167 People Hold 'C' Gasoline Books in Valley County

War Price and Ration Board Publishes List of All Entitled to 'C' Use

Mrs. Grace Sprague, clerk of the Valley County OPA War Price and Ration Board, this week prepared a list of all who have been issued 'C' books in this county...

There are 167 in the list, most of whom are farmers. Included are several ministers and priests, two editors, several salesmen, law enforcement officers, federal officials, mail carriers, physicians, public utility workmen and a few businessmen who need extra gasoline regularly.

A list of 'A' book holders will not be printed, since 'A' gasoline rations are supposedly for family driving, and no instructions for publication of a list of 'B' book users have been received.

Loan Association to Meet Monday

Final plans have been announced for the annual meeting of the North Loup Valley National Farm Loan Association, scheduled for Monday, Feb. 8 in the American Legion hall at Ord.

W. J. Hather, president of the association, stated that while the meeting is required by law, this year's session will be speeded up so the members will have time to do their trading and take care of other business while they are in town.

The association's activities for 1942 will be reviewed by James B. Ollis, secretary-treasurer, and the report of the board of directors will be given by Evet Smith, vice president.

Dutch Ice Skates Bouma Possession

In the family of Mrs. O. N. Bouma is a pair of genuine Dutch ice skates, brought from Holland, and a prized possession indeed.

The skates are largely handmade and a neat piece of construction. A long steel shaft curves up several inches in front of the toe, so that the blade has no point like American skates.

From this wooden bed strong leather straps rise to give four supports, with a narrow thong facing through their top and back down again, like a first-aid bandage for a sprained ankle.

The skate is not heavy, in fact it is rather delicate in appearance and not heavy in the hand. The shiny edge shows that the Biemond youngsters and the Bouma family make use of them yet, though not nearly so much as in Holland where ice skating is a popular pastime.

Ration of Canned Fruits, Vegetables Starts March 1st

Grocers Must Halt Selling of Listed Items Febr. 20; Public Will Register.

Sale by grocers of canned fruits and vegetables will stop throughout the nation at midnight Febr. 20 and will resume March 1 on a rationed basis, said the OPA in an announcement received by all newspapers for release Wednesday morning.

Canned goods rationing will involve a dual currency system. Starting March 1, every time the housewife goes to the store for canned goods she will have to pay not only the usual money price but also a value in coupon points.

For March, the first ration period, she will have 43 points for every member of the family to spend on rationed goods. She will have to budget herself on canned goods according to her family's likes and dislikes.

The eight days between February 20 and March 1 will be used for two purposes. Grocers will stock their stores, mark point values, on either cans or counters, train employees in the rationing method, and make other preparations.

The public will use the period to line up at schools, churches and other public places to get new ration books. This registration, to be handled by 1,500,000 volunteer clerks, will begin on February 22 and run for six days.

Sometime during those eight days, also, OPA will announce what the point values of different cans, frozen packages, or dried fruit packages will be worth during March (values may change from month to month).

Point values will vary according to the sizes of cans or packages, and also according to the relative scarcity of the particular types of fruits or vegetables.

The first duty of householders will be to take an inventory of their pantries Sunday morning, Feb. 21. They should take away without counting any cans containing less than eight ounces—these are mostly small size baby foods. Then they should take away five cans for every person in the family, regardless of age.

This pantry count will pay no attention to any home canned goods nor to unrationed articles such as jellies and olives and potato salad.

The rationing clerk will want one other piece of information—the amount of coffee the family had on hand last November 28, when coffee rationing started. Those who last November 28 had more than one pound of coffee for every adult in the family will have some coffee stamps removed from their sugar-coffee ration books.

Similarly, those families which had any cans or packages left over in their count of the pantry shelves Febr. 21—in other words, had more than five cans per person—will have one eight-point stamp removed from their ration book No. 2 for each of those excess cans. This deduction, officials said, will discourage hoarding, but at the same time will provide a means of allowing persons in isolated areas to stock up and still be charged coupons for their stocks so that they will not have any advantage over other housekeepers.

Restaurants, hotels, hospitals and other institutional users of canned goods will apply for special rations during the first 10 days of March. Tentatively, OPA will not require the public to use their coupons when eating at such places, however.

Goff Sale of Bred Sows February 8th

The sale of Spotted Poland China bred sows held annually by Clifford Goff and Sons will be held next Monday, February 8, in the Ord Sales Pavilion. Fifty-nine head of purebred Spotted Poland sows bred to Top Major and Torpedo Boy will comprise the offering.

Copper, Brass Will Admit to Theatre

At the Ord Theatre on Saturday, Febr. 13 at 10 a. m. will be given two hours of fine entertainment, including a feature picture, cartoon and comedy.

It's easy to find two pounds of copper or brass, says Manager M. Biemond, and here's how: Just take a magnet and touch it to the metal. If the metal sticks to the magnet it is iron and is not wanted in this scrap drive.

The Ord Theatre is cooperating with the War Production Board in this national drive for scrap copper and brass and this is an opportunity for children to get two hours of fine amusement and at the same time do their bit toward winning the war.

Ordites Approve New Mail Service, Began Monday

Early Arrival of First Class Mail Acclaimed; New Box Collection Hours.

Almost unanimous praise is being voiced for Ord's new mail service, which went into effect Monday morning, and as soon as minor troubles can be ironed out, such as the failure of daily newspapers to arrive on the star route as promised, it seems certain that the new service will be regarded as a great improvement over the old.

The star route from Grand Island is due to arrive here at 8:07 a. m. and was a minute or two early Monday morning and a very few minutes late Tuesday, but will run very close to schedule every day. This route brings first class, special delivery and special handling mail and is supposed to bring the daily newspapers, which it will do as soon as the newspapers in Omaha and Lincoln gear their mailings to the new schedule.

Parcels post and other classes of mail come in on the morning freight, which changed its arrival time to 9:50 and has been coming in on time since the change was made.

Collection hours for downtown mail boxes established by Postmaster A. L. Hill are 8:30 a. m. for dispatch on the outgoing morning mail and 4:00 p. m. for dispatch on the outgoing afternoon mail.

People who mail at the post-office are asked to avoid last-minute mailings, especially in the afternoon. The postoffice force now has to work mail brought down from Burwell as well as mail originating in Ord and the 4:30 time established as the latest hour at which mail will be accepted does not allow sufficient time for very much late mail to be tied out and got to the depot in time to get out at 5:00.

If Ord people will do the bulk of their postoffice mailing by 3:30 or even earlier it will assist the postoffice clerks greatly. This especially applies to business firms and government agencies who bring large bundles of mail to the postoffice daily, and who are prone to do all their mailing in one big batch just before closing time.

In general, Ord firms and farmers seem to like the earlier arrival of mail very much. Rural carriers have been able to leave the postoffice by 9:00 or shortly thereafter each morning this week and all patrons thus have been served before noon, whereas it was often mid-afternoon or later before carriers completed their routes under the old schedule. Business firms are enabled to get their mail when they open their stores or offices in the morning, can get answers to rush letters out on the morning dispatch and have ample time to complete less-hurried matters before the afternoon dispatch leaves.

Jackie Frazier Falls from Auto, Injured

The Leroy Frazier family are breathing sighs of relief as their little seven-year-old Jackie is able to return to school this week at Pocatello, Ida. Two weeks ago he accidentally pushed the wrong handle and the car door flew open and he was thrown out. At first they thought Jack was dead, but after x-rays showed no concussion or fracture they began to relax a little.

Now, after a number of days in bed the post doctor permits Jack to go back to school and he seems fine.

Leroy Frazier, the son of the Harlan T. Fraziers of Ord, is Red Cross field director at the camp near Pocatello, and as far as he knows he will be there more or less permanently.

He Saw His Shadow, More Storms on Way

Valley county's cold weather moderated for a few days, the bright weather lasting through Tuesday morning when any groundhog which appeared above the ground must have been able to see his shadow, and thus this region is in line for six more weeks of winter weather. But even superstitious people aren't nonplussed, for they expected at least that much more cold weather anyway.

Pleasant weather over the week end gave up in favor of a chilly drizzle Tuesday night but changed for the better Wednesday.

Silk, Nylon Wanted for Big Naval Guns

Do you have any clean, worn silk or nylon hosiery to give away? If so, Junior Red Cross youngsters want to take it to school to the collection boxes, says Mrs. Edward Kokes. From the boxes, as soon as there is 100 lbs., it will be sent for reclaiming and will go to war, helping to keep the big guns clean each time they are fired. Silk and nylon burn away completely; every other material leaves a residue that must be cleaned out after each big shell starts on its way.

Miss Marcia Rood will be in charge of the Junior Red Cross collection at North Loup. In Arcadia Miss Mary Sutton and Miss Blakeslee will help children collect the stockings.

Chanticleers Win Over St. Paul, 34-21

Ord Superior Team from the Start but Scoring Slow Until the Final Quarter.

The Chanticleers waited until the final quarter of their game with St. Paul Friday evening before they pulled the string on their scoring attack, but in this fourth period they racked up sufficient points to win handily, 34 to 21.

Ord started with a rush and in the first quarter took a commanding lead and both the second and third periods were slow and saw St. Paul pull up to a 16-16 tie with the home team late in the third period. Then Ord went ahead with a rush and had no difficulty with the Apostles thereafter.

O. Hurlbert looked best for Ord on the offense, with Finley and Satterfield flashing fine defensive form. Ord made 12 out of 20 free throw chances good. D. Nielsen led for the Apostles. Other Ord boys who got into the game included Walker, Satterfield, Wilson, Vogelanz, Severson, Peterson and L. Hurlbert. Superintendent Elley, of North Loup, gave fine satisfaction as referee.

Commissioned Lieutenant, Vernon Andersen Appointed Deputy Sheriff

Fort Washington, Md.—James W. Watson of Ord, Nebr., has been commissioned a second lieutenant in the army of the United States after successfully completing a course of training at the Adjutant General's school here.

His letter of appointment was handed to him by Brigadier General H. C. Holdridge, commandant of the school and Director of Schools Training of the Army Administration Schools, at the graduation exercises of Class No. 10.

Leutenant Watson was one of a selected group of enlisted men, drawn from virtually all arms and branches of the services and designated to attend the Officer Candidate school. During the twelve weeks intensive course he received training in the executive and administrative functions of the nation's largest business, the Army of the United States.

More Money for Farmers from Milk, Eggs, Among War Changes; Many Shortages Seen

Within the past year Ord's several milkmen have been "boiled down" considerably, in fact the only professional milk delivery is that of Riverview Dairy. Wartime tire regulations have caused them to combine their work so that now Ellis Carson does all the picking up of milk and Stewarts all the pasteurizing and delivering.

Although milk and cream prices have gone up twice in the last year, more people are drinking more milk than ever, the Stewart brothers believe, for they are very busy. Farmers are getting bigger milk and cream checks than ever, and do they like it?

"When the farmer has money he spends it, he buys generously of anything his family fancies. And the farmer has more money these days, no doubt about it," declared young Mr. Carson, who now operates a fruit and vegetable market in combination with buying cream.

Another noticeable change in the milk and cream selling business was the reduction of cream to 19 per cent buttermilk, which made it difficult to whip for desserts, but Mrs. Ord puts it in a pitcher and charges Mr. Hitler with one more small crime.

Ord milk men have always provided good milk to drink, and they do yet. For state minimums are set for 3.5 butterfat and Valley county dairymen keep their separators set about 4.5, and sometimes even 5. The milk has a creamy white color, and it is also pasteurized, so Ord

Knife Collection Attracts Interest as Severson Writes

Bombardier Says Is Learning Knife Fighting but No Knives Available.

The collection of hunting knives in Valley county, which is being sponsored by the Nebraska Wildlife Federation, is going over successfully and new impetus was given it this week from a letter received by E. L. Kokes from an Ord boy who is a bombardier at a Texas air field. This boy is Richard Severson and in his letter he stated that the student pilots and bombardiers are being taught knife fighting but he can't see how it is going to do him much good because he has no knife and they are not available in hardware stores near the air base.

Soldiers in the Solomons and New Guinea regard knives as the most valuable weapon they can have and that is why the Wildlife Federation decided to undertake collection of hunting knives from sportsmen, put them in first class shape and transmit them to the army for use in the field by soldiers.

Any Valley county sportsman who has a hunting knife with a blade 4 to 8 inches long is asked to donate the knife to this cause. The Kokes Hardware is receiving the knives and has them on display at this time. Several have been donated already and more are promised. The Boy Scouts are assisting in the collection and if anybody in Ord has a knife he wishes to donate he may telephone Keith Lewis, who will see that a Scout calls for it. Public credit will be given to all who donate knives.

Bombardier Severson may go ahead with his knife fighting in the knowledge that he will have a knife of his own. Kokes mailed him a trench knife with a sharp 8-inch blade this week.

