

Mrs. Emma Milford Rites Being Held in Ord Wednesday

Widow of Member of Ord's Senior Merchandising Firm, Milford & Sons.

Emma Jane Ratcliffe, daughter of Mr. and Mrs. John Ratcliffe, was born Nov. 9, 1874, in Grand Island, Nebr., and passed away April 4, 1949, at Omaha, Nebr. At an early age she moved to Ord with her parents. There she grew to womanhood.

Feb. 20, 1895, she was united in marriage to William James Milford. To this union were born a son, who died in infancy, and a daughter, Ruth, now living in Omaha. She spent practically all of her life in Ord, where she was well known to all in the community.

She was active in business and social circles. She was a member of the board of directors of the First National bank of Ord until her death in 1949. In 1917, she was a member of the First Presbyterian church and active in its various groups.

She was a member of Mizpah Chapter 56, Order of the Eastern Star, and a member of the Past Matrons club. In December, 1917, she was presented with her 50-year membership pin from the Nebraska Grand Chapter.

Early in March she contracted a severe cold, which taxed her heart beyond its endurance. She passed away at the Methodist hospital in Omaha, early Monday morning.

Interment in Ord. She leaves to mourn her death: one daughter, Ruth B. Milford, Omaha; two sisters, Mrs. Maude Lewis, Winnipeg, Manitoba, Canada; and Mrs. Byrde A. Higgins, of Omaha; one brother, John Charles Ratcliffe of Portland, Ore., and her many friends.

Funeral Delayed. Here at home the funeral procession bringing the body of Francis Mitchell up from Hastings for burial at Ord, ran into real difficulty about five miles southeast of the Long ranch. There the snow was so deep in the road that the leading car stalled, and of course all the rest were hung up also.

Finally, with the aid of a wrecker the party got to Ord late that evening, too late for the funeral to be held, and remained overnight, having the service next morning. Again a tractor was called into service to help clear the road to the cemetery.

Travel by Tractor. For several days travel over country roads was out of the question, but by Saturday a number of farmers managed to break through and came to town by tractor, some with trailer attached to get a supply of groceries. The tractors are still being used from some localities this week, but the better roads are drying rapidly.

From Crofton, Knox county, comes the report that blizzard and mud conditions had stopped all travel in the locality. The heaviest snowfall was reported from Hayes Center, which had 23 inches of wet snow, and all travel was paralyzed. These two places, 220 miles apart by air, give some idea of the extent of the storm.

In fact, the latest storm seems to have followed the general pattern of Operation Snowbound, and was heaviest in about the same areas that the earlier storms were. Considering the depth, this snow was much harder to handle than that of any preceding storm.

Starts Cancer Campaign With Donation

J. T. Knezacek started off the 1949 Cancer drive with a cash donation which he is handing to Mrs. Keith Lewis and Mrs. Harold Christensen. Mrs. Lewis is educational chairman and Mrs. Christensen drive chairman for the Veterans of Foreign Wars Auxiliary who are handling the drive this year.

March Ends Like Proverbial Lion Bringing Long Winter to a Close

If the temperature had dropped into the zero neighborhood, the storm of last week, presumably the last of the winter, would have been fully as severe as the opening blizzard on Nov. 18. In fact, in some respects the storm was as hard to face as if it had been much colder. The damp snow clung to people out in it and got them all wet.

Also, at times the precipitation turned to sleet, which blown by the strong wind, hit a person's face with stinging force. Up at Atkinson two brothers lost their lives in the storm while trying to rescue their calves and get them back in the corral. The temperature at the time was 30 degrees, but they died of exhaustion and exposure.

Roads Impassable, Mrs. Seth Williams Flown to Hospital

Ord Airmen Prove They Are Prepared to Cope With All Emergencies. Seth Williams called in from the former Grigg ranch northeast of Ord early Thursday morning, stating that Mrs. Williams was expecting a baby and needed to be flown to the hospital as the roads were impassable. The word came through to Ed Swopes who called Vernon Nay.

Believing that it was a first of April joke, Nay hesitated at first, then talked to Ellis Carson, who called the Williams place and corroborated the story. While others were putting skills on the Cub, Nay took the wheeled plane and flew over to the ranch to reconnoiter.

Returning, he flew the ski plane out to the ranch, picked up Mrs. Williams, brought her to Ord, and from here took her to the Amick Clinic at Loup City, and to her doctor, Dr. Miller. Meanwhile Mr. Williams started for Ord on horseback, and from here went on to Loup City.

Dr. Glen Auble, head of the Red Cross, declared an emergency, so the trips were made officially by the Red Cross. Mr. Williams' parents are out at the ranch, so there is some one there to look after the work while he is away.

Pancake Day Is April 23

Pancake Day, which was to have been the first spring berran event of the Ord Chamber of Commerce, and which was snowed out on April 2, has been definitely set for Saturday, April 23.

According to Ross Allen, chamber president, arrangements for the new date will follow closely that of the postponed April 2 event. "We're hoping that roads and highways will be in good shape by that time, and if they are, we're quite sure of entertaining our 5000 crowd," he said.

Jack & Jill Remodeling

With a grand opening scheduled for the week end of April 21-22-23, a completely remodeled and redecorated Jack & Jill store will be presented to the public in two weeks.

In addition to new fixtures throughout, the store will also construct a graveled, lighted parking lot on the north side of the building to accommodate its customers. The store will be closed Monday through Thursday of next week, April 11, 12, 13, and 14, to allow installation of a new floor and fixtures. It will be open that week end for business, and expects to have all arrangements completed by April 19.

Janus New Head of Eight-County Weed District

Henry Janus of Ord was elected chairman and Art Cole of Broken Bow, secretary, of a new eight county weed control group, known as the Central Nebraska Weed Conference, here Tuesday. Formation of the conference climaxed a day-long demonstration and discussion of weed and insect control methods attended by around 60 delegates from other counties and around 100 local farmers.

County weed control districts in the conference are Custer, Sherman, Howard, Greeley, Wheeler, Garfield, Loup and Valley. The exhibit here Tuesday included a display of chemicals and weed control equipment. Talks were given by Ed Aicher, chief of the Nebraska noxious weed control program, and his assistants, Logan Heisel, Chester Swinbank and John Fuierer of the University of Nebraska college of agriculture.

SECTION ONE THE ORD QUIZ, ORD, NEBRASKA THURSDAY, APRIL 7, 1949 Vol. 67 No. 2

Citizens' Ticket Elected Tuesday by Big Margin

Ord Electorate Gives Vote of Confidence to Present City Administration.

By margins as great as 4 to 1, Ord's three incumbent councilmen were re-elected to office Tuesday in a lively election in which approximately 450 ballots were cast. The entire Citizens party slate was swept into office and the result is regarded as a vote of confidence in the present city administration.

In the first ward Lyle Milliken defeated Ed Jensen, 119 to 31; in the second ward Howard Huff was victorious over George Hastings, 84 to 52; in the third ward Gus Schoenheit won over Ross Allen, 122 to 90.

These were the only contested places on the ballot. City Clerk Rex Jewett received 351 votes for reelection. John Sullivan was chosen police magistrate with 349 votes. Irma Leggett was re-elected to the park board with 306 votes. For two school board members, C. B. Gudmundsen got 350 votes and Floyd Beranek got 332 votes, both thus being re-elected to offices they now hold.

Mayor F. L. Blessing expressed himself Wednesday morning as being pleased with results of the election. "In the course of the next few days I expect to appoint the new utilities commission and we can then get started working on the knotty problems that face us this year."

Feed Salesmen Held in Custody in Custer County

Gould Flagg of State Department Checking Illegal Sales Tactics.

Complaints have been filed against four feed salesmen and distributors in Blaine county, who have been traveling through the sand hills and selling livestock feed to ranchers. G. E. Flagg and A. M. Kingdom of the state department of agriculture and inspection investigated the circumstances last week.

As a result of their findings, complaints were issued for C. A. Keenan, G. E. Flagg, R. E. McKee and R. E. Moore. They found the men had been selling or offering for sale a commercial feed not registered with the state. Two of these men had already been placed under arrest, and warrants issued for the other two.

The selling scheme was brought to light when Roy Spencer, Blaine county rancher, reported the proposition to the authorities last week. His suspicions were aroused when he was told the scheme was being promoted by a federal agency. The men told prospective purchasers that the feed was being promoted by the United States Department of Agriculture, and that one half of the cost would be paid by the government. The price being charged, the investigators found, was about the same as that of similar feeds, and the government had no connection with it in any way.

Walter Guggenmos, Blaine county rancher, was in Ord March 27 and talked with C. C. Dale in regard to these men and their claims. Dale at once wrote the state department of agriculture and inspection, and Tuesday, March 29, the state men were on the job. March 30, Rufus M. Howard, director of the department of agriculture and inspection wrote Mr. Dale the following letter:

March 30, 1949. Mr. C. C. Dale, County Extension Agent, Ord, Nebraska. Dear Mr. Dale: We desire to thank you kindly for writing us in regard to the sales campaign carried on by representatives of a company in Omaha. Upon investigation, we find that the American Laboratory Company is a mythical firm, apparently a front for some other chemical house.

No doubt by this time you have been informed that inspectors from this department have been making an investigation of the sale of this product and filed charges against some of these representatives in the County Court of Blaine County yesterday.

Our information reveals that these high-powered salesmen have already collected considerable sums of money from farmers and ranchers in that area.

Very truly yours, Rufus M. Howard, Director.

Floor Covering Store to Open

Arnold J. Radl, of St. Paul, has leased from L. E. Walford the building recently occupied by Bernard's Beauty Salon, and in about ten days will open a store which will feature floor coverings exclusively. The Armstrong line of linoleum, rubber tile, asphalt tile and linoleum will be featured, and the Radl firm will lay the floor coverings when desired. A line of wool carpeting also will be carried.

Mr. Radl, originally a resident of Chicago, is a graduate of both the Armstrong and Gold Seal linoleum schools. For the past four years he has been associated with the Zlomek furniture store at St. Paul. He is married and they have two children, both girls. The Radl family will occupy the apartment on the second floor of the Walford building.

Irrigation Hints to Be Given At Meeting Tuesday

Several Specialists Will Talk on Irrigation, Soil Fertility At Joint Meeting April 12.

Anyone interested in irrigation, soil fertility, and the use of commercial fertilizers is invited to attend a general meeting to be held at the K. C. Hall in Ord, next Tuesday, April 12, starting at 1 p. m.

Headline speaker at this meeting will be Ivan D. Wood, irrigation specialist with the U. S. Soil Conservation office, from Denver. Mr. Wood formerly extension engineer at the Nebraska college of agriculture and is recognized as one of the best informed irrigation specialists in the country.

He will be assisted by D. Weldon, soil specialist, D. L. Gross, agronomist and John C. Steele, engineer of Nebraska college of agriculture. Because of the full program it is necessary to start the meeting at 1 p. m. The first meeting will be a showing of motion pictures of general interest, to be followed by discussion of irrigation practices, irrigation equipment, soils and fertilizers, and the showing of the new Union Pacific film "Thirsty Acres." It is planned to close the meeting between 4 and 4:30 p. m.

The meeting is being jointly sponsored by the Valley County Extension Service, The Valley County Soil Conservation District, The North Loup Irrigation District and the Ord Chamber of Commerce.

Electrical Show Here April 12

Four Ord business firms, D. E. Troyer, Frazier's Furniture, Gamble and the Ruzicka Hardware are cooperating in an electrical show which will be held at the Bohemian Hall Tuesday and Wednesday.

Admission is free to the exhibition which will show all the new lines carried by the four firms, and in addition, have demonstrations by factory representatives. This is the second such show staged in Ord.

Hospital Stock Sells for \$100

Stock in the proposed Ord cooperative hospital will sell for \$100 a share, not \$1000 as reported in last week's Quiz.

Letters are being according to the Quiz reporter who handled the hospital story last week, but when added at the end of other digits can change the meaning of things considerably.

Weller to Speak to Auctioneers

E. C. Weller of Atkinson has accepted a unanimous invitation of the board of directors to address the National Society of Auctioneers at their annual convention in Sioux City, July 16.

The society has a membership of six thousand, and for the first time is holding its convention in the mid-west. Mr. Weller will speak on "Conducting Livestock Auction Markets."

Bredthauer Sale Grosses \$33,000

The Elmer Bredthauer sale of new and used machinery, held Tuesday, grossed \$33,000 and drew a crowd of around 1500. Bruce Covey, one of the auctioneers reported to the Quiz. Cars were checked from nearly all central Nebraska counties, plus a few from Kansas.

The top tractor at the sale brought \$2320. Manure spreaders sold from \$100 to \$410, combines topped \$1825, grain drills \$670, and a disc \$287.50. Covey reported that bidding was quite spirited.

The sale, postponed twice by snow and bad roads, had been extensively advertised in the Quiz and other newspapers.

Building Boom in Prospect for Ord Business Houses

Four Projects Scheduled or Underway; Some Remodeling and Several Business Shifts.

A surge of activity in business building construction in Ord, with the coming of spring, finds at least four new buildings scheduled for work. Others are planned, and as the result of two real estate deals, new business firms may be added to Ord's commercial front.

A \$10,000 addition to the Standard Oil station to convert it to a super-service is now being built by John Wotasek, local contractor. And William Doan, a Grand Island contractor, has started excavation for the new \$20,000 tavern and pool hall for Emory Thomson.

Anderson to Build. C. A. Anderson has been granted a building permit to construct an addition to his new garage building, which, with the Thomson building, will more or less fill in the north half of the block with new buildings.

Demolition of the old Milford building, now owned by D. E. Troyer, will commence the first of May, or as soon as Mr. Troyer has satisfied heating contracts for other stores in the block. Troyer will erect a one-story brick and tile building on the old Milford site.

Remodeling under way or scheduled includes complete new fixtures in the Jack & Jill store, now nearing completion, and new fixtures for the Brown-McDonald store, scheduled for late spring.

New Store Coming. New business faces will appear in Ord soon. Another story in the issue announces a new floor covering establishment to be opened in the Walford building formerly occupied by Bernard's Beauty Salon. Sale of the old Amick building, east of the courthouse, and formerly occupied by the Anderson Motor Co., was announced this week. Mr. Anderson has purchased the structure a short time ago, and this week sold it to Curt Wilson of Ord for \$8,000.

Mr. Wilson said his plans were at present indefinite, but the building probably will be sold to some firm.

Several Ord professional men are planning a new building to give them ground-floor office space, the Quiz learned, although plans are still indefinite.

Arcadia, North Loup Elect New Village Board

Moderate Votes in Both Towns Reported; No Contest in Elyria City Elections.

Moderate votes in Arcadia and North Loup village elections were reported to the Quiz this week, with no contest at Elyria. In that village Mike Kusek, J. B. Zulkoski and Ralph Zulkoski were elected.

In Arcadia village election, John Kaminski led the ticket with 90 votes. Gilbert Gregory placed second with 82 votes and H. M. Brandenburg with 80 votes. The two high men were elected.

Arcadia school board election found Harold Elliott and J. Wadell elected with 85 and 65 votes respectively. Also in the race were Thomas White with 63 votes and Mrs. Leona Round with 61 votes.

In North Loup, where 173 votes for the village board were cast, Paul Goodrich received 118, Ben Sinteck 129 and Paul Madsen 137 to win election handily. Other candidates were George Maxon with 39 votes, Roy Covey with 49 votes and A. C. Ehret with 55 votes.

A total of 150 votes were cast in the school board election, where S. C. Hawkes led the ticket with 120 votes. E. T. Babcock received 101 votes to insure election and also-rans were Stanley Brown, 70 votes and G. L. Carter, 64 votes.

Find Stolen Car in North Loup

A car stolen from Thomas Erikson of Boelvis was found abandoned on the streets of North Loup Monday and was returned to its owner. The car had been taken Saturday evening in Grand Island where Mr. Erikson was shopping, and a box of groceries he had purchased were still in the back seat of the car.

According to Marshall Harlow Breznick of North Loup, the car, a 1941 Ford Tudor, had been driven until it ran out of gas, and was stuck in the mud between the Ed Greene and E. C. Carr residences. Identity of the car thieves is unknown.

Kansas-Nebraska Gas Granted Franchise

Company to Build to Loup City This Year; Ord in 1950

City Dads Decide Grave Yard This Year Will Have to Be Done by Property Owners.

The Kansas-Nebraska Gas Co. was granted a 25 year franchise to operate a gas business in Ord by the city council in its regular meeting Monday evening.

Service to Ord, North Loup, Burwell and other towns in this area by the company is not expected until the latter part of 1950. This year, the gas company, which headquarters in Hastings, plans to build lines to Cerve Loup City, Broken Bow, Ansley and a few other towns in between. Next year the company hopes to add St. Paul, Havens, Ord, North Loup and a few other towns to its list.

Absentee Vote to Decide Burwell Councilman Race

Twenty-four Votes Yet to Be Counted in Close Race; Dr. E. J. Smith Is Burwell Mayor.

The race for city council in Burwell's first ward may be decided by 24 absentee votes yet to be counted by the official board, J. E. Gavin, Burwell city clerk informed the Quiz today.

Leading on the basis of unofficial count of regular ballots, Mike Shonka has 111 votes and Edgar Johnson 107 votes. A five vote gain for Johnson in the absentee voters list could give him the nod. Other races in the city and school elections are pretty well decided.

Smith Is New Mayor. Dr. Eldon J. Smith was named the new Mayor of Burwell, when he beat Russell Jones 314 to 218. In the second ward Ellis Owen beat Chet Johnson 179 to 117. E. W. Moss was named city treasurer over C. E. Hallock by 281 votes to 232.

In uncontested balloting, J. E. Gavin received 481 votes for city clerk, and W. C. Parsons 163 votes for police magistrate.

Cram Leads School Race

Dr. Roy S. Cram led a ticket of three for two posts for a full term on the Burwell school board, with 479 votes. Apparently elected with him was W. D. Johnson with 264 votes. F. E. Demaree trailed with 230 votes.

For a one year term to fill a school board vacancy, Forrest Worm nosed out A. B. Silson 266 to 232.

Kearney Choir at High School

Members of the Kearney State Teachers College a cappella choir, under the direction of Mrs. Eleanor Haines, will perform in the Ord high school auditorium on Monday afternoon, April 11, at 2:30. The public may attend.

Sacred numbers appropriate for the Lenten season will be presented along with several modern selections. The program will consist of works for double choir, women's chorus, and the full a cappella choir. A madrigal group of seventeen singers will be featured along with several vocal duets.

Other towns scheduled for stops on the two-day choir tour are Columbus, Osceola, York, and Holdrege. The group will climax its tour with a home concert in the college auditorium in Kearney.

## Moudrys Observe 50th Anniversary

Mr. and Mrs. John Moudry celebrated their fiftieth wedding anniversary Sunday, April 3, at their home in Ord. A luncheon was served to children and grandchildren and at 6 o'clock a dinner was served to invited guests. The table centerpiece was a four-tiered wedding cake and bouquets of yellow carnations. The cake was decorated in gold with a golden 50 and bell. It was made by a granddaughter's husband, Frank Drudik. Mrs. Moudry wore a yellow carnation corsage and Mr. Moudry wore a yellow carnation boutonniere.

Mr. Moudry was born in Czechoslovakia and came to this country at the age of 16. Anna Vochmal Moudry was born in Iowa City.

They were united in marriage in Burwell on April 3, 1899 and have made their home in Valley county all of their married life. They have five children, William Moudry, Mary Klma, Emma Pecinovsky, Agnes Rutar, and Mildred Boro, also eleven grandchildren and one great grandchild.

Mrs. John Pecinovsky and family arrived in Ord Friday from Lawler, Ia., for the occasion. The house was decorated with white streamers and golden bells. White napkins with gold lettering were used in serving. Three granddaughters, Darlene Pecinovsky, Margie Klma, and Thelma Moudry recited golden anniversary poems to their grandparents at the dinner table. At midnight a luncheon of cake and ice cream was served.

A lovely time was had by all and Mr. and Mrs. Moudry were wished many more years of happiness.

## HOMEMAKING NEWS

**Poor Irene.**  
(by Barbara Klanecky)

The second year homemaking girls have been studying home nursing. Irene Franzen was our patient and we learned how to lift an ill person out of bed and into a chair close-by.

Of course, any patient gets hungry so when meal time came we had to think about what Irene was going to eat. Liquid, soft, and light were the three diets we prepared.

Liquis that meal with all liquid food in it and is for a real sick person. The soft meal is different than the liquid because you have solid food even though it is soft. Then the best of all is the light meal and you can eat when you are feeling a lot better. In the light meal you can have almost anything just so it is a balanced diet.

We divided into groups and each group of girls made one of the meals. Irene got to choose the one that looked the best to her. She chose the light meal. It was made by the following girls: Joycelyn Bennett, Dorothy Ann Urban and Dorothy Klma. Irene chose a good meal, too. There was a poached egg, toast and butter, a bright color lot, a glass of orange juice and a glass of milk and a cute little lamb for a center piece.

**Spring Dresses.**  
(by Edna Miska)

Look at all the new dresses in our homemaking department. First we see Agnes Valla working on her red and white striped dress. It is about twelve inches from the floor. She looks lovely in it.

Next we see Louella Christofersen with her pale green dotted swiss. She looks charming in this dress because it brings out the gold in her hair. It has a high neckline and a full gathered skirt.

Pat Wozniak's dress has a low neckline and a swing skirt. She is making it out of blue dotted swiss. She looks very sweet.

**Sewing Progress in Room 3**  
(by Maxine Masin)

The sewing machines in the homemaking department have been kept quite busy these last few weeks while the first year girls were sewing on their spring dresses.

One of the girls, Ellen Jean Foth, has her dress completed (lucky girl).

The girls are all making very nice dresses. For instance, Joyce Huebner is making a becoming dress of red dotted swiss with a yoke of white dotted swiss.

Glennis Eschliman is working on a very pretty dress of pink chambray with a gathered skirt.

Marian Stevens is making a dress of pink "button" print with a gathered skirt and a plain blouse.

Beverly Alloway's dress is of green Indian head with a low neckline and a gathered skirt.

**Preparing a "Box Me" Meal**  
(by Carol Kwiatkowski)

The third year homemaking class is continuing the study of foods. For the major project during this quarter each girl will give a demonstration on how to prepare a certain food or foods. She is

## Wayne Will Hold Special Election

The Wayne city council approved last week a resolution to present to the citizens a bond issue of \$20,000 for the rehabilitation of the Wayne public library. The date for the election is set on May 10.

The election was called in response to a petition filed March 12 with the city clerk by a group of interested citizens. The bonds will run for not less than 5 years nor more than 20 years and will draw not more than 3% interest per annum.

### SHOOT STORY

## Make Mine Missus

By ERNIE RYDBERG

Slim McDermott dropped in at the post office before heading back to the cabin. There was a letter for him and the camp newspaper. The letter was from the main office.

"Mr. Francis W. McDermott, Silver Pine Camp.

"Dear Francis: Sorry to interrupt anything so important as a honeymoon—even a delayed honeymoon—with anything as trivial as business. However, the Santa Ruiz deal broke sooner than expected. Fred Lang is having to take his wife to a higher altitude. You have been appointed district manager for that area. Instead of reporting here Monday, please go directly there. Fred has arranged for you to take over their place. You're a lucky dog. It's a nice, two-bedroom house, furnished. Best regards,

TOM."

Slim grabbed the groceries and legged the trail to their cabin. District manager! Oh, man. How he could use that pay increase.

"Honey," he called, nearing the cabin, "where are you?"

"Got a letter from the boss," said Slim. "The Santa Ruiz deal's gone through."

"Really?" cried Bill. An instant later she was out on the porch "Let's see!"

Slim handed it to her. When she reached the part about the house, her face shone.

"Oh, Darling, I'm so tickled."

"My big, sweet District Manager!" said Bill, softly. "A real house! Let's celebrate."

"Okch," grinned Slim. "How about dinner at the Lodge?"

"Wonderful," said Bill. "I'll finish dressing."

Slim sat down in the rocker again; stretched out his legs. Life was pretty wonderful. He sat there thinking about his new job, then picked up the camp paper. His eyes caught a news item.

"Well, I'll be done-gone!" he growled.

"What is it?" called Bill.

"Oh, this darned newspaper," grumbled Slim. He read sarcastically. "After a two weeks stay in Silver Pines, Mr. and Mrs. Bill McDermott leave Sunday for San Francisco." Mr. and Mrs. BILL McDermott!

Among those present were "the Bill McDermotts." Never "the Francis McDermotts." The man from the city directory had become very confused when he interviewed them. In the directory, it said quite plainly, "William McDermott (Frances)." Now she was back again on the porch. Slim stared at her in amazement.

She had on a pair of Slim's slacks. She'd folded up the pant legs and they bulged in wads at her ankles. His flannel shirt hung clear to her knees; his tennis sneakers stuck out like snowshoes. His big hat came down to her eyes.

### 3-Minute Fiction

Cyprus, Aphrodite's Isle, Slated for Development

The new plan to develop Cyprus as a British bastion of the eastern Mediterranean is a reminder that this is a land that many nations forgot, and then, at dramatic moments of history, remembered with a will.

For more than 30 centuries the big island off the coast of Asia Minor has played a periodic but significant role in world events. Today as in the time of the pharaohs and the crusaders, geography has placed it in a key position along route to the Middle East. Its barren, ruddy mountains rise from the blue Mediterranean little more than 40 miles from the Turkish shore. Syria and Palestine are, respectively, only 65 and 140 miles distant.

The overwhelming majority of the Cypriotes are Greeks, descendants of ancient colonists. In the total population of more than 450,000 there is a sizable Turkish minority, plus smaller groups of Armenians, Syrians, Egyptians and Arabs.

In World War II Cyprus was the first of Britain's overseas possessions to send troops—the Cyprus Muleteer corps—to the European front.

British administration of the island began in 1878, when England leased Cyprus from the Turkish empire to guard the new Suez canal route. On the outbreak of World War I, the island was annexed.

Brucellosis Perils Farm Workers

Brucellosis is one of the most widespread and costly diseases of cattle and swine in the United States; and is known to affect other species of animals as well. Thousands of cases occur in human beings each year as a result of contact with infected stock or from consuming unpasteurized milk. There is no evidence that the disease can be transmitted from person to person but it is readily transmitted from one animal to another. People who find it necessary to assist animals at farrowing and calving time or who handle animals being slaughtered for meat purposes are advised to take the following steps to safeguard themselves against this serious disease. (1) Wear rubber gloves. (2) Wash and disinfect hands and arms thoroughly after handling livestock. (3) Wear goggles or other protective devices over the eyes.

Travel Dangerous in Tibet

Properly called the roof of the world, Tibet is located in the very heart of Asia. With an area approximately that of Mexico, the whole of it is more than two miles above sea level. Travel on this windswept plateau is discouraging. Expeditions must be fitted out with scores of pack animals to carry supplies sufficient to last for many months, with a sizable complement of natives to attend them. Mountain passes must be crossed, sometimes at elevations of 15,000 feet, where the air is so rare that breathing becomes difficult. It is scorching hot by day and freezing cold by night. Bandits overrun the country, especially in the nomadic central and northern parts of the country, where nearly every stranger one meets is a potential bandit.

Origin of Peanut

Peanuts came to the United States in slave ships. They grew from a few bags used as forage into a crop that last year totaled 1,126,000 tons. Peanuts had their origin in Peru. The conquistadors found the Incas munching them between meals. The Spaniards took them in their galleons to Spain, where they flourished. Then they took them to Africa where they got tied up with the slave trade. The slavers fed them to the natives and later crammed the natives into the ships' holds and began the journey to America, where peanuts were used as slave food. The slaves planted peanuts near their cabins, and gradually peanuts spread through the South.

## Easy to Make SEED FRAME

Anyone handy with a hammer and saw can construct this sturdy seed frame. It is made up of four sides, and a hinged top glazed with flexible plastic glazing. The cloth is used because it is shatterproof, lightweight, has good insulation qualities and is easy to install. No grooving of the frame, or puttying is necessary. The cloth is merely tacked in place like fly screen.

The standard size for seed frames is 3 feet x 6 feet. To protect it against rot and decay, the lumber used should be treated with pentachlorophenol. This chemical can be obtained at hardware, lumber and building supply stores.

Assemble the four sides, center partition, and top frames according to the sketch. For permanent construction it is advisable to use galvanized screws instead of nails.

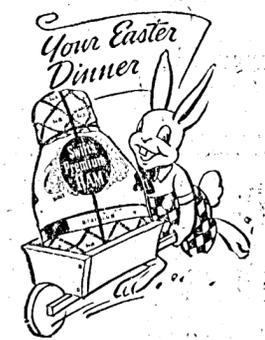

The seed frame is set in place on the ground with high side to the north, and the top ash slanted toward the sun. The inside should be filled with 3 inches of cinders or gravel and then a layer of top soil. This insulates against cold, and improves drainage. When the seed frame has served its purpose each season, it should be removed and stored until it is time to use it again.

**Bank Auto Loans**

People ask, "Why is it to my advantage to finance my car with a Bank Auto Loan?" Here is how our plan works; don't you agree it's the best way?

You pick your car, find out the trade-in allowance you get from your dealer and the amount of cash you will need for the balance. Then simply add the cost of having your present car insurance policy changed to cover your new car. (or getting new insurance) and arrange a low-cost loan with us for the total amount.

To see if you will save money (and we believe you will) compare the cost of other financing plans with a similar transaction here. And remember that with a Bank Auto Loan it is a local transaction all the way through. Figure it out for yourself — then decide.

**SHORT STORY**

**A Quiet Evening**

By Lilliaae  
 Montgomery Mitchell

JOE went into the elevator of Sallie's apartment building, settling his coat on his shoulders with a satisfied smile. After all, one might as well live in style! Sallie probably paid no more for her room in this building than Rita did in that walk-up flat where she had roomed for three years.

"Rita is a good sort," he told himself with a note of apology even in the thought, "but Sallie—say, there's a girl with dash to her!"

Sallie had rushed in with a wrap over her arm: "Oh, Joe, I'm so glad you happened in. They're throwing a dance over at Kitty's and—"

"But, say, after the way I've worked all day, Sallie, I absolutely can't dance all night! I—I just thought we'd have a quiet evening and—talk—" He did not go on to say that he had wanted to talk over serious problems with her such as the burning question as to whether two could live as cheaply as one.

"A quiet evening?" she repeated. "Who in heaven's name wants a quiet evening?"

Her piquant little face upturned to his, Joe allowed himself to be hurried from the room and down in the elevator.

"How far is it to this—Kitty's? Was that the name of the girl?" asked Joe.

Sallie nodded. "You met her a month ago—the same night you met me, Joe. Don't you remember her—a girl with red hair—no wave at all and long green earrings?"

"I'm not going," said Joe, stubbornly.

Sallie looked up at him, her foot on the running-board of the taxi. "Oh—yes, you are," she said. "Yes—you—are, Joe Marshall!"

"What's the address?" Joe asked quietly.

He repeated it to the cab driver. "How much—about?" asked Joe.

"Bout four-sixty," answered the man.

Joe handed him a five-dollar bill. "Keep the change," he said, closing the door.

He turned down the street in Rita's direction mechanically. Five dollars! His lunch money for days gone. He shrugged; after all, a fellow could not expect to take out a girl like Sallie without spending. He had thought that he would visit with her all evening as he had done so often at Rita's but this girl—strictly modern, he told himself. He had thought to buy a box of candy for her and this was yet in his pocket. It was a fancier box than he had ever taken Rita, he thought.

Rita herself opened the door. "Hello," she said, warmly. "I wasn't expecting you, Joe. No—come back here to the dining room. Mrs. Matson had to go to the den."

From the sense and wisdom behind Rita's eyes, he might even learn goodness, too.

list's and I'm taking care of the youngsters. Mary is at her home-work."

"Maybe Mary'd like some of this candy I brought," said Joe. "And I was wondering, Rita, about—that furniture we were talking about—"

"Are you proposing to her?" demanded Mary.

Now it was Joe's turn to flush. The kid needed a spanking. But he managed to get out with, "Any objections?"

"I was hoping that Rita'd marry a good-looking man," retorted this surprising youngster.

Joe stared at Mary. Then, faintly, he began to see the humor of the situation. He looked directly into Rita's eyes. In them, he thought, he might be good-looking. And from the sense and wisdom behind Rita's eyes, he might even learn goodness, too.

"Yes," he said to the youngster, "I am proposing."

**Nebraska Highway Needs Shown in Recent Engineering Appraisal**

Nebraska is faced with a number of difficult road problems, all of which must be figured out and corrected before the highway system can be considered complete. One of these is the large mileage of low-type surfaces. Included in this list are almost all county and township roads, and quite a number of state highways. All the gravel top highways may be considered in this class. Also included in this list are the black top highways wherever the surface breaks, a catastrophe that occurs in many places every spring. These highways are only as good as the top, and when that top breaks through the road is not only a poor one, but it is also a dangerous one. These places are found and marked with warning signs as quickly as possible, but there is always a brief period during which there is no warning. A driver of a heavy truck may run into one of these places, softened by the excess moisture of early spring, and he may find himself mired down so completely that it will take hours to get out. He also damages the highway in his efforts to get out.

Gravel is relatively expensive as a surface for highways, besides not being too satisfactory. The trouble with gravel is the fact that the material suitable for highway use is not always located near the road on which it is to be put. The state or county is faced with two alternatives. Either a high price must be paid for good gravel transported from a distance, or else inferior quality material must be accepted and used. Gravel inferior in size and quality will last only half as long as the coarser grade, so the work has to be done again in about half the time that would be necessary with the better quality material. Another angle not specifically mentioned, but which must be considered in all contract work is the fact that contracts are let in competition and a contractor will sometimes bid a lower price for a job than he should. He is then tempted to cheapen the quality of his material whenever he safely can, to cut his costs.

Right along the same line is the fact that gravel, to produce the best results, should be graded as to size, and the different sizes of gravel should be correctly proportioned to produce the best possible surface. This system means that all fine sand should be eliminated. All too often fine sand, not plaster sand, but blow sand, ferns quite a percentage of the gravel delivered. This fine material is worse than useless. It has no stability in itself, and it weakens the stability of the gravel with which it is mixed. Sand that has an edge may be considered to have some use, and it is no trouble for the expert to tell by the feel whether sand has an edge or not.

Two conditions are bad for gravel roads, and experience has shown that both conditions exist all too frequently in Nebraska. The perfect gravel highway must have a certain moisture content in the road material. When this is present it is no difficulty to maintain the surface. The trouble is that in the early spring and often in the fall the material becomes too wet and gravel is forced into the road to such an extent that none is left on the surface when normal moisture condition returns. This was especially true in the winter of 1948-49, just ended. Roads which

seemed to have plenty of gravel last fall do not have any on the surface this spring. Conditions are just as bad during dry periods of the summer. The dirt becomes hard as a rock and the gravel slides around on top. The maintainer goes along and throws most of it into the middle, and in a day or two the cars and trucks have scattered it over toward the edges again. The gravel is ground between two pullstones of the dirt below and the tires above and in due time is reduced to powder, which simply disappears when the fall rains come. Under the above conditions not all gravel stays on the grade. Every passing auto throws some of it all the way into the ditch beside the road, beyond the reach of the maintainer, where it can do no possible good.

