The junior class play "Huckleberry Finn," presented Thursday evening at the community building was one of the best high school plays presented in some time and was attended by a large crowd. Time of the play was in 1845, set in Peter Wilkes' old home and the stage was set with furniture of that period and all actors were in costume. Goshen, Ark., was the town where the Wilkes' home was located. The plot centered around a runaway negro, Jim, played by Eula Brown. Huckleberry Finn, the hero, was played by Gordon Portis. He assisted in Jim's escape and was mistaken by Aunt Sally, (Doris Thorgate), as her nephew, Tom Sawyer, (Steven Clement. Emmeline Grangeford, a reporter, with a fondness for obituaries, was played by Charlotte Jones, whose costume added much to the realism of her acting. Silas Phelps, stern and suspicious, and sheriff of Goshen, was Lloyd Smith. Joanna and Mary Jane Wilk, Fern Sims and Esther Taylor, were nieces of Peter Wilkes and had been left \$6,000 by the deceased uncle. The king, an elderly rascal, Verna Fay Dezel, and the Duke, a younger rascal, posed as the brothers of Peter Wilkes and almost made away with the gold and all the property but were prevented by Huckleberry and Tom, aided by Joanna, who played the part of a tomboy exceptionally well. Becky Thatcher, (Marjorie Hamer), who was Tom's sweetheart, and Aunt Polly Sawyer, Phyllis Stevens, arrived in time to disclose the real identity of Huck and Tom and straighten out the tangle. All parts were especially well played but outstanding, if there were any, were Huck Finn, Tom Sawyer, Aunt Sally, Emmeline Grangeford, Joanna Wilk and the king. The king, Jim and the negro were male characters and were taken by girls because of a lack of boys in the class. Mrs. R. L. Hayden directed the play, Leo Larkin was prompter and Erlene Hawkes stage manager. A total of \$55 was taken in at the door.

The junior class play "Huckleberry Finn," presented Thursday evening at the community building was one of the best high school plays presented in some time and was attended by a large crowd. Time of the play was in 1845, set in Peter Wilkes old home and the stage was set with furniture of that period and all actors were in costume. Goshen, Ark., was the town where the Wilkes' home was located. The plot centered around a runaway negro, Jim, played by Eula Brown. Huckleberry Finn, the hero, was played by Gordon Portis. He assisted in Jim's escape and was mistaken for Aunt Sally, (Doris Thorngate), as her nephew, Tom Sawyer, (Steven Clement, Emmeline Grangeford, a reporter, with a fondness for obituaries, was played by Charlotte Jones, whose costume added much to the realism of her acting. Silas Phelps, stern and suspicious, and sheriff of Goshen, was Lyle Smith. Joanna and Mary Jane Wilck, Fern Sims and Esther Taylor, were nieces of Peter Wilkes and had been left \$6,000 by the deceased uncle. The king, an elderly rascal, Verna Fay Dezel, and the Duke, a younger rascal, posed as the brothers of Peter Wilkes and almost made away with the gold and all the property but were prevented by Huckleberry and Tom, aided by Joanna, who played the part of a tomboy exceptionally well. Becky Thatcher, (Marjorie Hamer), who was Tom's sweetheart, and Aunt Polly Sawyer, Phyllis Stevens, arrived in time to disclose the real identity of Huck and Tom and straighten out the tangle. All parts were especially well played but outstanding, if there were any, were Huck Finn, Tom Sawyer, Aunt Sally, Emmeline Grangeford, Joanna Wilck and the king. The king, Jim and the negro were male characters and were taken by girls because of a lack of boys in the class. Mrs. R. L. Hayden directed the play, Leo Larkin was prompter and Erlene Hawkes stage manager. A total of \$55 was taken in at the door.

Her early life was spent in Illinois and on January 10, 1883 she was married to John Riley Barnhart. To this union were born seven children.

In 1884 they moved to Valley county, Nebr. They made their home in and around North Loup continuously excepting the eight years from 1888 to 1896, when they homesteaded near Akron, Colo.

The children are Zylpha Honeycutt (deceased), Grace Gibson, Broken Bow; Lester of Lehl, U.; Trueman of Brighton, Colo.; Alva of Sargent.; Lena Taylor and Dessie Vogeler, both of North Loup. Also surviving are 31 grandchildren, 40 great grandchildren and a host of other relatives and friends.

Jensen has been in the far northern part of Canada with an automotive proving unit and says the temperature sometimes got down as low as fifty below zero. Another Ord man, Laverne Johnson, also was stationed there but left before "Peanuts" did and also has been here on leave. Jensen will go to the proving ground in Aberdeen, Md., upon conclusion of his furlough. He says that Captain Charles Osborne, formerly a Chrysler salesman out of Hastings, was in one of the companies stationed at the Canadian proving station where he was. "Chuck" Osborne has a number of friends in this community also.

SAFeway Homemakers' Guide

Your Safeway has everything to make your house spic 'n' span!

Spic 'n' Span

The whole house should gleam with that spic and span look after the spring cleaning. That means that besides doing the general cleaning, every little scratch, discoloration, flaw here and there has been taken care of.

Housecleaning isn't what it used to be now that we've a host of modern cleaners of all sorts on the market...

But these new cleaners aren't the only things that star during cleaning time. Common household items like salt and vinegar, can do all kinds of miracles around cleaning time.

SALT... Cleans those brown and grey stains on the bathtub and basin with utmost efficiency. Pour salt on a slightly dampened cloth and scour. It is especially good for hard water stains.

Removes stains and discoloration from china, earthenware and pottery. Moisten salt and rub spot with it.

Cleans and brightens brass, copper and pewter when used with an equal amount of vinegar. Add a little flour to the mixture to make a paste, rub it on the article, let it dry, and then rub off. Wash and polish and watch the sparkle.

VINEGAR... Equal parts of vinegar and linseed oil make a very good furniture polish. Mix together, shake well, rub on furniture and then polish with the grain of the wood. It brings out hidden beauty.

Cuts the grease on stoves, in ovens and on broilers like magic. Saturate a rag with vinegar and go over the greasy portions. Soak stubborn parts in soapy suds that contain vinegar.

Something Different

It looks like a lively summer in Ord, a growing summer. I used to campaign for Ord to be lined with petunias, iris, or spirea.

Now, lo and behold, along comes Jay Auble and he wants streets lined with 50 lb. pumpkins! He wants to see how pumpkins on the park. He hopes to see the prize orange beauties displayed out the square, in windows on the streets.

Uncle Sam asks that pumpkins be planted in Victory Gardens, as they take up too much room for the vitamins produced, the vines running an average of 30 feet long.

But we can all find an unused, poorly occupied corner where some of those Auble pumpkin plants can be cherished.

A good idea, and think of the potential pumpkin pies next winter! (Assuming we can find the sugar and the eggs and the milk ration stamps to the other needed ingredients.)

Food is becoming a strangely dominating subject as it gets nearer and nearer, and rationing winds additional red tape about the acquiring of it!

And it grows more valuable. Last week a young party with bean shooter applied to me for shooting material, wanting peas, big tapioca balls, or would do. "Nothing doing" was my response, explaining they were all too scarce or precious to be wasted "bean-shooter."

At last we settled on barley, the new ammunition material, and yet I felt a bit gully and wasteful.

Plates nowadays must be licked clean. I predict a fresh crop dunkers will learn to enjoy golden-day fashion. Yessir, it was fashionable and proper, and a small piece of bread was used to mop up the drops on the plate, too.

Correct was drinking from its saucer, would you believe

It? I found this pearl of knowledge only a day or two ago, while reading about antique china.

It seems two saucers went with a cup, a "three or four inch one to hold the cup while the coffee cooled in the big saucer so that it might be sipped."

But it didn't say exactly where the thumb should be placed for saucing. Does the thumb go in the coffee, as a trial thermometer, or is it delicately placed at the rim of the saucer? And did they wear bibs, or were they good? —Irma.

BACK FORTY

Lumber is getting scarce and the farm shop students at Ord high are bringing in old boards and boxes from home for construction material.

This has been a busy year in the shop. With orders far greater than they could fill, most of the boys have been selling their equipment to the highest bidder, or making something for Dad.

Work is slackening up now due to lack of boards. What lumber we can buy is mostly green, sappy and of narrow widths. Our local yards have more ordered but it just doesn't come. One-inch material is almost impossible to get. Thus far we have been able to purchase nalls.

While farmers are entitled to priority on lumber for certain types of construction the output of mills is inadequate to fill these orders. So bad is the situation that many lumber yards have closed their doors for lack of lumber to sell. All important food producing states are feeling the pinch.

Farmers may have to cut their own saw-logs, or tear down abandoned buildings for lumber next winter. They urgently need hog and poultry houses, feeders, bunks, wagons, and grain storage bins. You cannot produce meat, eggs or butterfat without proper equipment.

The shortage slowed up our agriculture students, yet they have finished some big projects this term, including 10 large hog feeders, 9 cattle bunks, 6 wagon boxes, and several hog houses and loading chutes. They also made over 100 chicken feeders.

The shortage is due to demands for lumber to build war plants, and for shipping munitions. Food production will suffer if farmers cannot get more construction materials.

LETTERS FROM QUIZ READERS

Honolulu, T. H., March 13, 1943. H. D. Leggett,

It seems like it is a month since I wrote the Quiz last, but very little of general interest has occurred in that time. First, with regard to the Quiz, I got the issues for Jan. 14 and 28 a long time ago, and I thought for a time that those for Jan. 7 and 21 were lost. But about a week ago a boat load of newspapers and similar mail came in and I got them. A few days later the first issue for February arrived. The best we can hope for here for newspapers is about a month behind time, but they are welcome just the same. I still would like to get a copy of the Quiz which had the picture of the sign shop boys in it. I heard a lot about it, but the copy you sent never got here. I think it got burned in that fire in December in Los Angeles.

as some of the boys got damaged letters from there.

Through an item about the schools I learned for the first time of the death of one of my good friends while on the Quiz, Miss Daisy Hallen. She made it a point to furnish news from the grade school each week, and I appreciated it. I wonder how many Ordites really appreciate what she did for their children while they were under her guidance. The same goes for Misses Swain, Rowbal and Finley and others whose names do not come to mind at the moment. I am not young anymore, but three of my earliest instructors are still living, two of them in Ord. They are Mrs. Carrie Hellwege and W. A. Anderson and R. M. Hayslip, who at last accounts was still living in Ansley. I haven't forgotten them, and I do not think the Ord youngsters will forget Miss Hallen and the other teachers, who gave and are giving their lives for the cause of a better America.

I am getting quite a number of letters in addition to those from my wife and the children and my sister, Mrs. Roe. One letter was from Stella Palmatier Grindey, who gave me the welcome information that her parents were enjoying good health this winter. She also told me about her brother Ellory, who is in a Jap prison camp near Manila. I felt certain he must there, but had not heard a word about him since that fatal Dec. 7. (fatal for the Japs)

Perhaps the most interesting letter I have received to date came from my esteemed nephew, Howard H. Roe. He wrote a very interesting letter, and illustrated it all the way through. It was a long letter, too, about a yard, I believe. I ought to be ashamed of myself for not answering it personally, but it seems that I never get time. I work eight hours per day, and spend the rest of the afternoon doing carpenter work.

Another letter which I really enjoyed and which will be of interest to the Quiz readers was from J. E. Mauer, who spent quite a lot of time in Ord a few years back. He wrote from Las Vegas, Nev., where he is employed by Basic Magnesium, Inc. He told of seeing John Sharp on the street there, also saw Mr. and Mrs. Wayne Coats and Mr. and Mrs. Ernest Woolery and Earl. Glen Woolery had just gone to the army. Ed's letter is one I'll have to answer direct, as he doesn't get the Quiz. However, his address is 318 South 4th street.

I received a valentine card from Mr. and Mrs. J. T. Knezecek. The letter told me first of what I found out later in the Quiz, the death of Frank J. Stara. Another of the pioneer merchants gone to his reward. I also learned what I did not know before, that Mrs. Stara had died in October. That is one of the sad things about having friends, sooner or later you have to lose them, and people like the Staras are hard to replace.

Horace Travis combines pleasure (for me, at least) with business, when he writes me in regard to business matters. He always takes time to write a long letter to tell me what is doing, and I know he is plenty busy these days. I received a card this week from F. Furtak, who is located here and who tried to find me one day, only to run across a John Ward from Brooklyn. I am writing him, and the next time he comes he will know just where to look for me. Alex Chambers of Burwell made another effort to visit me, but he came on my day off, and we did not get together. Then a few days ago two marines called at the residence to see me, but I was watching a baseball game, and they did not find me.

A few days ago I visited with a soldier who was in the mess line just behind me, and we ate supper together. He proved to be Frank Atkinson, who was a contestant and took second in bronk riding at Nebraska's big rodeo in 1932. I asked him if he visited the information office while he was there, and he said he did. I asked him if he met the fellow who was running the place, and he gave me another look and said: "By Gosh, that was you!" I had him sized up before he figured out who I was.

Two of our men from the sign shop, Penn and Price, the latter a new man, will leave in about a week for the states. They are both good men, and will find work there as soon as they arrive. Penn's picture was with the rest in the Quiz. The colored man, Jones, who was in that picture, went home some time ago, and died of pneumonia shortly after he arrived.

We have been having the most wonderful weather here the past two months that you could imagine, except that it really gets too cool for comfort some of the nights. A sheet and an army blanket are not enough, so some of us mollycoddles had to get another blanket. They are dredging down along the coast, about two miles away, and some of us kids go down there and pick up sea shells. I have been down several times, and now have a rather nice collection of them.

Baseball has been going here full tilt for about a month. The cantonment has two teams, a negro organization called the Brown Bombers, and a white team called the Volunteers. The Bombers have yet to win a game and the Volunteers have lost only to the Rainbows, who are leading the league. We have a few high class players here, in-

cluding a man who was on the Brooklyn payroll last year, although I can't tell you his name.

This is not much of a letter, but can't write much and stay within censorship regulations. Those who can't resist the temptation to write me will find me at the same old location, Box 28, Area 3, Honolulu, T. H. Very truly yours, John L. Ward.

OPA Boosts Corn Price to \$1.04 Bu. "On Track" in Ord

(Continued from page 1)

dealer may add 5c per bushel to the price outlined in this paragraph in making local sales of yellow corn so purchased.

So reads an announcement issued on behalf of the OPA by the USDA war board Tuesday. The price of \$1.02 which elevators may pay in future represents approximately a 20c per bushel increase over maximum prices previously in effect in Ord, which were based on the highest price paid between Jan. 7 and 11, 1943.

Asked Tuesday how the OPA order will effect elevator purchases and sales of corn in Ord, one local grain man said "it will practically put us out of the grain business." Corn raisers will not sell to elevators at \$1.02 when they can sell directly to feeders at \$1.04, this man stated, and no feeder will be willing to pay the elevator its normal handling charge of 5c per bushel when he can buy directly from the producer. This grain man takes a very gloomy view of the situation, holding that the new order will only increase the confusion now prevailing in the feed market instead of bringing more corn onto the market as it is designed to do. Now that the maximum price has been relaxed most farmers will continue to hold corn for still higher prices, he believes.

Corn is loosening up to some extent since the new ceiling price was established, said R. Clare Clement Wednesday.

With corn sealed at 85c per bushel, farmers generally have been refusing to sell corn and with feeders clamoring for grain to finish their cattle most sales that have been made locally have been made directly by farmers to feeders and at prices considerably above the loan price. \$1.00 corn has been a reality here for several days, it is stated by responsible sources, but little has been changing hands even at this price.

Feeders, on the other hand, have been objecting that they could not afford to buy \$1.00 corn to finish cattle under present meat ceilings, and many have predicted that if feed could not be bought under \$1.00 that many cattle would go to market unfinished at a time when the meat need is great.

At Omaha Tuesday commission men said far too large a proportion of unfinished cattle are coming to market at the present time and that every steer sold at 1,000 pounds when it could have been finished out at 1,200 lbs., represents a net loss of meat badly needed by the army and by civilians.

Some feeders have been buying Commodity Credit corn at around 90c per bushel but selling of this government corn was frozen Tuesday. What the price will be when selling is again resumed is not known. The Triple A office announces there will be five cars of feed wheat in Valley county soon, one car for Arcadia, one for North Loup and three for Ord. The price will be 97c.

1st Nutrition Class Will Start Friday

Ord's first Red Cross nutrition unit met to organize Monday afternoon at three o'clock at the home of Mrs. H. E. McClure, with ten present. Mrs. McClure has consented to teach the group, which will meet for the first time on Friday afternoon at two o'clock at the McClure residence. Anyone who is interested is urged to be there at that hour, for the first lesson will begin on time, says the teacher. The class is open to the public and additional classes will be started if necessary.

Mrs. McClure holds a bachelor of science degree from the University of Illinois, though she took her home economics work chiefly at Purdue University. She is well qualified to present the course, which consists of ten sessions of two hours each. The demonstrations and work will be done in the homes of the various members of the class. Anyone desiring to enroll in a nutrition class is asked to phone Mrs. Olof Olsson, Red Cross chairman for nutrition.

Not Enough Action, So Kokes Switches

There wasn't enough action in the naval medical corps where he served as an ensign so Anthony Kokes transferred and when he came home this week to visit his parents, Mr. and Mrs. Frank Kokes, he wore the stripes of a lieutenant (j. g.) and is now serving as a gunnery fire control officer on a warship. There is plenty of action in his present work, Lieut. Kokes says. Though he is forbidden to give details of specific engagements or mention the ship on which he served, he was in several battles in the South Pacific area and elsewhere in the Pacific battle zones, he admitted. "A sea battle is plenty fast and furious while it lasts but you don't have time to get scared," he said. "After its all over its a different story."

Lieut. Kokes, accompanied by his wife, visited in Ord briefly enroute to Chicago where they will visit Mrs. Kokes' people. Then he will go to Washington, D. C., for some special instruction and will then be assigned to a newly completed warship.

Ord Hi Army-Navy Test Site April 2

According to Principal F. L. Stoddard, Ord high school has been designated as an examination center for boys 17 to 20 years old who wish to take the qualifying test for army-navy college training. The examination will be given here April 2.

Purpose of this college training program is to produce naval officers for that service, and to train men in engineering, medicine, psychology and science for the army. High school graduates who will have reached their 17th birthday but not their 20th birthday by July 1, 1943, who are morally and physically qualified, are unmarried and agree to remain unmarried until commissioned, and who are not now in the armed forces, are eligible. Boys who qualify will receive college training while on active duty, in uniform, will receive pay and will be under general military supervision.

Farm Youth of U. S. Looks to Tomorrow

TOMORROW'S farmers and farm homemakers are second to no school group in their enthusiasm for investing in War Bonds and Stamps to make sure their future is secure. Through the Schools At War program they are investing what they save and earn in War Stamps and Bonds.

First evidence of this is the amount the 4-H Club boys and girls and the FFA boys invested in war savings in 1942 from "Victory Pig" and other projects. A million and a half 4-H Club members put \$6,000,000 of their own savings in War Bonds and Stamps and sold \$2,500,000 worth of War Savings to their neighbors. Nearly a quarter million members of Future Farmers of America invested more than \$1,500,000.