Vernon Andersen Appointed Deputy Sheriff

Sheriff Robert G. Hall has selected for his deputy Vernon Andersen, manager of the Phillips '66' station, and Mr. Andersen is understood to have accepted the appointment and plans to fulfill the duties of the office while carrying on his regular business. His official bond has not yet been filed for approval by the county board of supervisors.

Promoted to Corporal.

Children really thrive on it. Of course there is no trouble getting milk bottles, but chocolate for chocolate milk is getting scarce: "So far, I have been able to get it from some firm, each time," reports Stewart.

Next door, at Hans Larsen's grocery, Mr. Larsen did not think there had been a lot of change, excepting a bigger demand for sweet stuff, candy, cookies, and sweet rolls. "We sell more than ever, as fast as we can get it."

Business is good, as it always is when eggs are a good price. About fifty per cent of his business is with farmers, so the egg price of 32c per dozen means something, says Mr. Larsen. Coffee and sugar rationing have been fairly easy to cope with, so far, he thinks.

At the Diner, Emory Peterson admitted, when jokingly asked, that "we may have to put rabbit in our hamburgers!" "We have to have meat, that's all," he went on seriously. No trouble as yet, with rationing, only they notice ples do take a lot of sugar. No help trouble to report, said Mr. Peterson, and they do about the same business as before. "I don't want to hold on until I'm hurt," was the way he summed it up.

At Herschel McGrew's barber shop, two barbers snipped and lathered away, while stating that business is definitely better. "Ord has always had 8 to 11 barbers, and now there are five," explained the owner, Mr. McGrew. Wartime differences? "A new lather brush is \$3, if you (Continued on page 2)

A dance was held Monday night in the community building, Sammy Haven's orchestra furnishing the music.

At the telephone office the number girls saw little increase or decrease in trade. No more instruments are available, but about the same number stay in service, with a few withdrawals and a corresponding number of new installations. Farmers find it difficult to purchase new batteries, they notice. A definitely heavy long distance trade goes on when the contingents of visiting soldiers come to town, reports the telephone office. No signs or sounds of new switchboard or other new equipment promised Ord are to be seen, no doubt due to the war but may be heard from any time.

Henry Misko's harness shop had just received five big sides of leather, ordered long ago. Business is wonderful, Mr. Misko exclaims. "I've turned down more new harness sales in the last nine months than I have made in the past seven years!"

Piles of old harness waited to be fixed, all he can repair and then some.

"I shipped a new set of harness to Rose, Nebr., last week end and one to Ericson a few days before. I've had orders from all over," says he.

A young son, Henry, jr., who was married about five weeks ago to Miss Virginia Bulger of Arcadia, has just received his notice to stand by for a call, after enlisting three months ago and closing up his popular little "Chat'n Nibble shop." The young Miskos are at Broken Bow where she has a good job, but no one will hire Frank as they consider it would be very temporary, reports his father.

Marion Crosby was friendly and cheerful in his store, busily soldering a separator part for Mrs. A. W. Cornell. "I've had a lot of this work lately," three of them in three days, reports the hardware dealer, "last week one man brought in 12 enameled kettles and pans to have soldered."

Paint is still obtainable, and sells the year around; more in the summer than in the winter, a great deal of it. Mr. Crosby is rather surprised that he can get paint, as his brand is one of the two in Ord that are "U. S. military standard" and are being used by the armed forces.

Metal objects to sell are scarce and getting scarcer; there are no milk strainers to buy. He has some aluminum, but will not be able to get more to replace it, yet Mr. Crosby declines to mark it up. "That wouldn't be honest, I don't do business that way."

At the Lee and Kelly Variety store, one of a group of 34 that buy together, Manager Lorus Clough, a newcomer to Ord, considered the outlook better for 1943 business both locally and as a firm. "About 90% of our items we can still get but the delivery is slow, and we are adding other price ranges of the same stock. Impossible to get are rubber goods, metal and enamel wares; wool is scarce. Candy is hard to get and cookies move fast," was his summary as he unpacked more cookies.

Frank Kasal, whose pool hall is a fixture in Ord, misses the young fellows who have gone to war, though he has a few more farmers playing pool than before. Beer in pint bottles is gone and now it is in bigger bottles or on tap. There is plenty of draft beer.

Mr. Kasal's two young stepsons, who have often helped him in college vacation time, have gone to war. Leonard is now a navy yeoman in the Fremont recruiting office; Raymond has been at Camp Walters, Tex. for five weeks, and after his basic course is to be sent to officers' training school. Emanuel Seaver, long-time Kasal employee, is working at the naval base in Hastings and in his place John Stinson of Greeley is helping at the counter.

Soups your whole Family will enjoy

It's high time for those hearty, satisfying meal-in-themselves soups to stage a comeback, for they're the kind of offerings that do a nourishing wartime job.

BRING BACK THE SOUP POT—Remember the soup pot that simmered continuously on the back of Grandmother's stove? The idea is just as good as it ever was. Save every iota of trimming, rind, scrap and bone, put them in a pot, cover with water, and simmer covered until every bit of good is gleaned from them. Strain from the makings, and you have a rich stock to serve as a basis for soups, gravies and sauces.

BUILDING A SOUP—To this stock, add the water you've saved from cooking vegetables, rice, barley, spaghetti or potatoes. Just heat them in the soup, and be careful not to overcook.

CREAM SOUPS—Thicken the stock with 2 tbsps. flour and 2 tbsps. melted butter or substitute and two cups of milk, plain or diluted evaporated, add 2 cups vegetable water and the cooked vegetables. Mix well and heat to almost boiling.

CANNED AND DEHYDRATED SOUPS—For those quick soups that start the meal off successfully or serve as a light meal in themselves, canned soups or dehydrated soups are the happy answer. These soups are downright delicious and do a rollicking good job of supplementing that meat or meatless course.

A Word about Our Smoke House

There is a shortage of bacon and other smoked meats all over the country, it is stated, and that's why our smoke house is being kept busy day and night to provide for local use as much bacon and ham as we possibly can cure and smoke. We hope and expect to continue supplying our customers with our delicious smoked meats, in all reasonable quantities.

People like our bacon and our ham just as well as they like the home-fattened beef we specialize in. No matter what your needs in the meat line may be we feel sure we can please you.

BACK FORTY

Several farmers who live along
highways have complained
about the number of stray cats
thrown out by their places from
passing autos. These men are
getting weary of killing off un-
wanted pets that motorists
dump into roadside ditches when
nobody is looking and want it
stopped.

A sack of cats is no favor to
toss into anyone's yard. They
become pests which must be fed,
left to starve, or allowed to prey
on wildlife. Some farmers say
that stray cats prefer catching
songbirds, quail, young pheas-
ants, or chickens, rather than
mice and do great damage to
game.

There are good cats, too. One
farmer told me he wouldn't take
fifty dollars for his cats, because
they keep the farmstead free of
rats and mice. But the cats
which keep barnyards clean of
rodents, or make attractive pets
seldom get taken for one-way
rides.

Although we have countless
laws to protect game, any per-
son who wishes to may turn
loose a pack of bird-eating cats.
These wild cats do alright by
themselves, becoming fatter and
stronger and larger than their
domestic cousins.

A few of our better sportsmen
shoot stray cats that belong to
no one. Others avoid putting
cats to death for fear of having
seven years' bad luck. It is un-
fortunate that folks still believe
in such superstitious nonsense.

If anyone has some surplus
live pigs, fowls or calves that
they wish to get rid of, they are
welcome to dump these in our
yard. But don't bring any cats,
for Ord has plenty of stray ones
now, and rats and mice also.

LETTERS FROM
QUIZ READERS

Co. 14-43, Camp Scott
Camp Farragut, Idaho
January 28, 1943

To the Editor of the Ord Quiz:

Dear Mr. Leggett:
It is now some 30 minutes af-
ter mail call. As usual I re-
ceived my copy of the Quiz and
immediately began to read it.
Eventually I came to page four,
where I saw the familiar head-
ing, Letters from Quiz Readers.
Noting the length of the letter
published I readily knew it was
written by John L. Ward. John's
letters always being of interest
set me to reading what he had
to talk about this time. Most
noticeable to me was the fact
that John always mentions the
wonderful weather they have
down there and he is always
mentioning the happenings in
Honolulu.

This tempted me to write to
the Quiz telling of some of the
goings on here in Farragut.

I've been here three weeks
now. I can truly say that every
day has been a very busy one
for us. Our life here in the navy
has no comparison to civilian
life. We, here in camp, are be-
ing trained for a much more
speedy way in life. Our regu-
lar time for getting up in the
morning is 5 o'clock or 0500 as
it would be expressed in naval
time. As soon as we get up we
wash ourselves, shave, etc. Then
we set at scrubbing decks, wash-
ing windows, polishing our fur-
niture, making our bunks, clean-
ing our sinks, washing looking
glasses and getting everything
squared off and ready for in-
spection. This is all done by 20
minutes after 6 or 0620 my time.

Then we march down to
"chow". After chow we go back
to our barracks and get ready to
go to class. We must be ready
for class by 7:45 or 0745. Again
at 11:30 we march to dinner.
After dinner (chow) we are al-
lowed our dally smoke. At 1300
(1 o'clock) we are again ready
for more activity.

Our afternoon usually starts
with another class or heavy
drilling. If we drill, it usually
lasts two hours. Then we study
out of our own manuals. Then
at 1630 (4:30 o'clock) we march
to supper.

Our time after supper is spent
very profitably. Crammed into
the little time we have after
supper we go swimming, get on
the rifle range, play basketball,
boxing, ping-pong, play pool and
bowl. I think our most popular
sport is bowling.

In civilian life Monday is wash

day, but here every day is wash
day. That's the one thing the
navy demands and that is clean-
liness.

Among all other things we
have guard duty. That's one
thing I hate. Take last night
for example, I went to bed the
usual time (8:50) and slept till
3 o'clock. Then I had to get up
and go on guard duty till 7
o'clock in the morning. You
can readily see why I hate
guard duty. That is the life of
a so called "boot." You see
when you are in training camp
you are called a "boot." You
aren't called a sailor until you
graduate from "boot" camp.

It's really a busy life but
everything is scheduled for a
certain time and when the time
comes it is done.

We also have very cold weath-
er here. This camp is built right

on top of a mountain and it
snows here continuously. In
the three weeks we have been
here it has snowed approximat-
ely 3 1/2 ft. It is always wet,
heavy snow which makes it aw-
ful miserable.

Among the Comstock news I
noticed two Comstock boys who
were sent to Farragut. One was
Vernon Erickson, who is a very
good friend of mine. I haven't
seen him as yet but I'm going to
try and look him up. I have
been trying awful hard to find
somebody from Ord that I know.
As yet I haven't had any luck,
although Nebraska is very well
represented here.

Well this is about all the camp
news for this time so I'll have to
close for now.

Yours truly,
Leonard R. Dlugosh, A. S.

Clifford Goff & Sons' ANNUAL SALE OF 59 Spotted Poland China BRED SOWS

TOP MAJOR 231577

TO HOG BREEDERS OF CENTRAL NEBRASKA
Producers of livestock can get extra gas to attend a purebred sale if they are interested. Uncle Sam needs pork and needs it right away. You need sows which will produce large litters of pigs ready to market in six months. That is the kind of sows we are selling. Now is certainly the time to get in the hog business, for you can't recall a time when hogs made more money. Never was there a time when our people and our allies needed pork so badly. Remember the government will maintain the price at \$13.25 and there is plenty of grain, so what is holding you?

59 GREAT BRED SOWS WILL SELL
We don't think there is a breed of hogs that will make more money for you than Spotted Poland Chinas and within this breed we don't think there are any finer females than will be sold in this auction. Write us for a catalog. Remember the date—

Peterson's Truck Goes Into River, Owner in Hospital

Accident Friday Morn Costly to Truck Line Operator; Kusek Also Injured.

An accident costly in suffering, expense and inconvenience to K. W. Peterson, owner of the principal truck line serving Ord and Burwell, occurred at an early hour Friday morning near the Walworth bridge across the Middle Loup river.

Mr. Peterson and one of his drivers, Joe Kusek, were enroute to the Alliance vicinity to move a load of household goods and starting late at night went by way of Sargent and Walworth to save distance. Mr. Peterson himself was doing the driving and was unfamiliar with the road, which is quite narrow and has many turns.

As the heavy tractor and trailer approached the narrow Walworth bridge, the approach to which is on a curve, Peterson saw that the trailer was going to strike the bridge and so he deliberately drove the tractor across a low embankment and into the river, which was ice-covered. He thought that less damage and injury would result from going into the river than from striking the bridge.