Wind and water erosion has its part in the destruction of our highways. Nebraska winds are likely to attain a speed of forty to fifty miles an hour almost any time of the year. A wind of this speed, blowing sideways of a highway, will pick up the smaller gravel on the surface and blow it into the ditch, or sometimes even into the field beyond. Examination after a severe windstorm will often show patches of highway completely denuded of gravel with the exception of a few large stones. This is especially true during periods of dry weather. Then in periods of wet weather water erosion takes its toll. Often flash floods will wash most of the gravel off patches of highway, besides cutting ditches in the shoulders. This leaves much of the road still well gravelled and places where there is little gravel or no gravel at all. One of the principles of building is that the type of surface be continuous over definite areas. If, for any reason, the gravel is gone from patches here and there, it makes the highway unsafe to travel at legal speeds. For example, a man may drive in safety over gravel after a light shower, but he may find the road very slippery when he hits a place where the gravel is missing.

Keeping up the shoulders of a gravel highway at points where country roads branch off is often a real problem, especially where the grade is high and the country road is correspondingly low. This condition sometimes causes the shoulder to drop away too sharply, and the chance of accident at such points is increased. A similar hazard often develops in the excessive wear of shoulders adjacent to narrow pavements. In cases like these considerable travel is done with two wheels on the shoulder and two on the paving. This is safe enough so long as the shoulder is about the same height as the paving, and so long as weather conditions are right. But when the shoulder presents a drop it tends to pull the car off the road and into the ditch.

"It's a Law"  
 Congress has passed some strange laws in its day. Here is one which is written on the books to govern the District of Columbia, the territory in which the national capital is located. If more than \$26.67 is lost in a fair game of cards, suit can be brought against the winner for the money. If a gambler takes more than \$23.67 by cheating he can be sued for five times what he won.

The North Loup relay team of Meyers, Mulligan, Stillman and Manchester also placed first.

### High Schools Win Special Awards

Three Nebraska high schools have been awarded special certificates of honor by the National Tuberculosis association in connection with the annual Christmas

Seal high school journalism contest. The school papers honored were "The Wolverine," Wilber high school, "The Eagle," Johnson high school, and the "Green and White," Obert high school.

Many schools over the state entered the competition. Students wrote news stories and editorials and these were entered in the contest. Ord high did not enter the competition, as the Christmas Seal proposition in Valley county is handled through the county superintendent's office.

### Consumers' Math Studies Taxation

Miss Holden's consumers' math class, a new course in Ord high, is busy these days studying various phases of our government from the original sources, a method believed to be much superior to study from books alone. Tuesday the class paid a visit to the treasurer's office, where genial George Satterfield explained to them the eccentricities of the American tax system. Other phases of government studied include the social security system and various forms of insurance.

Intermediate M.Y.F. Officers. The new officers elected Sunday evening are:

President, Margaret Jean Muncy; secretary, Duane Wolfe; treasurer, Karen Neumeier; first commission, Bernice Walker; second commission, Dean Achen; third commission, Meredith Brox; fourth commission, Mary Thompson; pianist, Karen Smetz, and Mrs. Hassell is the sponsor.

### Rites in Burwell for Mrs. Barrett

Funeral services for Mrs. Emma Barrett, 83, who died Thursday at her home in Burwell, were held Sunday afternoon from the Methodist church in Burwell. Interment was in the Burwell cemetery.

Mrs. Barrett came to Burwell in 1903, and had made her home there since that time. She was exceptionally active in church activities, and was a member of the Eastern Star.

She is survived by her brother, Al Reed of Burwell, four grandchildren, seven great-grandchildren, eight nieces and ten nephews. Three sisters preceded her in death.

### Here's how you can celebrate Easter

What does Easter mean to you? Sunrise Services... new spring clothes, baskets of gaily colored eggs for the children?

It means that Easter Seal time is here again, too. It means that through these seals you'll be helping crippled children in your own community to a better chance in life.

The money you contribute by buying Easter Seals is used for this one important purpose... to provide handicapped children with adequate medical care... with wheel chairs and braces and a lot of other things they need. It's used to give them specialized vocational training... a chance to go to camp in the summer... to swim and romp and play games like other kids.

So why not celebrate this Easter by buying more Easter Seals. Remember, Every Easter Seal you buy helps a Crippled Child

### Ed Skala Plans Auction Company

Ed J. Skala, Greeley auctioneer, is now developing plans for starting an auction company there some time in May. He believes that such an auction market will fill a real need in the community.

For some time now Mr. Skala has been busy constructing a large barn west of the Burlington tracks in Greeley. With the installing of scales and seal, the building will be ready for business. He is a son of Fred Skala and a nephew of John Skala.

### Complaints Issued in Blaine County for Feed Salesman

Salesmen Offering Feed Not Registered With State; Claim Gov't. Approval.

Complaints have been filed in Blaine county against four feed salesmen and distributors who have been working the sandhills area and selling a supplement livestock feed to ranchers.

G. B. Flagg and A. M. Kingdon, from the state department of agriculture and inspection, spent Tuesday in Blaine county investigating the circumstances of sales reportedly made. Two salesmen involved in the dealer have been placed under arrest and are being held in the Custer county jail awaiting hearing. Warrants have been issued for two others allegedly involved.

On the basis of information gathered, complaints were issued for C. A. Keesenmaker, Robert Gibson, R. E. Matke and R. E. McGee. State inspectors found the men had been selling or offering for sale a commercial feed not registered with the state.

According to Blaine county ranchers who had purchased feed from the salesmen, the men had prospective purchasers that the feed was being promoted by the United States Department of Agriculture and that one-half the cost would be paid by the federal government. The price being charged the ranchers was approximately the same as for any approved type of commercial feed, the investigators found, and the U. S. Department of Agriculture is not connected with the promotion in any way.

The selling scheme came to light when Roy Spencer, a Blaine county rancher, reported the proposition to authorities last week. Spencer became suspicious when told that the product was being promoted by some federal agency. His inquiry uncovered the fact that the state had never approved or licensed the feed and that the U. S. Department of Agriculture was in no way connected with the deal.

Hearings for the men will be held in Blaine county as soon as the weather permits. — Custer Chief.

### Fort Lewis Commemorates Early American Expedition

Stretching from the shores of beautiful Puget Sound to the foothills of the majestic Cascade mountains, with lowering Mount Rainier in the distance, is Fort Lewis, Washington, largest military installation in the western states and home of the famed 2d Infantry division.

The fort's name commemorates the exploits of Captain Meriwether Lewis and Clark expedition down the Columbia river and into the virgin territory now contained in the state of Washington.

With more than 70,000 acres of land, 80 per cent of it virgin timber, the huge post has dozens of target ranges and training areas. Its reservation includes every kind of terrain on which almost any type of military problem may be practiced. Within a half-day's journey lie low hills, pathless forests, beautiful groves, rivers, lakes, and the sea itself.

The fort was originally established in 1917 as Camp Lewis, and became a permanent installation 10 years later. During World War I the hard-hitting 91st division was organized and trained at Camp Lewis prior to its participation in fighting in France. Also organized there was the 13th Infantry division during Lewis' growth as a wartime military training center.

Today, all Fort Lewis' activities are closely related to the training of the 2d (Indianhead) division which, in 1917, was organized in Europe. The division, then composed of regular army and marine corps regiments, served with distinction in World War I and was decorated with the French fourragere. In World War II the Indianheads fought all the way from Omaha beach to the Rhine. For their valiant stand during the "battle of the bulge" the command was decorated with the Belgian fourragere.

### The Difficult Date

By EULALIE WEEKS

WHY was she on this train? Why was she taking this trip that was bound to end in heartbreak? "The scenery in this part of the country is lovely, isn't it?"

Sheila turned to the little person beside her. Certainly there was nothing outstanding about her companion, except perhaps a pleasant expression. Sheila was surprised to hear herself asking, "Do you like travelling by train?"

"Oh, yes, replied the woman. "I like watching the outside and the inside both. People are all so wonderful."

Suddenly Sheila felt like keeping the conversation going. "I bet you know a lot about people!"

"I like to think I do. I guess about them and wonder where they are going and why."

"Where do you think I'm going, then, and why?"

"I'm not sure. At first I thought you were going home to visit your folks for the week-end but you're not happy enough for that. I do think, though, that you're going some place that has some connection with your home."

"Why do you think that, Mrs. er... I'm sorry, I don't mean to be rude!"

"My name isn't Mrs. It's Miss Dolly James. Every one calls me Miss Dolly."

"Oh," continued Miss Dolly. "I know you're familiar with this country because you never glance back or ahead. You seem to know everything that's coming next."

"That's right. I've made this trip to Ganesville pretty often but not very lately. There's no one there for me to visit any more."

"I'm sorry."

The sympathy in Miss Dolly's voice seemed to be all Sheila needed. "Four years ago today I said goodbye to Dannie Ross on the little platform at Ganesville. Dannie had things figured out pretty well. He didn't think he had any right to tell me how he felt about me then but he said that if he ever came back and I wanted to hear how he felt, he'd meet me on that same platform in four years' time and tell me."

"So you're going to meet him?"

"I'm going to Ganesville."

"Didn't he come back?" was the soft inquiry.

"Yes, he came back, Miss Dolly. "I'm afraid I don't understand."

"Well, it's simple, really. Dannie came back and the very sight of him thrilled me so that I was out top of the world but Dan said he thought I had changed a lot. He said I was sophisticated and citified and he paid me lots of lovely compliments but he never once mentioned the subject we discussed."

"He likes the city?"

"He never used to. He always said he wanted to come back and

"Dan, oh, Dan! How could you?" own his own shop and raise a family in the country."

"But you don't want to any more?"

"Of course I do! I'm the same girl inside that he left four years ago. I want the things now that we both wanted then but he doesn't seem to want to find that out."

"Yet you're taking this trip to-day?"

"I just had to. I promised. But it's no use."

"What makes you think it's no use? Don't you believe he'll be here to see if you have changed or not?"

"I did until last night. We were all at a party and I kept listening for him to drop some hint about our secret date for today but right in front of me I heard him make a date to play golf this afternoon."

"You'd better powder that nose of yours. We're nearly to Ganesville."

The tapping at the window attracted her and as the train started slowly to move, she could make out Miss Dolly's words:

"He had to be sure! He had to be sure!"

Sheila's puzzled thoughts about the little lady's last words were interrupted. Two strong arms enfolded her.

"Dan, oh, Dan! How could you?" "Sheila, dearest," she heard him say, "I had to be sure. I had to be sure..."

## Bridgeport Captures "Lion"

It may or may not be the same "lion" that has been causing a wave of depredations and speculation over central Nebraska, but the above beast is being proudly displayed by a Bridgeport resident. The photograph was sent to the Quiz by Tom Lally, editor of the Bridgeport News-Blade, with no other comment than "Here's your lion." The Quiz suspects the sheep in the picture is Mr. Lally's dramatization of the annual first of April saying, "March comes in like a lion, goes out like a lamb." And everyone knows that sheep have a rather pungent odor.

## Last of Pioneers Writes Letter

Delpha M. Taylor of Lincoln writes to renew her subscription to the Quiz. Miss Taylor has been employed by the legislature since the session opened Jan. 4, being secretary of the Committee on Judiciary, which work she has found very interesting. She says she is located just across the hall from Clarence M. Davis.

Judge Paine retired from the supreme court Jan. 23 and moved back to Grand Island. Miss Taylor became court reporter in the eleventh judicial district in the fall of 1922, when Judge Paine was district judge. She continued in this work for 8 years, and then went to Lincoln in the same capacity when he became a judge of the supreme court 18 years ago.

Miss Taylor is a graduate of Ord high school, and her first work after finishing school here was setting type for the Valley County Times, then published by H. D. Leggett.

**TOUGH TRAVELING.**  
Bob Dye got to his school a week ago Sunday practically the only possible way, horse back. He started at his home about 4 miles southeast of Ord and rode to about 5 miles south of Ericson, a total of approximately 20 miles. The ride took Bob about 5 1/2 hours. He places the mud was so solid that the horse sunk in up to his knees. By the time they reached their destination, both Bob and the horse were tired out.

**BUYS GRAND ISLAND STORE.**  
D. M. Osborne, owner of the Osborne Shoe stores in Ord, O'Neill, Holdrege and Oxford, will add another outlet to his small chain this fall, when he takes possession of the Steidley Shoe store in Grand Island. Sale of the business was announced this week, with possession this fall.

## F. A. Mitchell, Formerly of Ord, Buried Thursday

Employed by Cornell Bros. Hardware More Than 45 Years Ago.

Francis A. Mitchell, 72, passed away at the Mary Lanning Memorial hospital in Hastings, where he had been receiving treatment for the past ten days. He had been a resident of Hastings for a number of years.

Shortly after the turn of the century Mr. Mitchell was employed in Ord in Cornell Bros. hardware store in what is now the Pfeiffer building on the south side of the square. His parents, Mr. and Mrs. Sam Mitchell, were early residents of Ord.

He was born in Newport, Ky., July 15, 1876 and was a traveling salesman for the Imperial Casket company of Kansas City, Mo., at the time of his death.

He was a member of the First Presbyterian church of Hastings, a Mason and a member of United Commercial Travelers. Survivors include his widow, Mrs. Clara B. Mitchell, a daughter, Mrs. Gordon Minter of Hollywood, Calif., a sister, Mrs. Ben G. Russell of Denver, Colo., and a granddaughter, Niki Minter.

Mrs. Minter, Niki and Mrs. Russell were in Hastings at the time of Mr. Mitchell's death. Mr. Russell came at once, and Mr. Minter arrived by plane.

Funeral services were held at 1:30 p. m. Wednesday at the First Presbyterian church in Hastings, with Dr. Silas G. Kessler officiating. Masonic rites were also conducted at the time, following which the body was brought to Ord for burial.

The cortege ran into deep snow between North Loup and Ord and not arrive until very late that evening. The next morning commitment services were held at the grave in Ord cemetery, with Rev. Eugene Olson of the Ord Baptist church in charge.

## Merit System Examinations Taken At Ord

State Merit System examinations were given Saturday at the high school from 8 a. m. to 12 noon, by Mrs. Edw. L. Kokes. These are the equivalent of civil service for job placement. Applicants for the next morning commitment services are eligible for clerical or stenographic positions in county and state offices, on basis of merit.

Fifteen took the examination: Betty Anderson, Phyllis Anderson, Mary Lou Bevan, Richard Good, Rita Greenwalt, Joan Hanson, Helen John, Carol Kwiatkowski, Norma Manchester, Vieta Miska, Rosellen Vogelanz, Vivian Zukoski, all of Ord high school, and Beverly Goodrich, Evelyn Hamer and Kathryn Haight, all of North Loup.

## Gerhard Friesen of Henderson Is Dead

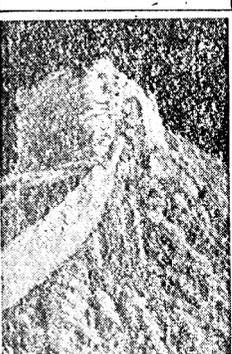

Albert I. Friesen, superintendent of schools at North Loup, received word of the death of his uncle, Gerhard J. Friesen, 61, at Henderson, Neb. Funeral services were held Sunday, March 27. Mr. Friesen had been to visit his uncle only a few days before, so he did not drive down for the funeral.

Richard Friesen was a son of Jacob and Anna Friesen and was received as a member of the Bethesda Mennonite church June 8, 1908, remaining a faithful member until his death. He attended York college and Fremont college and taught school for a number of years. He was very active in church and civic affairs.

## Mrs. Geo. Round in Airplane Ride

Mrs. George Round, who had been visiting a daughter, Mrs. Jack Furbough in Santa Barbara, Cal., left the Los Angeles airport with another son-in-law, Fred Campbell, March 30, and flew to Hartford, Connecticut, for a visit with the Campbells, who live there. They left Los Angeles at 8:30 a. m. and arrived at Hartford at 10 p. m. According to her Ord daughter, Mrs. Hugh Carson, Mrs. Round enjoyed the trip very much. It was certainly a long trip for her, as it was her first experience in the air, and she is well past 80 years of age.

## Chester White Sow Farrows Eighteen Pigs

A pure bred Chester White sow owned by H. E. Iske and Sons of Ashland recently farrowed 18 pigs, sixteen of which were saved. The feeding problem is being solved by leaving 8 with the mother, hand feeding 8 and changing them from time to time.

Mr. Iske says that he has been raising hogs 27 years, and this is the first time in all those years that a sow has farrowed an exceptionally large litter.

## Comstock Boy in Fatal Accident

Word has been received in Ord of an accident Saturday in Comstock which proved fatal to Carl Fowler, 12 year old son of Mr. Harlan Fowler. He was found about six p. m. Saturday in a feed lot at his home, injured by a shot from a 22 caliber rifle, which entered his head.

He was taken to Comstock, then placed on a railroad motor to be taken to the Loup City hospital, but he passed away enroute. The situation was made more difficult because all roads leading into Comstock were blocked with snow and mud.

## Scotia May Pave Business Section

A meeting was held in Scotia Monday night of this week for the purpose of talking over the proposition of paving the main street leading south from the highway to the Union Pacific tracks.

Oil mat was used on this section some years ago, but it has depreciated and is now in very rough condition. The matter is the responsibility of those owning property facing on the street.

## Cornell Remarks, 'We Wuz Robbed!'

Melvin Cornell, erstwhile newspaperman in various towns, and now in the insurance business in Friend as well as secretary of the Friend Chamber of Commerce, raises the cry of "We Wuz Robbed!" with all due respect for the truth.

Thieves broke into the office of the Gordon-Cornell agency, broke open the safe, and finding little they could negotiate, scattered the papers over the floor. In case you want to know, the safe was insured.

## Seed Grains

Certified Clinton Oats and cleaned and treated Spartan Barley, on hand ready to go out. These supplies are rather limited in case there should be a heavy call for them just at planting time. We would appreciate it if you would place your order a few days in advance so that we might have them ready for them to go out on short notice. We will make a booking for you and have it ready for you. Clinton Oats are proven to be a very good variety for this part of Nebraska.

## Alfalfa and Sweet Clover

We have mentoned several times that normal planting of Alfalfa and Sweet Clover would make supplies very short. Just this week we had a party from Lincoln in and take out 600 lbs. of Sweet Clover and 2 bushels of Red Clover. Our prices here in the producing area of Alfalfa and Sweet Clover are attractive to landowners in other sections. You should figure just what you will want to plant and place your order while we have local grown seed on hand. Anytime that we have to ship this seed in the price will be much higher.

## Grasses

We have pretty good stocks of Bromie Grass but Crested Wheat is about impossible to find. Blue Gramina, Western Wheat, Timothy are not high priced this year. Red Top is very high priced. Red Clover and Alsike are in fair supply and not too high priced. We can make a good pasture mixture for you. Tell us what kind of land you want to turn back into pasture and we will make the proper mixture.

## Cleaning and Treating Seed

We have equipment and trained help to reclean your seed and treat it for you. This is the time to get your seed ready for planting. Don't wait till you are ready to plant to get your seed cleaned and treated.

## Seed Potatoes

Our seed potatoes will be here in a few days. Will have Ohio's, Warbas and Cobblers. We will make special prices in quantities for good sized acreages.

## Baby Chicks

This week we have a couple of hundred started Hy-Line chicks. If you have not placed your order for chicks let us have your order soon. Standard chicks are very short and the order should be in a couple of weeks before you want them.

"It pays to buy from Noll."

Beware The Crook.

In case you do not know, a man who uses shady methods to sell you a bill of goods, even if the goods happen to be worth the money, is a crook. Beware the man who represents himself to be something he is not. Beware the man who makes promises that common sense tells you he may not be able to fulfill.

In spite of the fact that the farmers of the United States today are the best informed farmers of this or any other age, crooks still consider them a fair field for their nefarious schemes. Many crooks like to operate in the country. They figure that law enforcement officers are few and far between. Nobody seems to know why so many crooked salesmen consider the farmer as legitimate prey. Possibly the old belief prevails that the men in rural areas are still a bunch of hicks who will fall for anything. The man who figures this way soon discovers he made a mistake in his estimate, but he usually succeeds in victimizing a few before he gives up the ghost. One class of men is especially dangerous in this respect. This is the group with a certain amount of sales experience, those who were either raised on a farm or who lived on a farm for a few years. They are the men who can talk to the farmer in his own language. These men can gain a farmer's confidence, the first essential step. Because they understand farm problems, such salesmen can tell a plausible story. Because they seem at home on the farm, their story may be believed. Further, they usually are selling some product for which there is a real need, something which may be hard to get. So the farmer takes a chance, and buys. Farmers, and everybody else, for that matter, should keep in mind the all important fact that any-

body with a legitimate business proposition carries credentials to prove he is what he claims to be. If he is honest, the chances are he will insist on showing you his credentials before he explains his business.

If a man approaches you with an proposition, ask for his business card. If he has one, he will produce it. If he fails to do so, have nothing to do with him. If he hands you his card, do more than just glance at it. Cards can be faked, you know. If you are not convinced, ask him questions. The chances are you will trip him up.

Do not pay any money until you are certain your money is safe. Then insist on a receipt, and do not accept one with only initials signed to it. Get the full name of nothing. It is well to keep in mind that these itinerant salesmen have nothing better to offer you than your dealer in town has. Do not hesitate to notify the authorities if you are suspicious. Two men are under arrest in a neighboring county because one farmer had the courage of his convictions and notified the authorities. These men were using fraudulent methods to sell an average product at about the usual price, a product, however that was not registered with the state as required by law.

The town resident is protected from crooked salesmen. In most towns all salesmen must be checked by a committee from the chamber of commerce before they are permitted to canvass. It is not so easy to protect the farmer as the crook knows this. He also knows that the moment he gets wind of the authorities moving in he can jump in his car and be a long distance away in a short time. We are living in a complicated era. If a man claims that he is a representative of the Federal Education Bureau, for example, not one man in one hundred could say positively whether he was lying or telling the truth, since there could be such a bureau. With literally hundreds of alphabet bureaus at the disposal of the citizen to be sure of his ground before he enters into any agreement with an unknown salesman.

## Vurnm Tatlow Dies At Cotesfield;

In the passing of Vurnm Tatlow at Cotesfield March 21, that area lost one of the very few remaining pioneer settlers. Mr. Tatlow came to Howard county with his parents in 1873 at the age of 7 years. He was a typical pioneer, with many interesting pioneer experiences. He hauled ties for the Union Pacific railroad when it built up the North Loup valley in the '80s. He worked for Joe Gillespie when that grand old timer ran a livey barn in Ord. He also carried the mail to Fort Hartsuff and Burwell for four years. He was married Oct. 30, 1885 to Minnie Lint of St. Paul, who survives him. He was an uncle of George Lint of Ord, but the Lints were unable to attend the funeral because of illness.

## ++ Something Different ++

I surely would like to see Ord youngsters organized into a baseball league this summer. They would have fun, fresh air, exercise, and a wholesome summer time-filler.

Walt Douthitt and some of his baseball-minded friends are working on it as hard as they can.

And why shouldn't these same 10-to-15-year-olds all learn to play golf this summer and get some good from our lovely golf course?

As I told you before, the golf course is paid for. It is available. It is a dandy.

Why not use it? Let's organize some beginners' golf classes.

There never was a year when so many citizens damned and double damned the streets. There never was a year when our streets were in such terrible condition. There never was such a year, in fact.

Do you suppose this is the year to start raising Cain about the streets and trying to get them paved?

Paving would be a wonderful improvement in the town.

Only, there's that little detail: someone has to pay for it.

That could be me and you. And are we willing?

Have our streets been messy enough to sell us on some good big paving assessments for the next ten or twenty years?

With the death of Mrs. Milford a famous old name of our city vanishes from our rolls this week. Since the earliest days of the town

Milford has been a proud name in Ord.

When the Milford store was operating, it was esteemed the most dependable place one could possibly want to shop. Everyone knew the goods was exactly as represented. Mr. Milford was honest, not after the modern pattern, but after the pattern of Abraham Lincoln.

Asked such a question as "Is this material all linen?" Mr. Milford would answer without a pause, "No-o, of course it is not all linen. There's a cotton thread and there's another."

It was the same with any article he sold. He would tell you the specific details about it, whether the advantage would be yours or his.

Before him, his father ran the general store, a landmark in this country.

Since the store burned, and the hull has been standing there idle so many years, it is not easy to realize what a heart business this corner housed in those long-ago days.

That East's story about the little girl and her cousin Peter tickles me whenever I think of it. She had heard and heard of her cousin Peter, and when at last he came visiting, she broke out crying. No one could understand why she cried, until she sobbed: "I thought Peter was a rabbit."

## What's Cookin' Ward's Column

William Valla, son of Mr. and Mrs. Frank J. Valla, has been home from Germany since about Christmas time, but he made so little fuss about it that the Quiz didn't get the story at the time. Frank had quite a time of it, with the 450 engines as a corporal in tank and refrigeration mechanics by occupation. He was stationed at Hanau, near Frankfurt, and he no doubt had a lot of interesting experiences. He could have gone into the refrigeration business when he got back, but Bill is one of these fellows who appreciate his home, especially after being away from it and away from America for a period of three years. So if you are looking for Bill, you will find him out on the farm, ten miles north of Ord on Gravel creek.

Those tiny looking 1943 pennies have come in for plenty of usings in the past 6 years, and a lot of people hated the sight of them. Not long ago a story got out that they were being called in and that the metal of which they are made is being turned to a special use by the government. The federal reserve bank is turning them in as they come back to the bank in the regular course of business. Perhaps you have noticed that these pennies are not as plentiful as they were a few months ago. What happened was that collectors, people who make a business of collecting anything they think may

become scarce, have been gathering them in. In so doing they defeat their own object. There will be so many tin pennies hoarded that they will have little value beyond their face value, which will always be one cent.

For many years now Nebraska has had a unicameral legislature, the only one in the United States, and for that reason publicized from the Atlantic to the Pacific, from the Gulf to Canada. Yet in the legislative journal for Nebraska's 61st legislative session, on page 601, appears the following communication: "A letter from Cecil B. DeMille of the DeMille Foundation for Political Freedom, opposing the Thomas Bill and asking the State of Nebraska to memorialize BOTH HOUSES against the Thomas Bill." This writer does not know what the Thomas Bill is, and does not seriously care. But it is passing strange that Mr. DeMille should request opposition to the bill and not even know that Nebraska has only one legislative house.

In case you didn't know it, March, 1949, broke all records for moisture. We had an even four inches. The best previous record for March was in 1927, a measly 3.80 inches. Also the snow during Wednesday ran the total for the

winter up to 63.8 inches, which is undoubtedly an all time record snowfall for Valley county. Also, counting up to Saturday night, April 2, 142 days had elapsed since the first snow fell Nov. 11, which is quite a long winter.

Christopher Morley has this to say: "Read, every day, something no one else is reading. Think, every day, something no one else is thinking. Do, every day, something no one else is silly enough to do."

I read that sage advice Tuesday evening of last week. Wednesday came the snow storm and stagnation. That evening the bus failed to leave Ord I wanted to go home, so I took a chance and started out on foot. Pretty soon a man came along in a car, and gave me a ride as far as the Long place, where he had to turn back. I went on. The going was about the toughest I ever experienced. After a while I came to a six car funeral procession stranded in the snow. I couldn't do much to help, so I walked on. Two trucks and three autos passed me, which meant at least eleven vehicles stranded in one place.

The wind was blowing from the north about 40 miles per hour, and sleet the size of peas kept hitting me in the face. I tried to follow the car tracks, but the wind

kept blowing me out of them. Finally, down near the Fish place I saw a No. 62 auto coming and flagged him down. It was Johnny Bryan of Scotia. I told him about the traffic jam up ahead, and he decided to go back. It took us about ten minutes to get his car turned around, but the going was easy after that. I got home tired, but feeling fine. I had done something nobody else would be silly enough to do, and had gotten away with it. Christopher Morley was right!

After all, that is what made America in the first place. People in this nation do not all follow a certain pattern. People do not think alike, and they act accordingly. Further, they do not have to think alike. The constitution grants them the privilege of defending the things they think are right. They can read, every day, something no one else is reading. They can find such material in any public library. They can think something that no one else is thinking. They can do something no one else is silly enough to do. That is what has made America the greatest nation on earth!

# Arcadia

**MRS. GUY E. LUTZ**  
Arcadia Representative  
Phone 9912

**No Mail.**  
Arcadia was without mail service from Tuesday until Saturday last week. On Saturday, with the star route from Anselby still impassable, Fred Christensen and Anton Nelson went to Anselby around through Loup City, Sweetwater, etc. and got into Arcadia late Saturday afternoon with the mail. From then on people on horseback, wagon and tractor headed for the post office to get their own and their neighbor's mail. Anton Nelson made the round trip again on Monday to bring the mail from Anselby.

**Spring Music Concert.**  
The High School Music department, under the direction of Carl

Easterbrook presented their spring concert on Tuesday evening at the High School. The program consisted of solos, small groups, band and chorus numbers which will be entered in the District Music contest to be held Friday and Saturday of this week at Kearney.

**Legion Auxiliary.**  
The American Legion Auxiliary met last Monday in the Methodist church basement with Ada Holmes and Alberta Lutz as hostesses. A secret vote was taken to see which of the eligible high school girls would be the Arcadia representative this year at Girls' State. Barbara Mason was selected and will be sponsored by the Auxiliary. We are asked to keep poppy day in mind as it will soon be here.

**New Books.**  
The Arcadia Township Library has added the following new books: The Case of the Turning Tide, Gardner; The Cokesbury Shower Book, Fite & Payne;

Winky, Quinlan; The Invisible Chimes, Sutton; Son of the Black Stallion, Farley; Crusade in Europe, Dwight D. Eisenhower. This book was given for the Memorial shelf. Blood of Martyrs, Mitchell; Woman of Property, Seeley; The Professor's Umbrella, Ward; The Sword from Galway, Mayrant; Gaudy's Ladies, McKeekin; The Fire Balloon, Moore; The Mill on Mad River, Clark; Victory of Paul Kent, Hale.

**Special Meeting.**  
Holy Week services will be held at the Methodist church each evening April 10 to 15. Organ music will be played from 7:45 until 8:00 when the service begins. There will be special music at each service and Rev. Buehler will draw a chalk picture on Monday, Wednesday, Thursday and Friday night. Wednesday night has been designated as Family night and will take the place of the regular Family Church night and supper, this month. Thursday is Youth night. The public is invited to these special Spiritual Life Services.

**VanderHeides Honored.**  
Rev. and Mrs. VanderHeide were honored at a fellowship dinner at the Congregational church on Sunday following the regular Sunday morning service. About 65 gathered for dinner in the church basement. After the dinner a short program was presented and the VanderHeides were presented with a going away purse, a gift from their many friends.

**Up To Date Club.**  
Up To Date club met last Tuesday at the Levin home. It was Guest Day and each member brought a guest. The lesson on the Bible and Religious Music was presented by Mrs. Hazel Weddel and Mrs. Esther Mason with everyone taking part. The Old Rugged Cross was sung by the group and Mrs. Clinton Masters sang as solo, O Love That Will Not Let Me Go. Mrs. Mason gave the story of each song and the program closed with the group singing the Easter song, Christ the Lord is Risen Today.

Committees were appointed for the Woman's club convention to be held here April 26. The next meeting will be at the Erickson home with Mrs. Hawthorne in charge of the lesson on Flowers.

Mr. Gregory, Mrs. Butterfield and Mr. and Mrs. Gilbert Gregory and daughter were Sunday guests at the Wm. Paben home.

Happy Hollow Aid met on Tuesday at the home of Mrs. McDonnell. Earnest Easterbrook lost 7 cows and 2 calves in last week's snow storm.

**Bus Stalled.**  
Mrs. W. J. Ramsey returned home Sunday evening on the bus from Omaha. The bus got stuck about 5 miles from Arcadia and had to turn around and return to Loup City. The passengers were taken on into Arcadia by a passing car. A transport loaded with new cars also was unable to make the hill and the cars had to be unloaded and driven into Arcadia. The transport driver who had left Kansas City at 8:30 Sunday morning said he hadn't expected to encounter such roads as he found here.

**Birthday Party.**  
On Thursday evening the Everett Williams home was the gathering place for a group of neighbors to help Loren Wilson celebrate his birthday. Those present were Mr. and Mrs. Loren Wilson, Mr. and Mrs. Floyd Smith, Mr. and Mrs. Clarence Mosh, Mr. and Mrs. Harold Elliott and Mr. and Mrs. J. Waddell. Pinochle was the diversion of the evening. Refreshments consisting of ice cream cake and coffee were served by the hostess.

**Stalled in Snow.**  
North Loup Cheese Factory's milk truck was stalled on Wednesday by the drifted snow and the drivers stayed at the Casey Holmes home from Wednesday until Saturday. On Saturday they started walking for North Loup, leaving their truck. The highway to Ord was opened on Sunday.

**Rev. Arthur J. Taylor of Lincoln.**  
Supt. of the Congregational churches, will be the speaker next Sunday at 11 o'clock at the Congregational church. Following the services there will be a fellowship dinner in the basement of the church.

Mrs. Thomas White and baby son returned home on Sunday. Mrs. Hodgson and Dewey were Sunday dinner guests at the Carol Lutz home.

Mr. and Mrs. Ray Lutz were Monday dinner guests at the home of Mr. and Mrs. Gerald Wibbels and Diane.

District meeting of the Rebekahs will be held on April 20 in Arcadia. The towns of Sargent, Comstock, Loup City, Rockville, Dannebrog and Boelus will attend the all day meeting.

An Easter cantata will be given on Easter Sunday at 2:30 at the Methodist church and the new organ will be dedicated at that time.

Mr. and Mrs. Otis Gartside are the parents of a baby girl, born Monday at the Loup City hospital.

Rev. and Mrs. VanderHeide were Monday night guests at the home of Mr. and Mrs. D. O. Hawley.

The monthly meeting of the Loup Valley Youth for Christ which was to have been held Sunday, April 2 at the Congregational church was postponed due to bad roads, as groups from Loup City, Scotia, Burwell, Ord and North Loup could not attend. The meeting with Rev. Basil Anderson, of Radio Station KJLS, of Columbus, as guest speaker will be held later on in the month.

Mr. and Mrs. Aaron Paben and family of Greely spent Sunday at the Wm. Paben home. They said the storm was not nearly as bad at Greely.

The Jolly Eight Pinochle club met with Kate Murray, Rose Lane won high score and Pearl Lee low. Dominic Kuszak and Henrietta Mihalski who have been visiting at the Arnold Pahu home for the past week, returned to their homes in Loup City on Sunday.

**Christian Science Church.**  
"Are Sin, Disease and Death Real?" subject of the Lesson Sermon which will be read in Christian Science churches throughout the world on Sunday, April 10, 1949. The Golden Text is: "Bless the Lord, O my soul, and forget not all his benefits; who forgiveth all thine iniquities; who healeth all thine diseases; who redeemeth thy life from destruction." (Psalms 103: 2-4).

**Perry Suchanek Among Missing.**  
Perry Suchanek of St. Paul was listed as still missing in last week's Howard county papers. He went to Omaha March 13 and sent back two telegrams that week. Since then he has not been heard from. He was not in good health and had gone to Omaha to consult the doctors. The telegrams stated that he was seeking medical attention. All efforts to get in touch with him have failed.

## How the Other Half is Living

Ralph Bolen is the new president of the Lexington chapter of the Society for the Preservation and Encouragement of Barbershop singing in America. The group, nearly 60 strong, plan a show to be given at the Dawson county fair this summer.

While competition is keen in some places for city office, Gordon seems to be having trouble keeping its officials. Last week two of them resigned. Lloyd Jordan resigned as city attorney so he would have more time for his county attorney job. Bob Middleton has resigned as Gordon city clerk.

