doing some target practice just south of town. The bullet passed near his heart and it was feared he would not recover.

Henry Trefren ran a stick of wood into his eye, while in the yard after dark, thus losing the member. He is still able to use the other one, however.

The telephone installed by Fred Bell up to the Firkins ranch probably saved a life when John Hopkins, near there, became ill with acute appendicitis and it was used to call Dr. F. D. Haldean. There were very few country phones in those days.

The Valley County Times had been bought by the Quiz, whose editor postized on the demise of his contemporary. A fellow's got to eat! But acid indigestion, heartburn and sour stomach can sure take the joy out of a meal.

Blizzard of 1888 Club. The Quiz is in receipt of notice of the annual meeting of the Blizzard of 1888 club to be held at Hotel Lindell, Lincoln, Jan. 12, 1942. Reservations may be arranged with Mrs. Simmons, care of the hotel.

Something Different

Rex Jewett says I failed to mention the most unusual Christmas present in town when I did not tell what he gave his wife. Rex shot several coyotes, skinned and cured the beautiful hides, and had a fine coat made for his wife.

Arranging a manger and Christ child playlet at the Presbyterian Sunday school recently, young Tommy Price floored his teacher. Each child was asked what he wanted to play in the scene.

A little later, James Ollis was talking to the children about the spirit of Christmas. He gave quite a little dissertation on it. How every child has it at this time of the year, every adult, how it is in the air, how it makes everyone happy.

When the newspapers talk about the nurse shortage I cannot help but think back. Olga Vodehnal graduated from high school with honors at 15, strong, healthy, husky and eager to study nursing.

Eleanor Wolfe had to wait, so did Christina Peterson, then both of them were finally enrolled in the time-taking new-fangled way... they go to university part-time for a year, getting in several hours practice in scrubbing and such like, each day. A year later, they really and truly begin their nurses' training.

Loretta Achen, anxious to be a nurse, having to wait more than a year before she could begin to train at Mary Lanning hospital in Hastings, where she now is.

That wasted year or more is now precious. It is intelligent to want intelligent nurses, to have higher standards for this profession. And yet, if these girls can graduate with high honors from high school, as did each of the four above mentioned...

Nurses' training is a hard row to hoe in any event, and many girls start it who never finish. And it is a three year course, or has been. For I predict the standards are about to shift again. With our wartime needs, shorter and speedier training will be a "must".

Quiz want ads get results. But it is still good business to become a subscriber to the Quiz rather than buy it by the week, as it costs 60 cents a year more to buy it by the week than it does to take it by the year.

BRIEFS . . . By Baukhage

A California woman attributes her illness to television and other radio signals "which permeate her home and person." She has complained to FCC about it. The commission is sorry to learn of her illness, but says definitely that no case has ever been brought to its attention where such long-distance emissions have any physical effect on humans.

Sergeant Charles Melia Is Married in Omaha

Sergeant Charles M. Melia, son of Mr. and Mrs. P. J. Melia, of Omaha, and Miss Earlene Bladen, daughter of Mr. and Mrs. Earl Bladen, of Sioux City, were married Dec. 31 in St. Philip Neri church in Omaha by Rev. P. W. Burke. Afterward, the wedding breakfast was served at the Blackstone hotel.

Sergeant Melia is stationed at Fort Leonard Wood, Mo. His bride will make her home for the present with her parents at Sioux City.

Two Couples United in Marriage Here in Simple Home Weddings

Two attractive bridal couples were Lamoine Wigent and his bride, Miss Myrna Rowbal (at left), and Clifford C. Long and his bride, Miss Thelma Alice Wasson, of Kansas City. Both couples have been united in marriage here during the past few days. (Stories in Social column.)

Mrs. White Talks at Tea.

Mrs. Lillian Granville White was the speaker Monday afternoon at the home of her sister, Mrs. C. J. Mortensen when members of two clubs united to act as hostesses. In this way Jollite and Pitch club members raised money to meet their Red Cross quotas, asking 25c each for admission.

At the time of the German occupation of Belgium, Mrs. White was in Brussels, Belgium, and her remarks Monday afternoon told of her attempt to leave the country and the turmoil and confusion of all those concerned. She read a chapter from the book she is preparing, telling of her experiences. The war was thus brought into a close-up for her audience, made more emphatic by Mrs. White's quiet, controlled voice. Everyone was impressed by the picture she drew.

Following Mrs. White's talk, guests were asked into the dining room, where Mrs. Mark Tolson poured hot spiced tea. With it club members served little sandwiches and dainty homemade cookies, conducting a pleasant informative afternoon. There were about 50 guests.

Myrna Rowbal Weds.

Saturday evening at seven o'clock Miss Myrna Rowbal became the bride of Lamoine Wigent, Rev. Wilkins performing the single ring ceremony at the home of the bride's aunt, Miss Lucy Rowbal.

The house had been beautifully decorated with pink roses, and the young couple stood under an arch and a bell. Miss Margaret Holmes played the wedding music. The bride was lovely in a long full-skirted gown of the traditional white satin, which fell from a fitted and pointed high-waisted midriff section. Tiny white buttons marked the gathering front of the waist up to the sweetheart neckline. A ruffling of chiffon outlined the rather low neck. Sleeves were over-the-hand length. A train swept the floor, and a long veil fell from a double pleated band about her head, in which pink sweet peas were caught here and there. The bride carried a bouquet of the same flowers with many white satin streamers. Her slippers were of silver mesh. At her throat the bride wore the Christmas present of the groom, a locket, and on her engagement finger, sparkled the diamond ring given to her groom's mother 27 years ago by her father which LaMoine gave to his fiancée.

After the marriage ceremony 16 members of the families and intimate friends sat down to eat a three-course dinner. On the table the centerpiece was a handsome white cake, 18 inches tall, crested by a tiny bride and groom, baked by Vera Fredericks. Miss Fredericks, Inez Swain and Doris McGee prepared the dinner and served it. Tall pink tapers lighted the party.

Mrs. Richard Rowbal attended the bride. Mrs. Rowbal wore a floor-length blue net gown, all-over embroidered with pink forget-me-nots. She too wore pink sweet peas in her hair, in fact the pink and white colors were used throughout the wedding.

The new Mrs. Wigent is the younger daughter of Mr. and Mrs. Joe Rowbal of Ord, and is well known here. She graduated from the Ord high school in 1937. Mr. Wigent, the son of Mrs. Frank Wigent and the late Mr. Wigent, lived in Ord until a few years ago when the family moved near Portland, Ore., and where he graduated from high school. With the death of Mr. Wigent the family home was again made in Ord, but LaMoine went to Chicago, where he attended the University of Chicago one year. For the past three years he has been employed in Chicago, for which place he and his bride departed Monday morning, taking the bus for the first lap of their journey, the Streamliner for the second.

Ord friends wish the young couple a long and happy life together in their new home in Chicago.

Unit Three Organizes.

At the home of Mrs. John Misko, chairman of that division of the Red Cross war effort, on Monday evening, Unit Three of Home Nursing classes got under way. Miss Irma Kokes, a registered nurse and local girl specially trained in dietetics, is the instructor for this group, in which there are 22 enthusiastic students. Officers selected include Mrs. Kent Ferris as chairman and Mrs. Bill Darges as secretary-treasurer.

Unusual is the fact that the membership includes two mothers and their daughters, Mrs. Pete Hollender and Eileen and Mrs. Renfrow and Juanita. Other members are Mrs. Lloyd Wilson, Mrs. Horace Travis, Mrs. Stanley Gross, Miss Love Younman, Mrs. Ross Leonard, Mrs. Harvey Hohn, Miss Mabel Misko, Mrs. Emil Fafelta, Mrs. W. C. Pickett, Mrs. Henry Deines, Mrs. O. E. Johnson, Mrs. Will Ollis, Mrs. J. J. Brew, Mrs. Roy Randolph, Mrs. Glen Stroud and Mrs. Edward Gnaster.

The next meeting will be with Mrs. Emil Fafelta on Thursday of next week.

New Year's Watch Party.

A small party at the Ernest Horner home had a good time New Year's eve, playing cards at two tables. Prizes given were defense stamps, used this way for the first time in Ord, as far as the Quiz can learn. Mr. and Mrs. Stanley Absolon won high score, and Ernest Horner the low score.

Entre Nous Dance.

New Year's eve was chosen by an Ord Kensington group, the members of Entre Nous, as a good time to have a party. Accordingly a dance at the Masonic hall was held that evening, the proceeds from the tickets to go to the Red Cross. Each of the 16 members asked two guest couples, and a good crowd and a good time was the result. About \$40 was taken in at the affair.

At Whelan Home.

Following the Entre Nous dance on New Year's eve, Mr. and Mrs. Ed Whelan were hosts to some 24 guests at a spaghetti supper. In a mock blackout the guests proceeded to the basement and were seated around a ping-pong table. A great deal of singing helped the New Year come in properly.

Minister's Son Weds.

Clifford C. Long, son of Rev. M. M. Long, and Miss Thelma Alice Wasson, both of Kansas City were married at the Methodist parsonage Friday evening, January 2. Miss Marian Wolf of Kansas City and Robert C. Druessedow, Jr., of Omaha were the attendants. Other out of town guests were Mr. and Mrs. Harry Cook of Scotia, uncle and aunt of the groom.

Mr. Long was city salesman in Kansas City for the Sharp and Dohme Drug Co., before entering military service last February. He is a graduate of the Nebraska State university. He was released from the army a few weeks ago on account of age but expects to be recalled for active service within a few days. Miss Wasson has been at the head of the secretarial staff in the office of the Panhandle Eastern Pipe Line company for some time. The company is retaining her in their office although they have had a ruling for many years that no married lady would be employed. This is out of recognition for her efficiency and in consideration of the fact that her husband is in the service of United States.

Mrs. Long served the wedding dinner at 5:30 at the parsonage.

Teague Dinner Party.

Mr. and Mrs. R. E. Teague were hosts Saturday evening at their home at dinner, the present being Mr. and Mrs. Lloyd Rusk, Mr. and Mrs. Hilding Pearson, Mr. and Mrs. Henry Benn, Mr. and Mrs. Fred Keuhl, Jr., Mr. and Mrs. Henry Stara, Mr. and Mrs. C. J. Mortensen and her sister, Mrs. Lillian White. A delightful time was had.

Happy Dozen.

This group met at the home of Mr. and Mrs. Ernest Horner for a New Year's eve party. High scores were held by Mr. and Mrs. Stanley Absolon, and low by Mr. Horner. Prizes were defense stamps, which this group expects to use as prizes throughout the year. The next meeting will be with Mr. and Mrs. Adolph Sevenson, Jan. 13.

Ord Pinochle.

The Ord Pinochle club met with Mrs. Anna Goff Dec. 30. Mrs. W. A. Bartlett held high score, Mrs. Joe Jablonski low, and Mrs. Emil Zikmund won the traveling prize. Mrs. E. R. Achen substituted for Mrs. Will Misko. The next meeting will be with Mrs. Anna Socha, Jan. 13.

New Year's Eve Together.

Mr. and Mrs. Orin Kellison were guests at the John Haskell home Wednesday evening, watching the old year out together. After dinner they played bridge.

Keith Lewis Supper.

Sunday night guests of Mr. and Mrs. Keith Lewis were Mr. and Mrs. C. A. Anderson, Mr. and Mrs. C. J. Mortensen and the sister and house guest of the latter, Mrs. Lillian White.

Rudolph Koupal Guests.

Guests Christmas day of Mr. and Mrs. Rudolph Koupal were their son Dick, Allen Zikmund and his parents, also a college chum of the boys, Dale Bradley. New Year's day it stormed so heavily the Koupals could not get out to the Zikmund home, but Friday evening the same group were together again at the Koupal home, with the addition of Harold Christensen, a St. Paul business college student.

Jolly Sisters Meet.

Mrs. W. S. King was hostess to Jolly Sisters Tuesday of last week, assisted by her daughters, Clara and Grace, who were here visiting. Grace left Wednesday for Oxford, Miss., and Clara or Saturday for East Chicago, Ind., both of them being teachers. Nearly every member was present at the King home when the club met, and the ladies spent an enjoyable afternoon. It is the pleasant custom of these daughters to help their mother entertain each time they are in Ord.

Emanuel Lukesh Weds.

Miss Virginia Mae Hatfield, daughter of Mr. and Mrs. Ira O. Hatfield, became the bride of Emanuel Lukesh, son of Mr. and Mrs. Joseph F. Lukesh, former residents of Ord, at a double ring ceremony which took place December 30 in the parsonage of the Christian church at Central City. Rev. Albert Mygatt read the marriage vows. Attending the couple were Mr. and Mrs. Richard Lukesh, brother and sister-in-law of the groom. The couple will make their home at 310 North Cedar street in Grand Island.

Roy Price's Hosts.

Mr. and Mrs. Roy Price entertained their dinner bridge club last evening at their apartment. A pleasant time was had. There were no guests.

Married at Fremont.

In a simple service at the Trinity Lutheran parsonage in Fremont, Miss Mildred Meyer of Oakland became the bride of Raymond Baker of Ericson, Friday, Dec. 26. After a short wedding trip the couple returned to the bride's home, where a reception was held Sunday evening. A 7 p. m. dinner was served to near relatives.

Mrs. Baker is a daughter of Mr. and Mrs. B. J. Meyer of near Oakland. She is a graduate of Midland college and has been teaching for a number of years. Up to the time of her marriage she was teaching social science at Theford. Mr. Baker, a son of George Baker of Ericson, has been managing his sister's ranch at Ericson. The Baker family formerly resided near North Loup.

Randolph's Hosts.

At the Roy Randolph home following the Entre Nous dance a small party were invited to a midnight feast of baked ham with all the trimmings. A jolly time was had by all.

Eastern Stars Install.

Thursday evening, January 1, saw the installation or appointment of the following officers in the O. E. S.: Mrs. Ed Beranek, worthy matron, Fred Stoddard, worthy patron, Mrs. Sack, associate matron, Mrs. Sam Marks, secretary, Mrs. Ernest Achen, treasurer, Mrs. Jay Auble, conductress, Mrs. George Allen, associate conductress, Mrs. Stoddard, marshal, Mrs. Ign. Klima, chaplain, Mrs. Teague, organist, Mrs. Frank Johnson, Adah, Mrs. Roy Randolph, Esther, Mrs. Joe Knezacek, Martha, Mrs. Kuehl, Electa, Mrs. Stara, warder, B. J. Peterson, sentinel. Two who were not present will have to be installed later; Will Heckler, associate patron, and Mrs. Hilding Pearson, Ruth. The serving committee Thursday evening included Madams Harlan Frazier, Clarence Davis, and R. C. Bailey.

At Taylor Home.

Following their annual custom, members of the Tuesday evening bridge club spent the New Year's eve together, beginning with a dinner party at Ben's dining room. After dinner they adjourned to the home of Dr. and Mrs. G. W. Taylor to play cards. They enjoyed their watch party very much.

Virginia Davis Hostess.

Bethany Circle of the Presbyterian church met Tuesday evening with Miss Virginia Davis at her home for a pleasant time.

Jolly Prints.

Mrs. Jay Pray entertained the Jolly Prints at a social meeting Wednesday afternoon. Pinochle was played with Mrs. Ivan Anderson winning high prize and Mrs. John Jones low. A lunch was served.

Victimizing Old People.

From various points in the state come reports that a man giving his name as C. H. Hayes has been soliciting subscriptions to a magazine called "The Capitol Press," mainly from recipients of old age assistance. He is not connected with the state department of assistance and an investigation fails to disclose there is any publication in Nebraska by this name. If he should show up in Valley county, the sheriff should be notified.

—Mr. and Mrs. Albert Jones were in Grand Island Monday on business. Last week they spent a day in Omaha for the same reason.

—Mr. and Mrs. Glen Stroud went to Boelus Jan. 2 to visit his parents, Mr. and Mrs. C. S. Stroud. They returned to Ord Monday.

—Mr. and Mrs. Alfred Bartunek and Ignac Pesha returned Saturday evening from a brief visit with their son and brother, Henry Pesha in Lafayette, Ind. They report a wonderful time.

—Mr. and Mrs. Sam Roe and Mr. and Mrs. Fred Clark returned home Saturday evening from a two weeks' trip to California. They went out to see Claude Roe, who is a first lieutenant and expects to go into active service at once. Mr. and Mrs. Claude Roe and baby have made their home at Riverside, Calif., where he teaches in the Sherman Institute, a large, well-equipped school for Indian children. Mrs. Roe is also employed by this school, doing office work. Mrs. Roe says there are reputed to be 50,000 soldiers in and around Riverside, and 30,000 more at March Field. She says every vacant lot has been taken to set up temporary quarters for these boys. She also told how Claude scouted around trying to find a lonesome pair of soldiers to bring home to help the Roe's eat Christmas dinner, but could not locate any! California was very cold while they were there. Mrs. Roe reported, although not in Nebraska's class. They got down to the beach briefly, found the water calm and the day clear, but not a single boat of any kind to be seen, contrary to her experience other times. The party also went to Escondido for a short visit. Their trip was hurried, but they enjoyed it all very much. It was Mr. Roe's first view of the ocean.

—Mrs. John Shurtz arrived from Denver the latter part of the week to pay a visit to her mother, Mrs. Mary Francel and her sister Bess. Mrs. Francel had the flu about Christmas time and had quite a little trouble throwing it off.

Valley County's January Quota of Tires Set at 37

(Continued from page 1)

"First we must realize that we are in a total war—you are in it, I am in it, we all are in it, just as much as are the men at the front. A rubber shortage exists and we might as well quit talking or thinking about the reasons for this situation and what might have been done to correct it, and do the best we can to win this war in spite of it."

In administering the tire rationing program, the committee will be guided by only two considerations, Norman said. First what is best for national defense, and second, what is best for the welfare of the community. Consideration cannot be given to the welfare of individuals, even though it means hardship to some, he said.

"As a general rule, tires for passenger cars are out," said the chairman. With a quota of only seven passenger car tires for January, it will be possible only to supply such people as doctors, veterinarians and others entitled, for the welfare of the public, to get tires when they need them to keep serving the community. All tire dealers, repair men and garage men in this county will be appointed tire inspectors, he stated.

To secure permission to buy a new tire, a person entitled to one must follow these four steps: 1. Get an application blank from the county committee. 2. Go to a tire inspector and have his tires inspected. If they are worn out and cannot be repaired, recapped or retreaded, the tire inspector will issue a certificate to this effect. 3. Take this certificate to the county committee, which will meet every Friday. If the committee passes favorably on the application and has a tire to allot, a certificate will be issued entitling the applicant to buy a tire from any dealer he chooses. 4. The applicant takes this certificate to his dealer, gets the new tire and turns in his old one.

Chairman Norman emphasized that a tire must be completely worn out before a new one may be purchased, even by a person entitled to buy one. After a person gets a new tire, Norman explained, he must use it solely for the purpose for which it was obtained. In other words, he said, if a doctor's tire is worn out and he gets a new one under this tire rationing plan, he must thereafter drive his car solely for professional purposes. He may not use the car for pleasure or social purposes, nor may any member of his family.

The FBI will enforce the tire rationing plan strictly and violations, when reported to the FBI will bring about swift prosecutions and stiff penalties, he stated.

Norman also explained who is entitled to get tires, when they are available, under the rationing system. Regularly operated truck lines, bus lines and common carriers will be kept in tires, if it is possible under Valley county's quota. Trucks delivering ice and fuel are entitled to tires, but a coal and lumber dealer who operates a truck may not secure tires for delivery of lumber, but only of coal. Some discussion arose as to whether oil company trucks may secure tires on the ground that they are delivering tractor fuel to farmers. For the present, Norman said, his committee takes the attitude that tires may not be secured for such purposes, pending a ruling from higher authorities.

Names of persons to whom tires and tubes are allotted will be published as a matter of information, he promised, and he asked that any cases of "chiseling" be reported promptly by the public.

Office of the tire committee will be the county supervisors' room in the court house, and the committee will meet every Friday to consider applications.

There is no limitation on the sale of used tires, retreaded tires or tires made from reprocessed rubber and dealers may continue to sell them as before.

Fox in South Carolina.
Private Clarence J. Fox, who recently visited in Ord after completing preliminary training in New York, is now at Shaw Field, Sumter, S. C., and has been assigned to a plane. They train cadets at this field and Private Fox has had several chances to fly, he says, though he is in the mechanics' corps. They celebrated Christmas with fireworks in South Carolina, he notes.

Married in Grand Island.
In Grand Island recently occurred the marriage of Mrs. Mildred Sinkler, of Ord, to Nate Sinkler, now of Chickasha, Okla., but formerly of this city. They left last week for Chickasha where Nate is employed in an airplane factory. The four children of Mrs. Sinkler are being cared for by Mrs. Harvey Hohn at present but will join their mother and stepfather in Oklahoma later.

Know These Persons?

To give you a chance we will state that only one of the persons above is known to Ordites, and that the action took place "somewhere in France" during the unpleasantness of 1918. Now, guess if you dare! The young lady shown last week was a puzzler, and the only person able to see through the "Uncle Sam" disguise was Mrs. Mark Allen. She was Miss Dorothy Ann Zikmund.

Ord Township Library.

Why not come to the library and choose a good book to read these cold evenings. If you want to learn about Russia read "Kremlin and the People" by Duranty. Or read a book about Central and South America. If you want to relax and forget about the war for a few minutes we have a nice list of adventures, westerns, or what ever you might like. Then there is the usual demand for mysteries. We have the latest books of Seeley and Eberhart. The children might pass away the evening enjoying the new books we have in.

Have you seen the books on American glass and the story of American furniture which the Woman's club donated? These should interest you who are interested in antiques.

How did a famous precious stone affect the history of France? What diamond cost \$40,000 merely to be recut? How can you be sure a stone is genuine? Herbert P. Whitlock, custodian of the famous Morgan Collection of gems, has written an authoritative book, The Story of Gems, that will answer all your questions about gems and precious stones.

"So To Speak" by Elizabeth Ferguson Von Hesse is well worth your time. Mrs. Von Hesse has helped hundreds of men and women to express themselves vigorously and persuasively, both in public address and in the everyday conduct of business, professional and social affairs. In this book she presents the fundamentals and technique of her unique courses in "effective speaking." "So To Speak" is not concerned with perfect enunciation or the niceties of delivery and style, but with the ways by which we affect others; appearance, manner and particularly speech. This is a book on using one's voice, but with the primary aim of cultivating through a vivid and attractive speech, a well integrated personality, and more positive thinking and doing.

Copies of the latest Nebraska Seed Directory have arrived to remind us that spring is not very far away. Some new crop varieties are listed, including Oteo oats, Southern bromegrass, Alliance sorghum, A136 alfalfa, and several new corn hybrids. Oteo oats might do well in this locality. It ripens early and is rust-resistant. At Lincoln, it yielded 17 per cent more than Kherson oats. Southern Nebraska bromegrass seems to excel other varieties in all respects. The seed comes up better, grows faster, and yields more forage or seed. Alliance grain sorghum matures a week sooner than Early Kalo. It was made by crossing extra early pink, Kafir with Highland. A promising new corn hybrid is U. S. 13. In the southeastern part of the state it has produced 41 per cent more corn than ordinary varieties in the past two years, which is some increase! U. S. 13 also has high feeding quality and is becoming popular with stockmen. Ohio 92 is another good hybrid with fine quality grain. It yields about the same as U. S. 13 but has shorter, more uniform plants. Plenty of pure certified sudan grass seed is listed. There is much less danger of poisoning livestock on pure sudan that is not crossed with sorghums. Sudan grass poisoning was unheard of twenty years ago when little sorghum was raised. The directory also includes such old reliable and proven varieties as Igold oats, Spartan barley, Hardistan alfalfa, Early Kalo, Atlas Sorgo, and Iowa 939 hybrid corn.

New Tricks in Cookery Transform

THE CHEAPER CUTS OF MEAT

If you are keeping closely to a restricted budget you'll welcome these savory main dishes for they employ the cheaper cuts of meat. You'll be amazed at the rich, full-bodied flavor that can be produced by their use. Of course you'll find the cheaper cuts, as well as the better ones, at our market.

VEAL PIE

- 1½ pounds shoulder veal
- 1 onion, chopped fine
- ½ cut celery, chopped fine
- 1 cup cooked carrots
- 4 tablespoons butter
- 4 cups boiling water

Melt butter, add onion, celery, and meat, cut in small pieces. Brown, add water, salt and pepper; simmer 1 hour. Add carrots;

thicken gravy. Place in baking dish; cover with biscuit and bake 20 minutes.

SPANISH POT ROAST

- 4 pounds shoulder beef
- 4 tablespoons drippings
- 1 green pepper
- ¼ cup flour
- 1 onion
- 2 cups tomatoes
- 1 bay leaf

Add salt and pepper to flour; dredge meat in it. Put drippings in pot roast kettle. Sear meat. Lower heat; cover; cook gently 2 hours. Then add remaining ingredients; cook 1½ hours. Add 1 tablespoon flour and 1 cup water and cook 10 minutes longer.

LETTERS FROM QUIZ READERS

Milo Bresley Writes

Editor's Note: The following letter was written by Milo Bresley, son of Mr. and Mrs. Harry Bresley, to an Omaha friend, who sent it on to the Bresleys here. As it is very interesting, we are publishing it as written. Milo recently had a letter to his aunt and uncle, Mr. and Mrs. Simmons, of Omaha, published in the "Letters Home" department of the World-Herald.

Dear Mr. Zimmerman: I was glad to get your letter and thanks a lot for the reference, it was really swell. Things are getting along swell yet. I got out of boot camp yesterday and twelve of us got transferred to the North Island air base. It is really swell here, nobody hollering or shouting at you all the time—you are practically your own boss.

Service Awards Given to Camp Fire Girls

Last August the nation's Camp Fire girls enlisted in a program of service to community and country. All Camp Fire groups began on special efforts at serving in some worthwhile capacity in each of three phases of service: National Defense, Community, and Home.

The pins awarded last October require continued service to be performed as needed. The annual Birthday Honor this time is "Fortifying the Family," a program in five parts requiring the study of foods, health and economy, to make the modern home strong for national defense.

Last winter and early spring Anthony Thill had a class in shop work along the line of defense industry, and later some of these boys took extra work with him. This special training enabled some of them to get good jobs in the Omaha ammunition making plant.

Mousing Big Problem at California Plants

Bob Hughes, who returned to Ord with his family before Christmas from a job in a bomber plant at Burbank, Calif., says it is almost impossible for a man with a family to find a house to rent there. Three-room apartments were renting for \$50 a month, he says, which is too much for a married man with children to pay for housing even though wages at the airplane plants are fairly good.

Social and Personal

Married in Oregon

The Quiz is in receipt of a letter from Canby, Ore., telling of the marriage there Sunday afternoon, Dec. 7, of Bernice Arlene Hansen, daughter of Mr. and Mrs. Roy L. Hansen, and Alfred G. Kraft, son of Mr. and Mrs. John Kraft, also of Canby. Rev. F. E. Fisher read the service in the presence of close friends and relatives, amid a setting of palms and yellow chrysanthemums.

The bride and groom wore attractive teal-blue, pen-striped suits. Miss Viola Hansen, sister of the bride, was maid of honor. Paul Kraft, brother of the bridegroom, was best man. Following a short wedding trip north, the couple will be at home in Canby. The Hansens formerly lived in Ord, leaving for Oregon in the fall of 1937. Mrs. Kraft is a graduate of Ord high school, class of 1936.

New Year's Party.
On New Year's day Dr. and Mrs. C. J. Miller entertained at dinner, Miss Della Higgins, Miss Emma Hansen and Mrs. Rose Pierson. This was Mrs. Pierson's first venture from home since her recent illness.

W. S. C. S. Luncheon

The General Aid of the Methodist church had a one o'clock covered dish luncheon Wednesday at the church, followed by installation of officers for the coming year. Rev. M. M. Long was the installing officer, after which Mrs. Mark Tolen was in charge of the program. Miss Irene Auble sang, accompanied by Mrs. Robert Noll, and Elizabeth Kovanda gave a reading. A list of the officers was printed about a month ago in the Quiz. Heads of the several groups are Mrs. Alex Cochrane, Kensington; Helen Collins, quilting; Mrs. L. Muncy, study; Mrs. Cuckler, Sunny circle; general aid president, Mrs. Evet Smith.

League Meeting

At the Presbyterian church Wednesday afternoon Mrs. F. V. Cahill presided at a meeting of the Ladies League. The Ruth circle served, the committee including Madams Forrest Johnson, Wilmer Anderson, James Misko, John Andersen and Anna Nelson. "Religion in the News" was the topic discussed by Mrs. Ernest Horner. Mrs. O. E. Johnson lead devotions.

Aowakiya Campfire Notes

The Aowakiya Campfire group met at the home of Carolyn Auble, January 5 with all members present. A business meeting was held. The group discussed knitting afghans for refugees. They received their yearly membership certificates. After the close of the meeting, the girls sang songs and a delicious lunch was served.—Clarice Benn, scribe.

Eluta Camp Fire

Eluta Campfire met with Betty Lou Andersen. The girls working on their trail seekers rank are learning the meaning of the craft beads and the ranks. The others are learning the Star Spangled Banner as part of their requirements.—Beverly Whiting, scribe.

Mrs. Fajeta Entertains

Delta Deck met Tuesday afternoon with Mrs. Frank Fajeta at her home, guests being Mrs. Olof Olsson, Mrs. C. J. Mortensen and her sister, Mrs. White. Mrs. F. A. Barta won the high

score, as she did the meeting previous. The Red Cross quota for this club was set at \$5, so the members voted to assess themselves 50c each and turn it over to the Red Cross, in place of awarding a 50c piece to the high scorer at each meeting. Instead, the members will play without prizes all the next round. The collection thus amounted to \$6.

New Year's Eve Party

At the Kent Ferris home, New Year's eve guests were Mr. and Mrs. LaVern Duemey, Mr. and Mrs. Archie Rowbal, Mr. and Mrs. Cletus Ringlein and Ed Dlugosh. Oyster stew was served at the hour of midnight.

Miss Chase Hostess

Miss Eunice Chase entertained her evening bridge group Wednesday evening at her apartment, following dinner at Ben's Grill. There are eight members. Miss Clara McClatchey was a guest.

At New Year's Dinner

At New Year's day dinner, Mr. and Mrs. Russell Rose invited her father, Albert Jones and Mrs. Jones as their guests.

Ord Man's Relative Is

Synthetic Rubber Expert
Inventor of a satisfactory method of making synthetic rubber is Dr. Waldo L. Semon, a cousin of H. D. Leggett, of Ord. Dr. Semon is manager of the Goodrich Rubber company's synthetic rubber division and devised the process by which butadiene, a petroleum product, is converted into synthetic rubber of high quality. The finished rubber is known as amerial and automobile tires and many other things are manufactured from it. A picture of Dr. Semon appeared Sunday in the magazine section of the World-Herald. The parents of Dr. Semon, Mr. and Mrs. Frank Semon, of Flint, Mich., visited in the Leggett home here a few years ago.

Brother Reported Alive

Mrs. Kenneth Leach has received word that her brother, Gerald L. Clayton, of Central City, previously reported killed at Pearl Harbor, is alive and well. He is in the navy.

Producing Better Cream for Market

By Robert A. Kokes.

Better cream can be produced with little extra work. The average farmer milks, separates, puts the cream in any old cream can or pail, and takes it to market about once every two weeks. If disappointed with the price, he asks, "What's the use of milking when prices are so low?"

This is partly the farmer's fault. The farmer, who washes his hands before milking, cleans the cow and her udders, milks in a clean pail, washes the separator after every separating, and cools cream immediately after separating will have no trouble in producing the best quality cream.

On the average, this takes only about 15 minutes longer per day. It will return about fifteen cents more per milking, or \$2.40 more per week, and besides it means better health to the people in the community.

Little care is given to cream before it is taken to market, but a large price is expected for it when sold. If a farmer milks cleanly, separates cleanly, cools cream soon after separating, and takes it to market twice a week, he will find no trouble in getting a larger income from dairying.

Joseph Bruha, 70, Goes to Reward

Joseph Bruha, 70, died Friday, Jan. 2 at his home northwest of Ord and was laid to rest Tuesday in National cemetery after services at the Z. C. B. J. hall west of town, with Rev. K. O. Zavadil, of Wilber, presiding. Frazier's Mortuary was in charge of arrangements.

Born July 30, 1871 in Kamjk, near Klatovy, Bohemia, he came to America with his parents in 1884 and settled with them in Valley county, where they were among the earliest pioneers of their section.

He was united in marriage to Miss Anna Drobny in 1893 and the union was blessed with ten children. Except for one year when Mr. Bruha farmed in Custer county his entire life was spent in this county and he was highly respected. He was a hard working man, interested primarily in his home and family, and his friends were many.

Left to mourn are his widow, five sons, Frank, of Ord, Joseph, Jr., of Burwell, Otto, of Comstock, Stanley and Henry, of Burwell, and three daughters, Mrs. William Vavra, Elyria, Mrs. Rudolph Psota, North Loup, and Mrs. Joe Urbanovsky, Ord. His mother, Mrs. Anna Bruha, four brothers, Frank and Edward, of Ord, Vencil, of Comstock, and John of Burwell, also survive, as well as 21 grandchildren, and one great grandchild. One daughter, Mrs. Helen Urbanovsky, and a son Vincent, preceded him in death.

Funeral services on the service on Tuesday were Joe Knezacek, Otto Radl, Joe Pesek, Joe Turek, V. J. Voděhnal, Emil Fajeta, James Petska and Vincent Voděhnal.

Burwell News

Written by Rex Wagner

Mr. and Mrs. B. W. Wagner, Danny and Jimmie drove to Grand Island Saturday where they spent Sunday in the home of her mother, Mrs. Rose Webster, Bernard, Jr., and Barbara Ann, who had spent the week with their grandmother returned home with them Sunday evening.

Ralph Walker got off on a bad start for the New Year. Wednesday evening when he was going home he slipped on the icy sidewalk near the library. He put out his arm to catch himself and sprained the ligaments in his shoulder. His injury which has been very painful has kept him in bed since then. Dr. Cram is attending him.

Frank Hansen returned to Hastings where he attends college.

Mr. and Mrs. F. F. Wagner took their daughter Naomi to Berwyn Sunday where she met friends with whom she teaches. They also visited Mrs. Wagner's mother at Mason City, who has been in poor health for several months.

Mrs. A. E. Jenks entertained the P. E. O. in her home Monday evening. The organization presented five dollars to the Red Cross for its war relief fund.

Leo Demaree and Donald drove to Burwell from Bassett Friday to attend to business matters. They report that they like their new home quite well.

Wallace Burns of Lincoln, who was fatally injured New Year's day when he was struck by a train while walking along the railroad track near Eagle, was the brother of Mrs. D. C. McCarthy of Burwell. The McCarthy's drove to Lincoln and Eagle Saturday to attend the funeral which was held Monday. Mr. and Mrs. Burns were returning to Lincoln Thursday after spending the day with his mother who lives at Eagle. Their car stalled in a snow drift after they had gone but a short distance. They left their car and were walking along the track when the train hit them. A blinding snow storm prevented the engineer from seeing them until too late. Mrs. Burns was injured slightly. He sustained a frac-

tured skull and severe shock. They were both taken to Bryan Memorial hospital in Lincoln where he died. He leaves his wife, his mother, Mrs. Daisy Burns of Eagle and his sister, Mrs. McCarthy.

Mr. and Mrs. Knute Peterson entertained the Misses Nina Nickells, Dorothy Paulin and Alaire Fulliam to a New Year's dinner in their home.

Mrs. Clark Bleach returned from California Sunday where she had spent several months visiting her three children at Los Angeles. Mr. Bleach met her in Grand Island.

Mrs. Leo Nelson, who has been staying with her parents, Mr. and Mrs. Roscoe Garlick, in Elyria since her appendectomy five weeks ago, returned home Sunday.

Mike Gregoroski was a dinner guest Friday in the Knute Peterson home.

Mrs. Walter Hughes and Donna Jean have been staying at the S. W. Brechbill home while Donna Jean has been taking treatments from Dr. Cram.

Ruth Langstrom is assisting with the book work in Grunke-meyer's meat market.

Leslie DeLashmunt took his brother, Keith, to Lincoln Sunday, where he resumed his studies at the University of Nebraska. Mr. and Mrs. H. J. Coffin accompanied them to Lincoln where they will stay until after the lumbermen's convention.

Mrs. O. S. Chaffin, Leslie, Gerald and Jerald, who spent their Christmas vacation here, returned to Lincoln Sunday where the boys attend school. Wayne Woods, who attends the University of Nebraska, accompanied them.

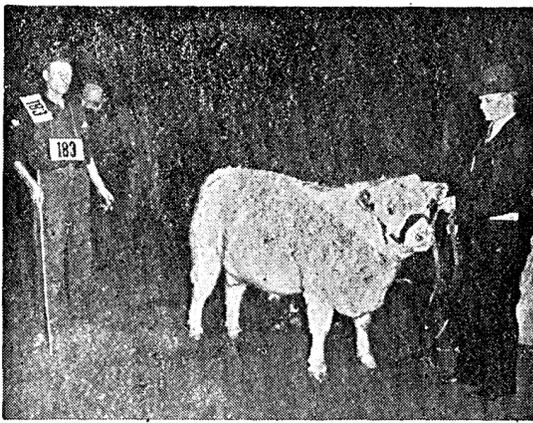

Rex Ilgenfritz left on the afternoon bus for Greeley, Colo., where he is a student at the college of education.

A daughter was born Sunday morning to Mr. and Mrs. Donald Crouch of Omaha. Mrs. Crouch is better known in Burwell as Dorothy Langstrom.

Mr. and Mrs. B. W. Wagner entertained at a watch night party in their home New Year's eve.

Miss Crystal Woods and Her-

One of Nebraska's Best "Sons"

"Neat as a pin" is N. U. Gold Nugget, Shorthorn bull calf owned by the University of Nebraska college of agriculture. Here he is just after placing fifth in a class of 33 dandy calves, representing many outstanding herds in the United States, at the recent 1941 International Livestock Exposition in Chicago. At the left is Charley Johnson, herdsman for the college's beef cattle, and that's Prof. Marvel Baker of the animal husbandry department holding the animal. N. U. Gold Nugget will compete for further honors at the National Western Livestock Show in Denver, January 10-17.

man Brockman have the distinction of being the first couple married in Garfield county since the New Year. Their wedding occurred Friday evening in the Methodist parsonage with Rev. P. J. Kirk officiating. Miss Elaine Woods, the bride's sister, and Arthur Otto were the attendants. The bride is the eldest daughter of Mr. and Mrs. Neil Woods, who have lived for many years on their farm west of Burwell. She is the granddaughter of Mr. and Mrs. John Herrick. Since her graduation from the Burwell high school in 1939 she has taught in the rural schools in Garfield and Loup counties. At present she is teaching the Sioux Creek school. The bridegroom is the son of Mr. and Mrs. Chris Brockman. He is one of Loup county's young and progressive farmers. About a year ago he entered the army for selective training at Camp Robinson. He was recently released but expects to be called back since the outbreak of the war.

The high school hoopers defeated the alumni team 36 to 26 in a game played in the high school gym Friday evening. The alumni team was made up of Irwin Rohde, Melvin Gideon, Jr., Harold Malleky, Billy McMullen, Leslie DeLashmunt, Bill Wright and Joe Klinsky. Marvin Partidge, Clarence Rohde, Dean McGrew, Dennie Sherman, Donald Hummel and Don Hansen played for the high school.

Mrs. W. G. Hemmett entertained at a dinner Friday evening complimentary to her husband who celebrated his birthday anniversary that day. Those present were Mrs. Maude Rockhold, Mrs. Garnet Johnson and children, Mr. and Mrs. Don Anderson and David, and Miss Joy Hemmett. Mrs. Hemmett reports that before the affair was over Chink was soundly spanked.

Mr. and Mrs. Walter Miller have returned to their home at Lodgegrass, Mont., after spending a week in Burwell, where they visited his stepmother, Mrs. Ida Miller, and A. E. Shoemaker, at Ericson where they were the guests of his brother Carroll and family, and at Ord where they visited friends.

Rev. and Mrs. Ben Meckel and two children moved to Omaha Sunday where they have rented a furnished house where they will live. Rev. Meckel's work as army and CCC chaplain has been arranged so that he now spends more time in Omaha than he formerly did.

Wilson Chatfield and Billy Udell were guests New Year's day in the home of Mrs. Bessie Key.

Mrs. Sylvia Flint has rented an apartment in the Becker building where she and Junior will make their home.

The Misses Emma Rousek and Marie Mather returned from Omaha Sunday where they had spent a part of their Christmas vacation. Miss Mather went to Lincoln Friday with Sheriff Johnson when he took his daughters, Virginia and Thelma Mae back to their work at the Lincoln General hospital. Miss Mather took a bus on to Omaha.

Mr. and Mrs. George Peterson of Westwood, Calif., spent Sunday in the Claude Sizemore home. He is Mrs. Sizemore's brother. Later in the day they commenced their homeward journey. Most of the week they were in Scotia where they visited Mrs. Peterson's relatives.

W. D. Massey is confined to his bed by a severe case of influenza. It is not likely that he will be able to be up before the end of the week. His illness is especially inopportune at this time as he is a member of the selective service board, chairman of the commodity rationing committee for Garfield county and he must move his feed store by the first of February and the building which he bought for the purpose must be remodeled before it will be suited for his business.

Mr. and Mrs. Virgil Beck, Virginia and Miss Gertrude Elm returned Friday from Missouri where they spent a week visiting Bernard Beck, who is stationed at the Jefferson Barracks near St. Louis. They report

that Barney is fine in every way and that he has developed a liking for army life much beyond his expectations.