The tractor went into the river, which was deep at that point, and broke through the ice but was prevented from sinking by the weight of the trailer which remained on the bank. In the smash-up Mr. Peterson suffered injuries to his spine which paralyzed his legs and so he was unable to extricate himself from the cab. Kusek, although he also was injured, managed to get out of the cab and to the bank. Unable to drag his employer out without assistance he walked several miles before he was able to get help. In the meantime Peterson sat in the cab, his legs in the ice cold water, for two hours or more.

A Burwell ambulance brought Peterson and Kusek to the Clinic hospital where they were attended by Dr. C. W. Weekes. Kusek's injuries consisted of three broken ribs and many bruises and he was able to leave the hospital in a couple of days but K. W. Peterson's injuries were more serious. The lower part of his body is partially paralyzed, probably from a smashing blow on his spine, though no broken vertebrae have been discovered by x-ray examination, and the condition is clearing up satisfactorily. He is still in the hospital under treatment but will fully recover, said Dr. Weekes Wednesday morning. He will be in the hospital another week or ten days.

The Ord Auto Sales company sent a wrecker and crew to Walworth to get the truck out of the river and bring it to Ord. When they disconnected the trailer from the tractor the latter went through the ice and into ten or twelve feet of water, and it took two days to remove it from the river. Had the trailer broken loose when the wreck occurred both Peterson and Kusek would have been imprisoned in the cab and must inevitably have drowned, it now appears. The tractor is almost a total loss, it is said, and no damage insurance was carried on it.

Peterson has had a telephone installed in his hospital room and is managing his trucking business from his bed at present.

Vogeltanz' Brother Passes at Dwight

Ed Vogeltanz received word Wednesday of the sudden death of his brother, Joseph M. Vogeltanz of Dwight, shortly after he finished dinner and complained of a tightness in his chest.

The brother had a stroke last April, which left him slightly paralyzed, but a recent sojourn in an Omaha hospital sent him home feeling greatly improved. A retired farmer with no children, he and his wife enjoyed church work particularly.

Mr. and Mrs. E. L. Vogeltanz drove to Dwight Wednesday afternoon, came home next day, since funeral services were put off until Saturday for some nephews living at a distance. The Ord people drove down and back Saturday, attending the services.

Mr. Vogeltanz had visited here as recently as last fall, enjoying the fishing especially. He was only 55 at the time of his death.

Goff's Sows Brought Average Price \$132

Clifford Goff & Sons were well pleased at the success of their sale of Spotted Poland China bred sows Monday at the Ord sale pavilion. Buyers from

away took the bulk of the offering and the average price paid for the 59 sows was \$132, with the top sow bringing \$230. Several head went to South Dakota, Iowa and Minnesota but most of them were sold to eastern Nebraska swine raisers. The Goffs entertained 83 out-of-town buyers at dinner in Thorne's cafe at noon.

Only hogs sold locally went to the Scotia neighborhood where their owners will be John Hansen and Fred Lehn. Though the average price was high for pure-bred hogs in this part of the country Auctioneer Taylor said the Goff sows were of such quality they would have brought \$40 to \$50 more per head had the sale been held in eastern Nebraska.

Shoes Suddenly Rationed Sunday in Surprise Order

Each Person Gets 3 Pairs Yearly; Use Stamp 17 First, Says Gov't.

In a surprise order issued over the radio Sunday afternoon, shoes were rationed by the government, with the order going into effect immediately. Sale of shoes was prohibited Monday and Tuesday morning when selling resumes they could be secured only by presentation of Stamp No. 17 from the sugar ration book.

Three pairs a year are to be allowed each individual so the new rationing program will present few hardships, for few among Valley county people buy that many pairs of shoes in the course of a year anyway. Also, members of a family may pool their coupons so some may buy more shoes if others buy less.

All shoes containing leather and all rubber-soled shoes but not slippers, soft-soled baby shoes or storm-wear such as rubbers and overshoes were included in the sweeping OPA order.

At the same time the government stopped manufacture of evening slippers, men's patent leather shoes, two-tone shoes, women's spiked heel styles and many types of special sports-wear in order to make the best use of leather available.

There is no immediate shortage of shoes but the sudden rationing order was designed to prevent hoarding and to extend the available supply among the entire public, a government spokesman said. The armed services are taking about one-third the available supply of leather and importation of hides has been limited by the submarine menace, the OPA explained.

Every person will be entitled to buy one pair of shoes in each four-month period, with the first period ending June 15. Certain exceptions are provided in the case of growing children, on special orders issued by each ration board.

According to Mrs. Grace Sprague, clerk of the local board, shoes ordered before the Feb. 7 freeze may be delivered without relinquishment of coupons providing they are delivered or in transport on or before Feb. 12.

On Dec. 15 he was commissioned as an ensign, having previously held the non-commissioned rating of yeoman, 1st class. Valley County Had Big Febr. Quota for Army Service

Many Local Boys, Several Who Worked Elsewhere, Accepted at Ft. Crook.

Valley county had a big selective service quota to meet in February and last Friday a large group from this county went to Fort Crook for medical examinations.

Accepted for army service were Robert Adamek, Cornelius Blomond, Frank Cadek, Harley Eschliman, Jerry Fryzek, William Malolepszy, Woodrow Myers, Joseph Murphy, Lyle Norman, Everett Olsen, Harwood Rice, Donald Severson, Charlie Trojan and Clayton Stone, while Charles Robertson, Claude Evans, Dean Velega and Henry Adams were accepted by the navy. Seven of these boys were volunteers.

Of the group two, William Malolepszy and Henry Adams, came to Ord from Bremerton, Wash., where they had been working in the shipyards, and visited home folks before accompanying the local contingent to Omaha. A third, Lyle Norman, came from his work in a California aircraft factory and visited his parents, Mr. and Mrs. Ralph Norman, before he was called.

Also credited to Valley county are three former residents whose names came up in the February call but who took their army examinations elsewhere. They are Vern Porter, of Omaha, Edward Paddock, of San Francisco, and Paul Blessing, of Kewanee, Ill. Whether these men passed the examinations or not was not known by the local draft board Tuesday.

Seven boys were rejected out of the local group that went to Omaha last week and two were held over for further examinations. Most of the boys accepted were given 7 to 14 days furloughs and came home Sunday morning to close up their personal affairs before going into military training.

Mercury Drops 60 Degrees in 24 Hrs.

Nebraska weather, long noted for its rapid changes, pulled another one this week, the mercury dropping from a high mark of 62 degrees Monday afternoon to a low point of 3 above zero Tuesday evening, where it remained throughout the night. Tuesday morning's temperature was 12 above and it grew steadily colder throughout the day. Clearing skies with warmer weather to follow were prophesied Wednesday noon by Horace Travis.

Last Tuesday night's rain amounted to only 29 of an inch here, though Grand Island had .86 and points farther east and south had even more. Warm weather followed the rain and for several days spring-like temperatures prevailed, broken by the Monday night cold wave.

Peterson Hurt in Fall from Horse

Forrest Peterson, who has been living alone on his ranch fifty miles north of here in the sand hills, was painfully injured Sunday when his horse was frightened by a pheasant, bucked Peterson off and then ran away. Although no bones were broken Mr. Peterson's hip was badly bruised and the injury to muscle and nerves was so severe that he was unable to stand erect.

He crawled about three-quarters of a mile to his ranch home, managed to get into his automobile and start to Ord for medical aid. He had three gates to open and at each gate he had to stop his car, crawl to the gate, open it, crawl back to his car, drive it through the gate, then crawl back on hands and knees to close the gate.

Mr. Peterson was attended by Dr. H. N. Norris Sunday evening and is now at the home of his mother, Mrs. Fannie Peterson, south of Ord.

Ord Wins Twice, Goes Into Finals of Valleys Tourney

Burwell, Broken Bow, Lose to Chanticleers Tuesday; Play-offs Friday Eve.

By beating Burwell 32 to 12 and Broken Bow 30 to 26 in games played Tuesday afternoon and evening at the sub-district 3-Valleys tournament held in Sargent, the Chanticleers of Ord high won the right to meet Loup City in a play-off for the championship. This game will be played Friday night on the Loup City floor.

Ord's margin over the Longhorns was convincing Tuesday afternoon, while in the meantime Broken Bow was trouncing Sargent 34 to 28. The evening game between Ord and the Bow was hard-fought but the Chanticleers led the Indians all the way and there was no doubt of the final outcome. In an evening consolation game Burwell beat Sargent 36 to 27.

At Loup City Tuesday the other four teams in the 3-Valleys association played, Loup City beating Ravenna handily 47 to 21 while St. Paul edged out Arcadia 36 to 34. The Arcadia team has been showing great strength in its last few games and the Apostles were lucky to win. Ravenna beat Arcadia 31 to 29 in the evening consolation round and Loup City went ahead of St. Paul, 31 to 28, thus winning the right to play Ord in the finals Friday.

Loup City already has one victory to its credit over the Chanticleers of 1943, this being the only conference game lost by the Ord boys. The Friday night game is certain to be a good one. Wednesday morning Coach Roscoe Tolly declined to speculate about its outcome, though earlier he had expressed confidence that the Chanticleers would win the next time the two teams met.

Ord dropped a game to Grand Island last Friday evening on the Third City team's floor, the score being 36 to 24.

Soil District and Water Users Meet Together Sat'day

Decisions Made on Problems to Be Solved; Middle Loup Meeting Coming Soon.

Directors of the North Loup Irrigation Water Users' association met with the Valley county Soil Conservation district supervisors at the soil district office in the court house Saturday, the first Saturday of each month being the day set aside by the supervisors for their regular monthly meeting.

The soil district supervisors had invited the directors of the Water Users association to attend the meeting. The purpose of the meeting was to reach a joint decision as to the things the Water Users association and the soil district would try to accomplish. Some of the questions considered at the meeting were:

1. What developments have been made and what organizations have been set up to further the irrigation interests?
2. What are the hazards a community can reasonably expect to have to overcome in an irrigated area?
3. What methods can be followed by the community to reduce these hazards?
4. What practices can farmers follow to get the best yields at the lowest costs and at the same time reduce the community hazards?
5. What actions should the Water Users association and the Soil Conservation district take with respect to irrigation?

Clayton Noll, chairman of the Soil Conservation district opened the meeting by discussing the purpose of the meeting. E. O. Schudel, served as secretary. Mr. Noll spoke briefly on the irrigation development in the county and explained quite fully the purposes of the Soil Conservation district.

Carl Dale, secretary of the Water Users association, outlined the purposes and aims of the association.

Mr. Noll related that irrigation communities usually have problems somewhat different from those in dry farming areas. Mr. Noll then called on Mr. Cowan, irrigation engineer from Soil Conservation regional office, to briefly discuss community problems under irrigation. Mr. Cowan mentioned drainage problems, creation of salty or alkaline areas, financial changes, such as increased capital investments and fixed charges; greater operating costs and labor requirements; more difficult job of farming because water must be managed jointly with slope and crops.

Mrs. Jarusek, 70, Died February 6

Mrs. Mary Jarusek passed away on Feb. 6, 1943, at the Ord hospital, at the age of 70 years, 1 month and 2 days. Mrs. Jarusek had been in ill health for many years, having spent about ten years of her life as an invalid.

Mary Nemeskal was born on Jan. 4, 1873 in Moravia, Czechoslovakia. She came to this country with her parents in the year 1893 and settled on a farm in Custer county. In the year 1893 she became the wife of Frank Jarusek and for 50 years their home was on a farm near Comstock. In 1940 they moved to their present home in Ord.

She has left to mourn, her husband, Frank Jarusek; one

daughter, Mrs. Marie Novak, of Ord; and one son, Charles Jarusek, of Hemmet, Calif. Also one brother, Fred Nemeskal, two sisters, Mrs. Anna Wisda, of Sargent, and Mrs. Joe Holzinger of near Comstock, four grandchildren and three great grandchildren. She was a member of the Western Bohemian Fraternal association. Funeral services were held at 3:30 p. m. Tuesday at the Frazier chapel. The pall bearers were Joe Holoun, John Valasek, John Pesek, Frank Pesek, Adolph Pesek and Lou Pesek. Mrs. Noll presided at the piano, and Mrs. Tolly and Mrs. Davis sang.

Farm Loan Ass'n Reelects Directors

At the annual meeting of the North Loup Valley National Farm Loan association held in American Legion hall at Ord Monday, the stockholders elected M. B. Cummins and Evt. Smith of Ord for three year terms on the board of directors. Other members of the board at present are W. J. Hather, Joe Wadas and John Bremer.

In addition to discussing matters of interest to borrowers, the annual report of James B. Ollis, secretary-treasurer, was reviewed. The report indicated a much improved situation, so far as farm credit is concerned.

Farmers were urged to devote more of their income to the purchase of war bonds to build up a reserve with which to replace worn out machinery and other equipment when peace comes.