E. C. "Richard" Sweet of Stanton, court reporter for 25 years and at one time confidential secretary to William Jennings Bryan when he was secretary of state, and to his successor, Robert Lansing, has retired from his work at the age of 61, and will live with a daughter in Omaha.

Monday evening of last week 65 citizens of Spalding met in the city auditorium to talk over the proposition of paving the main street. Much enthusiasm for the

project was shown, and the village board will make a study of the idea. Reed O'Hanlon, sr., Blair attorney and long time democrat, has announced that from now on he is a republican. He gives as his reasons that he fears a socialized state with the present democratic trend. He says that smart planners believe they can manage the lives of people, supervising them from the cradle to the grave.

A blaze of unknown origin destroyed the school at Page, in Holt county. The building was completely ruined and will have to be rebuilt. The firemen responded promptly but were handicapped by shortage of water.

Two women and eleven men, marooned in Bloomfield by the storm last week, were compelled to return to their homes in Wausau by handcar on the railroad track. A year ago Walt Steffin of Hartington lost his billfold and \$65 while working in his field. Last week a neighbor boy, Billy Kalin, found the billfold. The money was rotted, but has been sent in and will doubtless be replaced.

That hunting coyotes by airplane gets results is proved by the fact that 355 of the pests were destroyed in that manner in Greeley county the past winter. The bounty of \$2.50 is not enough to pay for the expense of hunting in this manner, but citizens have contributed over \$500 to date to help out the good cause.

**Up To Date Club.**  
Up To Date club met last Tuesday at the Levin home. It was Guest Day and each member brought a guest. The lesson on the Bible and Religious Music was presented by Mrs. Hazel Weddel and Mrs. Esther Mason with everyone taking part. The Old Rugged Cross was sung by the group and Mrs. Clinton Masters sang as solo, O Love That Will Not Let Me Go. Mrs. Mason gave the story of each song and the program closed with the group singing the Easter song, Christ the Lord is Risen Today.

## Here's why we say—

# "Permalube is 10 ways better"

—the all-round long-lasting motor oil"

TO BE CLASSED as premium, a motor oil must have certain proved qualities designated by the American Petroleum Institute. In simple terms, a premium motor oil must be fortified against harmful changes during use—changes which cause varnish, sludge, and bearing corrosion.

When you buy Permalube, you get a motor oil that fully meets these requirements—and then goes out and beats them 10 ways! It's the all-round, long-lasting, premium-plus motor oil.

In the engine of your car, Permalube never quits. It's long on mileage and short on acid-forming tendency. It actually keeps your engine clean. It fights heat, it wards off wear and greatly lengthens engine life. It cuts oil consumption to the bone!

When you buy premium-price oil, why not get premium-plus quality?

Get Permalube today at your Standard Oil Dealer's with your

PERMALUBE has these "premium-plus" qualities: 1. low oil consumption; 2. superior break-in ability; 3. maximum engine cleanliness; 4. minimum ring sticking; 5. increased effective filter life; 6. minimum combustion-chamber carbon; 7. protection against engine wear; 8. exceptional cold-engine performance; 9. good control of water sludge; 10. protection against foaming.

it's **ROADMASTER!**

WHEN this sight greets you in your rear-view mirror—mister, better give over!

Overtaking you is just about the ablest performer on the road today—the only thing to do with ROADMASTER is give it road room and a salute as it passes.

Reason is—ROADMASTER is something excitingly new in fine cars.

Big, yes—stretches a gorgeous eighteen feet, with all that such size means in comfort and inside stretch-out space.

But part and parcel of every one of its 4,400-odd pounds is the fastest footwork on the highway. Action is the key of every part, from its 150-hp Fireball power plant to the swift, silken, unbroken surge you get from Dynaflo Drive.

As a matter of fact, action's even invited by the price tag. By the pound, by the inch, by any yardstick you want to lay against it, it's the buy of the fine-car field.

For proof, just gather a few delivered prices on other cars and bring them around. We'll show you so much more for your dollar you'll waste no time getting an order in.

**Mud at Ericson**  
The muds the past week have left our community almost isolated again. The mud is really worse than the snow and drifts of winter and the roads are impassable. Ericson was without mail Wednesday, Thursday and Saturday. Gene Burhaus with Pete Dahlsten and his jeep went to Scotia Friday, the regular route south and were all day until 3 o'clock in the afternoon. They were stalled several times and had to be pulled out with a tractor. Sunday Mr. Burhaus and Mrs. Dahlsten with the jeep again left early for the mail. It was not quite as bad as it was frozen some. We surely will appreciate good weather and good roads again, when they do return.

**Schamp in Hospital**  
Word was received by friends of Fred Schamp who is a patient in the Fitzsimmons hospital at Denver that he would enjoy hearing from all his friends by letter or cards. Fred was injured severely several months ago, while on duty with the U. S. Army in Germany and will be in the hospital indefinitely. His address is Cpl. Fred S. Schamp, Fitzsimmons Hospital, Room No. 4172, Ward 6, Denver, Colo.

## MRS. ETHEL HAMER Quiz Representative North Loup

### Snowbound.

Mr. and Mrs. Roy Cox arrived home Friday evening from a business trip to the southwest part of the state. On Wednesday night their car was one of thirty-five stalled between Indianola and Cambridge in the snow storm. They found refuge at a farm house, where including the farm family there were forty-one people spent the night. The Wesleyan college glee club was among them and in the evening they put on their program. Mrs. Ventlink, the farmer's wife, made a canner full of delicious potato soup and coffee and in the morning made pancakes for all. They slept in relays, and all enjoyed the night in spite of discomfort. The next morning Mr. and Mrs. Cox went on to McCook to the home of their daughter, Mrs. Hubert Vodehnal and then came home Friday.

Mr. and Mrs. David Davis were Thursday dinner guests of Mr. and Mrs. George Maxson. Saturday afternoon they left for their home in Denver after spending more than a week here.

We have some mighty good house deals, some small tracts in and near town, one of the best oil businesses, some good farm deals, one for possession now and a good place, 240 acres some river bottom pasture and better than average improvements. Can arrange mortgage for 1/4 at 4% interest. Long time to pay.

## C. B. CLARK North Loup, Nebr.

**Visit in Florida.**  
Arthur Smith left Wednesday evening and joined his sister, Mrs. George Hatfield and her husband, and his brother, Truman Smith of Arnold for a two weeks vacation trip to Pearson, Fla. to see a sister whom they had not seen for twenty-five years.

### Haught Is Manager.

Don Haught, son of Mrs. Ruth Haught, is manager of the "U and I store" at Valentine, recently purchased by Messrs. E. A. Hans and Alvin Coleman from Mr. Wade, and formerly known as the Wade "U. and I. store." Don has been working for Mr. Wade in a similar capacity for some time.

Paul Madsen returned home Thursday from Omaha where he had been to attend the Welders' convention.

H. J. Kyle left for his home in Los Angeles last week.  
Mr. Lewis of Gibbon came Friday with two trucks after Russell Barber and his household goods. Russell will work for Mr. Lewis on his farm near Gibbon and had expected to move Tuesday but could not go because of the storm.

Mr. and Mrs. Jim Johnson were Thursday evening guests of Mr. and Mrs. Glen Johnson at an oyster feed, celebrating both men's birthdays.

Mrs. Ross Williams and Mrs. Ivin Worrell drove to Kearney Thursday evening and took a birthday cake and supper for a party at the girls' dormitory where Delores Williams stays. Thursday was her birthday. The ladies stayed all night in the dormitory and Friday evening Delores and Ellorea Cook and Sally Wallin, whose home is at Taylor came home with them. Mrs. Wallin was a week end guest of Delores and all the girls returned to Kearney on the Sunday afternoon bus.

Betty Burson was a Saturday night and Sunday guest of Shirley Brown.

The Comfort Cummins family were Sunday dinner guests of Mr. and Mrs. Harry Tolson.

Alex Brown and Lloyd Van Hoin, who are working at the Veterans' hospital in Grand Island, were home over the week end.

Mr. and Mrs. Max Kinginsmith were Sunday guests of Mr. and Mrs. Ralph Spertling.

## Music Program.

The school music department will give a program Thursday evening at the community hall, giving the numbers that will be given Friday and Saturday at the district music festival in Fullerton. There will be no charge but an offering will be taken to help defray expenses of the trip to Fullerton. The program will start at 8 o'clock. Patrons are urged to attend this program.

Mrs. Arthur Smith and Mr. and Mrs. Maynard Smith were in Ord Sunday where Mrs. Arthur Smith was a guest of her sister, Mrs. Clyde Kelly and Mr. and Mrs. Maynard Smith of the Len Covert family.

Practice for the senior class play, "Demon in the Dark," is being held nearly every evening. Date for the play has been set for the last week in April.

Donald Ward arrived home Sunday from Excelsior Springs, Mo. Mr. and Mrs. Wm. Barnes and daughter of Grand Island and Mr. and Mrs. Charlie Kriewald and son of Ord were Sunday guests of Mr. and Mrs. August Kriewald.

Mr. and Mrs. Alvin Kren were Sunday guests of Mr. and Mrs. Lyle Kinginsmith.

Mrs. George Gans of Dannebrog was a guest of her parents, Mr. and Mrs. Harry Kinginsmith, from Tuesday till Sunday. Sunday Mr. and Mrs. Kinginsmith took her home and stayed till Monday when they went to Grand Island shopping.

Marcia Rood was over from Clark's a short time Saturday.

Rex Jewett and Willis Garner of Ord attended the recent spring contest of the Isaak Walton League Trophy and Championship shoot at Grand Island, in which 12 of the states Isaak Walton Leaguers participated. Jewett took first by breaking 18 blue rocks out of fifty. Last year's champion came second with 17, and Garner landed in third place with 16. These contests are held four times per year. Jewett is the fourth man to win the trophy, and no man has won it twice. Winning it three times in a row gives permanent possession, and Rex is keeping in practice. Left to right in this Swopes photo, Garner and Jewett.

## Attorney General Decides Contract of County Illegal

County Attorney Norman Informed Appraisal Is Contrary to Budget Law.

Some three weeks ago the Valley county board entered into a contract with an Ohio firm for reappraisal of real estate in Valley county for taxation purposes. The board felt that many inequalities in valuation existed and that it would be difficult to get these corrected locally.

In an opinion given Monday of last week, Attorney General James H. Anderson held as null and void the contract entered into by the board with E. T. Wilkins and Associates of Cleveland, Ohio, for the reappraisal of the real estate of the county.

The contract, calling for the expenditure of \$10,850 in monthly installments beginning in March and ending in December, is in violation of the county budget act, according to the advice Mr. Anderson gave Ralph W. Norman, attorney for Valley county.

Could Sign Again.

Mr. Norman has believed all along that the contract was illegal, but says that the board did not consult him before entering into the agreement. The board believed they had a legal right to make the contract, since from \$6,000 to \$8,000 is available in the miscellaneous fund, and this would have been sufficient to take care of the payment until July 1.

At that time a new budget has to be set up for the coming year. By including a fund sufficient for this purpose in the budget at that time, the board could then proceed legally to enter into a contract for reappraisal.

At their meeting last week the county board took no action with regard to the contract. No action is necessary, since, legally speaking, no contract exists. Further, the members of the board cannot be held liable for damages by the Ohio firm, since the contract is contrary to law.

## Motorcycle Clubs Plan Gypsy Tour to Ord June 4-5

Same Clubs Are Invited to Return Again; Visit Here Enjoyed Last Year.

Wallace Doe, secretary of the Ord chamber of commerce, has received a request from three motorcycle clubs that they be permitted to come to Ord again on Gypsy Tour, as they did last June. Mr. Doe took the matter up with the Valley county fair board, with the result that the groups will be in Ord June 4, and 5.

In case of rain, they will arrive just a week later. The groups are the White Spots from Grand Island, the Modern Knights from York and the Lightning club of Lincoln. They are the same groups that made such an interesting and pleasant visit to Ord last year.

It is believed much the same plans will be worked out this year that met with so much approval last year. These included a parade on the streets of Ord the evening of the first day, a dance, a Weiner roast and luncheon at the fair grounds after the parade, and a dance on the final evening.

Trick riding, racing and other entertainment was given in the afternoon at the fair grounds, and contests held for a quantity of prizes donated by business men of Ord and from the visiting towns. While the coming program may vary somewhat from this, it is certain to be interesting.

## Dr. Hybl Locates in Grand Island

Dr. and Mrs. V. L. Hybl drove from Chicago to Grand Island Wednesday, where they plan to make their home. Dr. Hybl, who has been on the clinic staff of the Northern Illinois college of optometry since his graduation there last September, plans to open his office about May 1st for the practice of optometry at 118 1/2 West 4th St. in Grand Island.

## Prospects Good for Catfish in Loup Rivers

Heavy Catches Coarse Fish Being Made, Proving Fish Got Past Dams.

Prospects for catfish in the Loup rivers this season are the best in several years, believe Ord fishermen, who are heartened by heavy catches of suckers and redhorse now being made below Hardenbrook dam and in most of the creeks in this vicinity. Presence of these fish in great numbers proves that fish were able to get past the dam at Columbus during the high waters of March.

Archie Bradt, dam tender at Ord, says fishermen have been taking vast catches of black suckers and their smaller relatives, the redhorse, for several days past. In 1948, he says, catches of 2 or 3 small fish were usual but this spring he has seen one party take as many as a hundred fish. The black suckers are running large, 14 to 20 inches long, Bradt says.

Few catfish and none of any size have been caught to date though Joe Cetak says he caught 20, most of them below legal size, while fishing for suckers one day last week. Joe also claims to have caught several nice black bass in the bayous east of Hardenbrook dam this spring.

Last Wednesday night flood waters on the Cedar required opening the headgates of Ericson dam and draining the lake. What effect this will have on fishing there this season is not known. Many crappies, bass, bluegills and catfish were planted in Lake Ericson last fall.

\$150 for Prize Fish.

On another page of today's issue the Quiz announces a 1949 fishing contest, open to all fish caught in Valley, and adjoining counties until Oct. 1, 1949. A total of \$150 in cash prizes will be given to fishermen catching the largest bass, crappies, bluegills, trout and catfish within the confines of Valley, Greeley, Loup, Howard, Sherman, Custer, Garfield and Wheeler counties. See the contest page for complete details.

## American Legion to Sponsor Junior Midget Baseball

The American Legion will sponsor both Junior Legion and midget baseball this summer, members of the post decided at their regular meeting Tuesday evening. Wm. Heuck heads the post's baseball committee.

The Legion will meet with the Veterans of Foreign Wars on Friday evening, April 22, for a special joint meeting to consider loaning funds to the Ord baseball club to purchase and install lights for night baseball.

## Rotarians Back Clarence Davis for Dist. Governor

Will Present Ord Man's Name at Conference in G. I. on April 24-25.

The Ord Rotary club is offering Clarence M. Davis of Ord, as a candidate for governor of the 118th Rotary district for the coming year. Mr. Davis is a charter member and former president of the Ord club and has been active in state and district Rotary affairs for over 20 years.

District conference will be held at the Yancey hotel in Grand Island on April 24 and 25 and Ord men hope to see their candidate elected governor at this meeting.

A campaign committee composed of C. J. Mortensen, E. L. Vogelzang, M. B. Cummins, E. C. Leggett, and Bill Darges was appointed Monday evening by President Orin Kellison. The Rotary meeting scheduled for April 25 was cancelled and all Ord Rotarians are expected to attend convention sessions in Grand Island instead.

## Nebraska Stock Growers Meet in Burwell Thursday

Brand Committee Will Attend in Joint Meet to Discuss Problems.

A joint session of the Nebraska Stock Growers association and the Nebraska Brand committee will be held at Burwell, April 21, 2 p. m., in the American Legion hall. Elmer Brockman of Burwell and other members of the organization who live in the Burwell area, are making great plans for a successful meeting.

The meeting is called to give ranchers and their wives a chance to meet and become better acquainted. Dr. C. H. Watson, president, will have charge of the meeting. Talks will be made by Marvel Baker and Rufus Howard of Lincoln, Irwin Adamson of Cody, Earl Monahan of Hyannis, and Chase Peagins, secretary.

In the evening a banquet will be given, with Fred Taylor, general livestock agent of the Burlington, Omaha, as the speaker. There will be a special meeting in the afternoon at the Legion hall of the Nebraska Cow Bells and other visiting ladies. There will be an old time dance following the banquet.

## Rotary Club Sends Representatives to Grand Island

The Rotary club of Ord will be represented officially at the 118th district Rotary conference at Grand Island this month by the newly elected president, Leslie Nash, and the elected secretary John R. Haskell.

The conference will be held April 24-26 with the annual banquet April 25. Carl E. Bolte of Kansas City, Mo., a past vice-president of Rotary International, will be the principal speaker.

## Misko Sells Bank at Eaton, Colo.

Monday came word that Ralph E. Misko, former Ord man who has for several years been in the banking business at Eaton, Colo., has disposed of his interests in the Bank of Eaton. He had been a heavy stockholder ever since he moved to Eaton but acquired control only last fall.

Mr. Misko will remain with the bank for about two months to help his successor but beyond that his business plans are uncertain. The Miskos plan to spend the summer at their cabin in Estes park and he expects to reenter the banking business somewhere next fall.

## Contractor's Men Start Erection of Bridge Here

To Be Completed in 150 Working Days; Concrete and Steel Construction.

A group of men from Capitol Bridge of Lincoln are in Ord at present working on the preliminary painting and other work in connection with starting erection of the North Loup river bridge at Ord.

Those here at present are the foreman, Lloyd Janovek, William Beranek, Larry Polk, Leon Jurgens and Jack Sayer. Assisting with the painting is one local man, Erwin Campbell.

Two men are busy applying a coat of red lead to the top half of the fifty foot piling. Another carload of steel is due in a few days. Mr. Janovek says there will not be too much activity this week, but that things will begin to hum when the dragline arrives.

Done in 6 Months.

Meanwhile, engineers from the state engineer's office are on the job, setting the guide stakes. The contract calls for the job to be completed in 150 working days, and, with plenty of good weather ahead, this should be accomplished without much difficulty.

Mr. Janovek is not a stranger to this community. He was here in 1938 with the bridge crew that put in the concrete bridges on the then new highway between Ord and North Loup. He recalls working at that time with Bud Beebe of North Loup.

## Group Reports Pancake Day Plans

Wallace Doe, secretary of the Ord Chamber of Commerce, reports that plans are complete for Pancake Days in Ord, April 23. It is unlikely that the weather will interfere with the occasion, as it did on the former date of April 2.

Meanwhile, those who wish to vote for their favorite clerk are requested to do so at once. Your vote can be turned in at any of the stores or given to Secretary Doe. You are urged to take care of this immediately.

## Ord and United States Have Eclipse

All central United States enjoyed a total eclipse of the moon Tuesday night. The above photo by Swopes shows the phenomenon, with the buildings on the south side of the square showing below. Note how the moon moved in the short time necessary to take the picture.

## Final Approval Given on Auble Marquee Design

Present Construction Much Improved; Built of Better Materials.

Auble Bros. have received the information that their patent for a new type of construction for Shadette Marquee was given final approval as of Feb. 22. By chance, this date happened to be the wedding anniversary date for Mr. and Mrs. A. J. Auble.

Much experimentation has gone into the construction of this product, which is now being made of sheet aluminum, a product not available at a fair price before the war. Factories that were producing this material for war are now producing for peacetime purposes, of which this is one.

Fabricate at Hastings.

The actual manufacturing of Shadette Marquee is done at the factory in Hastings, which has been doing the fabricating for several years. The sections are made in certain lengths and are assembled at Ord and several other assembly points.

These places look after the sales, assembling and distribution of the product. One assembly is already busy at McCook, and will distribute to southwest Nebraska, northwest Kansas and east Colorado. Ed Bredlove, formerly employed by the Pittsburgh Business Front company, is in charge there.

The plant in Sioux City, Ia., is just starting. Louis David, formerly a neon sign salesman, is the manager. He has already sold sixteen orders, which he filled from the Ord plant. He makes a specialty of expansion of the marquees with neon lighting.

Newton, Kan., will be operating in about two weeks. This territory will be in charge of Preston Loomis, once with Auble Bros. Jewelry. He has already sold five orders all in Kansas, which is his sales territory.

2 Texas Plants.

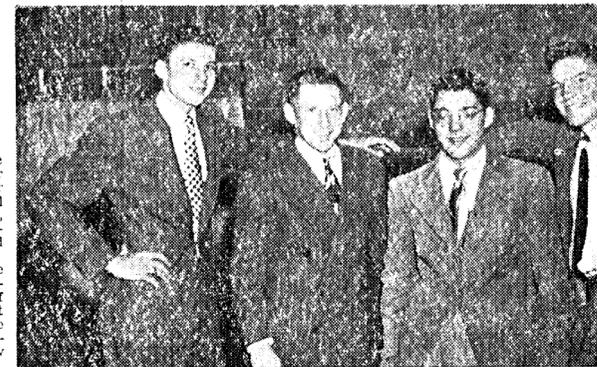

The Timmerman brothers, Verl and Bob, are located at Greenville in the northeast corner of Texas, and expect to be ready to begin operations there in about a week. Greenville is about 50 miles north-east of Dallas.

C. A. Larsen and Sons of Lincoln will be located at Brownwood, which is very near the geographical center of Texas. They hope to be operating in 30 days. This plant of expansion will be continued and developed, and in time should cover the entire United States.

Assembling and distribution for central Nebraska will be continued from the Ord assembly plant, the first plant to be established. The Aubles have met and overcome many difficulties in developing this product, and now believe that most of their troubles are behind them.

There will be Cub pack meeting for parents and cub scouts Wednesday evening, April 20. There will be a covered dish supper at 8:30 at the American Legion hall.

## Large Ord Groups Attend District Music Contests

Win Five Superior Ratings, Two Excellent Plus, Ten Excellent and Two Good.

Ord music instructor William Nelson took 122 of his music students to the district contest at Kearney Friday and Saturday. All schools having music departments in district 4 participated. Included in this list were the four Class A schools, North Platte, Kearney, Grand Island and Hastings.

While the old system of grading and awarding first, second and third place is no longer used, Mr. Nelson feels that his students placed a good average and possibly better than the average. This showing in consideration of the competition involved is gratifying indeed.

5 Superior Ratings.

Five ratings were No. 1, or superior. These included the boys' glee club, Charlene Severns with the snare drum, Charles Munn, boy's medium voice, Geraldine Koelling, girl's medium voice, and the boys' quartet. The boys' quartet was chosen as one of the outstanding small groups at the contest and appeared in a special recital on Friday evening, which was put on by outstanding soloists and small groups.

Two ratings of No. 2, plus or excellent plus were given, one to the Woodwind quintet, and one to Jim Misko for boy's high voice.

Ten ratings were No. 2, or excellent. They were: Dick Tolen, boy's medium voice, Wilma Lange, girl's medium voice, Amy Christoffersen, girl's high voice, the brass sextet, girl's octet, boys' octet, mixed chorus, band, girls' glee club and madrigal.

Two were rated No. 3, or good: Marlene Norman, girl's low voice, and Verlece Mulligan, Oboe.

Splendid Quartet.

The composition of the small music groups is as follows: Boys' quartet, Jim Misko, Charles Munn, Dick Tolen and Paul Stoddard; Boys' octet, Alvin Kapustka, Jim Misko, Richard Heuck, Galen Allen, Jerry McWhites, Dick Nelson, Vernon Wells and Kenneth Clement.

Brass sextet, Jim Misko, Barbara Nay, John Misko, Charles Munn, Paul Stoddard and Dan Huff. Girls' octet, Geraldine Koelling, Wilma Lange, Helen John, Carol Kwiatkowski, Rogene Rogers, Rosellen Vogelzang, Verlece Mulligan and Joyce Wilson.

Woodwind quintet, Rosellen Vogelzang, Verlece Mulligan, Mari-lou Arnold, Rogene Rogers and Charlene Blessing. Madrigal, Amy Christoffersen, Darlene Novosad, Patricia Ball, Wilma Lange, Joyce Wilson, Barbara Ragland, Velma Peah, John Misko, Richard Heuck, Bob Moore, Dick Tolen, Dick Nelson, Jerry McWhites, Margaret Heuck and Genevieve Boyce.

MRS. ANDERSON DIES

Mrs. Jennie Anderson of North Loup passed away at an Ord hospital this, Wednesday, morning. She was about 80 years of age. Arrangements for the funeral are not available as this is written. The complete obituary will appear in next week's Quiz.

## Ord, Nebraska Picnic May 1st, at Long Beach

Mrs. Perry Bell, president, asks the Quiz to announce that the annual Ord picnic will be held Sunday, May 1, 1949 at Bixby Park, Long Beach, Calif. Coffee will be served at noon. A special invitation is extended to all former Nebraska people.

These picnics have been an annual event for many years and are always largely attended. If any story has told, it would seem that in California at that time, their presence will be doubly welcome.

## Frank Hulinsky Turkey Rancher, Tells Troubles

Failed to Get Early Turkeys Because of Impassable Highways.

Frank K. Hulinsky, Valley county's well known turkey rancher, was in Ord Tuesday, and from the story he told, it would seem that the turkey man's life is not exactly a bed of roses. Like other ranchers, he had his share of trouble with Old Man Winter.

Frank made arrangements with Carl Hughes Hatcher of Arcadia to custom hatch his first poults, which he usually plans to have the last week in March. They hatched in due time, but Hulinsky was not able to get to Arcadia after them, and the oil truck could not get to his brooders.

So he had the hatchery sell them to another customer. There are 300 eggs due to hatch this week, and Frank will go to Arcadia Friday to get his young birds. He expects to have from 500 to 600 each week from now on, and expects to raise about 1,500 this season.

Hulinsky, Hughes and another Arcadian named Smith are in the business more or less together, but Hughes and Smith together running about the same number as Hulinsky, 1,500. Frank has 75 laying turkey hens at present, and they produce about 55 setting eggs per day.

While his first birds are late, Hulinsky says they should be ready to sell for fries by the middle of August. Three out of four of his turkey customers now buy them at the frying stage, which has been found the best way to serve turkey.

## Electrical Show at Bohemian Hall Is Well Attended

Public Given Chance to See the Latest Designs in Electric Equipment.

Tuesday and Wednesday of this week a fine electrical show is being put on at the Ord Bohemian hall, sponsored by four Ord business firms, Gambles, D. E. Troyer, Fraziers Furniture and Ruzicka Hardware.

The doors are open to the public at 9 a. m. each day, and door prizes are being given. A lunch room is available in the building. About 600 persons visited the exhibit Tuesday, and the attendance was expected to more than double that figure Wednesday.

## Group to Demand Bridge at Sumter Be Made Passable

"Board Cannot Legally Abandon Bridge," Group Interested Men Contend.

Following the action of the Valley county board last week in voting unanimously to abandon the river bridge at Sumter, a group of men in North Loup and Springdale townships and North Loup village are taking steps to see that the bridge is once more placed in usable condition.

The group has the backing of the North Loup Lions club, and has been assured that funds will be available to take care of any expense incurred. W. O. Zanger of the Ocean neighborhood has been selected as chairman, with the right to select his fellow committeemen.

May Go to Court.

Legal action will be taken, it is understood, to compel the board to take whatever steps are necessary to put the bridge in passable condition. A new bridge is not asked for, in case the old bridge can be repaired, the main idea being to have a crossing which can be used by lighter traffic.

Grounds for action are based on the fact that the bridge has been in use for at least forty years as a public thoroughfare and for this reason it cannot be abandoned. It is further pointed out that rural routes from both Ord and North Loup use this bridge as a crossing point.

Zanger, who owns a ranch near Ericson as well as his land below Ocean, has a great deal of use for this bridge. It is important to the North Loup Cheese company, which has been hauling large quantities of whole milk from the Springdale area.

No Funds Available.

In addition there are a dozen or more farmers who find the bridge essential in their business, and dozens of others who use it for a crossing occasionally. It is estimated at the daily average traffic over the bridge is about 30 vehicles.

The county board voted to abandon the bridge on the grounds that no funds were available for its repair.

## Deadline April 25 for Sowing Small Grain, Says Dale

Summer Sun Likely to Cut Yield of Crops Sown After That Date.

Carl C. Dale, county agent, this week stated that the farmers in this area would do well to set a deadline of about April 25 for sowing oats and barley. The sowing season has been much delayed by wet and cold weather, but he believes that this week or the first of next week is still safe for small grain.

Barley, especially, will develop from late sowing much better than oats. What it will do, of course, depends on the weather, which is always unpredictable in Nebraska. However, if there is not too much hot, dry weather in the first part of July, late sown barley and oats should mature and make a good crop.

Better Off Here.

In this respect the middle part of the state is in much better condition than the east part. Laying farms in that area take much longer to dry out, and it will be impossible to get into some of the fields by deadline time, which is set at April 20 there.

There is no question but that the acreage of small grain in Nebraska will be greatly reduced, but the greater part of this reduction will be in the east one third of the state, with some reduction here, and little or none in the western part.

Louis N. Holloway Once of Ord, Dies at Rockville Home

Born at Burwell June 16, 1885, He Grew to Manhood in Valley Co.

Funeral services were conducted Monday April 4, at the Rockville Community church for Louis N. Holloway. He died March 29, at Sacred Heart hospital in Loup City. He was 63 years of age and had been a resident of Rockville for 17 years.

Rev. A. B. Gray was the officiating clergyman. The pall bearers were Hans Smith, Alfred Jensen, Max Heisner, Frank Sherman, Lawrence Kovicki and Clayton Stephens. Burial was in the Southville cemetery.

Louis was a son of Jonathan D. and Sarah Holloway and was born in Burwell, June 16, 1885. Later the family moved to Valley county and to a farm three miles south and west of Ord, where they lived for many years, and where the boys grew to manhood.

Mr. Holloway was active in business at Ravenna, Gibbon, and finally at Rockville, where he married Rhuanne Brascom. They made their home in Rockville until they moved to a farm last year.

He was preceded in death by two brothers and his parents. He is survived by his wife, one daughter, Linda Belle, of Rockville, his son, Pierson, of Tacoma, Wash., a brother, Ernest, of Burwell, a sister, Mrs. Clifford Goff, of Burwell, a brother, Ed, of Hood River, Ore., and a number of nephews and nieces.

Tommy Anderson Suffers Wound

While playing with a group of boys in the yard of the E. C. "Cocoy" home Sunday afternoon Tommy Anderson, 11 year old son of Mr. and Mrs. C. A. Anderson, suffered a gunshot wound in one leg.

The boys had been on a hike in the hills and found some 22 calibre Remington-Union Metallic Cartridge Co. rifles. One of the boys tossed a cartridge into the fire and when it exploded the cartridge case struck Tommy in the leg.

Monday morning at Clinic hospital Dr. W. W. Weeks operated to remove the bit of metal which had struck the shinbone. The lad was not seriously injured but will not soon forget that rifle cartridges, tossed into a bonfire, sometimes produce painful results.

**Local Men Assist Victim of Amnesia**

Friday evening Reynard Loft of Ord and Don Ward of North Loup, driving north from Hastings in Ward's auto, overtook a girl about 15 or 16 years of age, who was walking down the middle of the road in the rain. They gave her a lift to Grand Island, where they took her to the police station.

On the way to Grand Island they found that she apparently was suffering from amnesia. The police, on questioning her, found that her mind is blank, the only thing she was able to recall was that she had walked a long way in the rain. It was thought at first that she might have wandered away from Ingleside hospital, but this theory proved incorrect.

She is about 5 feet 10 inches in height, weighs 110 pounds, has long, wavy, brown eyes and fair complexion. The girl is Virginia Brantley, and 1945 is on one pocket of a jacket she wore, and USN on the other. The jacket was from Shanghai, China. She is being kept under observation at the Lutheran hospital.

**Truckers Learn Young**  
Little Harry Romans, 2½ year old son of Mr. and Mrs. Jack Romans, had his first driving lesson with no teacher Saturday. The lesson wasn't very successful, though, as the car hit Pat Frederick's porch, missing a large tree. Mrs. Romans had stopped the car in front of their house, leaving it in low gear. Harry got in and pushed the starter and the car started to move. The only damage was a broken head light and dented fender.

**Program in Grand Island Thursday**

**Consider Plan for Summer Concerts**

A meeting will be held at the Ord high school auditorium Tuesday, May 3, at 7:30, to consider a plan for summer concerts. This plan has been tried in other places with considerable success.

A representative of Municipal Concerts will be in town at that time to explain the plan and how it works. The idea is to bring to Ord higher class music than can ordinarily be obtained.

**PERSONALS**

Oscar L. Nay left Tuesday for his brother's ranch at Elgin after spending a week with Mr. and Mrs. H. D. Leggett. He spent the winter in San Diego, Calif., and is enroute to his summer home at Cullen lake, Minn., but will visit at Bayport, Minn., before going there.

Floyd Krason, who has been stationed at Camp Breckinridge, Ky. is on a 10 day pass enroute to Fort Bliss, Tex.

Mr. and Mrs. Seth Williams are the parents of baby boy weighing 7 pounds. He was born April 8 at the Clinic hospital.

**Buying a New Car?**

**Here's the Most of all you've wanted most**

Most Beautiful—that's what millions say about Hudson, for "step-down" design provides perfect proportions, wonderful symmetrical lines in the lowest-built of all cars, and still preserves full road clearance!

Most Roomy!—amazing head room and the most seating room in any car.

Most Road-Worthy!—the lowest center of gravity in any American stock car, for road-hugging steadiness. You ride down within a base frame, where riding is most smooth, most relaxing, most safe.

Most All-Round Performance—with America's most powerful Six—the new, high-compression Super-Six, or even more powerful Super-Eight. Center-Point Steering, Triple-Safe Brakes, Fluid-Cushion Clutch, Dual Carburetion, Drive-Master Transmission for automatic gear shifting (optional at slight extra cost)... many more high-performance and low-upkeep features that only Hudson brings you in one car!

Quiz on the Bible was the main feature of the evening with Rev. Buehler as Dr. I. Q. and Dwain Williams and Virginia Loggins as his helpers.

Special Services in Calvary Baptist Church

The "Musical Places," Mr. and Mrs. Lester C. Place of Spring City, Pa., will conduct special services in word and music at the Calvary Baptist church, Arcadia, Tuesday through Sunday evening, April 26 - May 1, 1949 at 8 p. m.

Familiar hymns of the Church will be played upon the mariamba, bells, saxophone and triple octave chimes. The latter instrument is an antique and one of the few that is still in existence today.

Saturday evening will be designated as "youth night" when various young people from the church will be participating in the service.

Mrs. Walter Anderson, Mrs. Calvin Gould, Gene Anderson and Max Carmody visited at the Norman home in Ord on Friday.

Mr. and Mrs. John Hill of Pleasanton spent the week end in Arcadia at the Dr. Christ home.

Mrs. Henry Cramer and Mrs. Phil Bowman and daughter, Judy, all of Chicago are visiting at the home of their parents, Mr. and Mrs. H. S. Kinsey.

An automatic water pump has been installed in the basement of the Methodist church to keep the water from rising.

Rev. A. J. Taylor was an overnight guest Saturday at the Morris Fowler home.

Mrs. Arnold Ritz and Mrs. Irving Youngquist of Loup City spent Friday at the Giles home visiting their parents.

Mr. and Mrs. Donald Walker of Loup City visited at the Jerome Walker home on Saturday.

Mr. and Mrs. Waldo White and Carl of Grant, Nebr. spent the week end at the John White home.