George Nelson of Wilcox, Saskatchewan arrived in Burwell Friday where he visited his cousin, Carroll Walker and Mrs. Walker. He left Burwell Monday resuming his journey to Texas where he will spend the remainder of the winter.

Hallett Pulliam left Sunday for Parsons, Kas., where he will visit his brother, Clyde and his wife. He will try to find employment on the bomber plant which is being constructed there.

Willis Thurber, Burwell's new agricultural agent, drove to Lincoln Sunday where he will spend the week attending a conference at the college of agriculture. The Thurbers have not yet moved to Burwell. She is teaching in the school at Monow. Their two children are staying with their grandparents.

Mrs. Florida Verley and Roger returned Sunday from Belgrade where they spent their Christmas vacation with her parents.

Mr. and Mrs. Frank Stanek and Mr. and Mrs. Don Hughes drove to Ord Sunday where they were dinner guests in the Stanley Absolon home.

Arthur Langstrom left on the morning bus Monday for Council Bluffs where he has employment.

Eldon Garska was called to Paxton Sunday by the illness of his former employer. Eldon quit his job to visit his folks prior to his induction into the army but returned to Paxton to help out his employer when he was informed of his sickness.

Mr. and Mrs. Max Savage and two daughters of Omaha are visiting her parents, Mr. and Mrs. Merritt Wright. Mr. Savage who was employed on the bomber plant in Omaha, is staying in Burwell until another project starts.

Joe Klinsky left on the bus Tuesday for Schuyler where he is visiting relatives. He will not return to Burwell before his induction into the army.

Dwight Johnson took his sister, Mrs. W. T. Johnson and Charles and Julie and Miss Maureen Troxell to Grand Island, where they took the bus on to their homes in Lincoln. W. T. Johnson has been called to San Francisco where he is employed on construction projects. There is a possibility that he may be sent to the Hawaiian Islands.

Mrs. Russell Mitchell and her infant daughter were dismissed from Dr. Cram's hospital Saturday.

Don Button of Plainview visited friends in Burwell Monday. Mrs. Martin Lowery, Bennie and Darlene spent Friday in Ord. Andy Snyder, Wilfred and Hugh Butcher drove to Aurora Monday where they attended to business matters.

Mrs. Eugene Hallock returned Monday from a two weeks winter vacation which she spent at Harlinger, Tex., where she owns a fruit ranch. Her sister, Miss Lela Moorman, of Clarks, accompanied her on the trip.

Mr. and Mrs. Jack Anderson are happy over the birth of a son at Los Angeles who has been named Jack Lee. Austin Anderson and Mr. and Mrs. Charles Cienny are the baby's grandparents.

Mary Langstrom Stoddard, the eldest daughter of Mr. and Mrs. Arthur Langstrom was married in Omaha Dec. 18 to Joe Sluka of Omaha. The marriage has been recently announced. Mrs. Sluka is well known in Burwell where she has spent most of her life. The bridegroom is employed by a railroad company in Omaha. He was released recently from selective service training and expects to be called back soon.

Joe Homolka, Burwell's retired butcher, who is famed for the excellence of his bologna, suffered a severe paralytic stroke on Sunday. He was brought to Dr. Cram's hospital where he is being treated. Joe has many friends who are wishing for his immediate recovery.

Bernard Keefe was released from Dr. Cram's hospital Monday following his recovery from a severe infection at the base of his tongue.

LETTERS FROM QUIZ READERS

No Fear in Seattle.

To the Editor of the Quiz:

Enclosed herewith a check for subscription to your good paper. We would not like to be without it. The Quiz comes to us each Monday morning and we were very glad to note that Mrs. Leggett has improved in health so much and it is our sincere hope that she may be well and strong again very soon.

We like our new location very much and our business venture has brought a volume of business that is much more than anticipated for so short a period of time. Seattle and the surrounding country is very beautiful and there is a large variety of outdoor entertainment and pleasure

they show up here. You would be surprised to know that the people in this territory are not at all nervous over war prospects and business goes on as usual. The defense activities are bringing in people by the thousands and the housing problem has been serious for several months. It was fine to learn that the good people of Ord and Valley county received much better crops this year than during most of the years we lived in Ord, and we hope that all of you will have a full share of the best things of life in the year 1942.

Sincerely,
FRANK O'NEAL.

IT HAPPENED IN ORD.

Perhaps we should say, near Ord. Wednesday evening Miss Evelyn Johnson had a New Year's eve party at their home several miles west and a mile north of Vinton. Among those who attended were Elton Walker and Melvin Whitford, who took Misses Shirley and Lois Hansen and Doris Walbrecht to the party. As everybody will recall our worst storm struck that night. When the party was over they tried to go straight east to the Will Hansen farm, but could not because of the drifts. So they went back and tried to go around. When they finally got to the Frank Hackel place they gave it up for a bad job and stayed there the rest of the night.

New Years day they plowed and shoveled their way through drifts until they got to Ord at 11 a. m. The road to the Hansen place was not open, so the girls stayed at the Walker home until Friday afternoon, when the boys took them most of the way home. At that they had to walk part of the way because of the drifts. They all escaped frostbites but here's betting they will never forget their experience with a real Nebraska blizzard.

One of the early applicants under the tire rationing program was Forrest Worm, who needed a new tube for one of the big tires on his gasoline transport. Questioning disclosed that he has a spare tire, so Chairman

Norman advised him to use his spare tire—as rationing regulations provide—and get along without a spare. "But when I hit the Kansas line I'll be arrested for not having a spare tire, which Kansas law requires of transports," complained Forrest Worm. This is only one of many conflicts between federal and state law which have arisen since tire rationing went into effect.

The Peanut Products company of Tuskegee, Ala., manufactures peanut oil from Dr. George Washington Carver's formula. It is said to be very helpful in cases of infantile paralysis.

Ord Woman's Brother Safe at Wake Island

John Polak, brother of Mrs. E. L. Vogelanz, of Ord, was safe and unhurt at Wake Island as late as Dec. 20th, three days before the Japanese captured the island, she has learned. Her parents, Mr. and Mrs. Frank Polak, of Wahoo, received a letter from their son written on that date in which he said that four other Wahoo young men, two of whom are also relatives of Mrs. Vogelanz, also were alive.

Polak said all of the Wahoo contingent, employed there by the Waterway Construction company, was safe, as were most of the one thousand other construction workers on the island. "We have been subjected to daily bombings but are holding out so far and expect to have help any day," he wrote. "Expect to be evacuated soon as possible."

The letter evidently was flown to Honolulu by an American naval plane. Three days after it was written the island capitulated to the Japs and the marines who comprised its garrison, as well as all the construction workers, fell into their hands. Nothing has been heard from Wake since that time.

—Mrs. L. B. Fenner drove to Ord from Burwell on business Tuesday, stopping to see Mrs. H. D. Leggett.

Rosy Future for Beet Growers, Is Kjar's Prediction

(Continued from page 1)

The Loup Valley territory, one being at Burwell and the other at Olean.

Mr. Kjar believes that the beet growers have a rosy future as there will be no more sugar imported from the Philippine Islands and Great Britain will take much of the sugar from Cuba. He announced that the conditional government payment has been raised from sixty cents per hundred for raw sugar to eighty cents per hundred. He encouraged growers to produce all the sugar they can and declared that all governmental restrictions on acreage have been removed and that the only restrictions are those made by the processors.

In pointing out some of the advantages of an organization to the producers Mr. Kjar said it succeeded in postponing the digging which the company wished to start Sept. 20 for ten days. Mr. Kjar said that the beets stored up their sugar in the fall when the nights became cool and that early digging greatly reduced the sugar content which determined the amount the farmer received for his beets.

He also said that the beet growers were opposed to the Wagner bill which he said would ruin the producers as they would be unable to pay the wages demanded in the bill. He declared that labor is now in the hands of unreasonable leaders.

Mr. Kjar praised the work of Ign. Pokraka of North Loup who represented the Loup valley farmers at the acreage allotment for 1940 and said that farmers in this area were not cut nearly as much as those in others because of Mr. Pokraka's efforts.

Guy Laverly, attorney for the North Loup River Power and Irrigation district spoke in favorable terms, in regard to water for next season's crop. He quoted Judge Chappell of Lincoln, who will preside at the hearing of the Loup districts against the Columbus Public Power company as saying that no concern can sit astride the river at its mouth and keep the farmers from putting water on their parched soil.

Dr. Smith, who presided at the meeting said that it is now the duty of the American farmers to produce food for all democracies in the world. O. W. Johnson urged farmers to increase their yield as the high cost of producing irrigated crops make profits scarce unless yields per acre are high.

Miss June Hornby played two selections on the vibra harp which the beet raisers enjoyed.

High School Cagesters Defeat Alumni Friday

After school Friday a basketball game was played with the high school pitted against the alumni, the old grads losing out to the score of 23 to 21. The game was played when it was learned that the Beatrice team, due here to play that evening, was unable to come because of weather conditions.

Dale Bradley, here as a guest of Allen Zikmund for the holidays, played with the alumni. Players were, for the alumni: Dahlin and Bradley, forwards; Severson, center; R. Hurlbert, H. Misko, guards. Others who played were Piskorski, Furtak and Christensen.

Starting team for the high school included: O. Hurlbert and F. Misko forwards, Adams, center, Flagg and Cochrane, guards. Others to play were Wilson and Vogelanz, forwards and L. Hurlbert and Rose, guards. It was erroneously reported that the high school made 16 free throws. They had 9 chances and made 7 of them good.

Rysavy Blacksmith Shop

Now in Dohrn Building

This week Joe Rysavy is keeping as busy as the weather will permit moving his blacksmith tools and equipment from his building a block north to the Dohrn building just east of Frazier's, until recently occupied by John Edmiston's machine shop. He plans to get ready to open as soon as possible as his customers are hunting him up every day to have work done.

Edmiston had an opportunity to sell his expensive shop equipment to a Lincoln school which is preparing men for government metal work of all kinds, and it is understood that he is taking a job with the government in one of their plants, doubtless as a foreman, since he is a very capable machinist. The deal was made about Christmas time.

Drastic Action Would Follow Failure of Labor To End Defense Strikes . . . Russian Success Helps British Cause in North Africa.

(Bell Syndicate—WNU Service.)

WASHINGTON. — The necessity for having no strikes in defense production, particularly so far as airplanes, explosives, etc. are concerned, is of tremendous importance now that Washington sincerely hopes this hurdle may be surmounted through patriotic co-operation on the part of labor union leaders.

Several moves have been made by labor which seem to point in this direction, and there is a disposition in congress, as a result, to pause before rushing on to such drastic action as that envisioned in the bill introduced by Rep. Howard Smith of Virginia and rushed through the house by a big majority despite the well-known views of the administration to the contrary.

At the time the Smith bill was sent to the senate, which was some days prior to the Jap attack on Pearl Harbor, there was no probability of its enactment. As told in these dispatches at the time, the expectancy was that the bill would be amended drastically in the senate, and, unless the amendments were sweeping indeed the bill would be vetoed by the White House.

However, it was pointed out in those dispatches that the willingness of such a large majority in the house to vote such action, rather than any legislation which might, soon result, was significant. This evidence of popular opinion—for the house more truly and accurately represents public opinion than any other branch of the government—spelled the certainty that eventually, unless labor mended its ways, such action would result.

Nation Now United
This picture is far more true today than it was then, for since that prediction was made the country has not only gone to war, but has been solidified and unified to an extent which one month ago was beyond the wildest hopes of the interventionists.

Casualty lists have a way of smothering tolerance of the other fellow's views, but one month ago there was no thought of such serious casualty lists at any time this year. Nor could there be any calculations based on the effect on this country of the "dastardly" attack by the Japanese.

Events of that attack, and off Malaya, including the sinking of the two Japanese warships as well as our own and the British, have driven home to this now united country the truth about air power, and the vulnerability of the strongest battle fleet without air supremacy.

With that lesson pounded home and clinched, there is going to be very little patience with any strikes from now on which curtail our airplane production, or for that matter any other national defense production. Labor is going to find the public insisting that work not be stopped because of any dispute over wages or hours, and particularly over whether this or that union has jurisdiction in a given factory.

Help African Drive Russian Successes
There are signs of relief here that the campaign in North Africa seems to be going as well as most of the experts had hoped. The underlying reason is that if it were not going so well there would be a storm of criticism because American production of planes and tanks had gotten under way so slowly.

It is admitted that only the unexpected success of the Russians in the last few weeks has saved the British in North Africa.

Had the Germans been able to dig in for the cold weather after their failure to crush the Russian armies and take Moscow and Sevastopol, they could have diverted such a tremendous flying force to North Africa that the British would have been stopped and even Egypt threatened.

Underlying all this is the failure of the United States to get big production of planes, tanks, etc. under way earlier. Had that been done the British would have had such ample material in North Africa that the mopping up of the German forces from Egypt to French held territory in North Africa would have been under way several weeks ago.

Obviously the British have had superiority, but not enough superiority to make the job a quick one. Everyone expected the Nazis to put up a better fight than did the Italians in the same territory last year, and they have. In fact they have done even better than the British anticipated. They would have been beaten more quickly if the British had been able to wait until more planes and more tanks were at their disposal.

But they could not wait. They had to follow a time table set not by the state of their supplies and armament, but by the weather. The Far Eastern situation may have had something to do with it, too.

Manila Falls to Japanese Invaders Following Strong Last Ditch Defense By Greatly Outnumbered U. S. Troops; U. S. Bans Sale of New Cars, Trucks

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
(Released by Western Newspaper Union.)

MANILA: Falls

Since the first detachments of Japanese troops had landed on the island of Luzon in the Philippines and had begun their push toward Manila, Americans had been hoping that the outnumbered forces of Gen. Douglas MacArthur would be able to hold out in their defenses outside the capital city.

But despite a strong last ditch stand Manila finally fell to the invaders. Dive bombers and tanks had smashed the American lines. Greatly outnumbered, the Americans had fallen back as the Japs succeeded in gaining control of the air.

In its communique telling of the city's fall, the war department said that all U. S. and Philippine troops had been withdrawn from the city several days before and all defense installations removed or destroyed.

"The loss of Manila, while serious, has not lessened the resistance to the Japanese attacks," the communique said.

As it appeared that the Japanese pressure on the Philippines was driving our Filipino-American defending forces steadily backward, despite the arrival of a certain force of American planes as reinforcements, the war of nerves was giving Tokyo the "jitters."

Although there were no direct dispatches from the Jap capital, in the Tokyo broadcasts there was considerable evidence of confusion, of an anxiety to learn what the Allied grand strategy was to be.

President Roosevelt, in his press conferences, was mentioning reinforcements, plans that had been made in collaboration with all the Allies.

He talked of Kamchatka, a peninsula which reaches down to within easy plane reach of Japan itself. The Tokyo radio was warning Japs to be ready for air attacks during the New Year period, was talking of an American effort to get planes to Siberia via the Aleutian islands.

The news from Manila and the Philippines generally was creating great anxiety in this country, which plimented his general on the south, and then urged that the advantage be grasped and pursued.

"Free Crimea next" he urged his troops. The Russians still were holding on at Sevastopol, and Moscow hoped that the successes farther east would release pressure at Sevastopol and permit the garrison there, aided by sea-borne reinforcements, to take the offensive.

The Crimea was held by a combination of German-Italian-Rumanian troops, admittedly not the hardest to beat if the Russians are able to get a high-pressure drive going.

COMMANDO: A Hero's Tale
A story of black-clad, burnt-cork-faced Commandos on the North Africa front was the most thrilling story of the war thus far.

It told of the attack on General Rommel's headquarters by a small band of British "suldiers," and of the killing of the Commando's own commander, Colonel Keyes, son of the man who originated the idea.

The British Commando group hid in an arroyo during the night before the zero hour, within running distance of Rommel's headquarters. At the time when the whole imperial offensive was to flare up along the line, they dashed forward, roused a sentry who opened a door, shot him dead and entered the building.

RUSSIANS: Back in Crimea

The southern Russian front, which had been subjected to extra German pressure while the Nazis were on the retreat in the central and northern sectors, suddenly turned the tide with the recapture of Kerch and Feodosya.

The first-named port was opposite the rich Caucasus oil region, separated from it only by two miles of water. These two miles the Germans had not been able to cross because of Black sea fleet activity.

Feodosya is about 100 miles further west, and landings were made simultaneously at both points, the Germans driven back, and an uncounted number of Nazis trapped between.

The German high command acknowledged the Russian landings "in force" and said that counter measures were being taken. Stalin comm-

DUTCH: Steal Show

Dutch sea and air arms under the command of Vice Admiral E. E. L. Helfrich, above, have inflicted severe losses upon Japan's invading forces. He is chief of the Netherlands navy and air force in the Indies. Licut. Gen. Hein Ter Poorten is commander in chief of the armed forces.

See below DUTCH: Steal Show

The Dutch airmen and submarine crews continued to "steal the show" in the Pacific war, the fighting fliers ranging far over the Pacific, largely in American-made planes, seeking Jap tankers reportedly loaded with oil stolen from north Borneo.

The N.E.I. commander in chief, Lieut. Gen. Hein Ter Poorten, pledged America that the Dutch alone could turn the tide against the Japs in the south Pacific if only they could get more planes and more anti-aircraft guns with which to fight off the Japanese warplanes.

Apparently there was no lack of Dutch bombers, nor of skilled pilots to man them, the shortage lying chiefly in fighter planes.

The submarines, keeping intact their promise of more than one ship a day, had sunk four more.

That they were faring far afield and not just protecting home shores was seen in the announcement that these latest sinkings had been far from Batavia, way up at the east coast of Thailand. The vessels sent to the bottom were troop transports, landing Jap soldiers for the fight against Singapore.

In the meantime, the Dutch had sent a successful naval raiding party against the Japs near the central provinces of their own islands. The Batavia radio said several launches were destroyed, others were seized and that the Japanese living on the island were taken prisoners and interned.

When the British got out of north Borneo, they were said to have destroyed all the oil wells, or damaged them so that they could not be used. The Dutch revealed, however, that several Japanese tankers had been seen leaving there loaded.

The air force had been sent in pursuit, the Dutch pledging themselves to sink the tankers or not return.

HAWAII: 'Ready'
Victims of the Japanese "sneak attack" which decimated their strength in a few hours, Hawaiians had rejoiced finally that reinforcements to the plane and ship garrison now had the islands ready to meet all comers.

Although the exact nature of the reinforcements was kept a secret it was revealed that the army on the islands had enough planes to give any invaders a "lively reception."

Hero of the December 7 attack, Lieut. George S. Welch, 23, of Wilmington, Del., who shot down four Jap planes though he had to drive 10 miles to get to his plane, said he was "itching for another fight." He said: "All of us would like to see them come back."

LIBYA: British Get Tanks
The British were polishing off General Rommel's remaining forces in North Africa at a fast rate, aided by a "rash sally" made by a force of nearly 100 tanks.

The British met this assault with such a withering fire from its mobile artillery and its American tanks that 22 of the enemy tanks were destroyed and 20 others put out of action with damage.

WILLKIE AND F.D.R.
Seldom in political history has a President of the United States received such wholesome support on major foreign policy from a defeated candidate as Franklin Roosevelt has received from Wendell Willkie. Few people know how active Willkie has been behind the scenes.

For instance, Willkie has even done some missionary work on Joe Martin, chairman of the Republican National committee and opposition leader of the house. Willkie remains on very friendly terms with his old campaign manager, even though they differed on foreign policy.

Shortly after the congressional vote to repeal the Neutrality act, in which the Republicans nearly defeated Roosevelt, Willkie phoned Joe Martin.

"Joe," he said, "those Republicans who voted against repeal of neutrality are going to have a tough time being re-elected. They're going to find the country is behind Roosevelt on this."

The Republican national chairman replied that he would not only re-elect all the Republicans who voted against Roosevelt, but he would also elect a lot of new Republicans to fill the seats of the Democrats who had voted with Roosevelt.

"Listen," said Willkie, "if you re-elect 80 per cent of those who voted against the President you'll be the greatest political genius of all time."

"And," said Willkie, in telling the story to a friend afterward, "a few days later there was Joe himself voting with Roosevelt for a declaration of war."

SHIP-BUILDING PROGRAM
The action of the house naval affairs committee in slashing the proposed expansion of our two-ocean navy was due chiefly to shortages of materials and construction equipment.

However, Rear Admiral Samuel Robinson, chief of the bureau of questions about the worth of the battleship under modern combat conditions. Committee members sharply suggested that in view of the battleship's record in this war, the navy might be wise to build no more.

Robinson contended that this would be impractical, since the United States needed battleships "if our enemies continue to use them for combat purposes."

"What is your honest private opinion of the battleship?" he was asked. "Do you think this type of ship is worth all the money it costs and the time and labor required to build them?"

"I'm sorry, gentlemen, but it's not my function to answer that question," sidestepped Robinson with a smile. "I'm not a policy man. My job is to build ships after it is decided they are needed. However, I have my own ideas about the battleship."

This drew laughter, and the admiral was pressed no further.

Robinson also was quizzed closely about the high cost of certain vessels which the navy proposed in the expansion program, chiefly an aircraft carrier at an estimated \$85,000,000.

"Higher labor and material costs are the biggest factors," Robinson explained. "For instance, we have a new type of armor plate for our ships which is far stronger than that used by any other nation. It costs \$60 a ton, three times as much as the armor plate we formerly used."

"How about the labor supply?"
"We have plenty of labor to carry out our shipbuilding program," Robinson said. "Also plenty of facilities. Getting materials and machine tools is our big problem right now. However, the shortage doesn't amount to a bottleneck. In fact, production is running a little ahead of schedule and will be greatly expedited by next spring."

BUY DEFENSE BONDS—
CAPITAL CHAFF
The outbreak of the war obscured the incident, but the house at crew in a big way on its action last summer barring David Lasser, former head of the Workers Alliance, from government employment. After a careful investigation, the appropriations committee completely exonerated Lasser of any Communist affiliations. Representatives John Taber, N. Y., J. W. Ditter, Pa., and Everett Dirksen, Ill., who made the original accusation ducked the committee session when Lasser was cleared.

Apparently not having enough to do with the war, representatives of the Pure Food and Drug administration now ask drug firms the question: "How much business did you do last year?"

Supervisors Elect Ball As Chairman, Argue Newspapers

Ord Man Re-elected to Second Term; Fail to Agree on Official Publication.

A fine spirit of amity and friendship prevailed as the Valley county board of supervisors began its annual session Tuesday morning and it lasted through the all day session Tuesday and the Wednesday morning session, during which much routine business was disposed of.

Ellsworth Ball, veteran Ord supervisor who headed the board last year, was re-elected chairman for a second term. His was the only name placed in nomination and his reelection was unanimous.

As standing committees Chairman Ball named the following:

- Roads and bridges—Johnson, Hansen, Zikmund.
- Buildings and grounds—Barber, Suchanek, Jablonski.
- Budget—Zikmund, Hansen and Suchanek.
- Settlements with county officers—Suchanek, Barber, Johnson.
- Bonds between sessions—Hansen, Barber, Jablonski.
- Claims—Jablonski, Suchanek, Zikmund.

The dove of peace flew out the window Wednesday afternoon when consideration was given to appointment of an official county newspaper for the coming year.

A letter from The Ord Quiz was read to the board asking that The Quiz be designated official publication as in the past, and offering to print board proceedings at a rate of 25c per column inch, which is the rate provided by statute. For several years the county has benefited financially by an arrangement between the three newspapers of the county by which proceedings were printed in all three papers at the legal rate, which was divided equally, giving each paper 3 1-3c per column inch.

This compensation is not sufficient to pay composition costs on this advertising. The Quiz said in its letter, and because of rising costs of publication it is unwilling to continue the arrangement, which was made during the drouth and depression years. County Attorney John P. Misko was called to rule on the legality of a motion proposed by Supervisor S. V. Hansen, of Arcadia, designating the Quiz as official newspaper but ordering the publication fee of 25c per inch divided three ways among the county newspapers as in the past. Supervisor Hansen withdrew the motion when Misko ruled it an illegal motion.

Supervisor Hansen then proposed a motion to make the Arcadian, of Arcadia, Neb., the official newspaper for all county publications, and it was seconded by Supervisor J. A. Barber of North Loup.

Doctor Toots His Horn

The first air-alarm of the war sounded in Ord yesterday when the horn on Dr. John Round's car, parked in front of the Ord City bakery, developed a short. The horn kept up a steady toot for several minutes, and it seemed like about half the town had assembled before Dr. Harold Cuckler diagnosed the case and prescribed a remedy. Dr. Round has charge of a huge first aid class, and knows his stuff in that line, but this was one time he had to call in a specialist.

Cosmos Sponsor Stag Party Thursday Even

Thursday evening at the Legion hall the Cosmopolitan club will sponsor a smoker and stag party as a Red Cross benefit and the party is open to all men of the community. Tickets may be purchased at the door. Various card games will be played and a lunch will be served.

Federal Tax Stickers Required After Febr. 1

According to information put out over the radio and through the columns of the daily papers a special tax sticker on the windshield will be necessary for persons driving their cars after Feb. 1. These stickers were put on sale Tuesday in some of the larger cities, but Postmaster Alfred L. Hill stated Wednesday afternoon that he had no information as to when they would go on sale here.

These stickers will cost the car owner \$2.09, and will be good until the close of the fiscal year, June 30. Then another sticker costing \$5 and good for a full year, will have to be bought. These stickers will be small about 1 1/2 by 2 inches in size, but their presence on the windshield will be mighty important. In case of exchange of cars the sticker will be good on the new car for the unexpired time.

This new federal tax is a part of the government's huge defense program. While it is not known just when these new stamps will arrive and be placed on sale in the Ord post office, Mr. Hill is certain that they will arrive in time for car owners to purchase them before Feb. 1.

Vaclav Bruha, 65, Passes Saturday

Brother, Joseph Bruha, Died Only a Week Before; the Funeral Held Tuesday.

Only eight days after the death of his older brother, Vaclav Bruha, 65, died Saturday at his home west of Ord. He and his brother Joseph had been neighbors throughout their lives in Valley county and both were highly respected citizens.

Vaclav Bruha was born Sept. 2, 1876 in Kamajk, near Klatovy, Czechoslovakia and came to America with his parents in 1884. The family settled on a homestead in this county and there Vaclav grew to manhood. In 1900 he was married to Katerina Klat, of Ord, and four children were born to them, one daughter dying in infancy.

Left to mourn are his widow, his mother, Mrs. Anna Bruha, one son, Wencel, of Comstock, and two daughters, Mrs. Emma Hulinsky, of Elyria, and Mrs. Katerina Hulinsky, of Burwell. There also are 13 grandchildren, three brothers and three sisters.

Mr. Bruha was a member of the Z. C. B. J. lodge at Jungman and was active in lodge work for many years. Funeral services were held from the National hall Tuesday with Rev. K. O. Zavadi, of Wilber, officiating. Joseph Refja spoke for the lodge. A quartet sang. Pallbearers were Emanuel Bruha, Wm. Vancura, Chas. Vancura, Joseph Klat, Joseph Ostrowski and Eldon Bruha. Interment was in the National cemetery west of Ord. The Pearson-Anderson Mortuary had charge of arrangements.

Fine Record Shown by Ord Volunteer Firemen

The year 1941 was another in which a fine record was shown by the Ord volunteer fire department. The total amount of damage done by the eleven fires to which they responded was \$1,285, or an average of about \$115 per fire, and about 58c per inhabitant in the town.

However the total value of property threatened by these fires was \$29,340, which makes the loss only about 4 1/2%. In fact, in the case of five of the fires there was no loss at all, and in the case of the burning of weeds on vacant lots in Hillside addition there was no value at stake, the object being to keep the fire from spreading.

These fires were as follows, according to a report furnished the Quiz by the secretary, Mark Tolon:

- Jan. 18, car on the square, value \$400, loss nothing; Jan. 24, Grace Minor property, value \$1,700, loss \$100; March 1, Dr. F. L. Blessing, value \$4,000, no loss; March 20, Clarence Blessing house, value \$4,500, loss \$800; May 18, Mrs. Margaret Wentworth, value \$15, loss \$10;
- July 1, vacant lots, no value, no loss; Aug. 29, value \$2,000, no loss; Aug. 29, Stanley Rutar house, value \$3,000, loss \$50; Sept. 27, William Misko house, value \$7,800, loss \$35; Dec. 13, Joe Rysavy shop, value \$1,425, loss \$290; Dec. 16, Bert Needham home, value \$4,500, no loss.

The above figures take in the total amount of property in the fire risk, and the loss takes in loss to building and contents. The record of firemen in attendance at these fires shows that there were an average of 21 firemen present at each fire out of a total of 35.

Red Cross War Relief Fund Still Growing Slowly

Ord Has Collected Only \$785 of \$900 Quota; Pint of Blood Is Offered.

ARCADIA TURNED IN \$255 THIS MORN. War relief contributions of \$255 were turned in to Mrs. C. J. Mortensen this morning by Arcadia committeemen, she reports. The drive is continuing in Arcadia and adjacent townships.

The Red Cross war relief fund for Ord climbed to \$785.36 of the \$900.00 quota last week, according to the figures of Treasurer Curt Gudmundsen. This included \$35 from the Ord Rotary club, \$8 from Delta Deck, \$1 from Edith Jones, \$2 from A. Friend; \$6 from Dinner Bridge club; \$1 from Ben Clark and \$1 from Bess Petty.

Rev. Clarence Jensen gave \$1; Mary Jane Bremer, \$5; Mr. and Mrs. E. C. Leggett, \$2; Dr. F. A. Barta, \$5; Mr. and Mrs. Ign Pokraka, \$2; Royal Kensington club of Maiden Valley, \$5; H. O. A. Extension club, \$2; M. O. A. Extension club, \$5; D. A. Moser \$1; Frank and Bessie Sich, \$2. George Urban gave \$1; Leon Wozniak, \$1; Mrs. Mary Bartos \$1; J. J. Novosad, \$2.50; William Novosad, \$2.50; the Ladies Aid of the Christian church, \$5; and the Ord Chamber of Commerce and North Loup community chorus combined to raise \$21.58 which they donated.

Mr. and Mrs. Jerry Petska donated a sack of flour which was auctioned off at the sale barn Saturday. First buyer was Joe Dlugosh for \$3; second buyer was H. Bresley for \$2.25.

A young woman who lives in the country wanted very much to give something to the Red Cross, but she did not have any money. She thought about it a good deal and then this week she came happily to those in charge of the Ord drive. "I haven't any money to give the Red Cross, but I am strong and healthy. I have had four healthy babies. I want to give a pint of blood to the blood bank," she declared. Red Cross workers sadly informed her they had no facilities here with which to make blood into either dried plasma or liquid plasma. Only 16 cities in the United States are so equipped, and donations of blood must be taken to one of these 16 places within 12 hours after being drawn.

Klima Appoints Salvage Committee

Committees for the salvage and conservation of paper, metals, rubber and other waste materials for use in the defense effort were named Wednesday afternoon by Ign. Klima, Jr. county defense chairman, as follows:

For Ord and vicinity: John R. Haskell, chairman, Roy L. Severson, R. Clare Clement, Mrs. Edward L. Kokes, Mrs. Keith Lewis, Mrs. Warren E. Lincoln, Frank Piskorski, John Ulrich and Geo. A. Nay.

For North Loup and vicinity: Mrs. Myra T. Barber, chairman, H. L. Gillespie, Mrs. Floyd Redlon, G. D. Barber, A. C. Waterman, and Ign. Pokraka.

For Arcadia and vicinity: Rev. E. A. Smith, chairman, Lloyd H. Bulger, Lyle Lutz, Mrs. Harold D. Weddel, Mrs. Thurman Bridges, Jess H. Marvel, U. G. Evans and Paul C. Holmes.

For Elyria and vicinity: Ed A. Holub, chairman, Phillip Wentek and Mrs. Olga Clemmy.

"Be patient," is Chairman Klima's advise to people who already are saving waste materials and have been wondering when collection of it would get underway. Until Monday, when he attended a meeting of county defense chairmen in Omaha, he had no definite information about the salvage program. He is still awaiting definite instructions from the state chairman of this division but expects these instructions today, after which the work of salvage will be started, not only in Ord but in the other towns of Valley county and in rural areas as well.

Salvage of waste will be one of the most important parts of the whole defense program, he says. People already are cooperating wholeheartedly in saving waste paper, tin cans, razor blades and other materials that will be valuable. Klima asks that people continue to save such materials until the necessary arrangements for regular collection can be made.

County Maintainer Gets First Rationed Tires

Tracy Hamilton, county highway commissioner, was the successful applicant for the first tires issued by the Valley county rationing committee, and in this picture county employees are shown putting the new tires on a county maintainer. In the picture are Oscar Hackett, Jay Pray and Jay Hackett.

Only one passenger car tire as rationed in the first week of the program, Chairman Ralph W. Norman says. Frank Cerulik's application for an obsolete tire was approved. Obsolete tires are tires for cars models prior to 1931. They are not charged against the county's quota when issued, but must be applied for in the same manner as modern tires.

The tire rationing committee meets every Friday to consider applications. At present only one is on file for consideration this week though there have been many inquiries, the committee says. Chairman Norman cautions applicants to fill out all the questions on the application blank, or it cannot be given consideration.

Ord's Rainfall in 1941 Was Higher, Totalled 23.19 In.

Sept. Wettest Month with 5 Inches Recorded; Few Extremes of Heat, Cold.

The records kept by Horace Travis weather reporter for Ord, show that the year 1941 was the first in a number of years in which the amount of moisture was above normal. Due to the excess moisture, perhaps, the extremes of heat and cold were not as great as in some former years, particularly 1934. Total moisture during 1941 was 23.19 inches. The long period of time in which plenty of moisture fell really began back in November of 1940, and began with the unseasonable blizzard of the week beginning Nov. 10, which caused the death of so many fruit and shade trees. There was a plentiful supply of moisture in November and December.

January, 1941, was cold, but not extremely so. The low for the month was 1 above, and the high was 50. There was 8 1/2 inches of snow, and the amount of moisture was 1.41 inches.

February averaged somewhat colder than January, with a high of 50 and a low of 7 below zero. The snowfall was 7 1/2 inches, and the amount of moisture was 1.29 inches.

Eight and one half inches of snow were recorded for March, with moisture of 84 of an inch. The high for the month was 64 and the low was 4 above zero.

Plenty of rain and snow came in April, when 9 inches of snow was recorded and a total of 3.77 inches of moisture. The high for the month was 74 and the low was 28.

Mrs. Ulrieka Sofia Erickson, 91, died Saturday evening at her home in Ericson. The funeral was held Wednesday afternoon with burial in Albion. The Pearson-Anderson mortuary had charge.

North Loup Co-op Elects Directors

North Loup—(Special)—The North Loup Cooperative Credit association held its annual meeting Tuesday, electing directors and choosing new committees at the afternoon session and in the evening enjoying a covered dish supper at Community building, followed by a talk by Millard Morton, of Allen, cooperative credit expert.

Directors chosen were R. H. Knapp, A. L. Willoughby, W. J. Hennip, F. J. Schudel and Albert Babcock. On the credit committee are J. E. Lee, R. W. Hudson and Frank Johnson, and on the supervising committee J. A. Adams, W. H. Vodehnal and W. T. Hutchins.

World's Meanest Man Ruins Tire

North Loup—(Special)—A. L. Milhollin thinks the world's meanest man must have visited this village Monday night.

During the night someone wounded three nails into one of the tires of Mr. Milhollin's car.

Bad enough at any time, such a prank is doubly vicious now that tires are impossible to get.

It may have been the work of a youngster, Milhollin thinks.

Community Chorus Program Enjoyed

Splendidly presented by the famous North Loup community chorus Monday evening at the high school was a fine program of song. The purpose of the singing was to raise money for the Red Cross by means of a free will offering, and \$21.58 was the result. The Ord Chamber of Commerce sponsored the importation of the 75 voices from our neighbor-town, North Loup, and Ord music lovers were delighted at the chance to hear them.

Roger H. Johnson directs the group, which has been singing together for a number of months. Accompanists are Mrs. Ava C. Johnson and Mrs. Reuben Cook.

In the first group of songs were Mozart's "Gloria" from "Twelfth Mass"; the "Bell Song" by Haekenson; from Hayden's "Creation" was "The Heavens are Telling" done beautifully. Two Christianson arranged songs "Lost in the Night" and "Beautiful Savior" were next, the last named being especially pleasing. Next came the "Hallelujah chorus" from "The Messiah" of Handel, impressive and inspiring.

Ralph Norman spoke briefly on the meaning of the Red Cross after which the second group of songs opened with "America the Beautiful" by Bates. The audience enjoyed next "My Old Kentucky Home" and also "Carry Me Back to Old Virginia" both by Stephen Foster. The closing number, fittingly in these times, was "Star Spangled Banner" by Francis Scott Key. All present considered the evening a treat and were glad the Ord Chamber of Commerce and the North Loup chorus decided to collaborate.

Arcadia Lad Victim of Hunting Accident

Fred Summers, 15-year-old Arcadia boy, was brought to the Ord hospital Saturday afternoon and was treated by Dr. J. N. Round for a gunshot wound in his right hand, the result of a hunting accident.

The Summers boy, accompanied by Carl Richardson, 14, was hunting rabbits when the 22 calibre rifle carried by Richardson was discharged accidentally. The bullet hit the Summers boy's hand, disintegrating on contact, and bits of lead were forced through the flesh of his hand, some coming out at his fingertips and others remaining in the flesh.

Dr. Round dressed the wound, gave the lad anti-tetanus serum and says the wound probably will cause no complications.

Dam Watchmen Become Deputy State Sheriffs

The North Loup River Public Power and Irrigation district has completed arrangements to place armed guards on each of its diversion dams and along its canals, in compliance with a request of the war department, announces H. C. James, engineer and manager.

Archie Bradt, watchman at the Ord dam, Ray Wilson, watchman at Burwell, and Jack Krause, watchman at Taylor, have been deputized as state sheriffs and have been armed. G. G. Holloway, water master, also has been deputized and will patrol the canals.

The district's three diversion works and the various canals and other structures will be closed to the public for duration of the war and steps will be taken to prevent trespassing by unauthorized persons, says Mr. James. The guards will be charged with responsibility of keeping all unidentified or suspicious persons away from vital structures.

Similar steps are being taken by the Middle Loup district.

Village of Burwell Will Buy \$20,000.00 In Defense Bonds

Board Also Votes No Charge to Property Owners for Paving on Square.

Burwell—(Special)—At their meeting here last night the Burwell village board voted not to ask the property owners to pay the agreed assessment of \$1.40 per front foot toward the paving, which has been completed and in use since last fall.

The board originally appropriated \$25,000 for the purpose of laying the paving. The paving actually cost \$16,000, and the village has about \$4,000 in equipment left which they will not try to sell at this time because of prevailing war conditions.

There is a balance of \$20,000 still remaining in the treasury and the board voted to use this amount to buy Defense bonds. Burwell may not be the first town in the United States to do this, but it is the first town we have heard of doing it. If all towns would do as well, it would mean a real boost in the defense program.

New Force Manages WPA Activity Here

Walter F. Quillin is now the regional superintendent of WPA activities, headquartered in Ord and having supervision of Valley, Garfield, Greeley, Sherman, Howard and Wheeler counties. Mark Gyger, former superintendent, was transferred to the southern part of the state. Mr. Quillin formerly was at Loup City.

Chief clerk in the WPA office here is Arthur Johnston, who was transferred to Ord from Gering. Lloyd Wilson continues as a clerk in the office.

Claude Tift, of Benkleman, came here last week as superintendent of WPA work on the Ord-Ericson highway project, which is the major project now being carried on in Valley county.

First Aid Class Popular, Another Will Be Started

The first class in first aid has grown to such size that it will be impossible to accommodate any more students. At the lesson meeting in the city hall Monday evening there were sixty in attendance, which is too many for one class.

There are doubtless many others who are interested in taking this course, and they are asked to call Mrs. Mark Tolen at once and a new class will be started to take care of them. War conditions and the possible need of this training are responsible for the unusual interest.

Burwell Wins Games

Two Burwell high school basketball teams won their games Tuesday night, the first team beating Litchfield 28 to 9 and the junior high team beat the Litchfield second team 8 to 3.

Peter Clement Will Publish Loyalist

The North Loup Loyalist will have a new editor February 1 in the person of Peter Clement, of Lincoln. Mr. Clement, a former North Loup and Mira Valley resident, has been serving as deputy state fire marshal and prior to that time was employed by the Nebraska Good Roads association.

For the past few months M. G. Williams, publisher of the Scotia Register, has been publishing the Loyalist as lessee. Mrs. J. A. Barber has been local editor.

C. C. Dale Honored for Outstanding Help to Farmers

County Agent Since 1920, He Organized 1st Baby Beef Club; Aided Irrigation.

The county agents of Nebraska held their annual session in Lincoln Tuesday, Wednesday, Thursday and Friday of last week. In the closing session on Friday, Joe Watson, Cuming county, was elected president, Kenneth Reed, Gage, vice-president, and Wilbur Mackey, Adams, secretary-treasurer.

Announcement was also made Friday of the honor conferred upon two Nebraska county agents, Carl C. Dale of Valley and J. C. Adams of Dawson, as among the eighty agents from all over the United States cited for outstanding service to agriculture. These men were not able to attend the national meeting in Chicago in December, but were present in Lincoln.

The recognition came to these men because of the sound agricultural programs worked out by them in their respective counties. Items mentioned in the case of Dale included the assistance given irrigators in developing their fields for irrigation in a new area.

To be eligible for this honor an agent must have been in the work for ten years or more, and Dale has been in the work here since February, 1919. In an editorial in the State Journal Friday, Jan. 9, James E. Lawrence speaks of the two agents honored, and has this to say of Dale:

"Carl Dale has been the county agent of Valley county since 1919, and years of contact and association there has brought him an intimate knowledge of its problems."