Spurred by the realization that the financial welfare of farm families the next 20 years depends on how wisely they use today's higher incomes from increased food and other wartime production, both groups have set their goals still higher for 1943.

These farm youths are building financial reserves, and urging their parents to do the same, for after the war necessities, to meet financial emergencies and to help them get started in college. They're building reserves today for tomorrow's farm buildings and for the other things they will need when they're tomorrow's farmers and homemakers.

The Golden Text is: "What is the chaff to the wheat?, saith the Lord". (Jeremiah 23:28).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Woe unto them that call evil good, and good evil; that put darkness for light, and light for darkness; that put bitter for sweet, and sweet for bitter!" (Isaiah 5:20).

The Lesson-Sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Everything good or worthy, God made. Whatever is valueless or baneful, He did not make, hence its unreality. In the Science of Genesis we read that He saw everything which He had made, 'and, behold, it was very good.' Visitors From Nebraska

Once a year Ira E. Myers, of Ord, Neb., makes a carload shipment of hogs to the Los Angeles Union Stock Yards and comes west with the porkers for a brief visit to the west coast. This spring Mrs. Myers accompanied him for the first time. They were visitors at the yards recently, when their double deck carload of hogs was sold on the market. Mr. Myers reported a dry, cold winter in his part of Nebraska. Not enough snow to "make a good jackrabbit track" he said, but weather so cold that cows in under feeding shelters suffered frozen udders and teats so severe they were no longer of value for milk production.—Western Livestock Journal.

PENNEY'S 41st ANNIVERSARY

NOT JUST A BOLT OF YARD GOODS...

it's lovely dresses... smart pajamas... new clothes for the kids.

NOT just a bolt of Yard Goods, it's much more than that! It's the hundreds of useful and pretty things into which the clever fingers of women can transform it. In a sense, this simple bolt of Yard Goods symbolizes a great American business—the J. C. Penney Company.

Yard Goods were a major part of the stock in trade of Mr. J. C. Penney's first little store—opened 41 years ago in Kemmerer, Wyoming.

Mr. Penney didn't think "How much can I take!" but "How much can I give?" He cut out useless frills, charge accounts and deliveries, pared prices to the bone; preferred many sales at small profit to a few at large profit.

THE PENNEY IDEA GREW—TODAY PENNEY STORES DOT THE MAP!

Kemmerer took to that first Penney store! So did Moscow, Idaho later on. And Salt Lake City, Utah. And San Antonio, Texas. And today there are over 1600 Penney stores in all 48 states.

For every hundred dollars worth of sheets, or blankets, or shoes, or yard goods the Penney store sells in Peoria, Illinois or Scranton, Pennsylvania, or Savannah, Georgia, it pays back honest and substantial savings. For every hundred dresses, or shirts, or overalls it sells in Walham, Massachusetts, or Stockton, California, or Chillicothe, Ohio, it pays back rich dividends in local salaries, advertising, rent and taxes.

Today Penney stores from Coast to Coast, in neighborly fashion, are helping to balance the household budgets of millions of Americans. Today Mr. Penney's 41 year old idea of success through giving, rather than taking, is still the Penney way.

THE OLD JUDGE SAYS...

"Had any news from George and his family since they moved away, Judge?"

"Yes, I had a letter from him day before yesterday. He's in Kentucky... the family's fine and they all like it there. George says he has a fine job in a beverage distillery. He brought out an interesting point in his letter I hadn't thought of before. He said that while the beverage distillers are working 24 hours a day, 7 days a week turning out war alcohol for the government for ammunition, tires, medical supplies and chemicals, they still are able to account for nearly a billion and a half dollars in taxes each year. That's on account of the fact the beverage distillers, though working 100% for the government, are still able to supply the public with beverages from the reserve stocks made during peacetime.

SWINE ERYSIPELAS GROWS AS A MENACE

Quick action and elimination of all guesswork are imperative if our nation's swine raisers are to avoid heavy losses from swine erysipelas—an infectious disease that has now spread to almost every state.

Erysipelas in its quick or acute form so greatly resembles influenza, enlarged joints, high fever and, in the chronic form, great loss of weight, and sometimes sloughing of skin patches. Baby pigs are especially susceptible to the disease and once the infection becomes seeded into the soil of yards and lots, the danger of infection will remain for many years.

To further complicate the problem, erysipelas germs have been found responsible for disease losses in turkeys and lambs as well as a painful human skin affliction called erysipeloid. Farmers are particularly warned to wear gloves while handling any swine sick with erysipelas.

Two effective weapons for fighting erysipelas losses are now available. These are an extremely potent serum—a product which will save lives of many sick animals—and a culture vaccine used with protective serum to give long-time protection to all swine on exposed farms.

While farmers should always keep erysipelas in mind, they should never overlook the fact that it often resembles hog cholera in certain of its symptoms, and cholera is still the most fatal, most common, and most costly of all swine diseases. If erysipelas continues to spread as rapidly as it has done in recent years, it may soon equal cholera in the losses it causes—however, that is not the case as yet.

MOVERS

Again the teams go past, and some go east. And some turn west their plodding way. A sign of restlessness and spring, and yet The wind was bitter cold today. Perhaps a year they lived, or maybe three, Content upon a piece of land And called it home, but now Unstable as the drifting sand. The creaking wagons pass—ungainly loads Of furniture and goods piled high—Machinery with arms stretched out as if In protest as they travel by. And there a painted sled some boy must love; No smile will light his rosy face. If Providence did not create a hill Upon the newly rented place. Why do they go? To find a better home? Or did the landlord say they must? Or do they simply feel the urging of That ancient thing called wanderlust? —H. E. W., Clinton Co., Ia.

Why move each year?

Why not buy a farm and have a real home of your own?

From where I sit ...

Phibbs' house got struck by lightning a couple of nights ago. The fire was soon out though, thanks to the prompt work of the local fire department.

And when Thad goes to thank 'em, Chief Ed Carey simply says, "That's all right, Mr. Phibbs—that's what you pay taxes for."

From where I sit, that's a pert example of how taxes come back to the people.

Take taxes on beer, for instance—more than 2 1/2 billion dollars in the last nine years.

Time was when a lot of that went into the pockets of bootleggers; but today it's going for public benefits—to buy things Uncle Sam needs for Victory.

To moderate folks, who like a friendly glass of beer occasionally, there's a heap of satisfaction in knowing that this beverage of moderation is furnishing Uncle Sam with some of the money that he badly needs.

Victory Rally Monday to Open War Bond Drive

Stores Will Close One Hour, Program, Band Concert to Inaugurate Campaign.

From 3:00 to 4:00 p. m. next Monday, April 12, will be held Ord's first "Victory Rally" of the war.

By proclamation of the mayor all business places in Ord will close during that period and the entire community will attend the rally, which will be held from the court house steps. Farm and city people alike are invited and expected to attend.

The patriotic program will include band music, speaking, community singing, introduction of army and navy men home on furloughs and an address by Edgar Farley. Master of ceremonies will be John P. Misko. Complete program appears on this page.

This Victory Rally is being held to inaugurate Ord's campaign to sell its share of war bonds in the 13 billion dollar drive which starts all over the nation on April 12. Purpose of the drive and an explanation of the various types of bonds available will be outlined by various speakers at the Victory Rally.

On Tuesday morning, April 13, bond selling will be started in Ord on a door-to-door basis by a group of workers being organized by Mr. Misko, who heads the drive locally.

Valley county's quota of war bonds is \$200,000 of which Ord people are expected to buy at least one-third, in addition to their regular purchases of bonds, Mr. Misko explains.

In rural districts circulation of bond pledges is already under way and Yale township last week reported \$13,600 already pledged. Only one other township, Germania, has turned in a partial report, which was not as favorable as that in Yale. Most township chairmen are busy now with small grain planting and expect to start war bond solicitation next week, says R. Clare Clement, of the USDA war board.

Valley county has had an excellent record for bond buying since Pearl Harbor and in March topped all previous records with \$56,000, C. J. Mortensen reports. To boost this almost four times as great is the need for the big April drive.

In Ord next Monday schools will be dismissed for the Victory Rally and every town resident is asked to be on the court house square to attend it. See the complete program in another column.

Valley Co. Board Deadlocked After 6 Ballots Tuesday

Koelling, Falser Nominated to Replace Johnson, Supervisors Couldn't Agree

Deadlocked 3 to 3 after six ballots were taken Tuesday, the Valley county board postponed until its May meeting the task of replacing Charlie Johnson, who resigned as supervisor of Dist. 6, thereby leaving a vacancy on the board.

There were three applications on file for the position, those of George Bell, Will Koelling and Carol Falser, but on the first ballot taken at 10:20 Tuesday morning there were 3 votes cast for Koelling, 3 for Falser and none for Bell, so other ballots listed the names of the two latter candidates only.

Though the balloting was secret it is assumed that the division was on party lines, since there are three republicans and three democrats on the board. Mr. Johnson, who resigned, was a democrat, Koelling is a republican and Falser is a democrat.

The supervisors took five successive ballots between 10:20 and 11:00 and the vote was the same on each, 3 to 3. Supervisors Evet Smith, S. V. Hansen and J. A. Barber are the republican members of the board and supposedly voted continuously for Mr. Koelling, while Supervisors Joe J. Jablonski, J. V. Suchanek and Chairman Ellsworth Ball, jr., are democrats and supposedly voted for Mr. Falser.

At 11:00 the board suspended this question and considered other business but after dinner took another ballot with the same result, after which selection of a new supervisor was suspended until the May meeting.

Scarlet Fever at Arcadia, Public Gatherings Halted

Only 3 Cases Reported but Hope Stop an Epidemic; Schools Will Close.

Arcadia — (Special) — Faced with possibility of a scarlet fever epidemic, the village board of trustees and the school board Tuesday evening decided to close the schools for a week and halt all public gatherings temporarily until the epidemic can be brought under control.

Only three cases of scarlet fever have been reported to date but many school children have been exposed and it is feared many more cases will develop.

Churches, the movie theatres and other public gatherings come under the ban but stores will remain open and the livestock market will operate as usual. A church supper advertised for Saturday, April 10 by the Congregational church has been called off.

Village and school officials, in proclaiming the ban, say they believe it is possible to halt the threatened epidemic at the start. Lack of doctors and nurses to care for a serious epidemic is another reason for the precautionary measure.

Two Cars Popcorn Go to California

North Loup—(Special) — Two carloads, 160,000 pounds of popcorn, is being shipped out of North Loup to Los Angeles, Calif., this week. H. J. Kyle of Los Angeles, who bought the corn, was here to personally supervise the shelling and sacking of the bright yellow kernels. The corn has been stored in the cribs at the Manchester seed house and much of it J. S. Manchester raised for shipment to California. Shelling and sacking has been a slow process because of the help situation, only three or four men being available where twice that many are needed. Tuesday morning Mr. Manchester was thinking of hiring women, if he could find them, to sew the hundred pound sacks shut as they were filled from the sheller. The corn is the giant hullless, golden in color, which anyone who has ever eaten knows makes delicious eating.

Take Complaints on Rationing to Office

People with complaints to make on any phase of the rationing program are asked to lodge them officially in the ration board office at the court house rather than making them to individual members of the ration board, said Chairman Hilding Pearson Tuesday. Ration board members can take no individual action anyway, all are serving without pay and devoting much time to meetings and official business, and it is an imposition to ask them to hear complaints individually, Chairman Pearson believes. He promises that all complaints made at the office will receive attention when the board meets.

Guy Burrows New Cemetery Sexton, Lincoln to Plant

Barnard's Resignation Forced Council Find New Sexton; Keep Night-Watch.

A shake-up in city employees became official Tuesday evening with the employment of Guy Burrows, who has been serving as engineer at the light plant, as cemetery sexton, appointment of W. E. Lincoln, night policeman, as plant engineer in Burrows' place, and employment of Archie Keep as night police to take the place of Lincoln.

The appointments were made at the council meeting by Mayor M. B. Cummins and were confirmed by the councilmen.

Resignation of W. H. Barnard, long-time cemetery sexton, and his son, Vern, who was his assistant, forced the council to act in a hurry to provide care for the cemetery. Vincent Suchanek was offered the position at the last council meeting but rejected the offer.

Mr. Burrows will be paid \$1,700 per year and by the terms of his employment will provide his own help. Sexton Barnard was paid \$90 per month and his son received \$70 per month. The city will undergo considerable expense at the cemetery in getting the new arrangement started since mowers, tools and other equipment used in caring for the cemetery were owned by Mr. Barnard and must be purchased from him or replaced with new equipment. It will cost \$500 to \$600 to replace this equipment, it was estimated.

Burrows will not occupy the house which is part of the cemetery property and was occupied by the Barnard family, but instead will continue to live in his house in town. Councilman A. W. Pierce was put in charge of making needed repairs on the property and Ed Beranek, chairman of the cemetery committee, in charge of finding a renter for it.

Light Vote Cast at City Election In Ord Tuesday

No Contests and Only 72 Voters to Polls; Cast 998 Votes in 1940.

There were no contests in the Ord city election held Tuesday and consequently only seventy-two voters went to the polls to cast ballots. It cost the city considerably in excess of \$1.00 per vote to hold this election estimated City Clerk Rex Jewett Wednesday morning.

Lightest vote was in the third ward where only 16 ballots were marked. The first ward cast 23 votes and the second ward 32.

The meagre vote Tuesday can be contrasted with the heaviest vote in Ord's history which came in 1940 when G. B. Flagg opposed Mayor M. B. Cummins, who was running for reelection. Total vote cast then was 998 and each ward cast over three hundred votes.

Elected yesterday without opposition were Ed Beranek, A. W. Pierce and J. W. McGinnis to the city council, Ed Beranek to the park board, W. T. McLain as police judge, Fred Cahill, F. L. Blessing and L. D. Milliken to the school board.

Red Cross Drive Past \$4,500 Mark, Well Over Quota

All Communities Surpass the Quotas Sought; Hope Now for \$5,000.00 or More.

Valley county is making a proud record for the Red Cross war fund, with a total of \$4,503.88 now officially turned in to Treasurer Curt Gudmundsen, and considerable numbers of small amounts not yet credited. North Loup has turned in \$740, but has other money on hand which the Red Cross workers have collected. Arcadia has the sizeable amount of \$1,013.51 collected and now in the Valley county chapter treasury. Quota for this county was \$3,700.00.

Ord has a splendid record around the square, probably a record few towns in the United States can boast, for almost every store and all its clerks has joined, so much so that Mrs. George Parkins proudly refers to the square as "100 per cent". Only an isolated man or two failed to find the dollar in his pocket for a roll call membership.

Of the school districts, fine records continue to be reported, with Iris Warford of Dist. 55 adding \$11 to make 100 per cent for that community. Miss Verma Vergin of Dist. 18 reports \$312.25. Mrs. Alice Cronk Anderson of Dist. 28 reports \$50 or 100 per cent. Miss Mildred Waldman of Dist. 35 reports \$46.25, or 100 per cent for that neighborhood.

Mrs. Carrie Noll donated \$10. Slovene Lodge Z. C. B. J. No. 112 gave \$10. Farmers Grain and Supply company of Ord gave \$20.

At the sale barn Saturday, Frank Wigent bought a hen for \$1, Mr. Knopik did the same thing. Vern Robbins bought three hens for \$2.55; John Neverkla bought one hen for \$1, and Charlie Burdick, generously as always, bought three hens for \$3.75, all of these funds going to the Red Cross after the three hens had been sold over and over.

At the Ord theater, where M. Biemond had young Campfire Girls in costume stationed at the portals with coin boxes during last week, which was national-wide Red - Cross - at - the - movies-week, a total of \$17.69 was collected from the public.

In the first ward, Mrs. Marlon Crosby gave \$1, so did Mary Bremer, George Gutschaw, Margaret Wentworth, Sophie McBeth, Mrs. J. C. Van House, Rita Van House, J. C. Van House, Mr. and Mrs. John Parks, Mrs. Leon Rogers, Mrs. C. J. Miller, Mrs. C. C. Dale, Mrs. C. M. Davis and Mrs. Henry Marks. Mrs. Mary F. Capron gave \$2, Mrs. F. W. Coe \$2.50, Mrs. H. E. McClure \$3.

Mrs. George Allen gave \$1, Galen Allen the same, George Allen \$3, while Mrs. Hannah Jones gave \$1, and so did Mrs. Albert Jones, Mrs. Anna Lincoln, Mrs. Russell Rose, Mrs. Clayton Noll, Miss Maggie King, C. F. Hughes, Helen Collins, Mrs. Harry Knecht. Mr. and Mrs. Rudolph Krahulik gave \$2, Mrs. Belle Johnson \$2, Mr. and Mrs. J. J. Brew \$3, Mrs. Horace Travis \$1, B. J. Peterson \$2, Mrs. Carl Gausman gave \$1, so did Mrs. Ed Beranek,

Lieuwer, Douthit, Liquor Stores to New Management

Draft Boards Warned "Get Into War Work or Army," So Both Preparing.

Warned by their draft boards a month ago that under new draft regulations they must either get out of their "non-essential" occupations and into some form of war work or be prepared for induction into the army, Ord's two liquor dealers, Edward Lieuwer and Walter Douthit, have heeded the first part of the warnings by disposing of their liquor interests.

The Lieuwer store has been sold to Sylvester Papiernik while Walter Douthit has transferred his interests in both his liquor store and beer parlor to his wife, Mrs. Marjorie Douthit, who will manage them hereafter.

Mr. Lieuwer came to Ord from Butte, Nebr., and thus is under the jurisdiction of the Knox county draft board while Mr. Douthit is registered with the Valley county board. Both are married and have children but are of draft age. Both expect to seek war plant jobs, probably at Grand Island, pending their army calls.

No. Loup Reelects 3 to Village Board

North Loup—(Special)—Ninety-three votes were cast in the village election held Tuesday, C. D. Knapp getting 65, Dr. W. J. Hemphill 53 and H. L. Gillespie 48 with the result that all three were reelected members of the village board of trustees. There were three other candidates, Glenn Johnson, who got 41 votes, Paul Madsen 32 and Orville Noyes 26. Hold-over members of the board are A. L. Willoughby and Erlo Cox.

Elected to the school board for a two-year term was Vere Leonard, who got 47 votes over Mrs. Ben Nelson, who received 40. Leonard will fill the vacancy caused by Bud Knapp's resignation. Will Earnest, with 71 votes, and Roy Cox, with 61, were re-elected to the school board for 3-year terms. Defeated candidates were Cloyd Ingerson, with 33 votes and Max Klinginsmith, with 14.

Will Show "Hitler's Children."

The movie "Hitler's Children," which has created a sensation wherever shown, will be the feature attraction Thursday, Friday and Saturday at the Ord Theatre. It was originally scheduled for later showing but was advanced to this week by Manager Biemond.

A Correction.

Through an error in the Red Cross report last week, the name of Will Foth, who gave \$17.50 was entirely omitted and Elmer Bredthauer was credited with having given that amount, whereas his donation was \$2.00. We are glad to make this correction.

Farm Prices Up 92%, Land Again in Demand, Says Murray; Ice Deliveries to Be Curtailed

Business is constantly heavier in these 1943 war days, E. S. Murray feels sure, in fact his insurance and abstract business and farm management operations are the best they have been since he took over the Capron Agency in May of 1937.