Holy week services are being held at the Methodist church this week and everyone is invited. Tonight is Good Friday, the sermon theme is "Remember Now Thy Creator." There will be special music and a chalk picture.

At a meeting of the board of the Congregational church last Sunday afternoon a list of names of available candidates was submitted by Rev. A. J. Taylor of Lincoln and it is expected that a pastor will be obtained soon.

Mr. and Mrs. Art Armstrong took the VanderHeides to Ansley last Wednesday where they boarded a train for California.

The Auxiliary is sponsoring the Cancer drive in Arcadia.

Music Contest

All roads led to Kearney on Friday and Saturday when all high schools in this section of the state took part in the annual district music contest. Arcadia had 58 registrations and 16 sponsors.

The club is sending a case of eggs this week to the Mother Jewell Home in York and the Children's Home in Omaha, as an Easter gift.

The meeting next month will be at the Otto Lueck home with Mrs. Thurman Bridges as assisting hostess.

May is to be carpet rag month and there will be an all day carpet rag sewing bee.

The Rebekah Kensington met on Wednesday at the home of Mrs. Seth Carmody.

The Homemakers club met at the home of Mrs. Kermit Erickson on Wednesday of this week.

Mrs. Virginia O'Connor of Harrison, Nebr., is visiting this week at the Vere Lutz home.

Ben Wall accompanied by a college pal spent last Wednesday at the home of his parents, Mr. and Mrs. Max Wall.

Mrs. Dwain Williams spent the week end in Burwell visiting at the home of Mr. and Mrs. H. B. Auchmoody and family.

Mr. and Mrs. Vere Lutz and Mr. and Mrs. Keith Hughes of Hastings, drove to Omaha Sunday where Mr. Lutz received treatment at the Methodist hospital. On their return trip they visited at the Wes Aufrecht home in Lincoln.

The ladies of Logan township met Friday evening at the Ben Badura home to organize a project club. Meetings will be held twice a month at the homes of different members.

While the ladies held their meeting several of the men who came along as drivers spent the evening visiting. Lunch was served late in the evening.

The next meeting will be Thursday evening April 21, at the home of Mrs. Leland Bauhard. All who have not joined and would like to, are invited to this meeting.

The Methodist Women's Society held a covered dish luncheon Friday afternoon in the church basement. During the business meeting plans were made for serving the Rebekah banquet on April 20 and the Women's Club convention on April 26.

Walter Jones has been staying at the Eldon Tiffany home in Loup City since he was released from the hospital last Monday.

Regular meeting of the Auxiliary was held on Monday with Mrs. Harold Elliott and Mrs. C. C. Weddel as hostesses.

### ORD GIRLS HONORED

Lincoln, Neb.—Three University of Nebraska students from Ord will wear the traditional white sweaters, red skirts, and white caps with red tassels at all campus rallies and athletic contests. They are: Jean Blaha, daughter of Mr. and Mrs. F. W. Blaha; Kathleen Clement, daughter of Mr. and Mrs. George B. Clement; and Norma Long, daughter of Mr. and Mrs. Leo Long.

This was revealed recently when they were named members of Tassels, girls' pep club made up of limited representatives from all women's organizations on the campus. A high scholastic record is required for membership.

## Burwell Livestock Market Friday, April 15th

The pasture season is almost here and now is a very good time to buy your stocker cattle that you wish to turn out. This week at Burwell we will have another good run of good quality sandhill stocker and feeder cattle.

Already listed are several loads of light weight Hereford steers, several loads of steer and heifer calves, some Hereford stock cows and heifers, 6 head of milch cows, several breeding bulls, some feeder cows, some fat cattle, baby calves and many other classes of light weight cattle.

Expect a large run of fat hogs and sows, some brood sows and several sows with pigs at side. Several offerings of feeder shoats including one consignment of extra good shoats direct from the sandhills.

Several head of work horses and colts.

Special Hereford bull sale next Friday, April 22nd. Will have 25 head or more of choice bulls for this special consignment sale.

Elsewhere in this paper see the big ad on Wisconsin Dairy Cattle Sale at this market April 20.

### Burwell Wins Five School Meet At Ord Tuesday With 57.8 Points

#### Thode, Loup City, Leads in Points With Four Firsts

Ord Athletes Fail to Win Single First Place; Times Slow for Races.

Bringing to Ord as fine a track team as has appeared here for a long time, the Burwell Longhorns won points in every event, the five school track meet Tuesday afternoon to top first place over Loup City and Broken Bow, which schools took second and third place, respectively.

The Longhorns took five first places, including the all important relay race. Loup City, via Thode, took four firsts. Broken Bow was close behind with three first places, while Ravenna took one. Ord's best bids were second places by Laursen in the 800 and by Collins in the broad jump.

**How They Placed.**  
Burwell ..... 57.8  
Loup City ..... 49.1  
Broken Bow ..... 46.0  
Ord ..... 22.6  
Ravenna ..... 19.5

Loup City's Irvin Thode dominated the meet by taking four first places, a second and a third. He had help from his team mates who helped win second place. Alone he accounted for more points than did either Ord's or Ravenna's entire squads.

Proof that Burwell has a versatile team is given by the fact that four different men accounted for four first places. Of interest is the fact that one of their speed merchants is named Anderson, a name that has dominated athletics at Burwell for a quarter of a century.

The results:  
60 Yd. High Hurdles—1st, Jacobsen (Broken Bow); 2nd, Messenger (Burwell); 3rd, Thomas (Ravenna); 4th, Svanda (Ravenna); 5th, Pecht (Loup City). Time 9.1.

100 Yd. Dash—1st, Anderson (Burwell); 2nd, Thode (Loup City); 3rd, Close (Broken Bow); 4th, Moore (Ord); 5th, Prescott (Broken Bow). Time 11.2.

1 Mile Run—1st, Glover (Broken Bow); 2nd, Hallock (Burwell); 3rd, Stienhagen (Broken Bow); 4th, Fries (Ravenna); 5th, Kirby (Ord). Time 5:15.

440 Yd. Dash—1st, Svanda (Ravenna); 2nd, Demaree (Burwell); 3rd, Stoddard (Ord); 4th, Belz (Broken Bow); 5th, Clement (Ord). Time 57.4.

100 Yd. Low Hurdles—1st, Thode (Loup City); 2nd, Messenger (Burwell); 3rd, Jacobsen (Broken Bow); 4th, (3 tie) Roberts (Loup City); Belz (Broken Bow); Puncchar (Loup City). Time 12.1.

220 Yd. Dash—1st, Thode (Loup City); 2nd, Anderson (Burwell); 3rd, Close (Broken Bow); 4th, Demaree (Burwell); 5th, Moore (Ord). Time 21.4.

### Ed. Verstraete, Once of Here, Dies in Minnesota

#### Farmed for Many Years Southwest of Ord; Was Popular Citizen There.

Word was received here this week of the death Wednesday of Ed Verstraete, resident of Valley county 40 years before moving to Marshall, Minn., in the spring of 1911. Mr. Verstraete was about 60 years old at the time of his death.

He was born in Belgium and lived there until young manhood, when he came to America and worked for Charles Bals on the ranch southwest of Ord. After a few years he married and farmed for himself.

Two children were born to the Verstraetes. They are Mrs. Elmer Boquet, wife of Bert Boquet, jr., of Arapahoe, Neb., and Mrs. Alice Stenrud, wife of Lloyd Stenrud of Minneapolis, Minn.

For many years the Verstraetes lived on the former Rogers place just south across the road from the Brace school. He was not ill long.

### Cancer Fund Drive Gaining Readily

Mrs. Keith Lewis, county chairman of the cancer fund and educational drive, reports this week that the drive is moving along nicely and that she believes the necessary money from this area will soon be raised.

More important, she believes, is the educational part of the program. This is being carried on through the county extension clubs and other organizations, and is being received with enthusiasm.

Proper education on the subject of cancer and what to do to avoid giving it a chance to get started, as well as how to find and eradicate it in the early stages will do much to cut down the expense of cancer control.

### Bredthauers Open Broken Bow Sales

The Cluster County Chief for this week has a picture of the new building which houses the Bredthauer Motor company of Broken Bow. Bill Bredthauer is the manager.

A formal opening is planned for a later date. This is another of the Bredthauer enterprises, which include similar businesses at Scotia and Burwell. The three handle Pontiac and Cadillac autos, with complete service and repair business.

### Ord Livestock Market

announces its offering for the regular weekly sale  
**Saturday, April 16**

The market last Saturday was a real surprise to all of us. Rain made the roads bad but in spite of this we had an overflow crowd of buyers, one of the finest consignments of the season, and a sale that seemed to please everybody. For this week our offering lines up about as follows:

**175 Head of Cattle**  
60 head of small calves  
45 head of mixed yearlings  
15 head of choice Polled Hereford cows from the Henry Williams herd; they are 2 to 6 years old, three have calves at side and the rest, mated to a registered Polled Hereford bull, are heavy springers. You must see these.  
15 head of good Black Angus cows, 2 to 7 years old  
18 head of cutter cows  
11 head of 850 lb. steers that have had some grain and are exceptionally good  
9 choice purebred Hereford bulls large enough for service  
4 good milch cows

### Social Security Cards Necessary

A warning is issued to students who plan to work during summer vacation that they must carry social security cards in work that is covered by social security. The warning comes from Verna S. Rankin, manager of the social security office at Grand Island.

This applies to students regardless of age. Students who have had social security cards but have lost them should apply for duplicate cards. It takes practically a week to check the old social security number and issue a new social security card.

### ANNOUNCEMENT

An interviewer from the Nebraska State Employment service will be at the old school building, Burwell, Thursday of this week, April 14 and at Arcadia, Monday, April 18, to help employers find qualified workers and workers find suitable jobs.

### Seed Oats and Barley

As this is written we still have limited amounts of Certified Clinton Seed Oats and reclaimed treated Spartan Barley. Our stocks of both are limited and may be exhausted by the time the paper is out. If you need seed oats or barley, call us, we will do our best to help you out.

### Seed Potatoes

On hand are Certified Ohio's, Warba's and Cobblers. These seed potatoes are all Blue Tag Certified northern grown potatoes. We assure you of the best quality and the price is right. If you are interested in large quantities we will be glad to make you a very low price on these potatoes.

### Alfalfa and Sweet Clover

This week we met with a group of wholesale seed dealers and they offered us nearly as much for our alfalfa, sweet clover and brome grass, and they would take the entire lot, as we are asking for this seed at retail. Really alfalfa and sweet clover seed are both very scarce. You should get what you will need soon. It may not be available a month from now.

### Fertilizer

Ammonium Nitrate will again be very short this year. Our order placed last summer will be filled about fifty per cent. However, we are able to get pretty good supplies of 10-20-0 and this is a fertilizer that should be more widely used in our section than it has been used in the past. We fully believe that this 10-20-0 has a very definite place in our farming operations as it contains a very good supply of both Phosphate and Nitrogen. Try out a few tons of it this year and see if it does not pay for itself several times in the yield this year.

### Garden Seed

Why not get your garden seed now and have it ready to plant just as soon as you can get your garden ready. We have a wonderful stock of fresh bulk garden seeds and onion sets. Next week we will have our frost proof cabbage and onion plants.

### Bulbs

We still have a good quantity of mixed Glad bulbs at 50c per dozen. Also have named varieties at a little higher price. Have both President and King Humbert Canna bulbs and the price on them is 15c each or 4 for 50c. You will like these bulbs.

### Easter Plants

Remember that we do have a very good stock of blooming plants for Easter. Also cut flowers. See our flower ad and call us now and place your order for delivery Saturday.

## The New 49 PONTIAC

Pontiac—Division of General Motors

### The Most Beautiful Thing on Wheels!

We are, of course, very proud and happy that people everywhere are calling the new Pontiac "the most beautiful thing on wheels." Pontiac is a brilliantly beautiful automobile — as handsome a car as ever rolled over America's streets and highways.

But Pontiac's real beauty cannot be fully appreciated until you drive the car yourself. For the new Pontiac is beautifully engineered, too — to give you a completely different kind of automobile performance that simply must be experienced in order to be believed.

Pontiac for 1949 offers a totally new kind of ride—a ride as smooth and effortless and comfortable as a car can be. And either of Pontiac's famous engines, six- or eight-cylinder, is a sweetheart for power. Remember, too, Pontiac is the lowest-priced car in the world offering the ease of Hydra-Matic Drive. Available on all models at extra cost.

Take a long look at the next new Pontiac you see—then come in and give the car a really thorough examination. That's the way really to appreciate why people are calling Pontiac "the most beautiful thing on wheels."

## W. P. Hollands Explains Rural Electrification

Stresses the Fact That Organization Is a Home Owned Co-operative.

Recently W. P. Hollands, manager of the Loup Valley Rural Electric Membership association, delivered a very able address before the North Loup Lions club, which is worthy of comment. He took up the subject and discussed it thoroughly. It is a matter of regret that the Quiz does not have the space available to publish the story in full.

In 1925, before the establishment of REA, Mr. Hollands showed that less than 11% of the farmers had electricity available. At that time Sweden had 65% of the farms electrified, Denmark 85%, Japan and Germany 90%, France 95% and the Netherlands nearly 100%. The REA made loans available to organizations such as the Loup Valley, funds loaned on a strictly business basis.

In Nebraska REA has approved loans to 31 borrowers, including 14 Co-operatives and 20 public power districts. The Loup Valleys has 1525 members to date and 81 miles of energized line. The ultimate aim is 124 miles of line in the five county territory.

Mr. Hollands went on to show how the REA movement here was started by a few interested local people. Into the organization they put a membership fee of \$5 and a lot of hard work, faith and hope. The organization of today is the result of that work. It is a business, operated like any other business, and a large-scale business at that.

Quoting from Mr. Hollands: "The Co-op is not a government agency, but is a private institution, incorporated under the laws of our state, owned and operated by its user-members, mostly farmers. It is controlled in its policies by the vote of the members, each member having one vote. Its governing body is a board of directors, consisting of nine farmers, elected by the members at their annual meeting. Neither I nor any other employee of the cooperative, is a Government employee. I am responsible to my board of directors, and through them to the members. Can you have any other form of business organization that is more democratic?"

Hollands goes on to explain that for every dollar invested in line construction, the farmer-consumer spends \$1.50 in wiring, plumbing, fixtures and other equipment. In time, the amount of money spent by consumers, most of which will go directly into local avenues of trade, will be well over five million dollars.

The repayment record for REA borrowers compares favorably with the record of most bank borrowers. To date the government has received back more than 365 million dollars in principal and interest from its borrowers. Less than one per cent of the total was as much as 30 days overdue. The people of this area have a right to be proud of the record being made by the Loup Valley's Rural Electric Membership association.

## Paul Mortensens Observe Fiftieth Jubilee, April 1

Residents of Cotesfield Thirty Years. Mortensen Active in Archaeology.

Mr. and Mrs. Paul Mortensen, once of Cotesfield, but now living in St. Paul, observed their fiftieth wedding anniversary April 3 at their home in St. Paul by entertaining fifty relatives and friends at a dinner in the Legion hall. They also held open house at their home.

Carrie Hansen and Paul Mortensen were married April 1, 1899, in St. Paul by Judge M. D. Smith. They were attended by George Mortensen and a lady who later

became Mrs. Paul Paulsen. These two were among the guests of honor at the celebration.

The Mortensens farmed following their marriage, but in 1918 Mr. Mortensen quit the farm and

they moved to Cotesfield, where he opened an undertaking establishment. He became a rural carrier out of Cotesfield in 1925, retiring Jan. 1, 1917, after 27 years of service.

The Mortensens have four daughters, Mrs. Nels Thomsen, Mrs. Albert Rasmussen, and Mrs. Vance Lind of St. Paul and Mrs. Robert Nielsen of St. Liberty. They also have 16 grandchildren and three great-grandsons.

For years Paul Mortensen has employed his spare time in the study of archaeology, and in this work he gained the acquaintance of a great many people, all the way from Taylor to Grand Island. For a long time his work has been recognized by the state arch-

aeologists and his opinions are always given special consideration. It was largely through his efforts that the value of the Indian relics in the lower Davis Creek area was recognized, and excavations made there that led to valuable discoveries.

Mr. Mortensen is also a valuable member of the Nebraska State Historical society, and makes it a point to attend as many old settlers picnics as possible. He knows and knew all the old timers from the time of his youth, and can tell many interesting anecdotes of pioneer days.

## Elkhorn Highest in Recent Years

According to the O'Neill Frontier, the Elkhorn river was the highest last week in 25 years. The water swept away the river bridge at Emmett on Highways 20 and 275, two miles east of O'Neill and the water was rushing across the road.

On Highway 281, approaches to four bridges were washed out between O'Neill and Bartlett. Water was running across the highways in many places and a number of basements in Emmett were filled with water.

A number of times in the past we have commented upon the paper shortage and the probable contributing factor on that shortage caused by the tremendous tonnage of the paper consumed in printing of useless government publications.

A recent compilation reveals that the Government Printing Office in the past 10 years has published 133,582,587,000 copies of printed matter - ranging from single sheets to bound books. And that 133-billion-copy output is only a part of the Government's book business; many bureaus and departments have printing presses of their own.

Naturally it would not be practical for a newspaper to give review space to these millions of publications, but we feel that our readers might be interested in the titles of a few of them. For example:

- "Family Spending and Saving as Related to Age of Wife and Number of Children."
- "Recipes for cooking Muskrat Meat."
- "Deer Mortality from Gunshot Wounds."
- "Fish for Breakfast - and Why Not?"

# BANKING:

The business of banking is a semi-public service. By that we mean that because of the very nature of the business it is more than a business to make money for the owners. There is a public service to be performed.

For that reason laws have been established governing the operation of the banks and they are closely supervised by either the state or federal government.

It is for the same reason that we have always contended that to operate a safe bank is our first duty to the community, therefore the depositor stands first in our considerations. But to enable a bank to operate, profits must be made and we are therefore always in the market for good loans.

We invite you to open a bank account with us and enjoy the many conveniences of a modern bank.

## Something Different

"Certain Child-Welfare Terms in Spanish."  
"Interaction of Sex, Shape and Weight Genes in Watermelons."  
"Japanese Ornithology and Mammalogy in World War II."  
"The Genetics, Physiology and Economic Importance of the Multi-Nipple Trait in Sheep."  
"Leas of North America."

To convey any idea of the salty and useful information contained in these various documents we quote a couple of sentences from the final opus on the above list: "Dogs may be greatly annoyed by fleas, and spend much time gnawing at their affected parts. The most frequently affected part is the back, near the root of the tail."

Most currently under discussion of government financing is the proposed increase in postal rates. All of these billions of publications must travel through the mails postage free. Is it any wonder that the post office department shows a deficit? Remember that although our congressmen authorize these "interesting" publications we are the ones who must pay for their printing and distribution. To think that we pay them good money for such dampfoolishness!

### Garden Clubs.

The pioneer homesteaders of Nebraska had a firm belief in the agricultural future of our state. Through the years, their descendants have reaped bountiful harvests in every section of the state. All of which goes to prove that the pioneers planned wisely and well.

One of the essential items on the old homestead was the garden. No pioneer home was complete without one. The garden and the field furnished the food for the table, and wild game largely furnished the meat. Without these two vital essentials many a homesteader would have returned east.

If the garden was vital in the early days, it is no less vital now. The fact that fresh vegetables are available at the stores is no excuse for not having a garden. Often space now growing to weeds will furnish enough food to cut the vegetable bill in half.

We moderns have the advantage of one feature that the pioneers did not have, the garden clubs. These are organized for the purpose of improving the standards of horticulture, aiding civic improvement projects and assisting in soil and wild life conservation.

Until every home is attractively landscaped, necessary windbreaks and wild life cover established, roadsides beautified, and waste patches of land eliminated, there is work that garden clubs can do.

The farmers are doing their part through soil building programs, and the home gardener and flower grower can do his by participating in other vital projects.

A garden club in your community can do much toward the beautification of Nebraska. Mrs. Frank Skudla of Atkinson is director for this area and will be only too happy to give any information you may desire on garden clubs and how they work.

## What's Cookin' Ward's

Ord graduates seem to have what it takes, wherever you may find them. Edgar Thompson was the only candidate for mayor of York, Neb. A group of people decided something ought to be done about it, so they placed the name of Shirley Norton on the ballot by petition. But they did not stop there. They made a house-to-house canvass with the result that, when the votes were counted, Norton had 1174, and Thompson had 962. In case you have forgotten, Shirley Norton graduated from Ord high back in 1930. Incidentally York, with a population of 5,383, cast 2,153 votes, while Ord, population 2240, cast about 450 votes. Forty per cent of the York population voted, while only twenty per cent of the Ord population voted. It goes to show that people will not bother to exercise the right of franchise unless some important issue is at stake.

We may not realize it, but a very important issue is at stake, more important to us than any issue that could be put on the ballot. The issue is our American way of life. This American way premises that we must all take an active interest in all the institutions of our government, and of these the most important is the privilege of voting, in an election where there are opposing candidates. It is a serious mistake not to cast a vote at the election, but it is a more serious mistake not to be present at the caucus and see to it that two complete tickets are in the field. Without more than one candidate running for office, the voter finds himself in the same fix as the Russian does. He not only has the chance for a change would be to deluge the world in blood.

And now comes the season for dandelion greens, or pigweed greens, or both. Young and tender, the new little, short little shoots are delicious when dressed with a sourish sauce. To make it, mince bacon and fry, pouring off part of the fat. Thicken with a little flour, stir smooth by adding water and vinegar and seasoning. Drain the boiled greens and turn them out in the gravy a time or two, then serve.

I also make this sauce for spinach, and we like it much. A bit of onion in there is all to the good, for me. But Gene thinks I put onions in about everything but the oatmeal, perhaps you'd better skip the onion.

My father always thought an onion was late discovering onions. But to me, they add flavor and deliciousness to many foods. Mrs. James Ollis does something good with onions. She took a church dinner once within my recent memory.

What writer was it, lately, who wrote that now we must never begin a tale: "Once upon a time." Instead, say: "Once upon a time and-a-half."

Once, before time-and-a-half days were ever thought of, I won an essay contest and \$5. I think it was in the fifth grade. Anyhow, I always remember that teacher. We were giving recipes one day, and I learnedly talked on the wonders of potato salad WITHOUT onion. Now-a-days I wouldn't give a nickel for it, made that way. But then, I didn't know any better.

I got very eloquent, and in addition, a good grade. Because the teacher didn't like onion in potato salad either.

But I can't recall the topic of that essay that won the \$5.

Just when I got to thinking the gang couldn't get out the Quiz without my capable assistance, I find that I am not the indispensable man, after all. Old Man Trouble struck me amidst Wednesday and tied my liver in knots, so I had to stay home whether I would or not and leave Gene and Ed and Marlene to do the best they could. To my utter surprise the paper came out on time and looking fully as newsworthy as usual. Then I got to thinking about the several millions of American voters who thought on two different occasions that there actually was an indispensable man. The fact is that men, as individuals are pretty smart people, but taken as a group, they can do some of the craziest things.

However, I have found out what really occurred Wednesday. Oscar Nay happened to be here when I failed to show up he took off his necktie, rolled up his sleeves, and threw type all over the place. Yep, I just knew they couldn't get along without me!

In the Nebraska unicameral last week one legislator made the statement that the establishment of normal schools at Peru and Chadron was a mistake, but that the legislatures since then had not had the nerve to correct the mistake. It has always seemed to me that the school at Peru was a mistake. In case you don't know, Tom Majors, after he got to be a great man, felt he ought to do something for his old home town, Peru. About the best thing he could think of was a normal school. Having the power, he had it placed there. Geographically, he couldn't have picked a poorer place in the state. It is located right on the Missouri river, and nearly in the southeast corner of the state. It has never had but one railroad, the Nebraska City and Holdrege,

Peru I don't want them throwing rocks at me. I have the satisfaction of knowing some of the Peruvians feel just the way I do about it. That's the trouble. Writing this column is a part of my weekly job, and a lot of people wouldn't miss it for anything. They say so, anyway. But every once in a while a fellow takes my writing too seriously. If it has that effect, why not try taking it in small doses, or leaving it out entirely.

## Celebrate 50th Anniversary

Mr. and Mrs. Klingensmith celebrated their 50th wedding anniversary Sunday, April 10, with a family dinner at noon and open house in the afternoon.

Mr. and Mrs. Klingensmith were married April 11, 1899, at Elba, Neb., by Rev. Lloyd Epley of the United Brethren church in Elba. They went at once to the farm 2 1/2 miles south of North Loup, which has since been their home.

Mr. and Mrs. Klingensmith have four children all of whom were present for the celebration. They are Mrs. Florence Portis of Scotia, Mrs. Ethel Kason of Bremerton, Wash., Max Klingensmith of North Loup, and Mrs. May Gans of Dannebrog. They have twelve grandchildren, nine of whom were present, five great grandchildren, two of whom were present.

Also present were Mr. Klingensmith's mother, Mrs. Adelaide Klingensmith of St. Paul, and some five generation pictures were taken. Other out of town guests, included Mrs. Blanche Klingensmith and Mrs. Bessie Klingensmith of Mr. Klingensmith's B. B. Klingensmith, brother, and Mrs. Marius Kylin, a sister of Mrs. Klingensmith. There were many other relatives and friends.

A large wedding cake was a special feature of the table decorations with bouquets of yellow roses and snapdragons.

All of their fifty years of married life have been spent on the same farm, where they started housekeeping in a sod house, which was later replaced with the present frame house, where their family grew up.

Mr. and Mrs. Klingensmith received a number of callers in the afternoon, beside numerous gifts and cards. Saturday's rain made it impossible for many who had wanted to go to get there because of the muddy roads.

## North Loup Lions Hold Fine Session

The North Loup Lions met Thursday evening with 25 in attendance. The committee on the Summer bridge had met with the county board, Chairman W. O. Zangger reported, but without results, as the board voted unanimously to abandon the bridge.

Mr. Zangger was appointed as head of a committee of interested farmers to take whatever further action they might deem advisable. The members of the club are much gratified with the information that there is a good chance for natural gas in North Loup next year.

Services are being held each evening this week at the Methodist church, with ministers from nearby churches bringing the message. This is in observance of Holy week.

Mrs. John Ward accompanied her son, Guy, of Burwell, to Norfolk Wednesday.

The Clark's I.G.A. store is being painted and papered this week. Les Stine is doing the work.

Mrs. J. D. Ingraham and Mrs. Floyd Harris and Carolyn arrived on the Saturday morning bus from Highland Park, Ill. Mrs. Ingraham has spent the winter with her daughter and Mrs. Harris and Carolyn will return home after a week here.

Serving on the election board last Tuesday were Mrs. Harold Hoepfner, Mrs. Harlan Bremick, Mrs. Arthur Willoughby, Mrs. Rella Babcock and James Ingerson.

Roy Stine is raising some of the new breed of chickens, a cross of Cornish New Hampens, which have more meat and less bone. A recent Life magazine had an article about these new chickens, illustrated with pictures.

Mrs. Lizzie Knapp, Mrs. Maxine Scott and Jerrilyn spent Sunday with the Ray Knapp family.

## Music Department to Fullerton

The music department of the North Loup schools was represented at the district music festival at Fullerton both Friday and Saturday. On Friday soloists who went were Barbara Hudson, girls medium voice, who was rated excellent; Thelma Goodrich, high voice, rated good; Alice Meyers, excellent, on a piano solo; Dale Hutchins, good, with a cornet solo and Jerold Manchester, excellent, in boys low voice. Jerold ordinarily sings medium voice, but the track team was attending track meet Saturday at Grand Island and the medium voice contestants were to sing on Saturday, so he sang in the low group on Friday. Mr. Babcock, music director, took the contestants over on Friday.

On Saturday the girls' glee club sang two numbers, "Honey Tones" and "Green Cathedral" and were rated superior. The school band was rated excellent. Donald Lentz, director of the state university band, was critic judge of bands.

Those who took car loads over Saturday were Mrs. C. D. Knapp, Mrs. Lee Mulligan, Mrs. Ruth Hutchins, Rev. Ralph Sawyer, Rev. C. P. Barbour and A. I. Friese. Mr. Friese took a load of boys to Grand Island in the morning for the track meet and then returned to Fullerton in the afternoon. Russell Keir, who went to Grand Island, sang in the boys medium voice group and was rated excellent. The numbers given at Fullerton were presented to a large and appreciative audience Tuesday night at the community building.

# THEY'RE CHANGING!

## Because Now D-X Motor Oil Contains EXTRINOL\*

Yes, thousands of motorists have found that ordinary motor oils alone do not give them the complete lubrication protection they need. That's why they're changing to the oil with the "extra" — D-X motor oil with Extrinol.

This great new motor oil will help your motor deliver extra power because it helps clean your motor while you drive. It protects your bearings against rusting, pitting and wear. And it fights oil-eating sludge. It does all these things because it contains the "extra" of Extrinol — at no extra cost.

\*Extrinol is the name of the complex chemicals that are added to D-X to make it a tougher, safer, more economical motor oil. Change to D-X with Extrinol. Get this Extrinol's extra protection today... at any D-X station.

D-X LUBRICATING MOTOR FUEL HAS AN EXTRA, TOO. It contains a top quality lubricant that protects valves and upper-cylinder parts. Try a tankful today.

**TRUSTEES OF THE VILLAGE OF NORTH LOUP, NEBRASKA.**

**SECTION 1.** That in consideration of the benefits to be derived by the village of North Loup, Nebraska, and its inhabitants from the construction and operation of a gas distribution system in said village there be and hereby are granted to Kansas-Nebraska Natural Gas Company, Inc., a corporation, its successors and assigns, hereinafter collectively referred to as "Grantee," the right, permission and authority to construct, maintain and operate a gas transmission and distribution system within the limits of said village, as the same now exist or may hereafter be extended for a period of twenty-five (25) years from and after date of final passage of this Ordinance; and for said purpose there are hereby further granted to Grantee the right, permission and authority during said period to lay, install, construct, maintain and operate in, under, upon, over, across and along all of the streets, alleys, bridges and public places within the present and future corporate limits of said village all mains, pipes, sewers, conduits and structures necessary or convenient for furnishing, transmission, distribution and sale of gas for lighting, heating, domestic, industrial and other uses, and for transmitting such gas, into, through or beyond the limits of said village to other cities, villages and customers.

**SECTION 2.** That all mains, services and pipes laid or installed under this grant shall be so located and laid as not to obstruct or interfere with any water pipes, drains, sewers or other structures already installed, and all such mains, pipes and services shall be installed subject to approval of the Committee on Streets and Alleys or other authorized representatives of said municipality.

Grantee, in doing any work in connection with said mains, pipes and services shall avoid, so far as practicable, interfering with the use of any street, alley or public place, and where the paving or surface of any street, alley or public place is disturbed, Grantee at its own expense shall, in a manner satisfactory to the authorized representatives of said municipality, shall replace such paving or surface in as good condition as before such work was commenced.

In event that at any time hereafter said village shall lawfully elect to change or alter the grade of said street, alley or public place, Grantee upon being directed by resolution of the Chairman and Board of Trustees of said village so to do, shall, where the same shall become necessary by reason of said change of grade, at its own expense, re-lay its mains or service pipes.

**SECTION 3.** Grantee shall have the right to make all such reasonable rules and regulations in the conduct of its business as it may deem necessary or expedient, including the deposit in such amounts as may be required to assure payment of bills. Grantee shall make such reasonable extensions of its mains from time to time, and shall install services to the curb line where mains are located in a street, and the party line where mains are located in an alley, as may be required to furnish service within said village to parties making application therefor; but Grantee shall not be required to make any extension for the purpose of serving a consumer or consumers who will require the installation of more than one hundred feet of mains for each consumer to be served, nor where the estimated revenue to be derived from serving such new consumer or consumers is not sufficient to show an adequate return upon the total additional investment required to serve such consumer or consumers.

**SECTION 4.** Grantee shall file and make effective initially the schedule of maximum rates for natural gas service over such rates, and shall furnish natural gas at such rates, or at such other reasonable, lawful, and valid rates as may hereafter be established from time to time by Grantee, subject to the approval of the proper body having jurisdiction over such rates for gas service by Grantee in said village.

**SCHEDULE OF RATES:**

**NOTICE OF HEARING.**  
In the County Court of Valley County, Nebraska. In the matter of the Estate of Kristine Bessen Deceased. To all persons interested in said estate. You are hereby notified that on the 4th day of April, 1949, Marie Bessen, filed her petition in the above matter, setting forth among other things that Kristine Bessen died intestate on June 3, 1943, seized and possessed of the following described real estate, to-wit: An undivided two quarter and the South one fourth of the Northwest Quarter in Section Ten, Township Nineteen, Range Fifteen West of the 6th P. M. in Valley County, Nebraska. That Kristine Bessen was not married at the time of her death and her sole and only heir at law is the petitioner herein. That the said petition is for a decree determining the time of death of the decedent and the names of her heirs, fixing the degree of kinship of said heirs, and the right of descent of said real estate, barring the claims of creditors of the decedent and for such other orders as may be just. Said matter is set for hearing before the County Court of Valley County, Nebraska on April 14, 1949 at 10 o'clock A. M. Dated April 4, 1949.

days immediately preceding such test. In event such meter is found to be not more than 3 per cent high, or to be slow, the \$1.50 deposited shall be retained by Grantee to defray the expense of such test. Whenever at the request of the customer any gas meter is tested by Grantee or any regulatory body having jurisdiction, the meter shall be considered as correct if found to have an average error of not more than 3 per cent, and no adjustment of charges will be made unless the error therein is greater than 3 per cent.

**SECTION 6.** Grantee in the construction of said gas system within the limits of said municipality shall use tested and approved pipe, material and equipment.

**SECTION 7.** Grantee at all times will keep a map in the office of Grantee or of the Clerk of said municipality, showing the size and location of its mains laid in said distribution system in said municipality.

**SECTION 8.** In case the available supply of natural gas shall at any time fail or become insufficient to supply the needs of the public of said municipality, or should Grantee for any reason be unable to furnish the service herein contemplated, and upon the termination of this franchise for any reason whatsoever, Grantee shall have the right to remove any and all of its pipe and other equipment or property from said municipality, but in such event Grantee shall restore the streets, alleys and other public places to the condition as before such removal, and will hold said municipality harmless from damage and expense incident to such removal.

**SECTION 9.** Grantee shall be liable for the acceptance hereof, to save harmless said municipality from and against all lawful claims and demands, and from all loss and expense necessarily incurred as a result thereof, arising out of the negligence of Grantee in the construction, removal, replacement, inspection or repair of any mains, pipes, services or appliances of Grantee, or in the use and operation thereof during the term of this Ordinance.

**SECTION 10.** On ninety days prior written notice to the Grantee of its intention so to do, said village, after not less than three years from the effective date hereof, may by ordinance cancel and terminate this franchise, unless before such cancellation and termination upon the expiration of such notice Grantee shall have actually begun laying gas mains or pipes in said municipality; provided, however, that such three year's period shall be extended by the addition of any time reasonably due to litigation instituted by others, or due to the failure of said village, its officials or governing body, or of any other governmental body or authority, or due to strikes or other causes reasonably beyond control of Grantee.

**SECTION 11.** This Ordinance and the right of authority granted herein and hereby granted shall terminate and be of no further force and effect:

(a) unless within six months after final passage of this ordinance Grantee shall file with the Clerk of said municipality a written acceptance hereof;

(b) if and when, after such acceptance Grantee shall file with the Clerk of said municipality a surrender hereof in writing.