Contributing factors in Mr. Dale's recognition are the fact that he organized the first baby beef club in Nebraska, possibly the first in the United States, in 1920. There were five or six members, and a calf grown by Martin Fuss won first at the state fair. Another member of the team, Dale recalls, was Thurston Gifford.

There has been at least one baby beef club in the county every year since that time, and a few years there were about 50 beavers shown at the county fair. Another factor were the two crops judging teams which won first at the national show in Chicago in 1930 and 1932.

The members of the 1930 team were Bill Garnick, Harold Benn and Anthony Kokes. Those of the 1932 team were Bud Brickner, Charles Barnhart and Valerian Ciochon. Both of these teams were taken to the grain exposition in Canada.

Dale has been in this work in the county long enough that the second generation is now engaging in club work. Clifford Goff was a club member in the early years of his work here, and now Clifford's sons are engaged in the same work. The elder Goff was an outstanding showman and judge.

In speaking of the honor he has received, Mr. Dale states that he could never have won it had it not been for the wholehearted cooperation he received from the farmers and various civic and business organizations in the town and county, and he says he sincerely appreciates this support.

Garage Fire Thursday

Slight damage was done by fire to a garage at the Joe Kuffel place in Mira Valley last Thursday. Hot ashes piled near a corner of the frame building are believed to have ignited the garage. Mrs. Kuffel was alone at the time but when she noticed the fire called her husband, who was at the Archie Geweke place, and he extinguished the blaze with little difficulty. The Kuffels make their home in the house on the old Scott Wolf place which is farmed by George Clement.

WE MUST CONSERVE.

One of the most difficult things to make the people of the United States understand is the necessity of conservation in all things.

We must learn to distinguish between the use of things and their waste. It is one thing, for example, to cook all the food necessary for the family meal; it is quite another to cook too much and have to throw a part of it away.

There are a thousand ways in which we may help in the conservation of vital products. Many of these have been right before our eyes all the time, but there has been no pressing need of conserving them.

That condition has changed, and from now on all print paper has a definite value. This fact was not realized during World War No. 1, and the result was that print paper went to such a high figure about the close of the war that many papers had to suspend publication or cut down on the number of paper printed.

The Quiz receives forty or more exchanges each week, which are of no value to us after we look them over. The girls are collecting these, and it means quite a few pounds of waste paper each week.

It is one thing to argue that, at present prices, the paper does not pay for what it costs to collect and ship it. If this war is like the last one, it will not be long until print paper will be almost too expensive to buy.

Our lives will be affected in many ways by war conditions, and these conditions will be determined by boards, all of whom will serve without pay as a part of their job in winning the war.

In the last war these men, serving without pay, had to make similar decisions. In many cases the men decided against raising the cry of "discrimination," and were very angry at the members of the board.

There are many things that we must expect and that will occur. There will be mistakes made, for after all, board members are human. We already know there will be reports of death which may in time prove erroneous.

The best way for the general public to act is for us to attend strictly to our own business in these matters. We have law enforcement officers, and they can obtain plenty of help if it is needed.

There will be spasms of patriotism from people who in ordinary times do not know the meaning of the word. There will be hoarding by panicky people who fear that the supply of some commodity will be exhausted.

In the main, it would be well for the younger generation to follow the example of those who are old enough to remember all that occurred during the last World War, in particular, the executive men who had a part in

that war. You will find that these people are not to be stampeded but will keep steadily working at the job that is to be done.

THEY MUST BE WISER.

Since the days when our ancestors went to school and studied the three essentials, reading, writing and arithmetic, the world has gone a long way.

Progress has made it essential for the school boy or girl of today to have more gray matter than did those of half a century or more ago.

The deeds of men, whether they be good or evil, make history. It may be safely said that man has done more in the past century than mankind did in all the centuries of known history preceding it.

Last week there was buried at North Loup a man who lived more than the span of a century. Leander Williams was old enough to hear and understand stories of the Mexican war, which started in 1846.

Mr. Williams lived during all of the wars of the United States but one, that of 1812. The Revolutionary war was fought by the 13 colonies and our nation was not established until after the war.

The first World War requires more space in its telling than do all the other wars of the United States combined, and the present war will make the first look small indeed.

When Mr. Williams was born the first inventions along the line of photography had been made and it was possible to take portraits. There were two methods used at first.

If we had to do that now, there wouldn't be any cuts in the Quiz, for nobody would have the time to fool with it. When Williams was born the first U. S. railroad was ten years old.

In fact, it would be difficult to get along at all today without the dozens of inventions that have come in the past century, and each of them means something more than the modern youngster must learn about in school and elsewhere.

BACK FORTY

By J. A. Kovanda

A lot of farms are carrying hogs now for the first time in many years, and the pigs are in good health with little disease as a result.

Yet, if our swine population doubles next spring and yards are crowded, the stage will be all set for plenty of trouble. The old stockmen know that with big increases in farrowings on the way, some epidemic is quite apt to break out.

Or it may be the latest scourge, bloody scours, a disease that is killing thousands of hogs in Iowa and heading westward. Bloody scours is a sickness that strikes hogs most heavily at weights of around 80 to 120 pounds, often causing death from straight bleeding.

Nobody knows for certain what causes bloody scours. There is not any sure remedy, although they have some success with a slop made from salt, ground oats, and water. A vaccine is also used, and a vitamin diet helps.

It is hoped that no outbreak of disease will occur here, because pigs are hard enough to raise anyway. Records show that over 40 per cent of the pigs farrowed never live to reach market age.

'42 Will Be Record Year For American Farm Crops

Food Goals Are Raised to Boost Production As Agriculture's Part in Winning The War for U. S. and Allies.

By BAUKHAGE National Farm and Home Hour Commentator.

WNU Service, 1343 H Street, N-W, Washington, D. C.

The farmer came across. He produced more the past year than any year in history. Never has America blossomed and borne fruit as she did.

But that doesn't mean that the food-for-victory problem has been settled. Now the department of agriculture finds a part of the problem back in its own lap, for we are in the war ourselves and our allies depend on us for supplies.

Experts here tell me that the farm-labor problem is not unsolvable. The combined demands of war and industry mean that the farmer will have to put up with older hands, with less skilled farm hands.

Can Get Repairs The farmer can also get the parts he needs to repair his farm machinery. He will get some new machinery, enough to get by with.

But the big problem is to provide the processor with the essentials he needs to prepare the food and to wrap it up in packages for the consumers. Take for instance milk; some 24 new evaporating plants will have to be built, some 350 cheese factories will have to be put up.

Food Goals Raised The department of agriculture has raised the food goals—already it has called for a 25 per cent boost in the tomatoes wanted; 33 per cent in snap-beans, corn and peas for canning.

Wartime Washington—Crowded and Busy Wartime Washington . . . crowded press and radio conferences at the White House with no one admitted without a photographic pass, registered fingerprints or a special signed card issued only to known and guaranteed bearers.

BRIEFS . . . By Baukhage

Although the White House grounds and entrances are guarded by a flock of extra policemen, nobody is paying any attention to the Japanese pin oaks which line the walk from the main building to the Executive office entrance.

Japan is burning the candle at both ends as far as her materials for war are concerned. Supplies of metals are, of course, particularly short. Reports reaching our commerce department say that strenuous efforts are being devoted by the Japanese to the gathering of old railway cars, kitchen utensils, iron fences, manhole lids, pipes, wire, etc.

guns with their crews, like the one I can see from my window as I write, on top of buildings . . . More British reporters, no Japanese, German or Italian newsmen . . . a sign on the window of one of our many Filipino-driven taxis, "Philippines, U.S.A."—explanation from the grinning driver, "Best take no chances" (many people take the Filipinos for Japanese).

Will the Horse Stage a Comeback? "My kingdom for a horse!" A lot of the people who own America's 30 million vehicles may murmur that wish before long.

And nobody knows today when the farmer will be told he can have no new farm machinery when what he has wears out.

But the city man, even if he learns which end of the horse to put the cropper on, wouldn't have any place to park the animal—he couldn't leave it out beside the curb all night the way many do their cars.

What's more a lot of folks are afraid of horses. Many men who will drive a farm truck 50 miles an hour nowadays would think he had a runaway on his hands if a team he was driving broke into a trot.

The United States now has 100,000 civilian pilots at the end of 1941, or five times as many as it had on July 1, 1938. About 65,000 of the new pilots were trained in the Civil aeronautics administration program begun in 1939.

My Own Column

I suppose we are now having our January thaw. As long as I can remember we have always looked forward to a January thaw and if it didn't come we would feel that we were being cheated.

Anyway, this 30-degree temperature is very pleasant after the around 20 below that we have had for two weeks. And it is much better than the 40 below that they have been having elsewhere.

Because the government believes there is rank profiteering in the business of retreading auto tires, a ceiling has been placed on the work and anyone violating the ceiling may find himself in serious trouble.

It is being hinted that some tire dealers have been supplying customers with tires contrary to government orders and unless the tire boards crack down right on the start, they will be very unpopular later when they have to do so.

A lot of my readers will be interested to know that the Missus is allowed to sit up 4 hours a day this week, 2 in the morning and 2 in the evening and that after this week she is to use her own judgment, sitting up just as much as she feels like, but always lying down when she feels tired.

Many read our advertising last week and took advantage of our offer of defense stamps to those who paid their subscriptions Saturday of last week and Monday of this week and we had to spend fifty dollars for defense stamps.

I want to again mention the big garden that I believe everyone should try to raise this coming spring. In the first place fresh vegetables from our own gardens are better than any we can buy; vegetables from our own gardens are better for canning than wilted ones bought for the purpose; home canned vegetables are far superior to commercial canned ones if the work is done properly.

It is really not very long before some of the early kinds like lettuce, onion seeds, parsnips and possibly others, may be sown for real early gardens. Sixty days go by almost before we know it.

I do wish people would not take the position that because we stop their papers when the time is out, we are questioning their credit. Such is not the case. Possibly ten per cent would be a long time paying us, some of them never. Another 15 per cent would let it run a year or two; we cannot do it that way.

On the more serious side of the question however, is the possible long-time demand of the army for essential materials that go into trucks and tractors and which may cut down perceptibly the machines that run farms today. A lot of farmers, like a lot of city people, really can't afford to own the machinery they have. It makes work easier. A horse is more trouble than a machine. But a machine is not always necessary to do farm work any more than a car is necessary to the city dweller to do the work his own father made a shank's mare do.

Also, a horse can eat a lot of non-salable roughage, which food is much cheaper than gasoline is going to be while we need it for tanks and airplanes and army jeeps.

The United States now has 100,000 civilian pilots at the end of 1941, or five times as many as it had on July 1, 1938. About 65,000 of the new pilots were trained in the Civil aeronautics administration program begun in 1939.

time the largest it has ever been and those who don't read the Quiz are only hurting themselves. If they borrow from their neighbor they are not treating their neighbor right and are no doubt considered a pest by the neighbor from whom they mooch. I know because many of the neighbors, while they won't complain to the borrower do complain to me. If you are making it a practice to borrow the paper your neighbor pays for, rest assured that he don't like it a bit. If you are buying it by the week you are paying more than 25 per cent more for it than you would be a subscriber.

Something Different

I think perhaps this war effort is just what we Americans needed. Of all the soft, squishy, pampered, lazy darlings, we were it. We drove the wheels off our cars, we expected all our corn shelled when it was given to us. We wanted to be waited on, we wanted to keep not even but ahead of Those Joneses! We were too indolent to keep grafters out of politics; even when we learned about it we preferred not to take action . . . it might offend someone and cost our business a dollar!

Now we are fighting a war at our house. We are saving razor blades. We are saving tin cans. We are cleaning up our plates at meal time, and using our up leftovers most religiously. We are turning out lights that look interesting but aren't needed. I frankly keep a rug across a door-sill where much cold air seems to enter; and I pull all my blinds down evenings, as it will save a little fuel. I am now patching garments that I would have placed in the rag-bag a month ago.

Every extra penny goes into defense stamps. Guests at the younger Leggetts these days may expect good food and enough of it but not extravagant menus. Gone are those days.

Knitting takes up slack moments, clubs or no clubs, guests or no guests. (Even if I only finish a couple of sweaters in a year, that is two sweaters to keep the navy sailing at them.) We are planning a vegetable garden for next summer. Followed by canning.

And what all have you done at your house? Are you winning the war too?

That isn't all. Old clothing that was earmarked for the next rummage sale has gained new virtue with the news of wool rationing. Some of that old stuff suddenly looked almost new!

Rubber overshoes, rubber toys, rubber bands, erasers became more valuable as we realized they would not be replaced but rather done without before many months.

The same new virtue seems to lie in old aluminum pots and pans, in little metal toys and countless other objects about the house. And plastic articles also. Medicine in the cupboard, needles, pins, so many common trifles now seem precious.

It does now appear that America may revert to those principles upon which she was founded. Those virtues upon which Horatio Alger built himself as an author, and upon which Abraham Lincoln did much to become the legend he is. Those good but lately obscured qualities of Honesty and Thrift.

Perhaps this war will make a man of us.

MR. AND MRS. DALE STINE.

Dorothy Meyers and Dale Stine, both until recently of North Loup, were married New Year's eve by Rev. Kirkas at Laguna Beach, Calif., where their home will be and where the groom is employed. They were attended by Mary Mae Payne and Cecile Blacketer, both cousins of the groom. The single ring ceremony was used.

The bride, youngest daughter of Mr. and Mrs. Chas. Meyers, lived all her life in North Loup till she went to California recently. She was a member of the 1940 graduating class. Her husband is the son of Mr. and Mrs. Leslie Stine, formerly of Ulisses and now of California. He graduated from the Ulisses schools in 1940 and last year was employed in the Stine cafe in North Loup.

The photo printed herewith gives you some idea of what we may expect to see a lot of in the future, if the tire and car restrictions are continued. It is Floyd Arnold and his fine team as they looked when they came to town not so long ago. The main catch is that many farmers don't even have a top buggy, and they are mighty hard to buy now of days.

Literary Societies Once Amused Ordites

The copies of the Quiz for fifty years ago reveal how the people of that time entertained themselves. Today, with motion pictures and the radio, card parties and church suppers, we do not find ourselves at loss for amusement. But it was different with our grandparents, who had to amuse themselves or get along without amusement.

The early literary society consisted of a group of people possessing a reasonable amount of talent, who grouped themselves together for the purpose of amusement, entertainment and instruction. They met at stated intervals, elected officers, usually for a year at a time, and held a business session sometime during each meeting, although there was little business to transact most of the time.

The program was usually divided into two parts, the debate, and the literary program, usually with a short intermission between them, during which the committees for program and debate met and arranged the programs for the coming weeks. When the debate came last, the debaters for each side got together and planned the most effective way to present their arguments.

The questions for debate were usually along national lines, present, past or future, and dealt with subjects far beyond the capacity of the average man of the time to handle. Each debater did his best, backing up his arguments with proofs where possible, and at the end the judges, usually three, would confer and hand down a decision. Frequently the judges were persons too ignorant to take part in the program in any other way.

Two questions for debate published 50 years ago are of interest. They are: Resolved, that oratory is a lost art, and Resolved, that Hannibal was a greater general than Caesar. For the benefit of those who may not know, there were two sides, the affirmative and the negative. The affirmative tried to prove the statement true and the negative tried to prove it false.

The first speaker for the affirmative started it, and was followed by the first speaker on the negative, whose job was to refute all the statements made by the affirmative. Then the second affirmative speaker spoke, followed by another negative, and so on until the list was exhausted. After that one of the affirmative speakers had a few minutes to sum up the arguments, but could not introduce anything new.

Usually those who were considered especially brilliant were selected as debaters, while the more entertaining took part in the literary program. The de-

baters named for the oratory question were John H. Jennings and Mark Bussell for the affirmative, and W. S. Mattley and Guy Laverty for the negative. For the general question J. K. Campbell and Bennie Davis supported the affirmative, and James Thompson and M. Coombs the negative. These names are all familiar to the older generation.

The literary program was a versatile affair, with dialogues, declamations, recitations, essays, impromptu, select readings, comic readings, songs and instrumental music. The word "dialogue" meant a play, usually put on by two persons, often more. While nobody knows why, the boys usually gave the declamations and the girls the recitations, although there was no real difference between them.

An essay was the work of the person who read it on the program. Ora Taylor had one on one of these programs. The impromptu performer was given a subject after he got up to speak, and he did the best he could with the chance he had. Frank Glover and Harold Focht had this job on the two programs. Instrumental music was given on any instrument the performer could play. Readings were read from books or magazines.

This method of amusement seems hopelessly out of date under present conditions, and went out with the horse-and-buggy days. But it played an important place in the development of the self-confidence in the younger generation essential to success, and many became, as a result of this training, leaders in their respective lines of endeavor in later years.

Red Cross Notes

Red Cross work goes forward with a vim in Ord. Mrs. James Petska has knitted two sweaters and crocheted one shawl to the amazement of those in charge. Mrs. G. G. Holloway has turned in a finished sweater, and so has Mrs. John Ambrose and Miss Ouida Murray. Yarn is out for about 35 more garments, and more yarn has been ordered. All who wish to knit should volunteer at once, as their help is needed and there is a waiting list for the yarn. Telephone Mrs. Edward Gmister, and volunteer your services.

School children of Ord and Arcadia brought their pennies for the Red Cross. The total \$12.24 will be used to maintain children's nurseries in war torn areas. Ord Junior high students are working on 18 good-will boxes. Headquarters has shipped out 100,000 of these boxes this fall to refugee and orphaned children in Iceland, Greenland, China, Great Britain, Latin America and our island possessions. Grade school children are also making these boxes, using soap, stockings and linables.

North Loup pupils of the grades sent a fine bunch of scrapbooks, to go to some Nebraska orphanage or institution. Miss Marcia Rood, their sponsor, thinks they will make cross-word puzzle scrapbooks next.

Anyone having yarn scraps of any color or weight is asked to phone 230, as Ord girls need them in making afghan squares. The afghans will go to hospitals where the Red Cross sees the need.

Home nursing classes continue. This week Unit One will learn how to give a bed-patient a bath. Do you know how? Some member of the class will be the guinea pig and be scrubbed first by the teacher and then suffer demonstrations by her fellow class members. Home nursing classes are for the purpose of teaching how to take care of illness, in the event war calls our doctors and nurses away. Every homemaker in America is asked to join.

Cracking Coconuts. There is an easy way to accomplish anything. That statement can be proven. Take cracking fresh coconuts for an example. That can be a real job or it can be a simple task. Let's skip the job and get down to the simple task. You'll find three eyes in the end of all fresh coconuts. With an ice pick punch a hole in each eye and then drain off the coconut milk. Place the coconut in a pan and heat in the oven for at least 40 minutes at 400 degrees. Remove from the oven and crack with a hammer. The shell slips away from the coconut meat without any trouble.

John Paddock Alive, Telegram Confirms. John W. Paddock, previously reported by the Navy department to have been killed at Pearl Harbor, definitely is alive.

A telegram received Friday by his parents, Walter and Daisy Paddock, confirms this fact. Of course they are very happy. On Dec. 16 the Navy, through Rear Admiral Nimitz, advised Mr. and Mrs. Paddock that their son had been killed in action. Some time later they received a postcard signed by their son and dated after the time of his supposed death. In which it was stated that he was alive and well. The telegram from him Friday set at rest the last fears about his death.

Several other Nebraska sailors reported by the Navy to have been killed at Pearl Harbor are now learned to be alive. How the mistakes occurred has not been revealed.

The daughter was 9 months old when the pictures were taken last September.

A FEW THINGS TO THINK ABOUT

Written by GEORGE GOWEN

Only a few days after I received the letter from my mother in Long Beach, telling of the blackouts on the west coast, Mrs. Ehret came from New York City where she teaches and told of her experiences on the east coast. It occurred to me you would like this report too, in a manner, completing the story I had sent before.

She said they had their trial blackouts there too, and on one occasion it was reported enemy planes were approaching. She and her children went through the drills, but it turned out to be only a false alarm, or a practice alarm.

The bombing preparations are rather crude up to date. The children crawl under the seats, or go to the halls in the center of the buildings, neither to the top floor or the basement. Mrs. Ehret said that when she returned after Christmas vacation there would be more systematic training for bombing raids.

In darkening the windows, she says, it was not so difficult. Rugs or blankets tacked over the openings would do the trick. However, she said, a few days before she left, in one of the variety stores, near the entrance, was a large table on which was displayed blackout material and this was advertised in big placards.

She said too that many people there thought that the blackout was foolish. Manhattan Island is in the center of two bodies of water. On a moonlight night, this water would glisten and all a bomber would have to do is to drop his pills between the water, and do plenty of damage. In her suburb, Hastings, on the Hudson, is a large copper works that has government contracts for ship building and this would be a good place to bomb.

Each building or section has its warden or alarm blower. At certain places too there are signal signs, something like the score signs at football games. Certain lights mean planes approaching, others mean signals. These are operated individually, to wire the city so they all could be operated from one place, would take at least two and a half years. She thought it better this way, because an enemy might get to the main switch and upset the whole system, were it operated from one point.

There, too, they are organizing more police and fire wardens. In her town they called for 250 such men to work free because the city could not afford to hire so many.

The whole populace was and is nervous over the war, and fearful of bombing raids. The first day after the war was declared the Superintendent was kept at the phone answering calls from mothers wanting their children sent home at once for they had heard there was a bombing raid soon to come. She

Reports from Both Coasts.

She said that the military experts fully expected a raid or two from Germany. Hitler has long distance planes that will fly to New York carrying bombs. Of course it would be a suicide raid, as these bombers could not carry enough fuel to return, but the experts felt Hitler would do it anyway before he quit, just to show us a thing or two.

In that New York City would be such an easy target, she said most people thought the best way to handle the situation was with anti-aircraft guns and U. S. fighter planes to shoot the enemy down before they reach the city.

AAA News Notes

We now plan to load another car of scrap iron in a short time. We are very much pleased at the response of the farmers in turning out in weather that was most too cold to be out. When they filled the car of scrap iron on January 5 and 6 most iron was under the snow at this time, and it looked as if we would not be able to get the car full on January 5, but on the afternoon of the 6th iron came to town in most every sort of conveyance and by night the car was chuck full. We appreciate the cooperation that the farmers gave us in this defense work.

In the last few days we have contacted twenty farmers in Valley county. This was requested by State Chairman, Abner K. Chestem. The report had to do with intended operations for the season 1942. It showed a splendid increase in the production of poultry and eggs and increase in hogs was even greater. It did not show an increase in the production of milk. It showed a trend toward planting more corn than we had planted in the last few years and a feared shortage of labor. We expect to take a survey of the labor situation in the next few days. Farmers interested in the labor situation that have any suggestions to make, should contact their precinct committeemen.

This office has mailed out \$30,000 in checks in the past week and we expect more during this week.

In February we expect to hold our precinct meetings and we want every farmer to try and attend his precinct meetings. All of the county committee plan to attend these meetings in order that all farmers in Valley county may become better acquainted with their county committee. In these meetings we expect to emphasize national defense work and the 1942 program will be explained. We find in our daily contact with farmers that many are not familiar with the 1942 program. At these meetings we will try to make clear those changes from the programs of the past three or four years.

Car License Sales Are Behind Those for 1941
Monday at 3 p. m. the county treasurer's office had issued a total of 855 vehicle licenses, as compared with 976 for the same time in 1941. While this shows them going slower than last year, it does not mean there is actually that much difference, since farm truck plates are not available at present.

George Satterfield stated Monday that, while the farm truck plates had not arrived as yet, they would doubtless be here by Feb. 1, which is as soon as the use of new plates is mandatory. These are made at the Lancaster shops, and it is possible that the work is being delayed by shortage of material.

Kovanda's Vocational Agriculture Class Does Some Butchering

Above are shown members of J. A. Kovanda's class in vocational agriculture busy on a job of butchering two fine hogs, and the boys are really doing a nice job of it, as the picture proves. The processing of meats is an important part of farm life, and this problem will not be difficult for these lads. Shown in the photo, left to right, are: Adrian Jablonski, Don Guggenmos, Bob Timmerman (rear), Wilson Chatfield (in front), Eldon Lange and Herbert Bredthauer. These Future Farmer boys can bleed, scalp, scrape, draw and quarter a hog in 30 minutes, but will butcher only animals that belong to their own parents.

BURWELL

Mr. and Mrs. Will Nelson and Mr. and Mrs. E. G. Brechbill were visitors in the Leo Nelson home Friday afternoon. In the evening Mr. and Mrs. Robert Frye and family, Joe Smolik, jr., and Bernard Suminski were entertained at a card party in the Nelson home.

Mr. and Mrs. J. D. Ingraham of North Loup were overnight guests in the Ralph Sperling home Friday.

Mr. and Mrs. Roy Hughes and Patty drove to Genoa Sunday where they visited friends. They returned home Tuesday.

Mrs. M. B. Goodnow and Maude entertained the Richland club in their town house Friday afternoon.

Mrs. Carl Asimus of O'Neill was a guest in the W. D. Massey home Thursday afternoon while Mr. Asimus attended to business matters in Burwell.

Mr. and Mrs. Leslie Westover and family were dinner guests Thursday evening in the W. D. Beat home. Friday Mr. and Mrs. L. J. Garrison and family were dinner guests in the Beat home. Mrs. Beat entertained in honor of Mr. Beat and Billy who will soon go to Parsons, Kas., where they will be employed on a defense project.

Mr. and Mrs. George Donner and son will return to their home at Torrington, Wyo., the last of the week after making an extended visit in the vicinity of Burwell where they have been guests of his mother, Mrs. P. C. Donner and her parents, Mr. and Mrs. Albert Evans, and other relatives.

Paul DeLashmutt, who went to California several weeks ago, has accepted a job with the North American Airlines at Inglewood, Calif.

Pearl Smith, daughter of Mr. and Mrs. Charles M. Smith, submitted to an appendectomy in Dr. Cram's hospital Wednesday.

Red Cross Notes

Home Nursing Unit Number Two has lost two or three members and has an opening for about that many new members. Anyone wishing to start with this class should phone 371 at once. This group will meet Friday evening with Mrs. Roy Price at her home.

Ord Firemen have kindly consented to lend their hall to home nursing groups, and as soon as a bed can be set up and equipped there, it will be used. There is a good deal of interest in the home nursing classes, and new groups are constantly applying for an instructor, reports Mrs. John Misko, chairman. Last week Mrs. Pokraka was sent by the Highway View club to ask that these ladies be given the course; Mrs. Hawks has asked on behalf of the Junior Fort-nightly club of North Loup; Mrs. Hemphill was sent by the Fort-nightly and No Lo clubs of North Loup to apply for a teacher. As fast as possible these requests will be granted, but special orders must be received from Red Cross headquarters authorizing the nurse who teaches this work and books must be ordered for each would-be student. Just now of course the Red Cross has more applications for books than it knows what to do with, but requests are being filled as rapidly as possible and as fast as nurses can be given licenses.

Would you like to send a book to some soldier or sailor boy? Do you have some interesting books in your home that could be spared? If so, help the Victory book campaign in Ord; phone Beverly Davis at number 514 and tell her. She is chairman of the Junior Red Cross committee for this work, and Marie Rohla and Yvonne Whitling will help her. The books will go to recreation rooms in training camps, and help a lonely soldier.

Types of books needed, says headquarters are: "Good books of every kind, fiction of course, popular travel books, history or biography, plays, essays, also books on science, technology and vocations, or up-to-date reference works." Nearly every home has at least one book that could be spared and sent, do you?

Valley county juniors have sent 32 good will boxes, shipped Saturday and very nice they were, every article in good condition and American made, neither breakable nor perishable. Eighth grade assembly committee included Marilyn Oilis and Joan Biemond; seventh grade committee, Carol Johnson, Shirley Anderson. Grade school children gave enough soap for 12 boxes; junior high gave soap for ten boxes. Eureka school filled two nice boxes; Valleyview two more, and one each came from Goldenrod school, Rural No. 1, Olean, Hillside, Hayes Creek, and Old Yale. A few remain to be turned in and shipped later.

Miss Hazel Stevens, teacher, reports the North Loup seventh and eighth grades donated \$1 to the Red Cross war relief fund. Arcadia grade pupils, directed by Miss Mary Sutton, are making 100 tray favors requested by the Lincoln Veterans hospital for use on Washington's birthday, the Red Cross reports.

Junior Red Cross girls of Ord are asking for scraps of yarn and would appreciate your leftovers of any color and weight. The yarn is being knitted into squares for afghans needed in hospitals. Phone 230 and report your yarn scraps if you are willing to give them to this good cause.

About \$12.24 has been collected from school children in Ord and Arcadia by the Junior Red Cross. This money will help maintain children's nurseries in wartorn areas. The children are very proud of their contribution.

—Mrs. Henry Wit and son, Gary Brian, of Grand Island, arrived on the bus Tuesday evening and will remain until Sunday visiting in the home of her parents, Mr. and Mrs. L. M. Loft.

CHASE'S

Mrs. Nay Schoolmate of Maj. Paul Putnam

The story of the heroic defense of Wake Island by the little garrison of 335 marines and a small aviation force is of special interest to Mrs. Zeta Nay. Shortly after the first World War she and Maj. Paul A. Putnam were schoolmates in the schools of Washington, Ia., she with the class of 1921 and he with the class of 1922.

Maj. Putnam is mentioned as the head of the tiny air force in defense of Wake Island. A year after graduating from the Washington schools he joined the navy and has been connected with the aviation branch for a number of years. His photo appeared on the front page of Friday's World-Herald in connection with the complete story of the Wake Island defense.

Gifford Laursen Dead in Wake Island Action

The first report of a death in the fight at Wake Island that might be said to affect local people is the reported loss of Gifford Laursen. His mother, Florence Haley Laursen has been notified by the government that Gifford was killed in the fighting at Wake Island some time in December.

Mrs. Laursen wrote the sad news to an old neighbor, Ellory Bohannon, Jan. 6. She is the oldest daughter of Charles Haley, who lived for many years in the Joint neighborhood, and will be well remembered by the people of that section of the county. Mrs. Laursen lives at Amarillo, Tex.

NORTH LOUP

WRITTEN BY MRS. ETHEL HAMER

Mr. and Mrs. Russell Johnson are parents of a son, born January 5 at McMinnville, Ore. He has been named Lyle Eugene and weighed 8 1/4 pounds. Mrs. Johnson was formerly Myrtle Taylor of this place.

Mrs. Augusta Bartholomew returned to Ord on the Friday morning bus, having been down to attend the meeting of the Rebekah lodge Thursday night.

Ben Nelson returned Thursday from Lincoln and Omaha where he had been on business.

Wayne Cook is employed in the cheese factory, taking the place of Merlyn VanHorn who expects to go soon to the army.

Mrs. Martin Vance was a Sunday dinner guest of Mrs. B. B. Buten.

Mr. and Mrs. V. W. Robbins and Mrs. H. L. Gillespie spent Monday in Grand Island.

The Roy and Erlo Cox families returned last Tuesday from Texas where they had spent a ten day vacation. They went on into Mexico. They visited Mr. and Mrs. Will Cox at Port Isabel, Tex., and the Alfred Fishers and Jay VanHorn at Edinburg. Mr. and Mrs. Van Horn plan to go to Arkansas in the spring where their son Ross and his family are located.

Rita Stobbe of North Loup and Carl Maxson of Gentry, Ark., were married Christmas eve at 717 Webster st., N. W. Washington, D. C. Rev. Paul Maxson, brother of the groom, officiated. They were attended by Mrs. Paul Maxson and Ford Lewis. Others present were D. E. Maxson, father of the groom, and Mrs. Robert Welch. After a short wedding trip to New Jersey they will be at home in Washington, D. C. where both have civil service jobs. Mrs. Maxson is the daughter of Mr. and Mrs. Herman Stobbe of the Barker district and graduated from the North Loup schools in '40. Last year she spent some time in Iowa and this fall went to Milton, Wis., where she entered college but later went to Washington, having received her civil service job. The groom spent some time here a few years ago, being employed part of that time at the W. O. Zangger farm. The past two years he has been attending Milton college but has recently also received a civil service job and gone to Washington.

Relatives here have received notice of the wedding of Rita Stobbe and Carl Maxson.

announcement of the marriage of Miss Thelma Kessler and George Dean Miller on December 19 at Romney, W. Va. Mr. Miller is the son of Mr. and Mrs. Louie Miller, formerly of North Loup and now of Charleston, W. Va., and grew up here. He is employed in an office of a trucking company at Romney and his wife also worked for the same company.

Phyllis Jean Schultz, daughter of Mr. and Mrs. Charles Schultz, of Torrance, Calif., and Burton Lee Lamb, also of Torrance, were married Christmas day. The bride and her family are well known here, having visited the Will Schultz families a number of times.

Leighton McGinley and Arthur Watts, both of whom went to Long Beach, Calif., recently have joined the U. S. Navy, and are now located at San Diego, where they are receiving their training.

The household goods of the George Palser family were moved Sunday, an Iowa truck coming after them. They have employment at Tabor, Ia. Mrs. Palser's mother, Mrs. Timson, of Loup City, was over to help them get moved.

The annual church dinner, postponed from New Year's day, was held Sunday at the Seventh Day Baptist church with a large crowd attending. Mr. and Mrs. Cecil Severance and Mr. and Mrs. Jim Johnson were the committee in charge of the dinner with various sub-committees working with them. Mr. and Mrs. J. A. Barber cared for the children in the balcony and assisted in serving them. Mr. and Mrs. Roger Johnson had charge of the dining room and young people of the church did the serving. Fourteen dinners were sent to shut-in-members of the congregation. The annual business meeting followed the dinner and was held in the main room of the church.

Mr. and Mrs. Rafe Gibson came over from Broken Bow Sunday bringing Mrs. Lizzie Barnhart, who has been ill at their home for some time, with them. She is at the home of Mrs. Lena Taylor and is much improved.

The dance held Friday night in the new community building was well attended.

Mr. and Mrs. Ted Babcock and family went to Grand Island Saturday where they met Mrs. Sidney Wilson who is spending a few days here. The Wilsons are living in Joplin, Mo., and he is employed with a construction company working on an army camp. Their son, Dick, has joined the navy and is located in San Francisco, the last heard from him. Mrs. Wilson expects to go on to Scottsbluff Thursday.

Jeff Post of Ainsworth, Mr. and Mrs. Ed Post, Mrs. Clark Roby and daughters spent Friday evening with Mrs. Della Manchester and Howard. Mrs. Paul White and son Derwin and Bert Sayre went to Northville, Kas., Wednesday, called there by the illness of Mrs. White's father, Charles Hurley. Mr. Sayre and Derwin returned Thursday and Mrs. White remained. Word came Saturday morning that Mr. Hurley passed away. No further word has been received but Mrs. White went expecting to stay for at least two weeks.

Officers elected at the meeting of the WSCS held Wednesday afternoon at the home of Mrs. A. L. Willoughby were Mrs. Alvin Tucker, president; 1st vice, Mrs. W. O. Zangger; 2nd vice, Mrs. A. E. Barnhart; 3rd vice, Mrs. Ed Post; recording secretary, Mrs. Fred Barz; corresponding secretary, Mrs. Carl Stude; treasurer, Mrs. John Manchester; secretary of literature, Mrs. Wills; secretary of supplies, Mrs. J. M. Fisher; secretary of student activities, Birdine Ingerson.

Ice harvest was started Monday morning, Bud Beebe doing the cutting. The ice is being cut in the sand pit near the Scotia bridge and the North Loup Ice company ice house east of town will be filled first. Due to the cold weather of the past two weeks, ice is unusually thick and of good quality. Leonard Manchester and Mr.

and Mrs. Delbert Bridge have gone to Odgen, U., to see a specialist about Mr. Bridge's sinus trouble. Mr. and Mrs. John Schultz are staying at the Bridge farm while they are away.

Mr. and Mrs. Merlyn Mayo of Lincoln and Edward Johnson of Omaha and the Roy Hudson family spent Sunday with Mr. and Mrs. George E. Johnson helping Mr. Johnson celebrate his eightieth birthday. Mr. Johnson was not so well again last week and is again confined to his bed after having been able to sit up a part of the time.

The O. D. Knapp family spent Sunday with Mr. and Mrs. E. A. Knapp. Merlyn Van Horn, Lester Maxson, Marvin Ingraham and Ernest Methe went to Grand Island Thursday for their examinations for the selective service.

George Cox was home from Kearney over the week end. Mr. and Mrs. Roy Cox took him back Sunday afternoon.

Mr. and Mrs. Hugh Starr and baby of Burwell were Sunday guests in the Earl Howell home.

North Farmers High at Goodhand Alleys

Four teams, organized some time ago at the Goodhand alleys, have been bowling in a contest for the season's honors, and much interest is being shown in the way the boys are knocking over the pins.

Monday night the North Farmer team hung up a new high for the season with 2469 pins in defeating the South Farmers, who had 2342 pins. Names of bowlers and averages were: North: H. Enger, 166; Walt Jorgensen, 168; C. Hather, 165; Chris Hansen, 163; Leo Nelson, 159. South: John Koll, 172; L. Jobst, 152; E. Zikmund, 159; E. Almqvist, 150; H. Koll, 148.

Tuesday night Town No. 1 defeated Town No. 2 2299 pins to 2277. The No. 1 players were: A. Parkos, 140; J. Sedlacek, 147; J. Lathrop, 156; S. Iwanski, 182; E. Thomsen, 142. Playing for No. 2: R. Adamek, 163; M. Behrends, 160; J. Gilbert, 133; Dr. Lee Nay, 141; Ken Peterson, 161.

Tonight (Thursday) a picked team from Burwell will come to Ord to play the pick of the two farmer teams. Playing for the farmers will be John Koll, Emil Zikmund, Henry Enger, Charley Hather and Chris Hansen.

SPECIAL NOTICE

Beginning with January 1, 1942 the Quiz is strictly \$2 for a year. No extra months will be given after that date. One dollar will pay for 6 months. All papers will be stopped as soon after expiration as we can get to it, but always within ten days, so if you don't want to miss papers renew before your time is out. We are instructed to use paper to print only enough papers for our regular list and our necessary files and tear sheets, as near as we can do so. A few long time subscribers who were in arrears when we went to a strictly cash basis last March, are still somewhat behind. They have all been notified that their papers will be stopped immediately after Jan. 15, 1942 unless they are paid ahead before that time. There is not going to be a single name on the Quiz list after January 15 that is not paid in advance. We have got to know just where we are at. THE ORD QUIZ. 40-21c

Give Whole-Hearted Red Cross Support (Special to The Quiz)

The people of Garfield county have responded whole-heartedly both in money and in kind to the call for war relief funds from the American Red Cross. It is believed that when every one has made his or her contribution the county's quota will be greatly exceeded. Persons wanting to give are urged to leave their donations at the Bank of Burwell or at Ben Rose's office. It is especially desired that people intending to make a donation do so before the end of the week.

Mr. and Mrs. G. E. Michener have given the Garfield county chapter of the Red Cross a lot at Lake Ericson, which the chapter desires to sell for the benefit of the war relief fund. Mr. Michener has sold several similar lots for fifty dollars. Mrs. Leona Freeman and Mrs. Tom New have donated quilt tops. The ladies are going to quilt one of these tops. Norland's Golden Rule store is supplying the cotton bat for the back of the quilt and Leach's variety store the necessary thread.

Mrs. F. A. Downey has donated a beautiful oil painting. She has portrayed a local scene, "Winter on the Loup" on this canvas. She usually receives around \$25 for pictures such as this one. This picture has been turned over to the Campfire girls who will dispose of it for the benefit of the soldier boys. Mrs. B. A. Rose is working on an intricate hand woven rug which she has donated to the Red Cross.

L. B. Fenner leads the donors in Garfield county. He made his Red Cross check out for \$25. Both Mr. and Mrs. Fenner are life members of the Red Cross. He is especially interested in the war relief work as he served the Red Cross for two years in Europe during the first World War.

The Bank of Burwell has given \$15. Twenty-two persons and concerns in Burwell have given \$110. They are Anderson's grocery, Albert Boll, Breadthorpe Motor company, Burwell Independent Oil company, Burwell hotel, Burwell Tribune, Dewey Demaree, W. G. Hall, Johnson Hardware store, Johnson and Troxell Lumber company, F. A. Johnson, Guy Laverty, McMullen's store, Meyers and Manasil Auto company, O. A. Norland, Dorothy Paulin, H. A. Phillipps, B. A. Rose, Andy Snyder, F. F. Wagner, Wilson and Grunke-meyer and the Food Center. Shafers Brothers gave \$6 and Ed Heitz \$8.

The list of \$5 donors includes LeRoy Anderson, Richard S. Banks, William Banks, C. J. Bleach, A. I. Cram and company, Claussen's Bakery, Mrs. G. A. Butts, Domestic Science club, A. C. Duncan, Naomi Fackler, W. S. Green, Elsie Hansen, Seward Holloway, Osce Johnson, Tillie Kennedy, W. F. Manasil, Charles Mottl, Fred Mauch, Joanna Mills, H. A. Pettys, Leslie Olcott, Dr. R. W. Wood, Workers Society of the Christian church, Albert Wilson, P. E. O., New Century club, D. C. McCarthy, H. J. Coffin, Mrs. Frances DeLush-mutt, G. A. Butts, F. M. Butts, H. Grunke-meyer, A. E. Shoemaker, B. W. Wagner, Schoell Oak store and Hi Lo bridge club.

Two benefit dances have been held for the Red Cross. Mrs. E. House brought in \$4.30 which was the proceeds of a dance held in the Pleasant Valley hall and the American Legion gave \$11.65 which was the proceeds of the dance which they held in their hall Friday evening.

The members of the Hi Lo bridge club are going to bed supperless some of these nights for they have given the money which they had saved to buy this supper to the Red Cross. Every time they meet the six tributing the highest scores contribute five cents to the club's treasury while the six members with the lowest tallies put in ten cents. When a sufficient sum has accumulated they usually enjoy a dinner at the hotel. When the club met at the Frank Manasil home Thursday evening the treasury was found to be in an opulent condition and the matter of having a dinner was discussed. The members had a better plan, however, when they decided to give the money they had saved for their own personal enjoyment to help some unknown American soldier who will be wounded on the battle field.