Infantile Paralysis Drive Raised \$180.50

Burwell—(Special)—A total of \$180.50 was raised for infantile paralysis relief during the Garfield county drive which recently closed, reports Mrs. H. A. Phillipps, the chairman. Of this wishing wells accounted for \$25.55, shadow social \$30.02, sale of rooster, \$22.75, music donation \$3.00, cash dance tickets \$103.00, dance tickets sold \$27.95, donations \$3.00, schools of county, \$11.40. Deducting expenses including the tax on dance tickets left the total previously reported.

First National Bank's Deposits Pass Million Mark — Another Result of War Prosperity

Caused by the war-swelled incomes of farmer patrons, the First National Bank of Ord has a footing of over a million for the first time in many years, reports Ralph E. Misko, president. This means an increase of \$300,000 during the past year, quite directly attributable to war, making the First National the biggest institution in Valley county.

Farmers are definitely in better shape than they have been in ten years past thinks this banker, and notes and mortgages that have been renewed several times are now being paid off. This means the bank is possessor of more cash than usual, which must be placed. Short term government bonds have provided a good investment for this extra cash, but on the whole the bank remains conservative, as always, says the president.

A new posting machine was purchased about four months ago. Other equipment is in fairly good condition, and war shortages have not yet made themselves felt. Adding machine paper is becoming hard to get, and staples are nearly gone. No First National employees have left for war duties as yet.

Good Prices Paid for City Property at Tuesday's Sale

Bids on Several Top Taxes Due, and City Officials Pleased with Results.

Properties sold at tax foreclosure sale by the city of Ord Tuesday afternoon brought exceptionally good prices, higher in some instances than the total of taxes delinquent on them, and Mayor M. B. Cummins and other city officials said they were pleased to see the properties restored to the tax rolls in this manner.

Wm. Ramsey, jr., bid \$870 to secure the old John Ramsey property, on which taxes totalled only \$769.21. There were other bidders, among them F. J. Faheita. Mr. Ramsey also agreed to pay in full the taxes due for the last half of 1941 and for 1942.

Charlie Lewis bid in at \$755 the John Lewis property on which delinquent taxes totalled \$602. Alvin Anderson bought the old Sanborn property for \$150; Kit J. Carson the Sindelar property for \$100; L. A. Garner the Pat Daily property for \$285; Mrs. Anna Turek the vacant lot in Block 55, Woodbury, formerly owned by Nightengale, for \$200; L. L. Lakin the Sarah Adams property for \$270; Frank Knapp the Charles Romans property for \$355; and Anna Petska bought a vacant lot near the Clyde Baker home for only \$200.

This was the most successful tax foreclosure sale the city has held, said E. L. Vogelanz, acting city attorney, and he believes future sales also will show the trend evident Tuesday toward increasing value of Ord real estate.

Mrs. Stanley Absolon and Mrs. Emil Sedlacek have been elected officers of the Catholic ladies Altar society for 1943. They held the same offices in 1939-40 also. Mrs. Joe Osentowski and Mrs. James Petska, jr., are the retiring officers.

But before he reached Grand Island he received word to report back to LaGuardia Field, where he is co-pilot of one of the big Pan-American Clippers. A crew of 15 is under his direction, and the big ship has a capacity of 87 passengers. Each trip takes several weeks, and Billy has not yet returned from his last one, as far as Ord friends know now.

First National Bank's Deposits Pass Million Mark — Another Result of War Prosperity

At Mr. Lola's hardware store he reports, "There's lots we can get but selling prices mean we can't sell it!" He sent a good deal of hemp rope to the government, on request. Now he does not have sisal rope, which is cheaper but not so strong.

Nails? He doesn't get them when he wants them, nor the size ordered, but is glad to take what he can get. Only No. 9 wire is in stock now. Shells of all types are gone for the duration. Enamel ware is hard to get; copper boilers have gone to war.

His orders might very well read "Send what you've got," says Mr. Lola. He has lots of paint yet, and it has not gone up much in price, probably not more than 10 per cent, he thinks.

His only helper is his wife, Mrs. Lola. "No, I don't think she'll have to go to war," says he, laughing. Fishing licenses sell as usual, but linen fishline is hard to get, and he can't get any more hooks. Luckily the kind he recommends, made in Norway, he has a good supply of it the present time.

Hungry for a GOOD STEAK

We are butchering some mighty good home-fattened young steers these days and if you are one of those people who appreciate good steaks and roasts you'll want to try some of this beef.

Ask us to cut it exactly the thickness you like; we'll be glad to do it. You'll say its as good as any beef you ever tasted.

No matter what you want in the meat line you'll find it here—a little better and usually a little cheaper.

SAFEWAY Homemakers' Guide

Five minutes earlier for your health's sake

Cutting down on breakfast is a waste of time, and it usually is. Set the alarm for a little earlier and you'll have time for a nourishing meal. Much of the preparation can be done the night before such as setting the table, the batter with exception of melted shortening for hot cakes, waffles, or pancakes, or having the biscuits in the pan and waiting in the refrigerator.

MEAT FOR BREAKFAST—If the breakfast pattern has been up by the rationing program, remember that this meal can still be a well-liked one. Fruit, cereal, bread in the form and that one cup of coffee for energy, vitamins, minerals, and that grand satisfied feeling.

FRUIT—Whole fruits such as sliced apples or baked apples are more nutritious and have more lasting quality than fruit juices. Unstrained apples have the same advantage over fruit juices. Vary the fruit in your way each day, and don't have many repeaters. For example, apples baked, as a sauce, or...

First National Bank's Deposits Pass Million Mark — Another Result of War Prosperity

(Continued from page 1)

Miss Anna Marks, expert seamstress thinks there is no wartime demand for dressmaking instructions in Ord. She offers to teach sewing. She is not very optimistic about the situation: "Of course I'm a republican, and I do feel that Roosevelt has put the little man out of business."

Zippers and snaps are leaving the scene, and big tragedy to a dressmaker... she has no pins! Mercerized thread breaks constantly, then materials grow more and more scarce, and their prices mount. The choice of cotton goods is limited now in Ord, states Miss Marks.

At the tailoring shop of Mr. and Mrs. Vala, he feels that business is getting worse, as young people go away and need fewer suits made. He has no trouble getting woollens, and believes that is a matter of good credit. He has dealt 22 years with the same firm, and can get their wools yet. But it is difficult to secure good needles, safety pins and pins.

There is a little silk on hand in his shop, but there won't be any more. Lining materials are plentiful as yet. Mr. Vala expects clothing to be rationed soon.

His only son, First Lieutenant Julius Vala, is in army intelligence work at Fort Custer, Mich., and will be there indefinitely.

L. J. Auble reports he has four main items largely missing; ice boxes, radios, threshers and cream separators. He has second-hand ones to sell when he can get them, and has taken a line of feeds to sell. He continues to sell parts for such equipment, and he has a few second hand water pressure pumps yet.

Another change he notices in the past year or so; most of his sales used to be F.H.A. and time affairs, now things sell for cash.

In the window batteries with glass sides looked new and strange in their war dress.

At the cream station which represents the Omaha Cold Storage company, Warner Vergin and his wife were busy with the early Saturday rush. "We're lots busier than we used to be," declared Mr. Vergin, "with more eggs and cream brought in; probably 30 per cent busier I would judge from my books."

But the farmers need a break, declared the Vergins, and they are glad to see them make money, as their production increases.

No equipment trouble has hit this cream station yet. It now takes as much as three weeks to get things formerly supplied in three days. So far, orders have been filled.

Mr. Vergin does considerable welding and soldering for his customers and his own station, keeping his welding shop at the rear of the cream station.

Only other help employed is on Saturday afternoons, when two schoolgirls assist, one of them the young daughter of the Vergins.

Across the street at the Rutar hatchery, the busy cheep of some 2,500 little yellow chicks was heard in the warm room. Mr. Rutar declared he could sell 200 brooder stoves if he could get them, but he can't get them. His order for 35 was cut down to six, and on Friday he received word he would get two!

"What will I tell my customers?"

Everything is like that, thinks Rutar. It can be ordered and promised for sure, but the orders and promises change around considerably. Protein feeds have been cut down, and he has trouble supplying his customers.

The government has asked a 25 per cent increase in baby chick raising, and as there are no more incubators, Mr. Rutar believes this increase can only be had by early and late hatching. Another discouraging factor is the shortage of good help for the hatchery.

In the back part of the Lincoln battery and tire station R. L. Lincoln was busy at a soldering job, welding a shiny track over the top of a car radiator. There is a great deal of parts business and repair business these days, he declared. And so far there is little trouble with parts for generators and carburetors; they may be slow arriving but they come as ordered. Tire vulcanizing and repairing business is heavy now with

tor's rating, and that she is now in the Women's Auxiliary Ferrying Service, with headquarters in Wilmington, Dela.

— Mrs. William Heuck's father, Mr. Ressegue of Madison, is in Omaha at present, needing special attention for ear trouble.

At the Ringlein Drug store, Louis Ringlein, who has been in business there since last May, showed an order blank just returned to him. It had 15 "re-order" and "cannot supply" marks rubber-stamped against the items. "The other day I got one with 30 items marked off, that was a record," he announced.

The fast moving stuff is the stuff that is hard to get, believes Druggist Ringlein. He expects shampoos, face powder and perfume to vanish from the shelves soon. But the store does not look empty yet, the shelves are full. A soda fountain up front and a big magazine rack take up considerable space, placed in recent months.

Then a war-day touch is the stove, an old iron one silvered up fancy and kept going near the back of the store.

Mr. Ringlein thinks all articles will get more and more difficult to buy, and we will be "short everything".

"But I can tell you better a year from now" he prophesies.

Features Evelyn Sharp.

A colored cartoon clipped from a Portland, Ore., newspaper and featuring Evelyn Sharp was handed to the Quiz this week by Elwin Dunlap. The cartoon showed Evelyn seated in an airplane and stated that she is now 23 years old, that she soloed when only 16, now has over 3,000 hours in the air and since 1940 has instructed over 350 student pilots, was the youngest person to receive both a commercial license and an instructor's rating.

OUR NATION'S WELFARE MUST COME FIRST!

Union Pacific Lengthens Passenger Train Schedules

EFFECTIVE FEB. 15, 1943

Let's get serious about this job of winning the war. Vast quantities of war materials and thousands of troops are now being transported by rail.

To better and more efficiently move the ever-increasing production of essential materials and supplies, Union Pacific is voluntarily reducing the speed of its regular passenger trains.

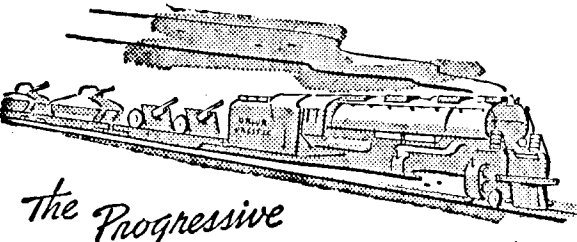

We know that all civilians who find it necessary to travel will willingly adjust themselves to slightly longer schedules and, during the duration, to somewhat less travel comfort if conditions so require. **Our Nation's welfare must come first at all times.**

★ ★ ★

TRAVEL HINTS FOR CIVILIANS

- Plan trips and make reservations well in advance. When plans are changed please cancel reservations promptly.
- Ask about war-time regulations regarding Pullman reservations now in effect on all railroads.
- Pack all articles needed on the train in one bag. Additional luggage up to 150 pounds can be checked through free.
- Avoid week-end travel peaks by planning mid-week departures.
- Dining car and kitchen space are limited. Help your fellow travelers by relinquishing your seat in the diner when you have finished your meal.

Army Officers Here.

A group of thirty army officers under the command of Capt. Lee Huff, jr., spent Sunday night in Ord, this being another of the Fort Crook groups sent out on sand hill maneuvers. They spent Sunday night at Hotel Ord and left early the next morning. Several officers were entertained in Ord homes and the entire group were guests at an impromptu dance held in Elyria.

BEST-SELLERS NONE TOO GOOD FOR SOLDIERS

Have you laid aside that new book for the soldier boys. Send them a best-seller, something new and delightful to read, suggests Mrs. G. W. Taylor and her fellow chairman, Miss Mamie Smith. The pair represent the American Red Cross and the American Library Association, now conducting the Victory book campaign in this territory.

Don't do like the lady who sent the 1915 cookbook! Or the lady who sent the "Bobbsey Twins" series.

These books are for some of our finest young men. Send your finest books, please. The donation will be gratefully received at the Ord library by Miss Smith.

"Variety Meats" are Tasty and Healthful

Have you tried the so-called "variety meats" lately. These include kidneys, liver, sweetbreads, hearts, etc., and the government is urging that everybody eat more of them in order to save the meat cuts that are easier to ship abroad to our soldiers.

Our market always has a good supply of "variety meats" and the important thing to think about in buying and using these meats is to make sure they come from sources experienced in their proper care, handling and refrigeration. This market's half century of experience qualifies us to serve you in this line, as we serve you so well in all others.