**SECTION 12.** Wherever the term "Grantee" is used it shall be held to mean and include said Kansas-Nebraska Natural Gas Company, Inc., its successors and assigns.

**SECTION 13.** This Ordinance shall be in full force and effect from and after its final passage and publication as required by law and upon acceptance by the Grantee shall be held to constitute a binding contract between said municipality and Grantee, subject to its terms and conditions.

Passed this 4th day of April, 1949.

Ray Hill,  
Village Clerk.

The undersigned hereby certifies that he is the duly elected, qualified and acting clerk of the village of North Loup, Nebraska, and that the within and foregoing is a true and correct copy of Ordinance 39 passed by the Chairman and Board of Trustees of the village of North Loup, Nebraska, the 4th day of April, 1949.

Ray Hill,  
Clerk  
April 14-1tc

**SECTION 1.** That in consideration of the benefits to be derived by the village of North Loup, Nebraska, and its inhabitants from the construction and operation of a gas distribution system in said village there be and hereby are granted to Kansas-Nebraska Natural Gas Company, Inc., a corporation, its successors and assigns, hereinafter collectively referred to as "Grantee," the right, permission and authority to construct, maintain and operate a gas transmission and distribution system within the limits of said village, as the same now exist or may hereafter be extended for a period of twenty-five (25) years from and after date of final passage of this Ordinance; and for said purpose there are hereby further granted to Grantee the right, permission and authority during said period to lay, install, construct, maintain and operate in, under, upon, over, across and along all of the streets, alleys, bridges and public places within the present and future corporate limits of said village all mains, pipes, sewers, conduits and structures necessary or convenient for furnishing, transmission, distribution and sale of gas for lighting, heating, domestic, industrial and other uses, and for transmitting such gas, into, through or beyond the limits of said village to other cities, villages and customers.

**SECTION 2.** That all mains, services and pipes laid or installed under this grant shall be so located and laid as not to obstruct or interfere with any water pipes, drains, sewers or other structures already installed, and all such mains, pipes and services shall be installed subject to approval of the Committee on Streets and Alleys or other authorized representatives of said municipality.

Grantee, in doing any work in connection with said mains, pipes and services shall avoid, so far as practicable, interfering with the use of any street, alley or public place, and where the paving or surface of any street, alley or public place is disturbed, Grantee at its own expense shall, in a manner satisfactory to the authorized representatives of said municipality, shall replace such paving or surface in as good condition as before such work was commenced.

In event that at any time hereafter said village shall lawfully elect to change or alter the grade of said street, alley or public place, Grantee upon being directed by resolution of the Chairman and Board of Trustees of said village so to do, shall, where the same shall become necessary by reason of said change of grade, at its own expense, re-lay its mains or service pipes.

**SECTION 3.** Grantee shall have the right to make all such reasonable rules and regulations in the conduct of its business as it may deem necessary or expedient, including the deposit in such amounts as may be required to assure payment of bills. Grantee shall make such reasonable extensions of its mains from time to time, and shall install services to the curb line where mains are located in a street, and the party line where mains are located in an alley, as may be required to furnish service within said village to parties making application therefor; but Grantee shall not be required to make any extension for the purpose of serving a consumer or consumers who will require the installation of more than one hundred feet of mains for each consumer to be served, nor where the estimated revenue to be derived from serving such new consumer or consumers is not sufficient to show an adequate return upon the total additional investment required to serve such consumer or consumers.

**SECTION 4.** Grantee shall file and make effective initially the schedule of maximum rates for natural gas service over such rates, and shall furnish natural gas at such rates, or at such other reasonable, lawful, and valid rates as may hereafter be established from time to time by Grantee, subject to the approval of the proper body having jurisdiction over such rates for gas service by Grantee in said village.

**SCHEDULE OF RATES:**  
First 500 cu. ft. per month ..... \$ 20 per C.C.F.  
Next 1,500 cu. ft. per month ..... \$ 15 per C.C.F.  
Next 1,000 cu. ft. per month ..... \$ 10 per C.C.F.  
Next 7,000 cu. ft. per month ..... \$ 60 per M.C.F.  
Next 90,000 cu. ft. per month ..... \$ 50 per M.C.F.  
Next 100,000 cu. ft. per month ..... \$ 40 per M.C.F.  
Balance ..... \$ 35 per M.C.F.  
Minimum Charge ..... \$1.00 per month.  
Gross Rate (above rate plus 10%) applied if bill is not paid within 10 days after date of bill.

**SECTION 5.** Grantee shall furnish and install for its customers, and at its cost keep in repair reliable meters. Grantee shall, at any time, when requested in writing by the customer, upon the deposit of \$1.50 by the customer, test the accuracy of the meter used by the customer, and if the meter is found to be more than 3 per cent high, Grantee will refund the \$1.50 deposited and adjust the customer's bill proportionately for the period elapsed since the last previous test, if any, unless the period of inaccuracy can be otherwise determined, but in no case shall such adjustment be made for a period exceeding sixty

### Election Results in Nearby Cities

With no contests for either village or school elections, Greeley set some sort of a record when only 27 voters went to the polls. M. J. McQuillan, H. J. Rooney and Joe F. Gannon were elected on the town board, and P. J. Barrett and Harold Warner on the school board.

Fewer than one fourth of the voters at Loup City turned out to vote. They reelected Harry Lewandowski and Fritz Leschinsky for city council. I. A. Polski was re-elected to the school board as a write-in candidate, as was Ray Pinckney, whose friends filed a petition in his behalf.

Only 91 voters went to the polls in Broken Bow. There Seth Best and George Porter were re-elected to the school board and George Tubbs and R. Gishpert to the city council. The latter were running unopposed.

It was a very different story at Callaway, however. There, because of issues involving the municipal light plant, 101 persons turned out to vote in a town of 768 population. L. F. Johnson and Floyd Taylor were elected to the village board, and J. C. Savidge and Everett Hogg to the school board.

About 220 voters were cast at Sargent, where Joe Helmkamp de-

feated George Orvis for mayor, and Carl Reier, Rudolph Visek and Harold Everhart were elected councilmen. For school board David James and Robert Spooner were winning candidates.

In Constock 71 ballots were cast at the village election and 72 at the school election. Elected to the village board were John Ochsner, Wendell Hovic and A. B. Ayres. E. J. Crawford and Edw. S. Kriklac were the school election winners.

Crete is somewhat larger than Ord, but so was their total of 1,023 votes cast in Tuesday's election. There the Citizens' party won over the Progressives, who were able to elect only one councilman, Leslie Heitford. The other two elected were Anton Kupa and Charles Rhyndals.

At Scotia 101 voted in the village election, where Dr. R. A. Hamsa and Karl Ashley were elected to the board, and 104 in the consolidated school election, electing Edgar Stulman and Leo Klein as board members.

At Spalding 165 voters decided to have Harold W. Coyne and Dr. H. A. Glassmaker on the village board and Dr. E. A. Mutz and Paul Mallander for school board members.

Wellbach with 523 population, cast a total of 129 votes to elect Andy Nelson, Albert Klein and Dr. A. H. Holm to the village board and C. F. Thayer and Oswald Sorensen to the school board.

At Taylor 70 voters elected R. Beals and Guy Fletcher to the board of Loup County Consolidated schools, and L. A. Ruppel, Mil Ferguson and E. J. Powers to three places on the village board.

At Stanton, nearly five times as large as Taylor, only 70 votes were cast, there being no contest of any kind. At nearby Pilger, one third the size of Stanton, about twice as many voters appeared at the polls to make one of the largest votes in recent years.

Albion hit a new low in attendance at the polls, with only 164 voting. At Clay Center a contest on package liquor sales brought out a good vote, the question losing by 57 votes. At Fullerton 33 persons got out to vote, although no important issues were at stake.

### Nearly All Fish Died at Fremont

Men from the state fish and game commission scined Fremont lakes after the ice had melted and discovered 10,336 dead fish. In all their operations they found only one live crappie. The dead fish totaled 9,900 pounds.

The heavy coating of ice is held responsible for the death of the fish, which died of suffocation. The largest loss of fish was shad and carp, but there were also catfish, bullheads, crappie, bass and bluegills.

### Ord Jack and Jill Store Holds Grand Opening This Week

Store Redecorated and Remodeled; Parking Lot Will Be Graveled Soon.

For some time now the Ord Jack and Jill store has been undergoing a lot of major changes designed to make marketing more pleasant and convenient for the customers. These are now complete, and the store will hold its special opening on Thursday, Friday and Saturday of this week, with bargains in all departments.

Included in the improvements are a deep freeze, a complete redecorating job, including names all around the walls of the different lines for sale, fluorescent lights, special covering on the floor, more self-serve baskets for the customers, and many other improvements.

To be added later as soon as the weather permits will be graveling of the lot to the north of the building, furnishing parking space where the customers may park their cars and get to the store, to make their purchases and have them put in their autos with a minimum of trouble.

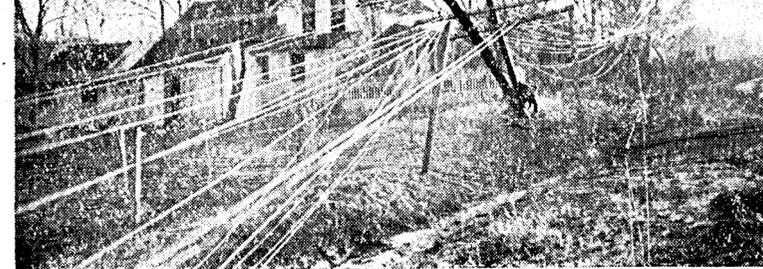

The four regular clerks in the Jack and Jill are all Valley county men, all well known to the public. They are, in order of length of service, Emil Darges, manager, James Wachyle, Polish Jablonski and Otto Pecenka. All of them will be happy to meet you and look after your wants at the store at any time.

### American Legion Juniors, Midjets Will Be Insured

Cork Biemond, commander of the American Legion, this week informed the Quiz that the ladies playing baseball this year under the auspices of the Legion will be insured with a blanket insurance that will cover the sixteen players, manager, bat boy and others connected with games, while playing, while at regular practices and while going to and from games and practices.

Boys who are eligible will have until May 18 to sign up, but it is expected that most of them will have their names on the dotted line by May 1. Manager Bill Heuck will appreciate it if the boys will attend to this matter as soon as possible. This will give the management more time to take care of preliminary arrangements.

### John P. Misko Family to Leave Ord for Oregon This Summer

A law school friendship of 20 years' standing, and a dream of making a 20-year dream a reality, "someday we're going to establish a partnership" will be fulfilled this summer. Shortly after June 1, the John P. Misko family will leave Ord for Oregon City, Oregon, where Mr. Misko will establish a new partnership with John O. Sheldahl of St. Charles, Ill.

Both Misko and Sheldahl attended the University of Nebraska, became fast friends as members of the Pi Alpha Delta fraternity. Sheldahl went to Chicago to practice where he became labor attorney for the National City Lines. Misko returned to Ord, the town where he was born and reared. He has practiced law here since 1931.

Community Minded Family. Mr. and Mrs. Misko and their three children have been community minded. The parents have been active in church, civic and social work, the children, still in school, have been class leaders and active in extra curricular music, dramatics and athletics.

### Ord Odd Fellows Plan to Observe 103rd Anniversary

First Organized Here in Baltimore. Charter Sent Over from England. In accordance with a proclamation issued by Grand Master E. E. Brown, Ord Lodge No. 90, I.O.O.F., will present a special program Thursday evening, April 28, 1949, in commemoration of the 130 anniversary of the founding of the Order of Odd Fellows in America.

The program will open with "God Bless America," followed by an introduction by Vice-Grand Stanley Nette and an invocation by Chaplain Clyde Baker. The reading of the proclamation of the Grand Master will follow.

Other features include songs by the high school boys' quartet, the history and objects of Odd Fellowship, the German Band from the high school, a playlet by the Rebekahs, "The Star Spangled Banner," and a benediction by the chaplain.

The program will be followed by a bingo game and card playing and there will be music furnished for those who wish to dance. The members are requested to bring guests.

A lunch will be served at 11:30 p. m. Members are to bring their own sandwiches. The ladies will furnish the potato salad and pickles and the lodge will furnish ice cream, cookies and coffee.

The first Odd Fellow lodge in America was established in Baltimore, Md., April 26, 1819. The charter for this lodge came to America from the Duke of York's lodge in England.

Mr. and Mrs. Ronald Rose and family of Burwell, Mr. and Mrs. Russell Rose and family and Loren Rose were Sunday dinner guests of Mr. and Mrs. R. N. Rose.

### Work Has Started on Bridge Across North Loup River

Should Be Completed in Six Months; Will Be Concrete and Steel.

Within a few months a new bridge will span the North Loup river at Ord, replacing the one now in use. The new bridge is to be located a short distance to the north of the present one, and will be of steel and concrete construction, and will have capacity for carrying any usual amount of traffic.

The old bridge was built in 1903. At that time there were no autos or trucks in the country and the heaviest single item to cross a bridge was the steam traction engine and threshing machine. The bridge was first built with a three inch plank floor, but this did not prove satisfactory.

As autos became more common the demand increased for a floor that would not present splinters and nail hazards to travelers' autos tires. So about ten years after it was first built, the county board decided to put in a concrete floor and thus save the expense of replacing the plank every few years.

A six-inch concrete floor was laid, and then a coating of dirt was put on top. It is roughly estimated that the weight of this material was about 60 tons to the span, and this on a bridge originally designed to sustain a weight of 10 tons.

The bridge did hold that weight for more than thirty years, but on the afternoon of Feb. 17, 1946, the south half of the south span collapsed, leaving Henry Lange's truck trapped on the bridge. He succeeded in getting the truck off the bridge after considerable difficulty.

It so happened that the county board was meeting the day after the accident occurred, and they entered into an agreement with L. R. Jones, district engineer with the State Highway department for the state to replace the damaged bridge, which is a part of Highway 57 from Ericson to Ord.

Later the county built the temporary structure at the south end of the old bridge to serve the purpose until the new bridge could be built. An agreement was entered into that fall with Capitol Bridge for the construction of the new Ord bridge upon which the work is now starting.

### Radio-Telephone Now in Service

Long distance calls in Ord have been sent by radio-telephone since Sunday, when a 50 watt transmitter, loaned to the Nebraska Continental by the Northwestern Bell Co., arrived in Ord. The town had been without long distance service for three days previous.

The transmitter will be in service until this week when it is expected regular lines will be repaired. Long distance calls from Ord are broadcast to a receiving set in St. Paul, Neb., where they go on the regular telephone circuit.

Here to operate the emergency equipment are John Sheppard and Ernest Truander, both of Minneapolis. They informed a Quiz reporter that they had been handling about 50 calls a day over the new device. Several other units are spotted around the state, where lines are down, including Neligh, Eperton and Grand Island.

Ord residents who have used the set-up report that conversations are heard just as easily as ever. Only objection is that calls are no longer private, since one half of the conversation can be heard on most local radios tuned to the right wave length.

### Hospital Corporation Formed; Officers and Directors Elected

Group Will Meet Thursday to Formulate Final Plans for Fund Raising Drive.

Incorporation of the Ord Co-operative Hospital Association was officially completed this week with the filing of articles, election of officers and directors.

Heading the new association, which is incorporated for \$60,000, is Archie Geweke, president, Glen D. Auble vice-president and Leslie C. Nash, secretary-treasurer.

Members of the board of directors are: Dwan Williams and Hazel W. Weddel of Arcadia, Almond Bros., Clara M. McClatchey, John R. Sullivan, Glen D. Auble, Archie Geweke, Leslie C. Nash, all of Ord, and E. C. Ehret of North Loup.

Will Meet Thursday. According to Leslie Nash, hospital association secretary, the directors will meet Thursday night at the Soil Conservation office to make final plans for a stock selling fund raising drive which will get underway as soon as possible.

Articles of incorporation of the group provide for the issuance of stock certificates of \$100 each, to pay three percent dividend from the earnings of the corporation.

Signing the articles of incorporation are Archie Geweke, Glen D. Auble, Leslie C. Nash, Weddel, Dwan Williams, John R. Sullivan, Almond Bros., Clara M. McClatchey, Hilding Pearson, Ross D. Allen, Amelia Vogeltanz, Orin Kellison, George Hastings, F. L. Blessing, Clark Weckbach, Gus Schaefer, W. Weckbach, C. J. Mortenson, John R. Haskell and Don W. Auble.

### E. R. Apking New V.F.W. Commander

Group to Stage Marble Contest to Hold District Convention Here in May.

Annual election of officers of Ord Post 7029, Veterans of Foreign Wars, Tuesday night, resulted in E. R. Apking named commander of the post for the coming year.

Other officers chosen are Wan. Goff, vice-commander; Henry Benda, junior vice-commander; John Galka, quartermaster; Roland Norman, chaplain; Vernon Malolepszy, judge advocate, and Joe Ruzicka, trustee. The new officers will be installed at the May meeting of the post.

### Canal Siphon Is Loup City Menace

Residents of Loup City consider the irrigation canal siphon which carries the water past Loup City a menace fully as bad as the well that trapped little Kathy Fiscus in California. They are asking that something be done about it.

A concrete funnel carries the canal water into a 36 inch pipe, which carries the water past Loup City. The inlet is partly protected by wire fence, but children climb over the planks above the control gate. Paul Dean, director of the Middle Loup, was to inspect the place last week.

Mr. and Mrs. Jim Cornwell of Stanton were week end guests of her parents, Mr. and Mrs. E. L. Vogeltanz.

### Sentiment Favors Clarence M. Davis for District Governor

Will Have Backing of Several Rotary Clubs It Is Believed Here.

The candidacy of Clarence M. Davis for Rotary district governor seems to be meeting with favor outside Ord. It goes without saying that Mr. Davis is the unanimous choice of the Ord club, but it will require the assistance of other clubs to win him the coveted honor.

The campaign is proceeding nicely with the committee, C. J. Mortensen, E. L. Vogeltanz, M. B. Cummings, E. C. Leggett and Bill Darges, with the able assistance of Secretary John R. Haskell, contacting the different Rotary clubs in the district and presenting the qualifications of Mr. Davis.

### GOLF CLUB TO MEET

Tuesday evening, April 26, the Ord Golf club will hold a meeting at the Legion Hall to organize for 1949.

### Cosmo Wading Pool Needs Only Few More Dollars to Assure Construction

Only a few more contributions are needed to assure the construction of a large wading pool in Bussell park for the use of Ord lily tots this summer.

According to club president Floyd Beranek, when members of the club passed the hat among their own membership Thursday night, more than \$300 was contributed. Members who weren't at the Thursday meeting, added another hundred dollars over the week end.

"We need about \$300 more to buy the materials for the pool," Beranek said. "And although we're not going to make a solicitation or ask anyone for a contribution, we'll welcome any donations."

Materials for the wading pool, which will be located in Bussell park, near Ord's new swimming pool, are being sold to the club by Ord business firms at cost. All labor, including the skilled labor for plumbing, concrete work and form building, is being donated by Cosmopolitan members.

Beranek asked that anyone wishing to help the wading pool project to use the coupon in this issue of the Quiz to mail contributions to the club, or leave their contribution at either of the Ord banks or the Beranek drug store. "We'll welcome any amount, no matter how large or small," he added.

### Snow Storm Does Much Damage To Telephone & Electric Systems

PLANT CATFISH. Two loads of 750 catfish each have been planted here by the State Fish and Game commission, one at Ord, the other at Taylor, and more will be planted soon, it is understood.

However, fishermen do not have to worry about getting more than their limit, as these fish will not be large enough to take this year, at least.

### Sleet Coats Wires, Breaks Cross-Arms and Uproots Poles

Continental Telephone, Consumers Power, North Loup Telephone Losers.

What proved to be one of the most destructive storms of the entire winter swept across Nebraska Wednesday evening of last week. Starting out with an electric storm, rain began falling, soon turning to snow which clung to all surfaces, trees, telephones and light wires, fences and the north sides of buildings.

Began at Midnight. The storm began about midnight, and shortly after 2 a. m. electricity from Consumers lines was cut off to all towns served in this area. Morning dawned on a scene of destruction that no ordinary snow or sleet storm could cause. When the snow began it froze to all wires running crosswise of the wind, east and west.

By morning this snow had grown to as much as two inches in diameter, almost as heavy as solid ice. Wires were broken in hundreds of places. Where wires held, the weight broke off or uprooted poles, and broke cross-arms.

Storm Extensive. The storm covered the greater part of the state, with snow up to a foot in depth in places. The Platte valley was the hardest hit. From Ord north the damage was much less. Burwell getting by with very little loss.

Trees, with the exception of evergreens, escaped with little damage, as there was no foliage to catch the snow. Hundreds of cedars that had withstood all the previous storms of the winter, were broken down and ruined by cause of the greater weight and clinging quality of the snow.

Reports from all over the storm area indicate that it will take from four days to a week or more to restoring power lines, and some of the phone lines may be out even longer, unless more help can be secured. There is a limit to what the regular repair crews can do, and skilled help is hard to find.

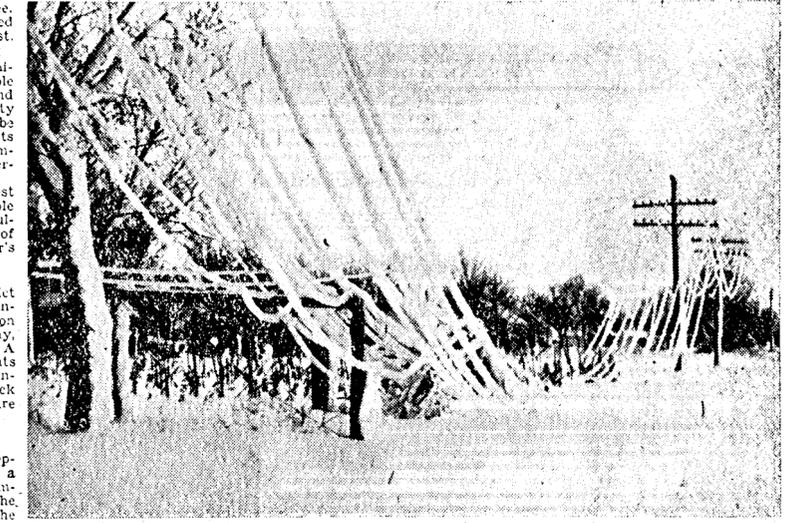

The Northwestern Bell telephone company shipped crews in from Iowa and other adjoining states to help out the local crews. The Consumers Public Power, district, it is understood, brought in men from Kansas. The Continental Telephone company which owns town lines in Ord reported Saturday after the storm they had only one country line in working order, No. 59, which runs a short distance west from Ord. All the rest were out.

Thursday morning 60 city phones were out, and by Saturday morning this number had been reduced to 46, with the certainty that many more would be working by night. It was expected that all damage would be repaired in Ord within a week.

Rea Out Several Hours. Thursday morning the REA office found that their lines were out due to grounds at different places. As the roads were almost impassable and it would take a long time to inspect the lines from the ground, Foreman Chet Austin had Cork Biemond fly him along all the lines of the company that have been energized.

The grounds were thus located and were soon repaired. Shortly after noon an attempt was made to throw in the country switch at the

Four Native Sons Employed at Local Food Center Store; With Firm Years

Four native sons are the full time employees of the Jack and Jill store in Ord which is holding a grand opening of a newly remodeled store this week.

Emil Darges is the youngest son of Mr. and Mrs. Peter Darges of Ord. He was born in Ord, educated in Ord, graduating from high school, class of 1929. Immediately upon graduation he started working for Food Centers.

Bolish Jablonski was born 46 years ago on a farm 5 miles west of Elyria, where he grew up and received his education in District 48. In 1921 he was married to Teophila Curtis of Ashton, Neb.

Now that Pecenka is available, he will divide his time between the meat and grocery departments.

The Wachtrle family came to Valley county in 1903, when James was 9 years old. They located north of Fort Hartsuff in Garfield county, and James attended what is known as the Bartos school.

In 1923 James came to Ord, and was employed in the Pafetta General Merchandise establishment on the south side of the square four years. Then for four years he ran a dry line. Starting in with the old Food Centers store under Joe Punochoar in 1932, he has been with them now for 17 years.

Emil Darges was in the service, but turned the job back to him when he returned. Otto Pecenka was born, raised and educated in Ord. His business experience in Ord is long, but his work with Jack and Jill is short, as he began his duties there only this week.

From the time he was out of school and ready to take a job, Otto has been a meat cutter, and it is in this capacity he will be employed at Jack and Jill.

Pecenka sold out the south side market to George Vavra a little more than a year ago, and took a five months trip to the west. He of Jack and Jill, and has been employed as a meat cutter since then. Now that Pecenka is available, he will divide his time between the meat and grocery departments.

Mrs. H. Knudsen Passes Away at Ripe Age of 87

Noted for Her Pleasant Personality and Devoted Christian Character.

Mrs. Hannah Knudsen was born in Denmark Sept. 24, 1862, and passed from this life April 16, 1949 at her home near Ord, Neb., at the age of 86 years, 6 months and 23 days.

She came to America in her youth and was united in marriage with Nels Knudsen March 10, 1897. To this union were born two daughters, Mrs. Bertha Knudsen and Mrs. Stella Knudsen Vergin. Her husband, three sisters and two brothers have all preceded her in death.

Mrs. Knudsen made the confession of faith in her youth, and lived as a devout Christian all her life. She was of a quiet nature, and a devoted mother and wife. Her illness she was waiting to be called home, and the day before her passing said that this would be her happiest Easter.

She is survived by her daughters, Bertha, Mrs. Stella Vergin and her husband, Warner, all of Ord, and her granddaughter, Mrs. Herman Nass and husband and great granddaughter Ruth Faye, all of North Loup, Bethel Baptist church, besides many other friends, will miss her pleasant smile and sweet Christian life.

Funeral services were held from the Bethel Baptist church, Tuesday afternoon at 2:30, Rev. Eugene Olson officiating. The pall bearers were Lloyd Needham, Reick, William Wiberger, Chris Reick, Morris Knut of Ord, Fred Kivell, jr. Burial was in the Ord City cemetery. Hastings-Pearson mortuary had charge of arrangements.

Life Story of Ed Verstraete Sent by Family

The Quiz published last week the story of the passing of Edward C. Verstraete. This was rather brief, as the complete story of his life and death was not available at the time. His family has furnished the following more complete record.

Edward Verstraete was taken to the Mayo Clinic Dec. 27, 1948, remained for treatments and returned again in February for a continuation of the same treatments. He was taken care of in his home by his wife and daughter and passed away April 5, 1949.

Mr. Verstraete was born in Wynegene, Belgium, Oct. 23, 1889. He came to America at the age of 19, and settled in Valley county, Neb. He was united in marriage to Sidonie Vercauteren, Jan. 19, 1919. They farmed in Nebraska 28 years, and in 1941 they moved to Minnesota.

To this union two daughters were born: Mrs. Lloyd Stensrud (Alyce) of Minneapolis, Minn., and Mrs. Bert Boquet (Eleanor) of Arcadia, Neb. He is also survived by his wife, two sisters in Belgium and a brother Jules in Canada.

Requiem high mass was said for the deceased at Holy Redeemers Catholic church in Marshall, Minn., Friday, April 8, Fr. Majorus being the celebrant. Burial was made in Calvary cemetery at Marshall. The pall bearers were Paul Vercauteren, Donald Vxaman, Albert Van Overbeil, Charles Flaxasyn, Emile Laxduyt and Joseph Hulber.

Card of Thanks

We wish to thank the many friends and neighbors for their kindness during the illness and death of our husband and father. We wish also to express our appreciation to the singers and pall bearers and all who assisted at the funeral.

Mrs. Elmer Carr, Mr. and Mrs. Oren Carr and family, Mr. and Mrs. Ray Kearns and family, Mr. and Mrs. Olive Knorr and family.

Elmer Oswell Carr, Resident of North Loup, Dead at 87

Born in Ohio. Mr. Carr Made His Home at North Loup for Past 29 Years.

Elmer Oswell Carr, son of Fedill and Elizabeth Carr, was born August 5, 1861, at Leeburg, Ohio, and passed away April 13, 1949, at his home in North Loup, Neb., at the age of 87 years, 8 months and 8 days, after an illness of only two weeks.

In infancy he was baptized in the Quaker faith in Ohio and the membership still remained there. He moved with his parents by covered wagon when a small child to Iowa, where he was left an orphan at the age of 17. He came to Polk county, Neb., when 18 years of age and made his home with an uncle and aunt.

On March 2, 1892, he was united in marriage with Ida Ann Johnson at the home of the bride's parents in Polk county. They resided on different farms east of Stromsburg until 1918, when they moved to Beaver Crossing. After two years they moved to North Loup where they have since resided, at first on the farm south of town and later in the village. Since living in town, Mr. Carr's time has been spent keeping his large yard and garden in immaculate shape.

Until within the past few weeks, he had been very active for one of his years, making his daily trip to the postoffice and the grocery store. Surviving are his wife, Ida, one son, Oren of Scotia, two daughters, Mrs. Dorcas Knorr of Beaver Crossing and Mrs. Cordelia Kearnes, of North Loup, 11 grandchildren and 7 great-grandchildren, one brother and one sister and a host of other relatives and friends. He was a loving and kind husband and father and a good neighbor.

Funeral services were held Sunday afternoon from the Seventh Day Baptist church in North Loup, Rev. A. C. Ehret officiating. A quartet, composed of Mr. and Mrs. Warren Brannon, Rhylis Babcock and Clair Barber, sang "The Old Rugged Cross" and "Going Down the Valley" with Mrs. Ava Johnson at the organ. Pall bearers were L. L. Sheldon, George Eberhart, Clifton McClellan, V. W. Robbins, Martin Vance and Leslie Wilson. Mrs. Leslie Wilson and Mrs. Wm. Skala looked after the flowers. After the service here the body was taken to Stromsburg for burial in the family plot. Grave-side services were held there. Miller and Ashley were the undertakers in charge.

Ord plant, but it kicked off immediately, indicating a ground somewhere. George Allen had his men check the Ord lead from the plant out to the city limits. They found and removed a couple of grounds and the REA lines were in working order for Thursday evening.

**City Look Light.**  
Saturday George Allen, Ord city manager, estimated the total loss to Ord at five hundred dollars. Lights were out in several places Thursday morning, and more reports kept coming in all forenoon. The entire crew was kept busy all day Thursday and Friday, and all light customers were getting service by Friday night.

Mr. Allen also mentioned that the telephone lines out to Springdale were in bad shape from Ord out about as far as the Springdale school, and were not damaged nearly so much farther east. This would indicate that the snow did not stick to the lines there as much as it did nearer Ord, possibly due to a slight change in temperature.

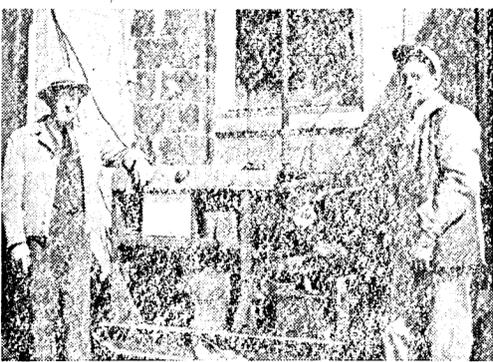

**North Loup Energizes.**  
With the power lines down because of Wednesday night's storm North Loup went back to the "Good Old Days" with kerosene lamps, and candles, gas lanterns or anything available for lights. Electric stoves, popular ordinarily, were replaced with camp stoves, oil stoves or good old coal ranges.

Roy Stine has seven large incubators, all of them set, which are run by electricity. A small generator brought over from Scotia would not pull the load of all seven at once, so Mr. Stine bought a surplus war 5,000 watt plant which Hugh Adams had bought some time ago, planning to install it on one of his farms but it was too large and had been stored at the Hillis Coleman farm. White's wrecker went out and brought it in, it was put back of the hatchery and was soon taking care of the incubators.

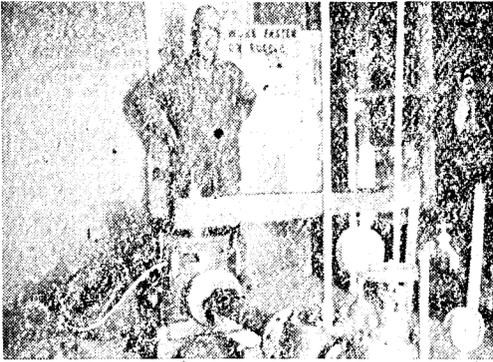

The cheese factory milk pasteurizer and cheese making equipment are run by electric motors, and a wire was run from Stines to the factory to take care of them. Another provided light and refrigeration at the Paris Cafe and the Cress Cafe and operated the stoker at the bank. Late Friday arrangements were made to cool the meat boxes at the Clarks IGA store and the Farmer's store and Friday and Saturday and Sunday the Strand Theater used power from Stine's plant to show their films.

A tractor was connected with the locker motor at the cheese factory to keep the locker cold and the new Ford which the village board bought recently was connected to the city pump to keep an adequate water supply on hand. A small generator ran the stoker at the Methodist church Friday afternoon for Mrs. Jennie Anderson's funeral, on Saturday morning the theater used power from the Baptist church for a similar purpose there, used at the Methodist church on Sunday morning and at the Seventh Day Baptist church Sunday afternoon for E. O. Carr's funeral.

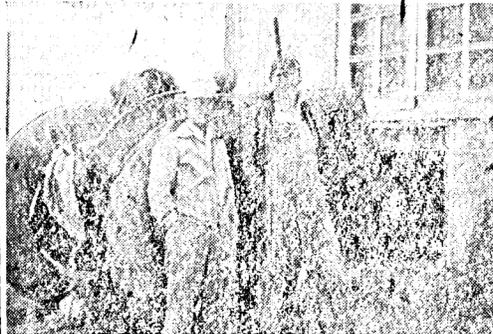

Power went off sometime in the night Wednesday night and was off till Sunday evening when it was partially restored. Light and telephone wires and many poles were down all over town. The snow which was wet and heavy, measured six inches and contained 82 moisture.

This is the light plant that kept business going in North Loup while the high line current was off. Left to right, A. L. Willoughby and Roy Stine.

This is how Harlan Brennick pumped the city water. Note top of motor, lying at left, and belt running to tractor in room to right. Yee, that is Brennick in person. — Ward photos.

This is how the North Loup Cheese Co. kept their locker plant cool. Note belt running through window. Left to right: S. C. (Shorty) Hawkes, manager, and Ben Sintek, owner of tractor.

Out of one hundred sixty residence phone numbers, only fifty were operating Thursday morning, and only two farm lines could ring in. Mr. Gillespie thinks damage to phone lines is greater than in the tornado two years ago.

Scotia was in worse condition than North Loup, with practically all wires and cables down. Their city pump could not be connected with a tractor and they were all out of water.

Saturday night is usually a busy night for North Loup merchants but this week people bought their Easter dinner by candlelight, kerosene lamps or gas lanterns.

**Some Lines Reported.**  
Some country telephone lines are so badly damaged that they will be replaced entirely. One of these is the line out toward Springdale from Ord, where many of the poles are broken down or are uprooted. There are so many breaks in the wires that it would hardly pay to repair them.

Another place where this will be done, according to report, is on the line leading out from Springdale to the Midway corner. There are 30 wires on this line, and the weight must have been terrific, as there is hardly a pole left standing or a cross-arm unbroken.

The principle damage at Burwell seems to have been when a power line fell across the telephone cable, burning it in two and thus isolating a large number of patrons of the telephone company.