The knitting needles of all the women in Garfield county know to be proficient in the art are clicking away at a fast rate in an all out attempt to produce the county's second quota of knitted articles by the last of the month. The yarn for twenty sweaters, twenty pairs of socks and twenty helmets, was received Saturday. These articles are badly needed by the American soldiers who are doing their bit for their country on the frigid ice-bound outposts of the North Atlantic patrol. Burwell women have been most impatient for the yarn to arrive which was ordered more than a month ago. The Red Cross headquarters cut down the amount which the chapter offered to do saying that the county has produced more than its necessary quota of knitted articles. If any woman looked she is urged to see Mrs. Effigene Hallock or Miss Alaire Pulliam who have charge of the project. If they will call Miss Pulliam, number 95 on the bell

phone or 133 on the Farmers phone, she will see to it that they are supplied with yarn. The local chapter is supplying and paying for the wool used in making these articles. Mrs. Hallock will aid any knitters who have difficulty in following the instructions.

A school of home nursing, sponsored by the Red Cross, will commence in Burwell about Feb. 1. Mrs. Roy S. Cram, R. N., has been approved by the national headquarters as an instructor. The text books which will be used in the course arrived last week. Mrs. Elsie Hansen, home nursing chairman, has charge of the arrangements. There is no charge for the course which consists of twenty-four lessons, except that each woman enrolled, must buy the approved text book which costs 75c. Women desiring to take the course are asked to register with Mrs. Hansen by Jan. 21. The classes will be taught in the old high school building. After the completion of the work the enrollees will receive a certificate. The purpose of the course is not to train women so that they can hire out their services as professional nurses but to aid them in caring for members of their own families who might become ill or to enable them to offer an effective, helping hand to their afflicted neighbors.

BURWELL

J. L. Pearl of Los Angeles arrived in Burwell Tuesday where he will make an extended visit with his parents, Mr. and Mrs. Arthur Pearl. Jess fractured a leg Christmas day and he will be a guest of his parents during his convalescence.

Mrs. J. T. Kinnish of Anselmo submitted to an appendectomy in Dr. Cram's hospital Saturday. William Eberle was severely injured Monday when a wagon which he was repairing fell upon him and injured his back. He was brought to Dr. Cram for treatment. His injuries are such that it is difficult to x-ray them. Dr. Cram fears that he has several crushed vertebrae. Mr. Eberle plans to enter the University hospital in Omaha soon.

Dr. Cram reports that Joe Homolka, who suffered a paralytic stroke a week ago is considerably improved.

Dr. Cram reports considerable increase in the population last week. Three babies were born Thursday. Mr. and Mrs. R. B. Walford are the parents of a son who was born in their home. In the hospital a daughter was born to Mr. and Mrs. August Carzens of Amelia and a son to Mr. and Mrs. Hubert Bowley of Taylor.

Dr. and Mrs. E. J. Smith and Mr. and Mrs. Ralph Sperling drove to Kearney Monday where they attended the meeting of the Central Nebraska Sugar Beet Growers association. Mrs. A. C. Duncan also accompanied them. Ira Mattley sustained a badly fractured shoulder and strained ligaments Tuesday when he fell off a barrel on which he was standing. He was brought to Dr. Smith for reduction of the fracture.

Ord High Beats Burwell, Sargent, in Week's Games

Ord high continues in the undefeated list of Class B teams by virtue of defeats administered to Burwell and Sargent in the past week, and the squad is beginning to hope for an undefeated season. However, there is nothing definite yet, as several strong teams remain on the Ord schedule.

By virtue of a single basket scored by O. Hurlbert in an extra period, Ord defeated Burwell at Ord Friday evening by a score of 34 to 32. Ord led all the way, 14 to 13 at the quarter, 20 to 14 at the half, and 31 to 24 going into the last quarter. Partridge of Burwell threw the game into a 32-32 tie with but 15 seconds of play remaining in the fourth quarter.

Partridge was outstanding for Burwell with 7 baskets and 2 gift throws, and Cochran, running guard for Ord, led the attack with 8 baskets and one free throw. The Ord reserves took the preliminary game by a score of 41 to 9, with L. Hurlbert making 10 points. Satterfield 12 points and Randolph 10 points. Traveled to Sargent, the first team winning 23 to 16, and the reserves losing 26 to 22. The scoring by the first team was quite evenly divided, six men breaking into the scoring column. Brown was a standout for Sargent, making 8 points. McIntosh of Ansley refereed both games.

The Ord reserves started out fine, and were 9 points ahead at the half with the score 15 to 6. In the last half the Ord passing attack, which was very effective at first, seemed to fizzle out, and Sargent picked up 20 points to Ord's 5 to win the game. Friday evening the first and junior high teams go to Loup City.

Fire Marshal, Carter In

Raymond L. Crosson, former Hastings city clerk and Adams county sheriff, resigned Monday as state fire chief and will head the force of 250 police who will guard the bomb loading plant at Wahoo during its construction.

He will be succeeded by A. E. Carter, a deputy marshal since last August. As major of the 3rd battalion, 5th Nebraska Infantry in the Mexican Border service in 1916, and later as a major in the World War, Mr. Crosson will be well remembered by many Ord men.

—Attorneys E. S. Schierbein of Wahoo and O. B. Clark of Lincoln were in Ord on legal business Friday, and while here called upon E. L. Vogelanz, who is an old friend of Mr. Schierbein. The latter, who is active in the Nebraska Association of Fair Managers, also called upon R. Clare Clement, president of the Valley County Fair association.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

'Biggest Budget in World's History' For Expanding of U. S. War Program Will Cost Nation 56 Billion Dollars; Russians Continue to Push Back Nazis

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

SOMEWHERE IN CHINA—Veteran Chinese soldiers of this type, pictured at a railway station "Somewhere in China," are advancing toward Malaya to aid the hard-pressed forces of the British against the Japs. It was reported that veterans of this type took part in the slaughter of Jap troops in the Changsha, China, sector.

TAXES: Billions on Billions

Americans who had been given grim satisfaction by the President's stirring message to congress faced with what courage they could muster the huge bill that will have to be paid, 56 billions of dollars. Congress, to a man, had told the President "we will give you the money." OPM had said, "We can and will do it," and labor said, "we will not stop working."

On the basis of 130,000,000 people, the expenditure in taxes for the federal war program, added to what-over local and state taxes might be levied, would be \$204 for each person, man, woman or child; \$813 for a family of four. That of course was an average, with those better able to pay shouldering the larger portion of the burden.

The "overall" war expenditure estimate was thus brought to 131 billions, or three times the total cost to this country of World War No. 1.

Mr. Roosevelt frankly had told newsmen it was the biggest budget in the history of the world. Government authorities said it was twice the estimated annual war expenditure of Germany.

On top of the taxes, it would be necessary to borrow 32 billions. The national debt, therefore, would skyrocket to \$110,000,000,000, or about three times the huge figure of June, 1940.

The nine extra billions, the President said, would be divided into seven billions in direct taxes of various types, though he said he opposed a general sales tax. The other two billions would be in the form of new social security taxes.

Existing taxes of all descriptions would be continued, and they have been estimated as due to produce 18 billions.

The war allocations had been split as follows: 18 1/2 billions for the army; 17 billions for supplement but unspecified items; seven billions to the navy; 7 1/2 billions for the lease-lend program; 1 1/2 billions for the maritime commission's merchant ship program, the rest for miscellaneous purposes.

Perhaps a billion can be lopped off of non-defense government activities, the President said—that is all.

REACTION: Local and World

Britain was exultant over the program, believed it adequate for the swiftest possible victory, and praised the administration to the skies for the stand it was taking, and the X-Y-Z or all-out plan to win the war.

One London headline had been typical—"The Yanks Are Coming," which was the British answer to President Roosevelt's promise to send to the British Isles a large A.E.F.

Australian premier, John Curtin, said the President's plan was one for "working and fighting."

Italy called the plan "sensational and spectacular" and was not to be believed. Nevertheless, the Italian censors did not permit the newspapers to publish the figures—185,000 planes, 120,000 tanks in 1943.

Germany also were not allowed to discover what the American production plans were, and the Reich sources were belittling, calling the program a "warm-over" of previous utterances by the President.

Italians went further and said that these armaments were all in the future, a future that would come too late.

JAPAN: Still Pressing

Reports from the Far Eastern fronts, with the exception of China, were uniformly continuing stories of increased Japanese pressure in occupied zones, and uniform efforts to extend Japanese operations.

The British had doggedly been holding on in Malaya, but steadily and slowly falling back toward Singapore. The Japs apparently had complete mastery of the air in Luzon, and it was deemed only a question of time how long General MacArthur's army could hold out.

Where the main defense was coming was obscure and remained a military secret, but there were certain indications which were said to be giving Tokyo plenty to worry about.

For instance, the naming of Waewell as supreme commander, and the placing of a well-trained Chinese army in Burma, together with other Allied forces, readying themselves for an onslaught on the Japanese rear at Malaya was one of these.

Another was the American and Australian insistence that strongest possible aid be given to the Dutch. On top of this came the word that Java would be chosen as general headquarters of the Allied operations.

A glance at the Southwest Pacific maps showed the position of Java and Sumatra and their relation to the Malacca straits and the open ocean route to the south to Darwin, Australia, and plainly indicated the general tactic that was most likely to be pursued.

Japan, to break supply lines along this route, would have to move a considerable naval force out of the China sea and into the open South Pacific and that could only be done with grievous results to the land campaign.

REDS:

Increasing Pace

News from Russia had been uniformly good, with 572 towns reported captured in one week, 10,000 enemy troops slain, and huge quantities of booty taken.

Hitler went to the front, made his headquarters at Smolensk, and suddenly found he was only 45 miles from where the chief fighting was. He was believed to have moved his headquarters hurriedly farther to the rear.

The Crimean debacle was equaling the disaster befalling the German arms in the north around Leningrad. Turkey had temperatures far below zero, coldest in Turkish history, and that was an indication of what the ill-prepared Germans and their Italian and Rumanian allies had to stand in the Crimea, ordinarily the warmest part of Russia.

The Germans were resisting most strongly on the central front. In the north the Russians had even recaptured Hogland Island, which had been taken by the Finns, and it was evident that the Finlanders, reportedly deserted by their Nazi comrades, were rapidly getting into the safest possible places, and losing one dangerous spot after another.

In addition to the successes for the Reds on the Crimean peninsula, which were rapidly raising the siege of Sevastopol, the Russians were gaining in the Donets basin.

AFRICA:

British Winning

British sources reported they had evidence that General Rommel had virtually given up hope of eventual retreat from Libya, and had resolved on a pitch battle in the most favorable ground he could find.

This was a plateau on which there was considerably more clay foundation than desert sand, which would aid the German mechanized forces and afford better than average landing spots for planes.

Cause for Study

Senator Walter F. George of Georgia, chairman of the Senate Finance committee, is pictured looking over the 1,172 pages of the 1943 fiscal year budget. His chief interest in the budget would be a study of it with a view of planning new tax measures. The war budget calls for \$56,000,000,000.

FARMER: Has Prospects

President Roosevelt was seen by senate leaders as opposed to the proposal of the farm bloc to have secretary of agriculture given the authority to exercise veto power on wartime controls of farm prices.

Secretary Wickard is getting support for the post of farm price czar from both parties. The dispute, of course, is between him and Leon Henderson, the price administrator.

Under the present bill, Brown pointed out, \$1.40 wheat would be a possibility. The average market price on December 15 was \$1.02.

Cotton similarly could be purchased for 16.2 cents a pound, and could go to 19.65 cents before the law would take over control.

Beef, however, had currently been selling higher than it would under the bill, he added.

Also getting considerable support was a Senator Taft proposal that neither Wickard nor Henderson be given farm price control, but that it be vested in a board of five members. This Taft proposal might form the test of sentiment on the other two proposals.

CHINA:

Changsha Victory

The Chinese victory over the Japs at Changsha was termed by Chiang Kai-shek as a possible turning point of the war. It was the third successive setback for the Japanese at this city, and the most disastrous.

Some Chinese newspapers were urging that the Chinese armies now strike into Thailand and Indo-China direct to menace the Jap rear and relieve the pressure on Malaya.

The Chinese said that in addition to the 30,000 Japs killed in the battle, they got 7,000 more as the fleeing Nipponese attempted to cross a nearby river, with Chinese lying ambushed on the far bank.

A Jap force of 40,000 was said to be trapped in one locality. The total estimated Japanese strength of the drive on Changsha was 100,000 men. Few of them, according to Chungking, were able to get away to the north.

ZEPPELINS:

Raid the East?

Army authorities in Washington, said it definitely "was in the cards" that Germany might try to get their two huge dirigibles into the air for token raids on the east coast of the United States.

It was revealed after the last war that the big transatlantic Zeppelin of those days was being groomed for just such a trip, but which never came off.

The sister ship of the Von Hindenburg, which was destroyed by flames in New Jersey was said to be still in existence, together with another Zeppelin of the LZ type, capable of flying the Atlantic.

Each of them, army men said, could be loaded with 10 bombing planes, could drop them to take-offs within easy flying distance of east-coast cities.

Or, they pointed out, it would be possible for the airships themselves to be loaded with an enormous quantity of bombs and to make a "suicide" flight over one or more eastern cities, dropping their deadly cargoes before planes could shoot them down.

MISCELLANY:

London: Terrific raids on occupied countries in Europe were believed the definite forerunner of an invasion attempt on Europe by the Allies, it was said in informed quarters. The invasion is set for springtime.

Ottawa: Canada's production for war will be nearly doubled, in line with the President's plans for the United States.

Burwell News

Written by Rex Wagner

The green light to go ahead with preparations for the 1942 presentation of Nebraska's Big Rodeo was given at the annual convention of the American Rodeo association in Colorado Springs last week. F. W. Manasil, president of the Garfield County Frontier Fair association and K. M. Parsons, the arena director of Nebraska's Big Rodeo, returned to Burwell Sunday evening after attending the convention. Mr. Manasil was reelected vice-president of the American Rodeo association and a director representing three states. Mr. Manasil said that the government has encouraged the various rodeos to go ahead with their shows with the exception of the ones in California where the government does not want crowds larger than five thousand people to be assembled. "The government realizes," he said, "the necessity of recreation and relaxation for people even in times of war." He pointed out that the Calgary Stampede has been held every fourth of July even though Canada has been at war for three years. Calgarians present at the convention said that their show had been most successful in spite of the war. The government announced that the cowboys will be allotted tires so that they can attend the rodeos, and the rodeo associations have volunteered the use of their grounds and buildings if the government has any need of them for military purposes.

Mr. and Mrs. R. B. Grunke-meyer spent Monday in Grand Island.

Mr. and Mrs. Wayne Banks entertained Mr. and Mrs. D. C. McCarthy to a dinner in their home Saturday evening.

Mrs. Fred Dawe returned from Omaha Friday following her recovery from an operation. She was a patient in the Clarkson hospital. Her son, George, and her daughter, Goldie, drove to Omaha Thursday to bring her home.

Harry Norland and Ralph Brownell of Broken Bow were in Burwell Thursday and Friday where they visited friends and

relatives and took care of business matters. Ole Norland, who accompanied them, remained for a longer visit with his son, O. A. Norland and family.

The third time was charmed for Raymond Blake, son of Will Blake, who was accepted at the naval recruiting station at Omaha Tuesday after having been previously rejected twice. Raymond, who is nineteen years old, was a senior in the Burwell high school. He has been sent to the Great Lakes Naval training school.

A. I. Cram was elected clerk of the Congregational church for the thirtieth consecutive year at the annual church meeting Thursday night. Mr. Cram first accepted office in 1912. Even when he lived on a ranch in Loup county twenty-five miles northwest of Burwell for three years, Mr. Cram still performed the duties of this office. A covered dish supper preceded the annual meeting.

Osce Johnson was reelected church treasurer and Dr. Cram, Mrs. S. J. Garrison and L. H. Johnson were named trustees. W. D. Beat was chosen superintendent of the Sunday school and Mrs. Arthur Langstrom, assistant superintendent. Miss Esther Capek was selected for Sunday school treasurer and Miss Gwen Beynon secretary.

A double-decked carload of fat hogs, most of which were the products of his own farm near Elyria, were shipped to the Los Angeles market Sunday by Ira Meyer. Mr. Meyer bought enough porkers to finish out his load at the Burwell Livestock Market Friday. This is his second experience in marketing hogs in Los Angeles. Last year

he shipped a load to the west coast which made him a profit large enough to encourage him to try the same thing again.

Mr. and Mrs. F. A. Johnson drove to Taylor Sunday where they were dinner guests in the F. A. Johnson home.

Mr. and Mrs. Penas left for Schuyler immediately upon receiving word of his death. Funeral services were conducted there Thursday morning. Mr. Casteck was a wealthy retired farmer and extensive Colfax county land owner. He is a widower with no children and leaves no survivors except three sisters. He was seventy years old.

From now on members of the Domestic Science club are going to be remembered at every meeting of the necessity of participation in war work. At each meeting in alphabetical order one member will be asked to give a five minute defense talk. The last meeting Jan. 7, was held at the beautiful new home of Mrs. Andy Snyder with her daughter, Mrs. Paul Banks, hostess. Impressed especially with the shining ultra-modern kitchen, many of the ladies were designating it a "dream kitchen." Because of Mrs. Phillip Beckwith's illness, Mrs. C. W. Hughes substituted as lesson leader, reading one of the fourteen narratives in "We Escape" an International Mind Alcov book. Mrs. Beckwith had planned to read "The White Cliff of Dover". Roll call was interesting bits about recently read books. The next meeting will be held with Mrs. Henry McMullen. Mrs. O. D. Marquardt will discuss "Food and Fun", with a food exchange for roll call.

The Misses Marie, Wilma and Amelia Mathausser drove to Grand Island Tuesday where today they are taking civil service examinations.

Mr. and Mrs. R. E. Leach returned from St. Paul, Minn., Friday where they had gone to attend market week.

Know These Persons?

Last week we had a well known soldier of the first World War and his buddy staging a fake holdup, but nobody outside the family guessed who they were. One lady phoned Thursday and guessed the tall fellow was Hitler and the short one was Mussolini. As the tall guy was holding up the little fellow, her interpretation was natural, but the tall man, Pat Pardue, might not appreciate the compliment. The little fellow is Art Paulsen, Plainview, Nebr. The action occurred somewhere in France. Rex Jewett guessed his uncle Thursday, and Mrs. Edith Jones, who brought in the picture, also guessed it, but she should, of course. Can you guess the old timers above of 60 years ago? Two of them still live here.

IT HAPPENED IN ORD.

This one really didn't happen in Ord, but it could have. A lady of Sparta, Wis., has a tame fox which likes butter, but which cannot be made to touch oleomargarine. You just can't fool a fox. Hearing about the fox another lady of Sparta tried the experiment on a pig, only to find the pig would eat butter readily enough, but had no use for the imitation. The ladies' names and full particulars are

Russia's Attitude Toward Japan Has Strong Influence on War's Trend . . . Navy Long Expected to Fight Japs.

(Bell Syndicate-WNU Service.)

WASHINGTON.—If there were a unified high command over the forces of the democracy right now there is little doubt that would be the first step. Russian bombers would be rushed to attack Japan, where they would seek out her oil stores—all above ground since the 1923 earthquake—her munition plants, her harbors and, later on, her warships, transports, supply ships and tankers.

This would be done because Russia has enough air power in eastern Siberia, in the opinion of military experts here, to crush Japan. This would stop the Nipponese in their tracks not only in Malaya, the Philippines and the Netherlands Indies, but also in China.

The Russians still have that great air force in the Far East for the simple reason that, badly as they have needed it, especially in the early stages of the German invasion of European Russia, the Soviet did not trust Japan. They feared an attack in the back despite their fairly recent treaty of amity with the little brown brothers, for the little brown brothers have no more regard for the sanctity of treaties than Adolf Hitler has.

No one, of course, knew just where Japan was going to strike. For Japan is known, and has been known for years, to aspire to domination of Asia, all the way to Suez, and of all the Pacific islands, including Australia. In fact the Japanese have rather flaunted their aspirations. They have not concealed their desire to take over control of territory which now is vested in the Soviet, China, Britain, France, the United States, Holland, and various independent or partially independent states.

Moreover, despite Japan's all-out attack on the British and the United States forces and holdings in the Far East, she did not withdraw her large armies from the Siberian border. On the contrary she kept them poised there, ready for an instant blow the moment Russia was so hard pressed in the West that she would be compelled to weaken her forces in the Far East.

Russia and Britain Play Same Game

Russia, however, played the game which the British played in September, 1940, and thereby probably prevented a complete German victory at that time. Britain took it in bombing, but never risked ALL of her air force at one time. So Goering never achieved the complete knockout of the British air force, which would have made the island of Britain another Flanders.

Russia similarly took the pounding in the West, which seemed to the world to be threatening Leningrad, Moscow and Sevastopol, but never risked eastern Siberia!

When the hour arrived for the Japanese attack, the Japs thought Hitler had won complete victory in European Russia. They had been told that Moscow would fall in a few days. That is what the rest of the world expected up to a short time before the news of the Jap attack on Pearl Harbor, the Philippines, and Hong Kong. It is what everyone, including the Japanese, thought when the attacking forces left Japan.

But the attack did not include Siberia! Why? Because the Japanese knew through their own intelligence service that Russians had NOT weakened their forces in eastern Siberia. They knew an attack on Siberia would mean an air attack by the Russians on Japan. And they knew they could not take it.

Stalin knows it too. He couldn't help but know it. So it will be interesting to watch developments.

Navy Long Expected War With Japs

Ever since 1904, or since the Russo-Japanese war, most of our own naval officers, and officers of the British navy as well, have figured that sooner or later the United States and Japan would have a war. Since the Washington arms conference, in the winter of 1921-1922, our own and the British naval officers have been unanimous in their conviction that sooner or later this war between Nippon and Uncle Sam would come.

The writer was at Pearl Harbor in 1925, and was attacked, along with correspondents of the New York Times and the Chicago Tribune, for not informing the American public about the spying which the Japanese had done on our naval maneuvers, just then completed. The attack was made by Admiral Cointz, referee in the war game, in the presence of some 20 junior officers!

Anniversary of 1888 a Perfect Winter Day

Jan. 12, Monday, was the 54th anniversary of the blizzard of 1888, and our old friend, W. A. Anderson, called up and reminded us of the fact. Mr. Anderson was a young fellow of 32 at that time, and he still recalls the eventful day most vividly.

That day in 1888 was fine in the morning, they tell us, but it was no finer than Monday was. However, before nightfall the most celebrated storm in Nebraska history was upon us, and many lost either life or limb before it was over.

Mr. Anderson suggested that we might list those who were here at the time of the storm, but a survey of the square alone shows that there were more here then than we could list in a reasonable space. Most of them were young then, but they were here, and most of them remember something about it.

The "Blizzard of 1888 Club" held its annual meeting Monday evening at Hotel Lindell, Lincoln, at a 6:30 dinner. Reports and one minute speeches made up the program. Frank Pilger of Lincoln is the secretary of this group and he is located in the Lincoln Liberty Life building.

Walter Brand Injured When Boiler Explodes

From the Morning Spotlight of Hastings the Quiz learns of the serious injury Thursday afternoon of a former Ord man, Walter A. Brand, when the boiler used to heat the Davidson greenhouse there exploded. Mr. Brand was lighting a gas pilot light when the explosion occurred.

The force of the explosion blew out both ends of the boiler and blew a hole through the roof. Brand was taken to Mary Lanning Memorial hospital, where he is recovering from severe burns on his arms, face and scalp, and an arm laceration. The Brands formerly ran a greenhouse in south Ord, and left there about a year ago.

HOME GROWN Meats

Nearly all the meat we sell is strictly "home grown." We go to our good local feeders and from them buy corn-fed steers and heifers, young, tender hogs. We butcher the animals in our sanitary plant, do the processing in our own market, and thus bring you meat that is "home grown" from start to finish.

We believe we can please you; we know we'd like to try.

DREW PEARSON

AN INSIDE STORY

Washington, D. C.

Here is the inside story on what happened in all the fuss and furor over the Free French seizure of the two tiny North Atlantic islands of St. Pierre-Miquelon.

The story illustrates a very important point: That U. S.-British foreign policy has got to pull closer together in the future, and that state department officials might have thought twice about slapping British policy in the face—especially at a time when Winston Churchill was sitting in the White House working on plans for closer Anglo-American co-ordination.

The crux of the situation was that the radio stations on these two French islands long have been suspected of giving information to Vichy—and then to Berlin—on British convoys crossing the North Atlantic also on Britain-bound bombers hopping off from Newfoundland.

French fishing vessels from St. Pierre-Miquelon cruise all over the Newfoundland banks and are in an excellent position to observe Allied activity in this vital part of the Atlantic. More recently, Nazi submarines have been prowling closer to U. S. shores and it was suspected they might be getting information—or even supplies—from the fishing vessels.

So the British gave the nod to General DeGaulle to move into the islands. In fact they even let his associate, Vice Admiral Muselier, take three French corvettes to do the job. There was no great secret about it, for Admiral Muselier stopped in Canada to talk to Canadian Naval Minister Angus MacDonald, and also picked up some American newspaper men to witness the taking over of the two islands.

'SO-CALLED' FREE FRENCH
However, on the morning Admiral Muselier placed the Free French flag on St. Pierre-Miquelon, Secretary Hull, getting the news at his breakfast table, hurried to the state department and OK'd a scathing statement, castigating the "so-called" Free French.

This upset the British considerably, because they had been encouraging the French people to think of the Free French not as a "so-called" government, but as a government more truly free and representative of the French people than Vichy.

Also it upset the Yugoslavs, the Dutch, the Greeks and a lot of other "so-called" governments which have been maintaining headquarters in London and have been calling themselves the real governments of their countries—even though in exile.

However, Secretary Hull seemed to be even more upset than the British. He had made a deal with Vichy's Admiral Robert in Martinique a few days before, by which Admiral Robert was to keep an eye on St. Pierre-Miquelon. And he felt this agreement should be kept. So, his Tennessee dander up, Mr. Hull cabled U. S. Ambassador Winant in London to take up the matter with the British government.

Ambassador Winant, in turn, went to Malcolm MacDonald, minister of colonies, who was upset that the United States and Britain should be working at cross-purposes, and telephoned his friend Lord Beaverbrook back in Washington to have Churchill straighten the matter out with Roosevelt.

By that time, Sam Reber, in the state department, had telephoned R. E. Barclay of the British embassy wanting to know what the British were up to, and every Anglo-American co-ordinator seemed to be in every other Anglo-American co-ordinator's hair.

What the President said to his secretary of state is their secret, but in the end Mr. Hull adopted a milder tone toward the Free French and is working out a compromise agreement with the Canadians.

The crux of the controversy, of course, is that Mr. Hull still believes in appeasing Vichy, and the British gave that up long ago.

The British say that General DeGaulle did most of the fighting for the Allied cause in Syria, while Vichy, in resisting, killed many British troops. So they are going to stick with DeGaulle.

But whichever side is right—the British or Secretary Hull—it might pay to work out some teamwork in advance.

MERRY-GO-ROUND
Lend-lease officials were puzzled by a British request for "horn and hoof meal" manufactured from dead cattle—until they learned it was excellent for extinguishing incendiary bombs.

Most staggering lend-lease request was for one railroad—complete with locomotives and freight cars. The order has been filled, and shipped off to Iran.

Before buying cloth for army raincoats, the quartermaster depot in Philadelphia tests it with a machine that creates an artificial rain storm. For military reasons details can't be revealed, but the U. S. is producing an anti-aircraft gun that is more powerful and deadly than any now in use in the army. The new weapon is designed to combat stratosphere bombers.

PERSONALS

—Stanley Lumbard was an Ord visitor Sunday, coming from Grand Island.

—Mrs. Edith Jones was ill last week and away from the New Cafe several days, but is working again this week.

—Mrs. John LaCorna left hurriedly for the west coast Wednesday upon receiving word her husband might be moved soon. He is stationed at Fort Ord, Monterey, Calif. Mrs. LaCorna left her baby daughter with her mother, Mrs. Archie Bradt, and plans to be home the last of this week.

—Mrs. Mildred Corder, who had been in Ord for some time helping take care of her father, F. C. Williams, left for her home in Los Angeles Tuesday of last week.

—Mr. and Mrs. Ed Michalek, of Scottsbluff, came Sunday evening to spend a couple of days visiting friends and relatives in Ord, and at other points in central Nebraska.

—Miss Norene Hardenbrook received word this week that she has passed her civil service examinations and is eligible for an appointment. She is now employed in the FSA office at Broken Bow, as is Miss Ethel Hower, of Ord. The two young women spend most of their week ends with home people.

—Paul and Joe Weverka were Wednesday supper and evening guests of Mr. and Mrs. Pete Welniak and daughters.

—Bob Klima writes his mother from Long Beach, Calif., that he and a boy from Valentine are now doing their own housekeeping and that Bob has gained 20 pounds on his own cooking! He assured his mother that his meals were balanced and not too many things were fried. He is only six miles from his work now, in place of 27 miles as it was when he and Vernon Malolejzky slept in the same bed. Bob had the bed part of the 24 hours, Vernon the other part of the day. Vernon is now living at the home of Mr. and Mrs. Bus Hughes.

—Mrs. Thomas Maurice went to Grand Island on the bus Saturday to consult a doctor there.

Prokop Castek Dies at Columbus Hospital

Prokop Castek, only son of Prokop and Anna Hobza Castek and only brother of Mrs. John W. Penas, Burwell, passed away Jan. 6, 1942, at St. Mary's hospital in Columbus at the age of 70 years, 6 months and 9 days. He had been in failing health for the past two years and bed-fast for the past two weeks.

He was born in Moravia, Czechoslovakia, June 27, 1871 and came to America with his parents and sisters, Anna, Mary and Frances, in June, 1874. The family settled on a farm in Colfax precinct of Colfax county where the parents resided until they retired to Schuyler in 1906. Prokop, Jr., as an only son of pioneer parents knew and endured the many hardships of pioneer life when modern machinery and modern conveniences were unknown. He was a kind, loving and dutiful son, brother and husband, always looking after the needs of his aged parents. All who contacted him will long remember his kindness and generosity to his fellow men.

Mr. Castek was united in marriage to Miss Frances Cech in Schuyler, April 8, 1912, and settled on the old home place seven miles northeast of Schuyler, where he resided until the death of his wife in 1922, and retired to Schuyler in 1925, where he spent his declining years, with the exception of the time he spent in travel.

Funeral services were conducted at the Bideaux chapel at 2 p. m., Jan. 8, with Rev. W. S. Erwin, Presbyterian pastor, officiating. Miss Bozena and George Novotny were in charge of the hymnal service. Burial was made in the Schuyler cemetery. Serving as casket bearers were Gerald Eberberger, Joseph Krejci, Richard Bohaty, Jerry Krejci, George McKenzie and Arthur Dubsky.

Mrs. Castek preceded him in death March 30, 1922, his mother Sept. 3, 1927, his father March 1, 1937 and his sister Mary, wife of J. G. Dobry, July 30, 1936 in Edmonton, Alberta, Canada. He is survived by three sisters, Mrs. Jos. Komtek, sr., and Miss Elizabeth Castek of Schuyler and Mrs. John W. Penas of Burwell; three nieces, eight nephews other relatives and a host of bosom friends. He was personally acquainted with many people in Garfield and Valley counties.

Beet Growers Want Ban Lifted on Child Labor

Monday the Central Nebraska Beet Growers association at Kearney recommended that the child labor provision of the 1937 sugar act be suspended to permit the employment of children in beet fields during the emergency.

The act designed to protect minors who were being overworked, prevents the use of children in this work, and their nimble fingers are highly important in the work of weeding and thinning the beets. The National Beet Growers association urges that the farmers proceed to plant as usual and trust the government to make some provision for labor.

Notice of Sale. Notice is hereby given that in pursuance of law of the state of Nebraska I will on the 19th day of January, 1942, at 2:00 p. m., sell at public auction the personal effects of John Orsaj, deceased, at his premises in east Ord. Terms of sale cash. Dated this 9th day of January, 1942.

John P. Misko, Coroner of Valley County.

North Loup Cheese Factory Production Large in December

Here Manager Switzer and Wayne Cook are shown at the testing table, testing samples of whole milk from the day's deliveries by route carriers.

At the big vat, working the solid curds into blocks, are Carl Walkup and Merlyn Van Horn. Wayne Cook, shown in the top photo, is a new employee and will take the place of Merlyn, who will be called to the army soon.

Here Merlyn Van Horn and Wayne Cook are seen weighing and waxing two large cheddars as Manager Switzer looks on. The cheddars are golden yellow in color and weigh about 75 pounds each, this representing about 750 pounds of whole milk. High in protein, cheese is a welcome food in England.

Moisture Above Normal During the Year 1941

(Continued from page 1)

May was also a wet month, although the rainfall was slightly below the average for the month, with 2.67 inches. The high temperature was 85, and the low was 43. June very nearly equalled April in the amount of rain, which was 3.71 inches. It was not an excessively hot month, with a high of 95 and a low of 48.

The lack of adequate rainfall in July ruined wonderful prospects for a fine corn crop. The amount of moisture for the month was 1.38 inches, with a high of 101 and a low of 51. August was really the dry month of the summer, with only .28 of an inch recorded for the month. It put the finishing touches on the corn that had to depend on rainfall. The high for the month was 102, and the low, 54.

September was wet all the way, with a record rainfall of 5 inches for the 30 days, which put the fields in fine shape for winter, but did not come in time to help the crops. The high and low were 86 and 35, respectively, thus proving that there was no real frost.

The rainfall for October was about the usual amount for that month, and was recorded at 1.78 inches. Added to September, it kept the fields well soaked. The high was 76, and the low was 24. November struck a real low for the year, with only .14 of an inch of moisture recorded. The high reading for the month was 71 and the low was 5 above.

With the exception of the last week, December was a very pleasant month. Snow came on Christmas day, and general cold weather followed. The high was 60, and the low was a minus 3 degrees. The amount of moisture recorded was .92 of an inch. This made the total recorded rainfall for the year 23.19 inches, slightly above the general average. The mean high temperature for the year was 76 degrees, the mean low was 24 degrees, and this makes the mean year round temperature just 50 degrees.

—More than 70 reported for First Aid class at the high school Monday evening when Dr. John Round gave the first lecture of a series. Miss Eunice Chase was appointed chairman of the group.

Supervisors Elect Ball As Chairman, Argue Newspapers

(Continued from page 1)

Peter Clement, new publisher of the North Loup Loyalist, and S. B. Warden, publisher of the Arcadian, as well as E. C. Leggett of the Quiz, attended the meeting. Asked by County Attorney Misko what his circulation is, Mr. Clement said the Loyalist circulation is "over 300." Mr. Warden gave a similar answer in regard to the Arcadian. Mr. Leggett said the Quiz circulation is 2,859.

Statutes require that to be eligible for designation as official newspaper a publication must have over 300 paid subscribers and be "of general circulation" over the county.

Supervisor Hansen's motion finally was tabled and the entire matter was laid over until today. Should the board pass this motion the Arcadian will be official county newspaper in 1942, an unusual situation in that it is published in the far southwest corner of the county and has a purely local circulation. County board proceedings, county notices and other official publications thus would come to the attention only of people in the Arcadia community.

Ford Tractor Ferguson System

We are getting 21 new Ford tractors the last 2 weeks of this month. It is our good fortune to have ordered these tractors last October and the reason for our getting so many all at once.

We have recently renovated our place at North Loup, having put in a complete parts department which I am sure will please all of you Ford owners.

These tractors we are getting won't last over 10 days so you had better get your buying clothes on and buy the biggest tractor buy of the season before it's too late. Yes, the fanciest thing on wheels for much less than any comparable horse power.

North Loup—(Special)—Cheese making has been an important and profitable industry here for many years but it has taken a new impetus with the lease-lend program under which cheese is exported to Great Britain, says Clarence Switzer, manager of the North Loup Cooperative Cheese company's factory.

December production at the plant was larger even than mid-summer production, the manager says. This is partly because of the increased price for whole milk, made possible by the increased demand and higher prices being paid for cheese, and is partly due to new customers.

Stockholders in the company were paid an 8% dividend for 1941, the first paid since 1939, and early in the present year directors hope to be able to pay another dividend.

The factory is served by seven routes covering a radius of 35 miles in all directions from North Loup.

Most of the output at present is cheddar cheese for export but the factory also sells cheese to state institutions at the rate of ten thousand pounds every three months.

Mr. Switzer has been with the company a comparatively short time, coming early last summer from York after the death in an auto accident of A. C. Hutchins, who had been manager since the factory was built.

Mr. Switzer was born and reared in Grand Island and has been in the creamery business 25 years, his cheese experience being obtained at Green Bay, Wis., where he was employed ten years by Fairmont, and five years by the Golden Rod creamery at Fremont. He also managed the Norfolk creamery four years.

Recently the factory purchased for its reserve fund four \$500 federal reserve bonds.

No Known Relatives of Man Found Frozen

John Orsaj, whose frozen body was found in his home in east Ord last Wednesday, had no relatives, so far as can be learned by authorities. Rev. Clifford Snyder conducted funeral services at the Hastings-Zikmund chapel at 1 p. m. Friday, and the body was interred in Ord cemetery.

From friends it is learned that Mr. Orsaj was born May 22, 1871 in Czechoslovakia and was married there in 1897 to Anna Venglar. One child was born to them but it died at the age of 5. Mrs. Orsaj died soon after. In 1907 Mr. Orsaj came to the United States and for two years farmed in Texas. He corresponded with friends from Valley county who told him about the Bohemian settlement here and in 1909 he came to Ord, working as a farm laborer in this vicinity until 1931 when, his health having failed, he moved to Ord.

There are no known relatives unless there are some in Bohemia. Pallbearers at the service Friday were Vincent Vodehnal, Joe Penas, Joe Samla, L. L. Gross, Rudolph Kerchal and Matt Klimka.

Chas. J. Cerny Died Jan. 3rd in Omaha

Funeral services were held January 6 at the Brewer-Koriss funeral home in Omaha for Charles J. Cerny, farmer of this community who died at Nicholas Senn hospital there three days previously after a long period of all health. Burial was in the Bohemian cemetery in Omaha.

Mr. Cerny was born Sept. 28, 1890 in Omaha and was 51 years old at the time of his death. In the dry goods business in that city for many years, he came here in 1927 and located on a farm nine miles north of Elyria which was his home until his last illness.

He is mourned by his wife, Mrs. Mary Cerny; by one sister, Mrs. Mary Horak, of Omaha; and by a brother, Joe Cerny, of Ericson. His only child, Freddie, died in 1931 at the age of six.

BABY CHICKS.

The most of the large hatcheries have raised the price of their chicks \$1.00 per hundred the past week and many prophesy that we will see higher prices for chicks later and that they will be very hard to get unless orders are placed early. \$1.00 per hundred books your order and protects you against an advance in price later.

STARTING MASH.

We have contracted for our Starting Mash and you will find it reasonable in price and it is top grade in quality. Buy and feed our Starting Mash.

LAYING MASH.

The past month has been hard on laying flocks; yet we have reports on several flocks fed on our Laying Mash that have kept their production up to from 50% to 60%. We feel that is a fine record when you consider the weather.

HYBRID CORN.

We have been able within the last two weeks to secure another 50 bu. of Pfisters 360 in a very small flat kernel. At this time we have a few bushels of this unsold. We also have a limited amount of Pfisters 366 in the thick flat; a small quantity of Nebr. 463 in flat; and about 250 bu. of Iowa 939. If you have not placed your order for Hybrid Corn, be sure to come in and talk over hybrid corn with us.

GARDEN SEED.

We have part of our garden seed in at this time and expect the rest of it in the next week. Quite a number of varieties are much higher than in the past. And some varieties will be very hard to get later in the season. Plant a large garden this year and buy your seed early.

FIELD SEED.

Why not anticipate your requirements for the coming season now and book your order for later delivery. 15% of purchase price will hold seed and guarantee you the price. Brome Grass and Crested Wheat should be planted very early.

Soil Conservation District Sought for Valley County

Farmers Petition State Committee to Establish District; Hearing Next Month.

Petitions signed by a large number of land owners have been filed with the state Soil Conservation committee at Lincoln, requesting the establishment of a soil conservation district in Valley county. If the state committee acts favorably on the petitions a public hearing will be called on the matter sometime next month.

The purpose of organizing a district is to secure the services of government-employed experts to assist farmers with the planning of their farms for soil and moisture conservation practices, such as contouring, terracing, gulch control and the construction of dams.

The services of these men is free to farmers in organized soil conservation districts, and the district cannot levy any taxes or assessments or in any way obligate the landowners or tax payers of the district.

There has been a remarkable growth in the number of districts in Nebraska in the past year. A year ago there were ten organized districts, today there are 33 such districts and many thousands of acres have been added to the districts previously established.

The AAA committee reports that the 1942 AAA program will offer approximately \$125,000.00 in soil building payments for Valley county farmers. These payments must be earned by cooperating farmers, or they will not be paid. On most farms they cannot be earned unless some soil and moisture conservation practices such as contouring, terracing or strip cropping are adopted. Most of these practices require planning by men who are trained at the job if good results are to be secured. The soil conservation district enables farmers to get this trained help.

In the event that a district is established farmers are not required to use the service. It is up to them to decide for themselves whether or not they want to do any conservation work.

Irrigators can secure their help from the district with engineering problems of water distribution, land leveling and drainage.

