Personal Property Valuation Nearly a Million Higher

Everything Is Worth More But New Law Helped Some, Believes Assessor Noll.

Value of personal property reported by taxpayers of Valley county totaled \$4,682,660, exclusive of cars and trucks, this year which is an increase of \$700,190 over 1947, says W. C. H. Noll, county assessor.

The 1947 personal property total was \$3,922,470. Value of cars and trucks last year was \$417,420 and the total tabulated to date is \$513,220.

Valley county people also have more money in the bank than they did a year ago, or at least they are listing more on their schedules.

Book accounts listed by Valley county business men are only slightly higher than a year ago, \$113,786 compared to \$111,475.

County Assessor Noll expresses satisfaction at the way Valley county people listed their property under the new law.

The United States Army Air Force, the National Guard and the Civilian Air Patrol will be invited to share in the dedication ceremonies.

New City Council Organizes; Votes Salary Increases

Huff Fills Vacancy; E. Kirby New Police Chief; Covert to Road Department.

Ord's new city council, headed by Mayor F. L. Blessing, completed its reorganization Tuesday night with a series of changes, shifts and one resignation.

The appointment of Howard Huff as councilman from the second ward to replace Blessing, who moved up to Mayor.

Huff was voted out in the city election this year by Jay Brown.

The appointment of Paul Adamek, new city clerk, as city bookkeeper, Adamek submitted his resignation Wednesday morning and Mayor Blessing has appointed Rex Jewett, 14 year incumbent, to the job.

E. Kirby was named chief of police in place of Len Covert who was relieved of police duties and made street commissioner. J. S. Mortensen, longtime member of the city police force, was not reappointed.

P. Misko replaced Clarence Davis as city attorney.

All other appointees of the city are holdovers from the outgoing administration.

In setting up their new organization, city officials elected C. H. Schoensteyn as president of the council for the coming year.

Schoensteyn, as one of two holdover members, also swore in all new councilmen and employees.

General salary increases for city employees were voted, with most raises being cost of living increases of \$10 to \$15 per month.

Exception was that of city bookkeeper which salary was cut from \$150 to \$125. General increase of expense to the city will run about \$2,000 a year, councilmen estimated.

Council committees for the year include: Judiciary and Fire; Jay Brown, Schoensteyn, Duane Armstrong, Band and Cemetery; Huff, Schoensteyn, Brown.

John P. Schoensteyn, Hugh Carson, Armstrong, Streets and Alleys; Carson, J. W. McGinnis, Brown.

Airport; Armstrong, Huff, McGinnis.

Electric and Water; McGinnis, Huff.

Prior to organization of the new council, the retiring city administration wound up its affairs, paying claims, approving reports of the city clerk and city treasurer, and setting May 12 as date of hearing for the Clayton Arnold application for beer license.

Reports of the city treasurer showed about \$50,000 cash on hand, of which \$35,000 is earmarked for the swimming pool, leaving the city's working capital at about \$15,000.

Bond funds total \$200,000 and Ord city bonds, and approximately \$6,000 in perpetual maintenance funds. Outstanding are \$55,000 in electric fund warrants. The city ended its fiscal year with the same balance of \$106,000 that it had a year ago, total in \$302,000 from various funds and spent the same amount.

In turning over the office of mayor to Dr. Blessing, retiring mayor M. B. Cummins told the council that he had no more pleasure than turning the administration over to capable hands.

"I have served the city a long time," Mr. Cummins stated, "and I have no apologies to offer. I know that the new administration will receive the same fine cooperation I had, and that the city will continue to progress."

Only jarring note in the evening was the confirmation of Paul Adamek as city bookkeeper.

Questioned by councilmen Carson and Schoensteyn as to his ability to fill the job of bookkeeper, Adamek stated he intended to hire additional help at his own expense to help him get started.

Vote on the appointment was 4 to 2. Carson and McGinnis voting against the confirmation.