**Papers Handicapped.**  
Many newspapers in the area were printed out Tuesday before the storm came, but those who had to finish on Thursday had a rough time of it in many cases. Today linotypes and presses depend almost entirely on electric current and cannot be run without it.

At Albion the power went off at 8:25 a. m. Thursday, and was not restored until 4 p. m. The News complained because the work could not be done in the daytime and the crew had to work that night.

Stanton experienced plenty of wet snow, but the Register says

Schudel Weighed Snow  
A scientific angle was taken by W. H. Schudel, who took the sleet from a measured foot of REA wire at his farm and weighed it, to find that it weighed 2 1/2 pounds. The sleet from a foot of telephone wire weighed 1 1/2 pounds. With poles averaging 150 feet apart and 30 wires leading out toward Springdale, it is no wonder that the telephone line went down.

The total weight between poles would have been 6,750 pounds, or will over three tons. The REA poles average 375 feet apart, and there are two wires. This makes the weight of the sleet between poles 1,875 pounds. Schudel's figures are borne out by weighing done at Scotia. The weight on phone wires at Burwell was found to be one pound.

**Spring Appetites Mean Meat Is Needed**

Now that spring is here, and everyone can get outdoors to work in the fresh air, appetites go up in proportion.

If you'll plan your spring menus around good quality meats, with plenty of the good, fresh spring vegetables as they come on the market, you're sure of the kind of meals that mean health.

Make sure that you get the best meat — quality meat costs no more than ordinary meat — and quality meat is the only kind sold at the little market on the north side of the square.

### Johnsen-Flynn

Miss Alice May Johnsen, daughter of Mr. and Mrs. Chris Johnsen and Lyle Flynn, son of Mr. and Mrs. Frank Flynn were married Easter Sunday April 17, at the Bethany Lutheran church in Ord. Rev. Jeppson performed the ceremony.

### Ciochon-Watkins

Judge and Mrs. Charles Ciochon have received word of the marriage of their daughter, Evelyn, to Jack E. Watkins of San Francisco. The ceremony took place Dec. 18, but the couple kept their secret until last week. Mr. Watkins is in the employ of the American Airlines, and his wife works for the Western Airlines at San Francisco.

Miss Ciochon graduated at Ord with the class of 1938. She attended Kearney State Teachers' college in 1939, taught school north of Elyria in 1940 and the Ballagh school in 1941. She then went to California, where she took the tests for airline hostess, and was one of ten selected out of 600 for special training at Kansas City. She was with TWA for some years, and three years ago she took an office job with Western Airlines, first at Los Angeles and then in San Francisco.

**Belated Birthday Party.** Mrs. Russell Reese had a belated birthday party April 20th for her son Bobbie. Bobbie had the chicken pot at the time of his birthday. Guests were Sandra Szwanek, Karen and Keith Nelson, Frances Osetowski, Sheryl Schaefer, Karen Kay Van Zandt, Lattie Jones, Judy Cupl, and Johnny and Dickie Albers. The mothers that were there were Mrs. Henry Schaefer, Mrs. Lester Norton, Mrs. Merle Van Zandt and Mrs. Lowell Jones.

The bride chose a two piece white taffeta street length dress for her wedding. She wore an orchid corsage and white hat and white accessories. Her attendant wore an aqua street length dress with white accessories and a pink carnation corsage. The groom and best man wore brown suits with white carnation boutonnieres.

**Delta Deck Meets.** Delta Deck met Tuesday afternoon with Mrs. Keith Lewis. High was won by Mrs. Keith Lewis. Guests were Mrs. C. J. Mortensen, Mrs. Lester Norton and Mrs. Joe Osetowski.

**Home Arts Extension.** The Home Arts Extension club met last Wednesday with Mrs. C. Dale. The lesson "Fabrics New and Old" was given by Mrs. Chas. Casselton. Guest was Mrs. Alfred Hill.

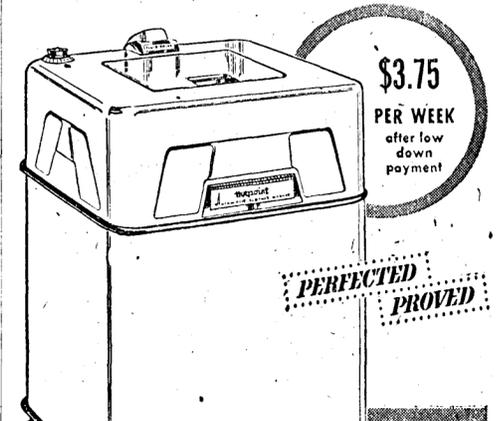

**Woman's Club Meets.** The Woman's Club met Tuesday with Mrs. D. B. McOstrich. This was the last meeting until fall. The program was "Time to Renovate Yourself" by Mrs. Harold Garnick and Mrs. Viola Kellison.

**Odako Campfire Girls Meet.** The Odako Campfire girls met Monday evening with Lorraine Dunlap. We were roiled with our Indian names and their meanings. We discussed old and new business, then closed the meeting with a song. We played games and had refreshments. The next meeting will be at the home of Sharon Jeard on April 26. — Jean Muncy, reporter.

**Jolly Sisters.** The Jolly Sisters of Ord are proud of the fact that one of their group, Mrs. D. A. Moser, is a charter member and has been a member continuously since the club was organized more than 40 years ago. Mrs. Moser still attends and enjoys the meetings. In the first place the club started out with 20 members. They have ten now. Mrs. Moser can claim to be the oldest woman in Valley county, as she will be 94 years old next Friday, April 22, and still does her own cooking, washing and ironing. The Jolly Sisters meet the second Tuesday of each month. They elected the following officers at their last meeting: Mrs. Augusta Geveke, president; Mrs. Lorraine Ferris, vice-president; and Mrs. Lizzie Marks, secretary-treasurer. The next meeting will be with Mrs. Ora McLain.

### Engagement of Ord Man

Mr. and Mrs. Paul Reed of Omaha announce the engagement of their daughter, Miss Patricia Reed, to William F. Fafeta, son of Mr. and Mrs. E. R. Fafeta.

Miss Reed graduated from DuChesne Academy and attended Creighton University where she was affiliated with Chi Mu Kappa. Her fiancé also attended Creighton University.

**Surprise Party.** A group of friends surprised Mrs. Joe Ruzicka Monday, the occasion being her birthday anniversary. Those present included: Mrs. Art Kroeger, Mrs. G. Cogill, Mrs. John Wozab, Mrs. Ross Allen, Mrs. Loren Good, Mrs. Richard Rowbal, Mrs. Lowell Jones and Mrs. Melvin Clement.

**Easter Cantata.** Fifty voices sang the beautiful Easter Cantata, "The Resurrection Story" at the Methodist church Sunday evening. It was a combined effort of the Presbyterian and Methodist choirs. The church was crowded. Dr. Glen Aubie directed the choir with Mrs. O. A. Kellison at the organ and Miss Charlene Severns at the piano.

**Mason-Myers.** Mrs. Seth M. Mason announces the marriage of her eldest daughter, Arlette Mae, to John Edwin Myers of Washington, Pa.

The wedding took place on February 22 at 1:30 p. m. in the Archadia Methodist church parsonage, with Rev. Buchler officiating. Mrs. Myers chose a royal blue taffeta two-piece street length dress with gold braid trim for her wedding dress. Her accessories were black suede shoes and purse, with white hat and gloves.

Their only attendant was Lyle Mason, brother of the bride.

**Card of Thanks —**  
We wish to thank neighbors and friends who by their kind words and deeds helped alleviate our loss in death of our mother, Mrs. Hannah Knudsen. We thank you especially for the beautiful flowers. We thank in particular Mr. and Mrs. Chris Kirby and Mr. and Mrs. Fritz Kuehl, Jr.

**Birthday Party.** Tuesday afternoon Mrs. Henry Schaefer had a birthday party for her 5-year-old daughter Cheryl. Guests were Mrs. Milton Clement and Jimmie and Dale, Mrs. Lowell Jones and Lattie, Mrs. Frank Coufal and Judy, Mrs. Merle Van Zandt and Karen, John and Dick Albers, Katherine and Bobbie Rose and Eloise Jobst. Games were played then a lunch of ice cream and cake was served.

**Anniversary.** Mr. and Mrs. Melvin Clement entertained Mr. and Mrs. Richard Rowbal Friday evening at the club. It was the Rowbals' tenth wedding anniversary.

**Modern Priscillas Meet.** The Modern Priscillas met last Thursday with Mrs. Bertha Mason. The afternoon was spent playing Pinochle. Mrs. Mae McGinnis won the high prize. Mrs. Faye Goodlow and Mrs. Kate Ciochon won the traveling prize. Mrs. McGinnis and Mrs. Ciochon were guests.

**Punchle Party.** Guests of Mr. and Mrs. Murray Nelson Wednesday evening were Mr. and Mrs. Jack Harvey, Mrs. Jim Harvey, Mr. and Mrs. Chas. Houser, Mr. and Mrs. Ed Beran, Mr. and Mrs. Joe Gregory, Mr. and Joe Skoll and Glen Eschliman. Ladies high prize was won by Mrs. Jack Harvey, second high by Mrs. Jim Harvey. Men's high was won by Ed Beran and low by Chas. Houser. A lunch was served later in the evening.

**Clarice Fiala Honored.** Mrs. Edith Tully Fiala has received an invitation to attend honors convocation at the University of Nebraska. Her daughter, Clarice is a sophomore and has been on the scholastic honor roll both years.

Clarice has been invited to join the Phi Upsilon Omicron which is an honorary society for women. She has been doing commercial art for the College of Agriculture but plans to fly to Alaska as soon as the semester closes. Her uncle John Tully at Anchorage, Alaska has encouraged her to do commercial art in that territory.

Her first work along that line was the entrance gate at the Burwell Rodeo grounds, which she painted when she was just out of high school. These figures have received a great deal of comment.

**Card of Thanks —**  
We sincerely thank our friends and neighbors for the many flowers, cards and letters received during the illness and death of our husband and father. Your kindness will never be forgotten.

## SPECIAL BULL SALE Burwell Livestock Market

Friday, April 22nd

This week we are holding a Special Bull Sale in connection with our regular Friday auction. We will have 25 head of Hereford breeding bulls for this special auction.

15 head of outstanding 2 year old Hereford bulls from the John Hayes herd of Hutchinson, Kas. These bulls are sired by Real Prince D 29th, grandson of Real Prince 33rd and Prince Royal 25th, a Grand Champion Bull at the Kansas State sale.

This offering of bulls are not fitted for show bulls, but are of the same quality and breeding—selling in range condition. Many of these Hayes bulls have taken first place in the major shows at Denver, Fort Worth and San Francisco.

The other bulls offered at this special sale are consigned by Lantis & Chaffin and other ranchers in the sand-hill territory. These are yearlings, 2 years old, and several older bulls.

If you are in need of a good breeding bull it will pay you to be at Burwell for this Special Auction.

Right after the special bulls sale we will have a good offering of stocker and feeder cattle consisting of several loads of Hereford steer and heifer calves, several consignments of Hereford stock cows some with calves at side, several loads of steers, some feeding cows and heifers, several head of milch cows, several bologna bulls, one load of long fed fat steers, some baby calves and usual run of trucked in cattle.

If the roads are open, we will have an extra large run of fat hogs and sows, several consignments of feeder shoats, a large offering of bred gilts and sows, some sows with pigs, several boars, several head of work horses and some farm machinery and osage posts.

Plan to be at Burwell this Friday and buy your livestock fresh from the country.

## Interest Shown in Quiz Fishing Contest for '49

Many Enthusiasts Plan  
to Have a Try for the  
Many Prizes Offered.

While it is still a little early for most anglers, and also for the fish, one may judge by what the fishermen say, it is already apparent that competition will be keen for the prizes offered in last week's Quiz. Old timers like John Manchester and Theodor Bechtle will have extended themselves to the utmost if they hope to be in the running.

A glance at the rules shows that the prizes may be won by any fishermen from Valley or any of the adjoining counties, in the waters of any of those counties. There is no limit of age or sex. A woman or a youngster has the same chance to win as the men have. To favor the ladies still more, the last of the six divisions is a contest for women only.

If you haven't cut out and filed that last week's story of the contest, do so at once. In addition to the rules mentioned above, the fish must be caught on legal equipment between April 14 and Sept. 30, inclusive. Entries must be made at the Quiz office, and the fish weighed on government inspected scales, with at least one witness.

The North Side market is the official Quiz weighing station for those who bring their fish to Ord. The entry must be accompanied by a photo of the fish, and a statement as to where it was caught. Swopes or Kawata will photograph the fish without expense to you. The photographs will remain the property of the Quiz.

There you are! Now get busy and let's have some of those fish stories and pictures coming in. Who will be the first to have a picture of a big fish in the Quiz? There are no entries to date, and the first one in will have the biggest fish until a bigger one is caught. We hear stories of big fish being caught already this season, but we are from Missouri! We have to be shown.

## Hamburg Reporter Reports on Easter

The Reporter, Hamburg, Ia., came out this week with a special section which is unique in that it tells the story of the Resurrection as it would have been told by a modern newspaper published in Jerusalem with all modern facilities available. No irreverence is intended, and the story is told in a language which is a splendid exposition of the scope of modern journalism with vivid word pictures of Joseph of Arimathea, Lazarus, Pontius Pilate, Judas and many other Biblical characters.

## Earl H. Weingart With Burlington Railroad 50 Years

Earl Weingart, station agent at Crete, Neb., has completed 50 years service with the Burlington railroad, and, in commemoration thereof, W. P. Wilson, General Superintendent, and E. R. Schaefer, Division Superintendent, called on him for a dinner and a visit. He was born at Hastings, and graduated from high school there. His first job was at Harvard. He was transferred to Omaha, to Columbus, to Crete, then to Dorchester as agent, and finally back to Crete in 1924. He has been there since that time.

## Planting of Trees Done by Machinery

With the arrival of Arbor Day, Friday, April 22, comes the idea of planting trees, and this is a job always considered from the angle of hand work. It has always been considered too important to trust to any kind of machine, if such a machine were available. However, such a machine is now invented and is in actual use, a number of soil conservation districts using them. It is tractor mounted and hydraulically operated. Those who have seen it say the machine works as efficiently as hand work, and is infinitely faster.

## W. J. Klanecky, Springdale, Is Taken by Death

Born, Educated and  
Lived All His Life  
on Farm East of Ord.

Friends and relatives were shocked by the untimely passing of Wm. J. Klanecky, prominent farmer of this community, his death being attributed to a heart ailment for which he had been undergoing treatment.

William J. Klanecky, son of Mr. and Mrs. Joseph Klanecky, was born July 11, 1892, in the Springdale community, where he attended school. He was united in marriage to Froyey Adamek, Nov. 22, 1920.

To this union were born eight children: R. Leonard, William F. (deceased), Leon E., Wilma, Barbara, Norma, Bonnie and Mrs. Lillian Benson. In October, 1941, S. Sgt. William F. Klanecky preceded his father in death.

Besides his wife and immediate family, he leaves to mourn his death: two grandsons, Gary Klanecky and Johnny Benson; one sister, Mrs. Anna Smith of Omaha; two brothers, Joseph of Ord, Ed of Littleton, Colo. and Adolph of California; also two half-sisters, Mrs. Louise Zikmund and Mrs. Camilla Jasten of Omaha; two half-brothers, Henry Stara of Ord and George Klanecky of Eaton Rapids, Mich.; also a host of friends and members of the Z.C.B.J. lodge.

"Will" was a hard-working man of cheerful disposition, well and favorably considered by all who knew him. He was a good husband, a kind father, and his home life had always been ideal. Funeral services are set for Wednesday afternoon from the Hastings-Pearson chapel at 1:30, with Rev. B. A. Filipi of Clarkson in charge. Don Auble will sing, accompanied by Mrs. Orin Kellison. The pall bearers are William Novosad, sr., Rudolph Blahut, Louis Florian, Frank Bejan, Herman Stowell and Joe Valasek. Burial is to be made in the Ord Bohemian cemetery.

## United Motor Ways Bus Started

Tuesday of last week a United Motor Ways bus made its appearance in Newman Grove, the second since the first of the year. It came from Norfolk by way of Humphrey, as Highway 32 from Madison to Newman Grove is not yet in condition for bus travel. The driver left for Albion with the understanding that he would phone if he got through all-right and if bus service was to be resumed. He did not phone and it is assumed that there will be no regular service over the line for some time yet.

Circle 6 of the Catholic Ladies Altar society had a big sale Saturday, April 16. Chairmen were Mrs. John Kokes, jr., and Mrs. Chet Swanek.

## Ord Invitational Track Meet Held Here Wednesday

Athletes From Seventeen  
Schools Are Competing in  
Best Contest of Year.

Today is a great day for the athletes of seventeen different schools, who are competing at the Ord athletic field for honors in track and field events. Some of the finest athletes to appear in Ord in years are here, and it is practically certain that some of the records for the Ord Invitational track and field meet will be broken.

Outstanding is a young man from St. Joseph's of Atkinson, whose name is not available as this is written, but who has been going strong in athletics, weight events in particular. It is expected that he may crack some record before the day is over.

Fully as formidable looms Loup City's Irvin Thode, hailed as one of the outstanding athletes of Nebraska this year, in football, basketball and in track. Thode has cleared the bar in practice at six feet or better, and will be almost certain to post a new record in that event.

Burwell can be expected to be up near the top in team standings, because of their well balanced athletic group, all of whom are good, but no one outstanding. Burwell took first in a five-way meet at Ord this spring, and may repeat in this larger meet.

Schools competing include Central City, Merma, Gibson, Kearney, North Loup, Burwell, Broken Bow, Loup City, St. Joseph's of Atkinson, Elm Creek, Dunning, Ravenna, Comstock, St. Paul, Ansley and Ord.

Gregg McBride of the World-Herald is here to get a line on the athletes from this area, and will remain in Ord over night. With him is Line Coach DeAngelis of the University of Nebraska.

The field was in perfect condition Wednesday morning, but the weather man has announced light showers for the day, which would cut down the chance of new records, and would also lighten the attendance.

## Ray Heins Sells First Painting

Ray Heins, 28, once of Loup City but now living at Colorado Springs, has had the unusual luck of selling his first painting. Mr. Heins is a dilettante veteran and has great natural talent for art work.

He took for his subject the celebrated "Good Shepherd" painting by Ploekhuist, which he reproduced on a canvas 7 feet high and six feet wide. It was purchased by Harry Figge of the state game bird farm, who wanted a memorial to his mother, and will grace the walls of St. Paul's Lutheran church in Canon City, Colo.

## Wm. Gow Injured in Car Accident

William J. Gow of Farwell is recovering from a rather unusual auto accident which nearly proved fatal to him. His car slipped into a ditch while returning home from town. Next day he brought his team to pull the car out into the road again. The team became frightened and started to run, pulling the car over the top of Mr. Gow. It was some time before he could be taken from under the car and brought to the Howard County Memorial hospital. His injuries were found to be serious, but he seems to be recovering.

Mr. and Mrs. Guy Mulligan and family were Sunday dinner guests of Mr. and Mrs. Chris Sinner.

## Little Damage in Thursday Blaze

A fire probably started by sparks from a Burlington locomotive swept over a 5-acre tract near Greeley Thursday. The tract lies just north of the home of Mrs. Ella Rooney.

By the time the Greeley Fire department had arrived and had put out the fire, it had swept to within a short distance of the Rooney buildings, but none of them were damaged.

## Harry C. Purcell Selected Manager Custer Co. Chief

Returns to Newspaper  
Founded by His Father,  
Emerson R. Purcell.

According to an announcement appearing in last week's Custer County Chief, Harry C. Purcell will become manager of the paper and will take over his duties in a few weeks. He served in the advertising department of the Grand Island Independent several years before the war.

From there he went to the advertising department of the Beatrice Daily Sun until he entered the service in 1944. After 20 months in the Pacific Theater, he returned to the Daily Sun as advertising manager. He also had a financial interest in the business.

Parke F. Keays, who has operated the Chief the past five years under lease, was offered a renewal contract with the Chief, but has other plans. However, he will remain on the job a few months to assist the new management.

Mrs. Grace N. Purcell, owner and trustee of the family newspaper founded and operated more than half a century by her husband, the late Emerson R. Purcell, states the policy of the paper will remain unchanged, and that no personnel changes are contemplated.

## Alfalfa and Sweet Clover Seed

This is an ideal season for sowing alfalfa and sweet clover seed. Recent State Laboratory tests show that our alfalfa seed is testing 99.50 and better in purity and 90 and up for germination. We have been having a very good sale of these seeds the past two weeks and we feel with anywhere normal sowing that we will not have enough seed to take care of all demands. We have both yellow and white blossom sweet clover and we have Dakota 12, Cossack and Grimm. Let us have your looking and put the seed away now that you will need in the next couple of weeks.

## Grass Seeds

Brome is still in limited supply. Crested Wheat and Western Wheat are pretty hard to get. Red Top is very scarce and extremely high priced. Blue Gramma is fairly plentiful and the price is very reasonable. Timothy is fairly cheap and Red and Alsike Clover is reasonable in price and quite plentiful. Very liberal payments are made by AAA for the sowing of many of these seeds.

## Oats and Barley

As this is written we have fair supplies of Spartan barley but the Clinton oats are getting pretty scarce. The spring is very backward and we feel that there is enough for sowing both oats and barley. Clinton oats are Certified and our Spartan barley is re-cleaned and treated with Ceresan against smut. Get what you need now and get them sowed just as soon as possible.

## Seed Potatoes

We have in stock Certified Ohio's Warba's and Cobblers. These seed potatoes are all Blue Tag Northern grown Certified potatoes. If you are going to plant a large acreage we will be very glad to quote you a price on your goods delivered to your farm.

## Garden Seeds and Plants

A very large stock of fresh high testing garden seeds on hand. Also limited amounts of yellow and white onion sets, cabbage and onions and seed tomato plants. Pansy plants on hand.

## Trees

We have Chinese Elms, Mulberry, Russian Olives seedlings, Early Richmond and Montmorency Cherry trees, Spruce, Shrub and Dogwood. If you have other trees that you want we are able to get them on very short notice. Evergreens a little later.

## Baby Chicks

Standard breeds are very hard to get and we have to place our orders several weeks before we want them. We are able to get Hy-Lines on very short notice. We have many records where Hy-Line pullets have laid better than 80 per cent over a long period of time. Get some Hy-Lines now and next winter you will get more eggs than ever.

## Grains

We are in the market for your grains and we can supply you with what you need in your feeding plans. Also have a very good supply of protein feeds.

"It pays to buy from Noll."

Clerk of The Court.

Senator Hugh Carson and others have introduced a bill in the United States Senate which is to abolish the office of clerk of the district court. At the same time there are pending two or more bills, one of them by Mr. Carson, raising the salaries of most, if not all, the county officials.

in counties having more than 8,000 population by act of the legislature more than fifty years ago. At that time Valley county elected a clerk of the district court, but the county declared that there was no such office because the county was short of the necessary population.

Two years later a clerk of the court was again elected, and this time the office was legally established. For fifty years Valley county has managed to remain just nicely above the population limit.

Mr. Carson is proposing an increase in the salaries of a number of county officials, including the county clerk, and contends that the work of the district court could be handled in the county clerk's office in all the smaller counties, just as it is in a large number of them now.

A point that has not been fully brought out is that at present County Clerk Woods is acting as deputy assessor with Assessor Noll turning over to him a part of the assessor's office unless he is given the privilege of doing this.

**Arbor Day**  
Arbor Day is the one special day in which all Nebraskans should participate, since it is the only special day originated by a resident of the state.

Julius Sterling Morton conceived the idea of planting trees on the prairies of Nebraska more than seventy years ago, and he fostered and developed the planting of trees all through his life.

If he had done nothing else he would have been entitled to a place in the state hall of fame. But he was more than a horticulturist. He was one of the great statesmen of the new west, and had he belonged to a different political party, he would have gone far in the political field.

Under this act a man could acquire a quarter section of land by the procedure of planting forty trees on the land to timber. To supply trees for this purpose a large number of nurseries were started in the early days in Valley and adjoining counties.

in Boston simply cannot be considered. It would be more like a tempest in a teapot, or a tea party—Boston Tea Party, that is. Who ever heard of a Boston man tying a flat iron to his shirttail to keep the wind from blowing it off, or building a tunnel from the house to the barn to be sure of getting there in winter?

No doubt Stapowich is a man of education, but he was educated in the wrong part of the country, and knows very little about running the weather in Nebraska. He turned it on a little too much, and has been trying to turn it off ever since, with indifferent success.

Some of these days he will get the throttle closed, and then the rain will stop, the wind will turn to the southwest and there won't be a cloud in the sky for three months. In a little while the streams and wells will start to dry up and all vegetation will wither and die.

As the Quiz sees it, there is only one remedy. E. F. Stapowich must be shipped to his native Boston, and a man who understands the western brand of weather must take his place. Horace Travis would be an ideal man for the spot. He always calls the weather as he sees it.

# What's Cookin' Ward's Column

My old friend, Charley Newbecker of Taylor, was in Ord last week, looking about as usual. He doesn't seem to get old, but he is older than I am, and almost as old as Judge Cochran. We all went to the Ord high in the old days, and we are not exactly ashamed of it.

Since Charley comes from the Taylor area, I am reminded that one of the old time names, familiar both in Ord and in Taylor, dropped out of local nomenclature with the recent sale of the Emig property on the east side of the town.

Both Emig and Coombs were well known in the early days. They were outstanding men in their communities. Both names were always spoken with respect.

Charley Clark of the North Loup IGA store has inaugurated an idea that seems to be working out fine. Each week he puts a picture in his store window, entitled, "Picture of the Week".

platform had been built with planks on two piano boxes on the sidewalk in front of the store, and a program was being given. A crowd of people was standing around. The caps and overcoats indicate that it happened in cold weather.

That picture was taken some 35 years ago. Of interest is the fact that a large thermometer shows on the front of the building. That thermometer is still there and is still being consulted by the grandchildren of some of the people who used to examine it to determine weather conditions.

Just when it seemed we were well on our way toward perfect spring weather, along comes one of the most destructive snow storms on record, at least from the view point of the telephone and power companies.

When those first light lines were put up, the poles were put out in front of the business buildings, probably for two reasons. It made access to the buildings from the front very easy, and, most important, the townspeople thought that a town update enough to use electric lights should adver-

tise the fact that they had them by putting the evidence right out in the open. There were chains around the square then, and the farmers hitched their teams to those chains. When space became scarce they would use the telephone and light poles instead.

It was about this time in the year, some forty years ago, that we had a wet spring, pretty much like the one we are having. Quite a few people owned autos. They put them away for the winter, but got them out as soon as the cold weather was over.

Mr. and Mrs. Vernon Maloney are the parents of a baby girl born April 17 in Loup City. The little girl weighing 5 pounds, 15 ounces has been named Jeanne Kathleen.

Mr. and Mrs. C. E. Hitchman and Judy from Callaway spent the week end with her parents, Mr. and Mrs. Harry Wolfe. Artene and Maxine Wolfe also spent the week end in Ord. They are working in Lincoln.

no less than three autos were stuck in the mud on the west side of the square at one time. Somebody got his team and pulled them out. I wonder how the people of Ord would like to go back to those good old days?

**Wanted: A New Weather Man.**  
Weather prognosticators from hither to you have been busy for the past several months trying to explain just why the winter of 1948-49 had to be so much worse than any ever recorded before.

Ord's local weatherman, Horace Travis, says ideal conditions might be blamed on the fact that he lost his rabbit's foot, the one he has carried for so many years the hair is nearly all worn off. But, if a rabbit's foot is lucky, what about the rabbit which once carried the foot?

Readers will recall that last fall the weather man in Omaha retired from the service and was replaced by one E. F. Stapowich. From the time Mr. Stapowich took over, Nebraska weather has been on the rampage.

Mrs. W. J. Boomer accompanied Mrs. Luke Weeks to Lincoln Saturday and returned Sunday.

## North Loup Track Title

North Loup added the track title to their list of Loup Valley conference championships this week. This was the first track championship in many years.

The Challengers with a well balanced team scored in all events except the discus. Leonard with three blue ribbons, a second and third led North Loup scoring. Manchester capped the 220, took second in a fast 100 yard dash and ran in the winning relay. Mulligan is rapidly becoming a fine low hurdler, as demonstrated by his second place in the lows, which was extremely close. He also placed third in the broadjump. Gordon Stillman ran a fine race in the winning 440.

Other top performances were by Kerr, who dropped from the pole vault after taking second place, a tie for second in the high jump with Dean Hutchins and fifth in the low hurdles. Ronald Goodrich and Joe Baker contributed much to the team's victory with third and fifth places in the half mile. Markvicka lowered his mile time to 5:18 with a second place scoring.

Mr. and Mrs. Allen Sims spent Saturday night and Sunday with Mr. and Mrs. Harold Swanson of Greeley.

Methodist W.S.C.S. Bake Sale Saturday, April 23, at Schudel's Garage.

Wm. H. Cook has signed a contract to teach vocational agriculture at Atkinson next year. Mr. Cook has been Ag instructor and coach at North Loup the past seven years.

The men's Brotherhood of the Seventh Day Baptist church met Friday evening. A. I. Friesen showed some films on farm fertilization, irrigation and hybrid corn. Edward Christensen and George Cox served pie and coffee.

Mr. and Mrs. Dell Barber, Mr. and Mrs. Clair Barber and baby daughter, Mrs. George Maxson and George, Sr., were Saturday dinner guests of Mr. and Mrs. Carroll Swenson. Mr. and Mrs. Charles Barber were not able to go.

Mrs. George Maxson received fifty Hylite baby chicks this morning from the Hill Hatchery in Lincoln which were a door prize she won recently at a program at Noll's Seed house in Ord.

Mrs. John Hamer and Gregory, Miss Mildred Barnes and Arthur Otto spent Friday in Grand Island with Mr. and Mrs. Lee Mulligan and Burdette were in Grand Island Wednesday.

Mr. and Mrs. Warren Brannon and two children came up from Lincoln Friday and were guests of the Riley Brannon and George Maxson families till Tuesday. Warren is a student at the State University.

Mr. and Mrs. A. L. Willoughby had a letter Saturday from their daughter, Mrs. Logan Garrison of Seattle, Wash., telling of the earthquake of last week. Mrs. Garrison said it lasted two minutes, and that the building where Mr. Garrison works was badly damaged but he was out to lunch at the time.

Mrs. Margaret Milligan, Miss Myrtle Milligan and Mrs. Cecil Ferguson were Friday guests of Mrs. Hugh Clement. Mrs. Milligan and Miss Myrtle went to Ord with Mrs. Ferguson in the evening.

Mr. and Mrs. Russell Barber and family drove over from Gibbon Saturday evening and spent Sunday with Mrs. Berta Barber.

Mr. and Mrs. Orville Portis went to Omaha Tuesday afternoon of last week with a load of cattle and returned by way of Lincoln Wednesday where they spent a short time with the Harold Portis family. Gordon Portis, who is a student at the Nebraska University, returned home with them for the Easter vacation.

Willard and Birdine Ingerson were Sunday dinner guests of Mr. and Mrs. Dell Barber and spent the afternoon with the Irving King family in Mira Valley.

Mr. and Mrs. Walter Brabander and two children of Grand Island were Saturday night and Sunday guests of the Lee Mulligans.

## Jennie Anderson, North Loup, Dies at Age of 77 Years

### Resident at North Loup Since 1919; Two Daughters Are Still Living There.

Jennie Almedia Olson was born in Andover, Henry county, Ill., July 5th, 1872. She passed away at the Ord hospital on April 13, 1949, at the age of almost 77 years. When she was ten years of age, her parents moved to Oakland, Nebr., and settled on a farm, six miles west, near the Swedish Methodist church. Her mother had such poor health that Jennie, at the age of 12 years, had to leave school and keep house for her family, two sisters and three brothers.

She was married to Oliver Embler A. Anderson, Apr. 9, 1896, and went to Wakefield to live, but soon moved back to Oakland. Except for nine years spent at Sargent, Nebr., they lived on different farms near Oakland until March 1919, when they came to North Loup and settled on an 80-acre farm three and one half miles west of town. Here her husband passed away February 4, 1929, and with the help of her two young sons she continued to manage the farm. In 1935 she turned the farm over to her oldest son, Merrill, and moved to town. Here she spent the remainder of her life, often visiting relatives and friends in Laurel, Nebr., and in California.

She always had a spare time to her children and their families. Though quiet and retiring, she had a strong will which carried her through her troubles.

At the age of twenty, Mrs. Anderson joined the Swedish Methodist church and ever was a faithful and helpful member. She had been in failing health for years, but was thankful she could care for herself almost to the end.

She was the first of her father's family to go, leaving two sisters, Mrs. Julie Hanson of Omaha, and Mrs. Mary Hoogher of Laurel, Nebr., three brothers, Lawrence Olson, Oakland, Henry Olson, Bell, Cal., Ernest Olson, Beatrice, Nebr., two of her babies preceded her in death, Margaret at the age of six days and Milbred, at five years. Surviving are two daughters, Mrs. Florence Hutchins and Mrs. Ruth Hutchins of North Loup, and two sons, Merrill and Eugene, of Grand Island, eight grandsons and one grandchild, Mrs. Margaret and one granddaughter, all of whom with many friends will sadly miss her.

Funeral services for Mrs. Anderson were held Friday afternoon from the Methodist church in North Loup, with Rev. C. F. Harbour bringing the message. Mrs. Harry Hoepfner, Mrs. C. S. Ingerson sang "Rock of Ages," "Good Morning Over There," and "In the Garden." Alice Meyers was at the piano.

Pal bearers were Clifton McClellan, Roy Hudson, Harold Hoepfner, Edward Christensen, Harold Hoepfner and Boyd Reden.

Mrs. Edward Christensen and Mrs. Harold Brennick with the help of their two daughters, cared for the flowers.

Miller-Ashley of Scotia were the undertakers in charge of arrangements. Burial was in Hillside cemetery.

Mrs. Olive Cance, who has been living with Mrs. Jennie Anderson went to the home of Mrs. Edna Post Monday to stay for two weeks.

Mrs. Paul Madsen and Mrs. Chris Thomsen returned Friday from Fremont where they had spent several days visiting relatives. They have been in San Francisco and Alameda and returned to Riverside for last week end to attend the Easter Sunrise service on Mount Rubidoux.

Saturday dinner guests of Mr. and Mrs. Glen Johnson were Mr. and Mrs. Clare Clement and Mr. and Mrs. George Clement and family.

Mr. and Mrs. Ross Fortis and Shirley and Mr. and Mrs. Ernie Glaus and family of Loup City came over Sunday and took Mr. and Mrs. L. W. Portis to the Bryan Fortis home for the day. Mr. and Mrs. H. L. Klinginsmith were also there.

Mrs. Merrill Anderson and Eugene Anderson came up from Grand Island Wednesday morning after the passing of Mrs. Jennie Anderson. They turned Thursday morning and on Friday Mr. and Mrs. Merrill Anderson and Eugene came up for the funeral. They returned to Grand Island Friday evening.

## Jennie Anderson, North Loup, Dies at Age of 77 Years

### Resident at North Loup Since 1919; Two Daughters Are Still Living There.

Jennie Almedia Olson was born in Andover, Henry county, Ill., July 5th, 1872. She passed away at the Ord hospital on April 13, 1949, at the age of almost 77 years. When she was ten years of age, her parents moved to Oakland, Nebr., and settled on a farm, six miles west, near the Swedish Methodist church. Her mother had such poor health that Jennie, at the age of 12 years, had to leave school and keep house for her family, two sisters and three brothers.