Farmers who have been active in promoting a soil conservation district and getting signers on the petitions include George Clement, Enterprise; E. O. Schudel, Independent; J. J. Skala, Davis Creek; Floyd Hutchins, North Loup; Ray Lutz, Yale; Emil Kokes, Vinton; E. E. Vodehnal and Charles Veleba, Michigan; Joe Rousek, Eureka, and Anton Weiniak, Elyria. These men have been donating their time and travel expense because they believe that a soil conservation district is needed in Valley county, and will be of great benefit to the farms and farmers of the county.

Food Center Converted to Jack-and-Jill Store

Conversion of the Food Center Store to a Jack-and-Jill super-market is well under way this week, with Alvin Gross, of Hastings, supervising the many changes. The store is being completely remodeled and repainted, new fruit and meat departments are being installed and the store will present a distinctly different appearance when changes are completed this week end.

The Food Center chain is owned by Cushing Bros., of Hastings, and they also own the Jack-and-Jill stores, so no ownership change is involved. Jack-and-Jill stores are the self-service super-markets of the organization, and henceforth the Ord store's business will be done strictly on a cash-and-carry basis. Other Jack-and-Jill stores are conducted at Hastings, Loup City and Sutton.

Carl Kotrc continues as manager of the store and the personnel otherwise will remain the same also.

Rotarians Give Plaque to Camp Ord Soldiers

To soldiers stationed at Camp Ord, near Monterey, Calif., the Rotary club of Ord will soon send a plaque, suitably engraved and conveying the compliments of Ord and its citizens to Camp Ord and its soldiers. Committee in charge of designing and mailing the plaque is Clarence M. Davis, C. O. Thompson and E. C. Leggett.

Both the city of Ord and Camp Ord were named after the same soldier, Gen. E. O. C. Ord, once Commander of the Department of the Platte.

Roosevelt Asked to Ban Sale of Liquor

At the Sunday service held in the Mira Valley Evangelical church a resolution was passed in co-ordination with other Nebraska Evangelical churches asking President Roosevelt to prohibit the sale of alcoholic beverages to the army camps.

The resolution was adopted at the WCTU convention held in Lincoln last week and the text of it is: "You have our support 100 per cent in all our production for victory but we urge and expect the all out to apply to non-essentials especially the habit forming narcotic alcohol, either beer, whiskey or wine. France found to its regret that it could not drink itself to victory, while Germany, greatest beer drinking country in the world, insisted on prohibition of alcoholic beverages for its armed forces. We respectfully urge and plead that by one stroke of your mighty pen you eliminate the scourge on the defenders of our country wherever they be. Woodrow Wilson by proclamation decreed prohibition. Our great commanding general, John J. Pershing, supported this proclamation."

The purpose of organizing a district is to secure the services of government-employed experts to assist farmers with the planning of their farms for soil and moisture conservation practices, such as contouring, terracing, gulch control and the construction of dams.

Quiz Designated Official Paper by 3 to 2 Vote

Jablonski and Suchanek Pass on Roll Call; Summary Only to Be Printed.

By a vote of 3 to 2, with Supervisors Joseph J. Jablonski and Joseph Suchanek not voting, the Valley county board of supervisors Thursday designated the Ord Quiz as official newspaper for Valley county for the year 1942. Supervisors Zikmund, Johnson and Ball voted "yes" to the motion and supervisors Barber and Hansen voted "no."

Passage of this motion means that the delinquent tax list, treasurer's statements, road notices budget notices and other official publications will be published in the Quiz and thus will come to the attention of a vast majority of county taxpayers.

Proceedings of the county board also will be published in the Quiz but only in brief form, since a second motion passed Thursday by the board directed County Clerk Klima to publish only a brief summary. Detailed information about claims approved thus will not be available to the public, except in the minute book kept by the clerk in his office.

Cost of publishing board proceedings in full throughout 1941 was only about \$285, County Clerk Klima estimated for the board's information. It would cost no more to publish them in full in the Quiz throughout 1942, but the board's decision to print only a brief summary was termed "an economic measure."

Supervisor Hansen's motion to designate The Arcadian official paper was tabled last Wednesday and when Hansen sought to bring it to a vote the next day it was ruled dead. A new motion to the same effect made by Hansen was lost for want of a second. Supervisor Barber had seconded the motion Wednesday but would not second the same motion Thursday.

Other business taken up by the board included appointment of Dr. F. A. Barta as county physician, succeeding Dr. J. M. Round; appointment of J. C. Haught as custodian; appointment of Verne Russell to the soldiers' and sailors' commission; succeeding Alfred Wiegardt; decision to pay no coyote bounties; appointment of Tracy Hamilton as highway commissioner and A. R. Brox as bookkeeper in the same department.

The board recessed until February 3.

New Car Tax Stamps Now on Sale in Ord

The new federal revenue stamps which must be bought by car owners and pasted on the windshield or instrument panel of their cars as a use tax are now on sale at the postoffice. More than 200 have been sold already, says Postmaster Hill.

The stamps cost \$2.09 and are good until July 1, when another stamp costing \$5.00 must be purchased by each car owner. The present stamps must be bought by Feb. 1 to comply with the federal law.

Reappraise School Lands. The Nebraska board of educational lands and funds will hold a hearing in Ord at the county clerk's office at 9:00 a. m., Feb. 21, for the purpose of reappraising the value of state school lands for lease purposes. All interested persons are invited to attend the hearing and give evidence.

Fire Rationing Board Allocates 4 Tires, 2 Tubes

Many Certificates Issued Too for Obsolete Models; Applications Incomplete.

Issuance of certificates for the purchase of four new tires and two new tubes for modern cars or trucks, plus a number of tires and tubes for obsolete models, is announced by the Valley county fire rationing board. This committee, which is composed of Ralph W. Norman, Dr. F. L. Blessing and Vern W. Russell met January 16.

Anton J. Nelson, mail carrier at Arcadia, got a certificate for the first modern passenger car tires and tubes sold legally in this county since the rationing plan went into effect. His certificate entitles him to purchase a tire and tube in the standard 600-16 size.

Stanley Gross, operator of a common carrier, was given permission to buy a truck tire and tube, size 34x7, and Charles John's application for two truck tires, size, 700x17, for use on a milk truck, was approved.

Certificates for tires and tubes of obsolete sizes were given to Earl Bartholomew, Joseph J. Bonne, Adolph Beranek, Joe Dlugosh, Paul White, Lars Larsen, John Lora, Ben Maly, Charles Brim, Elmer Alquist and F. O. Johnston. Sizes involved were 450x21, 475-500x20, 440-450x21, 450x20 and 550x19. When dealers' stocks of tires of these and other obsolete sizes are exhausted no more will be available, as manufacture has been stopped.

"We have had to return quite a number of applications recently because they were not completely filled out," Chairman Norman says. "Applicants should bear in mind that all questions on the application must be answered; the tire inspector must certify as to the condition of all tires and tubes on the vehicle, not just the tire to be replaced. If applicant and tire inspector will be careful to give us all the information called for, it will make our work much easier and help us to give their applications consideration at the proper time."

It is necessary for those who buy their tires from mail order houses to secure a statement from the dealer showing that the old tire or tires have been sold or turned in, says the local committee, and any applicant who plans to buy from a mail order house should therefore call this to the committee's attention at the time the application is made so he may be furnished with the necessary blanks.

Bold Thieves Steal Nelson's Milk Cow

Burwell—(Special)—A pair of bold thieves, man and woman Friday night stole a black, unbranded milk cow belonging to Leo Nelson, who lives southeast of this village, just over the Valley county line. Mr. Nelson, who owns about twenty cows, missed the black cow Saturday morning. Tracks of a pick-up and of a man and woman could be seen in the mud of Nelson's lot, where the cow was loaded. Sheriff Round, of Ord, and Sheriff Johnson were notified and in turn notified the state sheriff's office in Lincoln.

Mrs. Joe Cienny Passes at Elyria

At her home in Elyria Saturday occurred the death of Mrs. Joe Cienny, 65, after three years of ill health. Funeral services are being held at 2:00 p. m. today at the Pearson-Anderson chapel here, with Rev. W. Ray Radtiff in charge. Burial will be in the Ord cemetery.

Mrs. Cienny and her husband, who died only a few months ago, were among Elyria's best known residents. Mrs. Cienny, nee Nellie Flakus, was born July 22, 1876 in Holt county and her marriage to Joe Cienny took place Nov. 9, 1892 at Boleszyn church west of Elyria. They moved to Elyria at once and the village remained their home until death.

Eight children are left to mourn. They are: James, of Lincoln; Leon, of Elyria; Mrs. Catherine Hoyt and Mrs. Helen Childs of Wilmington, Calif.; Mrs. Clara Moore, Bellflower, Calif.; John and Archie, of Comstock; and Edmund, of Sargent. There are also ten grandchildren.

Mrs. Cienny leaves three brothers, Joe and Frank Flakus, of Burwell, and Tom Flakus, of Castlewood, S. D.; and three sisters, Mrs. Mary Cochon and Mrs. Barbara Blaha, of Burwell; and Mrs. Helen Kusek, of Columbus.

Fifth Car Wreck on No. Loup Turn

North Loup—(Special)—Since the No. 11 pavement was completed there have been five car wrecks on the corner west of this village, where the highway turns toward Ord. The last occurred early Wednesday morning when an O'Neill car with two occupants tipped over in a field because the driver couldn't make this turn. Babcock's wrecker hauled the car to Grand Island for extensive repairs.

There have been no fatalities in the five wrecks and the worst injury was a broken leg suffered by a little girl, but North Loup people think the state should erect more warning signs or take other action to slow cars up at this bad turn.

Postal Receipts Up to \$14,851 for 1941

Postal receipts of the Ord postoffice for 1941 totalled \$14,851, making this the largest year since 1937, says Postmaster A. L. Hill. Receipts in 1937 were only about \$300 larger and only two previous years in the history of the Ord office, 1930 and 1931, showed larger receipts than last year. The 1941 total was about \$500 higher than the 1940 total.

Only stamp sales are included in the total given above. Money order business, sales of bonds and defense stamps, revenue stamp sales and other items of postoffice revenue amount to many times the postal receipt total.

The public is responding patriotically to the defense bond and stamp sale programs, says Postmaster Hill.

Mrs. Mary Cerny Drowns Herself in Farm Cistern

Garfield County Woman Was Despondent Over Death of Her Husband.

Burwell—(Special)—Despondent over the recent death of her husband, Mrs. Mary Cerny 55, ended her life Wednesday, Jan. 14 by drowning herself in a cistern at her farm home nine miles east of this village.

She left a note reading: "I want to be with Charley and Freddie. Don't blame Lillie." The last sentence referred to Lillie Zurek, her niece, who was staying in the Cerny home. When Miss Zurek found the note she instantly became alarmed and started a search for Mrs. Cerny. Neighbors were called and soon it was noticed that the cover of the cistern was out of place. By probing its depths, Mrs. Cerny's body was discovered.

Eldon Key, Bud Van Winkle and James Bratka worked a half hour to remove the body which had become lodged under some lead pipes. A hook off the end of an iron pipe was used to pull the body from its resting place.

The Burwell fire department was summoned and made a flying trip to the Cerny farm with its iron lung, hoping to make a resuscitation. They arrived about five minutes after the body was removed from the cistern but Dr. Roy Cram, who accompanied the firemen, pronounced Mrs. Cerny dead.

The Cernys at one time operated a dry goods store in Omaha, moving to this county in 1927. Mr. Cerny died early this month in an Omaha hospital. Mrs. Cerny leaves two sisters, Mrs. Anna Potrzeba, and Mrs. Louisa Elsik; a brother, John Zurek and eight half-brothers and sisters, Joseph, Edward, Mike John, Frances, Julia, Matilda and Agnes Bower, all of whom live in Valley county.

Funeral services were held at the Brewer-Korisko mortuary in Omaha Monday afternoon and interment was in the Bohemian National cemetery in Omaha beside the graves of her husband and their only child, Freddie, who was killed in 1931 at the age of six when a horse he was riding fell on him.

Wesley Flynn Dies at Home in California

Early Wednesday morning Ord relatives received word of the death at 1:00 a. m. of Wesley Flynn, at his home in California. He had been ill with cancer of the throat, and Sunday his brother, Clifford Flynn, of Ord accompanied another, Dick of Blair, to California to see him. They arrived a few hours before Wesley's death, the message stated. Funeral arrangements had not been made.

Chanticleers Unbeaten in First Six Games

Here are five reasons why Head Coach Roscoe Tolly hopes for an undefeated season for his Chanticleer squad. They are Hank Adams, Ora Hurlbert, Raymond Vogelzang, Gould Flagg and Alex Cochran, and they comprise Ord's starting line-up. There are plenty of capable reserves behind these starters, too. The Ord squad has won six games so far, beating Burwell 24 to 12 and 31 to 32, the Alumni team 23 to 21, Sargent 23 to 16, Loup City 23 to 17 and Arcadia 39 to 22. Ord's next start is against Ravenna on the local floor Friday evening.

Arcadia Beaten by 39-22 Count

The Ord Chanticleers added another to their growing list of victories Tuesday evening when they defeated Arcadia 39 to 22 on the Ord floor. High scorers for Ord were Hank Adams and Alex Cochran, who bucketed 9 points each, but other Chanticleers helped in the scoring also. Misko made 6 points, Flagg, Wilson and Hurlbert 4 each and Vogelzang made 3. Owens stood out for Arcadia, making 8 points before he was retired by the foul route in the final period.

The Ord reserves returned to the winning column after two consecutive losses, beating the Arcadia reserves 15 to 8. Marsh was high scorer for Ord while Severson and Satterfield made 4 points each and Loyal Hurlbert, 2.

John Ward, Taylor superintendent, did a fine job of officiating.

March of Dimes, Polio Campaign, Starting Today

Biamond Is Co. Chairman for the Infantile Paralysis Foundation Fund Drive.

The annual Infantile Paralysis Foundation drive for funds begins today all over the United States, with motion picture theatre owners putting on a campaign for the "March of Dimes." This is the diamond jubilee, President Roosevelt's 60th birthday.

M. Biamond has been appointed chairman of the drive in Valley county and has named Otto Rettenmayer, Arcadia, and R. W. Hudson, North Loup, as community chairmen. Through the Junior Red Cross, he has completed the county organization.

The drive opens today and continues through next Thursday in order to have it done by Jan. 30, the president's birthday. All school students of all grades are invited to contribute and solicit five or more dimes for the Diamond Jubilee Birthday card, a supply of which Mr. Biamond has. Mr. Biamond is personally giving a reward of a free theatre ticket to all who qualify, this ticket good for any show any day of the week except Sunday.

Coin boxes have been put in almost every business place in Ord and other towns of the county, so the general public may contribute to this worthy cause.

Rural teachers may notify Mrs. E. L. Kokes, county Junior Red Cross chairman, if they want a supply of the Birthday card folders for their students.

One-half of funds obtained in the March of Dimes stays in the county organization's treasury, as usual and the other half goes to national funds used for continuing research on cause and cure of infantile paralysis.

People desiring to mail contributions may send them to M. Biamond at Ord, or hand them to the chairman in North Loup and Arcadia.

Will Hold Open House. Mr. and Mrs. H. C. Koll will observe their fiftieth wedding anniversary at their home 4 1/2 miles southwest of Ord Sunday, Jan. 25. They will hold open house all afternoon.

10% Corn Acreage Increase Ordered, Food Goal Higher

7,980 Acres More Valley Co. Land in Corn Authorized; Cattle, Hogs Wanted.

A ten per cent increase in corn acreage which will mean 7,980 acres more authorized for corn in Valley county, is the high spot in Secretary of Agriculture Wickard's message to AAA committees, in which substantially higher farm production for 1942 is asked. R. Clare Clement, chairman of AAA here, received Wickard's telegram Friday.

Corn acreage previously allotted to Valley county was 79,800 acres, so the 10 per cent increase raises it to 87,800 acres. Continued expansion of meat, dairy and poultry production is asked as a war measure by the secretary.

High spots of Wickard's message are: Corn—National goal up 5 million acres with 10 per cent increase commercial allotment, usual acreage provision included. Wheat—Maintain present allotment.

Soybeans—Goal raised to 9 million acres, price support at \$1.50 per bushel, farm basis.

Flaxseed—Goal raised to 4 1/2 million acres with loan averaging at least \$2.10 bushel at farm. Dry edible beans—Goal 13 per cent above 1941 acreage. Price support at least \$4.75 cwt. country shipping points.

Dry peas—Goal 73 per cent above 1941 acreage. Price support at least \$5.25 cwt.

Hogs—Slaughter 4 million over September goal, total 83 million. Beef cattle and calves—Same as September goal, 28 million. Marketing equal to production recommended to stabilize numbers and increase available meat supply.

Eggs—Up 200 million over September goal. Potatoes—10 per cent increase over 1941 planted acreage. Price support program coming.

Sugar beets—No acreage limitation. The price support program announced at minimum 85 per cent of parity in early September will be continued on hogs, eggs, evaporated milk, dry skim milk, cheese and chickens excluding broilers.

Revised state and county goals will be announced soon, Mr. Clement promises.

Crop and Feed Loans Are Now Available

J. O. Walker, field supervisor for the Emergency Crop and Feed Loan section of the Farm Credit administration, states this week that crop and feed loans for 1942 are now available to all eligible Valley county farmers, and that loan applications may now be made at the county agent's office in Ord.

Loans will be made to buy seed, feed, fuel and oil and machinery repairs, to eligible farmers who can meet requirements by giving a first lien on 1942 crops financed, Walker says.

Daylight Saving Time to Start February 9

On Monday, Feb. 9 all clocks in Valley county and throughout the United States will be turned forward one hour, and for a few weeks at least Ord people will arise and go to work before daylight. Congress passed the daylight saving bill Monday, it was signed by President Roosevelt Tuesday and goes into effect twenty days later, which is Feb. 9. Daylight saving time will continue until six months after the war ends.

Knights of Columbus Hold Red Cross Dance

Monday evening was very pleasant and a large number of people met at Knights of Columbus hall to participate in the big Red Cross dance that organization was putting on.

The music of the occasion was furnished by Eddie Kerchal and his orchestra, and a most enjoyable time is reported. Receipts are not all checked as this is written, but approximately \$51 was raised for the cause.

High Prices Paid at Campbell Estate Sale

Prices almost reminiscent of World War I days were paid Tuesday by buyers attending the A. J. Campbell Estate farm sale, says Col. M. B. Cummins. Top milk cow in the sale brought \$91 and the top work horse, a gelding at that, brought \$103, which is the highest price paid around here for a work horse in more than a year. Mares usually bring more money, than geldings. All the other livestock sold well and machinery brought fine prices.

HITLER IS OVERRATED.

Our woudbbe Napoleon of Europe has a rather exalted opinion of his own importance. It is all right for a man to think well of himself, but whenever he gets the idea he is vitally necessary, he is going just a little too far. In the twentieth century scheme of affairs no man is necessary.

The pages of history are filled with the exploits of men who thought they were necessary. Alexander the Great ate himself to death right in the prime of life; Julius Caesar was stabbed to death by those he trusted as his friends; Napoleon broke himself in a vain attempt to conquer Russia.

To the student of history there is a remarkable parallel in the lives of Napoleon and Hitler, which leads one to believe that he is patterning his European campaigns after those of the Little Corporal. He thought he could defeat Russia and thus do something never done before, but it seems that he may have failed.

If the parallel continues there remains ahead of Hitler, Leipzig, the abdication, imprisonment in the Isle of Elba, the escape, the last Hundred Days, Waterloo, St. Helena and the writing of his memoirs. Thirteen months passed between Moscow and Leipzig, and twenty between Leipzig and Waterloo. Hitler may be defeated in the next thirteen months, and he certainly will be in the twenty that follow.

The conditions that have prevailed in Europe during the past decade have not been necessary from the point of view of the common people, most of whom were content with conditions as they were, but they were necessary to Hitler's plans, and Hitler was equally necessary to further those plans. Hitler is still necessary to his plans of world conquest. Others might carry on for a time, but in the end the whole plan would fall without the Fuhrer.

It is different in a democracy. Here no man is vital, no man even appears to be necessary. Because he has been in close touch with international affairs for ten years, President Roosevelt may seem necessary. Actually he is not. Other men fully as well informed are ready to carry on, if and when the time comes to do so. It is this that makes a democracy truly great.

Many of us recall the time when President Harding died, and how vice-president Coolidge took over and public affairs went on as though nothing had happened. We sorrowed in the loss of one president, but gloriored in the fact that we had another man, fully as capable, to take his place. The same thing happened in the death of William McKinley and the accession to office of Theodore Roosevelt.

In his day the dean of all inventors, Thomas A. Edison, was important, but he was never necessary. Many of the world's greatest inventions were his, but those things were due to come, and, if Edison had died in his youth, all those inventions would have come in due time. However, Edison lives today in the minds of hundreds of inventors and scientists who received their inspiration from him.

In times like these even the most ordinary man has a definite mission. If we cannot handle a big job, we can do our part in the little job that requires doing. There are a thousand little jobs to be done, and these all add up to the one big task of beating Hitler and his satellites. Every person who does a few hours of war work, who adds his small fund to war chest, may feel in the end that he had a definite part in winning the great war for democracy.

HOME PLANS FOR DEFENSE.

Before we know it spring will be here again, the time of year when most people like to start something, whether it be field crops, a garden, tree planting, painting or repair work on the home. But why wait for spring? Planning for the future might as well begin now.

The government has already approved a plan for each family to raise enough for its own needs in the garden, stressing quality rather than quantity. The trouble is that many gardeners do not have space for a garden of sufficient size to furnish vegetables for their own needs.

In this respect it is well known that there are a large number of vacant lots in town, and the owners of most of them would rather have them taken care of than to pay anybody to keep them weeds down. Certainly any family with a few minutes to spare could take care of the crop on a vacant lot.

Mayor Cummins has been approached in regard to this plan, and it meets his hearty approval. The city is ready to help in any way it can to make these vacant lots available for cultivation. Also, in case of need, the city will water the lot with the fire hose for the actual cost of the water used.

Properly planned, a single lot should furnish the average family all the vegetables for immed-

iate use and for canning that they could use in a year, with the possible exception of potatoes. If the expenditure for these were only a dollar a week, it would mean a saving of \$50 in the year.

The value of the home garden lies not only in what it saves the family in expense, but in the amount of food it releases which can be sent to our allies wherever it may be needed, and also to provide rations for our forces in the field and camp and upon the ships of the fleets. In most cases foodstuffs sent elsewhere must be canned, and we should plan to open as few cans as possible during the emergency.

In recent years thousands of trees have winterkilled in Nebraska, and many of these are fruit trees. It should be a part of our program to replace as many of these trees in 1942 as possible, and even plant more where conditions make it practical. Nebraska has never had an over-supply of fruit trees. We should do what we can toward raising our own fruit.

All dead trees should be cut down and used for fuel, thus making a saving for defense. The dead timber should be cut out of all trees worth saving, and they should be treated to prevent spreading of disease and detrimental insects. All fence rows, piles of brush and other harboring places for grasshoppers should be eliminated.

This decent winter weather is the time to do much of the repair work that needs to be done, before the rush of spring work begins. Harness repairs should be made now and thus prevent delays in the busy season. All machinery should be sharpened, repaired and put in shape for immediate use. It is not the time for planting posts, but fence repairs above the ground can be made, and posts set in where needed later.

Remember that every saving that can be made at home will leave that much more that can be used for the purchase of defense bonds and stamps. We are all proud of our government, and if we believe liberty is worth keeping, we should invest in it by buying bonds. We cannot all fight for our country, but we all can have a part in financing the great battle for liberty and democracy.

WHOSE SUPERVISORS?

Three years ago a majority of voters in District No. 1, comprising Noble, Elyria and Eureka townships, decided they wanted Joe Jablonski to represent their interests on the county board of supervisors.

A majority of the voters who cast their ballots for Mr. Jablonski—probably 90 to 95 per cent of them—read the Quiz and no other Valley county newspaper. Yet Mr. Jablonski last week refused to vote on roll call to give his constituents access to official county publications. By his silence he denied people of three townships their right of franchise. He showed his willingness to have his own people and the people of most of Valley county, kept in the dark on county affairs.

Joseph Suchanek was elected at the last election by the voters of District No. 2, made up of Vinton, Geranium and Liberty townships. At least 85 per cent of the tax payers in these townships—several times as many as read any other Valley county paper—are Quiz subscribers. Yet Mr. Suchanek also sat mute when asked to vote on the same question.

The Quiz asked no special favor of the county board. It asked only that county board proceedings, if published in The Quiz, be paid for at the rate provided by Nebraska statute which would not have cost the county a penny more than it paid last year. This rate set by statute is only 25c per column inch, which is 10c per column inch lower than regular Quiz advertisers pay.

Yet Messrs. Jablonski and Suchanek, by refusing to vote on roll call, were willing to deprive their constituents of their right to have county publications in which they are vitally interested, printed in the newspaper most of them read.

With the supervisors elected by the people of North Loup and Arcadia the Quiz has no particular fault to find. They used poor business judgment in voting as they did, since the proceedings if published in the Quiz would reach 2,850 families all over Valley county, whereas the other two county papers have only small sectional circulation but they probably voted as they thought the more influential of their constituents would want them to vote. At least they had courage enough to vote.

This is not the first time Messrs. Jablonski and Suchanek have denied the interests of their own people to play politics.

It is time the people of District 1 and District 2 begin asking these men: "Whose supervisors are you?"

Personnel Changed.

Ign. Klima, jr., county defense chairman, has substituted A. H. Hastings for George Hastings, jr., on the Arcadia salvage committee, and added the name of George Hastings, jr., to the rescue and just aid committee for Ord and vicinity.

Expanded War Program Will Touch Every Home

All Phases of National Life to Feel Effects of Changes Brought About 'Colossal' Economy; Tire, Car Curbs Mere Beginning.

By BAUKHAGE
National Farm and Home Hour Commentator.

WNU Service, 1343 H Street, N-W, Washington, D. C.

In less time than it takes to read this column a new airplane should be completed—that is, if the program outlined by the President in his message on the state of the Union is carried out.

That seems like a large order. It is. But this is what the President has planned for 1942: 60,000 new planes, 45,000 new tanks, 20,000 new anti-aircraft guns, 8,000,000 tons of merchant shipping. Since there are only 8,760 hours in the year, if the OPM is to meet the President's goals, planes will have to roll out of the factories at the rate of one every eight minutes, tanks at the rate of one every 11 minutes, anti-aircraft guns at the rate of one every 25 minutes, and shipping at the rate of 15 tons a minute.

America's resources may be unlimited, but human comprehension is not. Ever since that message was delivered in congress, Washington has been straining in an attempt to comprehend those colossal figures.

Already some of the effects are being translated in terms of human experience—you know if you have tried to buy a tire or an automobile. Other even more painful experiences are ahead. One of them is the unemployment which is being converted to defense production.

Small Plants Hit

It means that some 133,000 small plants will close their doors for good. They are too small to be converted. Their workers and supervisors, if they are competent, will be able to find employment elsewhere.

It means that thousands of salesmen who sell, not merely refrigerators, ice boxes and juke boxes, vacuum cleaners and electric toys, but other things which we once thought were necessities will stop selling. They may have to take off their white collars.

A survey of some thousand middle sized manufacturing concerns now turning out defense products has been made by the labor department. It revealed that three-fourths of the plants were working on three shifts already. Remember that was before the President tossed off his new production figures and the OPM "raised its sights" to meet them. But in these plants it was found that the second and third shifts used only half the man-power employed in the first shift. Right there is a 50 per cent increase in employment. These were plants selected as typical.

Someone will have to fill those extra shifts and a great many others. It will mean that a lot of "brainworkers" will have to work their hands. When a nation suddenly turns over 50 per cent of its income to defense production, it means that the man in search of a job has less than half a chance at getting any other kind of work.

In our homes, the effect of war measures has already made itself felt. Wool is rationed already. That is because even with all our sheep we depend on Australia and the Argentine for wool. We haven't the ships to bring it here. And we are getting ready to clothe an army of 5,000,000 men. Other restrictions will come.

In his budget message, the President hinted that we might have to carry ration cards the way the Europeans do before the war is over. That is more of a threat perhaps, than a prediction but it is worth remembering before we get too complacent.

Fertilizer 'Rationing'

Already the farmer is being rationed though he may not realize it. Take fertilizer, for instance:

First, the nitrates. All synthetic nitrates have to go into munitions. The one word nitro-glycerine reminds you of that. Natural nitrates have other things in them, so the army is after those, too. But since they come from Chile, they have to come in ships. And there are few ships for this purpose.

Second, phosphates. They come from Florida, Wyoming and Idaho. But they come in rocks. You can see a whole pile of these rocks right over in Baltimore. But it takes sulphuric acid to "digest" them. Sulphuric acid is needed for munitions.

BRIEFS . . . by Baukhage

Maritime Commission cadets, for the duration of the war emergency, will be trained in about half the time ordinarily required and will not have to take competitive examinations for appointments.
Navy code books aboard ship are bound in lead so that they can be tossed overboard and sunk when there is danger of their falling into the hands of the enemy.
In 1941, nearly three times as many wheat farmers as in 1939, or a total of about 420,000, were protected from the effects of crop failure. They insured their wheat crop with the Federal Crop Insurance corporation.
The government, acting under a new law, has started regularly authorized safety inspection of mines for the first time.

My Own Column

By H. D. Leggett

It seems to me that more soldiers are being killed by airplane crashes than in war, and a majority of such casualties are officers. Is it possible that sabotage is responsible?

I believe that President Roosevelt is doing his best to push the work of getting all kinds of supplies for the fighting forces and his appointment of Donald M. Nelson as head of production is no doubt the best possible.

A senate committee report showing that selfishness and incompetence is the cause of much delay in war production, simply goes to show what we should all know, that humans are about the same all the way to the top. Just because chance has landed a man in a high place is no sign that he is the right man for the place. A great big majority of congressmen and senators are just average men. Mostly they started out as peanut politicians and were lucky and a few have become really big, important, helpful men, but many are still peanut politicians in spite of their position. The majority of Nebraska business men, such as we have in Valley county, given a little experience, would average up with the majority of the members of congress.

This part of Nebraska is proud of Judge Bayard H. Paine, member of the Nebraska supreme court, who has just fled for the third time. He served this district for many years as district judge before being elevated to the highest court in the state and I believe I am safe in saying that he numbered his friends by those who had met him when he was on the district bench. He was a hard working supreme judge, always attentive to business, and in my judgment there is no one in his district who could defeat him for reelection. Quiz readers will all be pleased to see him chosen for another term.

I hold no brief to speak a word in behalf of Senator Norris and I am not doing so but week after week as I see suggestions of leading republicans who would make ideal senatorial candidates I cannot help but think that Mr. Norris will again be persuaded to become a senatorial candidate, and if such proves to be the case, I doubt the ability of any man in the state to defeat him. True he is around 80, but he is younger at 80 than many men we all know are at 60 and there is probably still another senate term in him and perhaps, with his long experience and his high standing in the whole nation, in view of our present critical war situation, he would be far more valuable in the senate than any new man could be. A new senator is not able to accomplish much the first couple of years he is there. But we shall see.

We are all more or less prone to talk about things that we don't know all about. Right now I am thinking of a conversation that I heard one day this week about a man who had not given up his work in Ord where he was making a good living for his family, to go and take a job in a defense factory where he might work up to as much as a hundred dollars a week. He was thinking about the time to come when the war would be over and when perhaps the work of war planes might be greatly curtailed, and he was wondering whether he would be much ahead by the time he moved his family to a far point, paid enormous living expenses for a year or two and then suddenly found himself out of a job. He said if he came back here his line of work might be fully represented, whereas if he stayed now he would always be in on the ground floor. I rather think he is reasoning wisely. And I suspect that hundreds of thousands of young people, stenographers, nurses, munitions workers, who will surely be let out when the war is over, will find it hard to get a job as good as they left. And I am very sure that they will be ruined, by the enormous wages they have been paid, from being able to adjust themselves to the sort of wages the ordinary business can afford when the reconstruction period comes.

Without disparaging in the least the huge metropolitan dailies, with circulations running into the hundreds of thousands and occasionally into the millions—and I say they are the best daily newspapers in the world—it is to the weekly newspapers and the small-town daily newspapers that I, myself, turn for information, guidance and inspiration, especially in the case of problems and questions affecting the public welfare.—Sen. Arthur Capper in the U. S. senate.

And another thing that I hope the dream idea of our present administration can bring to pass, and that is for the people to make a living and become prosperous on a 40-hour work week. So far the only place it has been done is in government agencies where the pay comes from the public purse, and in a few highly organized unions where competition does not enter much into the matter of making the business a success. I doubt if a farmer can make a success of producing the amount of foods that the government is now demanding, in a 40-hour week.

Something Different

When Dr. C. W. Weekes left Ord a couple of weeks ago he had some experience with traveling through snow that he does not wish to repeat soon. That was the week of the big snow storm, and the storm was considerably worse east of Ord than it was here. But as we have not had much in the way of weather reports since the war began, the scope of such storms is not given out and Dr. Weekes had no idea of the mess he was running into on his trip to Tulsa.

The first day, after bucking wind, snow, sleet and general bad conditions of road and the weather, he reached York, and stayed there all night. Next morning, hope springing anew, he drove blithely over the line into Kansas expecting a better day. But the huge banks of snow on either hand were not reassuring. Before long he found the snow banks were more than car-high, thrown up one to the right and one to the left by the passage of a snowplow through there.

Next he found himself traveling behind a big transport, one that was broad and long and high. And woe, the transport did not seem to have much clearance in the narrow snowy lane, and before many minutes it was stuck. The transport was not only wedged into snow ruts of the road but tightly fastened on both sides by the walls of snow. There was no way to go around it. And more cars came and were stopped behind Dr. Weekes' car. And other cars were soon jammed in ahead of the transport. The transport wouldn't and couldn't budge; the other cars soon made a dandy traffic snarl.

But after a number of hours, things opened up. The lane was widened, the transport moved and the cars proceeded. At last Dr. Weekes reached the small town of Winslow, Ark., where the Robert Olivers operate a gasoline station. He planned to have a little fun with his son-in-law.

So Dr. Weekes drove into the filling station like any other cash customer. When Bob Oliver popped out of the station to see what was wanted, Dr. Weekes hollered in the very usual fashion "Fill it up."

Without a glance toward the driver, Bob went to the gas tank to begin operations. He glanced at the license and saw it was a Nebraska one; he looked again.

His eyes opened when he saw the dear, familiar old 47. Then Bob took a glance at the car, and was astonished to see it looked a good deal like Dr. Weekes' car, same make and color. About that time he dashed around to see if he knew the driver. When he saw who it was, there were many glad shouts and chuckles, as the doctor was welcomed royally at the home of his daughter Muriel.

The long, hard, snowy journey had taken up so much time that Dr. Weekes' visit was cut short. But he thought it was more than worth while when he remembers how successful was his practical joke on the Olivers.

Then of course a glimpse of his cunning little granddaughter Judy would be worth almost any trip.

—Irma.

BACK FORTY

By J. A. Kovanda

A Holstein cow on Irving King's farm is doing more than her share to aid the defense effort. She has given birth to nine calves in the past six years, all living and healthy. This cow produces twins every other season. In addition she gives around four gallons of milk at each milking when fresh.

More milk is needed to help win the war. The British want greater amounts of cheese, evaporated milk, and dry skim milk. They need large quantities of cheese to take the place of meat, evaporated milk to add to their small supplies of fluid milk, and dry skim milk to put more protein in bread.

The British have not requested butter for several reasons. First, they have little to spend for food so are eating less butter and relying more on cheap fats and oils. Second, protein foods are scarcer there than fats. Third, they lack the shipping, refrigerating and storage facilities needed for butter.

Cold storage holdings of butter are large and it is in the list of surplus commodities that may be purchased with blue stamps. Butter prices will doubtless stay high because of government support. But the biggest problem is to increase the production of cheese, evaporated milk and dry skim milk.

It seems that Irving King's cow and others like her have a big job to do here in producing the extra milk needed for all these products. Their Holstein cousins in Holland are being hauled away from their native land to Germany. The enemy has slaughtered off two other dairy breeds on the conquered islands of Jersey and Guernsey. Switzerland's Brown Swiss cattle are under Axis control. Of the major dairy breeds abroad only Scotland's Ayrshires remain to help.

This striking photo shows workmen cutting ice last Thursday in a 40-foot sand pit near the river bridge at Scotia. Paul Goodrich and Kenneth Tucker are seen pushing the ice cakes to the chute, where Hugo Malotke, with his horses, took them up the chute to the platform and loaded into trucks for hauling.

Ice Plentiful for No. Loup, Scotia, People Next July

About 1,000 Tons Already Cut by Bud Beebe and Crew in Big Sand Pit.

North Loup—(Special)—In order that people of this village and Scotia, as well as farmers of near by communities, may have plenty of ice next July when the temperature hits 100, men have been working here this month even though the thermometer registered zero and below as they labored.

Since early January ice cutting has been in intermittent progress in a sand pit 40 feet deep near the Scotia river bridge and with 1,000 tons put up the harvest is now completed.

The ice was cut by Bud Beebe with his big power saw and Beebe, an ice veteran of many winters, says he has never seen finer natural ice. It is sixteen inches thick and as clear as crystal, Beebe says.

The community ice house here has been filled, 500 tons have been packed at the Stanner ice house in Scotia, and many farmers have obtained ice from Mr. Beebe for storage, coming from Mira Valley, Cotesfield and other communities after it and packing it in small ice houses on their own farms.

At Scotia the Stanners have been in the ice business for 60 years, Max Stanner having taken over the business from his father. He says this is the best product they ever packed. Eight men are employed in the packing and four trucks for the hauling. The 500 tons required to fill the Stanner ice house required only 2 1/2 days to cut and haul.

Previously the ice for North Loup's community ice house had been cut and packed, as well as ice for many farmers.

Sun Spots Disrupt Business

Sun spots do sometimes disrupt business. Recently they disrupted radio and telephone service throughout the world by their electric activity. Further, many believe there is a correlation between business cycles and sun-spot activity.

The public is invited to a **RED CROSS BENEFIT Card Party** To be given at the **National Hall** at 8 o'clock P. M. **Sunday, Jan. 25** Everybody come and do your bit. Admission 20c Free lunch will be served by Z. C. B. J.

Bud Beebe is seen here cutting ice with his power saw. He has had many years of experience and says the ice this winter is the best natural ice he ever cut. Willard Ingerson finished the work of cutting the cakes to the right size.

IT HAPPENED IN ORD.

No sinister meaning should be attached to the headline used in last week's Quiz, which reads, "Dam Watchmen Become Deputy State Sheriffs." They are good dam watchmen, and we might also add that they are dam good watchmen as well. We might further suggest that if any one of these gentlemen tells you to do, or not to do, something, the proper thing to do is to obey the order without question.

Frank Kapuska of the Standard station was carrying a good used tire over his shoulder Monday morning, stubbed his toe and nearly fell down, all of which reminds us that we can't be too careful in the handling of tires, as they are more precious than gold. They tell of one man in Ord who has no garage for his car, who takes the tires off his car each night, keeps them in the house all night and puts them on again in the morning, to prevent damage from the weather and the possibility of theft.

The tire rationing committee is up against a puzzling proposition in the case of Otto Radil and his jackass, and so far the solution hasn't been found. The government wants as many mules raised as possible and Radil's jack is a lot of help in that respect. Mr. Radil usually hauls the jack in a trailer behind his car to farms where his services are needed. Now he needs tires for his car in order to continue hauling the jack, and there is no provision in the tire regulations by which the

committee may approve his application for tires. Otto and the jackass, and a great many mares are inconvenienced and incidentally the whole mule raising program in Valley county is endangered by the lack of foresight. Leon Henderson showed when he set up the tire program without taking this critical factor into consideration.

County Judge Andersen Summarizes 1941 Work

County Judge John L. Andersen has gone over the records of his office for the past two years, and summarized them in the following report. There were 21 estates filed for probate in 1940 and 30 in 1941; three guardianships were filed in 1940, 12 in 1941; there was one commitment to the feeble minded institute in 1940, 1 in 1941.

No adoptions were issued in 1940, and one in 1941; two mothers pensions were filed in 1940, three in 1941; there were 59 marriage licenses issued and marriages performed in 1940, and 65 in 1941.

March 4, 1941, the delayed birth registration law went into effect. During the year since that time 125 delayed birth registration certificates were issued. The record shows that from March 4, until Dec. 7, an average of one certificate was issued every fourth day. After Dec. 7 there was an average of one each day, or four times as many since the attack on Pearl Harbor.

Criminal cases for 1940 were: dependent and neglected minors 8; no fund check, 5; assault and battery, 4; driving without driver's license, 3; intoxication, reckless driving and obtaining money under false pretenses, 2 each; shooting pheasant before legal shooting time, shooting pheasant out of season, trespassing, rape, speeding, murder, intoxication, second offense, operating a motor vehicle with insufficient brakes, drunken driving, and operating a motor vehicle while driving license was suspended and drunken driving, one case each.

Criminal cases for 1941 included: assault and battery, intoxication and sale of or giving liquor to a minor, 5 each; no fund check and drunken driving, 3 each; disturbing the peace, overloading truck, petty larceny and joy riding, 2 each; shooting from highway and confiscation of gun, operating a motor vehicle while license suspended, improper purchase of eggs, possession of short catfish, using language to provoke assault, and driving without a driver's license, one case each.

Air War Losing Prestige to Old Fashioned Ground Attack... War Economy Will 'Bite' Deeply...

WASHINGTON.—This war, Roosevelt and Churchill are agreed, will not be won by a blockade, and it will not be won by bombing. This last was a hard decision to make. Both men had hoped so strongly that when anti-Nazi air power reached sufficient superiority over the Nazis, the Germans could be bombed into submission.

