W. A. Anderson, 91, Dies Quietly in His Own Home Monday

Beloved Ord Man, Resident 75 Years, Suffered Several Heart Attacks, Died.

Funeral services will be held at the Frazier chapel at 1:30 p. m. Friday for W. A. Anderson, beloved resident of Ord, who died quietly at his home Monday afternoon after a series of heart attacks. He had been a resident of Valley county 75 years and had lived in Ord since 1884, during which period he was one of this city's most widely known and highly respected citizens. Several years ago Mr. Anderson gave to the city the North Loup river island park which bears his name. His body will be laid to rest in the Ord cemetery beside his second wife, who passed away in 1937.

William Ashley Anderson, son of William I. and Hester Hillman Anderson was born at Bankston, Dubuque Co., Ia., on April 14, 1853, and departed this life July 3, 1944, aged 91 years, 2 months and 19 days. He was of a family of 12 children, only one of whom, Mrs. Minnie Campbell, survives him.

He attended grade school and later the Epworth Seminary at Epworth, Ia. After teaching a number of terms in his home county, he also taught near Red Oak, Ia., and later in several schools in Valley county.

On Sept. 5, 1876 he was married to Elizabeth Anne Hather, at John's Creek, Ia. To this union were born five children, the three older dying in infancy. Surviving are Mrs. Mabel Abernethy and Roy W. Anderson.

In March, 1879 he and his family moved by covered wagon from western Iowa, near Red Oak, to Valley county, where he took up a homestead and a tree claim, in the present Plain Valley community. The family endured all the hardships of the early pioneers — prairie fires drouth, grasshoppers, etc. He dug the first well on the Sand Flats, stopping when he found stratas of sand, and went to the canyons near Burwell to cut cottonwood logs, to be hauled to the mill and sawed into curbing for his well. To one of the present generation, this would seem to be an endless task. He also did freighting from Grand Island to the village of Ord. He was an ardent hunter of all wild game at this time and being a very good marksman, kept his family supplied with meat in this way.

In 1884 after "proving up" on his government land, he moved to Ord and resided in the same house until the time of his death, with the exception of a short period spent in California, where his first wife died and is buried.

On moving to Ord, Mr. Anderson had engaged in the photographic business and many of his photographs of early citizens and residences have at different times been published in the Quiz. On July 25, 1893, he was married to Sarah O. Snodgrass, of Farley, Ia., who was his faithful companion and mother to his two children until she departed this life Jan. 9, 1937.

Mr. Anderson was a writer of no mean ability, a number of his articles on pioneer life, hunting, etc., were not only published in the Quiz, but also in numerous state publications. He was a great reader and was well posted on almost any subject one might bring up, and retained his interest in politics, world news, science and inventions to the last.

He helped to organize the Unitarian church in Ord and was instrumental in establishing the first public library. A number of years ago he donated Anderson Island to the city of Ord to be used as a public park, was a member of the park board, of the Ord school board and Ord township boards for many years.

Since his second wife's death Mrs. Emma Hanson has been his housekeeper, until seven weeks ago, when she was called away by the death of a sister. For five weeks, he then boarded with Mrs. Mina Jensen next door to him. After suffering several heart attacks, he evidently felt the premonition of death and desired to be in his own old home for the event. Mrs. Clyde Kelley assisted by Mrs. Mina Jensen and his daughter, Mrs. Jason Abernethy, gave him every attention until his passing Monday morning.

He leaves to mourn his loss, one daughter, Mrs. Jason Abernethy, his son, Roy W. Anderson, having passed on in 1932. Also four granddaughters, and one grandson, ten great grandchildren and his sister, Mrs. Minnie Campbell.

Mr. Anderson had the ability to make and keep friends, and many happy hours were spent visiting with old and new friends. Of late years, he had been greatly handicapped by increasing deafness. He had the satisfaction of seeing Ord grow from a small frontier town to it's present size and to add his support to it's betterment.

Red Cross Needs Women for Sewing

Red Cross sewing rooms have been opened at the high school, and Ord women are urged to help there as much as possible, as there is a quota of 288 service kits and housewives to complete, states Mrs. Evan Hartman, head of the Valley county organization.

Several clubs have been working faithfully for the Red Cross this past few months. Among them are the H. O. A. ladies, the Everbusy club, the Royal Neighbor club.

Thursday Entre Nous members sewed; Friday afternoon the Junior Matrons met for a covered dish luncheon at the high school and sewed later in the day. Friday of this week the Jolly Juniors will be sewing at the high school.

Any women or group of women wishing to sew have only to phone Mrs Horace Travis, production chairman, or Mrs. John Haskell, sewing chairman, or see Mrs. Hartman, and the sewing rooms will be open to them.

Voluntary Sunday Closing of Beer Parlors Is Urged

Committee for the Industry and Manufacturers Ask It as 'Good Will' Measure.

Voluntary closing of all beer parlors and taverns in Nebraska as a good will" measure is being urged upon retailers by the Nebraska Committee for the Brewing Industry Foundation, the state liquor commission, manufacturers, wholesalers and distributors, the Quiz learns, and has an excellent chance of being generally observed.

Rising tide of dry sentiment whipped up by the Anti-Saloon League is the reason for the request, leaders of the brewing industry state. Petitions are now being circulated throughout the state seeking a vote on sale of beer and liquor under the initiative and referendum law at the fall election, and there seems little doubt that the question will appear on the ballot this fall.

Only 27,000 signatures are required to place it on the ballot, it is said. In Ord the petitions have been circulated by Erwin Campbell.

While denying that a majority of Nebraska voters would again vote state-wide prohibition at a time when more than 100,000 male voters are in the army and thus denied a vote on the controversial question, the beer interests who have been active in bringing about better conditions in the industry feel that Sunday closing would have a salutary effect at this time.

Two of Ord's four beer retailers were closed last Sunday, another was open only in the morning and the fourth operated all day .Those who closed did so because of a shortage of beer it is said. This is not scheduled to go into effect for a week or two. The Ciemny beer parlor at Elyria also was closed Sunday. The licensee at North Loup operated as usual. Beer is not sold at Arcadia on Sundays, under local ordinance.

Installing Front on Goodhand Building

The Charles Goodhand building, on which work has progressed intermittently for the past 2 years, is moving toward completion this week with the arrival of a shipment of brick for the front, which is now being built. War Production Board limitations on new construction have prevented Mr. Goodhand from continuing work on the building, which occupies the lots where the Capron Agency and Johnson beer parlor formerly were located. These buildings were condemned by the city and torn down. Mr. Goodhand still refuses to divulge his plans for the new building when it is completed but erection of this front will remove an eye-sore in the business district.

Huff Roofing Building.

Extensive repairs are being made on the big garage building built by D. B. Huff and now owned by Howard Huff. A new roof is being applied this week. About $1,200 is being spent by Mr. Huff in putting the building into first class shape.

Kokes Hardware Bought July 1 by Peterson, Barrett

Veteran Business Man Retires after 21 Years, Partnership Now in Charge.

This week it was announced that the L. V. Kokes hardware store has been sold, effective July 1, to a partnership consisting of B J. Peterson and his son-in-law, Ed Barrett, and that Mr. Kokes is retiring completely from business in this city. The new firm is already in charge and the store will be known as The Ord Hardware.

The new owners are no strangers in Ord, inasmuch as Mr. Peterson has since 1932 been local supervisor of maintenance for the Nebraska Continental Telephone company and has made his home here, while his son-in-law, Mr. Barrett, has been a frequent visitor to Ord. The Peterson family came here from Franklin.

Mr. Barrett, a native of Red Cloud, Nebr., has been living at Grand Island where he was a foreman in construction work. He and Mrs. Barrett, the former Miss Frances Peterson, will occupy an apartment at the Lewis residence. They have no children.

Falling health was the principal reason for Mr. Kokes' decision to dispose of his business but he expects to continue making his home here and will devote a portion of his time to looking after his farms and other business interests.

The Kokes store has long been one of the finest in central Nebraska, with a very large stock of merchandise, and the new owners expect to operate along the same lines as did Mr. Kokes. They will develop a few new departments as conditions permit, Mr. Barrett says.

New maintenance man for Nebraska Continental Telephone company is Leo Peterson, who will move his family here from Palmer as soon as he can secure a residence.

Three children were born to them, Mrs. Carl Young, of Greeley, Colo., Alfred, who has always remained at home, and Edward, who farms within a few miles of the home place. Mrs. Shoemaker had not heard from one of her surviving brothers and one sister since the war began, at which time they were living in Innsbruck, Germany. C. O. Turner, 69, Passes July 1st

Funeral services were held at the Pearson chapel, Rev. Harold Milliken officiating, for Chas. O. Turner on Monday afternoon, with interment in the Ord cemetery following. Mr. Turner died July 1 at the home of a daughter, Mrs. Alex Brown, near North Loup.

He was born Dec. 5, 1874, at Fairfax, Mo., and spent the early part of his life there, coming to Valley county 39 years ago to engage in farming. He was united in marriage to Laura Addie Stacy in 1899 at Rockport, Mo., and she preceded him in death in 1918.

Left to mourn are three daughters, Mrs. Alex Brown, Mrs. Lloyd Zeleski, Grand Island and Mrs. Wm. Helleberg, Aurora. There are 11 grandchildren, one sister, Mrs. Mirah Combs, Pawnee City, and four brothers, Lon, of Wymore; Josh, of Shawnee, Okla.; Joe, of Gashlan, Mo., and George, of Kansas City.

Pallbearers were Archie Geweke, Theron Beehrle, Richard Dowhower, Joe Wegrzyn, Harl Eyerly and Wilson Bell.

Mrs. G. L. Mills, 69, Passes at Burwell

Lelia Irene, daughter of Melville Beverly Goodenow and Emily Minette Coffin Goodenow was born March 2, 1875, on the Goodenow homestead in the log cabin in territory organized as Valley county, Nebraska; died at her home in Burwell, Nebraska, June 30, 1944, at the age of 69 years, 3 months and 28 days.

The year 1875, and five years previous and as many following were collectively and individually history making in Nebraska and the Dakotas. The covered wagon trek was as endless as it was colorful; the cowboy and ranch regime was in full power; the Indians of the great plains states powerful and vindictive, together with their buffalo and elk were all but exterminated. The homesteader, the settler seeking free land, held the center of the stage of action and it was truly a great adventure to be born and live during the decade of the Seventies. Irene's parents were experienced pioneers having homesteaded on the outpost of settlement in 1872. They had been a part in the organization and action that had brought Military protection to central Nebraska from the Indian and border outlaw. During 1874 Fort Hartsuff, just across the North Loup river from the Goodenow log cabin had been constructed and occupied by United States troops, and Old Glory gleaming against the background of bunchgrass covered bluffs presaged security. The nearest neighbors to the Goodenow cabin were "Happy Jack" Swearenger and "Little Buckshot" (Conrad Wentworth) both scouts attached officially to Fort Hartsuff. A trading post named Calamus located just east of the Fort was a Thriving Village, and the Ord Townsite company had been organized the same year Irene was born. The year following, 1876, the Custer massacre on the Little Big Horn had spread gloom and terror lest the blood-thirsty and determined redmen continue to resist the rather inadequate border protection sponsored by the Government. Truly the year 1875 was a thrilling, even a fitting time for the daughter of a Civil War veteran and a brave pioneer wife to be born.

Irene's first days in school were spent in a tarpaper cubicle erected temporarily but standing for several years on the site now occupied by the present Goodenow school. Her first teacher was Miss Ella Davenport. The Ida Postoffice was on the J. W. Shepard homestead near the Goodenow holdings, and the postmaster was Jonas W. Shepard. With such a birthright and environment Irene developed into strong, self-reliant womanhood.

Mrs. Lon J. Firkins Dies at Nampa, Ida. Funeral Rites Here

Wife of Former Ord Mayor is Interred Near Husband; Was 76 Years Old.

At the Pearson chapel Wednesday afternoon funeral services were held for Mrs. Alonzo J. Firkins, 76, who died July 1 at her home in Nampa, Ida. Rev. M. M. Long officiated and burial was made in Ord cemetery beside the body of her husband, a former business man, farmer and banker of this community. At one time he served as mayor of the city.

The Firkins family moved to Nampa from Ord 27 years ago.

Mrs. Firkins was born March 24, 1868 at Richmond, Wis., and came to Valley county with her parents at the age of 3, growing to womanhood here. Her marriage to Mr. Firkins took place at Ord Nov. 9, 1884.

During their residence here the family were prominent in Methodist church work.

She is survived by one son, W. Bedford Firkins, Glendale, Calif., and by six daughters, Mrs. Muriel Harris, Mrs. Etha Timm, Mrs. Leta Johnson and Mrs. Alma Walker, all of Nampa, Ida., Mrs. Alsa Batie, Boise, Ida., and Mrs. Doris Morrell, Phoenix, Ariz. There are two brothers, Rufus J. Clark, Ord, and Jerry Clark, Gig Harbor, Wash., and one sister, Mrs. Meta Hendricksen, Gig Harbor, Wash.

Pallbearers here yesterday were C. J. Mortensen, Leo Long, James B. Ollis, Evet Smith, Cash Rathbun and M. B. Cummins.

News of "The Roost."

At the recreation center sponsors lately included Mr. and Mrs. Leo Long on Saturday evening; Mrs. J. W. Severns Sunday afternoon.

Luetta Kuehl, who is in charge of securing sponsors for the month of July, asked her parents, Mr. and Mrs. Fred Kuehl, jr., to act. The Roost was closed all day July Fourth. On Wednesday evening Mr. and Mrs. John Koll were sponsors; on Thursday the Roost is always closed all day; Friday evening Mrs. Olof Olsson will be in charge.

Wednesday evening the executive council met from 7:30 to 8:30 at the office of Clara McClatchey, general chairman. Roy Randolph was present for the first time, as a representative of the Rotary club. After considerable discussion it was voted that membership fees for The Roost remain at the 25c per month figure during July and August, but change on September first to $1 per quarter. The increase is necessary in order to have money for winter coal bills and other expenses.

The new pool tables are even more popular than the ping pong tables, and are kept in constant use, mostly by the older boys. This helps the ping pong situation, which was difficult because the balls are nearly impossible to find on the market. Most ping pong balls are sold on priority these days, and go to recreational centers for service men, creating a shortage elsewhere.

Big Crowd Enjoys Kearney Air Base Program Friday

Soldier Band Pleases All as War Bond Rally Held; Lt. Edwards' Speech Fine.

Parking space was at a premium in the Ord business district Friday evening when a big crowd gathered to attend the program and war bond rally given with the Kearney Air Base band as feature attraction.

About fifty soldiers from the base came in trucks, jeeps and command cars, bringing with them a display of military equipment which was shown in the court house square. A demonstration of chemical warfare was given when four smoke bombs blanketed the business district.

A concert by the Air Base band was much enjoyed and then Clark Weckbach, war bond chairman, introduced Lt. Edwards, public relations officer at the Base, who gave an inspiring address. Banks were open for the sale of bonds and many were sold during and after the program.

Warns Men to Stick at Their Present Jobs

"We want men, aged 29 thru 37, who hold occupational deferments in essential industry to stick to their present jobs, and we intend that local boards shall reclassify to 1-A those who don't stick," warned Brig. Gen. Guy N. Henninger, state selective service director this week.

He explained that since occupational deferment requirements for men over 29 years of age were relaxed two months ago, some registrants of the older age group have made plans to leave their present essential jobs for other work, apparently in the mistaken belief that they are immune from induction.

"One of the principal reasons selective service revised its regulations to make occupational deferment easier for men over 29 was to relieve labor shortages in essential work," he said.

Our Fighting Men

Orville F. Stoddard, son of Mr. and Mrs. F. L. Stoddard of Ord, received his commission as an ensign in the U. S. naval reserve June 29, having completed 15 weeks of officer training at the New York N. R. midshipmen's school at Columbia University. This was the 18th class to be graduated in four years where some 15,000 reservists have been trained for combat duty afloat. The imposing ceremonies were held at the Cathedral of St. John the Divine. Ensign Stoddard arrived Saturday to visit his people and will return to his duties Thursday of this week. His father, F. L. Stoddard, came Saturday from Fremont to enjoy the holiday with his family. Mr. Stoddard is timekeeper for the Burlington there this summer.

A-C of the USNR Milo Bresley has returned to Macon, Ga., after a 21-day furlough at home. Lloyd Bresley, youngest son of Mr. and Mrs. Harry Bresley, is now located at Farragut, Ida., having also joined the navy.

Rev. and Mrs. Cordry had a letter from their son David written in a slit trench somewhere in the Normandy action, where he is with the fighting Second Division.

Pvt. Bob Schmid came Friday on a 15-day delayed pass, and is enjoying a reunion with his family. Mrs. Schmid and two small children are making their home with her parents, Mr. and Mrs. Guy Burrows. Pvt. Schmid came from Amarillo, Tex., and will report back to Camp Knobnoster, Mo., to continue work with the troop carrying command.

Mr. and Mrs. Glenn Johnson had a letter this week from the Red Cross, stating their son Donald had arrived at Fitzsimmons General Hospital at Denver, and was a patient there following a nervous breakdown. The young man enlisted three years ago and has been overseas for two years, doing clerical work in a particularly well bombed part of Italy. He was sent back to the States about a month ago. Mr. and Mrs. Johnson are well represented in the services, with Wayne an air cadet at Kingman, Ariz, and Billy in the marines a year in May. They know Billy was headed for the Marianas and are wondering if he is not in the Saipan action.

Capt. Raymond Abernethy, who for two years has been stationed at the Blue Bonnet ordnance plant at McGregor, Tex., has been transferred to the Mead, Nebr. plant. Capt. Abernethy has a home in Lincoln and his family will live there and he will commute back and forth. He is expected to be in Ord Friday for the funeral of his grandfather, W. A. Anderson.

Pfc. and Mrs. Warren C. Walshleger are the parents of a seven pound baby born June 30 at St. Joseph Hospital in Omaha. The newcomer has been named Mark Warren, and his mother is the former Lillian Novotny.

County Tops Quota but Ranks Third in Group 1 Bond Race

Rural Townships Dark Spot in Bond Picture, Geranium Buys only 14 Per Cent.

War bond sales in Valley county totalled $365,731 in the 5th War Bond drive, up to and including July 1, which puts the county almost ten thousand dollars over its $355,800 quota, said C. J. Mortensen, war finance chairman, in releasing the latest tabulation of bond sales Wednesday. The county's individual quota of $296,000 also has been over-subscribed with sales of $306,966, he said.

But this county is still in third place in the Group 1 state race sponsored by the World-Herald and unless many more bonds are sold by midnight Saturday when the contest closes the $250.00 prize is lost. Loup and Deuel counties lead Valley in the state Group 1 contest.

Rural townships of Valley county continue to be the "dark spot" in the bond picture, the latest tabulation shows. Darkest spot of all is Geranium township where people have bought only $2,557 worth of bonds in the five weeks of the bond drive, compared with a quota of $18,000 for a percentage of only 14 per cent. Liberty, with only 24 per cent of quota, Michigan and Noble, with only 25 per cent, and Springdale and Eureka with 30 and 31 per cent respectively, are little better off. In fact only one rural township, Enterprise, has surpassed its quota and none are within striking distance. Only two days remain for farmer-buyers to get in the race and bring their townships up to the quotas assigned them.

Greatest improvement of the week was made by Arcadia township, which now has 75 per cent of quota made and hopes to go "over the top" by Saturday. Ord township increased its lead and has now bought more than $200,000 worth of bonds or more than half of the bonds bought by the entire county. Ord township's percentage is now 250 per cent of quota. North Loup township, with 142 per cent of quota bought, is another bright spot on the bond map.