He now operates about 120 farms, perhaps a few more than that. There is a definite upward trend in interest in farming, noticeable after the depressing drought years that chased so many farmers away from the land. But with food costs up and heavy production asked for, land sales are good and farms are in great demand.

Some of this demand, of course, is from farm-raised boys who have been getting big defense plant wages, but would rather return to farming than try to learn soldering.

Farm products are up 92 per cent in price, says Mr. Murray. This is a big comfort to farmers who struggled through the nightmare of the past ten years on a farm. As these farmers accumulate money they pay their debts and want more land.

Gasoline to supervise his farms. Mr. Murray has had all the gas he has time to use, so far, but gasoline is hard to get. "I drove 40,000 miles last year, about 8,000 miles this year," says he.

One big reason he is so busy is the loss of John Wozab, who left a few weeks ago to enter the navy in a clerical capacity. Mr. Wozab did most of the careful abstract work, while Mr. Murray looked after land sales and farms. Now Mr. Murray is taking care of the abstracts and titles, and plans to employ a man to act as farm supervisor within a few days.

Lieuwer, Douthit, Liquor Stores to New Management

Both are married and have children but are of draft age. Both expect to seek war plant jobs, probably at Grand Island, pending their army calls.

Tuesday evening Syl Papiernik appeared before the Ord city council seeking approval of his license application to conduct a liquor store on the premises previously occupied by Mr. Lieuwer.

At the same time Mr. Douthit asked that his license be cancelled and a new license issued to his wife, Mrs. Marjorie Douthit. Both applications were approved in theory by the city council but must be issued by the Nebraska liquor commission before the council may act upon them officially.

The council approved beer licenses Tuesday night for Frank Kasal, Mrs. Maude Peterson and Johnson's cafe, all of which were renewal licenses.

Court of Honor Was Held Friday

Boy Scout troop No. 194 held a court of honor Friday as a convocation at the high school and eight Scouts were elevated in rank or received merit badges. H. Elliot McClure made the presentations.

Edwin Jirak, Bob Marks, Hugh Cahill and Don Andersen were promoted from 1st class Scouts to Life Scouts, Lyle Manchester and Arthur Larsen were advanced from 2nd to 1st class ranking, and Roger Miller was advanced from tenderfoot to 2nd class rank.

Monday evening two Scouts, Edwin Jirak and Leonard Recler, Scoutmaster George Hastings, Jr. and former scoutmaster, Rex Jewett, were guests of the Rotary club and plans were made for the annual Dawn-to-Dusk funds-raising drive which will take place later this month.

Wartime business is better in some ways, much worse in others, Olof Olsson replies to questions about the Ord Ice plant and cold storage business which he owns and works at from day-light until dark.

One comfort is that he no longer has to keep a "night man" to answer hurry-up beer calls. Dealers must anticipate their demands well in advance, for gasoline is a precious quantity at present. A gasoline cut is likely to keep nearby towns from having artificial ice from the Ord plant this summer, also Ord will probably have to get along with four weekly deliveries of ice in place of daily visits from the ice man.

Long an expert refrigeration engineer, and in great demand when new installations of refrigerating equipment were to be made, Olsson says there is now little work of this type except for defense plants and other high-priority buildings. The Ord man has been designated an emergency repair agency for this commercial equipment, however, and can secure small repair parts, after filling out a few forms and reassuring Uncle Sam about the need, priority, etc.

One priceless item seems to be solder for fittings, which is up from 60 or 70c per pound to about \$2. . . if you can find it. Recently a day's search of Omaha yielded Mr. Olsson one pound!

A beer wholesaler, "only quota" can be had, and the pop situation is worse. Pop is scarce, difficult to locate, deliveries of it undependable while dealers howl for more. Last year only a small cut in the number of caps was noticeable, this year's cut is more drastic.

North Loup Seniors Crown King, Queen

Adella Waller.

Martin Sonnenfeld.

Adella Waller and Martin Sonnenfeld, seniors in high school, were chosen queen and king by popular vote, votes selling for one cent each, at the benefit carnival held Thursday evening in the community hall, \$46.58 was taken in on the contest alone. A sum of \$35.99 was paid in the contest between the winner, Adella Waller and her close second, Audrey Psota. Choppie Stevens was runner-up for king. In a brief ceremony following the voting, the winners were crowned by Ike Babcock, president of the senior class. Thrones were covered with blue and white paper and crowns were also in the blue and white, high school colors.

A large crowd was present for the carnival and an evening of fun, bingo, fishing, darts, fortune telling, hot dogs and coffee was followed by a short stage show. Four senior girls, Lucienne Fisher, Adella Waller, Irene

Barnes and Audrey Psota gave a tap dance and song and members of the class presented a one act play, "War Minded Father." The program was closed by a piano duet by Lucienne Fisher and Marlon Maxson. Ralph Peterson acted as announcer for the stage show. \$173. was taken in and after expenses were paid the senior class turned over to the Red Cross and the high school library each, \$50.00. A number of Ord and Greeley people were here for the carnival.

Used more and more for community gatherings, the community hall is beginning to be deeply appreciated for its room and convenience. For years school gatherings have been held in the high school auditorium which is on the top floor of the school house and hard for some to reach. The community hall is much more accessible.

The World Needs Food

When you put High Priced Feed in a valuable cow and spend hard labor milking her, the milk is precious. You can't afford to let it sour or become dirty. If you separate your milk, check your skimmed milk often and closely. Butterfat is too high priced (64 cents per pound at the Cheese Factory) to feed to calves or poultry. The best way whenever possible is to sell whole milk, for the highest returns and for the safety of your country at war.

BACK FORTY

Our soil is so dry that even the weeds aren't sprouting. April showers will surely be welcomed when and if they come.

The drouth covers a lot of territory, affecting many states and even South America. In western Nebraska the irrigation reservoirs are short of water because little snow fell in the mountains. Texas ranchers and farmers are in serious need of rain, as their season is ahead of ours. Small grain must have moisture soon if it is to make a crop.

Luckily our farmers are persistent optimists who go right ahead with their plants whether it rains or not. They know that we raised a bumper crop last year on 24 inches of rainfall, and can get by with less, if it comes at the right time.

The average annual rainfall at Ord for the period from 1889 to 1943 was 23.23 inches. Of the past 54 years, only 23 had more than average rainfall. We had crop failure during some of the wet years, and fair yields in a few of the dry ones. Distribution of rainfall has been more important than total amount of rainfall. July and August are the dangerous months for the farmer.

Three major drouth cycles have occurred in this country since the keeping of weather records was started over one hundred years ago. The first one commenced around 1830 and lasted ten years. The second began in 1886 and continued until 1896. The third started in 1930 and still persists.

Our present drouth is worse in one respect than the drouth of 1934. Less snow has fallen during the winter than in the corresponding period preceding the 1934 drouth.

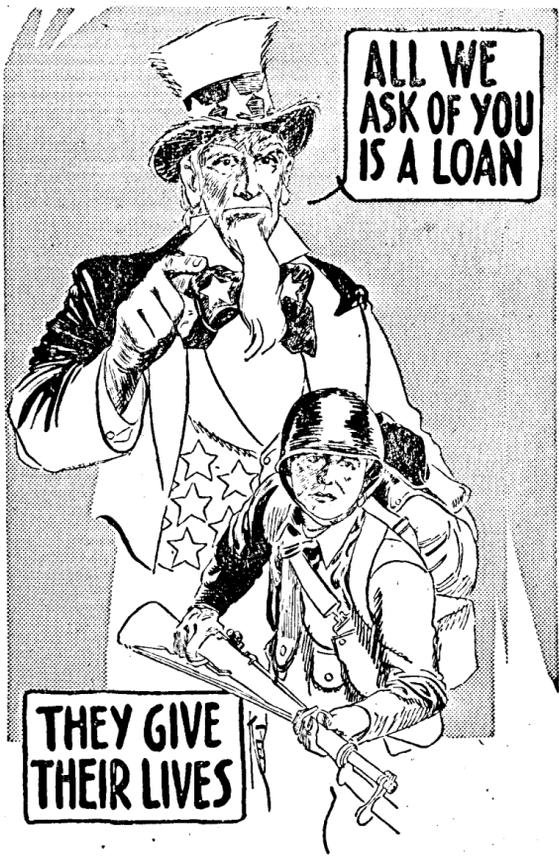

During April we should normally get about one-half inch of rain per week. For May, June and July we ought to receive over three-fourths inch weekly on the average. A subsoil well-soaked by the rains of spring-time is necessary to avoid crop failure.

Positively not an April Fool joke were the announcements mailed out April 1 by Mr. and Mrs. LaVern Duemey of Pensacola, Fla., announcing the birth that day of their first child, Dall Leiland, who weighed 5½ pounds upon arrival. The Duemeys kept the fact that they were "expecting" a secret even to their parents, Mr. and Mrs. Paul Duemey and Mr. and Mrs. George Weller, of Ord, and the announcements—reproduction of which appears above—was their first knowledge of the baby boy.

Mr. Duemey, who is a photographer in the Naval Air Corps, was stationed at Peru, Ind., until he was transferred to Pensacola in January, and Mrs. Duemey worked as a retoucher and colorist in a big photographic studio at Peru until that time. LaVern expects to receive his stripes as a Photographer, 2nd Class, upon completion of schooling at the Pensacola air base.

WARNING!

There has been many complaints come to my office by people who are putting in Victory gardens that the dogs of this city are doing much damage. I realize that there are some dogs who are like members of a family, but the members of that family are not out wilfully destroying property and food. These dogs are and they must be taken care of by the owners. It is true you pay taxes on dogs the same as any other stock, but said stock is not turned loose in the city to prowl about over other people's property and Victory Gardens and I am respectfully asking you to cooperate so that the authorities do not have to take action which is unpleasant to them.

There is an ordinance in the city telling everyone who keeps chickens to keep them confined. This ordinance will be enforced without further warning. Confine your chickens or be prepared to talk with the Judge.

Wood Dimensional Changes

The reason it is so difficult to protect wood against dimensional changes due to moisture is the fact that it is the cell walls which swell and shrink as moisture is absorbed or given up. The cell cavities may be completely filled with certain water-repellent materials and still permit moisture to reach the cell walls and cause swelling.

Paint Manufacturer's Statistics

Illustrating the scope of the industrial war effort—one company alone has produced enough paint in the first six months of this year for military purposes to put 44 coats on a two-lane highway running the entire length of the Commonwealth of Massachusetts.

The 2nd War Loan Starts April 12

13 billion dollars must be raised!

THE GOVERNMENT of the United States is asking us to lend it 13 billion dollars in the next few weeks. We can do it. And we must do it. Every American must realize the truth:

In this, our toughest war, we've made a good start. We've trained a lot of men—made a lot of weapons—built a lot of ships.

But it's only a start. No man or woman among us would contend for a single instant that we're doing enough now to win this war!

We've Got to Build More!

We broke all records building 8 million tons of shipping last year. But grim-faced Army and Navy men will tell you that the 18 MILLION tons we're building this year still won't be enough.

We've Got to Fight More!

From now till this war is won, America must be on the offensive. In ever-increasing numbers, your sons, brothers, husbands must go into battle. Our losses have already begun to mount—and they will not grow less.

And We've Got to Buy More War Bonds!

Sure we're all buying War Bonds now. But we've got to help pay for our increased fighting and building . . . We've got to match, as best we can, the sacrifice of those Americans who are toiling and sweating on a dozen battle-

fronts—with the bloodiest yet to come. The blunt fact is this: to keep our war machine going, we've got to dig up 13 billion extra dollars this month. 13 billion dollars over and above our regular War Bond buying!

In the next few weeks you may be visited by one of the thousands of volunteers who are contributing their time and effort to this Drive. But don't wait for him. Make up your mind now that before this drive is over, you're going to march right down to your nearest bank, Post Office, or place where they sell War Bonds and do your duty. And don't ever forget this: in doing your duty, you're doing yourself one of the biggest favors of your life!

For United States War Bonds are the greatest investment in the world—bar none. They're investments tailored to fit your particular situation. And they give you the chance of a lifetime to order and get the kind of world you want to live in after this war. Every cent you put in War Bonds now will help to guarantee plenty of peacetime jobs making peaceliving for every one of us.

For your Country's sake— for your own sake—invest all you can!

There Are 7 Different Types of U. S. Government Securities—Choose The Ones Best Suited For You:

HEALTH HINTS for LIVESTOCK

SWINE DYSENTERY IS CAUSING MORE LOSSES

Within the past few years a treacherous, fast-killing intestinal disease of hogs has decimated swine herds in many states. Usually seen among pigs or hogs subjected to transport or sale, this plague, swine dysentery, sometimes known as "bloody scours," has spread to tens of thousands of home-

A case of typical swine dysentery.

raised animals. Unfortunately, many outbreaks do not give the full history, showing the circumstances of how newly-purchased animals were added to the herd.

Following exposure, visible symptoms of dysentery may appear within a week's time. The affected pigs shrink quickly, appear much depressed, refuse to eat, and scour badly. Pigs affected with swine dysentery may closely resemble those having acute hog cholera. Death losses may range from a few animals to almost the entire herd.

There is reason to believe that contaminated feeding and watering utensils, shortage of proper nutrients and other factors may play a part in spreading this disease. Hence, one of the first steps in control is to carefully disinfect all feeding equipment and water fountains, correct the rations, and remove all well pigs to clean ground. If lice and mange are present the pigs should be treated with suitable insecticide. Further medication and detailed handling of these herds is strictly a veterinary problem and it is generally necessary that skilled help be enlisted quickly if disastrous losses are to be avoided.

LETTERS FROM QUIZ READERS

Farragut, Idaho
March, 29, 1943

To the Editor of the Quiz,
Ord, Nebraska.

Dear Sir:

It has been quite some time since I have written to the Quiz so I made up my mind to write a few words.

The main reason I'm writing this letter is to renew my subscription. The reason I haven't renewed it before is because I graduated from "boot" camp and was in O. G. U. (out going unit) and now in school. My address has been changed so much that I just neglected to renew my subscription until I was settled down again.

So enclosed you'll please find \$1.00 to renew my subscription again.

I'm still stationed here at Farragut, Ida., and am now going to school. I was selected to go to radio school.

I really wanted to go to aviation school but in my G. C. T. (general classification test) I had pretty high grades so they said I would be more valuable as a radio operator so that's what I'm going to be.

It's a hard school but I think it's going to prove to be a very interesting one. Also after this war is over with I think that radio will be a very profitable business to be in. Because there will, to my estimation, be a great advancement in radio and also in television. So I'm well satisfied with the school which they put me in.

My address for the next four months will be: Leonard Dlugosh S 2-c, Barracks 12 U, Service Schools, Area E, U. S. Naval Training Station, Farragut, Ida.

I'd be very glad to hear from any of my old friends back there or any one who has time to write. Especially any of the Quiz gang or any of the kids I graduated from school with.

I spent one of the most happiest week ends last week that I have had since I was in the navy. I was granted a 54 hour liberty, so I went up to Bremerton, Wash., to visit my folks. This was the first time I'd seen them since I left Nebraska.

They have been there for about 6 or 7 weeks and they really like it there. They have purchased a very nice four room house since they have been there and mother has had all of her teeth pulled and is feeling much better. The weather change is a great help to her also. I really think that it is going to do her a lot of good toward regaining her health.

I also visited my brother Ernest and his family while I was there. I was glad to see all of them again and really enjoyed being home those few hours. Well as it is nearly bed time I think I'd better close for this time. I would like to have the Quiz' from and including March 25th as I missed those.

Yours truly,
An Old Quiz Kid,
Leonard Ray Dlugosh, S 2-c

How to Eat Well Under War Rationing Subject of Nutrition Class Now Meeting

Ord's first nutrition class met Friday afternoon at two o'clock at the H. E. McClure home where Mrs. McClure had most capably planned the newest Red Cross venture for war-conscious Ord housewives.

Sketching in about two minutes what she hoped to present to the class during the course, Mrs. McClure then counted off the class in groups of three, leading each group to a recipe and a tray of materials for making that recipe, this work to be finished within the hour.

Unit one made a liver loaf by grinding one pound of liver and a small onion, adding one beaten egg, one and one-half cups of milk, two cups of bread crumbs and seasoning, baking the loaf at 350 degrees for 30 to 40 minutes. The result was tasty, and would also be good cold, sliced for a summer night supper.

Group two began at once to dice one cup of carrots and three fourths cup potatoes, putting them on to simmer. Coarsely chopping two tablespoons of onion, they added one-half cup bread crumbs, 1 egg, seasonings and four tablespoons of water from the vegetables, also two tablespoons of molasses. This was all mixed together and poured into a greased pan to produce a delicious vegetable loaf, after baking an hour at 400 degrees.

A third group began making cocoa syrup, using one-half cup cocoa, one-fourth cup sugar and one-fourth cup of honey or syrup, a bit of salt and two cups of hot water, mixing the dry material first, stirring the six minutes it took to cook. Stored away, one tablespoon of this syrup heated with one cup of heated milk makes a good hot drink; or if preferred it is a good cold drink.

Another three women made a nut loaf for six people, putting together two cups of soft bread crumbs, one cup milk, two slightly beaten eggs, two cups of chopped peanuts (other kinds would do) one teaspoon of salt and one teaspoon of paprika. In a greased pan this was baked 40 to 50 minutes at 350 degrees and served with a tomato sauce. It is a fine substitute for meat. Thinly sliced cold, it would make unusual sandwiches.

A fifth group made sandwich fillings, using one-half cup each of shredded raw carrots and of peanut butter, with a bit of milk to moisten. They also made a filling of cottage cheese and raw carrots grated, one-half cup of each, and a bit of milk.

At the end of the hour the 17 women were asked to write carefully the menus they had eaten at the past three meals, and keep this card until the end of the course. A lecture on the contents of each of the afternoon's recipes, telling its proteins, carbohydrates, vitamins, minerals, fats, etc., and the sampling of the several products concluded the second hour.

Business-like but quiet is Mrs. McClure, who saw to it that the

dishes were washed, the floor swept and kept a list of the several workers. Ten meetings of two hours each will be held, and only one absence permitted if a certificate is desired. Every 3rd

meeting will be an examination and the final meeting will be an exam and demonstration. Meetings will be held in the homes of the members each week.

Next week the group meets Friday evening at the McClure home for another work-session. More classes will be started if enough interested people phone Mrs. Olof Olsson, Red Cross nutrition chairman.

THE OLD JUDGE SAYS...

"I was just tellin' my brother Fred this morning, Judge...there's never been a time in our lives when we got to live up to that old sayin' 'United we stand, divided we fall' more than we have to today."
"How true that is, Herb. And for the life of me, I can't figure out why, at a time like this, some folks insist on raising a question like prohibition. I can't imagine anything that would tickle our enemies more than to get us folks over here taking sides

against each other, arguing about an issue like that. We've got a he-man's job on our hands to win this war and we can't be wasting our minds, our money and our strength fighting about something we tried for nearly 14 years and found couldn't work."
"I say there's a time and a place for everything, and this is no time or place to be doing any fightin' except the kind that's going to win the war."

American People Face Acid Test in Treasury's 2nd War Loan To Raise 13 Billion Dollars in Three Weeks

The Nation Dare Not Fail in This Greatest Financing Task in History—"They Give Their Lives—You Lend Your Money."