NORTH LOUP

Mrs. Ed Knapp has received word of the serious illness of her brother, Wes Flynn at his home in Long Beach, Calif. Dick Flynn of Blair and Clifford Flynn of Ord left from Grand Island on Sunday to see their brother. Anti-Aircraft Defenses Another point down the same alley is that the anti-aircraft defenses of Berlin have made it very expensive indeed for the British to bomb that city. Just at present it happens we are in one of those phases of every military cycle. First, a new offensive weapon is improved or perfected, and for some time after that the offensive has the advantage. Then some defensive measure is conjured up, and the advantage goes the other way.

Church Night Observed at Ord Christian Church

Wednesday evening, Jan. 14, was the occasion of the annual church night at the Ord Christian church, and it was observed by the members bringing all kinds of food for a 6:30 supper. After this was served cafeteria style and the ladies had disposed of the kitchen work, the regular meeting was opened, Rev. Snyder serving as chairman in the absence of the regular chairman, A. A. Wiegardt.

First the members who had joined the church during the past year were welcomed. They were: Mildred Sevens, Aida Larson, Delmar Warner, Gerald Wilson, LaVonne Timmerman and Mrs. Leonard Lindington. The minutes of the meeting for January, 1941, were read by the secretary, Miss Marie Bell, and accepted. Miss Maggie King, treasurer, then read the financial report for the final quarter of 1941.

The report of the nominating committee was then given by Mrs. C. S. Jones, and accepted. The elders are: W. H. Barnard, F. E. Glover, A. A. Wiegardt and John L. Ward; the deacons are: Anthony Thill, J. W. Severns, Rex Jewett and Junior Wilson; pianist, Marie Rohla; secretary, Marie Bell; church board, Mrs. L. H. Covert, trustee for 1 year; F. E. Glover, trustee for 2 years; A. A. Wiegardt, trustee for three years.

Mrs. Bailey Entertains.
Mrs. R. C. Bailey was hostess to a family dinner party Sunday evening, her guests being Mr. and Mrs. W. W. Hill, who are here from Cheyenne visiting. Mrs. Alvin Hill, Mr. and Mrs. A. L. Hill and family and Miss Ruth. Almquist. They had a happy time together.

Dinner at Miller Home.

Dr. and Mrs. C. J. Miller were hosts on Tuesday evening at their home, dinner guests being Mr. and Mrs. C. J. Mortensen and the sister of the latter, Mrs. Lillian Granville White, also Miss Clara McClatchey and Miss Iris Krebs.

Mrs. John Ward Hostess.
A one o'clock luncheon was held at Mrs. John Ward's on Tuesday, members of the young peoples' class of the Christian church and their teacher, Mrs. Alfred Wiegardt, being the guests.

Mrs. McOstrich Hostess.
At the home of her mother, Mrs. Jerry Petska, Mrs. Darrel McOstrich entertained a foursome at cards Tuesday afternoon. They had a pleasant time.

James Wachtrle Are Hosts.
Sunday noon Mr. and Mrs. James Wachtrle were hosts at their home to the following guests: Mr. and Mrs. Joe Petska and family, Mr. and Mrs. Emanuel Petska and family, Mr. and Mrs. Eugene Petska. The party was planned to honor Mrs. Eugene Petska and Miss Ellen Wachtrle, both of whom had birthdays the Wednesday following.

Presbyterian Circles Meet.
Bethany members went to the apartment of Miss Eunice Chase Tuesday for their meet; Ruth circle met with Mrs. Forrest Johnson Wednesday afternoon at her home; Esther circle went to Mrs. George Allen's; Dorcas circle members gathered at the Truman Gross home for their monthly meeting.

Dorothy Fish a Bride.
Mr. and Mrs. Devillo Fish wish to announce the marriage of their daughter Dorothy to Jack Wallace, son of Mr. and Mrs. E. H. Wallace of Spokane, Wash. The ceremony took place Jan. 10 at the Lutheran Place Memorial church in Washington, D. C. The bride chose a frock of navy, with which she wore black accessories and a shoulder corsage of tea roses. Attendants were Mrs. Raymond Doyon and Robert Anderson, both of Washington, D. C. The happy pair came to Ord on a wedding trip, spending several days in Dorothy's hometown, where they received many good wishes. Mr. and Mrs. Wallace left Monday for Washington, D. C., and their work.

For Mrs. Ivan Anderson.
Jolly Prints club honored Mrs. Ivan Anderson at a jolly party Friday evening before the Andersons departed for St. Liberty to make their home. He is employed by the railroad. Playing pinocle, prizes went to Mrs. Axel Jorgensen for high, Mrs. Thomas Rasmussen for low, Mrs. Alton Philbrick the travelling prize.

Sunday Eve Dinner.
Mr. and Mrs. LaVern Duemey were 6 p. m. dinner hosts Sunday to Mr. and Mrs. John Koll, Audrey and Jack, and Mr. and Mrs. George C. Weller. The evening was spent in playing pinocle.

Cosmos Hold Stag Party.
As a means of raising their part of the fund for the Red Cross, the Ord Cosmopolitans put on a stag party at the American Legion hall Thursday night. Cards and other entertainment were furnished for the guests, who numbered as many as 125 at one time.

Dr. F. L. Blessing and Frank Fafaita were the refreshment committee and served at least one hundred persons coffee and doughnuts. The guests were very generous, and the result of the party was over \$100 raised for the Red Cross.

Guild Meets.
The Wesleyan Guild of the Methodist church met Wednesday afternoon at the William Sack home with Miss Iris Krebs as hostess. The lesson was given by Miss Virginia Davis and Miss Darlene Mason. The time was changed from Monday because of a conflict with the first aid class.

Pie Social Success.
The Plain Valley Ladies club held a pie social Jan. 16 at the Plain Valley school. The program of fun included community singing, visiting and organizing a literary club. Arthur Mensing was chosen president of the club, Mrs. Sylvia Kerchal secretary and the Ladies Club as a program committee. The first meeting will be held on Jan. 30; everyone is invited. After the business and social meeting the pies were auctioned. The proceeds amounted to \$16.05 which with other contributions was donated to the Valley county Red Cross fund.

Mrs. Price Hostess.
Jolly Junior Extension club is having a luncheon today with Mrs. Roy Price the hostess. Mrs. Almond Brox, one of the leaders, will present the lesson.

Tea Dance Successful.
A jolly hour was spent at the High school Wednesday of last week, when the student council sponsored a tea dance to last from 3:30 until 4:30 o'clock. Dances cost a modest sum, and the money was given to the Red Cross. The youngsters had fun and it was a very nice affair.

Christian Church Party.
Young people of the Christian church held a party in the basement of the church Tuesday evening after choir practice. The dandy time was engineered by Gerald Larson and Junior Wilson.

Della Deck Session.
Tuesday afternoon Mrs. Keith Lewis greeted Delta Deck members at her home for their card game. Guests were Mrs. C. J. Mortensen and her sister Mrs. White, Madams R. E. Teague, Hugh Carson and Miss Eunice Chase. Mrs. Frank Fafaita achieved the highest score at contract.

Mrs. Osentowski Hostess.
St. Ann's Study club of the Catholic church met Wednesday afternoon with Mrs. Joseph Osentowski at her home. Mrs. Syl Furtak is study leader for

the group, and Mrs. E. L. Vogel-tanz is secretary. These ladies meet alternate Wednesdays, and have only finished reorganizing their club.

Camp Fire Party.
Soangetaha girls attended a party at Monica Gnaster's home Friday eve, instead of having their usual business meeting. Mrs. Gnaster took Mrs. Kokes' place in the short business meeting which was held. The girls enjoyed dancing in the game room and refreshments were served.

Royal Kensington.
The Royal Kensington club is meeting Jan. 22 with Mrs. Arthur Kirby. At this club's last meeting with Miss Dolcie Waterman ten members were present, with visitors and children bringing the total attendance to 37. A letter from Mrs. Flavia Schwarzel was read by Miss Waterman.

Social Forecast.
Presbyterian League ladies are giving an evening of good entertainment Thursday night of next week at eight o'clock the proceeds to go to the Red Cross. Mrs. Keith Lewis is chairman.

Wednesday evening Junior Matrons held a big benefit for the Red Cross, some 125 people playing bridge and pinocle. Mrs. C. C. Thompson, president of the club, appointed Madams E. L. Vogel-tanz, Ben Clark and Frank Fafaita to serve on the committee for the affair. Next week we will tell you who won the prizes.

Modern Priscilla club will have a luncheon at the home of Mrs. Nate Sinkler Friday afternoon at one-thirty.

Mrs. C. J. Mortensen will be hostess to Unit One of Home Nursing Thursday evening. Mrs. Darrell Noll will be hostess to Unit Two at the Mrs. Ed Finley home on Friday evening at eight.

Van Slyke Will Farm, Roby New Bus Driver
After 17 years as driver of a P. C. T. stage, Art Van Slyke turned over his run between Ord and Burwell Tuesday and will help his father, Henry Van Slyke on the farm near Olean. Ray Scarborough changes runs and will handle the run from Burwell and return.

Dan Bohy of Grand Island is the new driver on the Grand Island to Burwell run. He is 38, married, and drove for United Motorways for seven months. With the exception of one year Van Slyke drove for the P. C. T. line for a full 18 years, a total of at least a million miles, without accident, which is some record for any man to attain.

PERSONALS

—John Misko went to Omaha Saturday on business, returning home the first of the week.

—Mrs. Ralph Misko substituted at the high school Tuesday for Miss Lorraine Borg, English teacher.

—P. J. Mella came from Omaha Sunday, bringing his brothers, Charles and John of Gretna, with him. They returned Monday to their homes.

—The Tyrrell family, whose home has been near North Loup, will be moving soon. A brother near Scottsbluff has bought a nice irrigated farm and wants them to help run it for him.

—C. A. Anderson was called to Omaha Wednesday to attend a luncheon for Allis-Chalmers dealers. He went down that morning with representatives from Arcadia, coming home the same evening.

—Mrs. Robert Lewis continues to be very ill at the home of her daughter Mrs. John Lemmon. Mrs. Lewis has lost a good deal of weight and is very nervous, and has not been able to be out of bed since about New Year's.

—Mrs. Forrest Johnson brought her sister, Norene Hardenbrook home from Broken Bow Wednesday and is taking care of her while she is ill. Norene has been having the flu rather badly, but hoped to go to work by the time this is printed.

—An NYA representative, Helmer E. Wolkow, from Norfolk will be in Ord from 10 to 11 o'clock January 31 to give information to youths interested in NYA defense training projects. He may be interviewed at the court house.

—Mrs. William H. Moon returned Saturday evening from Hastings where she had been to see her daughter, Mrs. Herman Miller, who is recovering from an operation in Mary Lanning hospital. At Grand Island Mrs. Moon met her granddaughter, Virginia Moon, who was coming to Ord from Omaha for a few days' visit.

—Raymond Augustyn of Fort Knox, Ky., arrived on the bus Monday for a few days visit with his people, Mr. and Mrs. Adam Augustyn. He has been in the army five months and is due back in a week.

—Mrs. J. W. McGinnis is popping around in quite her usual manner. Operations or not, this energetic Ord woman keeps busy. She thinks her eyesight is improving already. Dr. Judd of Omaha removed a tumor for her about two weeks ago.

—About 40 turned out to hear remarks on Belgium under Nazi domination last Friday evening when Mrs. Lillian Granville White was the speaker sponsored by the Business and Professional Women's club. Money from the admissions went to Red Cross war relief.

—Paul Rysavy, who has been employed by the Vernie Anderson station, resigned this week and will leave Tuesday for Omaha to take a welding course at Omaha university. He hopes to get work at the bomber plant at conclusion of the five weeks' course. Richard Vascek is taking his place at the station.

—Mr. and Mrs. Herbert Schmidt drove from Broken Bow to Ord to take Mrs. Robert Schmidt and Dennis home with them Monday evening for a visit. While Robert is employed in traveling over the state for a week or two, she has been visiting her parents, the Guy Burrows', in Ord, and now will visit his people about a week.

—Mr. and Mrs. V. J. Dobrovsky and Albin and Mr. and Mrs. Robert Willheit drove to Hastings Tuesday of last week to visit Walter Brand, who is recovering from injuries received in an explosion which occurred at the Robertson greenhouse the preceding Thursday. Mr. Brand is in Mary Lanning Memorial hospital with his head, hands and arms swathed in bandages from the burns he received. He is on the way to recovery, but it will take a long time.

—Mrs. Frank Fafetta had a letter from Evelyn Parkos of Compton, Calif., a day or two ago in which Evelyn told some interesting facts about her work. Evelyn does typing, filing, etc. for the state guards of California, wearing a uniform exactly like the men do with substitution of skirt for trousers. She has to salute her superiors, who are officers. She likes it but says it makes her rather nervous! Evelyn left Ord in October, going west with Mrs. Guy Strong and Betty. Mrs. Strong she wrote, was employed in a rest home; Betty had just given up her work in a drive-in. Emil Krikac is making his home with the Strongs.

—A letter this week from Mrs. Laura Haley of Amarillo, Tex., tells that Gifford LaVern Haley (we had it Laursen) recently killed in action at Wake Island, is her son, and a brother of Florence Haley Laursen. The fault was in the postal card from which we got the information, which did not make this clear. Clifford was born near Homestead postoffice in Greeley county, Oct. 15, 1913, the son of Mr. and Mrs. Charley Haley. He had his first year of high school in Ord, his second in North Loup where he lettered in football and the last two years in Kearney. He joined the Marine aviation service nearly six years ago, and was staff sergeant and signal and radio man. His father, Charles Haley, passed away July 16, 1941.

—New cotton print dresses, \$1.49 and \$1.59. Chase's. 43-1tc

—A ten day special on diamond rings—at "South Side Jewelry. Call and we'll tell you why. 43-1tc

—Mrs. Forrest Johnson drove to Broken Bow Tuesday afternoon to take her sister Norene Hardenbrook back to work. Norene insisting she was well enough to go.

—Mr. and Mrs. William Sack returned home from Omaha and the lumbermen's convention via Lincoln, going there to see Lloyd Lloyd graduated recently from the aircraft mechanical course and was at once hired by the same school as a teacher. He likes his job.

—John P. Misko, as coroner of Valley county, conducted the sale of the personal effects of the late John Orsag at his former home in east Ord Monday afternoon. There was not a great amount of goods, but everything sold well, and the money will be applied on the funeral costs.

—Luetta Kuehl was a flu victim last week.

—Mrs. Irvin Green and baby went to Burwell to visit between buses Tuesday.

—Miss Sharon Olsson had to stay in bed a couple of days the first of the week with illness.

—Mr. and Mrs. Milford Naprstek came Monday from their home at Lexington to visit Mrs. Joe Bartos and other relatives.

—Mrs. Joe Bartos and Miss Emma Fajmon went to Burwell Sunday to visit the former's sister, Mrs. John Pokorney.

—Mr. and Mrs. Ben Clark drove to Omaha Sunday and came back to Ord Monday. They visited the Allen Champe family.

—Mr. and Mrs. C. E. Rumsfeld had guests come from Grand Island Tuesday evening. They were Mr. and Mrs. Alfred Nicholas.

—Richard Rowbal and his family have located at Parsons, Kas., where he is working at the plumbing trade. There is a big defense project there.

—Clarence Reed's mother returned Friday from Central City and will spend some time here with Mr. and Mrs. Reed.

—At convocation at the high school last Tuesday Bud Larson played several accordion solos and Carolyn Auble performed tap dancing. The audience enjoyed both features.

—Mrs. Robert Oliver, of Winslow, Ark., arrived Thursday evening to visit her father, Dr. C. W. Weekes, and to have a thorough physical examination. She has not been well of late.

—Going to Grand Island Friday in the P. V. Cahill car were Rev. and Mrs. W. Ray Radloff, Mrs. Hugh Carson, Mrs. Horace Travis and Mrs. Cahill. Rev. Radloff attended a Presbyterian church session while there.

—Mr. and Mrs. Walter Waterman are enjoying a visit from her uncle, H. C. Thusen, who came Sunday morning by train from Otis, Colo. Mr. Thusen will stay about a week and will go to Burwell to visit his sister before returning home.

JACK and JILL

MARCHES WITH THE MARCH OF TIME

Several years ago when the so-called depression started every merchant in the country endeavored to maintain and increase his business by extending credit and offering free delivery.

These added expenses were forced on the consumer by higher prices.

But the Jack and Jill method, the unchallenged method of Cash and Carry passes these savings on to the consumer by way of cheaper prices for quality merchandise.

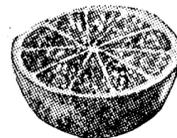

Look our list of specials over very carefully and they will convince you it pays to shop by

WEEKLY NEWS ANALYSIS By Edward C. Wayne

President Names Production Czar And Reorganizes Defense Set-Ups To Speed Up All-Out War Effort; Report Submarines Off East Coast

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

Leon Henderson, director, Division of Civilian Supply of the Office of Production Management, tries out one of the "Victory model" bicycles produced by manufacturers at request of OPM. This lightweight model is constructed of less costly material, and shorn of all gadgets. The new bikes will be built for both men and women. Photo shows Henderson pedaling, and Miss Betty Barrett of York, Neb., in the luggage basket. A sure way for the boss to get his secretary to the office on time.

NELSON: Production Czar

As the United States moved forward into all-out war production, Donald M. Nelson had been named production chief, placed in sole command over OPM, SPAB and all other vital production organizations.

His position was compared to that of Bernard M. Baruch in 1917. Mr. Nelson had been, before his promotion to sole command, the head of SPAB, the priorities control board, and thus had been sitting with his hands on the needle valve which kept materials flowing smoothly to defense plants.

His post also was compared to that of Lord Beaverbrook in England.

He was given command by executive order, and though the order did not immediately make legally clear how far his power went, there was enough in President Roosevelt's statement to show that it would go far enough to put Nelson into sole command.

A board, including Messrs. Knudsen, Hillman and other chiefs of various vital groups, was to work under Nelson.

The President said, in part: "Mr. Nelson will no longer serve as director of the priorities division. He will devote his entire time to directing the production program. His decisions as to procurement and production will be final."

Thus Mr. Nelson has authority over not only the industrialists and labor leaders who were in Washington to harness American production to a program for victory, but also over the army and navy themselves, in a way, because his decisions as to what they might have in the way of arms and munitions would be final.

They would still have legal contracting authority, but Mr. Nelson would have to pass upon these contracts before they could go into effect, and could, in effect, make them larger or smaller, quicker or slower.

LUZON: Defense

When the history of World War II is written it will have become evident that the defense of Luzon by the American-Filipino forces under Gen. Douglas MacArthur should be placed alongside of other famous "last stands."

Conceded only the slimmest possible hope of hanging on until help might arrive, the MacArthur forces, entrenched in the Mariveles mountains back of Manila bay, had reported not only stemming an "all-out" Japanese drive, but that they had driven the attackers back.

They had forced the Japs to remove their big guns far to the rear, out of range of the American batteries, had silenced 11 Japanese batteries, and had raised havoc with charging detachments of tanks and infantry.

Not in any way claiming that the Japanese advance had been permanently checked, General MacArthur reported to Washington that the 24-hour battle had shown definitely that the American guns and gunnery were superior to those of the enemy.

The Japs claimed that they had taken Olongapo, naval base on a bay to the north of Manila bay, and this had been confirmed by Washington.

There was more than a suspicion that the Japs were content to let the present armed forces now in the Philippines do the "mopping up" against the MacArthur army, and had turned their attention rather to increasing the tempo of the all-important Malay offensive, and the general offensive against the Dutch East Indies, using Mindanao as a base.

SUBMARINE: Action

Navy planes and ships had a busy time chasing enemy submarines reported lurking off the East coast of the U. S.

Two ships were reported sunk by submarine action off Long Island, N. Y. The first was the Panamanian tanker Norcross which was hit by three torpedoes about 120 miles from the coast. Next day watchers on shore claimed they saw a submarine sink another ship about 23 miles from shore.

Meanwhile U. S. underwater craft were also busy, but the location of their action was not disclosed. The navy reported that a 17,000 ton Jap ship of the type used as a plane carrier had been sunk by U. S. submarines in Far Eastern waters.

MALAYA: Scorched Earth

The house of commons criticism of the British Malaya forces in not carrying out the scorched earth policy was met by dispatches which had been delayed tending to show that the British had applied that policy in the completest way possible.

An eyewitness description of the British evacuation of Perka, Selangor and Kuala Lumpur, the latter an important rubber city and the capital of the Federated Malay States bore this out.

A Durin dispatch to the Times from Seremban stated that in Perak and Selangor alone millions of dollars' worth of rubber stocks and rubber processing plants and millions more in tin mine dredges and tin ore processing machinery had been destroyed.

In addition the destruction of petroleum products totaled several millions of dollars.

Copra and coal docks were dynamited or burned. Dynamiters were mining the country through which the Japs were approaching closer to Singapore, and this was evident in the slowing down of the Japanese advance.

Describing the evacuation of Kuala Lumpur, Durin wrote that the British had opened the larger stores and had removed what stocks it wanted, and then had left the stores open to allow the population to take what it wished.

The inhabitants scythed up and down the streets which were littered with refuse, carrying what they had been able to get aboard rickshaws, on bicycles and on shoulders and heads.

From every corner of the city sounded the booming explosions as the Punjab sappers and dynamiters destroyed bridges, roads and other communication links as soon as the British convoys had moved through the city.

Two large department stores were completely despoiled of goods within a few hours. Coolies who had never tasted chocolate candy went about with their arms full, giving them away to others who had none.

The burning of the rubber trees was not possible, but since the plants producing rubber and the rubber stocks were burned, the British say it will be a long time before the Japs can get any.

HITLER: Has He Fled?

Unconfirmed reports had been received from the Russian front that Hitler, with Smolensk threatened by the Russian armies, had fled to a safer point.

While this had been impossible of confirmation, the Red headquarters reported capture of towns in the "Smolensk area" which showed that the war was coming uncomfortably close to "Der Fuehrer" if he was still there on the scene of actual service.

'War Orphan No. 1'

"I am war orphan No. 1," said Mrs. Helen Nelson, wife of Donald M. Nelson, Chicago, Ill., whom President Roosevelt appointed chief of war production just recently.

AIR:

Supremacy Sought

There was every indication that the battle for air supremacy in the Far Eastern theater of war was definitely being battled for.

The news dispatches had contained increasing reports of air battles on all fronts, and though there was still no indication that General MacArthur had any sort of an air arm, both the British and Dutch defenses were being bolstered by American, Chinese and Australian planes.

The Dutch early had said that if the Allies would give them enough planes, they could defeat Japanese efforts to capture important strongholds in their islands.

The Japs, on the other hand, were continuing to capture some, including the island of Tarakan, a small islet defended by about as many men as had stood before the Japs at Wake Island.

The Dutch defenders finally had to surrender, though more than half of the garrison got away and lived to fight another day. Before leaving and before the remainder were forced by the odds to lay down their arms, they reported having mined and blown up all the oil wells on the island, an important small producer of petroleum.

It still was not definite where the high command had set up headquarters, save that it was somewhere on the island of Java, but whether at Batavia, from which most of the dispatches were coming, or at Surabaya, could not be learned.

An idea of what the capture of Tarakan meant, by the way, was the Dutch figure on its oil output, 80,000 tons monthly of the finest grade of petroleum. The Dutch, in describing the destruction of the wells, said, simply: "The Japanese have found that we were not bluffing when we announced that no oil installations would be permitted to fall into their hands."

PAN-AMERICA: Opens Conference

Of vital importance had been considered the Pan-American conference of nations, which had opened its sessions at Rio, with Sumner Welles in charge of affairs for the American state department.

There were really only two doubtfuls on the list, but they were important, and covered the southern half of the continent—Argentina and Chile.

Yet, as the conference met, with the announced purpose of further fulfilling the general blockade against the Axis by a continental breaking of relations with all Axis nations, it was felt quite hopeful that Argentina and Chile would come in and enter the joint action wholeheartedly.

OUSTER: Against Dye Men

Five of the principal operating executives of the General Aniline and Film corporation were summarily ousted from their position by order of the treasury department, which had been trying for several months to establish that the company actually was owned by the Nazi firm of I. G. Farbenindustrie.

The men suspended, all naturalized citizens of German birth, were Dr. Rudolph Hutz, a director; Hans Alckelen and William Vom Rath, both former directors who resigned within the past month; F. W. Von Meister, general manager of the Oxalid division, and Leopole Eckler, acting general manager of the Agfa-Ansco division.

They have been refused the right, among other things, to enter the premises of the company. December 12 the treasury department placed 17 of its operatives in the main offices of the company.

MISCELLANY:

London: Germans were resuming constant raids, though on a small scale, of British towns. Most of them were on the northeast coast and in East Anglica.

Rio de Janeiro: Uruguay became the second of the Latin-American republics to sign a lease-lend pact with the United States, entitling it to receive substantial shipments of arms and munitions.

Notes From the VALLEY COUNTY FARM BUREAU

By C. C. Dale

Farm Record Books Available.

The County Agent's office has a limited supply of the Nebraska Farm Account Books on hand for distribution to farmers who are interested in keeping accounts in 1942.

These books are prepared by the Agricultural Extension Service and the Department of Rural Economics and offer a simple, but complete method of keeping track of farm income and expenses.

Many Trees Will Be Planted.

Judging by the number of inquiries received, and the number of applications already filed at the County Agent's office, tree planting on Valley county farms will be heavy in 1942.

The trees are distributed by the Agricultural Extension Service under the Clarke-McNary act at a cost of \$100 per hundred delivered for most varieties. From applications already received it seems that the Chinese Elm is still popular, even though many were lost in the Armistice Day freeze of 1940. As one farmer said "I am still going to plant some Chinese Elms even though

I lost a lot of them a year ago, because they had convinced me they will stand a lot of grief in the way of drought and heat. I had lost all my other trees from drought long before I lost my Chinese Elms from that freeze, and I don't think we will have anything like that again in the next fifty years."

Other varieties which seem to be popular here are Red Cedar, Hackberry and American Elm.

To get your FREE BABY CHIX here's all you do:

We want to increase our circulation in VALLEY and ADJACENT COUNTIES and we are willing to pay and pay well to do this.

If you are now a subscriber of The Quiz, we make you this offer: For every NEW SUBSCRIBER you bring us, located in Valley, Garfield, Wheeler, Greeley, Loup Howard, Sherman or Custer counties, we will give you an order on RUTAR'S ORD HATCHERY for one dozen vigorous, healthy baby chicks of any standard breed ABSOLUTELY FREE. You may take this order to the Hatchery and reserve your chicks for delivery any time this spring. The price of the Quiz is \$2.00 per year, so all you do is collect \$2.00 from the new subscriber and bring or send it, with his name and address, to this office. We will send the paper to the new subscriber for a full year and in addition will give you the chicks FREE in payment for your time.

If you are NOT a subscriber of The Quiz, this offer is open to you also. Bring or send \$2.00 to the Quiz office and we will send you The Quiz for a full year and give YOU a dozen baby chicks free as your premium for subscribing now. The paper may start at any time you prefer and you may get your chicks at any time you desire, now or later in the spring. To be eligible for this premium you must reside in Valley or adjacent counties. The offer positively is not good elsewhere.

Baby Chick Offer open for 2 Weeks Only
Starts Friday, Jan. 23, Closes Saturday, Febr. 7

We want additional circulation NOW, so this generous free offer can be made only for the period of two weeks and will end Saturday, Febr. 7. This means that new subscriptions positively must be turned in during this period but does not mean that you must take your chicks during this period. Your order on Rutar's Ord Hatchery will permit you to make your own reservation date for your baby chicks.

\$1.00 Worth of Defense Stamps FREE

To anybody who brings in a new Quiz subscriber in Valley or adjacent counties and prefers Defense Stamps instead of baby chicks, we will give \$1.00 worth of U. S. Defense Stamps. Remember—this offer is good for new subscriptions only—not renewals. A new subscriber is anyone who has been off the Quiz list 90 days or longer.

SCRAP IRON

It may be that those who let millions of tons of scrap iron go to Japan are not too anxious to advertise our present dearth of scrap, but the real fact is that it is so serious as to cause the shutdown of nine blast furnaces in Youngstown, Ohio, alone.

To meet the shortage, the OPM has been conducting an experimental campaign to collect scrap iron in Erie, Pa., and is launching other campaigns in Boston, Pittsburgh, Bridgeport and Akron. However, the campaign is going very slowly. Chief trouble is that collections are made through the normal scrap iron trade.

Therefore, it looks as if the American public might have to take things in hand. A survey of Butler county, Ohio, shows that every farmer has an average of about 50 pounds of usable scrap iron and rubber rusting or rotting behind his barn. On this basis, the OPM estimates that it should be possible to collect 1,500,000 tons of scrap from American farmers.

Not many people realize the importance which scrap plays in the iron and steel industry. Ordinarily, steel is made 50 per cent from ore and 50 per cent from scrap iron. But today ordinary supplies of scrap iron are diminished, not only by previous sales to Japan but by the fact that war industries supply no scrap. Many tanks, guns, and military motor trucks are shipped off to Egypt, Malaya or Russia. They never come back. Ordinarily, industry supplies its own scrap iron from junked automobiles, etc. But now there will be fewer automobiles to junk.

So the scrap iron problem is one which will require every farmer and householder to look around behind his barn or in his basement to see what he can spare for war industries.

You can check off lead as the next strategic material to be put under interdiction for civilian use. OPM's banning order will be issued shortly. That will mean the end of lead foil and numerous other items of normal everyday use. One possible exception may be lead for automobile batteries, but even that will be under severe restrictions.

Reason for the ban is inadequacy of domestic supply to meet the increasing need for bullets. War production tables call for a lead consumption of 60,000 tons monthly by June; 100,000 tons monthly by next January. For military reasons, figures on U. S. supply can not be disclosed, but it is below what is needed even with production increases now under way plus imports from Canada, Mexico and other foreign sources. So civilian use will be restricted for the duration.

WLW ICELAND
The largest standard-wave broadcasting apparatus in the U.S.A.—owned by WLW Cincinnati—may be set up in Iceland to drown out Hitler's rasping broadcasts to the German people.

For many years WLW operated a 500,000 watt station in Cincinnati, but was forced by the Federal Communications commission to reduce to 50,000 watts, which is the maximum for ordinary commercial stations in the U.S.A. Therefore, WLW has now offered its big 500,000 watt set to the government to be established in Iceland. Since Hitler's stations are nowhere near as strong as 500,000 watts, WLW's beams from Iceland could drown out his voice every time he went on the air.

Furthermore, WLW Iceland would not operate on short wave, which the German people are not permitted to hear. It would operate on a standard broadcasting beam and would come in over the ordinary German radio. By turning a button in the station in Iceland, the wavelength could be changed to cut in on any German program.

To make more office space in Washington, the Farm Credit administration is being moved to Chicago.

Through its nation-wide co-ops, Harry Slatery's Rural Electrification administration has electrified more than 370,000 miles of transmission lines. This was more than the 15 largest utility holding companies in the country combined. Over 1,250,000 farmers are benefiting from cheap electricity as a result of the REA system.

Fifty per cent of our vitamin A is being sent to England. This, together with the shortage of fish livers and oils from Norway and Japan, is causing a shortage of vitamins in the U.S.A.

LETTERS FROM QUIZ READERS

Fuson is Indignant.
2547 Northwest Northrup St.
Portland, Oregon
January 4, 1942

To the Editor of The Quiz:
Then there was the time that Jason wrote an open letter to Little Ellsworth about them both being mad at me.

There ain't anything that can be done about Little Ellsworth being mad at me, whether I write something about him or not or what, if any, I write. I can't even remember when Little Ellsworth was mad at me and so if he is a little bit madder or if he lays mad a little bit longer, I would not change my registration.

Mostly it is just plain jealousy Little Ellsworth always wanted to be Grandma's favorite and it made him awfully mad when she quit holding him on her lap when he got to be seventeen. I was Grandma's favorite, for one thing and for another thing, I had longer and darker lashes than Ellsworth, I never had to use mascara in my makeup.

It was mostly about them three pairs of leather pants that the women folks made when they decided that the boys up there in the sand flats were too vigorous for their pants.

It was not partially or favoritism that caused them to make me better pants than they had made Little Ellsworth. It was just that as boys kept getting to be fifteen and old enough to go to school and having to have pants, the women folks learned more about making them.

When they got ready to send Little Ellsworth to school, when he was fifteen and they had decided on leather pants, they made him his pants at butchering time and they just skinned the cow and made the pants that same day. They didn't attempt to cure the hide or anything and they made them pants with the hair inside.

They didn't have any buttons in them days so they just used hickory cultivator pegs for suspender buttons.

The hair inside them raw cowhide pants scratched Little Ellsworth and made him twitch until Grandma was afraid he would turn out to be one of them twitching democrats and said that if the worse come to the worse Little Ellsworth might even be elected to public office.

There were several boys came fifteen between Little Ellsworth and me and the women folks made each pair of pants a little bit better.

Finally when they got to me they had learned to cure hoghide soft and white like glove leather and there was no problem as to what to use for buttons. The buttons were right there on the material and all that Grandma and Great Aunt Maria had to do was to turn the material and lay out the pattern in such a way that the buttons would come in the right place.

When little Ellsworth saw them nice, soft hog hide pants of mine with them nice neat, round buttons, it fairly burned him up.

Besides being jealous of me, little Ellsworth always accused me of playing a joke on him once when when Moss kicked him in the midst of a busy harvest. Everybody that I don't play jokes on people and how was I to know that Eben would kick? I knew that Eben would kick. I knew that he was balky and a plunger and I knew that he would crowd going over a narrow bridge, but I did not know that he would kick.

Between the time that little Ellsworth came fifteen and I came fifteen there were several other boys and among them, Eben Moss. Uncle Aaron's little red mule, "Jake" passed on to his reward a few days before Eben's fifteenth birthday and the women folks skinned Jake and tanned the hide and made Eben a pair of pants of mule hide with the hair on the outside and they made square suspender buttons out of tug-leather and Eben looked mighty neat in them pants and was one of the proudest boys in the sand flat country.

Little Ellsworth kept them raw cowhide pants and wore them continuously and never wore any other garment of any kind until he went to Canada. There in Canada he laundered them late one afternoon and hung them out to dry and went to bed. In the morning when he went out to get his pants, the wolves had eaten them.

Eben kept his muleskin pants and wore them and no other garment of any kind until he had been married some time and then one morning he saw his wife heating up a branding iron in the kitchen stove and he abandoned them pants for good and would never tell anyone what became of them.

I wore my hoghide pants right up to the time I got my army pants and then I hung them on the line while I went to the army and when the war was over and I came home they were gone. All the men and boys in the sand flat country had quite a problem about dry cleaning and laundering and pressing, etc., in them days, that is all but Eben. All Eben had to do to get himself dressed up was to carry them mulehide pants.

You see, Jason started all this by the way he picks on me. I can't remember when Jason and Art and Jake and Ernest and

Bert did not pick on me although I never picked on any of them, I never even mention any of them in fact. I never even think of any of them.

What I started to tell you was about the time that little Ellsworth thought that I was to blame when Eben kicked him in the early autumn.

We were all getting ready to go to meeting one Sunday morning and we were all dressed and ready to go but Eben and there was a new school teacher in the district and Eben thought that besides currying his pants that morning he would polish his toenails and put some axle grease on his hair.

Eben had fitted up one of the stalls in Uncle Si's barn as a kind of a dressing room and he had polished his toenails and was greasing his hair and had not started to curry his pants yet and was keeping us waiting.

I suggested—understand, I merely suggested—that little Ellsworth go in and curry Eben's pants while he finished greasing his hair.

Ellsworth was doing a good job of currying and everything was going along nicely until a tumbleweed blew into the barn and right under Eben's feet.

Eben let a snort out of him that could be heard way over on the other side of the north pasture and he lunged to the other side of the stall. We could hear little Ellsworth trying to calm him down, he was saying, "Whoa thar Eben—Stiddy thar boy," and was trying to ear him down but he could not get a good hold on Eben's ear on account of the axle grease.

No matter which way Eben would plunge, that tumbleweed would bounce right under his feet and scare him again and again.

Finally we heard a crack like the explosion of a shotgun and we heard a sort of a swish and we saw a body come hurtling through the air and land limp and helpless on the manure pile. It had happened. Eben had kicked little Ellsworth plumb out of the barn.

You would think that Eben would have had some feeling of pity in his heart when he saw the broken and bleeding body of little Ellsworth lying there on that manure pile and heard him sobbing as though his little heart would break.

You would think that Eben would have hung his head in shame to think that in his excitement and terror he had kicked little Ellsworth in the middle of the second Cleveland administration.

But no—there was no pity in him and there was no shame in him—utterly pitiless and utterly shameless, he stood there in my Uncle Si's barn door and brayed and brayed and brayed and has been braying ever since.

Hoping that you are the same,
MERRITT H. FUSON

Calm, Sure of Victory on the West Coast.
Port Townsend, Wash.

To the Editor of The Quiz:
No doubt many people are wondering what the people on the coast are saying and doing about the war. Well most of them are saying little and doing much. Its certainly heart warming how people of all classes become, shall we say, as one big family, to see what they can do to help their Uncle Sam. Sales of defense bonds and stamps have skyrocketed here and many people are willingly giving their spare time to civilian defense.

Alfred has volunteered as an auxiliary fireman for our zone. Each zone has its own air raid warden, police, firemen and medical unit. It keeps him quite busy seeing everyone has their home properly equipped to fight fires, that everyone knows what to do in case of an air raid.

We had a few blackouts right after the declaration of war, and all the Washington radio stations were off the air first few days, however, they have been broadcasting as usual since then. We must be prepared to blackout on a moments notice. Everyone is very calm and very sure of victory.

There are lots of jobs open for skilled workers of all kinds, but very few for common labor. Housing is an awful problem, as rent has gone up sky-high. Homes that used to rent from \$8.50 to \$15.00 per month now require \$25 to \$50. With food prices increasing daily too, living is pretty high right now. Eggs sell for 40c to 47c per doz., milk 13c qt., butter 47c per lb. and all green vegetables are high due to the fact that all Japanese truck gardeners have in some way or another been taken from this sort of work.

We have also had some cold weather this year. New Year's day about 4 inches of snow fell and stayed on the ground about 2 days, which is unusual, as snow usually melts as it falls. The lowest temperature was about 18 degrees above zero. This is the coldest it has been here for a good many years, they say.

There hasn't been nearly as much sickness here so far this year as there was last year, a few cases of chicken pox and the mumps among the school children, is about all. Our baby girl is just getting over the chicken pox, too, so the quarantine sign has just been taken off of our door. She is just 7 1/2 months old so she just had a mild case of them.

Alfred and LaVerne Pierson are both still working at the paper mill. LaVerne is expecting to be drafted before very long. A lot of the workers from

the mill have volunteered so it leaves the mill short of men at times.

Emil Lukes has moved his family here from Oregon and is now employed at one of the lumber yards here. They have a baby girl born Dec. 4.

William, who moved out here from Ord last summer, was working for the city, but about two weeks ago was appointed a patrolman on the police force.

Respectfully,
MRS. ALFRED GIZINSKI.

The Ord Quiz:
Am enclosing fifty cents for which please send me your paper for a while. On account of the Army temporary stationing plan will not subscribe for it for any length of time.

Enjoy the home town paper very much as it takes me back there, so to speak. As much as I try to be a good soldier, my heart still remains on a certain Nebraska farm and I'm afraid it always will.

Nebraska farmers do a lot of complaining about the weather, but through all my Army travels I can truthfully say that I've never found anything better.

About a week ago we were experiencing weather with a temperature of only nine degrees above zero which we felt just as much as the first cold day of fall in Nebraska. Two days later we were forced to shed those "red flannels," as tradition says it. I've drawn the conclusion that abrupt changes in the weather don't occur only in Nebraska.

Yours truly,
PVT. ARMIN LUECK.

Legion Junior Auxiliary

Gathers Tons of Paper
For the past two months members of the American Legion Junior Auxiliary, under the direction of their sponsors, Mrs. C. W. Clark and Mrs. V. W. Russell, have been working on a project for collecting old newspapers and magazines and shipping them to Omaha as a part of the defense program.

The waste paper is collected by volunteers from the Legion and Auxiliary, and a few of the Auxiliary members have been assisting in bundling the paper and getting it ready for shipment. All loose paper is baled, as they have a baling machine for this purpose.

The work is done in a room in the rear of the Russell Drug store. Thursday they loaded and shipped a truck load of paper, a total of 5,542 pounds, to Omaha, K. W. Peterson taking it on his transfer.

The work will continue, and all who have paper to donate are asked to call either 415 or 311, or, if you can do so, please deliver it in the rear of the Russell Drug store. If you have a regular source of supply, and most people take a daily paper or two, call as above directed and make arrangements to have it picked up at stated intervals.

While the Junior Auxiliary is gathering much of the waste paper, the Camp Fire girls are also busy in this work, and will have shipments from time to time. The reusing of this paper will release materials for vital war work, and may help prevent a paper shortage later on. The girls are donating their time and should be a benefit to most people to get the old papers out of the way.

Real Estate Transfers.
(From the county records January 8 to January 15, 1942).
Note: Revenue stamps are required on real estate transfers at the rate of 55 cents for each 500 dollars consideration or a fraction thereof, except when the actual consideration is 100 dollars or less. When a conveyance is made subject to a mortgage or other encumbrance, revenue stamps are required only for the amount above that of the mortgage or encumbrance.

When You and I Were Young Maggie

January 21, 1931.

Jacob D. Cook, Mira Valley retired farmer, resident of Nebraska since 1856 and of Valley county most of the time since 1883, died at the home of his son, Daniel, at the age of 80 years.

A number of Valley county people went to the Will Worm home near Taylor and helped them celebrate their 25th wedding anniversary, Jan. 23.

Dr. Walford J. Johnson of Omaha was moving to Ord and planned to open a veterinary office here Febr. 1.

Walter Desch had been remodeling a garage and other buildings on the residence property in east Ord and was planning to move the monument works there.