She was married to Oliver Embler A. Anderson, Apr. 9, 1896, and went to Wakefield to live, but soon moved back to Oakland. Except for nine years spent at Sargent, Nebr., they lived on different farms near Oakland until March 1919, when they came to North Loup and settled on an 80-acre farm three and one half miles west of town. Here her husband passed away February 4, 1929, and with the help of her two young sons she continued to manage the farm. In 1935 she turned the farm over to her oldest son, Merrill, and moved to town. Here she spent the remainder of her life, often visiting relatives and friends in Laurel, Nebr., and in California.

She always had a spare time to her children and their families. Though quiet and retiring, she had a strong will which carried her through her troubles.

At the age of twenty, Mrs. Anderson joined the Swedish Methodist church and ever was a faithful and helpful member. She had been in failing health for years, but was thankful she could care for herself almost to the end.

She was the first of her father's family to go, leaving two sisters, Mrs. Julie Hanson of Omaha, and Mrs. Mary Hoogher of Laurel, Nebr., three brothers, Lawrence Olson, Oakland, Henry Olson, Bell, Cal., Ernest Olson, Beatrice, Nebr., two of her babies preceded her in death, Margaret at the age of six days and Milbred, at five years. Surviving are two daughters, Mrs. Florence Hutchins and Mrs. Ruth Hutchins of North Loup, and two sons, Merrill and Eugene, of Grand Island, eight grandsons and one grandchild, Mrs. Margaret and one granddaughter, all of whom with many friends will sadly miss her.

Funeral services for Mrs. Anderson were held Friday afternoon from the Methodist church in North Loup, with Rev. C. F. Harbour bringing the message. Mrs. Harry Hoepfner, Mrs. C. S. Ingerson sang "Rock of Ages," "Good Morning Over There," and "In the Garden." Alice Meyers was at the piano.

Pal bearers were Clifton McClellan, Roy Hudson, Harold Hoepfner, Edward Christensen, Harold Hoepfner and Boyd Reden.

Mrs. Edward Christensen and Mrs. Harold Brennick with the help of their two daughters, cared for the flowers.

Miller-Ashley of Scotia were the undertakers in charge of arrangements. Burial was in Hillside cemetery.

Mrs. Olive Cance, who has been living with Mrs. Jennie Anderson went to the home of Mrs. Edna Post Monday to stay for two weeks.

Mrs. Paul Madsen and Mrs. Chris Thomsen returned Friday from Fremont where they had spent several days visiting relatives. They have been in San Francisco and Alameda and returned to Riverside for last week end to attend the Easter Sunrise service on Mount Rubidoux.

Saturday dinner guests of Mr. and Mrs. Glen Johnson were Mr. and Mrs. Clare Clement and Mr. and Mrs. George Clement and family.

Mr. and Mrs. Ross Fortis and Shirley and Mr. and Mrs. Ernie Glaus and family of Loup City came over Sunday and took Mr. and Mrs. L. W. Portis to the Bryan Fortis home for the day. Mr. and Mrs. H. L. Klinginsmith were also there.

Mrs. Merrill Anderson and Eugene Anderson came up from Grand Island Wednesday morning after the passing of Mrs. Jennie Anderson. They turned Thursday morning and on Friday Mr. and Mrs. Merrill Anderson and Eugene came up for the funeral. They returned to Grand Island Friday evening.

**Maintainer Accident**  
Wm. Beams met with a serious accident on Wednesday while maintaining the highway west of Arcadia. The road was washed a long the edge causing ditches and when the wheels of the maintainer hit one of these ditches the resulting jerk broke Mr. Beams' neck. After the injury Mr. Beams was unable to control the machine and it ran off the grade and tipped over. Mr. Beams is in the Loup City hospital and is recovering satisfactorily but it will be several months before he will be able to work.

**Easter Cantata**  
The Methodist's Women's choir under the direction of Carl Easterbrook presented their Easter cantata "The Thorn Crowned King" at 2:30 Easter Sunday. The cantata was very well re-

dered and enjoyed by a large audience. The soloists included Rae Jean Gogan, Ruth Masters, Helen Easterbrook, Jean Williams, Shirley Gates and Carol Adams.

The new organ was dedicated at this service with Rev. Roy Spooner giving the dedication address. The organ was presented for dedication by Mrs. Jean Williams and the dedication service conducted by Rev. Buehler and Rev. Spooner.

### Storm News

The Wednesday night snow storm took as its main victims the telephone and electric light lines. On Monday morning following the storm the Arcadia operators reported all farm lines except one still out of service and about 50% of the Arcadia town phones out. Monday morning they were able to call Loup City but no further. On this farm line some of the men put on their climbers and pocketed a pair of pinchers and pulled the telephone wire out of the snow for over a mile, setting up poles and repairing numerous breaks in the wire so we could have telephone service.

### New Books

New books for the reference shelf of the Arcadia library which were donated this week are: "American Democracy and Social Change," by Walker; "A History of Our Country," by Muzzy; "Tree of Liberty," by Page; "Realities of American Government," by Houston.

The Misses Joan and Patty Myers of Lincoln spent the week end at the home of their parents.

Misses Virginia and Mary Mason of Kearney spent Easter at the Ben Mason home.

### Nygren-Brown

The Methodist church at 8:30 on Easter morning was the scene of the wedding of Elizabeth Nygren, daughter of Mr. and Mrs. Charley Nygren to Kenneth Brown, son of Mrs. Martha Brown. Rev. Buehler performed the ceremony. The only attendants were Donna Greenland, bridesmaid and Dewey Hodgson, best man.

The bride and her attendant were attired in blue street length dresses, the groom wore a blue suit and his attendant wore a brown suit.

Following the ceremony the bride party, Mr. and Mrs. Charley Nygren, Mrs. Martha Brown and Karen and Mrs. Doro Hodgson were the guests of the bride's parents at a wedding dinner in a Ord hotel.

Mr. Brown graduated from Dry Valley high school in 1943 and since that time has been engaged in farming. The bride will graduate with the class of 1949 from the Arcadia high school. They will make their home on the groom's mother farm east of Arcadia. Mr. and Mrs. Brown left Sunday evening for a short honeymoon trip.

**Herald Reaches 59th Birthday**  
Last week the Howard County Herald of St. Paul celebrated its 59th birthday. For the past twenty years the Herald has been housed in its own building, known first as the St. Paul Republican, the name was changed when the late M. Lorkosky took over the ownership, buying the paper from H. D. Leggett.

The early period of publication saw many editors in charge, but for the last 20 years it has been run by the Lorkoskys, and at present is being published by the two daughters, Olga and Irene. Anton Keperston is the oldest subscriber, having taken the paper 53 years.

### NEBRASKA CELEBRATES ARBOR DAY THIS MONTH

54 years ago this month Nebraska was proclaimed the Tree Planter state. This resulted from the state's unusual interest in tree planting, culminating in our famed April 22d Arbor Day.

Another thing for which Nebraska is noted is the unusually high percentage of tavern license renewals — about 99% last year.

1949 licenses are up for renewal next month. It is your privilege as a citizen to report any law-violation cases of which you know. You may appear at the public hearings or mail your protest or criticism if you feel one is warranted. Your support will be appreciated.

## Ord Hospital Will Close October 1, Says Miller

### Ord Surgeon Wants to Rest; Hospital Group Has Option

Dr. Weekes to Continue Operation of Clinic; Will Donate Room to New Project.

The Ord Hospital, owned and operated by Dr. C. J. Miller and long a landmark of this community will be closed as of October first of this year unless it is taken over by the Ord Community Hospital Association or some other group or individual.

Miller, in a statement released this week said that he planned to take a short rest and vacation, and that at a later date he would resume his medical practice in Ord.

Some time ago Miller offered his hospital for sale to a proposed hospital association formed by the Ord Chamber of Commerce. The asking price was \$25,000 which the chamber of commerce officials believed would be about one third or one fourth the normal value of the hospital. At present, hospital association officials are negotiating for an option to be exercised prior to Miller's set date of closing.

### Male Chorus Will Be in Ord Friday

The Bethel male chorus, a group of singers from Bethel College and Seminary of St. Paul, Minn., is making an extended tour of the west, and will be in Ord for two appearances Friday.

Prof. Nels Speration, the director, while on the music faculty of that school, is also in charge of the music in the great First Baptist church of Minneapolis.

While in Ord they will sing at convocation in the high school at 3 p. m. Friday, and then will appear in the high school auditorium at 8 p. m. under the auspices of Bethel Baptist church of Ord. The Bethel male quartet is included in this group. The program will be largely sacred, including some negro spirituals, instrumental music and the presentation of some of the members in solos.

### Hospital Committee Ready to Go on \$60,000 Stock Drive

Awaiting Signal from State Securities Commission; Dr. Glen Aulsebrook to Head Drive.

A committee of eighteen, headed by Dr. Glen Aulsebrook, is awaiting an "okay" signal from the Nebraska securities commission to launch a \$60,000 stock selling drive to secure funds for Ord's new cooperative hospital.

As soon as the state gives permission to the local group to sell stock a whirlwind campaign of selling will start with an initial goal of \$25,000 set for the first two days of the campaign.

The two day goal of \$25,000 will purchase the Miller hospital in Ord as it stands today. The remainder of the \$60,000 fund will be used for modernization, new equipment and a hospital working capital fund.

Weekes Not to Close.

Dr. C. J. Weekes told the Quiz Wednesday that a rumor circulating that he would close his Clinic Hospital or curtail operations was unfounded. "We're doing all the business we can handle, so why should we," he said.

"Never-the-less, my advice to the people of Ord community would be to purchase this hospital as fast as they can. They should start slow, forget about expansion plans for a while, as hospital operation is a tricky and expensive business."

Will Donate Room.

"I'm for their plan as strong as I can be. I'm not going to buy any stock but I am going to donate a room to the hospital when they get it going," he said.

Other articles in this issue tell of progress made by the hospital association toward their stock selling goal.

## Rotarians Elect Man from McCook District Governor

Clarence M. Davis Loses Election by Six Votes; Many from Ord Attend.

Ord Rotarians were unsuccessful in their efforts to have Clarence M. Davis as the next district governor. He lost by six votes to Frank Morrison of McCook, after two other candidates Dr. Glenn Hildreth of Chadron and Lyle E. Martin of Kearney had withdrawn from the race.

Those in attendance from Ord attributed the result to the lack of support from much of Davis' territory. Loup City, Arnold, Valentine and Chadron had no delegates in attendance, and the delegation to the alliance came with no credentials.

The new district governor will be formally elected at the annual convention of Rotary International in June. The nomination at the district conference, however, is tantamount to election.

The convention opens Sunday evening with a "Friendship Hour" at Hotel Yancey, with music furnished by the Hastings College Conservatory of Music. Monday started with a breakfast in the Stratton Tropical room, attended by about 150 Rotarians and Henry Anns. After more Hastings music, Charles Osborn of Hastings spoke on "What Is This Business of Being a Rotarian."

Other speakers during the day were Dr. Earl W. Willse, Mayor Cunningham, E. H. Magdanz and Dist. Governor O. W. Johnson of Grand Island. Also Rev. James S. Chubb, Rev. Arthur Johnson, Frank Morrison. Afternoon speakers included Dr. Glenn Hildreth, Edward Huwatt and Rev. Paul Tong.

Rotary district 118's conference came to a close Tuesday with a talk by Rev. Mark Richards of North Platte; Robert Johnson, Kearney; Leo Fine, Sidney; Frank Slemmons, Holdrege, and Donald Pitts of Grand. Rev. Tong and Dr. Hildreth spoke. They closed with a snogboard dinner at the Yancey, with 400 in attendance.

FRED MCANULTY DEAD.

Maude Goodenow of Burwell received a telegram from Louise McAnulty Rasmussen telling of the death of her brother Fred and burial at Lusk Monday of this week. Brother and sister are the children of the late George W. McAnulty, Scotia pioneer. The Quiz hopes to print a more complete story next week.

## Frank Coufal with 9 1/2 lb. Catfish, Rose Suchanek with 6 Pounder Lead Contest

To say that the Quiz fishing contest is off with a bang is putting it mildly. The past few days proved perfect fishing weather, and local anglers seized the opportunity to get a good start in the contest.

Mrs. Rose Suchanek started it Monday when she hooked a six pound catfish in the North Loup river. Her husband and Mrs. Mraz were with her at the time. She was using a rod, and had liver for bait.

She started fishing about 4 p. m. and caught the big fellow about an hour later. She caught four more yesterday, none quite as big as the first one. She goes fishing nearly every day. Dean Misko certified the weight of the fish.

Hooks 9 Pounder

Tuesday evening at 8:30 Frank J. Coufal hooked a catfish that weighed 9 pounds and three ounces, according to the official figures of Jim Cetak. He was fishing not far from Hardenbrook dam.

Nobody was with him right at the time, but "Speck" Ludington, who hates fishing himself, happened along shortly afterward, and Frank said, "Speck, can you match that?" "Speck couldn't," of course, but he may before the season is over.

Frank was using prepared bait, had a rod and a 25 pound test line. He had been fishing about an hour and had thrown several small fish back. When he finally landed the

## Strange Animal Again Seen, Now in Mira Valley

Ray Peterson Sees Large Animal, Calls Pilot "Cork" Biemond; Nothing Found.

Just when the strange animal that has been perplexing citizens over this area was about forgotten, it again made its appearance, this time on the Ray Peterson place in Mira Valley. Ray saw it at a distance near a plum thicket and hurried to the house to get his car, thinking he might be able to get closer to it.

When he got back with the car the animal had disappeared. Ray said it was larger than a dog, but he did not see it closely enough to describe it further. He called Lloyd Groves and they called Corky Biemond, who made a plane flight over the valley, but saw nothing of the animal.

There is not the slightest doubt that some such animal exists, and it is hoped that somebody may see it some time while he has a powerful rifle with him. Many people still do not believe that there is any strange animal about. The body of such an animal would do much to settle the question about what it is.

Several Fine Catches.

That same evening Jiro Kawata was having very good luck with fair sized catfish. He was using a rod and spinning reel with 15 pound test line, when an over weight fish hit his reel. Instead of cutting the line and letting him go, Jiro decided to land him, and he did. Jim Cetak's weight figures were 6 1/2 pounds, which is a good fish in any man's language.

The night before Jiro and his brother Sam caught 14 legal size catfish.

The Quiz is told the pike are biting and that two fishermen each got a fine prize out of the Loup in the past few days. Don Ward came from North Loup Tuesday and caught five fine bass, using a casting rod, 18 pound test line and minnows for bait.

Emil Kokes told about the bullheads doing a fine job of biting at Swan Lake. The Quiz is informed from several sources that fishing is good at Ericson, but no large size fish have been reported from that area so far this season.

## Ord School Band Played at Hastings

Members of the Ord high school band and their director, William Nelson, went to Hastings Friday in two of the PCT buses. There they played on the Hastings college chapel program and afterward met with the Hastings high school band and played under the two directors.

In the afternoon they were given a rehearsal with both James King and Mr. Nelson directing. The group also spent an hour at the "House of Yesterday," and returned home early that evening. There was no competition in the rehearsals, and the trip was partly a gesture of neighborliness toward Mr. Nelson's Alma Mater.

## Loup Irrigation District Lining Up Work Season

Much Time Lost During Winter; All Available Men Working Every Day.

Like every other public enterprise, the North Loup Irrigation district was delayed in its work by the past severe winter. Much of the work that is usually done in the winter months had to be postponed until the weather permitted.

In a talk with Glen Beerline, manager, the Quiz learned this week that the work has been going full speed ahead every since the ditches got dry enough to work on. The past week much of the burning of weeds has been done.

Generally, Mr. Beerline said, the work is behind about a month for the year. Weather conditions have been ideal the past week for routine maintenance. The big question is being able to service the system ahead of serious weed growth.

Spillway Rebuilt.

He has every unit out that he can get out now. One item to the advantage of the district is that they have secured all needed materials for construction work. One of the special items of construction is the spillway of the Taylor-Ord canal northwest of Ord is being rebuilt.

Another item receiving attention is the wooden overhead cross drains, which are in the process of being reconstructed. The men are taking care of the most important items first, and expect to have water in the canals some time during the first two weeks of May.

The district is planning experimental work with 2-4-D on some of their laterals this year. Mr. Beerline assures the Quiz that the district plans to give the patrons the same service, if not better, this year than in the past.

## Lee Foster Found at Memphis, Tenn., Sheriff Hall Told

Had Stolen Another Car; Claims He Did Not Take Keith Lewis Car in Ord.

Sheriff Robert G. Hall of Valley county has received word that Lee Foster has been picked up in Memphis, Tenn. where he was caught with a stolen auto. He then tried to break jail and was caught at it, and now has two charges filed against him.

Foster, it will be recalled, was the man who stole the Dick Beran auto last Dec. 23, and was later picked up with it near York, Neb. Returned to jail here, he saved his way out and disappeared. The Keith Lewis auto disappeared the same night, and Foster was credited with taking it.

Foster, however, claims to know nothing about the Lewis car, and there is as yet no proof that he did take it. The auto he was caught with at Memphis had been stolen by himself and another man at Oxford, Neb. Unless the Lewis car can be found and a connection established, Foster will not be charged in this case.

The charges against him at Memphis will no doubt keep him in custody for some time, and he transported the stolen car across state lines, and has to answer to a jail breaking charge as well.

## Construction Is Begun on Bridge Across Loup Here

Temporary Bridge Will Be Built from Which Work Will Be Done.

Actual work commenced this week on construction of the new bridge across the North Loup river at Ord. The work now being done is preliminary and is in the nature of a temporary bridge across the stream, from which the work of erecting the permanent bridge will be done.

The temporary bridge will be located just above the permanent bridge, which is above the present bridge, far enough north at the west end to clear the city pump house, and running directly toward the south end of the north section of the present bridge.

The new bridge will be 280 feet in length and will span the west part of the stream, it being the plan to extend a grade across the bridge ground at present crossed by the old section and thus force the river all into the one channel.

This idea had been talked of a number of times in the past, but was abandoned because it was thought the one stream would place too much stress on the older type of bridge. With the steel and concrete structure to be erected, this danger should be obviated.

## Pancakes - Butter - Syrup - Healthy Appetites - What a Day!

Free pancakes served by the Ord Chamber of Commerce Saturday — two cute kids — a healthy appetite — combined to produce this shot for Ed Swopes' camera. Thousands were served during the day, the first of the planned "Meet Me In Ord" days.

## Vogeltanz, Murray, Fafeita Ord Pancake Day Are First Public Works Board Saturday Voted Decided Success

Weatherman Favors Second Attempt to "Meet Me In Ord".

Clear sky, a warm sun and fair spring breezes combined to make Ord's second attempt to entertain the public with a Pancake Day a howling success. Planned and put on under the auspices of the Ord Chamber of Commerce, with the retail committee, Earl Klingensmith, chairman, taking the leading role, it will be a day long to be remembered.

Volunteer merchants and others were ready for the crowd much earlier, but the business of serving and eating pancakes did not get under way at full speed until about 2 p. m. From then on until late in the evening there were plenty of hot cakes and coffee, and plenty of visitors.

Knowing that the large crowd would require the services of a special policeman, the committee made arrangements with one James "Jimmy" Cogswell of Lincoln to be present in person and show the local police how it is done in the larger places. Mr. Cogswell furnished a great deal of entertainment and amusement, and his advent here was a decided success.

During the day he appeared in three roles, a policeman, a regular clown and a tramp clown, and he was a scream in any of them. His best act, perhaps, was the little satchel he carried, bearing the sign: "For Sale, a Pair of Bloopers." It embarrassed the ladies until he opened the lid and showed a couple of blooming potted plants.

Local men distinguished themselves in many ways during the day. For example, Joe Ruzicka was voted the champion "Pancake Flipper" because he was able to turn the hot cakes on the griddle faster and more neatly than the rest of the boys. Rich Rowal said he was sorry he ever wasted his time learning the plumbing business.

Ross Allen didn't do so well as a batter pouter, and said he guessed he would stick to the implement business. Maynard Behrends was in favor of larger cakes which would enable the men to accomplish more work with less effort. Junior Niemeier, who works mostly at night, didn't do so well in the afternoon, but really surpassed himself in the evening.

John Wozab was suffering from a lame back Sunday from having to stoop over to reach the griddles. Art Kroeger threatened to change his occupation and run a "Pancake Bar." Henry Enger, the country boy, made good in the big city. Henry Starak claimed to be special police, but after eating four helpings of cakes in the afternoon, he spent the rest of the time asleep in a corner.

Wallace Doe was the "Voice" over the public address system, both on the street and in the Bohemian hall, where the Pancake Feed was held. Joe Fajnon, who furnished the equipment for both places, acted as technician and kept everything working fine all the time.

Not the least of these was George Neid, representative of Consolidated Mills, which furnished the pancake flour. George was busy all the time mixing the batter according to formula. Behind the scenes Earl Klingensmith was busy all the time keeping the organization going. A number of other men helped in various ways, but the Quiz was unable to get all the names.

Coffee for the feed was given by the Nash-Finch Co., syrup by the Penick and Ford Co., butter by the Ord Creamery and milk by the Fairacres Dairy. Members of the Ladies Auxiliary, American Legion, waited on the tables.

## City Contracts With Firm for Stack Removal

Mayor Reappoints All Present Officers; Salary Talk Is Postponed for Later Meeting.

E. L. Vogeltanz, E. S. Murray and E. R. Fafeita were appointed to serve on Ord's first board of public works, at the regular meeting of the city council Tuesday evening. Vogeltanz will serve for three years, Murray for two and Fafeita one year.

The new public works board will hold its organizational meeting in a few days. The first official duties will be the hiring or appointing of employees in the Ord light and water plant.

## Veterans' Groups to Finance Lights at Local Ball Park

Will Contribute As Much As \$5,000 If Baseball Fans Can Raise Five More by May 15.

Ord's war veterans agreed Friday night to finance the construction and installation of lights and new bleachers at the Ord baseball diamond to the tune of \$5000 if baseball fans in the city will contribute another \$5000 to the cause by May 15.

The decision was taken at a joint meeting of the Veterans of Foreign Wars and the American Legion called to discuss the light financing proposition. About 70 attended.

Under the proposal veterans made to a baseball committee composed of Jim Gilbert, Walter Douthitt and Harold Christensen, the veterans will appoint a committee of five to personally investigate light installation in other towns, and contact electrical wholesale houses for bids.

If prices are satisfactory, the vets propose to have their committee work in conjunction with the baseball committee in supervising installation. When work is complete, the veteran committee will take over the financial management of the ball field until their lease-loan of \$5000 and other donors are repaid.

The vets decided unanimously that their loan would not have priority over other loans in repayment out of ball club profits, if any.

The baseball fund raising committee reported to the vets that up to Friday they had received cash pledges of \$2300 on a stock selling scheme. The vets decided that the committee would have to inform all stock purchasers that their individual pledges would have to be regarded as a "lend-lease" loan which might or might not be paid back, before proceeding with the solicitation of further funds.

### 6 Ord Students Compete for \$600 Quiz Scholarship

(Continued from front page) shall be allowed the contestant on the basis of his four year high school scholastic record. News Writing (20%) — All contestants shall write a news story based on facts presented to them, and the story shall be judged by the University of Nebraska school of Journalism. Intangible (40%) — A maximum of 40% shall be allowed the contestant on the basis of his general character, personality, participation during high school in extra-curricular activities, aptitude for and interest in journalism and any other factors the committee feels important enough to be included.

Committee to Choose. As soon as the news stories written Tuesday are returned by Dr. Swindler the scholarship committee will make the final selection and announce the winner along with other Ord high scholarship winners at the annual honors convocation. This committee is composed of a representative of Ord high school, a representative of the Ord Quiz, and the county superintendent.

Early in the school year the Leggett family deposited with Ralph Norman, school board secretary, the sum of \$600 to pay tuition through a standard 4-year journalism course for the 1949 scholarship winner. It is planned to continue the scholarship award each year for at least four years, depositing \$600 in the fall of each year to pay tuition costs for the next scholarship award.

The 1949 scholarship winner, to comply with terms of the award, must register at University of Nebraska college of journalism with the fall semester and proceed continuously until four years are completed, during which period his scholarship record must at all times be equal to the average grades of journalism registrants of the same year in the college. If the person to whom the scholarship is awarded should not register next semester, the award will automatically go to an alternate selected by the committee. After a person starts to use the award, he or she shall be the only one in that class who shall be eligible for it.

#### VISIT BY PLANE.

Mr. and Mrs. Vernon Nay and Mr. and Mrs. Ray Falter left by four-passenger plane for Plainview early Sunday. They made a forced landing at the Artie Hoffman home near Plainview, visited there and helped Mrs. Hoffman celebrate her birthday. Mrs. Falter and Mrs. Hoffman are sisters. They found the air a little rough on the return trip, but landed here without difficulty.

### Decennial Census of Business Will Be Taken in 1949

Taken As Preliminary to General Census to Come in Year of 1950.

This spring the census bureau will take a nationwide business census. For several decades this census has been taken a year in advance of, and preliminary to the regular census which has been taken in a more or less complete manner ever since the nation was founded.

This will be the first business census taken since 1939, and will reflect the many changes in business that have occurred in that time. It is estimated that about three million retail, wholesale and service trade establishments in the United States will be enumerated. Valley, Greeley, Wheeler, Garfield, Loup, Custer, Sherman and Howard counties are included in a group of 22 counties of the North Platte district, with Edward P. Murphy as district field supervisor. He has a staff of eight assistants, and business men of the area will be contacted in the near future.

The first United States census was taken at a time when travel facilities were primitive and so many times was consumed in traveling that very little information was obtained. In fact, the principal object at that time was to find out how many people lived in the United States as of a given date. The enumerators in 1950, will ask a great many questions and gather much valuable information.

### Favorite Clerk Contest Is on Until Saturday

Votes Can Be Left at Any Store or Mailed to Chamber Secretary.

Through a slight misunderstanding the impression was given out last week that the contest for Ord's favorite sales person was to end with Pan Cake Day. While the two ran concurrently, they did not end together, and the committee has set Saturday as the last day on which you can vote. If you have not voted already, hunt up your Quiz, clip the coupon and leave it at any store or mail to the secretary of the Chamber of Commerce. The contest will end Saturday night, as has been stated, and the Chamber of Commerce will make the award.

### Ord Golf Players Held Annual Meet Monday at 8 P. M.

Alfred Hill President, Vern Malolepszy Sec'y. Prospects Good for '49.

The members of the Ord Golf club met for their annual session at the American Legion hall at 8 p. m. Tuesday evening. There was a good attendance, considering other attractions.

Alfred L. Hill was elected president for 1949 and Vern Malolepszy was chosen secretary-treasurer. The new members of the board are Hilding Pearson, C. C. Thompson and Joe Jirak. Plans were discussed to hold picnics on Friday evenings, as was done during the past year. A special rate was voted for out-of-town golfers, who are invited to join the club.

Some improvements are planned for the grounds this year, and a fine season is predicted, as the grounds are in excellent condition. The ladies are especially invited to join, and there are a number of younger players coming on. A tournament or two are planned for later in the season.

### Covered Wagon to Airplane Is Woman's Record

Mrs. Mary Klima Came West in Pioneer Style, Takes Plane to Return.

Mrs. Mary Klima, widow of Ign. Klima, sr., and mother of Ign. Klima, jr. former Valley county clerk, left Omaha Tuesday in an epochal flight by plane to Florida, where she plans to visit two daughters.

While in Omaha Mrs. Klima was visiting at the home of a daughter, Mrs. Mattie Zikmund, also well known in Ord. The flight is unique for the reason that Mrs. Klima, as a girl of 5 years, came to Valley county in the covered wagon of her parents, Mr. and Mrs. Thomas Vodehnal in 1877. She came here in pioneer days, went through the joys and sorrows of pioneer life, lived to see the entire country covered with homes. She lived to see modern inventions take the place of the implements of the early days.

She lived to see the automobile take the place of the covered wagon. She saw the birth of the airplane, and in time saw it become a practical means of transportation. Yesterday she showed her pioneer spirit by using the modern means of transportation.

### Will Discuss Concert Series

A meeting of representatives of Ord civic organizations with a representative of the William Rozan Municipal Concert company will be held at the Ord high school auditorium at 7:30 p. m. next Tuesday evening, object being to decide whether or not to offer a series of concerts by famous artists in Ord this summer. Anyone interested in music or in public entertainment is invited to attend. The Rozan company offers a service similar to the old lyceum bureau and chautauqua lyceum bureau and chautauqua circuits.

### Bratt Here, Meets with Scouts, Cubs

Wendell Bratt, district Commissioner Council executive in charge of Boy Scout and Cub activities in this area was in Ord yesterday. He met with Dave Watson, scoutmaster, and Hilding Pearson, cubmaster, and in the evening attended a meeting of the Boy Scout troop in the scout house at the athletic field. Renewal of the charters of both groups was taken up with troop and pack committee members and the new charters will come through at once, Mr. Bratt promised.

### AAA Committees Busy Securing Crop Histories

The community committees are called in Thursday evening at 8 p. m. for instructions on securing past history on the farms—1915—1946—1947—1948 farm to farm contact. Mr. O'Brien, farmer-fieldman, will deliver instructions. John Skala, Paul Owens and Alma Jorgensen were in Grand Island Monday for instructions on delivery of wheat, oats, barley and rye, which are due the last of the month. Farmers have the choice of paying off the loan or delivering grain and obtaining support price. Instructions will be sent to farmers as to when and where to deliver grain, and they are asked not to deliver any grain until notified.

DISTRICT CONFERENCE. Rev. and Mrs. L. V. Hassell, Mrs. Leo Long, Mrs. Roxie Stevens, Mrs. Elmer Zlomke and Mrs. John Haskell attended the annual district conference of the Hastings district of the Methodist church on Wednesday at Geneva, Neb. This meeting is held in conjunction with the annual meeting of the Woman's Society of Christian Service of the district. There are 60 churches in the district and each church will send delegations to the meeting.

He was sent to the hospital for more health tests and treatment. His address is A. L. Chatfield, SR 318 - 27 - 21, Co. 49-97, U. S. Naval Training Center, San Diego, 33, Calif. He can't have callers, so would appreciate letters.

Mrs. Wilson Chatfield and sons, Lonnie and Randy and Miss Shirlee Stout drove to Ord from Belleville, Kans. Saturday evening

### Homemaking Girls Present Styles

The first of a series of three style shows was presented by the Homemaking girls Monday evening at the high school auditorium. Dorothy Urban gave the introduction then dressy cottons and school blouses and skirts were modeled by freshman and sophomore girls. The boys' quartet, Paul Stoddard, James Misko, Charles Munn and Dick Tolen, sang two numbers.

Date skirts and blouses were modeled, then the girls with home experiences modeled their dresses. Next on the program was a cornet solo by James Misko. Skirts and blouses with accessories were styled next. Some of the blouses had attractive buttons, bows and embroidery on them. Gladys Rice and Dorothy Blaha modeled aprons that they made. Spring school dresses were then shown.

Pat Ball gave a reading entitled "Goodbye Sister." Spring dresses with accessories were modeled next. The girls wore hats or gloves or carried a purse that made their outfits even more attractive. Ruth Ollis played a piano solo. Then advanced home experiences were styled by Ellen Jean Poth and Betty Anderson. Ellen Jean wore a blue formal and white lace gloves. Betty wore a navy blue suit. Her sister, Judy, wore a navy blue coat that Betty made for her.

Pianist were Charlene Severns and Mariene Norman. Ushers were Lois Ackles, Darlene Kokes, Vivian Zulkoski, and Carol Kwiatkowski. Script writers were Ellen J. Poth, Joyce Huebner, Maxine Masin, Lorraine Sieh and Lillian Penas. Girls helping back stage were Rose Marie Sevensker, Lorene Patska, Darlene Kokes, DeLora Nelson, Helen Tuma, Barbara Philbrick and Pat Brown. Dick Tolen was the commentator and Miss Grace Heston the instructor.

The second style show was Wednesday morning at the high school. The third one will be Thursday night at the Ord theatre between the shows.

### School Age Limit Raised by Solons

The Nebraska unicameral recently raised the age limit for children entering the public schools. The new law, LB 381, requires that a child must be six years old by Oct. 15 of the year he wishes to enter the first grade.

Requirements for entering kindergarten are one year less, unless the child can pass tests approved by the state superintendent. It is believed that children starting in younger than this do not retain what they are taught as readily as those somewhat older.

### Guests Hear Kemp at Father and Son North Loup Dinner

Event Held in Seventh Day Baptist Church Is Voted Great Success.

J. H. Kemp of Fullerton was guest speaker at the Father-Son banquet held Tuesday night at the Seventh Day Baptist church, which eighty men and boys attended. Speaking on his tour of Europe with the W.O.W. touring farmers, he told of his trip from the time he left Omaha, till he arrived back in New York City. He stresses the fact that European countries are socialized and government managed and that citizens of United States must see to it that our country does not

become the same way. He urged more father-son gatherings, and a closer relationship between parents and children to help curb the rising tide of juvenile delinquency. Rev. Ehret acted as master of ceremonies and Richard Babcock sang two numbers, "America the Beautiful" and "The Hills of Home," accompanied by Barbara Hudson. The Mira Valley quartet accompanied by Mrs. Edwin Lenz concluded the program with two pleasing numbers.

The banquet was sponsored by the Dr. Grace Missionary society. Tables were arranged by Mrs. Carroll Swenson and Mrs. Clair Barber and were decorated with tulips and flowering crab apple bouquets. Place cards were flags of the United Nations countries.

### North Loup Squad Wins First Place at Central City

Team Makes Near Record in High Jump; Record Time in 880 Yd. Relay.

The North Loup track team turned in one of its finest performances of the season as they copped a fourteen team Central City meet Friday. Competition was keen as many of the performances exceeded those of schools competing in Class A.

Three Challenger high jumpers piled up nine of a possible eleven points in that event. Leonard leaped 5' 8 1/2" for a new record in both classes. Dean Hutchins cleared 5' 7" and was followed closely by Russ Kerr who tied for third. Leonard also placed second in the pole vault as he cleared 10' 2" for the first time. Kerr placed third in the shot and Carrol Mulligan fourth in the broad jump.

Gordon Stillman turned in a fine performance of 55.7 seconds in the 410 as he won the event. Manchester picked up two second places in the 100 and 220, while Meyers copped a third in the 220. Manchester had a 10.6 second preliminary heat of the 100.

Although given a second place in the relay, the team of Mulligan, Meyers, Stillman and Manchester, lead one of the fastest times in the schools history. The time of 1:30 was also a new meet record. Both Wood River and North Loup were clocked in identical times.

A total of six trophies and a host of ribbons have been picked up thus far by North Loup athletes in basketball and track.

Nolo club met Tuesday afternoon at the home of Mrs. Fern Maxson. Mrs. Mabel McClellan had an interesting lesson on precious gems. Roll call was a menory gem.

Sunday morning breakfast guests of the Alex Brown family were Mr. and Mrs. Wm. Helleberg and Dick, Mrs. Ruby Gonge and Mrs. Ralph Olsen, all from Aurora. They went on to Ord for the day. Clarks I.G.A. store has been newly papered and painted the past week. Les Stine and Ronald Cress did the work.

**John Schuyler, Once of Elyria, Taken by Death**

Leaves Eleven Children, One of Whom, Mrs. W. D. Neumeyer, Lives in Ord.