Adamek, a wounded war veteran, submitted his resignation to Mayor Blessing Wednesday morning, stating that he believed he would be more satisfied with other type of work and that he would probably enter a rehabilitation program to find employment more suited to his disability which has been giving him considerable difficulty since his discharge from service.

Clarence Switzer Dies Suddenly at Grand Island

Manager of North Loup Cheese Factory, Long in Ill Health, Passes Monday Morn.

Clarence W. Switzer passed away Monday noon in the Lutheran hospital in Grand Island where he had been taken Sunday. In poor health for some time, it was thought that he was more seriously ill than usual and his passing Monday came as a shock to his family and friends.

Mr. Switzer came to North Loup in April, 1941, as manager of the North Loup Co-operative cheese factory and served very efficiently in spite of the handicap of very poor eyesight and failing health. A man of vision, even with poor eyesight, he was a firm believer in the future of the factory and was exceptionally well informed on a wide variety of subjects. Since his coming here, the plant has been expanded to include a modern frozen food locker and a wholesale milk business.

New and up-to-date equipment has been added and the factory is on a good paying business. Latest of the problems Mr. Switzer had contended with was the sale of cheese because of the packing house strikes.

When Mr. Switzer came to North Loup in 1941, there were 21 cheese factories in the state and now there is only one other besides the local one.

Clarence Switzer was born August 26, 1896, in Grand Island, Neb., to Lucy and George Switzer. He was educated in the Grand Island schools and later attended college at Ames, Ia. He was a member of the Baptist church of Grand Island. On July 19, 1933, he was married to Dorothy Nott of Elgin, Neb., and two children were born to them, Lucifrage and Walter, who with his wife survived. Also surviving are two sisters, Mrs. J. J. Menden and Miss Edna Switzer, both of Grand Island, and two brothers, Dillman, of Independence, Kas., and Leonard of Los Angeles.

He enlisted in the army early in World War I and served 27 months, 18 of them overseas with the Field Artillery. Returning he re-entered the employ of the Fairmont Company of Grand Island and later served as manager of dairy plants at Sioux City, Ia., Norfolk, Va., Fremont and Grand Island. A very hospitable man, he enjoyed friends and made a fine host. Those who were fortunate enough to be entertained in his home were made to appreciate his keen mind and genial friendliness.

Funeral services were held Wednesday afternoon from the Geddes funeral home in Grand Island, with Rev. A. C. Ehret officiating and music was furnished by members of the Seventh Day Baptist church. Honorary pall bearers were members of the board of directors of the cheese factory, V. W. Robbins, A. M. Stillman, Dr. W. J. Hemphill, Annual Frazer, R. H. Knapp, Hugh Adams and R. W. Hudson. Acting bearers were W. O. Zang, G. J. McPherson, Dr. P. L. Blessing, Alfred Hill, Robert Hall and Cecil Clark.

Military services at the grave side were in charge of the Grand Island Legion Post at the request of the local Legion Post, of which he was a member. Burial was in Grand Island.

Chamber Sets Closing Dates for Summer Airport August 15

The merchants committee of the Ord Chamber of Commerce, in a breakfast meeting Tuesday morning, decided that Ord retail stores would be open on May 31st, but would close all day on July 5. Both Decoration Day and Independence day fall on Sunday this year.

The committee also decided that stores would close at 12 noon, on each of the three days of the Valley county fair in August.

Operation of the district this season is not affected in any way by the RFC's adverse decision, Mr. Dodd states. The special levy on landowners, plus regular water charges, will provide ample funds to make needed repairs and operate throughout the 1948 season, barring a catastrophe such as an extremely bad flood, he says.

Water was turned into the Burwell-Sunter canal Monday, will be turned into the Taylor Ord canal today, and could be turned into the Ord-North Loup canal at any time even though work on Hardenbrook dam is still in progress. Rebuilding of this dam is going along fast and work will be done within two weeks.

About 60 men during the past few weeks have been getting ready for the irrigating season, but this force will be put down to 40.

The district has been employing about 60 men during the past few weeks while getting ready for the irrigating season, but this force will be put down to 40.