While they are more than pleased at the result of the drive in the county generally, bond officials express regret at the showing made in most townships. If every township would meets its quota or surpass it as Ord, North Loup and Enterprise have done the name of Valley would lead the entire state.

As it is, Sales Chairman Clark Weckbach is hopeful that the county quota will be oversubscribed by at least 25 per cent when all returns are in. With 103 per cent of quota subscribed up to and including July 1 and sales of at least $15,000 since, they point out that the county is certain to rank high in the final standings. Nor does the tabulation include sales made direct outside of Valley county, reported by the Federal Reserve Bank as amounting to $13,100. Before Saturday the state of Nebraska bond purchase will be made and a proportionate share allocated to this county, which will help to improve the general standing though it will not count in the individual quota.

Holiday 'Mixed Blessing.'

While they enjoyed a 3-day July 4th holiday taken this week, Ord stores are disposed to regard it as rather a "mixed blessing." Out-of-town bread trucks did not deliver Monday or Tuesday and though the local bakery baked all it could the town was entirely out of bread by noon Tuesday. Other supplies were very short also and some merchants said they did "3 days' work in 1 day" Wednesday.

NEBRASKA'S "NO SALE TO MINORS" LAW REALLY WORKS!

Director of the Brewing Industry's self regulation program in Nebraska; prominent member of state bar; former county attorney, state senator; U. S. District Attorney during prohibition era.

Nebraska laws see to it that there shall be no sale of alcoholic beverages to minors. Violation of this law subjects the tavern keeper to revocation or suspension of his license . . . up to $50 fine for the minor.

This is a good law and this Committee gives it full support. Going still farther, to discourage minors from attempting misrepresentation of age, we provide retailers with "Sworn Statements" which doubtful cases must sign before making a purchase. Signers swear they are 21 years of age or over. The $50 fine for misstatement is emphasized.

This is just one of many services to the public by the brewing industry of Nebraska in the interest of law enforcement. It typifies our desire to keep the retailing of beer on the same high plane as the retailing of any food product.

While Mrs. Sam Marks and Bobbie were on their vacation last week Sam "batched." One day he came down to the city hall late and told Chet Austin that he wanted boiled eggs for breakfast but that after boiling them an hour they were just as hard as ever so he had to throw them out. Clara says that what Sam don't know about cooking would fill a big book.

I always noticed that the women "swept up" the kitchen after doing their work and desiring to be a first class housekeeper, I did the same. But they kept the broom on a hook in the back closet and it was quite a jaunt to get it so I took the hook for it and the nail for the dustpan down and put them in the kitchen beside the sink where they would be handy. Now I guess I will either have to move them or find some way to put them behind the kitchen cabinet, for Oscar says they 'Lack a hellofalot of being an ornament."

I feel like finding fault and not having a better subject, why not the now-a-days milk bottle caps. They used to make milk bottle caps with a little flap on that you could pry up with a thumb nail and thus lift the cap. But not so now. The flap is there but it is glued down tight and in trying to get it up I often push the cap in and get deluged with milk. This much to Oscar's delight.

We must not forget that more than a hundred thousand young men of Nebraska are in the service of their country and that some time ago more than seven hundred had been killed.

It is agreed that the C. I. O. alone is raising a campaign fund of three million dollars for Roosevelt and that many other large organizations are out to re-elect him for a 4th term, thus insuring him a much greater campaign fund than the republicans will be able to raise.

There are two schools of thought, one believing that we will have inflation and the other that we will have deflation after the war. Nobody knows at this time what it will be but I suspect that it will be deflation and a bad depression within a few years.

—O—

There is no doubt in my mind that we will see a great loosening up in regulatory rules in the weeks to come, for in that way the democrats will hope to gain many votes, and they are going to need them. Tubes have been put on the free list, tires will follow, gas will be easier to get, honestly, and many other regulations will be modified, but if the democrats win, God help us all for we will no doubt be unable to help ourselves.

One of the best stands of oats that we have seen this summer is a field of Brunker on Alfred Aagaard's farm, about fourteen miles north of Ord.

The seed for this patch was purchased of Bill Schudel at North Loup. We were told that Brunker oats yielded sixty and in some spots, up to ninety bushels per acre in the North Loup area last year.

Brunker is an early selection of Burt oats from Colorado. It outyielded Kherson oats by 22 per cent at Lincon, 12 per cent at North Platte and 7 per cent at Alliance. Brunker oats is also resistant to smut, and has a nice plump kernel.

It is said that Brunker has weak straw and will lodge when growth is rank. For these reasons, it is recommended for upland areas in the western two-thirds of the state. But we have not heard about any lodging or going down in this locality.

The planting rate on Aagaards farm exceeded one and one-half bushels per acre, as Alfred does not believe in being stingy with seed. Heavy sowing was beneficial this year, as much grain seed has been unable to push through the hard ground.

How I hope the beauty-parlor look goes out of style soon!

It's fine to get your dirty hair scrubbed clean and sweet by an expert.

But show me what's handsome about a hair-do where every hair seems to have been pulled to position by tweezers and cranked tight by a pulley. Or the lady looks as if she'd fallen into a sausage patch—emerging with sausages made of curly hair, stuck tight all over her noodle.

Or waves so high and seasickening as to dizzy the beholder.

oOo

How much prettier that hair looks after a firm brushing takes away that hard, artificial look.

Fishing has taken its customary spring grip on a large number of Ordites, big and little.

In addition to the old guard, represented by Fishermen Joe Beran, Theron Beehrle and others who can be relied on to bring in the fish, we have younger devotees.

Harry Wolfe fishes often and "result-fully." Emil Fafejita frequently drives to Ericson to spend a quiet day catching fish and having fun.

"Hash" McGrew has developed into a fisherman. He fishes often and makes good catches since he found the lure of this sport.

But all of the local fishermen have to keep an eye on young Jimmy Keller, age 12. Jimmy knows where the fish are and how to catch them, and the older fellows often ask him about fishing. And when they ask to see his fish, he always has a string to show. Jimmy is an excellent fisherman, say his elders.

oOo

A wonderful lot of fun is the big swing at the park fixed up by some older boys. A heavy rope tied to a hefty bough has a sack seat at the end of it. And when an ambitious boy or girl takes a run and a jump on to this sack seat, he or she finds himself or herself swinging out over Dane creek, six feet or more from the water. Both banks of the creek are steep, slippery and muddy right there, so getting off the swing must be done with as much verve as getting on.

Could be a good many mothers have had extra clothes to wash because of this swing, though, because quite a few young swingers have fallen in the creek or even had to dismount that way.

But what's the difference when the ride's so thrilling. As much fun as any carnival ride.

oOo

"Hugo's are here, that's right!' exclaimed everyone Monday morning when the weatherman stirred and poured a June shower.

oOo

The eastern Nebraska floods changed the plans for several travelers from Ord.

Florence Anderson was held up about three days, going east on special government assignment.

Mamie Smith, vacation-bound to Minnesota, after a day of delay in Grand Island went to Columbus and then to Sioux City on her way, missing Omaha entirely.

Mrs. C. J. Mortensen, enroute home from Omaha, had to drive around via Plattsmouth, because of the condition of the west approach to the bridge on No. 30.

Mrs. Leslie Nash, after being held in Omaha a goodly time, finally got on a train out toward the west and Ord, when the railroad was finally opened, after floods had undermined a quantity of track. But her heart did a real flip-flop when she learned the track was in really risky shape, and that the railroad closed it to travel as soon as her train passed over safely.

—Wilma Cochrane left on Thursday to spend three weeks in Los Angeles. She is a clerk in the office of Ign. Klima.

LETTERS FROM OUIZ READERS

To the Editor of the Quiz:

Tips to the voters. In the issue of the last weeks Ord Quiz any body that reads this paper saw where Ira E. Myers had violated this so called brand law and of course it is natural that a fellow wants to find out all the ands and ifs. So a week ago Monday while in Omaha I talked with Mr. Calloway of the Omaha Exchange. After finishing my conversation he said, I wish you would talk with Mr. Frank Marsh, Sec. of State, Lincoln, Nebr., and I said if Mr. Marsh has anything to do with this brand law I would like to talk to him so to Lincoln I went, arrived a few minutes before Mr. Marsh had returned from his noonday lunch. I stepped into his office and a girl stepped up and said, "I suppose you are loking for a registered brand as so many others are." She went on telling me there had been so many hundrd new brands issued. She then asked me what I wanted to know and I said, "Lady, what I would like to know would fill a history book as full as Roosevelt would like to have one", and she said, "I can't answer that". I waited a few minutes and finally Mr. Marsh arrived at his office. I stepped up, introduced myself and told him who I was and what I had done and he said "I don't blame you." He went on to tell me what a good thing this brand law was and I said, "Mr. Marsh, if this brand law is such a good thing why did they include unbranded cattle, charge the man 10c a head when he is willing to carry his own protection by not branding." He said "That is just the thing we were fighting against', of course I knew the answer to that it was to force a man to buy a registered brand and brand his cattle. He went on telling me about the cattle thefts that had been going on through this black market. He reached upon the shelf and pulled down a book and read twenty some odd cases where the rustlers had been caught. When he finished reading I said, "Mr. Marsh do you read any comic strips. Have you noticed that Red Ryder comic where Fancy Pants was stealing Red Ryder's cattle to get him to buy cattle-theft insurance." I said "What you have read puts me in mind of that and we talked about brand men and he asked me if I knew of anyone out here that would make a good brand man or if I knew anything about brands or if I would take the job. There is where I could not answer. After I had proved that I was a dam crook and a law violater he wanted to give me a job. There is an example of a few of the men that we voters send to the White House and the Capitol Building for law makers. I am not critizing other voters any more than I am myself. I voted for Bob Hall for sheriff. He could not be satisfied with the job the voters had elected him for, he had to take a brand inspection job that he didn't know anything about, and proved it when I asked him to inspect my cattle which I shipped out of Ord. I looked for him a half day and when I found him I took him down and showed him my cattle and he asked me how many head I had and what my brands were. I told him that these were all Colorado cattle and where they had come from and he said 'I don't know a thing about them", and copied down what I told him. I gave him $4.80 and he said, 'Now you can go ahead and bill them out". That kind of inspection was a lot of good, wasn't it? So the next cattle I shipped I didn't ask for that kind of inspection. I wonder if Mr. Hall has ever listened to any of President Roosevelt's speeches where he talks about freedom, peace on earth, good will toward men, but still he will run around to your neighbors and try to poison them against you, asking them to try and find out who helped me truck my cattle and told them in a sneaking way how they could go a round about way to find out. Now if Mr. Hall had been a man and come to me I would have told him and saved him a lot of rubber and gas. If a feeder is going to equip his feed lot to operate under these government restrictions, he would have to have a good set of scales and a brand chute and pens with an air cushioned seat on them so a brand man could sit down on it while you told him how many head of cattle you had and what your brands were. I don't blame any voter for voting for a candidate for the first time but if he doesn't practice what he preaches then change. Mr. Marsh told me that Valley county wanted in this brand area. If this is true they surely didn't investigate what they are getting into. A county that feeds as many cattle as Valley county does has no business with that kind of a law. But if Valley county wanted that kind of a law I should worry as I have raised about all the hogs I care to give to the packers on account of the government passing some fool law to give the packers a chance to steal $2.45 a hundred just because they were a few pounds too heavy.

If Mr. Willkie had of called his book Some World instead of One World, it would have been a better title.

A year or so ago when I was coming from California there was a girl on the train that said she had been out to see her husband before he was sent across. This girl cried all the way from Los Angeles to Denver. There were a lot of women that tried to cheer her up but didn't have much luck. I talked to her a little myself and she said we were promised that the boys would not be sent across. I said "Yes, that was before election." I tell you it is pitiful to go to these harbors and watch the wives, mothers and sweethearts wave their last goodbye. If President Roosevelt would have told the wives, mothers and sweethearts that he would not send their husbands and boys across unless he was forced to, would have been nearer my way of campaigning for re-election. I am just about ready to quit what we used to call the good old U. S. A.

Dear Editor:

I do not wish to bore you to death, and I know that Pat (alias Merritt H.) is just as unpleasant a subject as boils, income tax, or Republicans. But I feel that your readers are entitled to an explanation before they draw their conclusions after reading the article in your paper concerning me.

Mr. Editor, I firmly believe Pat is losing his mind or has lost it. This is no falling out of a high chair deal either, nor is it a case of lightning shock like I once heard of where the lightning struck a tree where a man was sitting, and it affected his mind, but some of the rest of us know that the tree that was hit was the family tree. Most of Pat's family rate fair to good on I. Q. with the exception of some in-laws and they don't count.

You remember Pat dove off the C. B. & Q. bridge and hit a piling and knocked himself out, and I doubt if he ever came to. He also had the misfortune to overtake Carl Sorenson on the road home from school and Carl bumped his head up and down a few times on the rail road track. John Haskell told me the other day that those dents are still in the rail. All this, along with the mental anguish he went through the time Doc Auble hypnotized him has prayed on his mind.

Then there is another factor that enters in. Pat is just a little windy. He used to blow to us boys about one of his ancestors traveling with Barnum & Baileys Circus, but Art Mensing investigated this and found out that the only job this guy had was scratching fleas and riding in a cage.

As proof of the above statements I wish to call your attention to the matter of dates. He spoke of Old Doc McGrew. Everyone knows that the spring Pat was 15 and they house broke, weaned and moved him to town, Young McGrew was a pin up kid creeping around the house and didn't know a blood transfusion from an enema, or a stork from a barnyard goose. And everybody knows that Pat was never allowed to move back into a community where once they had gotten rid of him, and this event would have had to have happened before they moved Pat to Ord.

I don't believe Jason ever said what he is accused of but if he did I don't see why he has it in for the Democrats. Everyone knows if it hadn't been for a few two legged Democrats in '32 Art Mensing would not have had a barn to keep his blue-nosed mule in. And if it hadn't been for his soil check Jason couldn't have made a contribution to the Republican campaign fund. Jason voted for Willkie in '40 and all Democrats knew that he was just a reconditioned Democrat.

Yes sir, I think Pat is both windy and crazy.

Well, I hope you are the same.

How to torture your neighbors

ONE OF THE liveliest forms of torturing your neighbors is to barbecue some meat out in the backyard (of course, if you're in a good barbecuing mood, you'll invite them over!). Here are a few suggestions which experienced barbecuers have found useful (remember that it's just about the same as indoor broiling, except that the heat comes from underneath):

Give barbecue flavor to meats by marinating them for several hours before cooking, in French dressing or a spicy barbecue sauce; or swab them with either while grilling the meat.

Breast of lamb is deliciously different, when barbecued (allow ½-lb. per person); season, and grill for about an hour or until done, turning often.

Barbecue ears of corn simply by removing silk and husks, and grilling for about 10 minutes, turning and brushing frequently with melted butter or margarine.

The War Bond rally sponsored and staged by the Arcadia Community club Saturday night can rightfully be termed a success. The attack was led by Chairman H. D. Weddel and a committee appointed by the club chairman. They pulled a surprise move and as a result the stores closed from 10:00 p. m. until 11:00 p. m. so that all might participate in the Auction. The fire siren sounded at 9:50 and by 10 all lights were out in the business houses and the crowd gathered in front of the Baird filling station where H. D. THE OLD JUDGE SAYS...

"The men overseas don't mince any words about the way they want to find this country when they come marching home... do they, Judge?"

"They certainly don't, Herb...and they shouldn't. They're doing a masterful job fighting over there to protect our rights and they have good license to expect us to protect theirs back here at home. One thing they're mighty clear on is their stand on prohibition."

"Their position on that subject was stated very emphatically in a poll taken recently among American service men in England by the British Institute of Public Opinion. When hundreds of men were asked point blank how they would vote on prohibition, *85% of them* stated, in unmistakable terms, that they would vote *against* it. There's no doubt about it, Herb...the men overseas don't want any action taken on that subject while they're away."

"And they're 100% right, Judge, because I know how I felt when I came home after the last war—only to learn that we had been over there fighting for so impractical a thing as Prohibition."

County Clerk Klima's Letter to Son Bob

Widely Reprinted in Army Publications

Ign. Klima, jr., Valley county clerk, wrote a letter to his son Bob which is traveling all over the world. Bob, who is a private first class in the army air forces, has been stationed in Africa and is now in Italy. A year or two ago he was the life of the Ord high school, a jolly, mischievous student and typical American boy. Overnight he has had to transform himself into a serious fighting man, fighting the world's most important battles.

When Bob received the following letter from his father, he showed it to his commanding officer, who asked his permission to have it reprinted and sent to many other army posts, so impressed was he by Mr. Klima's fatherly remarks.

"Dear Bob: Well, your number came up to go overseas and you got there safely, for which your mother and I are most thankful. The job ahead of you is a nasty one, but your assignment in it is responsible and different from anything you had ever done or even planned. It is, however, a privilege as well for only Americans—the pick of the nation's manhood—are eligible to march with Uncle Sam's armed citizens and participate in this grim game of war against the forces which would destroy civilization, Christianity and freedom. The forces that would destroy the American way of life that you and I have been used to, the envy of the rest of the world.

"You volunteered your services. The uniform which you now wear stands for democracy and for the principles which have made our American way of life possible. That uniform has never gone to war except in defense of these principles. Wear it with pride.

"Now as you go with millions of other sons from other American homes, I hope you will put your very best into your assignments in this war. It matters not whether you ever wear stripes, bars or even stars, if you are man enough to be a good soldier. Being a good soldier means more than just drilling, and fighting, or even dying. It means living as a man should live.

"Too many of our men when once they are in the army and away from their own family, their home and local reputation are inclined to cut loose, lower their standards of morals and go the limits. You are now on your own and the choice is yours. Don't do it, Bob.

"The boys who have difficulty in the army, as I remember it, are those who refuse to adjust themselves to army discipline, which is as necessary as guns and munitions. They try to buck the army, which is bigger than any man in it. In organized warfare, as in organized society, it is necessary that some rule and govern while others submit and consent to be ruled and governed. Ordinarily I would not want you to be a "yes, sir" man in civilian life, but in the army it is different. Be a part of it even if the going is tough and accept it with an attitude that you are no better than your buddies.

"I well remember the days when I too wore the uniform of an American soldier. Little did I then think or realize that you, my son, would be wearing the same kind of uniform for the same cause. When you have a son of your own, some day, as I hope you will, you will know just what I mean. I hope your service in the army will prove to be more successful in freeing your son from the scourge of war than was mine for you.

"You have gone with other father's sons to serve as guardians of American freedom. May the good Lord watch over you and keep you and those serving with you until the day of peace and a safe homecoming.

"Good luck, Bob, and write often.

"With love,
"Your Dad."

during this vital time," Mortensen and Weckbach said yesterday.

Although the World-Herald's contest ends at midnight Saturday and only sales made up to then will count, individual purchases of "E" and "G" bonds during the rest of July will count on the final total of the drive, they said. Market bonds must be bought before Saturday night to count.

This is your last chance to show your patriotism by buying bonds. Buy them before Saturday and be sure to give the sales agency your township of residence, so your purchase may be properly credited. The final township tabulation will be printed in the Quiz next week and it hoped that every township may be in the 100 percent class.

—At the Forrest Johnson home holiday guests were Mr and Mrs. V. A. Peterson of Fremont, who brought their two small sons and stopped at Grand Island for Norene Hardenbrook. They stayed from Sunday till Tuesday evening, leaving Robert, 11, for a longer visit in Ord.

Mrs. G. L. Mills, 69, Passes at Burwell

Lelia Irene Goodenow and Lewis N. Kennedy were united in marriage September 8, 1897, the wedding was celebrated and solemnized in the home of the bride's parents in the presence of the family and many invited friends. To this union six children were born and made glad the home. There were Claude, Clair, Florence, Keo, George and Frank, two daughters and four sons.