Twin sons were born by Caetry to Mr. and Mrs. Hiram Petys of Burwell at Hillcrest hospital, Dr. Watson of Grand Island in charge.

A survey showed that Valley, Custer and Greeley counties were badly infested with grasshoppers and plans were being made to combat the menace.

Judge J. H. Hollingshead was reported recovering from an operation in an Omaha hospital.

The Ord basketball boys, coached by Molzen, won from Loup City, 16 to 12, but lost to Dannebrog, 27 to 24.

January 21, 1922.

Walter Desch broke into the

headlines when he broke his good right arm cranking his unfaithful Ford.

Ordites planned a surprise for the Ord firemen who were returning from the state convention at Madison, and set off a bonfire near the Ablehart boarding house just as they were getting off the train. The returning firemen didn't fall for the joke, and the perpetrators had to string out the hose and put out the fire themselves.

Big farm sales in the making were those of Ed Jensen and E. E. Megrue and son, who were holding reduction sales, Charles Bals, holding a cleanup sale, and Aagaard and sons, who were selling purebred Duross.

The Community Service club was putting up strenuous opposition to the proposed gasoline tax, but the law went through, and the amount has been increased since.

Will May, living near the north county line, was found dead where he had gone into the field to get a load of hay, the cause of death being heart failure.

The Ord high school basketball team defeated Broken Bow on the Ord floor by a score of 26 to 11, with Miller, Heuck and Moller starring.

January 18, 1912.
While engaged in a checker game with his brother-in-law, M. Coombs, Adelphus Rosell was stricken with heart trouble and died almost instantly. He was nearly 69 years of age.

The hot water front in the range in the Dr. G. W. Taylor home blew up, practically ruining the entire kitchen.

From Dec. 28 to Jan. 13, inclusive, the thermometer registered below zero continuously with an average of 15 below for the period.

H. D. Leggett shipped half a dozen crates of his buff Leghorns to York to show at the Nebraska state poultry raisers' exhibit there.

Roy Drake, Bud Shirley, Guy Burrows, Jake Hoffman, Charles Hunt, Herb Severson, Frank Ser-shen and Horace Crow went to Kearney to attend the state firemen's convention.

January 22, 1897.

As the curtain dropped on the last act of the farce, "A 5-Cent Lodging House," at the opera house, several yards of plaster just in front of the stage fell to the floor. Luckily nobody was hurt, but it was a lucky accident.

Charles Cornell, formerly employed in a hardware store in Alliance, had accepted a position with the Burlington as pump inspector.

Among the Oddfellows installed in office appear the names of S. A. Stacy, R. L. Staple, Otto Murschel, Rudolph Sorensen and P. L. Pfejdrup.

Lou Beran and Miss Anna Prince were married at the home of the bride's parents in Ord Jan. 20. Lou was a member of Beran Bros. hardware firm.

Frank Glover and Bud Shirley were attending the state firemen's meeting in Kearney.

Dr. W. E. Cramer, former popular Ord doctor, had located in Kansas City, Mo., where he had accepted a position as professor of surgery in the K. C. Polyclinic institute.

Restrictions Lifted, Quiz Names Draftees

Not long ago an order went out to all draft clerks not to give out information about draftees, and as a result all such information was left out of the newspapers for a time. Tuesday the local clerk, Miss Virginia Davis received an order changing the original order, and permitting the publishing of the names of those about to be inducted into the service.

However, no information relative to the call or quota, when they will be called or where they will be sent is permitted. The Quiz appreciates having the opportunity to give the public this much information, and we will do our best to keep the public informed in regard to the draftees in so far as we are permitted to do so.

Only one group of draftees already sent has not appeared in the Quiz, and the members of this group were Raymond James Shotkoski, Laverne Lloyd Hansen, Ord; Frank Cernik, Aaron Marlon Copen, North Loup; and Frank Morris Kingston, Arcadia.

A number were sent to Grand Island recently for their physical examination, and those who passed were: John William Lunney, Willard Frank Clemens, Venell Fryzek, Verdon John Beran, Ord; Herman Maxson, North Loup; Ernest M. Methe, North Loup; Marvin George Greenland, Arcadia; Arnold Julius Ritz, Arcadia; Ray Oliver Winkelman, Comstock; Lloyd Leo Paben, Arcadia; Merlyn Otis Van Horn, North Loup; Emanuel Bruha, Burwell; Paul Wayne Palsler, Ingleswood, Calif.; Guy Samuel Martinsen, Filer, Ida.

Some of these men have permission and will enlist in other branches of the service. Lunney will enlist in the navy; Methe will enlist in the army air corps; Van Horn will also enlist in the army air corps. We will not be able to give any information as to when these men will go to the service, or where they will be sent.

Main Line Schedule Changes Announced

Several changes in the arrival and departure of Union Pacific main line trains in Grand Island are announced this week by the railroad, becoming effective Jan. 25.

No. 12, the eastbound morning train which now reaches Grand Island at 5:42 a. m. and arrives in Omaha at 8:40 a. m. will be changed to No. 16. It will leave Grand Island at 3:40 a. m. and reach Omaha at 6:40 a. m. This change is of interest to Ord people, for the reason that the Ord morning train has often been late because it has had to wait to make connections with No. 12, at times when this train was late.

No. 14 eastbound, now due in Grand Island at 5:25 p. m. and in Omaha at 8:25 p. m., becomes No. 24. It will leave Grand Island at 2:40 p. m. and arrive in Omaha at 5:40 p. m. This train originates in San Francisco.

The westbound Challengers now leave Omaha at 10:35 and 10:40 a. m. but starting Jan. 25 will leave at 9:00 and 9:15 a. m. instead, arriving in Grand Island at 11:50 and 12 noon.

Reported by Dr. Barta.

Mr. and Mrs. George Ketterer and Mrs. John Patsch of Spalding were in Ord Thursday as eye patients of Dr. Barta.

Patients Saturday were Miss Helen Foster of Ericson and Mrs. Mark Locker of Burwell.

Mrs. George Klein of Scotia had a nasal operation performed by Dr. Barta Friday.

Orville Petersen of Burwell had a minor ear operation performed by Dr. Barta last week.

Mr. and Mrs. Ed Blaha of Ericson brought their daughter to Ord Tuesday suffering from a severe ear infection which required a minor operation to relieve her suffering.

North Loup Midgets Showing Big Improvement

Small but mighty are these five boys who comprise Coach Eley's starting line-up at North Loup. They are, left to right, Donald Waller, Dale Gilmore, Donald Babcock, Donald Hutchins and Gordon Portis. One is a freshman, two are sophomores, one is a junior and only one a senior, so the North Loup people have high hopes for future years when these boys increase in size and improve in prowess. So far this year North Loup has won about half of its games.

First Team Wins, Junior High Loses at Loup City

Friday evening the Ord high school first and junior high teams went to Loup City to contend against similar teams from their school. The first team came home with a win, 23 to 17, but the junior highs lost by a score of 16 to 8. The high school still has a clean slate, but the juniors have lost two games.

Starting in the junior high game were Evans for Loup City, with 6 points and Severson for Ord with 4. Others scoring for Loup City were: Marx 3, Brown 2 and Schoening 2. For Ord: L. Hurlbert 2 and Rich 2. Other players for Ord were Cahill, Keller, Rysavy, Dahlin, Tolen, Long and Lewis. Ord led 4 to 2 at the half.

Adams led the Ord attack in the main game with 10 points, but was closely pressed by Cochran with 9. O. Hurlbert got 3 points and Flagg 1. Starting lineup: O. Hurlbert and Vogelzanz, forwards; Adams, center; and Flagg and Cochran, guards. Misko, L. Hurlbert, Wilson and Marech also got into the game. Ord led, 13 to 11, at the half. Arnold Tuning, of Arcadia, was the referee.

AAA News Notes

In Valley county 233 farmers sealed 150,557 bushels of barley. Those wishing to redeem this barley can do so at any time. You may purchase all of the barley under seal or only a part of it, as your need is. In the past two weeks we have had several farmers who purchased all or a part of their barley. This barley will help in producing more meat and other foods to help win the war and write the peace terms. Barley loans mature April 30, 1942, and after that you will be given sixty days in which to liquidate your loan, and we do not expect anyone to be crowded in case they are not able to get their loan liquidated by June 30.

We are still sealing corn every week and expect to continue at the present rate for at least another sixty days. We have sealed 100,101 bushels and expect to come close to 200,000 bushels. The same rules apply to corn as barley. You can repay the loan, or part of it, at any time you wish. One of our sealers, William V. Earnest of Independent precinct, is in Lincoln at the Veterans hospital taking treatment. Bill, as he is known to his friends, had hoped to be able to qualify as a coach of a rifle range.

For the benefit of some who have not kept closely in touch with the precinct personnel we are listing each precinct committee. The first named is chairman.

Ford Tractor Ferguson System

"It isn't just another tractor. Ferguson-Sherman spent \$500,000 in farm journals and newspapers last year to emphasize among other things that it is not selling nuts and bolts and horsepower, but a new farming system. Mr. Ferguson holds that the technical sin of the conventional tractor . . . is that it drags the plow or other farm implement as a dead weight behind it . . . It is as if the automobile were merely a power unit slipped into the traces of the once horse-drawn buggy or wagon . . . To get all-important soil penetration, the conventional two-wheel plow must be heavy. To drag this weight through the earth the tractor has to be heavy, too. To lug the combined weight about takes more power and more engine weight. And thus the weight cycle in tractors moves ever higher . . ."

"The tractor unit that Harry Ferguson invented to deal with these objections is small, light, and compact, with a light, shortened wheelless plow."

The Woman's club held a benefit card party at the hotel Thursday, the proceeds, which amounted to around \$15, going into the club's treasury. There were eleven tables of bridge, rook and pinochle played followed by lunch. Some club members not furnishing a table paid directly. Mrs. Duncan won the door prize, an attractively wrapped bowl of assorted salted nut meats.

Mrs. Henry McMullen was hostess to the S and S club Friday afternoon. A tasty lunch followed the afternoon's sewing.

Mrs. C. W. Hughes entertained at bridge in her country home Monday afternoon.

"Our neighbors to the south" was the topic discussed at the meeting of the Women's club in the library basement Monday afternoon. Mrs. Will Cronk read a paper which she had prepared on South America. The members answered the roll call with some interesting fact about Latin America. Mrs. John Schere and Mrs. D. W. Sartain were the hostesses. It was announced that the ladies cleared fifteen dollars at their benefit tea.

Mrs. G. A. Butts was a Grand Island visitor Monday. Mr. and Mrs. G. A. Butts and his mother, Mrs. M. A. Butts, are moving soon to an apartment in the Becker building, which Mr. Butts recently purchased.

More than the usual amount of moving is expected in this vicinity this spring. Lawrence Fransson has rented the Chris Miller farm in the Roschilling neighborhood for the coming year. Mr. and Mrs. Roland Hoppes, who now live there, are moving to the John Price farm northeast of Burwell which Mrs. Frank Kellogg owns. Mr. and Mrs. Hans Rorde, who disposed of their farm property at a public sale Monday, are moving to Burwell where he will devote all of his time carpentering. Mr. and Mrs. Fred Maxfield and family are moving onto the farm where the Rordes have lived for many years. Mr. and Mrs. Louis Fishna are moving on to the Haas farm where the Maxfields now live. Mr. and Mrs. Wayne Fransson are moving to the farm west of Burwell where Mr. and Mrs. Tom New live. The News have rented a ranch northeast of Ericson where they will make their home.

Mrs. F. A. Johnson returned on the bus from Lincoln Saturday where she had been visiting her daughter, Mrs. W. T. Johnson and her son, Harold and his wife. Mr. Johnson and E. E. Troxell are expected home from California by the end of the week.

Carroll Demaree and his friend Wayne Goodwin of Bassett, were in Burwell Saturday. Carroll recently returned from Seattle where he visited Bob Bangert, who is employed in an airplane factory there. Carroll plans to return to Seattle soon. He may accept employment there or he might go to Pearl Harbor to assist in repairing it.

Mr. and Mrs. Jorgensen and their daughter Roma of Ord were dinner guests in the Robert Hoppes home.

Mr. and Mrs. Raymond Hahn of North Platte are in Burwell where they are visiting his parents, Mr. and Mrs. Fred Hahn. Mr. Hahn has discontinued selling Fuller brushes.

Lee Finlayson, his son, Earl, and his sister, Mrs. Ed Dent and daughter, left Tuesday for California. The Finlaysons plan to be employed there until spring. Mrs. Dent will visit her sister, Mrs. Ivan Waters at Bakerfield.

Sunday dinner guests in the Will Beat home were Mr. and Mrs. Leslie Westover and family. Mr. and Mrs. L. J. Garrison and family, Mr. and Mrs. Ernest Rowse and family and Miss Arlene Rowse.

D. C. McCarthy and John Hanks of Taylor drove to O'Neill Monday night where they attended a district meeting of Farm Security representatives. "Food for Freedom" was the topic discussed at the meeting.

Mrs. Clarence Jurgensen entertained the members of the New Century club in her home Wednesday afternoon. Mrs. W. L. McMullen and Mrs. Fay Livermore, the club's project leaders presented the lesson, "When Sickness Comes."

Mrs. M. B. Goodenow was stricken by a severe heart attack Friday which has caused her many friends much concern. Aunt Min, as she is known to all her friends and neighbors, will be 91 in April. Her daughter, Maude, and Miss Meda Draver are nursing her. Dr. Smith is her attending physician. She is at her country home.

Miss Merle Philipps submitted to a tonsillectomy in Dr. Cram's hospital Monday.

The annual meeting of the

Garfield county Farm Bureau will be held in the library basement Tuesday afternoon at 2 o'clock. Officers for the coming year will be elected. E. B. Caterson, of Ainsworth, district extension supervisor, who will be the speaker of the day, will exhibit colored motion pictures showing the work of the Pasture, Forage Livestock program in Nebraska. E. W. Moss, the Farm Bureau president, is very anxious to have a large attendance at this meeting.

John Penas and Henry Douglas drove to Yankton, S. D., on Wednesday where they attended to business for the Burwell Buttery. Enroute Mr. Penas visited a cousin at Osmond.

Mrs. J. W. Harrod, 63, died at her home west of Burwell, early Thursday morning after a long illness. The Methodist church was jammed by the people who came to pay their last respects to her Sunday afternoon and a throng for whom there was no room awaited out of doors. Rev. P. J. Kirk, the pastor, conducted the funeral. Mr. and Mrs. William F. Grunkemeyer, Mrs. Maynard Lakin and Lloyd Alderman sang. Mike Shonka, Raymond Walford, Leslie Olcott, Lem Mills, Albert Dawe and Dewey Demaree served as pallbearers. Interment was made in the Burwell cemetery.

The members of the Riverside club entertained their husbands and families at an oyster supper in the Sioux Creek school house Friday evening.

Mr. and Mrs. Charles Schulzing spent the week end in Lincoln and Raymond, where they visited his relatives. Mr. Schulzing's mother, who came home with them, will visit the Schulzings for several days.

Mrs. Leonard Almquist and son of Central City visited friends in Burwell Saturday.

Mr. and Mrs. Archie Ashman took his father, Charles Ashman, to Omaha Monday afternoon where he entered the University hospital. Mr. Ashman is afflicted with a cancer on his ear.

Mrs. Bob Hoyt, of Wilmington, Calif., visited friends in Burwell Saturday. The death of her mother, Mrs. Joe Clemmy, at Elyria brought her back to Nebraska.

Mr. and Mrs. H. J. Coffin returned home Thursday from a several week sojourn in Omaha and Lincoln. They, Mrs. Frances DeLashmutt and Leslie and Mr. and Mrs. Carroll Walker were dinner guests Sunday in the R. L. Walker home.

Mr. and Mrs. Virgil Beck, Virginia and Miss Gertrude Elm spent the week end in Creighton where they were the guests of relatives.

F. F. Wagner accompanied three truck loads of fat heifers to the Omaha market Monday.

The garage at the J. V. DeLashmutt home was gutted by a fire Thursday afternoon, the cause of which has been undetermined. The building, which was nearly ruined, was covered by insurance. A late model Ford car belonging to Paul DeLashmutt, who is now in California, was severely damaged. Considerable articles of clothing and furniture stored in the garage were damaged beyond usefulness.

Douglas Leach was a week end guest in the Harvey Reed home near Valley View.

Mavis and Maynard Schudel of North Loup drove to Burwell Sunday where they visited their nephew, Marvin Scherbarth.

Miss Gertrude Patrick of Ericson was a week end guest in the Ed Messenger home.

Rex Igenfritz, who is a junior at the College of Education at Greeley, Colo., was elected to Phi Delta Kappa, a national honorary educational fraternity last week. Thomas E. Cain and John E. Opp, former superintendents of the Burwell schools, and many nationally known educators are members of this fraternity.

The Campfire girls added \$17 to the war relief fund of the Red Cross last week by raffling an oil painting "Winter on the Loup" which was the work and gift of Mrs. F. A. Downey. Francis Keefe was the holder of the lucky number. Persons who contributed to the Red Cross war relief fund last week were Mr. and Mrs. John Urbanovsky who gave \$5.00; Mrs. Fred Boettcher, Mr. and Mrs. Charles Hopkins and Mr. and Mrs. George Burch who each gave \$2.00 and the following who gave one dollar each: Thead Nelson, Rev. P. J. Kirk, Hans Rohde, Albert Mohr, Mrs. Albert Evans, Mrs. Vernon Lowery, Al Partridge and William Schmeits. Most of the people in Garfield county have made a contribution to the Red Cross. The drive will continue for several weeks to enable every one to have an opportunity to give. Persons desiring to help swell the fund which will be used to take care of the soldiers wounded on the battlefields are asked to leave their donations at the Bank of Burwell or at Ben Rose's office.

A full house of women eager to learn how to take care of themselves and their families in times of sickness gathered in the old high school assembly hall Monday evening where the preliminary meeting for those interested in the home nursing course which the local Red Cross chapter is sponsoring was held. Two different classes were organized. One will meet in the afternoon and the other in the evening. Classes will be given twice a week. The classes were insufficient to handle all of the women wanting to take the course and Mrs. Elsie Hansen who is chairman of the project hopes to organize a third class which Miss Gladys Miller will teach. Mrs. Roy S. Cram volunteered to instruct the present classes. Mrs. Harry Simons, Garfield county's third registered nurse, has offered her services as an instructor and likely she will instruct a fourth group still later. Plans for conducting classes in rural homes have almost been abandoned owing to the amount of furniture and equipment necessary for conducting the classes. The country women are being asked to register for the work in town.

Arrangements for the first aid classes which the Red Cross is sponsoring are progressing satisfactorily, according to Mrs. Bess Moore, the chairman. Dr. Cram and Dr. Smith have each agreed to teach classes. Twenty-five persons can be accommodated in each class and at the present time both classes are filled. Mrs. Christina Pedersen, a busy ranch woman who lives in Rock county 39 miles from Burwell, is the group's most enthusiastic member. She plans to ride to town with the mail man twice a week to attend the classes. Mrs. Pedersen has waited twenty-three years for an opportunity to receive this training. During the first World War she registered for the work in Germany but circumstances prevented her from attending the classes. Mrs. Pedersen's husband was killed while fighting with the German army. After the war she came to America with her son, Dick, with whom she makes her home.

"Food" was the theme of the Domestic Science club meeting held at the home of Mrs. Henry McMullen, Jan. 21. Mrs. Orville Marquardt, lesson leader, combined "Food and Fun" as a discussion topic, giving suggestions for menus, along with platters, dinners and holidays. She illustrated the forming of rose butter pots, the curling of celery and showed illustrations of floral arrangements. Then, to make "fun" more objective she passed out paper and pencils to the group. The results, later read, demonstrated a simple game with hilarious effects. The leader made a timely suggestion that groups of women might meet at homes for Red Cross work and serving a simple lunch combine food, fun, and patriotic duty. Mrs. Archie Bangert gave a defense talk on preservation of cars and rubber. She brought a pair of cotton chiffon hose the kind the fair sex will undoubtedly be wearing when the merchants' silk hose shelves reach the state of old Mother Hubbard's cupboard. Roll call "adventures in eating" brought first experiences ranging through the list from artichokes to blue points. Still carrying out the epicurean idea the meeting ended with an exchange of beautifully prepared food. The next meeting at the home of Mrs. O. W. Johnson, Feb. 11, will be the annual one o'clock luncheon.

Mr. and Mrs. Adam Dubas entertained four couples at a card party Sunday evening. At the close of the evening a delightful lunch was served. Those present were Mr. and Mrs. John Bartusiak, Mr. and Mrs. Ben Bartusiak, Mr. and Mrs. Frank Ciernowolowski and daughters all of Burwell and Mr. and Mrs. Steve Kapuska and family of Elyria.

There will be a general meeting of the Catholic ladies at the parish hall on Friday afternoon. The election of officers will be the main item on the will be held at the Sacred Heart parish hall on Sunday evening. The hostesses for the evening will be Mrs. Mike Shonka, Mrs. Wayne Fransson, Mrs. Frank Ciernowolowski and Mrs. Adam Dubas.

Mr. and Mrs. John Kusek of Columbus who have just returned from an extended visit in California are visiting around Burwell with friends and relatives.

A son was born Friday to Mr. and Mrs. Fred Cronk in their home at Valley View with Dr. Cram in attendance.

Dr. and Mrs. J. E. Gelow of Grand Island were guests of Mr. and Mrs. L. B. Fenner Sunday. They returned to Grand Island Monday morning. Mrs. Gelow is in charge of home nursing classes sponsored by the Red Cross in Grand Island. Mr. and Mrs. A. I. Cram and Dr. and Mrs. Roy S. Cram were guests of the Fenners Sunday evening when Dr. Gelow showed some of his motion pictures.

Mr. and Mrs. Ralph Sperling and family drove to North Loup Sunday where they were dinner guests in the John Ingraham home. Mr. Ingraham who came home with them, accompanied Mr. Sperling to Omaha Monday with a truck load of fat cattle.

LaRue Nelson was an overnight guest Saturday in the Ralph Sperling home. Mr. and Mrs. George Johnson drove to Beardwell Sunday where they were dinner guests in the home of his uncle, George Johnson.

1,000 People Came in 298 Cars to Blaha Bros. Sale

Quiz Advertising Brings the Buyers, Say Owners Jubilantly

A check of autos at the Blaha sale Wednesday afternoon showed that there were a total of 298 around the place at 2:30 p. m., parked up and down both sides of the road for nearly a mile in all, as well as out in the field to the south and west. It is believed that at least 50 others had left at that time.

It is of interest to note, also that there were a total of thirteen counties represented in the license numbers, which was not at all unlucky for Blahas. There was also one auto present from California. The most of the cars were from Valley and Garfield counties, but Loup, Wheeler, Saunders, Holt, Sherman, Custer, Greeley, Pierce, Boone and Buffalo counties were represented, and there was one from Douglas.

It is safe to estimate the total number of persons in attendance at one thousand, which is one of the largest sale crowds ever seen in this part of the state. Many came early and stayed all through the sale and there was an unusually high percentage of actual buyers which is the one thing that makes any sale a success.

Road conditions were ideal from all directions, and the twelve day period of mild weather preceding the sale date had melted most of the snow and removed the menace of long dis-

ance winter travel. It is estimated that the total distance traveled by all cars, the California car excepted, in going to and from the sale would equal two-thirds the distance around the world.

As advertised in the Quiz, this was a dissolution sale of the Blaha brothers, Frank and John, who found that the business had become too large for them to handle, especially with the farm help problem complicated by so many farm young men being called in the draft.

In conversation with both brothers the fact was brought out that they were highly pleased with the remarkable response to the public to their advertising, placed exclusively in the Ord Quiz; that they highly appreciated the presence of so many people for the sale; and, especially, they appreciated the spirited bidding of those who came to buy.

Feeling that this was a time to increase the number of cattle on the farm no doubt had much to do with the sale of the 215 head of cattle offered, as all lots brought satisfactory prices. The need of horses for farming operations doubtless increased the interest in this part of the sale. The impending shortage of new machinery increased the prices paid for the fine line of farming implements.

As this was to be the largest

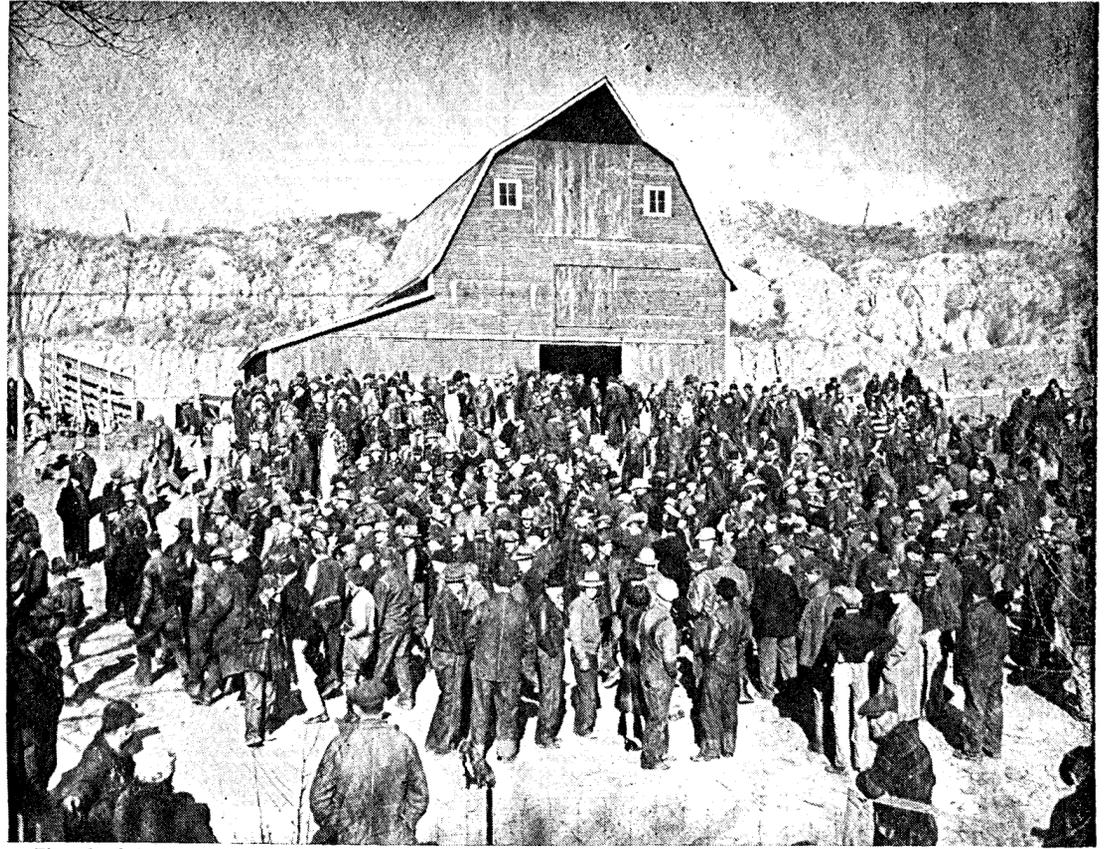

farm sale in central Nebraska this season, M. B. Cummins felt that efficient help would not be amiss, so he called in the services of E. C. Weller of Atkinson, who has been away from Ord for a number of years, but who knows practically every man in Valley county. These two took care of the main part of the work, and were ably assisted in picking up bids by Charles Burdick and Corwin Cummins.

The sale started at 10:30 a. m., with a fine crowd already present, and everything was sold by 4 p. m. The machinery, harness, tools and other miscellaneous articles were sold first, with good prices ruling right from the start especially with the tractor machinery.

During the noon hour and all through the afternoon the Dubas lunch wagon from Burwell did a big business in the dispensing of lunches. The proprietor, Adam Dubas, was assisted by John Bartusiak, who looked after the sandwiches, and by Joe Flakus, who dispensed the coffee and doughnuts.

The sale of the livestock took up the time in the afternoon, the hogs first, the horses following and finally the cattle, which had been corralled in different parts of the yards in suitable groups for rapid sale. The fact that so large a sale could be completed by 4 p. m., is a tribute to Blaha brothers in planning ahead.

Here is Part of Huge Crowd That Watched the Sale of the Blaha Horses

The sale of the horses at the big Blaha sale was held in front of the horse barn, and the above picture was taken from the roof of the house. The irrigation ditch just in the rear and the huge bank of earth thrown up in taking it behind the buildings makes an interesting background. This crowd may not look so large at first, but there are more than 600 people in sight. In spite of the small size of the individuals in the picture it is possible to recognize a large number of them, a tribute to the quality of the camera work, and an indication of the exceptional beauty of the day.

Typical View of the Sale of Herefords—Auctioneers in Action

Only a part of the crowd shows in this photo of the sale of 18 head of fine Herefords, which were sold to C. S. Burdick for \$51.25 each. Auctioneer E. C. Weller is standing in the middle of the feed bunk to the left, and Clerk James Petka of the First National bank of Ord is standing in the bunk to the right. Charley Burdick, the purchaser, is shown at the right end of this same bunk. The man in the middle with the light hat is Frank Blaha.

The Blaha Brothers, Frank and John

Auctioneer Burdick

As the sale neared its close the brothers, Frank, left, and John, right, took a moment's breathing spell to look over the field of operations. Both were tired with the hard grind of the day, but both were highly pleased with the work of the auctioneers, the response of the buyers, and the beautiful weather.

Charley Burdick is in a class by himself as second man in the ring, and has an uncanny ability in picking up bidders and bids while working the ring.

Col. Ernie Weller Shows His Power as a Spellbinder and Auctioneer

Here is another man who needs no introduction to Valley county people, most of whom have seen him in some attitude such as this, when he really gets warmed up on the job of selling stock. Note how he has the eye of the three men to the left, who are potential buyers. Also note the fact that his collar is loosened and his vest unbuttoned. When Weller gets down to business he is one of the hardest working auctioneers in the game, and, what is more, he gets the results.

The Cols. Cummins

When he isn't busy as mayor of Ord, M. B. Cummins find time to do a lot of crying, but not over spilled milk. He is crying in the above photo, but he seems to be enjoying himself at the job. The secret of success in life, they say, is to make yourself necessary, and Bert is one of the most necessary men we have. He doubtless knows more people, and is better informed on stock prices and values than any man in Valley county.

Farm Women Like to Attend Farm Sales—and Play Pinochle

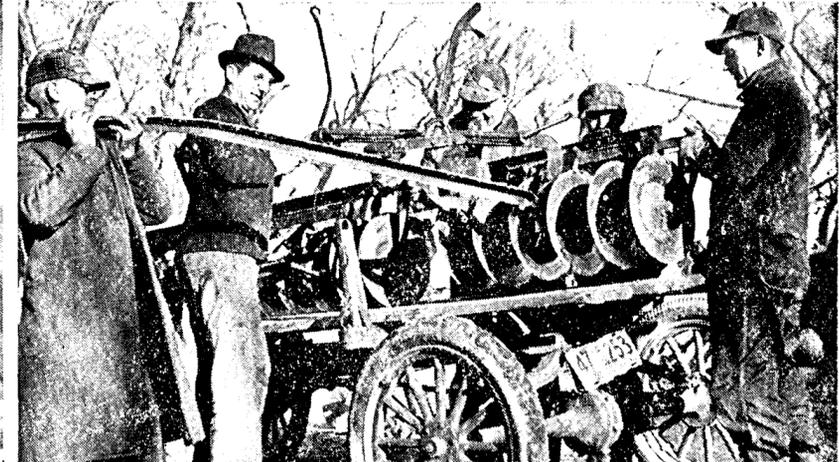

The Blahas are popular people, and so a large number of the ladies took advantage of the lovely day to attend the sale with their husbands and visit in the house while the sale was going on. They watched the selling part of the time and spent an enjoyable hour or two playing pinochle. Mrs. Frank Blaha, standing, is handing a lady a score pad and pencil. The little lady, center, was giving the photographer the once-over.

Neighbors Help Adam Zebert Load This 4-section Tractor Disc

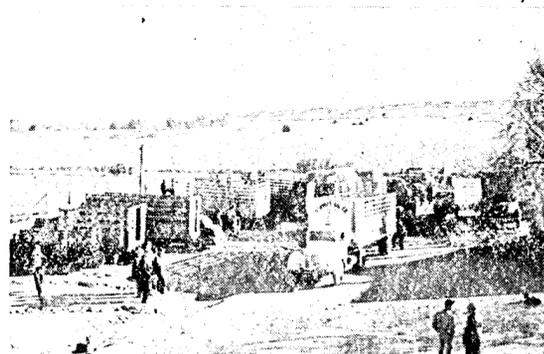

This is a characteristic view of the junior member of the auction group, Corwin Cummins, not as well known yet as his father, M. B. Cummins, but a young man with a great future in the auction business.

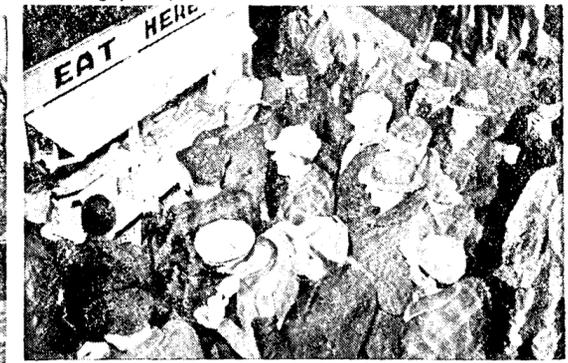

It was one thing to buy the machinery and another to load it for the trip home, but many willing hands make light work. Adam Zebert bought the 4-section tractor disc for \$86, and he had no difficulty in loading it on his trailer, thanks to the assistance of his neighbors. In the picture, left to right, they are: John Zebert, Emil Rutar, Joe Rutar, his face hidden by the angle-bar, Emil Husinski (note the name on his hunting license), John Bower, and Adam Zebert.

It Takes a Lot of Trucks to Haul the Stock Away

The sale proper was over, and these trucks are lined up in the yard awaiting their turn to be loaded with stock, possibly with other items. This is only a part of the trucks that were on hand, but eleven of them can be seen in the picture, which also shows two large cribs of corn, center, and the irrigated field beyond where it was raised.

Hungry Buyers Relish a Lunch Now and Then

Here is the Dubas lunch wagon, run by Adam Dubas, Joe Flakus and John Bartusiak, all of Burwell. They were too busy to pose for their pictures, but they managed to keep the hungry crowd supplied with sandwiches, candy, doughnuts and coffee. Wonder if the inquisitive man in the light hat could be Ray Enger?

Presbyterian Men Entertained.

Wednesday evening the Presbyterian men's group entertained, having as their guests their wives and families. A total of sixty persons were present, and enjoyed a supper consisting of oysters, celery, pickles, tea rolls and coffee, with a huge cake as a finishing touch.

A program followed, in which Dr. G. R. Gard gave the address, which was timely and much enjoyed. Rev. Radliff then obliged with several selections on the harmonica. Mrs. Ralph Misko gave two readings in her usual enjoyable manner, and the program closed with the singing of familiar songs led by Dr. F. L. Blessing.

The general committee for the evening consisted of Roy Randolph, Roy Price, Horace Travis, Rev. Radliff and James Ollis, assisted by sub-committees, chief of which was Ralph Misko, as chef, ably assisted by Will Ollis.

Junior Matrons Benefit.

A Red Cross benefit party was put on by the Junior Matrons club Wednesday evening at the Knights of Columbus hall, there being a very fine attendance. There were 11 tables of bridge, with high prizes going to Mrs. R. E. Teague and Roscoe Tolly.

In the pinochle department there were 26 tables. High scores were held by Asa Anderson and Mrs. George Hastings, Jr., the door prizes for the evening going to Miss Delores Redfern and Olof Olsson. The ladies served a lunch of doughnuts and coffee at the close of play.

Radio Bridge Meets.

Dr. and Mrs. F. A. Barta entertained the Radio Bridge club at their home last evening. Dr. and Mrs. F. L. Blessing have rejoined the club after an absence of several years.

Sunday Dinner Guests.

Guests at a turkey dinner served Sunday noon in the home of Mr. and Mrs. H. D. Leggett were Mr. and Mrs. F. M. Gross, of Albion, Dr. and Mrs. J. E. Galloway, of Grand Island, Mrs. Charles DeForrest, of McCook, and Mr. and Mrs. Truman Gross, of Ord. Movies takes at Cullen lake were enjoyed during the afternoon.

Farewell Party.

A farewell party was given in honor of Mr. and Mrs. Ralph Maslonka at the Onyx Saturday night with fourteen couples present. Mr. and Mrs. Maslonka left early Sunday morning for Marysville, Kas., to visit Mrs. Maslonka's people, and Monday they were to leave for Alhambra, Calif., where Mr. Maslonka has employment.

Elm Creek Party.

A pinochle party was held at the Elm Creek school Friday evening, with eight tables playing. Defense stamps were given for prizes. Mrs. Harry Bresley and Wilson Karre winning high, Iris Warford and Jim Nelson low. All families present contributed to the Red Cross, as well as the Wayne Benson and Clyde Athey families who were unable to come. The sum of \$4.50 was turned over to the Red Cross. Another party will be held Febr. 6 to which all are invited.

Anniversary Surprise.

Friends and relatives surprised Mr. and Mrs. Edward E. Iwanski Friday evening, the occasion being their third anniversary. In the group were Mr. and Mrs. George Hastings, Mr. and Mrs. Mike Noha, Mr. and Mrs. George Iwanski, Mr. and Mrs. Albert Wolf and sons, Mr. and Mrs. Ernest Risan and daughter, Mr. and Mrs. Joe Hybl and daughter, Sophie Goss, Alex Iwanski, Marie Goss and Ed Zikmund. Pinochle and pitch were played and a lunch was served.

Etula Camp Fire.

This group met with Barbara Farley and made plans for an exchange of valentines at their next meeting. Several of the girls are working on afghan squares at the meetings. Each one plans to ask at least at three other places besides their home for waste paper, and will collect it this week end or next week.

Cheskchamay Camp Fire.

These girls met with Joyce Wilson as hostess. They are working on the rank of trail seekers, and also are collecting used postage stamps, tinfoil magazines and daily papers for defense purposes.

Jolliate Party.

Sunday evening Jolliate members and their husbands went to the Wilmer Anderson home where a party was given by the losing members for the others. At bridge, Olof Olsson won \$1 and Mrs. Olsson won \$1, both of them deciding to buy defense stamps with their gains. A midnight supper was served, a jolly time had.

Ed Zikmund Honored.

For his birthday, a party was arranged by Mrs. George Hastings for her father, Ed Zikmund. Couples invited were Mr. and Mrs. Henry Vodehnal, Emil Zikmund, Raymond Christensen, Joe Polak and Paul Geneski. High score was made by Mr. Polak and Mrs. Vodehnal, low by Mrs. Geneski. A fine supper was spread later and heartily enjoyed.

For Mrs. DeForrest.

Mrs. C. A. Anderson entertained at a nicely appointed luncheon on Tuesday for a girlhood friend who is visiting in Ord this week. Mrs. Charles DeForrest of McCook, formerly

Frances Gross. Covers were laid for nine, and bridge followed. Defense stamps were the prize won by Mrs. Truman Gross. The table was attractive with an unusual low centerpiece of Chinese lilies, lilies and iris, giving the effect of orchids.

Wednesday at one-thirty Mrs. DeForrest was again honored at the home of her sister-in-law Mrs. Truman Gross. The luncheon was served at one long table, each place marked by a tiny pot of cactus as a favor. A gay Mexican bouquet of flowers set the motif for the party, and two lazy peons carried a load of cacti at each end of the table. The afternoon hours were pleasantly spent in visiting and sewing.

Engagement Announced.

Miss Myrtle Cornell, daughter of Murray Cornell, of North Loup, is announcing her engagement and approaching marriage to Donald Kapke, son of Mrs. Hulda Kapke, of Pleasant Dale. Miss Cornell attended the Ord schools and later the University of Nebraska, and at present is teaching the primary grades at Pleasant Dale. Mr. Kapke is an employee of the Lincoln Telephone and Telegraph company.

Faculty Party.

At the high school last evening teachers and their husbands and wives gathered for a party, some 35 attending. Dinner before the session, Miss Iris Krebs in charge and her committee of helpers was Misses Koush, Finley, Borg and Prouty. An informal evening of visiting and games followed.

Mark Tolen's Are Hosts.

The Tuesday Evening Bridge club met with Mr. and Mrs. Mark Tolen at their home Tuesday of this week.

At Baker Home.

The members of the Happy Dozen club went to the home of Mr. and Mrs. Clyde Baker Tuesday evening to have their meeting.

Woman's Club Tuesday.

Mrs. Syl Furtak was hostess at her home Tuesday afternoon when the Woman's club met with her. Following roll call Mrs. G. W. Taylor gave her monthly news review. Mrs. Ada Munn gave a biographical sketch of William Shakespeare's life; Mrs. Edward Kokes talked of the work of this most famous playwright.

Ord Pinochle.

This group met Tuesday afternoon with Mrs. John L. Ward, with all members present. Mrs. J. W. Sedlacek won high prize, low went to Mrs. Anna Socha and traveling to Mrs. John Ulrich. The next meeting will be with Mrs. Guy LeMasters Feb. 10.

Social Notes.

Mr. and Mrs. A. J. Ferris and Melvern and Dr. and Mrs. J. W. McGinnis were guests in the Kent Ferris home Friday evening for a waffle supper.

Guests in the John L. Ward home Tuesday evening for pinochle were Mr. and Mrs. Roy L. Severson, Mr. and Mrs. Harry Wolfe and Mr. and Mrs. Bob Hall. Lunch was served at a late hour.

For Melvern Ferris.