Three of these teams, Berwyn, Miller and Comstock are new to the league, which operated with eight teams last year and has expanded to ten teams, with Burwell dropping out.

Not much is known about the strength of the Ord club but Manager Collins says he expects to field a better team than represented Ord last season. Full strength of the team will not be realized until the school and college year ends when several good players will return to Ord for the summer and join Collins' squad.

APPRECIATION

When more than 200 school pupils from over Valley county participated in the track meet here Monday, we at the park expected our usual job of reparking cars and a big clean-up of litter afterwards.

You can imagine our pleased surprise when everyone cooperated to such an extent that not a car had to be reparked. And as for clean-up—not a stray candy bar wrapper was left to litter the athletic field.

Such behaviour deserves praise—not only to the pupils who were here, but to their teachers and parents who surely gave them the training that resulted in such fine display of manners.

We of the park board and park department express our sincere appreciation.

The week of May 2-9 is National Family Week and we urge the friends and members to attend as families these two Sundays and sit together during the morning worship. Let us be present at both the Sunday school and church and see how wonderful it is for adults to attend Sunday school and for the children to attend the worship hour. The subject next Sunday morning is: "When The Home and The Church Work Together". G. Edgar Hoover tells us that if we today, fill the Sunday school with children, we will empty the prisons of tomorrow of adults. Is it not a patriotic duty of every citizen to promote an organization which will do this for our nation?

California Group Honors Gwen Hoyt

Clippings sent to Mrs. Festus Williams tell of the progress made by one of Ord's daughters.

Gwen Hoyt, daughter of Mrs. Ella Hughes, has been chosen by the Alpha Delta Chapter of San Diego, Calif., as their choice for "Girl of the Month".
Gwen was born in Ord, and graduated from the Ord high school in 1933. She worked in the Clerk of District Court's office for two years and then married "Bud" Hoyt of Burwell. They moved to California to make their home. During the war she served with the U. S. Naval communications department and is now employed in the communications department of Consolidated-Vultee Aircraft Corporation.

Although a mother of a twelve year old daughter with the responsibilities of a home and work she is deeply interested in the progress of the Alpha Delta chapter of which she is a charter member and is serving now as president.

Another clipping tells us that she is in charge of arrangements for a "repeat performance" of "Arsenic and Old Lace" to be given by the Pacific Beach Little Theatre Group under the sponsorship of her sorority, Epsilon Sigma Alpha. The play was given on April 8 and 9 at the Pacific Beach women's clubhouse.

Engineer Estimates \$242,000 Needed To Expand Light Plant

Load Now Nearly Double That 1941 Rapidly Increasing

REA and ONL Mills Expected to Add 1,544,000 KWH in Next Three Years.

An expenditure of 242,000 will be needed to place the Ord municipal electric plant in a position to handle the increased electrical load expected within the next three years, H. F. Lutz consulting engineer, told the city council in an informal meeting Thursday night.

Submitting a report to both members of the old council and newly elected councilmen, Lutz gave a history of the growth of the Ord light and water system, traced its expansion, and gave estimates of reasonable load expectations of the next ten years.

The engineer's report recommended that the city purchase a new dual fuel engine of 1000 KW capacity and build a new building at the southeast end of the present light plant to house the generator, providing a favorable rate can be obtained for sale of energy to REA for a period of five years.

Estimated cost of the new equipment, together with a cooling tower addition and a switchboard \$242,000. In addition the engineer said that the old portion of the light plant should be rebuilt, if possible, and estimated this cost at \$33,418.

Present cost of generation of current is 1.501 cents per KWH, Lutz estimated. With the new equipment, and with the additional demand expected from REA and the ONL mills, costs should drop to 1.37 in 1949 and 1.3 in 1950, based on present fuel oil costs.

Lutz held out some hope of further reducing generating costs if natural gas lines come to Ord. Operating under a full load and using a mixture of natural gas and fuel oil, fuel costs per KWH could drop to a little less than 2 1/4 mills per KWH as compared with 7.7 mills per KWH for fuel oil, or a saving of about one half cent per KWH.