The Kennedy family resided and were in business in Burwell and later at Sargent until 1912, when they moved to Witten, S. D., where they again engaged in business. Stark tragedy came into the home when the father died from exhaustion while fighting a destructive prairie fire in the fall of 1922, death relieving his suffering September 4th. Irene, like the courageous Nebraska daughter she was, carried on successfully until her family were grown, returning to the state of her birth and young womanhood in 1929, making her home in Burwell most of the time.

Lelia Irene Goodenow Kennedy was united in marriage on Sept. 21, 1937, with Dr. George L. Mills of Hot Springs, N. M., and following this marriage spent several intervals in the state where Dr. Mills conducted a sanitarium. Mrs. Mills being a practical nurse entered into the professional life of her husband, giving freely of her strength and skill in the alleviation of sickness and suffering of her fellowmen.

For many years Irene has been an active member of the Burwell Congregational church, its Sunday school and auxiliary organizations. She entered wholeheartedly into the church's spiritual and social activities and found great comfort during her last illness in her faith and the ministrations of the church membership. She was also a long time member of the Burwell Lodge Eastern Star.

Several weeks since Irene acknowledged reluctantly that her health was not up to par, and soon she was so ill that relief was sought at Grand Island St. Francis hospital and later at Mayo's Clinic at Rochester, Minnesota, all to no avail. Though cheerful and hopeful she failed daily in strength and soon it was evident to all that her days were numbered. The husband, all her children except one, and her sister Maude were with her during the last days and hours that she spent in her Burwell home. Here she met the grim reaper, even as bravely as she had lived an eventful life of almost three score and ten years.

Those preceding Mrs. Mills to that "Beautiful Isle of Somewhere" are her father and mother, Mr. and Mrs. Melville B. Goodenow; a sister Marilla; a brother Claude; the father of her children, Lewis N. Kennedy; two sons, Claude and Clair, and two grandchildren. She leaves behind, sad and desolate today her sister Maude L. Goodenow, the only remaining member of her immediate family; her husband Dr. George L. Mills; two sons, George Kennedy of Council Bluffs, Ia., and Frank Kennedy of Belleville, Kas.; two daughters, Mrs. Florence Abbey of Tinton, S. D., and Mrs. Keo Kern, of Witten, S. D., ten grand

It is not given many women to live in one state and see it develop from a land of Indians and buffalo, cowboys and cattle, vast prairies of virgin soil and drifting sandhills, into a land of fertile farms, rich ranch holdings and flourishing cities; see the winding rutted trails crossing to California, Utah and Oregon changed into paved highways and shining steel tracks; see the ox-drawn covered wagon, the lumbering stage-coach and the pony express replaced by the telegraph, telephone, radio, swift trains, transcontinental bus lines, automobiles; see the flight of air ships joining not only the east and west, north and south of our America, but every country and city of the known world into a vast community, instead of unknown far-away lands and peoples.

Rev. Nyrup, pastor of the First Congregational church, delivered a very touching sermon to a large crowd. The pallbearers were Harry Shinn, Art Butts, Frank Johnson, Charley Meyer, Leo Nelson and Bill McMullen. "Jesus Savior, Pilot Me," "Beautiful Isle of Somewhere" and "Nearer My God to Thee," were the songs very ably rendered by Ed Cram, L. J. Garrison, Mrs. A. I. Cram and Mrs. Nyrup.

Service Letters

Donald Guggenmos, GM 2-c overseas one year, writes his father, Walter Guggenmos, describing some of the action before Cherbourg was captured, as a beachhead was being established. "Three hours before H-hour the enemy started dropping bright flares, we all held our breath. We could see great flashes from the coast, and knew our naval batteries were engaging the shore installations. We were deploying until time for beaching, and everyone was tense. There was a bit of confusion and we could not obtain permission to go in.

"We had a colonel aboard and he was hopping mad, and his men were too. 'They didn't want to stay on this ship! They wanted to get on dry land where they could fight back and dig. . . dig. DIG . . when the shells came over, not sit here like a duck on a pond." The area was plenty hot, and on the beach we saw plenty of taxpayer's dough going up in smoke. We were told our beach was the toughest one and that was self-evident, far worse than Tarawa."

'About three hours later we got word to beach, and our wave started in, but there weren't enough holes in the obstacles for all of us, so our group commander, aboard, gave orders to the various ships to beach. We spotted a hole for us, when two 88 shells split the water! No use foolin' around there! We spotted another hole but another ship beat us to it; she hit three mines and is still on the beach.

"We finally unloaded and left the action area for the transport area to pick up another load of troops. This time we held tight and slid in to the beach to deliver our load like a good LC1 should. That night we anchored but were kept up most of the night by an air raid and the rough water of the Channel. The air raid was beautiful and we saw a Jerry come flaming down about a quarter mile off our port beam. The barrage was terrific and the following morning there were pieces of shrapnel on the deck. That was the first of many air raids, every night but two for 13 days we've had General quarters because of enemy planes overhead. One night we had six G. Q's.

"The following day we took more troops in and were on the go until far into the night. About the time we had visions of dropping the hook and hitting the sack, word came to find a certain ammunition barge and haul it to the beach. With another LC1 we took the precious package between us and were about to start for the beach five miles away when we got an order the beach was too hot. But 15 minutes later we were told to go in anyway as the ammunition was badly needed.

"All went very well until we got an air raid, about two miles out, the barrage so bright we could see the tense look on the faces of the officers on the other ship 60 feet away. A stick of bombs went off on the beach a little east of where we were to beach our burden. Did we gulp? Were we scared? You're damn right. Trying to make ourselves small and going maddeningly slow so our wake wouldn't be perceptible, we crept to the beach. Quick flashes of our small red signal light told the beachmaster what we had for him and he guided us in. It didn't take long to cast loose. As we tore out of the vicinity we got a plaintive message to move the barge to a beach further east—we sent two answers, to the beach our regrets, to the engine room All Ahead Full!

"And so it has been for 13 days. Twice we assisted mined ships. One sunk before we got there, but we picked up a few survivors from the second. Another time we beached a mined ship, it dried out on the beach and the whole cargo got off safely, tho it had no back end. We also beached two more ammunition barges. And as we sit here we wonder, What next, Old Four Nine Oh?"

A newsy letter from India or thereabouts reached Dr. and Mrs. J. W. McGinnis this week, dated June 16 by their son Lt. Col. Velmer McGinnis. He says:

"Dear Mother and Dad: Received your letter of May 19 a few days ago, it was nice to hear from you. Your heat of 94 degrees and also your fire in the stove sound good to me. I expect that if the temp went down to 94 here we would have to build a fire to keep warm. Th other day we were remarking about what a nice cool day it was and then discovered that the temp was 100. It is 104 here in my office at present. Outside it is much hotter. The electric power is a little low and the fans barely turn so aren't much help. I have a couple of pictures of Mei Yu Chi that I will send you. The public relations office photographer saw a snap of him making a small jump. It looked so good to them that they wanted some of him for publication. We took a lot before we got just the right ones. They had never taken a jumping horse before and had trouble getting him at the right moment. I will send you two good ones. Maidt and I have just about finished redecorating our house. It is more comfortable now. We had a housewarming party the other night. It was fun. I got the March Quizzes this week. I see they have a story about my present duties. The meat inspection is a very small part of my responsibility. My major job up until recently was training of Chinese troops in horse shoeing, animal management and vet technical subjects. Recently has been added the responsibility of conducting vet service for a large number of American horses and mules. I have more than a few vets and a lot of them helping me with these jobs of course. My work is practically all supervisory. Am well and so happy with recent events that I think I'll stay a little more than my two-year turn. Love, Velmer," The name of Velmer's horse, in English, is "Have No Ride" and was given to him by the Chinese because no one had ridden him, relates Mrs. McGinnis. But the former Ord young man broke the horse and is now teaching him to jump as he has many other fractious animals. The big news of his letter he hides in the last sentence, that he is entitled to come home but is staying on.

Study Center Opens in Ord August 7th

Plans are practically complete for a new study center class to be opened in Ord on August 7, by the University of Nebraska teaching a course in either United States geography or geography of Europe. This class will meet every day for two weeks, and teachers will have an opportunity to earn three hours undergraduate college credit.

The class is open to anyone who wishes to earn college credit, but it is hoped that many former teachers will avail themselves of this opportunity to work for the renewal of their old certificates or toward the issuance of an emergency certificate.

Although a number of schools are contracting with neighboring districts for school privileges for next year, Valley county still needs many more teachers, County Superintendent Clara McClatchey declares definitely.

Anyone interested in joining the classes to be offered in Ord early next month may call or write the office of the county superintendent for further information.

Mrs. Casper will be the instructor. The class will open Aug. 7 for 13 days. Already Burwell and Loup City are represented on the enrollment list for the class. Additional credit may be earned by those who wish to do extra, supervised work.

Examinations Scheduled.

Special examinations scheduled for those who would earn temporary teaching certificates will be given Aug. 7 to 12 at a number of Nebraska points. In Ord the examinations will be held Aug. 11. Others are listed for Bassett on Aug. 7, O'Neill on Aug. 8, Broken Bow on Aug. 10, comes news from the office of County Superintendent McClatchey.

Burwell Women Take 15 Birthday Cakes Other Food to Serve at No. Platte Canteen

Burwell — (Special) — Eleven Burwell women and girls said "Hi", "Goodbye", and sometimes "Happy Birthday" to approximately 1500 soldiers, sailors and marines who passed through the North Platte canteen Monday when the Canteen sponsored Burwell Day. At least than many more servicemen went through North Platte late Monday evening, but the Burwell representatives could not remain to serve them.

Mrs. J. H. Schere acted in charge of the Burwell workers and handled supplies taken from Burwell. The workers were the Mesdames R. E. Draver, Spencer Horner, Clifford Anderson, and Raymond Johnson, and the Misses Naomi Wagner, Shirley Boisen of Minden, Florence Ciemny, Beth Wilson, Beth Troxell, and Dorothy Jane Duncan. B. A. Rose, Raymond Johnson and Harry Jonas drove the three Burwell cars.

Mrs. Schere stressed the need for the North Platte canteen when she said, 'If everyone could see how hungry those boys are when they stop at the canteen, there would be no question of the justification of our efforts. Were it not for the North Platte canteen, the boys could not get a free bite until they reached Omaha, and its a long way to Omaha."

Mrs. Bess Moore, who planned Burwell day at the canteen and received all the donations, stated: 'Burwell has done it again in the usual manner. We had plenty of food, cakes and money, and while I didn't get to go, all reports indicate that it was thoroughly appreciated. We feel that the need is so great that we are starting plans to go again."

Donations taken to North Platte by the Burwell representatives consisted of; 15 birthday cakes, 50 doz. cookies, 6 gal. pickles; 14 dozen boiled eggs; 25 lbs. coffee; 2 1-4 lbs. tea; 17 lbs. butter; 6 lbs minced ham; 4 1-2 doz. lemons, 2 loaves rye bread, $170.75 cash.

Washouts and bad weather conditions west of North Platte did not enable seven trains to arrive till late Monday evening. While the Burwell delegation could not stay to assist in serving servicemen on those trains, they were at work behind the counters when seven other trains arrived. Canteen workers estimated that they served 650 men from one troop train.

When a serviceman enters the canteen a worker gives him suggestions as to what to do. "Fill up the distant counters first, boys", says the worker through a loud speaking system. "Don't stand in line, or you'll miss your train. Step right up to the counter and help yourself"

At the counter the boys find coffee, milk, iced tea, lemonade, sandwiches, cake, doughnuts, pickles, radishes, onions, and any other food donated that day. While they eat the speaker continues: "Does any boy in the crowd have a birthday today? If this is your birthday make it known at the table in the corner, because the ladies have a birthday cake for you. Then come sign the register because the ladies like to know where their cakes go." Then the speaker goes on to point out where the boys may locate free magazines, religious literature, post cards with views of the canteen, playing cards and

Frank Johnson, 22, Missing in Action

Mr. and Mrs. Olof Olsson received word Saturday that her nephew Frank Johnson, age 22, was missing in action in France on June 6. Frank's home was in Texas but he and his brother Horace came to Ord to make their home and go to school when they were boys, and are well known here.

Frank was with the Fighting First division, commanded by General Omar Bradley. He had been in the army three years, and this was the third major offensive in which he fought.

A picture of Frank appeared on the cover of LIFE in July, 1943, as he and some other soldiers were carrying a comrade to his final resting place.

Frank's brother Horace is in the south Pacific, where he has been stationed for a couple of years, and has seen a good deal of action on the various islands.

Ord friends are hoping for more and better news about the young Texan soon.

Harvesting Late, No New Grain Has Been Sold in Ord

Several Planned to Begin the Cutting Monday but Rain Again Delayed Harvest.

Small grain in Valley county is the latest in many years, because of the cold, wet spring and continuing rains throughout June and early July, and no grain has come to market in Ord as yet, buyers stated Wednesday morning.

A few farmers are cutting wheat and rye but the grain is still too green in most sections for combining. Several had planned to start combining Monday but rains Sunday and Monday prevented, delaying the harvest a few more days.

William Heuck, manager of Farmers Grain & Supply company, said this morning that he expects some new grain will be brought to market before the week is over.

Only a light shower fell in Ord on Monday night but other sections had heavier rains. Southwest of Ord more than ½ inch fell and near Comstock and also in the Spalding vicinity the rain was of near cloud-burst proportions.

Prospects for a good small grain crop this year are disappointing in most sections, grain men agree. Rust has blighted the wheat crop, which otherwise would have been considerable, and the wet weather and late planting time has not helped the barley prospect. Many fields that have raised barley since 1936 were planted to corn this year and Valley county should have a tremendous corn crop for the first time since 1934, if the present prospects continue.

Two New Teachers Sign Ord Contracts

Home Economics and Science Vacancies Filled, 3 More Instructors Needed.

Slowly, but surely Superintendent C. C. Thompson is mending the local shortage of teachers for Ord schools, a situation that is serious in more places than Ord. Three vacancies are now left, but he has hopes of filling them before long. These three teachers, yet lacking, are needed for mathematics, the third grade, and the junior high social science classes formerly taught by A. J. Cochrane who has been reassigned.

Rachel Shaffer of Albion will teach the home economics classes formerly directed by Mrs. Iris Krebs Clark. Miss Shaffer is a graduate of the University of Nebraska, and taught in Iowa last year. She is in Denver this summer but will arrive in Ord early in August.

Marjorie Fouts will teach science classes in the Ord high school, replacing Mrs. Helen Prouty Hohlfeld. Miss Fouts comes from Seward, and is a daughter of the county agent there. Her father has often come to Ord to assist in crop and stock judging. Though she has had no teaching experience she has taken a year of medical training and will return to these studies eventually. Mrs. Hohlfeld does not intend to teach again, and has gone to the west coast where she may take other employment, she writes Mr. Thompson.

Delores Donnelson of Norfolk junior college will teach in place of Myrtle Tracy in the first grade, having been hired in May. She too, will be teaching for the first time but comes with good recommendations.

Auto Use Stamps $10 If Delinquent

Deputy revenue collectors, who were in town last week, said that car owners must purchase the $5 federal auto stamp before August 1, if they wish to avoid paying a $5 penalty. After August 1 the fine will apply.

Postoffices will have only the $5 stamp to sell this year. Stamps for a portion of the year will have to be purchased at revenue offices in Omaha or Grand Island.

After August 1 no stamps will be sold other than in county seat towns.

Stamps must be displayed on windshields.

—The work of altering and remodeling the C. S. Burdick home is nearly finished, after some weeks. Several rooms will be a bit larger as a result, says Mrs. Burdick.

Lt. Cordry Had "Million Dollar Seat" for D-Day, Boat Hovered Off Cherboug Coast

Lt. David Cordry.

First Lt. David Cordry tells of the invasion of France in a letter to his parents, Rev. and Mrs. R. T. Cordry. Attached to the medical corps of the infantry of the famous Second Division, they really saw action. ". . . That was really a historic scrap and our men performed like veterans. At the time all we had was small arms; the heavy stuff including machine guns was still on the boats. We decided to attack with rifles and knives, capture enemy guns, and use them to take the town (Treviers). And that is how it was done. The medics moved into town, set up their station ahead of the infantry and were ready for casualties when they arrived!

"I was in a hot spot trying to get ashore, with millions of Fourth of Julys going on above and around me . . . .There were ships as far as we could see, and in all directions. First they tried to land us on the wrong beach. I spent most of D-day plus 1 waiting and watching the shelling of Cherbourg, all the time knowing that that wasn't where we were supposed to be. Late in the afternoon we pulled anchor and went over to where we belonged. We sat in the middle of things for over 48 hours just watching. It was a "million dollar ring-side seat" and I practically lived behind my field glasses. Why they did not get us off sooner I do not know. Our litter-bearers beat the ambulances in by over a day and a half. When we landed they were carrying casualties away from Treviers through chest-deep water!

'The ship was not prepared to carry personnel—just vehicles. We lived where we could; ate and washed on deck.

". . . Our barge pushed off and Jerry arrived when we were halfway between the breakwater and the beach. To make things worse, an oil dump (or something) ashore was ablaze, lighting everything in the area, including us! I spent some terribly long minutes under a tank on the barge, listening to flak and shells clatter on the flat steel deck. It was so light under that tank I could read a newspaper. (Midnight.) I saw two planes come down in flames from where I was. The night before I watched five go down.

When we finally reached the beach, my vehicles were first to come off—had to drive through water over their hoods! From the beach on inland is another story. How we found our unit in the blackness seems like a miracle to me—as no one knew "nuthin"! We just "stumbled" onto them. During those black hours I learned the sound of all Jerry's weapons—namely the sharp "ping" of snipers and the short 'rip" from the machine guns. After Treviers fell there was a mad race forward. I think we could have gone all the way to Paris if there hadn't been any danger of getting out-flanked!

That all happened more than two weeks ago but it seems like one of last night's night-mares. We're still in action but it is mild in comparison. For example last Sunday I had a haircut while listening to church services across the hedge. In the afternoon I took a sponge bath, spread out a blanket, donned my swimming trunks and gathered a bit of a sun tan! In the evening we popped some popcorn and had some cider with it. I have become accustomed to these battle noises; however they are a bit trying on the nerves, and keep one awake at night, if he isn't really tired.

. . .A few French people wander into our area with eggs, meat, cider etc or with wounded friends for attention. If you see anything in the papers or elsewhere about this unit, please let me know, as it would help the boys to know that we are getting credit for what is justly ours. For it was the Second division that bore the brunt, and not the First as wrongly reported in some of the newspapers."

Mrs. Brox Supervisor of the Clinic Hospital

Dr. C. W. Weekes announces that Mrs. Almond Brox will be in charge of the Clinic hospital hereafter, having begun work this week. Mrs. Brox is a registered nurse with a background of experience in the nursing field, and her quiet, capable ways are well known to all.

Minor operations were those of Mrs. Dave Guggenmos, the little daughter of George White of Ericson, the daughter of Harold Nelsons of Ord, and the tonsillectomy of Caroline Auble, performed by Dr. Barta. Catholic School Well Attended

Nearly 100 attended the three weeks' church school held for Catholic children of this vicinity, Rev. T. C. Siudowski reports. Teaching them were Sisters Mary Innocentia and Mary Fabian, who came from Chicago. The instructors will leave Thursday for that place, as the clasess are over.

Sunday at a very beautiful service 12 children made their first communion at the church of Our Lady of Perpetual Help, at the 7:30 o'clock mass. The 12 were Eldon Kovarik, Eldon Sperling, Milo Florian, Vergil Mulligan, Robert Kovarik, Edwin Penas, John Blaha, Jerome Florian, Francis Zabloudil, Patricia Wozniak, Dorothy Blaha and Mershonne Knecht. They were led in by six little girls dressed as angels, with long white organdy gowns over colored slips. Headdresses of flowers matched the slips. The choir sang high mass, and a recessional concluded the impressive services.