Word was received here Monday of the death Sunday evening at Grand Island of John Schuyler, at one time a resident of the Burwell area. He was born at Burwell, Nov. 21, 1891, a son of Mr. and Mrs. Frank Schuyler, both of whom survive him.

He had been in ill health several years and seriously ill for the past year. He attended the Burwell schools in his youth, and was married there to Elizabeth Gray, March 11, 1914. They spent their first two years in Burwell, where he was employed as a mail carrier.

He then took up work with the Burlington as foreman of maintenance at Burwell, at Elyria and at Wolbach. While living 13 years at Elyria Mrs. Schuyler was postmaster for a number of years. They moved to Grand Island 6 years ago, and Mr. Schuyler was employed in the ordinance plant when his health permitted.

He is survived by his wife; seven sons, Norman, LaVerno, Adrian, Aden, Keith and Robert, all of Grand Island; four daughters, Mrs. W. D. Neumeyer of Ord, Mrs. Joe Blatney of Los Angeles, Calif., Mrs. Raymond Eden of Powell, Wyo., and Miss Ella Mae Schuyler of Grand Island.

Others are his parents, Mr. and Mrs. Frank Schuyler of Burwell; one brother, Dean of Vancouver, Wash.; two sisters, Mrs. Ralph Johnson of Burwell and Mrs. Boyd McKenzie of Gering, and 18 grandchildren. Two infant brothers preceded him in death.

Arrangements for the funeral were awaiting word from relatives from a distance, but plans called for obsequies in Burwell. Due to the lack of intertown telephone service the Quiz was unable to learn, Wednesday morning when the funeral will be held.

**Fishing Season Open for Every Kind Permitted**

Regulations for 1949 Liberal; Open Season for Most Unlimited.

Fishing regulations for 1949 are about as liberal as they could be made and still protect the fish. On all game fish in the state with the exception of trout, there is no closed season at any time. On trout the season is open from April 1 to November 1.

For trout there is no size limit, and the bag limit is 20 pounds plus one trout, but not more than ten trout. For black bass the length is ten inches, the bag limit is ten for both large and small mouth bass. For white bass there is no size limit, but a bag limit of five.

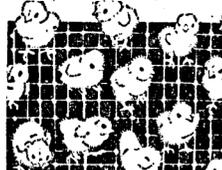

For crappie, sunfish or rock bass there is no size limit and the daily bag limit is 15. This year there is no size limit on bullheads, and the daily bag limit is 15 except in Cherry, Brown and Rock counties, where the bag limit is 25.

For catfish the size limit is 12 inches and the daily bag limit is ten. For perch there is no limit on size or bag. Pike must be 12 inches in length, and the bag limit is 5. The fresh water drum has no size limit and the daily bag limit is ten.

The possession limit in all cases is the same as the bag limit, and the bag and possession limit refers to all species of the same kind of fish. Those fishing away from home should secure a copy of regulations on fish from the county clerk's office before starting out, as certain areas have restrictions as to fishing.

**ATTEND CONVENTION.**  
Ed Swopes and E. R. Apking of Ord, were delegates of the local club to the state Cosmopolitan convention in Holdrege Saturday and Sunday. The two flew to Holdrege Saturday afternoon, returning Sunday afternoon.

**Spring Appetites Mean Meat Is Needed**

Now that spring is here, and everyone can get outdoors to work in the fresh air, appetites go up in proportion.

If you'll plan your spring menus around good quality meats, with plenty of the good, fresh spring vegetables as they come on the market, you're sure of the kind of meals that mean health.

Make sure that you get the best meat — quality meat costs no more than ordinary meat — and quality meat is the only kind sold at the little market on the north side of the square.

Mortenson, Raymond Cronk and Harold Christensen all of the Nebraska State Bank.

## Joseph Klimek, Elyria Farmer, Taken by Death

Spent Entire Life in Valley County; Leaves Many Relatives Here.

Joe Klimek, son of Inez and Albert Klimek, was born Feb. 8, 1904, on a farm near Bolez and passed away Sunday morning at his home at Elyria. He had been bedfast for many years, a sufferer from paralysis.

He was united in marriage to Stella Bogus, May 10, 1925, at St. Mary's church at Elyria. Five children were born to this union: Sgt. Marion Klimek, stationed at Lowery Field, Denver, Colo.; Elfrida, Omaha, and Harry, Daniel and Delores, at home.

Besides his children he is survived by his mother, Inez Klimek, three brothers, John, Charlie and Frank, and four sisters, Rose and Maggie Kuffel and Ann Maria and Katherine Klimek. His father preceded him in death.

Mr. Klimek had farmed all his life with the exception of the past seven years when he had been prevented further farm work. He was a member of St. Mary's church of Elyria, where services were held at 9 a. m. Tuesday followed by burial in the Catholic cemetery.

He was said at the Hastings-Pearson chapel Monday evening at 7:30. The pall bearers were Al Radke, Steve Wentek, Joe Walahowski, Anton Baran, Joe Michalski and Bill Barnes. Hastings-Pearson had charge of the arrangements.

## LEGISLATIVE NEWS LITER

**HUGH CARSON, 29th District**  
The highway patrol is being carefully studied by the Legislature as this is written. Opinion seems to be divided as to whether the department should be under the direction of one man or under a commission of several.

Under the one man proposal there would be a director appointed by the Governor and this man would be over the State Engineer. He would have the full management of the business end of the department, the State Engineer free to spend all of his time in the planning and construction of roads. Under the commission plan there would be seven men appointed by the Governor, they being selected from all parts of the State and would decide all road and highway policy. This plan would also leave the State Engineer free to devote all of his time to planning and construction.

Under either plan the department of roads would be separated from the department of irrigation, making each a separate department in its own right. The separation of roads and irrigation is an important move I think because there certainly is no connection between roads and irrigation. Nebraska's irrigation has become a major factor in the State's economy and because of its rapid growth is deserving of its own separate department and director.

## J. A. Bodyfield Golden Wedding Anniversary

The children of Mr. and Mrs. J. A. Bodyfield held open house at the family home from 2 p. m. until 5 p. m. and in the evening from 8 p. m. until midnight on Easter Sunday in honor of their parents' golden wedding anniversary.

A luncheon was given at eleven o'clock for the immediate family and out-of-town relatives. Still and moving pictures were taken by H. M. Diers of Omaha, brother-in-law of Mrs. Bodyfield, and by Ed Swopes of the Swopes Studio. Floral arrangements consisted of red roses, calla lilies, camellias, yellow carnations and hydrangeas. Mrs. J. L. Rasmussen, sister of Mrs. Bodyfield, sent the roses, lilies and camellias from her garden in Hollywood, Calif. The hydrangeas were gifts from her brother and wife of Hastings, Nebr., and sister and husband of Denver, Colo.

Table decorations carried out the golden theme. A wedding cake decorated with yellow and white roses, flanked by yellow carnations and white tapers served as a centerpiece. White napkins carrying the names Alice and Jim and dates 1899-1949 in gold print and an individual white cake with a "50" completed the decorations.

Mrs. H. F. Bodyfield, Mrs. M. A. Bodyfield and Mrs. J. A. Wilson served. Mrs. E. O. Otis, Mrs. H. M. Diers, Mrs. L. E. Bodyfield and Mrs. F. E. Peterson assisted. Refreshments were served in the charge of Barbara Bodyfield, Joan Diers, Beth Wilson and Mrs. Don Wilson. Mrs. Bodyfield wore a navy blue silk dress complemented with an orchid corsage.

Mr. and Mrs. Bodyfield were married April 12, 1899 at the family home in Cedar Rapids, Neb. They have a family of three children, one daughter and two sons, and four grandchildren. They immediately moved to the site of their present home in the Dry Cedar valley.

Through the past 50 years many changes have come. A four-room sod house gave way to a large frame residence. The Dry Cedar valley, excluding the Ainsworth grove, from a vast, treeless plain to one of many trees. One unchanged and is the well, which is still being used.

One hundred and eleven signed the guest book. The neighbors of the community came as a group in the evening, and they presented Mr. and Mrs. Bodyfield with a beautiful wood blanket.

Out of the area guests included Mr. and Mrs. A. C. Duncan, Mrs. and Mrs. C. L. Peterson, Mrs. Nancy Peterson, Mrs. C. W. Bartholomew, all of Burwell, Mr. and Mrs. Dave Philbrick, Della and Bill, Mrs. Mary Banister, Wm. D. ## Breaks Ord Meet Shotgun, Discus Records

Witter, husky expert from St. Joseph's school at Atkinson, set two new records in the Ord meet Wednesday, shattering the discus and shot records. — Swopes photo.

## Kearney Winner Ord Invitational Meet Wednesday

Witter of Atkinson Breaks Two Records in Weight Contests.

Nineteen schools from all over Central Nebraska sent contingents to the Ord Invitational track and field meet held at Ord Athletic park Wednesday. The day was cool, quiet and cloudy, which probably accounts for the fact that four meet records were broken and one tied by the husky athletes in a program that delighted the large crowd of spectators.

Two of the four records were accredited to George Witter of St. Joseph's of Atkinson, one of the best weight men to be seen in action at Ord for a long, long time. He pushed out the 12 pound shot 53 feet, 7 1/2 inches to beat the old record, set by Gene Turner of Elm Creek last year by a full 4 1/2 feet.

Shortly afterward he got off a perfect toss with the discus that sailed through the air 152 feet, 10 inches in 1936 for a state record that still holds. Debus of Lincoln set the discus record in 1940 at 163 feet, 2 1/4 inches. With a little more improvement, Witter might break both these records.

The four records in these events are as follows: Bill Pfeiff of Lincoln put the shot 52 feet 2 inches in 1936 for a state record that still holds. Debus of Lincoln set the discus record in 1940 at 163 feet, 2 1/4 inches. With a little more improvement, Witter might break both these records.

While Witter was the outstanding athlete, he had to share honors with Edwin Umphreys of Central City, who also won ten points by winning the 100 yard dash and the 220 yard dash, and with Bob Anthens of Atkinson, who topped the meet with 12 points with firsts in 200 yard low hurdles and the broad jump and a fourth place in the 100 yard dash.

Anthens broad jump of 21 1/2 feet beat Irving Thode's mark of 20 feet, 8 1/2 inches made here last year. By running the 880 yard relay in 1:38.1, the Kearney relay team clipped two tenths of a second off the old mark made by Central City in 1947. Ainsworth won the relay, but was disqualified for interfering with Central City.

How They Finished

Kearney	41 1/5
Ainsworth	33
Central City	22 1/2
Broken Bow	16 1/5
Burwell	15 1/2
St. Joseph's, Atkinson	10 1/2
Merna	10 1/10
Sargent	9 1/2
Dunning	8
North Loup	7 10/10
Ravenna	5 1/5
Scotia	5
Comstock	3
Ord	1 1/2
Arcadia	1

Ansley, St. Paul, Elm Creek and Gibbon failed to score.

## Entries Coming in for Quiz's Annual Fishing Contest

Sunday Apparently Was Opening Day; Fish Were Biting All Day Long.

Well, folks, we're off! The first fishermen have entered their catches in the Quiz fishing contest, and from here on it will be the best man, or woman, wins and no holds barred, so long as the contest rules are complied with.

In a way, it seems too bad that no prize is offered for carp, as a lot of fine fish, for carp, were taken during the past week. However, this is a contest for game fish and many people do not consider the carp as a real fish at all.

The fellows with big scales can give you a run for your money. For example, Don Ward of North Loup tied into one which still weighed 6 1/2 pounds after he had maneuvered him around for half an hour or so, but he finally landed him without damage to his tackle.

About the same time Don's parental relatives were busy pulling in smaller carp, which they kept doing until the catch taxed the capacity of the family wash-tub. While such fish are not eligible for prizes they are ideal for the angler to practice with.

For some time now John Manchester has been bringing in black suckers, which seem to be abundant in the river this year. He has been getting some extra large ones. These fish taste fine, and John has had no trouble in getting rid of all he doesn't need for himself.

Ed Swopes came in Tuesday and told of an Ord angler who caught a 2 1/2 pound catfish. The weather must be conducive to growth this spring, by evening the fish had grown until he weighed 11 pounds. When he heard of it, Ed could hardly believe that it could be the same fish.

Nor must we discount the effort of the younger generation who managed to put in more hours fishing than most of their elders. With all the practice they are getting, it would not be surprising to see some, if not all, the Quiz prizes go to junior anglers.

The Quiz does not agree with some of the reports put out last winter about so many of the fish being smothered beneath the ice. They seem to be about as plentiful now as they ever are in the spring, and the prospects for a summer of sport are encouraging.

So go to it. Have all the fun you can, every time you can. Catch all the fish you can, up to your legal limit, and don't forget to tell the Quiz about it. We need material for our weekly fish story, and, if you don't happen to get a big one, tell us about it anyway. We'll tell the world!

### PRACTICE FRIDAY.

Manager Bill Heuck of the American Legion Juniors and midlets is announcing that the first practice will be held at Ord Athletic field Friday evening. Boys who desire to play are urged to be there, or to contact Manager Heuck.

## Burwell Livestock Market Friday, April 29th

Our consignment of cattle for this week will run extra large for this time of the season and will have some Hereford stock cows with calves at side, several loads of steer and heifer calves, one load of 2 yr. old steers, one load of corn fed steers, several head of Hereford breeding bulls, several loads of feeding cows and heifers, some light weight steers, some baby calves and regular run of trucked in cattle.

EXTRA SPECIAL: Floyd Rowse is selling his entire herd of milch cows through us this Friday consisting of 10 head of outstanding milch cows, 4 Holsteins, 2 milking Shorthorns, 2 roans, 1 black and 1 Jersey.

Will have another large run of fat hogs and sows. Several consignments of feeder shoats including some extra choice white shoats from the Kruml herd. Also several pens of bred sows and gilts.

15 to 20 head of work horses and killers.

Some farm machinery, several cars.

Plan to be at Burwell this Friday.

## Has First Place to Date in Women's Division

Rose Suchanek of Ord is mighty proud of this 6 lb. catfish which gives her first place to date in the women's division of the Quiz fishing contest, and third place in the open-to-all classification. — Swopes photo.

## Schedule of Loup Valleys League Is Given to Public

Calls for Three Months of Baseball in Coming Spring and Summer.

The 1949 schedule of games to be played in the Loup Valleys League has been announced. Manager Walt Douthitt of the Ord team received his share of the bills Tuesday morning, and they are being posted around town.

The first game will be played Sunday, May 8, and the final game Sunday, Aug. 7. Part of the games will be played under the lights, and those at Ord will be as soon as the rest of the money is raised and the lights can be installed.

At a meeting Friday between the two Veterans organizations

and members of the ball club management, it was decided to loan the club the sum of \$5,000 to apply on the lights, bleachers and work on the grounds.

As this amount is not sufficient to handle all the expense, the club is planning to use the funds by subscription, and the lights will be ordered and the bleachers built as soon as possible.

It is certain that night games and bleachers will mean a larger turnout to the games, and the club is planning to use the funds to retire the indebtedness as soon as possible. Eventually the improvements will have paid for themselves, it is believed.

The schedule: Sunday May 8: Loup City at Miller, Broken Bow at Ord, Comstock at Ansley, Mason City at Arcadia. Sunday, May 15: Ansley at Loup City, Ord at Mason City, Miller at Comstock, Arcadia at Broken Bow. Sunday, May 22: Loup City at Ord, Mason City at Miller, Comstock at Arcadia, Broken Bow at Ansley.

Sunday, May 29: Arcadia at Loup City, Ord at Comstock, Ansley at Mason City, Miller at

Broken Bow. Sunday, June 5: Miller at Ord, Arcadia at Ansley, Mason City at Comstock, Loup City at Broken Bow. Sunday, June 12: Comstock at Loup City, Ard at Arcadia, Broken Bow at Mason City, Ansley at Miller.

Sunday, June 19: Ord at Ansley, Miller at Arcadia, Loup City at Mason City, Comstock at Broken Bow. Sunday, June 26: Ord at Broken Bow, Ansley at Comstock, Arcadia at Mason City, Miller at Loup City. Sunday, July 3: Comstock at Miller, Mason City at Ord, Loup City at Ansley, Broken Bow at Arcadia.

Sunday, July 10: Ord at Loup City, Arcadia at Comstock, Miller at Mason City, Ansley at Broken Bow. Sunday, July 17: Loup City at Arcadia, Mason City at Ansley, Comstock at Ord, Broken Bow at Miller, Sunday, July 24, Ansley at Arcadia, Ord at Miller, Broken Bow at Loup City, Comstock at Mason City.

Sunday, July 31, Loup City at Comstock, Arcadia at Ord, Miller at Ansley, Mason City at Broken Bow. Sunday, Aug. 7: Arcadia at Miller, Ansley at Ord, Mason City at Loup City, Broken Bow at Comstock. Games marked with an asterisk are to be played at night. Manager Douthitt plans also to have an extra non-league game each week as soon as arrangements can be made for them. There will be a league playoff of the top four teams at the close of the regular season.

## Floating, Seeding Show Monday

At 10 a. m. next Monday, May 2 at the Ord airport, the Soil Conservation Service will give a demonstration that should be of interest to many farmers, according to Leslie Nash, director. Land floating, alfalfa seeding and bordering a field for irrigation will be the subject of the demonstration. All farmers are invited to attend.

### Seeds

Alfalfa and Sweet Clover seed, Crested and Bone Grass, Blue Gramina, Timothy, Red Clover and Alsike. We have about anything you need for making a permanent pasture mixture. In alfalfa we have Grim, Cossack and Dakota 12. In sweet clover we have Yellow Blossom and White Blossom biennial. This should be a very good year to plant grasses or legumes. Some of these varieties are getting pretty short and no doubt will be entirely sold out before too long. We feel that you should get the seed you need and you will not be disappointed when you are ready to sow. As this is written we have very small amount of Clinton oats and Spartan barley seed.

### Garden Seed

Our garden seeds are fresh and of high germination. We buy only the very best quality garden seed that we can get. We find that often much better stands are obtained from planting bulk garden seed rather than from the use of package seed. Just try our bulk garden seed this year and you will be well pleased. We also have onion sets and vegetable plants; hot caps and fertilizer.

### Grains

We are in the market for your good dry corn and wheat. If you have some to sell let us make you an offer. We can furnish trucks if you need them. As this is written the grain markets have been quite a bit easier for the past few days. The recent reports show a very large amount of grain in storage both in the terminals and on the farms. If you have grain to sell come in and see us.

### Baby Chicks

Hy-Lines are available on very short notice but it takes several days to get standard breeds. A large number of started Hy-Lines are available. We will be glad to quote you prices and get whatever you need just as quickly as possible.

### Nursery Stock

We have on hand, Chinese Elm, American Elm, Mulberry and Russian Olive Seedlings. Also some apple trees and cherry trees. Spruce in limited quantities.

### Ammonium Nitrate

We have just received word that our first car of Nitrate will be here sometime in May. Those of you that have this ordered and want us to truck it out let us know soon and it will be delivered to your farm right off the car. We are taking orders now for fall delivery on Nitrate. This fertilizer seems more scarce than ever and you should place your orders now for fall delivery. Also booking Superphosphate for fall delivery.

"It pays to buy from Noll."

## Ord Livestock Market Saturday, April 30

I thought our market last week was a dollar lower, and in some spots more. There was a good demand but everyone wanted to buy their stock cheaper. Looks like the offering this week will consist of:

- CATTLE**
- 90 head of calves
  - 110 head of mixed yearlings
  - 35 head of heavy springers, both heifers and cows
  - 22 head of cutter cows
  - 6 extra good milch cows, including one milking Shorthorn
  - Registered bull coming 3 years old from the Clement herd
  - Roan bull, just a year old, extra good
  - Registered Hereford bull, coming 2 years old
  - Registered Polled bull, a young one.

- HOGS**
- 165 head of weanling pigs and heavy feeder shoats
  - 4 sows with pigs by their side
  - 23 Hampshire brood sows
  - A few boars

- HORSES**
- 10 head of good work horses
  - 1 extra good saddle mare, five years old, well broke

- MISCELLANEOUS**
- 1936 Ford with 1946 motor, in good condition
  - 8 foot McCormick Deering binder
  - 1940 John Deere H tractor
  - Large line of used furniture

### Special Dairy Sale

80 head of Holstein, Guernsey and Brown Swiss calves of Wisconsin breeding, 20 head of yearling heifers and heavy springers from the same territory. Sale will be held Wednesday night, May 4, starting at 7:30 o'clock. Plan to attend if you want high quality dairy stock.

Our regular Saturday sale will start promptly at 12:30 P.M.

Government Printing

A Minnesota Congressman has introduced a bill in Congress which would stop the government in the printing business. Recently the postmaster general has asked for the right to boost postage rates to offset the deficit in which the department finds itself every fiscal year.

Congressman Harold C. Hagen, who introduced the bill, thinks the way to get the Post Office depart-

ment on a paying basis is to cut out unnecessary expense and leave postage as it is. To prove his point he refers to the record, which shows some of the ruinous prices at which the government is doing printing.

At the present time the government is furnishing the printing on 1,000 envelopes for 44c, which is about one fifth what the average print shop can do the work for, and probably one tenth what it costs the government to do the work. As the result of these practices, the post office department is facing a loss of \$26,000,000.

At the present time the government is putting out one-cent postal cards at one cent, besides delivering them to their destination. The cards cost the government about two cents to make. If the government would go out of the printing business, it is estimated that these two items alone would save half of the total deficit.

The post office department will sell you 500 No. 8 envelopes with your name on the return in the corner and a three cent stamp printed on them for \$17.85. This means the printing and envelopes cost you \$2.59. The average printing shop price for materials and work would be at least \$8.25 not, of course including the stamp.

Congressman Hagen's point is well taken. The government should get out of the printing business. The people who pay the taxes are paying the deficit in the post office department. If it were not for the support of the tax-paying public the government would have been out of the printing game a long time ago.

## ++ Something Different ++

Do you ever get hungry for rhubarb when it is not the rhubarb season? Yes, I do, I don't understand it but there is some sort of craving there. This past year I was caught short, no rhubarb in the basement, and so far as I know it is never commercially canned (Looking for a business to go into? Can rhubarb).

So this morning I packed three quarts, a small backlog, but it will do. Next winter when I crave rhubarb I will have rhubarb.

To pack it is about the easiest thing in the world.

I remember how amazed I was to find that it could be packed in cold water, sealed up, and that it would then keep beautifully! No cooking, no hot syrup.

And I remember how Mr. H. D. Leggett informed me that his mother did it just that way when he was a small boy.

They do say there is nothing new under the sun.

It does seem to me the girls who are studying sewing and cooking are enjoying it to the hilt this year. They have made some hand-made garments and learned to cook so much more than cake-fudge and creamed-tunafish taught when I was young.

The cooking isn't just ornamental and useless, it is practical. The sewing isn't merely making samples of darning stitches, nor is it cutting into large quantities of expensive material to make some loose, ill-fitting affair. It too is practical... blouses, skirts, things the girls love to wear when they are finished.

Al Mission seems to have the ability to make her young students truly enthusiastic about the fields of housework they are exploring.

So often homemaking and everything connected with it is touted as the ultimate in monotony, drudgery.

It is time some allure was added... in some other manner than buying a dishwashing machine! Or sterling silver!

Old Man Wind, Nature's pruning knife, is hacking away toilsomely today (Monday).

Forrest Johnson writes to his mother interestingly about the recent shake-up in Seattle: "Yes, we all came through the quake with no damage except we had our nerves shook up a bit, this is the first one we have felt and the old timers say it was worst one that Seattle has ever had."

"Well, it took place just about noon, Luella and I were eating lunch in the cafe just two doors

from the place where she works. We had just finished eating a sandwich and had ordered some pie. All at once our seats began to jump up and down and nobody said a word.

"Then someone said it's a quake, well we just sat there and didn't move, it seemed to get worse so I said 'Let's get out of here,' which we did but found out later that we should have stayed inside near the door as they say a building will always fall out towards the sidewalk if it crumbles.

"Luella went in the store to telephone about the rest of the family but the phones were out so she then walked up to the office where Helen Hardenbrook works and found they were all safe. Helen had just gone to work and Daryl had come down with her and was walking towards home. He was in front of the school house when the quake hit and could see the bricks falling from the top of the building so he really knew something was happening, said he grabbed on to a telephone pole and it also was jumping around so he let go of it right away as he thought maybe it might fall. (I'm sending you a picture of the old schoolhouse).

"I walked out to the curb and looked and waited to see what was going to happen. A car in front of me was rocking back and forth side-ways like a cradle. The wires were swung up and down on the poles and the traffic light was swinging like a pendulum. Windows shook so hard I don't see how they kept from breaking more than they did.

"After it was all over believe it or not we went back in the cafe and ate our pie that we had ordered.

"Norene was at home in the apartment house and of course the women and kids were scared to death. There are about 25 families living there. Jim was out at Boeing's and he said the water tank shook so much it spilled water out and kept rocking ten minutes after the quake was over.

"Daryl and I drove down to our house to see if there was any damage and all we found was a screen in front of the fire place had moved around, Joan and Charlene's (Blessing) picture on the mantle had tipped over (so you can tell them they were in the quake), the card table had fallen over and out in the kitchen cupboard doors were all open and a vase had fallen out on the floor. We didn't have a dish or anything break.

"Down in our neighborhood there were hundreds of chimneys shaken down and a few blocks up the street there were new houses being built and they were wrecked so bad that I don't know whether they are all finished or not as they are all twisted out of shape.

"The worse damage seemed to be downtown in the older part of Seattle along the water front. We have gone through this part several times on our way downtown and it is roped off in several places until they get the loose bricks hauled away.

"We haven't had nearly the rain we had last year at this time and it really has been nice, lots of flowers are coming out."

—Irma

### What's Cookin' Ward's Column.

A county is a funny thing. For example, in Valley county we have just one highway passing through the exact center of the county, and there are none within less than a mile of any one of the four corners. There is not a single mile of main highway running anywhere along the four borders of the county. Going farther, the county seat is four to five miles off the center of the county, a condition that applies to nearly all the counties of the state. In some counties the variation is only a mile or two, while others, notably Valentine in Cherry county, Falls City in Richardson county and Fremont in Dodge county, Nebraska City in Otoe county and Omaha in Douglas county, are away off to one side. The only county in the state with its county in the center is Knox county, which has its center in the center of the county. This is because the county seat was selected many years after the county was formed.

Counties are funny in many ways. For example, the standard size of a county at the time they were being laid out in Nebraska was 24 miles square. Yet we find that only 23 counties in the central and south part of the state conform to this measurement. This leaves seventy mavericks of all sizes and shapes covering the rest of the state. Cherry county is by far the largest in the state, about as large as nine regular counties, while Custer and Lincoln are as large as five, and Holt as large as four. Exact figures are not available, but it looks as though Dakota and Sappy counties were a close race for the smallest county, and they are about the size of a normal county. The average size of a county in Nebraska is 837 square miles, considerably more than the regulation 576 square miles of the average county.

### KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

When disorder of kidney function permits poisonous matter to remain in your blood, you may feel signs of backache, rheumatic pain, leg pain, dizziness and nervousness, tingling, swelling, puffiness under the eyes, and a general feeling of weakness. Sometimes there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Speaking of counties, the old 24 miles square county of the early days is outmoded. About the best sized county we know of to date is the one just southwest of Valley, Custer county. It has just enough area to furnish revenue to handle the county affairs without too heavy a drain on the individual taxpayer. The county seat is near the middle, and anybody can make a round trip to the county seat in half a day, in decent weather, that is. Fifty years ago it took a full day to make a trip to Ord and return from any one of the four corners of the county. Today we could use Grand Island as the county seat and get along just as well as we did with Ord half a century ago. Believe it or not, there have been several attempts in the past to cut Custer up into four counties.

What we need today is not more counties, but about a quarter as many as we now have. With one county as many counties there would be only one-fourth as many court houses, each with only a slight increase in cost of government over what they now cost us. Let us suppose, for the sake of argument, that the cost per court house would be doubled. Even at that we would save half on the cost of administration. One thing, and one only, stands in the way of this needed change, and that is local pride. Can you imagine Ord, for example, being willing to give up their county seat? Doubtful, even that could be saved by having fewer counties? What is true here is true of every county seat town in Nebraska. Most people are willing to agree that consolidation is the logical thing, but none are willing to make a sacrifice for the good of the greater number.

Another paragraph about counties, and I am through, maybe. Rhode Island, besides being the smallest of the states, has also the smallest average area in its counties, about 211 square miles. Nevada has the largest average to its 17 counties, 820 square miles. This means that the average county in Nevada is more than five times as large as the entire state of Rhode Island with its 1,058 square miles, and more than three times the size of Delaware, with 1,978 square miles. But size means nothing unless somebody lives there. The average county in Rhode Island has 142,669 population, while the average county population of Nevada is 6,485.

If counties of Delaware could spot the entire state of Nevada 30,000 and still beat it in population. What I am getting at, if anything, is the fact that in a great many cases, and places, the old idea of counties is outmoded, and should be changed, but never will be.

All winter long the storms covered the greater part of the state, some places heavier and some lighter, but no places missed entirely. With the coming of April

showers we find a change in technique. For example, the rain Monday evening seemed to be heaviest in the Ord area and across the river to the northeast. It was much lighter to the south and there was practically none at North Loup. This is typical of the dry weather rains. They hit here and there, and usually miss more than they hit. Some time in May or early June the usual general rains will come, and every thing all over the area will get a good soaking. In fact, the chief difference between a normal year and a dry year lies in whether we get those periodical general rains. We failed to get the usual spring rains in 1931 and we didn't get a crop.

Farmers are in the fields in earnest now, even the low places which were too wet until a few days ago. They find the ground is hard, even though it is wet. There are two reasons for this, the first being that the heavy coat of snow prevented deep freezing of the soil, which is nature's method of mellowing. The second is that everything was very wet, and the drying process has left a hard crust on top. While nothing is suffering from lack of moisture, it would be a fine thing if the whole county could have from a half inch to an inch of rain at this time to soften the soil on top.

Some hail fell with the rain at Ord Monday evening, which is a warning of what we may expect

from now on until about the first of September. Usually hail falls in small quantities several times during the year, but luckily the heavy storms are reserved for a season now and then, and are usually confined to comparatively small areas. Hail, it might be added, is most likely to fall after, or even during, a dry period. As storms in dry weather show a tendency to follow the streams, hail is more likely to fall in the irrigated areas. Let us hope we had enough hail last year to do us for a long time.

## IT'S THE "EXTRA" IN THE OIL THAT GIVES YOU EXTRA PROTECTION

Ordinary motor oils alone aren't tough enough to meet the challenge of modern engines and present-day driving conditions. It takes an "extra" to provide the complete lubrication protection needed.

### THAT'S WHY D-X MOTOR OIL CONTAINS

# EXTRINOL

### Here is What EXTRINOL Does

Extrinol is the name of the complex chemicals which now are added to D-X Motor Oil. Extrinol makes D-X—long famous as a top quality, high heat-resisting, paraffin base motor oil—safer, tougher, longer lasting more economical to use.

Extrinol helps clean your motor and helps keep it clean, so it can deliver more power.

Extrinol protects your bearings against rusting, pitting and wear. It fights oil-eating sludge. D-X Motor Oil, now with Extrinol, gives you better lubrication and extra protection—at no extra cost!

### School Activities

A great deal of activity seem to mark the final days of school in North Loup, both in the grades and the high school. Mrs. Hill's first and second graders have made a miniature Holland, complete with dikes, canals, windmills, and tulips and now they are working on "Judy's Hat Shop," where they have some of the latest fashions in spring bonnets perched on clever painted heads. Miss Ingerson's room have made bird houses and are studying birds. Miss Jensen's room are working hard on eighth grade graduation, May 10.

High school students are putting out the final issue of the "Crystal" seniors are practicing their class play, "Demon in the Dark," which is to be given this Wednesday. Juniors are working on the Junior-Senior banquet which is to be May 3, and will be followed by a prom at the community hall. Track meets take a good deal of the boys time, practicing for the events.

School closes May 13, with commencement held Thursday, May 12, at the Seventh Day Baptist church. "Baccalaureate" will be on the 8th at the Methodist church.

Mr. and Mrs. LaVerne Veleba were Sunday dinner guests of Mr. and Mrs. George Bartz.

Mr. and Mrs. Theron Ochs and Carol Jean left early Monday morning for their home in Milton, Wis., after spending nearly a week with her parents, Mr. and Mrs. Glen Johnson. Saturday other guests in the Johnson home were Mr. and Mrs. Clare Clement, Mrs. Jennie Clement, Mrs. Hattie Clement, Mr. and Mrs. George Clement, Russell and Kenneth and Mrs. Hugh Clement.

Sheldon Van Horn was home from Omaha over the week end. He is working in Omaha for Harry Johnson doing air conditioning.

### Barnes-Otto

Miss Mildred Barnes, daughter of Mr. and Mrs. George Barnes of Scotia and Arthur Otto, son of Mr. and Mrs. Charles Otto of North Loup, were united in marriage at the Methodist church in Grand Island, Wednesday, April 20, at eleven o'clock. Rev. James C. Chubb officiating. Their only attendants were Mrs. Melvin Winter, sister of the bride and Leonard John, friend of the bridegroom.

The bride chose for her wedding a two piece suit of beige gabardine with white and green accessories and a white gardenia corsage. Mrs. Winter wore a grey suit, with white and green accessories and her corsage was of yellow rosebuds. The men wore dark suits, with white carnations in their buttonholes.

Mr. Otto is a graduate of the Scotia consolidated schools, and spent some time at the St. Francis hospital in Grand Island as a student nurse.

Mr. Otto received his education at North Loup and Burwell and served two years in the U. S. air corps during World War II. Since his return he has been engaged in farming with his father.

After a short wedding trip to Omaha, Mr. and Mrs. Otto returned to North Loup in time for their wedding date at North Loup community hall Thursday night, which a large group of their relatives and friends attended.

They are making their home on the bridegroom's farm a mile south of North Loup.

Four high school girls and Misses Minnie and Clara Jensen went to Lincoln Friday afternoon where the girls took part in the dramatic festival held Saturday at the State University. HOW ABOUT YOUR Insurance on your buildings? Have you got sufficient to cover your losses that may come. Policies that were written a few years ago have not near enough coverage to repair the losses. Better bring in your policies and we will look them over with you, and see what you need. We are trying to see all Farmers Mutual Policy holders we can, but owing to bad roads and sickness, we are far behind schedule. We have the agency of two of the best Hail Insurance Companies we know of. Let us tell you about them. Stop in when in town, we will appreciate it. BROWN AGENCY, 5-2tc

# THERE'S NO LIMIT ON AMERICA'S PROGRESS

Teamwork—with better machines—to produce more efficiently, will mean greater things for everyone.

Let's compare yesterday with today . . . that will give us an idea of what tomorrow can bring.

Income: Since 1910, we have built up our annual income per household from an average of less than \$2400 to about \$4000 (in dollars of the same purchasing power) yet—

Work hours since 1910 have been cut down an average of 18 per week—equivalent to two present workdays.

How did we do this? Through—

Machine power, the supply of which we have increased 4½ times since 1910. This increased machine power gave us—

Increased production, enabling us to make more than double the output of each of us for every hour we work.

So where do we go from here?

The best is yet to come

We've seen what we've done to get higher wages, shorter hours and lower costs for everybody. And we've seen how we've done it—through greater production, greater teamwork. If we continue to work together there's no limit on what we can all share together of even greater things. For—