Washington, D. C.—Coming as it does upon the heels of income tax payments, the people of America will face an acid test this month when the Treasury's Second War Loan drive opens April 12 with an objective of thirteen billion dollars to be raised through sale of Government securities.

A substantial part of this huge financing, the most stupendous ever undertaken by any government in the world's history, must be loaned by people in ordinary walks of life. High Government officials have pointed out that the nation must not fail in this duty to our men on the battle fronts who are now carrying the offensive to the enemy at every stage. It is obvious to every thinking man and woman that as the United Nations take this offensive against the dictators, the cost of war operations increases in proportion.

The American people must no longer think of war costs in terms of equipping a soldier, building a tank or plane or a ship. We must now think in terms of the cost of battles, invasions and new offensives. Attacking armies cost more money than equipping that army and we must meet that increased cost by buying more War Bonds and Second War Loan Securities.

They Give Their Lives. It is not only necessary that the American people left here at home assume this additional participation in the war effort—it is an honor to do so . . . for we here at home can do no less than attempt to approach the sacrifices of our brave men out on the fighting fronts to whom the last great measure of sacrifice is but a daily offering. They give their lives . . . we are asked only to lend our money. And that is the theme of the Second War Loan, "They Give Their Lives—You Lend Your Money." Financial experts who know monetary conditions in the nation point out that at the present time there is in liquid funds, cash and commercial bank deposits over and above taxes and present investment in Government Bonds, and over and

'WAAC-y' In the MRTC Special Training detachment an officer was quizzing the men on general orders. He asked one man to recite the second one. The man began: "To walk my post with a military madam—" "What?" asked the lieutenant. "You don't mean that, do you?" "Pardon me, sir," the flustered soldier replied, "what I meant to say was, 'to walk my post in a madam manner.'"

Clean Up Garden Trash Control of diseases of vegetables can be helped by rotation or burning of garden trash, say plant disease specialists of the Pennsylvania State college. Rotation is best because it conserves valuable organic matter, which is destroyed when trash is burned to kill disease-causing organisms.

SAM SHEPARD was the logical suspect for the crime. Sam had borrowed \$15,000 from old Mrs. Hodges, and had given her a note for the amount. Mrs. Hodges was a real estate operator and maintained an office on Fay street in Bridgewater. According to the secretary, she kept all her business papers in a safe at the office, but according to the secretary, she had taken Sam Shepard's note home with her on Tuesday night.

Mrs. Hodges lived out in the country in Barstow. Wednesday morning she was found dead in bed, killed with a knife. The \$15,000 note was missing.

On the Monday before, Sam Shepard had left the distant city of Hayden and driven by automobile to Barstow, arriving Tuesday afternoon about four o'clock and registering at an inn operated by a Mrs. Bean. He had gone directly to his room and retired, first telling Mrs. Bean that he was terrifically tired after his long drive. At eight o'clock that evening he had waked, dressed and set out for a walk in the country, returning to the inn about midnight.

He admitted being in the vicinity of Mrs. Hodges' house.

Inspector Otis Jackson, assigned to the case, learned these things before he called on Shepard. Mrs. Saunders, Mrs. Hodges' housekeeper, gave him the added information that Mrs. Hodges had pleaded a headache upon returning home on

Tuesday, and had gone immediately to bed, without eating any dinner. Inspector Jackson got in touch with authorities in Hayden. They and Mrs. Hodges' office secretary provided him with this information: Sam Shepard's affairs were in bad shape. He hadn't been able to keep up interest payments on his note. If Mrs. Hodges foreclosed he would be ruined. He had no particular reason for visiting Barstow in the middle of the week.

Jackson assembled all this information, sorted it out, thought about it and then went to the inn where Sam Shepard was staying, and questioned him.

"Why did you come to Barstow in the middle of the week?" "For two reasons. First, my health was in pretty bad condition as a result of financial worries. Second, I wanted to have a talk with Mrs. Hodges. I owe her \$15,000. I was going to ask her to extend the note for three months."

"Did you see Mrs. Hodges on Tuesday night?" "No. I retired the minute I arrived here. I waked at eight o'clock, dressed, walked out to the Barstow place, found it dark and so returned to the inn and went to bed."

Inspector Jackson looked at the young man thoughtfully. "You're pretty frank about all this."

"Why shouldn't I be? I have nothing to hide."

"Did you contact any one at all before you retired, after reaching here Tuesday night?"

"Yes. I called Mrs. Hodges' office in Bridgewater. Her secretary answered. She said Mrs. Hodges hadn't been feeling well and had gone home early."

"Is that all?" "Yes." Inspector Jackson didn't arrest Sam Shepard. Instead he had a talk with Mrs. Hodges' secretary.

"When Shepard called did you tell him Mrs. Hodges had taken his note home with her?" "Why, no. Why should I?" "That's the point. You wouldn't in the general course of things."

Jackson next day visited Mrs. Saunders, the housekeeper. "Did Mrs. Hodges tell you she had brought Sam Shepard's note home with her from the office before she retired on Tuesday night?"

"She didn't tell me nothin', except that she had a headache and was going to bed without her dinner."

"Were you here all evening?" "Nope. Mrs. Hodges told me I could have the evening off, so I went over to see my sister, Minnie."

"And what time did you get back?" "About seven o'clock this morning, in time to get Mrs. Hodges' breakfast." The buxom lady shuddered. "It was me who found her, y'know."

"Yes, I know." Jackson returned to police headquarters and explained his findings to the chief.

"Of course," he said, "the one who killed Mrs. Hodges was the secretary. I've sent a man out to pick her up."

"But hold on! How do you know? Sam Shepard had the only motive. Why would the secretary want to kill her?"

Jackson shrugged. "That's a wrinkle we'll have to iron out later. All I know is Shepard couldn't have possibly known that Mrs. Hodges took the note from her office to her home. And the note was stolen. The only one who knew about it being there was the secretary. I've checked thoroughly. It looks as though the secretary saw a swell chance to pin the guilt, logically, on an innocent man."

Good Theory?

"I HATE you!" Virginia cried angrily. "I loathe you! I never believed it was possible to despise any man as much!" "Swell!" Oliver grinned. "That's what I hoped you'd say!" She turned away from him, but he took her in his arms and, giving her no opportunity to protest, found her lips with his.

She freed herself, struck out at him. A red welt showed on his cheek, but he still smiled. Perley Neptune's house was deserted when Oliver got there, but Perley had given him a key, and Oliver let himself in, mixed himself a drink and was comfortably ensconced in a chair before the fire when Perley arrived home.

"Listen," said Perley. "How about this? Ginnie Hunter hates the stuff you're made of."

"Did she tell you that?" Oliver asked. "I asked her how she liked my old college chum, Oliver Stevens, and she told me all right."

"Marvelous!" Oliver exclaimed. "Say, that's swell!" Perley threw off his coat and lighted a cigarette. "Listen, Oliver," he said, "in college you were the best friend I had. We got along fine. People liked you then. When I invited you down here for a week, I thought it would be the same. You've changed, feller."

Oliver grinned. "It's a new theory of mine, Perley. Since college, I've learned a lot about human nature, about women. A woman either loves you and shows it or she loves you and pretends to hate you. When she pretends to hate you she loves you more. Well, tonight, Virginia and I saw each other for the first time, and it happened. Just like that. Being a man I could say so. Being a woman, she had to pretend to hate me. The more she hates, the happier I am."

Perley blew smoke rings. "You're my guest and my friend, Oliver. You've been around, too. I'm not one to criticize your theories or your methods, but remember this: I live here."

The next day Oliver called Virginia on the telephone. When he told her who he was she hung up. Swell! thought Oliver. She's going to make a wonderful wife. That afternoon he drove around to where she lived and parked half a block down the street. After a while Virginia came out of the house. She was almost up to the roadster before she recognized Oliver.

Virginia got into the roadster. "I might as well tell you about myself now," said Oliver as they drove along. "I'm twenty-four years old and work for my old man. He's in the steamship business. For our honeymoon we could take a trip around the world."

"Marvelous!" said Virginia. Oliver pulled up for a traffic light. Virginia opened the door and got out. "Be seeing you. Thanks for the buggy ride."

Oliver was tremendously pleased. He told Perley that night he'd had a date with Virginia. "I like that kid. We're going to hit it off together."

"Is she still bats about you?" Perley asked. "Listen," said Oliver, "when a girl pretends to hate you as much as Ginnie, you're all set."

The next day Oliver didn't see Ginnie at all. The day following the telephone rang and he recognized her voice.

"Come over," said Ginnie. Oliver drove over. When he got there no one answered his knock. He grinned. "She's giving me the works," he told himself. "And boy, can I take it!"

He sat down on the porch to wait. He waited two hours. Then Ginnie came up the steps. He took both her hands in his. Baby, you're good. When are we going to stop kidding?"

"We never started," said Ginnie. "Will you wait here a minute?" She went into the house and came out again with a suitcase. "Come on," she said. "We're going places."

Oliver stared blankly. "Say, wait a minute! That's a little too fast, I mean, I haven't even got the license!"

"Stop worrying," said Ginnie. "Perley took care of that." "Golly!" said Oliver, "you're way ahead of me."

They went down the walk. A car was pulling in at the curb. Perley was at the wheel. "All set?" he called.

"All set," said Ginnie. Perley got out of the car. Oliver said: "What'd I tell you, Perley. She had it worse than I thought. Am I good, or good?"

"You're marvelous, Oliver. Now, look. Hold your chin up a little. There. That's fine. Now—" Perley connected squarely. Oliver's chin snapped back. He sat down. Sitting there he looked up, dazed. Perley and Virginia gazed at him sadly from the car.

"It's a theory," Perley called. "It may work and it may not, I think not. Anyway, when Ginnie and I get back from our honeymoon, we'll try again."

In Army Ski Troops. Mr. and Mrs. R. C. Burrows recently received a letter from their son, Sgt. J. W. Burrows, who is with a battalion of army ski troops stationed at Camp Hale, near Pando, Colo. Sgt. Burrows is in the post provost marshal's office in charge of fingerprinting and will have charge of photography also as soon as the new equipment is installed.

"This Camp Hale is quite an isolated place," he writes. "It might as well be at the north pole. We had some warm weather for a short time but a few days ago it started to storm again. The thermometer ranges down to 45 and 50 degrees below zero each night and then warms up to around 15 degrees above during the day."

"The various regiments go into the mountains for two or three weeks at a time, sleeping in pup tents by night and skiing, operating dog sleds and snowshoeing by day. Its really quite a sight to see a battalion performing a charge, coming down a mountain side on skis with machine guns and all. Since a skier sometimes travels as fast as a mile a minute it doesn't take them long to reach their objective."

When the troops have penetrated far into rough terrain and the problem of supplying them is great they sometimes receive their food by parachute which is dropped from an airplane.

Will Wear New War Dress The mason jar, fixture of home canning since frontier days, will come forth shortly in new war dress. WPB recently prohibited the use of zinc in making lids for glass containers and this means that the old mason jars will have to wear a new cap.

However, housewives can convert to war standards in this case with relatively little difficulty, for a substitute for the zinc jar tops is available in the porcelain closure with a steel rim.

Uses Plenty Paint A modern spray gun is capable of using ten dollars worth of paint an hour. A chemical company's "Finishes Division" offers manufacturers an educational spray-gun program to speed production by eliminating unnecessary spray-gun shots at production line targets, by systematizing the strokes of those operators, known as "rhythm-makers," because they keep their instrument swinging once they get going.

Carl Sorensen Found Dead in Canyon Tuesday

Heart Attack Thought Cause of Death; Had Been Fixing Fence in Pasture.

About 10:00 Tuesday evening the body of Carl Sorensen, former proprietor of an Ord pharmacy and well-known citizen of Ord for many years, was found in his car in a canyon four miles west of Elyria, death apparently having occurred about three hours before as result of a heart attack.

Joe Bonne, who leased pasture land from Mr. Sorensen and had been working with him most of the day setting fence posts, found the car and notified Sheriff Robert Hall about 10:15.

Sheriff Hall, accompanied by County Attorney John P. Misko, drove to the scene of the discovery at once as Bonne's telephone message was incoherent and at first it was feared foul play was connected with the death.

There they learned that Mr. Sorensen had driven his car to the pasture and had worked with Bonne until about 6:30 when they quit work. Bonne driving his tractor to the house and leaving Sorensen to follow in his car. When Mr. Sorensen did not reach home for supper his wife telephoned Frank Augustyn, renter of the Sorensen farm adjacent to the pasture which he also owned, and Augustyn, Bonne and others of the neighbors went in search of the missing Ord man.

Going to the canyon where the Sorensen car, with Mr. Sorensen inside, had been found, they first ascertained that he was dead and then attempted to reconstruct events leading up to his death. Apparently after quitting work he climbed into his car, started the engine and backed up preparatory to turning around, and at this point was stricken with a heart attack, and died instantly. The driverless car continued backwards down the hill, plunging off into the canyon but stopping on the first ledge, only a few feet below the ground level. The canyon was about 100 feet deep and had the automobile not stopped on the ledge it would have been demolished in a fall to the canyon floor. The exhaust pipe of the car was sticking into the earth, which evidently had stopped the engine. No glass in the car was broken nor was any other damage done.

Sheriff Hall and Mr. Misko returned to town and called the Pearson Mortuary, which sent an ambulance to the Sorensen farm and brought Mr. Sorensen's body to town.

Since selling his drug store to Louis Ringling a year or more ago Mr. Sorensen has been in ill health, has suffered from heart attacks on several occasions and at one time underwent treatment in the Veterans hospital at Lincoln. Evidently the exertion of digging post holes and setting posts brought on the heart attack which caused his death Tuesday night.

Mrs. Sorensen was prostrated with shock when told of her husband's death Tuesday night and so far no attempt at funeral arrangements has been made, pending her recovery. Mr. Sorensen also leaves three small children.

He is a veteran of the first World War, an extensive land owner and was a highly respected citizen, and the news of his death was a great shock to associates and friends.

Conference Will Be Held Saturday

More Men Called for Army Service

Called to Fort Crook for selective service examinations and accepted last week for induction into the army were Willard Cushing, Leslie Sindelar, John Galka, Jr., and Eldon Wachtrich, of Ord, Elwood Miska and Melvin Richardson, of Arcadia. Another Arcadia resident, Marlon Hughes, was accepted by the navy. These young men make up Valley county's April quota.

Starting in May, married men without children may comprise most of this county's quota and by July Valley county may be calling up married men with children, says Miss Virginia Davis, clerk of the draft board.

New draft regulations remove dependency as a basis for deferment but for the present only childless married men will be called. Later men with children may be called even from essential businesses, unless they are deferred by reason of being essential men within those essential businesses.

A reorganization of draft cards in the Valley county office will be started soon, in line with policy changes made recently.

Don Rounds Stricken Cerebral Hemorrhage

Drs. Amick and Taylor were called and he was removed to the Loup City hospital in the Steele ambulance. His condition is very serious but he has regained consciousness and is considerably improved.

Victory Rally in Ord Monday Start at \$200,000 Goal

Heuwallt, Farley in Inspiring Talks; Early Bond Sales Encouraging—Misko.

Several hundred people, excluding school children, were present Monday afternoon as Ord held its "Victory Rally" preparatory to opening a campaign for sale of bonds in the nation's 2nd War Bond drive, and the rally was a real success.

Edward Heuwallt, chairman of war bond sales in this district and head of the Overland National bank at Grand Island, sounded the key-note of the meeting when in the opening speech he said that Americans must buy bonds freely, gladly, to the limit of their ability if they want to preserve their independence.

Master of ceremonies was John P. Misko and after the Ord high school band had taken its place on the court house steps he introduced Rev. T. C. Siudowski, who gave the invocation. Then came Mr. Heuwallt's explanation of the drive and the beautiful song, "God Bless America," sung by Mrs. Mark Tolen to band accompaniment. The crowd was invited to join in but most people either were too shy to sing out in public or preferred to listen to the fine soprano voice of Mrs. Tolen.

Mayor M. B. Cummins was introduced and made a brief inspirational talk, as did R. Clare Clement, chairman of the USDA war board. Mr. Clement introduced one of his rural bond salesmen, Russell Jones, of Yale township, who was the hit of the rally as he told modestly how he was chiefly responsible for putting Yale "over the top" before the drive had really started.

"I just went around and talked to them," Jones explained. "A few of them didn't want to buy bonds very bad or didn't think they had enough money but after I talked to them a little while they decided they did have." Twenty-eight Yale township farmers bought \$10,000 in war bonds, an average of \$352.00 per farmer, he said. Total sales in Yale township are now \$15,000 or more and going up every day. If every farmer in the county does as well as the first 28 interviewed by Mr. Jones in Yale total sales will be well over a half million dollars, it is thought.

Six service men home on leave were introduced before the microphone and interviewed by Mr. Misko, the group including Jason Lathrop, a petty officer in the Seabees here from Jamesport, R. I.; Milton Meyers, sailor whose story is told elsewhere in this issue; Elton Josp, of Camp Robinson, Ark.; Robert Ackles, of a Yuma, Ariz., tank destroyer battalion, T-Sgt. Ernest Zabloudd from Camp Adair, Ore., and Pfc. Edward Holeczek, of the infantry.

Singing of "Over There" by Mrs. Tolen led up to a really fine address by Edgar Farley, of the high school staff and after benediction pronounced by Rev. M. M. Long the rally closed with "The Star Spangled Banner" played by the band and sung by Alex Cochrane.

During the rally bond sales made during the first day of the drive were announced, showing that the campaign is getting off to a big start in Valley county. Among them were Ed F. Beranek, \$1,000, Emil Fafetta, \$500, D. E. Troyer, \$25, Victor L. Kerchal, \$150, Ralph Misko, \$1,000, Gus (Continued on page 4)

Senior Ray Vogeltanz, Seaman Milt Meyers, Tell Ord Rotarians What the Boys Are Thinking—and Doing—in a World at War

The Ord Rotary club had two guests at its dinner Monday evening and both were speakers on the program which followed.

One was Raymond Vogeltanz, president of the senior class in Ord high school, whose topic was "What a 17-Year-Old Boy Thinks About in Relation to the War." Tall, lean, his face pale from class-room study and winter in Nebraska, Raymond made an interesting talk.

"High school boys don't talk all the time about girls' and dates any more," he said. "Now they talk about where they'll be a year from now, and what branch of the service they'll be in, and what they'll be doing, and maybe that they won't be here at all."

The other guest was Milton Meyers, a gun captain on a U. S. warship, who is in Ord on leave after 3 1/2 years of service in the navy. Not many years past 17 himself, Milton also is tall and lean but his face is burned brown by the tropic suns of the south Pacific where he has been on duty for many months. He had no fixed topic but he told Rotarians a little about the four major battles he took part in—

Victory Tax Talk to Be Heard Here

Under the auspices of the Chamber of Commerce, a discussion of the 5 per cent Victory Tax which all employers must deduct from wages and salaries will be given in Ord at 8:00 p. m., Thursday, April 22, in the K. of C. hall. This is the regular meeting night of the Chamber of Commerce but non-members as well as invited to be present and invitations to business men in near-by towns have been issued.