—Mr. and Mrs. Glen Stroud went to Boelus for all last week while he was off duty at the J. C. Penney store.

Paying May, June, Cream Subsidies

May and June subsidy payments on butterfat and milk are now being paid at the AAA office, says Chairman R. Clare Clement, and producers may call there at any time for their drafts. Deadline for May and June payments is August 31. Rate of payment is 6c on butterfat and 35c per hundred pounds on milk.

A representative of the AAA will be at North Loup on Friday, July 14, and at Arcadia on Tuesday, July 18, to distribute drafts to producers of those areas.

It has been decided to continue the present rate of subsidy payments for the months of July and August also, but these drafts will not be distributed until September.

Beginners' Band to Organize August 1

Dr. Glen D. Auble, who will take over the direction of instrumental music in the Ord schools when the fall term opens, is making plans to organize a beginner's band of about 60 pieces August 1. This new band will have no connection with the group now playing, but will be composed of beginning musicians, and Dr. Auble hopes to give the group a good groundwork in band music before the regular term of school opens. Beginners interested in joining this new band are invited to get in touch with Dr. Auble and to watch for further announcement about the band.

Valley County Over Half Million Mark in War Bond Buying

People Acquit Selves Gloriously in 5th War Loan; Ord 325 Per Cent.

Valley county people acquitted themselves gloriously in the 5th War Loan drive which officially closed Saturday night, July 8, according to the final tabulation released today by C. J. Mortensen, county war finance chairman.

Total sales of $449,271 were made by the banks, postoffices, and other issuing agencies in the county, which comprised 127 percent of the county's $354,800 quota.

In addition the federal reserve bank credits Valley county to date with sales of $5,000 to army and navy personnel, and $51,000 to the state of Nebraska, railroads and other corporations doing business in the county. This makes a grand total of $505,348.50, which exceeds by more than five thousand dollars the half million dollar mark unofficially hoped for by those in charge of the drive, and figures 142 percent of the quota officially assigned.

Of these sales $392,453 were classed as individual sales, being 133 percent of the individual quota of $296,800, and $112,895.50 were sales to corporations including Valley county and the city of Ord, making 195 percent of the corporation quota of $58,400.

Ord city and township led the way in the bond buying contest, buying a total of $260,401 for a grand 325 percent of quota. The quota assigned Ord township on a percentage of valuation basis was only $80,000.00.

Only two other townships exceeded the quotas assigned them, North Loup people buying $51,727 and exceeding their $35,000 quota to the extent of 148 percent, and Enterprise township, which bought $33,598 worth of bonds, exceeding its quota by 140 percent. All other townships failed to make their quotas, the highest among them being Arcadia township which had sales of $26,703, or 89 percent of quota, when final returns were made Saturday evening.

Poorest record in bond buying was made by Eureka township with only 22 percent of quota, while Liberty had only 24 percent and Michigan only 25 percent. The records of all townships are shown in the tabulation printed elsewhere in this issue.

Had rural townships fulfilled their quota obligations as the urban townships did it is thought that the county quota could have been doubled.

While final results of the Omaha World-Herald's bond buying contest will not be known until the federal reserve bank catches up with the flood of late buying, it is thought that Loup county still leads Valley in the Group 1 race and probably will win the $250.00 cash prize. Sparsely populated, Loup county has a very small quota and surpassed it by 50 percent or more and in the last tabulations published still had a comfortable lead, despite the fact that Valley county people bought six or seven times as many bonds.

Sales Chairmen Clark Weckbach and C. C. Thompson, War Finance Chairman Mortensen and all the other men who planned and carried out the 5th War Loan drive in Valley county are extremely pleased with the final results and thank everybody who participated. Those who did not will have a chance to do so later, for more and bigger bond drives will have to be held before the war is finally won.

CHAS. E. SANDALL SAYS:

NEBRASKA IS PROUD OF HER MODEL LIQUOR CONTROL LAW

Director of the Brewing Industry's self regulation program in Nebraska; prominent member of state bar; former county attorney, state senator; U. S. District Attorney during prohibition era.

I think perhaps many of our citizens take our liquor control statutes for granted. Actually, these laws are probably as well drawn and as effective as any in the entire country. They are often considered the model by legislators of other states. The wisdom of our law-makers who, back in 1935, studied the state's problems and devised our comprehensive and practical liquor control legislation, has been well proved.

Thanks to this law, conditions in Nebraska are good. Where occasion arises, however, this Committee cooperates closely with the authorities, taking action against any who abuse their license privileges.

Yes—Nebraskans can be thankful for wise and enforceable liquor control laws.

Nebraska is Fortunate in Having One of the Best Liquor Control Statutes in the Nation

Something Different

The teaching situation is no joke. Teachers are about as rare as hens teeth. Uncle Sam has not listed teaching as an essential occupation, and has taken many teachers into service, and also many coaches for use in the various training programs. At the same time he has frightened some teachers into taking defense jobs.

And the extremely high wages being paid elsewhere have lured numbers of teachers into other fields of work.

And to top it off, not nearly so many young people are entering the teaching field at present, for other jobs, more quickly available, beckon enticingly.

In the spring Superintendent Thompson stated that only about 25 percent as many teachers were available. Now the situation has worsened considerably.

oOo

In other countries, teaching is grouped as an essential occupation. And so it should be here, for war or no war, youngsters must be trained, and well trained.

The home is held most important of child training theaters, with the school and the church running close behind. So if war pressures are causing parents to neglect their job of child-rearing, as juvenile reports claim, surely it is no time to have schools weaken too.

Our child crop is an important home front beachhead, and we must see that it is held strongly.

Let's pay more attention to our schools and teachers.

oOo

Why should teachers, long and carefully trained teachers, as intelligent a group as can be located in any town—why should they spend the longest years in study with the poorest financial returns for all their preparations?

Teachers salaries tag along after. When prosperity comes, teachers wages lag and tag behind, raising late and not too much.

oOo

Nebraska schools, like Nebraska colleges, lose able teachers to neighboring states that pay better salaries. It is a shame to have them thus siphoned off as soon as their ability is recognized. Let's keep our good teachers in Nebraska.

Let's encourage them to stay with us by treating them better, paying them better, seeing that their hours and classes are not so heavy as to discourage and disable all research activity; planning to give them rights to security and pensions in their old age; or else to pay them big enough salaries so they can safeguard their own old age

oOo

I would like to see better school buildings in Nebraska bigger, modernized plants where more courses would be taught, particularly technical training courses, not fancy stuff.

oOo

Then I'd like to see the school buildings more carefully utilized than they are at present. Why should they sit idle so much of the time? Night classes, adult classes, town meetings, many kinds of activities could go forward in them that now do not.

After all, every brick in the school building . . . that's the taxpayers money.

LETTERS FROM QUIZ READERS

Picnic in Oregon.

From the City of Roses, Portland, Ore., comes this letter: "A line to let you know that a number of former Ord people now living in Oregon enjoyed a picnic Sunday, July 2 in the park at West Salem, Ore. Those attending from West Salem were: Mr. and Mrs. Rhynie Christiensen, Mr. and Mrs. Will Worm and Clifford, Mr. and Mrs. Mark McFarland; from Independence, Mrs. Frank Dworak and daughters Janice and Marilyn; from Canby, Mr. and Mrs. Roy L. Hansen and daughters Luella, Mrs. Alfred (Berneice) Kraft and son Allen, and Mrs C. R. (Viola) Carlson from Portland; from Monmouth Mr. and Mrs. D. L. Williams and Frank Skeen.

"The men enjoyed pitching horseshoes and the ladies exchanged news and views. We learned that Frank Dworak is somewhere in the south Pacific with the navy, Mrs. Kraft's husband just started training in the navy at Farragut, Ida., on June 14. Mrs. Carlson hears that her husband is now in England.

"Mrs. Williams declares that he had such a grand time that next time we meet he's going to bring his cow along. Roy Hansen said he didn't have to hurry home, for the boys would do the chores.

"A date for another picnic has not been definitely set as yet, but we will try and have it announced in the Quiz beforehand. Here's hoping that next time there will be greater attendance. Come all ye former Ordites! Sincerely, Mrs. C. R. (Viola) Carlson."

Raps Phone Service.

To the Editor of the Quiz:

Please put this in the complaint department of the Quiz if you have one as I want to complain about the telephone service. It wasn't so good before but then they put in new phones and told us how good they would be and they did give fine service for a while.

But now I hear crosstalk and we are not supposed to hear this and I hear the telephone office conversations! That is I do when I can get central, she seems to be asleep a lot of time; what would I do in case of fire, wait for her to have her nap out?

The long distance calls are terrible, but I won't say anything about that part of it perhaps the war causes that. I am willing to make reasonable allowances, or do anything that will help our soldier boys, but I can't see how poor telephone service in Ord will help them a darn bit. In fact it wastes my time, when I could be working.

We pay more money for this slow, careless service too. And money still doesn't grow on bushes; I am disgusted. Just sign me, Long Suffering Subscriber."

My Own Column
By H. D. Leggett

A good friend wrote me recently telling about a trip he had just taken and how well he got along, and he added, "I didn't even quarrel with my wife", just as though that was something he might be proud of, when as a matter of fact he, like myself, is not too easy to live with, while his wife has an angelic disposition and I don't know how he would go about quarreling with her.

—O—

And talking about getting along well with people, I never have any trouble getting along with anyone if they let me have my own way all the time.

—O—

The agricultural department has just announced that this state has the prospect of a bumper corn crop and names the approximate number of bushels. But it is all pure bunk and we won't know much about the corn crop till near the end of August, as always.

—O—

Someone surely must have told Eleanor that she had better stay at home and mend Franklin's sox and attend to her other household duties and quit using government airplanes and gas to run all over the world. Never in the history of this country has there been half the adverse criticism that there has been about Mrs. Roosevelt.

—O—

I have had so many requests for my dishwashing method that I must state it again. Of course this method does not apply so well unless one has a kitchen sink with plenty of hot and cold water. I try to get the skillets washed first, usually while the last of the meal is being finished cooking. I put some soap powder in the skillet, use a scrubbing brush vigorously, rinse it good with hot water and wipe it with a clean dishcloth and the worst part of the dishes is done. After the meal and the eats are put away I rinse each dish under the hot water spiggot using the hand brush with greasy dishes. Then I wash the dishes in a strong foamy suds and put into a large dishpan full of hot water to rinse and when they are wiped they are bright and clean and shiny. Under my method it don't make any difference whether the glassware is washed first or last, for the dish water is never dirty when I get done and the dishcloth nover gets much soiled either. It would be interesting to know the methods used by Mrs. Roosevelt and Mrs. Griswold and other well known housekeepers.

—O—

I have been gratified this month at the number of people who have taken a look at the expiration date on their paper and sent in their July 15 renewal. I have not been able to find time to send out the July 15 expiration notices.

—O—

Big war news is in the making and political news will be important the next few months and if you do not have a daily paper we will be glad to send in your order for one, any one in Nebraska. Drop in and let us order a daily for you or renew the one you have when it is about out.

Easy Ways to Quench Thirst

ON A HOT JULY day, everybody feels like tipping up a whole bucketful of cool thirst-quencher! But there are simpler and far more interesting ways to do it. For instance:

Iced Tea and Iced Coffee—the important things to remember, of course, are that both tea and coffee must be brewed in *double* strength, and should be *freshly* made, if you want good flavor when they're iced.

Orange Egg Milk Shake is satisfying and easy to make: combine 1½ cups each of chilled orange juice and milk in a shaker or mason-type glass jar; add 1 egg (slightly beaten), 3 tbsps. sugar and 1 tsp. grated orange rind; put lid on jar and shake well.

For Children, make "Singing Sam Sticks" by pouring fruit-flavor carbonated beverage into refrigerator freezing tray; after about 1 hour's freezing, insert wooden meat skewer into each cube and continue freezing until solid; serve as lollipops.

Coffee Cool is delicious for dessert, or with a midday sandwich: half-fill tall glass with shaved ice; add scoop vanilla ice cream, and fill nearly to top with steaming hot coffee; stir until smooth and frothy.

However you do it, have plenty of thirst-quenchers on hand for your family these July days—helps to keep them healthy and happy!

A Marine "TELLS IT TO" MUSICIANS

Goodbye, you guys and gals. You bandsmen are sure doing a swell job for your country—and I'm not kiddin'. I mean it. Next to a good fight, a Marine loves a band and rousing music. The home folks, too, need music—to cheer 'em up and pep 'em up. That's where you school band people fit into the war.

So keep those horns tootin'. Study hard with a good teacher and get everything you can out of classes and rehearsals so you can become fine musicians. Take care of the home front and we Marines will take care of the fighting front. You keep America musical and we'll keep her victorious.

THE OLD JUDGE SAYS...

"Judge, I've had a lot of calls for that book you took out last week...'Tell the Boys Back Home'. How did you like it?"

"Fine, Sarah, fine... it's just the kind of book I like to get hold of... I enjoyed every word of it. Wish I could have been along with the author myself... actually living with the men right on the fighting fronts. He got mighty close to them and they certainly opened up their minds and their hearts to him."

"There were lots of new things in the book I hadn't seen in any other reports from front-line writers. But there was one question the men asked the author that I have seen time and time again in these stories. That was 'Are you going to put prohibition over on us soldiers again... and without getting our vote?'"

"I noticed that, too, Judge, and I think the least we can do for those fighting men who are doing so much for us is to respect their wishes on that subject."

Burwell Women Take 15 Birthday Cakes, Other Food to Serve at No. Platte Canteen

(Continued from page 1)

nk for pens. Most free cigar-ttes and fruit are not distri-outed until a hospital train oes through.

While this is going on inside he canteen, the basket crews re busy along the station plat-orm. If for some reason men re not allowed to leave the rain, the basket crews hand hrough the windows oranges, ookies (the only pastry regu-ations will allow served on rains,) magazines, matches, ards and other supplies.

As soon as the train is called or the first time, all serving stops. Hostesses hurry the men along so that they do not delay or miss their train, and wave goodbye to them as the train pulls out. As soon as it is out of sight, the hostesses are inside making preparations for the arrival of the next contingent of hungry servicemen.

It is a common occurrence for a serviceman to bring his wife in for refreshments, and the lieutenant who came after milk for the baby wasn't out of place, but the WAC who brought along her civilian husband was somewhat of a novelty. The soldier who had a birthday and asked for a piece of angelfood cake will always be remembered for the look on his face when he was handed the entire cake. Many of the boys who go through the North Platte canteen will be remembered by the ladies who served them, and they in turn will remember the North Platte canteen. Not long ago a commander in the navy stopped in to visit the canteen. He had heard about it in Alexandria, Egypt.

The North Platte canteen opens at 5:30 a. m. every morning, and closes when the day's trains have gone through which is often as late as 10 or 11 p. m. if trains are late. Men from 16 to 20 trains are served each day.

Burwell was highly complimented by the officers of the North Platte canteen on the large donations from the Burwell people. The Burwell delegation traveled farther than any other group which has worked in the canteen as it is seldom that a group travels more than 100 miles.

—G. L. Howard of Detroit arrived Saturday morning by train to spend two weeks at the home of a sister-in-law, Mrs. Grace Sprague.

Pvt. Jerry Fryzek is enjoying a furlough from Camp Cook, Calif., where he is in the ordnance department. He arrived Monday evening of last week, looking fine and fit.

Bert Boquet, jr., has been transferred from Camp Kahler, Calif., to a spot much nearer home, down at Camp Crowder, Mo., his father was happy to learn this week.

Rotarians enjoyed a talk Monday evening by Pvt. Melvern Ferris, who returned to Ord on furlough recently after spending nearly two years in the Aleutian Islands. Wind is the greatest discomfort there, blowing much of the time at intensity of 100 to 120 miles per hour, Pvt. Ferris declared. When his unit first went there they lived in tents and spent much of their time erecting tents after they were blown down by the wind. Later they were given quonset huts, which made better habitations. The island on which he was stationed lies east of Dutch Harbor and he had no contact with the enemy, Ferris said. He is stationed now at Camp Shelby, Miss.

48 Tons of Poison Spread by Roads to Combat Hoppers

Crew of Twenty Busy Last Week with Six Trucks; Grasshoppers Bad.

Ord farms and farmers got some real help with the grasshopper infestation last week, when a crew of workers from the federal bureau of entomology spread 48 tons of mixed bait along the 750 miles of roads in Valley county. Directed by J. J. Harris, some 20 men and six trucks equipped with spreaders did the job, beginning Monday morning and finishing their task Thursday evening, reports County Agent C. C. Dale.

Grasshoppers are plenty bad in Valley county this summer, contrary to all expectations that a long, wet, cold spring would ruin the grasshopper eggs. Instead, the eggs simply waited to hatch until the warmth and sun matured them, when farmers suddenly realized they had a big problem on their hands.

The Valley county board, anxious to help, allotted $250 for unloading charges for the materials shipped in for bait, but only about $40 worth of unloading charges will need to be met by the board from this fund. And in addition to killing heavy crops of 'hoppers with the bait along the roadsides, the experts left some 15 tons of ready-mixed poison for grasshoppers, which is to be distributed free of all charge to those needing it.

The formula includes 75 pounds sawdust, 25 pounds of bran, 16 pounds of sodium fluosilicate, the whole mixed with water.

Right now farmers are reporting much damage to new seedings of alfalfa from the young grasshoppers. They are delighted to get the bait to destroy the pests. Farmers also report that hatching grounds of the 'hoppers where the insects were thick have very few live 'hoppers left after the bait is spread a short time.

Another effective task accomplished by the spreading crew last week was smearing the railroad right of way with the bait. The men did this by working from the motor cars that section men use to ride the tracks. It should aid considerably in cutting down the grasshopper crop in Valley county while upping production figures for more desirable crops.

Plans Progress for Beginners' Band

Making further plans for a beginners' band in Ord, Dr. Glen Auble announces the first meeting of interested young people will be held at the high school from 7:30 o'clock until 9 o'clock the evening of Tuesday, July 25. The band will start actual practice on August first, he delares. Boys and girls who can not report Tuesday evening at the time specified are asked to talk to either Mr. Thompson or Mr. Auble about it.

Children as young as the fifth grade will be accepted in the beginners' band. All rural youngsters who expect to enter high school in September and are interested in playing with this band are urged to try to start practice with the others on August first, as building a band is an undertaking requiring the efforts of every member over a considerable period and cannot be done in a week or so.

An immediate problem of the band will be getting enough instruments to start with: everyone interested in the band work is asked to check his neighborhood for unused instruments. No doubt there are many unused instruments. The school has some instruments available and Auble's have a few to rent, which will help.

Meetings Tuesday evening will be divided into two groups. At 7:30 Mr. Auble will meet with those who have never played before. At 9 o'clock Director Auble would like to talk to those with some musical knowledge, but who have never played in the school band.

Ord is and always has been a musical town. This is a splendid opportunity for boys and girls to begin band work and learn more music enjoyably. Dr. Auble has had good success with bands in several neighboring towns, and will doubtless make a good band from the young people who report to him, and Ord will continue a long and happy musical life.

—Mrs. Burr Beck and two young sons were in Ord the first of the week. Their home is now at Grand Island, but she is the owner of the Mazie Beauty Shop yet.

Blessing to Head United War Fund

The appointment of Dr. F. L. Blessing of Ord as chairman of Valley County for the 1944 United War Fund campaign which will take place in October was announced today by Thomas C. Woods, State Chairman of the United War Fund of Nebraska. The appointment was made on recommendation of H. P. Zieg of Grand Island, District War Fund Chairman, and Ign. Klima, Jr., of Ord. Dr. Blessing is a Legionnaire, and president of the Ord board of education.