Try a meal of "variety meat" today. Get it at our market for sure satisfaction.

BACK FORTY

One of spring's first signs may be observed at the southeast corner of town, where Archie Bradt is raising over 400 baby chicks.

Archie has fixed up a brooder shed with odds and ends of scrap lumber and lined it with card- board from old boxes.

The fowls will all be sold by the middle of April. Then Archie intends to buy over 400 more chicks, which will prob- ably be White Leghorns.

At least ninety per cent of Valley county's poultry is raised by women folks, and the writer suspects that Archie also gets a little help from the better half.

This should be a big poultry year, but not an easy one. Chicks and hatching eggs are apt to be expensive and scarce.

Poultry raising is a good bet here because feed is cheap, sun-

LETTERS FROM QUIZ READERS

Honolulu, Hawaii January 18, 1943.

Dear People: This is the first missile I have written in the new year, and that is showing some consid- eration to say the least.

I have heard from a number of people since I last wrote, and will try to acknowledge their Christmas cards and letters, which I am still receiving.

I received a card, dated Dec. 18, telling me that my son James was in the U. S. navy, the same outfit I am working for here.

I acknowledged receipt of a Christmas card from the Sorens- ens of Oakland, but I since re- ceived one from the Wiegards of the same city.

Then I got one of the best let- ters of all from a certain Mr. and Mrs. LaVern Duemey, who are now living at 222 West Main, Peru, Ind., and who claim to have formerly worked in the Quiz engraving plant.

Then I got one of the best let- ters of all from a certain Mr. and Mrs. LaVern Duemey, who are now living at 222 West Main, Peru, Ind., and who claim to have formerly worked in the Quiz engraving plant.

We have had picture shows, USO shows, and bingo games here at the camp theater ever since I arrived, but Saturday evening we had the first of a series of boxing cards.

It is now Sgt. Gerald Goff. He is in the headquarters company of the 19th infantry and gets his mail through the Postmaster at San Francisco.

Chamber Decides Sponsor "Victory Garden" Program

Planning Committee to Make Survey of Vacant Lots; Meeting Thursday Eve.

Decision to sponsor a "victory garden" program in Ord this summer, with the expectation that 50 to 100 vacant lots can be converted into food producing units, was made Thursday evening by the Chamber of Commerce at its February meeting in the K. of C. rooms.

Such action followed talks by R. Clare Clement, C. C. Dale, M. S. Dodd, J. G. Van House and others on the necessity of putting every effort behind greater food production.

President C. J. Mortensen, who presided, appointed a committee composed of C. C. Dale, Mrs. E. C. Leggett and Fred W. Coe to make a survey of vacant lots available, arrange for plowing and harrowing, investigate the seed situation, and to find out how many families will be interested in neighborhood gardens of this type. Other committees will be named later to handle various phases of the program. Prizes will be awarded for the best victory gardens in Ord, it is planned.

Several interesting talks were heard by Chamber members Thursday evening.

Mr. Clement, the AAA chairman, told about plans for increasing the production of war crops in the Loup valleys this summer. Fifteen thousand acres will be planted to beans, he said, and the county's goal of 380 acres planted to potatoes will be surpassed by a large margin, he believes. The quotas assigned here for production of livestock, poultry, milk, eggs and other war crops likewise were outlined by the AAA head.

Mr. Dale, who had just returned from a potato meeting at Kearney, told members that \$2.00 for No. 1 potatoes will be the floor price in central Nebraska this season. This means that the government will guarantee potato growers \$2.00 per hundred at the field for all the No. 1's they can produce. Floor price on "commercial grade" potatoes, which may contain 15 per cent of potatoes other than No. 1, will be \$1.90 per cwt. Since farmers who grew potatoes last season realized only 85c to \$1.50 per hundred and most of them felt they made money at these prices, Dale believes the new guaranteed prices will result in a vast increase in potato acreage.

M. S. Dodd, engineer-manager of the two Loup irrigation districts, told about agreements made with the Columbus district which will assure a plentiful supply of water for irrigation here this season. Despite a supreme court decision last fall which gave the Columbus district a prior right to the water of the rivers, which would limit irrigators to one acre foot of water, an agreement has since been made which will assure as much water as needed for irrigation providing it is not wasted, he said.

Another scrap drive will start soon, Chamber members were told, and Mr. Clement who headed the last drive said he believes there is five or six carloads of farm scrap left in Valley county. It should be gathered and shipped before farmers get into spring work, he said.

A nice turn-out of members was noted and a lunch and social hour was enjoyed following the program.

Ordites Urged to Do Mailing Early

Unless Ord firms and government offices who are heavy mailers cooperate by doing their mailing earlier in the afternoon, the afternoon closing time for receiving mail will have to be advanced from 4:30 to 4:00, said Postmaster A. L. Hill this week. When the new mail service went into effect the deadline for mailing was fixed at 4:30 with the thought that this would allow ample time to handle and tie out the mail and get it to the Union Pacific train by 5:00. But a great many of the larger mailers of the city, such as the banks and government offices, apparently feel they can bring a day's accumulation of mail in at the last minute.

Probably the largest mailer in the city is the Quiz and because of the one-day service given by the engraving department it often is necessary to make a mailing at the last minute. Always, however, the Quiz takes mail to the postoffice several times during the day and burdens the overworked clerks at

4:30 only with what necessarily must be sent over late because it has not been completed earlier.

If other large mailers would follow a similar policy—mail twice in the afternoon, say at 2:30 and 4:00, and then bring at 4:30 only those items that accumulate after 4:00, the clerks would have more time to handle their last-minute work and everybody would benefit. It will benefit no one to have the deadline advanced to 4:00, as must necessarily be done if people continue to bring their entire afternoon's mail accumulation at 4:30 every day. Won't all of you cooperate so none of us may be deprived of the privilege of this late mailing of important late material?

Boy Scouts Will Govern City for a Day—Febr. 26

Hugh Cahill Chosen Mayor, Other Scouts to Fill All City Offices.

Rulers of Ord for a day—Friday, Febr. 26—will be members of the Boy Scout troop here, who will fill all the city offices as a means of becoming familiar with city government, explains George Hastings, scoutmaster, and the members of the Scout council who worked out the plan.

Among the honorary officials Hugh Cahill will serve as mayor, councilmen will be Donald Andersen, Roger Dahlin, Donald Hill, Joe Lola, Jay Stoddard and Thomas Tolén.

Gordon Sorensen will be city attorney, Arthur Larsen treasurer, Edwin Jirak city clerk, Leonard Roesler fire chief, Roger Miller chief of police, Lyle Manchester police judge, Bob Marks city engineer, Vern Jobst, Leland Peterson, Bob Sprague and Frank Raemakers policemen.

Mayor M. B. Cummins will turn over the key to the city to the Scouts, and install them in office, at a brief ceremony that morning and other city officials will be present to acquaint their temporary successors with the duties they must fulfill. Some police court activity may take place that day, if policemen can find any violators of the bicycle ordinance.

lingen, Tex. He was promoted to sergeant on the day he received his diploma and also was presented with a pair of gunner's wings, the combat air crew insignia. Unless held over at the Harlingen school to serve as an instructor he will be sent immediately to join a fighting unit.

Chanticleers Win 3-Valleys Tourney

Tolly's Team Makes Good in 38-23 Victory Over Their Former Conquerors.

Coach Roscoe Tolly had the right hunch when he said, after Loup City beat the Chanticleers in their first game this season that his boys would win if the two teams met again. The truth of his prophesy was proved Friday night when Ord won handily over Loup City on their floor by a score of 38 to 23 and thus became basketball kings of the 3-Valley conference.

Ord's height in controlling tip-offs was the big difference in the two teams in this game which saw Walker score 19 points and Vogelzang 13 to pace the Chanticleers' attack. Wilson scored 5 points and Severson 1 to complete the Ord scoring. Misko, O. Hurlbert, Finley, Satterfield, Petersen, L. Hurlbert and Randolph were other Ord boys who played. Superintendent Elley, of North Loup, was the referee.

Meese Anniversary Celebrated Sunday

On Saturday, Febr. 13, 1893 at the Geranium Catholic church occurred the marriage of John C. Meese and Miss Wilhelmina Waldmann, both sons of pioneer Valley county families, and Saturday the fiftieth anniversary of this happy event was observed at a gathering of their six children, twenty-five of their grandchildren and many other relatives, close friends and neighbors. Mr. and Mrs. Meese have spent their entire married life in Valley county.

Mr. Meese was born near Fort Wayne, Ind., and came to Nebraska by covered wagon with his family when a young man. His bride was born at Minneapolis and came to Valley county with her parents at the age of two years.

Last Rites Today for Mrs. Thomas; Was 93 Years Old

Pneumonia Causes Death of a Pioneer Resident of No. Loup Community.

North Loup—(Special)—Funeral services will be held at 3:00 Thursday afternoon in the Methodist church for Mrs. Emma Thomas, 93, a pioneer resident of this community who died Sunday night after a lingering illness with pneumonia and complications. Mrs. Thomas was one of Valley county's oldest citizens.

She was born in the village of Road, Somerset, England, Nov. 24, 1849. Her father, Samuel Rodaway, was of a well known English family and her mother, Mary Cromwell, was a descendant of Oliver Cromwell, a fact Mrs. Thomas never tired of relating.

At the age of five she was baptized in the Episcopal church and later attended Sunday school in the Reformed church. Weekly schools were in charge of the Episcopal church, for the government at that time had not fully established its school system. Here she taught the Bible and the three Rs and there was laid the foundation of knowledge and love for the Bible that formed the framework of her life.

Her father came to America on the persuasion of a relative and in the spring of 1861 he sent for his family. Emma, the fourth in the family of seven children, was 11 years old and until her death remembered vividly the events of that trip including the landing at Quebec and the boat and train trips down the St. Lawrence river, through Detroit, Chicago and Milwaukee to Portage City, Wis., where Mr. Rodaway met them and took them to their new home at Pynetta, Wis. In school there Emma formed a friendship with a girl of her own age which endured until the death of her friend after 74 years of correspondence.

In 1867 the family came to Nebraska, locating in Otoe county, and on Sept. 5, 1875 she was married to Van J. Thomas. They set up their new home at North Branch and lived there for a time but because of the ravages of grasshoppers on their crops they returned to Mr. Thomas' old home in Dixon, Ill., but came back to North Branch in 1877.

In 1883 they set out in a covered wagon for Loup City to seek a new location but were misdirected and arrived at North Loup. Here they established a home on a farm two miles north of the village where they lived until 1916, when they moved into town, remaining here afterward.

Always a woman of strong Christian character, Mrs. Thomas was one of the first members of the Presbyterian church here and remained a member until it disbanded, when she transferred to the Methodist church. Blessed with a remarkably keen memory, her mind remained clear to the last. Always grateful she had been spared eyesight, hearing and the use of her hands, Mrs. Thomas read extensively and was a great conversationalist and made beautiful rugs many of which she bestowed upon friends. Since the passing of her daughter, Maud, who had cared for her mother tenderly, Mrs. Isabelle Creager, of Spring Mills, Pa., another daughter, has devoted her time and strength to Mrs. Thomas' care.

Also left to mourn are another daughter, Mrs. Florence Holman, of McCleary, Wash., one son, Claud Thomas, of North Loup, and one brother, Thomas Rodaway, of Unadilla, as well as many other relatives. Her husband, a son and daughter who died in infancy and three grown daughters preceded her in death.

A beautiful cake baked and decorated for the occasion was sent by Mr. and Mrs. Alvy Moore and their daughter, Mr. and Mrs. Anton Hepp, of Grand Island, and Mr. and Mrs. Meese received a great many other gifts and cards of congratulation from near and far. The afternoon was spent in a social time. Guests were served coffee, ice cream, cake and wafers later.

Besides the immediate family, those present included a sister, Mrs. F. W. Adamek and husband, a brother, Jos. J. Waldmann and wife and daughter Mildred, Mr. and Mrs. Anton Guggenmos, Mr. and Mrs. Carl Sorensen, Mr. and Mrs. Henry Guggenmos of Sargent, Mrs. Inez Edwards of Grand Island, Mr. and Mrs. Wm. Sedlacek, Mr. and Mrs. John Blaha, Mr. and Mrs. Edward Hansen, Roland and Gene, and Mr. and Mrs. M. C. Beth.

The light snow Saturday made a perfect setting for the fiftieth anniversary, for several present recalled that on the day of the marriage of Mr. and Mrs. Meese came one of the worst snow storms of the winter.

Mr. and Mrs. Meese are among Valley county's best citizens. They live in their own home and enjoy excellent health. Long one of Nebraska's best known purebred breeders and swine judges, Mr. Meese later served several years as president of the old Ord State bank, has extensive interests and has the respect and affection of all, as does his good wife.