Roy Randolph, district engineer for the state highway department, Monday evening was elected president of the Ord Rotary club and will take office July 1 succeeding Ralph Misko, whose term ends at that time. Farmers Delighted as 2.31 Inch Rain Breaks Dry Spell

Fall and Winter Even Drier than 1934, Fears of a Poor Crop Year Allayed.

Drier even than the fall of 1933 and the winter of 1934 have been the past fall and winter and when March remained dry farmers began to fear another year of crop failure just when the nation needs food more than ever before. But such fears were allayed, temporarily at least, by a drizzling spring rain which began Saturday and continued throughout Sunday.

Ord received 2.31 inches, North Loup 2.18, Arcadia 2.76 and other communities from 2 to 3 inches in the drizzle which soaked into the ground and left farm land in prime condition to sprout the seeds which had just been planted or soon will go into the ground.

From October 1, 1942 until the rain began Saturday only 2.21 inches of moisture had fallen here, according to Horace Travis' records. Last October brought only 1.16 inch, November 27, December 19, January 43, February 40 and March 76, leaving the moisture total far below normal.

During the same months of 1933 and 1934 a total of 3.03 inches of rain fell but there the parallel of the two years ends as April, 1934, came and went with only 28 inches of moisture whereas we already have had 2.31 inches this month and now that the dry spell is broken more is looked for at any time. 1934, it is recalled, brought the worst drought in history.

Farmers and town gardeners generally are delighted with the week-end rain and are resuming spring work again after allowing fields to dry for a few days.

Arcadia, No. Loup Files to Libraries

Recently when the Arcadian and the North Loup Loyalist were purchased by H. D. and E. C. Leggett for consolidation with the Quiz a question came up in each instance relative to disposition of the files of those newspapers. Upon consideration, it was decided by The Quiz management to donate the newspaper files to the library in each village.

These files are available to the public in the libraries but may not be removed therefrom, nor may they be cut or otherwise defaced as they form valuable legal records which may be much needed in estate and other matters in years to come.

Illegal to Raise Seed Poppies—Dale

County Agent C. C. Dale has been getting many requests for information about raising poppies for seed since importations of poppy seed—much used by Bohemians in pastry—were stopped by the war, and he recently received a letter from A. B. Crisler, of the Bureau of Narcotics, stating it is illegal to raise seed poppies except under license issued for supplying the medical and scientific needs of the nation.

Under the law it is illegal to grow poppies for the production of poppy seed and such activities may not be licensed. The fact that the poppy is grown

here for seed which is used only as a food condiment and not for the purpose of drug production makes no difference in the eyes of the law, the letter stated.

The seed poppy is an opium poppy and its pods and stems contain morphine which may be readily extracted in a form adaptable to the gratification of drug addicts, which is the reason for the rigid control over this crop, Mr. Crisler said.

So Valley county people had best give up ideas of raising their own dressing for homemade richelices and kolaces and depend upon the uncertain supplies available in stores.

3 Cattle Killed in Truck Smash-Up

Art Larsen, Leo Long, Escape Injury but Truck Wrecked Beyond Repair April 7.

Leo Long and Art Larsen miraculously escaped injury and death at 2:30 a. m. last Tuesday when the heavy truckload of cattle which they were hauling to market struck an unmarked hole in the highway 20 miles out here, according to Horace Travis' records. Last October brought only 1.16 inch, November 27, December 19, January 43, February 40 and March 76, leaving the moisture total far below normal.

So badly was the truck wrecked that Mr. Larsen sold it to an Omaha junkyard at once. Each of the two Ord men sustained slight bruises on one hand. Of the cattle in the truck, three were killed and one crippled.

An oddity was the neat way in which three cattle were sheared of their tails. A few hours later when the Valley county men passed the scene of the accident enroute to Ord, the three tails still hung from the steel rail that clipped them.

Since no warning flares or signs were visible to guard the bad spot in the road, it is thought the state will be liable for the wreck, and Mr. Larsen has announced his intention of filing suit.

Disastrous Fire Thursday Night in Burwell Pharmacy

Blaze Does 8-9 Thousands in Damage to Stock, \$2,500 to "Hub" Building.

Burwell — (Special) — A disastrous fire which broke out in the supply room of the K. K. Kull drug store was discovered at 11:45 Thursday night by R. E. Leach who owns a variety store and lives in the same building, and who turned in the alarm. Firemen arrived promptly and although they were successful in confining the blaze to the one room they could not extinguish it for nearly an hour and in the meantime smoke filled the entire building and caused heavy damage. Origin of the fire is unknown.

Miss Allene Schmitz, clerk in the drug store, had locked up at 11:00. Mr. Leach, who discovered the fire, was returning from a business trip to Sargent and as he entered the front door Mrs. Leach was aroused from sleep and found the living quarters filled with smoke. Mr. Leach hastened to help his family from the building. The youngest Leach child, 7, was limp and overcome by smoke but revived on reaching the open air. Occupants of apartments on the second floor were aroused and left the building at once.

A large stock of wallpaper, school supplies and drugs of all kinds in the supply room was destroyed. The ceiling in this room was covered with asbestos which kept the flames from spreading. Partitions were burned and smoke and soot damaged everything. Mr. Kull estimates damage to the stock at between 8 and 9 thousand dollars. The drug store has been closed since the fire and probably will remain closed at least a week.

The building, known as the "Hub," was built by H. J. Coffin in 1906, is a three-story stone building and for many years was the largest structure in town. Dr. R. W. Wood and W. F. Manasil have offices on the second floor and the third floor is used as an I. O. O. F. hall. Smoke penetrated to the second floor and caused much damage. Owner of the building is Mrs. R. L. Walker, daughter of the builder, and Mr. Walker estimates damage to the building at \$2,500. An Omaha contractor, O. L. Weimer is said to have contracted painting of the interior at \$1,400.

Damage both to the building and the drug store stock are believed to be fully covered by insurance but of course many articles in the stock cannot be replaced now.

HONORING U. S. ARMY GROUP FROM FORT CROOK!
DANCE
AT THE BOHEMIAN HALL, ORD
Monday, April 19
MUSIC WILL BE FURNISHED BY
Gene Pieper
and The Swing Kings Orchestra

Everybody is invited to attend this dance, at which guests of honor will be 150 officers from Fort Crook and all soldiers and sailors who are home on leave. Come and have a good time. Sponsored by Ord Chamber of Commerce.

Range paralysis or leucosis, fowl pox, cholera, parasites, nutritional diseases, infectious roup, tracheitis, and coccidiosis rank high among the nation's egg and poultry ills. At least two new virus diseases—blue comb and epidemic tremor—were discovered this past year and the true nature of several other new fatal ailments of fowl has not as yet been identified.

Veterinarians state that at least 25 percent of all losses can be curbed if poultrymen will follow sensible rules as to the use of clean ground, sanitary feeding and watering equipment, ample and balanced rations, quick segregation of all sick birds, avoidance of overcrowding and other simple precautions. The three-year plan of range rotation is a tremendous help, wherever followed. Any flock diseases not readily identified merit submission of typically-sick birds for veterinary postmortem. If diseases are identified quickly enough, many unnecessary losses can be avoided. But, with today's crowded poultry houses and yards, delay in attacking poultry ailments the moment they start can mean heavy fatalities. Constant vigilance against disease is the patriotic duty of every poultry producer this year.

Clean as a whistle

Spring cleaning seems to be more important than ever this year because most of us are spending more of our leisure hours at home. But that's not the only reason that this cleaning job has taken on greater proportions. Most of us have to do practically everything ourselves. It's our job now.

Thank goodness for those grand upholstery cleaners on the market today. They are really a salvation to the busy homemaker, for the results are close to miraculous. The dirt that's been collecting all year on those upholstered pieces seems to evaporate into thin air, and the colors become alive again with a freshness akin to new.

UPHOLSTERY CLEANING TECHNIQUE

The directions for cleaning upholstery are usually given on the product. But we've a few hints that might prove helpful.

If you're an amateur at this cleaning job, then start out on an inconspicuous spot, say under one of the cushions or on the back of the sofa. A little practice on these hidden surfaces, and you'll see just how to go about cleaning the whole piece. But don't try to cover the whole cushion or sofa at once. Take a small space at a time and clean it thoroughly before going on to the next surface. It takes a little patience and time, but you're well-paid for the trouble. Usually, one application is enough, but if the piece is quite soiled, then give it a second cleaning when thoroughly dry.

CLEANING NON-WASHABLE DRAPERIES

This same upholstery cleaner is also grand for draperies which can't be washed. Shake the draperies and air them well, but keep them in the shade while they are airing. Then clean as you would upholstery, pressing when dry.

BLOSSOM OUT WITH SPRINGTIME MEALS

Give a spring lift to eating with the colorful crisp blending of springtime flavors as suggested in Julia Lee Wright's article in this week's Family Circle. It's free at Safeway.

Something Different

The baby buggy shortage, in a year when there definitely isn't a baby shortage, is causing considerable discomfort to new mothers who would display their off-spring proudly whilst baby takes the air.

Second-hand buggies are in great demand. For instance one woman who called to ask if I had a used buggy she might buy was decidedly unpleasant upon hearing I had let my boys play with the last of it a year ago.

One young husband neatly contrived a wooden carriage for his baby, and attractive it is, too, solid and sturdy. It was wooden even unto the handle, the wheels.

War shortages are occasioning some novel contraptions. Yankees always were inventive; they are fond of making shift after an original idea.

So now the steel springs are withdrawn from the market, a whole new array of heavily upholstered pieces is made with wooden springs, did you know? The curved wooden pieces are braced against one another, and are reputed to be fairly comfortable and long wearing.

Toys for children show more ingenuity. The majority of toys are made of cardboard. There are pushouts of odd shapes that lock together to make slot-animals of considerable character but short life. Cardboard folds and tucks and locks together to make heavy lined tractors and other war machinery. It folds into guns, tanks, jeeps, peeps and beeps.

Pegboard games of wood are also urged. That reminds me, Roscoe Tolly has put together a number of these. They appear simple but can cause pondering for hours on end.

High school youngsters have enjoyed them, and also some of the other teachers.

BACK FORTY

A prominent speaker on the F. F. A program at Lincoln last week was national vice-president Willard Visek. This Valley county youth is the first Nebraskan to attain a national office in the Future Farmers of America in more than a decade. Willard has always had to earn

his own way, with no outside help from anyone, and deserves much credit for his accomplishments. He will go to Washington, D. C., for a meeting of national executives in the near future.

Three Ord high boys were among the 43 students from 28 towns who received the gold key of the state farmer degree. The award is based on scholarship, leadership activities, and home farming programs. It is financed by the Nebraska Farmer Magazine. Ord's new state farmers are George Krajnik, Bernard Guggenmos and William Chatfield.

OBITUARY

Mrs. V. J. Dobrovsky. Josephine Psota Dobrovsky was born March 17, 1880 in Ouhrove, Czechoslovakia. When she was about two years old she came with her parents to America, settling in Saunders county, Nebraska. After a number of years the family moved to Madison county where she grew to womanhood. In 1903 she was married to Vincent J. Dobrovsky in Omaha where they operated the Prague Hotel for a number

of years. In 1908 Mrs. Dobrovsky and her husband moved to Garfield county where they farmed for 25 years. In 1933 they moved to a farm just outside of Ord where Mrs. Dobrovsky lived until her death April 6, 1943 at the age of 63 years, 20 days.

Left to mourn her absence are her husband and six children, Carl, Joseph, Albin, Regina and Mrs. Marie Wozniak, all of Ord, and Mrs. Sylvia Willhite of Ely, Nev. One son died in childhood. Surviving also are one grandson, Carmen Dobrovsky of Elyria, Nebr., and six brothers and sisters, Robert Psota of Arcadia, Frank, Anton and Rudolph Psota of North Loup, Joseph Psota and Mrs. Emma Long of Ord and Mrs. John Urbanovsky of Burwell. Mrs. Dobrovsky was a member of the Z. C. B. J. lodge for 38 years.

Both parents died during her childhood and she grew up among strangers. In 1875 she married John Bazant and after 9 years they came to America, settling first in Howard county and later taking a homestead in Custer county which was their home until they moved to the sandhills in 1916. After the death of her husband in 1905, she lived with her sons until 1920 when she married Joseph Ruzicka of Ord. In 1935 Mrs. Ruzicka was widowed for the second time when her husband died. Since then she has made her home with her son, Jim Bazant of Ord. Victory Rally in Ord Monday Start at \$200,000 Goal

(Continued from page 1) Schoenstein, \$250, W. J. Adamek, \$100, J. Z. Marks, \$50, C. J. Morrison, \$1,000, Leonard Marks, \$25, Charles Burdick, \$1,000, Joseph Bonne, \$1,500, Frank Piskorski, \$1,000, William Trep-tow, \$100, Robert Noll, \$250, W. J. Klat, \$250, Wm. J. Rysavy, \$25, Lawrence Greenwalt, \$50, Vincent Vodehnal, \$25, L. V. Kokes, \$100, and Walter Huebner, \$25.

Tuesday morning committee-men previously appointed by John Misko, who has charge of the bond selling campaign for Ord, started the work of interviewing everybody in the city and getting their pledges to buy bonds during the present campaign. Banks and the postoffice were busy all day selling bonds and rural committeemen were taking advantage of the fine rain, which kept them out of the fields, to get their bond campaigning done. Tuesday night it was estimated that at least 1-4th of the Valley county quota of \$200,000 has already been raised. This quota, it is explained, consists of \$135,700 which is expected to be bought by firms and individuals and the balance by banks and financial institutions of the county. Everybody who has anything to do with the drive is confident Valley county will far surpass the quota assigned to it.

By next week some preliminary totals will be available not only from Ord but from precincts other than Yale and from North Loup and Arcadia as well, and the drive for pledges will close Friday, April 30, by which time it is expected this county will be far over the \$200,000 quota.

Slogan of the campaign is: "They Give Their Lives—You Lend Your Money."

Tells Rotarians What Boys Think

(Continued from page 1) for serving as gun captain and is "striking" for gunner's mate, told how his job is to load an 8-inch naval rifle and that his gun fired ten rounds in one battle. His ship (un-named for military reasons) was around the Solomons for over six months, seeing almost constant action, before it was disabled by a Japanese torpedo. He thinks the Japanese navy is weaker than it was. "They used to use cruisers as escorts for their carriers and transports, now it's mostly destroyers," he said. The U. S. has sunk at least 8 of the big Jap carriers, he believes. He saw the Wasp, and also the Hornet, U. S. carriers, sink or was present in the battles where they were sunk.

"You're pretty excited before you start firing but when you get started you kind of forget all about it and are too busy to be excited or scared until its all over."

One statement made by each of the two boys was strikingly similar. Said Milton: "I'll be glad to get back on duty and help get it over with." Said Raymond: "All the boys think they might as well get through school as soon as they can and into the service as soon as they can and help get it over as soon as they can."

The program was one of the best the Rotary club has had but perhaps most of the members—even those who are fathers of boys in the army and navy failed to realize its significance. Perhaps Milton, who joined the navy months before Pearl Harbor, has forgotten what he thought about when he was 17, but it is too bad all the Ord boys of that age could not have been present to hear this young man who has been in the places and done the things and suffered the hardships they are speculating about today. Perhaps Raymond, who did hear him, can tell his schoolmates about them.

Conduct Church Services.

Young people of the Christian church are training for Christian service, knowing the youth of today will be the leaders of tomorrow. Last Sunday in the absence of the pastor, Harold Milliken, they were prepared to conduct the worship hour and acquitted themselves creditably. The choir, with Marie Rohla as pianist, sang several hymns. Marie Bell acted as song leader and made the announcements. Mary Fox read the scripture lesson. Wilma Ball offered the prayers. Thelma Bell sang a solo entitled "Somebody Cares". The sermon was delivered by Shirley Wilson. The deacons had charge of communion. Other members of the choir were Jean Covert, Carol Ludington, Etta Mae Urban, Mildred Sevenker and Aldeana Wilson. The girls gave the service in the Burwell church at 11:00 a. m. and another program at 8:00 p. m. The group were pleasantly entertained at a fellowship dinner by Burwell members.

Vice president will be Mrs. Vera Andersen, recording secretary Viola Funcochar, corresponding secretary Vera Fredericks, treasurer Lucy Rowbal. The nominating committee included Mrs. Carol Mortensen, Mrs. Joyce Olsson, Wilda Chase, Miss Iris Krebs, in charge of the program, produced a charming style show of attractive cotton frocks made by her freshmen girls. In the first group appeared Catherine Clements, Inamae Christofferson, Lila Kirby, Delores Walahowski, Norma Long, wearing print frocks. In the second group were striped cottons, worn by Shirley Martin, Maxine and Arlene Wolfe. In the third group girls in plain cotton frocks were Mary Travis and Delores Jablonski, with Wilma Chatfield wearing seersucker. Gingham frocks made and worn by Joan Biemond, Marilyn Ollis, Vidella Suchanek and Miss Krebs herself composed the next scene. The pattern and cost of each garment was told by the miss who wore it, for instance, the Wolfe twins said, "Together, we cost \$1.54, separately, our dress material cost 77c," while the most expensive frock was a butcher linen at \$2.50, made by Mary Travis. Miss Elizabeth Kovanda gave a reading from the book, "My Sister Eileen". Hostesses for the evening were Mary Frances Manchester and Wilma Cochrane, who made little pink and blue baskets which were filled with snapdragons and set at each place.

MEAT Is Always Your Best "Food Buy"

Rationed or unrationed, meat still provides more energy, nourishment and sheer goodness per pound than any food you can eat, so you'll want to spend your meat points wisely to serve meat often. A good place to use them is at this market where the very best of home fattened beef and home-raised pork are sold. Remember — it costs no more points to buy good meat than to buy less desirable meat in the same cuts.

Meat is always a good buy but the best buy today is WAR BONDS. Help put Valley County over the top by buying all you can—and then doubling your purchase.

"Sure been a great year for crops, Judge... best we've had in quite a spell."
"That's true, Henry... all over the country. As a matter of fact, there's been quite a surplus supply of grain according to some figures I saw in one of your farm papers the other day. But that surplus is being used to mighty good advantage and is making the contribution of you farmers to the war effort more important than ever."
"Here's just one example of what I mean. The beverage distilling industry alone will use 100,000,000 bushels of this surplus to make alcohol seriously needed by the government for gunpowder, synthetic rubber, chemicals and medical supplies."
"So, keep it growin' Henry... you're doing a great job."

Water to Improve Soon, Says Allen

For several weeks Ord people have been commenting on and objecting to the extremely bad taste of the city water but water plant officials have been unable to improve its taste despite constant use of nu-chlor, chlorine and the other chemicals recommended for this purpose.

The water has had a distinctly "marshy" taste unlike anything noted here in the past. But the flavor of the city water is due to improve soon, promises Water Commissioner George Allen.

For the past five days all the water pumped into the reservoir has been unobjectionable in taste, he says, and as soon as "marshy" tasting water previously in the reservoir and mains is drained out all the water will taste good again.

Some condition of the river bottom, possibly due to the late spring, has caused the taste, he says. One theory is that the bad taste came from the bed of Lake Burwell, which remained frozen later than usual and then due to lack of rainfall did not flush out with its usual rapidity.

The Ord water tasted bad, Allen admits, but it has not been unhealthful. Chemical treatment has assured its purity throughout.