In commenting on the appointment of Dr. Blessing Mr. Woods said, "We are glad to have Dr. Blessing as the leader of the 1944 War Fund campaign in Valley County. Dr. Blessing has long been active in civic organizations. We know that Valley County will again do an outstanding job for the War Fund."

Mr. Walter F. Roberts, State Director of the United War Fund of Nebraska, praised the people of Valley County "for the splendid support they gave the 1943 War Fund." "Valley County", he said, "went over the top in 1943 and I am sincerely confident that it will repeat this year. The USO, the War Prisoners' Aid and the allied nations reliefs such as those of China and Greece—all nineteen agencies merit our whole-hearted support."

Mr. Woods also announced that the national slogan for the 1944 War Fund campaign is 'For Our Own—For Our Allies', and our state slogan is 'Every County Over.'

The citizens of Valley County subscribed $4,545.00 to the 1943 United War Fund.

Frank Osentowski Dies at Age of 68

A heart attack caused the death Friday morning at 7:30 of Frank L. Osentowski at the age of 69 years, 11 months and 26 days. Mr. Osentowski died at the comfortable family home at Sumter which he built in 1918 and where the family had lived since.

Born in Michigan on July 19, 1874, he moved to Valley county with his parents who settled on a homestead about 14 miles northwest of Ord. In 1897 he married Barbara Bruha, and to them six children were born. All the children survive their father except Adam, who died in infancy. In 1897 he also moved to the farm four miles from home, where the family lived until 1912, when he bought land at Sumter.

Widely and favorably known over the county, Mr. Osentowski was a devoted father, a hard-working man, an active supporter of the church of his choice. He was a charter member of the Knights of Columbus.

Funeral services for Mr. Osentowski were held from Our Lady of Perpetual Help church in Ord Tuesday morning at ten o'clock a. m. Rev. Thomas Siudowski officiated at the services at the church and cemetery. Pall bearers were Emil Fafeita, Stanley Absalon, Joe Petska, James Petska, jr., Ed Vogeltanz and Frank Kapustka. Rosary was recited Monday evening at 8:30 at the Hastings-Zikmund chapel.

Beside his wife, he leaves to mourn his death two daughters, Mrs. Thomas Mullally of Utica, Nebr., and Mrs. Edward Sheehan of Gardenia, Calif, also three sons, Joseph of Ord, Frank who is now a captain serving with the armed forces on New Guinea, and Edward, with his mother on the farm, six grandchildren, and one sister Mrs. Alex Grabowski and two brothers, Phillip Osentowski and Jake Osentowski.

John Fill Faces Assault Charges

A charge of assault with intent to do great bodily harm has been filed by Acting County Attorney Ralph Norman against John Fill, as result of a beer tavern brawl Saturday afternoon in which Frank Golka was so badly injured that he is still confined to the hospital and will be there several more days.

The altercation between Fill and Golka took place at the east side tavern in Ord and accounts differ as to what actually took place. Golka suffered a broken nose, fractured cheek bone and severe cuts and bruises. He lost considerable blood and was in critical condition for a couple of days but is now improving.

Fill was arraigned in county court, pleaded not guilty and was released on $200 bond furnished by his employer, Adam Augustyn. Preliminary hearing has been set for next Monday.

Her experience includes 12 years of instructing at Superior, and two years in a college army training program in Michigan. Her A. Her husband is in the navy, and she has two small daughters.

Irene Anderson of Hastings will teach the third grade. She has studied two years at Hastings college and has taught for two years in the schools of Maywood, and comes well recommended.

Red Cross Needs Expert Seamstresses

Ord needlewomen are asked to work for the Red Cross as much as possible this summer, while the sewing rooms are located at the high school, as the sewing machines are much better there. Any women wishing to help are urged especially to find the time within the next few weeks, therefore, as the Red Cross rooms at the high school will not be available after school starts once more.

Among the groups sewing together on Red Cross work are the Methodist ladies' W. S. C. S. sewing Wednesday of this week at the high school. Friday afternoon the Jolly Juniors are scheduled to work at the high school.

Tragedy Strikes Pibel Lake Camp

A tragedy that saddened all those who went to Pibel Lake last week to the Christian church summer camp for young people was the accidental death of Rev. Morris Hahlbeck of Arnold.

Mr. Hahlbeck, one of the instructing ministers attending the camp, went swimming in Pibel Lake Tuesday about noon. A dive in shallow water broke his back, and although a doctor was called from Spalding and the injured man was taken at once to the hospital in Norfolk, Rev. Hahlbeck died Wednesday noon.

The young man graduated from Minnesota Bible college only a year ago, and was considered especially gifted and brilliant by his colleagues. He had been married a few months. Funeral services were held at his home town of Ewing, Nebr., on Monday.

Ord young people who attended the camp returned home with Henry Hiner in his truck Saturday evening. Mr. Hiner was hauling coal to Ericson, and so could bring them back in his truck without extra driving.

Crippled Children's Clinic August 5th

Mrs. Mabel Colver wishes to call the attention of the public to the clinic for crippled children which will be held in Hastings at Mary Lanning Hospital on Saturday, August 5. Dr. H. Winnett Orr and Dr. J. A. Henske will be there at that time, and anyone needing aid for a crippled child should be sure to take advantage of the abilities of these well known orthopedic specialists.

Attention of those who have children crippled by poliomyletis is especially called to this clinic.

All those who plan to attend this clinic should get in touch with Mrs. Colver at the assistance office in Ord, or be referred to the clinic by the family doctor.

Ak-Sar-Ben has re-appointed E. C. Leggett, editor of the Quiz, as its ambassador of good will for Ord and surrounding territory, the Omaha group has announced.

District OPA Now Reviews Gas Ration

As a means of helping conserve gasoline supply and to make its distribution more equitable, the district office at North Platte now reviews all special and supplemental gasoline rations involving issuance of 40 or more coupons, Mrs. Grace Sprague, local ration board clerk, said this week.

Such reviews are intended to be of a constructive nature and with the purpose of bringing about uniformity of compliance throughout the district, says Charles Smrha, the OPA district director, in announcing the new plan to the local board.

Another new ruling permits local ration boards to publicize, either through newspapers or from the office, all supplemental gasoline rations.

Lt. Rich Severson Reported Missing

Reported missing since July 2 in a bomber raid over Hungary is Lt. Richard Severson, of Ord, who was a bombardier on a flying fortress. A telegram from the war department giving the sad news was received Saturday afternoon by his wife, who had come to Ord from her home in Lincoln only the afternoon before to become acquainted with her husband's relatives here. Mrs. Severson returned to Lincoln Sunday.

LT. RICHARD SEVERSON

The Ord young man was a member of a heavy bombardment unit based in Italy, and the mission from which he was missing is believed to have been his 23rd over the continent. The telegram gave no particulars but it is hoped by his relatives that Lt. Severson parachuted safely to earth and may perhaps be a prisoner of war.

He was married at El Paso, Tex., on April 10 to Miss Yvonne Moslander, daughter of Mr. and Mrs. Harry Moslander, of Lincoln, and went overseas soon afterward. He is a son of Mr. and Mrs. Louis Severson and a nephew of Roy Severson, of the Ord postoffice staff.

Mrs. Hannah Jones, 82, Dies After Fall

Funeral services were held at the Pearson Chapel Saturday afternoon for Mrs. Hannah M. Jones, 82, with Rev. M. M. Long officiating and interment made in the Ord cemetery. Pallbearers were her grandsons, Harold Burson, Alfred Burson, Wester Jones, Lowell Jones, Gerald Jones and Harold Miller.

Mrs. Jones had been in failing health incident to her advanced years but on July 8th she fell at her home in Ord and suffered a broken hip, from the effects of which she died at the Ord hospital on July 13.

She was the daughter of Kingsbury and Cora Hoff and was born Aug. 15, 1861 at Marietta O., spending the early years of her life there and coming to Valley county 59 years ago to keep house for her brother, the late Kingsbury Hoff, jr. She was married to Thomas Jones in 1885 and returned to her home town in Ohio for a short time, moving to Kansas in 1887 and to Valley county in 1889 where she lived on a farm in Mira Valley until 10 years ago, moving from there to Ord.

She is mourned by one daughter, Mrs. Hattie Burson, and by four sons, Albert, Homer and Everett Jones of Ord, and Walter, of Arcadia. One daughter, Mrs. Cora Brickner, preceded her in death. There are 17 grandchildren and 25 great grandchildren.

Clark's Brother Dies.

Word was received last week of the death of Jerry Clark, of Gig Harbor, Wash., a brother of R. J. Clark, of Ord, and of the late Mrs. A. J. Firkins, who was buried here two weeks ago after her death in Nampa, Ia. This leaves R. J. Clark the only member of the family living, other than a half sister.

Stove Explodes, Fuss Home Burns with $2,500 Loss

House a Total Loss, Only a Little Furniture Saved; Insurance Carried.

Shortly before the noon hour Friday the Ord fire department was called to the William Fuss farm in Mira Valley where the house was aflame as result of an oil stove explosion, and though firemen arrived too late to arrest the blaze their efforts are credited with preventing the destruction of outbuildings also.

Mrs. Fuss was preparing the noon meal on an oil stove on the back porch and noticed that the stove was smoking. Within a moment or two, while she attempted to call her husband from the field, the stove exploded and flames shot through the roof.

The fire spread throughout the house rapidly and though more than 100 neighbors were soon on the scene only a small amount of household furniture could be saved and the house itself was burned to the ground.

Mr. Fuss carried insurance of $2,000 on the house itself, and approximately $500 on its furnishings, but the loss will be considerably in excess of these figures. The loss was more disastrous since rebuilding is difficult if not impossible at the present time.

Catfish Scarce Below Ord Dam

For some time fishermen at Taylor and Burwell, and some between Burwell and Ord, have been complaining that fishing in the North Loup river was poor because catfish couldn't get past Hardenbrook dam at Ord, and to check truth of these complaints the Nebraska fish and game department sent a seining crew to Ord this week.

The 3-man crew arrived with a fish truck and traps Friday and in the afternoon set nine big fish traps at most favorable places below Hardenbrook dam, intending to transport their catch of legal size fish above the dam. At sundown they pulled the traps and found not a single legal size fish. They reset the traps and pulled them again next morning, finding only three legal size catfish and about 1 1-2 bushels of small catfish, carp, etc., in the nine traps.

After this experience the seining crew said there is no doubt fish are able to pass Hardenbrook dam without difficulty. "If they'd been there we'd have caught them," the crew chief told Archie Bradt, the dam tender. The fault, he believes, lies at the Genoa dam instead of at Ord, and that fish are unable to pass the Genoa dam except at periods of highest water, which means that fishing not only is poor in the North Loup river around Taylor and Burwell but also all the way down to Genoa as well.

Boy Scouts Will Make Collection of Paper Weekly

7 Crews Will Tour Business and Residence Districts Each Thursday Eve.

At the meeting of Boy Scout troop No. 194 Tuesday evening, the members decided to undertake collection of waste paper in Ord as a regular weekly task and made plans to handle the salvage campaign in a systematic manner.

Seven crews of Scouts, each led by an adult, will collect paper throughout the residential and business districts of the city, starting at 6:30 o'clock each Thursday evening. Each crew has been assigned a regular district.

House-holders are asked to set their waste paper out on the curb where it will be seen by collection crews Thursday evening, or if help is needed in carrying the paper from basement or attic the owner of the paper may make arrangements for this service by notifying Rex Jewett in advance by telephone. His number is 78.

Proceeds from the sale of paper will be used to finance Scout activities.

The Ord troop has a new scoutmaster in the person of Rev. C. R. Erieson, new pastor of the United Brethren church here, who has previous experience in Scout work.

Factory Now Making Colby-Type Cheese

North Loup—(Special — The cheese factory here Monday morning began making Colby-type cheese, changing from American cheddar which it formerly manufactured. Colby cheese is an American type cheese originated in Colby, Wis. This is a very popular type of cheese, especially in the middle west where fresh or mild acid cheese is preferred. The ration value of Colby cheese is 10 points per pound, the same as cheddar cheese.

Since Colby-type cheese is not used for export, no set-aside for government purchase is required, which will enable the local cheese factory to supply this territory with cheese more adequately.

Children to Pick Milkweed Pods

The floss of the common milkweed is urgently needed by the armed forces to make "Mae West" life jackets, and a campaign will be organized in Valley county to harvest the pods of this heretofore useless plant, reports R. Clare Clement, chairman of the county war board.

Milkweed floss, which is buoyant and highly waterproof, has been found to be the most satisfactory replacement for kapok in life jackets. The principal source of kapok has been cut off since the Japanese occupied Java, and dwindling stockpiles in this country have made it necessary to find a substitute.

Boys and girls who help in the pod collection will be furnished open-mesh bags for picking and drying the pods, and will be paid 20 cents for each bag of dried pods. The pods are ready for picking in the early fall, usually by Sept. 10.

Some Good Yields of Wheat Reported

Albert Jones Getting 30 Bu. Average on 300 Acres; No Threshing Yet.

Despite the prevalence of rust in Valley county wheat fields some excellent yields are being reported, according to Fred Clark, manager of the Farmers elevator, and other Ord grain buyers.

Best to date is that of Albert Jones, who has 300 acres of wheat which is now being combined and who expects an average yield of 30 bushels per acre of wheat testing 60 lbs. The field where he is working now is averaging 35 bushels. This is on summer-fallowed land and Mr. Jones used the seed brought to this county by the late John Hoff.

First wheat sold at the Farmers elevator was brought in last Thursday by Irving King, who already has sold over 2,000 bushels at Ord and North Loup. On the same day Lee Footwangler sold wheat to the Noll Seed company.

Much of the wheat is testing light due to the rust. Dick Thompson, who had one of the most beautiful fields in the county, is getting only a 47-pound test on wheat so far sold. He is getting a pretty fair yield per acre, however.

Ross Leonard had some 58 pound wheat but the average is running about 53 pounds. He got 23.2 bushels per acre. Other wheat sellers include Ed Penas, Hank Stara and John Blaha.

First rye sold in Ord was raised by Henry Vodehnal and was of excellent quality, testing 55 pounds, Clark said.

All the grain sold to date was combined and no threshing rigs are reported in operation. This morning the local price of wheat was $1.39 per bushel. Weather has been ideal for harvesting up to this time.

Hartman Promoted to O'Neill Post

No sooner did the Evan Hartmans get nicely settled down in Ord, buying a home of their own, than he received notice of a nice promotion which means Mr. and Mrs. Hartman will move to O'Neill soon to make their home.

Mr. Hartman will be district conservationist at O'Neill, in charge of about six counties. His work will be largely organizational work there. He will not be transferred until August first or after.

Recently they purchased the home property of the late Will Hawkins and moved in only a few weeks ago. They will likely sell this.

Mrs. Hartman is the present county chairman of the Red Cross. She will leave a vacancy there, and also in Presbyterian church circles where she has been very active.

Start Campaign to Defeat Dry Move at November Polls

Citizens Committee Formed to Fight Prohibition at Nebr. Fall Election.

With Keith Neville, former governor of Nebraska, as chairman, a state-wide committee of people who oppose return of prohibition to Nebraska is now being formed, and an active campaign will be carried on to combat the prohibition amendment which will apparently go on the ballot in November as a referendum.

Anti-Saloon League forces secured over 50,000 signatures on petitions to bring the question to a vote and have started active work to influence public sentiment in favor of again voting Nebraska dry.

Tracy Frost, of St. Paul, former unicameral member for this district, is a field worker for the new citizens committee against prohibition and was in Ord on Tuesday in the interests of this work. Valley county members of the committee's board of directors will be C. J. Mortensen and Mrs. E. C. Leggett, it was announced by Frost.

The Anti-Saloon League seeks by referendum vote, to ban not only sale of hard liquor but sale of beer and wine as well and it envisions a return to national prohibition.

Valley county is regarded as a good "testing ground" for a vote on this controversial subject, for this county has always been about 50 percent for prohibition and 50 percent against it. In 1934 when Nebraska ratified repeal of the national prohibition amendment the vote in this county was 1,990 for repeal and 1,878 against repeal, a diference of only 12 votes. More than 600 Valley county residents signed the referendum petitions to bring about a vote on the question this fall.

While in Ord this week former Senator Frost pointed out that a return to prohibition would mean loss of millions of dollars in state taxes on beer and other alcoholic liquors, and that if both the prohibition and another referendum measure which will be on the ballot, preventing diversion of gas taxes for non-highway purposes, should pass, the loss of revenue to old age assistance and the schools will inevitably mean a sales tax or an 80 percent increase in property tax levies.

Pfc. Hoon's Death Now Is Confirmed

PFC. LLOYD L. HOON

The war department has confirmed the death of Pfc. Lloyd L. Hoon, former Valley county young man who previously was reported "missing in action" somewhere in the Normandy invasion area. Word of his death was received Monday by his brother, Walter Hoon.

Born in Frontier county on Aug. 4, 1906, he moved with his parents, Mr. and Mrs. William Hoon, to Valley county and grew to young manhood here, later going to the Morrill vicinity though he frequently visited in this county. He was called to service Febr. 24, 1942.

He is mourned by his parents, two sisters and nine brothers. A quiet, industrious boy and a hard worker, Pfc. Hoon was universally liked and will be sincerely mourned.

Robert Campbell arrived here Thursday for a visit with his brother and family, Mr. and Mrs. Lem Campbell. Mr. Campbell is enroute to his home in Portland, Ore., from the republican national convention in Chicago, where as a member of the Oregon delegation he helped to nominate Thomas E. Dewey for president. Mr. Campbell served with the First Nebraska Volunteer regiment in the Philippine Islands during the Spanish American war.

THE OLD JUDGE SAYS...

"I don't blame the fellows overseas for gettin' all het up over it, Judge. For the likes of me I can't see what's all the hurry about holdin' these local prohibition elections while they're away."

"I agree with you, Steve. Time after time...in their letters, in articles, in polls taken to get the views of our fighting men... they have indicated in unmistakable terms that they don't want any action taken on prohibition, either *local* or *national*, until they get back."

"Too bad there isn't a law or somethin' to be sure their wishes are carried out, Judge."

"There is in one state I know of, Steve. Just recently it passed a law prohibiting the calling of any prohibition election until a year after the peace is declared."

"That really makes sense to me, Judge."

My Own Column

By H. D. Leggett

A Burwell woman recently had her dining room repapered and then had to get everything new, including a new set of dishes to match the paper.

—O—

The Japs have officially announced that they are executing all allied flyers who land in their territory. This is strictly contrary to international law. I for one would like to see the allies promiscuously bomb the cities of Japan and especially the palace of its ruler. One American soldier is worth more than all the Japs in Japan.

—O—

A good friend subscriber in So. Dakota writes that she used to get her Quiz on Saturday evening, but that now she gets it on Monday and she asks that we not send it so late,, as she wants it Saturday evening. We are very sorry but there is nothing we can do. We take it to the P. O. the same time we always did. The trouble must be in the congested condition of the mails and the shortage of clerks. Anyhow it is not our fault.

—O—

Judge John L. Andersen keeps a bunch of setlines in the river back of his place and as a rule keeps his family supplied with delicious catfish. He also does some farming outside office hours and for the purpose has a tractor cultivator of uncertain parentage and vintage, with which he cultivates his corn and beans. The catfish have not been biting as well as the Judge would like so he conceived the idea of trying the tractor cultivator out on them. As he neared the end of the corn row he looked back to see that everything was trailing along as it should and the next moment found himself, tractor and all in the river. Instinctively the Judge forgot his dignity and made a flying leap off the tractor seat and into the water, probably having visions of being pinned under the machines in the water, but it kept right on going, and not having time to go after a boat with which to chase it, His Honor took out across the river after it and soon had it coralled on a sand bar, where it remained until he could send for a truck and cable with which to rescue it. John would much appreciate being asked for more details by his friends as he meets them.