City, Village Schools Only Will Be Used, Everybody Required to Register.

Plans for registration for War Ration Book No. 2—the point rationing books—are announced this week by Hilding O. Thompson, Ord school superintendent, and the heads of the North Loup, Arcadia and Elyria schools.

The high schools in Ord, North Loup and Arcadia and the school building at Elyria will be used for the registration for the entire county. No rural schools will be used. Rural residents should register in the city or village most convenient for them to reach.

Registration Dates, Hours. In Ord the registration for Book No. 2 will take place on Thursday, Friday and Saturday, Febr. 25, 26 and 27. Hours are fixed as follows: Thursday, 8:30 a. m. to 9:00 p. m.; Friday, 8:30 a. m. to 5:00 p. m.; Saturday, 1 p. m. to 4:00 p. m. Both the grade and high school will be dismissed Thursday and Friday and there will be 20 or more teachers assisting with the registration.

In Arcadia the registration will be held on Friday and Saturday, Febr. 26 and 27; in North Loup on the same days; in Elyria on Thursday and Friday, Febr. 25 and 26. All-day registrations are planned at each of these points.

If people going to register will remember two things much time will be saved, both for themselves and the registrars.

Two "Must" Items. Persons going to register must take with them: 1. War Ration Book No. 1 (the sugar-coffee-shoe book) for themselves and all persons for whom they are registering. Persons who fail to bring the No. 1 books will have to go home to get them.

Willard J. Visek Elected Innocent

Willard J. Visek, of Elyria, was one of 13 University of Nebraska juniors tapped this week for Innocents, honorary society for senior men. Visek was also named secretary of the society. He is a junior in the college of agriculture, is a member of Student Council, Corn Cobs, Ag Executive Board, and Alpha Gamma Rho fraternity.

Tapping of the new Innocents in February means that this ceremony will be one of the traditions missing from the Ivy Day program in May. The event was pushed up this year because of the likelihood many new Innocents as well as new members will be in the armed services by May.

New Salvage Plans Now in Operation

Silk and nylon hosiery are badly wanted for war purposes. Ord's Junior Red Cross is collecting these old stockings, four deposit boxes being conveniently placed at the J. C. Penney store, the Brown McDonald store, the Stoltz Variety store and Frank Iron's store. High school and grade school students are also collecting hosiery at their buildings, and will be glad to get your donation.

Presbyterian women began a paper collection campaign this week. They ask that you save all newspapers, old magazines, etc. They will announce collection plans next week.

Demand for Syrup, Sweets, 5 Times as Great Since Rationing, Says Table Supply Owner

"Short?" repeated Fred Cahill, Ord grocer, as he kept his fingers busy removing papers from the top layer of apples in the box. "You might say I am short everything, some things more than others. But I would say at least five per cent of grocery stuff is not 'gettable'."

To more questions about the effects of war on his business during the past year or so, he explained that substitutes had not appeared for the missing five per cent, which was out because the government had prohibited it. "I mean stuff like canned baked beans and spaghetti is missing from my shelves."

A clerk shortage bothers him a good share of the time, Mr. Cahill said. His most recent loss was Jerry Fryzek, who left Monday morning to become a member of the coast guard. Young Fryzek received his call last week, after enlisting some time back. Mr. Cahill works like the

Three Accidents in Blaha Family

10-Year-Old Son Was Last Victim, Hit Saturday Morn by Noll Truck.

Three accidents in the same family within a single week, two of the mishaps serious, is something of a record, but that's what happened to the Rudolph Blaha family.

Mr. Blaha is in the Ord hospital and in serious condition as a result of getting in front of a run-away team last Tuesday morning. At last account he was paralyzed from the hips down and he may be confined to the hospital for some time.

Later the same day, while doing some of her husband's chores, Mrs. Blaha was kicked in the stomach by a cow and painfully hurt, though the injury did not prove serious.

Saturday morning little Rudie Blaha, 10 years old, was hurt by the Clayton Noll truck when he rode in front of the truck on his bicycle. Mr. Noll was coming to town with his truck loaded with three head of cattle and the accident happened at the M. Biemond corner. The Blaha lad, coming from the south, stopped to allow two cars going west to pass and then rode directly in front of the Noll truck, which was going east. Apparently he did not see the truck at all.

The truck was only a dozen feet away when the boy rode out in front of it and in order to keep from hitting the boy Mr. Noll turned his truck sharply to the north, which threw all the cattle south against the side of the stock rack, taking the side out and cattle and rack landed on the boy, breaking a leg and otherwise bruising him. Mr. Noll, with the assistance of a passer-by, took the boy to the Ord hospital where he was cared for.

No funeral arrangements will be made until Mr. Hansen's sister arrives from Des Moines.

5 ways to make your meat go further

Knowing that quota of meat stretch to care of all those meals is a new science for most homemakers. But there are so many ways to make that portion of meat go a little further without loss of taste appeal or sacrifice of enjoyment, that it isn't really such a feat after all.

Supplementing Meats with other protein foods is one of the easiest ways adhering to the quota. Try serving a portion of meat, and adding some protein food such as cheese, eggs, milk, whole grain cereals, pastes or soups. Nutritionally speaking, you've gained nothing. As for satisfyingly filling meals, your family will welcome the change.

AT SHORTCAKE—Combine 1 piece of precooked meat, any kind of meat, in gravy made from drippings or in a cream sauce that has been thickened with a dash of meat sauce. Serve over piping hot biscuits made from whole flour. Try it over mashed or sliced potatoes or steamed rice. Use a little bit of meat to stretch a little bit of meat. Go long way. And to make the meat go still further, add grated or sliced cheese or chopped, hard-cooked meat to the sauce. It's got lip-smacking appeal.

STES TO THE RESCUE—Combine meats with noodles, spaghetti, rice, or one of the other pastes in rich dishes to make a little go a long way. Any kind of meat including lean-rich liver, heart and kidney can be used.

CHILI—No doubt about it, chili is a hearty dish. If you've been used to eating it using only beef as the meat, change your style and use any of the other meats or fowl that are available. Not much is needed because the spices contribute a share of the protein.

MEAT CASSEROLES—A little meat goes twice as far when fixed in rice, spaghetti, or any other food. Cheese, rice and meat are a happy combination, and there's nothing better than that.

A MESSAGE ON WASHINGTON'S BIRTHDAY

TO THE
3433
STARS
in our Service Flag

To you 3433 in the Armed Forces—our 3433 soldiers, sailors and marines—the J. C. Penney Company sends its tribute on the birthday of George Washington, our first soldier.

You come from every corner of America carrying the might of our democracy to the far reaches of the globe, bearing arms so that freedom may ring and decency reign.

Today your tools of peace are beaten into bayonets. Today you operate the weapons of war, not the machines of commerce and industry. Today you calculate not goods bought and sold, but the speed and altitude of our rushing enemy planes.

So, hats off and hats off again to you, our game and gallant 3433!

YOU'RE ALL STILL PART OF PENNEY'S!

Every one of you is still a part of the Penney Company and of the store from which you came. And you and your store and your job are vital to the America That Is To Be as well as to the America That Was.

WE THINK OF ALL OF YOU WITH CONFIDENCE AND DEVOTION!

And we hope you think of us with trust and understanding—when the victory is won and the flags are furled we'll be proud and happy to welcome you back to your family, your friends and your Penney store.

Demand for Syrup, Sweets, 5 Times as Great as Rationing, Says Table Supply Owner

(Continued from page 1)

Meat shortages have been felt for a good while. Ord would be without meat if much local butchering did not supply the markets, averred Mr. Cahill. Piles and cases of canned milk showed no apparent shortage in that field.

In many cases, Mr. Cahill declared, empty shelves did not mean there was a real shortage, but instead meant that the government had frozen wholesalers' supplies. For instance two salesmen have plenty of pineapple in hand in near-Ord warehouses, but the pineapple is frozen and "I can't get any!" bemoans Mr. Cahill.

All these wholesalers and businessmen have their quotas now, the Ord merchant explains, and have so many pounds or bushels to sell to all their customers, and when the quota is used up no more merchants get any.

At the nearby Benda Clothing store, Frank Benda explains business is good, if we could get the merchandise. Our shortages are important ones, we are short work clothes and work

shoes, just what we need and have so many calls for."

In reply to questions about the new shoe rationing, Mr. Benda thought more shoes were selling as every man or boy with a No. 17 stamp rushed to collect on it.

Woolen stocks are in better condition than they were one year ago, and there are more suits. Sweater stocks are down and sweaters hard to get. Any underwear is hard to get, since soldiers need so much.

Two troublesome shortages of Mr. Benda's are pin tickets and pins.

When interviewed, Dr. George Parkins stated people who used to drive alone now bring a carload. When they come from a distance Dr. Parkins has to work until all hours so they can all go home together again. Then glasses are mailed out, which isn't quite so satisfactory as delivering and fitting them personally.

There seems to be plenty of lenses, excepting the most complicated ones. Everything is slowed down, because of the army needs. So many men in

the army have been found to need glasses.

New instruments for eye exercise or testing are impossible to get, Dr. Parkins says. He knows because he tried to fit up his Omaha office and could get no equipment. Dr. Parkins spends one week out of every four or five looking after his Omaha clients.

At the Karty hardware store, lots of files, coils of wire, dishes, paint and linoleum were visible, and a good many tools to sell were displayed. Mr. Karty and L. J. Auble were concocting a furnace pipe with a check draft, using old and new materials both. "I can even make a tin bucket if I have to," Mr. Karty asserted, pointing out a couple of "milk pails" he had soldered into being.

A war time touch were the white plastic bent pipes to fit between toilet and tank, replacing those shiny metal ones formerly used.

And up near the front door seeds for next summer's victory gardens are already selling to forehanded customers.

—Mrs. Clifford Goff and daughter spent Monday at the Jack Brown home. The little girl has been having ringworm, and is Dr. Miller's patient.

LETTERS FROM QUIZ READERS

Treasure Island, San Francisco February 11, 1943.

Dear Mr. Leggett: As my Quiz has expired please find enclosed \$1.00 for which send me the Quiz for three months and also the last two issues in January. I'd subscribe for a longer period but we have no idea how long we will be stationed here. I enjoy reading the paper very much and it is the one good way of keeping up on the news from home.

I have been here since the latter part of October attending a school in shipfitting and arc welding. My class graduated recently. I made my rating of S. F. 3-c (Shipfitter Third Class). I enjoyed the course very much, especially the arc welding. My pay now is \$78 a month which isn't hard to take. We also can work uptown on our liberty nights for \$1.00 an hour. Labor is scarce and they like to have the sailors work. We are now waiting for further orders and of course don't know what our next move will be.

The weather here as a general rule has been quite miserable. Cold, rainy and foggy most of the time with a nice day occasionally. Today is a swell day.

Like to say "hello" to the Quiz gang and all my friends back home.

My address is: Ed Dlugosh, S. F. 3-c Receiving Ships' Station, Barracks N, Treasure Island, San Francisco, Calif.

I think this is about all for now so I'll close.

Sincerely Yours, Ed Dlugosh.

Wheat Ridge, Feb. 8, 1943.

Dear Mr. Leggett: Enclosed find \$2.50 for which please send me the Quiz. I sure miss reading it weekly, although the folks send it out occasionally.

If it isn't too much bother, could you send a weekly list of my earnings while working there. I am working at Remington and my earnings there the last two months of last year were considerable and I want to make sure I didn't exceed the exemptable sum of income tax. Give my best regards to all the "gang".

Sincerely, Ida Babcock, Box 443A, Wheat Ridge, Colo.