Must Buy Bonds by April 30th to Count in Quota

Valley County Sales Totalled \$75,545 Monday Eve, Must Sell \$60,000 More.

60% OF QUOTA BOUGHT.

John P. Misko said Wednesday morning that purchases in Valley county Tuesday brought the county total to \$81,000, which is approximately 60% of the quota assigned to this county. Farmers who signed pledges to buy bonds before June 30 are asked by Misko to buy them during April without fail, so the bonds may be counted toward the quota. Through personal contacts by workers, Ord people are being urged to do the same thing. Bonds bought after April 30 do not count toward the quota.

Valley county passed the half-way mark in the 2nd War Bond drive Monday evening when a check-up on sales since April 1 disclosed a total of \$75,545.75, but with less than ten days to go before the end of the month Chairman C. J. Mortensen and his bond selling assistants figure they have a rocky road to travel before the county quota of \$135,800 is met. This is the quota for bonds actually sold during April; by June 30 a total of \$200,000 is looked for.

Greatest blow of the campaign came Monday when Edward Heuwall, of Grand Island, district chairman of bond sales, informed the local committee that only bonds actually purchased during the month of April will be counted toward the quota. Acting on information previously given them, Chairman Mortensen, the USDA war board, John P. Misko, who is in charge of Ord sales, and all precinct committeemen had been working on the theory that all the pledges might be fulfilled any time up to June 30. This is not true and local workers were misinformed, says Heuwall.

If pledges could be counted the campaign would be "over the top" right now but since they cannot, be counted an effort is being made by volunteer workers to inform everybody who signed a pledge that he must fulfill it by April 30 instead of later, or his purchases will not be counted toward Valley county's 2nd War bond drive quota.

Chairman R. Clare Clement, of the USDA war board, urges that every farmer buy bonds in April to the limit of his ability. Banks will loan money to any worthy individual so that he may execute his pledge now instead of waiting until later, Clement believes.

Most precinct committeemen have not reported, but one of the four men working in Enterprise township reports total sales of \$10,000, he said.

Total sales in Valley county to date at banks, postoffices and all places where either bonds or stamps are sold is \$75,545.75, between April 1 and April 19. Of this total \$65,715 was sold in Ord, \$9,379.75 in Arcadia and \$415.00 in North Loup.

A huge thermometer has been erected on the court house steps on which the progress of the bond drive is reported daily. Tuesday morning the mercury had risen above the half-way mark. Men in charge of bond sales are hopeful that it will rise to the top, thus denoting success of the drive, before the month is over.

It's A People's War

We are paying more in taxes than ever before. . . and likely will pay more. But we cannot rely on taxes to finance the war. It would not be fair to base a tax on the average single family income when many families have more than one income. We could borrow all the money from the banks, but for both economic and social reasons this is undesirable. The government would then sacrifice its greatest dam against inflation. This is a People's War and the people should finance it. The people WANT to finance it. Sale of War Bonds has mounted consistently since Pearl Harbor. They give their lives. . . You lend your money.

School Children Buy \$582 in War Stamps

Ord schools are buying war stamps and bonds enthusiastically during April, a check-up Tuesday shows. At the high school the total was \$300 at noon Tuesday; at the grade school the total was \$282.10 at closing time Tuesday evening.

The seventh grade is leading the high school with \$101.60 purchases in war stamps. The eighth grade is crowding with \$100. Bonds bought by the teachers are credited to the grade they sponsor. The goal for the high school is \$900, announces Miss Luetta Keuhl, who is in charge of the high school. Avery Noll is in charge of the grade school drive, with Principal Inez Swain actively directing and keeping the books.

Grade school figures for this week are \$6 worth of stamps bought by first grade youngsters; \$6 credit for the second grade; \$24.35 bought by the third grade; \$50.45 bought by fourth graders; \$83.70 bought by the fifth grade students; and \$27.15 purchased by sixth grade pupils, or a total of \$197.65 for the week. Last week the total was \$84.45, with the second grade winning the banner for their room.

This week the banner was proudly taken to the fifth grade walls, since they had the high total for the first two weeks. The children are competing keenly; one little second grade child stated Tuesday "This money will drop plenty of eggs on Hitler for his birthday!"

Military, Masonic, Rites Held Friday for Carl Sorensen

Ord Man's Sudden Death was Shock to the Community; Leaves Wife, 3 Children.

The Masonic Lodge and the American Legion held their impressive burial rites Friday afternoon to honor the memory of Carl Sorensen, who was laid to rest in the Ord cemetery after funeral services held at the Methodist church at 2:30 p. m. with Rev. G. C. Robberson, of Neligh, in charge. Brief services were held at the Sorensen home at 2:15 p. m.

Mr. Sorensen's death was due to a heart attack and occurred Tuesday evening, April 13, on his farm west of Elyria where he had been helping his tenant erect a fence.

Pallbearers at the funeral were R. Lincoln, Will Nelson, George A. Munn, F. H. Kuehl, jr., E. S. Murray and Lyle Milliken. Rev. M. M. Long assisted Mr. Robberson and at the grave Harold Weddel, of Arcadia, conducted the service of the Masonic lodge while A. L. Hill and Emil Fafeita were in charge of the military rites of the American Legion. The Pearson Mortuary was in general charge of arrangements.

Carl Sorensen was the son of Mr. and Mrs. Thomas Sorensen and was born at Ord on Nov. 28, 1891, departing this life at the age of 51 years. He was reared in the Ord community and educated in the schools of this city.

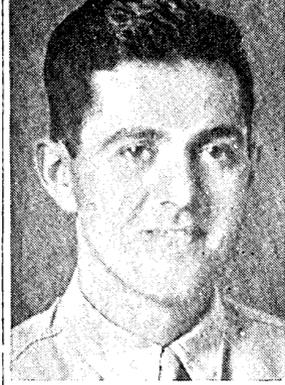

On May 27, 1918 he became a member of his country's army and was assigned to Co. A, 350th Infantry Reg't., sailing for France with this unit about August 1, 1918 and seeing service on various fronts. He returned to the United States in May, 1919.

An extensive land owner, much of Mr. Sorensen's time was devoted to his farming interests but he became financially interested in a drug store in partnership with Stanley McLain and later became sole owner of the store, conducting it for 15 years until he disposed of his interests to Louis Ringlein because of ill health.

His marriage to Miss Mina Edwards took place June 19, 1924 and to them three children were born, Maxine, Gordon and Donald, all of whom are at the home in Ord. He was a member of the American Legion and of the Masonic lodge and was active in the affairs of both organizations. He served six years as a member of the Ord city council. As a young man he became a member of the Baptist church to which belief he remained faithful until his death.

The sudden death of Mr. Sorensen last week was a severe shock to his family and to the whole community for few men were better known or respected in Ord than he. In token of this respect business places closed from 3:00 to 4:00 p. m. Friday while the funeral was held.

Infantile Paralysis Drive Netted \$118.91

The 1943 drive for the infantile paralysis fund in Valley county netted \$118.91, reports Ign. Klika, jr., chairman of the Valley county chapter of the National Foundation for Infantile Paralysis. The drive was held some time ago.

Of this amount \$72.00 was raised in the Ord community, \$17.88 in Arcadia, \$23.68 at North Loup and \$13.38 at Elyria, with an additional \$3.00 reported from the rural area. "It is gratifying to note that in the 1943 drive many more groups participated and funds came from more varied sources," comments Chairman Klika. "This would indicate that more people are recognizing the value of the work being done by the national foundation and by the local chapters."

Churches Planning Special Music for the Easter Sunday

Methodist Choir to Sing Two Choruses of 'The Messiah'; New Catholic Music.

Ord churches plan to celebrate Easter with special musical offerings Sunday, they report. At the Methodist church two choruses of "The Messiah" will be sung, "Surely He Hath Borne Our Griefs" and "Behold the Lamb of God," with about 20 voices directed by Hilding Pearson. In addition, Mrs. Mark Tolen will sing "I Know That My Redeemer Liveth." Mrs. Robert Noll is organist. The choir will be in robes.

Catholic musicians have been working hard on some new music for high mass, and will sing "Mass in B Flat" by Leonard; "Terra Tremuit" will be sung as an offertory. The hidden choir of 12 will also sing "Regina Coeli," "Anima Christi" and "Vidi Aquam." There will be no solos. Miss Margaret Petka is accompanist.

Presbyterian church goes will not find the choir much different than usual, except that the small boy choir will also be in robes and take part in the music. Mrs. James Ollis is official pianist and Mrs. Ralph Misko directs this group.

At the Assembly of God, special music will include a trio by Rev. and Mrs. L. E. Wilkins and Mrs. Joe Rowbal, and as an extra attraction the state superintendent, A. M. Aber of Hastings will address the meeting.

Other churches will have good musical programs, but nothing planned for Easter in particular. Probably every church in the city will be crowded for the big occasion. The weather seems encouragingly springlike, and Easter is one day in the year most families appear in church.

Who Has The Money For 2nd War Loan?

"Where is all the money coming from to meet the 13 billion dollars of the Second War Loan goal?" is a question heard on many sides. It will come out of the 45-billion dollar surplus earnings of 1943, according to statistics reported by Treasury experts.

During 1941 personal savings of individuals amounted to 9 billion dollars. During 1943 this surplus or prospective savings will increase by 36 billion dollars over 1941 when consumer goods were easy to get.

Now that prices are high, thrifty people will make their goods last longer and plate more money in War Bonds.

This is Easter Time...

Now millions of Americans reaffirm their faith in truth, justice and mercy.

In other years, we would be talking about the Easter Parade: new bonnets, smart dresses, suits, gay shoes and colorful handbags... spring outfits for everyone.

Of course we have all these things. But this Easter, the greater emphasis is on wardrobes for the Home Front job... for now

Every Easter Outfit is a Uniform!

THE HOME FRONT UNIFORM IS EVERYTHING YOU WEAR: It may be a dress, or slacks and sport shirt; a skirt and blouse; an overall or a suit... whatever is comfortable, long-wearing, becoming and fitting for the job you have to do.

THE HOME FRONT JOB IS EVERYWHERE: In church and school, factory and shipyard, on the farm and the assembly line, in the store and the home.

THE HOME FRONT WORKER IS EVERYBODY: Your son Joe and your daughter Mary; your husband Sam, your neighbors Ann and Henry, and you, yourself!

AND TODAY, AS ALWAYS FOR 41 YEARS, PENNEY STORES ARE OUTFITTING AMERICAN FAMILIES!

Our long experience with low-cost, neighborly storekeeping stand America in good stead today; your J. C. Penney store is part of a nation-wide business that brings to each community, at the very lowest possible cost, things produced in all sections of the United States. It does for millions on the Home Front, what the Services of Supply do for millions on the battle front.

Store Your Coal EARLY

Coal is even more scarce than it was a year ago at this time. We now have storage coal coming. Leave your order with us and save money by taking it off the car. We are strongly recommending the placing of your order for next winter's coal now.

HEALTH HINTS FOR LIVESTOCK

PREPARED BY AMERICAN FOUNDATION FOR ANIMAL HEALTH

PARASITES SABOTAGE LIVESTOCK PROFITS

American farmers lost \$125,000,000 in profits last year, due to livestock parasites. That is the figure recently announced by government veterinary authorities.

Cattle grubs alone ruin enough hides to put shoes on an army of nine million men. Noxious nodular worms of sheep ruin millions

types of costly parasites are constantly appearing in new areas. Southern screw worms are now causing losses among midwestern calves, colts, and other young livestock as a single example.

To assist in this year's wartime battle against losses caused by animal parasite pests, the priority boards of our government have made available liberal supplies of insecticides and worm removers. However, the first thing is to know just how, when and where to use such agents to best advantage. That is why local veterinarians have been actively enrolled in these campaigns in so many communities, and are taking an active part in planning community-wide parasite eradication projects. These community efforts are sound animal husbandry and pay real dividends.

If a flock or herd fails to gain weight, shed the hair properly, or gradually grows thinner or shows other chronic symptoms, it is very likely that one or more types of internal parasites are responsible. Postmortem examination of a typically-affected animal is often necessary before one can definitely identify the trouble and select the right drugs for elimination of the pests from the rest of the herd.

The World Needs Food

When you put High Priced Feed in a valuable cow and spend hard labor milking her, the milk is precious. You can't afford to let it sour or become dirty. If you separate your milk, check your skimmed milk often and closely. Butterfat is too high priced (64 cents per pound at the Cheese Factory) to feed to calves or poultry. The best way whenever possible is to sell whole milk, for the highest returns and for the safety of your country at war.

Next fall, these bees may be killed, if desired and their honey taken. This honey will almost surely be worth twice what the bees cost.

Farmers who are growing alfalfa or sweet clover for seed ought to have some bees around as the bees will increase seed yields by several hundred pounds per acre.

Folks may also get bees by putting boxes in trees to catch stray swarms. It is best to have some wax comb in the boxes. Perhaps a hundred colonies of bees are kept within the city limits of Ord, and lots of swarms will get away from these colonies.

Few enterprises promise so much in return for the small amount of money and labor required for an apiary. Skilled local beekeepers may be consulted for advice. There is no danger of getting stung by bees if proper clothing is worn. Apiculture is a fascinating and profitable hobby.

Yields of from 50 to 100 lbs. of surplus honey per hive are quite customary. Last season, one local beekeeper got over 200 pounds of surplus honey per colony. Yields of over 800 pounds of honey from one hive have been made in this region. However, it takes expert manipulation to attain such yields. Honey is worth about 30 cents a pound now on the market.

MEAT

Is Always Your Best "Food Buy"

Rationed or unrationed, meat still provides more energy, nourishment and sheer goodness per pound than any food you can eat, so you'll want to spend your meat points wisely to serve meat often. A good place to use them is at this market where the very best of home fattened beef and home-raised pork are sold. Remember—it costs no more points to buy good meat than to buy less desirable meat in the same cuts.

Meat is always a good buy but the best buy today is WAR BONDS. Help put Valley County over the top by buying all you can—and then doubling your purchase.

Market will not be open Sunday evening.

To Make Easter Sunshine Egg Nests

Trim crusts off a day-old 1 1/2-pound pullman or large loaf of enriched white or wheat bread. Cut into 8 slices about 2 inches thick. With a sharp knife, hollow out the center of each block of bread, leaving a 1/2-inch wall on the sides and bottom. Dot inside of the cases with softened butter. Drop 1 or 2 eggs into each case. Season with salt and pepper and dot top with butter. Bake immediately on a cookie sheet or drip pan in a moderate oven (350° F.) 25 minutes or until eggs are set and cases browned. Serve hot on heated dishes. Serves 6.

For Table Decorations

Made-to-order decorations for Easter morning may be real blossoms if you are fortunate enough to have them, or a transplanted bare twig decorated with pastel crepe paper blossoms. Use a small twig with a blossom attached on white cards for place markers.

Thirteen billion dollars is the national quota in the current War Loan campaign—April 12 through May 1. The campaign is one in which concerted effort is being given to selling War Bonds and Stamps. The quota, representing approximately \$100 per person, is the amount urgently needed to be loaned to our nation now to carry on this war to victory, to an "unconditional surrender by the Axis," to preserve our freedom and liberty.

What better investment could each patriotic citizen make than in war securities, even if he were not assured of getting \$100 in return for each \$3.00 loaned? Therefore, include War Stamps on every shopping list. Get them at Safeway—now!

Buy War Bonds

with the Money You Save on Meats

Let's put Valley county over the top in the 2nd War Bond Drive. Before May 1 buy your quota of bonds and thus help your country to the utmost.

You can save money on meat purchases under rationing—1st, because your ration stamps do not permit the purchase of as much meat as formerly and 2nd, because this is a most economical place to buy meat.

Come in and let us advise you about tasty but economical cuts of low-point-value meat—and buy war bonds with the money you save.

Hereafter market will not be open on Sunday evening.

MRS. W. J. RAMSEY, Reporter

Irwin Bossen, son of Mrs. Bossen of Arcadia, who has been employed in the construction of the naval station at Hastings, has been given the job of installing the electric clock and signal system in the building. Irwin installed the electric program system in the local school building when it was built in 1934.

Mr. and Mrs. Clem Korte of Burlington, Wyo., stopped overnight last Friday with their wife, Jim Coons. The Kortes are on their way to Sutton, Neb., where Mr. Korte has employment in the Fairmont base.

Mrs. Arthur Bartz, sister of Mrs. Elbert Sell and Mrs. Harold Farrel of North Loup were Sunday evening visitors at the home.

Mrs. Margaret Bristol of Anny was a Saturday visitor at the Wm. Adams home west of Arcadia.

William Bulger, who has been receiving training in the government school at Milford, Neb., returned to Arcadia last Friday for New York City where he will enter the Aircraft instrument school for thirty days training. There were 25 men from the Signal Corps sent to the U. S. to take this training and only three from the Corps area. Bill should be very proud to have been selected as one of this small number.

Mr. and Mrs. S. B. Warden were dinner guests of Mr. and Mrs. W. J. Ramsey, Friday evening.

Mr. and Mrs. M. McClafflin and daughter and Mr. and Mrs. Harold Franzen from Laramie, Mo., have been visiting the past week with their father, Frank Franzen and two others, Richard and Floyd.

In observance of Mr. Magnus Pearson's birthday last Tuesday afternoon, Mrs. Pearson invited some of her neighbors in and gave him a real surprise. The evening was spent playing cards and a lovely lunch was served by Mrs. Pearson.

Miss Marie Furst was a bus passenger for Burwell Saturday morning. Miss Furst has resigned from the position of commercial teacher for next year and will teach in the Burwell schools. She has sponsored the Pep girls and the school paper, The Bugle, and has been a very successful commercial teacher.

Mr. and Mrs. George Hastings and Sharon of Ord spent the week end with Mr. and Mrs. A. H. Hastings.

Don Rounds, who has been in the Loup City hospital for the past week, was returned to his home Saturday with his condition much improved.

Mr. and Mrs. S. B. Warden left with their household effects Saturday for their new home in Milligan, Neb. They have rented a modern house in Milligan and Stan will begin his new work as patrolman at the Fairmont air base on Monday. It is with extreme regret that we see these fine people leave the community. Next Sunday is Easter Sunday and special services will be held at the public worship hour, for baptismal services, the reception of members into the church, by letter or confession of faith—or as preparatory members, these to be given instruction in Christian living and the fellowship of the church. Parents who desire to have their children baptized on next Sunday morning, will come prepared, and present their children at the altar, there asking God to help them as parents, to ever walk before them as Christian parents.

At the close of the morning worship, the holy communion services will be held. May we each one pray that our lives may be such that we may worthily partake in this most holy sacrament.

"NORCO PORKY" Says
UNBALANCED RATIONS
WASTE GRAIN

"Hog rations lacking in essential ingredients are wasteful because all the food is not assimilated by the hog. In other words, such food passes through the hog without doing any good. That's why, when corn alone is fed, it takes 6 more bushels of corn to build 100 lbs. of pork than when the hog is fed Norco Hog-Maker Supplement and corn. Norco Hog-Maker balances the ration and builds a cheaper pound of pork. See your Norco dealer."

LETTERS FROM QUIZ READERS

Remembers 1893 Class.