—O—

I seem to have gotten into disrepute with some of my lady readers of this column. I got a letter the other day from a North Loup lady, which she said I could publish if I would leave her name out. I am unable to use all of it but among other things she said, "I have read your column whenever it was in the Quiz for the past 23 years ever since we were married and as a rule I have pretty much agreed with your ideas but I just can't stand your crazy ideas about dish washing and I am going to tell you why. When I was married I started training my husband to do the dish washing and taught him how I wanted it done. We got along fine till he read your article, and he at once wanted to adopt your method. Of course I objected and an argument followed. He is still washing the dishes and he is doing them my way, but it has caused a lot of grumbling and I dare say it has made trouble for other Valley county housewives as well and you may hear from some of them. You apparently know very little about housekeeping and especially dishwashing and I do hope you will confine your writing to other subjects. It may interest you to know that half the women of North Loup have their husbands wash the dishes and I have no doubt you have offended more women than you realize by presenting your ideas on this subject. I would be willing to bet that you couldn't get this Oscar fellow you mention so often, to do the dishes your way." Well, that's that. I didn't suppose so large a percent of the men had to do the housework as seems to be the case at North Loup.

—O—

Dale Norman claims to be a champion catfish fisherman and to prove it, promised to bring me a nice 4-lb catfish for a consideration, but he has failed to keep his promise. The consideration was that I refrain from mentioning certain things about his cooking that happened to come to my attention. I fear that I shall not be able to refrain much longer.

++ Something Different ++

Well, it's here again. That blankety-blank canning season.

oOo

It accounts for that harried expression you see on the summertime faces of so many women.

Of course there are several kinds of harried-ness.

There is the searching look of the housewife who is afraid she's been outwitted, and the fruit she wanted is all gone. You've seen her, dashing in and out of groceries on a mad chase after plums, or maybe it was apricots she wanted. (Personally I'd do a lot of chasing to lay hands on some red cherries; you know—the kind that make such luscious pie?)

oOo

Then there is another kind of searching—done by the price chaser, the "smart buyer." She tears in and out of various groceries squeezing a peach, or pinching a plum. She eyes the price of the product sharply and disapprovingly, and tries to wheedle the grocer into making HER a special price. So if the fruit is green, she thinks that is a cause for price-reduction. And if the fruit is ripe: "it's really a little too ripe to can, I don't know—(long pause) —would you care to make me a special price on it?"

oOo

But the canning female does not get the true bothered expression until she takes to the kitchen.

There, after fiddling with hot jars, hot water, boiling baths, pressure cookers, lids, rubbers, oven-drying and labelling . . . . skipping cheerfully all mention of the fruit or vegetable for the actual canning,—there, she gets herself almost as stewed as the "product."

The juice stains her hands and gets all over the kitchen. The counters get messy, the knives and bowls get goopy, and even the chairs get a bit sticky. The floor suffers a slop here and a splash there.

The cook's stained dress catches, a pocket rips half-off, adding to the delightful overall effect of the kitchen. Numberless pans of watery suds are everywhere; stacks of kettles crowded in the sink; there is an overflowing garbage pail, or perhaps the peelings went in the dishpan which is now stacking closer to heaven every minute.

Some fruit sits in water, some is just lifted out, some is in the basket drawing those ornery little gnats.

And Mother's in the midst of it all, striving to bring the ordeal to a conclusion. The children scramble through occasionally, eating too much fruit unless closely watched.

"Oh, Dear!" thinks the good lady. Or perhaps she thinks "Oh, Darn!". . . this depends on whether she is a lady or merely a woman.

Eventually, it ends.

oOo

About the time the Canning Lady HATES peaches, she finds she has reached the bottom of the basket and there isn't another panful to scald, after all.

Whoops, Yips, Aha, Ahoy, she can see out!

The work goes faster and Mother drags out a few smiles as she piles the dirty pans up, and wipes up the counters and views her work.

oOo

One more summer the labor pains are forgotten in the pride of creation.

oOoo

And next winter, when she serves them, and someone compliments her on the "lovely peaches, and such a delicious flavor" she will smile graciously, look mysterious, and answer graciously "Oh, I have always liked to can."

BACK FORTY

By J. A. Kovanda

Many fine looking winter wheat fields in this locality are becoming heavily rusted. A laboratory study tells us that they are infected with blackstem rust, deadliest of all rusts. There is considerable of this rust throughout the state, and wheat that has not begun to turn will be severely damaged.

Late ripening of grain this year has greatly increased infection. Weather conditions were also favorable to the development of rusts, in that stems and leaves held moisture after rains and heavy dews.

For several years our agriculture students operated a rust observatory here. They exposed greased slides and found that southern winds brought in both blackstem and orange leaf rust spores by the middle of May during some seasons.

Blackstem rust is also spread by barberry bushes. Most of the destructive outbreaks of blackstem rust in Valley county have been traced to the common barberry. Several hundred of these bushes have been destroyed locally, but there are probably a few left.

So-called rust resistant varieties of wheat have been experimented with in Nebraska for a number of years, but the results to date are rather disappointing. Ceres spring wheat seems to have more rust resistance than any winter varieties.

FALSE TEETH

THAT LOOSEN

NEED NOT EMBARRASS

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wabbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plate. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

How to bake a fruit pie easily

THIS TIME of year, with delicious fresh fruits available, all of us want to make use of them in as many different ways as possible. And one good way is in *pies!*

Even the pastry can be made on an easy summer-time schedule. Here's a suggestion: make a *double* batch of your favorite pastry recipe, putting it together in the "cool of the morning." What you don't use immediately can be left dry, or moistened and wrapped in waxed paper, before placing it in the refrigerator.

Fresh fruit pies are simple to make. Here's a recipe for example, which can be used with peaches, plums, cherries, rhubarb, berries, or a combination of fruits:

FRESH FRUIT PIE

3 to 4 cups of cleaned whole berries or sliced fresh fruit
3 tbsps. flour
¼ tsp. salt
1 tbsp. butter or margarine
1 to 1½ cups sugar
Pastry

Prepare fruit, combine dry ingredients and add, adjusting amounts of sugar and flour depending upon fruit's sweetness and juiciness; mix thoroughly. Line pie plate with pastry, and fill with fruit mixture; dot with butter or margarine. Cut slits in top crust; place over pie, crimping edges. Bake in hot oven (450° F.) 10 minutes; reduce heat to moderate oven (350° F.) and continue baking 20 to 30 minutes or until done. (1 to 2 tbsps. of lemon juice will bring out the flavor in bland fruit.)

CATHOLICS SAY . . .

—No. 16.—Personal Sin. A baby is subject to its parents. It takes its food and sleeps at their bidding. It gets its initial training of mind and heart from them. This is just plain natural law and no reasonable person questions it.

But when a baby first whimpers its way into this world, it also becomes a subject of God Who has more to do with its existence than even its parents. When a child reaches a certain age, it becomes independent of its parents. But it never becomes independent of God. From the time it acquires the use of reason, it must keep God's laws. If it knowingly and deliberately violates them, it commits a personal sin. The sin is called personal because the guilty individual and no one else is responsible.

That is what Catholics mean when they speak of personal sin. Even when the word "sin" is used figuratively, it always means the breaking of some rule or custom or technique. Thus the man who eats spaghetti with his fingers sins against the laws of etiquette. Trying to steal with the bases loaded is a sin against the basic principal of baseball.

But for Catholics the one, true, literal meaning of the word has to do with offenses against God's laws. Wilfully disobedient children commit sin. People who take the property of others or who procure sexual pleasure outside of marriage commit sin. Any wilful violation of God's ten commandments is a sin.

Of course, all sins are not equally bad. A vast difference exists between stealing your neighbor's pencil and stealing his pay check. But if any man knows God's law and freely flouts it, he commits a PERSONAL sin. If it is venomous enough to destroy God's friendship, it is called MORTAL sin. If it is but a minor offense, it is called a VENIAL sin.

Eggplants Welcome, Nutritious Extra to Menus

Big, purple eggplant fruits are a welcome addition to the late summer menu, of high nutritive value. They are also decorative, since no harvest basket would be complete without this beautiful vegetable to complete its color balance.

For a meatless meal, eggplant will provide a substantial main dish. Of American origin, it has made its way around the world and is especially popular in the Mediterranean area and in the Orient. The chief limitation upon its use in this country is the lack of imagination among the cooks, who have learned few of the many appetizing ways in which this vegetable can be served.

This is a slow growing vegetable, and plants should be started under protection. Since only a few are required for the home garden, they can usually be purchased. Being very tender, the plants should not be set out until all danger of frost has passed.

They require rich soil and should be spaced 18 inches apart in a row. As soon as the fruit begins to set, additional applications of plant food should be made, as side dressings, to insure full development. Do not allow the fruit to stay too long on the plant. It is of good quality as long as the skin remains glossy but when it begins to dull the fruit is too old to use.

Raspberries Grow Good On Well-Drained Soil

Any gardener who has well-drained soil can grow raspberries; but they are sensitive to poorly-drained soil. They grow well on soils ranging from sandy loam to clay loam, and send their roots down 3 or 4 feet if the subsoil is deep. The soil should be manured heavily and tilled well before the plants are set.

Spring planting should be as early as the ground is ready. Black and purple raspberries should always be planted in spring, red raspberries may be planted in either fall or spring. It is best to get plants from a nursery or grower whose plants have been inspected and proved to be disease-free.

Plant red raspberries 3 feet apart in rows of 7 feet apart, and keep the rows narrow. Black and purple raspberries can be set 3 or 4 feet apart in rows 7 or 8 feet apart, as they remain in hills.

Roots of the plants should be protected from drying in planting. Set the plants 2 or 3 inches deeper than they previously stood.

British Nutrition

America has made a notable contribution to good nutrition in England during wartime, said J. G. Hopkins, a member of the British Food Mission. Before the war Mr. Hopkins was a dairy products importer in London. One great contribution of America's dairy industry, the speaker said, was nonfat dry milk solids, which is marketed at retail in England under the name of National Household Milk. English production of milk has declined, for even the cow is rationed as to feed and so many acres have been turned from pasture to the production of human foods. In spite of this, consumption of liquid milk has increased. It is largely reserved for children. Shortage of proteins because of less meat production has been partly compensated for by the heavy importations of nonfat dry milk solids from America. Also there has been more cheese from New Zealand, Australia and Canada, so that British consumption of all dairy products, expressed in terms of milk solids, has increased from 38 pounds per capita before the war to 49 pounds per capita at the present time.

Brazilian Irrigation

A drouth area of more than 260,000 square miles in the Brazilian states of Maranhao, Piaui and Ceara is soon to be converted into a fertile, productive region by irrigation projects nearing completion in the South American republic. The Brazilian government has diverted more than 2,000,000,000 cubic meters of reservoir water into the area during the past 10 years, and the work of irrigation is being intensified to keep pace with Brazil's growing economic requirements. A big dam, with a storage capacity of 720,000,000 cubic meters, is being finished at Curema, and is expected to develop hydroelectric power of a 2,000-horsepower output. Besides irrigation ditches and dams, a large network of roads is being built in the region to provide adequate transportation.

Additional irrigation and hydroelectric projects contemplated by the Brazilian government include tapping the San Francisco river for a hydroelectric output estimated at 750,000 horsepower.

Common Words

English words are common among sailors of some other nationalities, the Dutch and Norwegian, for instance. Despite different languages spoken by these seafaring men, they call the ship's captain "Old Man" and the chief engineer "Chief." English frequently is preferred for such things as galley, fo'c'sle (forecastle), bearing, crosshead, waste, cofferdam, crowsnest, tarpaulin, gangway. Yet other nationalities usually use their own words for port, starboard, rudder and wheel. Many English words are, of course, derived from other languages, such as these three from the Dutch: skipper from schipper, yacht from jacht and taffrail from tafereel.

Don't Pamper Chicks For Vigorous Growth

"Don't pamper baby chicks too much after the first week or ten days if you want to develop vigorous, healthy, well-feathered birds," Harriette E. Cushman, extension poultry specialist at Montana State college, says.

Probably more trouble results from keeping the brooder house too hot than from any other one cause, she said. Overheating tends to produce anemic, listless chicks with faulty elimination, she explained.

When chicks are first put in the brooder they need a temperature of about 90 degrees at the edge of the hover. After two or three days the temperature may be dropped one degree a day, bringing it down to about 70 degrees when the chicks are three weeks old. Arranging a curtain of some sort around the outer edge of the hover will provide a variety of temperatures and make it possible for the chicks to get away from the heat.

Miss Cushman also recommends letting the chicks run outdoors in good weather after they are ten days to two weeks old. If they can get from the warm brooder to the colder part of the house and in turn outdoors, they are more active, feather better, grow better and have bigger appetites, she said.

Workers' Pay

The year 1944 started off with the factory worker's average hourly pay at the highest level in history, according to the Alexander Hamilton institute. In January this year, he received over $1.00 an hour, or 57.9 per cent more than in the prewar month of August, 1939. In addition to receiving higher pay per hour, the factory worker, on the average, put in 24.9 per cent more time at his job in January than in August, 1939.

Consequently, the worker's actual earnings, averaging $45.15 a week in January, were 97.3 per cent higher than before the war, a considerably larger increase than that shown by hourly earnings. Both hourly earnings and weekly earnings of the factory worker showed a much greater rise after the outbreak of the war than the cost of living, exclusive of income taxes. The cost of living index, as compiled by the National Industrial Conference board, was only 23.7 per cent higher in January this year than in August, 1939.

Rinse Tub

After each washing, rinse the wash machine tub and agitator, and drain well. Remove any lint from the drain pipe, and dry tub and agitator with clean cloth. Don't scour the tub with harsh abrasives to remove deposit from hard water. This coating generally can be removed by rubbing with a cloth dipped in vinegar water—about four tablespoons to a pint of water. Wipe the wringer with a damp cloth and dry well. Always release the pressure on the rolls. Cover machine and wringer to keep them free of dust and grime.

After disconnecting the cord, wipe it with a damp cloth, then wipe dry. Grease and dirt will cause the rubber to deteriorate. Coil the cord loosely over the hook on the side of the washer after each use. Leave lid off or slightly ajar, and store washer in dry, clean place.

Penicillin Effective

Penicillin is remarkably effective against such diseases as pneumonia, meningitis osteomyelitis (infections of the bone), carbuncles and gonorrhea and promises to be of great value in syphilis. Penicillin has to be injected. It has the marked advantage over the sulfonamides in that the toxic reactions are few and relatively mild and for the most part negligible. Among reactions that may occur are chills, fever, blood clots at the site of injection and tenderness, hives, headache and some tingling. It is thought that some of these reactions may be due to impurities in the preparations and as the material becomes purer these reactions will become less.

Pilchard Catch

A considerable portion of the pilchard catch is reduced to oil and meal. The meal is used in the manufacture of poultry feed to provide the indispensable animal protein, and the oil, which is a source of vitamin D, is also used to fortify feed and has many industrial uses. Production of meal this year was 76,032 tons, compared with 71,823 tons in 1942-43, and oil production was 14,304,253 gallons, as against 12,508,958.

Beauty Costs No More

When painting to protect property, it costs no more to select a modern, attractive color scheme than it does to use an unattractive color, but the result is worth a lot more to the property owner. Well-chosen, cheerful colors also contribute to the morale of the occupants of a building, and have an uplifting effect upon the entire adjacent community.

NORTH LOUP

(Crowded out last week)

The large bank of beautiful flowers were cared for by Mrs. A. L. Willoughby, Mrs. Jim Coleman, Mrs. F. N. Redlon, Mrs. Lee Mulligan, Mrs. Boyd Mulligan and Selma Robbins.

Clark Alton Roby, eldest son of George and Ada Roby was born near Bloomfield, Nebr. on May 31, 1899 and departed this life at his home in North Loup. July 8, 1944, at the age of 45 years, one month and eight days.

When a small boy he moved to Custer county with his parents, which was his home till 1924 when he came to Valley county which has since been his home.

He was married to Bessie Esther Weed, March 7, 1926. To this union were born two daughters, Venetta Ann, aged 14 ad Illa Jean, 10. Besides his widow and daughters he is survived by one brother, Forest, of Baker, Mont., and a number of nieces and nephews. His parents and six sisters preceded him in death.

Friendly to everyone and especially to children and young people, his ready smile and quick wit endeared him to all who knew him. Even in his last hours he enjoyed the calls of his friends. He was a member of the I. O. O. F. lodge and held nearly every office in the local lodge.

Here for the funeral from out of town were Mr. Roby's niece, Miss Madeline Cooper of Rapid City, S. D., Cpl. Virgil Annyas of the U. S. air corps and stationed at LaJunta, Colo., Mr. and Mrs E. H. Weed and two daughters of Green River Wyo., Mr. and Mrs. Wm. Waddington of Cairo, Mr. and Mrs. Carl Unger of Ravenna, Mr. and Mrs. Ray Post of Archer, Mr. and Mrs. George Sadler of Kearney. Dinner for the family and relatives was served at the home of Mr. and Mrs. Ed Post Tuesday.

Mr. and Mrs. Reuben Athey and daughter Cozette of Tekamah and Mr. and Mrs. Chas. Johnson and daughter Eva, of Decatur came over Tuesday morning for the Clark Roby funeral and remained over night. A picnic supper was held in their honor Tuesday evening at the home of Mr. and Mrs. Walter Thorngate. Guests included Mr. and Mrs. John Palser, Mr. and Mrs Carol Palser and family, Mr. and Mrs. Earnest Johnson, Frank Johnson and Mrs. George Sample.

Mr. and Mrs. Paul Goodrich drove to Grand Island Monday evening to meet Cpl. Virgil Annyas. He returned to his base at LaJunta, Colo., Wednesday evening.

A family dinner honoring Sgt. Virgil Annyas was held Wednesday at the home of Mr. and Mrs. Harry Waller.

Mrs. George Eberhart accompanied her husband to Omaha last Tuesday evening and spent the day Wednesday with her daughter, Gwendolyn, who is working in Omaha this summer and staying in the Halsey Schultz home. Although Mary Schultz has had a "flare-up" with her injured leg, and been under the doctor's care again, she was better and is able to walk without the aid of her crutches or a brace.

Mrs. H. D. Kasson spent last week with the Devillo Fish and Charles Kasson families, returning to the H. L. Klinginsmith home Sunday.

Mrs. W. H. Vodehnal entertained the two table bridge club at her home Tuesday evening.

Because so many of the young people are out of town for the summer it has been decided to close the Teen Canteen for two months, till school opens, when there will be more interest. For several weeks very few have been taking advantage of the recreation center and this decision was reached by the council Tuesday. The rooms will be open Wednesday evening of this week, but not after that till further notice.

Mr. and Mrs. E. H. Weed and two daughters went to Wood River Wednesday morning where they visited till Friday and then went on to their home in Green River, Wyo.

Kill Tomato Diseases

To kill diseases carried on tomato seeds, soak the seeds 25 minutes in water at 122 degrees temperature. Use an accurate thermometer, and wet the seeds in warm water before putting them in the hot water. A loose cheesecloth bag makes a good container for the seed. Dip the seeds in cold water after the treatment, and dry them on paper. When dry, dust the seeds with Arasan or Semesan to prevent seed rot and damping off. Then they are ready to plant.

Our Fighting Men

Mr. and Mrs. Andrew Kapustka have received word from their son, Pfc. Louis Kapustka, that he was wounded in action and is now in a hospital in France. He suffered an arm wound which will not prove serious, it is thought. Louis is a member of the 90th division.