The rapid growth of electricity demand in Ord over the past 28 years was graphically illustrated: 1921 consumption . . . 390,000 kwh 1931 consumption . . . 830,000 kwh 1941 consumption . . . 1,200,000 kwh 1948 consumption . . . 3,389,000 kwh

REA within the first three years of operation, expects to purchase 1,344,000 KWH from the city. The ONL mills, now being served by Consumers, uses about 210,000 KWH a year.

Lutz expects the city's sales of electricity to jump to five and a half million KWH in 1950, and increase at the rate of about 10 percent a year to 1959, when the plant will be selling about 10 million KWH per year. The new equipment will handle up to that amount, his report indicated.

Councilmen have not as yet received the report formally, although this will probably be done at the first regular meeting on May 4th.

With the steady traction of its 4-wheel drive the "Jeep" just keeps on pulling, in spite of soft ground or slippery footing. You don't have to worry about 'impassable' roads. Four-wheel drive takes the "Jeep" through, helps you with spring towing and hauling jobs that must be done.

GET A "JEEP" AND GET GOING

There are plenty of jobs the "Jeep" can do on your farm right now. When field tasks are completed or road work is done, your "Jeep" need not stand idle. Its power take-off delivers up to 30 h.p., operates many kinds of implements and farm machinery, helps make the "Jeep" America's most versatile farm tool.

North Loup schools will close May 14, leaving only two more weeks after this. Baccalaureate will be on Sunday, May 9, at the Methodist church and Rev. Mitchell will give the address. Commencement will be May 13, at the Seventh Day Baptist church, with Rev. Ehret as the speaker. Eighth grade graduation will be May 12, at the community hall. Junior-Senior banquet will be served by mothers of the juniors on May 1, at the school house. Wednesday of this week is award day for the entire school and the school annuals which have arrived will be given out also.

Several improvements are planned for the North Loup Methodist church in the near future. The rear entrance into the kitchen is in bad need of repair and plans are being made to make a new entrance and to improve the small building that is now located between the church and the school. Completed both down stairs and in the auditorium. New fluorescent lights have been installed in the basement and the Junior room. An offer from a former resident of North Loup to install a cooling system was formally accepted at the trustee meeting. The Lord's Supper will be presented at the Rural Life Meeting Sunday, May 2.

North Loup Seventh Day Baptist church will entertain the General Conference of the denomination August 17-22. Plans for the entertainment of the delegates from the other churches are being made, and this will no doubt tax the facilities of the entire village. Some six hundred attended the conference last year, but perhaps there will not be quite as many come to North Loup since this church is located further from the larger Seventh Day Baptist churches. Twice before, in 1912 and 1925, the North Loup church was host to the conference. Mrs. W. J. Hemphill, Mrs. Edward Christensen, Mrs. A. C. Ely, Mary T. Davis and Erlo Babcock are on the entertainment committee and met Monday evening at the parsonage to make plans to take care of the guests.

SKATING RINK OPENS
Saturday evening about fifty young people, (some of them not so young, and some very young) spent an enjoyable evening roller skating at the community hall, and the many spectators had just as enjoyable a time looking on. A ramp has been built around the large auditorium, to protect the walls and fifty pair of fine roller-bearing skates were purchased. Saturday night's sponsor was Russell Barber.

Sponsored by the North Loup Lions club, the rink has been under consideration for some time and will fill a long-felt need for entertainment of North Loup and surrounding territory's teen-agers, who will no doubt give it the most use. For the present, Saturday and Tuesday evenings are to be roller skating nights. Charles Zanger is the committee member from the Methodist church, Menzo Fuller, from the Seventh Day Baptist, Rev. Ehret, from the village board, and Jerold Manchester from the young people. There is also a committee member from the Mira Valley Evangelical U. B. church.

Bud Beebe, assisted by a number of the boys from high school built the ramp around the room last week.