To the Editor of the Quiz:
I am writing about the Ord high school class, as my memory goes back to 1893 and now it is 1943, a span of 50 years. This year is the 50th anniversary of that graduating class. It was a class of 12 young folks, who finished four years in three, eight girls and four boys.

The living are Daisy Westover Lehman, Ethel Weare Jennings, J. Morten Andersen, Alta Jones Olson, Horace Phelps, Cora Laverty Selleck, Lena Leach and Hannah Andersen Thomas. Lena Leach has never been heard from since her family left Ord. Her father was agent for the B. & M. R. R. Eltie Haskell, Angie Jones Rodgers, Otis Paist and Carl Harris have answered the last call.

I would like to hear from you who are living through the Ord Quiz, as we are all scattered to the four winds.

We are having spring now, snow nearly all gone and all the farmers will soon be working in the fields from daylight to dark. Had an unusual heavy snow, no frost in the ground, not a drop of water wasted. That ought to give us a bumper crop for 1943.

MRS. WM. H. THOMAS,
Box 415, Ashton, Idaho.

Highlights of the Army Visit.

Soldier boys enjoyed the refreshments offered at the Legion open house Sunday night; they filled sacks with the food that was left, and took it on their "maneuvers" next day, saying, "You don't know how hungry we get!" They thumped the two pianos heartily, played cards, played records, and ate . . . a big evening.

At the high school the soldiers were constantly surrounded by adoring small natives of Ord, who were delighted to get "rides." One small boy took some flattened tin cans over to the soldiers, saying "Here, you can make some bullets." Another youngster patrolled the grounds in his soldier uniform, with tin hat and toy gun, exchanging many greetings of "Hi, Soldier!"

One local banker of considerable size had a wonderful time Monday, for he accompanied the jeeps and peeps and trucks on their day's maneuvers in the hills west of Ord. Once in the army, he was tickled to have another close-up of army life.

At the C. of C. dance Monday evening many soldiers were too tired to dance, but the floor was jammed and local people applauded Gene Pieper's music heartily.

When Lieut. Col. Kruml was home last week he declared vigorously, "If Ord wants to please those visiting soldiers, just have people provide good beds for those tired boys; you don't know how hard those floors at the high school are to sleep on! Or how sick the soldier boys get of sleeping on . . ."

Mason Saves Machine Man Hours

When 24-year-old Sebastiano Portuguese went from laying bricks to cutting cam shafts for the Cadillac Motor Car division of General Motors corporation, Detroit, Mich., he brought along some ideas that won for him the WPB Certificate of Individual Production Merit. One suggestion was that two operations could be done by one man instead of two if a bar were used to tie together two handles on spindles used in drilling cotter key holes. This operation is expected to save 4,000 man-hours a year.

Pain May Relieve Asthma

Dr. W. Schweisheimer, writing in the Painter & Decorator, says that certain moulds on walls and ceilings, especially in damp rooms, irritate the mucous membranes of nose, throat, larynx and bronchi, and that susceptible persons may even develop asthma from odors from such molds. These asthma attacks may disappear, however, as by magic as soon as the room has been newly painted, says the doctor.

"All insignia are to be removed from shoulder loops of officers' shirts and field jackets, Secretary of War Stimson said, because they have been found to interfere with the use of gas masks, carbines, and other military equipment."—News item. "No more scratched arms," was the comment of a Medical Administrative corps officer's girl friend.

Ever Faithful
"Ever Faithful" is known to have been applied to U. S. marines prior to 1863. In that year Commodore John Pope of the U. S. navy, in a letter to Marine Corps Commandant John Harris, stated that American marines were so highly valued by officers of the navy that "the Ever-Faithful Marine" had passed into a proverb.

One Less Can
If each of the 31,000,000 U. S. families bought one less can of canned goods per week, the steel saved would meet steel requirements of 5,000 medium tanks, there would be tin for 360,000 75-mm. howitzers, rubber for 2,000 jeeps.

One-Fifth
About one-fifth of the families in the United States live on farms and make their livelihood there, according to the latest report of the census bureau.

To Hasten Victory

No American wants this war to go one minute beyond the time we can bring it to a victorious end. To hasten that victory—to save possibly the lives of millions of our boys on our far flung fronts—it is imperative that every American do his part in the Second War Loan. There is an investment to fit every purse. The most you can do is little enough compared with the sacrifice offered by our boys in service. They give their lives—you lend your money.

Third Scrap Drive to Start Thursday, Nebraska Lagging

State Has Turned in Only 28 Per Cent of Quota, Drops to 32nd in Nation.

This county will jump the gun and start its Third Scrap Drive on Thursday, April 29, three days ahead of the state-wide drive which gets under way May 2 and lasts through May 15, and people of Valley county are urged to haul in their scrap this week as never before.

Lynman Starkey, buyer from St. Paul, will be at the Union Pacific dock in Ord from April 29 thru May 4, says Chairman R. Clare Clement, and will pay highest prices for all classes of farm and town scrap. On May 6 and 7 he will be in Arcadia to assist in buying scrap there.

In a letter to county salvage chairman this week Governor Dwight Griswold pointed out that Nebraska has fallen far behind her 1942 record when, with collections of 111 per cent of her quota, the state ranked 14th in the nation. This is in contrast to only 28 per cent of collections to date on an 80,000 ton quota for the first six months of 1943, which has dropped Nebraska to 32nd place.

"We are proud," the governor wrote, "of our many war records. At the top of the list is our accomplishment in two scrap drives last year. In these we showed the nation how the job should be done and were the first to meet our quota."

It is thought by Chairman Clement that there are several hundred tons of farm scrap left in the county. "I know of a good many farms that thought they'd picked up all their scrap and now say they have a ton or more," he said. He also lists various farmsteads as a valuable source of scrap machinery if neighborhoods will take the trouble to collect it.

Already collected and ready for shipment is a carload of iron at Arcadia, almost a carload at North Loup and a half carload or more in the hands of scrap buyers in Ord. It is hoped farmers will haul in two or three more carloads at least during the April 29 to May 4 drive in Ord and during the May 6 and 7 drive in Arcadia.

About four hundred tons of rails replaced with heavier rails by the Burlington railroad here have already moved to market, and Agent J. C. Van House this week. Several hundred tons more of old rails will be available for scrap as they are replaced with new ones. This scrap does not, however, count in Valley county's quota as it is classed as industrial scrap.

May 18th Will Be Commencement Date

Graduation days are coming nearer to the Ord high school class of 1943, and 62 seniors are more thrilled every day about it.

First will come their ambitious presentation of the famous "Stage Door," the class play. It will be given May 4 with a large cast.

On May 11 will be the junior-senior banquet and promenade following, for which Catholic ladies will serve and for which Larry Collins' orchestra will play.

May 16 the baccalaureate sermon will be heard. Next evening, May 17, seniors will have their picnic and their class night program, with honor students revealed.

On May 18 comes the finale, commencement proper. J. Kovanda is sponsor for this class, Mrs. E. L. Kokes his assistant since Mrs. Steele departed.

Ralph Douglas Will Join Murray Agency

At the National Farm Loan Association office, some changes are being made this week.

Ralph Douglas will no longer be connected with this office, as he begins work on May 1 for E. Murray. He will assist Mr. Murray as farm operator and in abstract and title business.

Mrs. Glen Stroud returns to work May 1, after an absence of several weeks, due to the birth of a baby daughter. She has assisted James Ollis in this work for several years. Mrs. Stroud is the former Twila Brickner.

Dean Barta Married. Dean Barta, cadet in the air corps, and Miss Geraldine Noll, Ord, were married Saturday in an army chapel. Cadet Barta will be commissioned upon completion of his training early in the month.

50th Wedding Anniversary of Burwell People, Mr. and Mrs. Jas. Petersen, Observed April 15

April 15, 1943 was the golden wedding anniversary of Mr. and Mrs. James Petersen, respected pioneers whose marriage was solemnized at Burwell in 1893. On the evening of that date, a crowd of neighbors gathered at their home to play cards and visit and enjoy a midnight lunch. The following Sunday, April 18, they were honored at a one o'clock dinner and a reception. Their three sons and three daughters were present. They are Harold, Walter and Orville Petersen, Mrs. John Mann and Mrs. Karl Ziegler of this community and Mrs. Clara St. John of Long Beach, Calif. There are thirteen grandchildren and eight great grandchildren. Two of the grandsons, Pvt. Roland Petersen and Pvt. H. David Petersen are serving in the armed forces and could not be present. Other grandchildren unable to be present were Gordon Ziegler of Wahoo, employed as a defense worker, Wayne and Russel Mann and Norma Mann Farmer of Los Angeles. Guests at the dinner included Mr. and Mrs. Johnson of Grand Island, friends of long standing, Mr. and Mrs. Bert Alder of Taylor and the immediate relatives.

Many friends called during the reception to pay their respects and offer congratulations. Will Helmkamp of Taylor was among the guests and remarked that he helped charter Mr. and Mrs. Petersen fifty years ago. Guests were served cake and coffee from a most attractive tea table with a beautiful large wedding cake as a centerpiece. Three lovely bouquets graced the living room, gifts from the children and from Mrs. Edna Harrod Beyer of Seattle, Wash. Other beautiful gifts on display included gold book ends, miniature statues of Lincoln presented by the Lutheran church members. That evening Mr. and Mrs. Petersen and several members of their family attended the regular church hour of worship at the Lutheran church where Rev. Armen Wagner gave the couple his blessing. James Petersen was born at

Stupka-Jutland in Denmark in 1862. His father, Jens Petersen, was a farmer. His mother died when he was four years old and later young James was taught to be a weaver by trade, and also worked as a brick maker. As he worked he dreamed of the free land in America and in 1885, when he was twenty-three years of age he came to America. He arrived in Grand Island in the month of March and was employed as a farm laborer by Peter Johnson for one year. During the next four years he worked with a crew of men for the railroad company. He helped build the railroad grade from North Loup to Valley View and on other routes worked as far north as the Black Hills. Soon afterward he filed on a homestead in Loup county and had a tree claim. Here he met Larcena Hansen, who was visiting her brother, Peter. It did not take these two young people long to get acquainted for Larcena was also born in Denmark in February in 1863 and had come to America the very year James had made the long voyage. Larcena Hansen came first to Chicago where she worked as a nurse for three years in her uncle's home. She later spent a year in Pensacola, Fla., and then came to Loup county, Neb. Life was not easy for this young couple in a strange land in a pioneer community. Many hardships were suffered but in spite of everything they prospered and made many friends. They gradually bought more land and acquired many Hereford cattle. As each child came of age, he or she was given three quarters of land or its equivalent, and six head of horses, a wagon and some farm machinery. And Mr. Petersen said, "They were and are fine children, willing to work and I was anxious for them to succeed and prosper. Too many people want to hang onto everything themselves, instead of giving the children a chance." Mr. and Mrs. Petersen retired from the farm in 1932 and moved to Burwell, buying the Frost property.

May Selectees Will Leave Soon

Leaving early in May to take selective service examinations in Omaha, and comprising Valley county's quota for the month are Bill Johnson, Jack Weaver, Floyd Hiner, and Ferrol Hopkins, of Ord; Robert Anderson and Orville Wills, Arcadia; Harold Portis and Calvin Stevens, North Loup; and Joe Dlugosh, now of Oregon City, Ore. A new selective service ruling permits advance announcement of their names, says Miss Virginia Davis, the draft board clerk.

Ord Boys Second in Invitational Meet

Saturday Coach Roscoe Tolly took three of his track athletes to Central City and entered them in the annual invitational meet sponsored by Central college, in which fourteen schools were represented. Aurora won first with 34½ points and Ord's 27. High point man of the meet was Loyal Hurlbert, who received a medal for scoring 15 points. The Ord boys were entered in nine events and placed in eight of them.

B. Novosad tossed the discus 128 feet to score 2nd; Ted Randolph tied for 1st in the pole vault with 10 feet 10 inches, was third in the high hurdles with 8½ seconds and 2nd in the low hurdles with 12.2 seconds. Hurlbert was 1st in the 440, 53.5 seconds, 2nd in broad jump, 18 feet 11 inches, and tied for 1st in the high jump, 5 feet 6½ inches.

Scout "Dawn to Dusk" Drive On

Wednesday morning twenty Ord men met for breakfast at Keep's Cafe and immediately afterwards, under the leadership of Roy Randolph, began the annual "Dawn to Dusk" drive to raise funds for the Boy Scout program in this city. At noon many of the workers had completed their territories and were reporting contributions greater than a year ago. Interest in Scouting is high in this community at the present time.

Fred Witt, Pioneer Ord Resident, Dies

In Washington, D. C., on April 24 occurred the death of Fred Witt, an early-day resident of Ord who was a miller in the Ord Mills and also was employed for a time in the Cornell and S. J. W. Brown hardware stores. A resident of Lincoln, Mr. Witt had been in falling health for several months and the last of March his son, Paul, came from Washington, D. C., and arranged to have him taken there so his children could care for him. He stood the train trip well and for a few days seemed to be better but was stricken suddenly and died on April 24. Surviving are his wife, Mrs. Becca Witt, a son, Paul and daughter, Mrs. Dorothy Hancock, both of Washington, brothers, Will Witt, of Ericson, and Frank Witt, of Omaha, and sisters, Lulu Ritterbush, Okla., Anna Lenhartson, Aberdeen, Wash., Maggie Anderson, Ord.

\$25,000 Deficit in War Bond Quota, Two Days to Go

Valley County Falling Short While State As a Whole Has Surpassed Quota.

BOND DRIVE EXTENDED FOR A SINGLE DAY.

At noon Wednesday John P. Misko received from state headquarters of the 2nd War Bond drive authority to continue the drive in Valley county one day, through Saturday, May 1. It must close at midnight Saturday, the message stated, and bonds bought after that time may not be counted toward the quota.

With only 48 hours to go before close of the 2nd War Bond campaign, Valley county people have subscribed only \$134,000 in bonds, or 83% of the \$135,800 quota assigned to this county, it was stated Wednesday morning by C. J. Mortensen, county chairman, and John P. Misko, in charge of sales in Ord.

While the \$134,000 total represents a nice increase over last weeks total of \$75,545 it is still far from the quota, Mr. Misko pointed out.

Dissatisfaction with the bond buying record made to date seems to be general, for R. Clare Clement, chairman of the USDA war board and AAA, chimed in with a complaint that farmers aren't doing their share, generally speaking.

In other war drives Valley county's record has been more than satisfactory, it is pointed out. Month-to-month bond sales have exceeded quotas, scrap drives held here have been successful, Red Cross drives have been over-subscribed, but the lethargy with which people have bought war bonds during the present campaign is going to leave a blot on the county's record unless people wake up quickly and buy bonds before 6:00 on April 30 when the drive closes.

The state of Nebraska as a whole is "over the top" in the campaign it is pointed out. The state quota was \$1,937,000 and at noon Monday total sales were about 46 million dollars.

A great many counties have far exceeded their quotas also. Lancaster county, with per capita purchase of \$133.62 in bonds, lead all other counties by a large margin. Among smaller counties Blaine county led on Monday with per capita purchase of \$39.53 and Kimball county was close behind with \$36.69. These are contrasted with Valley county's feeble per capita purchase of \$10.76 at the same time Monday.

Valley county people simply aren't doing their share, with rare exceptions, those in charge of the drive feel.

The pledge campaign carried out in rural districts shows that farmers in some parts of the county are buying bonds at a far greater rate than in other sections, according to Mr. Clement. Tuesday afternoon he tallied the pledges already turned in by workers in 11 out of the 15 townships and found that Yale township is still the shining example in Yale township 51 farmers pledged purchase of \$10,380.75 in bonds, while in adjacent Arcadia township 51 farmers agreed to purchase only \$3,562.50.

Twenty independent township farmers agree to buy \$3,057.75 while 17 in Eureka pledged only \$781.25 and 16 in Vinton only \$687.50.

"I know farmers who could well afford to buy several thousand dollars' worth of bonds who are buying only an \$18.75 or \$37.50 bond," Clement says. He hastened to add that other farmers much less able to buy bonds are borrowing the money and buying \$1,000 worth or more.

Fifteen Davis Creek farmers pledged only \$956.25 while 18 in Ord township pledged \$2,805; 43 farmers in Springfield pledged \$4,550 while 52 in Noble pledged only \$3,642.50 and 67 in Geranium pledged only \$3,249.90. The pledge campaign is incomplete in all precincts and Enterprise, Elyria, Liberty and North Loup have not turned in any reports at all. Only 378 farmers out of three times that number in the county are represented in pledges so far turned in at the AAA office, and the total of their pledges is only \$35,711.15. But pledges alone don't count; the bonds must actually be purchased before May 1.

"Some people may be waiting for a worker to come to see them but they must not wait any longer," said Mr. Misko Wednesday morning. "Workers haven't been able to get around to everybody and every person should go immediately to his bank or postoffice and buy

bonds to the absolute limit of his ability."

In a few other Nebraska counties where sales are lagging behind quotas it has been suggested that names of all bond subscribers and also the amounts they subscribed be published and if Valley county should fail to meet its quota and the drive should be extended here this method might be resorted to. "If our people won't voluntarily invest their money in their own future perhaps public opinion will shame them into doing so," one official said yesterday. He advocated immediate publication of the names of all bond buyers during the 2nd War Bond drive.

Everybody had expected this county to go over the top very quickly in meeting its \$135,800 quota; perhaps even to over-subscribe during April the \$200,000 goal it is supposed to meet by June 30. Instead everybody seems to be sitting around waiting for the other fellow to buy the bonds. This county's quota is less than \$20 per capita, or only about \$80 to the average family. If your family hasn't at least bought its share of the quota don't fail to buy the bonds by April 30. If you can buy more, do so.

\$4000 Improvement at Ord Sale Pavilion

Owner Weller Will Install Concrete Pens, Enlarge Facilities About June 1.

Improvements at the Ord Livestock Market to cost between \$3,500 and \$4,000 will be made starting June 1, reports M. B. Cummins, who leases the property from its owner, E. C. Weller, of Atkinson. These improvements will make the Ord facilities second to none in the state. The buildings on the lot north of the present sale pavilion will be sold Saturday for removal and as soon as they are moved off the new construction will start. Concrete hog pens, connected with the sewer, will be installed, the pavilion will be enlarged and other facilities improved.

A representative of the Nebraska department of health and sanitation spent two days in Ord recently going over plans for the proposed improvement and has approved them in all particulars. Mr. Weller has already secured priorities on the material required and has the material bought, so there will be no delay in the construction work when it starts.

Roy Nelson Plows Up Indian's Skull

While plowing on his farm near Elyria last week, Roy Nelson plowed up the well-preserved skull of an Indian. The plow drove through other bones of the skeleton and destroyed them but the skull was not damaged and after cleaning it up and applying a coat of shellac Mr. Nelson brought it to town and presented it to Dr. F. L. Blessing. The skull is intact except for one front tooth, evidently lost by the Indian during his lifetime.

Mr. Nelson has known for some time there are Indian burial mounds on his farm but has never found time to examine them. It was close to one of these mounds that he plowed up the skull last week.

Another Hole-in-1 for Gould B. Flagg

A few years ago when he was living in Ord Gould B. Flagg had the thrill of shooting a hole-in-1 while playing on the Ord course and Sunday he had the pleasure of doing it again. In company with Mark Tolen, Bud Shirley, Fred Swanson of Aurora, and others, Gould made an ace on No. 8 hole, proving that practice hasn't anything to do with this aim-of-all golfers, for it has been a long time since Mr. Flagg has played the Ord course regularly. He now lives in Lincoln and has been in Ord on business.