S Sgt. Harold Marshall is here on leave, coming from a hospital at Topeka, Kans., where he had been under treatment for the after-effects of malaria. Sgt. Marshall has been overseas 4½ years and this is his fourth attack of malaria. His brother, Pvt. Bob Marshall, has also been home on furlough and just returned to duty at Camp Beale, Calif.

A photo of Pfc. Edwin Szwanek, who was killed in action in New Guinea, appears below. Through error a picture of Pfc. Szwanek's brother was used last week in connection with the story, which we regret.

S Sgt. Harold Marshall, son of Mr. and Mrs. Charlie Marshall, will leave Ord Friday to return to Topeka, Kans., after a 15-day furlough.

ARM Charles Roberts is spending a 20-day leave from the naval air station at Norfolk, Va., in Ord. His parents are Mr. and Mrs. I. E. Roberts, who operate the Diner hamburger stand.

Mr. and Mrs. J. B. Zulkoski received a letter from their son Rolland, who is now in France, stating that he met Joe Proskocil, jr., at a Red Cross dance. Both young fellows were pleased at the surprise meeting, and enjoyed a good visit.

Ensign Allen Zikmund and Mrs. Zikmund arrived Friday for a 14-day leave. After a week in Ord he will return to New York City where he is aide to the commandant of the midshipmen's school. Tuesday Ens. and Mrs. Zikmund and his parents, Mr. and Mrs. Henry Zikmund, and their relatives Mr. and Mrs. Harold Christiansen and his parents, Mr. and Mrs. Raymond Christiansen went to Ericson to enjoy the fishing. Harold Christiansen came from Chanute Field, Ill., on Thursday, and is being transferred to a Texas post. He is in the intelligence department of the air force.

Visiting his mother and brother at North Loup is First Lt. Russell Hill, who is on furlough and will depart Saturday to return to his post, which is a replacement center. Lt. Hill has been in the army 3 years, two of them at Camp Wheeler, Ga. He likes army life and it evidently likes him, for he is looking brown and fit. Before entering the service he operated a second-hand book store at Memphis, Tenn., and he hopes to return to this work when released from service.

Cpl. "Corky" Biemond arrived home Tuesday evening of last week from the Ontario airbase at Ontario, Calif., happy about having a two weeks furlough. He has been in the army nearly two years and this is the second furlough he has had. He is the eldest son of Mr. and Mrs. M. Biemond.

Leonard Dlugosh, RM 3-c, has been transferred from a shore station aboard ship, and wishes his Quiz to be sent through New York fleet postoffice, to U. S. S. Density.

Cpl. Darrell Fish has been home for ten days vacation and is newly transferred to a Florida camp.

240,000 Jews Are Held in One Camp

News of Concentration Is Learned by Accident

STOCKHOLM.—The small Czechoslovakian town of Marie Theresienstadt, with a pre-war population of 17,000, now accommodates 240,000 Jews from all corners of Europe, imprisoned there by the Nazis under the doctrine of Aryan superiority.

Some details of this huge concentration camp, located between Prague and Dresden, reached neutral Sweden by accident. When the Nazis deported between 500 and 600 Danish citizens of Jewish origin to Marie Theresienstadt, they made the error of sending away several of pure Aryan stock. After four months of unspeakable experiences, the mistake was "corrected" and they were returned to Denmark.

Danish patriots have since reported their experiences through the underground news network.

Jews from Holland, Norway, Belgium, France, Greece, Italy, Rumania, Serbia, Croatia, Hungary and Poland comprise the population of Marie Theresienstadt. There are no Russian Jews; reports say the Germans always shoot them.

Two-thirds of the Jewish inhabitants are forced to work in German war industries situated in the town, mostly plants producing poisonous chemicals. Others are employed on works projects in the town, including a sewage system to accommodate the enormous increase in population.

Many Jews, despairing of any lessening of their load of misery, are committing suicide by attempting to escape. Two or three daily take this easiest way of ending their lives. Successful escape is almost impossible in this concentration camp, and failure is sure death.

Employment Dips 200,000 In Month; Idle Decline

WASHINGTON. — Total employment in this country declined by 200,000 during February to 50,200,000, the lowest level recorded in the last two years, the census bureau reported. The decrease from January, the bureau said, took place entirely among women.

Total wartime employment reached a peak of 54,800,000 in August, 1942, dropped to 51,700,000 in January and February, 1943, climbed to 54,600,000 last July, and has been falling slowly ever since.

Employment of women reached a wartime peak of 17,900,000 last July and has been declining since.

Despite the February decline, unemployment also decreased, dropping from 1,100,000 in January to 900,000, the wartime low which was maintained from October, 1943, to January.

That was explained, the bureau said, by the fact that the number of nonworkers—persons not seeking jobs—increased by 200,000 during January to 42,400,000 in February, the highest total in this category since March, 1943.

Upholds a 'Tardy' Girl Who Needed '40 Winks'

HARTFORD, CONN. — Alarm clocks have been classified as "diabolical inventions and devices" by Cornelius A. Moylan, compensation commissioner, in a finding which declares that sleep beyond the hour recorded on the clock is not sufficient cause for the dismissal of a war worker for tardiness.

The judgment upheld an appeal filed by Theresa Meli, who was discharged from a Hartford war plant several weeks ago for tardiness.

"Anyone who says he gets out of bed on time joyously and with much gusto appears to me to be a prevaricator of parts," Mr. Moylan stated in declaring that Miss Meli's tardiness had justification.

Commissioner Moylan attributed Miss Meli's difficulties to "the desire of the inert recliner to take advantage of an additional 40 winks."

Washstands First With Marines; Clever Jewelers

CAPE GLOUCESTER, NEW BRITAIN.—Washstands are of first importance to marines when they set up a new bivouac area. A tripod to hold an upturned helmet as a wash basin, next to a shelf on a post or a tree, fills the bill. Marines usually keep themselves clean-shaved even in battle areas. A wound on a clean-shaved face is much easier to treat.

Marines make amazingly pretty jewelry, from the plainest to the gaudiest, from sheet-aluminum and other parts of downed Jap planes. Bracelets, wrist-watch bands and rings, with ornate settings that would challenge the art of any goldsmith, are popular. Pendants and ash-trays are also favorites.

Old $200 Harvester Yields $320 in Britain

LONDON. — There's no price control on old farm machinery in Britain, Charles Shaw, CBS correspondent, reported.

In 1929 a British farmer bought a horse-drawn harvest binder for $200. Thirteen years later, in 1942, he sold it for $12. That same binder was sold at auction the other day for $320.

Tooth Cavities

Of American youth entering the armed services, 98 out of every 100 have cavities in their teeth, with some 18-year-olds having as many as a dozen.

Costly Mace

The costly mace is the shadow of another spice. Between the two hard shells of a nutmeg kernel is a lace-like fragile membrane—the guazy filament or mace that must be separated from the shell by hands with the skill of a surgeon. Several hundred pounds of nutmeg often produce but a single pound of this unsubstantial, delicate spice. The nutmeg tree is a native of the Moluccas but it has emigrated to the West Indies and now to Brazil.

Western Aspect

Odessa, Russia, was built by order of Catherine the Great, about the time Washington, D. C., was founded. Like Washington, it was constructed largely on reclaimed swampland and wilderness after plans made by a Frenchman. The first leaders of the new municipality were either western Europeans or were English-educated and gave to Odessa an occidental aspect unknown to other Russian cities.

Valley County 3rd in Nebraska in Big Fifth Bond Drive

People Here Bought 146% of Quota for $518,203 Total; Many Counties Lagged.

Valley county people, up to July 24, have bought a total of $518,203 in war bonds in the 5th War Loan Drive which closes with the end of July, and thus had bought 146% of the over-all quota assigned them, it was stated Tuesday by C. J. Mortensen, war finance chairman for the county, upon receipt of latest Feedral Reserve bank figures.

This wonderful record was surpassed by only two Nebraska counties, Burt which made 163% of quota, and Loup, which made 151%. Valley county thus stands third among all the counties in its response to 5th War Loan needs.

In the purchase of individual bonds Valley county has an excellent record also, having purchased 135% of quota to stand second only to Loup county in Group 1 of the World-Herald's contest. This county's individual bond quota was $293,000 and bond purchases by individuals totalled $402,450.

War Finance Chairman Mortensen urges bond buyers to buy "E" and "G" bonds up to Saturday of this week and their purchases will be credited to this county in the contest, which might enable us to overtake Loup and still win 1st place. Reports on "E" and "G" purchases must be received by the Federal Reserve bank not later than Monday to be counted.

500 More Workers Urgently Needed

Five hundred additional workers are needed as soon as possible—250 of them within the next week—to meet labor requirements for greatly increased production at the Cornhusker Ordnance Plant, plant officials announced today.

General Manager Myer Avedovech, of the Q. O. Ordnance Corporation, plant operator, emphasized the necessity of meeting labor needs in a short period of time so that production may keep pace with the larger schedule asked of the plant by the War Department.

The offensives being launched by American forces in the various war theatres call for a larger and larger supply of ammunition, the officials said, and that supply can only be kept up by additional output. Plant quotas set by the War Department for the next few months are considerably larger than any assigned thus far for the use of all plant facilities.

Both men and women workers are needed for production lines, and the Employment Department, together with the United States Employment, Service, has undertaken a campaign to employ new workers.

Applicants should go to the United States Employment Service office in their community; or, if there is not a permanent office there, see the interviewers on their regular visits. Time of visitations of USES or plant interviewers in the various communities will be posted in community post offices and otherwise publicized. No experience is necessary, and the minimum age for hiring is 18 years. Applicants may apply directly at the plant employment office on the area. All hiring must conform to War Manpower Commission stabilization rules.

The Cornhusker Ordnance Plant ranked highest of all government-owned, contractor-operated plants in the country in its division in the national safety contest sponsored jointly by the Office of the Chief of Ordnance and the National Safety Council at the end of the eleventh month of the year-long competition. The percentage of absenteeism at the plant is among the lowest for other similar establishments.

Bad Hail Storm Feared Tuesday but Damage Light

Good Rains Reported in Few Sections but Main Storm Went Around Ord.

After two days of falling barometer, Ord residents feared a bad hail storm was in prospect when skies clouded and a strong north wind sprung up Tuesday evening, but inquiries by the Quiz Wednesday failed to reveal any extensive hail damage, though hail fell in some neighborhoods. Everywhere the report is that slight hail damage was offset by good rains.

Only a trace of rain fell in Ord, adding to .38 of an inch which fell Saturday night and Sunday morning.

About a half-inch fell in the sand flats Tuesday evening and several other localities got about the same amount. Unverified reports say that 3 to 4 inches of rain fell in the Wegrzyn community northeast of Ord. Some rain southwest of Ord has been reported also.

Prospects for a good corn crop are the best in many years. Corn is tasseling and there appears to be sufficient moisture in the ground at present, barring a spell of hot, dry winds, to insure continued growth. A good general rain in the next week or ten days would almost insure a good corn crop throughout the county.

31 Teachers Still Needed in Rural Schools of County

Must Qualify an Emergency Group, It Seems; Exams Coming August 11th.

Clara M. McClatchey, county superintendent, today asked the press to cooperate with her by informing regularly certified teachers in this county who have not signed contracts that if they wish a teaching position for the coming school year, they should notify her office immediately. Miss McClatchey points out that she must certify to the Superintendent of Public Instruction that there are no regularly certificated teachers available before the local boards of education can make application for temporary teaching certificates.

The county superintendent points out that unless those legally certificated teachers who wish positions make their intentions known to her immediately, she must begin to accept the applications of boards of education for temporary certificates in order to provide educational opportunities for the boys and girls of Nebraska.

She says by August 1 the Superintendent of Public Instruction will, on the basis of information obtained from the various county superintendents in the state, make an estimate of the needed temporary teachers and that he will then assume that all regularly certificated teachers who wish to teach have either signed contracts or made known to the county superintendent that they are available.

In Valley county there are still thirty-one teaching positions that have not been filled or at least have not been reported as filled. It appears that we will have to qualify a number of emergency teachers in Ord to keep the necessary schools open next year.

The state superintendent's office has announced special examinations to be held in thirty different towns in Nebraska during the week of August 7 to 12. As was announced before, those examinations will be held in Ord on August 11th. Anyone who will need to renew an emergency certificate should get in contact with this office. Also those who can qualify for their first emergency certificate should leave their names at the county superintendent's office.

Farmer Harvests State's Brome Grass

The Nebraska highway department had a nice crop of brome grass seed growing along the right-of-way between Ord and the Henry Stara farm and were planning to harvest it this week and use the crop in planting the right-of-way between Ord and St. Paul later in the season. But Monday a farmer moved in with his combine and harvested the entire crop of brome grass, without having sought permission from the state to do so, according to Roy Randolph, state highway engineer stationed here.

Steps are being taken to get the valuable seed back from the harvester and use it as originally planned, Randolph says.

Interest High in Beginners' Band

46 Already Signed Up and Rehearsals Start Tuesday, Says Dr. Auble.

There are forty-six school children signed up for the new Ord beginners' band and thirty-eight of them have instruments and are ready to start, says the director, Dr. Glen Auble. Dr. Auble is sure that the number will reach fifty and possibly sixty before next Tuesday.

FSA Looks Ahead to Better Service

Farm Security has been asked by Congress to continue in its program of helping family-type farmers maintain their outstanding food production work during the next year.

As before, loans will be made to farm families unable to get credit from other sources. The county FSA committee will help determine credit and supervision needs for loan applicants. New loans will be limited to $2500.00.

Farm ownership loans will be made to eligible farm families where farms can be bought at prices justified by normal production and long time prices for products. This means that inflationary prices for land are out.

Special effort will be made to have all FSA services available for soldiers returning to farm life. This includes standard loans, farm ownership loans, water facilities and other assistance pertaining to farm matters.

One farm ownership loan has been approved in Valley county this past fiscal year.

Fourteen initial standard loans were made during the year and FSA families repaid $76,883 during the year.

Two Methods by Which Soldiers May Get Ballots

Postcard Application Goes to Lincoln by New Law, Ballots Mailed Sept. 28.

In answer to many requests for such information, County Clerk Ign. Klima, jr., yesterday explained the two methods by which soldiers in this country and overseas and other absent voters may obtain ballots to vote in the November election.

The easiest method for soldiers is to use the new ballot application postcards which are being distributed to all service men by the military authorities. These postcards are to be filled out by soldiers who wish to vote, and are mailed to the secretary of state at Lincoln.

In the case of Valley county soldiers who send such cards, the secretary mails them upon receipt to County Clerk Klima, who then sees that ballots are mailed to the soldier as soon as they are ready, which will be on Sept. 28.

Civilian absent voters, or soldiers who do not use the postcard method, may obtain ballots by writing directly to the county clerk's office, giving name, home address and address to which the ballot should be sent.

County Clerk Klima will begin handling requests for ballots on August 9, under the law. Applications for ballots may be accepted not more than 90 days nor less than two clear days before the general election, which comes on Nov. 6.

Nebraska's new law requires that absent voter ballots are to be ready 40 days before election, and they will be mailed to applicants as soon as they are ready. Ballots must be marked and mailed by the voter not later than midnight the day before election and must be in the hands of the county clerk by 10 a. m., Nov. 30, which is 23 days after the election, to be counted. They are scheduled to travel by air mail, in special envelopes provided by the state.

Valley county soldiers who expect to vote should apply for ballots at once, preferably thru military channels by the postcard method outlined above.

Fees Decided and Threshing Starts

Threshing has started in Valley county with the John Janus rig believed to be the first to get under way. There are about 90 threshing outfits in the county but not all of them will be operated this season, partly because the small grain crop is shorter than usual and partly because of the help shortage.

Fees being charged generally this season are 5c per bushel for oats, 6c for barley, 8c for wheat in fields that make 15 bushels or more per acre, and 10c in fields that made less than 15 bushels to the acre. Flat charge agreed on is $3.50 per hour.

CHAS. E. SANDALL SAYS:

"WE MAINTAIN HIGH TAVERN STANDARDS BY EDUCATION"

This Committee's chief aim is to maintain good conditions in places where legal beer is sold. Since the best informed tavern keepers are generally those who best conduct their places in the public interest, we supply helpful booklets, bulletins and other educational matter, suggesting the best ways to conduct their places. As a result, Nebraska taverns have improved and, with our help, will continue to improve.

"Good Soldier"

The proudest title in the Army

IT CONSISTS of two simple words.

Yet every soldier who's worth his salt covets it.

This title is simply:

"Good Soldier."

It isn't just happenstance that so many women in the WAC have earned this title—the proudest in the Army.

For wherever Wacs are working, both here and overseas, there you find a job well done. And done with a spirit so gallant and fine that high Army officers everywhere say of the WAC...

"They're soldiers. *Good soldiers!*"

My Own Column

By H. D. Leggett

I thought to have Irish stew one day last week and while we were eating breakfast I told Oscar about it so he laid off several pancakes. I got a nice piece of beef, the kind that don't take points and put it to cook in the deep well on the electric stove and planned on going up about 10 to prepare potatoes, carrots, cabbage and onions. But I got busy and it was after 11 before I thought of it. So, I said we will go to the cafe this time but then I forgot to turn the fire off. When I went up at 12 there was a smell of burned meat and there was blue smoke in the kitchen. No, the meat was not entirely ruined and we used it for cold meat but there was a near-spoiled kettle. I scrubbed and scoured and washed, got black, greasy stuff over everything but it just wouldn't all come off and it smelled of burnt something. Then I thought of a new way to meet such situations and can heartily recommend it. I cut up a button of garlic and put it in the kettle with a little water and gave it a good boiling, then by not washing it we could cook in it and never tasted the burnt meat a bit.

—O—

An authority says that gasoline will still be rationed after the German war ends, primarily to save tires. All the people must be regulated by government because a few don't know enough to drive only when it is necessary.

—O—

Oscar drove over to Elgin Saturday to visit over Sunday and to help celebrate his brother's birthday, which will occur next Sunday. He had misread the letter inviting him. But, anyhow, I was left alone so I busied myself part of the time cooking. I cooked a batch of baked beans and pork, made a bread pudding, canned some beets, cooked a mess of string beans while I had time, and planned on putting them in the ice box ready for a quick get-ready one of the first days this week. I got a "good scald" on the baked beans as the fellow said, the pickles are fine, the bread pudding was good but it would have been better if I had not forgot to put the seasoning extract in. But the string beans were a flop, all because I went downstairs to do something else and forgot them for a while and it took quite a while to get the smoke out of the house and the kettle cleaned. It would have been easier to clean the kettle had I not cooked some bacon with them.

—O—

Some wise person has rightly said that education is only a veneer after all.

—O—

I handle several hundred packages of photos each week, that come to the engraving department, and many are marked "Do not bend" yet the shippers will stick a thin photograph 8 x 10 inches in size, into an envelope and send without other protection and frequently it is so creased that it is impossible to make a good engraving. I wonder how shippers expect the postoffice people to ship such packages without bending them.

—O—

Henry Wallace is now on the way out after losing the nomination at Chicago last week, and in a few months more he will be seldom heard of. He is a communist at heart, was left a fortune by his people, was unable to make money or keep what was given him. We are frequently given financial failures however, to run the bigger business of government, when as a matter of fact the best business man possible should be selected, drafted if necessary.

—O—

Look at the date on your paper. Perhaps it expired July 15 or will expire August 15, which will along soon.

++ Something Different ++

Arguments for purchasing war bonds are as sound one week as another, whether a war loan drive is on or not. Here then, is the letter which won Valley county's Mrs. Smith one of ten prizes:

Contest Editor
Radio Station KFAB
Dear Sir:

I am a homemaker, which means a wee small cog among many larger ones on a farm. As on most farms mother's extra cash is practically nil for the fulfillment of some of her most cherished dreams. Nevertheless, feel as if I, as an individual, want to help in putting over the Fifth War Bond drive.