Demand for Syrup, Sweets, 5 Times as Great since Rationing, Says Table Supply Owner

(Continued from page 1)
Meat shortages have been felt for a good while. Ord would be without meat if much local butchering did not supply the Ord markets, averred Mr. Cahill. Piles and cases of canned milk showed no apparent shortage in that field.
In many cases, Mr. Cahill declared, empty shelves did not mean there was a real shortage, but instead meant that the government had frozen wholesalers' supplies. For instance two salesmen have plenty of pineapple on hand in near-Ord warehouses, but the pineapple is mounds Mr. Cahill.
All these wholesalers and salesmen have their quotas now, the Ord merchant explains, and have so many pounds or bushels to sell to all their customers. And when the quota is used up no more merchants get any.
At the nearby Benda Clothing store, Frank Benda explains "Business is good, if we could get the merchandise. Our shortages are important ones, we are short work clothes and work

shoes, just what we need and have so many calls for."
In reply to questions about the new shoe rationing, Mr. Benda thought more shoes were selling as every man or boy with a No. 17 stamp rushed to collect on it.
Woolen stocks are in better condition than they were one year ago, and there are more suits. Sweater stocks are down and sweaters hard to get. Any underwear is hard to get, since soldiers need so much.
Two troublesome shortages of Mr. Benda's are pin tickets and pins.
When interviewed, Dr. George Parkins stated people who used to drive alone now bring a carload. When they come from a distance Dr. Parkins has to work until all hours so they can all go home together again. Then glasses are mailed out, which isn't quite so satisfactory as delivering and fitting them personally.
There seems to be plenty of lenses, excepting the most complicated ones. Everything is slowed down, because of the army needs. So many men in

the army have been found to need glasses.
New instruments for eye exercise or testing are impossible to get, Dr. Parkins says. He knows because he tried to fit up his Omaha office and could get no equipment. Dr. Parkins spends one week out of every four or five looking after his Omaha clients.
At the Karty hardware store, lots of files, coils of wire, dishes, paint and linoleum were visible, and a good many tools to sell were displayed. Mr. Karty and L. J. Auble were concocting a furnace pipe with a check draft, using old and new materials both. "I can even make a tin bucket if I have to," Mr. Karty asserted, pointing out a couple of "milk pails" he had soldered into being.
A war time touch were the white plastic bent pipes to fit between toilet and tank, replacing those shiny metal ones formerly used.
And up near the front door seeds for next summer's victory gardens are already selling to forehanded customers.
—Mrs. Clifford Goff and daughter spent Monday at the Jack Brown home. The little girl has been having ringworm, and is Dr. Miller's patient.

LETTERS FROM QUIZ READERS

Treasure Island, San Francisco February 11, 1943.
Dear Mr. Leggett:
As my Quiz has expired please find enclosed \$1.00 for which send me the Quiz for three months and also the last two issues in January. I'd subscribe for a longer period but we have no idea how long we will be stationed here. I enjoy reading the paper very much and it is the one good way of keeping up on the news from home.
I have been here since the latter part of October attending a school in shipfitting and arc welding. My class graduated recently. I made my rating of S. F. 3-c (Shipfitter Third Class). I enjoyed the course very much, especially the arc welding. My pay now is \$78 a month which isn't hard to take. We also can work uptown on our liberty nights for \$1.00 an hour. Labor is scarce and they like to have the sailors work. We are now waiting for further orders and of course don't know what our next move will be.
The weather here as a general rule has been quite miserable. Cold, rainy and foggy most of the time with a nice day occasionally. Today is a swell day.
Like to say "hello" to the Quiz gang and all my friends back home.
My address is:
Ed Dlugosh, S. F. 3-c
Receiving Ships' Station,
Barracks N, Treasure Island, San Francisco, Calif.
I think this is about all for now so I'll close.
Sincerely Yours,
Ed Dlugosh.
Wheat Ridge, Feb. 8, 1943.
Dear Mr. Leggett:
Enclosed find \$2.50 for which please send me the Quiz. I sure miss reading it weekly, although the folks send it out occasionally.
If it isn't too much bother, could you send a weekly list of my earnings while working there. I am working at Remington and my earnings there the last two months of last year were considerable and I want to make sure I didn't exceed the exemptable sum of income tax. Give my best regards to all the "gang".
Sincerely,
Ida Babcock,
Box 443A, Wheat Ridge, Colo.

Shotguns Wanted by Government

American Legion posts all over the nation have been requested by the war department to assist in obtaining at once as many good used 12-gauge shotguns as possible. The types required are hammerless double barrels, hammerless pumps and automatics. Most of these guns are to be used in training soldiers and sailors in wing shooting, with some used for guarding purposes, and each shotgun so used will release a rifle for combat use.

The government will pay for the shotguns at prices ranging up to \$30.00 for the double barrels and up to \$42.50 for the pumps and automatics. Since shotgun shells will not be made until after the war and gas and fire rationing prevent hunting anyway, no doubt a number of hunters will be glad to sell their 12-gauge guns to the government.

Any owner of a 12-gauge gun who is willing to sell it is asked to attach a tag showing his name and address and leave the gun either with F. J. L. Benda, Legion commander, or Herman Behrendts, adjutant of the Legion, at the Fairmont cream station. The guns will be sent to St. Louis for appraisal and checks will be forwarded promptly. Details of the offer may be learned from Mr. Benda.

Registering for War Ration Book No. 2 Starts Thursday

Dramatic Slash in Food Consumption Will Be Necessary

Value of New Coupons Will Be Less than Half of Normal, Says Gov't.

Coupons in the new War Ration Book No. 2 will buy less than as much food as Americans usually consume, it was re-

ren, Wyo., to witness Arthur's graduation from officers' training school on Friday, Feb. 19.

Arthur received his shiny shoulder bars after only seven months in the service, and he and his wife will leave here next Saturday for Salt Lake City, where he will be attached to the quartermaster department of the air corps.

Mrs. C. S. Jones, grandmother of the young man, arrived on Thursday from Orleans, where she is spending the winter with another daughter, Mrs. Kirby McGrew. Mrs. Jones will stay in Ord a few weeks.

Two sisters also made a rush trip home to see Arthur. They were Irene, who returned Sunday afternoon to her college studies at Hastings, and Dorothy, young teacher in the Utica schools, who left on the same bus.

Frank Horn Praises the Work of Rotary

Not oratorical but homey and down-to-earth was the talk given by Frank J. Horn as the featured event of the evening Monday when Rotarians invited their wives as guests. Dinner was served at Thorne's Cafe.

An ex-governor of Rotary whose home is in Illinois, Mr. Horn has met with hundreds of Rotary clubs for dinner and a

talk. He expressed himself as particularly impressed with the city and county buildings in Ord, and with the fine work Rotarians are doing in backing the Boy Scout organization locally. E. L. Vogelanz presided.

Mr. Horn stressed that "giving a buck isn't what counts; it is giving yourself, a little of your time and spirit; that's what is needed." He told of the meaning of Rotary in foreign lands, of the friendships it had fostered in South America. He spoke of the great admiration citizens of South America have for our country, particularly what the youth of South America feel for this land, the land of their dreams. He stated that youngsters there spoke English much better than our boys and girls learn to speak Spanish, a vowing that he thought emphasis on this language in our schools was most important in a modern world.

A. Auble Home, Reunion Enjoyed

and Mrs. Glen Auble had a reunion at their home here, the chief excuse for which was Second Lieutenant Auble and his wife, who returned from Grand Island at three o'clock Saturday. Dr. Auble drove to meet them, and also his son who went out to Fort War-

John Meyers on Cruiser Pensacola Since War Started, Has Fought in Many Battles

John Meyers is mighty these days of her son and the fine record he made as a seaman first during the two years he spent in the navy. For last public acclaim and attention centered on the Pensacola is the cruiser on which Milton has spent all the time of his service.

Pensacola, called the "Queen of the Pacific," was out as symbolic of our unflinching spirit, and it has seen action in major engagement in that theater without rest or respite. She safeguarded the way to Australia, fought at the Coral Sea and at Midway, and stayed at sea at a time in the most dangerous of the war. The ship was able to roar defiance in the fourth battle on November 30, long before it was due for dry dock.

The ship tried hard to sink the Yorktown. At the time she was so serious on her entire mainmast

2 North Loupers Die Suddenly

North Loup—(Special)—Death struck twice in this village Tuesday night and two more prominent residents were taken, shocking this community which has seen 7 such sudden deaths within the past few weeks.

Josh Clement, 45, died at 8:00 Tuesday evening as result of a sudden heart attack. Several months ago he was ill and spent some time in University hospital but he apparently was in good health until stricken Tuesday evening. Mr. Clement's wife is blind and his aged father, Asa Clement, had been cared for by him since the sudden death of his mother a few weeks ago.

Art Babcock, 76, passed away about 1:00 Wednesday morning. The previous day he had a slight heart attack and his death came quickly after a more serious attack suffered in the night. A son of the late Rev. Oscar Babcock, he was one of the earliest settlers in the Loup valley.

Army Nurse Will Get Furlough Soon

Miss Wilma Klima, who has been a member of the army nurse corps for a year, sends word she will be home to visit soon. She expected to reach Omaha Monday from Seabring, Fla., where she has been stationed.

During her 15-day furlough she plans to visit her sister, Mrs. Hatlie Zikmund and son Elno of Omaha, also two sisters who live in Grand Island, Mrs. Rose Valasek and Mrs. Minnie Gross, as well as the Valley county members of the family. She is a sister of county clerk Ign. Klima, jr.

Ord Plays Final Game at Albion

The Chanticleers of Ord high went to Albion on Tuesday evening for their final basketball game of the year before entering the District Class A tournament at Grand Island.

Ord lead all the way up to the last minute when Albion tied the score at 22-22 and in the last ten seconds of play, Moore, Albion guard, hit a long archer from the center of the floor to win the game for Albion, 24 to 22.

It was a heartbreaker for the Chanticleers to lose, for at half-time they lead 16 to 9. Johnson, of Albion, was the best player on the floor, believes Coach Tolly, who says Johnson is the most polished high school player he has seen in action this year. The Chanticleers played well against Albion with Wilson, O. Hurlbert, Finley and Vogelanz doing Ord's scoring.

Friday night Ord proved its earlier victory over the Burwell Longhorns was no accident by doing it again, 32 to 19, with Wilson bucketing 11 points, O. Hurlbert and Vogelanz 8 each, for the Ord team. Hansen looked best for Burwell.

The Junior High team also won over Burwell, 21 to 17.

The wives of precinct committeemen will be her audience but all farm and town women are invited to be present also.

Father Wachtrle Celebrates First Solemn High Mass

Ord Man, Ordained Recently in Arkansas, Comes Home for Observance.

Sunday morning at 11 o'clock the Rev. Paul A. Wachtrle celebrated his first solemn high mass in Our Lady of Perpetual Succor church. For Father Wachtrle it was an important event but for Ord people it was even more so, for Father Wachtrle was born and reared in this community.

before entering the Arkansas seminary where he was ordained in the priesthood a few days before.

The solemn and impressive ceremony Sunday began with a procession from the rectory to the church led by the altar boys. Little Dolores Blaha, beautifully gowned as a bride and carrying a silk pillow, was attended by Amelia Novosad and Jean Kruml as flower girls. The relatives of Father Wachtrle were followed in the procession by the visiting clergy and the officers of the

Red Cross Opens War Fund Drive Monday, March 1

Must Raise Biggest Quota in History; Mrs. Parkins the County Chairman.

The combined war fund and membership drive of the American Red Cross starts Monday, March 1. Mrs. George Parkins is Valley county chairman.

In the last campaign the American people responded so splendidly that no November roll call was thought necessary, so none was held last fall. But with war flaring hotter on a dozen fronts, with more American wounded and refugees to care for every day, the Red Cross' duties have doubled and doubled again.

This year, not merely a \$1 membership but several dollars are needed from each of us, so give generously when you are asked.

Mrs. C. C. Dale is in charge of the Red Cross drive in Ord, and has appointed her chairmen as follows: Downtown, Mrs. Roy Randolph; first ward, Mrs. H. E. McClure; second ward, Mrs. Joe Osentowski; third ward, Mrs. J. W. McGinnis. Mrs. Parkins will contact several larger firms which have a number of employees. All workers have been called to a pep meeting Monday at 1:30 p. m. in the council room of the city hall by Mrs. Dale.

In the country arrangements are being made to conduct the campaign through the school teachers of the various rural schools, says Mrs. Parkins.

Ed Beranek Again Heads Druggists

"I wanna be like Roosevelt," laughs Ed Beranek when questioned about whether he will act as president of the Nebraska State Druggists' association for the coming year, admitting that he has agreed to take a second term.

The board of directors of the druggists association met last week in Lincoln, in lieu of a state convention. Mr. Beranek was president last year and was urged to hold over, which he did. He is a modest fellow, and last year it was several weeks before the news reached Ord that he had become state head of the group. But having taken the job again, he laughs and kids in his customary fashion about the honor.

Seek Bring Farmers, Laborers Together

Farmers who need year-around farm labor should file their orders immediately with the county Farm Security office, in the post office building at Ord, or with any member of the county war board, Joe Rammaekers, county supervisor of Farm Security Administration, announced today. At the same time, persons seeking jobs on farms are asked to register at the Farm Security administration office. All available labor with the state will be utilized first, he said, and if that supply does not meet the demand, year-round laborers from areas of surplus will be imported. Complete details of the program will be announced soon, but it is necessary now to get an idea of this county's needs so that recruitment can be started immediately.

Arcadia Newspaper Quits Publication with Today's Issue

Warden Sells, Paper Will Be Consolidated with Quiz; Arcadia Dep't Planned.

With today's issue The Arcadian, newspaper published in the village of Arcadia since October, 1934, by Stanley B. Warden, will cease publication and hereafter will appear as a department of the Ord Quiz.

H. D. and E. C. Leggett, publishers of the Quiz, completed a deal with Mr. Warden Tuesday by which subscription list and machinery of the Arcadian become their property. Some of the machinery will be sold, some will be disposed of as scrap metal and some will be moved to Ord and used in the Quiz printing plant.