Freshmen Sell \$1,000 Bonds.

North Loup—(Special)—Freshmen in the high school here have sold over 1,000 in war bonds reported Superintendent Elley this week. They are leading by a wide margin in the school bond contest.

Reporter in Australia.

Rex Wagner, reporter on the Quiz until his induction into the army last summer, is now in Australia, according to a message received by his parents, Mr. and Mrs. F. F. Wagner, of Burwell. The letter was dated April 18 and was only eight days enroute.

—Amos Christofferson returned to his work at Hastings Wednesday on the bus. He came home Tuesday.

Ord to Be Host to Track Athletes April 30, May 7

Three-Loup Meet Friday, Ord Invitational Next Week; Records in Danger.

The fine new athletic field east of Bussell Park will see plenty of goings-on in the track and field line in the next two weeks, for on succeeding Fridays—April 30 and May 7—the Three-Loups meet and the Ord Invitational meet will be held.

Competition in the first meet will be limited to members of the Three-Loups conference but 30 schools have been invited to compete in the meet May 7. Admission will be 15c for grade and high school students, 25c for adults, at each meet.

Trophies will be presented to meet and relay winners and ribbons to winners of the first four places in each event.

If weather is good records of both meets are in danger, for this spring athletes of the Loup section have been consistently bettering several of the marks set up in former years.

Ord Graders Buy \$917 War Stamps

Grade school youngsters did themselves proud Tuesday, buying a total of \$615.40 war stamps and bonds that day, to make a total of \$917.40 bought within three weeks!

High school students were close behind with purchases of \$612.05 for their total bought to date. It would seem that school children are more interested in the war effort than their Valley county elders, who have not bought the quota requested of them.

At the grade school the kindergarten bought \$80.70 this week; first grade \$15.40; second \$57.75; third \$139.55; fourth \$282.35; fifth \$247.10; sixth \$94.55. Thus the fourth grade wins the banner to ornament their room the coming week.

Total purchases of grades at high school are eighth \$216.70; seventh \$109.05; twelfth \$98.45; ninth \$91.25; tenth \$62.10; eleventh \$34.50.

Monday evening a group of sixth grade girls who call themselves Junior Commandos staged a fine show, earning \$16.25, \$2 of which will go for the rent of the Legion hall. The girls thought up their entertainment, practiced alone and arranged for the hall and the audience. The series of skits were well done and praiseworthy, and parents and friends were also happy about the enterprise the girls displayed. The money is to go for war stamps.

Convocation at the high school Friday included group singing led by Mr. Cochrane, tapping of new Thespian members, dedication of an honor roll of alumni in the service. New Thespians will be Luetta Kuehl, Arlene Timmerman, Hilda Lola, Elinor Walford, Carolyn Auble, Lloyd Wilson, Loyal Hurlbert, Ted Randolph, Keith Kovanda, Ray Biemond, Darlene Puncocar.

Miss Shavlik is rehearsing the 33 seniors night and morning for their play, "Stage Door" to be presented Tuesday, May 4 at 8:00 o'clock at the high school auditorium. Tickets cost 10c, 25c and 35c, and reserved seats are now on sale.

Ord students will again have a poppy poster contest, with prizes awarded in three classes. The posters are to be done in water colors or oil. Miss Lukes is in charge and closing date for entries is May 15.

Fred V. Cahill, Jr. Wins Commission

Fort Washington, Md., April 20, 1943.

Fred V. Cahill, Jr., of Ord, Nebr., has been commissioned a second lieutenant in the Army of the United States after successfully completing a course of training at the Adjutant School here.

His letter of appointment was handed to him by Brigadier General H. C. Holdridge, commandant of the school and Director of Schools Training of the Army Administration Schools, at the graduation exercises of Class 15.

Lieutenant Cahill was one of a selected group of enlisted men, drawn from virtually all arms and branches of the service and designated to attend the Officer Candidate School. During the twelve weeks intensive course he received training in the executive and administrative functions of the nation's largest business, the Army of the United States.

Increased Acreage of All Food Crops for Valley County

Farmers Disregard Shortage of Help, Machinery in Plans for 1943; Livestock Up.

There is a shortage of farm labor and machinery but Valley county farmers are going ahead with plans for raising the biggest acreage of food crops in history, as well as increasing production of livestock as much as double in some instances, it was revealed by a check-up of records in the AAA office Tuesday morning. Farmers of this county will do their share—and more—to feed the nation.

In Valley county 1,100 acres of dry beans will be planted as compared with 67 acres last year. Potato production will jump from 551 acres to 1,347; last year no flax was planted and this year there will be 119 acres. Only soy beans show a drop from 34 acres to 24 acres. All these are classed as "war crops."

Acreage of corn here will leap from 63,359 acres in 1942 to 78,914 acres this season, and more than half of the acreage planted will be hybrid corn which will increase the yield still more. Last year this county raised 1½ million bushels of corn.

Wheat acreage jumps from 4,389 to 6,972; rye from 4,315 to 4,597; oats from 8,161 to 10,823; barley from 39,037 to 39,919. Nor are farmers neglecting animal foods for acreage of tame pasture is due to increase from 16,000 to 19,000, acreage of sorghums and other roughage crops from 6,570 to 7,662 and acreage of alfalfa from 10,108 to 10,503.

Decrease in sugar beets will drop off about half, estimates R. Clare Clement, chairman of the Triple A. Factors are the shortage of beet labor and also the price, which is not considered satisfactory under present conditions.

It is in increased livestock and poultry production that Valley county will make the greatest gains. On Jan. 1, 1943 there were 34,088 hogs in the county, about double the number the previous January. In the spring of 1942 a total of 5,200 sows farrowed here and the spring of 1943 will see a total of 8,943 bring pigs to increase America's meat crop. In the fall of 1942 there were 2,464 farrowing sows while in the fall of 1943 farmers plan to have 5,072 sows farrow. From these totals it can be seen that Valley county doubled its hog production from 1941 to 1942 and will double it again in the 1942-43 period.

Between Jan. 1, 1942 and Jan. 1, 1943 cattle numbers increased from 32,504 to 36,973, milk cows from 7,339 to 7,890. Cattle on feed for market showed a big gain also, total in the feed lots Jan. 1 being 6,556. In their plans for the future farmers say they had 158,339 laying hens Jan. 1 of this year and will have 194,612 by Jan. 1, 1944. Turkey production will increase from 3,280 to 6,022.

Gain in crop acreage is being made principally by planting idle acres, said Mr. Clement, but if the increased acreage is harvested and the increased livestock and poultry raised to market condition it will be done only by the harder labor and longer hours of the farm men and women of this county.

THE OLD JUDGE SAYS...

"You can't imagine, Judge, now much comfort Louise and I got out of reading that recent report made by the government on drinking habits in and around Army camps. If you hadn't loaned us your copy we'd still be worrying about our Jim... all because of those silly rumors goin' around."
"I'm mighty glad to hear that, John. As the report says, no Army in American history has been so orderly, so well-behaved, so well-trained. Why, even on pay-night, there's very little drinking done. I was particularly interested in that part which said the Army, with an eye to its own problem, usually prefers to have its camps in wet communities rather than dry communities because wet communities can be regulated... dry communities with their bootleggers can't. It's just more proof that prohibition does not prohibit."

My Own Column By H. D. Leggett

Charley Burdick has handed me the following little poem which he says expresses his feelings these days: My meals are meatless; my tea is sweetless; Even biscuits are wheatless, and how! My bed is sheetless; my socks almost feetless; I'm getting more eatless each hour. My car wheels are tireless; my furnace is fireless; My radio's wireless, a wreck; My evenings are lassless, cause my car is gasless; My pants almost seatless, oh heck! Now shirt-tails must be shortened two inches or more; To contemplate that leaves me cold. I've got to stop now and push my shirt-tail down, For you see my tale is told.

"We will have to lick our plates clean this year," said Irma in her column recently, but what manners.

One can always tell when company is coming because the woman of the house gets three or four of the fanciest towels out and hangs them in the bath room where they will be sure to be seen. Of course they are not supposed to be used and when the company is gone they are carefully folded up and put away.

John L. Lewis is bigger than the administration. Now he says he is going to call four hundred and fifty thousand soft coal miners out on strike unless they are granted two dollars a day more pay. And he failed to attend a meeting of the labor dispute commission when ordered to do so. I believe John L. Lewis should be handed in a way that would stop a lot of the things that slow up the war effort. A man like him in Russia or Germany would be stood up in front of a stone wall and shot.

A Burwell boy went to school the other day and when the teacher saw that he had a huge bump on his head she accused him of fighting again and to save himself from punishment he had to own up to what really happened. He said he was just puffing toilet water on his hair and the lid fell down and hit him.

My partnership garden is doing fine. A nice shower would help, though there is plenty of moisture, except right on top of the ground. The peas, onions, radishes, lettuce and some other things are up. Shirley and Kerry helped in planting onion plants and sets and they also set a long row of garlic, but they said they didn't like that. Eugene found his way down a couple of times and helped in raking away corn stalks and clods. Folks laugh when I say I planted eight pounds of peas, but with three

families looking forward to using and canning them, it should not be too many. It seems to me that this administration believes in higher wages and prices for everyone except the farmer. Fabulous wages are being paid for all kinds of government work where no chances on the part of the laborer is taken, but the farmer who has to keep valuable brood sows the year around with high priced feed and with danger of their dying, is apparently begrudged more than an average price for the pork he is able to produce. It seems to me that the farmer is the key rock in the whole war foundation, yet, apparently he is more discriminated against than anyone else.

Something Different

I feel genuinely sorry for the wives and children who try to be near their husbands who are in war camps, for surely these families have a hard row to hoe. One young woman tried 50 places for a room or apartment only to be turned away because of her children. Finally she lashed out at one landlady desperately, "What am I supposed to do with my children; drown them?"

A group of four young wives at Fort Francis Warren in Wyoming, whose husbands went to the northwest on about an hour's notice, decided they would not give up the idea of being with their husbands; they jumped in the old jalopy and succeeded in driving to the coast. They got the car sold before it fell to pieces, then found themselves 15 miles from camp and with their husbands only a few hours weekly, far from the city and with nothing to do all day long. Were they disgusted?

Some of them have better luck. When Capt. John Round went into active service, he was shipped to Salt Lake City. His wife's parents live at Oakland, Calif., so she packed everything and went on out there, hoping her husband could join her for an occasional week-end visit. But in a very few days Capt. Round was transferred to Salina, Kans., so Mrs. Round and her young children made a long hard trip back from the coast to live in Kansas. They were fortunate enough to find a nice house conveniently located and report that they enjoy army life exceedingly, as lived at Salina.

Another more than lucky couple are the Bud Andersons. Going into the navy as pharmacist's mate, Bud went to the Great Lakes training station. When his furlough time was set at several days, his wife went from Ord to visit with him in Chicago. Only to learn, a week later, that Bud was sent to Hastings, where he is on duty at the naval ordnance plant. Nice and close to home so that Bud gets to be in Ord every other week-end! Therefore he is home about as much as some traveling men.

Mrs. Ralph Maslonka traveled the long way to Mississippi to be with her husband a day or two, returning to Ord to work in a beauty shop. At last Ruth decided to give up her work, so she went south and has been near her husband for about

Five months. Now she has returned to Ord and will stay about two months.

Mrs. John Lacomu also tried several systems. She came to Ord with her baby and stayed at the Archie Bradt home. She took the baby and stayed in California a few months with her husband. She came to Ord. One time she left the baby with her mother and stayed near her officer husband several weeks on the coast.

None of them are entirely satisfactory. These young soldiers and their wives are hurrying this war as fast as they can. They are eager to be home again and toss out an anchor for good! Irma

Funeral services were held Sunday afternoon at the Methodist church for Walter (Bud) Smith who died at the Coleman home in Burwell, Friday, April 23. Rev. A. J. Soon after his birth, his parents moved to a ranch in Garfield county and when he was sixteen the family moved to Burwell. Walter spent the remainder of his life in and near Burwell. He was stricken with diabetes several years ago and since 1929 has been failing in health, spending a great deal of his time in hospitals, trying to get relief. He endured much pain and suffering. Be Sure to Get Your Fair Share

The meat rationing program was devised to see that every American gets his fair share of the meat available, and the share allotted to each is sufficient to preserve good health and vigor if it is properly used. Be certain, then, that you use your ration coupons and get your fair share of the meat.

Meat is the best all-around food you can eat. Workers need meat. And no better meat is sold than the kind we sell at our market. Prices are always fair.

Except for Sunday evenings we are open at all usual hours. We no longer open Sunday evening as we formerly did. Will you plan your meat purchasing accordingly?

THANK YOU

We want to thank you for the wonderful Easter orders you gave us. Thank you for the over 100% increase in orders given us over any past Easter. Thank you for the patience and understanding you displayed in allowing us to substitute some other plant for the usual Easter Lily.

The wholesale florists tell us that both cut flowers and plants will be less plentiful for Mother's Day and Memorial Day than for Easter. So we will appreciate it if you will send us your orders early. We assure you that we will do everything in our power to fill your order just as you want it filled.

Again we will give preference to service men's orders. At Easter time we were honored with orders from the most distant parts of our own U. S. Also from foreign countries as far away as India and Alaska. We wish these service men could have seen the faces of the recipients when we made the deliveries for them.

HEALTH HINTS for LIVESTOCK
PREPARED BY AMERICAN FOUNDATION FOR ANIMAL HEALTH

NUTRITION PROBLEM IN SWINE RAISING

Stepped-up swine production to meet wartime needs brings the very serious threat of increased trouble from nutritional diseases, according to prevailing veterinary opinion.

With protein feeds, especially animal proteins, scarce and high-priced, many herds may fail to make profitable gains or possess good resistance to disease because of a low or unbalanced protein intake.

Lack of Vitamin A in the form of green-colored hay or alfalfa meal during winter months may result in a high percentage of stillborn, weak, blind or deformed pigs. A shortage of Vitamin D during the sunless months of the year, especially when coupled with lack of calcium and phosphorus, may result in heavy losses from rickets—a condition characterized by fits, weak bones, enlarged joints and other symptoms.

Late research shows that the Vitamin B complex is essential for growing pigs and that farm rations are often deficient in supplying this group of vitamins. Pigs deprived of the B Vitamin complex are much more susceptible to bowel troubles, including enteritis. If pantothenic acid is not present in feeds, the herd may develop a peculiar gait known as "goose step pling".

Many of the diseases due to nutritional causes closely resemble herd troubles caused by viruses and germs—in fact, both nutritional and infectious diseases are often found in the same herd, and nutritional deficiencies often weaken hogs and make them more susceptible to cholera, influenza, erysipelas, and other maladies. Careful study of both symptoms and postmortem findings are usually necessary to clear up the cause or causes of such difficulties. The best thing for the farmer to do is to watch rations, and make sure that they contain the proper balance of all these essentials.

HOW MUCH IS PEACE Worth to You?

- \$75.00?
- \$375.00?
- \$750.00?
- \$1,000.00?
- \$5,000.00?

If you could set YOUR price on peace, how much would it be? Or, are you willing to leave it to Hitler and Tojo? The price will be far higher, if they set it!

Let your own conscience tell you what peace is worth to you. Then—put it into War Bonds, Now. Today. And whatever the amount—it doesn't compare with the sacrifice every American soldier is making.

What should the price be? You might as well ask—how many battles should a soldier fight? The price—your price—is the last dollar you can afford. No one else can set YOUR price on peace. Only YOU can do that.

If you and every other red-blooded American will invest in War Bonds what the coming of peace is worth to you—we'll wreck the Axis with our dol-lars! BUY MORE BONDS!

Pointwise pointers on vegetables

Camouflage vegetables in casserole dishes, in souffles, omelets, or serve them in oversize salads and as ample garnishes. Tomatoes, onions, summer type squash, peppers, turnips, cabbage leaves, and cucumbers can be stuffed with a meat, cheese, or egg mixture and prepared as the main course. These are just some of the ways you bait your family and get them to eat their share of the precious vitamins and minerals offered by vegetables.

MIXED VEGETABLE TAMALE—Combine 2 or more kinds of cooked, drained, diced vegetables in a well-greased casserole, season with salt and pepper and top with a layer of corn meal muffin batter. Bake in a hot oven (400° F.) for about 25 minutes or until done or topping is golden brown. Any combination of vegetables is delicious, but be sure to try spinach and sliced turnips, squash and tomatoes, green beans and carrots, and eggplant and celery.

CARROT STUFFED ONIONS—Fill un-cooked onion cups loosely with shredded raw carrots, season, and steam with a small amount of water in a Dutch oven or tightly covered sauce pan. Serve with the main course as a vegetable and garnish.

VEGETABLE SALADS—If the salad is generous enough in size, it may serve as both the vegetable and salad. Raw vegetables, of course, preserve all of the valuable minerals and vitamins. The flavor and texture of cooked vegetable salads are height-ened by the inclusion of at least one raw vegetable. It adds that necessary crispness. For interesting and unusual combinations try chopped cucumbers and coarsely grated carrots... shredded raw cauliflower and tomato wedges... cooked as-paragus, pickled beets and sliced radishes... cooked green beans and sliced cucumbers.

A CHANCE TO SCORE YOURSELF Use Julia Lee Wright's "Check Yourself Quiz on Vegetable Cook-ery" in this week's Family Circle to see how you score. It also gives valu-able information on getting the most from canned, frozen and fresh vegetables. The Family Circle is free at Safeway.

LETTERS FROM QUIZ READERS

Tacoma, Wash.
April 18, 1943
Dear Mr. Leggett:

Well, I've been here for some time in this army and believe it is about time for me to write you a few lines. I always enjoyed your company when working for Mr. Cahill.

Here in Washington, the weather and food is good. Although there is some food which isn't served as often as others. Food which is hard for the army to get out here is meat. Mutton is used mostly. Butter is one of the farm products which is very scarce out here. Here in the army we have it four times a week. It is served on Sundays, Tuesdays and Thursdays and Saturdays. Fish is plentiful out here.

Kittenball in this camp is played as much as poker or even more. I'm the captain of our team (which is CO. C.) and so far we've won two games and lost none. Our first game was Monday night against the school detachment. We won by the score of 6 to 5. I won the game by getting a home run in the last of the seventh, with two out. Then Thursday night we played Company "E", and in a rough, tumble game we won by the score of 14 to 6. Our next game is Thursday night against Company "D". My batting average for the first two games is .833. I've been up to bat 6 times, have gotten 5 hits and scored 5 runs. My hits have been 1 home run, 1 triple, 1 double and 2 singles.

Well, Mr. Leggett, the army treats a fellow pretty nice. All you have to do is obey orders and carry them out. The food is excellent and the training really helps. When I left home I weighed 152, now I weigh 166. As I have run out of news, I'll close. I've received the Quiz every week since I left home and really enjoy it. So until next time I remain,

A fellow reader
P. F. C. Jerry M. Fryzek.

P. S. Please write if you can spare the time and put this letter in your paper as I have several buddies who I'd like to hear from and where they are. Especially Leonard Dlugosh.