It is my duty as a citizen of the United States of America to answer Uncle Sam's call and give him a "boost" when he needs it; especially since he has helped in procuring our home. Since these are very busy days, there is no time for that spare-time job off the farm. By saving waste paper, scrap-iron and grease my problem is solved. I have not only helped my old uncle by these savings but have made it possible for me to buy that "dream" bond.

That "dream" bond will pay a debt of gratitude to an institution that trained me for my life's work. Also, it means an investment in its future for the development of young people who may be our returned soldiers from the battle front or others who must carry on.

Russell Hill, North Loup boy who became a Memphis bookdealer until Uncle Sam got him, owns a letter the Democrats should NOT quote: perhaps they'd do best to burn it.

The valuable letter was written by Andrew Jackson, that patron saint of the Democratic party. Authentic, and only recently recovered, listen to what Andrew says:

"Had to stay in Washington this summer. Congress has gone stark, staring mad, appropriating one million dollars more than the revenue taken in."

What would Andrew say to the modern endeavors of the Democrats? He knew plenty of swear words, but would any of them fit the present financial nightmare in which the United States plunges deeper every four years,

oOo

Once there was a delightful lady who understood little about money matters, credit and so forth—and that little didn't bother her.

With little planning or worry she opened a boarding house, and seemed to get along splendidly. The boarders liked the extra good meals she served.

"And how are you making out," inquired an interested friend, "Is it paying?"

"Oh, my yes, I'm making lots of money", answered the pleased boarding house keeper.

"You must have some big grocery bills" went on the friend.

"I wouldn't know about that" was the arch reply, "My husband pays those."

And that reminds me vaguely of the Democratic prosperity.

Dandy, until we begin to pay off. —Irma.

How to make a "Jiffy" cake

THIS CAKE is the magic answer, when you're really in a hurry. Takes only a few minutes to make the batter, and a half-hour to bake. Here's the recipe:

JIFFY CAKE

1¾ cups enriched flour
2½ tsps. baking powder
¼ tsp. salt
1 cup sugar
⅔ cup milk
⅓ cup softened shortening
1 egg
1 tsp. vanilla extract

Sift flour; measure; sift into large bowl with baking powder, salt, and sugar. Measure milk into cup; add shortening to fill. Dump milk, shortening, unbeaten egg, and flavoring into flour mixture. Beat with rotary beater 2 to 3 minutes, or until batter is smooth. Pour batter into well greased shallow square cake pan (8x8x2). Bake in moderate oven (375° F.) 30 minutes, or until done. Serve warm or cold, plain or with sauce. Serves 8.

Cup Cakes, too, require surprisingly little time to prepare (summertime suggestions: serve them split and covered with crushed fresh fruit, or with frosting, or with powdered sugar). The recipe:

CUP CAKES

1¾ cups enriched flour
2½ tsps. baking powder
¼ tsp. salt
⅓ cup shortening
1 cup sugar
1 tsp. vanilla extract
1 egg
⅔ cup milk

Sift flour; measure; mix and sift flour, baking powder and salt. Cream shortening until smooth; gradually add sugar, creaming until fluffy; beat in vanilla and egg. Add flour alternately with milk, beating until smooth after each addition. Turn into greased muffin pans and bake in moderate oven (375° F.) about 25 minutes. Makes 18 cakes.

Obituary of Mrs. Anna Schudel.

Anna Schudel was born April 26, 1865, in Schaffhausen, Switzerland, and passed away at her home in Scotia on July 24, 1944, at the age of 79 years, 2 months and 28 days.

Her childhood and young womanhood were spent in the land of her birth. She was the youngest of three children, a brother and sister remaining in Switzerland.

Early in the year 1909 she came to America, and shortly afterward was married to Michael Schudel. They lived on the farm near North Loup, where she did her good share in helping make a home and bring up the family of stepchildren. In the spring of 1930 she and her husband purchased a home in Scotia, and moved there to live a life of retirement. Mr. Schudel passed away Jan. 18, 1943 and since then she has lived alone until a few weeks ago, when illness and infirmities made help necessary.

Always mindful of the comfort of others and the welfare of her family, her love and devotion to duty made her a real mother, even though she had no children of her own.

Mrs. Schudel united with the Methodist church in Scotia, and was a faithful member, attending when it was possible to do so. With failing health she was willing and anxious to meet her maker.

Surviving are the four stepchildren, Edwin, Frank and Wm. Schudel, all of North Loup, and Mrs. Margaret Blencoe of Long Beach, Calif., a brother and sister, and four nephews and other relatives in Switzerland. Funeral services were held at the Methodist church in Scotia at 2:30 Wednesday afternoon, Rev. Hansberry in charge. Interment was in Mt. Hope cemetery beside her husband. Pall bearers were C. W. McClellan, Wm. Schauer, Geo. Kline, Elmer Williams, Roy Shoemaker and P. N. Miller.

Pfc. Melford Goodrich was wounded in action in France on July 3, according to official notice sent his father, John I. Goodrich and received Tuesday. His sister, Mrs. Bertha Barber had a letter from Pfc. Goodrich Tuesday also, which was dated July 17, at a hospital somewhere in England, which said he was slightly wounded but was recovering nicely and not to worry.

Mrs. Allen Sims returned on Monday evening from the Harold Swanson home near Greeley, where she had spent nearly a week.

Merrill Anderson and son Robert and Mrs. Chas. Zangger flew up from Hastings Tuesday afternoon. Mrs. Zangger will visit Mr. and Mrs. W. O. Zangger and Robert Anderson will stay with Mr. and Mrs. Harold Hoeppner for two weeks. Merrill returned the same afternoon.

Mr. and Mrs. Mills Hill, Mrs. Inez Hill, Miss Inez Hill and Mrs. Robert Harmon and two sons were Tuesday evening guests of Mr. and Mrs. Ed Burrows.

Mrs. L. B. Nelson entertained at a covered dish porch supper Monday evening, honoring Mrs. Kate Harmon of Scottsbluff. Some of the ten guests were members of the class of '26, Mrs. Nelson's and Mrs. Harmon's class, and others were special friends. Mrs. R. C. Rydberg and Mrs. Mary Thelin came over from Kearney to be present for the occasion and Mrs. Rydberg was a house guest of Mrs. Nelson till Wednesday while Mrs. Thelin was a guest of Mrs. R. W. Hudson.

Mr. and Mrs. L. A. Axthelm heard from their son, Sgt. Dale Axthelm, who is in the air corps that he was somewhere in Italy.

Mrs. R. C. Rydberg and Mrs. Mary Thelin returned to Kearney Wednesday morning. Mrs. Robert Harmon and two boys accompanied them and will spend a few days in Kearney and Miller before going on to their home in Scottsbluff.

Mr. and Mrs. Otto Bartz and Mary Ann entertained at dinner Tuesday evening, guests being Mr. and Mrs. R. R. Redden of Omaha, Mr. and Mrs. Fred Bartz, Mr. and Mrs. H. L. Gillespie and W. O. Gillespie. The Reddens' 43rd wedding anniversary was celebrated.

Mary Ann Bartz spent Saturday night in Ord with Mary Frances Manchester and on Sunday they with Mr. and Mrs. Otto Bartz, Mr. and Mrs. Fred Bartz, Mr. and Mrs. R. R. Redden and Mr. and Mrs. Bill Bartz of Elyria enjoyed a picnic in the Ord park.

Maytag Washers WHEN?

Many people have asked us, "When they could get a Maytag Washer?"

We are not in position to state just when Maytags will be available, however we have reason to believe it will not be very long. Because of the demand for Maytags, we will not get many in our first allotment.

We have not kept a complete record of those who have told us they want a Maytag, so we are asking those who are ready to buy to let us know if they want a gasoline engine type, or electric motor, we will then check with our list and try to place each as of date received, and will try to fill your order as soon as possible with the best washer made. We have tried to keep Maytags in repair, and it is surprising to find many that have been in use for fifteen or twenty years, with very little cost for upkeep.

25th Anniversary.

Sunday was the twenty-fifth wedding anniversary of Mr. and Mrs. Walter Anderson and to their farm home near Arcadia went several Ord relatives to enjoy a big dinner. Sheriff Bob Hall and family, Mrs. Nina Norman and Dale, and Ralph Norman and family attended from Ord.

Mother-Daughter Tea.

A mother-daughter tea is being held this Wednesday afternoon in the basement of the Masonic building, under auspices of the Eastern Star. The tea was arranged as a benefit.

For the Hartmans.

Mr. and Mrs. Evan Hartman, who are soon going to O'Neill to make their home, were honor guests at a picnic held at Bussell park Tuesday evening under the auspices of the Eastern Star and Masonic lodge, in which organizations the Hartmans have been prominent during their sojourn in Ord.

Bridal Shower.

In honor of Mrs. Richard Prien, the former Frances Louise Houtby, Mrs. A. J. Sevenker entertained recently at a miscellaneous shower at her home. After writing recipes and hints for the bride, games were played. Refreshments later were served with the bride's colors of pink and white being carried out.

The bride's parents, Mr. and Mrs. George Houtby, also entertained Sunday, July 16 at a reception in her honor, and many lovely gifts were delivered to Mr. and Mrs. Prien in a pink and white toy wagon by Mrs. Prien's little nephew, Tommy Sevenker, and niece, Judith Houtby. Refreshments were served by Miss Eva Kucera, of Litchfield, and Miss Marguerite Petska. The 3-tier cake was baked by the groom's mother, Mrs. F. W. Franzen.

Picnic Held Sunday.

A picnic dinner was held at Bussell park Sunday honoring Joe Zadina, jr., of Colorado Springs, who is here this week vacationing with relatives. Families present included those of Frank Zadina, Emil Zadina, Ed Zadina, Emil Sedlacek, Frank Masin, Emanuel Petska, John Kamerad, Jim Rejda, Frank Krikac, and also Lou Rejda, Anna Zadina, Beth, Barbara and Minnie Lukes. A pleasant afternoon was spent in visiting.

Birthday Dinner.

The birthday of little Tommy Sevenker was honored Sunday at a dinner at the home of his grandparents, Mr. and Mrs. George Houtby, with the A. J. Sevenker family, Mr. and Mrs. John Sevenker, Mr. and Mrs. Chester Houtby and Mr. and Mrs. Richard Prien, as guests.

Married in Texas.

On July 20th, at the Sacred Heart Cathedral at Amarillo, Tex., occurred the marriage of Miss Clara Olson, daughter of Mr. and Mrs. Robert Olson of Burwell to Pvt. Emanuel R. Smolik, son of Mr. and Mrs. L. J. Smolik of Ord.

Father Thomas Drury officiater at the double ring ceremony which was solemnized at an 8 o'clock mass.

The bride wore a lovely white gown with a fingertip length veil and the bridesmaid, Miss Colette Drexel of Amarillo wore a pink gown and both carried bouquets of roses and gardenias. The best man was Joseph Beckman from Arizona.

After the ceremony the wedding party were served a breakfast at the home of the bride's maids parents.

The bride was a graduate of the Burwell high school and served as a telephone operator at Sargent for the last two years and is well known in the community.

The groom graduated from the Ord high school and attended the University of Nebraska or three years after which he enlisted in the air corps and at present is stationed at the Amarillo Air Field.

The young couple will be at home to their many friends at 504 Buchanan St., Amarillo, Texas.

Miscellaneous Shower.

The Mira Valley Evangelical church basement was attractively decorated last Tuesday evening when Mr. and Mrs. Richard Prien were honored at a miscellaneous shower.

Mrs. Merrill Koelling played the wedding march as the recent bride and groom descended the stairs. Everyone wrote advice to the newlyweds, which they read and then games were played.

A mock wedding was portrayed by the following persons: Reuben Cook, minister; Harold Koelling, bride's father; Mrs. Elmer Hornickle, bride's mother; Mrs. Edwin Lenz, the bride and Melvin Koelling the forgotten boyfriend. The groom didn't appear as he was said to be washing the dishes and waxing the floors. Each of these characters sang an appropriate song being accompanied at the piano by Viola Koelling.

Mr. and Mrs. Prien sat on the bench provided for them under the big full moon as suggested in "A Night in June" by Mrs. Hornickle.

Little Eugene Lenz used a wheel barrow for delivering the many lovely gifts to the bride and groom. They were assisted by Geraldine Koelling and Velma Foth.

The Valley View Bakerettes met Monday afternoon at the home of Carol Benn. All members were present. Our president Joan Sedlacek conducted the business meeting. Since we had not selected a vice president, Carol Lane was chosen. Marjorie Mulligan will be our leader and Mrs. Henry Benn will act as assistant leader. Demonstrations on Preparation for Cooking, Correct Measuring, Different Mixing Methods and the Right Way to mix muffins were given. Refreshments were served and after singing club songs we adjourned. The next meeting will be at Verlee Mulligan's home. —Carol Benn, Club Reporter.

The Krispy Kooks of Arcadia met in the town's park Wednesday for our fifth meeting. After the regular business meeting we had two demonstrations. The first one on sandwiches and by Janet Wibbels and Norma Blakeslee. In the second Kathleen Piersol and Barbara Mason efficiently demonstrated the proper way to lay the table and serve the meal. Mrs. Beaver, our leader discussed our work and made announcements concerning our next meeting ad the Valley county 4H Club Show. A well decorated room helped us enjoy an attractive lunch of sandwiches, potato salad, cupcakes and Koolade. We were sorry our attendance was small. Only three of our mothers were able to attend. Our next meeting will be held at Janet Wibbels home. It will be on canning. —News Reporter Kathleen Piersol.

The Jolly Young Maids held their sixth meeting Wednesday, July 19, at the high school. There were four members present. We talked about material for our dresses and will try to have them done by the next meeting or as soon as possible. We discussed a camping trip and decided to go to Seward, August 8 to August 11 if enough other clubs plan to go. After the meeting a demonstration on "The Right Hair Style For You" was given by Lois Severns and Betty Dunbar. Refreshments were served by Beverly Whiting and Lois Severns.

—News Reporter Lois Severns.

A 4H Club of Ord boys gave a practical demonstration this week on how town boys can help with the farm labor problem. Under the leadership of John Haskell their local leader, thirteen members of a War Activities Club who bear the appropriate name of "The Ord Minute Men" shocked 22 acres of wheat for Ernest Vodehnal one evening. War Activities clubs are organized by groups of boys or girls who are unable to carry on regular club projects or who wish to do other work in addition to regular project work. The members of these clubs are proud of the work which they are able to do in helping out the food production program, wherever their services can be used.

Members of the club who assisted with the wheat shocking were Virgil Witherwax, Kerry Leggett, Dick Andersen, John Misko, Erwin Carlson, Richard Manchester, James Misko, Galen Allen, Laddie Cochrane, Bob Whitford, Paul Stoddard, Don Sorensen and Raynal Suchanek.

The church extends a most cordial invitation to everyone to come and worship with us in all these services. May we all join with the Psalmist and say, "I was glad when they said Let us go into the House of the Lord."

Christian Science.

"Love" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world, on Sunday, July 30.

The Golden Text is: "Let him that glorieth glory in this that he understandeth and knoweth me, that I am the Lord which exercise loving kindness and righteousness, in the earth: for in things I delight, saith the Lord. (Jer. 9:24.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "But whoso keepeth his word, in him verily is the love of God perfected: hereby know we that we are in him." (1 John 2:5.)

Grafting Apple Trees

The best time to graft apple trees is as the sap begins to rise in the spring, when the bark slips easily from the wood and growth starts shortly.

Raccoon Flavor

To improve the flavor of a dressed raccoon and to remove some of the gamey taste, it is recommended that the carcass, be wrapped tightly in wax paper and stored from four to seven days in a refrigerator, at a temperature as near to 35 degrees as possible.

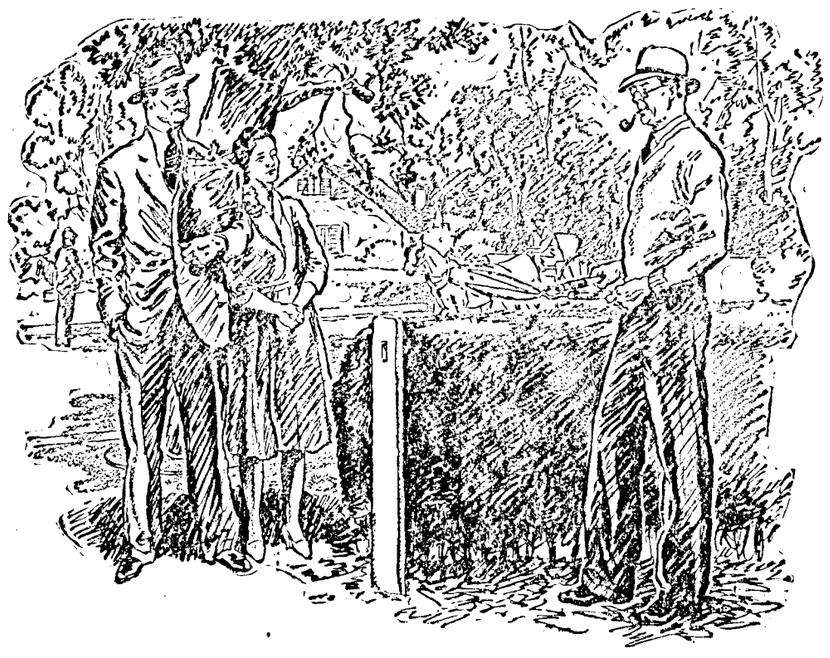
THE OLD JUDGE SAYS...



"Mary and I were just saying, Judge, how lucky we are here in America that we have so many natural resources to help win the war."

"That's right, Jim. When war broke out we had oil, we had steel, we had food, lumber, aluminum...practically everything we needed. There's one thing we didn't have...*rubber*. The enemy had that."

"But that didn't bother us for long. Soon American brains and industry had synthetic rubber by the tons rolling out of plants. That filled a critical need...you can't win a war without rubber."

"I was very much interested the other day in reading a statement made by a high government official on synthetic rubber. In it he said 'It is fair to regard the rubber manufactured to date as being almost solely the product of the beverage distilling industry.'"

"He also said that, in his estimation, the tremendous contribution of distillers' industrial alcohol to the synthetic rubber program had not received the recognition which it deserves."

"We certainly learned something today, didn't we Mary?"

Bright, Sanitary Cans Protect Milk and Cream Quality

This year, above all others, it is necessary to safeguard the flavor and the purity of all dairy products. We can't afford to waste a drop of milk. The need is too great.

The use of good cans is one of the easiest and simplest things you can do to protect the appetizing flavor and safeguard the purity of your product.

Good cans identify a dairy, creamery, cheese factory or producer as one who takes pride in his operations. They end expensive repair bills often resulting in delay and inconvenience. They protect against metallic flavor; they reduce bacteria count by eliminating pockets and crevices.

Surely, it's an important contribution to the food production effort to use only bright, sanitary cans. In that way you cut down unnecessary rejections, produce a tastier product and take a long step in protecting your future market.

If you have any old, wornout cans, replace them now.

Dusting Seed

In North Carolina in 1935 less than one per cent of the cotton growers, representing only about 7,000 acres, dusted their seed. Six years later, 87 per cent of the state's growers used seed that had been dusted, with a profit from treatment estimated at an average of nearly $10 an acre. Last year aproximately a million acres of North Carolina's cotton was grown from treated seed.

We will also have a carload of Linsoy during August. There is every indication that you will be wise if you get your protein feed now rather than wait till you are ready to feed it this winter.

We are in the market for any grain that you have to sell and are in position to send a truck out for it. At present we have Rye and Barley on hand.