A party was held Sunday at the A. J. Ferris home in honor of their son Melvern, who is here from Newton, Ia., where he has been employed. Guests were Mr. and Mrs. George Knecht, Mr. and Mrs. W. J. Helleberg and Richard, Mr. and Mrs. LaVern Duemyer, Mr. and Mrs. Kent Ferris and son and Miss Margaret Frien. The guests came for supper, after which pinochle was played. High for men went to Mr. Helleberg, with Kent Ferris taking low. Mrs. Duemyer held high for the ladies, with Miss Frien low.

Honor Fred Clark.

A dinner was held at the George Knecht home Sunday in honor of the birthday of Fred Clark. Guests were Mr. and Mrs. Fred Clark and son, Mr. and Mrs. I. C. Clark and Mr. and Mrs. A. J. Ferris, Melvin and Dorothy.

Modern Priscillas.

The Modern Priscilla club met Friday with Mrs. Nate Sinkler, their lesson dealing with care of the sick. The members presented Mrs. Sinkler with a pyrex dish. She will leave in the near future for Chickasha, Okla., to join her husband.

Teaches Knitters.

A group wishing to learn to knit met at the home of Mrs. Emil Fafelta on Friday, where Mrs. Ed Gnaster instructed them. Included were Madams Russell Jensen, William Darges, Ed Oetken, Ernest Horner, Henry Enger and Miss Mabel Misko. If you would learn to knit, phone Mrs. Gnaster or Mrs. Fafelta. Mrs. Robert Noll has offered to teach any left-handed women who wish to knit, as she is left-handed. The Red Cross will be glad to have you volunteer to knit too; do it now.

Farewell Party.

Honoring Miss Marianne Gregory, Junior Auxiliary members went to the Joe Gregory home last week for a jolly time. Madams Cecil Clark and Vern Russell were chaperones for the evening of games. The honor guest was given a lovely gift.

already exist in Valley county, having been appointed early in December by C. J. Mortensen, as county chairman. These committees will swing into action at once and are busy now perfecting their organization.

Committee chairmen for Ord are as follows: Churches, Rev. W. Ray Radliff; publicity, E. C. Leggett; banking, Ralph Misko; education, C. C. Thompson; insurance, J. T. Knezacek; women's organizations, Mrs. E. L. Kokes; service and professional, Clarence M. Davis; agricultural and livestock, M. B. Cummins; retailing, J. R. Stoltz; fraternal, R. E. Teague; veterans' organizations, James Gilbert; speakers' bureau, George Munn. County and local chairman is Mr. Mortensen and Curt Gudmundsen is secretary.

Pledge Cards Coming. Banks and postoffices will sell bonds, every retailer will sell stamps, and stamps also will be sold through the churches and schools. Through what is known as the payroll allotment plan every wage earner in Valley county will be asked to sign a pledge card authorizing his employer to withhold 10 per cent of his salary weekly and when enough accumulates to buy a bond with the money and turn the bond over to the employee, this procedure to be followed for the duration of the war. House-to-house solicitation will be carried out in residential districts to secure pledges from people who have retired and are living on income. Owners of businesses and professional men are asked to sign pledges to buy bonds to the limit of their ability to do so. Even WPA workers will be asked to buy stamps with 10 per cent of their earnings.

The meeting held here Monday night was the first to be held out-of-state by Chaff and his deputy, Mr. Spitznagle, but within the next 60 days they hope to hold similar group meetings everywhere in Nebraska. Already organizations have been perfected in Omaha and in Lincoln. In Omaha, only place where bond and stamp sale records are complete to date, 2 1/2 million dollars worth have been sold since the first of January.

3-Valleys Music Clinic to Be Held and B. Bow Preparations for the Three-Valley music clinic to be held at Broken Bow on March 20 and 21 were made recently at Arcadia when Music Director Henry L. Deines went from Ord to meet instructors from other schools. This type of music clinic is being tried out for the first time in this section, replacing the music festival Ord has had other years. Eight schools will cooperate; there will be approximately 80 people in the clinic band, 50 in the orchestra and from 80 to 100 voices in the chorus, each school being represented in each group.

Chairmen for the three groups of the clinic are: Mr. Deines for the band; Mr. Sell, of Loup City, for the orchestra; Mr. Lambert, of Arcadia, for the chorus. On the first day these three music instructors will direct their groups. The second day Mr. King of Hastings college will direct the clinic band, and Mr. Fuhr of the same school will direct the chorus, while Mr. Hill will come from Alliance to be guest director of the orchestral group. Very fine things are hoped for from the clinic, and Mr. Deines and those in charge are working hard to perfect plans for the two-day meet.

BACK FORTY

By J. A. Kovanda

The farmers' strawstacks are helping to win the war. A crew of local men has been busy baling straw over the county for several weeks, and will probably keep it up as long as the straw lasts. They are shipping away the baled stuff for use as packing for explosives, making paper, and various other purposes. The crew usually bales a farm-er's straw on shares for one-third of the bales, and can turn out 400 bales per day. Thus a farmer may contribute toward the defense effort, get his straw baled for nothing, and still have most of it left.

Straw in bales has several advantages in addition to being more convenient for handling. Most every kind of shed or temporary building has been built out of straw bales. The straw can be fed during an emergency. Straw alone will not sustain life, but may be used for part of the ration. Considerable livestock was carried thru the winter of 1934 on a feed of straw supplemented with cottonseed meal or a little alfalfa. Growing steers wintered on good straw with a pound or two of cottonseed meal per head daily, will more than maintain their weight.

Oats straw with its soft stems is the most nutritious, followed by barley straw. Wheat straw, being coarse and stiff, is not so readily eaten, and rye straw, harsh and woody, had better be used for bedding. The chaff of wheat or oats contains more protein than does the straw, and is a useful roughage. Straw is a poorer feed than cornstalks.

Ord Clinic Notes. Mrs. Kenneth Timmerman was released from the hospital Sunday. Mrs. Harold Bennett of Cotesfield was a medical patient of Dr. Weekes last week.

Martin Sonnenfeld of North Loup, submitted to minor surgery Saturday. Ed Johnson, of Ericson, was in Dr. Weekes' office Monday.

Ord Library Notes. "Be a Book Buddy". We are still asking you to give books for the service men. Assemble as many mystery stories and westerns as you can find. Give biographies, travel literature, books and hobbies. But keep in mind that you are giving books to boys, not boys' books. You know what men in the service want. They want the same books that interest the men in your family. "Be a Book Buddy". For you people who enjoyed Gunther's "Inside Asia" and "Inside Europe" we now have his "Inside Latin-America". Then we have the O. Henry Memorial Award Prize Stories of 1941. If you like short stories come in for this new book. Have you seen the "Subtreasury of American Humor" by E. B. and K. S. White? While other people were collecting stamps, match books, and what not, these two people have for some time been saving the finest and funniest pieces written by American humorists. They have now assembled their wits in "The Subtreasury of American Humor." Poetry lovers should enjoy the new book of Pulitzer Prize Poems just placed in the library. Look over our shelves. You might be surprised at the number of new volumes we have. We are now getting the 1942 copyrights so see what the new books are like. Make it a habit of visiting the library whenever you want something to read.

Washington, D. C.
NEW SELECTEES

It needed no mind reading to fathom what was behind that war department announcement of the purchase of 700,000,000 feet of lumber and 240,000 kegs of nails—the biggest order of its kind in U. S. history.

The materials are for the construction of numerous new army cantonments and the enlargement of existing ones.

Army strength, down to 1,600,000 after the demobilization of 28 to 35 year olds last fall, is due for a big increase—at least another 1,000,000 after the next draft lottery following the February 16 registration of men between 21 and 44.

An estimated 24,000,000 will register next month, and on the basis of past experience only about 5 per cent will be rated 1-A; that is, subject to immediate call. Heretofore the army has inducted only men in good physical condition, with no dependents and not engaged in "essential" production.

However, as the need for military manpower develops, 1-A standards will be broadened and many thousands of 1-B, 2-A, and 2-B draftees by pre-war standards will be called up.

For the present, the army still is placing primary emphasis on youth. The February 16 registration is expected to list around 2,000,000 20-21 youngsters and the largest proportion of new inductees will come from this group. Registrants in the 36 to 44 group will have to be in top condition to get in the army at this time.

However, big scale inductions from this age group can be expected by fall, particularly those with no dependents and with previous military service.

For the present the army will take its older-age recruits from the 23 to 35 year olds who were exempted because of dependency or defense work.

Choice GRADE "A" MEATS

In Valley county we have as fine cattle feeders as there are in the world. Often their cattle top the market at all the midwest markets. Meat from these animals is sold at premium prices in the fine hotels and markets of eastern cities.

When we buy and butcher top animals from the feeder herds of Valley county we assure you of "Grade A" meat. But we don't ask a premium price, for by buying and butchering here we save freight and commission charges, and the middle man's profit. Get the best here.

NORTH LOUP NEWS.

Rev. Earl Cruzan and his wife and baby daughter are expected here the last of this week and will be house guests of Mr. and Mrs. J. L. Cruzan. They are en route to Boulder, Colo., from Waterford, Conn., where he will become pastor of the Seventh Day Baptist church. Earl is the son of Mr. and Mrs. Roy Cruzan and grew up in the Union Ridge neighborhood, graduating from the North Loup high school in '33. He went from here to Salem, W. Va., where he attended Salem college and later to Alfred, N. Y., for his theological course. He will speak at the Seventh Day Baptist church in North Loup Saturday morning.

QUIZ FORUM

We Honestly Represent Our Districts.

In their issue of January 22, 1942, the Ord Quiz carried an article accusing the Supervisors in Districts One and Two, namely Joe Jablonski and Joe Suchanek of playing politics.

We, the undersigned know the above statement to be untrue, and in fairness to ourselves and the people we represent we want to make the following statement.

E. C. Leggett, appearing for the Quiz, stated the Quiz would not divide the 25c per column inch fee allowed by Nebraska statutes for printing board proceedings with other papers in the county. Both the Loyalist and The Arcadian agreed to an even division of board proceedings fees if appointed official paper for Valley county.

It is our belief that all the people of Valley county should have the right of reading the proceedings. It is also our belief that the fee for publishing them should be divided so all the papers in the county get their just share.

In trying to be fair to our districts and the county as a whole, we could not vote to give the entire fee for printing board proceedings to any one paper. This is the reason we did not vote. In all of the surrounding counties, this fee is divided among the papers.

Included in the Quiz article of "WHOSE SUPERVISORS", was this paragraph: "This is not the first time Messrs. Jablonski and Suchanek have denied the interests of their own people to play politics."

If serving our districts and the county as a whole to the best of our ability is playing politics—then we gladly admit it. However, we don't believe the above statement means just that. The fact that we have not shown partiality leads us to believe that we are being accused of playing politics. In doing our duty as we see it, not even a newspaper can command our vote. We are sure the people of our districts, and the county as a whole, will

AAA News Notes

There has never been a time in the history of the world when so many people were conscious of food and its importance as is the case today. Over five hundred million people in Europe are on rations. If they are in the army, they probably have enough to eat. If they are civilians they are hungry most all of the time. In the United States we have enough for guns and food too. Our farm program is a flexible one and can be used to readily step up production. As you already know the ever normal granary is now being used to increase our supplies of dairy poultry and pork products. They are things we need. Due to the increasing uses for corn it has been found advisable to raise the national goal for corn production in 1942. The announced 10 per cent increase in corn acreage applies to every corn allotment in the commercial corn area. Valley county is in that area.

The big job ahead for all of us is making war and achieving victory. Hedging is past, we need now to think and act for the definite purpose of offense. We can do our part by gathering up unneeded scrap iron. Do it now before another snow comes, have it ready to be delivered when the car is at the loading dock. Watch for the announcement of a definite date in this paper.

Agriculture's main job is to make the most effective use of the farm plant in producing Food for Victory. Be sure your machinery is ready to do its share. Order needed repairs now.

Cars for Business
More than 60 per cent of all passenger car driving in the United States is for business purposes, according to a survey by the United States public roads administration.

To the Milk Users of Ord and Vicinity

This week we completed negotiations for the purchase of the Clayton Noll milk route, which we are consolidating with our own route. The consolidation becomes effective February 1.

REDTAP BUSTER

Ordnance is the haughtiest and most hide-bound branch of the army. So much so that it has been the object of much bitter private criticism by civilian defense chiefs.

But there is one notable exception to this Ordnance rule. He is William Van Antwerp Kemp, a tall, husky, dynamic engineer, who made a big success in private business and volunteered his services when the national emergency arose. Since then, as an Ammunition division executive, he has been making history, busting redtape in traditional Ordnance.

There are many tales of Kemp's unconventional exploits. The latest is one of the best.

Asked by a general to suggest a manager for a new government munition plant about to begin production, Kemp recommended a crack expert who had been loaned to the British to build a plant in England.

"He ought to be finished with his job over there by now," said Kemp.

"If he is, get him," was the order.

From the British, Kemp learned the expert had completed his work and was available. So Kemp picked up a phone and called the state department.

"I want to talk to the guy," he said, "who gets guys back from England."

There was a gasp, but the operator switched Kemp to someone who asked him who he was and what he wanted.

"I'm Kemp of Army Ordnance," he said. "There's a guy in England we want to run an ammunition plant for us. Get him back here right away, will you?"

Six days later the expert reported to Kemp and left for his new job.

A few days later the general again summoned Kemp, asked what had been done about the expert.

"It's all taken care of, general," said Kemp. "He's been on the job at the plant two days."

"How did you get him back here so fast?"

"No trouble. I just called up the state department, asked for the guy who gets guys back here and he arranged it."

"Kemp," said the general severely, "do you know what that guy in the state department was?"

"No, sir."

"He was the undersecretary of state."

Note: Kemp has persistently refused to accept an army commission. Finally, pressed by the general for the reason, he retorted: "Some day I may want to come in here and blow up. If I do, as an officer you could court-martial me. But as a civilian, all you can do is fire me. I'm remaining a civilian."

JAP SCHOOL LESSONS

After three years' probing of subversive activities, it takes a lot to excite Rep. Martin Dies, but the other day the rangy Texan hit on a discovery that took his breath away.

His committee has been making a sweeping inquiry of Jap fifth-columning on the West coast, including subversive teaching in Japanese language schools located all over southern California. Investigators found that from the primary grades up students in these schools are indoctrinated with militarism and the ideology of their Jap ancestors.

Cain Sunday.—Harold Christensen spent the week end home.

IT HAPPENED IN ORD.

They didn't all happen in Ord this week, but they properly belong in this column. Rev. C. Szumski of St. Mary's Catholic church of Elyria was a busy man with his movie camera at the Blaha Bros. sale Wednesday. He had a beautiful day for the job, and many chances to take interesting pictures. He said he planned to show them to his parishioners, and here is hoping he shows them in Ord some time also.

Elmer Miller, who lives north of Burwell, but who is known all over this section of the country, went to Omaha recently and drove home a new International K-5 truck. He just got under the wire, as the sale was restricted almost immediately afterward. He certainly was pleased with his good fortune, as he does a great deal of trucking.

A long time ago a man was in the hardware business on the north side of the square, and he had a plumber named Guy working for him. One day a traveling man was in the store, and he asked the location of the toilet, and was told where to find it upstairs. Soon he came down in a dither of excitement, saying he had lost a very valuable gold watch and chain in the toilet. It cost \$50, and he would not take twice that for it, as it was a present from his mother. This Guy had put in the plumbing and he thought there might be a chance of finding the watch in the trap down below, so he took the plug out of the trap, fished around, and being a good fisherman, he finally recovered both watch and chain, which he cleaned carefully and returned to the owner. The traveling man was so overjoyed that he offered to buy Guy a small glass of beer, which the latter refused. When the drummer was gone, the boss says to Guy: "I suppose he handed you five dollars for your trouble?" When he told about the beer offer, H. B. got mad and he said to Guy: "I'll never buy another cent's worth of goods from that cheap skate as long as I am in business in Ord". And he never has.

Sentiment Against the British Still Exists in United States... Nation World Food Center...
(Bell Syndicate-WNU Service.)

WASHINGTON. — For as many years as this war may last, and perhaps—if the Churchill dream of the role of Britain and the United States during the years to follow should come true—for many years longer, it is highly essential that anti-British sentiment in this country should be submerged.

This war already has developed a sequel to the "Britain is willing to fight until the last Frenchman dies" of the last war. For instance the story of the men of various nationalities in the airplane, when it became apparent that the plane could not surmount the mountain range, and gain safety, unless most of the passengers jumped. The Frenchman jumped first, then the Belgian, the Hollander, the Dane and the Norwegian, each with a patriotic utterance. Finally came the Englishman's turn. Shouting, "There will always be an England" he pushed the Greek out!

The fact that this story is being told, and with some relish, from New England to the Pacific coast, means something. Actually if the Britisher, in that story, had pushed out an Australian it would have come closer to meeting the criticism so many Americans have been voicing in conversations.

Few British Soldiers?
This is based, very largely, on the headlines in newspapers about the fighting in Africa, in Greece, in Crete, and more recently in Malaya. It seems to the average newspaper reader, and radio listener, that very few soldiers from the island of Britain are fighting the empire's enemies. We get so many reports about this or that Canadian or American flier being shot down, and about Australian or South African or Indian troops making attacks or defenses, that even the few pro-British citizens of the United States wonder about it.

The answer is very simple. Just a few days ago Sir Gerald Campbell, chief of the British Press Service in the United States, gave out the total casualties of the fighting in the first Libyan campaign, in Ethiopia, Greece and Crete. Casualties among men who had come from the island of Britain, which includes only England, Scotland and Wales, were 100,000. Australia had 5,000, New Zealand had 5,000 more. India had 7,000 and South Africa 4,500.

Twenty times as many men from Britain perished, were wounded or captured, as men from either Australia or New Zealand. Almost five times as many casualties among British troops as among the Australian, New Zealand, Indian and South African troops put together!

Now this is no reflection on the dominions or colonies. Far from it. Actually the Indian and Australians and others have been going, pretty much, where the high command thought it best for them to go. And it so happened that the generals who ordered the troops into dangerous positions were Britishers.

The fault which encouraged this total misunderstanding not only in America, but in Australia, where there have been many protests about the sacrifice of so many Australian troops, is simply due to a British publicity policy of giving full credit—advertising if you like—to the overseas recruited forces.

Uncle Sam'll Supply Food
Outside the fighting forces, the most vital worker in America today is the one dealing with metals. But a very close second, in the national defense picture, is the man or woman producing certain varieties of food, particularly proteins.

Milk, eggs, beef rank right next to munitions, and not very far behind at that. More stress is being laid upon munitions, because up to now—leaving out World War No. 1—the production of enough food has never been a problem in this country.

The British wanted to sell their manufactured products all over the world, particularly in South America, before the war. So they built up a big business of selling to Argentina, taking beef and grain from that country. They bought bacon, eggs, etc., from Denmark, hams from Poland, and to a lesser extent other food products from overseas.

Continental European sources were lost to them early in the war, while the shipping shortage made it impractical to spare the ships to bring food from the Argentine.

Now in this war there is a great deal more discrimination as to the categories of food to be shipped to Britain than there was in the last war. We are more conscious of vitamins. The British are terribly short of meat, eggs and milk. We are able to send powdered milk, dried eggs and meat extract, but while this concentrated form helps a great deal in the matter of shipping space the same amount of production is necessary.

NORTH LOUP

Mr. and Mrs. I. L. Sheldon left Tuesday morning for Denver for a ten day visit with their son Ross and family.

Mr. and Mrs. Harvey Ekhardt of Sterling, Colo., were Sunday and Monday guests of Mr. and Mrs. William Worrell and Mr. and Mrs. Bates Copeland.

Mr. and Mrs. Delbert Bridge and Leonard Manchester returned from Ogden, U. S. Sunday.

Madine Tyrel returned to Ord on the Monday morning bus.

Ruth Hawkes, an army nurse, who has been stationed at Camp Robinson, Ark., has been transferred to Jefferson Barracks Mo., according to a letter received by her mother, Mrs. Jennie Hawkes. The present camp is 20 miles from St. Louis, is an old army post made up largely of tall brick buildings with a few new wooden ones mixed. The camp is a basic training and replacement center for the army air corps. Twenty nurses who had been at Camp Robinson had been transferred to Jefferson Barracks, only four of them being friends of Ruth's. She said their equipment was not nearly as good as what they had at Camp Robinson, their hospital old, with a newly completed ward built on. The nurses were served their meals in the dining room of the nurses' home, and not in the officers' room with the doctors as at Camp Robinson. She was well when her letter was written but rather blue and lonely because of the new environment.

The Wayne King family spent Sunday at the Will Earnest home. Will Earnest is still in the Veterans' hospital in Lincoln where last week he submitted to a major operation. His return home is indefinite.

Jane Hoepfner left Sunday evening by train from Grand Island for Denver where she will remain for some time.

Mrs. Roy Cox was hostess to the Nolo club Tuesday afternoon when the second half of the membership roll gave reports on some book or article they had read during the year.

Mr. and Mrs. Irvin Worrell, of Leroy, Ill., are parents of a 9½ pound son born January 23. Mrs. Worrell is the former Bernice Naeve. Mrs. Oyce Naeve is with her daughter.

The Legion and Auxiliary held a meeting Monday night in the legion hall. The Auxiliary plan to hold a tea February 12 at the home of Mrs. H. J. Hoepfner with Mrs. Graf assisting.

District Deputy president, Lola Thomas of Ericson and her staff installed officers at the meeting of the Rebekah lodge Thursday night. Elective officers installed were Laura Smith, noble grand; Ann Millhollin, vice noble grand; Beulah Stine, secretary; Erma Eberhart, treasurer. Notes From the VALLEY COUNTY FARM BUREAU

By C. C. Dale

Dairy products are vital to the Food for Victory program, and their production must be increased if we are to have enough for our own people and for export to our allies.

The U. S. D. A. war board for Valley county wants farmers of the county to increase dairy production but recognizes that there are problems which must be considered. It is not possible to make a great increase in the number of milk cows on the farm in a short period of time.

Because of the higher cost of protein supplements such as soy bean meal, cottonseed meal, and linseed meal some farmers hesitate to feed them now. It is absolutely necessary to supply the proteins to keep up production and doubly important where alfalfa hay is not available.

Extension Circular No. 604 "Feeding Dairy Cows Under Nebraska Conditions" can be secured at the County Agent's office and has some excellent suggestions for grain rations, to be fed to balance up the various kinds of forage.

Some of the suggested rations follows:

Ground Barley, 200 lbs. Ground Oats, 100 lbs. Soybean Meal, 100 lbs. This ration contains 16.4% protein and is suitable for use with cow protein roughage such as prairie hay, corn fodder, corn silage, cane or millet hay.

In either of these rations, corn, barley or grain sorghum may be used wherever one of them is specified, as they supply about the same feed elements.

These are only two of the many rations suggested. Farmers who are interested in increasing their production should ask for a copy of this circular.

Adolph Stobbe Dies.

Adolph Stobbe, formerly a resident of Valley county and more recently a Hall county resident, died last Friday in a Des Moines hospital. The Stobbe family had been living in Maxwell, Ia. for the past two years. The body was returned to Grand Island for burial Tuesday, and the funeral was attended by several families from here.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

President Sketches World Strategy; Australia Is Periled by Japanese Army Invasion of Its Key Island Outposts; Nelson Speeds Up U. S. War Production

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

Sumner Welles, undersecretary of state and head of the U. S. delegation to the Pan-American conference at Rio de Janeiro, Brazil, is cheered by spectators as he waves his hat from the Tiradentes palace, scene of the historic meeting.

BLUEPRINT: Of World Battle

While the nation girded itself for victory production on a scale never hitherto dreamed of, and while American soldiers were arriving on foreign fields ready to do battle until victory, while still others were filling the news with their heroic exploits, President Roosevelt gave newsmen a hint of the "blueprint of battle."

The President, following the close of the Churchill conferences, and the safe return of the British premier to London by airplane from Bermuda, had told little to newsmen save that there was a complete accord among the united nations.

Now he had begun to give them the picture, a portrait of battle carried on simultaneously in every part of the globe by the soldiers of all nations working in concert with each other.

Thus were found American aviators fighting in the Singapore area, with the Dutch in the East Indies, in the Philippines, over the Seven Seas, and most lately arriving in Britain and other points for service.

The President said one could look at the map of the world and assume that the anti-Axis group was doing something of almost every strategic point.

He said that joint technical committees were busy, covering the subjects of production, of transportation of produced supplies to every part of the globe, also to the assignment of fighting men and machines to points where they were most needed.

While all of his information had been of a general nature, the nearest he came to giving out details was when he said that excellent progress was being made in strengthening the Allied forces in the Pacific.

This latter statement was taken by the press to be an attempt by the President to allay Chinese fears that the Allies were not going to make a vigorous enough battle against the Japs.

The President had finished a conference with Dr. Hubertus Van Mook, lieutenant governor general of the Netherlands Indies. Dr. Van Mook came out of the conference room beaming.

JAPS: Extend Fronts

The Japs, far from being licked or even stopped, were constantly extending their front, and with reports of their continued advances spreading out with attacks on all fronts, came dispatches telling of two new ventures. These were the invasion of New Guinea and the Solomon island area; and an invasion of Burma by the Siamese as a measure to aid Japan.

Indicating a threat to Australia itself, the New Guinea invasion was paced by air attacks and a movement of naval forces. The Solomon islands lie in a chain northeast of Australia and east of New Guinea.

The Burma invasion had started at Myawaddie on the Burma-Thailand frontier. This lies at the northern end of the Burmese panhandle bordering the puppet country.

It had not been unexpected, and General Wavell's headquarters some time before had told of Chinese reinforcements to the Burmese troops, apparently sent there for just such a contingency.

The invaders also seized the port of Tavoy, which bisects the panhandle and gave the Jap-assisters a good advantage in opening the fighting.

Jap fliers were reported to have occupied a flying field at Tavoy, and repaired out to attack with bombs the important cities and ports of Moulmein and Rangoon.

PRODUCTION: OPM Finally Dies

The OPM, over which William S. Knudsen and Sidney Hillman had presided as twin geni for many hard-working, hard-fighting months prior to American entry into the war, finally died, Production Chief Donald Nelson supplanting it entirely with his new War Production board, probably to be known as WPB.

Mr. Nelson, however, had "portfolios" in his new series of divisions for most of the key men in OPM—for it was not so much a junking of an old organization as a revamping of it on a streamlined basis.

The placing of one man, Nelson, at the head of the war production effort, also necessarily called for a change in organization.

This was undertaken fearlessly by Nelson, who created five primary divisions, most of them utilizing as heads former members of the organization of OPM, SPAB and other groups.

Leon Henderson still was in charge of civilian supply; Hillman still had the labor job; Stacy May was "progress reporter," and so on down the line.

Probably the first and most vital job, almost coincidental with the naming of Nelson himself, went to Knudsen. The big motor man became a Lieutenant General, in direct charge of the speeding up of factory production in general, that is, as far as Army procurement was concerned.

But the man who was to be most in the public eye for the next few weeks was Ernest Kanzer, a new figure in the picture, who was named automobile production czar—not of automobiles, but of what the auto factories are going to make.

MAC ARTHUR: Resistance

As if to prove that the defeat of his army had been prematurely predicted, General MacArthur sprang a distinct surprise on Washington and the country's newspapers when he reported that American-Filipino resistance was continuing on the island of Mindanao in the vicinity of Davao.

An all-out Japanese effort to turn the Luzon defenders' right flank had earlier been turned back with heaviest Jap losses, and yet the danger was far from over, for the Japanese were reported returning to the attack again with vigor.

It was reported that an entire Japanese army—estimated by some as many as 300,000 men—had been thrown into the battle for Luzon and the whole Bataan peninsula front blazed into action in a renewal of the Japanese attempt to crush the defenders.

But the word from MacArthur's headquarters that fighting was continuing in Mindanao came long after official Washington had given up Mindanao for lost, and simply showed how difficult communications were in the area.

It was believed possible that MacArthur himself had thought Mindanao gone until he received belated word from the southern island that the battle was still in progress.

CRITIQUE:

A dual report on profiteering came before the legislative bodies of the congress, the Truman report and the Vinson report—named for their committee chairmen, the former rushing into print and into the press a few days ahead of the latter.

That congress, aware of the huge character of the hurling of 56 billions into war production in two short years, and of what this might mean if profits were allowed to go beyond certain limits, intended to clamp the lid down was evident.

'March of Dimes'

Alma F. Borgmeyer, clerk in the mail room at the White House, opens mail bags jammed with "March of Dimes" letters addressed to President Roosevelt and designed to aid in the fight against infantile paralysis. The mail was reaching its peak just before the President's Diamond Jubilee Celebration on January 30.

SUB ATTACKS: Intensified

Submarines, probably German U-boats, were pressing their attacks along the East coast of the United States, but the Navy department had reported that strong counter measures were being taken.

The whereabouts of the navy's chief strength was being kept a closely guarded secret, but all authorities from the President down continued to insist that the navy was extremely active, and was disposed in such a manner as best to meet present threats.

The sinking of a Japanese cruiser by navy bombing planes was announced, and there had been a number of sinkings of supply ships, some of them close to Japan.

Most dramatic had been the exploit of PT-boat division commander Lieutenant Bulkeley, who shot his own boat at 80 miles an hour into the Bay of Olongapo, sent a 5,000-ton Japanese vessel to the bottom and escaped unscathed.

Bulkeley's boat, a 77-foot speedster, carries heavy machine-guns and 18-inch torpedoes. He was being hailed as a hero almost on a par with Colin Kelly.

The cruiser sinking lacked details, but the navy said it was sent to the bottom 100 miles off the island of Jolo, one of the nearly 8,000 isles of the Philippine group.

Where the American bombers which did this trick and achieved other victories were based was a closely guarded secret, but there were many possible bases in territory within reach of the location where the sinking occurred.

PRICE CONTROL: 'Joker'

The price control bill, sulking in the house and senate conference under the baleful displeasure of the President, continued to bog down as prices continued to soar.

The farm relief "joker" in the bill had met with condemnation, not only from the White House, but from many leading agricultural centers, and this remained the main point of controversy in the bill.

In the meantime, Secretary of Agriculture Wickard came out with a statement that there probably would be a shortage of sugar, just after all the refinery men had gone out on a limb with the opposite prediction.

Sugar hoarders and other purchasers of foodstuffs were continuing to storm grocery stores and cartoons were published under the caption "this little pig went to market" showing hoarders at their deadly work at the grocery counters.

Administration circles were at their gloomiest over the situation, one source saying "we had hoped to get an improvement over the house bill when we got to the senate, but the senate bill was worse than the house bill and now most of us would be calling it a victory if we could get the house bill enacted."

MISCELLANY:

Bern: German rationing has cut men down from five cigarettes a day to three. Women are allowed no tobacco ration whatever.

Vichy: A German soldier was shot and killed outside a Paris night club. Police were able to arrest a young girl said to have been a witness. She was confronted with a dozen suspects and ordered to pick out the man who fired the shot.

Batavia: The Dutch admitted the loss of Minahassa, the northern portion of the island of Celebes. It was the second severe loss of oil-important islands in the N.E.I.

London: Already work was in progress reviving the "scorched areas" of Soviet Russia retaken by the Red army. It was announced that Sir John Russell had been named advisor to the board, and would go to Russia with American, Canadian and British help to put Russian production back into being.

Playing basketball at North Loup this season are Gordon Portis, Donald Hutchins, Donald Babcock, Dale Gilmore and Donald Waller, who comprise Coach Elley's starting lineup, and also Harold Portis, Dale Mulligan, Guy Kerr, Virgil Nolde, Ike Babcock, Jim McCall, Lyle and Alvin Manchester and Bob DeNoyer. All of them, including Coach Elley, are shown in this picture of the squad.

Air Mail Service for Valley Towns Proposed

The Century Aviation Company, of Wayne, has filed application with the Civil Aeronautics Authority in Washington for a permit to operate two air mail and air express routes, one of which will serve Ord, North Loup, Burwell, Greeley, Ericson and other towns in central Nebraska. The application is the first filed for such a certificate of public convenience and necessity to serve the sections of Nebraska, South Dakota and Iowa included in the application.

Automatic pick-up and delivery of mail, following a system used successfully in the east for several years, is contemplated in the application.

One air mail route would leave Grand Island at 10:30 a. m., pick up and deliver mail in North Loup at 11:24 a. m., in Ord at 11:28 a. m., in Burwell at 11:35 a. m., in Ericson at 11:45, in Bartlett at 11:55, and then proceed to Chadron by way of O'Neill, Valentine and Gordon, handling mail at all towns enroute. Arrival in Chadron would be at 1:55 and a 30 minute refueling stop would be made. Afternoon schedule would take the plane as far west as Alliance and then back to Grand Island, arriving there at 5:38 p. m. Forty seven towns would be served by this route.

Another route would leave Sioux City at 1:00 p. m., daily, going north to Vermillion, S. D., west as far as Wagner, S. D., and returning through O'Neill, Neligh, Albion, Madison, Norfolk and other eastern Nebraska cities to Sioux City at 5:57 p. m. R. G. Fuelberth, of Wayne, president of the new company, announced that due to heavy defense needs it is not probable that the CAA will take immediate action on his company's application, but since various sections have asked such service he expects some action to be taken within a few months.

Loan Associations Meet Here Febr. 4

A large number of farmers and their wives from Garfield, Loup and Valley counties are expected to attend the 25th anniversary celebration to be staged at the Bohemian hall in Ord Wednesday, Febr. 4 by the Burwell, Loup Valley and North Loup Valley National Farm Loan associations.

In announcing final plans for the gathering of landowners, W. J. Hather, president of the North Loup Valley association, said the meeting will feature a dinner for the members, prize awards and other entertainment. The anniversary celebration

marking the 25th year of the cooperative farm loan system, is being held in connection with the stockholders annual meeting of the North Loup Valley, Burwell and Loup Valley National Farm Loan associations.

Mr. Hather said the get-together of farm home owners will start at 10:00 a. m. with the association's annual business session. James B. Ollis, secretary-treasurer will report on the association's activities during the year and the members will elect one director to the five man board which directs each association's activities.

Dinner will be served at noon by the Methodist church. Highlighting the afternoon program will be the entertainment features and talks by Robert Vance, world traveler and lecturer, and a representative of the Federal Land Bank.

Indications point to a record turnout for the 25th anniversary meeting Mr. Hather said. Invitations have been sent to all farmers holding loans through the association and the Federal Land Bank and contract purchasers.

Red Cross Quota Is Increased to \$2,250

(Continued from page 1)

William Stanton, 90, making a total of \$3.30. If the person who gave this goose will telephone Mrs. Parkins or Mr. Gudmundsen, full credit will be given.

Ord Cosmopolitan club gave the magnificent sum of \$101.42 which they made at their smoker for Ord men a few evenings ago. Lodge Slavin No. 112 turned in \$21.30; Edward Vodehnal gave \$1; Anton Wehniak gave \$2.05; Stanley Golka gave \$1.10; Tom Paprocki \$5.

Anton Sedezek gave \$1 to the Red Cross war fund; Joe Rutar \$1; Roy Nelson, \$1.10; Joe Newrivy, .90; Frank Bran, \$2.05; Frank Augustyn, \$1; Joe Kulish, \$1.25; Emil Rutar, \$1.15; A Friend, \$1; Everbush club, \$5. Unasked, school children over the county are doing their bit, and every penny is appreciated.

School District No. 2 Health Club gave \$5.19; school district No. 71 held a card party and made \$4.95 to turn in.

Nebraska Continental Telephone company of Ord gave \$5; Royal Neighbors gave \$2; Mutual Benefit club of Mira Valley gave \$5; Mr. and Mrs. P. M. Bouma gave \$1; P. C. P. Helleberg \$1; Mrs. Helleberg \$1; Lillian G. White \$2. An addition to the Catholic church donation was \$1. Mr. Gudmundsen wishes a correction made: H. O. A club gave \$5 and not \$2; M. A. O. gave \$2 and not \$5, as was printed in the Quiz a few days ago.

The complete list of donors in North Loup and Arcadia districts has not yet been received by Mrs. Parkins.

Ernest Ulrich left Sunday for Omaha to take a welding course at Omaha university.

LETTERS FROM QUIZ READERS

Alex Jablonski Writes.
To the Editor of the Quiz:
I have changed my address from 814 N. Central Park Ave. to 369 N. Avers Ave., Chicago, Ill. Please send my Quiz to the last address.

Some people out there in Nebraska think that a large city as Chicago near the Great Lakes have blackouts. Well they do but just in sections for a test. We live a few miles from the lake and have not seen any of that yet.

They have had blackouts at Lake Forest and Lake Bluff for a tryout which was successful. We surely enjoy the Ord Quiz. We get it here on Saturdays and its like a friend from home dropping in to see us.

There are three of us and here at one house. They are Chester and Ralph Dubas and myself.
Yours truly,
Alex Jablonski,
Chicago, Ill.

Letter from L. J. Miller.
To the Editor of the Quiz:
I am writing to request that the address of our Quiz be changed from 107 Fitzgerald, to 110 First Ave.

On Nov. 1940 we left North Loup and came here to make our home. Charleston, the capital of West Virginia, is located in the Kanawha Valley and is the chemical center of the world and is growing rapidly. The claim is made for this state that it is the richest in resources of any in the Union.

Two of our sons came here in 1936 and have been employed here since. Alden, and Betty Jane Jones were married Jan. 9. He is employed at Dupont de Nemours chemical plant and she with Linde Air Products. George and Thelma K. Hamrick were married Dec. 19 at Cumberland, Md. Both are employed at Mountain Truckers in Kanawha City, a suburb of Charleston.

Edward is entering the service of Uncle Sam on the 28th of this month, but does not know where he will be stationed. Willis is in the Naval Reserves and employed in the Base Material office, Naval Operating Base at Norfolk, Va., is 3rd Class Petty Officer.

Mrs. Miller is quite well and has been very busy administering to the wants of five men since coming here and thinks that was some job. But now she will have only me to boss around.

The government supplies material to the farmers here to build up the soil and I am working in that connection with the AAA, checking out ground limestone, of which hundreds of cars are shipped into the county each year. The land has been farmed for many years and is quite worn out. Having been a farmer all my life, of course I am still interested in that direction.

Am hoping the farmers of Nebraska will become more prosperous in 1942. Our hearts are made sad by the effects of the war. We feel it particularly here where there are so many defense plants and so many young men departing every month for different branches of the service. We are hoping it may not last long.

Best wishes to the Quiz and all whom we knew so many years.
Respectfully,
L. J. Miller,
Charleston, W. Va.

Publishing Dates in 1941, 1942, the Same

Now that the Quiz has changed back to publishing on Thursday morning instead of Wednesday afternoon, the day of the month will be identical with the corresponding issue of 1941. Thus we are publishing Jan. 15 this week, and we published Jan. 15 in 1941.

Quite a number of items of interest appeared in the issue of just a year ago. Lawrence Den-dinger arrived to take over the management of the former Springer Variety store, now the Lee and Kelly store. The Ord Chamber of Commerce held a smoker in honor of Tom Springer and J. A. Kovanda who were leaving.

Ralph Misko was the new president of the First National bank, James Petska became vice-president, C. B. Gudmundsen became cashier and Horace Travis assistant cashier. Frank P. O'Neal was retiring from the presidency, but did not leave the bank until some time later.

The Christian church held its annual meeting, and this church also held its annual meeting last night. Frank Pray had bought the cafe known as "The Spot" in Burwell. Mr. and Mrs. Keith Lewis had purchased the former Shepard property at 2005 N. street.

Harold Taylor had resigned his position with the Nebraska State bank and was to join the Bank of America staff in California. The three Birkes of Loup county were held to the district court on a murder charge. Ellsworth Ball was unanimously elected chairman of the Valley county board of supervisors.

The P. C. T. stage depot was to move to the Oddfellows building on the east side of the square

POP CORN CONTRACTS.

This year we have been able to get our Pop Corn Contracts early. If you are interested in growing Jap Hulless, Dynamite or Yellow Pearl Pop Corn under contract, see us this week. It is to your advantage to have your popcorn under contract.

HYBRID CORN.

During the past few years Hybrid Corn has proven its worth in this section. It yields better, stands up better and is easier to husk than most open pollinated varieties. The last couple of years the hybrid corn has also shown that it pays to plant it on non-irrigated land as well as on irrigated farms. While stocks are very low, we do have several numbers that do very well in this section. Place your order now. Delivery to be made in April.

BABY CHICKS.

During the past two weeks we have booked, for future delivery, a very fine lot of baby chicks. We have Utility grade, Special Mating and Egg production matings. We will allow you a discount of 50c per hundred for orders received by Febr. 10th at \$1.00 per hundred if cash is paid with order. Save money by placing your order now.

STARTING MASH.

Sometime ago, before the rapid increase in buttermilk, meat scrap, fish meal and Cod Liver Oil, we contracted for a part of our required Starting Mash. This week we started to take delivery on this Starting Mash and have fresh stock now in our store-room. If we were to contract for this same feed today it would naturally cost more money; but for the present we are going to give you the benefit of our early purchase. Buy as many bags as you need now at only \$2.65 per cwt. We do not guarantee this price for any length of time.

LAYING MASH.

With eggs as high in price as they are, you cannot afford not to feed our Laying Mash. Try it out this week.

Ford Tractor Ferguson System

We are unloading ten tractors today which will all go out this week.

We have been promised by the Ford Motor Co., two more double decked loads to arrive by the 15th of February. These tractors were all on order before the first of January and when they are gone we are afraid we will be in the same position we have been in for the past month—OUT OF TRACTORS.

The new Ford Tractor with Ferguson system is only \$65.00 higher than last year, however, we expect price raises to follow soon. Now boys, doesn't it look smart to get your tractors bought while we can furnish them and be ready when spring comes to make the most of your land this year and the years to come? Because now we all know there is going to be plenty of demands for what you raise.

It's up to you Mr. Farmer, to produce all you can at the least expense and that is just what your new Ford Tractor will do for you.

We will be expecting to see you soon, friends of the