Subscribers of the Arcadian will receive the Quiz for the full period they are paid in advance, although the Arcadian subscription rate is only \$1.50 per year as compared with the \$2.50 rate for the Quiz. Renewal subscriptions will be accepted only at the \$2.50 price.

Arrangements have been made by which Mr. and Mrs. William Ramsey, jr., will serve as news writers and business agents for the Quiz in Arcadia, and will have full charge of the Arcadia department which will occupy a page or more of space in the Quiz each issue. Mr. and Mrs. Ramsey have authority to collect new and renewal subscriptions, advertising copy and job work, which will be printed in the Quiz plant.

First announcement of the sale and impending consolidation was made by Mr. Warden Tuesday evening at a meeting of the Arcadia Community club. War shortages of paper, material and lack of advertising support because of the war were factors in his decision to sell, Mr. Warden said. E. C. Leggett, editor-manager of the Quiz, also attended the meeting and spoke briefly.

Future plans of Mr. and Mrs. Warden are uncertain but they may move to Ord and accept employment in the Quiz plant.

Marriage License Issued.

Judge John L. Andersen issued a marriage license on Feb. 20 to Elmer O. Golka, 26, and Margaret R. Elliott, 23, both of Arcadia.

Meat Rationing April 1 Will Bring Many New Problems to Pecenka; Clock Repairing Booms

At the Pecenka Meat Market war rationing problems are about to begin, with all-out meat rationing scheduled for April 1. Ord has been fortunate to have meat on the counters this long; many places have suffered a meat shortage for weeks past.

Butchers were given their quotas long ago, says Mr. Otto Pecenka. So much was to be used between October and Dec. 31; so much was available for the next period ending March 31; so many animals may be slaughtered and prepared for sale in the third period beginning April 1. April fool's day in earnest.

All fresh side pork goes into bacon now, as it is hard to get bacon shipped in, only a small quantity reaching Ord. All meats sell faster than they used to, states Mr. Pecenka, probably because chatter about rationing and shortages has alarmed everyone a bit.

Of course many families never did use as much as two and a half pounds of meat per week per person, and so that particular family gets along dandy with the new rules. The other

Mrs. F. Krahulik Passes Thursday After Long Illness

Respected Ord Woman Was 75 at Death; Funeral Rites Were Held on Monday.

Monday afternoon at the Methodist church funeral rites were held for Mrs. Frank Krahulik, respected Ord woman who died Thursday, Feb. 18 at her home here after a long illness. She was 75 years of age. Rev. B. A. Filipi, of Clarkson, conducted

the obsequies and the Hastings-Zikmund funeral home had charge of arrangements. Burial was in the Ord cemetery.

Mrs. Krahulik, nee Anna Vnuk, was born July 24, 1867 in Lhotka Okres Kourin, Karl Caslav, Bohemia, and came to America with her parents at the age of 11, settling in Colfax county, Nebraska. On Sept. 6, 1888 she was married to Frank Krahulik and for some time they lived on a farm near Scribner, moving four years later to Clarkson where Mr. Krahulik had a hardware business. Later they came to Valley county to make their home on a farm 12 miles west of Ord. In 1915 they moved to Ord which was her home until death.

She was an active member of the Z. C. B. J. lodge until her failing health prevented her from leading an active life in the local chapter, and for many years was a member of the Happy Hour club.

Mr. Krahulik preceded his wife in death, as did four sons, Frank, Charles, Lumir and John. Left to mourn are two sons, Leo, of Roy, Mont., and Rudolph, of Ord, and five daughters—Mrs. Anna Parkos, Mrs. Floyd Wozniak and Miss Bess Krahulik, of Ord; Mrs. John Beran, of Lubbock, Tex.; and Mrs. M. C. Heck, of Oakland, Calif. There also are two sisters, Mrs. Antonia Wostoupal, of West Point, and Mrs. Charles Renter, of Omaha, and three half-brothers, Frank, Joe and Louis Hron. She is also survived by 13 grandchildren and two great grandchildren.

Poor health was Mrs. Krahulik's lot for several years before her death but she met suffering with the same quiet courage which characterized her entire life. Her daughter Bess Krahulik devoted her time in recent years to caring for her mother.

Music at the funeral Monday afternoon was furnished by a quartet composed of R. E. Noll, J. R. Stoltz, Mrs. C. M. Davis and Mrs. Roscoe Tolly, with Mrs. Noll accompanying, and Mrs. Tolly also sang as a solo, "Goin' Home." Pallbearers were E. L. Vogelanz, Henry Vodehnal, A. J. Adamek, Vencil Krikac, sr., J. T. Knezacek and Frank Benda.

LET US HELP YOU WITH YOUR FIRST SHOPPING UNDER POINT RATIONING

A Point ration shopping won't be easy the first time you try it. But your Safeway has done a lot of things to help you learn how it is done. Just slip on a coat

B ... take a stroll to your Safeway. Start early because point ration shopping will take more time ... you have to figure point values as well as cash values.

C You'll notice—Government signs showing point values for all ration items—how clearly we have identified the point value of rationed items ... by red shelf markers and by marking the point value in red crayon on every rationed item. But best of all there's a clerk wearing a big badge ... it reads "point ration information."

D That's our "piece de resistance" ... a clerk who's qualified to answer your questions. He knows the "whys and wherefores" of point rationing and will answer you cheerfully and in detail.

E Next, browse around a bit and note the large variety of items stocked, the low ceiling prices, and how clearly we've marked the point value as well as the price value of all items rationed so it's easier for you to compare value.

F Don't hesitate to go back to the point ration information clerk and ask any other questions which may occur to you. Be sure you know how to get the best value for your points.

G When you are ready to buy your groceries, make a mental note of the points required for each rationed item selected. If the point cost totals more than you plan ... exchange items until you have the best value possible for your points ... take as much time as you like.

H When you arrive at the check-out counter ... the clerk will call the point value of every rationed item and he will total the point values as well as cash values on the register. Thus, your sales slip becomes an accurate record of the point value and the cash value of your purchases.

I On your way home ... if you want to tell your neighbors that Safeway is doing everything possible to make "point ration" shopping easier for their customers ... we won't object.

YOUR SAFEGWAY CAN MAKE YOUR POINT RATION SHOPPING EASIER!

In recent months you've learned how to handle ration stamps for sugar and for coffee. Shopping with points is more complicated, but your Safeway Store has done many things to help you. Under point rationing you'll have to think about the price in points as well as the price in money. To make this easy Safeway has marked the point value on the shelf directly below each rationed item and also on the item itself. At Safeway you can make comparisons of values leisurely and

select the items best suited to the amount of points and money you want to spend. But remember point ration shopping will take more time ... it's doubly important to shop early in the day and early in the week. You'll get the "hang" of it quickly, but at the start you'll probably have some questions. So at Safeway you'll find a "point ration information" clerk—who is qualified to answer your questions—and will do it cheerfully and in full detail.

Meat Rationing April 1 Will Bring Many New Problems to Pecenka; Clock Repairing Booms

(Continued from page 1)

Most of their trouble, Mrs. Petska explained, was with sweets . . . candy, gun, syrup, marshmallows. The sale of jams and jellies is several times what it was before rationing, and cookies ditto.

Salmon is hard to stock, but Mr. Petska is often able to pick up "short" articles like that when he makes his buying expeditions to Omaha, which he does often.

Bananas are a treat "when you have them," Mrs. Petska said. They are not higher priced than they were a year ago. Seeds have not started to sell yet, but will begin soon, as Victory gardening grows more important.

Missing from the Petska store is the broad smile and youthful exuberance of Jerry Petska, jr., who is now training to become a ground crew chief in the air corps, which will take 12 to 16 weeks yet. Junior became a sergeant a few days ago at the mature age of 18 years, three months and 7 days. He is delighted with his work, which is to "ready" a plane for flight, sit by the pilot and take over the controls in case of necessity. The Petskas are mighty proud of him, and with good cause.

In the store, young Kenneth Kawata helps in Junior's place, and the self-serve selling helps too.

L. A. Muncy, jeweller, had a couple of dozen clocks ticking away merrily, emphasizing the big clock-repair business a shortage of new clocks has produced.

Metals are frozen, no more alarm clocks, and "they have ceased to manufacture gold-filled and gold plated jewellery of all kinds, stated the southside jeweller and watch repair man. Solid gold is on the market yet, however.

Watches are a real shortage, few coming from New York city any more. When the insides are made in Switzerland, as so many of them are, the watches are cased, dialed and advertised in this country to acquaint the public with them. When metal for cases is frozen, watch insides from Switzerland are scarce, and the government speaks for alarm clock mechanisms to put in time bombs, the public must go short.

HIGH SCHOOL NOTES.

At its regular meeting last Tuesday evening the Foreign Language club enjoyed several talks and a piano solo by various members. The student council has decided to sponsor a series of convocations, the first of which was given last Thursday. It was a musical program, featuring Arthur Larsen and his accordion, the boys' octette and group singing.

The G. S. S. climaxed its "heart sister week" with a party in the home ec room Monday. A six o'clock supper was followed by games and an exchange of gifts.

Both high school and grade school students are enjoying a vacation Thursday and Friday while the teachers assist in the rationing program. On Monday school was dismissed half an hour early so the teachers could get their instructions.

Next week eleven senior normal trainers will go out to practice teach in various rural schools. The normal trainers and the schools they will teach in are as follows: Lois Cook, Dist. 57; Roberta Cook, Dist. 23; Merry Craig, Dist. 54; Dorothy Duda, Dist. 14; Betty Hosek, Dist. 9; Wilma Klanceky, Dist. 17; Audrey Koll, Dist. 6; Jay Larsen, Dist. 68; Evelyn Long, Dist. 15; Marie Marech, Dist. 2; Avery Noll, Dist. 40.

Michigan legislature is passing a law to limit the amount of whiskey to two quarts for each person.

When I find fault with something and want it fixed, boy then the fur begins to fly.

Everyone seems interested when I write about animals. Also children and their quaint remarks.

But the way you can tell, dear reader, that I am out of ideas is no, I am never out of ideas.

Let's see, who was the prominent man who tired speedily of polite goodbyes and thank-yous at the end of a social evening?

Without a doubt that is the way animals interpret our remarks to them.

One of those sure-thing gardeners, sure to raise a garden, is Mrs. Henry Deines, my neighbor.

Hope my flashlight is in good working order about the time those peas are ready for the table.

When I find fault with something and want it fixed, boy then the fur begins to fly.

Raising tame rabbits is an interesting side-line hobby for Elmer Zlomke and his sons Maynard and Wayne.

The coming of meat rationing has stirred up a lot of interest in domestic rabbits.

The Zlomkes have butchered 65 or 70 rabbits this winter for sale as meat.

Domestic rabbit has a taste similar to chicken, only more delicious.

Mr. and Mrs. Hilding Pearson had Rev. and Mrs. B. A. Filipi of Clarkson as their guests Monday overnight.

Something Different

Newspaper publicity is a funny thing. If I say something kindly about even a tiny pup, I receive at least one complimentary remark, usually more.

GIVE MOTHER SOW
EXTRA GOOD RATIONS

Litters out of undernourished sows in-
variably have the greatest loss because
the mother pig, no matter how much she
robs her own body, can't give her pigs
the bone and body structure, as well as
strength, they need to live and grow.
Guard against litter loss by feeding Nor-
co Hog Maker Supplement to your brood
sows. It keeps them fit and provides the
vitamins, minerals and proteins that
brood sows need. See your Norco Dealer

**A TRIBUTE
to the Men and Women
who Milk the Cows**

"Before dawn's early light 'til far into the night,
dairy farmers are fighting—working to feed free men
with the dairy foods they need. On the farms there
are no time clocks. Like soldiers on the front, farm-
ers work all the time. No overtime pay—no holidays.
Sundays, too, are working days. Cows must be milk-
ed—morning and night—365 days a year!

"Help is scarce. Two million sons of the soil
have joined the colors and war plants. Even with
the farm wives and children taking their place in the
milking line—there's still a shortage in farm help.
More manpower—more equipment are needed—need-
ed now! America must have 122,000,000,000 pounds
of milk in 1943. That's more than this country ever
produced in a single year.

"Dairy farmers are not complaining, rather they
ask only a public understanding. While sons and
fathers are fighting and dying, we cannot call our-
selves a part of a 'farm group' or a 'labor group' or a
'consumer' or a 'producer.' We're all Americans,
fighting for a cause—the American way of living!

"If you have trouble getting butter, cheese, or
milk, let this message remind you it is not the fault
of your grocer, milkman, dairy food distributor, or
dairy farmer. Share and sacrifice now to speed the
day when we all can live the American way. Do your
part now by using dairy foods wisely."
